GENERAL EDUCATION

In addition to the University General Education Requirement, undergraduate students in Columbian College must complete a further, College-specific general education curriculum—Perspective, Analysis, Communication, or G-PAC. Together with the University General Education Requirement, G-PAC engages students in active intellectual inquiry across the liberal arts. Students achieve a set of learning outcomes that enhance their analytical skills, develop their communication competencies, and invite them to participate as responsible citizens who are attentive to issues of culture, diversity, and privilege.

Course work for the University General Education Requirement is distributed as follows:

- Writing—one course in university writing and two writing-in-the-disciplines (WID) courses;
- Humanities—one approved humanities course that involves critical thinking skills;
- Mathematics or Statistics—one course in either math or statistics;
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry; and,
- Social Sciences—two courses in the social sciences

Course work for the Columbian College general education curriculum is distributed as follows:

- Arts—one approved arts course that involves the study or creation of artwork based on an understanding or interpretation of artistic traditions or knowledge of art in a contemporary context;
- Global or Cross-Cultural Perspective—one approved course that analyzes the ways in which institutions, practices, and problems transcend national and regional boundaries;
- Humanities—one approved humanities course that involves critical thinking skills (in addition to the one course in this category required by the University General Education Requirement);
- Local or Civic Engagement—one course that develops the values, ethics, disciplines, and commitment to pursue responsible public action;
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry (in addition to the one course in this category required by the University General Education Requirement; and,
- Oral Communication—one course in oral communication.

Certain courses are approved to fulfill the requirement in more than one of these categories.

Courses taken in fulfillment of the Columbian College general education curriculum may also be counted toward majors or minors. Transfer courses taken prior to, but not after, admission to George Washington University may count toward the

University general education requirement and Columbian College general education curriculum, if those transfer courses are equivalent to GW courses that have been approved by the University and the College.

University General Education and G-PAC Courses

- Arts (p. 640)
- Global or Cross-Cultural (p.)
- Humanities (p. 643)
- Local/Civic Engagement (p.)
- Mathematics or Statistics (p. 646)
- Natural or physical laboratory sciences (p. 646)
- Oral Communication (p. 647)
- Social Sciences (p. 648)
- Writing (p. 649)

SPECIAL HONORS

In addition to the general requirements stated under University Regulations, in order to be considered for graduation with Special Honors, the student must submit an application to the department before the beginning of the senior year, take a graduate-level seminar with permission of the department, complete an independent study project in ORSC 4195 Independent Study with a grade of A– or better, and have a grade-point average of 3.5 for courses required in the major.

MINOR IN COMMUNICATION REQUIREMENTS

Required courses (12 credits):

COMM 1025	Introduction to Communication Studies
COMM 1040	Public Communication
or COMM 1041	Interpersonal Communication
COMM 2120	Small Group Communication
COMM 4150	Persuasion

Two courses (6 credits) from the following:

COMM 2000	Sophomore Colloquium
COMM 2100	Communication Theory
COMM 2140	Nonverbal Behavior

COMM 2162	Sociology of the Family
or SOC 2162	Sociology of the Family
COMM 3110	Research Methods-Communication
COMM 3170	Organizational Communication
COMM 3171	Professional Communication
COMM 3172	Health Communication
COMM 3173	Communication in a Mediated World
COMM 3174	Intercultural Communication
COMM 3176	Issues and Image Management
COMM 3180	Communication Criticism
COMM 3190	Selected Topics
COMM 4196	Independent Study
COMM 4197	Internship

MINOR IN ORGANIZATIONAL COMMUNICATION

REQUIREMENTS

Required courses (12 credits):

COMM 3170	Organizational Communication
COMM 3171	Professional Communication
ORSC 1109	Introduction to Organizational Sciences
PSYC 2144	Industrial/Organizational Psychology

Two courses (6 credits) from the following:

COMM 2120	Small Group Communication
COMM 2140	Nonverbal Behavior
COMM 3173	Communication in a Mediated World
COMM 3174	Intercultural Communication
COMM 3176	Issues and Image Management
ORSC 2046	Global Organizations
PSYC 2160	Group Dynamics

This minor is not available to communication majors.

MINOR IN ORGANIZATIONAL SCIENCES

REQUIREMENTS

Required courses (6 credits):

ORSC 1109 Introduction to Organizational Sciences

ORSC 2046 Global Organizations

Four courses (12 credits) from the following:

ORSC 2116 Leading Change

ORSC 2143 Leadership and Performance

ORSC 2123 Negotiation and Conflict Resolution

ORSC 3141 Strategy in Organizations

ORSC 3159 Extreme Decisions

ORSC 3165 Organizational Network Analysis

ORSC 3190 Special Topics

COMM 3170 Organizational Communication

COMM 3171 Professional Communication

COMM 3173 Communication in a Mediated World

PSYC 2144 Industrial/Organizational Psychology

PSYC 2160 Group Dynamics

PSYC 4193 Seminar in Industrial/Organizational Psychology

MASTER OF ARTS IN THE FIELD OF LEADERSHIP EDUCATION AND DEVELOPMENT

The Department of Organizational Sciences and Communication, part of the Columbian College of Arts and Sciences, offers an interdisciplinary program leading to the degree of Master of Arts in leadership education and development (LEAD) to a cohort of designated officers from the U.S. Naval Academy. The Department awards the degree in partnership with the Department of Human and Organizational Learning in GW's Graduate School of Education and Human Development, and with the Division of Leadership at the USNA.

Students complete a 45-credit multidisciplinary master's degree in leadership education and development in one year across three academic terms (summer, fall, and spring). These credits are delivered through 14 courses and a research

capstone. GW teaches 30 of the 45 credits and the U.S. Naval Academy teaches the remaining 15 credits.

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 62).

45 credits, including 30 credits taken at GW and 15 credits taken at the U.S. Naval Academy (USNA)

Required courses taken at GW

ORSC 6209 Management Systems

ORSC 6242 Organizational Communication and Conflict Management

ORSC 6297 Special Topics

ORSC 8261 Research Methods in Organizational Sciences

PSYC 8245 Seminar: Organizational Behavior

HOL 6701 Adult Learning

HOL 6702 Organizational Change I

HOL 6704 Leadership in Organizations

HOL 6742 Design of Adult Learning Interventions

HOL 6746 Work Groups and Teams in Organizations

Required courses taken at the USNA

LEAD 6001 The Academy and the Brigade

LEAD 6003 Foundations of Moral Reasoning

LEAD 6004 LEAD Fellows Teaching Practicum

LEAD 6005 LEAD Fellows Counseling Practicum

LEAD 6006 LEAD Research Capstone

MASTER OF ARTS IN THE FIELD OF ORGANIZATIONAL SCIENCES

The Department of Organizational Sciences and Communication offers an interdisciplinary program leading to the degree of Master of Arts in the field of organizational sciences with a concentration in organizational management. The program has been designed for public, private, and nonprofit sector professionals who wish to increase their managerial competence, enhance their leadership ability, and improve their career potential. The curriculum provides

knowledge and skills in the social and behavioral sciences. In addition, a graduate certificate in organizational management is offered

REQUIREMENTS

Specific admission requirements are shown on the Graduate Program Finder. (<http://www.gwu.edu/all-graduate-programs>)

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 62).

36 credits of course work and successful completion of a Master's Comprehensive Examination. There is no thesis requirement.

Required

ECON 6219	Managerial Economics
ORSC 6209	Management Systems
ORSC 6216	Theories and Management of Planned Change
ORSC 6241	Strategic Management and Policy Formation
ORSC 6242	Organizational Communication and Conflict Management
ORSC 6243	Sem:Leadership-Complex Organznt
PSYC 8245	Seminar: Organizational Behavior
PSYC 8259	Psychology of Individual and Group Decision Making
STAT 6104	Statistics in Management, Administration, and Policy Studies

Electives

9 credits from the following:

ORSC 6212	Current Issues in Personnel Testing and Selection
ORSC 6214	Personnel Training and Performance Appraisal Systems
ORSC 6217	Productivity and Human Performance
ORSC 6222	Theory and Practice of Compensation Management
ORSC 6223	Collective Bargaining
ORSC 6224	Persuasion & Negotiation
ORSC 6246	Comparative Management

ORSC 6248	Strategic Human Resource Planning
ORSC 6250	Leadership Coaching: Principles and Practices
ORSC 6251	Team Coaching and Facilitation
ORSC 6295	Directed Research
ORSC 6297	Special Topics
ORSC 6298	Directed Readings
Successful completion of a Master's Comprehensive Examination	

PEACE STUDIES

The Peace Studies program is designed to strengthen a student's ability to explore the multiple meanings of peace, the relationship between peace and conflict, and the role of peace on local and global levels. The program fosters the study of peace in its philosophical and religious dimensions, as an important aspect of international affairs, and as a vital part of social, economic, and environmental justice. Peace Studies focuses on the examination of peace and conflict through the lens of the humanities and the liberal arts. Housed within the Department of Religion (<http://religion.columbian.gwu.edu>) in the Columbian College of Arts and Sciences, the Peace Studies program emphasizes the role of world religions in peace building and conflict resolution.

UNDERGRADUATE

Bachelor's program

- Bachelor of Arts with a major in peace studies (p. 652)

Minor

- Minor in peace studies (p. 663)

COURSES

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000-4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

PSTD 1010. Introduction to Peace Studies and Conflict Resolution. 3 Credits.

Major thinkers and themes in the field of peace studies and conflict resolution. Focus on philosophical and religious foundations of peace and justice movements in the 20th century. Examination of peace and conflict through an interdisciplinary lens and on personal, local, and international levels.

PSTD 3190. Capstone Seminar. 3 Credits.

Capstone seminar for peace studies majors and minors in their junior or senior year. Taken concurrently with a relevant internship or as part of a long-term research project to probe the relationship between peace studies and conflict resolution in practice and in theory.

PSTD 3191. Special Topics Peace Studies. 1-3 Credits.

Topics announced in the Schedule of Classes. May be repeated for credit provided the topic differs.

PSTD 3999. Independent Study. 1-3 Credits.

Tutorial designed by an undergraduate student under the guidance of a faculty member to pursue an academic topic in the area of Peace Studies and Conflict Resolution outside available course offerings.

BACHELOR OF ARTS WITH A MAJOR IN PEACE STUDIES

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 62).

Two years of a single foreign language, or placement into the third year of a foreign language by examination, or one year each of two modern foreign languages. Students are encouraged to study abroad

30 credits in peace studies and related fields including:

PSTD 1010 Introduction to Peace Studies and Conflict Resolution

PSTD 3190 Peace Studies Seminar

Eight courses from designated lists in the following categories:

Two from philosophical and religious approaches to peace:

PHIL 2132 Social and Political Philosophy

PHIL 2133 Philosophy and Nonviolence

REL 2921 The Religions Wage Peace

REL 2922 Ethics and World Religions

REL 3931 Interfaith Dialogue in World Religions

REL 3990 Selected Topics in Religion

Three from international peace and conflict:

ANTH 3506 Politics, Ethnicity, and Nationalism

ANTH 3812 Power and Violence in the New World

COMM 3174 Intercultural Communication

GEOG 2146 Political Geography

GEOG 2147 Military Geography

SMPA 3472	Media and Foreign Policy
SOC 2170	Class and Inequality in American Society

SOC 2173	Social Movements
SOC 2175	Sociology of Sex and Gender
SOC 2177	Sociology of the Sex Industry
SOC 2179	Race and Minority Relations
SOC 2184	Violence and the Family

Special Topics courses may count toward the major with approval of the peace studies director

GENERAL EDUCATION

In addition to the University General Education Requirement, undergraduate students in Columbian College must complete a further, College-specific general education curriculum—Perspective, Analysis, Communication, or G-PAC. Together with the University General Education Requirement, G-PAC engages students in active intellectual inquiry across the liberal arts. Students achieve a set of learning outcomes that enhance their analytical skills, develop their communication competencies, and invite them to participate as responsible citizens who are attentive to issues of culture, diversity, and privilege.

Course work for the University General Education Requirement is distributed as follows:

- Writing—one course in university writing and two writing-in-the-disciplines (WID) courses;
- Humanities—one approved humanities course that involves critical thinking skills;
- Mathematics or Statistics—one course in either math or statistics;
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry; and,
- Social Sciences—two courses in the social sciences

Course work for the Columbian College general education curriculum is distributed as follows:

- Arts—one approved arts course that involves the study or creation of artwork based on an understanding or interpretation of artistic traditions or knowledge of art in a contemporary context;
- Global or Cross-Cultural Perspective—one approved course that analyzes the ways in which institutions, practices, and problems transcend national and regional boundaries;
- Humanities—one approved humanities course that involves critical thinking skills (in addition to the one course in this category required by the University General Education Requirement);
- Local or Civic Engagement—one course that develops the values, ethics, disciplines, and commitment to pursue responsible public action;

- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry (in addition to the one course in this category required by the University General Education Requirement; and,
- Oral Communication—one course in oral communication.

Certain courses are approved to fulfill the requirement in more than one of these categories.

Courses taken in fulfillment of the Columbian College general education curriculum may also be counted toward majors or minors. Transfer courses taken prior to, but not after, admission to George Washington University may count toward the University general education requirement and Columbian College general education curriculum, if those transfer courses are equivalent to GW courses that have been approved by the University and the College.

University General Education and G-PAC Courses

- Arts (p. 654)
- Global or Cross-Cultural (p.)
- Humanities (p. 657)
- Local/Civic Engagement (p.)
- Mathematics or Statistics (p. 660)
- Natural or physical laboratory sciences (p. 660)
- Oral Communication (p. 661)
- Social Sciences (p. 662)
- Writing (p. 663)

One additional elective

An internship in a relevant agency may also count for 3 hours of credit, with advisor's prior approval, through the following:

CCAS 2154	Elective Internship
-----------	---------------------

* Lists of courses that can fulfill each category (<http://religion.columbian.gwu.edu/undergraduate-academic-programs>) are available in the Department of Religion.

PHILOSOPHY

From reading the works of Plato and Aristotle to studying logic and phenomenology, the department provides a broad-based learning experience. One of the arts and humanities disciplines in the Columbian College of Arts and Sciences, the program also examines the intersection of philosophy with other subjects, including law, biomedicine, science, and politics.

Two options are offered for the major, both designed to give a broad background in philosophy but with somewhat different emphases. The first option reflects the traditional structure of the discipline and its subfields; it is especially (but not exclusively) recommended for those considering graduate study in philosophy. The second option is designed for those primarily interested in the relationship of philosophy to public affairs.

UNDERGRADUATE

Bachelor's programs

- Bachelor of Arts with a major in philosophy (p. 670)
- Bachelor of Arts with a major in philosophy (public affairs focus) (p. 680)
- Combined program (p. 690)

Minors

- Minor in philosophy (p. 692)
- Minor in logic (p. 691)

- Minor in applied ethics (p. 690)
- Minor in mind-brain studies (p. 691)

GRADUATE

Master's programs

- Master of Arts in the field of philosophy (p. 692)
- Master of Arts in the field of public policy with a concentration in philosophy and social policy (p. 692)

FACULTY

Professors R.P. Churchill, D. DeGrazia, G. Weiss (*Chair*)

Associate Professors J.C. Brand, M. Friend, T. Zawidzki

Assistant Professors L. Papish, M. Ralkowski, E.J. Saidel, J. Trullinger

Adjunct Professors A. Pedefferri, M. Sigrist, C. Venner

Affiliated Faculty D. Malone-France (UWP/Religion)

Professorial Lecturers S. Aas, C. Bassiri, R. Carr, M. Davis, L. Eby, D. Kirilov, L. Okster

COURSES

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000–4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

PHIL 1000. Dean's Seminar. 3 Credits.

The Dean's Seminars provide Columbian College first-year students focused scholarship on specific intellectual challenges. Topics vary by semester. Consult the schedule of classes for more details. Restricted to First-year students in CCAS.

PHIL 1051. Introduction to Philosophy. 3 Credits.

Readings from major philosophers and study of their positions on the most basic questions of human life. Topics include such issues as: What is justice? What is knowledge? What is reality? Does God exist? What is the mind? Do humans have free will?.

PHIL 1062. Philosophy and Film. 3 Credits.

Philosophical problems and theories of perception, meaning, personal identity, and moral agency and their illustration in the context of cinema. Cinema and its derivatives (TV, video) as prime routes to experience of the natural and social worlds in an age of communication. Readings in classical and contemporary philosophy and in film theory; screening of a series of films.

PHIL 1153. The Meaning of Mind. 3 Credits.

Introductory course for students with no background in philosophy or the sciences of the mind. The central questions, assumptions, and hypotheses about the human mind. The nature of thought, consciousness, and self; knowledge of other minds; implications of the sciences of the mind for freedom of the will and responsibility; and the relationship between the mind and the brain.

PHIL 1193. Introduction to Existentialism. 3 Credits.

The philosophical themes of selfhood, mortality, authenticity, and ethical responsibility from an existentialist perspective, including the writings of Kierkegaard, Heidegger, Nietzsche, Camus, and Sartre. The place of existentialism in the history of philosophy.

PHIL 2045. Introduction to Logic. 3 Credits.

Introduction to informal logic, scientific argument, and formal logic. The informal logic component focuses on fallacies of reasoning and practical applications of logic. The formal logic component focuses on translation from English into propositional logic, truth tables, and proofs in propositional logic.

PHIL 2111. History of Ancient Philosophy. 3 Credits.

History of Western philosophy from the Pre-Socratics to the Stoics (6th century BCE to 1st century CE). Major emphasis on the writings of Plato and Aristotle. Among themes to be covered: knowledge and reality, political and moral philosophy.

PHIL 2111W. History of Ancient Philosophy. 3 Credits.

History of Western philosophy from the Pre-Socratics to the Stoics (6th century BCE to 1st century CE). Major emphasis on the writings of Plato and Aristotle. Among themes to be covered: knowledge and reality, political and moral philosophy.

PHIL 2112. History of Modern Philosophy. 3 Credits.

History of Western philosophy of the 16th through 18th centuries; Continental Rationalism and British Empiricism from the scientific revolution through the Enlightenment; major emphasis on Descartes, Spinoza, Leibniz, Locke, Berkeley, Hume, and Kant. Prerequisite: PHIL 1051 .

PHIL 2124. Philosophies of Disability. 3 Credits.

Disability presents an intense and interesting challenge to traditional philosophical presuppositions and principles. This course examines various philosophical approaches to disability—historical, individual, and medical paradigms as well as those that rely on frameworks of social or human rights.

PHIL 2124W. Philosophies of Disability. 3 Credits.

Disability presents an intense and interesting challenge to traditional philosophical presuppositions and principles. This course examines various philosophical approaches to disability –historical, individual, and medical paradigms as well as those that rely on frameworks of social or human rights.

PHIL 2125. Philosophy of Race and Gender. 3 Credits.

A theoretical examination of the bodily, social, discursive, and political effects of patriarchy, racism, and classism.

PHIL 2125W. Philosophy of Race and Gender. 3 Credits.

A theoretical examination of the bodily, social, discursive, and political effects of patriarchy, racism, and classism.

PHIL 2131. Ethics: Theory and Applications. 3 Credits.

Examination of leading ethical theories (e.g., utilitarianism, deontology, virtue ethics), and methodology in ethics. Engagement with contemporary problems.

PHIL 2132. Social and Political Philosophy. 3 Credits.

Philosophical theories about how economic, political, legal, and cultural institutions should be arranged. Topics include the meaning and significance of liberty, the legitimate functions of government, the nature of rights, the moral significance of social inequality, and the meaning of democracy.

PHIL 2132W. Social and Political Philosophy. 3 Credits.

Philosophical theories about how economic, political, legal, and cultural institutions should be arranged. Topics include the meaning and significance of liberty, the legitimate functions of government, the nature of rights, the moral significance of social inequality, and the meaning of democracy.

PHIL 2133. Philosophy and Nonviolence. 3 Credits.

Violence and nonviolence in the personal and social struggle for meaningful, just, and peaceful existence; philosophical foundations of pacifism and nonviolent resistance in the thought of Tolstoy, Gandhi, King, and others; philosophical inquiry into war, terrorism, genocide, and ethnic conflict, as well as human rights, humanitarian intervention, and just war theory.

PHIL 2134. Philosophy of Human Rights. 3 Credits.

Conceptual, ethical, and theoretical analyses of human rights with emphasis on the justification of human rights, the debate over cultural relativism, and the application of human rights norms in domestic and global contexts.

PHIL 2135. Ethics in Business and the Professions. 3 Credits.

Ethical theories and basic concepts for analysis of moral issues arising in business and in professional practice.

PHIL 2136. Contemporary Issues in Ethics. 3 Credits.

Introduction to a range of debates in applied ethics, including both classic debates concerning topics such as the permissibility of abortion, animal treatment, and suicide as well as more current debates concerning our interactions with the environment and our obligations to the poor in a global context.

PHIL 2281. Philosophy of the Environment. 3 Credits.

Three models of environmental sustainability: the current paradigm in economic and cultural thinking (neoclassical economics); redistribution of resources toward greater global equity (a macroeconomic perspective); and de-growth in the developed economies (ecological economics). The models offer different perspectives on what environmental sustainability means and how it can impact the cultural, religious, moral, metaphysical, and existential situation.

PHIL 3100. Selected Topics. 3 Credits.

Topic announced in the Schedule of Classes. May be repeated for credit provided the topic differs.

PHIL 3100W. Selected Topics. 3 Credits.

Topic announced in the Schedule of Classes. May be repeated for credit provided the topic differs.

PHIL 3113. 19th-Century Philosophy. 3 Credits.

European philosophy of the 19th century, with major emphasis on Kant, Hegel, Schopenhauer, Kierkegaard, and Nietzsche. Prerequisite: PHIL 1051 .

PHIL 3121. Symbolic Logic. 3 Credits.

Analysis and assessment of deductive arguments, using propositional, predicate, and other logics; philosophical basis and implications of logical analysis; metatheory of logic; modal and non-standard logics. Prerequisite: Phil 1045 or permission of instructor.

PHIL 3142. Philosophy of Law. 3 Credits.

Systematic examination of fundamental concepts of law and jurisprudence; special emphasis on the relationship between law and morality.

PHIL 3142W. Philosophy of Law. 3 Credits.

Systematic examination of fundamental concepts of law and jurisprudence; special emphasis on the relationship between law and morality.

PHIL 3151. Philosophy and Science. 3 Credits.

Analysis of the structure and meaning of science, including scientific progress and theory change, objectivity in science, the drive for a unified science, and ways science relates to everyday understandings of the world. Attention given to various sciences, including physics, biology, and neuroscience. Prerequisite: PHIL 1051 or a 2000-level philosophy course.

PHIL 3151W. Philosophy and Science. 3 Credits.

Analysis of the structure and meaning of science, including scientific progress and theory change, objectivity in science, the drive for a unified science, and ways science relates to everyday understandings of the world. Attention given to various sciences, including physics, biology, and neuroscience. Prerequisite: PHIL 1051 or two semesters of college-level science.

PHIL 3152. Theory of Knowledge. 3 Credits.

Inquiry into the basis and structure of knowledge, the problems of skepticism and justification, the relations between subjectivity and objectivity, and the contributions of reason, sense experience, and language. Prerequisite: PHIL 1051 ; PHIL 2112 also recommended.

PHIL 3153. Mind, Brain, and Artificial Intelligence. 3 Credits.

Investigation of the nature of mind from a variety of perspectives, including neuroscience, cognitive psychology, and artificial intelligence, as well as traditional philosophy of mind. Possible additional topics include consciousness, mental disorders, animal minds, and the nature and meaning of dreams. Prerequisites: PHIL 1051 or PHIL 1153 or PHIL 2112 or permission of the instructor.

PHIL 3161. Philosophy and Literature. 3 Credits.

Critical investigation of the sociopolitical commitments that inform the practices of reading and writing as discussed by Sartre, Barthes, Foucault, and others. Focus on the development of existentialist themes, including authenticity, freedom, temporality, and death in the work of Kafka, Tolstoy, Mann, Woolf, and others.

PHIL 3162. Aesthetics: Philosophy of the Arts. 3 Credits.

The problem of artistic representation and the nature of aesthetic experience as related to the creation, appreciation, and criticism of art. Special emphasis on nonrepresentational works of art and their interpretation. Prerequisite: PHIL 1051 or PHIL 2111 or PHIL 2112 or PHIL 3113.

PHIL 3162W. Aesthetics: Philosophy of the Arts. 3 Credits.

The problem of artistic representation and the nature of aesthetic experience as related to the creation, appreciation, and criticism of art. Special emphasis on nonrepresentational works of art and their interpretation. Prerequisite: PHIL 1051 or PHIL 2111 or PHIL 2112 or PHIL 3113.

PHIL 3172. American Philosophy. 3 Credits.

A survey of American philosophical thought, focusing on the late 19th through mid-20th centuries. Covers American Pragmatism (Peirce, James, Dewey) in depth; other authors may include Thoreau, Emerson, Royce, Santayana, Mead, Quine, and Rorty.

PHIL 3172W. American Philosophy. 3 Credits.

A survey of American philosophical thought, focusing on the late 19th through mid-20th centuries. Covers American Pragmatism (Peirce, James, Dewey) in depth; other authors may include Thoreau, Emerson, Royce, Santayana, Mead, Quine, and Rorty.

PHIL 3251. Philosophy of Biology. 3 Credits.

An introduction to conceptual and methodological issues raised by contemporary biology, including teleology, reductionism, units of selection, the structure of evolutionary theory, genetics, taxonomy, and the nature of scientific explanation. Other issues may include the nature-nurture debate, creationism/intelligent design, the evolution of altruism, and the relevance of evolutionary theory to ethical questions.

PHIL 4192. Analytical Philosophy. 3 Credits.

The dominant movements of 20th-century Anglo-American philosophy, including logical positivism, British ordinary language philosophy, and neopragmatism, as represented by Russell, G.E. Moore, Wittgenstein, Ayer, Quine, Kripke, et al. Prerequisite: one other upper-division philosophy course (PHIL 2112 and PHIL 3121 recommended).

PHIL 4193. Phenomenology and Hermeneutics. 3 Credits.

An intensive, systematic introduction to the phenomenological and hermeneutic traditions in philosophy through some of their best-known representatives: Husserl, Heidegger, Gadamer, Sartre, Beauvoir, and Merleau-Ponty. Central topics of discussion include consciousness, anguish/anxiety, discourse, interpretation, the Other, death, and ambiguity. Prerequisite: PHIL 2112 or PHIL 3113.

PHIL 4193W. 20th-Century Continental Philosophy. 3 Credits.

An intensive, systematic introduction to the phenomenological and hermeneutic traditions in philosophy through some of their best-known representatives: Husserl, Heidegger, Gadamer, Sartre, Beauvoir, and Merleau-Ponty. Central topics of discussion include consciousness, anguish/anxiety, discourse, interpretation, the Other, death, and ambiguity. Prerequisites: PHIL 2112 or PHIL 3113.

PHIL 4195. Topics in Value Theory. 3 Credits.

Variable topics in ethics, political philosophy, aesthetics, and other subfields in normative philosophy. Prerequisite: one upper-division course on related subject matter or permission of the instructor.

PHIL 4195W. Topics in Value Theory. 3 Credits.

Various topics in ethics, political philosophy, aesthetics, and other subfields in normative philosophy, such as contemporary philosophy of religion. May be repeated for credit provided the topic differs. Consult the Schedule of Classes for more details.

PHIL 4196. Topics in Theory of Knowledge. 3 Credits.

Variable topics in epistemology, philosophy of science and mathematics, philosophy of mind, and similar subfields. Prerequisite: one upper-division course on related subject matter or permission of the instructor.

PHIL 4198. Proseminar. 3 Credits.

Variable topics; preparation and presentation of a major research paper. Open only to philosophy majors in the junior and senior year as approved by major advisor. May be repeated for credit.

PHIL 4198W. Proseminar in Philosophy. 3 Credits.

Variable topics; preparation and presentation of a major research paper. Open only to philosophy majors in the junior and senior year as approved by major advisor. May be repeated for credit.

PHIL 4199. Readings and Research. 1-3 Credits.

Independent study to be arranged with a faculty sponsor. Restricted to Departmental approval required.

PHIL 6201. Readings and Research. 3 Credits.

Advanced readings and reports. Investigation of special problems.

PHIL 6202. Readings and Research. 3 Credits.

Advanced readings and reports. Investigation of special problems.

PHIL 6211. Topics in the History of Ancient Philosophy. 3 Credits.

Topic announced in the Schedule of Classes. Restricted to For graduate students only.

PHIL 6212. Topics in the History of Modern Philosophy. 3 Credits.

Topic announced in the Schedule of Classes. Restricted to For graduate students only.

PHIL 6221. Advanced Logic. 3 Credits.

Intensive reading of a difficult text in an advanced logical system or a series of logical systems. Focus on analyzing reasoning under partial information, using the formal system to analyze fallacies of reasoning and analyzing quantum phenomena using the formal system. Restricted to For graduate students only. Recommended background: Good formal training in logic - propositional logic: natural deduction, tables and trees; first-order logic: language (translation from English), trees and natural deduction; some limitative results, eg, decidability, compactness, completeness, Lovenheim-Skolem properties, soundness, etc.

PHIL 6222. Philosophy of Mathematics. 3 Credits.

Examination of several philosophies of mathematics, with in-depth concentration on Field's "fictionalism." A fictionalist believes that all of the ontology of mathematics is favorably compared to a fictional object, so it does not literally exist. Students develop reactions to Field's philosophical position using the resources of alternative philosophical positions. Restricted to For graduate students only. Recommended background: Basic understanding of first-order logic.

PHIL 6223. Philosophy of Logic. 3 Credits.

Central concepts in the philosophy of logic, including truth, reasoning, inference, deduction, induction, judgment, assertion, warrant, proof, demonstration, meaning, semantics, syntax, paradox, mathematical models, and the relationship between a formal representation of logical reasoning and the philosophical ideal of the practice of reasoning. Recommended background: Some grounding in first-order logic will be presupposed.

PHIL 6225. Queer(ing) Philosophy. 3 Credits.

Examination of how queer theory, which emerged as a field in its own right in the early 1990s, has posed significant challenges to traditional, taken-for-granted understandings of time, space, the body, race, sexuality, normality, culture, violence, and disability. Restricted to For graduate students only.

PHIL 6230. Ethical Issues in Policy Arguments. 3 Credits.

Critical analysis of ethical foundations of public policy arguments, e.g., about protection of the environment or health and safety, equality of opportunity. Case studies of appeals to "welfare improvements," to norms of duty, to "the social contract," and to rights-claims. Attention to historical contexts and biases. Open to undergraduates only with permission of instructor.

PHIL 6231. Seminar: Economic Justice. 3 Credits.

Ethical and economic analysis of equity and efficiency of current U.S. income distribution patterns. Theories of justice; economic theories of distribution; assessment of redistribution policies. Open to undergraduates only with permission of instructor.

PHIL 6232. Topics in Contemporary Political Philosophy. 3 Credits.

Topic announced in the Schedule of Classes. Restricted to For graduate students only.

PHIL 6233. Contemporary Moral Philosophy. 3 Credits.

Investigation of contemporary debates in normative ethics and/or metaethics. Topics may include the virtue ethics revival in the 20th century, the distinction between the right and the good, or important metaethical positions such as fictionalism, expressivism, and constitutivist accounts of moral principles. Restricted to For graduate students only.

PHIL 6234. Consequentialism and Its Critics. 3 Credits.

An overview of the debate over consequentialism, culminating in discussion of recent literature. Forms of consequentialism (act, rule, motive, cooperative); direct versus indirect; classic objections and replies; partiality; friendship; agent-relative considerations; doctrine of doing and allowing; doctrine of double effect. Restricted to For graduate students only.

PHIL 6236. Moral Status. 3 Credits.

Examination of the question of what sorts of beings matter morally in their own right and how much they matter. While the paradigm bearers of moral status are persons, the course considers competing ways of thinking about the possible moral status of human nonpersons, nonhuman persons, great apes, dolphins, other sentient animals, nonsentient lifeforms, the environment, future people, and advanced forms of artificial intelligence. Restricted to For graduate students only.

PHIL 6237. Animal Ethics. 3 Credits.

The moral status of animals and the ethics of human use of animals. Major topics include models of moral status, animals' mental life, and specific ethical issues associated with the eating of animal products, the use of animals in research, and the keeping of animals in homes and zoos. Restricted to For graduate students only.

PHIL 6238. Feminist Ethics and Policy Implications. 3 Credits.

Feminist critiques of traditional ethical reasoning; alternative feminist ethical frameworks examined and applied to contemporary social problems (e.g., respecting cultural differences, dependency, disability). Same as WSTU 6238. Prerequisite: PHIL 2125 or PHIL 2131 or permission of instructor.

PHIL 6239. Virtue Ethics. 3 Credits.

Historical and/or contemporary approaches to virtue ethics and key readings in the virtue ethical tradition. Topics include empirical work on virtue in philosophy and psychology, the divide between "radical" virtue ethics and contemporary virtue ethics, "hybrid" approaches to virtue ethics (e.g., consequentialist virtue ethics), and meta-ethical issues relevant to the study of virtue. Restricted to For graduate students only.

PHIL 6242. Philosophy, Law, and Social Policy. 3 Credits.

Consideration of the relationship between legal interpretation and policy goals. Theories concerning the role of the judiciary in a constitutional democracy and methods of constitutional and statutory interpretation. Representative policy topics include capital punishment, pornography, affirmative action, welfare, property rights, racial gerrymandering, gun control.

PHIL 6245. Biomedical Ethics. 3 Credits.

An in-depth introduction to the field of biomedical ethics. Following a brief review of ethical theory, the course proceeds to several central topics in biomedical ethics before ending with students' presentations of their original research. The emphasis is on normative ethical reasoning, with considerable attention to the empirical assumptions underlying particular ethical judgments and to policy dimensions of several of the central topics.

PHIL 6250. Topics in Health Policy. 3 Credits.

Topics in health policy from the perspective of philosophical ethics, including human and animal research, the enhancement of human traits, justice and health care allocation.

PHIL 6251. Advanced Introduction to Philosophy of Mind. 3 Credits.

Critical examination of classical philosophical arguments pertaining to the mind/body problem, the problem of consciousness, the problem of intentionality, the problem of freedom of the will, and the problem of personal identity. Focus on careful analysis of classical philosophical writings on these topics. Restricted to For graduate students only.

PHIL 6252. Advanced Introduction to Philosophy of Cognitive Science. 3 Credits.

The emergence of cognitive phenomena in phylogeny and ontogeny, social cognition, nativist vs. empiricist approaches to cognition, models of reasoning and decision-making, representationalist vs. embodied/embedded/enactive approaches to cognition, and theories of perception, memory, and concepts. Restricted to For graduate students only.

PHIL 6253. Cognitive Science and Public Policy. 3 Credits.

The cognitive sciences are providing new insights into the nature of human decision making at an accelerating pace. Cognitive psychology, cognitive neuroscience, neuroeconomics, evolutionary psychology, and developmental and comparative psychology are rewriting theories about human nature with significant implications for public policy. The course examines recent work in the cognitive sciences with the intent of drawing out its public policy implications.

PHIL 6254. Mental Representation. 3 Credits.

Thoughts are like pictures of the world in that they represent the world. But thoughts sometimes represent the world in ways that don't correspond to the way it actually is. How do thoughts come to have representational content? Why do we have thoughts? Such questions are considered through the careful reading of recent work on the subject. Restricted to For graduate students only.

PHIL 6257. The Nature of Animal Minds. 3 Credits.

Do nonhuman animals have minds? If so, what are they like? How are they similar and how are they different from our minds? What might count as evidence that an animal has a mind? Consideration of some of the questions philosophers and scientists have been asking and issues these questions raise when we think about the possibility that nonhuman animals are thinking creatures. Restricted to For graduate students only.

PHIL 6262. Normative Issues in Foreign Policy. 3 Credits.

Selected issues on foreign policy from a normative perspective; emphasis on human rights, economic globalization, global poverty, sustainable development, and the ethics of military intervention.

PHIL 6281. Environmental Philosophy and Policy. 3 Credits.

Examination of philosophical frameworks for assessing policy approaches to environmental problems. Representative topics include duties to future generations, environmental justice, legal rights for natural objects, critiques of cost-benefit analysis, sustainability, risk measurement, the intrinsic value of nature.

PHIL 6290. Special Topics in Public Policy. 3 Credits.

Topic announced in the Schedule of Classes. May be repeated for credit provided the topic differs.

PHIL 6293. Contemporary Continental Philosophy. 3 Credits.

Focus on several powerful philosophical concepts introduced by late 20th/early 21st-century continental scholars. Through a close reading of selected works, the influence these scholars have had upon one another is traced. Critical examination of the theoretical resources the works provide in articulating some of the most urgent ethical, social, and political demands of contemporary human existence. Restricted to For graduate students only.

PHIL 6294. Special Topics in Continental Philosophy. 3 Credits.

Topic announced in the Schedule of Classes. Restricted to For graduate students only.

PHIL 6998. Thesis Research. 3 Credits.

PHIL 6999. Thesis Research. 3 Credits.

BACHELOR OF ARTS WITH A MAJOR IN PHILOSOPHY

REQUIREMENTS

The following requirements must be fulfilled for the traditional option:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 62).

PHIL 1051 Introduction to Philosophy or PHIL 1051W Hist Intro-Western Philosophy is recommended.

Required courses (9 credits):

PHIL 2045	Introduction to Logic
PHIL 2111	History of Ancient Philosophy
or PHIL 2111W	History of Ancient Philosophy
PHIL 2112	History of Modern Philosophy

One course (3 credits) from the following:

PHIL 3113	19th-Century Philosophy
or PHIL 3113W	19th-Century Philosophy
PHIL 3172	American Philosophy
or PHIL 3172W	American Philosophy
PHIL 4192	Analytical Philosophy
or PHIL 4192W	Analytical Philosophy
PHIL 4193	20th-Century Continental Philosophy
or PHIL 4193W	20th-Century Continental Philosophy

Four additional philosophy (PHIL) courses (12 credit hours) numbered 2000 or above

One of the following options (6 credit hours):

A: Two Proseminar courses

PHIL 4198 Proseminar (6 credits)

B: Honors Thesis Option (requires departmental approval and a senior thesis)

PHIL 4198 Proseminar (3 credits)

PHIL 4199 Readings and Research (3 credits)

GENERAL EDUCATION

In addition to the University General Education Requirement, undergraduate students in Columbian College must complete a further, College-specific general education curriculum—Perspective, Analysis, Communication, or G-PAC. Together with the University General Education Requirement, G-PAC engages students in active intellectual inquiry across the liberal arts. Students achieve a set of learning outcomes that enhance their analytical skills, develop their communication competencies, and invite them to participate as responsible citizens who are attentive to issues of culture, diversity, and privilege.

Course work for the University General Education Requirement is distributed as follows:

- Writing—one course in university writing and two writing-in-the-disciplines (WID) courses;
- Humanities—one approved humanities course that involves critical thinking skills;
- Mathematics or Statistics—one course in either math or statistics;
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry; and,
- Social Sciences—two courses in the social sciences

Course work for the Columbian College general education curriculum is distributed as follows:

- Arts—one approved arts course that involves the study or creation of artwork based on an understanding or interpretation of artistic traditions or knowledge of art in a contemporary context;
- Global or Cross-Cultural Perspective—one approved course that analyzes the ways in which institutions, practices, and problems transcend national and regional boundaries;
- Humanities—one approved humanities course that involves critical thinking skills (in addition to the one course in this category required by the University General Education Requirement);

- Local or Civic Engagement—one course that develops the values, ethics, disciplines, and commitment to pursue responsible public action;
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry (in addition to the one course in this category required by the University General Education Requirement; and,
- Oral Communication—one course in oral communication.

Certain courses are approved to fulfill the requirement in more than one of these categories.

Courses taken in fulfillment of the Columbian College general education curriculum may also be counted toward majors or minors. Transfer courses taken prior to, but not after, admission to George Washington University may count toward the University general education requirement and Columbian College general education curriculum, if those transfer courses are equivalent to GW courses that have been approved by the University and the College.

University General Education and G-PAC Courses

- Arts (p. 671)
- Global or Cross-Cultural (p.)
- Humanities (p. 674)
- Local/Civic Engagement (p.)
- Mathematics or Statistics (p. 677)
- Natural or physical laboratory sciences (p. 677)
- Oral Communication (p. 678)
- Social Sciences (p. 679)
- Writing (p. 680)

SPECIAL HONORS

In addition to the general requirements stated under University Regulations, in order to be considered for graduation with Special Honors, a student must

1. have at least a 3.7 grade-point average in the major and a 3.3 average overall;
2. submit an honors paper prepared under the supervision of a faculty advisor in the department.

Only if a committee of three faculty members in the department approves the honors paper will Special Honors be recommended.

BACHELOR OF ARTS WITH A MAJOR IN PHILOSOPHY (PUBLIC AFFAIRS FOCUS)

REQUIREMENTS

The following requirements must be fulfilled for the traditional option:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 62).

PHIL 1051 Introduction to Philosophy or PHIL 1051W Hist Intro-Western Philosophy is recommended.

Required courses (3 credits):

PHIL 2045	Introduction to Logic
-----------	-----------------------

One course (3 credits) from the following:

PHIL 2111	History of Ancient Philosophy
or PHIL 2111W	History of Ancient Philosophy
PHIL 2112	History of Modern Philosophy

Two courses (6 credits) from the following:

PHIL 2131	Ethics: Theory and Applications
PHIL 2132	Social and Political Philosophy
or PHIL 2132W	Social and Political Philosophy
PHIL 2136	Contemporary Issues in Ethics

Four additional philosophy (PHIL) courses (12 credits) numbered 2000 or above

One of the following options (6 credits):

A: Two Proseminar Courses

PHIL 4198	Proseminar (6 credits)
-----------	------------------------

B: Honors Thesis Option (requires departmental approval and a senior thesis)

PHIL 4198	Proseminar (3 credits)
or PHIL 4198W	Proseminar in Philosophy

PHIL 4199	Readings and Research (3 credits)
-----------	-----------------------------------

GENERAL EDUCATION

In addition to the University General Education Requirement, undergraduate students in Columbian College must complete a further, College-specific general education curriculum—Perspective, Analysis, Communication, or G-PAC. Together with the University General Education Requirement, G-PAC engages students in active intellectual inquiry across the liberal arts. Students achieve a set of learning outcomes that enhance their analytical skills, develop their communication competencies, and invite them to participate as responsible citizens who are attentive to issues of culture, diversity, and privilege.

Course work for the University General Education Requirement is distributed as follows:

- Writing—one course in university writing and two writing-in-the-disciplines (WID) courses;
- Humanities—one approved humanities course that involves critical thinking skills;
- Mathematics or Statistics—one course in either math or statistics;
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry; and,
- Social Sciences—two courses in the social sciences

Course work for the Columbian College general education curriculum is distributed as follows:

- Arts—one approved arts course that involves the study or creation of artwork based on an understanding or interpretation of artistic traditions or knowledge of art in a contemporary context;
- Global or Cross-Cultural Perspective—one approved course that analyzes the ways in which institutions, practices, and problems transcend national and regional boundaries;
- Humanities—one approved humanities course that involves critical thinking skills (in addition to the one course in this category required by the University General Education Requirement);
- Local or Civic Engagement—one course that develops the values, ethics, disciplines, and commitment to pursue responsible public action;
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry (in addition to the one course in this category required by the University General Education Requirement; and,
- Oral Communication—one course in oral communication.

Certain courses are approved to fulfill the requirement in more than one of these categories.

Courses taken in fulfillment of the Columbian College general education curriculum may also be counted toward majors or minors. Transfer courses taken prior to, but not after, admission to George Washington University may count toward the University general education requirement and Columbian College general education curriculum, if those transfer courses are equivalent to GW courses that have been approved by the University and the College.

University General Education and G-PAC Courses

- Arts (p. 681)
- Global or Cross-Cultural (p.)
- Humanities (p. 684)
- Local/Civic Engagement (p.)
- Mathematics or Statistics (p. 687)
- Natural or physical laboratory sciences (p. 688)

- Oral Communication (p. 688)
- Social Sciences (p. 689)
- Writing (p. 690)

or HONR 1015	Honors Proseminar: UW 1020: Origins and Evolution of Modern Thought

SPECIAL HONORS

In addition to the general requirements stated under University Regulations, in order to be considered for graduation with Special Honors, a student must: have at least a 3.7 grade-point average in the major and a 3.3 average overall; and submit an honors paper prepared under the supervision of a faculty advisor in the department.

Only if a committee of three faculty members in the department approves the honors paper will Special Honors be recommended.

COMBINED PROGRAM

The Department of Philosophy offers a special program that combines the Bachelor of Arts in Philosophy and Master of Arts in Public Policy with a concentration in philosophy and social policy. The program allows students to take a specified number of graduate credits as part of their undergraduate degree, thereby decreasing the number of credits normally required for the master's degree. Students interested in the B.A./M.A. program should consult a departmental advisor as soon as possible. Undergraduates in the philosophy major (public affairs option) may apply to the program upon completing 12 credits of course work in philosophy at the 1000-level or higher, and must apply before completing 75 credits in the B.A. program.

Visit the program website (<http://philosophy.columbian.gwu.edu/combined-bama-program-philosophy>) for additional information.

MINOR IN APPLIED ETHICS

REQUIREMENTS

Required courses (9 credits):

PHIL 2131	Ethics: Theory and Applications
PHIL 2135	Ethics in Business and the Professions
PHIL 2136	Contemporary Issues in Ethics

Three additional courses (9 credits) from the following:

PHIL 2124	Philosophies of Disability
-----------	----------------------------

or PHIL 2124W	Philosophies of Disability
PHIL 2125	Philosophy of Race and Gender
or PHIL 2125W	Philosophy of Race and Gender
PHIL 2132	Social and Political Philosophy
or PHIL 2132W	Social and Political Philosophy
PHIL 2133	Philosophy and Nonviolence
PHIL 2134	Philosophy of Human Rights
PHIL 2281	Philosophy of the Environment
PHIL 3142	Philosophy of Law
or PHIL 3142W	Philosophy of Law
PHIL 4195	Topics in Value Theory
or PHIL 4195W	Topics in Value Theory

MINOR IN LOGIC

REQUIREMENTS

The following requirements must be fulfilled: 18 credits

One course (3 credits) from the following:

PHIL 2045	Introduction to Logic
PHIL 3121	Symbolic Logic

One course (3 credits) from the following:

MATH 3710	Introduction to Mathematical Logic
MATH 3720	Axiomatic Set Theory
MATH 3730	Computability Theory
or MATH 3730W	Computability Theory
MATH 3740	Computational Complexity
or MATH 3740W	Computational Complexity

Four additional courses (12 credits) from the lists above or from the following:

CSCI 1112	Algorithms and Data Structures
CSCI 3313	Foundations of Computing
CSCI 4222	Theory of Computer Translators
LING 2601	Language & Linguistic Analysis
or ANTH 2601	Language & Linguistic Analysis

No more than two courses may count toward both the student's major and the minor in logic.

For more information, contact the Philosophy Department. (<http://philosophy.columbian.gwu.edu>)

MINOR IN MIND-BRAIN STUDIES

REQUIREMENTS

Required courses (6 credits):

PHIL 3153	Mind, Brain, and Artificial Intelligence
PSYC 3122	Cognitive Neuroscience

Four courses (12 credits) from the following, with the restriction that the complete set of courses taken for the minor may include a maximum of two courses from any one department:

ANTH 1005	The Biological Bases of Human Behavior
ANTH 3413	Evolution of the Human Brain
ANTH 3601	Language, Culture, and Cognition
or LING 3601	Language, Culture, and Cognition
ANTH 3603	Psycholinguistics
or LING 3603	Psycholinguistics
BISC 2220	Developmental Neurobiology
BISC 2452	Animal Behavior
BISC 3320	Human Neurobiology
PHIL 1153	The Meaning of Mind
PHIL 3151	Philosophy and Science
or PHIL 3151W	Philosophy and Science
PHIL 3152	Theory of Knowledge
PHIL 3251	Philosophy of Biology
PSYC 2014	Cognitive Psychology
PSYC 3118	Neuropsychology
PSYC 3121	Memory and Cognition
PSYC 3124	Visual Perception
SPHR 1071	Foundations of Human Communication
or SPHR 1071W	Foundations of Human Communication
SPHR 2104	Speech and Language Disorders

or SPHR 2104W	Speech and Language Disorders
SPHR 2106	Anatomy and Physiology for Speech and Hearing II
SPHR 2131	Language Acquisition and Development
SPHR 3116	Brain & Language

For more information, contact Dr. Tad Zawidzki (Philosophy) at zawidzki@gwu.edu.

MINOR IN PHILOSOPHY

REQUIREMENTS

Six philosophy courses (18 credits), at most one is numbered below 2000 and at least two are from the following:

PHIL 2111	History of Ancient Philosophy
or PHIL 2111W	History of Ancient Philosophy
PHIL 2112	History of Modern Philosophy
PHIL 3113	19th-Century Philosophy
or PHIL 3113W	19th-Century Philosophy
PHIL 3172	American Philosophy
or PHIL 3172W	American Philosophy
PHIL 4192	Analytical Philosophy
or PHIL 4192W	Analytical Philosophy
PHIL 4193	20th-Century Continental Philosophy
or PHIL 4193W	20th-Century Continental Philosophy

MASTER OF ARTS IN THE FIELD OF PHILOSOPHY

The Master of Arts in Philosophy is intended to prepare students for admission to doctoral programs in philosophy and related disciplines such as political theory, biomedical ethics, and gender studies; educate students about the state of the art in philosophy and the history of the discipline; develop students' ability to engage in critical thinking, close reading, persuasive writing, and oral communication; and prepare students to teach philosophy and related subjects at the secondary school or two-year college level.

The curriculum focuses on four main areas:

1. Practical philosophy: applied ethics, ethical theory, political philosophy, philosophy of law, and public policy

2. Philosophies of gender, race, ethnicity, sexual orientation, and disability
3. Philosophies of mind, cognitive science, and biology
4. Continental philosophy of the twentieth and twenty-first centuries

REQUIREMENTS

Specific admission requirements are shown on the Graduate Program Finder. (<http://www.gwu.edu/all-graduate-programs>)

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 62).

Program requirements:

The MA in Philosophy program consists of 30 credits total (10 courses) without completing a thesis, or 27 credits (9 courses) plus three credits of thesis coursework. In either case, at least one of the following two courses in the history of philosophy is required:

PHIL 6211	Topics in the History of Ancient Philosophy
PHIL 6212	Topics in the History of Modern Philosophy

For their remaining coursework, students will work closely with an advisor to design a curriculum that best suits their philosophical interests and career plans. This flexible and individualized graduate program provides students with the unique opportunity to create their own Master's in Philosophy from our many graduate offerings, including our Philosophy and Social Policy courses.

MASTER OF ARTS IN THE FIELD OF PUBLIC POLICY WITH A CONCENTRATION IN PHILOSOPHY AND SOCIAL POLICY

REQUIREMENTS

The interdisciplinary program in public policy with a concentration in philosophy and social policy brings the normative, historical, and analytical-logical skills of philosophical inquiry to bear upon contemporary problems of social policy. The program is affiliated with the Trachtenberg School of Public Policy and Public Administration.

Prerequisite: a bachelor's degree from an accredited college or university. Students are expected to have completed the prerequisites to graduate courses.

Specific admission requirements are shown on the Graduate Program Finder. (<http://www.gwu.edu/all-graduate-programs>)

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 62).

Two options are available at the discretion of the faculty:

1. a minimum of 24 credit hours of approved graduate course work plus the successful completion of a thesis (PHIL 6998 Thesis Research- PHIL 6999 Thesis Research), or
2. a minimum of 36 credit hours of graduate course work that does not include a thesis.

Required courses:

Four of the following:

PHIL 6230	Ethical Issues in Policy Arguments
PHIL 6231	Seminar: Economic Justice
PHIL 6238	Feminist Ethics and Policy Implications
PHIL 6242	Philosophy, Law, and Social Policy
PHIL 6250	Topics in Health Policy
PHIL 6262	Normative Issues in Foreign Policy
PHIL 6281	Environmental Philosophy and Policy

Public policy core: Four courses, one from each of the following groups:

Group A

PPPA 6010	Politics & The Policy Process
PSC 8212	Urban Policy Problems

Group B

ECON 6217	Survey of Economics I
ECON 6237	Economics of the Environment and Natural Resources
ECON 6248	Health Economics

Group C

PSC 6103	Approaches to Public Policy Analysis
PPPA 6006	Policy Analysis
SOC 6248	Race and Urban Redevelopment
WSTU 6240	Women and Public Policy
WSTU 6265	Women, Welfare & Poverty

HIST 6011	Rdg/Rsch:History/Public Policy
-----------	--------------------------------

Group D

PPPA 6002	Research Methods and Applied Statistics (or substitute as approved by the advisor)
-----------	--

Electives may focus on a particular policy area (e.g., biomedical/health care, urban/welfare, or environmental policy), or may explore varied approaches and policy issues

Each candidate must pass a Master's Comprehensive Examination based on the particular interdisciplinary composition of the student's program of study. Prospective candidates should consult the program director.

PHYSICS

The physics program offers instruction in the fundamental laws of the discipline as it strengthens a student's ability to see how these laws apply to all the sciences and everyday occurrences. Physics is part of the natural, mathematical, and biomedical sciences discipline in the Columbian College of Arts and Sciences. Through courses ranging from classical mechanics to electromagnetic theory, the physics program prompts students to use mathematical logic, deductive reasoning, developed intuition, and careful observation.

UNDERGRADUATE

Bachelor's programs

- Bachelor of Arts with a major in physics (p. 694)
- Bachelor of Science with a major in physics (p. 715)
- Bachelor of Science with a major in biophysics (p. 704)

Minors

- Minor in physics (p. 725)
- Minor in biophysics (p. 725)

GRADUATE

Master's program

- Master of Science in the field of physics (p. 726)

Doctoral program

- Doctor of Philosophy in the field of physics (p. 726)

FACULTY

Professors W.J. Briscoe, A. Eskandarian, G. Feldman, F.X. Lee, L.C. Maximon (*Research*), A.K. Opper (*Chair*), M.E. Reeves, I. Strakovsky (*Research*), C. Zeng

Associate Professors A. Afanasev, K.S. Dhuga, H. Griesshammer, H. Haberzettl, W. Peng, R.L. Workman (*Research*)

Assistant Professors A. Alexandru, M. D#ring, E.J. Downie, O. Kargaltsev, B.C. Kung, G. Lan, X. Qiu, R. Teodorescu (*Teaching*)

Professorial Lecturers J.T. Broach, M.F. Corcoran, L. Medsker, A. Moscati, I. Moskowitz, C. O'Donnell

COURSES

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000–4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

Departmental prerequisite: Consent of a departmental graduate advisor is required for admission to all graduate courses in physics.

- Astronomy (ASTR) (p. 1500)
- Physics (PHYS) (p. 1745)

BACHELOR OF ARTS WITH A MAJOR IN PHYSICS

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 62).

Required introductory courses (20 credits):

PHYS 1021 University Physics I
or PHYS 1025 University Physics I with Biological Applications

PHYS 1022 University Physics II

or PHYS 1022W University Physics 2

or PHYS 1026 University Physics II with Biological Applications

PHYS 1023 Modern Physics

or PHYS 1023W Modern Physics

MATH 1231 Single-Variable Calculus I

MATH 1232 Single-Variable Calculus II

MATH 2233 Multivariable Calculus

One course (4 credits) from the following:

CHEM 1111 General Chemistry I

BISC 1111 Introductory Biology: Cells and Molecules

BISC 1112 Introductory Biology: The Biology of Organisms

One course (3 credits) from the following:

MATH 2184 Linear Algebra I

or MATH 2185 Linear Algebra I for Math Majors

MATH 3257 Introduction to Complex Variables

MATH 3342 Ordinary Differential Equations

MATH 3343 Partial Differential Equations

MATH 3359 Introduction to Mathematical Modeling

MATH 3848 Differential Geometry

MATH 4121 Introduction to Abstract Algebra I

MATH 4239 Real Analysis I

Required advanced courses (15 credits):

PHYS 2151 Intermediate Laboratory I: Techniques and Methods

or PHYS 2152 Intermediate Laboratory II: Instrumentation

PHYS 2161 Mechanics I

PHYS 2164 Thermal and Statistical Physics

PHYS 2165 Electromagnetic Theory

PHYS 2167 Principles of Quantum Physics

Two additional physics (PHYS) courses (6 credits) numbered 2000 or above

GENERAL EDUCATION

In addition to the University General Education Requirement, undergraduate students in Columbian College must complete a further, College-specific general education curriculum—Perspective, Analysis, Communication, or G-PAC. Together with the University General Education Requirement, G-PAC engages students in active intellectual inquiry across the liberal arts. Students achieve a set of learning outcomes that enhance their analytical skills, develop their communication competencies, and invite them to participate as responsible citizens who are attentive to issues of culture, diversity, and privilege.

Course work for the University General Education Requirement is distributed as follows:

- Writing—one course in university writing and two writing-in-the-disciplines (WID) courses;
- Humanities—one approved humanities course that involves critical thinking skills;
- Mathematics or Statistics—one course in either math or statistics;
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry; and,
- Social Sciences—two courses in the social sciences

Course work for the Columbian College general education curriculum is distributed as follows:

- Arts—one approved arts course that involves the study or creation of artwork based on an understanding or interpretation of artistic traditions or knowledge of art in a contemporary context;
- Global or Cross-Cultural Perspective—one approved course that analyzes the ways in which institutions, practices, and problems transcend national and regional boundaries;
- Humanities—one approved humanities course that involves critical thinking skills (in addition to the one course in this category required by the University General Education Requirement);
- Local or Civic Engagement—one course that develops the values, ethics, disciplines, and commitment to pursue responsible public action;
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry (in addition to the one course in this category required by the University General Education Requirement; and,
- Oral Communication—one course in oral communication.

Certain courses are approved to fulfill the requirement in more than one of these categories.

Courses taken in fulfillment of the Columbian College general education curriculum may also be counted toward majors or minors. Transfer courses taken prior to, but not after, admission to George Washington University may count toward the University general education requirement and Columbian College general education curriculum, if those transfer courses are equivalent to GW courses that have been approved by the University and the College.

University General Education and G-PAC Courses

- Arts (p. 695)
- Global or Cross-Cultural (p.)
- Humanities (p. 698)
- Local/Civic Engagement (p.)
- Mathematics or Statistics (p. 701)
- Natural or physical laboratory sciences (p. 702)

- Oral Communication (p. 702)
- Social Sciences (p. 703)
- Writing (p. 704)

SPECIAL HONORS

In addition to the general requirements stated under University Regulations, in order to be considered for graduation with Special Honors, a student must submit for departmental approval an honors thesis based on a two-semester research project. In addition, the student must have a cumulative grade-point average of at least 3.5 in physics courses and 3.5 overall.

BACHELOR OF SCIENCE WITH A MAJOR IN BIOPHYSICS

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 62).

Required introductory courses (20 credits):

MATH 1231	Single-Variable Calculus I
MATH 1232	Single-Variable Calculus II
MATH 2233	Multivariable Calculus
PHYS 1023	Modern Physics
or PHYS 1023W	Modern Physics
PHYS 1025	University Physics I with Biological Applications
PHYS 1026	University Physics II with Biological Applications

Required courses (33 credits):

BISC 1111	Introductory Biology: Cells and Molecules
BISC 1112	Introductory Biology: The Biology of Organisms
BISC 3209	Molecular Biology
BISC 3261	Introductory Medical Biochemistry
CHEM 1111	General Chemistry I

HONR 2047	Honors Proseminar: Social and Behavioral Sciences
or HONR 2047W	Prosem:Soc & Behav Sci
PSC 1001	Introduction to Comparative Politics
or PSC 1001W	Intro to Comparative Politics
PSC 1002	Introduction to American Politics and Government
or PSC 1002W	Intro-American Politics & Govt
PSC 1011	Introduction to Politics I
PSC 1012W	Introduction to Politics II
PSYC 2011	Abnormal Psychology *
or PSYC 2011W	Abnormal Psychology
PSYC 2012	Social Psychology *
PSYC 2013	Developmental Psychology *
PSYC 2014	Cognitive Psychology *
PSYC 2015	Biological Psychology *
SMPA 1050	Media in a Free Society
SMPA 2101	Journalism: Theory & Practice
SMPA 2102	Introduction to Political Communication
SOC 1002	The Sociological Imagination
SOC 1003	Introduction to Criminal Justice
SOC 2101	Social Research Methods
SOC 2102	Techniques of Data Analysis
SOC 2103	Classical Sociological Theory
or SOC 2103W	Classical Sociological Theory
SOC 2104	Contemporary Sociological Theory
or SOC 2104W	Contemporary Sociological Theory
SOC 2169	Urban Sociology
SPHR 1071	Foundations of Human Communication
or SPHR 1071W	Foundations of Human Communication
SPHR 1084	Perspectives in Deaf Culture
SUST 1001	Introduction to Sustainability

*PSYC 1001 is a prerequisite for all Psychology courses.

CHEM 1112	General Chemistry II
CHEM 2151	Organic Chemistry I
CHEM 2152	Organic Chemistry II
STAT 1127	Statistics for the Biological Sciences

One course (3 credits) from the following:

CSCI 1011	Introduction to Programming with Java
CSCI 1041	Introduction to FORTRAN Programming
CSCI 1111	Introduction to Software Development
CSCI 1112	Algorithms and Data Structures
CSCI 1131	Introduction to Programming with C

Required advanced courses (18 credits):

PHYS 2127	Biophysics: Macroscopic Physics in the Life Sciences
PHYS 2128	Biophysics: Microscopic Physics in the Life Sciences
PHYS 2151	Intermediate Laboratory I: Techniques and Methods
or PHYS 2151W	Intermediate Laboratory I: Techniques and Methods
or PHYS 2152	Intermediate Laboratory II: Instrumentation
PHYS 2161	Mechanics I
PHYS 2164	Thermal and Statistical Physics
PHYS 2165	Electromagnetic Theory

One course (3 credits) from the following:

PHYS 4195	Physics Capstone
PHYS 4196	Undergraduate Research in Biophysics
PHYS 4197	Undergraduate Research in Nuclear Physics

GENERAL EDUCATION

In addition to the University General Education Requirement, undergraduate students in Columbian College must complete a further, College-specific general education curriculum—Perspective, Analysis, Communication, or G-PAC. Together with the University General Education Requirement, G-PAC engages students in active intellectual inquiry across the liberal arts. Students achieve a set of learning outcomes that enhance their analytical skills, develop their communication competencies, and invite them to participate as responsible

citizens who are attentive to issues of culture, diversity, and privilege.

Course work for the University General Education Requirement is distributed as follows:

- Writing—one course in university writing and two writing-in-the-disciplines (WID) courses;
- Humanities—one approved humanities course that involves critical thinking skills;
- Mathematics or Statistics—one course in either math or statistics;
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry; and,
- Social Sciences—two courses in the social sciences

Course work for the Columbian College general education curriculum is distributed as follows:

- Arts—one approved arts course that involves the study or creation of artwork based on an understanding or interpretation of artistic traditions or knowledge of art in a contemporary context;
- Global or Cross-Cultural Perspective—one approved course that analyzes the ways in which institutions, practices, and problems transcend national and regional boundaries;
- Humanities—one approved humanities course that involves critical thinking skills (in addition to the one course in this category required by the University General Education Requirement);
- Local or Civic Engagement—one course that develops the values, ethics, disciplines, and commitment to pursue responsible public action;
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry (in addition to the one course in this category required by the University General Education Requirement; and,
- Oral Communication—one course in oral communication.

Certain courses are approved to fulfill the requirement in more than one of these categories.

Courses taken in fulfillment of the Columbian College general education curriculum may also be counted toward majors or minors. Transfer courses taken prior to, but not after, admission to George Washington University may count toward the University general education requirement and Columbian College general education curriculum, if those transfer courses are equivalent to GW courses that have been approved by the University and the College.

University General Education and G-PAC Courses

- Arts (p. 706)
- Global or Cross-Cultural (p.)
- Humanities (p. 708)

- Local/Civic Engagement (p. 711)
- Mathematics or Statistics (p. 712)
- Natural or physical laboratory sciences (p. 712)
- Oral Communication (p. 713)
- Social Sciences (p. 714)
- Writing (p. 715)

SPECIAL HONORS

In addition to the general requirements stated under University Regulations, in order to be considered for graduation with Special Honors, a student must submit for departmental approval an honors thesis based on a two-semester research project. In addition, the student must have a cumulative grade-point average of at least 3.5 in physics courses and 3.5 overall.

BACHELOR OF SCIENCE WITH A MAJOR IN PHYSICS

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 62).

Required introductory courses (20 credits):

PHYS 1021	University Physics I
or PHYS 1025	University Physics I with Biological Applications

PHYS 1022 University Physics II

or PHYS 1022W University Physics 2

or PHYS 1026 University Physics II with Biological Applications

PHYS 1023 Modern Physics

or PHYS 1023W Modern Physics

MATH 1231 Single-Variable Calculus I

MATH 1232 Single-Variable Calculus II

MATH 2233 Multivariable Calculus

One course (4 credits) from the following:

CHEM 1111 General Chemistry I

BISC 1111 Introductory Biology: Cells and Molecules

BISC 1112 Introductory Biology: The Biology of Organisms

One course (3 credits) from the following:

CSCI 1011 Introduction to Programming with Java

CSCI 1041 Introduction to FORTRAN Programming

CSCI 1121 Introduction to C Programming

Two courses (6 credits) from the following:

MATH 2184 Linear Algebra I

or MATH 2185 Linear Algebra I for Math Majors

MATH 3257 Introduction to Complex Variables

MATH 3342 Ordinary Differential Equations

MATH 3343 Partial Differential Equations

MATH 3359 Introduction to Mathematical Modeling

MATH 3553 Introduction to Numerical Analysis

MATH 3848 Differential Geometry

MATH 4121 Introduction to Abstract Algebra I

MATH 4239 Real Analysis I

or MATH 4239W Real Analysis I

Required advanced courses (15 credits):

PHYS 2151 Intermediate Laboratory I: Techniques and Methods

or PHYS 2152 Intermediate Laboratory II: Instrumentation

PHYS 2161 Mechanics I

PHYS 2164 Thermal and Statistical Physics

PHYS 2165 Electromagnetic Theory

PHYS 2167 Principles of Quantum Physics

One course (3 credits) from the following:

PHYS 4195 Physics Capstone

PHYS 4196 Undergraduate Research in Biophysics

PHYS 4197 Undergraduate Research in Nuclear Physics

Two additional physics (PHYS) courses (6 credits) numbered 2000 or above

GENERAL EDUCATION

In addition to the University General Education Requirement, undergraduate students in Columbian College must complete a further, College-specific general education curriculum—Perspective, Analysis, Communication, or G-PAC. Together with the University General Education Requirement, G-PAC engages students in active intellectual inquiry across the liberal arts. Students achieve a set of learning outcomes that enhance their analytical skills, develop their communication competencies, and invite them to participate as responsible citizens who are attentive to issues of culture, diversity, and privilege.

Course work for the University General Education Requirement is distributed as follows:

- Writing—one course in university writing and two writing-in-the-disciplines (WID) courses;
- Humanities—one approved humanities course that involves critical thinking skills;
- Mathematics or Statistics—one course in either math or statistics;
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry; and,
- Social Sciences—two courses in the social sciences

Course work for the Columbian College general education curriculum is distributed as follows:

- Arts—one approved arts course that involves the study or creation of artwork based on an understanding or interpretation of artistic traditions or knowledge of art in a contemporary context;
- Global or Cross-Cultural Perspective—one approved course that analyzes the ways in which institutions, practices, and problems transcend national and regional boundaries;
- Humanities—one approved humanities course that involves critical thinking skills (in addition to the one course in this category required by the University General Education Requirement);
- Local or Civic Engagement—one course that develops the values, ethics, disciplines, and commitment to pursue responsible public action;
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry (in addition to the one course in this category required by the University General Education Requirement; and,
- Oral Communication—one course in oral communication.

Certain courses are approved to fulfill the requirement in more than one of these categories.

Courses taken in fulfillment of the Columbian College general education curriculum may also be counted toward majors or minors. Transfer courses taken prior to, but not after, admission to George Washington University may count toward the

University general education requirement and Columbian College general education curriculum, if those transfer courses are equivalent to GW courses that have been approved by the University and the College.

University General Education and G-PAC Courses

- Arts (p. 716)
- Global or Cross-Cultural (p.)
- Humanities (p. 719)
- Local/Civic Engagement (p.)
- Mathematics or Statistics (p. 722)
- Natural or physical laboratory sciences (p. 723)
- Oral Communication (p. 723)
- Social Sciences (p. 724)
- Writing (p. 725)

SPECIAL HONORS

In addition to the general requirements stated under University Regulations, in order to be considered for graduation with Special Honors, a student must submit for departmental approval an honors thesis based on a two-semester research project. In addition, the student must have a cumulative grade-point average of at least 3.5 in physics courses and 3.5 overall.

MINOR IN BIOPHYSICS

REQUIREMENTS

Required:

PHYS 1021	University Physics I
PHYS 1022	University Physics II
PHYS 1023	Modern Physics
PHYS 2127	Biophysics: Macroscopic Physics in the Life Sciences
PHYS 2128	Biophysics: Microscopic Physics in the Life Sciences

MINOR IN PHYSICS

REQUIREMENTS

Required:

PHYS 1021	University Physics I
-----------	----------------------

PHYS 1022 University Physics II

PHYS 1023 Modern Physics

Two approved upper-division physics courses

MASTER OF SCIENCE IN THE FIELD OF PHYSICS

REQUIREMENTS

Specific admission requirements are shown on the Graduate Program Finder (<http://www.gwu.edu/all-graduate-programs>).

Prerequisite: a bachelor's degree with a major in physics at this University, or an equivalent degree.

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 62).

Required: 36 credit hours of graduate course work including:

PHYS 6110 Mathematical Methods of Theoretical Physics

PHYS 6120 Advanced Mechanics

PHYS 6210 Electrodynamics and Classical Field Theory

PHYS 6220 Quantum Mechanics I

PHYS 6310 Statistical Mechanics

PHYS 6510 Communications in Physics

PHYS 6580 Laboratory

PHYS 6130 Computational Physics I

PHYS 6230 Computational Physics II

PHYS 6330 Computational Physics III

One of the following options:

Option A: two of the following:

PHYS 6610 Nuclear and Particle Physics I-II

PHYS 6710 Nuclear and Particle Physics II

PHYS 6620 Biophysics I

PHYS 6720 Biophysics II

PHYS 6630 Astrophysics I

PHYS 6730 Astrophysics II

Option B: Thesis option

PHYS 6998 Thesis Research

PHYS 6999 Thesis Research

DOCTOR OF PHILOSOPHY IN THE FIELD OF PHYSICS

REQUIREMENTS

Specific admission requirements are shown on the Graduate Program Finder. (<http://www.gwu.edu/all-graduate-programs>)

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 62).

The requirements for the Doctor of Philosophy Program (p. 70).

Required courses:

PHYS 6110 Mathematical Methods of Theoretical Physics

PHYS 6120 Advanced Mechanics

PHYS 6210 Electrodynamics and Classical Field Theory

PHYS 6220 Quantum Mechanics I

PHYS 6310 Statistical Mechanics

PHYS 6320 Quantum Mechanics II

PHYS 6130 Computational Physics I

PHYS 6230 Computational Physics II

PHYS 6330 Computational Physics III

PHYS 6510 Communications in Physics

One of the following options:

Option A

PHYS 6610 Nuclear and Particle Physics I-II

PHYS 6710 Nuclear and Particle Physics II

Option B

PHYS 6620 Biophysics I

PHYS 6720 Biophysics II

Option C

PHYS 6630 Astrophysics I

PHYS 6730 Astrophysics II

Specific course requirements can be waived on a case-by-case basis upon approval of the department's graduate advisor.

Research fields

- Nuclear physics—experimental and theoretical studies on the structure, electromagnetic, weak and strong interactions, and scattering of few-body systems at low and intermediate energies;
- Biophysics and condensed-matter physics—experimental, theoretical, and computational studies of structures and functions of cells, biological networks and biomolecules, deciphering information encoded in genome; theoretical and observational astrophysics; interdisciplinary physics, including energy research and physics education research.

POLITICAL SCIENCE

The Department of Political Science, part of the social and behavioral sciences discipline in the Columbian College of Arts and Sciences, offers a program that examines politics in depth on both a national and international scale. Classroom study is supplemented by opportunities to intern on Capitol Hill or at government agencies.

UNDERGRADUATE

Bachelor's programs

- Bachelor of Arts with a major in political science (p. 735)
- Bachelor of Arts with a major in political science (public policy focus) (p. 747)
- Combined program (p. 758)

Minors

- Minor in political science (p. 758)
- Minor in public policy (p. 759)

GRADUATE

Master's program

- Master of Arts in the field of political science (p. 760)
- Master of Arts in the field of legal institutions and theory (p. 759)

Doctoral program

- Doctor of Philosophy in the field of political science (p. 760)

FACULTY

University Professors M. Barnett, M. Finnemore

Professors S. Biddle, S. Binder, M.E. Brown, N.J. Brown, C.J. Deering, B. Dickson, H.B. Feigenbaum, C. Glaser, J.H. Lebovic,

M. Lynch, F. Maltzman, C. McClintock, K.J. Morgan, H.R. Nau, S.K. Sell, D. Shambaugh, M.J. Sodaro, P. Wahlbeck (*Chair*), S.L. Wolchik

Associate Professors S.J. Ball, B. Bartels, A. Bowie, I. Creppell, A. Downes, H. Farrell, H.E. Hale, D. Hayes, E.D. Lawrence, C. McConnaughy, M.M. Mochizuki, J.M. Sides, R.P. Stoker, E.J. Teitelbaum, I. White, S. Wiley

Assistant Professors R.F. Adcock, M. Allendoerfer, C. Arrington, S. Goldman, E. Grynawski, E. Finkel, S. Kaplan, E. Kramon, Y. Lupu, M. Miller, C. Mylonas, E. Saunders, R. Stein, C. Talmadge, W.J. Winstead, A. Ziegfeld

COURSES

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000–4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

Departmental prerequisite: PSC 1001 Introduction to Comparative Politics is prerequisite to Group A courses (comparative politics), PSC 1002 Introduction to American Politics and Government is prerequisite to Group B courses (American government and politics), and PSC 1003 Introduction to International Politics is prerequisite to Group C courses (international politics, law, and organizations). Honors course equivalents are acceptable substitutes. Students who have taken PSC 1011 Introduction to Politics I–PSC 1012W Introduction to Politics II have fulfilled prerequisites to all three groups. Elliott School students substitute IAFF 1005 Introduction to International Affairs: A Washington Perspective for PSC 1003 Introduction to International Politics as a prerequisite to Group C courses.

PSC 1000. Dean's Seminar. 3 Credits.

The Dean's Seminars provide Columbian College first-year students focused scholarship on specific intellectual challenges. Topics vary by semester. Consult the Schedule of Classes for more details. Restricted to First-year students in CCAS.

PSC 1001. Introduction to Comparative Politics. 3 Credits.

Concepts and principles of comparative analysis, with an examination of politics and government in selected countries.

PSC 1001W. Intro to Comparative Politics. 0-3 Credits.

Concepts and principles of comparative analysis, with an examination of politics and government in selected countries.

PSC 1002. Introduction to American Politics and Government. 3 Credits.

Structure, powers, and processes of the American political system and the impact on public policy.

PSC 1002W. Intro-American Politics & Govt. 3 Credits.

Structure, powers, and processes of the American political system and the impact on public policy.

PSC 1003. Introduction to International Politics. 3 Credits.

Analysis of world politics, focusing on the role of nation-states and international organizations and on selected foreign policy issues.

PSC 1011. Introduction to Politics I. 6 Credits.

Role of personal and social values in politics. Problems in the Western (especially American) tradition of political science. Admission by special selection process.

PSC 1012W. Introduction to Politics II. 6 Credits.

Continuation of PSC 1011. Role of personal and social values in politics. Thinking outside the Western state: culture, nationalism, ethnic conflict, democratization, international conflict. Admission by special selection process.

PSC 2000. Sophomore Colloquium. 3 Credits.

The Sophomore Colloquia are small seminar-style courses limited to second-year students in Columbian College. These courses engage students deeply in a discipline, focus on a narrow issue of high interest and impact, and require independent research projects of the students. Topics vary by semester. Consult the schedule of classes for more details. Restricted to Registration by instructor approval.

PSC 2099. Variable Topics. 1-12 Credits.

Use denotes upper-level transfer credit in political science.

PSC 2101. Scope and Methods of Political Science. 3 Credits.

Nature of political inquiry, approaches to the study of politics and government, empirical methods of research.

PSC 2102. Visualizing and Modeling Politics. 3 Credits.

The class builds on PSC 2101, Scope and Methods of Political Science, with emphasis on working with data to examine political questions. Prerequisites: PSC 2101.

PSC 2105. Major Issues of Western Political Thought I. 3 Credits.

Foundations of Western political thought—Plato to Aquinas.

PSC 2106. Major Issues of Western Political Thought II. 3 Credits.

History of political thought from the 16th through the late 19th century, as set forth in the works of representative thinkers.

PSC 2106W. Major Issues of Western Political Thought II. 3 Credits.

History of political thought from the 16th through the late 19th century, as set forth in the works of representative thinkers. Writing intensive.

PSC 2107. 20th-Century Political Thought. 3 Credits.

Recent Western political thought; analysis and critique of the legacies of modern political theories and ideologies.

PSC 2108. Freedom and Equality. 3 Credits.

Case analysis of major ideas related to freedom and equality in the Western political tradition.

PSC 2110. American Political Thought. 3 Credits.

Political thought in the U.S. from colonial times to the present as seen through major representative writings.

PSC 2120W. Freedom in American Thought and Popular Culture. 0-3 Credits.

An inquiry into definitions of freedom through examination of American political thought and popular culture. Writing intensive. (Same as AMST 2120W).

PSC 2211. State and Urban Politics. 3 Credits.

Comparative analysis of context, institutions, processes, and policies of state and urban political systems. Prerequisite: PSC 1002.

PSC 2212. State and Urban Policy Problems. 3 Credits.

Selected issues in state and urban policymaking, with emphasis on urban and metropolitan settings. Prerequisite: PSC 1002.

PSC 2213. Judicial Politics. 3 Credits.

An examination of judicial process and behavior. Emphasis on judicial selection, decision making, interaction with the political environment, and impact and implementation of decisions. Prerequisite: PSC 1002.

PSC 2214. U.S. Constitutional Law and Politics I. 3 Credits.

Separation of powers, federal-state relationships, economic regulation. Prerequisites: PSC 1002.

PSC 2215. U.S. Constitutional Law and Politics II. 3 Credits.

Political and civil rights. Prerequisites: PSC 1002.

PSC 2216. The American Presidency. 3 Credits.

Examination of the politics of presidential selection, the authority of the contemporary institution, the mechanisms and processes for formulating public policy, and the influences of personality on performance in office. Prerequisite: PSC 1002.

PSC 2217. Executive Branch Politics. 3 Credits.

Basic concepts in public administration; influence of bureaucratic politics on policy formulation and implementation. Prerequisite: PSC 1002. Same as PPPA 2117.

PSC 2218. Legislative Politics. 3 Credits.

Theory, structure, and process of the U.S. Congress, with emphasis on elections, party organization, committees, and floor procedure, in the context of executive-legislative relations and interest-group activities. Prerequisite: PSC 1002.

PSC 2218W. Legislative Politics. 3 Credits.

Theory, structure, and process of the U.S. Congress, with emphasis on elections, party organization, committees, and floor procedure, in the context of executive-legislative relations and interest-group activities. Writing intensive. Prerequisites: PSC 1002.

PSC 2219. Political Parties and Interest Groups. 3 Credits.

Role of parties as a linkage between mass preferences and government policies. Organization, nominations, voting, and activities in legislative and executive branches. Prerequisite: PSC 1002.

PSC 2220. Public Opinion. 3 Credits.

How public opinion is measured, how it is shaped, and its consequences for policymaking. Prerequisite: PSC 1002.

PSC 2221. African-American Politics. 3 Credits.

The evolution, nature, and role of African Americans within the U.S. political system. How the African American experience has shaped American politics (specifically public opinion, political behavior, political institutions, and salient public policy debates) and how black Americans have come to understand their position within the American political system. Prerequisites: PSC-1002 or PSC-002 or ((PSC-1011 or PSC-011) and (PSC-1012 or PSC-012 or PSC-012W or PSC-1012W)).

PSC 2222. Science, Technology, and Politics. 3 Credits.

Multiple impacts of scientific and technological developments on the political systems. Discussion of public policies for support, use, and control of science and technology. Prerequisite: PSC 1002.

PSC 2223. Campaigns and Elections. 3 Credits.

Examination of the various forms of American political participation in electoral and governmental politics and their effects on the political process. Prerequisite: PSC 1002.

PSC 2224. Issues in Domestic Public Policy. 3 Credits.

Examination of the decision-making process and the substance of various issues in domestic public policy in such areas as crime, economics, education, energy, the environment, poverty, and health. Prerequisite: PSC 1002.

PSC 2225. Women and Politics. 3 Credits.

An examination of the role and impact of women in politics, including women's interests and access to the political system; specific public policy issues with a particular focus on the role of women. Prerequisite: PSC 1002.

PSC 2228. Media, Politics, and Government. 3 Credits.

Exploration of the role played by communication, principally through the mass media, in the conduct of government and the making of public policy. Same as SMPA 3428. Prerequisite: PSC 1002.

PSC 2229. Media and Politics. 3 Credits.

The impact of the media on American politics, including the nature of coverage of political issues and campaigns, dynamics of selecting and presenting news stories, and consequences of media messages for public opinion and action. Prerequisite: PSC 1002.

PSC 2230. Law and Justice: The View from Hollywood. 3 Credits.

Analysis of films that focus on justice, the law, and the legal system. Consideration of what they tell us about political and legal culture and what messages they may have for contemporary legal issues. Focus on the relationship between law and justice, the practice of law, and the role of courts and trials in a political system. Prerequisites: PSC 1002.

PSC 2330. Comparative Politics of Western Europe. 3 Credits.

Comparative political analysis with primary focus on the principal states of Western Europe. Prerequisite: PSC 1001.

PSC 2331. Comparative Politics of Central and Eastern Europe. 3 Credits.

Specific countries vary, to include nations of central and Eastern Europe and/or the newly independent states of the former Soviet Union. Prerequisite: PSC 1001.

PSC 2332. European Integration. 3 Credits.

The history of the European Union, its accomplishments as an international actor, and the vibrant debates over its future. Prerequisite: PSC 1001.

PSC 2334. Global Perspectives on Democracy. 3 Credits.

International experiences with the historical evolution and current nature of democratic political systems. Prerequisite: PSC 1001.

PSC 2336. State-Society Relations in the Developing World. 3 Credits.

Historically informed exploration of enduring issues of concern in state-society relations, with an empirical focus on selected countries and regions of the developing world. Prerequisite: PSC 1001.

PSC 2337. Development Politics. 3 Credits.

An examination of how and why political systems develop the way they do. Why do some countries develop into democracies, while others become authoritarian? How do class conflict, the nature of the elite, and the political culture affect the development of political institutions? Prerequisite: PSC 1001.

PSC 2338. Nationalism. 3 Credits.

Causes and the effects of nationalism, covering cases from around the world. Prerequisites: PSC 1001, PSC 1011, PSC 1012W.

PSC 2366. State-Society Relations in the Developing World. 3 Credits.

An examination of political institutions, processes, and issues of Russian politics. Prerequisite: PSC 1001.

PSC 2367. Human Rights. 3 Credits.

Human rights theory, the various movements for human, religious, civil, political, and other rights. Prerequisite: PSC 1001.

PSC 2367W. Human Rights. 3 Credits.

Human rights theory, the various movements for human, religious, civil, political, and other rights. Writing intensive. Prerequisites: PSC 1001.

PSC 2368. Politics in the Two Koreas. 3 Credits.

An examination of political institutions, processes, and issues in South Korea and North Korea as well as in inter-Korean relations and major-power involvement in peninsular affairs. Prerequisites: PSC-1001 or PSC-001 or PSC-1001W or PSC-001W or ((PSC-1011 or PSC-011) and (PSC-1012 or PSC-012 or PSC-012W or PSC-1012W)).

PSC 2369. Comparative Politics of South Asia. 3 Credits.

A comparative examination of colonialism, economic development, and identity politics in South Asia. Prerequisite: PSC 1001.

PSC 2370. Comparative Politics of China and Northeast Asia. 3 Credits.

Political institutions and processes of China (including Taiwan), Japan, and Korea since World War II. Influence of indigenous traditions and foreign contacts. Prerequisite: PSC 1001.

PSC 2371. Politics and Foreign Policy of China. 3 Credits.

An examination of political institutions, processes, history, and issues of Chinese politics and foreign policy. Prerequisite: PSC 1001.

PSC 2373. Comparative Politics of Southeast Asia. 3 Credits.

Political forces, processes, and outcomes, using empirical examples from Southeast Asia. Prerequisite: PSC 1001.

PSC 2374. Politics and Foreign Policy of Japan. 3 Credits.

An examination of political institutions, processes, and issues of Japanese politics and foreign policy. Prerequisite: PSC 1001.

PSC 2377. Comparative Politics of the Middle East. 3 Credits.

Politics of the eastern Arab states, Turkey, Iran, and Israel. Prerequisite: PSC 1001.

PSC 2377W. Comparative Politics of the Middle East. 3 Credits.

Politics of the eastern Arab states, Turkey, Iran, and Israel. Writing intensive. Prerequisites: PSC 1001.

PSC 2379. Politics and Foreign Policy of Israel. 3 Credits.

Examination of the institutions, processes, and issues of Israeli politics and foreign policy. Prerequisite: PSC 1001.

PSC 2381. Comparative Politics of Middle and Southern Africa. 3 Credits.

Comparative analysis of political systems in selected countries of non-Mediterranean Africa. Prerequisite: PSC 1001.

PSC 2383. Comparative Politics of Latin America. 3 Credits.

The politics of selected countries in South America, Central America, and the Caribbean. Emphasis on democratization. Prerequisite: PSC 1001.

PSC 2439. International Political Economy. 3 Credits.

Analysis of the political aspects of global economic relationships, focusing on such issues as economic hegemony, interdependence, trade relations, development assistance, multinational corporations, and the role of international organizations. Prerequisite: PSC 1003.

PSC 2440. Theories of International Politics. 3 Credits.

Exploration of alternative theoretical approaches to understanding world politics in its historical and contemporary dimensions. Prerequisite: PSC 1003.

PSC 2442. International Organizations. 3 Credits.

Development and operations of international organizations working in the areas of collective security, peacekeeping, trade, finance, environment, human rights. Prerequisite: PSC 1003.

PSC 2442W. International Organizations. 3 Credits.

Development and operations of international organizations working in the areas of collective security, peacekeeping, trade, finance, environment, human rights. Writing intensive. Prerequisites: PSC 1003.

PSC 2444. Public International Law. 3 Credits.

Survey of essential principles and concepts of public international law through case analysis and with reference to political factors. Prerequisite: PSC 1003.

PSC 2446. U.S. Foreign Policy. 3 Credits.

Survey of essential principles and concepts of public international law through case analysis and with reference to political factors. Prerequisite: PSC 1003.

PSC 2449. International Security Politics. 3 Credits.

Overview of international security issues. Insights from a variety of historical periods and theoretical approaches inform the analysis. Prerequisite: PSC 1003.

PSC 2449W. International Security Politics. 3 Credits.

Overview of international security issues. Insights from a variety of historical periods and theoretical approaches inform the analysis. Writing intensive. Prerequisite: PSC 1003.

PSC 2461. European-Atlantic Relations. 3 Credits.

International politics of the North Atlantic area, the European Union, and U.S.-European relations. Prerequisite: PSC 1003.

PSC 2468. Post-Soviet Foreign Policy. 3 Credits.

External problems and policies of Russia and the other successor states of the former USSR (especially the Baltics, Ukraine, and southern rim of the former Soviet Union). Prerequisite: PSC 1003.

PSC 2475. International Relations of East Asia. 3 Credits.

Analysis of the foreign policies of selected East Asian countries and the foreign policies of major powers toward the region. Prerequisite: PSC 1003.

PSC 2476. The Arab-Israeli Conflict. 3 Credits.

Origins, evolution, and issues of the Arab-Israeli conflict. Prerequisite: PSC 1003.

PSC 2478. International Relations of the Middle East. 3 Credits.

Analysis of the regional and international relations of the Middle East. Prerequisite: PSC 1003.

PSC 2482. African International Politics. 3 Credits.

Analysis of interstate relations in Africa and of selected aspects of African relations with the outside world. Prerequisite: PSC 1003. Recommended prerequisite: PSC 2381.

PSC 2484. International Relations of Latin America. 3 Credits.

Emphasis on U.S. foreign policy toward Latin America. Prerequisite: PSC 1003.

PSC 2987. Internship: Political Science. 1-3 Credits.

Study of political behavior and institutions through internship experience. Open to departmental majors only. Admission requires departmental approval and junior standing.

PSC 2988. Internship in Law & Society. 3 Credits.

PSC 2990. Selected Topics. 3 Credits.

PSC 2990W. Selected Topics. 3 Credits.

PSC 2991. Special Topics in Political Thought. 3 Credits.

PSC 2992. Special Topics in American Politics and Government. 3 Credits.

Prerequisite: PSC 1002.

PSC 2993. Special Topics in Comparative Politics. 3 Credits.

Prerequisite: PSC 1001.

PSC 2994. Special Topics in International Relations. 3 Credits.

Prerequisite: PSC 1003.

PSC 2994W. Special Topics in International Relations. 3 Credits.

Writing intensive. Prerequisites: PSC 1003.

PSC 3192W. Proseminar: Political Science. 3 Credits.

Examination of selected problems in political science. Admission restricted to political science majors in their junior or senior year. May be repeated once for credit.

PSC 4991. Independent Study. 1-3 Credits.

For departmental majors. Prerequisite: senior standing, 15 credit hours of upper-division political science courses, and approval of the undergraduate program advisor and the faculty member who will direct the study.

PSC 6103. Approaches to Public Policy Analysis. 3 Credits.

Primarily for master's students. Empirical and normative foundations of systematic policy analysis: concepts, theories, models, issues, strengths, limitations, and uses and misuses in the policy process.

PSC 6113. The Constitution: History and Ideas. 3 Credits.

With a focus on the history and ideas that influenced James Madison, consideration of ideas that formed the common heritage of all the framers of the Constitution. The separate traditions of liberty that were fused together in the Constitution. Early changes in American society that placed one of those traditions at the center of America's self-understanding.

PSC 6114. Theories of Judicial Review. 3 Credits.

How and why the U.S. Supreme Court interprets the Constitution. The theory behind the practice of judicial review. Consideration of such questions as whether the Constitution intended judicial review and how the two wings of today's Court justify their own position on judicial review.

PSC 6330. Comparative Government and Politics. 3 Credits.

Open to Elliott School students only. Examination of basic approaches to comparative politics.

PSC 6333. Comparative Politics of Russia and Eurasia. 3 Credits.

Comparative analysis of politics in the post-Soviet region. Theoretical and methodological approaches to understanding important issues, frequently including democracy/autocracy, ethnic conflict, political economy, center-periphery relations, and state building.

PSC 6336. Political Econ-Dev Areas. 3 Credits.

PSC 6338. U.S. Foreign Economic Policy. 3 Credits.

Exploration of ideas and issues involved in U.S. foreign economic policy, including relationship of economic and security issues, interdependence, protectionism, role of the dollar, industrial policy, and the debt crisis.

PSC 6345. Comparative Foreign Policy. 3 Credits.

The relationship of international actors with one another and with their external environment analyzed in a comparative framework. Focus on nation-states as well as non-state actors, such as international organizations. Differences and similarities in policies on economics, diplomacy, security, and global issues.

PSC 6346. The Politics of U.S. Foreign Policy. 3 Credits.

Patterns and problems in contemporary U.S. foreign policy. Special attention given to the domestic political factors shaping foreign policy.

PSC 6347. U.S. Foreign Policy Traditions. 3 Credits.

Contemporary debate about the substance of American foreign policy through the lens of alternative theoretical approaches to the study of international relations. Classical realist (national interest), neorealist (balance of power), neoliberal (international interdependence and institutions), and constructivist (national identity) interpretations are compared.

PSC 6348. Politics of U.S. National Security Policy. 3 Credits.

Examines competing theoretical approaches to the study of national security policy and tests these on a variety of substantive issue areas in the United States. (May include such topics as nuclear non-proliferation, responses to regional conflicts, definition of new security goals, etc.).

PSC 6349. International Security Politics. 3 Credits.

Overview of the major theoretical debates in international security. How different theoretical approaches inform policy decisions and options.

PSC 6350. Foreign Policy Analysis—Selected Topics. 3 Credits.

Analysis of U.S. foreign policy toward selected world regions.

PSC 6351. Civil-Military Relations. 3 Credits.

Substantive and theoretical issues and debates in the study of civil-military relations.

PSC 6360. Western European Politics. 3 Credits.

Examination of the principal characteristics of the British, French, German, and Italian political systems, comparing their institutional and behavioral adaptations to the problems of advanced industrial democracies.

PSC 6361. Politics of European Integration. 3 Credits.

The origins, institutions, and politics of West European integration, with emphasis on theories of regional integration and the development of the European Union.

PSC 6362. Nation-Building in the Balkans. 3 Credits.

PSC 6364. Comparative Governments and Politics of Central And Eastern Europe. 3 Credits.

Comparative analysis of domestic political processes and policies in Central and Eastern Europe.

PSC 6366. Government and Politics of Russia. 3 Credits.

The politics and development of the Russian state.

PSC 6367. Post-Soviet Politics. 3 Credits.

How the study of former Soviet countries contributes to major debates in comparative politics. Focus includes regimes, political economy, revolutions, ethnic politics, nationalism.

PSC 6368. Japanese Politics and Foreign Policy. 3 Credits.

Japan's path to modernity and the impact its pattern of development has had on the nation's democratization, political economy, and political institutions in the post-1945 period.

PSC 6370. Politics of China I. 3 Credits.

Readings and discussion of the political dynamics and policy process in contemporary China.

PSC 6371. Politics of the PRC 2. 3 Credits.

Research seminar on selected topics in Chinese politics, using official and other primary sources. Prerequisites: PSC 6370 or permission of instructor.

PSC 6372. Foreign Policy of the PRC. 3 Credits.

Readings and research on the main approaches to analyzing China's foreign policy and foreign relations.

PSC 6373. Political Economy of Industrializing Asia. 3 Credits.

Comparative analysis of the relationship between economic interests and politics in East and Southeast Asia. Emphasis on industrializing economies and their integration into global trade and investment networks.

PSC 6374. Korean Politics. 3 Credits.

An examination of Korean politics from the perspectives of four major research areas: authoritarian regime and economic growth; democratic transition and consolidation; the Asian financial crisis and its consequences; and the two Koreas and international relations.

PSC 6377. Comparative Politics of the Middle East. 3 Credits.

Readings and research on selected problems of the governments and politics of the Middle East.

PSC 6379. Government and Politics of Africa. 3 Credits.

Major theories and themes of African politics considering the context shaping political and economic reforms, formal and informal institutions, and prospects for political reform.

PSC 6383. Comparative Politics of Latin America. 3 Credits.

Readings and discussion on the politics of selected countries in South America, Central America, and the Caribbean. Emphasis on the possibilities for democracy and revolution.

PSC 6388. Topics in Comparative Politics. 3 Credits.

PSC 6390. Politics and Culture. 3 Credits.

PSC 6439. International Political Economy. 3 Credits.

Research seminar exploring alternative theoretical approaches to the study of international political economy and their application to the explanation and interpretation of historical and contemporary events in world political and economic affairs. Primarily for Elliott School degree candidates.

PSC 6440. Theory-International Relations. 3 Credits.

Open to Elliott School students only. Theories of international relations.

PSC 6442. Politics and Practice of International Institutions. 3 Credits.

The politics of international institutions in the areas of collective security, peace keeping, trade, money, development, environment, human rights.

PSC 6444. Politics of International Law. 3 Credits.

The political sources and consequences of international law and norms.

PSC 6456. Origins/Major Wars & Terrorism. 3 Credits.

An examination of the origins of major wars, including terrorism, from the 18th to the 20th centuries from the theoretical perspectives of realism, liberalism, and constructivism/identity.

PSC 6457. Arms Control & Disarmament. 3 Credits.

Major issues and trends in the postwar development of U.S. arms control and disarmament policy.

PSC 6465. The International Politics of Central and Eastern Europe. 3 Credits.

Major historical, political, social, and regional factors that have shaped the interwar, World War II, and postwar evolution of Eastern Europe; emphasis on foreign relations with outside powers and on regional East-West contacts.

PSC 6467. Asian Security. 3 Credits.

An examination of the major issues in Asian Security using various theoretical perspectives involving a mix of political science and policy analysis.

PSC 6475. International Politics of East Asia. 3 Credits.

Foreign policies and international behavior of the regional states (especially China, Japan, and Vietnam) and the extraregional powers (especially the U.S. and Russia).

PSC 6476. The Arab-Israeli Conflict. 3 Credits.

Readings and research on the origins, evolution, and issues of the Arab-Israeli conflict.

PSC 6478. International Relations of the Middle East. 3 Credits.

Readings and research on the regional and international relations of the Middle East.

PSC 6484. International Relations of Latin America. 3 Credits.

Readings and discussion on U.S.-Latin American relations and the foreign policies of selected states.

PSC 6489. Topics in International Relations. 3 Credits.

PSC 6987. Legal Internship. 3 Credits.

Study of the interior workings of legal institutions and related organizations through an approved internship with a court, law firm, legal advocacy group, public defender's office, or legal think tank. A research paper is required.

PSC 6996. Reading. 3 Credits.

Limited to graduate degree candidates. Written permission of instructor required.

PSC 6997. Research. 3 Credits.

Limited to graduate degree candidates. Written permission of instructor required.

PSC 6998. Thesis Research. 3 Credits.

PSC 6999. Thesis Research. 3 Credits.

PSC 8101. Introduction to Empirical Political Analysis. 3 Credits.

Statistical foundations of empirical political analysis and computer applications. Basic probability theory, exploratory and descriptive data analysis, statistical inference, and introduction to linear regression. Laboratory fee.

PSC 8102. Empirical Political Analysis. 3 Credits.

Techniques of social science data analysis. Model building, estimation, and interpretation. Linear models and extensions. Introduction to discrete choice models. Prerequisite: PSC 8101 or permission of instructor.

PSC 8103. Approaches to Policy Analysis. 3 Credits.

Primarily for doctoral students. Empirical and normative foundations of systematic policy analysis: concepts, theories, models, issues, strengths, limitations, and uses and misuses in the policy process.

PSC 8104. Qualitative Research Methods. 3 Credits.

Theoretical, practical, and ethical aspects of conducting qualitative research.

PSC 8105. Readings in Political Theory. 3 Credits.

Selected major works, both ancient and modern, that illuminate basic problems and questions of political theory.

PSC 8106. Topics in Political Theory. 3 Credits.

Advanced readings and group discussions. Analysis and interpretation of selected concepts and schools of thought.

PSC 8107. Modern Political Thought and Ideologies. 3 Credits.

Analysis of some main currents in modern political thought and ideologies.

PSC 8108. Craft of Political Inquiry. 3 Credits.

Logic of inquiry in political science: theories of knowledge, inference, and research methods.

PSC 8109. Systematic Inquiry and Research Design. 3 Credits.

Study design, data collection, and models of analysis in political science.

PSC 8120. Nonlinear Models. 3 Credits.

Introduction to maximum likelihood estimation interpretation of non-linear statistical models. Statistical inference, appropriate use, and presentation and interpretation of results.

PSC 8122. Logitudinal Analysis. 3 Credits.

Examination of two classes of statistical models for longitudinal data—(1) models for time-series, cross-sectional and panel data and (2) modeling event history (i.e., duration, survival, hazard).

PSC 8124. Multilevel Modeling. 3 Credits.

Statistical issues and models for multilevel (hierarchical) data structures, including the variance components, random intercept, and random coefficient models. Handling cross-level interactions.

PSC 8130. Game Theory I. 3 Credits.

Introduction to the core elements of game theory and how it has been utilized in political science. Applications of formal models to political phenomena and the major insights that have come from this work. Restricted to PSC graduate students only.

PSC 8131. Game Theory II. 3 Credits.

Builds on the introductory material in Game Theory I to focus on examples of formal work in political science. Students expand their knowledge of advanced games and learn the principles behind exemplary published research. Restricted to Registration restricted to PSC graduate students only.

PSC 8132. Network Analysis. 3 Credits.

Sociological and psychological foundations of network theory; network measurement and inferential tools; applications of these tools and concepts to political science. Restricted to Registration restricted to PSC graduate students only.

PSC 8185. Topics in Empirical and Formal Political Analysis. 3 Credits.

Selected topics in quantitative political methodology and formal political theory with varying emphasis on maximum likelihood estimation, nonlinear models, causal inference, formal theories, and mathematical/computational tools for the social sciences. May be repeated for credit. Prerequisite: PSC 8102 .

PSC 8187. Selected Topics in Political Theory. 3 Credits.

In-depth coverage of significant issues in political theory, including such topics as justice, toleration, and political community. For advanced students.

PSC 8210. American Political Process. 3 Credits.

A survey of American political institutions, processes, and behavior.

PSC 8211. Urban Politics. 3 Credits.

Comparative analysis of the context, institutions, processes, and policies of urban political systems.

PSC 8212. Urban Policy Problems. 3 Credits.

Analysis of public policy issues confronting urban governments; emphasis on the theoretical roots and empirical impact of past and present programs in such areas as housing, education, poverty, and crime.

PSC 8213. Judicial Politics. 3 Credits.

Introduction to the literature of judicial process and behavior studies; specific focus on selected topics. Emphasis on the major subfields of law, courts, and judicial process.

PSC 8215. Law, Politics, and Society. 3 Credits.

Role of the judiciary in policy formulation; emphasis on the U.S. Supreme Court and civil liberties issues.

PSC 8216. American Presidency. 3 Credits.

Personalized and institutionalized aspects of the presidency, with particular emphasis on the politics of contemporary policymaking.

PSC 8217. Executive Branch Politics. 3 Credits.

Structure and operation of governmental bureaucracy with particular emphasis on the politics of formulating and implementing public policy.

PSC 8218. Legislative Politics. 3 Credits.

Theory, structure, and process of the U.S. Congress, with emphasis on member-constituency relations, individual and collective decision making, party and committee activities, executive-legislative relations, and interest-group activities.

PSC 8219. Political Parties and Elections. 3 Credits.

Nature and functions of American political parties: organizational status, nominating and electoral politics, and role in governing.

PSC 8220. Public Opinion and Political Psychology. 3 Credits.

Sources and dynamics of public opinion and political socialization.

PSC 8221. Interest-Group Politics. 3 Credits.

Theory, structure, and activities of interest groups in American politics.

PSC 8226. Politics and Organizations. 3 Credits.

Theoretical approaches to understanding organizational behavior and change; applications to specific political problems in U.S., international, and comparative politics.

PSC 8229. Politics and Public Policy. 3 Credits.

Examination of political processes that influence policy formulation, policy implementation, and the uses of policy analysis.

PSC 8286. Selected Topics in American Politics. 3 Credits.

In-depth coverage of significant theoretical and empirical issues in American politics, including such topics as political behavior, electoral politics, and race and politics. For advanced students. (Offered as the demand warrants).

PSC 8331. Advanced Theories of Comparative Politics. 3 Credits.

Major concepts, methods, and theoretical debates in comparative politics, including cultural, rational, and institutional approaches.

PSC 8333. Political Violence. 3 Credits.

Theoretical and methodological approaches to studying violence, such as civil wars, ethnic riots, suicide bombings, and genocide, and the impact of violence on societies and people. Restricted to Registration restricted to PSC graduate students only.

PSC 8334. Democracy and Democratization in Comparative Perspective. 3 Credits.

Theoretical approaches to processes of democratization. Evaluation of cultural, economic, institutional, and international-actor approaches. Case analysis of recently transitioned or transitioning nations. Primarily for Ph.D. students in political science.

PSC 8337. Theories of Political Development. 3 Credits.

Examination of how and why political systems develop the way they do. Why do some countries develop into democracies, while others become authoritarian? How do class conflict, the nature of the elite, and the political culture affect the development of political institutions?.

PSC 8338. Nationalism and Nation-Building. 3 Credits.**PSC 8340. Authoritarianism. 3 Credits.****PSC 8341. Theories of Ethnic Politics. 3 Credits.**

Focus on cutting-edge interdisciplinary theories of ethnicity's role in politics. Ethnicity's relationship to democracy, economy, psychology, conflict, and solutions. Cases worldwide.

PSC 8388. Selected Topics in Comparative Politics. 3 Credits.

In-depth coverage of significant theoretical and empirical issues in comparative politics, including such topics as democratization, the politics of development, the role of the state in advanced industrial societies, gender and ethnicity, and the politics of nationalism. (Offered as the demand warrants).

PSC 8441. Advanced Theories of International Politics. 3 Credits.

Perspectives examined range from realism to critical theory and focus upon a variety of explanatory variables.

PSC 8450. Topics-International Relations. 3 Credits.

PSC 8452. Theories of International Security. 3 Credits.

Focus on conflict in different systems and scenarios and on causes and consequences of different strategies. The role of ethics in international security.

PSC 8453. Advanced Theories of International Political Economy. 3 Credits.

Major theories of political economy, from classical perspectives on problems of international cooperation to modern treatments of trade, finance, investment, and regulation.

PSC 8454. Domestic Politics and International Relations. 3 Credits.

Theoretical and empirical approaches to exploring the relationship between domestic politics and international relations. Restricted to Open to PhD students in Political Science and MA students with permission of the instructor.

PSC 8460. Military Intervention. 3 Credits.

Theoretical and empirical approaches to the study of military interventions. The challenges of designing political science research on a complex and policy-relevant topic like military intervention.

PSC 8461. Military Effectiveness. 3 Credits.

Theories of military effectiveness in conventional wars. Case studies of several conflicts and brief exploration of effectiveness in unconventional wars.

PSC 8462. Civil War. 3 Credits.

Theories of causes, conduct, and termination of civil wars. Consideration of violence against civilians, rebel recruitment, counterinsurgency, and civil war outcomes.

PSC 8489. Selected Topics in International Politics. 3 Credits.

In-depth coverage of significant theoretical and empirical issues in international politics, including such topics as comparative foreign policy, ethics and norms in international politics, the politics of military intervention, and theories of security in a post-Cold War environment. For advanced students. (Offered as the demand warrants).

PSC 8997. Advanced Reading. 1-3 Credits.

Limited to students preparing for the Doctor of Philosophy general examination. May be repeated for credit.

PSC 8998. Advanced Research. 1-12 Credits.

Limited to students preparing for the Doctor of Philosophy general examination. May be repeated for credit.

PSC 8999. Dissertation Research. 2-12 Credits.

Limited to Doctor of Philosophy candidates. May be repeated for credit.

BACHELOR OF ARTS WITH A MAJOR IN POLITICAL SCIENCE

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 62).

Prerequisite:

PSC 1001 Introduction to Comparative Politics

PSC 1002 Introduction to American Politics and Government

PSC 1003 Introduction to International Politics (or the equivalent)

Two courses in either economics or history*, and an additional four courses in the social sciences chosen from the following departments: ANTH (except ANTH 1001, ANTH 1005, or 3400s), COMM, GEOG, HMSR, LING, SMPA (except SMPA 2112, SMPA 3236, SMPA 2117), ORSC, PSYC, SPHR, SOC, IAFF, PSTD*, and WSTU*. Also, students can choose from the following courses:

HONR 2043 Honors Microeconomics

HONR 2044 Honors Macroeconomics

NSC 2126 Sea Power and Maritime Affairs

NSC 2160 Evolution of Warfare

NSC 2180 Amphibious Warfare

Twelve credit hours of introductory foreign language and statistics are strongly recommended

* In addition to the CCAS General Education Requirements (<http://columbian.gwu.edu/undergraduate/advising/gpac>) list of courses in social and behavioral sciences, courses in history, peace studies, and women's studies are considered social sciences for this requirement.

Required courses in the major:

30 credits of upper-division political science courses including:

PSC 2101 Scope and Methods of Political Science

One course selected from each of the following groups:

Group A (comparative politics):

PSC 2330 Comparative Politics of Western Europe

PSC 2331 Comparative Politics of Central and Eastern Europe

PSC 2332 European Integration

PSC 2334 Global Perspectives on Democracy

PSC 2336 State-Society Relations in the Developing World

PSC 2337 Development Politics

PSC 2338 Nationalism

PSC 2366 State-Society Relations in the Developing World

PSC 2367 Human Rights

PSC 2368 Politics in the Two Koreas

PSC 2369 Comparative Politics of South Asia

PSC 2370 Comparative Politics of China and Northeast Asia

PSC 2371 Politics and Foreign Policy of China

PSC 2373 Comparative Politics of Southeast Asia

PSC 2374 Politics and Foreign Policy of Japan

PSC 2377 Comparative Politics of the Middle East

PSC 2379 Politics and Foreign Policy of Israel

PSC 2381 Comparative Politics of Middle and Southern Africa

PSC 2383 Comparative Politics of Latin America

PSC 2993 Special Topics in Comparative Politics

Group B (American government and politics):

PSC 2211 State and Urban Politics

PSC 2212 State and Urban Policy Problems

PSC 2213 Judicial Politics

PSC 2214 U.S. Constitutional Law and Politics I

PSC 2215 U.S. Constitutional Law and Politics II

PSC 2216 The American Presidency

PSC 2217 Executive Branch Politics

PSC 2218 Legislative Politics

PSC 2219 Political Parties and Interest Groups

PSC 2220 Public Opinion

PSC 2222 Science, Technology, and Politics

PSC 2223 Campaigns and Elections

PSC 2224 Issues in Domestic Public Policy

PSC 2225 Women and Politics

PSC 2228 Media, Politics, and Government

PSC 2229 Media and Politics

PSC 2367W Human Rights

PSC 2377W Comparative Politics of the Middle East

PSC 2992 Special Topics in American Politics and Government

Group C (international politics, law, and organizations):

PSC 2439 International Political Economy

PSC 2440 Theories of International Politics

PSC 2442 International Organizations

PSC 2444 Public International Law

PSC 2446 U.S. Foreign Policy

PSC 2449 International Security Politics

PSC 2461 European-Atlantic Relations

PSC 2468 Post-Soviet Foreign Policy

PSC 2475 International Relations of East Asia

PSC 2476 The Arab-Israeli Conflict

PSC 2478 International Relations of the Middle East

PSC 2482 African International Politics

PSC 2484 International Relations of Latin America

PSC 2994 Special Topics in International Relations

Group E (political thought):

PSC 2105 Major Issues of Western Political Thought I

PSC 2106	Major Issues of Western Political Thought II
PSC 2107	20th-Century Political Thought
PSC 2108	Freedom and Equality
PSC 2110	American Political Thought
PSC 2120	Freedom in American Thought and Popular Culture
PSC 2991	Special Topics in Political Thought

No more than 3 credits of the following may be credited toward the major; this course does not satisfy the distribution requirement:

PSC 2987	Internship: Political Science
----------	-------------------------------

Specific group credit for offerings of the following is determined by the undergraduate advisor:

PSC 2990	Selected Topics
----------	-----------------

Every major must complete the following (which counts toward the 30-credit requirement but does not satisfy group distribution requirements) in the junior or senior year. A graduate course may be substituted for the proseminar requirement with the written permission of the instructor and the undergraduate advisor:

PSC 3192W	Proseminar: Political Science
-----------	-------------------------------

GENERAL EDUCATION

In addition to the University General Education Requirement, undergraduate students in Columbian College must complete a further, College-specific general education curriculum—Perspective, Analysis, Communication, or G-PAC. Together with the University General Education Requirement, G-PAC engages students in active intellectual inquiry across the liberal arts. Students achieve a set of learning outcomes that enhance their analytical skills, develop their communication competencies, and invite them to participate as responsible citizens who are attentive to issues of culture, diversity, and privilege.

Course work for the University General Education Requirement is distributed as follows:

- Writing—one course in university writing and two writing-in-the-disciplines (WID) courses;
- Humanities—one approved humanities course that involves critical thinking skills;
- Mathematics or Statistics—one course in either math or statistics;
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry; and,

- Social Sciences—two courses in the social sciences

Course work for the Columbian College general education curriculum is distributed as follows:

- Arts—one approved arts course that involves the study or creation of artwork based on an understanding or interpretation of artistic traditions or knowledge of art in a contemporary context;
- Global or Cross-Cultural Perspective—one approved course that analyzes the ways in which institutions, practices, and problems transcend national and regional boundaries;
- Humanities—one approved humanities course that involves critical thinking skills (in addition to the one course in this category required by the University General Education Requirement);
- Local or Civic Engagement—one course that develops the values, ethics, disciplines, and commitment to pursue responsible public action;
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry (in addition to the one course in this category required by the University General Education Requirement; and,
- Oral Communication—one course in oral communication.

Certain courses are approved to fulfill the requirement in more than one of these categories.

Courses taken in fulfillment of the Columbian College general education curriculum may also be counted toward majors or minors. Transfer courses taken prior to, but not after, admission to George Washington University may count toward the University general education requirement and Columbian College general education curriculum, if those transfer courses are equivalent to GW courses that have been approved by the University and the College.

University General Education and G-PAC Courses

- Arts (p. 737)
- Global or Cross-Cultural (p.)
- Humanities (p. 740)
- Local/Civic Engagement (p.)
- Mathematics or Statistics (p. 744)
- Natural or physical laboratory sciences (p. 744)
- Oral Communication (p. 745)
- Social Sciences (p. 746)
- Writing (p. 746)

SPECIAL HONORS

In addition to the general requirements stated under University Regulations, in order to be considered for graduation with Special Honors, students must have a GPA in the major of 3.5 or higher. Those with a GPA in the major of 3.8 and higher will be recommended for Special Honors. Those with a GPA in the major between 3.5 and 3.7 must complete an independent research project, usually done in PSc 3192, that has been approved as meriting Special Honors by two members of the Political Science faculty.

BACHELOR OF ARTS WITH A MAJOR IN POLITICAL SCIENCE (PUBLIC POLICY FOCUS)

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 62).

Prerequisite:

PSC 1001 Introduction to Comparative Politics

PSC 1002 Introduction to American Politics and Government

PSC 1003 Introduction to International Politics

Required courses in the major: 30 credit hours of upper-division courses in political science distributed as follows:

PSC 2101 Scope and Methods of Political Science

9 credits in policy-oriented courses from the following:

PSC 2212 State and Urban Policy Problems

PSC 2217 Executive Branch Politics

PSC 2222 Science, Technology, and Politics

PSC 2224 Issues in Domestic Public Policy

PSC 2446 U.S. Foreign Policy

One policy-oriented proseminar

PSC 3192W Proseminar: Political Science (topic must be policy oriented)

3 credits from each of the following groups:

Group A (comparative politics):

PSC 2330 Comparative Politics of Western Europe

PSC 2331 Comparative Politics of Central and Eastern Europe

PSC 2332 European Integration

PSC 2334 Global Perspectives on Democracy

PSC 2336 State-Society Relations in the Developing World

PSC 2337 Development Politics

PSC 2338 Nationalism

PSC 2366 State-Society Relations in the Developing World

PSC 2367 Human Rights

PSC 2368 Politics in the Two Koreas

PSC 2369 Comparative Politics of South Asia

PSC 2370 Comparative Politics of China and Northeast Asia

PSC 2371 Politics and Foreign Policy of China

PSC 2373 Comparative Politics of Southeast Asia

PSC 2374 Politics and Foreign Policy of Japan

PSC 2377 Comparative Politics of the Middle East

PSC 2379 Politics and Foreign Policy of Israel

PSC 2381 Comparative Politics of Middle and Southern Africa

PSC 2383 Comparative Politics of Latin America

PSC 2993 Special Topics in Comparative Politics

Group B (American government and politics):

PSC 2211 State and Urban Politics

PSC 2213 Judicial Politics

PSC 2214 U.S. Constitutional Law and Politics I

PSC 2215 U.S. Constitutional Law and Politics II

PSC 2216 The American Presidency

PSC 2218 Legislative Politics

PSC 2219 Political Parties and Interest Groups

PSC 2220 Public Opinion

PSC 2223 Campaigns and Elections

PSC 2225	Women and Politics
PSC 2228	Media, Politics, and Government
PSC 2229	Media and Politics
PSC 2992	Special Topics in American Politics and Government
Group C (international politics, law, and organizations):	
PSC 2439	International Political Economy
PSC 2440	Theories of International Politics
PSC 2442	International Organizations
PSC 2444	Public International Law
PSC 2446	U.S. Foreign Policy
PSC 2449	International Security Politics
PSC 2461	European-Atlantic Relations
PSC 2468	Post-Soviet Foreign Policy
PSC 2475	International Relations of East Asia
PSC 2476	The Arab-Israeli Conflict
PSC 2478	International Relations of the Middle East
PSC 2482	African International Politics
PSC 2484	International Relations of Latin America
PSC 2994	Special Topics in International Relations
Group E (political thought):	
PSC 2105	Major Issues of Western Political Thought I
PSC 2106	Major Issues of Western Political Thought II
PSC 2107	20th-Century Political Thought
PSC 2108	Freedom and Equality
PSC 2110	American Political Thought
PSC 2120	Freedom in American Thought and Popular Culture
PSC 2991	Special Topics in Political Thought
3 credits in an upper-division political science elective	

Six courses in other social sciences must include:

ECON 1011	Principles of Economics I
ECON 1012	Principles of Economics II
ECON 2101	Intermediate Microeconomic Theory
One of the following:	
ECON 2159	Government Regulation of the Economy
ECON 3161	Public Finance: Expenditure Programs
ECON 3162	Public Finance: Taxation
SOC 2105	Social Problems in American Society
SOC 2112	Evaluation Research
SOC 2161	Sociology of Complex Organizations
SOC 2170	Class and Inequality in American Society
One of the following:	
STAT 1053	Introduction to Statistics in Social Science
STAT 1129	Introduction to Computing
STAT 2118	Regression Analysis
STAT 2123	Introduction to Econometrics
STAT 2183	Statistical Computing Packages

Twelve credits of introductory foreign language and statistics are strongly recommended

GENERAL EDUCATION

In addition to the University General Education Requirement, undergraduate students in Columbian College must complete a further, College-specific general education curriculum—Perspective, Analysis, Communication, or G-PAC. Together with the University General Education Requirement, G-PAC engages students in active intellectual inquiry across the liberal arts. Students achieve a set of learning outcomes that enhance their analytical skills, develop their communication competencies, and invite them to participate as responsible citizens who are attentive to issues of culture, diversity, and privilege.

Course work for the University General Education Requirement is distributed as follows:

- Writing—one course in university writing and two writing-in-the-disciplines (WID) courses;
- Humanities—one approved humanities course that involves critical thinking skills;

- Mathematics or Statistics—one course in either math or statistics;
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry; and,
- Social Sciences—two courses in the social sciences

Course work for the Columbian College general education curriculum is distributed as follows:

- Arts—one approved arts course that involves the study or creation of artwork based on an understanding or interpretation of artistic traditions or knowledge of art in a contemporary context;
- Global or Cross-Cultural Perspective—one approved course that analyzes the ways in which institutions, practices, and problems transcend national and regional boundaries;
- Humanities—one approved humanities course that involves critical thinking skills (in addition to the one course in this category required by the University General Education Requirement);
- Local or Civic Engagement—one course that develops the values, ethics, disciplines, and commitment to pursue responsible public action;
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry (in addition to the one course in this category required by the University General Education Requirement; and,
- Oral Communication—one course in oral communication.

Certain courses are approved to fulfill the requirement in more than one of these categories.

Courses taken in fulfillment of the Columbian College general education curriculum may also be counted toward majors or minors. Transfer courses taken prior to, but not after, admission to George Washington University may count toward the University general education requirement and Columbian College general education curriculum, if those transfer courses are equivalent to GW courses that have been approved by the University and the College.

University General Education and G-PAC Courses

- Arts (p. 749)
- Global or Cross-Cultural (p.)
- Humanities (p. 752)
- Local/Civic Engagement (p.)
- Mathematics or Statistics (p. 755)
- Natural or physical laboratory sciences (p. 756)
- Oral Communication (p. 756)
- Social Sciences (p. 757)
- Writing (p. 758)

COMBINED PROGRAM

REQUIREMENTS

The Bachelor of Arts with a major in political science may be taken as a combined degree with the following six master's programs:

- Master of Arts in the field of political science
- Master of Arts in the field of legal institutions and theory
- Master of Professional Studies in the field of political management
- Master of Professional Studies in the field of legislative affairs
- Master of Public Policy (available only to majors in the public policy focus)
- Master of Public Administration

Departmental majors who are interested in pursuing a combined bachelor's/master's program should consult the undergraduate program advisor at the beginning of their junior year (after completing 60 credits at GW).

The combined degree program leading to the Master of Arts in the field of political science is available only to students who qualify for Special Honors. Interested students should consult the undergraduate program advisor as soon as possible in order to select courses appropriately.

MINOR IN POLITICAL SCIENCE

REQUIREMENTS

Required:

PSC 1001 Introduction to Comparative Politics

PSC 1002 Introduction to American Politics and Government

PSC 1003 Introduction to International Politics (or equivalent)

12 credits of upper-division political science courses including:

PSC 2101 Scope and Methods of Political Science

Group E (political thought) - As part of the 12 upper-division credits, select one of the following:

PSC 2105 Major Issues of Western Political Thought I

PSC 2106	Major Issues of Western Political Thought II
PSC 2107	20th-Century Political Thought
PSC 2108	Freedom and Equality
PSC 2110	American Political Thought
PSC 2120	Freedom in American Thought and Popular Culture
PSC 2991	Special Topics in Political Thought

9 credits in the social sciences from the following departments: ANTH (except ANTH 1001, ANTH 1005, or ANTH 3400s), COMM, GEOG, HMSR, LING, SMPA (except SMPA 2112, SMPA 3236, SMPA 2117), ORSC, PSYC, SPHR, SOC, IAFF, PSTD, and WSTU. Students can also choose from the following courses:

HONR 2043	Honors Microeconomics
HONR 2044	Honors Macroeconomics
NSC 2126	Sea Power and Maritime Affairs
NSC 2160	Evolution of Warfare
NSC 2180	Amphibious Warfare

MINOR IN PUBLIC POLICY

Required courses (18 credits):

PSC 1001	Introduction to Comparative Politics
or PSC 1001W	Intro to Comparative Politics
PSC 1002	Introduction to American Politics and Government
or PSC 1002W	Intro-American Politics & Govt
PSC 1003	Introduction to International Politics
PSC 2101	Scope and Methods of Political Science
ECON 1011	Principles of Economics I
ECON 1012	Principles of Economics II

Three courses (9 credits) from the following:

PSC 2212	State and Urban Policy Problems
PSC 2217	Executive Branch Politics
PSC 2222	Science, Technology, and Politics
PSC 2224	Issues in Domestic Public Policy

PSC 2446	U.S. Foreign Policy
One course (3 credits) from the following:	
ECON 2101	Intermediate Microeconomic Theory
ECON 2159	Government Regulation of the Economy
ECON 3161	Public Finance: Expenditure Programs
ECON 3162	Public Finance: Taxation
SOC 2105	Social Problems in American Society
or SOC 2105W	Social Problems in Amer Society
SOC 2112	Evaluation Research
SOC 2161	Sociology of Complex Organizations
SOC 2170	Class and Inequality in American Society
or SOC 2170W	Class/Inequality-Amer Society

MASTER OF ARTS IN THE FIELD OF LEGAL INSTITUTIONS AND THEORY

REQUIREMENTS

Specific admission requirements are shown on the Graduate Program Finder (<http://www.gwu.edu/all-graduate-programs>)

Prerequisite: a bachelor's degree from an accredited college or university, or an equivalent degree, and high undergraduate scholastic standing.

The following requirements must be fulfilled. Other electives may be selected with approval of the Director of Graduate Studies.

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 62).

Required: 30 credits consisting of:

PSC 6113	The Constitution: History and Ideas
PSC 6114	Theories of Judicial Review
At least two courses (students may take all four) from the following:	
PSC 8213	Judicial Politics
PSC 8215	Law, Politics, and Society
PSC 8388	Selected Topics in Comparative Politics
PSC 6987	Legal Internship

Four to six courses from the following:

PSC 8210	American Political Process
PSC 8217	Executive Branch Politics
PSC 8218	Legislative Politics
PSC 8219	Political Parties and Elections
PSC 6444	Politics of International Law
HIST 6370	US Legal History

MASTER OF ARTS IN THE FIELD OF POLITICAL SCIENCE

REQUIREMENTS

Specific admission requirements are shown on the Graduate Program Finder. (<http://www.gwu.edu/all-graduate-programs>)

Prerequisite: a bachelor's degree from an accredited college or university, or an equivalent degree, and high undergraduate scholastic standing.

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 62).

Required: A research tool, which may be reading knowledge of a modern foreign language, a specified level of knowledge in statistics, or two graduate-level courses in a cognate discipline. Students must take at least five courses selected according to departmental guidelines in their chosen field and pass a comprehensive exam in that field. Four fields are available: American politics; international relations; comparative politics; and public policy. Students are required to take at least two courses outside of their primary field.

Students may elect one of the following programs:

1. 30 credits of graduate course work, including PSC 6998 Thesis Research- PSC 6999 Thesis Research, and the satisfactory completion of a master's thesis; or
2. 33 credits of graduate course work without a thesis.

1.

DOCTOR OF PHILOSOPHY IN THE FIELD OF POLITICAL SCIENCE

REQUIREMENTS

Specific admission requirements are shown on the Graduate Program Finder. (<http://www.gwu.edu/all-graduate-programs>)

Students of outstanding ability are admitted to the doctoral program upon recommendation of a departmental graduate committee and the concurrence of Columbian College.

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 62).

The requirements for the Doctor of Philosophy Program (p. 70).

Required: Two research tools, two comprehensive exams covering a primary and supporting field, an original research paper, and a dissertation demonstrating the capacity to undertake original and significant research. The research tools may be selected from reading knowledge of a modern foreign language, a specified level of knowledge in statistics, or two graduate-level courses in a cognate discipline. The research paper must display the student's ability to conduct original research and be completed by the second year in the program. Students prepare for the comprehensive exams by taking at least five courses in their primary field and at least four courses in their supporting field, selected according to departmental guidelines. Three primary fields are available: American politics; international relations; and comparative politics. In addition, political theory, public policy, and research methodology are available as supporting fields. Petitions for a self-designed minor field (e.g., political communications) composed primarily of courses not offered by the established fields can be jointly proposed by students and faculty. All students must complete a sequence of courses in research methodology comprising PSC 8101 Introduction to Empirical Political Analysis, PSC 8108 Craft of Political Inquiry, and PSC 8109 Systematic Inquiry and Research Design. Completion of PSC 8120 Nonlinear Models with a grade of B or higher will be taken as evidence that a student has achieved the level of knowledge in statistics necessary to satisfy one of the research tool requirements as outlined above.

A recommendation to the dean for admission to candidacy, or the dissertation research stage, will be considered upon satisfactory completion of all course work, tool requirements, research paper, field examinations, and successful defense of the dissertation prospectus. Students must pass their primary field examination with a satisfactory pass or higher and must pass their supporting field examination with a bare pass or higher in order to be considered eligible for promotion to candidacy. Admission to candidacy is permitted only if the student's performance on the examinations and in the course work gives a good indication of success in the second unit. Passing the field examinations does not in itself ensure admission to candidacy.

The dissertation prospectus must outline the central research question(s), relate the proposed research to the existing literature, detail a research methodology, and explain the nature of the original contribution that the completed project will provide. The prospectus must be presented and defended

in an open forum, which all faculty and doctoral students are invited to attend. The full dissertation must be similarly defended. A dual degree program enables students to earn the Master of Public Policy along with the Ph.D. in the field of political science.

PROFESSIONAL PSYCHOLOGY

Offered through the Columbian College of Arts and Sciences' social and behavioral sciences discipline, the Professional Psychology Program offers the graduate degrees Master of Arts in the field of forensic psychology and Doctor of Psychology (Psy.D.) in the field of clinical psychology.

The M.A. program is designed to address a growing need for criminal profilers, competency experts, psychological evaluators, and counselors. Students are immersed in courses ranging from the psychopathology of serial criminals and terrorist agents to the treatment of sex offenders and ethical issues involving interrogation. The Forensic Psychology program offers two tracks; the applied forensics track prepares students for careers in law enforcement or homeland security, while the applied psychology track prepares students for careers as providers of direct services to clients in organizations such as rehabilitational facilities and community action organizations, and can serve as a springboard for clinical work at the doctoral level. Students are required to complete 250 hours of externship training, tailored to their professional interests.

The Psy.D. program offers a substantive introduction to the basic science aspects of psychology and the skills required of a clinical psychologist. Students take a series of foundation courses outlining biological, cognitive, social, and cultural foundations; basic and more advanced clinical courses, such as psychopathology, group dynamics, assessment, psychotherapy, supervision, and consultation; and research methods, statistics, history and systems, and ethics courses. The advanced curriculum offers courses tailored within three broad tracks: adult, assessment, and child. In addition to didactic courses, students work with a diverse patient population at different public and private agencies as well as at the department's in-house clinic. Upon completion of course work and prior to receiving the Psy.D., students perform a one-year, full-time internship.

The Professional Psychology program also offers the Graduate Certificate in LGBT health policy and practice.

GRADUATE

Master's program

- Master of Arts in the field of forensic psychology (p. 761)

Doctoral program

- Doctor of Psychology in the field of clinical psychology (p. 762)

CERTIFICATE

- Graduate Certificate in LGBT health policy and practice (p. 763)

FACULTY

Professor L.J. Ingraham (*Professional Psychology Program Director*)

Associate Professors R. Cooter (*Forensic Psychology Program Director*), C. Marmarosh, R. Ruth

Assistant Professor R. Lopez Sharifi, J. Sexton

Adjunct Professors Y.E. Aleshina, P. Gedo, L. Gump, S. Hedlund, D. King, J. Viola

Professorial Lecturers J. Babcock, M. Forbes, S. Forssell, A. Gartner, D. Grasso, J. Gorin, C. Holl, S. Kane, E. Klosson, P. Magaletta, B. McConnell, J. McNamara, B. Sheppard, P. Snejnevski, R. Warrier, A. Washington, N. Xenakis, H. Zelle

COURSES

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000-4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

Note: PSYD courses are limited to students enrolled in the Professional Psychology program except by permission of the director. See the Department of Psychology for the degree program leading to the Doctor of Philosophy in the field of clinical psychology.

- Forensic Psychology (FORP) (p. 1599)
- Professional Psychology (PSYD) (p. 1769)

MASTER OF ARTS IN THE FIELD OF FORENSIC PSYCHOLOGY

REQUIREMENTS

Specific admission requirements are shown on the Graduate Program Finder. (<http://www.gwu.edu/all-graduate-programs>)

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (<http://bulletin.gwu.edu/arts-sciences/#degreeregulationstext>).

37 credits, including 25 credits in required courses, 12 credits in required and/or elective courses in one track, and successful completion of the master's comprehensive examination.

Required core

FORP 6101	Psychology and the Legal System I
FORP 6102	Psychology and the Legal System II
FORP 6103	Theories of Criminal Behavior
FORP 6104	Psychopathology
FORP 6105	Basics of Psychological Assessment
FORP 6106	Ethics in Forensic Psychology
FORP 6107	Research and Statistics
FORP 6108	Consultation and Testimony
FORP 6130	Practicum/Externship

One of the following tracks:

Applied forensics track

Four of the following recommended elective courses:

FORP 6116	Correctional Psychology
FORP 6117	Interrogation and Interviewing
FORP 6118	Psychological Profiling
FORP 6119	Police Psychology
FORP 6120	Counterintelligence
FORP 6128	Terrorism and Counterterrorism

Applied psychology track

FORP 6109	Evaluation and Treatment of Offenders
FORP 6110	Forensic Psychological Assessment

Two of the following recommended elective courses:

FORP 6111	Evaluation and Treatment of Sex Offenders
FORP 6112	Substance Abuse Evaluation and Treatment
FORP 6113	Victimology
FORP 6114	Issues in Family Law
FORP 6115	Children and Adolescents in the Legal System

A Master's Comprehensive Examination is required. The program is offered on a full- or part-time basis.

DOCTOR OF PSYCHOLOGY IN THE FIELD OF CLINICAL PSYCHOLOGY

REQUIREMENTS

Specific admission requirements are shown on the Graduate Program Finder (<http://www.gwu.edu/all-graduate-programs>)

Prerequisite: a bachelor's degree with relevant background and experience in psychology or its equivalent. Students who lack adequate preparation will be expected to complete prerequisite undergraduate courses during the first year of the program; credit for such courses does not apply to the degree.

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 62).

Successful completion of all required course work and practical requirements and the general examination.

The Degree of Master of Psychology

Students who have earned 53 credits toward the Psy.D. may receive the M.Psy. degree. Further information on the requirements of the Doctor of Psychology degree appears under Professional Psychology in the Courses of Instruction.

The three-year program includes:

The core curriculum:

PSYD 8201	Psychological Assessment I
PSYD 8202	Psychological Assessment II
PSYD 8270	Current Topics in Clinical Psychology (Courses offered each year under PSYD 8270 include: Psychological Assessment III, Empirical Research, Prevention, Supervision)
PSYD 8203	Practicum in Clinical Psychology
PSYD 8204	Biological Bases of Clinical Psychology
PSYD 8205	Psychodynamic Psychopathology
PSYD 8206	Cognitive Bases of Clinical Psychology
PSYD 8207	Group and Organizational Dynamics
PSYD 8209	Statistics and Research Design
PSYD 8210	Ethics and Professional Issues

PSYD 8220	Psychodynamic Psychotherapy
PSYD 8221	Psychodynamic Psychotherapy
PSYD 8222	Behavioral-Cognitive Therapies
PSYD 8225	Theories of Mind I
PSYD 8226	Ego Psychology/Object Relations Theory
PSYD 8227	History and Systems of Clinical Psychology
PSYD 8260	Lifespan Development
PSYD 8231	Short-Term Psychotherapy (PSYD 8231/ Short-Term Psychotherapy or PSYD 8240/Group Psychotherapy is required)
PSYD 8240	Group Psychotherapy (PSYD 8231/ Short-Term Psychotherapy or PSYD 8240/Group Psychotherapy is required)
PSYD 8246	Community Intervention (Consultation; Choice of PSYD 8246/Community Intervention or PSYD 8270/Prevention)

Completion of the practicum seminar/PSYD 8203 for each fall and spring semester as well as two practicum during the summers

Courses chosen from the areas of adult and child psychotherapy or psychological assessment to total 83 credits

Satisfactory completion of the General Examination

In addition, successful completion of an externship—a year-long, part-time supervised clinical assignment—is required in two years of the program. A failed externship may, in exceptional circumstances and with the approval of the program director, be repeated. If the student fails a second time, no further opportunity will be provided, and the student’s degree candidacy is terminated.

A one-year, full-time internship at an institution approved by the program faculty is required for completion of the degree program. If the student fails the internship, no further opportunity will be provided, and the student’s degree candidacy is terminated.

The Doctor of Psychology program is offered on a full-time basis only.

General Requirements

The program leading to the degree of Doctor of Psychology requires the satisfactory completion of a minimum of 83 credits of approved graduate work. A maximum of 12 credits may be taken in courses offered by the other affiliated members of the Consortium of Universities. Doctor of Psychology students

have an overall five-year time limit for completion of all degree requirements.

Transfer of Credit

Provisions are the same as those of the Doctor of Philosophy Program, above, except that up to 27 credits may be transferred into the program.

The General Examination

Each student is required to complete the General Examination no later than the beginning of the final semester of the program. A student who fails to pass any part of the General Examination may, in exceptional circumstances, and with the approval of the program, repeat the examination at the next scheduled examination date. If the student fails a second time, no further opportunity to take the examination is permitted, and the student’s degree candidacy is terminated.

GRADUATE CERTIFICATE IN LGBT HEALTH POLICY AND PRACTICE

REQUIREMENTS

Specific admission requirements can be found on the Graduate Program Finder (<http://www.gwu.edu/all-graduate-programs>).

Required:

PSYD 6201 Multi-disciplinary LGBT Health

PSYD 6202 LGBT Mental Health

PSYD 6203 LGBT Health Policy

PSYD 6211 LGBT Health Capstone

PSYD 6212 LGBT Health Capstone II

Elective:

3 credits selected from the following:

PSYD 6221 LGBT Health Current Topic

PSYD 8270 Current Topics in Clinical Psychology

PSYC/WSTU 8275 Women and Health

PUBH 6099 Topics in Public Health (Designing and Evaluating HIV Prevention Programs)

PUBH 6514 Preventing Health Disparities

Students may petition to include other courses as electives with program director approval. Electives should be graduate level courses offered at GW that pertain to:

(a) the LGBT population (specifically, not the broader minority population),

- (b) physical or mental health with a focus on minority/underserved populations, or
- (c) public policy with a focus on health and/or minority/underserved populations.

PSYCHOLOGY

As part of the social and behavioral sciences division within the Columbian College of Arts and Sciences, the major in psychology exposes students to basic psychological theory, helps them develop research skills, and teaches them how to approach psychological and social issues within communities and societies.

UNDERGRADUATE

Bachelor's programs

- Bachelor of Arts with a major in psychology (p. 771)
- Combined program (p. 781)

Minor

- Minor in psychology (p. 782)

GRADUATE

Doctoral program

- Doctor of Philosophy in the field of psychology (p. 781)

FACULTY

Professors P. Barratt, I.A. Bowleg, J.M. Ganiban, G. Howe, L.R. Offermann, P.J. Poppen, L.A. Rothblat, C.K. Sigelman (*Chair*), P. Wirtz, M.C. Zea

Associate Professors D.P. Costanza, T.L. Dodge, S. Dopkins, C. Gee, S. Lambert, S.D. Molock, P.J. Moore, H.N. Le, C.A. Rohrbeck, S. Shomstein, M.H. Sohn, M. Stock, A.N. Zucker

Assistant Professors C. Beil (*Research*), D.J. Kravitz, D.E. Schell, G.K. Wu

Adjunct Professor K. Ross-Kidder

Lecturers P.J. Woodruff

COURSES

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000–4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

Departmental prerequisite: PSYC 1001 General Psychology is prerequisite to all undergraduate psychology courses.

PSYC 1000. Dean's Seminar. 3 Credits.

The Dean's Seminars provide Columbian College first-year students focused scholarship on specific intellectual challenges. Topics vary by semester. Consult the Schedule of Classes for more details. Restricted to First-year students in CCAS.

PSYC 1001. General Psychology. 3 Credits.

Fundamental principles underlying human behavior.

PSYC 2011. Abnormal Psychology. 3 Credits.

Causes, diagnosis, treatment, and theories of various types of maladjustments and mental disorders. Prerequisite: PSYC 1001.

PSYC 2011W. Abnormal Psychology. 3 Credits.

Causes, diagnosis, treatment, and theories of various types of maladjustments and mental disorders. Prerequisite: PSYC 1001.

PSYC 2012. Social Psychology. 3 Credits.

Social foundations of behavior: cognition, motivation, role behavior, communication, small-group processes, and attitudes. Prerequisite: PSYC 1001.

PSYC 2013. Developmental Psychology. 3 Credits.

Introduction to the study of human development; theory and research concerning changes in physical, cognitive, and social functioning and influences on the developing individual. Prerequisite: PSYC 1001.

PSYC 2014. Cognitive Psychology. 3 Credits.

Introduction to the study of cognition; review of data and theories on the topics of perception, attention, memory, language, reasoning, and decision making. Prerequisite: PSYC 1001.

PSYC 2015. Biological Psychology. 3 Credits.

PSYC 2101. Research Methods-Psychology. 3 Credits.

Survey of research designs (e.g., case studies, correlational designs, experiments), methods (e.g., questionnaires, observations), and measurement issues (e.g., reliability and validity). Prerequisite or corequisite: PSYC 1001, STAT 1053.

PSYC 2144. Industrial/Organizational Psychology. 3 Credits.

Psychological concepts and methods applied to problems of personnel management, employee motivation and productivity, supervisory leadership, and organizational development. Prerequisite: PSYC 1001.

PSYC 2160. Group Dynamics. 3 Credits.

Relationship of the individual to groups, collectivities, and larger social systems. Theory, research, and applications of group and organizational processes. Prerequisite: PSYC 1001.

PSYC 2508. Humanistic Psychology. 3 Credits.

Critical examination of humanistic psychology. Emphasis on role of consciousness in human behavior. Philosophic foundations, existential, phenomenological, and transpersonal psychology. (Formerly PSYC 3108) Prerequisites: PSYC 1001.

PSYC 2514. Adult Development and Aging. 3 Credits.

Psychological aging and development during the adult years, with an emphasis on theories of adult development and research on changes in cognitive functioning and social adjustment in early, middle, and later adulthood. (Formerly PSYC 3114) Prerequisites: PSYC 1001.

PSYC 2529. Theories of Personality. 3 Credits.

Survey of personality theories; emphasis on their application to problems of individuals. (Formerly PSYC 3129) Prerequisites: PSYC 1001.

PSYC 2531. Psychological Tests. 3 Credits.

Survey of psychological tests and their more common uses in business, industry, government, law, medicine, and education. Material fee. (Formerly PSYC 3131) Prerequisites: PSYC 1001.

PSYC 2544. Industrial/Organizational Psychology. 3 Credits.

Psychological concepts and methods applied to problems of personnel management, employee motivation and productivity, supervisory leadership, and organizational development. Formerly PSYC 2144. Prerequisites: ORSC 1109 or PSYC 1001.

PSYC 2550. Psychology of Sex Differences. 3 Credits.

Relevant biological, psychological, and sociological influences on males and females in the development of sex differences; hormonal differences, gender identity, differential socialization of sons and daughters, masculinity/femininity, cultural evaluation of male and female roles. Survey of relevant psychological theory. Emphasis on empirical research and hypothesis testing. (Formerly PSYC 3150) Prerequisites: PSYC 1001.

PSYC 2554. Psychology of Crime and Violence. 3 Credits.

Examination of many psychological aspects of criminal behavior; personality of criminals and of psychological processes affecting behavior. (Formerly PSYC 3154) Prerequisites: PSYC 1001.

PSYC 2556. Psychology of Attitudes and Public Opinion. 3 Credits.

Psychology of opinion formation, measurement of opinion, social determinants of attitudes, psychological processes in propaganda, bases of receptivity to propaganda, psychological warfare. (Formerly PSYC 3156) Prerequisites: PSYC 1001.

PSYC 2560. Group Dynamics. 3 Credits.

Relationship of the individual to groups, collectivities, and larger social systems. Theory, research, and applications of group and organizational processes. Prerequisites: PSYC 1001 OR ORSC 1109.

PSYC 2570. Peer Education. 3 Credits.

This is a course designed to train George Washington University undergraduate students to be health peer educators. Students will be trained in various topics related to mental health, physical health, and alcohol and/or other drugs, and will gain the skills needed for outreach programming. Restricted to None. Prerequisites: PSYC 1001.

PSYC 2588. Attitudes Toward Death and Dying. 3 Credits.

Exploration of the many different aspects, attitudes, and experiences associated with the process of death and dying. (Formerly PSYC 3188) Prerequisites: PSYC 1001.

PSYC 2596. History and Systems of Psychology. 3 Credits.

A survey and integration of the major viewpoints and concepts of psychology. Recommended for students planning graduate study. (Formerly PSYC 4196) Prerequisites: PSYC 1001.

PSYC 2945. Psychological Study of Spirituality. 3,4 Credits.

The complex interrelationship between psychology and spirituality: health and wellness; development of a spiritual life; psychological factors involved in spirituality; therapy and multicultural issues. (Formerly PSYC 3945) Prerequisites: PSYC 1001.

PSYC 3106W. Principles and Methods of Psychology. 4 Credits.

Lecture (3 hours), laboratory (3 hours). An experimental approach to understanding behavior; individual and class experiments performed. Laboratory fee. Prerequisite: PSYC 1001.

PSYC 3108. Humanistic Psychology. 3 Credits.

Critical examination of humanistic psychology. Emphasis on role of consciousness in human behavior. Philosophic foundations, existential, phenomenological, and transpersonal psychology. Prerequisite: PSYC 1001.

PSYC 3112. Psychology of Adolescence. 3 Credits.

Psychological characteristics and problems peculiar to adolescence, with emphasis on application of psychology to solution of such problems. Prerequisite: PSYC 1001 and PSYC 2013.

PSYC 3114. Adult Development and Aging. 3 Credits.

Psychological aging and development during the adult years, with an emphasis on theories of adult development and research on changes in cognitive functioning and social adjustment in early, middle, and later adulthood. Prerequisite: PSYC 1001 and PSYC 2013.

PSYC 3115. Developmental Psychopathology. 3 Credits.

The origins of child psychopathology, including developmental perspectives and the potential contributions of child-, family-, and community-based characteristics to the emergence of psychopathology. The development of specific childhood disorders. Prerequisite: PSYC 2101 AND PSYC 2011 OR PSYC 2013.

PSYC 3118. Neuropsychology. 3 Credits.

Analysis of neural processes underlying behavior. Basic structure and functions of the nervous system, with emphasis on sensory processes, learning and memory, motivation, and emotion. Prerequisite: PSYC 2101 AND PSYC 2014 OR PSYC 2015.

PSYC 3121. Memory and Cognition. 3 Credits.

An examination of the psychological processes underlying human memory and cognition. Topics cover theoretical and experimental issues involving a range of cognitive function from attention and pattern recognition to learning and memory. Prerequisite: PSYC 2101 AND PSYC 2014 OR PSYC 2015.

PSYC 3122. Cognitive Neuroscience. 3 Credits.

How the structure and functions of the brain are related to cognitive processes and their associated behaviors. The biological bases of behavior and mental activity. Research and case studies by cognitive psychologists, neuroscientists, psychiatrists, and linguists, focusing on how the brain affects pattern recognition, attention, short-term and long-term memory processes, and language. Prerequisite: PSYC 2101 AND PSYC 2014 OR PSYC 2015.

PSYC 3124. Visual Perception. 3 Credits.

An overview of human perception, ranging from the detection of simple stimuli to the identification of objects and events. Perceptions of color, motion, and spatial layout. Research methodology, biological foundations, and theoretical issues. Prerequisite: PSYC 2101 AND PSYC 2014 OR PSYC 2015.

PSYC 3125. Cross-Cultural Psychology. 3 Credits.

Introduction to the theory, methods, and research of cross-cultural psychology, with emphasis on immigrants and ethnic minorities in the United States and on other cultures. Prerequisites: PSYC 2101 and PSYC 2011 or PSYC 2012.

PSYC 3126. Multicultural Psychology. 3 Credits.

The influence of culture on major psychology concepts Current theories and research on culture, with culture being broadly defined to include race, ethnicity, gender, sexual orientation, disability status, and socioeconomic status. Empirical methodologies in cultural psychology, and appreciation of cultural groups within the United States. Issues of culture in the interpretation of personal experiences and in application of cultural diversity issues to various settings. Culturally relevant styles of communication, values from different cultures, racial identity, power and privilege, and issues around health and mental health. Multiculturalism in the modern diverse society. Prerequisite: PSYC 2101 and PSYC 2011 or PSYC 2012.

PSYC 3126W. Multicultural Psychology. 3 Credits.

The influence of culture on major psychology concepts. Current theories and research on culture, with culture being broadly defined to include race, ethnicity, gender, sexual orientation, disability status, and socioeconomic status. Empirical methodologies in cultural psychology, and appreciation of cultural groups within the United States. Issues of culture in the interpretation of personal experiences and in application of cultural diversity issues to various settings. Culturally relevant styles of communication, values from different cultures, racial identity, power and privilege, and issues around health and mental health. Multiculturalism in the modern diverse society. Prerequisites: Psc 2101 and (Psc 2011 or Psc 2012).

PSYC 3128. Health Psychology. 3 Credits.

Current research in the area of health psychology, with special attention to psychological factors related to health and illness, psychological intervention with medical patients, and psychological approaches to illness prevention and health promotion. Prerequisite: PSYC 2101.

PSYC 3129. Theories of Personality. 3 Credits.

Survey of personality theories; emphasis on their application to problems of individuals. Prerequisite: PSYC 1001.

PSYC 3131. Psychological Tests. 3 Credits.

Survey of psychological tests and their more common uses in business, industry, government, law, medicine, and education. Material fee. Prerequisite: PSYC 1001.

PSYC 3132. Social and Personality Development. 3 Credits.

Examination of personal, emotional, and social development from infancy to adolescence and influences on that development. Prerequisite: PSYC 2101 and PSYC 2013.

PSYC 3150. Psychology of Sex Differences. 3 Credits.

Relevant biological, psychological, and sociological influences on males and females in the development of sex differences; hormonal differences, gender identity, differential socialization of sons and daughters, masculinity/femininity, cultural evaluation of male and female roles. Survey of relevant psychological theory. Emphasis on empirical research and hypothesis testing. Prerequisite: PSYC 1001.

PSYC 3154. Psychology of Crime and Violence. 3 Credits.

Examination of many psychological aspects of criminal behavior; personality of criminals and of psychological processes affecting behavior. Prerequisite: PSYC 1001.

PSYC 3156. Psychology of Attitudes and Public Opinion. 3 Credits.

Psychology of opinion formation, measurement of opinion, social determinants of attitudes, psychological processes in propaganda, bases of receptivity to propaganda, psychological warfare. Prerequisite: PSYC 1001.

PSYC 3170. Clinical Psychology. 3 Credits.

An exploration of the history, functions, and concerns of the clinical psychologist. Assessment, treatment, community approaches, ethics. Prerequisite: PSYC 1001, PSYC 2011.

PSYC 3172. Psychopathology & the Media. 3 Credits.

How abnormal behaviors and mental disorders are portrayed in film and the media, including analysis of the accuracy of these portrayals, focusing on symptomatology, etiology, and treatment of adult psychopathology. Prerequisite: PSYC 2101 and PSYC 2011.

PSYC 3173. Community Psychology. 3 Credits.

The origins and current practice of community psychology, and comparison of community psychological approaches with traditional clinical perspectives. The role of psychology in addressing social issues facing communities; methods for research and intervention targeting communities. Prerequisite: PSYC 2101 and PSYC 2011.

PSYC 3188. Attitudes Toward Death and Dying. 3 Credits.

Exploration of the many different aspects, attitudes, and experiences associated with the process of death and dying. Prerequisite: PSYC 1001.

PSYC 3193. Seminar in Industrial/Organizational Psychology. 3 Credits.

Selected specialized topics in the field of psychology and work behavior, such as human ability and personality, decisions and risk behavior, organizational change, and leadership. May be repeated for credit. (Formerly PSYC 4193). Prerequisites: PSYC 1001 and PSYC 2544 or permission of instructor.

PSYC 3198. Current Research Issues. 3 Credits.

Recent studies in psychology, including studies performed by members of the class; emphasis on student participation. May be repeated once for credit. Prerequisites: PSYC 1001 and PSYC 2101.

PSYC 3199. Current Topics in Psychology. 3 Credits.

Topics vary. May be repeated once for credit provided the topic differs. Prerequisites: PSYC 1001 and PSYC 2101.

PSYC 3591. Supervised Research Internship. 1-3 Credits.

Open to qualified students with permission of a supervising faculty member. Arrangements must be made with the faculty supervisor prior to registration; a list of participating faculty members and their research specialties is available from the department. May be repeated for credit; PSYC 3591 and PSYC 4591 combined may be taken for a total of 9 credits maximum. Prerequisites: PSYC 1001, PSYC 2101.

PSYC 3592. Field Internship. 3 Credits.

Senior psychology majors spend a minimum of six hours per week in a supervised internship in a local mental health, rehabilitation, school, or community setting. Students must have weekly blocks of time available. (Formerly PSYC 4192).

PSYC 3945. Psychological Study of Spirituality. 3 Credits.

The complex interrelationship between psychology and spirituality: health and wellness; development of a spiritual life; psychological factors involved in spirituality; therapy and multicultural issues. Same as REL 3945. Prerequisite: PSYC 1001.

PSYC 4106W. Research Lab in Sensation and Perception. 4 Credits.

Capstone course focused on the study of sensation and perception. Students examine previous research, design and carry out research projects, and write psychological research reports. Prerequisites: PSYC 1001, PSYC 2101, and PSYC 2014 or PSYC 2015.

PSYC 4107W. Research Lab in Cognitive Neuroscience. 4 Credits.

A capstone course focused on the study of cognitive neuroscience in which students examine previous research, design and carry out research projects, and write psychological research reports. Prerequisites: PSYC 1001, PSYC 2101, and (PSYC 2014 or PSYC 2015).

PSYC 4191. Independent Research. 1-3 Credits.

Open to qualified students by permission; arrangements must be made with the sponsoring faculty member prior to registration. A list of participating faculty members and their research specialties is available from the Department. May be repeated three times for credit. Prerequisite: PSYC 1001, PSYC 2101.

PSYC 4192. Field Experience. 3 Credits.

Senior psychology majors spend a minimum of six hours a week in a local mental health, rehabilitation, school, or community setting. Students must have weekly blocks of time available. Prerequisite: PSYC 1001.

PSYC 4193. Seminar in Industrial/Organizational Psychology. 3 Credits.

Selected specialized topics in the field of psychology and work behavior, such as human ability and personality, decisions and risk behavior, organizational change, and leadership. May be repeated for credit. Prerequisite: PSYC 1001 and PSYC 2144 or permission of instructor.

PSYC 4196. History & Systems-Psychology. 3 Credits.

A survey and integration of the major viewpoints and concepts of psychology. Recommended for students planning graduate study. Prerequisite: PSYC 1001.

PSYC 4197. Honors Seminar. 3 Credits.

Selected topics in psychology that change each semester. Intended primarily for students in the Special Honors program in psychology. May be repeated once for credit. Prerequisite: PSYC 1001 and PSYC 2101.

PSYC 4198. Current Research Issues-Psych. 3 Credits.

Conducted as a seminar. Recent experiments in psychology, including those performed by members of the class; emphasis on student participation. May be repeated once for credit. Prerequisite: PSYC 1001 and PSYC 2101.

PSYC 4199. Current Topics in Psychology. 3 Credits.

Topics vary. May be repeated for credit provided the topic differs.

PSYC 4201W. Research Lab in Clinical/Community Psychology. 4 Credits.

A capstone course focused on the study of clinical/community psychology in which students examine previous research, design and carry out research projects, and write psychological research reports. Prerequisites: PSYC 1001 and PSYC 2101 and PSYC 2011 or PSYC 2012 or PSYC 2013.

PSYC 4202W. Research Lab in Applied Social Psychology. 4 Credits.

A capstone course focused on the study of topics in applied social psychology, such as discrimination and health, in which students examine previous research, design and carry out research projects, and write psychological research reports. Prerequisites: PSYC 1001 and PSYC 2101 and (PSYC 2011 or PSYC 2012 or PSYC 2013).

PSYC 4203W. Research Lab in Developmental Psychology. 4 Credits.

A capstone course focused on the study of developmental psychology in which students examine previous research, design and carry out research projects, and write psychological research reports. Laboratory fee. Prerequisites: PSYC 1001, PSYC 2101, and PSYC 2011 or PSYC 2012 or PSYC 2013.

PSYC 4591. Independent Research. 1-3 Credits.

Open to qualified students by permission to pursue an independent research project with the supervision of a faculty member; arrangements must be made with the sponsoring faculty member prior to registration. May be repeated for credit; PSYC 3591 and PSYC 4591 may be taken for a total of 9 credits maximum. (Formerly PSYC 4191) Restricted to . Prerequisites: PSYC 1001, PSYC 2101.

PSYC 4997. Honors Seminar. 3 Credits.

Selected topics in psychology that change each semester. Intended primarily for students in the Special Honors program in psychology. May be repeated once for credit. Prerequisites: PSYC 1001 and PSYC 2101. (Formerly PSYC 4197).

PSYC 6998. Thesis Research. 3 Credits.

PSYC 6999. Thesis Research. 3 Credits.

PSYC 8202. Psychological Research Methods and Procedures. 3 Credits.

Required in all graduate psychology programs. Includes philosophy of science, types of research design, and methods of data collection. Restricted to Graduate students only. Prerequisites: graduate standing, a laboratory course in psychology, and a course in statistics.

PSYC 8203. Experimental Foundations of Psychology: Learning, Memory, and Cognition. 3 Credits.

Current conceptions of learning, memory, and cognition; the research upon which these conceptions are based; applications to practical contexts. Restricted to Graduate students only.

PSYC 8204. Experimental Foundations of Psychology: Biological Basis of Behavior. 3 Credits.

Introduction to the structure and function of the nervous system. Topics include neural communication, sensory processes, memory, neuroendocrinology of sex differences and stress, psychiatric and neurodegenerative disorders. Restricted to Graduate students only.

PSYC 8207. Psychological Assessment I. 3 Credits.

Theoretical and clinical aspects of assessment; includes interviewing, psychometric tests, and projective techniques. Two-hour laboratory—diagnostic work at clinical facilities. Material fee. Restricted to Clinical psychology graduate students only.

PSYC 8208. Psychological Assessment II. 3 Credits.

Continuation of PSYC 8207. Theoretical and clinical aspects of assessment; includes interviewing, psychometric tests, and projective techniques. Two-hour laboratory—diagnostic work at clinical facilities. Material fee. Restricted to Clinical psychology graduate students only.

PSYC 8210. Developmental Theories and Issues. 3 Credits.

Orientation to the field of developmental psychology, with emphasis on traditional and contemporary theories, fundamental concepts and issues, and methodological approaches. Restricted to Graduate students only.

PSYC 8211. Community Psychology I. 3 Credits.

Survey of the history, theories, and values guiding community psychology; models of service delivery. Restricted to Graduate students only.

PSYC 8212. Community Psychology II. 3 Credits.

Continuation of PSYC 8211. Applications of the principles and theories of community psychology to interventions and research. Restricted to Graduate students only. Prerequisites: PSYC 8211.

PSYC 8218. Evidence-Based Interventions. 3 Credits.

Introduction to theory and technique of psychotherapeutic approaches of proven effectiveness. Restricted to Graduate students only.

PSYC 8219. Group Dynamics. 3 Credits.

PSYC 8220. Ethics and Professional Issues. 3 Credits.

The foundations of ethics and ethical decision making, with an emphasis on the APA Ethics Code. Ethical conflicts and issues in the areas of research and practice. Restricted to Graduate students only.

PSYC 8223. Seminar: Human Memory. 3 Credits.

Selected topics of current research interest in the area of human memory. Emphasis on encoding and retrieval processes, amnesia, and disorders of memory. Restricted to Graduate students only.

PSYC 8225. Behavioral Approaches to Child Assessment and Therapy. 3 Credits.

Child assessment and treatment from a behavioral viewpoint. The application of conditioning, reinforcement, and shaping principles with reference to specific disorders of childhood. Restricted to Graduate students only.

PSYC 8227. Seminar: Principles of Psychotherapy. 3 Credits.

For graduate students in clinical psychology. Patient's needs and demands on the therapist. Case participation heavily relied upon. Prerequisite: PSYC 8218.

PSYC 8228. Seminar: Principles of Psychotherapy. 3 Credits.

Continuation of PSYC 8227. For graduate students in clinical psychology. Patient's needs and demands on the therapist. Case participation heavily relied upon. Prerequisite: PSYC 8218.

PSYC 8231. Development of Psychometric Instruments. 3 Credits.

Quantitative techniques and principles used in construction, standardization, and evaluation of personality and ability measures for research and practice; quantification of human judgment for measurement purposes. Prerequisite: course in tests and measurements and an elementary course in statistics. Restricted to Graduate students only.

PSYC 8236. Ethnic and Racial Diversity in Psychology. 3 Credits.

Basic theoretical models of research in ethnic, racial, and cultural diversity and new directions in the field. The impact of being an ethnic minority in the United States. Restricted to Graduate students only.

PSYC 8237. The Practice of General Psychology I. 3 Credits.

Application of psychological principles and findings to a wide spectrum of human problems. Professional issues facing the psychologist offering services. Participation in the development, implementation, and evaluation of applied psychological services and projects. Restricted to Clinical psychology graduate students only.

PSYC 8238. The Practice of General Psychology II. 3 Credits.

Continuation of PSYC 8237. Application of psychological principles and findings to a wide spectrum of human problems. Professional issues facing the psychologist offering services. Participation in the development, implementation, and evaluation of applied psychological services and projects. Restricted to Clinical psychology graduate students only.

PSYC 8239. Lifespan Developmental Psychopathology I. 3 Credits.

Infancy, childhood, and adolescence. Restricted to Graduate students only.

PSYC 8240. Lifespan Developmental Psychopathology II. 3 Credits.

Continuation of PSYC 8239 - Adulthood. Restricted to Graduate students only.

PSYC 8243. Seminar: Psychology of Leadership in Organizations. 3 Credits.

Theories and issues related to the emergence and effectiveness of leaders, with focus on leadership behaviors and processes in organizations. Restricted to Graduate students only.

PSYC 8244. Theories and Processes of Organizational Management. 3 Credits.

Basic functions and techniques of organizational management—design, control, direction, and decision making—examined from the viewpoint of behavioral science. Restricted to Graduate students only.

PSYC 8245. Seminar: Organizational Behavior. 3 Credits.

Analysis of organizational behavior; emphasis on motivation and productivity. Recent research on employee attitudes, primary group, supervisory leadership, formal and informal organization, job design. Restricted to Graduate students only.

PSYC 8246. Seminar: Personnel Evaluation Techniques. 3 Credits.

Techniques of personnel selection and performance evaluation. Employment tests, personal data, assessment interviews, performance ratings, and assessment centers. Federal guidelines in employee selection. Includes practicum. Restricted to Graduate students only.

PSYC 8248. Research Applications to Organizational Intervention and Change. 3 Credits.

Emphasis on development of models of organizational effectiveness; design of valid diagnostic instruments; implementation of research strategies; establishment of program evaluation criteria. Restricted to Graduate students only.

PSYC 8251. Behavioral Neuroscience. 3 Credits.

The neural basis of behavior, with special focus on the psychobiological determinants of learning, memory, and cognition. Methodologies used for different levels of analysis with normal and brain-impaired subjects. Restricted to Graduate students only.

PSYC 8253. Social Cognition. 3 Credits.

Social psychology theories, conceptual approaches, and their applications. Social cognition, person perception, attribution, information processing, attraction, stereotyping. Restricted to Graduate students only.

PSYC 8254. Social Influence. 3 Credits.

Social psychology theories, conceptual approaches, and their applications. Analysis of intentional and unintentional social influence processes and their effects on behavior. Current research on conformity, social power, social exchange, and impression management. Restricted to Graduate students only.

PSYC 8255. Attitudes and Attitude Change. 3 Credits.

Current theory and research on attitudes and attitude change. Restricted to Graduate students only.

PSYC 8256. Introduction to Survey Research. 3 Credits.

Theory and practice of face-to-face telephone and mail surveys. Practical experience with all stages from the formulation of research questions and hypotheses to questionnaire design, sampling, pilot, testing, interviewing, coding, and data cleaning. Prerequisite: STAT 2105 .

PSYC 8257. Current Topics in Social Psychology. 3 Credits.

Advanced seminar with focus on major theoretical approaches, research, or problem areas within field of social psychology. Topic changes each semester. Restricted to Graduate students only.

PSYC 8258. Qualitative Research and Analysis. 3 Credits.

Qualitative research and analysis with a focus on theory, didactic material relevant to qualitative methodologies, and applied qualitative research design and analysis. Restricted to Graduate students only.

PSYC 8259. Psychology of Individual and Group Decision Making. 3 Credits.

Examination of processes in organizational decision making and group behavior. Topics include group and individual decision-making approaches, decision aids and support systems, performance and decision effectiveness, and risk analysis. Restricted to Graduate students only.

PSYC 8260. Psychology of Work Group Development. 3 Credits.

Examination of theory and research on groups as task performance systems. Approaches to team development as a means of improving work group effectiveness, including goal setting, role clarification, increasing interpersonal skills, and conflict resolution. Restricted to Graduate students only.

PSYC 8268. Seminar: Neuropsychology. 3 Credits.

Selected problems in research relating the brain and behavior. Independent topics each semester, such as sensory processing, brain development and behavior, clinical aspects of nervous system function. Restricted to Graduate students only.

PSYC 8275. Women and Health. 3 Credits.

Theoretical and empirical analyses of women's health: how women's health is constructed by medical, psychological, and critical theorists; how sexism, racism, and classism contribute to women's health problems; and identification of conditions that lead to optimal health and well-being. Restricted to Graduate students only. (Same as WSTU 8275).

PSYC 8277. Health Psychology. 3 Credits.

Social psychological theories and research that relate to health and illness. Application of theories of social learning, attribution, attitude change, and social influence to topics such as health promotion and disease prevention, health compliance, and coping with illness and disability. Restricted to Graduate students only.

PSYC 8279. Special Topics in Health Psychology. 3 Credits.

May be repeated for credit provided the topic differs. Admission by permission of instructor. Restricted to Graduate students only.

PSYC 8280. Theories and Practice of Clinical Supervision. 0 Credits.

Theory and practice of clinical supervision through instruction and a supervision practicum in the clinical facilities. Restricted to clinical psychology graduate students. Restricted to Restricted to clinical psychology graduate students.

PSYC 8283. First Year Seminar I: Motivational Interviewing. 0 Credits.

This course develops in clinical psychology doctoral students basic skills necessary for therapeutic effectiveness through motivational interviewing and familiarizes them with goals and values in their clinical training. Restricted to Available only to students in the clinical psychology PhD program.

PSYC 8284. First Year Seminar II: Introduction to Therapy. 0 Credits.

Clinical psychology doctoral students gain basic familiarity with assessment and psychotherapy practices and understanding of the inner workings of the Meltzer Center clinic. Restricted to students in the clinical psychology PhD program.

PSYC 8285. History and Systems of Psychology. 0 Credits.

Clinical psychology doctoral students will engage in self-study of the history and systems of psychology. Restricted to Available only to students in the clinical psychology PhD program.

PSYC 8286. Clinical Psychology Externship. 0 Credits.

Clinical psychology doctoral students will participate in externship placements in clinical settings to develop their clinical skills and competencies. Restricted to students in the clinical psychology PhD program.

PSYC 8287. Current Topics in Clinical Psychology. 3 Credits.

Advanced seminar with focus on major theoretical approaches, research, or problem areas. Topics vary. May be repeated for credit. Restricted to Graduate students only.

PSYC 8288. Current Topics in Industrial/Organizational Psychology. 3 Credits.

Advanced seminar with focus on major theoretical approaches, research, or problem areas. Topics vary. May be repeated for credit. Restricted to Graduate students only.

PSYC 8289. Seminar: Current Topics in Experimental Psychology. 3 Credits.

Review and discussion of contemporary research and theory in a specialized field of psychological study, by leaders in the field. Independent topics each semester; may be repeated for credit. Restricted to Graduate students only.

PSYC 8291. Theories of Organizational Behavior. 3 Credits.

Examination of current theoretical models and research. Restricted to Graduate students only.

PSYC 8295. Independent Research. 3 Credits.

Individual library or experimental research under supervision of staff member. Arrangements must be made with sponsoring faculty member prior to registration. May be repeated for credit. Restricted to Psychology graduate students only.

PSYC 8998. Advanced Reading and Research. 1-12 Credits.

Limited to students preparing for the Doctor of Philosophy major field examination. May be repeated for credit. Restricted to Psychology graduate students only. Prerequisites: Psychology graduate students only.

PSYC 8999. Dissertation Research. 3-12 Credits.

Limited to Doctor of Philosophy candidates. May be repeated for credit. Restricted to Psychology graduate students only.

BACHELOR OF ARTS WITH A MAJOR IN PSYCHOLOGY

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 62).

Required courses (9 credits):

PSYC 1001	General Psychology
STAT 1053	Introduction to Statistics in Social Science (or equivalent)
PSYC 2101	Research Methods-Psychology

Two survey courses (6 credits) from the following:

PSYC 2011	Abnormal Psychology
or PSYC 2011W	Abnormal Psychology
PSYC 2012	Social Psychology
PSYC 2013	Developmental Psychology

One survey course (3 credits) from the following:

PSYC 2014	Cognitive Psychology
PSYC 2015	Biological Psychology

One course (3 credits) from the following:

PSYC 3112	Psychology of Adolescence
PSYC 3115	Developmental Psychopathology
PSYC 3125	Cross-Cultural Psychology
PSYC 3126	Multicultural Psychology
or PSYC 3126W	Multicultural Psychology

PSYC 3128	Health Psychology
PSYC 3132	Social and Personality Development
PSYC 3170	Clinical Psychology
PSYC 3173	Community Psychology

One course (3 credits) from the following:

PSYC 3118	Neuropsychology
PSYC 3121	Memory and Cognition
PSYC 3122	Cognitive Neuroscience
PSYC 3124	Visual Perception

Two advanced research lab courses (8 credits):

PSYC 4106W	Research Lab in Sensation and Perception
or PSYC 4107W	Research Lab in Cognitive Neuroscience
PSYC 4201W	Research Lab in Clinical/Community Psychology
or PSYC 4202W	Research Lab in Applied Social Psychology
or PSYC 4203W	Research Lab in Developmental Psychology

Three additional psychology (PSYC) courses (9 credits) numbered 2000 or above

Only 3 credits of PSYC 3591 or PSYC 4591 may be applied toward the major.

GENERAL EDUCATION

In addition to the University General Education Requirement, undergraduate students in Columbian College must complete a further, College-specific general education curriculum—Perspective, Analysis, Communication, or G-PAC. Together with the University General Education Requirement, G-PAC engages students in active intellectual inquiry across the liberal arts. Students achieve a set of learning outcomes that enhance their analytical skills, develop their communication competencies, and invite them to participate as responsible citizens who are attentive to issues of culture, diversity, and privilege.

Course work for the University General Education Requirement is distributed as follows:

- Writing—one course in university writing and two writing-in-the-disciplines (WID) courses;
- Humanities—one approved humanities course that involves critical thinking skills;
- Mathematics or Statistics—one course in either math or statistics;

- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry; and,
- Social Sciences—two courses in the social sciences

Course work for the Columbian College general education curriculum is distributed as follows:

- Arts—one approved arts course that involves the study or creation of artwork based on an understanding or interpretation of artistic traditions or knowledge of art in a contemporary context;
- Global or Cross-Cultural Perspective—one approved course that analyzes the ways in which institutions, practices, and problems transcend national and regional boundaries;
- Humanities—one approved humanities course that involves critical thinking skills (in addition to the one course in this category required by the University General Education Requirement);
- Local or Civic Engagement—one course that develops the values, ethics, disciplines, and commitment to pursue responsible public action;
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry (in addition to the one course in this category required by the University General Education Requirement; and,
- Oral Communication—one course in oral communication.

Certain courses are approved to fulfill the requirement in more than one of these categories.

Courses taken in fulfillment of the Columbian College general education curriculum may also be counted toward majors or minors. Transfer courses taken prior to, but not after, admission to George Washington University may count toward the University general education requirement and Columbian College general education curriculum, if those transfer courses are equivalent to GW courses that have been approved by the University and the College.

University General Education and G-PAC Courses

- Arts (p. 772)
- Global or Cross-Cultural (p.)
- Humanities (p. 775)
- Local/Civic Engagement (p.)
- Mathematics or Statistics (p. 778)
- Natural or physical laboratory sciences (p. 778)
- Oral Communication (p. 779)
- Social Sciences (p. 780)
- Writing (p. 781)

SPECIAL HONORS

In addition to the general requirements stated under University Regulations, in order to be considered for graduation with Special Honors, the student must submit an application to the Psychology Department before the beginning of the senior year, take an honors seminar (PSYC 4197 Honors Seminar) and a graduate-level seminar, and complete an independent study project (PSYC 4191 Independent Research or PSYC 4198 Current Research Issues-Psych) with distinction. The grade-point average in psychology required for graduation with Special Honors is 3.5.

COMBINED PROGRAM

REQUIREMENTS

The Department of Psychology offers a combined Bachelor of Arts with a major in psychology/Master of Arts in the field of art therapy program. The program allows students to take a specified number of graduate credits as part of their undergraduate degree, thereby decreasing the number of credits normally required for the master's degree.

Interested students should consult their advisor. Visit the departmental website (<http://psychology.columbian.gwu.edu/bachelors-psychologymasters-art-therapy-bama>) for deadlines and additional program information.

DOCTOR OF PHILOSOPHY IN THE FIELD OF PSYCHOLOGY

REQUIREMENTS

Specific admission requirements are shown on the Graduate Program Finder. (<http://www.gwu.edu/all-graduate-programs>)

Prerequisite: the degree of Bachelor of Arts with a major in psychology. Students whose academic preparation is in other disciplines will be expected to complete prerequisite undergraduate courses to prepare for graduate study in psychology before admission to the field.

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 62).

The requirements for the Doctor of Philosophy Program (p. 70).

Required:

PSYC 8202	Psychological Research Methods and Procedures
-----------	---

Two graduate psychology courses outside the chosen field and approved by the advisor

Appropriate statistics courses

Satisfactory completion of the General Examination in the major area of study

The Department of Psychology offers concentrations in clinical psychology, cognitive neuroscience, and applied social psychology. The concentration in industrial/organizational psychology is offered by the Department of Organizational Sciences and Communication. For specific requirements, consult the director of the concentration concerned. All programs are offered on a full-time basis only.

Graduate courses listed here are limited to graduate students in psychology, except by permission of instructor, and only if space permits.

MINOR IN PSYCHOLOGY REQUIREMENTS

Required course (3 credits):

PSYC 1001 General Psychology

Two survey courses (6 credits) from the following, including at least one of PSYC 2014 or PSYC 2015:

PSYC 2011 Abnormal Psychology

or PSYC 2011W Abnormal Psychology

PSYC 2012 Social Psychology

PSYC 2013 Developmental Psychology

PSYC 2014 Cognitive Psychology

PSYC 2015 Biological Psychology

At least three additional psychology (PSYC) courses (9 credits) numbered 2000 or above, not including PSYC 3591 or PSYC 4591

Students considering graduate study in psychology are advised to take PSYC 2101, which is a prerequisite for 3000 and 4000 level courses.

PUBLIC POLICY AND PUBLIC ADMINISTRATION

Through its Trachtenberg School of Public Policy and Public Administration, Columbian College of Arts and Sciences offers the Master of Public Policy, Master of Public Administration, and the Doctor of Philosophy in the field of public policy and administration. The master's programs provide academic preparation toward professional careers in government, business, and the nonprofit sector. The programs are accredited and provide graduate instruction in

all areas recommended by the Guidelines and Standards for Professional Master's Degree Programs issued by the National Association of Schools of Public Affairs and Administration.

GRADUATE

Master's programs

- Master of public policy (p. 788)
- Master of public administration (p. 787)

Dual programs

- Dual Master of public policy and Graduate Certificate in organizational performance improvement (p. 789)
- Dual Master of public administration and Graduate Certificate in organizational performance improvement (p. 789)
- Dual Master of public administration and Graduate Certificate in homeland security emergency preparedness and response (p. 788)

Doctoral program

- Doctor of Philosophy in the field of public policy and administration (p. 790)

CERTIFICATE

Certificate program

- Graduate certificate in nonprofit management (p. 791)

FACULTY

University Professor S.J. Trachtenberg

Professors W.C. Adams, B.S. Barnow, E. Berkowitz, J.M. Brinkerhoff, G. Brock, J.J. Cordes, S. Dudley (*Research*), A. Dor, D.L. Infeld, K.E. Newcomer (*Director*), S. Pace, S. Pandey, S. Rosenbaum, R.W. Rycroft, G.D. Squires, S.A. Tuch, N. Vonortas, P.W. Wirtz, M.J. Worth

Associate Professors S.J. Balla, L.A. Brainard, S. Cellini, D. Conger, C. Deitch, E.J. Englander, J.F. Kasle, P. Linguitti, A.S. Malik, Y. Nakib, R.P. Stoker

Assistant Professors L. Brooks, C.M. Carrigan, S. Kasdin, J. McGinnis, D.E. Rigby

COURSES

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000–4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students

- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

Programs in Public Administration are offered at the graduate level by the Trachtenberg School of Public Policy and Public Administration. Courses with 2000 designations are open to undergraduates.

PPPA 1000. Dean's Seminar. 3 Credits.

The Dean's Seminars provide Columbian College first-year students focused scholarship on specific intellectual challenges. Topics vary by semester. Consult the Schedule of Classes for more details. Restricted to First-year students in CCAS.

PPPA 2000. Justice and the Legal System I. 3 Credits.

The structure and function of constitutional law: the Supreme Court as an institution, how its cases are decided, and effects of its decisions on the political and social life of the country.

PPPA 2001. Justice and the Legal System II. 3 Credits.

Continuation of PPPA 2000. The structure and function of constitutional law: the Supreme Court as an institution, how its cases are decided, and effects of its decisions on the political and social life of the country. PPPA 2000 is prerequisite to PPPA 2001, which focuses on the First Amendment.

PPPA 2117. Executive Branch Politics. 3 Credits.

Contemporary concepts and issues in public administration and management. Major trends and approaches to governmental administration in the U.S., including the changing federal role, roles of the public sector in relation to the private sector, and managing public agencies at all levels. Same as PSC 2217.

PPPA 2701. Sustainability and Environmental Policy. 3 Credits.

A survey of the intersection of the principles of sustainability and the set of public policies that affect environmental management in the United States. Consideration of the idea that environmental policy is inevitably implemented in a complex interaction of both natural and human systems. Topics applicable to most environmental policy debates, such as the the balance between costs and benefits of environmental protection. Introduction to a "toolkit" of environmental policy instruments ranging from highly prescriptive command-and-control regulations to flexible market-based policies.

PPPA 6000. Cross-Sectoral Governance in the U.S. Federal System. 1 Credit.

Introduction to the roles and responsibilities of the public, nonprofit, and for-profit sectors in the delivery of public goods and services.

PPPA 6001. Introduction to Public Service and Administration. 3 Credits.

Introduction to the discipline of public administration. The intellectual traditions and theoretical frames of reference that inform public administration as a field of professional practice and study. Current and continuing challenges and controversies.

PPPA 6002. Research Methods and Applied Statistics. 0-3 Credits.

Development of skills and knowledge for conducting original research and critically evaluating empirical studies. Various research designs and data collection techniques are examined. Focus on computerizing data sets for quantitative analysis, analyzing strength of relationships, selecting appropriate statistical techniques, and testing statistical hypotheses.

PPPA 6003. Economics for Public Decision Making. 3 Credits.

The basic tools and concepts in microeconomic analysis; how these tools can be useful in public decision making.

PPPA 6004. Leadership in Public Administration and Public Policy. 3 Credits.

Organizational dynamics, management approaches, and workplace relationships that affect behavior in public organizations. Prerequisite: PPPA 6001.

PPPA 6005. Public Budgeting, Revenue, and Expenditure Analysis. 3 Credits.

Survey course that focuses on the institutions and analytical tools associated with raising revenue and allocating/managing resources at all levels of government. Hands-on budgeting skills and communication of analysis to decision makers. Prerequisite: PPPA 6003.

PPPA 6006. Policy Analysis. 3 Credits.

Development of skills in conducting and critiquing policy analyses. Application of methodologies used in analyzing possible consequences of specified alternatives as applied in the public policy decision-making process. Appropriate applications and limitations of policy analysis and its relationship to politics and the policy process.

PPPA 6008. M.P.A./M.P.P. Capstone. 3 Credits.

For M.P.A. and M.P.P. students who will complete their degree program at the end of the fall semester, this course substitutes for PPPA 6009 and 6119, respectively.

PPPA 6009. MPA Capstone. 3 Credits.

Review of concepts and issues; analysis and integration of ethical, political, economic, managerial, and personal values and issues in the field.

PPPA 6010. Politics & The Policy Process. 3 Credits.

The role of policy analysts in public policymaking. The impact that the political, economic, cultural, and bureaucratic context has on the policymaking process and outcomes. Political and ethical issues raised by the intricate interface of the private, not-for-profit, and public sectors in public policy formulation and implementation.

PPPA 6011. Introduction to Public Policy. 3 Credits.

Foundations of the field of public policy, emphasizing the role of policy analysts in the policymaking process. Topics include agenda setting, decisionmaking, policy implementation, program evaluation, and policy feedback.

PPPA 6013. Econometrics–Policy Research I. 3 Credits.

Multivariate research methods in policy analysis Prerequisite: PPPA 6002 . Laboratory fee.

PPPA 6014. Economics in Policy Analysis. 3 Credits.

The application of intermediate microeconomic theory to the study of public policy. Topics include models of individual choice in policy analysis, policy aspects of models of the firm, theory of market failure and welfare economics, and resource allocation decisions in the public sector. Credit cannot be earned for both PPPA 6014 and SMPP 6206. Prerequisites: PPPA 6085. Recommended background: An intermediate-level microeconomic theory course such as ECON 6217.

PPPA 6015. Benefit-Cost Analysis. 3 Credits.

The application of microeconomic theory and welfare economics to the empirical evaluation of public policies and programs. Applied welfare economics as a framework for policy analysis; empirical measures of welfare change; techniques of benefit-cost analysis. Prerequisite: PPPA 6014.

PPPA 6016. Public and Nonprofit Program Evaluation. 3 Credits.

Theory and practice of program evaluation and evaluative research. Exploration of scope and limitations of current practice in evaluation, considering economic, political, social, and administrative factors. Examination of methodological considerations for design, data collection, analysis, and dissemination. Prerequisite: PPPA 6002 .

PPPA 6018. Public Policy, Governance, and the Global Market. 3 Credits.

The socioeconomic foundations of government regulation and public policy cooperation for the governance of firms, markets, and globalization. The evolution of national, transatlantic, and multilateral frameworks for market and civil society governance, international competition policy cooperation, regulatory harmonization, and industry standards.

PPPA 6019. MPP Capstone. 3 Credits.

Policy theory and typologies; policy formulation, implementation, and evaluation; ethics and practice in policy analysis, processes, content, and contexts; policy linkages to multiple disciplines. Students submit an analysis of a substantive policy primarily utilizing resources in the D.C. region.

PPPA 6024. Leadership in Complex Organizations. 3 Credits.

What the manager must know and do to provide leadership and guidance in large, complex organizations. An exploration of leadership theories and the factors and processes that condition effective leadership.

PPPA 6025. Ethics and Public Values. 3 Credits.

Ethical dimensions of personal and professional judgments of public officials. Cases are used to consider the ethos of public organizations and the moral foundations of public policy.

PPPA 6031. Governing and Managing Nonprofit Organizations. 3 Credits.

Historical, legal, and social foundations of the nonprofit sector. Developing organizational strategy and capacity; managing staff, boards, and volunteers; financial management; fund raising, marketing, public advocacy, and other external relations; partnerships and entrepreneurial activities; measuring performance; and policy issues.

PPPA 6032. Managing Fund Raising and Philanthropy. 3 Credits.

Fund-raising for nonprofit organizations and the management of relationships between donors and recipient organizations. Positioning the organization for fund raising; roles of staff and volunteers; principal techniques for identifying, cultivating, and soliciting donors; ethical principles; emerging trends; and relevant policy issues.

PPPA 6033. Non-Profit Enterprise. 3 Credits.

The use of business methods by nonprofit organizations, commercialization in the nonprofit sector, and the relationship between nonprofit and for-profit entities in pursuing social purposes. Case studies.

PPPA 6034. Managing Nonprofit Boards. 3 Credits.

Overview of the responsibilities, roles, and management of nonprofit boards. The emphasis is on governing boards, but advisory councils and boards of other types are also considered.

PPPA 6042. Managing State and Local Governments. 3 Credits.

Examination of state and local governmental structures and functions, their place within the federal system, their revenue sources, their limitations, and the alternatives available to encourage more effective administration to meet public and private demands.

PPPA 6043. Land Use Planning and Community Development. 3 Credits.

Theory and practice of land use planning. Issues of competing land uses in an era of increased sprawl, population pressure, and environmental threat. Growth management techniques and practices in states and localities; the use of various regulatory controls and economic incentives to achieve desired outcomes. The idea of "sustainable community."

PPPA 6044. State Politics and Policy. 3 Credits.

Important concepts of state politics and government with emphasis on how those concepts affect the formulation and implementation of policy. The functions of state government and the political, economic, and legal factors that shape state public policies.

PPPA 6048. Financing State and Local Government. 3 Credits.

Analysis of the theory and practice of public finance in state and local governments. Includes the financing of services through municipal taxation, intergovernmental funds, debt instruments, and other revenue sources. Review of expenditures as well as financial management practices.

PPPA 6049. Urban and Regional Policy Analysis. 3 Credits.

Examination of selected national policies and their effects on urban areas and governments. Emphasis on policy dimensions of urban systems and their relationship to the social, political, and economic context. Against the background of urban politics and administration, areas of health, education, welfare, manpower, transportation, and housing are addressed.

PPPA 6051. Governmental Budgeting. 3 Credits.

Survey of the actors, institutions, and processes in the federal budgeting system. Executive budget preparation/execution, legislative review and approval of budget requirements, and independent audit of government spending.

PPPA 6052. Tax Policy Analysis. 3 Credits.

This course provides a guided, critical study of budgeting by the U.S. Government: its conceptual foundations, structure, processes, accounting, scoring, and results. This process is evaluated, as a system and by its component elements, using the criteria of performance with respect to its fundamental objectives; fiscal and economic stability and efficiency, including for those programs aimed at promoting equity. Because of the dominant role of the Congress in the budget process, attention is focused on the system and process created by the Congressional Budget Act of 1974.

PPPA 6053. Financial Management for Public and Nonprofit Organizations. 3 Credits.

Intensive analysis, using the case study approach, of concepts and principles used in the not-for-profit sector for financial management purposes. Disciplines of accounting, budgeting, operations control, management, and auditing are integrated into comprehensive management control systems and include issues of system design and implementation.

PPPA 6054. Issues in Federal Budgeting. 3 Credits.

Policy tools available to pursue social objectives, including grants, loans, contracting out, regulation, tax credits, and tax expenditures. Focus on criteria such as effectiveness, efficiency, equity, legitimacy, and administrative ease.

PPPA 6055. Contracting Out and Public-Private Partnerships. 3 Credits.

Contracting out and public-private partnerships as methods of delivering government goods and services. Policy and implementation issues, including when and how contracting out may provide a more efficient and effective method of delivering government goods and services.

PPPA 6056. Regulatory Comment Clinic. 3 Credits.

Survey of regulatory theories, institutions, policies, and procedures. Application of economic tools to analyze the effect of existing and proposed regulations on social welfare. Communication of analysis to decision makers and the public.

PPPA 6057. International Development Administration. 3 Credits.

An institutional and policy context for work in the international development industry. Mainstream policies, reform efforts, and alternative approaches. Major actors, selected policy areas, and regional and comparative perspectives.

PPPA 6058. International Development NGO Management. 3 Credits.

Provides an understanding of the primary implementers of international development assistance. Overview of NGO management, highlighting those features that are particular to NGOs active in international development, including NGO relations with government and donors. Recommended: PPPA 6057 or approval of instructor.

PPPA 6059. International Development Management Processes and Tools. 3 Credits.

Training in development management tools and processes; application of international development approaches specific to the development management profession. Key theories and perspectives of community development and development management. Recommended: PPPA 6057 or approval of instructor.

PPPA 6060. Policy Formulation and Administration. 3 Credits.

Impact of economic and political factors on public policy formulation and implementation; intensive analysis of the analytical, normative, and decision-making models of the policy process with special emphasis on their relationship to current policy problems.

PPPA 6061. Banking and Financial Institutions Policy. 3 Credits.

This course examines the broad range of policy issues applicable to banking and financial institutions - including those related to monetary policy, financial stability, consumer protection, and community reinvestment. This area includes a number of questions that are at the forefront of the current national policy debate about the appropriate role of government and how best to regulate financial institutions and financial markets.

PPPA 6062. Community Development Policy and Management. 3 Credits.

This course examines the policy and practice of community development, including how private sector developers and lenders work with nonprofits, foundations, and the public sector to promote sustainable affordable housing, economic development, and other community-based projects that meet both financial as well as social impact criteria. This category of finance and development is intended to help people and communities just outside the margins of conventional, mainstream finance join the economic mainstream – and to help the economic mainstream enter emerging opportunity markets. The course explores different types of community development opportunities, including affordable housing, charter school, community facility, small business lending, and nonprofit real estate projects. The course also addresses emerging trends that are likely to affect community development policymakers and practitioners, including transportation oriented development, “green” development, use of technology, comprehensive community initiatives, and new ways of raising capital for community development projects.

PPPA 6063. Policy Issues in Corporate Social Responsibility (CSR) and Impact Investing. 3 Credits.

This course examines the role of the public and nonprofit sectors in supporting corporate and investor activities that are intended to have social and environmental, in addition to financial, benefits. These activities – often referred to as “corporate Social Responsibility” (CSR) and “impact investing” – have been described as having significant potential to create social benefits in addition to being in the financial best interests of the corporation or investor. At the same time, some critics of these activities have said that they are less about producing social benefits and more about marketing private sector activities that are primarily designed to produce corporate financial gains. The course explores what is meant by these two terms, what steps the public and nonprofit sectors have taken to support the wide range of activities that these terms encompass, and what have been the results of this work both in the United States and in other countries. The course also addresses emerging trends that are likely to affect the public and nonprofit role in CSR and impact investing in the future.

PPPA 6065. Federalism and Public Policy. 3 Credits.

PPPA 6066. Environmental Policy. 3 Credits.

Current issues in environmental policy: biodiversity, land use including wilderness protection, climate change, environmental justice, economic growth, and ecological sustainability.

PPPA 6067. Environment, Energy, Technology, and Society. 3 Credits.

The identification, examination, and evaluation of how environment, energy, and technology are interrelated and how these interactions influence policy formulation and implementation at the international, national, regional, industrial, and organizational levels. Same as SMPP 6207.

PPPA 6072. Legislative Management and Congress. 3 Credits.

Analysis of Congress as a management system; examination of its internal administration and its role in formulating policy through legislation. Staffing practices, leadership, rules and procedures, oversight functions, and coalition building.

PPPA 6075. Law and the Public Administrator. 3 Credits.

Exploration and analysis of the functions of law in a democratic society. Emphasis is placed upon the procedural, historical, and jurisprudential dimensions of American law. This broad perspective seeks to convey understanding of the law as a legal and moral force guiding and constraining public decision making.

PPPA 6076. Federal Government Regulation of Society. 3 Credits.

Analysis of the federal regulatory process as it affects the public and private sectors. The regulatory process from legal, economic, administrative, and political perspectives.

PPPA 6077. Case Studies in Public Policy. 1-3 Credits.

Critical analysis of topical issues in public policy, using a case-study approach. Specific issues covered will vary.

PPPA 6085. Special Topics in Public Policy. 3 Credits.

Topics announced in the Schedule of Classes. May be repeated for credit, provided the topic differs.

PPPA 6097. Practicum in Public Policy and Public Administration. 0 Credits.

PPPA 6098. Independent Research. 1-12 Credits.

Prerequisite: Permission of instructor and program director.

PPPA 8022. Econometrics-Policy Research II. 3 Credits.

Advanced topics in econometrics for policy research. This course is designed for doctoral students who wish to use econometric tools in their research. The course prerequisite is PPPA 6013 or an equivalent course in introductory econometrics; however, students should expect a greater degree of difficulty and a greater reliance on self-directed study in PPPA 8022 than PPPA 6013.

PPPA 8100. Seminar: Literature of Public Administration. 3 Credits.

Contemporary and historical literature in the institutional and intellectual development of public administration.

PPPA 8101. Research Methods. 3 Credits.

Doctoral seminar on theory and practice in research methodology. Data sources and gathering, research models and designs. Critical evaluation of research studies. Emphasis on application of research methods to policy questions.

PPPA 8105. Public Finance and Human Capital. 3 Credits.

The many facets of budgeting and finance and the research approaches used to study issues in this field.

PPPA 8111. Seminar: Public-Private Sector Institutions and Relationships. 3 Credits.

An analysis and critique of alternative theoretical frameworks for describing, understanding, and predicting the nature, values, and actions of American public and private institutions. Problems, potentials, and alternatives for structuring public and private institutional arrangements to meet the needs of society. Same as SMPP 8311. Prerequisite: doctoral degree candidate status.

PPPA 8123. Seminar: The Policy Organization. 3 Credits.

Unique problems of complex organizations: public, private, and mixed. Emerging concepts and theories. Selected issues.

PPPA 8164. Seminar on Program Evaluation. 3 Credits.

Doctoral seminar on theory and practice in public and nonprofit program evaluation. The broad range of approaches undertaken, current controversies in the field, and the political and ethical context for evaluators.

PPPA 8174. Seminar: Public Management. 3 Credits.

Survey of contemporary normative and epistemological issues in public organization theory and practice. Analysis of the past and present influence of logical positivism, behaviorism, pragmatism, humanism, existentialism, phenomenology, and postmodernism.

PPPA 8183. Current Topics & Research. 1 Credit.

Current scholarship discussed in a seminar setting. The conduct of research and presentation of research findings. May be repeated for credit.

PPPA 8190. Philosophical Foundations of Policy and Administrative Research. 3 Credits.

Philosophy of science as applied to research in public policy and public administration. Topics include the nature and current problems of epistemology, development and role of theories, and relationships among theory, methodology, and empirical data.

PPPA 8191. Dissertation Workshop. 3 Credits.

Limited to doctoral candidates who have taken and passed the qualifying examination and completed all required course work in a policy or public administration field. Critical analysis of current research. Formulation of a dissertation proposal and development of dissertation research strategies.

PPPA 8197. Doctoral Seminar:Special Topic. 1-3 Credits.

PPPA 8998. Advanced Reading and Research. 1-12 Credits.

Limited to students preparing for the Doctor of Philosophy general examination.

PPPA 8999. Dissertation Research. 3-12 Credits.

Limited to Doctor of Philosophy candidates. May be repeated for credit.

MASTER OF PUBLIC ADMINISTRATION

REQUIREMENTS

Specific admission requirements are shown on the Graduate Program Finder. (<http://www.gwu.edu/all-graduate-programs>)

Prerequisite: a bachelor's degree from a regionally accredited college or university.

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 62).

The Master of Public Administration is available in a joint degree program with the J.D. in the GW Law School.

Required: 40 credits consisting of:

Core:

PPPA 6000 Cross-Sectoral Governance in the U.S. Federal System

PPPA 6001 Introduction to Public Service and Administration

PPPA 6002 Research Methods and Applied Statistics

PPPA 6003 Economics for Public Decision Making

PPPA 6004 Leadership in Public Administration and Public Policy

PPPA 6005 Public Budgeting, Revenue, and Expenditure Analysis

PPPA 6006 Policy Analysis

PPPA 6009 MPA Capstone

A three or four course policy field:

Policy fields include budget and public finance; federal policy, politics, and management; international development management; managing state and local governments; homeland security and emergency management; nonprofit management; policy analysis and evaluation; public-private policy and management. With approval, a special field may be constructed, tailored to the student's academic interests and career objectives.

An elective courses with the advisor's approval from any related program or discipline

The Columbian College of Arts and Sciences also offers related interdisciplinary M.A. programs that enable students to concentrate in a specific policy area while completing courses in economics, politics, quantitative methods, and approaches

to policy analysis. For more information, see Environmental Resource Policy, Philosophy, and Women’s Studies. See the School of Business and the Elliott School of International Affairs for other graduate degree programs with public policy concentrations.

MASTER OF PUBLIC POLICY

REQUIREMENTS

Specific admission requirements are shown on the Graduate Program Finder. (<http://www.gwu.edu/all-graduate-programs>)

Prerequisite: a bachelor’s degree from a regionally accredited college or university.

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 62).

The Master of Public Policy is available in a dual degree program with the Ph.D. in the field of political science and a joint degree program with the J.D. in the GW Law School.

Required: 40 credits consisting of:

Policy core:

PPPA 6002 Research Methods and Applied Statistics

PPPA 6011 Introduction to Public Policy

PPPA 6013 Econometrics–Policy Research I

PPPA 6014 Economics in Policy Analysis

PPPA 6019 MPP Capstone

Two of the following:

PPPA 6005 Public Budgeting, Revenue, and Expenditure Analysis

PPPA 6015 Benefit-Cost Analysis

PPPA 6016 Public and Nonprofit Program Evaluation

A three-course policy field:

Policy fields include budget and public finance, education policy, environmental policy, health policy, national security and foreign policy, international development policy, program and policy evaluation, regulatory policy, social policy, and urban policy. With approval, a special field may be constructed, tailored to the student’s academic interests and career objectives

Electives with approval of the advisor

DUAL MASTER OF PUBLIC ADMINISTRATION AND GRADUATE CERTIFICATE IN HOMELAND SECURITY EMERGENCY PREPAREDNESS AND RESPONSE

REQUIREMENTS

Specific admission requirements are shown on the Graduate Program Finder. (<http://www.gwu.edu/all-graduate-programs>)

Prerequisite: a bachelor’s degree from a regionally accredited college or university.

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 62).

Master of Public Administration students can earn a graduate certificate in Homeland Security Emergency Preparedness and Response in the School of Engineering and Applied Science.

Required

PPPA 6000 Cross-Sectoral Governance in the U.S. Federal System

PPPA 6001 Introduction to Public Service and Administration

PPPA 6002 Research Methods and Applied Statistics

PPPA 6003 Economics for Public Decision Making

PPPA 6004 Leadership in Public Administration and Public Policy

PPPA 6005 Public Budgeting, Revenue, and Expenditure Analysis

PPPA 6006 Policy Analysis

PPPA 6009 MPA Capstone

Policy field

Three or four courses

Policy fields include budget and public finance; federal policy, politics, and management; international development management; managing state and local governments; homeland security and emergency management; nonprofit management; policy analysis and evaluation; public-private policy and management. With approval, a special field may be constructed, tailored to the student’s academic interests and career objectives.

Requirements toward the graduate certificate fulfill the elective credits toward the Master of Public Administration degree and are as follows:

EMSE 6300	Homeland Security: The National Challenge
-----------	---

Five additional courses from the following:

EMSE 6305	Crisis and Emergency Management
-----------	---------------------------------

EMSE 6310	Information Technology in Crisis and Emergency Management
-----------	---

EMSE 6315	Management of Risk and Vulnerability for Hazards and Terrorism
-----------	--

EMSE 6320	International Disaster Management
-----------	-----------------------------------

EMSE 6325	Medical and Public Health Emergency Management
-----------	--

EMSE 6330	Management of Terrorism Preparedness and Response
-----------	---

emse 6335	
-----------	--

EMSE 6992	Special Topics
-----------	----------------

EMSE 6345	Disaster Recovery and Organizational Continuity
-----------	---

EMSE 6350	Hazard Mitigation in Disaster Management
-----------	--

EMSE 6240	Environmental Hazard Management
-----------	---------------------------------

DUAL MASTER OF PUBLIC ADMINISTRATION AND GRADUATE CERTIFICATE IN ORGANIZATIONAL PERFORMANCE IMPROVEMENT

Master of Public Administration students may earn a graduate certificate in organizational performance improvement in the College of Professional Studies.

Specific admission requirements are shown on the Graduate Program Finder. (<http://www.gwu.edu/all-graduate-programs>)

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 62).

Required: 43 credits consisting of:

Core:

PPPA 6000	Cross-Sectoral Governance in the U.S. Federal System
-----------	--

PPPA 6001	Introduction to Public Service and Administration
-----------	---

PPPA 6002	Research Methods and Applied Statistics
-----------	---

PPPA 6003	Economics for Public Decision Making
-----------	--------------------------------------

PPPA 6004	Leadership in Public Administration and Public Policy
-----------	---

PPPA 6005	Public Budgeting, Revenue, and Expenditure Analysis
-----------	---

PPPA 6006	Policy Analysis
-----------	-----------------

PPPA 6009	MPA Capstone
-----------	--------------

A three or four course policy field:

Policy fields include budget and public finance; federal policy, politics, and management; international development management; managing state and local governments; homeland security and emergency management; nonprofit management; policy analysis and evaluation; public-private policy and management. With approval, a special field may be constructed, tailored to the student's academic interests and career objectives.

Requirements toward the graduate certificate fulfill the elective credits toward the Master of Public Administration degree and are as follows:

PSPL 6301	Fundamentals of Organization Performance Improvement
-----------	--

PSPL 6302	Leading Organization Performance Improvement Initiatives
-----------	--

PSPL 6303	Advanced Methods for Organization Performance Improvement
-----------	---

PSPL 6304	Advanced Applications in Organization Performance Improvement
-----------	---

DUAL MASTER OF PUBLIC POLICY AND GRADUATE CERTIFICATE IN ORGANIZATIONAL PERFORMANCE IMPROVEMENT REQUIREMENTS

Specific admission requirements are shown on the Graduate Program Finder. (<http://www.gwu.edu/all-graduate-programs>)

Prerequisite: a bachelor's degree from a regionally accredited college or university.

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 62).

Master of Public Policy students can earn a graduate certificate in Organizational Performance Improvement in the College of Professional Studies.

Required

PPPA 6002	Research Methods and Applied Statistics
PPPA 6011	Introduction to Public Policy
PPPA 6013	Econometrics–Policy Research I
PPPA 6014	Economics in Policy Analysis
PPPA 6019	MPP Capstone
Two of the following:	
PPPA 6005	Public Budgeting, Revenue, and Expenditure Analysis
PPPA 6015	Benefit-Cost Analysis
PPPA 6016	Public and Nonprofit Program Evaluation

Policy field

Three courses

Policy fields include budget and public finance, education policy, environmental policy, health policy, national security and foreign policy, international development policy, program and policy evaluation, regulatory policy, social policy, and urban policy. With approval, a special field may be constructed, tailored to the student's academic interests and career objectives

Requirements toward the graduate certificate fulfill the elective credits toward the Master of Public Policy degree and are as follows:

PSPL 6301	Fundamentals of Organization Performance Improvement
PSPL 6302	Leading Organization Performance Improvement Initiatives
PSPL 6303	Advanced Methods for Organization Performance Improvement
PSPL 6304	Advanced Applications in Organization Performance Improvement

DOCTOR OF PHILOSOPHY IN THE FIELD OF PUBLIC POLICY AND ADMINISTRATION

REQUIREMENTS

Specific admission requirements are shown on the Graduate Program Finder. (<http://www.gwu.edu/all-graduate-programs>)

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 62).

The requirements for the Doctor of Philosophy Program (p. 70).

Prequalifying core curriculum:

PPPA 6013	Econometrics–Policy Research I
PPPA 6014	Economics in Policy Analysis
PPPA 8100	Seminar: Literature of Public Administration
PPPA 8101	Research Methods
PSC 8229	Politics and Public Policy

A written qualifying examination

Core courses:

PPPA 8105	Public Finance and Human Capital
One of the following to fulfill the quantitative course requirement	
PPPA 8022	Econometrics-Plcy Research II
ECON 8376	Econometrics II
ECON 8377	Econometrics III
DNSC 6275	Advanced Statistical Modeling and Analysis
One of the following to fulfill the qualitative course requirement	
PSC 8104	Qualitative Research Methods
EDUC 8122	Qualitative Research Methods
EDUC 8131	Case Study Research Methods
PUBH 8417	Qualitative Research Methods & Analysis

or equivalent course as approved by the program director

A minimum of 18 credits in one of the following areas:

Education policy; health policy; budgeting and public finance; program evaluation; administration and management; science and technology policy; social policy with specialization in gender, poverty and inequality, race and ethnicity, or urban policy

A written examination in a policy or public administration field

Dissertation research: 12-18 credits

PPPA 8190 Philosophical Foundations of Policy and Administrative Research

PPPA 8191 Dissertation Workshop

PPPA 8199 Dissertation Research (repeated as needed to fulfill dissertation credit requirement)

Students must maintain a grade-point average of at least 3.3 to remain in the program.

GRADUATE CERTIFICATE IN NONPROFIT MANAGEMENT

The graduate certificate in nonprofit management provides an overview of central concepts in managing nonprofit organizations for students who are seeking to prepare for, or advance in, careers in the nonprofit sector. The certificate serves as an alternative for students who wish to expand their knowledge in the field without committing to a master's degree program.

Specific admission requirements are shown on the Graduate Program Finder. (<http://www.gwu.edu/all-graduate-programs>)

Visit the program webpage (<http://tspppa.gwu.edu/graduate-certificate-nonprofit-management>) for additional information.

REQUIREMENTS

The following requirements must be fulfilled: 12 credits, including 6 credits in required courses and 6 hours in elective courses.

Required courses:

PPPA 6031 Governing and Managing Nonprofit Organizations

PPPA 6032 Managing Fund Raising and Philanthropy

Two of the following electives:

PPPA 6016 Public and Nonprofit Program Evaluation

PPPA 6033 Non-Profit Enterprise

PPPA 6034 Managing Nonprofit Boards

PPPA 6053 Financial Management for Public and Nonprofit Organizations

PPPA 6058 International Development NGO Management

Other Trachtenberg School of Public Policy and Public Administration nonprofit courses may be offered periodically. With prior approval of the field advisor, certain non-Trachtenberg School courses at GW may be counted toward the elective group.

RELIGION

The study of religion at GW promotes analysis rather than advocacy of religion or a particular tradition. At the undergraduate level, the Department of Religion offers the Bachelor of Arts with a major in Religion. The program curriculum fosters knowledge of the world's religions, as well as their history, literature, and community structure. Areas of study include Biblical literature, Judaism, Christianity, Islam, Hinduism, ethics, sociology of religion, contemporary movements in theology, and religion in American culture. A minor in religion is also offered.

At the graduate level, the Master of Arts in the field of Islamic studies focuses on the study of Islam in its classical and contemporary formations, with an emphasis on developing competence in classical Islamic intellectual traditions. The cross-disciplinary program allows students to study with a variety of faculty members who are knowledgeable about the classical formulations of Islam, and have on-the-ground experience in Muslim-majority countries and communities. Centrally located in Washington, D.C., the program offers students the opportunity to interact with U.S. government agencies, think tanks, non-governmental institutions, and the large Muslim community residing and working in the metro area. The program also offers "non-traditional students"--such as working professionals, civil servants, and employees of international agencies--the opportunity to tailor the program to their particular needs.

The Graduate Certificate in Islamic Studies is also offered for professionals in related fields who benefit from instruction in critical aspects of Islam.

The Doctor of Philosophy in the field of American Religious History is offered by the Department of History in cooperation with the Department of Religion.

UNDERGRADUATE

Bachelor's program

- Bachelor of Arts with a major in religion (p. 796)

Minor

- Minor in religion (p. 808)

GRADUATE

Master's program

- Master of Arts in the field of Islamic studies (p. 809)

Doctoral program

- Doctor of Philosophy in the field of American religious history (p. 523)

CERTIFICATE

- Graduate certificate in Islamic studies (p. 809)

FACULTY

University Professor S.H. Nasr

Professors P.B. Duff, R.J. Eisen (*Chair*), A.J. Hildebeitel, R.W. Tuttle

Associate Professors X. Kang, I. Oh Koukios, D. Malone-France, K. Pemberton

Assistant Professors E. Aviv, J.D. Wood

Professorial Lecturers M. Faghfoory, B.N. Hebbar, E.C. Hostetter, N. Houghtby-Haddon, P. Reddy

COURSES

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000-4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

REL 1000. Dean's Seminar. 3 Credits.

The Dean's Seminars provide Columbian College first-year students focused scholarship on specific intellectual challenges. Topics vary by semester. Consult the Schedule of Classes for more details. Restricted to First-year students in CCAS.

REL 1001. Introduction to World Religions: West. 3 Credits.

Examination of the religions of the ancient Mediterranean and the major religions of the West. Religious foundations of Western civilizations. The development of Judaism, Christianity, and Islam and their confrontations with secularization and political upheaval in the modern world.

REL 1002. Introduction to World Religions: East. 3 Credits.

Examination of the major religions of the East and comparison with religions in the West. Approaches to the cross-cultural study of religion. Hinduism, Buddhism, and the religions of Tibet, China, and Japan are studied with respect to their history and their encounter with modernity.

REL 1003. Introduction to World Religions. 3 Credits.

Introduction to the major religions of the world: Judaism, Christianity, Islam, Hinduism, Buddhism, Confucianism, and Daoism. Examination of the central aspects of these religions including the doctrinal, ethical, ritual, experiential, and social dimensions. Exploration of similarities and differences between these religious traditions.

REL 1009. The Hebrew Scriptures. 3 Credits.

The literature, history, and religious thought represented by the Hebrew Scriptures (Old Testament). Continuities and contrasts between Israel and the ancient Near East are considered through study of the world view, oral and literary tradition, main religious ideas, and chief figures and movements of the biblical literature.

REL 1010. The New Testament. 3 Credits.

Literature and history of earliest Christianity in the setting of the religious movements of the Greco-Roman world and developments within Judaism. The meaning of the earliest Christian proclamation about the significance of the life, teaching, and death of Jesus of Nazareth becomes the basis for tracing the formation and expansion of the Christian movement.

REL 1010W. The New Testament. 3 Credits.

Literature and history of earliest Christianity in the setting of the religious movements of the Greco-Roman world and developments within Judaism. The meaning of the earliest Christian proclamation about the significance of the life, teaching, and death of Jesus of Nazareth becomes the basis for tracing the formation and expansion of the Christian movement.

REL 2165. The Gospels. 3 Credits.

Study of the four canonical gospels (traditionally those of Matthew, Mark, Luke, and John) in terms of each presenting a distinct literary portrait of Jesus of Nazareth and each being the product of a religious community that shared at least some beliefs and practices with surrounding "pagan" and Jewish communities.

REL 2169. Lost Gospels. 3 Credits.

Examination of some of the gospels not included in the Christian canon. These include, among others, Q, the Gospel of Thomas, the Gospel of Mary, and the Gospel of Judas. These lost gospels provide a fresh perspective on the development and diversity of early Christianity.

REL 2201. Judaism. 3 Credits.

A survey of Jewish thought and practice from the biblical to the modern period; introduction to the Hebrew Bible, rabbinic Judaism, Jewish philosophy and mysticism, Judaism in the modern period; an examination of the central rituals in Judaism, including Sabbath, dietary laws, and major festivals.

REL 2211. Rabbinic Thought and Literature. 3 Credits.

The thought-world of rabbinic Judaism in its formative period, 100–500 CE, through a close reading of primary texts in translation selected from Mishnah, Talmud, and Midrash. Topics include Oral Torah, the mechanics of rabbinic law, conceptions of God, views on suffering. The influence of rabbinic Judaism on modern Jewish ethics and thought.

REL 2301. Christianity. 3 Credits.

Typical themes, patterns, and points of diversity within the Christian religion. Consideration of many perspectives of Christianity in terms of commonly shared as well as contested features, along with its complex relationship with broader culture.

REL 2314. Contemporary Philosophy of Religion. 3 Credits.

The arguments of major figures in contemporary schools of thought within the philosophy of religion, including analytic, continental, deconstructionist, and process philosophy.

REL 2401. Islam. 3 Credits.

Islam as both a religion and a civilization. The basic Islamic beliefs and practices: the Qur'an, Hadith, and Islamic intellectual legacy; and the history of Islam from 632 to the present with particular attention to its encounter with the West.

REL 2501. Hinduism. 3 Credits.

Study of continuity and change in Hinduism, with emphasis on historical development and the consolidating features of the religion. Attention to relations between classical and popular living forms.

REL 2506. Religion, Myth, and Magic. 3 Credits.

Theories of religion developed by anthropologists; survey of world religions with emphasis on non-Western societies; religious processes and change. (Same as ANTH 2506).

REL 2562. Mythologies of India. 3 Credits.

The lore of Indian gods (Vedic, Puranic), heroes (epics), and holy men (Hindu, Buddhist, Jain, Tantric); ties with Indian art, caste, cult, cosmology, and spiritual ideals.

REL 2601. Buddhism. 3 Credits.

Consideration of the Buddhist tradition both thematically and historically, focusing on topics such as Buddhist doctrine, meditation, and rituals. The lived tradition in the pre-modern and modern periods.

REL 2811. Confucian Literature in East Asia. 3 Credits.

Introduction to Confucian literature in China and other parts of East Asia, from its beginnings to the present day. The various historical, philosophical, and religious dimensions of Confucian texts and practices; the role of Confucianism in the formation and development of Chinese and East Asian political systems, family systems, and gender relationships; recent intellectual debates on Confucianism in East Asia. Same as EALL 3811.

REL 2814. Religion and Philosophy in East Asia. 3 Credits.

Historical introduction to the major religious and philosophical traditions in China, Japan, and Korea, with focuses on ancestor worship, shamanistic cults, Confucianism, Buddhism, Daoism, and Shinto. The interactions of common East Asian religious and philosophical traditions how these traditions evolved over time, and the way each cultures assimilates foreign elements. How the very ideas of religion and philosophy are formulated and practiced differently in East Asia from those in the Western tradition. Same as EALL 3814.

REL 2921. The Religions Wage Peace. 3 Credits.

Resources in various world religions that contribute to peacemaking in interpersonal relations and in domestic and international politics. Consideration of ways in which religions contribute to intolerance and violence. Case-based approach to religions as related to peace and conflict resolution.

REL 2922. Ethics and World Religions. 3 Credits.

Modern concepts of ethics and their relation to major world religions, religion as stimulus and barrier to moral change, and modern moral issues ranging from bioethics to war.

REL 2981. Women in Western Religion. 3 Credits.

Historical, theological, and ethical investigation of the image and role of women in Judaism and Christianity; special consideration of the Biblical experience, the sexual qualifications for religious office, use of male and female images and languages, and contemporary issues. Same as WSTU 3981.

REL 3141. Second Temple/Hellenistic Judaism. 3 Credits.

History of Judaism from the time of Ezra through the destruction of Jerusalem in 70 CE—canonization of the Pentateuch, Hellenism, Maccabean revolt, growth of sectarian movements, Herod, ferment against Rome in context of Eastern and Western political currents. Use of primary sources, especially the Bible, Josephus, and noncanonical writings.

REL 3149. Biblical Issues. 3 Credits.

May be repeated for credit provided the topic differs.

REL 3149W. Biblical Issues. 3 Credits.

May be repeated for credit provided the topic differs.

REL 3151. The Historical Jesus. 3 Credits.

Comprehensive study of the life and teachings of Jesus with critical attention to sources. Quest for the historical Jesus.

REL 3151W. The Historical Jesus. 3 Credits.

Comprehensive study of the life and teachings of Jesus with critical attention to sources. Quest for the historical Jesus.

REL 3161. The Life and Thought of Paul. 3 Credits.

Backgrounds of early Christianity, first-century religious and social conditions affecting the spread of Christianity, the life and journeys of Paul, Paul's presentation of the Christian faith.

REL 3161W. The Life and Thought of Paul. 3 Credits.

Backgrounds of early Christianity, first-century religious and social conditions affecting the spread of Christianity, the life and journeys of Paul, Paul's presentation of the Christian faith.

REL 3221. Issues in Jewish Ethics. 3 Credits.

Exploration of current debates about major ethical issues among Jewish thinkers in the Orthodox, Conservative, and Reform denominations; issues in bioethics, feminism, attitudes towards non-Jews, social action, the ethics of war.

REL 3291. Modern Jewish Thought. 3 Credits.

Jewish thought from 1800 to the present through an exploration of six preeminent Jewish theologians: Moses Mendelssohn, Hermann Cohen, Martin Buber, A.J. Heschel, J.B. Soloveitchik, and Mordecai Kaplan. The relationship between these thinkers and the major Jewish denominations: Orthodox, Conservative, Reform, and Reconstructionist.

REL 3292. Seminar: Issues in Jewish Thought. 3 Credits.

In-depth exploration of a selected thinker or issue in Jewish thought. Recommended for students with academic background in the study of religion or Judaic studies. May be repeated for credit provided the topic differs.

REL 3310. Apocalypse and Social Change. 3 Credits.

Investigation of typical ideas, patterns, and areas of social engagement associated with the genre of religious literature known as apocalypse. Why and how diverse groups within Jewish, Christian, and Muslim traditions crafted apocalypses that have shaped cultures across the globe from past to present.

REL 3321. Christian Ethics and Modern Society. 3 Credits.

Nature and principles of Christian life as developed by the Christian community; problems of personal conduct; application to various social institutions.

REL 3341. Christianity in the Ancient World. 3 Credits.

Rise and development of Christianity in relation to the culture, philosophy, mystery religions, and general religious life of the Greco-Roman world to A.D. 500.

REL 3342. Medieval Faith and Symbolism. 3 Credits.

Christian life and thought in the Middle Ages; mystics, saints, popes, and philosophers.

REL 3343. Religion in the Renaissance and Reformation. 3 Credits.

Transformation of the Western understanding of human identity and destiny from the end of the Middle Ages to the Age of Reason.

REL 3344. Christianity in the Modern World. 3 Credits.

Changes in Christian life and thought since 1700, as seen in theology, literature, political life, and religious institutions.

REL 3405. Shi'ite Islam. 3 Credits.

This course examines the emergence and development of Shi'ism as a branch of Islamic orthodoxy with particular emphasis on its doctrine, practices, theology, the law, politics, and the geographical and political context within which a distinct Shi'i identity developed.

REL 3414. Islamic Philosophy and Theology. 3 Credits.

The major schools of Islamic philosophy and theology, considered in both a morphological and historical manner. The relation between revelation and reason, determination and free will, and divine and human knowledge as well as the relation among science, philosophy, and religion. The development of various schools of thought, from the classical period to the present.

REL 3425. Islamic Political Thought. 3 Credits.

In contrast to many courses on this topic that focus on modern period, this course investigates Islamic political thought from its inception during the lifetime of the Prophet to its elaboration and expansion by philosophers, theologians and political theorists, and to its encounter with political thought coming from the Western world in modern period.

REL 3431. Sufism (Islamic Mysticism). 3 Credits.

The foundation of Sufism in the Quranic revelation, its subsequent development, and its significance within Islamic civilization. Doctrines and practices of Sufism; history of the Sufi orders; Sufi literature, particularly in Arabic and Persian. The influence of Sufism upon social and political life and its state and role in the contemporary world, both Islamic and non-Islamic.

REL 3432. Persian Sufi Literature East and West. 3 Credits.

The teachings of Sufism as reflected in the history of Persian Sufi literature. The influence of that literature on literary figures outside of the Islamic world, especially in the West, but also in India and China, from the 18th to the 20th centuries.

REL 3475. Islamic Religion and Art. 3 Credits.

Investigation of major forms of Islamic art, such as calligraphy, architecture, and urban design; Quranic chanting, poetry, and music in relation to the principles of Islamic revelation. Same as AH 4119.

REL 3481. Women in Islam. 3 Credits.

The ways in which Islam has articulated gender identity and male-female relationships, and conversely, how women have constructed, interpreted, and articulated Islam and their places within it. Same as WSTU 3481.

REL 3482. Gender and Piety in Islam. 3 Credits.

Issues related to gender, sainthood, and piety in Islam. Reading of classical primary texts and historical, ethnographic, and philosophical works. Focus on mysticism and metaphysics in Sufi and Shi'i traditions. Final projects are creative or research oriented.

REL 3501. Hinduism. 3 Credits.

Study of continuity and change in Hinduism, with emphasis on historical development and the consolidating features of the religion. Attention to relations between classical and popular living forms.

REL 3566. Dharma in Hinduism and Buddhism. 3 Credits.

Development of working definitions of dharma as it is used in law, religion, ethics, and narrative in Buddhist and Brahmanical/Hindu texts of India's classical period.

REL 3611. South Asian Buddhism. 3 Credits.

The life of Buddha, the Buddhist Councils, doctrines of the schools of Hinayana Buddhism, philosophies of the schools of Indian Mahayana Buddhism, history of Buddhism in Sri Lanka, early history of Tibetan Buddhism, and the decline of Buddhism in India.

REL 3614. Buddhist Philosophy. 3 Credits.

Development of working definitions of dharma as it is used in law, religion, ethics, and narrative in Buddhist and Brahmanical/Hindu texts of India's classical period.

REL 3666. The Book of Revelation and Other Apocalypses. 3 Credits.

Examination of the Book of Revelation in its original historical context. This includes investigation of the origins of apocalyptic thought within Judaism and comparison of the Book of Revelation with other apocalypses such as Daniel, 1 Enoch, and 4 Ezra.

REL 3701. Religion in the United States. 3 Credits.

Growth of religious groups and institutions in relation to American culture, development of religious thought, and analysis of the contemporary religious scene.

REL 3711. Religion in Contemporary America. 3 Credits.

Trends and currents in American religion in the past fifty years. The nature and meaning of religious pluralism in the United States.

REL 3711W. Religion in Contemporary America. 3 Credits.

Trends and currents in American religion in the past fifty years. The nature and meaning of religious pluralism in the United States.

REL 3814W. Religion&Philosophy/East Asia. 3 Credits.

General introduction to the religions and philosophical tradition of China, Japan, and Korea. Same as EALL 3814.

REL 3831. Daoism in East Asia. 3 Credits.

Study of the early history of the formation and development of Daoism, its growth into an institutionalized religious organization in China, and its role in the religious and philosophical history of Japan and Korea. Same as EALL 3831.

REL 3831W. Daoism in East Asia. 3 Credits.

Study of the early history of the formation and development of Daoism, its growth into an institutionalized religious organization in China, and its role in the religious and philosophical history of Japan and Korea. Same as EALL 3831.

REL 3832. Myth, Ritual, and Popular Religion in China. 3 Credits.

Key aspects of popular religious myths, symbols, rituals, and practices in China, such as ancestor worship, spirit possession, fengshui theories, and pilgrimage.

REL 3841. Religion in Modern China. 3 Credits.

The changes, destructions, and reconstructions of Chinese religions from the late 19th century to the present day. The relationship between the (re)making of Chinese religions and the making of a modern Chinese nation-state. Same as CHIN 3841.

REL 3881. Women, Gender, and Religion in China. 3 Credits.

A historical introduction to the concepts of body, gender, and womanhood in Confucian, Daoist, Buddhist, and popular Chinese religious traditions. Women's roles in religious ritual and practices; the influence of Christianity and modernity. Same as WSTU 3881.

REL 3901. Theories and Methods in the Study of Religion. 3 Credits.

Seminar taught jointly by the faculty of the Department of Religion. Analysis of different ways in which religious phenomena can be approached. Readings and discussion of some of the epoch-making books in the development of the study of religion.

REL 3915. Islam and Hinduism in South Asia. 3 Credits.

Investigation of the historical development and contemporary practice of Islam in South Asia (India, Nepal, Pakistan, Bangladesh, and Afghanistan). Particular attention to devotional traditions within Sufism and Bhakti Hinduism.

REL 3923. Violence and Peace in Judaism, Christianity, and Islam. 3 Credits.

Historical analysis of the violent and peaceful dimensions of the three Abrahamic faiths, with focus on the relationship of the scriptures of each of the three traditions to the later interpretations that supported both violent and peaceful readings of those texts.

REL 3931. Interfaith Dialogue in World Religions. 3 Credits.

Comparison of certain families of religions and the doctrinal debates in which they have engaged, including Hindu-Buddhist, inter-Hindu, inter-Buddhist, Buddhist-Confucian, Jewish-Christian, inter-Christian (Catholic-Protestant), Christian-Islamic, and inter-Islamic debates.

REL 3945. The Psychological Study of Spirituality. 3 Credits.

The complex interrelationship between psychology and spirituality: health and wellness; development of a spiritual life; psychological factors involved in spirituality; therapy and multicultural issues. Same as PSYC 3945.

REL 3951. Myth, Epic and Novel. 3 Credits.

Religious themes and images of the hero and their cultural significance in literature: e.g., Indo-European, Biblical, Babylonian narrative traditions; Greek epic and drama; Dante, Milton, Dostoevsky, Kafka, Hesse, Faulkner, Beckett.

REL 3989. The Goddess in India and Beyond. 3 Credits.

The goddess traditions of Hinduism, with some attention to goddess traditions in the ancient Near East and the Mediterranean. Classical Sanskrit, Tantric, and popular expressions of Hindu goddess worship. Comparative studies and issues of gender.

REL 3990. Selected Topics in Religion. 3 Credits.

Critical examination of religious phenomena rendered timely by current events or special resources. Topic announced in the Schedule of Classes. May be repeated for credit provided the topic differs.

REL 3990W. Selected Topics in Religion. 3 Credits.

Critical examination of religious phenomena rendered timely by current events or special resources. Topic announced in the Schedule of Classes. May be repeated for credit provided the topic differs.

REL 3999. Readings and Research. 2-3 Credits.

REL 4101. Senior Capstone Seminar. 3 Credits.

Required of and open to students majoring in religion.

REL 4191W. Senior Honors Thesis. 3 Credits.

REL 5701. Selected Topics. 0-4 Credits.

REL 6201. Special Topics in Religion. 3 Credits.

May be repeated for credit provided the topic differs.

REL 6401. Islamic Historiographies. 3 Credits.

Muslim historiographic traditions from the 7th to 15th centuries, including what they looked like and how they developed; the development of scholarly methods used to evaluate the source materials for these traditions in the formative and classical periods of Islam; key developments in postclassical, non-Arabic Muslim historiographic traditions in the Indian Subcontinent, Ottoman Turkey, and the Persian lands.

REL 6402. Qur'an and Hadith. 3 Credits.

The structure, major themes, and literary aspects of the twin sources of Islam. Commentaries written by Muslim scholars and their part in spreading the teachings of the sacred book of Islam. The general principle elements of Islamic theology, law, politics, ethics, philosophy, and art and architecture. The science of Hadith, its types, its relation to the Qur'an, and methods used for authentication of the sayings of the Prophet. The historical role of the Qur'an and Hadith both in classical as well as modern period with particular emphasis on its part in forming Muslim perception of society, history, and politics.

REL 6441. Islamic Law. 3 Credits.

Islamic positive law in the contemporary context. The family law of Islam (marriage, dowry, custody, guardianship and various forms of divorce); the law of inheritance and public trust (waqf) as two selected topics of Islamic private law. Examination of theories of jihad and siyar in the contemporary context of nation-state systems of international relationships. Islamic rituals ("ibadat) whose spirituality prevails the totality of the Islamic set of laws and regulations.

REL 6460. Topics in the Study of Islam. 3 Credits.

Study of sources and approaches to the investigation of Islam by both Western Islamicists and Muslim scholars, with discussion of the main controversial issues and differences in methods used by various schools of scholarship. Prerequisite: A course on Islam or permission of instructor.

REL 6461. Topics in Islamic Thought. 3 Credits.

Perennial major issues in Islamic theology, philosophy, and Sufism such as Divine Unity, prophetology, eschatology, religious knowledge, sacred law, and ethics. Prerequisite: A course on Islam or permission of instructor.

REL 6511. Currents of Modern Hinduism. 3 Credits.

Hinduism since the early seventeenth century. Colonialism, the impact of missionaries, orientalism, reform, relations between Brahmanical and popular Hinduism, Sanskrit and vernacular traditions, regionalism, communalism, nationalism, fundamentalism, politicized "syndicated" Hinduism, and secularism.

REL 6557. India's Great Epics. 3 Credits.

The Mahabharata and the Ramayana are treated in alternate offerings of the course. These founding epic texts of devotional (bhakti) Hinduism are taught in English translation. Vernacular and performative versions of the epics and Western adaptations.

REL 6771. American Religion to 1830. 3 Credits.

Religious thought and life during the Colonial and early National periods.

REL 6773. American Religion Since 1830. 3 Credits.

Religious thought and life from the Civil War to the present.

REL 6911. Myth, Ritual and Language. 3 Credits.

Method and theory in the interpretation of myth and narrative, ritual and sacrifice, and symbolism, with primary reference to the history of religions.

REL 6997. Readings and Research. 2-3 Credits.

Investigation of special problems.

REL 6998. Thesis Research. 3 Credits.

REL 6999. Thesis Research. 3 Credits.

BACHELOR OF ARTS WITH A MAJOR IN RELIGION

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 62).

Prerequisite courses: REL 1003 or both REL 1001 and REL 1002

Required courses (12 credits):

REL 1009	The Hebrew Scriptures (or another course in Hebrew Scriptures, such as:)
----------	--

or REL 3149	Biblical Issues
or REL 3149W	Biblical Issues
REL 1010	The New Testament (or another course in New Testament, such as:)
or REL 1010W	The New Testament
or REL 2165	The Gospels
or REL 3151	The Historical Jesus
or REL 3151W	The Historical Jesus
or REL 3161	The Life and Thought of Paul
or REL 3161W	The Life and Thought of Paul
or REL 3666	The Book of Revelation and Other Apocalypses
REL 3901	Theories and Methods in the Study of Religion (to be taken in the Fall semester of junior year)
REL 4101	Senior Capstone Seminar (to be taken in the Fall semester of senior year)

Four additional courses (12 credits) from one of the following religious traditions:

Buddhism

REL 2601	Buddhism
REL 3566	Dharma in Hinduism and Buddhism
REL 3611	South Asian Buddhism
REL 3614	Buddhist Philosophy

Christianity

REL 2165	The Gospels
REL 2169	The Lost Gospels
REL 2301	Christianity
REL 3151	The Historical Jesus
or REL 3151W	The Historical Jesus
REL 3161	The Life and Thought of Paul
or REL 3161W	The Life and Thought of Paul
REL 3321	Christian Ethics and Modern Society
REL 3341	Christianity in the Ancient World
REL 3342	Medieval Faith and Symbolism

REL 3343	Religion in the Renaissance and Reformation
REL 3344	Christianity in the Modern World
REL 3666	The Book of Revelation and Other Apocalypses
Hinduism	
REL 2562	Mythologies of India
REL 3501	Hinduism
REL 3566	Dharma in Hinduism and Buddhism
REL 3915	Islam and Hinduism in South Asia
REL 3989	The Goddess in India and Beyond
Islam	
REL 2401	Islam
REL 3405	Shi'ite Islam
REL 3414	Islamic Philosophy and Theology
REL 3425	Islamic Political Thought
REL 3431	Sufism (Islamic Mysticism)
REL 3475	Islamic Religion and Art
REL 3481	Women in Islam
REL 3482	Gender and Piety in Islam
REL 3915	Islam and Hinduism in South Asia
Judaism	
REL 2201	Judaism
REL 2211	Rabbinic Thought and Literature
REL 3141	Second Temple/Hellenistic Judaism
REL 3221	Issues in Jewish Ethics
REL 3291	Modern Jewish Thought
REL 3292	Seminar: Issues in Jewish Thought
East Asian Religions	
REL 2811	Confucian Literature in East Asia
or EALL 3811	Confucian Literature in East Asia
REL 2814	Religion and Philosophy in East Asia
REL 3831	Daoism in East Asia

or REL 3831W	Daoism in East Asia
REL 3832	Myth, Ritual, and Popular Religion in China
or EALL 3832	Myth, Ritual, and Popular Religion in China
REL 3841	Religion in Modern China
or CHIN 3841	Religion in Modern China
REL 3881	Women, Gender, and Religion in China
or EALL 3881	Women, Gender, and Religion in China
or WSTU 3881	Women, Gender, and Religion in China
Three additional religion (REL) courses (9 credits) numbered 2000 or above and outside the chosen tradition	

It is recommended that students include the study of foreign languages in their undergraduate program, including a language crucial to one of the religious traditions.

See course listing (p. 1799) for a complete list of course offerings in the Religion Department.

GENERAL EDUCATION

In addition to the University General Education Requirement, undergraduate students in Columbian College must complete a further, College-specific general education curriculum—Perspective, Analysis, Communication, or G-PAC. Together with the University General Education Requirement, G-PAC engages students in active intellectual inquiry across the liberal arts. Students achieve a set of learning outcomes that enhance their analytical skills, develop their communication competencies, and invite them to participate as responsible citizens who are attentive to issues of culture, diversity, and privilege.

Course work for the University General Education Requirement is distributed as follows:

- Writing—one course in university writing and two writing-in-the-disciplines (WID) courses;
- Humanities—one approved humanities course that involves critical thinking skills;
- Mathematics or Statistics—one course in either math or statistics;
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry; and,
- Social Sciences—two courses in the social sciences

Course work for the Columbian College general education curriculum is distributed as follows:

- Arts—one approved arts course that involves the study or creation of artwork based on an understanding or

interpretation of artistic traditions or knowledge of art in a contemporary context;

- Global or Cross-Cultural Perspective—one approved course that analyzes the ways in which institutions, practices, and problems transcend national and regional boundaries;
- Humanities—one approved humanities course that involves critical thinking skills (in addition to the one course in this category required by the University General Education Requirement);
- Local or Civic Engagement—one course that develops the values, ethics, disciplines, and commitment to pursue responsible public action;
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry (in addition to the one course in this category required by the University General Education Requirement); and,
- Oral Communication—one course in oral communication.

Certain courses are approved to fulfill the requirement in more than one of these categories.

Courses taken in fulfillment of the Columbian College general education curriculum may also be counted toward majors or minors. Transfer courses taken prior to, but not after, admission to George Washington University may count toward the University general education requirement and Columbian College general education curriculum, if those transfer courses are equivalent to GW courses that have been approved by the University and the College.

University General Education and G-PAC Courses

- Arts (p. 798)
- Global or Cross-Cultural (p.)
- Humanities (p. 801)
- Local/Civic Engagement (p.)
- Mathematics or Statistics (p. 805)
- Natural or physical laboratory sciences (p. 805)
- Oral Communication (p. 806)
- Social Sciences (p. 806)
- Writing (p. 807)

Arts

or REL 3831W Daoism in East Asia

REL 3832 Myth, Ritual, and Popular Religion in China

or EALL 3832 Myth, Ritual, and Popular Religion in China

REL 3841 Religion in Modern China

or CHIN 3841 Religion in Modern China

REL 3881 Women, Gender, and Religion in China

or EALL 3881 Women, Gender, and Religion in China

or WSTU 3881 Women, Gender, and Religion in China

REL 3901 is recommended.

View the religion course listings (p. 1799) for a complete list of courses offered by the department.

MASTER OF ARTS IN THE FIELD OF ISLAMIC STUDIES

REQUIREMENTS

Specific admission requirements are shown on the Graduate Program Finder. (<http://www.gwu.edu/all-graduate-programs>)

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 62).

36 credits, including 12 credits in required courses and 24 credits in pre-approved elective courses.

Prerequisite: a bachelor's degree from an accredited college or university and two years of Arabic language study (which may be taken early on in the coursework).

Required

REL 6401	Islamic Historiographies
----------	--------------------------

REL 6402	Qur'an and Hadith
----------	-------------------

REL 6441	Islamic Law
----------	-------------

REL 6460	Topics in the Study of Islam
----------	------------------------------

REL 6998	Thesis Research
----------	-----------------

REL 6999	Thesis Research
----------	-----------------

6 additional courses chosen from a pre-approved list in a variety of disciplines, most of which should focus on Islam in the contemporary world.

A concentration in Hinduism and Islam is available through GW's participation in the Consortium of Universities.

Depending on their focus of study, students may be asked to take courses in other languages; language courses will not count toward the degree.

See departmental website (<http://religion.columbian.gwu.edu/master-arts-islamic-studies>) for a full program description.

DOCTOR OF PHILOSOPHY IN THE FIELD OF AMERICAN RELIGIOUS HISTORY

REQUIREMENTS

This program is offered in cooperation with the Department of Religion.

Specific admission requirements are shown on the Graduate Program Finder. (<http://www.gwu.edu/all-graduate-programs>)

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 62), and the specific requirements of the Doctor of Philosophy in the field of history (p. 523).

The General Examination must include one of the major American fields listed below and one from the Department of Religion (typically history of religion in America).

Candidates in American history must select two major fields from early America (to 1815), 19th-century America (1815–1900), and 20th-century America (1900–). The minor field will normally be topical (e.g., U.S. social, U.S. diplomatic, historic preservation).

All candidates may choose to be examined in one minor field other than history if it is relevant to the program of study.

GRADUATE CERTIFICATE IN ISLAMIC STUDIES

REQUIREMENTS

Required

REL 6401	Islamic Historiographies
----------	--------------------------

REL 6402	Qur'an and Hadith
----------	-------------------

REL 6441	Islamic Law
----------	-------------

REL 6460	Topics in the Study of Islam
----------	------------------------------

Electives

Two additional courses chosen from an approved list in a variety of disciplines, most of which focus on Islam in the contemporary world

ROMANCE, GERMAN, AND SLAVIC LANGUAGES AND LITERATURES

The Department of Romance, German, and Slavic Languages and Literatures offers undergraduate instruction in French, German, Italian, Portuguese, Russian, and Spanish. In general, Romance language courses are conducted entirely in the language concerned. The proficiency-based curriculum emphasizes skills in aural comprehension, speaking, reading, and writing. Culture, an essential dimension of language acquisition, is integrated from the start.

The undergraduate program is designed to strengthen a student's ability to communicate, reason, and understand the linguistic, social, cultural, and physical environments that inform the lives of the people who speak the target language. Course

work fosters critical thinking, based in the linguistic, cultural, and historical roots of the locations where the language is spoken. The curriculum prepares students for careers in academia, business, diplomacy, government, medicine, and law, among other fields.

Classroom and laboratory study is supplemented by the diverse resources of Washington, D.C., through field trips, foreign films, lectures, and cultural programs at embassies. Contact the Department (<http://rgsll.columbian.gwu.edu>) concerning eligibility, requirements, and procedures for the wide variety of opportunities to study abroad (<http://rgsll.columbian.gwu.edu/study-abroad-and-transfer-credit>).

UNDERGRADUATE

Bachelor's programs

- Bachelor of Arts with a major in French language, literature, and culture (p. 810)
- Bachelor of Arts with a major in Spanish and Latin American languages, literatures, and cultures (p. 842)
- Bachelor of Arts with a major in German language and literature (p. 821)
- Bachelor of Arts with a major in Russian language and literature (p. 831)

Minors

- Minor in French language, literature, and culture (p. 853)
- Minor in Italian language and literature (p. 853)
- Minor in German language and literature (p. 853)
- Minor in Russian language and literature (p. 854)
- Minor in Spanish and Latin American languages, literatures, and cultures (p. 854)

FACULTY

Professors P. Rollberg, R. Robin (*Chair*), S. Waisman

Associate Professors M. Belenky, C. Britt, Y. Captain, L. Chang, M. de la Fuente, M.R. Gonglewski, D.B. Marshall (*Teaching*), M.B. Stein, I.R. Vergara, L.L. Westwater

Assistant Professors J. Brant, P. Granja-Falconi (*Teaching*), K. Kleppinger, G. Shatalina, A. Waberi

Instructors D.G. Perillan (*Teaching*), A. Serrano-Ripoll, A. Suarez-Touzon

COURSES

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000-4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work

- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

Placement examinations: A student who has not been granted advanced standing and who wishes to continue in college the language begun in high school must take a placement examination (<http://departments.columbian.gwu.edu/rgsll>) before registration. Upon completion of the examination, assignment is made to the appropriate course.

Note: In general, Romance language courses are conducted entirely in the language concerned. Oral comprehension, speaking, reading, and writing are the basis of all courses through FREN 2006 Language, Culture & Society II/ITAL 2006 Language, Culture & Society II/PORT 2006 Applied Portuguese Grammar/SPAN 2006 Advanced Spanish II, with culture integrated from the start as an essential dimension of language acquisition.

- French (FREN) (p. 1606)
- Germanic Language and Literature (GER) (p. 1613)
- Italian (ITAL) (p. 1656)
- Portuguese (PORT) (p. 1761)
- Slavic Language and Literature (SLAV) (p. 1810)
- Spanish (SPAN) (p. 1816)

BACHELOR OF ARTS WITH A MAJOR IN FRENCH LANGUAGE, LITERATURE, AND CULTURE

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 62).

Prerequisite courses:

FREN 1001	Basic French I
FREN 1002	Basic French II
FREN 1003	Intermediate French I
FREN 1004	Intermediate French II
FREN 2005	Language, Culture & Society I

Required for the major:

30 credits including:	
FREN 3100	Introduction to French Literature

FREN 4910	Proseminar: Rdgs for the Major
FREN 4920W	Proseminar II
Select seven additional upper-division courses numbered 2006 and above, of which four must be in French literature and culture and, with approval of the major advisor, two may be in a related field. Two of the six additional courses must be from the French 4000 series.	
FREN 3100W	Introduction to French Literature
FREN 3210	Medieval and Early Modern French Literature in Context
FREN 3220	Modern French Literature
FREN 3290	Textual Analysis
FREN 3300	Topics in French and Francophone Literatures and Cultures in Translation
FREN 3400	Studies in Genre
FREN 3520	The Age of Classicism
FREN 3530	The Age of Enlightenment
FREN 3550	Studies in 20th-Century French Literature
FREN 3560	Topics in 20th-Century Francophone Literature and Cinema
FREN 3600	Special Topics in French Literature
FREN 3700	History of French Cinema
FREN 4135	Folger Seminar
FREN 4470	Writing Women
FREN 4500	Studies in Medieval French Literature
FREN 4510	French Literature of the Renaissance
FREN 4540	19th-Century French Literature and Culture
FREN 4600	Special Topics in French Literature

GENERAL EDUCATION

In addition to the University General Education Requirement, undergraduate students in Columbian College must complete a further, College-specific general education curriculum—Perspective, Analysis, Communication, or G-PAC. Together with the University General Education Requirement, G-PAC engages students in active intellectual inquiry across the liberal arts. Students achieve a set of learning outcomes that enhance their analytical skills, develop their communication

competencies, and invite them to participate as responsible citizens who are attentive to issues of culture, diversity, and privilege.

Course work for the University General Education Requirement is distributed as follows:

- Writing—one course in university writing and two writing-in-the-disciplines (WID) courses;
- Humanities—one approved humanities course that involves critical thinking skills;
- Mathematics or Statistics—one course in either math or statistics;
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry; and,
- Social Sciences—two courses in the social sciences

Course work for the Columbian College general education curriculum is distributed as follows:

- Arts—one approved arts course that involves the study or creation of artwork based on an understanding or interpretation of artistic traditions or knowledge of art in a contemporary context;
- Global or Cross-Cultural Perspective—one approved course that analyzes the ways in which institutions, practices, and problems transcend national and regional boundaries;
- Humanities—one approved humanities course that involves critical thinking skills (in addition to the one course in this category required by the University General Education Requirement);
- Local or Civic Engagement—one course that develops the values, ethics, disciplines, and commitment to pursue responsible public action;
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry (in addition to the one course in this category required by the University General Education Requirement; and,
- Oral Communication—one course in oral communication.

Certain courses are approved to fulfill the requirement in more than one of these categories.

Courses taken in fulfillment of the Columbian College general education curriculum may also be counted toward majors or minors. Transfer courses taken prior to, but not after, admission to George Washington University may count toward the University general education requirement and Columbian College general education curriculum, if those transfer courses are equivalent to GW courses that have been approved by the University and the College.

University General Education and G-PAC Courses

- Arts (p. 812)
- Global or Cross-Cultural (p.)

- Humanities (p. 814)
- Local/Civic Engagement (p.)
- Mathematics or Statistics (p. 818)
- Natural or physical laboratory sciences (p. 818)
- Oral Communication (p. 819)
- Social Sciences (p. 820)
- Writing (p. 821)

SPECIAL HONORS

In addition to the general requirements stated under University Regulations, in order to be considered for graduation with Special Honors in French language, literature, and culture, candidates must have attained a 3.75 GPA in the major and at least a 3.0 average overall. Qualified students may be invited to write an honors thesis by their major advisor and proseminar professor by the beginning of the fall semester of the senior year.

BACHELOR OF ARTS WITH A MAJOR IN GERMAN LANGUAGE AND LITERATURE

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 62).

Prerequisite courses:

One of the following options:

Option A:

GER 1005 Intensive Beginning German I
& GER 1006 and Intensive Beginning German II

Option B:

GER 1001 First-Year German I
& GER 1002 and First-Year German II

GER 1003 Second-Year German I
& GER 1004 and Second-Year German II

Required courses in the major:

GER 2009 Intermediate German I
& GER 2010 and Intermediate German II

GER 2109 Introduction to German Studies I
& GER 2110 and Introduction to German Studies II

One of the following:

GER 2091 Introduction to German Literature—in
& GER 2092 English I
and Introduction to German Literature
—in English II

GER 2161 German Culture—in English I
& GER 2162 and German Culture—in English II

Two courses from the following:

GER 2111 Business German

GER 2161 German Culture—in English I
& GER 2162 and German Culture—in English II (if
not taken above)

GER 2165 20th-Century German Literature—in
English

GER 3181 History of German Cinema—in English

GER 3182 The Fairy Tale from the Grimms to
Disney—in English

GER 3183 Berlin Before & After the Wall

GER 3184 German Thought - in English

GER 3185 Literary Voices and the Fascist
Experience—in English

GER 3186 German Women Writers of the 19th and
20th Centuries

GER 3187 German Cinema after 1945

GER 3188 The Lives of East Germans

Four from the following:

GER 4171 The Age of Goethe—in German

GER 4172 From Romanticism to Realism

GER 4173 Naturalism to Expressionism

GER 4174 Inside/Outside the Third Reich

GER 4175 Literature of two Germanies

GER 4176 Contemporary German Literature

GENERAL EDUCATION

In addition to the University General Education Requirement, undergraduate students in Columbian College must complete a further, College-specific general education curriculum—Perspective, Analysis, Communication, or G-PAC. Together with the University General Education Requirement, G-PAC engages students in active intellectual inquiry across the

liberal arts. Students achieve a set of learning outcomes that enhance their analytical skills, develop their communication competencies, and invite them to participate as responsible citizens who are attentive to issues of culture, diversity, and privilege.

Course work for the University General Education Requirement is distributed as follows:

- Writing—one course in university writing and two writing-in-the-disciplines (WID) courses;
- Humanities—one approved humanities course that involves critical thinking skills;
- Mathematics or Statistics—one course in either math or statistics;
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry; and,
- Social Sciences—two courses in the social sciences

Course work for the Columbian College general education curriculum is distributed as follows:

- Arts—one approved arts course that involves the study or creation of artwork based on an understanding or interpretation of artistic traditions or knowledge of art in a contemporary context;
- Global or Cross-Cultural Perspective—one approved course that analyzes the ways in which institutions, practices, and problems transcend national and regional boundaries;
- Humanities—one approved humanities course that involves critical thinking skills (in addition to the one course in this category required by the University General Education Requirement);
- Local or Civic Engagement—one course that develops the values, ethics, disciplines, and commitment to pursue responsible public action;
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry (in addition to the one course in this category required by the University General Education Requirement; and,
- Oral Communication—one course in oral communication.

Certain courses are approved to fulfill the requirement in more than one of these categories.

Courses taken in fulfillment of the Columbian College general education curriculum may also be counted toward majors or minors. Transfer courses taken prior to, but not after, admission to George Washington University may count toward the University general education requirement and Columbian College general education curriculum, if those transfer courses are equivalent to GW courses that have been approved by the University and the College.

University General Education and G-PAC Courses

- Arts (p. 822)

- Global or Cross-Cultural (p. 822)
- Humanities (p. 825)
- Local/Civic Engagement (p. 822)
- Mathematics or Statistics (p. 828)
- Natural or physical laboratory sciences (p. 829)
- Oral Communication (p. 829)
- Social Sciences (p. 830)
- Writing (p. 831)

SPECIAL HONORS

In addition to the general requirements stated under University Regulations, in order to be considered for graduation with Special Honors, candidates must have attained a 3.5 grade-point average in the major and at least a 3.0 average overall. Students must apply for honors candidacy by the end of the first semester of the junior year; must attain speaking proficiency at the advanced level, as measured by the ACTFL (American Council on the Teaching of Foreign Languages) Oral Proficiency Interview; and must successfully complete an honors thesis (GER 4197 Senior Honors Thesis I-GER 4198 Senior Honors Thesis II).

BACHELOR OF ARTS WITH A MAJOR IN RUSSIAN LANGUAGE AND LITERATURE

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 62).

Prerequisite courses:

Select one of the following options:

Option A:

SLAV 1012 Intensive Basic Russian I

SLAV 1034 Intensive Basic Russian II

Option B:

SLAV 1001 First-Year Russian I

SLAV 1002 First-Year Russian II

SLAV 1003 Second-Year Russian I

SLAV 1004 Second-Year Russian II

Required courses in the major:

GENERAL EDUCATION

In addition to the University General Education Requirement, undergraduate students in Columbian College must complete a further, College-specific general education curriculum—Perspective, Analysis, Communication, or G-PAC. Together with the University General Education Requirement, G-PAC engages students in active intellectual inquiry across the liberal arts. Students achieve a set of learning outcomes that enhance their analytical skills, develop their communication competencies, and invite them to participate as responsible citizens who are attentive to issues of culture, diversity, and privilege.

Course work for the University General Education Requirement is distributed as follows:

- Writing—one course in university writing and two writing-in-the-disciplines (WID) courses;
- Humanities—one approved humanities course that involves critical thinking skills;
- Mathematics or Statistics—one course in either math or statistics;
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry; and,
- Social Sciences—two courses in the social sciences

Course work for the Columbian College general education curriculum is distributed as follows:

- Arts—one approved arts course that involves the study or creation of artwork based on an understanding or interpretation of artistic traditions or knowledge of art in a contemporary context;
- Global or Cross-Cultural Perspective—one approved course that analyzes the ways in which institutions, practices, and problems transcend national and regional boundaries;
- Humanities—one approved humanities course that involves critical thinking skills (in addition to the one course in this category required by the University General Education Requirement);
- Local or Civic Engagement—one course that develops the values, ethics, disciplines, and commitment to pursue responsible public action;
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry (in addition to the one course in this category required by the University General Education Requirement; and,
- Oral Communication—one course in oral communication.

Certain courses are approved to fulfill the requirement in more than one of these categories.

Courses taken in fulfillment of the Columbian College general education curriculum may also be counted toward majors or minors. Transfer courses taken prior to, but not after, admission to George Washington University may count toward the

SLAV 1391	Introduction to Russian Literature I

Two of the following:	
SLAV 2365	20th-Century Russian Literature to World War II
SLAV 2366	Russian Literature from World War II to the Present
SLAV 2785	Introduction to Russian Cinema I
SLAV 2786	Introduction to Russian Cinema II
SLAV 4595W	Special Topics

Proficiency requirements for the Russian major: By the end of SLAV 2006 Intermediate Russian I, students consult their advisor to choose one of the following two proficiency tracks:

1. Emphasis on proficiency in speaking—students choosing this track must attain speaking proficiency at the Intermediate High level, as measured by the ACTFL Oral Proficiency Interview; a semester of intensive language study in Russia on an approved program is required unless waived by the department.
2. Emphasis on proficiency in reading—students choosing this track must attain reading proficiency at the Advanced level on the ACTFL scale, as measured by a departmental examination; SLAV 2015 Readings in the Russian Press I-SLAV 2016 Readings in the Russian Press II is required, unless waived by the department.

1.

University general education requirement and Columbian College general education curriculum, if those transfer courses are equivalent to GW courses that have been approved by the University and the College.

SPECIAL HONORS

In addition to the general requirements stated under University Regulations, in order to be considered for graduation with Special Honors, a candidate must have attained a 3.5 grade-point average in the major and at least a 3.0 average overall. Students must apply for honors candidacy by the end of the first semester of the junior year; must attain speaking proficiency at the advanced level, as measured by the ACTFL (American Council on the Teaching of Foreign Languages) Oral Proficiency Interview; and must successfully complete an honors thesis (SLAV 4597 Senior Honors Thesis I–SLAV 4598 Senior Honors Thesis II).

BACHELOR OF ARTS WITH A MAJOR IN SPANISH AND LATIN AMERICAN LANGUAGES, LITERATURES, AND CULTURES

REQUIREMENTS

The following requirements must be fulfilled:
 The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 62).

Introductory language sequence (17 credits or equivalent):

SPAN 1001 & SPAN 1002	Elementary Spanish I and Elementary Spanish II
-----------------------	--

or SPAN 1012	Intensive Elementary Spanish
SPAN 1003 & SPAN 1004	Intermediate Spanish I and Intermediate Spanish II
or SPAN 1034	Intensive Intermediate Spanish
SPAN 2005	Advanced Spanish I

Required courses:

SPAN 2006	Advanced Spanish II
or SPAN 2056	Intensive Advanced Spanish
SPAN 3100	Readings in Spanish&LatinAmLit
or SPAN 3100W	Readings in Spanish and Latin American Literature
SPAN 4910W	Proseminar I (required of all Spanish majors in the fall semester of the senior year)

Two courses (6 credits) from the following:

SPAN 3500	Medieval Spanish Literature
SPAN 3510	Golden Age Literature
SPAN 3520	Latin American Colonial Literature
SPAN 3560	Early Modern Poetry of Spain and Latin America
SPAN 3600	Special Topics
or SPAN 3600W	Special Topics
SPAN 4510	Cervantes Don Quixote

Two courses (6 credits) from the following:

SPAN 3410	Latin American Short Fiction
SPAN 3420	The Essayist Tradition in Latin America
SPAN 3530	The Enlightenment in Spain and Latin America
SPAN 3580	Latin American Romanticism and Modernism
SPAN 3650	Literature and Dictatorship
SPAN 3700	Cinema of Spain and Latin America
SPAN 4410	Contemporary Narrative in Latin America
SPAN 4460	Southern Cone Literature and Culture
SPAN 4520	Topics in the Avant-garde

SPAN 4540	The Myth of the Two Spains
SPAN 4550	1898-1998: Spain's First Century without Empire
SPAN 4560	Modern Poetry of Spain and Latin America
SPAN 4600	Special Topics
SPAN 4700	Film as Text in Latin America

Three additional courses from those listed above or from the following:

SPAN 3300	Spanish and Latin American Literature in Translation
SPAN 3400	Theatre of Spain and Latin America
SPAN 3430	Afro-Latin America in the Diaspora
SPAN 3440	Caribbean Literature and Culture
SPAN 3540	Major Authors of Spain and Latin America
SPAN 3570	Latin American Women Writers
SPAN 4450	Mexican Literature and Culture
SPAN 4470	Exploration and Travel Writing in Latin America
SPAN 4650	Literary Translation
SPAN 4800	Independent Study

Excluding courses taught at GW Study Centers abroad, no more than four courses taken abroad or at another institution may count toward the major.

GENERAL EDUCATION

In addition to the University General Education Requirement, undergraduate students in Columbian College must complete a further, College-specific general education curriculum—Perspective, Analysis, Communication, or G-PAC. Together with the University General Education Requirement, G-PAC engages students in active intellectual inquiry across the liberal arts. Students achieve a set of learning outcomes that enhance their analytical skills, develop their communication competencies, and invite them to participate as responsible citizens who are attentive to issues of culture, diversity, and privilege.

Course work for the University General Education Requirement is distributed as follows:

- Writing—one course in university writing and two writing-in-the-disciplines (WID) courses;

- Humanities—one approved humanities course that involves critical thinking skills;
- Mathematics or Statistics—one course in either math or statistics;
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry; and,
- Social Sciences—two courses in the social sciences

Course work for the Columbian College general education curriculum is distributed as follows:

- Arts—one approved arts course that involves the study or creation of artwork based on an understanding or interpretation of artistic traditions or knowledge of art in a contemporary context;
- Global or Cross-Cultural Perspective—one approved course that analyzes the ways in which institutions, practices, and problems transcend national and regional boundaries;
- Humanities—one approved humanities course that involves critical thinking skills (in addition to the one course in this category required by the University General Education Requirement);
- Local or Civic Engagement—one course that develops the values, ethics, disciplines, and commitment to pursue responsible public action;
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry (in addition to the one course in this category required by the University General Education Requirement; and,
- Oral Communication—one course in oral communication.

Certain courses are approved to fulfill the requirement in more than one of these categories.

Courses taken in fulfillment of the Columbian College general education curriculum may also be counted toward majors or minors. Transfer courses taken prior to, but not after, admission to George Washington University may count toward the University general education requirement and Columbian College general education curriculum, if those transfer courses are equivalent to GW courses that have been approved by the University and the College.

University General Education and G-PAC Courses

- Arts (p. 844)
- Global or Cross-Cultural (p.)
- Humanities (p. 846)
- Local/Civic Engagement (p.)
- Mathematics or Statistics (p. 850)
- Natural or physical laboratory sciences (p. 850)
- Oral Communication (p. 851)
- Social Sciences (p. 852)
- Writing (p. 852)

SPECIAL HONORS

In addition to the general requirements stated under University Regulations, in order to be considered for graduation with Special Honors in Spanish and Latin American languages, literatures, and cultures, candidates must have attained a 3.75 GPA in the major and at least a 3.0 average overall. Qualified students may be invited to write an honors thesis by their major advisor and proseminar professor by the beginning of the fall semester of the senior year.

MINOR IN FRENCH LANGUAGE, LITERATURE, AND CULTURE

REQUIREMENTS

Required: 21 credits consisting of:

FREN 2005	Language, Culture & Society I
FREN 2006	Language, Culture & Society II
FREN 3100	Introduction to French Literature
FREN 3210	Medieval and Early Modern French Literature in Context
FREN 3220	Modern French Literature

Two additional courses from the FREN 3000s and FREN 4000s

Students who place out of FREN 2005 Language, Culture & Society I or FREN 2006 Language, Culture & Society II substitute more advanced literature courses; others may substitute more advanced literature courses with permission of the advisor.

MINOR IN GERMAN LANGUAGE AND LITERATURE

REQUIREMENTS

Required courses:

One of the following options:

Option A:

GER 1001	First-Year German I
GER 1002	First-Year German II

GER 1003 Second-Year German I

GER 1004 Second-Year German II

Option B

GER 1005 Intensive Beginning German I

GER 1006 Intensive Beginning German II

One of the following:

GER 2009 & GER 2010 Intermediate German I and Intermediate German II

GER 2101 & GER 2102 Readings in Contemporary German I and Readings in Contemporary German II

One of the following:

GER 2091 & GER 2092 Introduction to German Literature—in English I and Introduction to German Literature—in English II

GER 2109 & GER 2110 Introduction to German Studies I and Introduction to German Studies II

GER 2161 & GER 2162 German Culture—in English I and German Culture—in English II

Two additional upper-division German courses excluding:

GER 2101 Readings in Contemporary German I

GER 2102 Readings in Contemporary German II

MINOR IN ITALIAN LANGUAGE AND LITERATURE

REQUIREMENTS

Required: 21 credits consisting of:

ITAL 2005 Language, Culture & Society I

ITAL 2006 Language, Culture & Society II

Five additional courses chosen from the following

ITAL 3100 Introduction to Italian Literature

ITAL 3201 History of Italian Literature from the Middle Ages Through the 17th Century

ITAL 3202 History of Italian Literature from the 18th Through the 20th Century

ITAL 3290 Textual Analysis

ITAL 3300	Italian Literature and Culture in Translation
ITAL 3600	Special Topics in Italian Literature and Culture
ITAL 4183	History of Italian Film
ITAL 4380	Italian Journeys Medieval to Postmodern
ITAL 4500	Studies in Medieval and Early Renaissance Literature

ITAL 4800	Independent Study

SLAV 2365	20th-Century Russian Literature to World War II
SLAV 2366	Russian Literature from World War II to the Present
SLAV 2471	19th-Century Russian Prose
SLAV 2472	19th-Century Russian Poetry
SLAV 2473	20th-Century Russian Prose
SLAV 2474	20th-Century Russian Poetry
SLAV 2785	Introduction to Russian Cinema I
SLAV 2786	Introduction to Russian Cinema II

MINOR IN RUSSIAN LANGUAGE AND LITERATURE

REQUIREMENTS

Required courses:

One of the following options:

Option A:

SLAV 1001	First-Year Russian I
SLAV 1002	First-Year Russian II
SLAV 1003	Second-Year Russian I
SLAV 1004	Second-Year Russian II

Option B

SLAV 1012	Intensive Basic Russian I
SLAV 1034	Intensive Basic Russian II

One of the following:

SLAV 2005 & SLAV 2006	Intermediate Russian I and Intermediate Russian I
SLAV 2015 & SLAV 2016	Readings in the Russian Press I and Readings in the Russian Press II

Four courses from the following:

SLAV 1391	Introduction to Russian Literature I
SLAV 1392	Introduction to Russian Literature II
SLAV 2361	Russian Culture
SLAV 2362	Russian Culture

MINOR IN SPANISH AND LATIN AMERICAN LANGUAGES, LITERATURES, AND CULTURES

REQUIREMENTS

Introductory language sequence (12-14 credits or equivalent)

SPAN 1001 & SPAN 1002	Elementary Spanish I and Elementary Spanish II
or SPAN 1012	Intensive Elementary Spanish
SPAN 1003 & SPAN 1004	Intermediate Spanish I and Intermediate Spanish II
or SPAN 1034	Intensive Intermediate Spanish

Three courses (9 credits) from the following:

SPAN 2005	Advanced Spanish I
SPAN 2006	Advanced Spanish II
SPAN 2056	Intensive Advanced Spanish
SPAN 2100	Spain/LatinAm:Culture DC
SPAN 2180	Special Topics
SPAN 2900	Spanish for Graduate Students

SPAN 4560	Modern Poetry of Spain and Latin America
SPAN 4600	Special Topics
SPAN 4650	Literary Translation
SPAN 4700	Film as Text in Latin America

Note: No more than three courses taken abroad may count toward the minor (excluding GW Study Centers in Chile and Spain).

SOCIOLOGY

One of the social and behavioral sciences disciplines in the Columbian College of Arts and Sciences, the sociology program offers undergraduate and graduate degree programs and a range of courses, from deviant behavior to sociology

of sport. It is designed to strengthen a student's knowledge about human social structure and activity. By living in a city that offers a rich social laboratory, students gain real-life experience conducting quantitative and qualitative research and developing skills in sociological observation and analysis.

Visit the Department of Sociology website (<http://sociology.columbian.gwu.edu/ba-sociology>) for additional information.

UNDERGRADUATE

Bachelor's programs

- Bachelor of Arts with a major in sociology (p. 876)
- Bachelor of Arts with a major in criminal justice (p. 856)
- Bachelor of Arts with a major in human services and social justice (p. 866)
- Combined programs (p. 886)

Minors

- Minor in sociology (p. 888)
- Minor in criminal justice (p. 887)
- Minor in law and society (p. 887)
- Minor in human services and social justice (p. 887)

GRADUATE

Master's programs

- Master of Arts in the field of sociology (p. 888)
- Master of Arts in the field of criminology (p. 888)

FACULTY

University Professor A. Etzioni

Professors R.J. Cottrol, P.H.M. Lengermann (*Research*), G.D. Squires (*Chair*), S.A. Tuch, R. Weitzer, R. Whitaker

Associate Professors C. Deitch, D.S. Eglitis, I. Ken

Assistant Professors F. Buntman, H. Ishizawa, A. Jones, M. Kelso, D. Martinez, E. Morrison, V. Rankin (*Research*)

COURSES

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000–4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

- Human Services and Social (HSSJ (p. 1640))
- Sociology (SOC) (p. 1812)

BACHELOR OF ARTS WITH A MAJOR IN CRIMINAL JUSTICE

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 62).

Prerequisite courses:

SOC 1001	Introduction to Sociology
or SOC 1002	The Sociological Imagination
SOC 1003	Introduction to Criminal Justice

Required courses in the major:

SOC 2101	Social Research Methods (recommended to be taken before the senior year)
SOC 2102	Techniques of Data Analysis (recommended to be taken before the senior year)
SOC 2135	Youth and Delinquency
SOC 2136	Criminology
SOC 2145	Criminal Law
SOC 4192	Advanced Seminar in Criminal Justice

Five of the following (of the five courses, at least one sociology course and at least one non-sociology course must be taken):

Students must verify that they have met any prerequisites before registering.

SOC 2167	Sociology of Law
SOC 2178	Deviance and Control
SOC 2184	Violence and the Family
SOC 2189	Special Topic-Criminal Justice
PSYC 2011	Abnormal Psychology
PSYC 3154	Psychology of Crime and Violence
FORS 2104	Introduction to Forensic Sciences
PSC 2213	Judicial Politics

PSC 2215	U.S. Constitutional Law and Politics II
PSC 2217/ PPPA 2117	Executive Branch Politics
ANTH 3513	Anthropology of Human Rights
HIST 3370	US Constitutional History
ECON 2167	Economics of Crime

Note: A student majoring in sociology may not declare a second major or a minor in criminal justice, or vice versa.

GENERAL EDUCATION

In addition to the University General Education Requirement, undergraduate students in Columbian College must complete a further, College-specific general education curriculum—Perspective, Analysis, Communication, or G-PAC. Together with the University General Education Requirement, G-PAC engages students in active intellectual inquiry across the liberal arts. Students achieve a set of learning outcomes that enhance their analytical skills, develop their communication competencies, and invite them to participate as responsible citizens who are attentive to issues of culture, diversity, and privilege.

Course work for the University General Education Requirement is distributed as follows:

- Writing—one course in university writing and two writing-in-the-disciplines (WID) courses;
- Humanities—one approved humanities course that involves critical thinking skills;
- Mathematics or Statistics—one course in either math or statistics;
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry; and,
- Social Sciences—two courses in the social sciences

Course work for the Columbian College general education curriculum is distributed as follows:

- Arts—one approved arts course that involves the study or creation of artwork based on an understanding or interpretation of artistic traditions or knowledge of art in a contemporary context;
- Global or Cross-Cultural Perspective—one approved course that analyzes the ways in which institutions, practices, and problems transcend national and regional boundaries;
- Humanities—one approved humanities course that involves critical thinking skills (in addition to the one course in this category required by the University General Education Requirement);
- Local or Civic Engagement—one course that develops the values, ethics, disciplines, and commitment to pursue responsible public action;

- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry (in addition to the one course in this category required by the University General Education Requirement; and,
- Oral Communication—one course in oral communication.

Certain courses are approved to fulfill the requirement in more than one of these categories.

Courses taken in fulfillment of the Columbian College general education curriculum may also be counted toward majors or minors. Transfer courses taken prior to, but not after, admission to George Washington University may count toward the University general education requirement and Columbian College general education curriculum, if those transfer courses are equivalent to GW courses that have been approved by the University and the College.

University General Education and G-PAC Courses

- Arts (p. 857)
- Global or Cross-Cultural (p.)
- Humanities (p. 860)
- Local/Civic Engagement (p.)
- Mathematics or Statistics (p. 863)
- Natural or physical laboratory sciences (p. 863)
- Oral Communication (p. 864)
- Social Sciences (p. 865)
- Writing (p. 866)

SPECIAL HONORS

In addition to the general requirements stated under University Regulations, in order to be considered for graduation with Special Honors, students must maintain a 3.5 grade-point average in the major, must be registered for 3 credits of SOC 3195 Research during the senior year, and must receive a grade of A on the research paper.

BACHELOR OF ARTS WITH A MAJOR IN HUMAN SERVICES AND SOCIAL JUSTICE

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 62)

Prerequisite courses:

SOC 1001	Introduction to Sociology
----------	---------------------------

or SOC 1002 The Sociological Imagination

HSSJ 1100	Introduction to Human Services and Social Justice
-----------	---

Required courses in the major:

HSSJ 1177	Organizing for Social Justice in Human Services
-----------	---

HSSJ 2170	Interpersonal Relationships in Human Services
-----------	---

HSSJ 2171	Human Interactions: Child and Adolescent Development
-----------	--

HSSJ 2172	Human Interactions: Adult Development
-----------	---------------------------------------

HSSJ 2200	Principles of Ethical Leadership
-----------	----------------------------------

HSSJ 3100W	Program Planning & Evaluation
------------	-------------------------------

HSSJ 3110	Nonprofit and Organizational Management
-----------	---

or HSSJ 3110W	Nonprofit and Organizational Management
---------------	---

HSSJ 3152	Fact, Field & Fiction in HSSJ
-----------	-------------------------------

HSSJ 4193	Research and Independent Study (Only required for Special Honors)
-----------	---

HSSJ 4195	Capstone Seminar
-----------	------------------

SOC 2101	Social Research Methods
----------	-------------------------

Two of the following four courses must be completed: At least one must be SOC 2170 or SOC 2179; the second course can be any of the other three courses listed below.

SOC 2170	Class and Inequality in American Society
----------	--

or SOC 2179	Race and Minority Relations
-------------	-----------------------------

SOC 2104	Contemporary Sociological Theory
----------	----------------------------------

SOC 2175	Sociology of Sex and Gender
----------	-----------------------------

GENERAL EDUCATION

In addition to the University General Education Requirement, undergraduate students in Columbian College must complete a further, College-specific general education curriculum—Perspective, Analysis, Communication, or G-PAC. Together with the University General Education Requirement, G-PAC engages students in active intellectual inquiry across the liberal arts. Students achieve a set of learning outcomes that enhance their analytical skills, develop their communication competencies, and invite them to participate as responsible

citizens who are attentive to issues of culture, diversity, and privilege.

Course work for the University General Education Requirement is distributed as follows:

- Writing—one course in university writing and two writing-in-the-disciplines (WID) courses;
- Humanities—one approved humanities course that involves critical thinking skills;
- Mathematics or Statistics—one course in either math or statistics;
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry; and,
- Social Sciences—two courses in the social sciences

Course work for the Columbian College general education curriculum is distributed as follows:

- Arts—one approved arts course that involves the study or creation of artwork based on an understanding or interpretation of artistic traditions or knowledge of art in a contemporary context;
- Global or Cross-Cultural Perspective—one approved course that analyzes the ways in which institutions, practices, and problems transcend national and regional boundaries;
- Humanities—one approved humanities course that involves critical thinking skills (in addition to the one course in this category required by the University General Education Requirement);
- Local or Civic Engagement—one course that develops the values, ethics, disciplines, and commitment to pursue responsible public action;
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry (in addition to the one course in this category required by the University General Education Requirement; and,
- Oral Communication—one course in oral communication.

Certain courses are approved to fulfill the requirement in more than one of these categories.

Courses taken in fulfillment of the Columbian College general education curriculum may also be counted toward majors or minors. Transfer courses taken prior to, but not after, admission to George Washington University may count toward the University general education requirement and Columbian College general education curriculum, if those transfer courses are equivalent to GW courses that have been approved by the University and the College.

University General Education and G-PAC Courses

- Arts (p. 867)
- Global or Cross-Cultural (p.)
- Humanities (p. 870)

- Local/Civic Engagement (p.)
- Mathematics or Statistics (p. 873)
- Natural or physical laboratory sciences (p. 874)
- Oral Communication (p. 874)
- Social Sciences (p. 875)
- Writing (p. 876)

SPECIAL HONORS

In addition to the general requirements stated under University Regulations, in order to be considered for graduation with Special Honors, students must maintain a 3.5 grade-point average in the major, must be registered in HSSJ 4193 Research and Independent Study during the senior year (fall and spring), and must receive an A grade on the research paper.

BACHELOR OF ARTS WITH A MAJOR IN SOCIOLOGY

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 62).

Prerequisite course:

SOC 1001	Introduction to Sociology
or SOC 1002	The Sociological Imagination

Required courses in the major:

SOC 2101	Social Research Methods (recommended to be taken before the senior year)
SOC 2102	Techniques of Data Analysis (recommended to be taken before the senior year)
SOC 2103	Classical Sociological Theory
SOC 2104	Contemporary Sociological Theory
SOC 4195	Senior Research Seminar

Seven additional upper-division sociology courses, including at least two courses chosen from the 2160s or 2170s groups

Note: A student majoring in sociology may not declare a second major or a minor in criminal justice, or vice versa.

*PSYC 1001 is a prerequisite for all Psychology courses.

GENERAL EDUCATION

In addition to the University General Education Requirement, undergraduate students in Columbian College must complete a further, College-specific general education curriculum—Perspective, Analysis, Communication, or G-PAC. Together with the University General Education Requirement, G-PAC engages students in active intellectual inquiry across the liberal arts. Students achieve a set of learning outcomes that enhance their analytical skills, develop their communication competencies, and invite them to participate as responsible citizens who are attentive to issues of culture, diversity, and privilege.

Course work for the University General Education Requirement is distributed as follows:

- Writing—one course in university writing and two writing-in-the-disciplines (WID) courses;
- Humanities—one approved humanities course that involves critical thinking skills;
- Mathematics or Statistics—one course in either math or statistics;
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry; and,
- Social Sciences—two courses in the social sciences

Course work for the Columbian College general education curriculum is distributed as follows:

- Arts—one approved arts course that involves the study or creation of artwork based on an understanding or interpretation of artistic traditions or knowledge of art in a contemporary context;
- Global or Cross-Cultural Perspective—one approved course that analyzes the ways in which institutions, practices, and problems transcend national and regional boundaries;
- Humanities—one approved humanities course that involves critical thinking skills (in addition to the one course in this category required by the University General Education Requirement);
- Local or Civic Engagement—one course that develops the values, ethics, disciplines, and commitment to pursue responsible public action;
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry (in addition to the one course in this category required by the University General Education Requirement; and,
- Oral Communication—one course in oral communication.

Certain courses are approved to fulfill the requirement in more than one of these categories.

Courses taken in fulfillment of the Columbian College general education curriculum may also be counted toward majors or minors. Transfer courses taken prior to, but not after, admission to George Washington University may count toward the

University general education requirement and Columbian College general education curriculum, if those transfer courses are equivalent to GW courses that have been approved by the University and the College.

University General Education and G-PAC Courses

- Arts (p. 877)
- Global or Cross-Cultural (p.)
- Humanities (p. 880)
- Local/Civic Engagement (p.)
- Mathematics or Statistics (p. 883)
- Natural or physical laboratory sciences (p. 884)
- Oral Communication (p. 884)
- Social Sciences (p. 885)
- Writing (p. 886)

SPECIAL HONORS

In addition to the general requirements stated under University Regulations, in order to be considered for graduation with Special Honors, students must maintain a 3.5 grade-point average in the major, must be registered in SOC 4195 Senior Research Seminar during the senior year, and must receive an A grade on the research paper.

COMBINED PROGRAM

REQUIREMENTS

The Department of Sociology offers three programs leading to combined bachelor's and master's degrees. The programs allow students to take a specified number of graduate credits as part of their undergraduate degree, thereby decreasing the number of credits normally required for the master's degree.

- Bachelor of Arts and Master of Arts in Sociology
- Bachelor of Arts and Master of Arts in Criminal Justice/ Criminology
- Bachelor of Arts in Human Services and Social Justice and Master of Arts in Public Administration

Interested students should contact their advisor. Visit the departmental website (<http://sociology.columbian.gwu.edu/combined-degree-bama-programs>) for application deadlines and other program information.

MINOR IN CRIMINAL JUSTICE

REQUIREMENTS

18 credits of course work are required including:

SOC 1001 Introduction to Sociology

or SOC 1002 The Sociological Imagination

SOC 1003 Introduction to Criminal Justice

SOC 2136 Criminology

SOC 2145 Criminal Law

Two of the following electives (at least one elective must be a sociology courses):

SOC 2135 Youth and Delinquency

SOC 2167 Sociology of Law

SOC 2178 Deviance and Control

SOC 2184 Violence and the Family

SOC 2189 Special Topic-Criminal Justice

PSYC 2011 Abnormal Psychology

PSYC 3154 Psychology of Crime and Violence

PSC 2213 Judicial Politics

or PSC 2215 U.S. Constitutional Law and Politics II

or PSC 2217 Executive Branch Politics

FORS 2104 Introduction to Forensic Sciences

PPPA 2117/
PSC 2217 Executive Branch Politics

ANTH 3513 Anthropology of Human Rights

HIST 3370 US Constitutional History

Note: A student majoring in sociology may not declare a second major or a minor in criminal justice, or vice versa.

MINOR IN HUMAN SERVICES AND SOCIAL JUSTICE

REQUIREMENTS

A minimum of 18 credits of HSSJ courses are required including:

HSSJ 1100 Introduction to Human Services and Social Justice

HSSJ 3152

Fact/Field/Fiction: Intersections in HSSJ

3 additional courses (for a total of at least 9 credits) within HSSJ, with no more than one additional course at the 1000-level beyond the required HSSJ 1100

MINOR IN LAW AND SOCIETY

REQUIREMENTS

Admission to this minor requires a minimum 3.3 GPA, based on at least 30 hours of course work at GW. The minor is constituted of 18 hours excluding prerequisites, with a maximum of two courses from any one department. No more than two courses may be counted both for this minor and any other major or minor.

Required:

SOC 2167 Sociology of Law (must be taken prior to or concurrently with PSC 2988)

UW 2031 Equality & the Law (must be taken prior to or concurrently with PSC 2988)

PSC 2988 Internship in Law & Society

One of the following:

AMST 1160 Race, Gender and Law

PHIL 3142 Philosophy of Law

PSC 2214 U.S. Constitutional Law and Politics I

PSC 2215 U.S. Constitutional Law and Politics II

Two courses from any of the four courses immediately preceding and from the following:

BADM 4101 Business Law and Ethics

ECON 3190 Law and Economics

HIST 3370 US Constitutional History

MAE 3171 Patent Law for Engineers

PSC 2213 Judicial Politics

PSC 2444 Public International Law

PUBH 3136 Health Law

SMPA 2173 Media Law

SOC 2145 Criminal Law

MINOR IN SOCIOLOGY

REQUIREMENTS

18 credits of courses are required including:

SOC 1001 Introduction to Sociology

or SOC 1002 The Sociological Imagination

SOC 2103 Classical Sociological Theory

or SOC 2104 Contemporary Sociological Theory

Four upper-division sociology courses excluding:

SOC 4192 Advanced Seminar in Criminal Justice

SOC 4195 Senior Research Seminar

Note: A student majoring in sociology may not declare a second major or a minor in criminal justice, or vice versa.

MASTER OF ARTS IN THE FIELD OF CRIMINOLOGY

REQUIREMENTS

This program is a joint offering of the Department of Sociology and the Department of Forensic Sciences.

Specific admission requirements are shown on the Graduate Program Finder. (<http://www.gwu.edu/all-graduate-programs>)

Prerequisite: a bachelor's degree in sociology, criminal justice, criminology, or a related field.

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 69).

Students have two options for earning the degree:

A) Complete at least 30 credits of graduate course work and a thesis

B) Complete at least 36 credits of graduate course work and a comprehensive examination

The following courses are required for the degree:

SOC 6230 Sociological Research Methods

SOC 6231 Data Analysis

SOC 6238 Development of Sociological Theory

or SOC 6239 Contemporary Sociological Theory

SOC 6258 Deviance and Control

SOC 6259 Criminology

SOC 6232 Qualitative Methodology: Doing Field Research

or SOC 6240 Field Research in Organizational Settings

Five elective courses in criminology, of which at least two are in forensic sciences and at least one is selected from the following:

SOC 6260 Special Topics in Criminal Justice

SOC 6261 Sociology of Law

SOC 6262 Corrections

SOC 6263 Race and Crime

SOC 6264 Organized Crime

SOC 6266 Gender & Criminal Justice

SOC 6273 The Sex Industry

Students opting for a thesis substitute the following for two of the elective courses:

SOC 6998 Thesis Research

SOC 6999 Thesis Research

MASTER OF ARTS IN THE FIELD OF SOCIOLOGY

REQUIREMENTS

Specific admission requirements are shown on the Graduate Program Finder (<http://www.gwu.edu/all-graduate-programs>).

Prerequisite: a bachelor's degree.

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 69).

All students must complete at least 30 credit hours of graduate course work plus a thesis: SOC 6998 Thesis Research (fall) and SOC 6999 Thesis Research (spring).

The following courses are required for the degree:

SOC 6230 Sociological Research Methods

SOC 6231 Data Analysis

SOC 6238 Development of Sociological Theory

SOC 6239 Contemporary Sociological Theory

SOC 6232	Qualitative Methodology: Doing Field Research
or SOC 6240	Field Research in Organizational Settings

Two courses in a major field and one course in a minor field. Fields of specialization are criminology, social inequality, and urban sociology. For SOC 6295 Research, no more than 3 credits may be applied toward the degree requirements. With the consent of an advisor, one graduate course in a related department or program can be used for either one of the major courses or for the minor course requirement.

Plus a thesis:

SOC 6998 Thesis Research

SOC 6999 Thesis Research

SPEECH AND HEARING SCIENCE

Whether learning about communication sciences or the relationship between language and society, students studying speech and hearing sciences at GW receive in-depth knowledge of all aspects of communication. As part of the social and behavioral sciences discipline in the Columbian College of Arts and Sciences, the program provides deep knowledge of language and communication, including the consequences of speech and hearing challenges on individuals and society, and the treatment of communication impairments.

UNDERGRADUATE

Bachelor's program

- Bachelor of Arts with a major in speech, language, and hearing science (p. 892)s

Minor

- Minor in speech, language, and hearing sciences (p. 903)

GRADUATE

Master's programs

- Master of Arts in the field of speech-language pathology (p. 904), for students with an undergraduate degree in speech-language pathology
- Master of Arts in the field of speech-language pathology post-baccalaureate (p. 904) program, for students with an undergraduate degree in another field

FACULTY

Professors L. Bernstein, C.W. Linebaugh, J. Mahshie (*Chair*), G.M. Schulz

Associate Professors S. Brundage, F. Subiaul

Assistant Professors S. Campbell (*Teaching*), C. Core, A.B. Hancock, M. Thothathiri, G. Wallace

Teaching Instructor M.E. O'Donnell

Professorial Lecturer M. Bamdad, M.E. Moody

Clinical Instructors K. Comer, G. Greenman, L. Jacobs-Condit, J. Kumar, J. McHugh, R. Neuman, L. Siegfried

COURSES

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000-4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

SPHR 1000. Dean's Seminar. 3 Credits.

The Dean's Seminars provide Columbian College first-year students focused scholarship on specific intellectual challenges. Topics vary by semester. Consult the Schedule of Classes for more details. Restricted to First-year students in CCAS.

SPHR 1011. Voice and Diction. 3 Credits.

Development of naturalness, correctness, and clarity in conversation through the study of phonetics, rate, volume, pitch, and quality in preparation for performance. Laboratory fee.

SPHR 1071. Foundations of Human Communication. 3 Credits.

An introduction to the fundamental principles of the biology of speech, hearing and language, language structure and use, and human communicative interaction. Practice in the identification of specific verbal and nonverbal aspects of communication behavior.

SPHR 1071W. Foundations of Human Communication. 3 Credits.

An introduction to the fundamental principles of the biology of speech, hearing and language, language structure and use, and human communicative interaction. Practice in the identification of specific verbal and nonverbal aspects of communication behavior.

SPHR 1072. Multicultural Issues in Human Communication. 3 Credits.

Consideration of the influences of culture and bilingualism on language development and use and on communicative interaction; experimental and ethnographic methods for studying language and communication in a multicultural society.

SPHR 1081. American Sign Language I. 3 Credits.

Development of basic communication skills, with appropriate vocabulary and grammatical structures; emphasis on comprehension skills.

SPHR 1082. American Sign Language II. 3 Credits.

Continuation of SPHR 1081. Development of basic communication skills, with appropriate vocabulary and grammatical structures; emphasis on comprehension skills. Prerequisite: SPHR 1081.

SPHR 1084. Perspectives in Deaf Culture. 3 Credits.

Introduction to the Deaf community as a linguistic and cultural minority group. The roles of deaf people in the larger society, including political activism. Generational differences concerning education, socioeconomic status, medical issues, and language.

SPHR 2083. American Sign Language III. 3 Credits.

Continuation of SPHR 1082. Development of basic communication skills, with appropriate vocabulary and grammatical structures; emphasis on comprehension skills. Prerequisite: SPHR 1082.

SPHR 2101. Research Methods. 3 Credits.

Introduction to fundamental research principles (e.g., hypothesis testing, sampling, validity and reliability), designs (e.g., experiments, case studies), and methods (e.g., behavioral observations, acoustic and physiologic measurements, neuro-imaging) used in the study of speech, language, and hearing. Prerequisites: SPHR 1071.

SPHR 2102. Neural Substrates-SpHr & Lang. 3 Credits.**SPHR 2104. Speech and Language Disorders. 3 Credits.**

Survey of the nature and causes of developmental and acquired disorders of speech and language. Emphasis on prevention and effective communication with persons having a speech-language impairment.

SPHR 2104W. Speech and Language Disorders. 3 Credits.

Survey of the nature and causes of developmental and acquired disorders of speech and language. Emphasis on prevention and effective communication with persons having a speech-language impairment.

SPHR 2105. Anatomy and Physiology for Speech and Hearing I. 3 Credits.

Anatomy and physiology of the respiratory, phonatory, articulatory, and resonatory subsystems of speech; swallowing; and the cranial nerves.

SPHR 2106. Anatomy and Physiology for Speech and Hearing II. 3 Credits.

Anatomy of the auditory and vestibular systems; physiology of hearing; anatomy of the brain and spinal cord; physiology of the nervous system.

SPHR 2107. Acoustics. 0-3 Credits.

This course focuses on speech acoustics, with emphasis on how the speech signal is produced and the elements of speech important for speech perception. Recommended background: Students are advised to complete, or currently be taking, Phonetics (SPHR 2136) and Anatomy and Physiology (SPHR 2105) with this course.

SPHR 2108. Introduction to Audiology. 3 Credits.

Survey of the field of audiology, including the measurement of hearing, the nature and causes of hearing impairment, hearing aids and habilitation/rehabilitation of the hearing impaired. Prerequisite: SPHR 2107; prerequisite or corequisite: SPHR 2106. Laboratory fee.

SPHR 2117. Hearing & Perception. 3 Credits.

Consideration of the psychoacoustics of the normal auditory system in terms of auditory sensitivity, loudness, pitch, masking, and binaural hearing. Topics in speech perception that build upon psychoacoustics and speech acoustics. Prerequisite: SPHR 2108.

SPHR 2130. Phonetics and Phonological Development. 3 Credits.

Detailed study of English phonetics and phonology; prespeech vocalization and phonological development; multicultural issues in phonological development; intensive practice in phonetic transcription. Prerequisite or corequisite: SPHR 2105. Laboratory fee.

SPHR 2131. Language Acquisition and Development. 3 Credits.

Theories of language acquisition; development of language from birth through adolescence; emphasis on development of semantics, syntax, morphology, and pragmatics; multicultural issues in language development. Laboratory fee. Prerequisite: SPHR 2130.

SPHR 2132. Literacy. 3 Credits.

An overview of literacy development (thinking, listening, speaking, reading, spelling, writing) with emphasis on reading and writing development. Laboratory fee. Prerequisite: SPHR 1071.

SPHR 2133. Autism. 3 Credits.

How the study of autism and related disorders may shed light on the characteristics of the mind. The broad characteristics of autism spectrum disorders, including cognitive, behavioral, and neural aspects; definitions of typical vs. atypical development; and difficulties associated with diagnosis and treatment.

SPHR 2135. Language: Structure, Meaning, and Use. 3 Credits.

A survey of basic linguistic terminology and the components of language structures. Major topics will include language structure (syntax, morphology, phonology), meaning (semantics), and the use of language as a means of communication among individuals (pragmatics).

SPHR 2136. Phonetics. 2 Credits.

An overview of phonetics of American English and an introduction to sounds of languages of the world. General principles of phonetic description and analysis, speech production mechanisms, classification of consonants and vowels of English and other languages, suprasegmental aspects of speech, and acoustic characteristics of speech sounds. Allophonic variation and phonetic characteristics of connected speech and social and regional phonetic variation. Instruction and practice in transcription using the International Phonetic Alphabet. Restricted to none. Prerequisites: none. Recommended background: None required.

SPHR 3116. Brain & Language. 3 Credits.

How the brain operates for language production and understanding and how damage to the brain can interrupt neural processes with a variety of neurolinguistic consequences. Neuroimaging and behavioral research that informs the understanding of the bases of neurolinguistic communication disorders. Prerequisite or corequisite: SPHR 2106.

SPHR 3199. Selected Topics. 3 Credits.

Topic announced in the Schedule of Classes. May be repeated for credit provided the topic differs.

SPHR 4118. Senior Seminar. 3 Credits.

Critical evaluation of the research literature on speech and hearing; the process of scientific writing and analysis; how research can inform and improve clinical practice. For departmental majors in the senior year. Prerequisite: SPHR 2104 or SPHR 1071. Laboratory fee.

SPHR 4118W. Senior Seminar. 3 Credits.

Critical evaluation of the research literature on speech and hearing; the process of scientific writing and analysis; how research can inform and improve clinical practice. For departmental majors in the senior year. Prerequisite: SPHR 2104 or SPHR 1071. Laboratory fee.

SPHR 4119. Analysis and Modification of Communication Disorders. 3 Credits.

For department majors in their senior year. Assessment of speaker-listener behavior; acoustic, behavioral, and linguistic properties of speaker intelligibility and credibility; observation, analysis, and modification of speech and language comprehension and expression. Prerequisite: senior standing. Laboratory fee.

SPHR 4196. Independent Study. 1-6 Credits.

Independent research and special projects. Before students are permitted to register for SPHR 4196, they must submit a written proposal of the plan of study and obtain approval of the staff member who will direct the study and of the department chair.

SPHR 6201. Clinical Practicum in Speech-Language Pathology. 1-6 Credits.

Supervised clinical practice in the evaluation and treatment of speech and language disorders; counseling of clients and families; development of treatment plans and writing of evaluation and progress reports. Admission by permission of the instructor. May be repeated for up to 6 credit hours.

SPHR 6202. Clinical Practicum in Audiology. 1-6 Credits.

Supervised clinical practice in behavioral and electrophysiologic assessment of hearing, hearing aid assessment and fitting, and aural rehabilitation; counseling clients and families; writing evaluation and progress reports. Admission by permission of the instructor. May be repeated, but may not be taken for more than 6 credit hours.

SPHR 6205. Professional and Clinical Issues in Speech and Hearing. 1 Credit.**SPHR 6207. Diagnostic Procedures in Speech and Hearing. 3 Credits.**

Fundamental philosophical and conceptual issues in the assessment of speech-language functioning across a wide range of disorders and diverse populations. Consideration of how assessment procedures guide treatment decisions.

SPHR 6210. Research in Communication Sciences and Disorders. 1-3 Credits.

Review of fundamental issues and methods in clinical research, including group and single-subject experimental designs. Application of clinical research methodology and findings to assessment and treatment. Development of a research prospectus. Laboratory fee.

SPHR 6220. Disorders of Articulation and Phonology. 3 Credits.

Survey of the nature and causes of impairments of speech sound production in children and adults. Differential diagnosis of oral motor versus phonological disorders; treatment approaches; identification and modification of regional dialects and foreign accents. Laboratory fee.

SPHR 6221. Neurodevelopmental Disorders of Speech Production. 2 Credits.

Evaluation and treatment of infants and children with neurodevelopmental speech disorders, including cerebral palsy. Emphasis on management of prespeech oral motor and feeding impairments. Laboratory fee.

SPHR 6222. Acquired Neuromotor Disorders of Speech Production. 2 Credits.

Examination of the neuroanatomical and neurophysiological bases and acoustic and perceptual characteristics of acquired dysarthrias and apraxia of speech. Evidence-based approaches to the assessment, differential diagnosis, and treatment of these disorders. Laboratory fee.

SPHR 6230. Pediatric Language and Speech Disorders I. 3 Credits.

Survey of current approaches for assessing and treating language delays and disorders in infants, toddlers, preschoolers, school-age children, and adolescents. Review of standardized, observational, and ethnographic approaches used in language assessment; current models of intervention and service delivery. Laboratory fee.

SPHR 6231. Pediatric Language and Speech Disorders II. 3 Credits.

SPHR 6240. Neurogenic Communication Disorders. 3 Credits.

Differential diagnosis of acquired speech and language disorders, with an emphasis on the aphasia acquired in adulthood. Evidence-based approaches to the assessment and treatment of adult neurogenic language disorders. Laboratory fee.

SPHR 6241. Applied Neuroanatomy. 3 Credits.

Neuroanatomy and neurophysiology of systems underlying speech, language, and hearing. Neuroimaging techniques and investigations. Applications to the assessment and treatment of communication disorders. Laboratory fee.

SPHR 6250. Eval/Treatment-Speech Disorder. 3 Credits.

SPHR 6251. Seminar: Speech Fluency Disorders. 3 Credits.

Consideration of stuttering and other disorders of speech rate and rhythm from developmental, linguistic, physiological, and psychosocial points of view. Investigation of evidence-based approaches to assessment and treatment.

SPHR 6260. Voice Disorders: Evaluation and Treatment. 3 Credits.

Normal anatomy and physiology of the human vocal mechanism. Nature, causes, and clinical management of functional and organic voice disorders, including laryngectomy. Laboratory fee.

SPHR 6261. Seminar: Voice Disorders. 2 Credits.

SPHR 6276. Aural Rehabilitation. 3 Credits.

Habilitation/rehabilitation of the hearing impaired, including auditory training, speech reading, hearing aids, assistive listening devices, communication strategies, and counseling. Laboratory fee.

SPHR 6277. Psychoeducational Management of Children With Hearing Impairment. 3 Credits.

SPHR 6281. Dysphagia. 2 Credits.

Anatomy and physiology of normal swallowing. Nature and causes of dysphagia in adults. Assessment, including clinical examination and radiologic methods; treatment. Laboratory fee.

SPHR 6282. Augmentative Communication and Computer Applications in Communication Disorders. 2 Credits.

Principles of assessment, development, and selection of augmentative and alternative communication systems; application through case studies. Computer applications, including review of selected hardware and software and selection criteria. Laboratory fee.

SPHR 6283. Multicultural Perspectives in Communication Development and Disorders. 2 Credits.

Application of culturally appropriate and theoretically based speech and language procedures to clinical assessment and intervention with multilingual/multicultural populations.

SPHR 6290. Selected Topics in Clinical Audiology. 1-3 Credits.

Advanced study of selected theoretical and clinical issues. May be repeated, but may not be taken for more than a total of 6 credits.

SPHR 6291. Selected Topics in Speech-Language Pathology. 1-3 Credits.

Advanced study of selected theoretical and clinical issues regarding various aspects of practice in speech-language pathology. May be repeated but not for more than a total of 6 credit hours.

SPHR 6295. Independent Research in Speech, Language, and Hearing. 1-12 Credits.

SPHR 6998. Thesis Research. 2 Credits.

SPHR 6999. Thesis Research. 2 Credits.

BACHELOR OF ARTS WITH A MAJOR IN SPEECH, LANGUAGE, AND HEARING SCIENCES

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 62).

Required (20 credits)

SPHR 1071	Foundations of Human Communication
SPHR 2101	Research Methods
SPHR 2131	Language Acquisition and Development
SPHR 2135	Language: Structure, Meaning, and Use
SPHR 2136	Phonetics
SPHR 4118W	Senior Seminar

STAT 1053	Introduction to Statistics in Social Science
-----------	--

Students must complete a concentration in either communication sciences and disorders, hearing and deafness, or language and communication sciences.

Communication Sciences and Disorders Concentration

Required

SPHR 2104	Speech and Language Disorders
-----------	-------------------------------

or SPHR 2104W	Speech and Language Disorders
---------------	-------------------------------

SPHR 2105	Anatomy and Physiology for Speech and Hearing I
-----------	---

SPHR 2106	Anatomy and Physiology for Speech and Hearing II
-----------	--

SPHR 2107	Acoustics
-----------	-----------

SPHR 2108	Introduction to Audiology
-----------	---------------------------

SPHR 4119	Analysis and Modification of Communication Disorders
-----------	--

Two electives from the following:

SPHR 1072	Multicultural Issues in Human Communication
-----------	---

GENERAL EDUCATION

In addition to the University General Education Requirement, undergraduate students in Columbian College must complete a further, College-specific general education curriculum—Perspective, Analysis, Communication, or G-PAC. Together with the University General Education Requirement, G-PAC

engages students in active intellectual inquiry across the liberal arts. Students achieve a set of learning outcomes that enhance their analytical skills, develop their communication competencies, and invite them to participate as responsible citizens who are attentive to issues of culture, diversity, and privilege.

Course work for the University General Education Requirement is distributed as follows:

- Writing—one course in university writing and two writing-in-the-disciplines (WID) courses;
- Humanities—one approved humanities course that involves critical thinking skills;
- Mathematics or Statistics—one course in either math or statistics;
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry; and,
- Social Sciences—two courses in the social sciences

Course work for the Columbian College general education curriculum is distributed as follows:

- Arts—one approved arts course that involves the study or creation of artwork based on an understanding or interpretation of artistic traditions or knowledge of art in a contemporary context;
- Global or Cross-Cultural Perspective—one approved course that analyzes the ways in which institutions, practices, and problems transcend national and regional boundaries;
- Humanities—one approved humanities course that involves critical thinking skills (in addition to the one course in this category required by the University General Education Requirement);
- Local or Civic Engagement—one course that develops the values, ethics, disciplines, and commitment to pursue responsible public action;
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry (in addition to the one course in this category required by the University General Education Requirement; and,
- Oral Communication—one course in oral communication.

Certain courses are approved to fulfill the requirement in more than one of these categories.

Courses taken in fulfillment of the Columbian College general education curriculum may also be counted toward majors or minors. Transfer courses taken prior to, but not after, admission to George Washington University may count toward the University general education requirement and Columbian College general education curriculum, if those transfer courses are equivalent to GW courses that have been approved by the University and the College.

University General Education and G-PAC Courses

- Arts (p. 894)
- Global or Cross-Cultural (p.)
- Humanities (p. 897)
- Local/Civic Engagement (p.)
- Mathematics or Statistics (p. 900)
- Natural or physical laboratory sciences (p. 901)
- Oral Communication (p. 901)
- Social Sciences (p. 902)
- Writing (p. 903)

SPECIAL HONORS

To qualify for graduation with Special Honors, the student must fulfill the general requirements stated under University Regulations, submit an application to the department before the beginning of the senior year, register for at least 1 credit of SPHR 4196 Independent Study, and complete an independent study honors project with distinction. Students must confer with an advisor before beginning the work. A 3.75 grade-point average in the major and overall is required both for acceptance and for graduation with Special Honors.

MINOR IN SPEECH, LANGUAGE, AND HEARING SCIENCES

REQUIREMENTS

18 credits including:

SPHR 1071	Foundations of Human Communication
or SPHR 1071W	Foundations of Human Communication

SPHR 2105	Anatomy and Physiology for Speech and Hearing I
-----------	---

SPHR 2107	Acoustics
-----------	-----------

SPHR 2135	Language: Structure, Meaning, and Use
-----------	---------------------------------------

Two of the following:

SPHR 2104	Speech and Language Disorders
-----------	-------------------------------

or SPHR 2104W	Speech and Language Disorders
---------------	-------------------------------

SPHR 2106	Anatomy and Physiology for Speech and Hearing II
-----------	--

SPHR 2108	Introduction to Audiology
-----------	---------------------------

SPHR 2131	Language Acquisition and Development
-----------	--------------------------------------

SPHR 2132	Literacy
SPHR 2133	Autism
SPHR 2136	Phonetics
SPHR 3116	Brain & Language

MASTER OF ARTS IN THE FIELD OF SPEECH-LANGUAGE PATHOLOGY

REQUIREMENTS

Specific admission requirements are shown on the Graduate Program Finder. (<http://www.gwu.edu/all-graduate-programs>)

Prerequisite: the degree of Bachelor of Arts with a major in speech and hearing science from this University, or an equivalent degree, and an appropriate score on the Aptitude Test of the Graduate Record Examination

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 62).

Required

42 credits of approved course work without a thesis or, with the approval of the department, 36 credits of approved course work with a thesis (SPHR 6295 Independent Research in Speech, Language, and Hearing and SPHR 6998 Thesis Research-SPHR 6999 Thesis Research).

All students must satisfy the academic and supervised practicum requirements of the Certificate of Clinical Competence awarded by the American Speech-Language-Hearing Association and satisfactorily complete a master's comprehensive examination.

SPEECH-LANGUAGE PATHOLOGY POST-BACCALAUREATE PROGRAM

The Master of Arts in the field of speech-language pathology post-baccalaureate program is designed for persons wishing to enter the profession of speech-language pathology, but whose undergraduate major was in another field.

Students wishing to participate in the post-baccalaureate program apply to the master's degree program and may be granted "conditional admission" to the graduate program. Conditional admission requires that students complete nine prerequisite courses (scheduled on Tuesdays and Thursdays). Completion of the post-baccalaureate program, including the master's degree, usually requires 33 months of full-time study. The courses of the post-baccalaureate program

must be completed with a grade of B- or better in each course and a cumulative GPA of 3.0 or better, within a student's first year of the graduate program. No other grades, including I (incomplete), W (authorized withdraw), or Z (unauthorized withdraw) are acceptable for these courses. Failure to meet these conditions will result in the termination of a student's degree candidacy.

The post-baccalaureate program of study includes the following courses:

Required

SPHR 2104	Speech and Language Disorders
SPHR 2105	Anatomy and Physiology for Speech and Hearing I
SPHR 2106	Anatomy and Physiology for Speech and Hearing II
SPHR 2107	Acoustics
SPHR 2131	Language Acquisition and Development
SPHR 2135	Language: Structure, Meaning, and Use
SPHR 2136	Phonetics
SPHR 4119	Analysis and Modification of Communication Disorders

STATISTICS

Statistics is one of the natural, mathematical, and biomedical sciences programs in the Columbian College of Arts and Sciences. The curriculum emphasizes the important role of statistics as it provides methodologies for making advances in medicine, genetics, and other research arenas, and for making decisions in business and public policy. The program prompts students to learn the reasoning and methods for analyzing and understanding data as they explore how these skills can be applied to develop new initiatives.

UNDERGRADUATE

Bachelor's program

- Bachelor of Science with a major in statistics (p. 909)

Minor

- Minor in statistics (p. 919)

GRADUATE

Master's programs

- Master of Science in the field of biostatistics (p. 1339) (jointly administered by the Department of Statistics in CCAS and the Department of Epidemiology and Biostatistics in SPH)

- Master of Science in the field of statistics (p. 919)

Doctoral programs

- Doctor of Philosophy in the field of biostatistics (p. 1343) (jointly administered by the Department of Statistics in CCAS and the Department of Epidemiology and Biostatistics in SPH)
- Doctor of Philosophy in the field of statistics (p. 920)

CERTIFICATE

- Graduate certificate in survey design and data analysis (p. 920)

FACULTY

Professors E. Bura, J. Chandra (*Research*), J.L. Gastwirth, J.M. Lachin III, Z. Li, D.L. Lipscomb (*Chair*), H.M. Mahmoud, R. Modarres, T.K. Nayak

Associate Professors S. Bose, S. Kundu, Y. Lai, M. Larsen, J.R. Stroud

Assistant Professors T. Apanasovich, S. Balaji, W. Barta, J. Landon, Q. Pan

Professorial Lecturers P. Chandhok, C.M. Fleming, F. Ponti

COURSES

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000-4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

Note: STAT 1051 Introduction to Business and Economic Statistics, STAT 1053 Introduction to Statistics in Social Science, STAT 1111 Business and Economic Statistics I, and STAT 1127 Statistics for the Biological Sciences are related in their subject matter, and credit for only one of these courses may be applied toward a degree. One entrance unit in algebra is prerequisite to all courses in statistics.

STAT 1000. Dean's Seminar. 3 Credits.

The Dean's Seminars provide Columbian College first-year students focused scholarship on specific intellectual challenges. Topics vary by semester. See the Schedule of Classes for more details. Restricted to First-year students in CCAS.

STAT 1051. Introduction to Business and Economic Statistics. 3 Credits.

Lecture (3 hours), laboratory (1 hour). Frequency distributions, descriptive measures, probability, probability distributions, sampling, estimation, tests of hypotheses, regression and correlation, with applications to business.

STAT 1053. Introduction to Statistics in Social Science. 3 Credits.

Lecture (3 hours), laboratory (1 hour). Frequency distributions, descriptive measures, probability, sampling, estimation, tests of hypotheses, regression and correlation, with applications to social sciences.

STAT 1091. Principles-Statistical Methods. 3 Credits.

STAT 1111. Business and Economic Statistics I. 3 Credits.

Descriptive statistics, graphical methods, probability, special distributions, random variables, sampling, estimation and confidence intervals, hypothesis testing, correlation and regression.

STAT 1127. Statistics for the Biological Sciences. 3 Credits.

Introduction to statistical techniques and reasoning applicable to the biomedical and related sciences. Properties of basic probability functions: binomial, Poisson, and normal. Data analysis, inference, and experimental design.

STAT 1129. Introduction to Computing. 3 Credits.

Introduction to elements of computer programming and problem-solving using Pascal. Hands-on experience will be acquired through computer programming projects, including some simple statistical applications.

STAT 2105. Statistics in the Behavioral Sciences. 3 Credits.

Lecture (3 hours), laboratory (1 hour). Advanced study of statistical techniques for research problems. Analysis of variance, correlation techniques, nonparametric techniques, sampling theory. Prerequisite: an introductory statistics course and satisfactory performance on a placement examination.

STAT 2112. Business and Economic Statistics II. 3 Credits.

Continuation of Stat 1111, with emphasis on techniques of regression, chi-square, nonparametric inference, index numbers, time series, decision analysis, and other topics used in economics and business. Prerequisite: STAT 1111 .

STAT 2118. Regression Analysis. 3 Credits.

Lecture (3 hours), laboratory (1 hour). Simple and multiple linear regression, partial correlation, residual analysis, stepwise model building, multicollinearity and diagnostic methods, indicator variables. Prerequisites: STAT 1111 or equivalent.

STAT 2123. Introduction to Econometrics. 3 Credits.

Same as Econ 2123.

STAT 2183. Intermediate Stat Lab/Packages. 3 Credits.

Application of program packages (e.g., SAS, SPSS) to the solution of one-, two- and k-sample parametric and nonparametric statistical problems. Basic concepts in data preparation, modification, analysis and interpretation of results. Prerequisite: an introductory statistics course.

STAT 2183W. Intermediate Statistical Laboratory: Statistical Computing Packages. 3 Credits.

Application of program packages (e.g., SAS, SPSS) to the solution of one-, two- and k-sample parametric and nonparametric statistical problems. Basic concepts in data preparation, modification, analysis and interpretation of results. Prerequisite: an introductory statistics course.

STAT 3119. Analysis of Variance. 3 Credits.

Lecture (3 hours), laboratory (1 hour). Introduction to the design of experiments and analysis of variance; randomized block, factorial, Latin square designs, and analysis of covariance. Prerequisite: STAT 2118.

STAT 3187. Introduction to Sampling. 3 Credits.

Problems of sampling and sample design. Simple random, stratified, systematic, cluster, and multistage designs; control of sampling and non-sampling errors. Prerequisite: STAT 1051 .

STAT 4157. Introduction to Mathematical Statistics I. 3 Credits.

Basic concepts of probability theory, including random variables, independence, distribution theory, and sampling theory. Prerequisite: MATH 1232 .

STAT 4158. Introduction to Mathematical Statistics I. 3 Credits.

Continuation of STAT 4157. Inference procedures, including estimation, hypothesis testing, regression analysis, and experimental design. Prerequisite: MATH 1232 .

STAT 4181. Applied Time Series Analysis. 3 Credits.

Autoregressive integrated moving average (ARIMA) modeling and forecasting of univariate time series. Estimation of spectral density functions, white noise tests, and tests for periodicities. Theory and applications using SAS. Prerequisite: MATH 2233, STAT 4157- STAT 4158 or STAT 2118.

STAT 4188. Nonparametric Stat Inference. 3 Credits.

Statistical inference when the form of the underlying distribution is not fully specified. Nonparametric procedures for estimation and testing hypotheses. An introduction to robust procedures. Prerequisite: STAT 1051 .

STAT 4189. Mathematical Probability and Applications I. 3 Credits.

Probability theory, including combinatorial analysis, conditional probability, and stochastic independence. Random variables and their distributions; laws of large numbers and central limit theorem. Application of concepts to elementary stochastic processes (coin-tossing sequences, branching processes, Markov chains). Prerequisite: MATH 1232 .

STAT 4190. Mathematical Probability and Applications II. 3 Credits.

Continuation of STAT 4189. Probability theory, including combinatorial analysis, conditional probability, and stochastic independence. Random variables and their distributions; laws of large numbers and central limit theorem. Application of concepts to elementary stochastic processes (coin-tossing sequences, branching processes, Markov chains). Prerequisite: MATH 1232 .

STAT 4195. Reading and Research. 1-12 Credits.

May be repeated once for credit. Admission by permission of department chair.

STAT 4197. Fundamentals of SAS Programming for Data Management. 3 Credits.

Fundamentals of the SAS system for data management, statistical analysis, and report writing. Data modification; programming; file handling; and macro writing. Prerequisite: An introductory statistics course and STAT 1129.

STAT 4198. Special Topics. 3 Credits.

Topic to be announced in the Schedule of Classes. May be repeated for credit provided the content differs.

STAT 6104. Statistics in Management, Administration, and Policy Studies. 3 Credits.

Introductory study of statistical techniques for research problems. For graduate students in fields other than statistics who have no previous statistics training. May not be taken by graduate students in statistics.

STAT 6201. Mathematical Statistics I. 3 Credits.

Probability, distribution theory, sampling theory, estimation, sufficient statistics, hypothesis testing, analysis of variance, multivariate normal distribution. Prerequisite: MATH 2233, MATH 2184.

STAT 6202. Mathematical Statistics II. 3 Credits.

Continuation of STAT 6201. Probability, distribution theory, sampling theory, estimation, sufficient statistics, hypothesis testing, analysis of variance, multivariate normal distribution. Prerequisite: MATH 2233, MATH 2184.

STAT 6207. Methods of Statistical Computing I. 3 Credits.

Error analysis, computational aspects of linear models, sweep operator, random number generation, simulation, resampling. Optimization, numerical integration (Gaussian quadrature, Simpson's rule); E-M algorithm. Prerequisite: STAT 2118, STAT 4157- STAT 4158; MATH 2184; knowledge of a programming language.

STAT 6208. Methods of Statistical Computing II. 3 Credits.

Numerical linear algebra, matrix decomposition and eigenvalue problems. Smoothing and density estimation. Graphics, interactive and dynamic techniques for data display. Object-oriented programming. Prerequisite: STAT 2118, STAT 4157- STAT 4158; MATH 2184; knowledge of a programming language.

STAT 6210. Data Analysis. 3 Credits.

Review of statistical principles of data analysis, using computerized statistical procedures. Multiple regression and the general linear model, analysis of contingency tables and categorical data, logistic regression for qualitative responses. Prerequisite: STAT 2118, STAT 4157 or STAT 6201, and STAT 2183 .

STAT 6213. Intermediate Probability and Stochastic Processes. 3 Credits.

Discrete and continuous random variables and their distributions, conditional distributions and conditional expectation, generating functions and their applications, convergence of random variables; introduction to Brownian motion, homogeneous and nonhomogeneous Poisson processes and martingales. Prerequisite: STAT 6201- STAT 6202 .

STAT 6214. Applied Linear Models. 3 Credits.

Introduction to regression techniques for discrete and continuous response variables. The course includes a computing component using SAS and S> Prerequisite: MATH 2233 and MATH 2184.

STAT 6215. Applied Multivariate Analysis I. 3 Credits.

Application of multivariate statistical techniques to multidimensional research data from the behavioral, social, biological, medical, and physical sciences. Prerequisite: STAT 3119, STAT 4157- STAT 4158; MATH 2184.

STAT 6216. Applied Multivariate Analysis II. 3 Credits.

Continuation of STAT 6215. Application of multivariate statistical techniques to multidimensional research data from the behavioral, social, biological, medical, and physical sciences. Prerequisite: STAT 3119, STAT 4157- STAT 4158; MATH 2184.

STAT 6217. Design of Experiments. 3 Credits.

Design and analysis of single- and multiple-factor experiments. Includes block designs, repeated measures, factorial and fractional factorial experiments, response surface experimentation. Prerequisite: STAT 4157-STAT 4158; MATH 2184.

STAT 6218. Linear Models. 3 Credits.

Theory of the general linear parametric model. Includes least squares estimation, multiple comparisons procedures, variance components estimation. Prerequisite: STAT 6201- STAT 6202; MATH 2184.

STAT 6221. Design of Experiments for Behavioral Sciences. 3 Credits.

Applications of advanced experimental design to research problems in behavioral sciences and education. Prerequisite: STAT 2105 or STAT 2118 and permission of instructor. Not open to graduate students in statistics.

STAT 6223. Bayesian Statistics: Theory and Applications. 3 Credits.

An overview of Bayesian statistics, including its foundational issues, decision under uncertainty, linear models, expert opinion, and computational issues. Prerequisite: STAT 6201- STAT 6202.

STAT 6227. Survival Analysis. 3 Credits.

Parametric and nonparametric methods for the analysis of events observed in time (survival data), including Kaplan-Meier estimate of survival functions, logrank and generalized Wilcoxon tests, the Cox proportional hazards model and an introduction to counting processes. Prerequisite: STAT 6201- STAT 6202 or permission of instructor.

STAT 6231. Contingency Table Analysis. 3 Credits.

A study of the theoretical bases underlying the analysis of categorical data. Measures and tests of association; Mantel-Haenszel procedure; weighted least squares and maximum likelihood estimators in linear models; estimating equations; logistic regression; loglinear models. Prerequisite: STAT 6201- STAT 6202.

STAT 6233. Questionnaire Design. 3 Credits.

Questionnaire development from the perspective of cognitive techniques. Questionnaire issues range from choosing the mode of data collection (mail, telephone, or in-person) to selecting the respondent to the differences between asking attitude and factual questions. Pretesting the instrument chosen.

STAT 6234. Intermediate Statistical Laboratory: Statistical Computing Packages. 3 Credits.

Application of program packages (e.g., SAS, SPSS) to the solution of one-, two- and k-sample parametric and nonparametric statistical problems. Basic concepts in data preparation, modification, analysis and interpretation of results. Prerequisite: an introductory statistics course.

STAT 6236. Applied Sampling Techniques. 3 Credits.

Problems of sampling and sample design. Simple random, stratified, systematic, cluster, and multistate designs; control of sampling and non-sampling errors. Prerequisite: STAT 1051.

STAT 6238. Survey Management. 3 Credits.

Tools used in the management of a survey operation from the initial customer contacts through training, fieldwork, data processing, data analysis, report writing, and presentation of results. Issues in budgeting, staffing, and scheduling, with emphasis on quality management.

STAT 6242. Regression Graphics/Nonparametric Regression. 3 Credits.

Linear regression, nonparametric regression, smoothing techniques, additive models, regression trees, neural networks, and dimension reduction methods. Prerequisite: STAT 2118; MATH 2233, MATH 2184.

STAT 6251. Risk and Reliability. 3 Credits.

STAT 6252. Statistical Methods in Bioinformatics and Computational Biology. 3 Credits.

STAT 6253. Legal Statistics. 3 Credits.

STAT 6254. Statistical Genetics. 3 Credits.

STAT 6282. Foundational Issues in Risk Analysis. 3 Credits.

Descriptive statistics, classical probability, Venn diagrams, conditional probability, Bayes' law and law of total probability. Independence and interdependence, discrete and continuous random variables. Probability models, correlation, interpretation of probability (physical, logical, personal, and subjective). The likelihood function and personal probability. Statistical inference (frequentist and Bayesian).

STAT 6283. Essentials of Risk Analysis. 3 Credits.

Utility and risk. The psychology of risk. Decision trees and decision making under uncertainty. Fault and event trees. Decision trees in risk, safety analysis, infrastructure protection. Simulating rare events. The failure rate functions. The cumulative hazard and survival function. Univariate and multivariate failure models. Causal, cascading, and interdependent failure events. Graphical analysis. Network survivability assessments.

STAT 6284. 9/11 Case Studies. 3 Credits.

Focus on 9/11-like risks to U.S. Critical Infrastructure Key Resources (CIKR). Critical overview of many approaches used in estimating risk in the CIKR arena. Real-time statistical and computer risk modeling. Topics include 18 CIKR sectors, basic risk models for CIKR assets, risk of complex targets and systems, and current state of practice.

STAT 6285. Case Studies: Environmental, Health, and Financial Risk. 3 Credits.

Risks encountered in financial markets, sustainability and climate change, and drug safety and health delivery systems. Development of models and reliable tools for optimal decision-making.

STAT 6287. Modern Theory of Sample Surveys. 3 Credits.

Application of statistical theory to the sampling of finite populations. Simple, stratified, cluster, double and subsampling. Special topics, including super-populations and randomized response. Prerequisite: STAT 4157- STAT 4158 .

STAT 6289. Topics in Statistics. 3 Credits.

STAT 6290. Principles of Demography. 3 Credits.

Introduction to basic demographic perspectives and data; methods for analysis of population size, distribution, and composition; determinants and consequences of population trends. Departmental prerequisite waived. Same as ECON 6290.

STAT 6291. Methods of Demographic Analysis. 3 Credits.

Basic methods for analysis of mortality, natality, and migration; population estimates and projections; estimation of demographic measures from incomplete data. Departmental prerequisite waived. Same as ECON 6291.

STAT 6295. Reading and Research. 3 Credits.

May be repeated once for credit.

STAT 6298. Seminar: Special Topics. 3 Credits.

STAT 6998. Thesis Research. 3 Credits.

STAT 6999. Thesis Research. 3 Credits.

STAT 8226. Advanced Biostatistical Methods. 3 Credits.

Statistical methods for the analysis of longitudinal data: nonparametric, fixed effects, mixed effects, generalized estimating equations. Methods for the analysis of emerging data: group sequential analysis, Brownian motion, Bayesian methods, and stochastic curtailment. Other advanced topics of current research in biostatistics. Prerequisite: STAT 6201-STAT 6202 or permission of instructor.

STAT 8257. Probability. 3 Credits.

Probabilistic foundations of statistics, probability distributions, random variables, moments, characteristic functions, modes of convergence, limit theorems, probability bounds. Prerequisite: STAT 6201- STAT 6202, knowledge of calculus through functions of several variables and series.

STAT 8258. Distribution Theory. 3 Credits.

Special distributions of statistics, small and large sample theory, order statistics, and spacings. Prerequisite: STAT 8257.

STAT 8259. Advanced Probability. 3 Credits.

Conditional expectation and martingales; weak convergence in general metric spaces and functional central limit theorems for i.i.d. random variables and martingales; applications to biostatistics. Prerequisite: STAT 8257 or an equivalent measure-theoretic introduction to probability.

STAT 8262. Nonparametric Inference. 3 Credits.

Inference when the form of the underlying distribution is unspecified. Prerequisite: STAT 6201- STAT 6202.

STAT 8263. Advanced Statistical Theory I. 3 Credits.

Decision theoretic estimation, classical point estimation, hypothesis testing. Prerequisite: STAT 6201- STAT 6202.

STAT 8264. Advanced Statistical Theory II. 3 Credits.

Asymptotic theory, hypothesis testing, confidence regions. Prerequisite: STAT 8257, STAT 8263.

STAT 8265. Multivariate Analysis. 3 Credits.

Multivariate normal distribution. Hotelling's T2 and generalized T20, Wishart distribution, discrimination and classification. Prerequisite: STAT 6201- STAT 6202.

STAT 8266. Topics-Multivariate Analysis. 3 Credits.

STAT 8271. Foundational and Philosophical Issues in Statistics. 3 Credits.

Axiomatic underpinnings of Bayesian statistics, including subjective probability, belief, utility, decision and games, likelihood principle, and stopping rules. Examples from legal, forensic, biological, and engineering sciences. Students are expected to have a background in computer science, economics, mathematics, or operations research. Prerequisite: STAT 6201- STAT 6202.

STAT 8273. Stochastic Processes I. 3 Credits.

Fundamental notions of Markov chains and processes, generating functions, recurrence, limit theorems, random walks, Poisson processes, birth and death processes, applications. Prerequisite: STAT 6201- STAT 6202.

STAT 8274. Stochastic Processes II. 3 Credits.

Continuation of STAT 8273. Fundamental notions of Markov chains and processes, generating functions, recurrence, limit theorems, random walks, Poisson processes, birth and death processes, applications. Prerequisites: STAT 6201- STAT 6202.

STAT 8281. Advanced Time Series Analysis. 3 Credits.

Autoregressive integrated moving average (ARIMA) modeling and forecasting of univariate and multivariate time series. Statespace or Kalman filter models, spectral analysis of multiple time series. Theory and applications using the University computer. Prerequisite: MATH 2233, STAT 6201- STAT 6202 .

STAT 8288. Modern Theory/Sample Surveys. 3 Credits.**STAT 8289. Seminar. 3 Credits.**

Admission by permission of instructor.

STAT 8375. Econometrics I. 3 Credits.

Statistical foundations for econometrics; standard methods of estimation and inference for classical and generalized regression models. Same as ECON 8375.

STAT 8376. Econometrics II. 3 Credits.

Topics may include asymptotic theory, statistical endogeneity, instrumental variables estimation, discrete and limited dependent variable models, and time-series models. Same as ECON 8376. Prerequisite: STAT 8375.

STAT 8998. Advanced Reading and Research. 1-12 Credits.

Limited to students preparing for the Doctor of Philosophy general examination. May be repeated for credit.

STAT 8999. Dissertation Research. 3-12 Credits.

Limited to Doctor of Philosophy candidates. May be repeated for credit.

BACHELOR OF SCIENCE WITH A MAJOR IN STATISTICS

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 62).

Prerequisite courses:

MATH 1231	Single-Variable Calculus I
MATH 1232	Single-Variable Calculus II
MATH 2233	Multivariable Calculus
STAT 1051	Introduction to Business and Economic Statistics (or equivalent)

or STAT 1053 Introduction to Statistics in Social Science

STAT 1129 Introduction to Computing (or equivalent)

or CSCI 1121 Introduction to C Programming

Required courses in the major:

MATH 2184 Linear Algebra I

or MATH 2185 Linear Algebra I for Math Majors

STAT 2118 Regression Analysis

STAT 3119 Analysis of Variance

STAT 4157 Introduction to Mathematical Statistics I

STAT 4158 Introduction to Mathematical Statistics I

STAT 2183 Statistical Computing Packages

or STAT 4197 Fundamentals of SAS Programming for Data Management

Four approved upper-division courses, some of which, in special circumstances, may be taken in other departments. To assure a balanced program, departmental approval of electives is required for all majors. Some suggested electives are:

STAT 2112 Business and Economic Statistics II

STAT 3187 Introduction to Sampling

STAT 4181 Applied Time Series Analysis

STAT 4188 Nonparametric Stat Inference

STAT 4189 Mathematical Probability and Applications I

STAT 4198 Special Topics

GENERAL EDUCATION

In addition to the University General Education Requirement, undergraduate students in Columbian College must complete a further, College-specific general education curriculum—Perspective, Analysis, Communication, or G-PAC. Together with the University General Education Requirement, G-PAC engages students in active intellectual inquiry across the liberal arts. Students achieve a set of learning outcomes that enhance their analytical skills, develop their communication competencies, and invite them to participate as responsible citizens who are attentive to issues of culture, diversity, and privilege.

Course work for the University General Education Requirement is distributed as follows:

- Writing—one course in university writing and two writing-in-the-disciplines (WID) courses;
- Humanities—one approved humanities course that involves critical thinking skills;
- Mathematics or Statistics—one course in either math or statistics;
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry; and,
- Social Sciences—two courses in the social sciences

Course work for the Columbian College general education curriculum is distributed as follows:

- Arts—one approved arts course that involves the study or creation of artwork based on an understanding or interpretation of artistic traditions or knowledge of art in a contemporary context;
- Global or Cross-Cultural Perspective—one approved course that analyzes the ways in which institutions, practices, and problems transcend national and regional boundaries;
- Humanities—one approved humanities course that involves critical thinking skills (in addition to the one course in this category required by the University General Education Requirement);
- Local or Civic Engagement—one course that develops the values, ethics, disciplines, and commitment to pursue responsible public action;
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry (in addition to the one course in this category required by the University General Education Requirement; and,
- Oral Communication—one course in oral communication.

Certain courses are approved to fulfill the requirement in more than one of these categories.

Courses taken in fulfillment of the Columbian College general education curriculum may also be counted toward majors or minors. Transfer courses taken prior to, but not after, admission to George Washington University may count toward the University general education requirement and Columbian College general education curriculum, if those transfer courses are equivalent to GW courses that have been approved by the University and the College.

University General Education and G-PAC Courses

SPECIAL HONORS

In addition to the general requirements stated under University Regulations, in order to be considered for graduation with Special Honors, students who seek Special Honors in statistics should check with the Department.

MINOR IN STATISTICS REQUIREMENTS

18 credits of approved courses in this department:

An introductory statistics course from the following:

STAT 1051	Introduction to Business and Economic Statistics
STAT 1053	Introduction to Statistics in Social Science
STAT 1111	Business and Economic Statistics I
STAT 1127	Statistics for the Biological Sciences

Required:

STAT 2118	Regression Analysis
or STAT 2123	Introduction to Econometrics
STAT 2183	Statistical Computing Packages
or STAT 4197	Fundamentals of SAS Programming for Data Management

9 additional credits of approved statistics courses

MASTER OF SCIENCE IN THE FIELD OF STATISTICS REQUIREMENTS

Specific admission requirements are shown on the Graduate Program Finder. (<http://www.gwu.edu/all-graduate-programs>)

General prerequisite: coursework in multivariate calculus, matrix theory, and at least two undergraduate statistics courses.

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 62).

Required:

The program of study consists of 30 credit hours of graduate course work without a thesis.

The department may also approve a program of study consisting of 24 credit hours of course work plus a thesis (STAT 6998 Thesis Research-STAT 6999 Thesis Research).

All candidates must take STAT 6201 Mathematical Statistics-STAT 6202 Mathematical Statistics.

Courses may be chosen in related fields (economics, mathematics, finance, management, computer science, engineering, public health) with approval of the advisor.

DOCTOR OF PHILOSOPHY IN THE FIELD OF STATISTICS

REQUIREMENTS

Specific admission requirements are shown on the Graduate Program Finder. (<http://www.gwu.edu/all-graduate-programs>)

Prerequisite: a master’s degree in statistics or a related discipline. The main requirement is a strong background in mathematics, including courses in advanced calculus, linear algebra, probability and mathematical statistics. Some deficiencies may be made up concurrently during the student’s first year. In some instances, a student may enter the Ph.D. program with a bachelor’s degree.

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 62).

The requirements for the Doctor of Philosophy Program (p. 70)

Required

STAT 6201	Mathematical Statistics I
STAT 6202	Mathematical Statistics II
STAT 6223	Bayesian Statistics: Theory and Applications
STAT 8257	Probability
STAT 8258	Distribution Theory
STAT 8263	Advanced Statistical Theory I
STAT 8264	Advanced Statistical Theory II

At least two of the following:

STAT 6218	Linear Models
STAT 8226	Advanced Biostatistical Methods
STAT 8259	Advanced Probability
STAT 8262	Nonparametric Inference
STAT 8265	Multivariate Analysis
STAT 8273	Stochastic Processes I
STAT 8274	Stochastic Processes II
STAT 8281	Advanced Time Series Analysis

A minimum of 21 additional credits as determined by consultation with the departmental doctoral committee

The General Examination, consisting of two parts:

A. A written qualifying examination that must be taken within 24 months from the date of enrollment in the program and is based on:

STAT 6201	Mathematical Statistics I
STAT 6202	Mathematical Statistics II
STAT 8257	Probability
STAT 8263	Advanced Statistical Theory I

B. An examination to determine the student’s readiness to carry out the proposed dissertation research

A dissertation demonstrating the candidate’s ability to do original research in one area of probability or statistics.

GRADUATE CERTIFICATE IN SURVEY DESIGN AND DATA ANALYSIS

REQUIREMENTS

Specific admission requirements can be found on the Graduate Program Finder (<http://www.gwu.edu/all-graduate-programs>).

Required:

STAT 6233	Questionnaire Design
STAT 6234	Intermediate Statistical Laboratory: Statistical Computing Packages
STAT 6236	Applied Sampling Techniques
STAT 6238	Survey Management

Additional information can be found on the Department of Statistics, Graduate Certificate in Survey Design and Data

Analysis website (<http://statistics.columbian.gwu.edu/graduate-certificate-survey-design-and-data-analysis>).

THEATRE AND DANCE

The Department of Theatre and Dance, an interdisciplinary liberal arts program, offers instruction in how to acquire the tools and knowledge to fully appreciate the value of theatre and dance. It strengthens a student's ability to apply critical thinking and discussion to the creation and understanding of theatre and dance, as well as the understanding of other peoples and cultures. The curriculum is supplemented as students create live performances and original productions that stimulate and involve the university community, as well as the community beyond the campus. Through creative endeavor and scholarly research, the program also develops the interests and talents of students seeking careers or advanced study in theatre and dance.

UNDERGRADUATE

Bachelor's programs

- Bachelor of Arts with a major in theatre (p. 935)
- Bachelor of Arts with a major in dance (p. 925)

Minors

- Minor in theatre (p. 946)
- Minor in dance (p. 946)

GRADUATE

Master's programs

- Master of Fine Arts in the field of dance (p. 947)
- Master of Fine Arts in the field of production design (p. 948)

FACULTY

Professors L.B. Jacobson, A.G. Wade, M.R. Withers

Associate Professors M.A. Buckley, D.T.S. Burgess (*Chair*), C.F. Gudenius, J.I. Kanter

Assistant Professors S. Johannesdottir, J. Traub, T. Wetenhall

Adjunct Professors E. Kitsos-Kang, A.C. Stokes

COURSES

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000-4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students

- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

Note: Courses in the 1000s series are primarily for nonmajors.

Departmental prerequisite: Prerequisite to all graduate TRDA courses: M.F.A. candidacy and permission of instructor.

TRDA 1000. Dean's Seminar. 3 Credits.

The Dean's Seminars provide Columbian College first-year students focused scholarship on specific intellectual challenges. Topics vary by semester. Consult the Schedule of Classes for more details. Restricted to First-year students in CCAS.

TRDA 1015. Understanding the Dance. 3 Credits.

The art of dance—a lecture and experiential approach to its cultural importance, history, and creative processes. The contributions of the choreographer and dancer to society. Attendance at performances and presentations, and viewing video. Laboratory fee.

TRDA 1017. Movement Awareness. 3 Credits.

An experiential dance movement class that examines human movement and its connection to dance. Somatic concepts of Alexander, Feldenkrais, Bartenieff, and Body/Mind/Centering.

TRDA 1020. Women and the Creative Process. 3 Credits.

Consideration of questions of aesthetics and creativity through the study of art produced by women since the mid-20th century. The creation, meaning, and impact of work across the fields of visual art, dance, theatre, and music.

TRDA 1025. Understanding the Theatre. 3 Credits.

The art of the theatre; its literature, history, aesthetics, and mechanics. Contributions of the playwright, actor, director, and designer. Attendance at assigned theatrical performances.

TRDA 1035. Theatre Production. 3 Credits.

Understanding of the basic elements of theatrical production (performance, technical and management) and the collaborative artist/artisan process through discussion, observation, and practical application. Laboratory fee.

TRDA 1150. Beginning Ballet. 1 Credit.

Introduction to classical ballet technique, including basic concepts of dynamic alignment, stretch, strength, and musicality. Laboratory fee.

TRDA 1152. Beginning Modern/Postmodern Dance. 1 Credit.

Introduction to modern dance technique inclusive of basic concepts of dynamic alignment, stretch, strength, improvisation and musicality. Laboratory fee.

TRDA 1153. Beginning/Intermediate Modern/Postmodern Dance. 1 Credit.

Introduction to modern dance technique inclusive of basic concepts of dynamic alignment, stretch, strength, improvisation and musicality. Laboratory fee.

TRDA 1170. Intermediate Modern/Postmodern Dance I. 2-3 Credits.

Recommended for students with previous dance experience in jazz, ballet, hip hop, modern, or other styles. May be repeated for credit. Laboratory fee.

TRDA 1171. Intermediate Modern/Postmodern Dance II. 2-3 Credits.

Continuation of TRDA 1170. Recommended for students with previous dance experience in jazz, ballet, hip hop, modern, or other styles. May be repeated for credit. Prerequisite: TRDA 1170, or permission of instructor. Laboratory fee.

TRDA 1214. Beginning Acting. 3 Credits.

An introduction to the process of acting. Students will learn to make choices using various acting techniques to create characters and learn about the process.

TRDA 1240. Performance Theory. 3 Credits.

Examination of the ways in which the practices and heuristics of performance have been used to understand a wide range of cultural activities; expansion of the notion of aesthetic performance proper to include sources, subjects, and forms historically considered non-dramatic; and underlying questions concerning what performance is, what it does, and what value it holds.

TRDA 1330. Basics of Production Design. 3 Credits.

Basic elements of production design and technical execution. Laboratory required. Laboratory fee.

TRDA 2172. Intermediate/Advanced Modern/Postmodern Dance I. 2-3 Credits.

May be repeated for credit. Prerequisite: TRDA 1171, or permission of instructor. Laboratory fee.

TRDA 2173. Intermediate/Advanced Modern/Postmodern Dance II. 2-3 Credits.

Continuation of TRDA 2172. May be repeated for credit. Prerequisite: TRDA 2172, or permission of instructor. Laboratory fee.

TRDA 2179. Contact Improvisation. 2 Credits.

A movement form that arises from the point of contact between partners who explore gravity, space, and timing in the spontaneous moment-to-moment exchange of the dance. Exploring the improvisational state of body/mind through the use of imagery, tuning the senses, mindfulness practices, and play. Laboratory fee.

TRDA 2180. Movement Improvisation/Perform. 3 Credits.

Exploring the body and its surroundings in movement, use of language, narrative, environments and contexts for creative expression, developing event and performance structures from improvisation. May be repeated for credit. Laboratory fee.

TRDA 2185. Trends in Performance. 3 Credits.

Study of the theory and practice of contemporary performance art movements and artists; political and artistic activism; scripting and scoring to create performance works based on a single art discipline or interdisciplinary arts. Laboratory fee.

TRDA 2188. African Dance. 1 Credit.

African/Caribbean dance styles and techniques, with warm-ups and center floor work of long and short movement phrases. Basic/modern/jazz terminology and definitions appropriate to intermediate/advanced/African dance are used. Emphasis on alignment, execution, musical phrasing, and the importance of rhythmic timing and nuance.

TRDA 2189. World Dance. 3 Credits.

TRDA 2190. Gender/Indian Classical Dance. 3 Credits.

TRDA 2191. Dance History. 3 Credits.

The history of Western theatrical dance from the late 18th century to the present. The major choreographers and their dance works through readings, lectures, video, and discussion.

TRDA 2191W. Dance History. 3 Credits.

The history of Western theatrical dance from the late 18th century to the present. The major choreographers and their dance works through readings, lectures, video, and discussion.

TRDA 2192. Repertory/Performance. 1,2 Credit.

Participation in the processes of learning and performing dance repertory or new dance works. Audition required. Laboratory required. May be repeated for credit. Laboratory fee.

TRDA 2193. Dance Styles I. 1-12 Credits.

Forms of theatrical dance other than ballet or modern, including African dance, Angola Capoeira, music theatre, Spanish dance, world dance, Middle Eastern dance, and others. May be repeated for credit provided the topic differs. Laboratory fee.

TRDA 2194. Dance Styles II. 1-12 Credits.

Continuation of TRDA 2193. Forms of theatrical dance other than ballet or modern, including African dance, Angola Capoeira, music theatre, Spanish dance, world dance, Middle Eastern dance, and others. May be repeated for credit provided the topic differs. Laboratory fee.

TRDA 2195. Global Dance History. 3 Credits.

TRDA 2215. Intermediate Acting. 3 Credits.

Students continue to develop acting techniques introduced in TRDA 1214 through scripted scene work. Students learn to make choices through text exploration, use various acting techniques to create characters and develop clear character relationships, and stage completed scenes. Prerequisites: TRDA 1214 or HONR 2059.

TRDA 2216. Scene Study: Voice & Character. 3 Credits.

The practice and application of voice production with reference to skeletal alignment, breathing, resonance, and articulation. Emphasis on the process of voice production and its application to performance through work on scenes and monologues. Prerequisite: TRDA 2215. Laboratory fee.

TRDA 2240. Play Analysis. 3 Credits.

Traditional and nontraditional (Aristotelian and non-Aristotelian) approaches to the analysis of dramatic literature; literary and theatrical techniques used by playwrights. Same as ENGL 2240.

TRDA 2250. Dramatic Writing. 3 Credits.

A workshop in playwriting and screenwriting, with emphasis on dramatic structure. Same as ENGL 2250. Recommended preparation: Engl 1210 and two semesters of literature courses.

TRDA 2339. Theatre Practicum. 1 Credit.

Participation in department mainstage productions in a production or management capacity under the supervision of a member of the faculty. Prerequisite: TRDA 1330. After two practicums have been completed, participation may also include performance positions, for which TRDA 1214 is prerequisite. May be repeated for a total of 6 credits. Laboratory fee.

TRDA 3131W. Theatre of Social Change. 3 Credits.**TRDA 3156. Dance & Arts Management. 3 Credits.**

Examination of dance in Washington area communities. Students are required to site visit and engage with individuals and organizations that focus on dance as it pertains to performance, therapy, management, and education. Participation in activities with a dance artist/practitioner or with a producing/service organization is required. Laboratory fee.

TRDA 3174. Advanced Modern/Postmodern Dance I. 2-3 Credits.

May be repeated for credit. Prerequisite: TRDA 2173, or permission of instructor. Laboratory fee.

TRDA 3175. Advanced Modern/Postmodern Dance II. 2-3 Credits.

Continuation of TRDA 3174. May be repeated for credit. Prerequisite: TRDA 3174, or permission of instructor. Laboratory fee.

TRDA 3182. Dance Composition I. 3 Credits.

Problems in structural and conceptual aspects of constructing dances and shaping and forming movement materials. Prerequisite: TRDA 2180; recommended: TRDA 2185. Laboratory fee.

TRDA 3183. Dance Composition II. 3 Credits.

Continuation of TRDA 3182. Emphasis on intention and content in making dances. Prerequisite: TRDA 2180; recommended: TRDA 2185. Laboratory fee.

TRDA 3186. Dance Anatomy & Kinesiology. 3 Credits.

An experiential and theoretical approach to dynamic anatomy and kinesiology as they pertain to the dancer. The student is encouraged to reach full movement potential in relation to contemporary dance techniques, performance, and injury prevention. Laboratory fee.

TRDA 3223. Physical Performance Skills. 3 Credits.

Introduction to a variety of techniques needed by actors and performers, including mime, clowning, slapstick, mask work, and basic stage combat skills. Prerequisite: TRDA 2215. Laboratory fee.

TRDA 3229. Audition Techniques. 3 Credits.

All aspects of the audition process: selection and rehearsal of audition monologues, handling of cold reading, etc. Prerequisite: TRDA 2215. Laboratory fee.

TRDA 3231W. Theatre of Social Change. 3 Credits.**TRDA 3240. Introduction to Dramaturgy. 3 Credits.**

Fundamentals of classical and contemporary dramaturgical practice, including analyzing plays, doing research, supporting directors and actors in rehearsal, writing program notes, and leading post-show discussions. Same as ENGL 3240.

TRDA 3245. History of the Theatre I. 3 Credits.

A dramaturg's approach to case studies of theatre in historical context. Ancient Greece through the 17th century.

TRDA 3245W. History of the Theatre I. 3 Credits.

A dramaturg's approach to case studies of theatre in historical context. Ancient Greece through the 17th century.

TRDA 3246. History of the Theatre II. 3 Credits.

Continuation of TRDA 3245. A dramaturg's approach to case studies of theatre in historical context. The 18th century through the present.

TRDA 3246W. History of the Theatre II. 3 Credits.

Continuation of TRDA 3245. A dramaturg's approach to case studies of theatre in historical context. The 18th century through the present.

TRDA 3248. Theatre Criticism. 3 Credits.

Discussion and witnessing of plays in performance, resulting in written criticism modeled on contemporary journalistic practices. Prerequisite: TRDA 3245 or TRDA 3246 or TRDA 2240/ ENGL 2240. Laboratory fee.

TRDA 3248W. Theatre Criticism. 3 Credits.

Discussion and witnessing of plays in performance, resulting in written criticism modeled on contemporary journalistic practices. Prerequisite: TRDA 3245 or TRDA 3246 or TRDA 2240/ ENGL 2240. Laboratory fee.

TRDA 3250. Intermediate Dramatic Writing. 3 Credits.

A workshop developing scripts for both theatre and film. Same as ENGL 3250. Prerequisite: ENGL 2250 or equivalent. May be repeated for credit with departmental approval.

TRDA 3331. Introduction to Lighting. 3 Credits.

Lecture (2 hours), laboratory (1 hour). Theories and practicum in lighting for theatre and dance. Laboratory fee. Prerequisite: TRDA 1330.

TRDA 3332. Makeup Design. 3 Credits.

Theory and practicum in the art of makeup design, including latex and crepe hair. Laboratory fee. Prerequisite: TRDA 1330.

TRDA 3333. Stage Management. 3 Credits.

The role and function of the stage manager in theatrical production. The basic skills needed to begin work in stage management. Emphasis on organization, documentation, and dissemination of information. Prerequisite: TRDA 1330. Laboratory fee.

TRDA 3335. Introduction to Scene Design. 3 Credits.

Fundamental study of scenic design, including historic overview, basic drawing, and rendering techniques, through the use of various mediums and script analysis. Laboratory fee. Prerequisite: TRDA 1330.

TRDA 3336. Introduction to Costuming. 3 Credits.

History of fashion in Western civilization from ancient Greece to the 20th century. Fundamental study of costume construction through specific projects. Costume construction. Prerequisite: TRDA 1330. Laboratory fee.

TRDA 3710W. Contemporary Drama. 3 Credits.**TRDA 4184. Choreography and Performance. 1-3 Credits.**

Create a dance or a performance work of individual design, including casting, rehearsal procedures, staging aspects, and public presentation. Prerequisite: TRDA 3182; recommended: TRDA 1330, TRDA 2185. May be repeated for credit. Laboratory fee.

TRDA 4191. Paris Modernism & the Arts. 3 Credits.**TRDA 4275. Directing for the Theatre. 3 Credits.**

Fundamentals of script analysis, staging, casting, and rehearsal techniques. Prerequisite: TRDA 1214, TRDA 1330; TRDA 2240/ ENGL 2240 or TRDA 3240/ ENGL 3240. Laboratory fee.

TRDA 4338. Scene Painting. 3 Credits.

The techniques and materials used in creating character in the various elements of set design. Methods include set preparation, coating, mixing, palette preparation, spraying, transfer, texturing, finishing, and wallpapering. Prerequisite: TRDA 1330. Laboratory fee.

TRDA 4595. Selected Topics. 1-3 Credits.

Topics of current interest in theatre or dance. Topics (and course fee, when charged) announced in the Schedule of Classes. May be repeated for credit provided the topic differs.

TRDA 4595W. Selected Topics. 1-3 Credits.

Topics of current interest in theatre or dance. Topics (and course fee, when charged) announced in the Schedule of Classes. May be repeated for credit provided the topic differs. Laboratory fee.

TRDA 4596. Independent Study. 1-6 Credits.

Independent research and special projects. Open to qualified juniors or seniors majoring or minoring in theatre or dance. Before students are permitted to register for TRDA 4596, they must submit a written proposal of the plan of study and obtain approval of the faculty member who is directing the study and the department chair.

TRDA 4598. Internship. 3,6 Credits.

Open to qualified seniors majoring or minoring in theatre or dance. Work placements with not-for-profit and commercial theatre and dance organizations for an approved number of hours per week. Admission requires departmental approval. May be taken for a maximum of 6 credits.

TRDA 4599. Honors Thesis. 3 Credits.

Directed research and/or creative project. Open to qualified seniors by permission. Arrangements must be made with a sponsoring faculty member in the department and applications must be completed early in the second semester of the junior year.

TRDA 6200. Portfolio I: Performance. 1-5 Credits.

Prerequisite: M.F.A. candidacy and permission of instructor.

TRDA 6201. Personal Aesthetics I: The Body. 5 Credits.

Prerequisite: M.F.A. candidacy and permission of instructor.

TRDA 6202. Contemporary Dance History and Criticism. 4 Credits.

Prerequisite: M.F.A. candidacy and permission of instructor.

TRDA 6203. Portfolio II: Choreography/Creativity. 1-5 Credits.

Prerequisite: M.F.A. candidacy and permission of instructor.

TRDA 6204. Personal Aesthetics II: The Environment. 2 Credits.

Prerequisite: M.F.A. candidacy and permission of instructor.

TRDA 6205. Choreography. 4 Credits.

Prerequisite: M.F.A. candidacy and permission of instructor.

TRDA 6206. Dance Pedagogy. 4 Credits.

Prerequisite: M.F.A. candidacy and permission of instructor.

TRDA 6207. Portfolio III: Artistic Initiative. 1-5 Credits.

Prerequisite: M.F.A. candidacy and permission of instructor.

TRDA 6208. New Media & Dance. 5 Credits.

Prerequisite: M.F.A. candidacy and permission of instructor.

TRDA 6209. Cultural Communities of Dance. 4 Credits.

Prerequisite: M.F.A. candidacy and permission of instructor.

TRDA 6210. Personal Aesthetics III: Integration. 4 Credits.

Prerequisite: M.F.A. candidacy and permission of instructor.

TRDA 6211. Career Networks in Dance. 4 Credits.

Prerequisite: M.F.A. candidacy and permission of instructor.

TRDA 6212. Portfolio Review I: Performance. 1-5 Credits.

Prerequisite: M.F.A. candidacy and permission of instructor.

TRDA 6213. Portfolio Review II: Choreography/Creativity. 1-5 Credits.

Prerequisite: M.F.A. candidacy and permission of instructor.

TRDA 6214. Portfolio Review III: Artistic Initiatives. 1-5 Credits.

Prerequisite: M.F.A. candidacy and permission of instructor.

TRDA 6296. Research Project I. 4 Credits.

Prerequisite: M.F.A. candidacy and permission of instructor.

TRDA 6299. Research Project II. 5 Credits.

Prerequisite: M.F.A. candidacy and permission of instructor.

TRDA 6331. Intermediate Lighting Design. 3 Credits.

Theory and execution of lighting design for theatre and dance. May be repeated for credit. Prerequisite: M.F.A. candidacy and permission of instructor. Laboratory fee.

TRDA 6335. Intermediate Scene Design. 3 Credits.

Development of advanced skills of scenic design, including script analysis, needs assessment, research techniques, conceptual design development, drawing/ rendering techniques, preparation of construction documentation and fabrication management. Prerequisite: M.F.A. candidacy and permission of instructor. Laboratory fee.

TRDA 6336. Intermediate Costume. 3 Credits.

Basic techniques of costume design through specific projects. Various rendering techniques consistent with the historical period concerned. May be repeated for credit. Prerequisite: M.F.A. candidacy and permission of instructor. Laboratory fee.

TRDA 6338. Scene Painting. 3 Credits.

Development of the skills of painting needed for the reproductive craft of theatrical painting. Prerequisite: M.F.A. candidacy and permission of instructor. Laboratory fee.

TRDA 6340. Period Styles. 3 Credits.

A broad perspective of major European and American cultures through analysis of the interiors, furniture, textiles, fashion, and architecture of major civilizations/ historical periods from Egypt to the present. Prerequisite: M.F.A. candidacy and permission of instructor. Laboratory fee.

TRDA 6342. Pattern Making. 3 Credits.

Pattern drafting and draping methods, based on contemporary and historical clothing. Prerequisite: M.F.A. candidacy and permission of instructor. Laboratory fee.

TRDA 6344. Production Drafting. 3 Credits.

Development of drafting skills for production: groundplans and shop documents. Traditional hand drafting and computer assisted design. Prerequisite: M.F.A. candidacy and permission of instructor. Laboratory fee.

TRDA 6346. Advanced Studies in Design: Collaborative Studies. 3 Credits.

Development of an ability to design and work within a collaborative or teambased environment through visual and verbal communication, script analysis, concept development, and research techniques. Prerequisite: M.F.A. candidacy and permission of instructor. Laboratory fee. May be taken for a total of 15 credits.

TRDA 6348. Techniques in Design Presentation. 3 Credits.

The various techniques used in costume and scenic design presentations, such as rendering with paint, pencil, ink, and electronic media. Prerequisite: M.F.A. candidacy and permission of instructor. Laboratory fee.

TRDA 6595. Selected Topics. 1-3 Credits.

Prerequisite: M.F.A. candidacy and permission of instructor. May be repeated for credit.

TRDA 6596. Independent Research in TRDA. 1-12 Credits.

Prerequisite: M.F.A. candidacy and permission of instructor. May be repeated for credit.

TRDA 6598. Internship. 1-12 Credits.

Internships with theatre companies or arts organizations, including conference and/or seminar. May be taken for a total of 12 credit hours. Prerequisite: M.F.A. candidacy and permission of instructor.

TRDA 6998. Thesis Research. 3 Credits.

Prerequisite: M.F.A. candidacy and permission of instructor.

TRDA 6999. Thesis Research. 3 Credits.

Prerequisite: M.F.A. candidacy and permission of instructor.

BACHELOR OF ARTS WITH A MAJOR IN DANCE

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 62).

Required courses (34 credits):

TRDA 1330	Basics of Production Design
TRDA 1170	Intermediate Modern/Postmodern Dance I
TRDA 1171	Intermediate Modern/Postmodern Dance II
TRDA 2172	Intermediate/Advanced Modern/Postmodern Dance I
TRDA 2173	Intermediate/Advanced Modern/Postmodern Dance II
TRDA 3174	Advanced Modern/Postmodern Dance I
TRDA 3175	Advanced Modern/Postmodern Dance II
TRDA 2180	Movement Improvisation/Perform
TRDA 2185	Trends in Performance
TRDA 2191	Dance History
or TRDA 2191W	Dance History
TRDA 3156	Dance & Arts Management
TRDA 3182	Dance Composition I
TRDA 3183	Dance Composition II
TRDA 4184	Choreography and Performance
Five additional credits from the following:	
TRDA 1000	Dean's Seminar
TRDA 1015	Understanding the Dance
TRDA 2188	African Dance
TRDA 2189	World Dance
TRDA 2192	Repertory/Performance
TRDA 2193	Dance Styles I
TRDA 2194	Dance Styles II

TRDA 2339	Theatre Practicum
TRDA 3186	Dance Anatomy & Kinesiology
TRDA 3331	Introduction to Lighting
TRDA 4204	Personal Aesthetics II: The Environment
TRDA 4595 or TRDA 4595W	Selected Topics
TRDA 4596	Independent Study
TRDA 4598	Internship
TRDA 4599	Honors Thesis

GENERAL EDUCATION

In addition to the University General Education Requirement, undergraduate students in Columbian College must complete a further, College-specific general education curriculum—Perspective, Analysis, Communication, or G-PAC. Together with the University General Education Requirement, G-PAC engages students in active intellectual inquiry across the liberal arts. Students achieve a set of learning outcomes that enhance their analytical skills, develop their communication competencies, and invite them to participate as responsible citizens who are attentive to issues of culture, diversity, and privilege.

Course work for the University General Education Requirement is distributed as follows:

- Writing—one course in university writing and two writing-in-the-disciplines (WID) courses;
- Humanities—one approved humanities course that involves critical thinking skills;
- Mathematics or Statistics—one course in either math or statistics;
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry; and,
- Social Sciences—two courses in the social sciences

Course work for the Columbian College general education curriculum is distributed as follows:

- Arts—one approved arts course that involves the study or creation of artwork based on an understanding or interpretation of artistic traditions or knowledge of art in a contemporary context;
- Global or Cross-Cultural Perspective—one approved course that analyzes the ways in which institutions, practices, and problems transcend national and regional boundaries;
- Humanities—one approved humanities course that involves critical thinking skills (in addition to the one course in this

category required by the University General Education Requirement);

- Local or Civic Engagement—one course that develops the values, ethics, disciplines, and commitment to pursue responsible public action;
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry (in addition to the one course in this category required by the University General Education Requirement; and,
- Oral Communication—one course in oral communication.

Certain courses are approved to fulfill the requirement in more than one of these categories.

Courses taken in fulfillment of the Columbian College general education curriculum may also be counted toward majors or minors. Transfer courses taken prior to, but not after, admission to George Washington University may count toward the University general education requirement and Columbian College general education curriculum, if those transfer courses are equivalent to GW courses that have been approved by the University and the College.

University General Education and G-PAC Courses

- Arts (p. 926)
- Global or Cross-Cultural (p.)
- Humanities (p. 929)
- Local/Civic Engagement (p.)
- Mathematics or Statistics (p. 933)
- Natural or physical laboratory sciences (p. 933)
- Oral Communication (p. 934)
- Social Sciences (p. 934)
- Writing (p. 935)

Arts

AH 1031	Survey of Art and Architecture I
AH 1032	Survey of Art and Architecture II
AH 2071	Introduction to the Arts in America
AH 2154	American Architecture I
AH 2155	American Architecture II
AMST 1100	Politics and Film
AMST 2071	Introduction to the Arts in America
AMST 2520	American Architecture I
AMST 2521	American Architecture II
CAH 1090	Art History I: Art Now, Contemporary Perspectives in the Visual Arts

CHIN 3173	Chinese Drama and Theatre
ENGL 1210	Introduction to Creative Writing
ENGL 2210	
FA 1026	Painting: Visual Thinking
FA 1041	Black & White Photography
FA 1042	Color Photography
FA 1071	New Media: Digital Art
ITAL 4183	History of Italian Film
MUS 1103	Music in the Western World
MUS 1104	Topics in Music
MUS 1105	Introduction to Musical Thought and Practice

SPECIAL HONORS

In addition to the general requirements stated under University Regulations, in order to be considered for graduation with Special Honors in Theatre or Dance, students must have a grade-point average of 3.4 in the major and complete TRDA 4599 Honors Thesis with a grade of A. They must consult a faculty advisor at the beginning of the second semester of the junior year to determine eligibility, area of study, and the director of the research or creative project.

BACHELOR OF ARTS WITH A MAJOR IN THEATRE

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 62).

Required courses (24 credits):

TRDA 1214	Beginning Acting
TRDA 1240	Performance Theory
TRDA 1330	Basics of Production Design
TRDA 2240	Play Analysis
TRDA 2339	Theatre Practicum (3 credit hours)
TRDA 3245	History of the Theatre I
or TRDA 3245W	History of the Theatre I
TRDA 3246	History of the Theatre II
or TRDA 3246W	History of the Theatre II
TRDA 4597	Senior Project
or TRDA 4599	Honors Thesis

Two courses (6 credits) from the following:

TRDA 3331	Introduction to Lighting
TRDA 3333	Stage Management
TRDA 3335	Introduction to Scene Design
TRDA 3336	Introduction to Costuming
TRDA 4338	Scene Painting

Four courses (12 credits) from the following:

TRDA 2180	Movement Improvisation/Perform
TRDA 2185	Trends in Performance
TRDA 2215	Intermediate Acting
TRDA 2216	Scene Study: Voice & Character
TRDA 3222	Advanced Acting
TRDA 3223	Physical Performance Skills
TRDA 3229	Audition Techniques
TRDA 3231W	Theatre of Social Change
TRDA 3240	Introduction to Dramaturgy
TRDA 3248	Theatre Criticism
TRDA 3332	Makeup Design
TRDA 3710W	Contemporary Drama

TRDA 4275	Directing for the Theatre
TRDA 4595	Selected Topics
TRDA 4596	Independent Study
TRDA 4598	Internship

GENERAL EDUCATION

In addition to the University General Education Requirement, undergraduate students in Columbian College must complete a further, College-specific general education curriculum—Perspective, Analysis, Communication, or G-PAC. Together with the University General Education Requirement, G-PAC engages students in active intellectual inquiry across the liberal arts. Students achieve a set of learning outcomes that enhance their analytical skills, develop their communication competencies, and invite them to participate as responsible citizens who are attentive to issues of culture, diversity, and privilege.

Course work for the University General Education Requirement is distributed as follows:

- Writing—one course in university writing and two writing-in-the-disciplines (WID) courses;
- Humanities—one approved humanities course that involves critical thinking skills;
- Mathematics or Statistics—one course in either math or statistics;
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry; and,
- Social Sciences—two courses in the social sciences

Course work for the Columbian College general education curriculum is distributed as follows:

- Arts—one approved arts course that involves the study or creation of artwork based on an understanding or interpretation of artistic traditions or knowledge of art in a contemporary context;
- Global or Cross-Cultural Perspective—one approved course that analyzes the ways in which institutions, practices, and problems transcend national and regional boundaries;
- Humanities—one approved humanities course that involves critical thinking skills (in addition to the one course in this category required by the University General Education Requirement);
- Local or Civic Engagement—one course that develops the values, ethics, disciplines, and commitment to pursue responsible public action;
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry (in addition to the one course in this category required by the University General Education Requirement; and,

- Oral Communication—one course in oral communication.

Certain courses are approved to fulfill the requirement in more than one of these categories.

Courses taken in fulfillment of the Columbian College general education curriculum may also be counted toward majors or minors. Transfer courses taken prior to, but not after, admission to George Washington University may count toward the University general education requirement and Columbian College general education curriculum, if those transfer courses are equivalent to GW courses that have been approved by the University and the College.

University General Education and G-PAC Courses

- Arts (p. 937)
- Global or Cross-Cultural (p.)
- Humanities (p. 940)
- Local/Civic Engagement (p.)
- Mathematics or Statistics (p. 943)
- Natural or physical laboratory sciences (p. 943)
- Oral Communication (p. 944)
- Social Sciences (p. 945)
- Writing (p. 946)

SPECIAL HONORS

In addition to the general requirements stated under University Regulations, in order to be considered for graduation with Special Honors in Theatre, candidates must have a grade-point average of 3.4 in the major and complete TRDA 4599 Honors Thesis with a grade of A. They must consult with a faculty advisor at the beginning of the second semester of the junior year to determine eligibility, area of study, and the director of the research or creative project.

MINOR IN DANCE REQUIREMENTS

One course (3 credits) from the following:

TRDA 1000	Dean's Seminar
TRDA 1015	Understanding the Dance
TRDA 2180	Movement Improvisation/Perform
TRDA 2185	Trends in Performance
TRDA 2191	Dance History
or TRDA 2191W	Dance History
TRDA 3156	Dance & Arts Management

TRDA 3182	Dance Composition I
TRDA 3183	Dance Composition II
TRDA 3186	Dance Anatomy & Kinesiology

Six additional credits from the list above or from the following:

TRDA 1330	Basics of Production Design
TRDA 2188	African Dance
TRDA 2189	World Dance
TRDA 2192	Repertory/Performance
TRDA 2193	Dance Styles I
TRDA 2194	Dance Styles II
TRDA 2195	Global Dance History
TRDA 2339	Theatre Practicum
TRDA 4184	Choreography and Performance
TRDA 4204	Personal Aesthetics II: The Environment
TRDA 4595	Selected Topics
TRDA 4596	Independent Study
TRDA 4598	Internship

Nine additional credits from either list above or from the following:

TRDA 1170	Intermediate Modern/Postmodern Dance I
TRDA 1171	Intermediate Modern/Postmodern Dance II
TRDA 2172	Intermediate/Advanced Modern/Postmodern Dance I
TRDA 2173	Intermediate/Advanced Modern/Postmodern Dance II
TRDA 3174	Advanced Modern/Postmodern Dance I
TRDA 3175	Advanced Modern/Postmodern Dance II

At least 9 credits must be numbered 2000 or above

MINOR IN THEATRE REQUIREMENTS

Required courses (6 credits):

TRDA 3245	History of the Theatre I
or TRDA 3245W	History of the Theatre I
TRDA 3246	History of the Theatre II
or TRDA 3246W	History of the Theatre II

Four additional courses (12 credits), at least one of which is numbered 2000 or above, from the following:

TRDA 1025	Understanding the Theatre
TRDA 1035	Theatre Production
TRDA 1214	Beginning Acting
TRDA 1240	Performance Theory
TRDA 1330	Basics of Production Design
TRDA 2215	Intermediate Acting
TRDA 2216	Scene Study: Voice & Character
TRDA 2240	Play Analysis
TRDA 2250	Dramatic Writing
or ENGL 2250	Dramatic Writing
TRDA 2339	Theatre Practicum
TRDA 3131W	Theatre of Social Change
TRDA 3222	Advanced Acting
TRDA 3223	Physical Performance Skills
TRDA 3225	Stage Dialects
TRDA 3227	Acting for the Media
TRDA 3229	Audition Techniques
TRDA 3231W	Theatre of Social Change
TRDA 3240	Introduction to Dramaturgy
or ENGL 3240	Introduction to Dramaturgy
TRDA 3248	Theatre Criticism
or TRDA 3248W	Theatre Criticism
TRDA 3260	Adaptation for Performance
TRDA 3331	Introduction to Lighting
TRDA 3332	Makeup Design
TRDA 3333	Stage Management
TRDA 3335	Introduction to Scene Design

TRDA 3336	Introduction to Costuming
TRDA 3710W	Contemporary Drama
TRDA 4275	Directing for the Theatre
TRDA 4338	Scene Painting

MASTER OF FINE ARTS IN THE FIELD OF DANCE

REQUIREMENTS

Specific admission requirements are shown on the Graduate Program Finder. (<http://www.gwu.edu/all-graduate-programs>)

Prerequisite: the degree of Bachelor of Arts or Bachelor of Fine Arts, preferably in dance, from a regionally accredited college or university; if the bachelor's degree was earned in another field, appropriate dance experience is a prerequisite.

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 62).

The full-time program of study consists of 60 credits including:

TRDA 6200	Portfolio I: Performance
TRDA 6201	Personal Aesthetics I: The Body
TRDA 6202	Contemporary Dance History and Criticism
TRDA 6203	Portfolio II: Choreography/Creativity
TRDA 6204	Personal Aesthetics II: The Environment
TRDA 6205	Choreography
TRDA 6206	Dance Pedagogy
TRDA 6207	Portfolio III: Artistic Initiative
TRDA 6208	New Media & Dance
TRDA 6209	Cultural Communities of Dance
TRDA 6210	Personal Aesthetics III: Integration
TRDA 6211	Career Networks in Dance
TRDA 6296	Research Project I
TRDA 6299	Research Project II

Up to 15 credits of accelerated placement for high-level work is possible through three portfolio review courses:

TRDA 6212 Portfolio Review I: Performance (for TRDA 6200)

TRDA 6213 Portfolio Review II: Choreography/Creativity (for TRDA 6203)

TRDA 6214 Portfolio Review III: Artistic Initiatives (for TRDA 6207)

A committee consisting of dance faculty and an outside professional administer the portfolio review, using a strict assessment rubric to assist students with tracking their growth and placement level. Students who qualify for the full 5 credits for any/all of these courses through the portfolio review are not required to take the corresponding portfolio course (TRDA 6200 Portfolio I: Performance, TRDA 6203 Portfolio II: Choreography/Creativity, and/or TRDA 6207 Portfolio III: Artistic Initiative); students who receive fewer than 5 credits must take the remaining credits. More information is available at the department's website (<http://theatredance.gwu.edu>).

MASTER OF FINE ARTS IN THE FIELD OF PRODUCTION DESIGN

REQUIREMENTS

Specific admission requirements are shown on the Graduate Program Finder (<http://www.gwu.edu/all-graduate-programs>)

Prerequisite: the degree of Bachelor of Arts from this University, or an equivalent degree.

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 62).

The program of study consists of 54 credits of graduate and upper-division undergraduate course work in theatre and dance and in art, planned in consultation with the advisor, including a creative thesis (TRDA 6998 Thesis Research and TRDA 6999 Dance Thesis Research). The program may emphasize scenery, lighting, or costume. For listings of upper-division undergraduate courses, see the Undergraduate Programs Bulletin.

UNIVERSITY WRITING

The University Writing Program (<http://www.gwu.edu/~uwp>) provides comprehensive writing instruction to all bachelor's degree-seeking students in all schools and colleges of the University. In their freshman year, undergraduate students take UW 1020 University Writing, which is offered in a variety of topic-specific sections. Students subsequently take two Writing in the Disciplines (WID) courses—regular, content-area courses that include a writing component and are offered by departments and programs throughout the University. Ideally, students complete WID courses during their sophomore and junior years. Courses indicated with “W” in the Schedule of

Classes fulfill the WID University Writing Program requirements. WID courses must total a minimum of 6 credits.

FACULTY

Associate Professors C. Gamber, D. Malone-France (*Executive Director*), M. Mullen, R. Riedner (*Chair*), P. Ryder, C. Smith, A. Wilkerson

Assistant Professors J. Donovan, J. Dueck, W. Fletcher (Teaching), S. Friedman, C. Hayes, R. Kristensen, G. Mantler, J. McCaughey, S. Salchak, H. Schell, M. Svoboda, P. Troutman, Z. Wolfe, C. Zink

Teaching Instructors K.A. Larsen, R.A. Marcus, D.P. Myers, P.S. Presser, M. Riley

COURSES

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000–4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

UW 1010. College Academic English. 3 Credits.

UW 1015. Writing Sem. Summer Scholars. 3 Credits.

UW 1020. University Writing. 4 Credits.

University-level, independent research and writing. Learning to frame research questions, identify and analyze supportive and contradictory evidence, employ a variety of research methods, and use the ideas of other writers appropriately. Developing strategies to draft and revise clear, engaging prose for a variety of purposes and audiences. Thematically oriented seminars; texts and course topics vary among instructors. For topics see www.gwu.edu/~uwp/fyw/uw20-courses.html.

UW 2020. Advanced Topics in Writing. 3 Credits.

For a variety of purposes and audiences, students frame scholarly research questions, identify and analyze supportive and contradictory evidence, employ a variety of research methods, and use the ideas of other writers appropriately. Focus on the norms of writing in particular fields, including rhetorical approaches and stylistic conventions.

UW 2020W. Advanced Topics in Writing. 3 Credits.

For a variety of purposes and audiences, students frame scholarly research questions, identify and analyze supportive and contradictory evidence, employ a variety of research methods, and use the ideas of other writers appropriately. Focus on the norms of writing in particular fields, including rhetorical approaches and stylistic conventions.

UW 2031. Equality & the Law. 3 Credits.

Introduction to how lawyers and legal scholars research and write about specific disputes that arise in the context of complex social issues. The institutional assumptions about the content and style of legal writings. Briefs, legal memoranda, law review articles, resolutions, and many other specialized legal writing forms.

UW 2031W. Equality & the Law. 3 Credits.

UW 2111. Preparation for Peer Tutors in Writing. 3 Credits.

For undergraduates accepted as tutors in the Writing Center: study and practice of techniques for prewriting, writing, and revision; readings on collaborative learning, the composing process, composition theory, cognitive psychology, critical thinking, and the teaching of writing; observation and exercises in writing, peer review, and tutoring. Limited to 15 students.

UW 2111W. Preparation for Peer Tutors in Writing. 3 Credits.

For undergraduates accepted as tutors in the Writing Center: study and practice of techniques for prewriting, writing, and revision; readings on collaborative learning, the composing process, composition theory, cognitive psychology, critical thinking, and the teaching of writing; observation and exercises in writing, peer review, and tutoring. Limited to 15 students.

UW 6213. Theory/Prac. Teaching Writing. 3 Credits.

WOMEN'S STUDIES

Part of the Columbian College of Arts and Sciences' arts and humanities programs, Women's Studies examines women's lives, literature, histories, and cultures through the lens of feminist theory and practice. The program strengthens a student's ability to gain knowledge of contemporary feminist theories and research methods. Classroom study is supplemented by the diverse resources of the Nation's capital as students experience and participate in the making of women's history in Washington, D.C.

UNDERGRADUATE

Bachelor's programs

- Bachelor of Arts with a major in women's studies (p. 952)
- Combined program (p. 964)

Minors

- Minor in women's studies (p. 966)
- Minor in LGBT and sexuality studies (p. 965)

GRADUATE

Master's programs

- Master of Arts in the field of women's studies (p. 965)
- Master of Arts in the field of public policy with a concentration in women's studies (p. 964)

CERTIFICATE

- Graduate certificate in women's studies (p. 964)

FACULTY

Associate Professors E. Chapman, C. Deitch, K. Mikyong, D. Moshenberg (*Director*), K. Pemberton, R. Riedner

Assistant Professor J. Nash

Adjunct Professors B. Morris, T. Ramlow

Professorial Lecturer M. Frost

Committee on Women's Studies N. Cahn, E. Chacko, L. Chang, K. Daiya, C. Deitch, C. Gamber, B. Gault, C.E. Harrison, H. Hartmann, L. Jacobson, D. Moshenberg, J. Nash, B. Obler, K. Pemberton, R. Riedner, G. Weiss, S. Wolchik, A. Zucker

COURSES

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000-4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

Note: Excluding students enrolled in the Women's Studies Program, completion of WSTU 2120 Intro to Women's Studies and WSTU 2125 Varieties of Feminist Theory or equivalent, or permission of instructor, is prerequisite to all graduate-level women's studies courses.

WSTU 1000. Dean's Seminar. 3 Credits.

The Dean's Seminars provide Columbian College first-year students focused scholarship on specific intellectual challenges. Topics vary by semester. Consult the Schedule of Classes for more details. Restricted to First-year students in CCAS.

WSTU 1020. Approaches to Women's History. 3 Credits.

Exploration of critical periods of intellectual and cultural change in Western societies as influenced by and affecting women. Examination of images of women and of changing ideal types of femininity and masculinity. Aspects of law, religion, art, culture, work, and politics in relation to these topics. Same as HIST 1020.

WSTU 2120. Intro to Women's Studies. 3 Credits.

A multidisciplinary examination of historical conditions, cultural norms, and social institutions that define women's status in Western culture. Experiences of girls and women in various racial-ethnic, class, and age groups. Alternative visions for women's (and, by implication, men's) roles and status.

WSTU 2120W. Intro to Women's Studies. 3 Credits.

A multidisciplinary examination of historical conditions, cultural norms, and social institutions that define women's status in Western culture. Experiences of girls and women in various racial-ethnic, class, and age groups. Alternative visions for women's (and, by implication, men's) roles and status. Sophomore standing required.

WSTU 2121. The Anthropology of Gender: Cross-Cultural Perspectives. 3 Credits.

Anthropological representations of gender relations in "other" cultures have provided important case material for feminist theorizing of sex differences and gender roles and statuses. How a cross-cultural approach can inform our understanding of gender. Same as ANTH 2501.

WSTU 2125. Varieties of Feminist Theory. 3 Credits.

Classical and contemporary texts on feminist explanations of women's status. Relationships within the sex/gender system and arrangements based on class and race. Evaluation, through the lens of feminist theory, of several academic disciplines in the sciences, social sciences, and humanities. Prerequisite: WSTU 1020 or WSTU 2120 or permission of instructor.

WSTU 2135. A Study of Women and Media. 3 Credits.

The role media plays in women's lives. The limits and effects of a "dominant" media; representations of women in print media and television, especially advertising, and in books and film. How women have attempted to articulate a culture that serves their personal, political, and social interests.

WSTU 2380. Sexuality in US Cultural Hist. 3 Credits.

Examination of the changing social organization and meaning of sexual practices and desires in American culture, with particular attention to the relationship between sexuality and gendered racial and class identities and politics. Same as AMST 2380/ HIST 2380.

WSTU 3136. Chinese Women in Myth, Literature, and Film. 3 Credits.

Women's position in Chinese cultural and political life from prehistoric myth to the present time. Confucian writing, traditional theatre, and films and novels set in China. A general survey of Chinese history establishes the context for discussions of cultural and political phenomena, such as foot binding and the one-child policy. Course conducted in English. Same as CHIN 3136.

WSTU 3136W. Chinese Women in Myth, Literature, and Film. 3 Credits.

Women's position in Chinese cultural and political life from prehistoric myth to the present time. Confucian writing, traditional theatre, and films and novels set in China. A general survey of Chinese history establishes the context for discussions of cultural and political phenomena, such as foot binding and the one-child policy. Course conducted in English. (Same as CHIN 3136W).

WSTU 3170. Selected Topics. 0-4 Credits.

Examination and analysis of central issues in women's studies, such as women and difference, women in media, women and violence, athletics and gender. Topic changes each semester; may be repeated for credit.

WSTU 3170W. Selected Topics. 0-4 Credits.

Examination and analysis of central issues in women's studies, such as women and difference, women in media, women and violence, athletics and gender. Topic changes each semester; may be repeated for credit.

WSTU 3195. Undergraduate Research. 1-3 Credits.

A written proposal approved by the member of the faculty who will supervise the research is required prior to registration.

WSTU 3210. Athletics and Gender. 3 Credits.**WSTU 3235. Women and Law. 3 Credits.**

Contemporary legal issues that affect women in the United States. Using legal texts and related articles, the course considers a range of theories and documents that are relevant to issues such as violence against women, marriage and divorce, employment, immigration, and reproductive rights.

WSTU 3281. Women in Judaism. 3 Credits.

Jewish women's spirituality as reflected in personal writings, ritual, liturgy, and midrash. Jewish women's history and legal status. Same as REL 3281.

WSTU 3310. Women and War. 3 Credits.**WSTU 3352. Women in the United States I. 3 Credits.**

Survey of women's experience in U.S. history, the way gender has organized relations of power, and the impact of race, region, class, and ethnicity on women and on gender roles. (Same as AMST 3352, HIST 3352).

WSTU 3352W. Women in the United States I. 3 Credits.

Survey of women's experience in U.S. history, the way gender has organized relations of power, and the impact of race, region, class, and ethnicity on women and on gender roles. Same as HIST 3352/ AMST 3352.

WSTU 3353. Women in the United States II. 3 Credits.

Continuation of WSTU 3352. Survey of women's experience in U.S. history, the way gender has organized relations of power, and the impact of race, region, class, and ethnicity on women and on gender roles. (Same as AMST 3353, HIST 3353).

WSTU 3362. African American Women's History. 3 Credits.

Addresses the history of African American women's labor, cultural expression, institution-building, activism and strategies to combat oppression from the antebellum period through the late 20th century. Investigates the intersection of race, gender, and class as it has shaped U.S. society, racism, the black freedom movement and African American women's experiences. (Same as HIST 3362, AMST 3362).

WSTU 3362W. African American Women's History. 3 Credits.

Addresses the history of African American women's labor, cultural expression, institution-building, activism and strategies to combat oppression from the antebellum period through the late 20th century. Investigates the intersection of race, gender, and class as it has shaped U.S. society, racism, the black freedom movement and African American women's experiences. (Same as HIST 3362W, AMST 3362W).

WSTU 3410. Lesbian History and Culture. 3 Credits.

Examination of lesbian identity, community, and legal rights from a scholarly feminist perspective.

WSTU 3435. Queer Politics. 3 Credits.

The history of "Lesbian, Gay, Bisexual, Transgender, and Queer" (LGBTQ) politics in the United States. Analysis of influences and intersections of race and ethnicity, class, gender identity and expression, sexuality, sex, and age. Contemporary policy debates relevant to Queer politics.

WSTU 3470. Sexuality and Law. 3 Credits.

Exploration of the ways in which the law has affected individuals' ability to express their sexuality, with a primary focus on sexual orientation and issues such as marriage, adoption, voting rights, sexual harassment, and military service.

WSTU 3481. Women in Islam. 3 Credits.

The ways in which Islam has articulated gender identity and male-female relationships, and conversely, how women have constructed, interpreted, and articulated Islam and their places within it. Same as REL 3481.

WSTU 3530. Women in Africa. 3 Credits.

African women from prehistory to the present, focusing on culture, the role of gender, and outside influences and their impact on women's history. Same as HIST 3530.

WSTU 3820. Global Domestic Labor. 3 Credits.

Consideration of women's paid and unpaid domestic labor, including care work, in the context of global and globalizing political and cultural economies.

WSTU 3845. Global Women's Prison. 3 Credits.

This course examines women's confinement and incarceration in the context of global and globalizing political and cultural economies.

WSTU 3881. Women, Gender, and Religion in China. 3 Credits.

A historical introduction to the concepts of body, gender, and womanhood in Confucian, Daoist, Buddhist, and popular Chinese religious traditions. Women's roles in religious ritual and practices; the influence of Christianity and modernity. Same as REL 3881.

WSTU 3981. Women in Western Religion. 3 Credits.**WSTU 4183. Practicum in Women's Studies. 0-3 Credits.**

Study of the changing status of women through supervised placement in public and private agencies engaged in policymaking, education, political action, and research. Usually for seniors. Placement arrangements must be made the semester prior to registration; departmental permission is required. (Same as WSTU 6283).

WSTU 4199. Senior Seminar. 3 Credits.

For students completing a major or minor in women's studies. Writings of contemporary scholars and writers whose work provides critical frameworks for feminist scholarship and research. Individual or collaborative research projects are presented and submitted as written papers.

WSTU 6220. Fundamentals of Feminist Theory. 3 Credits.

A survey of historical theories significant to feminist thought, such as liberalism, socialism, evolution, psychoanalysis, and gendered spheres of social action. How these theories were revived and revised by the Second Wave of feminism since the 1960s. Brief examination of postmodernist and Third Wave feminist theorizing.

WSTU 6221. Research Issues in Women's Studies. 3 Credits.

Analysis of the contribution of feminist or gender-relations perspectives from humanities and social science disciplines to the issues and methods of social research and social policy and practice. Topics include a review of feminist frameworks, a critique and re-evaluation of traditional academic disciplines, and analysis of current research on and for women.

WSTU 6225. Contemporary Feminist Theory. 3 Credits.

Developments in feminist theory in the past ten years, with a primary focus on American feminism and its relationship to queer theory and sexuality studies.

WSTU 6230. Global Feminisms. 3 Credits.

The individuals, groups, and policies that shape global agenda for women; local and international fora in which global feminisms are forged.

WSTU 6238. Feminist Ethics and Policy Implications. 3 Credits.

Feminist critiques of traditional ethical reasoning; alternative feminist ethical frameworks examined and applied to contemporary social problems (e.g., respecting cultural differences, dependency, disability). Same as PHIL 6238. Prerequisite: Phil 2125 or 2131 or permission of instructor.

WSTU 6240. Women and Public Policy. 3 Credits.

Analysis of gender-related U.S. policy issues, such as domestic violence, military service, abortion rights, equal employment opportunity, child and dependent care, welfare, social security, and international development assistance.

WSTU 6241. Women and the Law. 3 Credits.

Legal status of women in the United States on both the federal and state levels. Emphasis on constitutional equality, employment law, family law, reproduction and sexuality, and the criminal justice system.

WSTU 6251. Women and Writing. 3 Credits.

Selected topics in the traditions, theory, and texts of women's literary production and culture. Same as ENGL 6540.

WSTU 6257. Gender and Sexuality. 3 Credits.

Study of new theoretical and methodological approaches developed in the anthropology of gender. Topics include postcolonialism, sexuality, and literary representations of gender. Same as ANTH 6501.

WSTU 6265. Women, Welfare & Poverty. 3 Credits.

Examination of how the causes and consequences of poverty differ for women and men; how race, class, and gender shape policy responses to poverty. The history of family assistance policy in the United States and the impact of various welfare reform efforts. Same as SOC 6265.

WSTU 6266. Gender & Criminal Justice. 3 Credits.

How understandings, practices, and theories of gender shape the workings of criminal justice systems, including issues of criminality and responses to crime, victimization and violence, and definitions of illegal behaviors. Same as SOC 6266.

WSTU 6268. Race, Gender and Class. 3 Credits.

How social structures are constructed through race, gender, and class and how they shape experience. The intersections of race, gender, and class in education, science, politics, labor markets, and social welfare policies. Same as SOC 6268.

WSTU 6270. Seminar: Selected Topics. 3 Credits.

Investigation of a current policy issue of particular concern to women, or consideration of women's status in a particular social system. Topics have included women and health; sexualities; women and Judaism; black women; gender, race, and class. May be repeated for credit.

WSTU 6271. Gender and Society. 3 Credits.

Examination of current empirical and theoretical work on gender as an organizing principle of social relations. Consideration of the relationship of gender to sex and sexuality. Same as SOC 6271.

WSTU 6280. Independent Study. 3 Credits.

May be repeated for credit. Arrangements must be made with sponsoring faculty member prior to registration.

WSTU 6283. Practicum in Women's Studies. 3-6 Credits.

Study of the changing status of women through supervised assignment to public and private agencies engaged in policymaking, education, political action, and research. Placement arrangements must be made the semester prior to registration; departmental permission is required. Graduate students may take the course for either 3 or 6 credits, with substantial additional research and writing of a case study required for 6 credits. (Same as WSTU 4183).

WSTU 6295. Independent Research in Women's Studies. 1-3 Credits.

Individual library or field research. Arrangements must be made with the sponsoring faculty member prior to registration; a written proposal is required.

WSTU 6430. Gender, Sexuality, and American Culture. 3 Credits.

The changing social organization, cultural representation, and meaning of gender and sexuality in the United States, with emphasis on their relationship to race, class, region, nationality, empire, and globalization. Pre-Columbian settlement to 1876. Same as AMST 6430/ HIST 6430.

WSTU 6431. Gender, Sexuality, and American Culture. 3 Credits.

Continuation of WSTU 6430. The changing social organization, cultural representation, and meaning of gender and sexuality in the United States, with emphasis on their relationship to race, class, region, nationality, empire, and globalization. 1877 to present. Same as AMST 6431/ HIST 6431.

WSTU 6435. Readings on Women in American History. 3 Credits.

Important works in American women's history; evolution of the field in historiographical context. Same as AMST6435/HIST 6435.

WSTU 6998. Thesis Research. 3 Credits.**WSTU 6999. Thesis Research. 3 Credits.****WSTU 8275. Women and Health. 3 Credits.**

Theoretical and empirical analyses of women's health: how women's health is constructed by medical, psychological, and critical theorists; how sexism, racism, and classism contribute to women's health problems; and identification of conditions that lead to optimal health and well-being. Same as PSYC 8275.

BACHELOR OF ARTS WITH A MAJOR IN WOMEN'S STUDIES

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 62).

Required courses (9 credits):

WSTU 2120	Intro to Women's Studies
or WSTU 2120W	Intro to Women's Studies
WSTU 2125	Varieties of Feminist Theory
or AMST 2125	Varieties of Feminist Theory
WSTU 4199	Senior Seminar

One course from each of the five groups (15 credits):

Race, ethnicity, and class:

WSTU 3362	African American Women's History
or WSTU 3362W	African American Women's History
or AMST 3362	African American Women's History
or AMST 3362W	Black Women in U.S. History
or HIST 3362	African American Women's History
or HIST 3362W	African American Women's History

AMST 2410	20th-Century U.S. Immigration
or HIST 2410	20th-Century U.S. Immigration

ENGL 1610	Introduction to Black American Literature I
or ENGL 1610W	Introduction to Black American Literature I

ENGL 1611	Introduction to Black American Literature II
or ENGL 1611W	Introduction to Black American Literature II

ENGL 3570	19th-Century Black Literature
-----------	-------------------------------

ENGL 3960	Asian American Literature
or ENGL 3960W	Asian American Literature

Three additional courses (9 credits) from any of the above lists or any women's studies (WSTU) course

No one course may count for more than one category.

GENERAL EDUCATION

In addition to the University General Education Requirement, undergraduate students in Columbian College must complete a further, College-specific general education curriculum—Perspective, Analysis, Communication, or G-PAC. Together with the University General Education Requirement, G-PAC engages students in active intellectual inquiry across the liberal arts. Students achieve a set of learning outcomes that enhance their analytical skills, develop their communication competencies, and invite them to participate as responsible citizens who are attentive to issues of culture, diversity, and privilege.

Course work for the University General Education Requirement is distributed as follows:

- Writing—one course in university writing and two writing-in-the-disciplines (WID) courses;
- Humanities—one approved humanities course that involves critical thinking skills;
- Mathematics or Statistics—one course in either math or statistics;
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry; and,
- Social Sciences—two courses in the social sciences

Course work for the Columbian College general education curriculum is distributed as follows:

- Arts—one approved arts course that involves the study or creation of artwork based on an understanding or interpretation of artistic traditions or knowledge of art in a contemporary context;
- Global or Cross-Cultural Perspective—one approved course that analyzes the ways in which institutions, practices, and problems transcend national and regional boundaries;
- Humanities—one approved humanities course that involves critical thinking skills (in addition to the one course in this category required by the University General Education Requirement);
- Local or Civic Engagement—one course that develops the values, ethics, disciplines, and commitment to pursue responsible public action;
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry (in addition to the one course in this category required by the University General Education Requirement; and,
- Oral Communication—one course in oral communication.

Certain courses are approved to fulfill the requirement in more than one of these categories.

Courses taken in fulfillment of the Columbian College general education curriculum may also be counted toward majors or minors. Transfer courses taken prior to, but not after, admission to George Washington University may count toward the University general education requirement and Columbian College general education curriculum, if those transfer courses are equivalent to GW courses that have been approved by the University and the College.

University General Education and G-PAC Courses

- Arts (p. 955)
- Global or Cross-Cultural (p.)
- Humanities (p. 958)
- Local/Civic Engagement (p.)
- Mathematics or Statistics (p. 961)
- Natural or physical laboratory sciences (p. 961)
- Oral Communication (p. 962)
- Social Sciences (p. 963)
- Writing (p. 964)

SPECIAL HONORS

In addition to the general requirements stated under University Regulations, in order to be considered for graduation with Special Honors, students must attain a grade-point average of at least 3.7 in courses counted for the Women's Studies major and 3.3 overall; receive a grade of A in WSTU 4199 Senior Seminar; and submit an honors paper to the Women's Studies Program. Upon faculty review of the honors paper, students may be recommended for graduation with Special Honors.

COMBINED PROGRAM

REQUIREMENTS

Combined Bachelor of Arts with a Major in Women's Studies and Master of Arts in the field of women's studies or in the field of public policy with a concentration in women's studies

Students interested in either of these combined degree programs should consult the Women's Studies Program office (<http://womensstudies.columbian.gwu.edu>) for requirements by the beginning of their junior year.

GRADUATE CERTIFICATE IN WOMEN'S STUDIES

REQUIREMENTS

Specific admission requirements can be found on the Graduate Program Finder (<http://www.gwu.edu/all-graduate-programs>).

The graduate certificate in women's studies requires a minimum of 12 credits.

Required courses:

WSTU 6220	Fundamentals of Feminist Theory
-----------	---------------------------------

WSTU 6221	Research Issues in Women's Studies
-----------	------------------------------------

The remaining two courses must be chosen, in consultation with the Women's Studies graduate certificate advisor, from graduate-level Women's Studies and relevant departmental courses that will support the student's area of specialization in graduate study (or their professional development interests for non-degree students). The courses selected should form a coherent program of study related to the student's academic goals, and must be approved by a Women's Studies advisor.

MASTER OF ARTS IN THE FIELD OF PUBLIC POLICY WITH A CONCENTRATION IN WOMEN'S STUDIES

Specific admission requirements are shown on the Graduate Program Finder (<http://www.gwu.edu/all-graduate-programs>)

Prerequisite: a bachelor's degree from an accredited college or university.

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 62).

The Master of Arts program in the field of public policy is affiliated with the School of Public Policy and Public Administration.

Required: 36 credits of course work with or without a thesis

Policy-oriented students take:

WSTU 6220 Fundamentals of Feminist Theory (or alternative approved by advisor)

WSTU 6240 Women and Public Policy

WSTU 6221 Research Issues in Women's Studies

Public policy core:

PPPA 6002 Research Methods and Applied Statistics

PPPA 6006 Policy Analysis

ECON 6217 Survey of Economics I

PPPA 6010 Politics & The Policy Process (Advisor will approve alternatives when PPPA 6010 is not offered)

9 credits of electives

One of the following options:

Option A:

WSTU 6998 Thesis Research

WSTU 6999 Thesis Research

Option B:

WSTU 6283 Practicum in Women's Studies (for 6 credits)

Option C

WSTU 6295 Independent Research in Women's Studies (plus 3 credits of WSTU 6283)

All candidates are required to pass a Master's Comprehensive Examination.

MASTER OF ARTS IN THE FIELD OF WOMEN'S STUDIES

Specific admission requirements are shown on the Graduate Program Finder (<http://www.gwu.edu/all-graduate-programs>)

Prerequisite: a bachelor's degree from an accredited college or university.

The following requirements must be fulfilled:

Required:

WSTU 6220 Fundamentals of Feminist Theory (or alternative approved by advisor)

WSTU 6221 Research Issues in Women's Studies

WSTU 6225 Contemporary Feminist Theory (or alternative approved by advisor)

12 credits in a discipline or topical concentration approved by advisor

9 additional elective credits

One of the following options:

Option A

WSTU 6998 Thesis Research

WSTU 6999 Thesis Research

Option B

WSTU 6283 Practicum in Women's Studies (for 6 credits)

Option C

WSTU 6295 Independent Research in Women's Studies (plus 3 credits of WSTU 6283)

All candidates are required to pass a Master's Comprehensive Examination.

MINOR IN LGBT AND SEXUALITY STUDIES

REQUIREMENTS

Two courses (6 credits) from the following:

WSTU 2120 Intro to Women's Studies

or WSTU 2120W Intro to Women's Studies

WSTU 2380 Sexuality in US Cultural Hist

or AMST 2380 Sexuality in US History

or HIST 2380 Sexuality in US Cultural Hist

ENGL 3830 Topics in Literary Theory and Cultural Studies

or ENGL 3830W Topics in Literary Theory and Cultural Studies

ENGL 3980 Queer Studies

or ENGL 3980W Queer Studies

Four courses (12 credits) from the following:

ENGL 3840 Gender and Literature

or ENGL 3840W Gender and Literature

PHIL 2125 Philosophy of Race and Gender

or PHIL 2125W Philosophy of Race and Gender

SOC 2175 Sociology of Sex and Gender (*)

WSTU 2121 The Anthropology of Gender: Cross-Cultural Perspectives

or ANTH 2501 The Anthropology of Gender: Cross-Cultural Perspectives

PSYC 3150 Psychology of Sex Differences (*)

WSTU 3210 Athletics and Gender

WSTU 3410 Lesbian History and Culture

WSTU 3435 Queer Politics

WSTU 3470 Sexuality and Law

ENGL 3840 Gender and Literature

or ENGL 3840W Gender and Literature

PHIL 2125 Philosophy of Race and Gender

or PHIL 2125W Philosophy of Race and Gender

PSC 2225 Women and Politics

PSYC 3150 Psychology of Sex Differences

SPAN 3570 Latin American Women Writers

SOC 2175 Sociology of Sex and Gender

(*) Indicates course requires prerequisites or permission of instructor.

Note: No more than two courses (6 credits) may count towards a student's major and the LGBT and Sexuality Studies minor.

MINOR IN WOMEN'S STUDIES

REQUIREMENTS

Required courses (6 credits):

WSTU 2120 Intro to Women's Studies

or WSTU 2120W Intro to Women's Studies

WSTU 2125 Varieties of Feminist Theory

or AMST 2125 Varieties of Feminist Theory

Four additional courses (12 credits), at least three must be Women's Studies (WSTU) courses numbered 2000 or above, or from the following:

ENGL 3560 American Realism

or ENGL 3560W American Realism

ENGL 3730 Topics in Postcolonial Literature

or ENGL 3730W Topics in Postcolonial Literature

SCHOOL OF MEDICINE AND HEALTH SCIENCES

Dean J. Akman

Senior Associate Dean for Health Sciences J. Bocchino

Associate Dean M. Corcoran

Assistant Dean C. Golden

The George Washington University School of Medicine and Health Sciences is dedicated to improving the health of our local, national, and global communities by:

- **Educating** a diverse workforce of tomorrow's leaders in medicine, science, and health sciences;
- **Healing** through innovative and compassionate care;
- **Advancing** biomedical, translational, and health services delivery research with an emphasis on multidisciplinary collaboration; and
- **Promoting** a culture of excellence through inclusion, service, and advocacy.

As a globally recognized academic medical center, GW embraces the challenge of eliminating health disparities and transforming health care to enrich and improve the lives of those we serve.

The School of Medicine and Health Sciences offers a broad range of undergraduate and graduate programs in medicine and health sciences. For information about the medical programs, please refer to the medicine and health sciences website (<http://smhs.gwu.edu>).

GW Health Sciences (<http://smhs.gwu.edu/academics/health-sciences>) is comprised of three academic departments: Clinical Research and Leadership (<http://smhs.gwu.edu/crl>), Physician Assistant Studies (<http://smhs.gwu.edu/pas>), and Physical Therapy and Health Care Sciences (<http://smhs.gwu.edu/pths>). All Health Sciences academic programs are housed within these departments. GW Health Sciences programs prepare professionals for roles in selected specialties within health care. These programs emphasize the interdependent roles and responsibilities of the network of health professionals who bring a variety of skills and expertise to health care practice, research and leadership. The mission of GW Health Sciences is built upon five tenets:

1. Interdisciplinary education provides a foundation for the future of health care delivery and generates collaborative structure and models for benchmarking and improvement;
2. Clinical training is a foundation for professional development in clinical practice;
3. Community service learning applies to communities broadly and is an important component of education for the transformation of communities of practice, research, and access in health care;

4. GW Health Sciences is uniquely positioned to cultivate leadership capacity development within the health sciences, medical, and scientific communities that we serve; and
5. Scholarship among faculty, staff, and students alike contribute to the process of new knowledge creation and are a foundation for advancing translational science in health care.

REGULATIONS

Admission

To be considered for admission, applicants must submit a completed application form online, together with all required supporting documentation and a non-refundable application fee.

Bachelor of Science in Health Sciences (BSHS) programs are designed for upper-division transfer students; applicants are expected to have completed a minimum of 60 credit hours of coursework from a regionally accredited post-secondary institution prior to entry. Applicants to the post-baccalaureate and graduate programs must hold a bachelor's degree from a regionally accredited college or university. Official transcripts must be submitted from each academic institution attended, regardless of whether credit was earned or is desired. The transcript(s) must indicate a minimum cumulative grade-point average of 2.5 on a scale of 4.0 for undergraduate and post-baccalaureate applicants, and a 3.0 on a scale of 4.0 for graduate students, with the exception of the BSHS in Pharmaceutical Sciences (minimum 2.75) and the post-baccalaureate in pre-medicine (minimum 3.0). The applicant must be in good standing and eligible to return to the academic institution most recently attended. Dual degree applicants must have a minimum cumulative grade-point average of 3.3 on a scale of 4.0. With evidence of special promise, an applicant whose academic record falls short of the minimum GPA may be accepted on a conditional basis; see Conditional Admission, below. Students who have been academically dismissed or suspended will not be considered for admission for at least one year from the date of their last suspension or dismissal.

Applicants should refer to the individual program descriptions for information on prerequisites and supporting documents, since these vary by program. It is the responsibility of applicants to ensure that all required application materials are submitted by the designated deadlines. Unofficial copies, facsimiles, or photocopies of transcripts, certificates, or diplomas will not be accepted. All records become the property of the University and cannot be returned.

Conditional Admission—Admission with conditions to one of the health sciences programs may be offered at the discretion of the director of admissions and the program director. The terms of admission will be outlined in the letter of acceptance from the University. When conditions have been not been met, notification is sent from the Office of

Admissions. Students dismissed for not meeting the conditions of their admission from non-clinical programs must sit out one calendar year before re-applying. Readmission is not guaranteed. Students enrolled in clinical programs should consult their program handbook for program-specific dismissal policies and procedures.

Advance Tuition Deposit—Upon notification of acceptance, an advance tuition deposit will be required of students in selected programs, including those re-admitted. The deposit is credited toward tuition and is non-refundable. Payment of the orientation fee, if applicable, must be submitted along with the tuition deposit and is also non-refundable.

International Applicants

The following additional requirements pertain to international applicants:

Required Records—Official copies of all required documentation (transcripts, diplomas, and certificates as well as any other records listing subjects studied, grades received, examinations taken, the results of state examinations, and degrees received) must be submitted in the language in which the institution keeps its official records. If these documents are in a language other than English, they must be accompanied by a certified English translation. In addition, an evaluated copy completed by an acceptable international evaluation service must be submitted regardless of whether or not the official record is in English.

Language Tests—Applicants whose native language is not English or who are not citizens of countries where English is the official language must submit official test scores for either academic IELTS or TOEFL or PTE. The following are the minimum scores for admission consideration.

1. Academic IELTS: an overall band score of 7.0, with no individual band score below 6.0.
2. TOEFL: 600 paper-based or 100 Internet-based.
3. PTE: overall score of 68

The IELTS/TOEFL/PTE requirement may be waived for applicants who hold a baccalaureate degree or higher from a U.S. regionally accredited college or university; applicants who hold a baccalaureate degree or higher from an international higher education institution, must demonstrate through an evaluation that the institution is equivalent to a U.S. regionally accredited college or university, and the language of instruction at the institution where the degree was completed is English. Waivers may exist for citizens of countries where the official language is English, as determined by the GW International Services Office.

Financial Certificate—A Financial Certificate must be completed and submitted with the application for admission by all international students planning to study at the University under the authorization of either a student (F) or exchange

visitor (J) visa. Satisfactory completion and submission of the Financial Certificate is required for the issuance of a Form I-20 or IAP-66.

Unclassified Students

A student who wishes to take individual courses in health sciences programs must obtain permission to register as an unclassified student in the School of Medicine and Health Sciences. Application is made to the Office of Admissions, Health Sciences Programs. The dean's office, in conjunction with the appropriate department chair and program director, will determine if permission to register will be granted to an unclassified student. Permission to take individual courses, if granted, will generally be limited to a total of 6 credit hours.

Credit earned for courses taken as an unclassified student may be transferred to a degree program at the University if the courses are applicable to the program, have been taken for credit, and have been completed with the minimum grade required in the program. This should not exceed 6 credit hours. Successful completion of course work taken as an unclassified student does not guarantee admission to a degree program.

Readmission

Students who were previously registered in a health sciences program at the University but who did not register during the immediate preceding semester (summer sessions excluded), and who did not receive an approved leave of absence must apply for readmission. Students who have attended other academic institutions while not enrolled at this University must have complete official transcripts sent directly to the Office of Admissions, Health Sciences Programs, from each institution attended. Applications for readmission are considered on the basis of regulations and curricula currently in effect.

Transfer Credit for Graduate Students

The University reserves the right to refuse transfer credit in part or in whole or to allow credit provisionally. A maximum of one quarter of the credit hours of graduate coursework required for a degree may be approved for transfer to a graduate program in the Health Sciences. These credits may come from enrollment in non-degree coursework at GW, or from another degree granting school of GW, or another accredited college or university. Eligible coursework must be: (a) graduate-level credit, (b) not applied toward completion of requirements for another degree, and (c) earned with a minimum acceptable grade of a *B* (*B*- grades and lower do not transfer). Requests for transfer credit must be submitted in writing and approved by the program director and the Health Sciences Dean's Office after admission to the program. Students in clinical programs should refer to their program handbook for program-specific transfer credit policies and procedures.

Transfer Credit/Advanced Standing for Undergraduates

Advanced standing may be awarded for appropriate course work completed at other regionally accredited institutions

provided minimum grade requirements have been met. The minimum acceptable grade is C for course work to be applied toward an undergraduate degree (C- grades and lower do not transfer). Advanced standing may also be awarded for non-traditional classroom or clinical experience as determined by the individual programs. The University reserves the right to refuse transfer credit in part or in whole or to allow credit provisionally. Health sciences degree programs vary in the amount of advanced standing they will award. For bachelor's programs, no more than 66 credit hours can be accepted as advanced standing from a two-year institution.

Degree candidates who are currently enrolled at this institution and plan to take courses at other regionally accredited institutions for transfer credit must first submit a course approval form for approval by the program director, department chair, and the appropriate dean.

Information regarding Academic Policies and Regulations information specific to Health Sciences can be found at <http://smhs.gwu.edu/academics/health-sciences/students/forms-policies>.

Evaluation of Academic Performance

Faculty are responsible for evaluating the performance of students in a meaningful, useful, and timely manner and for assigning grades on a basis that is rational, just, and unbiased. The authority for assignment of grades rests with academic departments or with faculty in the respective programs. Official grades for course work can be obtained from the Office of the Registrar each semester and are not given out by instructors.

Grades in Undergraduate Degree or Certificate and Post-Baccalaureate Certificate Programs—The following grading system is used: *A*, Excellent; *B*, Good; *C*, Satisfactory; *D*, Low Pass; *F*, Fail. At the discretion of the program and individual faculty, "+" or "-" grades may also be assigned. Except for courses that specifically state that repetition for credit is permitted, a candidate for an undergraduate degree or undergraduate-level certificate (including post-baccalaureate certificate) at this University may not repeat a course in which a grade of *D* or better was received, unless a petition to do so is approved by the appropriate dean and/or chair upon recommendation of the program director. If a course is repeated, the first grade remains on the student's record and is included in the cumulative GPA. Symbols that may appear include *CR*, Credit; *AU*, Audit; *P*, Pass; *NP*, No Pass; *I*, Incomplete; *IPG*, In Progress; *W*, Authorized Withdrawal; *Z*, Unauthorized Withdrawal. These symbols are not considered in determining the GPA.

Grades in Graduate Degree and Certificate Programs—The following grading system is used: *A*, Excellent; *B*, Good; *C*, Minimum Pass; *F*, Fail. At the discretion of the program and individual faculty, "+" or "-" grades may also be assigned. Except for courses that specifically state that repetition is permitted, a candidate for a graduate degree or certificate at this University may not repeat a course in which a grade of *C* or

better was received, unless a petition to do so is approved by the appropriate dean and/or chair upon recommendation of the program director. For graduate courses where a grade of *C*- or below was received, the course must be repeated for credit. If a course is repeated, the first grade remains on the student's record and is included in the cumulative GPA. Symbols that may appear include *CR*, Credit; *AU*, Audit; *P*, Pass; *NP*, No Pass; *I*, Incomplete; *IPG*, In Progress; *W*, Authorized Withdrawal; *Z*, Unauthorized Withdrawal. These symbols are not considered in determining the GPA.

Incomplete/In Progress—The symbol of *I* indicates that the instructor has received a satisfactory explanation for the student's inability to complete the required work of the course. The grade may be used only if the student's prior performance in the course has been satisfactory. Any failure to complete the work of a course that is not satisfactorily explained to the instructor before the date when grades must be turned in will be graded *F*. Incomplete work must be made up by a date agreed upon by the instructor and the student but no later than the last day of the examination period for the semester immediately following the semester or summer session in which the notation of *I* is assigned. An extension of one additional semester can be requested by the student and may be approved by the program director. When work for the course is completed, the earned grade earned will be posted. An incomplete that is not changed within the allotted time reverts to *F*.

The symbol of *IPG* is reserved for courses (such as special projects) in which the final class date extends beyond the official University deadline for submitting grades. Once the course has been completed, the *IPG* will be removed from the transcript and the earned grade recorded.

Unauthorized Withdrawal—The symbol of *Z* is assigned when students are registered for a course that they have not attended or have attended only briefly, and in which they have done no graded work. At the end of the academic year, students' records are reviewed; if there is more than one *Z* per semester, a student's record may be encumbered until released by the student's advisor or academic dean. The symbol of *Z* is not a grade, but an administrative notation.

The Grade-Point Average—Scholarship is computed in terms of the grade-point average, based only on the student's record in this University. The grade-point average is computed from grades as follows: *A*, 4.0; *A-*, 3.7; *B+*, 3.3; *B*, 3.0; *B-*, 2.7; *C+*, 2.3; *C*, 2.0; *C-*, 1.7; *D+*, 1.3; *D*, 1.0; *D-*, 0.7; *F*, 0, for each credit hour for which the student has registered in a degree program. In undergraduate courses, grades of *F* will be computed in the grade-point average but will not be considered as fulfilling degree requirements. In graduate programs, final course grades below *C-* are recorded as *F*.

Appeal Procedures for Cases of Alleged Improper Academic Evaluation—Students who believe that a grade or

evaluation is unjust or inaccurate may use the following appeal procedures:

1. The student must submit a written appeal to the relevant faculty member within 10 calendar days of the time the grade is posted, with a copy to the program director.
2. Resolution should be sought first at the program and departmental levels. A review shall be conducted by the program director and chair, consulting as appropriate the student and faculty involved.
3. If a mutually satisfactory resolution is not achieved, the student may, within 5 days of the decision being rendered, submit a written letter of appeal to the senior associate dean for health sciences. In considering the student's appeal, the senior associate dean will determine whether or not the grading procedures employed were fair, equitable, objective and consistent.
4. The senior associate dean may refer the appeal to the Health Sciences Evaluation Committee chair, who will form a three-person committee to serve as a peer review body. The committee will consist of the director of the program and two other members of the Health Sciences Evaluation Committee who are not involved in the case. Should the chair of the Health Sciences Evaluation Committee be the member of the faculty alleged to have made the improper academic evaluation, the appropriate dean will choose the three members of the peer review body from the members of the Health Sciences Evaluation Committee. If a sufficient number of faculty is not available from within the Committee, other faculty from the health sciences programs will be appointed.
5. The peer review body will review the student and course materials in order to render a recommendation to the senior associate dean. In the event that the peer review body chooses to conduct a hearing, the student may not have legal representation present. Students will be allowed to move forward in didactic coursework until the grade appeal is resolved and a final decision rendered. However, students will not be allowed to move forward in clinical coursework until the grade appeal is resolved and a final decision rendered.
6. The peer review body will advise the senior associate dean on the outcome of their review and recommendations. Final action rests with the dean of the School of Medicine and Health Sciences.

Academic Standing

An enrolled student is considered to be in good academic standing by the School of Medicine and Health Sciences provided that he or she is not on probation or suspended. The following policies apply to all students within Health Sciences programs. In addition, Medical Laboratory Sciences, Physician Assistant, and Physical Therapy students must comply with policies and procedures outlined in their respective student handbooks.

Warning—An undergraduate whose GPA falls between 2.5 and 2.69, and a graduate student whose GPA falls between 3.0 and 3.2 will receive a warning notification from the program. The warning may be in the form of an email. A record of warning notifications will be kept with program records and Health Sciences student services.

Academic Probation—A full- or part-time undergraduate degree candidate whose cumulative GPA falls below 2.5 will be placed on academic probation. A notation will be added to the student's transcript indicating probation. This probation extends over the period in which the student attempts an additional 12 credit hours of course work. Students while on probation will be allowed to register for no more than 12 credit hours per semester, unless approved by the program director and the appropriate dean.

A full- or part-time graduate degree candidate whose cumulative GPA falls below 3.0 will be placed on academic probation. For full-time students, probation extends for one semester of full-time course work as defined by the program; for part-time students, probation extends during the period in which the student attempts 9 credit hours of course work. Students while on probation will be allowed to register for no more than 9 credit hours total, unless approved by the program director and the appropriate dean. For full-time students, this means no more than 9 credit hours per semester. For part-time students, they may register for a combination of 9 credit hours, but may not take additional courses (e.g. a part-time student on probation who attempts 6 credits one-term, would be restricted to 3 credits in the next semester of coursework).

If the program director and department chair determine that extenuating and valid circumstances exist, a student may be granted an extension on the probation period. If granted, the student will be notified by the program director outlining conditions to be met by the student. The student must return a statement to the program director by email or mail confirming that he/she has read, understands, and agrees to the conditions.

If the student fails to attain the conditions in the time specified, the student will be suspended (see *Suspension*). If the student succeeds in raising his/her cumulative GPA to the minimum scholarship requirements, academic probation will be lifted. A student who has been placed on probation more than one time will be recommended for dismissal.

Suspension—Students previously on probation who have not raised their cumulative GPA within the allowed number of credit hours (12 for undergraduate, and 9 for graduates) may be suspended. A student suspended for poor scholarship may not register for any course work at the University, even as an auditor. The program director mails or emails a Letter of Suspension notifying the student of suspension.

A student who is suspended for failure to raise the cumulative GPA may apply for readmission after the lapse of one calendar year. Evidence must then be presented to the student's

program director, demonstrating that the student is now better prepared to pursue academic course work. Any student suspended twice for poor scholarship will not be readmitted. If the student fails to achieve the minimum GPA at the end of the semester following readmission, the program director may recommend the student be dismissed and further enrollment prohibited. This will be reviewed by the appropriate dean, whose recommendation will then be forwarded to the dean of the School of Medicine and Health Sciences.

Dismissal—Any student who has received one or more failing grades during a semester, or who has been placed on probation more than one time, may be recommended for dismissal by the program director. If the program recommends dismissal, an email or letter will be sent to the student informing him/her that the recommendation for dismissal is being reviewed by the senior associate dean for Health Sciences in consultation with the program director and chair. At the discretion of the senior associate dean, the recommendation may also be forwarded to the Health Sciences Evaluation Committee before sending to the dean of the School of Medicine and Health Sciences. The final decision about dismissal rests with the dean of the School of Medicine and Health Sciences. A student who is dismissed from non-clinical programs may apply for readmission after the lapse of one calendar year. Readmission is not guaranteed. Students enrolled in clinical programs should consult their program handbook for program-specific dismissal policies and procedures.

Programs of Study (<http://smhs.gwu.edu/academics/health-sciences>)

Students enrolled in undergraduate degree, or undergraduate-level certificate (including post-baccalaureate certificate) programs must meet with their faculty advisor (in person or electronically) to review a program of study, listing all course work required for the degree or certificate, including applicable transfer credit. Changes to the program of study can be made through petition to the program. Changes may require approval of senior associate dean for health sciences.

Transfer Within Health Sciences Programs—To apply for a transfer from one health sciences program to another, a written request must be submitted to the Office of Student Services, Health Sciences Programs, along with the necessary supporting documentation required by the program. To change from certificate to degree program may require an admissions application.

Transfer Outside Health Sciences Programs—No internal transfers are permitted from a health sciences program to another GW school or college. To transfer outside of the health sciences, a student must follow the full admission processes for the other GW program.

Changes Within Health Sciences Programs—A student may not substitute one course for another without approval of the program director, the department chair, and the appropriate dean. After the deadlines for adding or dropping courses, a student must obtain the permission of the course instructor, the program director, and the appropriate dean to withdraw from a course or to change status from credit to audit or audit to credit.

Adding and Dropping Courses—During the registration period (before the end of the second week of classes) students may add or drop courses using GWeb. After the second week of classes, students who wish to add or drop a course must complete a Registration Transaction Form (<http://smhs.gwu.edu/academics/health-sciences/students/forms-policies>) and submit the form to the Student Services Office. Adding a course after the second week requires a signature of the instructor or other authorized member of the department.

A course dropped during the first four weeks of classes will not appear on the student's transcript. A course dropped after the fourth week but before the end of the eighth week will be assigned a notation of W (Authorized Withdrawal). Deadlines for a summer or short course may vary.

The deadline for dropping a course without academic penalty is the end of the eighth week of classes. After the end of the eighth week of classes, dropping a course without academic penalty is only possible after the student presents a petition to the senior associate dean and receives written permission. Deadlines for a summer or short course may vary.

All charges for courses from which the student withdraws are subject to the refund policy listed under Fees and Financial Regulations in this Bulletin. Failure to withdraw by these procedures can result in an extended financial obligation and the recording of a grade of *F* (Failure) or a notation of *Z* (Unauthorized Withdrawal).

Policies and Definitions

Credit—Credit is awarded only after registration for a course and satisfactory completion of the required work, or upon assignment of advanced standing.

Auditing—A student who has been admitted to a health sciences program may register as an auditor in a class only with the permission of the instructor, the faculty advisor, and the appropriate dean. An auditor receives no academic credit and is not required to take active part in the class or to pass examinations. A student who takes a course as an auditor may not repeat it later for credit. The regular program tuition rate is charged for audited courses.

Attendance—Students may attend only those classes for which they are officially registered. Regular attendance is expected. A student suspended for any cause may not attend classes during the period of suspension. Students are held responsible for all of the work of the courses in which they are registered, and all

absences must be excused by the instructor before provision is made to make up the work missed.

Transcripts of Record—Official transcript of student records are issued by the Office of the Registrar and may be requested through GWeb by any student or former student who has paid all charges, including any outstanding student loan installments, due the University at the time of the request. A fee is charged for each transcript. Partial transcripts are not issued.

Continuous Enrollment—Once entered in a degree or certificate program, a student is expected to be continuously enrolled and actively engaged in fulfilling the requirements each semester of the academic year until such time as the degree is conferred or certificate completed. Students who break continuous enrollment at the University and do not request and receive a leave of absence (see below) must apply for readmission and, if granted, are subject to the requirements and regulations then in force. Students who plan to attend other institutions and apply credit earned toward graduation from this University must first obtain written approval from the program director and the appropriate dean.

Leave of Absence—A student who must interrupt active pursuit of the degree or certificate may petition the appropriate dean, through the program director, for a leave of absence for a specified period of time, generally limited to one calendar year. If the petition is approved, the student must register for leave of absence in each fall and spring semester, following regular registration procedures. The request should be made using the Petition Request Form (<http://smhs.gwu.edu/academics/health-sciences/students/forms-policies>). Students who discontinue their studies without being granted a leave of absence and students granted leaves who do not return to active study at the close of the period of approved absence must apply for readmission and are subject to the regulations and requirements then in force. The right to use University facilities is suspended while the leave is in effect.

Policy Regarding Students Called to Active Military Duty—

Any student who is a member of a military reserve unit or the National Guard and is activated or called to active duty early in a semester or summer session automatically will be entitled to a full refund of all tuition and fees that he or she has paid toward the expenses of that academic term. If the notification of the call to active duty comes after the mid-term examinations or after other substantial graded work has been completed, the student will have the option of either taking a full refund of tuition and fees or taking an Incomplete in his or her courses with the privilege of returning to complete all required coursework at some future date without payment of any further tuition and fee charges. It is the responsibility of the student to present evidence of his or her activation to the Health Sciences Student Services and the Office of Student Accounts and to request the appropriate refund.

Should a degree student called up for active duty find it necessary to interrupt active pursuit of the degree he or she

may petition the senior associate dean of health sciences for a leave of absence for a specified period of time, generally limited to one calendar year. Deans are encouraged to grant any request to extend the leave of absence for longer than the customary period should military service require an absence of more than one year.

All students on active duty will be automatically exempted from the request for a \$50 voluntary library contribution without requiring any communication from them or their initials on the bill.

Right to Change Rules and Programs—The University reserves the right to modify or change requirements, rules, and fees. Such regulations shall go into force whenever the proper authorities may determine. The right is reserved by the University to make changes in programs without notice whenever circumstances warrant such changes. For the most up to date requirements, rules, and fees contact the Health Sciences Dean's Office (<http://smhs.gwu.edu/academics/health-sciences>).

Complete Withdrawal From the University—A student who wishes to withdraw from all courses, and the university must complete a Complete Withdrawal Form (<http://registrar.gwu.edu>) and submit it to the Office of the Registrar. The deadline for complete withdrawal from all courses without academic penalty is the end of the eighth week of classes, with the exception of summer and short courses, which may have different deadlines. Complete withdrawal after the eighth week requires a petition to the dean. A student who wishes to withdraw from one or all courses, but not the university, should submit a Registration Transaction Form. A student who wishes to withdraw from the University upon completion of currently registered courses should notify their program director and Health Sciences Student Services.

All charges for courses from which the student withdraws are subject to the refund policy listed under Fees and Financial Regulations in this Bulletin. Failure to complete a Complete Withdrawal Form can result in an extended financial obligation and the recording of grades of *F* (Failure) or notations of *Z* (Unauthorized Withdrawal).

Graduation Requirements

Degrees are conferred in January, May, and August. Graduating health sciences students may participate in the commencement ceremony held each year in May.

To be recommended for graduation by the faculty, students must have met admission requirements; have completed satisfactorily the scholarship, curriculum, residence, and other requirements for the degree; have filed an application for graduation prior to the published deadline; and be free from all indebtedness to the University. Registration, either for course work or for continuous enrollment, is required for the

semester or summer session at the close of which the degree is to be conferred.

Applications for graduation must be filed by October 1 for fall graduation, February 1 for spring graduation, and July 1 for summer graduation.

Residence Requirements—The minimum number of credit hours that must be satisfactorily completed in residence in the School of Medicine and Health Sciences are listed; specific programs may establish higher residency requirements. Bachelor of Science in Health Sciences programs require that 30 of the last 60 credit hours be completed in residence. In Master of Science in Health Sciences and Doctor of Physical Therapy programs, all but 6 of the total required credit hours must be completed in residence. Courses applicable to the degree taken while registered in any division of The George Washington University in the semester immediately prior to admission to degree candidacy in the health sciences are counted as courses in residence.

Honors—Bachelor's degrees with honors are awarded to students whose academic records give evidence of particular merit. The student's grade-point average determines the level of honors as follows: *cum laude*, 3.4-3.59; *magna cum laude*, 3.6-3.79; *summa cum laude*, 3.8-4.0. The grade-point average includes all course work completed at GW and is not rounded off. To be eligible for an honors designation, a student must complete at least 60 hours of coursework at GW.

The grade-point average is calculated by the Office of the Registrar, and the honors designation is entered on the transcript and the diploma of those students who earn an honors designation. If honors are entered in the commencement program, honors status will be determined on the basis of work completed by the end of the seventh term and entered only for those students who have completed seven-eighths of the credit hours required for the degree. Honors indicated on the diploma are calculated on the basis of all course work completed. The diploma and transcript are the official indication that a degree was conferred and honors awarded.

Financial Aid

The George Washington University financial assistance for undergraduate students is described in *Financial Aid Sourcebook* from The George Washington University Office of Student Financial Assistance (<http://financialaid.gwu.edu>). Undergraduate aid consists of two basic types: awards for academic achievement or talent without reference to financial circumstances (merit scholarships) and scholarships, grants, loans, and employment based on academic achievement and demonstrated financial need. All undergraduate gift aid (institutional scholarships and grants, and federal grants) requires that the recipient be working on the first undergraduate degree and be registered for a full-time course load at GW. Students are limited to eight semesters of institutional aid. Institutional aid is not available for online

programs nor graduate programs. Loans and resident assistantships not based on financial need are available.

Several offices on campus provide information on financial assistance for graduate and certificate students. Information about funding opportunities is provided by the Office of Graduate Student Assistantships and Fellowships (<http://www.gwu.edu/~fellows>). Forms and information on federal loans for graduate students can be obtained from the Office of Student Financial Assistance. (<http://financialaid.gwu.edu>) Information on the Federal Work-Study Program, cooperative education opportunities, and on- and off-campus employment is available from the GW Career Center (<http://careerservices.gwu.edu>). Gift aid (scholarships, grants, fellowships, assistantships, etc.) is taxable to the extent that it exceeds the allowable costs of tuition, fees, and required books and supplies or is dedicated to other costs, such as room and board. Federal grants may be taxable if, together with other gift assistance, they exceed the allowable costs. In the case of a student who is awarded tuition scholarships, grants, or awards from more than one source, the combined amount cannot exceed tuition charges; institutional aid will be adjusted to this limit.

In general, consideration for financial aid is restricted to students in good academic standing who meet the minimum grade-point average for particular awards and are not financially encumbered by any other University office. Applications for institutional or federal aid cannot be processed if the relevant tax returns have not been filed in accordance with the IRS Code. Documents submitted as part of aid applications become the property of the University and cannot be returned. Federal regulations require that the University report suspected cases of fraud or misrepresentation to the appropriate federal, state, and local authorities.

Information on financial aid is accurate at the time each Bulletin is prepared for press. Future changes in federal regulations or institutional policies may alter the application requirements or program guidelines.

UNDERGRADUATE

Associate's programs

- Associate in Science in the field of health sciences (p. 976)
- Associate in Science in the field of health sciences laboratory technology (p. 977)

Bachelor's programs

- Bachelor of Science in Health Sciences with a major in clinical health sciences (p. 978)
- Bachelor of Science in Health Sciences with a major in clinical management and leadership (p. 979)
- Bachelor of Science in Health Sciences with a major in clinical research administration

- Bachelor of Science in Health Sciences with a major in emergency medical services management
- Bachelor of Science in Health Sciences with a major in health intervention and disaster response
- Bachelor of Science in Health Sciences with a major in medical laboratory science
- Bachelor of Science in Health Sciences with a major in pharmaceutical sciences

Dual degree programs

- Bachelor of Science in Health Sciences and Master of Science in Health Sciences in the field of clinical management and leadership
- Bachelor of Science in Health Sciences in the field of clinical management and leadership and Master of Science in Health Sciences in the field of health care quality
- Bachelor of Science in Health Sciences in the field of clinical management and leadership and Master of Science in Health Sciences in the field of emergency medical services leadership (p. 987)
- Bachelor of Science in Health Sciences and Master of Science in Health Sciences in the field of clinical research administration
- Bachelor of Science in Health Sciences in the field of clinical research administration and Master of Science in Health Science in the field of regulatory affairs
- Bachelor of Science in Health Sciences in the field of emergency medical services management and Master of Science in Health Sciences in the field of clinical management and leadership
- Bachelor of Science in Health Sciences in the field of emergency medical services management and Master of Science in Health Sciences in the field of emergency medical services leadership (p. 991)

Minors

- Minor in anatomy (p. 992)
- Minor in clinical research administration (p. 992)
- Minor in emergency health services
- Minor in health sciences (p. 993)

Military contract programs

- Bachelor of Science in Health Sciences in the field of cytotechnology (p. 980)(military contract)

GRADUATE

Master's programs

- Master of Science in Health Sciences in the field of clinical management and leadership (p. 993)
- Master of Science in Health Sciences in the field of clinical microbiology (p. 994)
- Master of Science in Health Sciences in the field of clinical and translational microbiology (<http://bulletin.gwu.edu/>

[medicine-health-sciences/graduate-programs/ms-clinical-translational-microbiology](http://bulletin.gwu.edu/medicine-health-sciences/graduate-programs/ms-clinical-translational-microbiology))

- Master of Science in Health Sciences in the field of clinical research administration
- Master of Science in Health Sciences in the field of clinical and translational research
- Master of Science in Health Sciences in the field of emergency medical services leadership
- Master of Science in Health Sciences in the field of health care quality (p. 996)
- Master of Science in Health Sciences in the field of immunohematology and biotechnology (<http://bulletin.gwu.edu/medicine-health-sciences/graduate-programs/mshs-immunohematology-biotechnology>)
- Master of Science in Health Sciences in the field of integrative medicine (<http://bulletin.gwu.edu/medicine-health-sciences/graduate-programs/ms-integrative-medicine>)
- Master of Science in Health Sciences in the field of medical laboratory science (p. 997)
- Master of Science in Health Sciences in the field of molecular diagnostic science (p. 998)
- Master of Science in Health Sciences in the field of regulatory affairs (p. 999)
- Master of Science in Health Sciences in the field of physician assistant (p. 998)
- Master of Science in Health Sciences in the field of translational microbiology (p. 999)

Dual degree program

- Master of Science in Health Sciences in the field of physician assistant and Master of Public Health (Milken Institute School of Public Health) (<http://bulletin.gwu.edu/medicine-health-sciences/graduate-programs/dual-pa-mph>)

Military contract programs

- Master of Science in Health Sciences in the field of immunohematology (p. 997)

Doctoral programs

- Doctor of Philosophy in the field of translational health sciences (<http://bulletin.gwu.edu/medicine-health-sciences/graduate-programs/phd-translational-health-sciences>)
- Doctor of Physical Therapy (p. 1000)
- Advanced Practice Clinical Doctorate in Occupational Therapy (<http://bulletin.gwu.edu/medicine-health-sciences/graduate-programs/advanced-practice-clinical-doctorate-occupational-therapy>)

CERTIFICATES

Post-baccalaureate certificates

- Post-baccalaureate certificate in medical laboratory science (p. 1003)

- Post-baccalaureate certificate in blood banking for medical laboratory science (p. 1001)
- Post-baccalaureate certificate in chemistry for medical laboratory science (p. 1002)
- Post-baccalaureate certificate in hematology for medical laboratory science (p. 1002)
- Post-baccalaureate certificate in microbiology for medical laboratory science (p. 1003)
- Post-baccalaureate certificate in pre-medicine (p. 1003)

Graduate certificates

- Graduate certificate in clinical research administration (p. 1004)
- Graduate certificate in clinical and translational research (p. 1004)
- Graduate certificate in clinical research practice (p. 1004)
- Graduate certificate in health care quality (p. 1005)
- Graduate certificate in integrative medicine (p. 1005)
- Graduate certificate in regulatory affairs (p. 1005)

Military contract programs

- Undergraduate certificate in the field of health sciences laboratory science (military contract)

COURSES

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000-4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

- Anatomy & Regenerative Biology (ANAT) (p. 1482)
- Clinical Management Leadership (CML) (p. 1524)
- Clinical Research and Administration (CRA) (p. 1525)
- Emergency Health Services (EHS) (p. 1570)
- Health Care Quality (HCQ) (p. 1615)
- Health Sciences (HSCI) (p. 1617)
- Medical Laboratory Science (MLS) (p. 1715)
- Physician Assistant (PA) (p. 1742)
- Pharmacogenomics (PHRG) (p. 1732)
- Physical Therapy (PT) (p. 1738)
- Regulatory Affairs (RAFF) (p. 1799)
- Translational Health Sciences (THS) (<http://bulletin.gwu.edu/courses/thS>)

ASSOCIATE IN SCIENCE IN THE FIELD OF HEALTH SCIENCES

REQUIREMENTS

The Associate in Science (AS) in Health Sciences (<http://smhs.gwu.edu/crl/military>) is a degree completion program that requires successful completion of **78 credits**. It is restricted to candidates who have earned 60 credits of college-level military courses. Eligible candidates include current (and former) Army 18D, Navy IDCs, Air Force IDMTs, Army or Navy MLTs; additional occupations may be reviewed for consideration. See the program website (<http://smhs.gwu.edu/crl/military>) for more information about eligibility.

The following requirements must be fulfilled:

The Associate in Science (AS) in Health Sciences (<http://smhs.gwu.edu/crl/military>) is a degree completion program that requires successful completion of **78 credits**. It is restricted to candidates who have earned 60 credits of college-level military courses. Eligible candidates include current (and former) Army 18D, Navy IDCs, Air Force IDMTs, Army or Navy MLTs; additional occupations may be reviewed for consideration. See the program website (<http://smhs.gwu.edu/crl/military>) for more information about eligibility.

The following requirements must be fulfilled:

60 credits of advanced standing

Advanced standing for military courses will be noted on the student's record and applied towards the associate's degree during the first semester the student is enrolled in the program.

12 credits of general education including:

6 credits of English composition

3 credits of mathematics or statistics

3 credits or humanities or social science

For students needing general education coursework, GW offers online classes that satisfy all of the requirements. Students planning to apply to B.S.H.S. programs are strongly encouraged to complete general education courses at GW by following the 'Recommended Coursework at GW' curriculum.

6 credits of Health Sciences distance education courses

Recommended general education courses at GW (if needed):

Two English composition courses from the following:

HSCI 2100 Writing and Composition in the Health Sciences

HSCI 2112W Writing in the Health Sciences

HSCI 4112W Rsrch/Wrtng in Health Sciences

Students are eligible for HSCI 4112W only if they have completed HSCI 2112W.

One mathematics or statistics course

HSCI 2115 Intro Biostatistics-Health Sci

One humanities or social sciences from the following:

HSCI 2101 Psychosocial Aspects of Health and Illness

HSCI 2103 Health Policy and the Health Care System

HSCI 2105 Current Issus in Bioethics

HSCI 2107 Health Care in Literature

HSCI 2111 Dev/Health Care Professions

Required GW health sciences distance education

Two of the following:

HSCI 2101 Psychosocial Aspects of Health and Illness

HSCI 2102 Pathophysiology

HSCI 2103 Health Policy and the Health Care System

HSCI 2104 Management of Health Science Services

HSCI 2105 Current Issus in Bioethics

HSCI 2108 QualityImprovement/HealthCare

HSCI 2109 Trends&Innovations/HealthCare

HSCI 2113 Informatics in the HSci

HSCI 2103 and HSCI 2105 cannot be double-counted for a Humanities or Social Science requirement and a GW major course; they may only be used to complete one requirement.

Transferring credits

For an assessment on the transferability of your previous coursework contact the program office (<http://smhs.gwu.edu/>)

crl/programs/chs/curriculum/as). Coursework will be evaluated for transfer using the following criteria:

- College-level
- Academic in nature
- Completed at a regionally accredited institution
- Earned with a grade of C or better (C- grades do not transfer)

ASSOCIATE IN SCIENCE IN THE FIELD OF HEALTH SCIENCES LABORATORY TECHNOLOGY REQUIREMENTS

This program is restricted and available only for students who completed their Undergraduate Certificate Program in Health Science Laboratory Technology, at GW, within the last five years. The Associate in Science (AS) in Health Science Laboratory Technology (HSLT) (<http://smhs.gwu.edu/crl/military>) offers Army and Navy MLTs the opportunity to enhance their skills, obtain the credentials to pursue advanced study, and be eligible for promotion within the military.

The Associate of Science (AS) in Health Sciences Laboratory Science for MLTs is a 75 credit degree program: 60 credits are awarded for completion of the MLT undergraduate certificate, and 15 credits of general education courses must be completed to meet the associate's degree requirements. The general education requirements may be completed by taking coursework at a regionally accredited institution or at GW.

The following requirements must be fulfilled:

This program is restricted and available only for students who completed their Undergraduate Certificate Program in Health Science Laboratory Technology, at GW, within the last five years. The Associate in Science (AS) in Health Science Laboratory Technology (HSLT) (<http://smhs.gwu.edu/crl/military>) offers Army and Navy MLTs the opportunity to enhance their skills, obtain the credentials to pursue advanced study, and be eligible for promotion within the military.

The Associate of Science (AS) in Health Sciences Laboratory Science for MLTs is a 72 credit degree program: 60 credits are awarded for completion of the MLT undergraduate certificate, and 12 credits of general education courses must be completed to meet the associate degree requirements. The general education requirements may be completed by taking coursework at a regionally accredited institution or at GW.

The following requirements must be fulfilled:

60 credits of advanced standing (Students who earned the undergraduate certificate in HSLT at GW prior to Summer 2014 meet the advanced standing requirement. Students who completed the undergraduate certificate in HSLT at GW in or after Summer 2014 should contact the program office for more information.)

12 credits of general education including:

6 credits of English composition

3 credits of mathematics (college algebra or higher) or statistics

3 credits of humanities or social sciences

GW offers general education courses online that will satisfy these requirements. (Students planning to apply to B.S.H.S. programs are strongly encouraged to complete general education courses at GW by following the recommended coursework at GW curriculum.)

Recommended general education courses offered at GW:

Two of the following English composition courses:

HSCI 2100 Writing and Composition in the Health Sciences

HSCI 2112W Writing in the Health Sciences

HSCI 4112W Rsrch/Wrtng in Health Sciences

Students may enroll in HSCI 4112W Rsrch/Wrtng in Health Sciences only if they have completed HSCI 2112W Writing in the Health Sciences.

3 credits of mathematics or statistics

HSCI 2115 Intro Biostatistics-Health Sci

One of the following humanities or social sciences courses:

HSCI 2101 Psychosocial Aspects of Health and Illness

HSCI 2103 Health Policy and the Health Care System

HSCI 2105 Current Issus in Bioethics

HSCI 2107 Health Care in Literature

HSCI 2111 Dev/Health Care Professions

Transferring credits

For an assessment on the transferability of your previous coursework, please contact the program office (<http://smhs.gwu.edu/crl/programs/military/as-mlt>). Coursework will be evaluated for transfer using the following criteria:

- College-level

- Academic in nature
- Completed at a regionally accredited institution
- Earned with a grade of C or better (C- grades do not transfer)

BACHELOR OF SCIENCE IN HEALTH SCIENCES WITH A MAJOR IN CLINICAL HEALTH SCIENCES

REQUIREMENTS

This program is restricted based on military occupation and status. Please see the program website for more information on eligibility. The BSHS with a major in Clinical Health Sciences (<http://smhs.gwu.edu/crl/military>) is a degree completion program that requires successful completion of **120 credit hours**, divided into three degree components

The following requirements must be fulfilled:

Advanced standing and electives (60 credits):

During the first semester the student is enrolled in the program, advanced standing for eligible military courses will be noted on the student's record and applied towards the bachelor's degree.

General education (24 credits):

3 credits of English composition

4 credits of natural or physical science with lab

8 credits of mathematics, science, or statistics

6 credits of social sciences

3 credits of humanities

If a student still needs general education coursework, GW offers online coursework for some of these requirements.

Recommended coursework at GW (for those missing general education requirements)

General education

English composition

HSCI 2100 Writing and Composition in the Health Sciences

Humanities

HSCI 2107 Health Care in Literature

Social sciences: Up to two of the following:

HSCI 2103	Health Policy and the Health Care System
HSCI 2111	Dev/Health Care Professions
HSCI 4103	Health Care Law/Regulation

Coursework at GW (36 credits minimum)

Foundation courses:

HSCI 2101	Psychosocial Aspects of Health and Illness
HSCI 2102	Pathophysiology
HSCI 2105	Current Issues in Bioethics
HSCI 2112W	Writing in the Health Sciences
HSCI 2115	Intro Biostatistics-Health Sci
HSCI 2130	Primary Care Skills Practicum *
HSCI 2131	Adult Primary Care Practicum *
HSCI 2133	Specialized Clinical Experience *
HSCI 4102	Human Physiology/Extreme Enviro
HSCI 4112W	Rsrch/Wrtng in Health Sciences
MLS 4141	Immunology and Serology

Capstone: One of the following:

CML 4144	Seminar/Health Sci Leadership
EHS 4101	Humanitarian Relief Ops

Elective - one course selected from the following (advisor approval required):

EHS 2211	Intro to Telemedicine
HSCI 2103	Health Policy and the Health Care System
HSCI 2108	Quality Improvement in Health Care
HSCI 2110	Disease Prev/Health Promotion
HSCI 2114	Healthcare/Developing Nations
HSCI 4106	Intro to Epidemiology for HS

*Must be completed while on active-duty. Students arrange rotations at their current duty stations. All rotations require a MD or PA preceptor.

HSCI 2103 Health Policy and the Health Care System cannot be double-counted for a general education requirement and an elective; it may only be used to complete one requirement.

Transferable Coursework (84 credit hour maximum)

For an assessment on the transferability of your previous coursework, please contact the program office. Coursework will be evaluated for transfer using the following criteria:

- College-level
- Academic in nature
- Completed at a regionally accredited institution
- Earned with a C or better (C- grades do not transfer)

BACHELOR OF SCIENCE IN HEALTH SCIENCES WITH A MAJOR IN CLINICAL MANAGEMENT AND LEADERSHIP

REQUIREMENTS

The Bachelor of Health Sciences with a major in the field of clinical management and leadership (<http://smhs.gwu.edu/crl/programs/cml>) is a degree completion program that requires successful completion of 120 credits, 60 of which must be completed at GW. Up to 60 credits of course work may be transferable from course work taken elsewhere.

The following requirements must be fulfilled:

The following requirements must be fulfilled:

60 credits of general education and advanced standing:

3 credits of English composition

4 credits of natural or physical science with lab

6 credits of social sciences

3 credits of humanities

44 credits of advanced standing*

* Additional academic coursework. Non-traditional credit sources may be considered on a case-by-case basis (i.e. military coursework, credit-by-exam, and non-college based health programs).

Requirements for the major:

At least 60 credits of GW coursework including:

CML 2140 Mgt of HR in Health Sci Org

CML 2141 Planning&Mktg/Health Sciences

CML 2142 Financial Mgt/Health Sciences

CML 2143 Current Issues/Hlth Sci Mgt

CML 4144 Seminar/Health Sci Leadership

HSCI 2103 Health Policy and the Health Care System

HSCI 2104 Management of Health Science Services

HSCI 2105 Current Issus in Bioethics

HSCI 2107 Health Care in Literature

HSCI 2108 Quality Improvement in Health Care

HSCI 2112W Writing in the Health Sciences

HSCI 2113 Informatics in the HSci

HSCI 2115 Intro Biostatistics-Health Sci

HSCI 4103 Health Care Law/Regulation

HSCI 4105 Case Studies in Health Care

HSCI 4106 Intro to Epidemiology for HS

HSCI 4112W Rsrch/Wrtng in Health Sciences

Three courses selected from the following (advisor approval is required):

HSCI 2101 Psychosocial Aspects of Health and Illness

HSCI 2102 Pathophysiology

HSCI 2110 Disease Prev/Health Promotion

HSCI 2111 Dev/Health Care Professions

Transferring credits

Up to 60 credits may be transferrable from courses taken elsewhere. For an assessment on the transferability of your previous coursework, please contact the program office. Coursework will be evaluated for transfer using the following criteria:

- College-level
- Academic in nature
- Completed at a regionally accredited institution
- Earned with a grade of C or better (C- grades do not transfer)

BACHELOR OF SCIENCE IN HEALTH SCIENCES WITH A MAJOR IN CLINICAL RESEARCH ADMINISTRATION

REQUIREMENTS

The Bachelor of Science in the Health Sciences with a major in clinical research administration (<http://smhs.gwu.edu/crl/programs/cra>) is a degree completion program that requires successful completion of **120 credits**, 60 credits of which must be completed at GW. Up to 60 credits of coursework may be transferable from coursework taken elsewhere.

The following requirements must be fulfilled:

60 credits of general education and advanced standing including:

3 credits of English composition

4 credits of natural or physical science with lab

6 credits of social sciences

3 credits of humanities

44 credits of advanced standing*

* Additional academic coursework. Non-traditional credit sources may be considered on a case-by-case basis (i.e. military coursework, credit-by-exam, and non-college based health programs).

Requirements for the major:

At least 60 credits of GW coursework including:

CRA 2101 Basics of Clinical Research

CRA 2102 Processes of Clinical Research

CRA 2103 Good Clinical Practices

CRA 2104 Business of Clinical Research

CRA 2105 Topics in Clinical Research

CRA 2107 Intro Monitoring Clin. Trials

HSCI 2102 Pathophysiology

HSCI 2103 Health Policy and the Health Care System

HSCI 2105 Current Issus in Bioethics

HSCI 2107 Health Care in Literature

HSCI 2112W Writing in the Health Sciences

HSCI 2113 Informatics in the HSci

HSCI 2115 Intro Biostatistics-Health Sci

HSCI 4103 Health Care Law/Regulation

HSCI 4105 Case Studies in Health Care

HSCI 4106 Intro to Epidemiology for HS

HSCI 4112W Rsrch/Wrtng in Health Sciences

Three elective courses selected from the following (advisor approval is required):

CML 2143 Current Issues/Hlth Sci Mgt

HSCI 2104 Management of Health Science Services

HSCI 2108 Quality Improvement in Health Care

HSCI 2110 Disease Prev/Health Promotion

Transferring credits

Up to 60 credits of coursework may be transferable from coursework taken elsewhere. For an assessment on the transferability of your previous coursework, please contact the program office. Coursework will be evaluated for transfer using the following criteria:

- College-level
- Academic in nature
- Completed at a regionally accredited institution
- Earned with a grade of C or better (C- grades do not transfer)

BACHELOR OF SCIENCE IN HEALTH SCIENCES WITH A MAJOR IN CYTOTECHNOLOGY

REQUIREMENTS

This is a restricted program. The Medical Education Training Campus (METC) Cytotechnology Program (<http://smhs.gwu.edu/crl/military>) is a contract program for pre-selected military service members, established between GW and the METC. This contract program provides GW educational services to eligible active duty U.S. Army servicemembers. These services include:

- Academic advising for students who have outstanding prerequisites for eligibility
- Application and registration services
- Academic record maintenance
- Conferral of a Bachelor of Science in Health Sciences to students upon successful completion of 126 semester hours of credit hours from the program of study.

BACHELOR OF SCIENCE IN HEALTH SCIENCES WITH A MAJOR IN EMERGENCY MEDICAL SERVICES MANAGEMENT

REQUIREMENTS

The Bachelor of Science in the Health Sciences with a major in the field of emergency medical services management (<http://smhs.gwu.edu/crl/programs/ems>) is an online degree completion program that requires successful completion of **120 credits**, 60 credits of which must be completed at GW. Up to 60 credits of coursework may be transferable from coursework taken elsewhere.

The following requirements must be fulfilled:

60 credits of general education and advanced standing including:

3 credits of English composition

4 credits of natural or physical science with lab

6 credits of social sciences

3 credits of humanities

44 credits of advanced standing*

* Additional academic coursework. Non-traditional credit sources may be considered on a case-by-case basis (i.e. military coursework, credit-by-exam, and non-college based health programs).

Requirements for the major:

At least 60 credits of GW coursework including:

CML 2140 Mgt of HR in Health Sci Org

CML 2142 Financial Mgt/Health Sciences

EHS 2174 Foundations of Emergency Health Services Systems

EHS 2175 Community Risk Management and Safety in EHS

EHS 4110 Operations Mgt in EHS Systems

EHS 4111 Leadership Concepts in EHS

EHS 4112 Special Ops and Disaster Mgt

EHS 4144 Seminar in EHS Leadership

HSCI 2103 Health Policy and the Health Care System

HSCI 2104 Management of Health Science Services

HSCI 2105 Current Issus in Bioethics

HSCI 2108 Quality Improvement in Health Care

HSCI 2112W Writing in the Health Sciences

HSCI 2115 Intro Biostatistics-Health Sci

HSCI 4103 Health Care Law/Regulation

HSCI 4106 Intro to Epidemiology for HS

HSCI 4112W Rsrch/Wrtng in Health Sciences

Three elective courses from the following (advisor approval is required):

EHS 2211 Intro to Telemedicine

EHS 4101 Humanitarian Relief Ops

HSCI 2101 Psychosocial Aspects of Health and Illness

HSCI 2102 Pathophysiology

HSCI 2105 Current Issus in Bioethics

HSCI 2110 Disease Prev/Health Promotion

HSCI 2111 Dev/Health Care Professions

HSCI 4102 HumanPhysiology/ExtremeEnviro

HSCI 4105 Case Studies in Health Care

Transferring credits

Up to 60 credits of coursework may be transferable from coursework taken elsewhere provided it is:

- College-level
- Academic in nature
- Completed at a regionally accredited institution
- Earned with a grade of C or better (C- grades do not transfer)
-

BACHELOR OF SCIENCE IN HEALTH SCIENCES WITH A MAJOR IN HEALTH INTERVENTION AND DISASTER RESPONSE

REQUIREMENTS

The Bachelor of Science in Health Sciences with a major in health intervention and disaster response (HIDR) (<http://smhs.gwu.edu/crl/programs/hidr>) is an online degree completion program that requires successful completion of **120 credits**, 60 of which must be completed at GW. Up to 60 credits of coursework may be transferred from coursework taken elsewhere.

The following requirements must be fulfilled:

60 credits of general education and advanced standing including:

3 credits of English composition

4 credits of natural or physical science with lab

6 credits of social sciences

3 credits of humanities

44 credits of advanced standing*

Required

At least 60 credits of GW courses including

CML 2143 Current Issues/Hlth Sci Mgt

EHS 2211 Intro to Telemedicine

EHS 4101 Humanitarian Relief Ops

HSCI 2101 Psychosocial Aspects of Health and Illness

HSCI 2102 Pathophysiology

HSCI 2104 Management of Health Science Services

HSCI 2105 Current Issus in Bioethics

HSCI 2110 Disease Prev/Health Promotion

HSCI 2112W Writing in the Health Sciences

HSCI 2113 Informatics in the HSci

HSCI 2114 Healthcare/Developing Nations

HSCI 2115 Intro Biostatistics-Health Sci

HSCI 4102 Human Physiology/Extreme Enviro

HSCI 4106 Intro to Epidemiology for HS

HSCI 4112W Rsrch/Wrtng in Health Sciences

MLS 4114 Clinical Microbiology

MLS 4115 Parasitology and Mycology

MLS 4141 Immunology and Serology

Elective

Three of the following (advisor approval required)

CML 2142 Financial Mgt/Health Sciences

EHS 2175 Community Risk Management and Safety in EHS

EHS 4112 Special Ops and Disaster Mgt

HSCI 2103 Health Policy and the Health Care System

HSCI 2111 Dev/Health Care Professions

HSCI 4105 Case Studies in Health Care

*Additional academic coursework. Non-traditional credit sources may be considered on a case-by-case basis (i.e., military coursework, credit-by-exam, and non-college based health programs).

Transferring credits

Up to 60 credits of coursework may be transferable from coursework taken elsewhere. For an assessment on the transferability of your previous coursework, please contact the program office. Coursework will be evaluated for transfer using the following criteria:

- College-level
- Academic in nature
- Completed at a regionally accredited institution
- Earned with a grade of C or better (C- grades do not transfer)

BACHELOR OF SCIENCE IN HEALTH SCIENCES WITH A MAJOR IN MEDICAL LABORATORY SCIENCE

REQUIREMENTS

The Bachelor of Science in Health Sciences with a major in medical laboratory science (MLS) (<http://smhs.gwu.edu/crl/programs/mls>) is a degree completion program that is

offered in two formats: distance learning or a hybrid of distance learning/on campus.

The following requirements must be fulfilled: 120 credits, including a minimum 60 credits in required courses completed at GW and up to 60 credits of transfer credits in courses taken elsewhere. Eligible students admitted through approved SMHS Guaranteed Admission Agreements (<http://smhs.gwu.edu/academics/health-sciences-programs/guaranteed-admission-agreements>) partnerships must complete a minimum of 52 required credits at GW; eligibility is reviewed on a case-by-case basis.

60 credits of general education and advanced standing, including:

3 credits in English composition

8 credits in biology with lab*

8 credits general or inorganic chemistry with lab*

4 credits in microbiology with lab*

3 credits in organic chemistry or biochemistry*

3 credits in college mathematics (college algebra, statistics or higher)

3 credits in humanities

6 credits in social sciences

22 credits of advanced standing**

Requirements for the major

HSCI 2112W Writing in the Health Sciences

HSCI 4112W Rsrch/Wrtng in Health Sciences

MLS 4114 Clinical Microbiology

MLS 4115 Parasitology and Mycology

MLS 4118 Laboratory Operations

MLS 4120 Urinalysis & Body Fluids

MLS 4124 Clinical Microbiology II

MLS 4128 Hematology I

MLS 4129 Hematology II

MLS 4140 Clinical Laboratory Mgt

MLS 4141 Immunology and Serology

MLS 4145 Clinical Biochemistry

MLS 4150 Immunohematology

MLS 4151 Molecular Diagnostics

MLS 4155 Clinical Biochemistry II

MLS 4159 Capstone Seminar

Additional requirements for students in the fully online BSHS program

HSCI 2102 Pathophysiology

HSCI 2105 Current Issues in Bioethics

MLS 4136 Clinical Experience I

MLS 4137 Clinical Experience II

MLS 4138 Clinical Experience III

MLS 4139 Clinical Experience IV

One of the following:

HSCI 2101 Psychosocial Aspects of Health and Illness

HSCI 2107 Health Care in Literature

HSCI 4106 Intro to Epidemiology for HS

Additional requirements for students in the hybrid BSHS program

MLS 4160 Blood Bank Practicum

MLS 4161 Clinical Biochemistry Practicum

MLS 4162 Hematology Practicum

MLS 4164 Clinical Microbiology Practicum

MLS 4165 Urinalysis Practicum

MLS 4166 Coagulation Practicum

9 additional credits from the following:

MLS 4214 Clinical Microbiology I Laboratory

MLS 4215 Clinical Parasitology and Mycology Laboratory

MLS 4224 Clinical Microbiology II Laboratory

MLS 4228 Hematology I Laboratory

MLS 4229 Hematology II Laboratory

MLS 4250 Immunohematology Laboratory

MLS 4251 Molecular Diagnostics Laboratory

MLS 4245 Clinical Biochemistry I Laboratory

*Medical laboratory technicians (MLTs) may receive transfer credit for biological sciences, general microbiology, general chemistry, and organic chemistry/biochemistry courses.

**Additional academic coursework. Non-traditional credit sources may be considered on a case-by-case basis (i.e. military coursework, credit-by-exam, and non-college based health programs). Students should have previous coursework in ethics, and cultural or global perspectives.

BACHELOR OF SCIENCE IN HEALTH SCIENCES WITH A MAJOR IN PHARMACEUTICAL SCIENCES

REQUIREMENTS

The Bachelor of Science in Health Sciences with a major in pharmaceutical sciences (<http://smhs.gwu.edu/pths/programs/pharmaceutical-sciences>) is a degree completion program that requires successful completion of **129 credit hours**, 69 credits of which must be completed at GW. Up to 60 credits of coursework may be transferable from coursework taken elsewhere.

The following requirements must be fulfilled:

60 credits including:

3 credits of Calculus

3 credits of Communication

8 credits of Biology with lab

4 credits of Electives

6 credits of English Composition

8 credits of General Chemistry with lab

12 credits of Humanities and/or Social Sciences

4 credits of Microbiology with lab

8 credits of Organic Chemistry with lab

4 credits of Physics with lab

At least 69 credits of GW coursework including:

CRA 2101 Basics of Clinical Research

HSCI 2102 Pathophysiology

HSCI 2105 Current Issues in Bioethics

HSCI 2112W Writing in the Health Sciences

HSCI 2115 Intro Biostatistics-Health Sci

HSCI 3116 Genome-Based Med & Pharmacology

HSCI 4112W Rsrch/Wrtng in Health Sciences

PHAR 3170 Intro- Pharmacology/Toxicology

PHAR 3190 Prin of Molecular Medicine

PHRG 2141 Mol. Bio for Pharmacogenomics

PHRG 2142 Mol. Tech for Pharmacogenomics

PHRG 4152 Pharmaceutics I *

PHRG 4153 Pharmaceutics II *

PHRG 4154 Integrated Basic Hlth Sciences I *

PHRG 4155 Integrated Basic Hlth Sciences II *

PHRG 4156 Integratd Basic Hlth Sciences III *

PHRG 4157 Integrated Basic Hlth Sciences IV *

PHRG 4160 Integrated Basic Hlth Sci Lab I *

PHRG 4161 Integrated Basic Hlth Sci Lab II *

PHRG 4163 Pharmacogenomics Essentials *

PHRG 4169 Nonprescription Products *

PHRG 4172 Clin. Drug Info. Skills *

Elective tracks (one of the following)

Pharmacy practical skills track (required for SU's PharmD)

PHRG 4151 Intro to Pharmacy Practice Lab *

PHRG 4165 Patient Counseling and Comm *

PHRG 4167 Intro. Pharm. Pract. Exp. I *

PHRG 4168 Intro. Pharm. Pract. Exp. II *

PHRG 4170 Out. Pharm. Prac. Lab *

PHRG 4171 Sterile Compounding Lab *

Research track (recommended if pursuing Ph.D.)

HSCI 2103 Health Policy and the Health Care System

HSCI 4198 Mentored Res. I

HSCI 4199 Mentored Res. II

* Course taught by SU faculty and applied towards SU's PharmD.

Transferring credits

Up to 60 credits of coursework may be transferable from coursework taken elsewhere. For an assessment on the transferability of your previous coursework, please contact the program office. Coursework will be evaluated for transfer using the following criteria:

- College-level
- Academic in nature
- Completed at a regionally accredited institution
- Earned with a grade of C or better (C- grades do not transfer)

DUAL BACHELOR OF SCIENCE IN HEALTH SCIENCES AND MASTER OF SCIENCE IN HEALTH SCIENCES IN CLINICAL RESEARCH ADMINISTRATION

REQUIREMENTS

This multi-level online dual degree program offers academically qualified individuals a seamless and accelerated pathway for completing both the Bachelor of Science in Health Sciences (BSHS) in Clinical Research Administration and the Master of Science in Health Sciences (MSHS) in Clinical Research Administration (CRA) (<http://smhs.gwu.edu/crl/programs/cra>). Undergraduate and graduate degrees will be conferred sequentially, with the BSHS awarded upon completion of 120 credits (nine of which are taken for graduate credit). The MSHS is awarded following completion of an additional 27 credits of graduate course work.

BSHS in Clinical Research Administration

The BSHS with a major in Clinical Research Administration is a degree completion program that requires successful completion of 120 credits, divided into three degree components, 60 credits of which must be completed at GW. Up to 60 credits of course work may be transferable from course work taken elsewhere.

The following requirements must be fulfilled:

60 credits of general education and advanced standing including:

3 credits of English composition

4 credits of natural or physical science with lab

6 credits of social science

3 credits of humanities

44 credits of advanced standing*

*Additional academic coursework. Non-traditional credit sources may be considered on a case-by-case basis (i.e. military coursework, credit-by-exam, and non-college based health programs).

Requirements for the major:

At least 60 credits of GW coursework including:

Health sciences distance education courses

CRA 2101	Basics of Clinical Research
CRA 2102	Processes of Clinical Research
CRA 2103	Good Clinical Practices
CRA 2104	Business of Clinical Research

HCQ 6200	Introduction to Health Care Quality (*)
HCQ 6201	Building a Quality Culture
HCQ 6202	Health Care Quality Landscape
HCQ 6203	Quality Improvement Science
HCQ 6204	Health Care Quality Analysis
HCQ 6205	Patient Safety Systems
HCQ 6275	Leadership and Change
CML 6203	Health Info Quality & Outcomes

Course taken as an undergraduate and applied to both the BSHS and MSHS curriculum.

Transferring credits

Up to 60 credits of coursework may be transferable from coursework taken elsewhere. For an assessment on the transferability of your previous coursework, please contact the program office. Coursework will be evaluated for transfer using the following criteria:

- College-level
- Academic in nature
- Completed at a regionally accredited institution
- Earned with a grade of C or better (C- grades do not transfer)

DUAL BSHS IN CLINICAL RESEARCH ADMINISTRATION AND MSHS IN REGULATORY AFFAIRS

REQUIREMENTS

Please note the listed curriculum is accurate for Summer 2014. For students admitted after Summer 2014, please refer to the program website for the most current program of study.

This multi-level online dual degree program offers academically qualified individuals a seamless and accelerated pathway for completing both the Bachelor of Science in Health Sciences (BSHS) in Clinical Research Administration (CRA) (<http://smhs.gwu.edu/crl/programs/cra>) and the Master of Science in Health Sciences (MSHS) in Regulatory Affairs (RAFF) (<http://smhs.gwu.edu/crl/programs/regulatory-affairs/curriculum>). Undergraduate and graduate degrees will be conferred sequentially, with the BSHS awarded upon completion of 120 credits (9 of which are taken for graduate credit). The MSHS is awarded following completion of an additional 27 credits of graduate coursework.

BSHS in Clinical Research Administration

The BSHS with a major in Clinical Research Administration is a degree completion program that requires successful completion of **120 credit hours**, divided into three degree components, 60 credits of which must be completed at GW. Up to 60 credits of coursework may be transferable from coursework taken elsewhere.

The following requirements must be fulfilled:

60 credits of general education and advanced standing including:

3 credits of English composition

4 credits of natural or physical science with lab

6 credits of social sciences

3 credits of humanities

44 credits of advanced standing*

* Additional academic coursework. Non-traditional credit sources may be considered on a case-by-case basis (i.e. military coursework, credit-by-exam, and non-college based health programs).

Requirements for the major:

At least 60 credits of GW coursework including:

Health sciences distance education courses

CRA 2101 Basics of Clinical Research

CRA 2102 Processes of Clinical Research

CRA 2103 Good Clinical Practices

CRA 2104 Business of Clinical Research

CRA 2105 Topics in Clinical Research

DUAL BSBS IN EMERGENCY HEALTH SERVICES MANAGEMENT AND MSHS IN CLINICAL MANAGEMENT AND LEADERSHIP

REQUIREMENTS

Emergency Medical Services Management (<http://smhs.gwu.edu/crl/programs/ems>) students study up-to-date information on issues, theories and practices in emergency medicine, and investigate emergency service's role among other medical disciplines. Most courses have an applied project where the student role play as managers or administrators and handle a complex current issue. Students take core courses in the health sciences covering issues, trends and topics in health care systems, enterprises and leadership. Emergency Medical Services Leadership coursework focuses on response to high-impact emergencies, analysis of systems, the legal, regulatory and public information aspects of emergency management and strategic emergency management.

This multi-level dual degree program offers academically qualified individuals a seamless and accelerated pathway for completing both the Bachelor of Science in Health Sciences (BSBS) in Emergency Medical Services Management and the Master of Science in Health Sciences (MSHS) in either Clinical Management and Leadership or Emergency Medical Services Leadership (beginning in Summer/Fall 2014).

DUAL BSBS IN EMERGENCY MEDICAL SERVICES MANAGEMENT AND MSHS IN EMERGENCY MEDICAL SERVICES LEADERSHIP

BSBS in Emergency Medical Services Management

60 credits in general education and advanced standing electives completed prior to admission.

MINOR IN ANATOMY

The Department of Anatomy and Regenerative Biology (<http://smhs.gwu.edu/anatomy>) in the School of Medicine and Health Sciences (<http://smhs.gwu.edu>) offers courses that pertain to the 12-credit minor in human anatomy that is available to undergraduates across the University:

ANAT 2130 Human Embryology

ANAT 2150 Human Microscopic Anatomy

ANAT 2160 Human Functional Neuroanatomy

ANAT 2181 Human Gross Anatomy

MINOR IN CLINICAL RESEARCH ADMINISTRATION

REQUIREMENTS

Students must complete the required coursework with a 2.5 GPA or better. The minor requires successful completion of 15 credits.

Required

CRA 2101 Basics of Clinical Research

CRA 2102 Processes of Clinical Research

CRA 2103 Good Clinical Practices

HSCI 2105 Current Issus in Bioethics

Elective (choose one with advisor approval)

CRA 2104 Business of Clinical Research

HSCI 2103 Health Policy and the Health Care System

MINOR IN EMERGENCY HEALTH SERVICES

REQUIREMENTS

The minor in Emergency Health Services requires successful completion of at least 15 credits in two areas. Students must complete the required coursework with a 2.5 GPA or better.

Required

EHS 1040 Emergency Medical Tech-Basic *

EHS 1041 EMT - Basic Lab *

EHS 2174 Foundations of Emergency Health Services Systems

EHS 2175 Community Risk Management and Safety in EHS

Electives

At least five credits from the following:

EHS 1002 CPR & First Aid

EHS 2107 Theory&Prac ofRsch/ClinclSetng

EHS 2108 Emergency Med Clinical Scribe

EHS 2110 EmergDeptCritCareAsses&Proced.

EHS 2162 Intro Princpls/Tactical Med

EHS 2211	Intro to Telemedicine
EHS 4110	Operations Mgt in EHS Systems
EHS 4112	Special Ops and Disaster Mgt

*For students who already have EMT-Basic Certification, an elective can be used to replace the EHS 1040 and EHS 1041 requirement; the student needs a minimum of 4 additional elective credits to account for the waiver of EHS 1040 and EHS 1041. Please contact the program office for more information.

MINOR IN HEALTH SCIENCES

REQUIREMENTS

Students must successfully complete 15 credits of approved, health sciences courses. Students must complete the required coursework with a 2.5 GPA or better.

Required

HSCI 2101	Psychosocial Aspects of Health and Illness
HSCI 2102	Pathophysiology
HSCI 2103	Health Policy and the Health Care System
HSCI 2105	Current Issues in Bioethics

Elective

Selected in consultation with academic advisor

HSCI 4103	Health Care Law/Regulation
or HSCI 4105	Case Studies in Health Care

GRADUATE PROGRAMS

Master's programs

- Master of Science in Health Sciences in the field of clinical management and leadership (p. 993)
- Master of Science in Health Sciences in the field of clinical microbiology (p. 994)

One of the following

CRA 6208	International Clinical Rsrch
CRA 6209	Monitoring Clinical Research

Transfer credits

Up to six credits of previously earned graduate-level coursework may be accepted as transfer credit. Please contact the program office for the full policy and guidelines.

Official transfer credit evaluations are conducted only for admitted students.

MASTER OF SCIENCE IN HEALTH SCIENCES IN THE FIELD OF CLINICAL AND TRANSLATIONAL RESEARCH

REQUIREMENTS

The Master of Science in Health Sciences in the field of clinical and translational research (<http://smhs.gwu.edu/crl/programs/ctr>) is 36 credits:

The core (27 credits) program is designed to build researchers' necessary competencies in the field of translational research.

Elective courses (9 credits) are drawn from the four domains of basic and biomedical sciences, clinical research and administration, community health research, and health services research and policy. Students will choose their courses in consultation with an academic advisor.

Required

Clinical research courses

CRA 6201	Critical Analysis Clin Rsch
CRA 6205	Clinical Investigation

Graduate research courses

HSCI 6263	Biostatistics Transl Research
HSCI 6264	Epidemiology Translational Res
HSCI 6273	Bioinformatics for Genomics

Translational research courses

HSCI 6261	Fdtn in Clinical/Trans.Rsrch
HSCI 6262	Transdisciplinary Sem/Pract.
HSCI 6265	Grantsmanship in Trans Res
HSCI 6275	Transdisciplinary Rsrch Prop.

Electives

Nine credits selected in consultation with academic advisor

Transfer credits

Up to six credits of previously earned graduate-level coursework may be accepted as transfer credit. Please contact the program office for the full policy and guidelines.

Official transfer credit evaluations are conducted only for admitted students.

MASTER OF SCIENCE IN HEALTH SCIENCES IN THE FIELD OF EMERGENCY MEDICAL SERVICES LEADERSHIP

REQUIREMENTS

The Master of Science in Health Sciences in the field of emergency medical services leadership (<http://smhs.gwu.edu/crl/programs/ems>) requires successful completion of 36 credits, including 6 credits of research coursework, 9 credits of strategic leadership courses, and 21 credits in the field of emergency medical services.

Required

Graduate research courses

HSCI 6263 Biostatistics Transl Research

HSCI 6264 Epidemiology Translational Res

Strategic leadership courses

HSCI 6223 Topics -Health Care Leadership

Transfer credits

Up to six credits of previously earned graduate-level coursework may be accepted as transfer credit. Contact the program office for the full policy and guidelines.

Official transfer credit evaluations are conducted only for admitted students.

MASTER OF SCIENCE IN HEALTH SCIENCES IN THE FIELD OF IMMUNOHEMATOLOGY

REQUIREMENTS

Mission

The primary goal of the Master of Science in Health Sciences in the field of Immunohematology (<http://smhs.gwu.edu/crl/programs/military/immunohematology>) is to provide Blood Banking Specialists with an advanced degree. This is a military contract program. Our mission is to:

- Provide graduate courses in immunohematology through distance learning
- Facilitate the development of research skills
- Foster research in the area of immunohematology

Coursework

This degree program incorporates aspects of transfusion medicine at the graduate level with research methods, current topics in transfusion medicine, immunology, and molecular biology, as well as research in an area of immunohematology that culminates in a research project. Students pursuing the degree are required to complete 21 credits of GW online and research coursework and a total of 55 credits.

Required:

HSCI 6263	Biostatistics Transl Research
HSCI 6297	Indpendnt Study/Health Profess
MLS 6140	Advanced Laboratory Management
MLS 6141	Advanced Immunology and Serology
MLS 6151	Advanced Molecular Diagnostics
MLS 6203	Clinical Immunohematology I
MLS 6204	Clinical Immunohematology II
MLS 6207	Clinicl Pract: Blood Banking I
MLS 6208	Clinicl Pract: Blood BankingII
MLS 6209	Clinicl Pract:Blood BankingIII
MLS 6211	Hematopoiesis &Blood Pathophys
MLS 6212	Organiz & Mgt of Blood Banks
MLS 6213	Seminar in Immunohematology
MLS 6214	Specialized Practicum
MLS 6245	Current Topics in MLS

MLS 6246

Capstone Project

MASTER OF SCIENCE IN HEALTH SCIENCES IN THE FIELD OF MEDICAL LABORATORY SCIENCE

REQUIREMENTS

The Master of Science in Health Sciences in the field of medical laboratory science (MLS) (<http://smhs.gwu.edu/crl/programs/mls>) consists of 36 credits, including 15 credits in the field of medical laboratory science and a mentored research project, 6 credits of strategic leadership courses, 12 credits of graduate research coursework, and 3 credits of an elective.

Required

Medical laboratory science courses

MLS 6242	Molecular Pathology
MLS 6243	Education & Assessment in MLS
MLS 6244	Research Ethics & Integrity
MLS 6245	Current Topics in MLS
MLS 6246	Capstone Project

Strategic leadership courses

HSCI 6223	Topics -Health Care Leadership
HSCI 6241	The Health Care Enterprise

Graduate research courses

HSCI 6263	Biostatistics Transl Research
HSCI 6264	Epidemiology Translational Res
HSCI 6270	Resear Meth Hlth Prof I
HSCI 6271	Rsch Meth Hlth Prof II

Elective

3 credits selected, in consultation with program advisor, from existing online graduate courses in Medical Laboratory Sciences, Clinical Management and Leadership, Health Care Quality, Regulatory Affairs and Clinical Research Administration.

Transfer credits

Up to six credits of previously earned graduate-level coursework may be accepted as transfer credit. Contact the program office for the full policy and guidelines.

Official transfer credit evaluations are conducted only for admitted students.

MASTER OF SCIENCE IN HEALTH SCIENCES IN THE FIELD OF MOLECULAR DIAGNOSTIC SCIENCE

REQUIREMENTS

The Master of Science in Health Sciences (MSHS) in the field of molecular diagnostic science consists of 36 credits, including 27 credits of MLS coursework to develop a foundational understanding of molecular biology and biotechnology and to apply this knowledge through an internship or mentored research project, 3 credits of quantitative data analysis, 3 credits of leadership concepts in a clinical setting, and 3 credits in ethical implications and research.

Required

MLS 4118	Laboratory Operations
MLS 6141	Advanced Immunology and Serology
MLS 6219	Molecular Biology
MLS 6218	Genetics
MLS 6216	Microbial Pathogenesis
MLS 6242	Molecular Pathology
MLS 6217	Medical Biotechnology
HSCI 6263	Biostatistics Transl Research
MLS 6140	Advanced Laboratory Management
MLS 6244	Research Ethics & Integrity
MLS 6166	Molecular Diagnostics Practicum *
MLS 6245	Current Topics in MLS
MLS 6246	Capstone Project

* May be substituted with an elective for students with current clinical molecular laboratory experience.

The MSHS in Molecular Diagnostic Science prepares students with the theoretical knowledge and practical skills for positions in diagnostic clinical laboratories, public health laboratories, biotechnology companies, government agencies, law enforcement agencies, and research institutes. In addition, students who complete this program will be eligible to take the Molecular Biology Board of Certification examination offered by the American Society for Clinical pathology (ASCP). The curriculum will also ensure that graduates will be prepared to

pursue an advanced degree beyond the Master's level if they so choose.

MASTER OF SCIENCE IN HEALTH SCIENCES IN THE FIELD OF PHYSICIAN ASSISTANT

REQUIREMENTS

Master of Science in Health Sciences physician assistant program (<http://smhs.gwu.edu/pas>) focuses on preparing health professionals who will extend and complement the capabilities of physicians in the delivery of health care. The curriculum emphasizes a scholarly approach to medicine, development of organizational and critical-thinking skills, and evidence-based medicine.

Required

ANAT 6215	Anatomy for Health Sciences Students

Electives

Six credits of MLS electives selected with approval of program director

The MSHS in Translational Microbiology prepares students with the theoretical knowledge and practical skills for research positions in public health microbiology laboratories, biotechnology companies, government agencies and research institutes. By completing course work from various programs within Health Sciences, students will gain a working knowledge of both basic and clinical aspects of infectious disease and will graduate with the credentials needed to work in a clinical, basic or applied research setting. The curriculum will also ensure that graduates will be prepared to pursue an advanced degree beyond the Master's level if they so choose.

DOCTOR OF PHYSICAL THERAPY REQUIREMENTS

The DPT Program provides quality graduate education committed to developing generalist practitioners who are: reflective practitioners, who think critically and use best evidence to effectively solve problems; compassionate practitioners, who demonstrate excellence in communication and interpersonal skills, a respect for individual and cultural differences and the core values of the profession; and dedicated practitioners who value the tenets of lifelong learning.

The curriculum consists of 109 credits of professional course work requiring thirty-three months of full-time study beginning in the fall semester. It combines content from the foundational sciences, behavioral sciences, clinical sciences, professional practice expectations, practice management expectations, and critical inquiry. Students develop the skills needed to examine, evaluate, diagnose, prognose, develop a plan of care and implement and re-evaluate that plan of care for patients with dysfunction in the cardiopulmonary, musculoskeletal, neuromotor and integumentary systems across the lifespan.

The curriculum is built on the overarching principles of integration and application. Information is integrated and applied through a series of integrative units using "standardized patients" and Simulation Experiences. Clinical experiences are introduced early in the curriculum in the second and fourth semesters. Three full-time clinical internships occur in semesters six, seven, and eight for a total of 34 weeks of full time clinical experience. Internships are located regionally, nationally, and internationally providing depth and breadth to each student's unique educational experience.

Program of Study

Fall I Semester I

PT 8201	Functional Anatomy
PT 8311	Foundations of Examination
PT 8312	Foundations of Interventions
PT 8351	Professional Issues in Physical Therapy Health Care Management I
PT 8361	Clinical Conference I

Spring I Semester II

PT 8202	Applied Physiology
PT 8313	Therapeutic Modalities
PT 8352	Teaching in Physical Therapy Practice
PT 8203	Neuroscience in Rehabilitation I
PT 8271	Research in Practice
PT 8362	Clinical Conference II
PT 8483	Integrated Clinical Experience I
PT 8204	Movement Science I

Summer I Semester III

PT 8205	Movement Science II
PT 8206	Neuroscience in Rehabilitation II
PT 8207	Clinical Medicine and Pharmacology
PT 8363	Clinical Conference III
PT 8481	Interprofessional Community Practicum

Fall II Semester IV

PT 8315	Management of Musculoskeletal Dysfunction I
---------	---

PT 8208	Medical Imaging
PT 8318	Management of Neuromotor Dysfunction
PT 8323	Prosthetics & Orthotics
PT 8364	Clinical Conference IV
PT 8272	Research Seminar
PT 8484	Integrated Clinical Experience II

Spring II Semester V

PT 8316	Management of Musculoskeletal Dysfunction II
PT 8320	Management of the Pediatric Client
PT 8322	Management of the Aging Adult
PT 8314	Management of Cardiopulmonary Dysfunction
PT 8317	Management of Integumentary Dysfunction
PT 8365	Clinical Conference V

Summer II Semester VI

PT 8491	Clinical Internship I
PT 8366	Clinical Conference VI
PT 8321	Women's Health

Fall III Semester VII

PT 8492	Clinical Internship II
PT 8355	Professional Issues in Physical Therapy Health Care Management II
PT 8357	Capstone Seminar
PT 8356	Health Promotion and Wellness

Spring III Semester VIII

PT 8493	Clinical Internship III
---------	-------------------------

Full-time physical therapy clinical experience in a range of clinical settings. Integration and implementation of all aspects of patient/client management, professional practice expectations, and professional management expectations. Progress from advanced beginner to entry-level performance in the management of patients with non-complex problems across the life span.

CERTIFICATE PROGRAMS

Post-baccalaureate certificates

- Post-baccalaureate certificate in medical laboratory science (p. 1003)
- Post-baccalaureate certificate in blood banking for medical laboratory science (p. 1001)
- Post-baccalaureate certificate in chemistry for medical laboratory science (p. 1002)
- Post-baccalaureate certificate in hematology for medical laboratory science (p. 1002)
- Post-baccalaureate certificate in microbiology for medical laboratory science (p. 1003)
- Post-baccalaureate certificate in pre-medicine (p. 1003)

Graduate certificates

- Graduate certificate in clinical research administration (p. 1004)
- Graduate certificate in clinical and translational research (p. 1004)
- Graduate certificate in clinical research practice (p. 1004)
- Graduate certificate in health care quality (p. 1005)
- Graduate certificate in integrative medicine (p. 1005)
- Graduate certificate in regulatory affairs (p. 1005)

Military contract programs

- Undergraduate certificate in the field of health sciences laboratory science (military contract)

POST-BACCALAUREATE CERTIFICATE IN BLOOD BANKING FOR MEDICAL LABORATORY SCIENCE

REQUIREMENTS

The post-baccalaureate certificate in blood banking for medical laboratory science (MLS) requires completion of 17 credits of coursework. Completion of the certificate qualifies the graduate to take the Technologist in Blood Banking examination offered by national certifying agencies.

Admitted students complete required courses either on a part-time or full-time basis. Courses in the major are designed to broaden the student's foundation in the sciences in preparation

for the clinical phase of the program. All courses are taught online, with the exception of the clinical practica.

The clinical practica are usually taken on a full-time basis upon completion of didactic coursework. Students are typically in a clinical laboratory eight hours per day (daytime hours), five days per week. Admitted students must be able to fulfill the necessary time requirement for the practica.

Required

MLS 4118	Laboratory Operations
MLS 4141	Immunology and Serology
MLS 4128	Hematology I
MLS 4160	Blood Bank Practicum
MLS 4151	Molecular Diagnostics
MLS 4140	Clinical Laboratory Mgt

Clinical rotations, lasting between one to four weeks each, are completed at an approved clinical site. They may vary in length.

POST-BACCALAUREATE CERTIFICATE IN CHEMISTRY FOR MEDICAL LABORATORY SCIENCE

REQUIREMENTS

The post-baccalaureate certificate in chemistry for medical laboratory science (MLS) requires completion of 19 credits. Completion of the certificate qualifies the graduate to take the Technologist in Chemistry examination offered by national certifying agencies.

Admitted students complete required courses either on a part-time or full-time basis. Courses in the major are designed to broaden the student's foundation in the sciences in preparation for the clinical phase of the program. All courses are taught online, with the exception of the clinical practicum.

The clinical practicum is usually taken on a full-time basis upon completion of didactic coursework. Students are typically in a clinical laboratory eight hours per day (daytime hours), five days per week. Admitted students must be able to fulfill the necessary time requirement for the practicum.

Required

MLS 4118	Laboratory Operations
MLS 4141	Immunology and Serology
MLS 4145	Clinical Biochemistry
MLS 4155	Clinical Biochemistry II

MLS 4151	Molecular Diagnostics
MLS 4161	Clinical Biochemistry Practicum
MLS 4140	Clinical Laboratory Mgt

Clinical rotations are completed at an approved clinical site and vary in length, lasting between 1 to 4 weeks each.

POST-BACCALAUREATE CERTIFICATE IN HEMATOLOGY FOR MEDICAL LABORATORY SCIENCE

REQUIREMENTS

The post-baccalaureate certificate in hematology for medical laboratory science (MLS) requires completion of 17 credits. Completion of the certificate qualifies the graduate to take the Technologist in Hematology examination offered by national certifying agencies.

Admitted students complete required courses either on a part-time or full-time basis. Courses in the major are designed to broaden the student's foundation in the sciences in preparation for the clinical phase of the program. All courses are taught online, with the exception of the clinical practicum.

The clinical practicum is usually taken on a full-time basis upon completion of didactic coursework. Students are typically in a clinical laboratory eight hours per day (daytime hours), five days per week. Admitted students must be able to fulfill the necessary time requirement for the practicum.

Required

MLS 4118	Laboratory Operations
MLS 4141	Immunology and Serology
MLS 4128	Hematology I
MLS 4129	Hematology II
MLS 4151	Molecular Diagnostics
MLS 4162	Hematology Practicum
MLS 4166	Coagulation Practicum
MLS 4140	Clinical Laboratory Mgt

Clinical rotations are completed at an approved clinical site and vary in length, lasting between 1 to 4 weeks each.

POST-BACCALAUREATE CERTIFICATE IN MEDICAL LABORATORY SCIENCE

REQUIREMENTS

The Post-Baccalaureate Certificate in medical laboratory science (MLS) requires completion of 45 credits, divided into two components, 29 credits of MLS Courses and 16 credits of clinical practicum courses.

Admitted students complete required courses either on a part-time or full-time basis. Courses in the major are designed to broaden the student's foundation in the sciences in preparation for the clinical phase of the program. All courses are taught online, with the exception of the four months of clinical practica.

The clinical practica are usually taken on a full-time basis upon completion of didactic coursework. Students are typically in a clinical laboratory eight hours per day (daytime hours), five days per week. Admitted students must be able to fulfill the necessary time requirement for the practica.

Required

MLS 4114	Clinical Microbiology
MLS 4115	Parasitology and Mycology
MLS 4118	Laboratory Operations
MLS 4120	Urinalysis & Body Fluids
MLS 4124	Clinical Microbiology II
MLS 4128	Hematology I
MLS 4129	Hematology II
MLS 4140	Clinical Laboratory Mgt
MLS 4141	Immunology and Serology
MLS 4145	Clinical Biochemistry
MLS 4155	Clinical Biochemistry II
MLS 4150	Immunoematology
MLS 4151	Molecular Diagnostics
MLS 4159	Capstone Seminar
MLS 4160	Blood Bank Practicum
MLS 4161	Clinical Biochemistry Practicum
MLS 4162	Hematology Practicum

MLS 4164 ClinicalMicrobiology Practicum

MLS 4165 Urinalysis Practicum

MLS 4166 Coagulation Practicum

POST-BACCALAUREATE CERTIFICATE IN MICROBIOLOGY FOR MEDICAL LABORATORY SCIENCE

REQUIREMENTS

The post-baccalaureate certificate in microbiology for medical laboratory science (MLS) requires completion of 19 credits. Completion of the certificate qualifies the graduate to take the Technologist in Microbiology examination offered by national certifying agencies.

Admitted students complete required courses either on a part-time or full-time basis. Courses in the major are designed to broaden the student's foundation in the sciences in preparation for the clinical phase of the program. All courses are taught online, with the exception of the clinical practicum.

The clinical practicum is usually taken on a full-time basis upon completion of didactic coursework. Students are typically in a clinical laboratory eight hours per day (daytime hours), five days per week. Admitted students must be able to fulfill the necessary time requirement for the practicum.

Required

MLS 4114	Clinical Microbiology
MLS 4115	Parasitology and Mycology
MLS 4118	Laboratory Operations
MLS 4124	Clinical Microbiology II
MLS 4140	Clinical Laboratory Mgt
MLS 4141	Immunology and Serology
MLS 4151	Molecular Diagnostics
MLS 4164	ClinicalMicrobiology Practicum

Clinical rotations are completed at an approved clinical site and vary in length, lasting between 1 to 4 weeks each.

POST-BACCALAUREATE CERTIFICATE IN PRE-MEDICINE

The Post-Baccalaureate Certificate in Pre-Medicine (<http://smhs.gwu.edu/programs/postbac-premed>) is designed to provide students with the foundational coursework,

standardized test preparation, and access to real-world experience necessary for a successful medical school application. The full-time, 35 credit program on the Virginia Science and Technology Campus can be completed in a 12-month period.

Required

HSCI 3101	General Chemistry I
HSCI 3102	General Chemistry II
HSCI 3103	Organic Chemistry I
HSCI 3104	Organic Chemistry II
HSCI 3105	Biochemistry
HSCI 3201	Biology I
HSCI 3202	Biology II
HSCI 3301	Physics I
HSCI 3302	Physics II

GRADUATE CERTIFICATE IN CLINICAL RESEARCH ADMINISTRATION

REQUIREMENTS

Students in the Graduate Certificate in Clinical Research Administration (CRA) (<http://smhs.gwu.edu/crl/programs/cra>) program must successfully complete 15 credits in CRA and a 3 credit elective. All courses in this program are transferable to Master of Science in Health Sciences (MSHS) in CRA.

Required

CRA 6201	Critical Analysis Clin Rsch
CRA 6202	Medicines Development
CRA 6203	Partnerships w/Human Subjects
CRA 6204	The Clinical Research Industry
CRA 6210	MedicalWriting/ClinicalResrch

Elective

One of the following	
CRA 6208	International Clinical Rsrch
CRA 6209	Monitoring Clinical Research
HCQ 6201	Building a Quality Culture

HSCI 6263	Biostatistics Transl Research
HSCI 6264	Epidemiology Translational Res

GRADUATE CERTIFICATE IN CLINICAL RESEARCH PRACTICE

REQUIREMENTS

The graduate certificate in Clinical Research Practice capitalizes on the foundational courses of clinical research, health informatics, epidemiology, and biostatistics to prepare the graduate with the requisite knowledge and skills to conduct clinical research in collaboration with sponsored research programs. The program requires successful completion of 18 credits, including 6 credits in clinical research, 9 credits in graduate research, and 3 credits in electives.

The program of study has been drawn from the core program of study of the MSHS program (<http://smhs.gwu.edu/crl/programs/ctr/curriculum/mshs>).

Required

CRA 6201	Critical Analysis Clin Rsch
CRA 6205	Clinical Investigation
HSCI 6263	Biostatistics Transl Research
HSCI 6264	Epidemiology Translational Res
HSCI 6273	Bioinformatics for Genomics

Electives

3 credits of electives selected in consultation with the academic advisor	
---	--

GRADUATE CERTIFICATE IN CLINICAL AND TRANSLATIONAL RESEARCH

REQUIREMENTS

The graduate certificate in Clinical and Translational Research has been designed to meet the professional development needs of researchers who cannot make the time commitment needed to fulfill the requirements of the full master's degree program. The program requires successful completion of 18 credits, including 6 credits of clinical research coursework and 12 credits of translational research coursework. All courses from the graduate certificate are transferable into the MSHS program (<http://smhs.gwu.edu/crl/programs/ctr/curriculum/mshs>).

The program of study has been drawn from the core program of study of the MSHS program (<http://smhs.gwu.edu/crl/programs/ctr/curriculum/mshs>).

Required

CRA 6201	Critical Analysis Clin Rsch
CRA 6205	Clinical Investigation
HSCI 6261	Fdtn in Clinical/Trans.Rsrch
HSCI 6262	Transdisciplinary Sem/Pract.
HSCI 6265	Grantsmanship in Trans Res
HSCI 6275	Transdisciplinary Rsrch Prop.

Electives

3 credits of electives selected with academic advisor

GRADUATE CERTIFICATE IN HEALTH CARE QUALITY

REQUIREMENTS

The graduate certificate in health care quality requires successful completion of 18 credits, including: 3 credits of a professional core course and 15 credits in the field of health care quality. All semester credits earned in this program are transferable to the Master of Science in Health Sciences program in Health Care Quality.

Required

HCQ 6200	Introduction to Health Care Quality
HCQ 6201	Building a Quality Culture
HCQ 6202	Health Care Quality Landscape
HCQ 6203	Quality Improvement Science
HCQ 6204	Health Care Quality Analysis
HCQ 6205	Patient Safety Systems

GRADUATE CERTIFICATE IN INTEGRATIVE MEDICINE

REQUIREMENTS

Required

HSCI 6241	The Health Care Enterprise
INTM 6201	Foundations in Integrative Medicine

INTM 6202	Self Care Methods in Integrative Medicine
INTM 6203	Nutritional Metabolism and Environmental Exposure
INTM 6204	Metabolic Networks in Integrative Medicine
INTM 6205	Clinical Genomics, Proteomics, & Metabolomics
INTM 6206	Legal and Medical Ethics in Integrative Medicine
INTM 6210	Practical Application of Integrative Medicine I

GRADUATE CERTIFICATE IN REGULATORY AFFAIRS

REQUIREMENTS

The graduate certificate in Regulatory Affairs requires successful completion of 18 credits including 15 credits in regulatory affairs and 3 credits of graduate research. All credits earned in this program are transferable to the Master of Science in Health Sciences in the field of Regulatory Affairs.

Required

HSCI 6263	Biostatistics Transl Research
RAFF 6201	Introduction to Global Regulatory Affairs
RAFF 6202	Regulatory Drug Biologics
RAFF 6203	Regulatory Device Diagnostics
RAFF 6204	Clinical Research for Regulatory Affairs
RAFF 6205	Regulatory Affairs Compliance

SCHOOL OF ENGINEERING AND APPLIED SCIENCE

Dean D.S. Dolling

Associate Deans R. Riffat, B. Narahari, C.E. Korman

The School of Engineering and Applied Science (SEAS) was organized in 1884 as the Corcoran Scientific School of Columbia University, named in honor of William W. Corcoran, president of the University's Board of Trustees from 1869 to 1888. The school was among the first to accept women for degree candidacy in engineering. While the organization and offerings of the school have evolved over the years, throughout most of its history its programs have been characterized by an emphasis on principles guiding the advancement of technology.

The School offers the Bachelor of Science, Bachelor of Arts, Master of Science, Doctor of Philosophy, Doctor of Engineering and the professional degrees of Engineer and Applied Scientist through its six departments—Biomedical Engineering, Civil and Environmental Engineering, Computer Science, Electrical and Computer Engineering, Engineering Management and Systems Engineering, and Mechanical and Aerospace Engineering. In addition, the school offers several graduate certificate programs, as well as a combined bachelor's/master's degree program.

Research centers and institutes provide opportunities for students and faculty to strengthen ties with counterparts in government and industry and contribute to the development and harnessing of emerging technology. Extensive and varied laboratories and computing facilities support the academic programs. The School strongly supports co-curricular activities to broaden and deepen its students' overall educational programs, including an extensive array of internship opportunities at government laboratories and private companies in the Washington, D.C., area and elsewhere. Other co-curricular opportunities include engineering-type team competitions, research projects, and the SEAS student government organization, the Engineers' Council.

REGULATIONS

- Undergraduate Programs (p. 1006)
- Master's Programs (p. 1008)
- Professional Degrees (p. 1011)
- Doctoral Programs (p. 1011)

Undergraduate Programs

Residence

The Residence Requirement under University Regulations (<http://bulletin.gwu.edu/university-regulations>) is applicable to all SEAS undergraduate students.

Advising

SEAS practices a hybrid advising system. Every entering undergraduate student is assigned a professional advisor to assist with the transition to the University. Faculty advisors are assigned at the end of the first year to counsel students on their programs of study, achievement and maintenance of satisfactory scholastic performance, professional development, and extracurricular activity as part of the educational process. Until all work required for the degree is completed, students must consult with their faculty advisors in all academic matters, including obtaining the advisor's approval of their program of study prior to registration for each academic semester and summer session. The faculty advisor also must approve any course that the student wishes to take at another institution before the student may register for the course. The faculty advisor represents the student in all cases requiring faculty action. However, the faculty advisor may not deny entry into any course or activity to which the student is entitled under the regulations of the School. Students may consult other members of the faculty on an informal basis.

Assignment of Transfer Credit

See Earning Transfer Credit after Matriculation under University Regulations (<http://bulletin.gwu.edu/university-regulations>).

Credit by Examination

See the Undergraduate Admissions website for information on bringing credit to GW (<https://undergraduate.admissions.gwu.edu/bringing-credit-gw>).

Mathematics Placement

All incoming first-year students are required to take a proficiency examination, which places them in either MATH 1220 or MATH 1231. Visit the math placement exam webpage (<https://math.columbia.gwu.edu/gw-mathematics-placement-test>) for more information.

Makeup of Credit for Waived Courses

Waiver of a required course requires approval of the student's faculty advisor and department chair. If a course required by the SEAS curriculum is waived, the corresponding credits must be earned by satisfactory completion of a university-level academic course, either technical or nontechnical, approved by the student's faculty advisor. The grade earned will be used in determining the SEAS GPA only if the substituted course would normally be considered part of the student's curriculum.

Scholarship Requirements

To be eligible for graduation a student in SEAS must have:

- A minimum overall GPA of 2.0.
- A minimum overall GPA of 2.0 in their SEAS program.
- A minimum GPA of 2.2 for technical courses required in the fifth through eighth semesters.

- Completed all degree and University General Education requirements.

All computer science courses taken to meet the degree requirements of the Bachelor of Arts or Bachelor of Science in computer science are considered technical for this purpose.

Academic Standing

All students are required to maintain a minimum GPA and adhere to certain grade thresholds to remain in good academic standing. Refer to Academic Standing regulations outlined under University Regulations for more information.

Incompletes

Conditions under which the symbol *I* (Incomplete) may be assigned are described under University Regulations. If the *I* is not changed to a letter grade within 30 days, decisions on probation, removal from probation, and suspension will be made with the information on hand, in conformance with SEAS regulations. Although the *I* may remain on the record for a maximum of one year, the instructor should normally set a much briefer period within which the uncompleted work (usually the final examination or required paper) must be made up. The *I* cannot be removed by the student's re-registering for the course at GW or taking its equivalent elsewhere. An *I* that is not removed after one calendar year or at the time of the student's graduation, whichever occurs first, will be changed on the permanent record to a grade of *F*. As of fall 2014, when the *I* is changed to a letter grade the letter grade will appear on the student's record. The grade for which the *I* is changed will be applied to the grade report for the semester or summer session during which the change is made for the purposes of determining probation, suspension, GPA, and Dean's and other honor lists.

Pass/No Pass Grading System

SEAS students may not take required courses on the Pass/No Pass grading system. They may, however, take courses outside their regular SEAS academic program on a *P/NP* basis.

Academic Workload

SEAS adheres to all academic workload regulations outlined under University Regulations. In exceptional cases these limits may be exceeded with the faculty advisor's approval of the student's Petition for Exception to Academic Policy (<http://www.seas.gwu.edu/forms>).

Humanities and Social Science Electives

With the assistance of the advisor, each student in a SEAS B.S. program chooses a set of elective courses in the humanities and social sciences. For most B.S. curricula, these normally consist of a minimum of 18 credits, divided equally between the humanities and social sciences. At least one of the humanities and two of the social science electives must be selected from a list of approved general education courses.

Since the SEAS curricula are, by necessity, oriented toward technical subjects, the humanities and social sciences electives should be courses that broaden the student's outlook. This includes courses in areas such as anthropology, economics, foreign languages, geography, history, literature, philosophy, political science, psychology, and sociology. A full menu of courses is available on the SEAS website (<http://www.seas.gwu.edu/forms>).

In addition, when a foreign language is taken as part of the humanities requirement, the following rules apply:

- The foreign language studied may not be a native language of the student, unless the courses taken are literature courses.
- If the student has studied the language previously, he or she must first take a placement test given by the language department concerned and enroll in a course recommended by that department.
- The advisor must approve the program.

Bachelor of Science Degree Programs

Students should consult the department concerned for total credit requirements for the degree programs. The listed curricula assume that all elective courses are offered for at least 3 credits. Credits for Lifestyle, Sport, and Physical Activity (LSPA) courses cannot be counted toward the degree.

Bachelor of Arts Degree Programs

SEAS offers a Bachelor of Arts degree with majors in applied science and technology and in computer science. Each program provides a strong and level base for students who intend to make their careers in fields allied to science and technology or computer science. The curriculum requirements for these programs can be viewed under the Undergraduate tab in this section of the Bulletin.

Special Programs

A number of combined 5-year degree programs are available to select SEAS students. These include a B.S./M.S. in civil engineering, mechanical engineering, and systems engineering; B.A. or B.S. and M.S. in computer science or in cybersecurity in computer science; B.S./M.S. in biomedical engineering, computer engineering, or electrical engineering; and B.S. in computer engineering, computer science, electrical engineering, or systems engineering and M.S. in engineering management. In addition, students may complete a 5-year degree in the following cross disciplines: B.S. in biomedical engineering and M.S. in computer engineering, B.S. in electrical engineering and M.S. in computer engineering, and B.S. in computer engineering and M.S. in electrical engineering.

Double Major

Information on declaring and graduating with a double major is outlined under University Regulations. Students who complete the requirements for two SEAS majors may graduate with a double major, provided the majors are in different

departments. SEAS students may also pursue a second major in another school in the University but must adhere to any requirements outlined by that school or department. SEAS students must consult both their SEAS faculty advisor and an advisor in the department offering the second degree. To officially declare a second major, students must complete a Declaration of Second Major (<http://www.seas.gwu.edu/forms>) form and have it signed by both their SEAS faculty advisor and the second major department advisor.

Students from other schools of the University may pursue a second major in one of the six SEAS departments. However, they must consult the department for both eligibility and curriculum requirements before planning to declare the second major. There is a limitation on how many courses may be double counted, which is outlined under University Regulations.

The degree is earned from the home school, and students must complete the major in their own school in order to graduate. In no case will a double major result in two degrees.

For more information see Double Majors and Double Counting Credits Toward Two Majors or Minors under University Regulations.

Minors

SEAS offers to all students a variety of minors, including biomedical engineering, computer engineering, computer science, and electrical engineering. The School may require students to meet certain eligibility requirements to declare the minor. SEAS also offers minors in systems engineering and mechanical engineering, which are available to SEAS students only. SEAS students may only declare a minor outside their department and must consult their faculty advisor before enrolling in a minor in another school of the University.

SEAS students who wish to declare a minor officially should complete a Declaration of Minor form (<http://www.seas.gwu.edu/forms>), which must be signed by both their SEAS faculty advisor and the minor department advisor. Depending on the student's major, additional credits beyond the minimum required for the minor may be required. Student from schools other than SEAS should email seasadvising@gwu.edu for more information about requirements and eligibility criteria before requesting to declare a minor through the department.

Internal Transfer to SEAS

Current GW students wanting to transfer to SEAS must complete all requirements outlined on the Registrar's website for Undergraduate Internal Transfers by the specified deadlines.

University Regulations

All SEAS students are required to review the University Regulations (<http://bulletin.gwu.edu/university-regulations>)

as outlined in the Bulletin, as they are responsible for understanding and adhering to this document.

Graduate Programs

Degree Programs

Fields of graduate study offered by SEAS include biomedical engineering, civil and environmental engineering, computer engineering, computer science, electrical engineering, engineering management, mechanical and aerospace engineering, systems engineering, and (at the M.S. level only) cybersecurity in computer science and telecommunications engineering. Degree requirements and representative areas of focus within each field are listed in this section of the Bulletin. In some fields, students may choose to focus their course work in other specialties as well. For information on certificate, professional and, doctoral degree studies in a given field, students should contact the relevant department.

Entrance requirements are outlined under individual degree programs. The following information pertains to all SEAS graduate and certificate programs.

Transfer of Credit

With the approval of the student's advisor and department chair, graduate credit earned at a level of study equivalent to that being pursued at GW may be transferred, when applicable, to meet degree requirements of the School. For a master's or professional degree candidate, or a doctoral candidate whose highest earned degree is a master's, up to 6 credits may be transferred. For a doctoral candidate whose highest earned degree is a bachelor's, up to 24 credits may be transferred. In all cases, credits must have been completed with a minimum GPA of 3.0 at another accredited and recognized institution. The professional and doctoral degree programs require that the credit be earned no more than five years prior to admission to the GW program, and some departments require that it be earned more recently. Credit applied toward a previously earned degree may not be transferred. Transfer of credit regulations apply to courses taken as a non-degree student through GW's Office of Non-Degree Students; that is, up to 6 credits may be taken in non-degree status before applying for admission to degree status. For purposes of transfer of credit, SEAS graduate certificate programs are not considered prior degrees. At the discretion of the department concerned, the credits earned in a SEAS certificate program may be applied to a subsequent master's degree program.

English Language Requirements for International Students

Applicants who are not citizens of countries where English is the official language or who do not hold a degree from a regionally accredited U.S. institution of higher learning are required to submit scores from the Test of English as a Foreign Language (TOEFL), the academic International English Language Testing System (IELTS), or the Pearson Test of English–Academic (PTE). Visit the SEAS Graduate

Admissions website (<http://graduate.seas.gwu.edu/admissions-requirements>) for possible exemptions from this policy. The required minimum score for admission is 550 paper-based or 80 Internet-based on the TOEFL, an overall band score of 6.0 on the IELTS with no individual band score below 5.0, or a score of 53 on the PTE. The Department of Engineering Management and Systems Engineering requires a TOEFL score of 600 paper-based or 100 internet-based, or an overall band score of 7.0 on the IELTS with no individual band score below 6.0, or a score of 68 on the PTE. Applicants for graduate teaching assistantships must have a minimum score of 600 paper-based or 100 Internet-based on the TOEFL, an overall band score of 7.0 on the IELTS with no individual band score below 6.0, or a score of 68 on the PTE.

Undergraduate and graduate international students whose TOEFL, IELTS, or PTE scores fall below established cut-off points are required to take one or more courses in the English for Academic Purposes (EAP) Program. Both undergraduate and graduate students receive credit for EAP courses; however, in most cases graduate EAP credits cannot be applied to a degree. Graduate students placed in EAP courses should anticipate additional tuition expenses as well as possible extension of time needed to complete their degree programs. For detailed information concerning this requirement consult the English for Academic Purposes Program website.

Grades

Information on grades and computing the grade-point average (GPA) is found under University Regulations (<http://bulletin.gwu.edu/university-regulations>).

Incompletes

At the option of the instructor, the symbol of *I* (Incomplete) may be recorded if a student, for reasons beyond his or her control, is unable to complete the work of the course and if the instructor is informed of and approves such reasons before the date when grades must be reported. The symbol *I* may be recorded only if the student's prior performance and class attendance in the course have been satisfactory. Any course in which a student fails to complete the work of the course and does not provide the instructor with a satisfactory explanation before the date when grades must be turned in will be graded *F*. If acceptable reasons are later presented, the instructor may initiate an appropriate grade change. Although the *I* may remain on the record for a maximum of one year, the instructor should normally set a much briefer period within which the uncompleted work must be made up. The *I* cannot be removed by the student's reregistering for the course at GW or taking its equivalent elsewhere. An Incomplete that is not removed within one calendar year or at the time of the student's graduation, whichever occurs first, is automatically changed to an *IF*. As of fall 2014, when the *I* is changed to a letter grade the *I* will be replaced by the letter grade on the transcript. Engineering Management and Systems Engineering students with two or more outstanding Incompletes are

barred from further course enrollment; see Incompletes under University Regulations regarding continuous enrollment.

Credit/No Credit Grading System

SEAS students may take SEAS courses under the credit/no credit grading system, but credit for such courses cannot be applied toward any degree program in SEAS.

Educational Planner

In consultation with the academic advisor, each student develops an Educational Planner through DegreeMAP that governs the student's degree requirements. The Educational Planner should be established soon after matriculation and must be completed before the end of the student's first semester. The Educational Planner must be approved by the advisor and department chair.

Residence and Continuous Enrollment

All work for the degree must be done in residence unless an exception is granted by the department chair. Students in a degree program are expected to be continuously enrolled in the School until the degree is conferred. To maintain continuous enrollment, students may register in one of the following categories. See Residence and Continuous Enrollment under University Regulations (<http://bulletin.gwu.edu/university-regulations>).

Leave of Absence

This status is available to students who, with special permission, are attending classes at another institution; who are temporarily transferred out of the area, e.g., for military TDY; or who are having temporary medical problems. A leave of absence is usually limited to two semesters. See Leave of Absence under University Regulations (<http://bulletin.gwu.edu/university-regulations>).

Continuing Research

Students who have completed their research credits, but are not yet ready to defend a thesis or dissertation, must register for 1 credit of SEAS 0920 (Continuing Research-Master's) each semester as appropriate.

Examination Preparation

Students who are studying for a comprehensive or qualifying examination for the current or following semester, and are not taking any courses, must register for 1 credit of SEAS 0930 (Examination Preparation) as appropriate. A student who breaks his or her registration must apply for readmission to the degree program under whatever conditions and regulations are in force at that time.

Master of Science

The M.S. degree is offered in the fields of biomedical engineering, civil and environmental engineering, computer engineering, computer science, electrical engineering,

engineering management, mechanical and aerospace engineering, systems engineering, cybersecurity in computer science, and telecommunications engineering. Each field in turn encompasses several areas of focus. The course of study responds to the unique interests of the student, who designs an individual program in close consultation with an assigned advisor. In most areas, students follow a prescribed core and approved elective courses from within SEAS and from other schools of the University. Because engineering expertise includes a broad foundation in technology, engineering students may profit from study in other academic areas to sharpen their focus in practice. Students must satisfy, through undergraduate studies or otherwise, either the prerequisites specified for the desired field or approved equivalents.

Entrance Requirements

Admission to the Master of Science degree program requires an appropriate bachelor's degree from a recognized institution and evidence of a strong academic background and capacity for productive work in the field selected. All applicants must submit scores from the Graduate Record Examination (GRE) general test, with the exception of applicants from SEAS undergraduate programs and those applying to special cohort and contract programs. In general, a minimum GPA of 3.0 (on a 4.0 scale) in the last 60 hours of undergraduate course work is required. Students must submit a statement of purpose and a minimum of two letters of recommendation, which may be from the student's advisor, faculty member(s) from the institution where the highest degree was earned, and/or workplace supervisor. Visit the Graduate Admissions website (<http://www.gwu.edu/gradapply>) for more information.

Graduation Requirements

To meet graduation requirements, courses specified in a student's Educational Planner through DegreeMAP must be completed with a minimum GPA of 3.0. This is in addition to the requirements specified for graduation under University regulations. Courses specified upon admission as deficiency or prerequisite courses do not form part of the program of study. Students who receive two grades of *F* or three grades below *B-* are barred from further enrollment in graduate courses and will not be readmitted as a degree candidate. Students may not repeat for credit a course in which they have received a grade of *C-* or above, unless required to do so by the department chair. A written statement requiring a student to repeat such a course for credit must be submitted to the registrar by the department chair. See further graduation policies under University Regulations (<http://bulletin.gwu.edu/university-regulations>).

Time Limits

Full-time students in the master's program are allowed a maximum of three calendar years from the date of first registration as a degree candidate in prerequisite or graduate courses to complete all degree requirements; this time limit excludes any time spent taking English for Academic Purposes

courses only. Part-time students in the master's program are allowed a maximum of five calendar years. The time limit does not include any period of registration as an unclassified student before admission to degree candidate status or any period spent on approved leave of absence. Students on F1 or J1 visas and students with external funding may have different time limits. Students who do not complete degree requirements within the allowed time will have their degree candidate status terminated. They may be readmitted to degree candidate status under conditions specified by the department chair and approved by the dean.

Master's Thesis

The master's thesis must demonstrate a student's ability to make independent use of the knowledge and discipline of thought acquired through graduate study, to undertake constructive work in a given field, and to communicate the results of the work in writing. Suitable work for which the student has professional responsibility may be considered, whether done on or off campus, provided no significant amount of work is completed without faculty supervision. An accepted thesis is the property of the University.

To register for the thesis course sequence, students must submit their advisor-approved thesis area to the appropriate department chair. At the beginning of the semester of expected graduation, students must submit their thesis title to the dean. Both submissions must be made on the appropriate form available in the Graduate Student Services Center. While registered in the thesis course sequence, students are entitled to the advice of the faculty member under whom the thesis is to be written. Students may consult with their advisors, but they have primary responsibility for their own thesis. Students defend their theses orally before a committee of SEAS faculty members.

Graduate Certificates

Entrance Requirements

Admission to SEAS certificate programs requires an appropriate bachelor's degree from a recognized institution and evidence of a strong academic background and capacity for productive work in the field selected. All applicants must provide an online application, statement of purpose, and resume and/or curriculum vitae. In general, a minimum GPA of 3.0 (on a 4.0 scale) in the last 60 hours credits of undergraduate course work is required. Certificate applicants are not required to submit letters of recommendation. Visit the Graduate Admissions website (<http://www.gwu.edu/gradapply>) for more information.

Graduation Requirements

In order to receive the graduate certificate students must have a minimum GPA in courses specified in their Educational Planner through DegreeMAP. Courses specified upon admission as deficiency or prerequisite courses do not form part of the program of study. Students who receives two

grades of *F* or three grades below *B-* are barred from further enrollment in graduate courses, and will not be readmitted as a candidate. Students may not repeat for credit a course in which they have received a grade of *C-* or above, unless required to do so by the department chair. A written statement requiring a student to repeat such a course for credit must be submitted to the registrar by the department chair. Additional information regarding graduation requirements may be found under University Regulations (<http://bulletin.gwu.edu/university-regulations>).

The thesis in final form must be submitted by the stated deadline. In the event a thesis is unfinished on the date specified, the student must register for SEAS 0920 (Continuing Research - Master's). The overall time limit for earning the degree (see Time Limits, above) may not be exceeded. All theses must be submitted electronically and meet the formatting and other requirements set forth on GW's Electronic Theses and Dissertations Submission website (<http://library.gwu.edu/etds>). Additional information regarding thesis requirements and dates may be found under University Regulations (<http://bulletin.gwu.edu/university-regulations>).

Professional Degrees

The SEAS professional degree programs are designed for those students who wish to pursue course work beyond the master's degree with emphasis on applied subject material rather than on basic research. Successful completion of the professional degree program leads to the degree of Engineer or of Applied Scientist.

For admission to the degree of Engineer, an applicant must have earned both a bachelor's and master's degree in an area of engineering. For the degree of Applied Scientist, an applicant must possess a master's degree in engineering, computer science, natural science, or mathematics. Applicants who have an equivalent quantitative background may be considered as special cases by the respective departments.

Entrance requirements may vary by department within SEAS. A minimum GPA of 3.0 in graduate work is usually required, although individual departments often set higher admission standards. Some programs have specified prerequisites. An applicant who has significant deficiencies in preparation may be required to take prerequisite courses, which do not count toward any part of the requirements for the professional degree. The Departments of Computer Science and Electrical and Computer Engineering require applicants for the professional degree to have had two years of professional experience after receiving the master's degree. For specific entrance and application requirements see Master's Degree.

The professional degree programs consist of a minimum of 30 credits in approved graduate-level courses beyond a master's degree. Programs of study are determined by established prerequisites and the requirements of the department in which the student wishes to enroll. The student's program must be approved by the faculty advisor and the department chair.

Departments may require degree candidates to undertake and defend the results of a technical design project or development problem, or to prepare a comprehensive technical report to demonstrate the candidate's ability to make independent use of the knowledge and discipline of thought acquired through graduate study. When applicable, the student will be informed of this requirement by the faculty advisor at the time when the student's program is being formulated. The project may not account for more than 6 credits.

If a student studying for the professional degree receives two grades of *F* or three grades below *B-*, study is terminated and further enrollment prohibited. A student must have a minimum of GPA of 3.0 in order to receive the degree. The Department of Engineering Management and Systems Engineering requires a final GPA of at least 3.4.

A full-time student in the master's program is allowed a maximum of three calendar years from the date of first registration as a degree candidate in prerequisite or graduate courses to complete all degree requirements. A part-time student is allowed a maximum of five calendar years. The time limit does not include any period of registration as an unclassified student before admission to degree candidate status or any period spent on approved leave of absence. Students who do not complete degree requirements within the allowed time will have their degree candidate status terminated. Such students may be readmitted to degree candidate status under conditions specified by the department chair.

Doctoral Programs

Doctor of Philosophy

The doctoral program is designed to prepare students for careers of creative scholarship by providing a broad but balanced background of knowledge and guidance in the performance of research. The program is divided into two stages: the first comprises a study of related fields of learning that support the general area of research concentration and culminates in a qualifying examination; the second, composed of original research and the presentation of findings in a written dissertation, culminates in a final examination.

Admission to the Ph.D. program requires an appropriate bachelor's or master's degree from a recognized institution, evidence of a strong academic or relevant professional background, course work designated by the department as pertinent to the field to be studied, and capacity for research. With the exception of applicants from SEAS B.S. and M.S. programs, applicants must submit scores from the Graduate Record Examination (GRE) general test and a minimum of three letters of recommendation, at least one of which should be from the advisor and/or faculty members at the institution(s) from which a degree was earned. Students for whom the bachelor's is the highest earned degree must have a minimum GPA of 3.3 (on a 4.0 scale) in undergraduate

work. Students for whom the master's is the highest earned degree, departmental requirements for the GPA in course work leading to that degree are as follows (on a 4.0 scale): Civil and Environmental Engineering, Electrical and Computer Engineering, and Mechanical and Aerospace Engineering—3.4; Computer Science, and Engineering Management and Systems Engineering—3.5. Consult the department concerned for field-specific admission requirements.

Upon admission to the first stage of the program—study of related fields culminating in the qualifying examination—students are assigned a faculty advisor who directs his or her studies. In some departments, a faculty committee may be appointed instead of a single advisor. Programs of study are structured to include a major field and two minor or supporting fields. Consult the department concerned for requirements.

For students who enter the program with a master's degree, the formal program of study consists of a minimum of 30 graduate-level credits. For students who enter with a bachelor's degree only, the program of study consists of a minimum of 54 graduate-level credits. These credits include both course and dissertation research credit. Individual requirements may vary by department. In many cases, particularly when the student undertakes a doctoral program in a field other than that in which the earlier degree was earned, the program of study exceeds the minimum number of credits stated above. Departments may establish a tool requirement, such as an examination in a computer language. Consult the department concerned for specific curriculum requirements.

If a doctoral student receives two grades of *F* or three grades below *B-*, graduate study is terminated and further enrollment prohibited. Courses in which the student earned grades below *B-* are not included in the total credit requirement for the degree. Students who receive any grade below *B-* are required to review their programs of study with their advisors.

In general, one year of full-time study is the minimum amount of time needed to prepare for the qualifying examination. Students should consult the individual department for specific timelines and regulations. The qualifying examination must be completed within five years of the date of admission, and the entire degree program must be completed within seven years, unless the department grants an extension. Approval of an extension is conditional on satisfactory progress. The time period for completion of the degree may be adjusted by the department for an approved leave of absence. A minimum of two years of full-time study and research should be expected. All time periods indicated here are increased by two years for students entering the doctoral program without a master's degree.

Full-time doctoral students must register for a minimum of 9 credits per semester until the minimum number of credits are completed, and 1 credit of SEAS 0940 (Continuing Research - Doctoral) each semester thereafter until satisfactory completion of the final examination. Part-time doctoral students usually

register for a minimum of 6 credits per semester until the minimum number of credits is completed, and 1 credit of Continuing Research each semester thereafter until satisfactory completion of the final examination. No minimum course load is required during the summer sessions.

Preliminary and Qualifying Examinations

The Department of Computer Science requires a preliminary examination that must be passed within four semesters of starting the program. It comprises material from the areas of algorithms and theory, and software and systems.

The Department of Electrical and Computer Engineering requires a preliminary examination that must be taken before completing 18 credits after initial registration. The examination is guided by, but not limited to, the core material of the GW master's program. Specific details regarding the structure of the exam are available in the department.

To be admitted to the qualifying examination that is required of all doctoral students, students must have a minimum cumulative GPA of 3.2 in the Departments of Civil and Environmental Engineering and Computer Science, and of 3.4 in the Departments of Mechanical and Aerospace Engineering, Engineering Management and Systems Engineering, and Electrical and Computer Engineering.

The qualifying examination is the principal means of determining whether a student will qualify as a candidate for the doctoral degree and progress to the second stage of the program. Its purpose is to ascertain whether the student's background and intellectual development are adequate to support doctoral research in the central field.

Preliminary and qualifying examinations may be written or oral or both. They are conducted on dates established by the departments and are administered by a faculty committee. Upon favorable report of the examiners following the qualifying examination, students are admitted to candidacy for the degree. Students then begin specialized study and research under the supervision of a designated member of the full-time faculty. At the discretion of the committee that prepared the examination, students who fail any part of the qualifying examination may be given a second opportunity to qualify for candidacy. Usually, the entire examination must be retaken. Students who fail to qualify for candidacy in a doctoral program of the School will be considered to have failed on a school-wide basis and will not be admitted to further doctoral study within the School.

The Dissertation and Final Examination

Students admitted to candidacy for the degree of Doctor of Philosophy choose the faculty member under whom they wish to conduct research. The faculty member may accept or reject the request to serve as the student's director of research. The research area must be approved by the director, under whom the candidate conducts dissertation research throughout the remainder of the doctoral program. Students

may consult other members of the faculty on an informal basis. In the Departments of Engineering Management and Systems Engineering and Civil and Environmental Engineering, students are required to present a written dissertation proposal to a committee of three full-time faculty members and to successfully defend the proposal in an oral defense prior to performing the bulk of their dissertation research. Work on the dissertation encompasses a minimum of 12 to 24 credits, depending on the department.

The dissertation should embody the results of extended original study and include material deemed worthy of publication in recognized scientific and engineering journals. Students are expected to attempt to have the results of the research published as soon as possible after they receive the degree and to submit copies of the published material to the dean. The Department of Computer Science requires that at least one article be accepted for publication by a refereed conference or journal prior to completion of degree requirements. The Department of Engineering Management and Systems Engineering requires that an article be accepted for review by a refereed journal prior to completion of degree requirements. The Department of Electrical and Computer Engineering requires the submission of a paper to a refereed journal and its acceptance for publication prior to the completion of degree requirements. Credit must be given in the publication to the fact that the material is abstracted, summarized, or developed from a dissertation submitted to The George Washington University in partial fulfillment of the requirements for the Ph.D.

All dissertations must be submitted electronically and meet the formatting and other requirements set forth at GW's Electronic Theses and Dissertations Submission website (<http://library.gwu.edu/etds>). Regulations regarding the form of the dissertation and preparation of the abstract are available in department offices. The dissertation, with accompanying files, becomes the property of the University.

Upon acceptance of the dissertation by the research committee, the candidate is presented for the final examination. The final examination is oral and is open to the public. The candidate must demonstrate a mastery of the special field of study and of the materials and techniques used in the research. The committee of examiners may include qualified experts brought to the University especially to participate in the examination. The director of research usually serves as advocate for the candidate. Students should consult department regulations concerning the formation of the committee and scheduling of the examination. When the examining committee is convinced of the quality and originality of the candidate's contribution to knowledge as well as his or her mastery of the scholarship and research techniques of the field, the committee recommends the candidate for the degree of Doctor of Philosophy. Students completing their degree program should refer to the sections on Eligibility for

Graduation and Participation in the Commencement Ceremony under University Regulations.

Doctor of Engineering

The School of Engineering and Applied Science is launching a new off-campus Doctor of Engineering (D.Eng.) degree program. The Doctor of Engineering program addresses the widespread need for practitioners who can apply the knowledge they gain in the program of study within a business or technical environment, wherein the constant challenge is to create useful applications of the latest engineering principles and lead organizations that are occupied in this work.

The Doctor of Engineering degree currently is offered only in Engineering Management (EM).

Doctor of Engineering in Engineering Management

The D.Eng. (EM) program demands that research be applied to the solution of a real-world problem using the latest engineering concepts and tools—in other words, research toward the D.Eng. program is applied, rather than basic. Its purpose is to empower students, who are likely to be practicing engineers, to create advanced, practice-based solutions.

Admission to the D.Eng.(EM) program requires: (1) bachelor's and master's degrees from accredited institutions in engineering, applied science, mathematics, computer science, business administration, or information technology; (2) a minimum of two college-level calculus courses passed with grades of C or better; and (3) a minimum graduate-level GPA of 3.5 (on a 4.0 scale).

The D.Eng. (EM) program consists of 45 credits divided into a classroom phase of 10 graduate-level, three-credit courses, and a research phase during which a practice-based case study is undertaken on a topic related to engineering management, chosen by the student and approved by the adviser. Research for the case study comprises 15 credits. Prospective students are advised to contact the Engineering Management and Systems Engineering Department for additional information.

Transfer Between Degree Programs

Candidates for the professional or Doctor of Philosophy degree who are in good academic standing may, with the approval of the faculty advisor and department chair, transfer from one degree program to the other within their department if they meet the qualifications and requirements specified by the department. In the Department of Engineering Management and Systems Engineering, only one such transfer is permitted.

UNDERGRADUATE

Bachelor's programs

- Bachelor of Arts with a major in applied science and technology (p. 1072)
- Bachelor of Arts with a major in computer science (p. 1053)

- Bachelor of Science with a major in biomedical engineering (p. 1017)
- Bachelor of Science with a major in civil engineering (p. 1027)
- Bachelor of Science with a major in civil engineering, environmental engineering option (p. 1029)
- Bachelor of Science with a major in civil engineering, medical preparation option (p. 1032)
- Bachelor of Science with a major in civil engineering, sustainability engineering option (p. 1033)
- Bachelor of Science with a major in civil engineering, transportation engineering option (p. 1035)
- Bachelor of Science with a major in computer engineering (p. 1067)
- Bachelor of Science with a major in computer science (p. 1055)
- Bachelor of Science with a major in electrical engineering (p. 1069)
- Bachelor of Science with a major in mechanical engineering (p. 1087)
- Bachelor of Science with a major in mechanical engineering, aerospace option (p. 1088)
- Bachelor of Science with a major in mechanical engineering, biomechanical option (p. 1089)
- Bachelor of Science with a major in mechanical engineering, medical preparation option (p. 1090)
- Bachelor of Science with a major in mechanical engineering, patent law option (p. 1092)
- Bachelor of Science with a major in mechanical engineering, robotics option (p. 1093)
- Bachelor of Science with a major in systems engineering (p. 1073)

GRADUATE

Master's programs

- Master of Science in the field of biomedical engineering (p. 1019)
- Master of Science in the field of civil and environmental engineering (p. 1042)
- Master of Science in the field of computer science (p. 1056)
- Master of Science in the field of computer engineering (<http://bulletin.gwu.edu/engineering-applied-science/electrical-computer-engineering/computer-engineering>)
- Master of Science in the field of cybersecurity in computer science (p. 1057)
- Master of Science in the field of electrical engineering (<http://bulletin.gwu.edu/engineering-applied-science/electrical-computer-engineering/electrical-engineering>)
- Master of Science in the field of engineering management (p. 1075)
- Master of Science in the field of mechanical and aerospace engineering (p. 1094)

- Master of Science in the field of systems engineering (p. 1077)
- Master of Science in the field of telecommunications engineering (<http://bulletin.gwu.edu/engineering-applied-science/electrical-computer-engineering/telecommunications-engineering>)

Doctoral programs

- Doctor of Philosophy (<http://bulletin.gwu.edu/engineering-applied-science/doctoral-programs>) (<http://bulletin.gwu.edu/engineering-applied-science/doctoral-programs>)
- Doctor of Engineering in the field of Engineering Management (p. 1077)

CERTIFICATES

The School of Engineering and Applied Science offers graduate certificate programs in several fields. At the discretion of the respective departments, credit earned in the certificate program can be applied to a subsequent master's degree program. Scholarship requirements are the same as those for the master's degree program. Details are available in the Office of the Dean.

- Graduate certificate in computer-integrated design in mechanical and aerospace engineering
- Graduate certificate in computer security and information assurance
- Graduate certificate in emergency management and public health
- Graduate certificate in energy engineering and management
- Graduate certificate in engineering and technology management
- Graduate certificate in enterprise information assurance
- Graduate certificate in environmental engineering
- Graduate certificate in geoenvironmental engineering
- Graduate certificate in greenhouse gas management (p. 1078)
- Graduate certificate in high-performance computing (p. 1070)
- Graduate certificate in homeland security emergency preparedness and response
- Graduate certificate in knowledge and information management
- Graduate certificate in structural engineering
- Graduate certificate in systems engineering
- Graduate certificate in transportation engineering

COURSES

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000–4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master’s, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office
- Applied Sciences (APSC) (p. 1491)
- Biomedical Engineering (BME) (<http://bulletin.gwu.edu/courses/bme>)
- Civil Engineering (CE) (p. 1517)
- Computer Science (CSCI) (p. 1529)
- Electrical and Computer Engineering (ECE (p. 1561)) (p. 1561)
- Engineering Management and Systems Engineering ((p. 1571)EMSE (p. 1571))
- Mechanical and Aerospace Engineering ((p. 1708)MAE (p. 1708))
- School of Engineering and Applied Sciences ((p. 1804)SEAS (p. 1804))

BIOMEDICAL ENGINEERING

OVERVIEW

Mission

The mission of the Department of Biomedical Engineering is to motivate and inspire students by providing high-caliber, fully integrated programs to prepare them to lead and participate in advancing the state of the art in health care technologies. In addition, graduates earn advanced degrees and further knowledge in the discipline by actively pursuing scholarly research for publication and dissemination.

Biomedical Engineering Program Educational Objectives

The biomedical engineering program prepares graduates who achieve employment in biomedical and related industry, government, or organizational fields using skills and knowledge learned while an undergraduate student as evidenced by:

- Employment history and/or career advancement
- Professional visibility (e.g., patents, invention disclosures, honors or awards, refereed journal articles, conference papers and other publications, involvement in professional associations)

- Entrepreneurial activities

Student Outcomes

The Department of Biomedical Engineering aims to produce graduates who have the ability to:

- Apply knowledge of mathematics, science, and engineering
- Design and conduct experiments, as well as to analyze and interpret data
- Design a system, component, or process to meet desired needs within realistic constraints such as economic, environmental, social, political, ethical, health and safety, manufacturability, and sustainability
- Function on multidisciplinary teams
- Identify, formulate, and solve engineering problems
- Understand professional and ethical responsibility
- Communicate effectively
- Understand the impact of engineering solutions in a global, economic environment
- Engage in life-long learning necessary to thrive in the profession
- Keep abreast of contemporary issues while maintaining breadth and depth of knowledge
- Use the techniques, skills, and modern engineering tools necessary for engineering practice

UNDERGRADUATE

Bachelor's program

- Bachelor of Science with a major in biomedical engineering (p. 1017)

GRADUATE

Master's program

- Master of Science in the field of biomedical engineering (p. 1019)

Doctoral program

- Doctor of Philosophy in the field of biomedical engineering (p. 1019)

FACULTY

Professors I. Efimov (Chair), M. Kay, Z. Li, M. Loew, J. Zara, V. Zderic

COURSES

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000–4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work

- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

BME 1010. Introduction to Biomedical Engineering. 1 Credit.

Basic and emerging concepts in electrical, computer, and biomedical engineering. Hands-on experiments and projects. Introduction to the professional literature and available resources and to technical writing, speaking, and presentation skills. (Fall).

BME 1020. Introduction to Biomedical Engineering. 1 Credit.

Continuation of BME 1010. Basic and emerging concepts in electrical, computer, and biomedical engineering. Hands-on experiments and projects. Introduction to the professional literature and available resources and to technical writing, speaking, and presentation skills. (Spring).

BME 2810. Biomedical Engineering Seminar I. 1 Credit.

BME 2810 and BME 2815 are taken in sequence by students in the biomedical engineering major. Overview of the field of biomedical engineering, including biomechanics, bioinformatics, telemedicine, instrumentation, and medical imaging. (Fall).

BME 2815. Biomedical Engineering Seminar II. 1 Credit.

BME 2810 and BME 2815 are taken in sequence by students in the biomedical engineering major. Overview of the field of biomedical engineering, including biomechanics, bioinformatics, telemedicine, instrumentation, and medical imaging. (Fall and spring).

BME 3820. Principles and Practice of Biomedical Engineering. 4 Credits.

Introduction to engineering principles applicable to medicine; medical measurements for clinical use and research; anatomy and physiology of the human body from system and cellular approaches. Principles of biomedical engineering are reinforced by determining and analyzing physiological measurements in laboratory exercises. Prerequisites: ECE 2110, APSC 2113. (Fall).

BME 3907. Special Topics in Biomechanical Engineering. 3 Credits.

Topics vary by semester. May be repeated for credit if topic differs. See the Schedule of Classes for more details. (Fall, spring, and summer).

BME 3910. Capstone Design Preparation. 1 Credit.

Elements of project design; formulation of project ideas. Prerequisites: BME 2810, BME 2815. (Same as ECE 3910) (Fall).

BME 3915W. Biomedical Engineering Capstone Project Lab I. 1 Credit.

BME 3915, BME 4920, and BME 4925 are taken in sequence by departmental majors beginning in the second semester of the junior year. After an introduction to the formal design process, the student plans, refines, designs, and constructs a one-year project. (Spring).

BME 4820. Anatomy and Physiology for Engineers. 3 Credits.

Human anatomy and physiology from an engineering viewpoint. Analysis of functions of major physiological systems. Biopotentials, mechanics, gas exchange, chemical balance, electrical and chemical signaling, nervous control, voluntary and reflex factors. (Fall).

BME 4825. Biomedical Properties Laboratory. 1 Credit.

Introduction to biophysical concepts in a laboratory setting. Experiments are included from the random walk model of diffusion, macroscopic diffusion processes, optical extinction in tissue, carrier-mediated transport (CMT), spectroscopy, hearing measurement, DNA identification, bioinformatics, and data mining. (Spring).

BME 4830. Introduction to Medical Imaging Methods. 3 Credits.

Common imaging modalities, including ultrasound, X-ray, MRI, CT, SPECT, and PET. Overview of linear systems, basic properties of an imaging system, the physics and instrumentation behind each modality, and their respective advantages, disadvantages, and applications. May be taken for graduate credit. Prerequisites: ECE 3220, BME 3820. (Spring).

BME 4920W. Biomedical Engineering Capstone Project Lab II. 3 Credits.

BME 3915, BME 4920, and BME 4925 are taken in sequence by departmental majors beginning in the second semester of the junior year. After an introduction to the formal design process, the student plans, refines, designs, and constructs a one-year project. (Fall).

BME 4925W. Biomedical Engineering Capstone Project Lab III. 2 Credits.

BME 3915, BME 4920, and BME 4925 are taken in sequence by departmental majors beginning in the second semester of the junior year. After an introduction to the formal design process, the student plans, refines, designs, and constructs a one-year project. (Spring).

BME 4990. Research. 1-3 Credits.

Applied research and experimentation projects, as arranged. Prerequisites: junior or senior status. (Fall and spring).

BME 6045. Special Topics. 1-3 Credits.

Topics to be announced in the Schedule of Classes. (Fall and spring).

BME 6050. Research. 1-12 Credits.

Applied research and experimentation projects, as arranged. May be repeated for credit.

BME 6065. Colloquium. 0 Credits.

Lectures by outstanding authorities in biomedical engineering. Topics to be announced each semester. (Fall and spring).

BME 6482. Medical Measurements. 3 Credits.

Theory of measurements in biological areas, techniques for electronic measurements on biological specimens. Experiments in acquisition, processing, and measurement of physiological signals, ECG, EEG, and EMG. Corequisite: ECE 6040. (Fall).

BME 6483. Medical Instrumentation Design. 3 Credits.

The medical device design process and many of its key aspects, including needs assessment, regulatory processes and concerns, intellectual property, patient safety, and market analysis. Prerequisites: BME 6482. (Spring).

BME 6484. Biomedical Signal Analysis. 3 Credits.

Origin, acquisition, and analysis of physiological signals. Deterministic and probabilistic modeling; fitting models; sequences and time series. Feature extraction from EEG and ECG; Fourier analysis and filtering; modeling. Noise and artifact removal and signal compensation. Prerequisites: BME 6482. (Spring).

BME 6485. Medical Imaging I. 3 Credits.

Principles of projection radiography, fluoroscopy, tomography, ultrasound and nuclear sources; biomagnetic imaging. Source and object; recorder resolution and noise; scatter and attenuation. Ultrasound techniques and instrumentation, including physics of ultrasound, transducers, ultrasound imaging, hemodynamics, Doppler techniques.

BME 6486. Clinical Medicine for Engineers. 3 Credits.

Overview of clinical medicine with emphasis on those areas most affected by engineering and technology. Prerequisites: BME 6482. (Spring, even years).

BME 6487. Rehabilitation Medicine Engineering. 3 Credits.

Cross-sectional view of those areas of medicine most involved with the treatment of handicapped individuals. Application of engineering theory and techniques to the rehabilitation of handicapped individuals. Major problem areas and general solutions, solutions to some specific problems. Prerequisites: BME 6482. (Spring, odd years).

BME 6840. Digital Image Processing. 3 Credits.

Properties of images and visual systems. Image acquisition, sampling, quantization. One- and two-dimensional image transform techniques; enhancement and restoration. Image coding and data compression. Segmentation, representation, boundary and shape, texture, matching. Image understanding. Prerequisites: ECE 6800. (Same as ECE 6840) (Spring, odd years).

BME 6842. Image Engineering. 3 Credits.

Sensor/camera design and analysis as a system. Detection and noise processes underlying the sensing of optical radiation; the engineering and physics of image formation. Topics covered include radiometry/photometry, optics and image formation, device and camera characterization, and image quality metrics and system design trades. Prerequisites: ECE 6010, ECE 6015. (Same as ECE 6842) (Fall).

BME 6850. Pattern Recognition. 3 Credits.

Random vectors, transformations. Hypothesis testing, error probability: bias, variance, and sample size, resampling; sequential methods. Bayes, other linear classifiers. Discriminant functions, support vector machines, maximum-likelihood and parameter estimation, dimensionality reduction. Nonparametric methods; unsupervised learning and clustering; feature selection and ordering. Applications in industry and medicine. Student projects. Learning is reinforced by homework problems and in-class and at-home computer examples. Prerequisites: ECE 6015. (Same as ECE 6850) (Fall, spring, and summer).

BME 6998. Thesis Research. 3 Credits.

Thesis research. (Fall and spring).

BME 6999. Thesis Research. 3 Credits.

Thesis research. (Fall and spring).

BME 8999. Dissertation Research. 0-12 Credits.

Limited to Doctor of Philosophy candidates. May be repeated for credit. (Fall, spring, and summer).

BACHELOR OF SCIENCE WITH A MAJOR IN BIOMEDICAL ENGINEERING

The Department of Biomedical Engineering offers an Accreditation Board for Engineering and Technology (ABET) accredited bachelor's degree in biomedical engineering. The curriculum provides students the opportunity to select a subset of courses to suit their interests and needs through a variety of technical electives. These electives include courses in leading-edge biomedical engineering topics, as well as advanced courses in computer science, electrical engineering, mechanical engineering, cell biology, physiology, and the physical sciences and mathematics.

Visit the program website (<http://www.bme.seas.gwu.edu/programs-degrees>) for additional information.

REQUIREMENTS

Recommended program of study

First semester

BISC 1111

Introductory Biology: Cells and Molecules *

BME 1010

Introduction to Biomedical Engineering

CHEM 1111	General Chemistry I *
MATH 1231	Single-Variable Calculus I *
SEAS 1001	Engineering Orientation
UW 1020	University Writing *
Second semester	
BISC 1112	Introductory Biology: The Biology of Organisms *
BME 1020	Introduction to Biomedical Engineering
CHEM 1112	General Chemistry II *
MATH 1232	Single-Variable Calculus II *
PHYS 1025	University Physics I with Biological Applications *
Third semester	
APSC 2113	Engineering Analysis I
BME 2810	Biomedical Engineering Seminar I
ECE 2110	Circuit Theory
MATH 2233	Multivariable Calculus *
PHYS 1026	University Physics II with Biological Applications *
Fourth semester	
BME 2815	Biomedical Engineering Seminar II
ECE 1120	C Programming for ECE
ECE 2115	Engineering Electronics
ECE 2140	Design of Logic Systems I
ECE 2210	Circuits, Signals, and Systems
Humanities or social sciences elective **	
Fifth semester	
BME 3820	Principles and Practice of Biomedical Engineering
BME 4820	Anatomy and Physiology for Engineers
ECE 1125	Data Structures&Algorithms ECE
ECE 3220	Intro to Digital Signal Proces
Technical elective	
Sixth semester	

APSC 3115	Engineering Analysis III
BME 3915W	Biomedical Engineering Capstone Project Lab I
Two humanities or social sciences electives **	
Two technical electives	
Seventh semester	
BME 4920W	Biomedical Engineering Capstone Project Lab II
MAE 4168	Intro. to Biomaterials
PHYS 2127	Biophysics: Macroscopic Physics in the Life Sciences
Humanities or social sciences elective **	
Technical elective	
Eighth semester	
BME 4925W	Biomedical Engineering Capstone Project Lab III
PHIL 2135	Ethics in Business and the Professions
PHYS 2128	Biophysics: Microscopic Physics in the Life Sciences
Humanities or social sciences elective **	
Technical elective	

*Course satisfies the university general education requirement in math, science, and writing.

**At least two social and behavioral sciences courses must be selected from the University General Education Requirement list (p. 28); the remaining course must be selected from either the University General Education Requirement list or the SEAS General Education Requirement list (http://www.seas.gwu.edu/sites/www.seas.gwu.edu/files/downloads/HSS%20Form%20Fall%202015%20Admits%201_0.pdf). At least one humanities course must be selected from the University General Education Requirement list (p. 28); the remaining courses must be selected from either the University General Education Requirement list or the SEAS General Education Requirement list. (http://www.seas.gwu.edu/sites/www.seas.gwu.edu/files/downloads/HSS%20Form%20Fall%202015%20Admits%201_0.pdf)

All technical electives must be approved by the academic advisor.

MASTER OF SCIENCE IN THE FIELD OF BIOMEDICAL ENGINEERING

The Department of Biomedical Engineering administers the Master of Science degree in the field of biomedical engineering. Both thesis and non-thesis options are available.

The program is designed to prepare students to apply engineering principles to problems in medicine and biology, to understand and model multiple attributes of living systems, and to synthesize biomedical systems and devices. Students choose between two areas of focus: medical imaging and medical instrumentation. The program is offered on the main campus in Foggy Bottom, with the School of Engineering and Applied Science and the GW School of Medicine and Health Sciences and Hospital separated by just one city block.

Students entering the program must have a bachelor's degree in biomedical engineering (or closely related field) and be adequately prepared in the basic physical sciences and mathematics. Depending on the field of study of the incoming student, deficiency courses may be assigned by the student's academic advisor.

Specific admission requirements are shown on the Graduate Program Finder (<http://www.gwu.edu/all-graduate-programs>).

Visit the program website (<http://www.bme.seas.gwu.edu/master-science-biomedical-engineering>) for additional information.

REQUIREMENTS

The following requirements must be fulfilled: 30 credits, including 12 credits in required courses and 18 credits in electives.

Students select one of the following areas of focus to receive the Master of Science degree in biomedical engineering:

Medical Imaging

Required

BME 4830 Introduction to Medical Imaging Methods

BME 6065 Colloquium

BME 6482 Medical Measurements

BME 6484 Biomedical Signal Analysis

Two of the following:

BME 6842 Image Engineering

BME 6485 Medical Imaging I

BME 6486 Clinical Medicine for Engineers

BME 6487 Rehabilitation Medicine Engineering

Electives

15 credits selected in consultation with program director and can include 6 credits of thesis research

Medical Instrumentation

Required

BME 6065 Colloquium

BME 6482 Medical Measurements

BME 6483 Medical Instrumentation Design

BME 6484 Biomedical Signal Analysis

Two of the following:

BME 6486 Clinical Medicine for Engineers

BME 6487 Rehabilitation Medicine Engineering

BME 6842 Image Engineering

Electives

Remaining credits selected in consultation with program director and can include 6 credits of thesis research

A maximum of three BME courses at the 3000 and 4000 level may be counted toward the requirements for the degree, provided that an indication of "May be taken for graduate credit" is in the course description.

DOCTOR OF PHILOSOPHY IN THE FIELD OF BIOMEDICAL ENGINEERING

Program Overview

The doctoral program in Biomedical Engineering is designed to prepare students for a career of creative scholarship by providing a broad but balanced background of knowledge and guidance in the performance of research. This interdisciplinary program provides course work and research that draw on resources from across the School of Engineering and Applied Science. Existing research partnerships with GW's School of Medicine and Applied Sciences and Hospital, as well as NIH and U.S. FDA, offer unique research opportunities and laboratory facilities.

Areas of Focus

There are a number of areas in which program students focus their dissertation research. These include cardiac electrophysiology, therapeutic ultrasound and drug delivery, image analysis and image processing, medical imaging and

computer-aided diagnosis, and microfluidics and lab-on-a-chip technology.

Specific admission requirements are shown on the Graduate Program Finder (<http://www.gwu.edu/all-graduate-programs>).

Visit the program website (<http://www.graduate.seas.gwu.edu/programs/biomedical-engineering>) for additional information.

REQUIREMENTS

The following requirements must be fulfilled: completion of a minimum of 30 credits in a formal program of study at the graduate level beyond master's study or, for students without a master's degree, a minimum of 54 credit hours in a formal program of study at the graduate level beyond the baccalaureate. In some cases, particularly when the student undertakes a doctoral program in a field other than that in which the earlier degree was earned, the program of study exceeds the minimum number of credit hours.

No specific courses are required; the student and advisor design the curriculum to meet the student's needs and goals.

CIVIL AND ENVIRONMENTAL ENGINEERING

Mission Statement

The mission of the Department of Civil and Environmental Engineering is to provide an academic environment where professional education can be pursued, scholarly research in science and technology can be conducted, and the interest of the public can be served through the advancement of knowledge.

In pursuit of this mission the administration, faculty, and staff join to provide a broad-based, rigorous professional education in civil engineering at the undergraduate level; a graduate education at the master's level in major areas of civil engineering; and doctoral programs in selective areas of excellence within civil engineering.

Educational Objectives of the Bachelor of Science Program

The civil engineering undergraduate program of study prepares its graduates with the following capabilities necessary to attain career and professional accomplishments:

- **Technical knowledge:** students are able to use their technical knowledge and expertise in mathematics, science, and engineering to identify, formulate, and solve problems involving design, experimentation, and analysis of a wide variety of civil engineering applications.
- **Team skills:** students develop leadership skills, demonstrate proficiency in all forms of communication, and perform well in a multidisciplinary team environment.

- **Continuous education:** students recognize the need for continuing their education through graduate studies, continuous education opportunities, and/or self-education.
- **Professionalism:** students are prepared to exercise the highest standards of personal and professional integrity, demonstrate an understanding of the ethical and professional issues related to the procurement of work, and provide coordination between the design and construction aspects of the civil engineering profession.

These objectives are accomplished through a rigorous curriculum that emphasizes fundamentals in basic sciences, mathematics, humanities, and engineering in five major areas of civil engineering: environmental engineering, geotechnical engineering, structural engineering, water resources engineering, and transportation engineering. The curriculum enables students to use modern engineering tools to work both individually and in teams. The curriculum contains a well-structured set of courses that enable students to develop the required analytical, experimental, and design skills.

Educational Outcomes of the Bachelor of Science Program

The civil engineering undergraduate program of study prepares its graduates so that they have the following capabilities for career and professional advancement:

- Apply knowledge of mathematics, science, and engineering; design and conduct experiments and analyze and interpret data;
- Design a system, component, or process to meet desired needs within realistic constraints such as economic, environmental, social, political, health and safety, manufacturability, and sustainability constraints;
- Identify, formulate, and solve engineering problems;
- Use the techniques, skills, and modern engineering tools necessary for engineering practice;
- Function on multidisciplinary teams; and
- Communicate effectively.

Students are provided with the broad education necessary to understand the impact of engineering solutions in a global economic, environmental, and social context; a knowledge of contemporary issues; an understanding of professional and ethical responsibility; and a recognition of the need for and ability to engage in lifelong learning.

The civil engineering undergraduate program curriculum includes coverage of proficiency in mathematics through differential equations, probability and statistics, calculus-based physics, and general chemistry; proficiency in a minimum of four recognized major civil engineering areas; the ability to conduct laboratory experiments and to critically analyze and interpret data in more than one of the recognized major civil engineering areas; the ability to perform civil engineering design by means of design experiences integrated

throughout the professional component of the curriculum; and an understanding of professional practice issues such as procurement of work, bidding versus quality-based selection processes, how the design professionals and the construction professions interact to construct a project, the importance of professional licensure and continuing education, and/or other professional practice issues.

UNDERGRADUATE

Bachelor's programs

- Bachelor of Science with a major in civil engineering (p. 1027)
- Bachelor of Science with a major in civil engineering, environmental engineering option (p. 1029)
- Bachelor of Science with a major in civil engineering, medical preparation option (p. 1032)
- Bachelor of Science with a major in civil engineering, sustainability option (p. 1033)
- Bachelor of Science with a major in civil engineering, transportation engineering option (p. 1035)

Combined programs

- Combined Bachelor of Science with a major in civil engineering and Master of Science in the field environmental engineering (p. 1037)
- Combined Bachelor of Science with a major in civil engineering and Master of Science in the field structural engineering (p. 1039)
- Combined Bachelor of Science with a major in civil engineering and Master of Science in the field transportation engineering (p. 1040)

GRADUATE

Master's program

- Master of Science in the field of civil and environmental engineering (p. 1042)

Doctoral program

See the School of Engineering and Applied Science for programs leading to the doctoral degree.

CERTIFICATE

The department offers graduate certificate programs in environmental engineering, geoenvironmental engineering, structural engineering, and transportation engineering.

FACULTY

Professors K.H. Digges (*Research*), A. Eskandarian, M.I. Haque, S. Lerman, M.T. Manzari (*Chair*), R. Riffat, K. Roddis

Associate Professors S.S. Badie, P.F. Silva

Assistant Professors L. Farhadi, S.H. Hamdar, T. Li, D. Shuai

Professorial Lecturers M.O. Critchfield, G.C. Everstine, K. Garrahan, F. Sadek

COURSES

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000–4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

CE 1010. Introduction to Civil and Environmental Engineering. 1 Credit.

An introduction to the profession of civil and environmental engineering. Field visits and laboratory exercises complement classroom instruction. (Fall).

CE 1020. Introduction to a Sustainable World. 1 Credit.

The science underlying the basic processes that gave rise to the world we live in and that maintain its viability for human life. Ecosystem-functioning environmental issues, such as greenhouse gas emission and ozone, with current efforts to resolve them. Technological innovations in the context of sustainability.

CE 1098. Variable Topics. 1-36 Credits.

CE 2210. Engineering Computations. 3 Credits.

Numerical methods for engineering applications. Methods for solving systems of linear equations, root finding, curve fitting, and data approximation. Numerical differentiation and integration and numerical solution of differential equations. Computer applications. Prerequisites: CSCI 1121, APSC 2113. (Spring).

CE 2220. Introduction to the Mechanics of Solids. 3 Credits.

Stress and strain, axial load problems, torsion, shear force and bending moment, pure bending of beams, shearing stresses in beams, compound stresses, analysis of plane stress and plane strain, combined stresses, deflection of beams, statically indeterminate problems, columns, energy methods. Prerequisite: APSC 2057, APSC 2113.

CE 2510. Environmental Sustainability. 3 Credits.

An introduction to environmental sustainability with focus on the nexus of water, energy, and climate; energy demands of water systems, water footprints of energy generation, and how the two valuable resources are limiting each other; technologies and research frontiers toward a sustainable water and energy supply.

CE 2710. Introduction to Transportation Engineering. 3 Credits.

Transportation system components; roadway traffic capacity and network performance measures; signalized and un-signalized intersections; monitoring techniques, instruments and data processing. Sustainability issues and environmental impact of transportation systems with focus on urban design, planning and regulation. Prerequisites: Math 2233. (Spring).

CE 3110W. Civil Engineering Materials. 2 Credits.

Mechanical properties and behavior of civil engineering materials such as metals, concrete, and fiber-reinforced polymer composites. Properties range from plastic deformations of metallic materials to crushing of confined and unconfined concrete. Basis of the strength of materials. Concepts of creep, fatigue, fracture, and crack propagation. Prerequisite: CE 2220. (Fall).

CE 3111W. Civil Engineering Materials Lab. 1 Credit.

Measurement of stress-strain characteristics and study of failure modes in ductile steel, brittle concrete, and anisotropic composite materials. Experiments include data collection, data analysis, and interpretation and presentation of results regarding tension, compression, bending, impact, and shear properties. Prerequisite or corequisite: CE 3110W. Prerequisites: CE 3110W. (Fall).

CE 3140. Sustainability in Engineering Materials. 2 Credits.

Sustainable engineering: overall materials energy needs/properties and impacts; load resistance and aging, thermodynamics, water conservation, heat transfer, use of energy-efficient materials in construction, life-cycle assessment. Prerequisite: CE 3110, CE 3111.

CE 3230. Structural Theory I. 3 Credits.

Theory of statically determinate structures; stability and determinacy; influence lines and moving loads. Analysis of beams, frames, trusses, and arches. Calculation of deflections. Prerequisites: CE 2210, CE 2220. (Fall).

CE 3240. Structural Theory 2. 3 Credits.

Theory of statically indeterminate structures using matrix methods and classical approaches such as moment distribution and slope-deflection; influence lines; energy methods. Prerequisite: CE 3230.

CE 3310. Reinforced Concrete Structures. 3 Credits.

Properties of concrete and reinforcement; design of flexural reinforcement, shear reinforcement; development of reinforcement; design of columns, floor slabs; ethics and professionalism in design. A design project, including the use of computer software and a detailed report, is required. Prerequisite or corequisite: CE 3240.

CE 3520. Environmental Engineering I: Water Resources and Water Quality. 3 Credits.

Physical and chemical analyses of water quality and characteristics. Microbiology of water and pathogens. Introduction to water treatment processes involving coagulation, flocculation, filtration, and disinfection. Prerequisite or corequisite: CE 3610.

CE 3521. Environmental Engineering Laboratory. 1 Credit.

Laboratory experiments for physical and chemical analyses of water and wastewater. Measurement of turbidity, alkalinity, dissolved oxygen, BOD, COD, suspended solids, and optimum coagulant dose using jar tests. Corequisite: CE 3520.

CE 3610. Hydraulics. 3 Credits.

Fluid statics: pressure forces, buoyancy, and flotation. Application of kinematic principles; flow fields, stream tubes, and flow nets. Fluid dynamics: applications to pipe flow, hydraulic models, measurement of pressure, and velocity. Open channel flow: applications to water resources engineering. Prerequisite: MAE 3126.

CE 3611. Hydraulics Laboratory. 1 Credit.

Laboratory experiments and demonstrations of hydraulics in pipe and open-channel flow. Topics include center of pressure, floating bodies, Bernoulli's theorem, discharge coefficients, velocity profile, and head losses. Prerequisite or corequisite: CE 3610.

CE 3720. Highway Engineering and Design. 3 Credits.

Road vehicle performance. Principles of highway design: horizontal and vertical alignments, roadside design; drainage and drainage structures, earthwork, intersections, interchanges, parking facilities; basic traffic models; highway materials. Application of safety standards. Prerequisite: MATH 2233; prerequisite or corequisite: APSC 3115 and CE 2220.

CE 3730. Sustainable Urban Planning Dynamics. 3 Credits.

Human and physical processes shaping urban environments; human-environment interactions in the context of an urban region; urban design, materials, transport, planning, and regulation. Prerequisite: CE 2710.

CE 4320. Metal Structures. 3 Credits.

Principles of the design of metal structures, structural elements, connections, specific problems of analysis including the use of computer software, methods of construction, professionalism in design. Prerequisite: CE 3240.

CE 4330. Contracts and Specifications. 3 Credits.

Law of contracts, construction contracts, specifications, bidding, insurance and bonds, professional liability, arbitration of disputes, litigation. Restricted to junior standing. (Spring).

CE 4330W. Contracts and Specifications. 2 Credits.

Law of contracts, construction contracts, specifications, bidding, insurance and bonds, professional liability, arbitration of disputes, litigation. Prerequisite: junior standing.

CE 4340. Design and Cost Analysis of Civil Engineering Structures. 0-3 Credits.

Total structural systems concepts. Design of civil engineering structures such as piers, wharves, bulkheads, offshore platforms, dams, and other special structures. Principles of cost analysis for timber, steel, and reinforced concrete structures. Project and report are required. Prerequisites: CE 3310, CE 4320, CE 4410. (Spring).

CE 4410. Introduction to Geotechnical Engineering. 3 Credits.

Soils and rock formation, soil composition, permeability, seepage and flow net analysis, stresses in soil medium, consolidation and settlement, shear strength of soil, analysis of lateral earth pressures, soil compaction. Prerequisite: CE 2220, MAE 3126.

CE 4411. Geotechnical Engineering Laboratory. 1 Credit.

Laboratory experiments to evaluate liquid and plastic limits, grain-size distribution, shear strength, compressibility, permeability, and moisture-density relationship of soils. Prerequisite or corequisite: CE 4410.

CE 4450. Introduction to Geo-environmental Engineering. 3 Credits.

Characterization of soils and wastes, engineering properties of soils and geo-synthetics, fundamental concepts of fate and transport of contaminants, common practice in design and construction of waste containment systems, current methods for remediation of contaminated groundwater and soils. Prerequisite: CE 3520, CE 4410.

CE 4530. Environmental Engineering II: Water Supply and Pollution Control. 3 Credits.

Introduction to wastewater treatment systems including clarification, suspended and attached growth processes. Use of dissolved oxygen models. Water supply and wastewater collection systems, applied hydraulics of pipelines and pumps. Planning to meet quality needs and regulatory requirements. Prerequisite: CE 3520.

CE 4620. Hydrology and Hydraulic Design. 3 Credits.

Descriptive hydrology: hydrologic cycle, precipitation, stream flow, evaporation, and transpiration. Quantitative hydrology: hydrograph analysis, hydrographs of basin outflow, storage routing. Probability concepts in hydrology: flood frequency, rainfall frequency, stochastic hydrology. Culverts and stilling basins. Prerequisite or corequisite: APSC 3115, CE 3610.

CE 4810. Research. 1-3 Credits.

Applied research and experimentation projects, as arranged. Prerequisite: junior or senior status.

CE 4820. Special Topics. 1-6 Credits.

Topic announced in the Schedule of Classes. May be repeated for credit provided the topic differs.

CE 6101. Numerical Methods in Engineering. 3 Credits.

Eigenvalue problems. Numerical solution of systems of equations and ordinary differential equations. Solution techniques for elliptic, parabolic, and hyperbolic partial differential equations. Numerical methods for solving finite element equations. Introduction to solution of fluid-flow problems. Prerequisite: CE 2210.

CE 6102. Application of Probability Methods in Civil Engineering. 3 Credits.

Uncertainty in real-world information; basic probability concepts and models; random variables; useful probability distributions, statistical estimation of distribution parameters from observed data; empirical determination of distribution models; testing hypothesis; regression and correlation analyses; decision theory. Prerequisite: APSC 3115.

CE 6201. Advanced Strength of Materials. 3 Credits.

Deflection of beams using singular functions, unsymmetrical bending of beams, beams on elastic foundation. Beam-column problems, shear center for thin-walled beam cross sections, curved beams. Applications of energy methods, torsion, basic equations for theory of elasticity, thin- and thick-walled cylinders, stress concentration, and failure criteria. Prerequisites: CE 2220, CE 3240. (Spring).

CE 6202. Methods of Structural Analysis. 3 Credits.

Modern methods of analysis of statically indeterminate structures, matrix analysis based on flexibility, stiffness, energy and variational methods, substructuring techniques; consideration of plastic collapse of structures; introduction to the finite element method. Prerequisites: CE 2220, CE 3240. (Fall).

CE 6203. Reliability Analysis of Engineering Structures. 3 Credits.

Probability theory, theory of structural reliability, probabilistic analysis of strength and loads, risk and reliability function, empirical distribution, probability plot. The design service life, method of perturbation, Monte Carlo simulation. Fatigue and fracture, proof testing, inspection and repair-replacement maintenance. Prerequisite: APSC 3115.

CE 6204. Analysis of Plates & Shells. 3 Credits.

Bending and stretching of thin elastic plates under loading with various boundary conditions, continuous plates and plates on elastic foundations, theory of folded-plate structures. Theory of curved surfaces; general linear bending theory and its simplification to membrane theory; bending stresses in shells of revolution, shallow-shell theory. Prerequisites: CE 2220, CE 3240. (Spring, odd years).

CE 6205. Theory of Structural Stability. 3 Credits.

General criteria for stability, buckling of elastic and inelastic columns and frames, torsional and lateral buckling, variational methods. Buckling of plates and shells under static loads, stability of stiffened structures, effect of imperfections and boundary conditions. Prerequisites: CE 2220, CE 3240. (Fall).

CE 6206. Continuum Mechanics. 3 Credits.

Introduction to the mechanics of continuous media. Tensor calculus; kinematics; stress and stress rate, conservation of mass, conservation of linear and angular momentum, energy balance, second law of thermodynamics; constitutive theory; linear and nonlinear elasticity, newtonian fluids, micropolar elasticity. Prerequisites: CE 2220. (Fall, spring, and summer, even years).

CE 6207. Theory of Elasticity I. 3 Credits.

Introduction to Cartesian tensors; deformation, stress, constitutive relations for linear elasticity; formulation of boundary value problems, variational principles, torsion and bending of prismatic rods, plane problems. Prerequisites: CE 2220. (Same as MAE 6207) (Spring).

CE 6208. Plasticity. 3 Credits.

Introduction to the continuum theory of plastic deformation. Physical basis of rate-independent plasticity. Concepts of yield, strain hardening and softening, reverse yield, and cyclic plasticity. Constitutive equations describing plastic deformation. Prerequisite: CE 6201 or CE 6206.

CE 6209. Mechanics of Composite Materials. 3 Credits.

Stress-strain relationship for orthotropic materials, invariant properties of an orthotropic lamina, biaxial strength theory for an orthotropic lamina. Mechanics of materials approach to stiffness, elasticity approach to stiffness. Classical lamination theory, strength of laminates. Statistical theory of fatigue damage. Same as MAE 6233. Prerequisite: CE 3240.

CE 6210. Introduction to Finite Element Analysis. 3 Credits.

Calculus of variations. Variational formulation of the finite element method. Weighted residual techniques. Computer implementation of the finite element method. Application to problems in heat transfer, stress analysis, fluid flow, and structural analysis. Prerequisites: proficiency in one computer language, CE 2220, CE 3240. (Fall).

CE 6301. Design of Reinforced Concrete Structures. 3 Credits.

Structural behavior of reinforced concrete structures, ultimate strength and deformation characteristics; design of structural components including beams, columns, floor slabs, deep beams, corbels, and composite slab/beam systems. Prerequisite: CE 3310.

CE 6302. Prestressed Concrete Structures. 3 Credits.

Structural behavior and failure modes of prestressed concrete structures; design in prestressed concrete, including long-span structures, bridges, and precast systems. Prerequisite: CE 3310.

CE 6310. Advanced Reinforced Concrete Structures. 3 Credits.

Conception, analysis, and design of low-rise and high-rise buildings by ultimate-strength methods, precast systems, progressive collapse, earthquake considerations, domes, folded plates, shell-type structures, and special topics. Prerequisite: CE 6301.

CE 6311. Bridge Design. 3 Credits.

Application of basic design procedures for reinforced and prestressed concrete bridges, according to AASHTO bridge specifications. Various types of concrete bridges, design superstructure bridge elements (deck slab, girders, bearing pads), and development of superstructure/substructure details. Prerequisite: CE 6302.

CE 6320. Design of Metal Structures. 3 Credits.

Structural behavior of metal structures and composite girders. Conception, analysis, and design of low-rise and high-rise buildings by elastic and inelastic methods. Earthquake considerations and special topics. Prerequisite: CE 4320.

CE 6321. Advanced Metal Structures. 3 Credits.

Conception and design of advanced structural components and systems, hysteretic behavior, plastic design principles, box-type girders, cable systems, and unique structural systems. Prerequisite: CE 6320. (As arranged).

CE 6340. Structural Dynamics. 3 Credits.

Vibration of continuous systems: membranes, beam plates, and shells; approximate methods of vibration analysis; methods of integral transform; analysis of nonlinear systems; wave propagation. Prerequisites: APSC 2058, CE 3240. (Fall, odd years).

CE 6341. Random Vibration of Structures. 3 Credits.

Introduction to random processes, responses of linear structures to stationary and nonstationary random inputs. Structural responses to earthquakes, waves, boundary-layer turbulences, wind loads, etc. Failure analysis of structures under random loads. Prerequisites: APSC 3115, CE 6340. (Spring, even years).

CE 6342. Structural Design to Resist Natural Hazards. 3 Credits.

Prediction of forces due to earthquakes and strong winds; generalized codes; pseudostatic methods for preliminary design; codes based on spectra, energy absorption and ductility; influence of foundations; ground failures; static and aeroelastic effects of strong winds. Design project. Prerequisites: CE 3240, CE 4340, either CE 6340 or CE 6701. (Spring).

CE 6350. Intro to Biomechanics. 3 Credits.

Fundamentals of continuum mechanics as they apply to biological materials: concepts of stress, strain, and equilibrium; elastic and viscoelastic properties of solids; physiological fluid mechanics and bioheat and mass transfer. Fundamentals of solid mechanics of soft tissues and bone structures. Development of computer models and applications. Prerequisite: CE 2220.

CE 6401. Fundamentals of Soil Behavior. 3 Credits.

Soil mineralogy, clay-water-electrolyte systems, soil composition, fabric, structure, volume change behavior, permeability, coupled phenomena, in-situ evaluation of soil behavior. Prerequisite: CE 4410.

CE 6402. Theoretical Soil Mechanics. 3 Credits.

Porous media, stress-strain behavior of soil skeleton, elastic and elastoplastic models for soil behavior, critical state concept, cam clay, strength of soils, stress-dilatancy, stress paths. (Fall, odd years).

CE 6403. Geotechnical Engineering. 3 Credits.

Principles of soil mechanics applied to the analysis and design of mat foundations, pile foundations, retaining structures including sheeting and bracing systems, and waterfront structures. Foundations on difficult soils and reinforced earth structures. Prerequisite: CE 4410.

CE 6404. Geotechnical Earthquake Engineering. 3 Credits.

Ground motion, wave propagation, foundation isolation, site response analysis, seismic stability of retaining structures, soil structure interaction. Prerequisite: graduate standing.

CE 6405. Rock Engineering. 3 Credits.

Classification and properties of rock; nature of rock masses and rock discontinuities; field exploration; methods of excavation; design and applications to foundation slopes, tunnels, and chambers in rock. Prerequisite: CE 4410.

CE 6501. Environmental Chemistry. 3 Credits.

Principles of chemistry of natural waters, water supplies, wastewaters, hazardous wastes. Stoichiometry, equilibrium, solubility, kinetics, organic chemistry, biochemistry, analytical techniques. Examples from water/wastewater practice to illustrate applications. Prerequisites: CHEM 1111, CHEM 1112. (Fall).

CE 6502. Advanced Sanitary Engineering Design. 3 Credits.

Elements of design including basic parameters and hydraulic requirements. Layout and design of water supply and wastewater systems, pumping stations, and treatment plants. Plant expansions and modifications. Prerequisite: CE 4530.

CE 6503. Principles of Environmental Engineering. 3 Credits.

Basic concepts of water, air, and terrestrial environments and interrelationships among them. Principles of environmental chemistry and microbiology. Assessment of environmental quality and impacts. Environment and health. Water and wastewater systems. Legal and regulatory controls. Prerequisites: CE 3520. (Fall).

CE 6504. Water and Wastewater Treatment Processes. 3 Credits.

Theory and application of commonly used processes. Sedimentation, coagulation, filtration, disinfection, gas transfer, activated sludge, trickling filters, oxidation ponds, sorption, and sludge stabilization and disposal. Process combinations to produce treatment systems. Prerequisite: CE 6503.

CE 6505. Environmental Impact Assessment. 3 Credits.

Public policy and legislation on environmental quality. Methods for assessing impacts of engineering projects. Technology for assessing impacts on air, water, and land environments, applied to transportation facilities, water and wastewater facilities, industrial and community development. Prerequisites: CE 3520. (Fall).

CE 6506. Microbiology for Environmental Engineers. 3 Credits.

Principles and applications of advanced treatment systems for water, wastewater, and hazardous wastes, including: biological nutrient removal, oxidation-reduction processes, stripping, sorption, membrane processes, chemical precipitation, others. Prerequisites: CE 3520. (Spring, even years).

CE 6507. Advanced Treatment Processes. 3 Credits.

Principles and applications of advanced treatment systems for water, waste-water, and hazardous wastes, including: biological nutrient removal, oxidation-reduction processes, stripping, sorption, membrane processes, chemical precipitation, others. Prerequisite: CE 6504.

CE 6508. Industrial Waste Treatment. 3 Credits.

Types of industries, waste sources. Characteristics, measurements, and evaluation. Minimization and reuse. Treatment process selection, development, and design. Regulations, permits, standards, monitoring, and pretreatment. (Fall).

CE 6509. Introduction to Hazardous Wastes. 3 Credits.

Regulations, including RCRA and Superfund. Transport and fate of hazardous substances. Elements of environmental toxicology, risk assessment, and hazard ranking. Monitoring, data collection, and evaluation. Waste minimization. Case histories. Prerequisites: CE 3520. (Spring).

CE 6601. Open Channel Flow. 3 Credits.

Types and regimes of flow; energy and momentum principles, uniform flow, gradually varied flow, spatially and rapidly varied flow. Flow in nonprismatic channels. Unsteady flow; dam break problem, flood routing. Prerequisite: CE 3610 .

CE 6602. Hydraulic Engineering. 3 Credits.

Hydraulic design of conveyance, regulating, and measurement structures. Design for spillways, energy dissipators, inlet and outlet works related to dams. Forces on hydraulic structure and stability analysis. Hydraulic turbines and pumps. Design considerations for flow through pipes. Transients and cavitation. Prerequisite: CE 3610.

CE 6603. Design of Dams. 3 Credits.

Project planning and investigations. Types of dams; design of earth-rock fill dams; stability analysis, foundation treatment, wind-wave protection. Construction methods for dams. Reservoir sedimentation. Safety inspection of dams. Prerequisite: CE 3610.

CE 6604. Advanced Hydrology. 3 Credits.

Precipitation, evaporation, and transpiration. Soil physics; stream flow, drainage basins, hydrograph analysis, and stream-flow routing. Design criteria, flood frequency statistics and analysis, flood forecasting and control, water supply forecasting. Prerequisite: CE 4620.

CE 6605. Ground Water and Seepage. 3 Credits.

Permeability theory of groundwater flow, flow nets, analogs, computer solutions; applications to engineering problems such as excavation dewatering, flow through dams, stabilization of earth slopes. Prerequisites: CE 4410. (Spring).

CE 6606. Mechanics of Water Waves. 3 Credits.

Irrrotational theory for deep- and shallow-water waves, reflexion, refraction, diffraction, attenuation. Water waves of finite amplitude: shallow-water theory, tides, bores, long-waves theory, conoidal and solitary waves. Wave generation by wind. Wave breaking and reflexion. Prerequisite: APSC 6213 and permission of instructor.

CE 6607. Water Resources Planning and Control. 3 Credits.

The parameters of water resources planning and control, economics of water resources and related natural resources, economics of water-quality control, physical parameters of water resource development, water resources law. Prerequisite: approval of department.

CE 6608. Hydraulic Modeling. 3 Credits.

Dimensional analysis and similitude. Types of models—physical, mathematical. Distortions in physical models. Erodible bed models. Prerequisite: CE 3610.

CE 6609. Numerical Methods in Environmental and Water Resources. 3 Credits.

Use of microcomputers in water resources. Elements of finite difference schemes, basic operations, convergence, stability, and consistency. Nonuniform flow and error analysis; unsteady laminar flow; diffusion problems; unsteady flow in open channels; water hammer, seepage flow, and diffusion-dispersion problems. Prerequisites: CE 2210, MAE 3126. (Spring).

CE 6610. Pollution Transport Systems. 3 Credits.

Distribution of pollutants in natural waters and atmosphere, diffusive and advective transport, mathematics for stream pollutant deoxygenation rates, groundwater pollution transport, sediment transport, thermal transport, numerical simulation of pollutant transports in streams and estuaries. Prerequisite: CE 3610, MAE 2131.

CE 6701. Analytical Mechanics. 3 Credits.

Fundamental principles, particle and rigid-body dynamics, generalized coordinates, variational principles and Lagrange's equations, nonholonomic systems, Hamilton's equations, theory of small oscillations. Prerequisites: APSC 2058, APSC 2113. (Fall).

CE 6702. Vehicle Dynamics. 3 Credits.

Engineering principles and analytical methods explaining the performance of an automotive vehicle. Basic mechanics governing vehicle dynamic performance in longitudinal, ride, and handling modes. Engineering analysis techniques applied to basic systems and subsystems to derive the governing equations. Prerequisite or corequisite: CE 6701. Prerequisites: CE 6701 (either prerequisite or corequisite). (Spring, even years).

CE 6703. Vehicle Standards and Crash Test Analysis. 3 Credits.

Safety mandates and comparison of motor vehicles based on U.S. and European safety standards. Characteristics of dummies and mechanical devices specified for crash testing. U.S. national accident and injury data; calculation of benefits of safety measures. Prerequisites: APSC 2058, CE 2220. (Fall).

CE 6704. Crash Investigation and Analysis. 3 Credits.

Crash reconstruction methods for systematic investigation of vehicle crashes. Analysis of vehicle safety systems and their effectiveness; computer simulation and analysis of crash data; sensitivity of analytical techniques; case investigations. Prerequisites: APSC 2058, APSC 3115, CE 2220. (Spring).

CE 6705. Nonlinear Finite Element Modeling and Simulation. 3 Credits.

Rigid and flexible body methods for modeling crashes. Application of dynamic nonlinear finite element methods with contact algorithms for modeling crash phenomena. Modeling and simulation of vehicles, airbags, safety restraining systems, and highway barriers. (Spring).

CE 6706. Pavement & Runway Design. 3 Credits.

Pavement types, wheel-load characteristics; stresses in pavements and subgrades; empirical methods of design of flexible and rigid highway and airfield pavements; general principles of runway design. (Spring, odd years).

CE 6707. Systems Dynamics Modeling and Control. 3 Credits.

Introduction of concepts in control theory and applications to solve problems in civil and transportation engineering dealing with single-input/single-output and multi-input/multi-output systems. Review of classical control theory in the frequency and time domain, state-space analysis, system optimization, and non-linear control. (Fall).

CE 6721. Traffic Engineering and Highway Safety. 3 Credits.

Roadway traffic capacity and network performance measures; steady and unsteady traffic flow phenomena; traffic control signalization theory and practical implementation; monitoring techniques, instruments, and data processing for highway safety. Traffic related highway safety design concepts. (Fall).

CE 6722. Intelligent Transportation Systems. 3 Credits.

Commands, controls and communications in modern multimodal transportation; infrastructure/highway and vehicle automation, advanced traffic management, vehicle control and safety systems; information, data, and sensory requirements; practical applications and projects. Prerequisites: CE 2710 or CE 3720. (Spring).

CE 6800. Special Topics. 1-6 Credits.

Topic to be announced in the Schedule of Classes.

CE 6801. Civil and Environmental Engineering Graduate Internship. 1 Credit.

For graduate students in the department. May be repeated once for credit. Prerequisite: required courses in the area of focus and department approval. Additional prerequisites may be required for a specific internship as determined by the research supervisor.

CE 6808. Research. 1-12 Credits.

Basic research projects, as arranged. May be repeated for credit.

CE 6998. Thesis Research. 3 Credits.

CE 6999. Thesis Research. 3 Credits.

CE 8320. Theory of Elasticity II. 3 Credits.

Application of integral transform and analytic function theory to solution of plane problems; elastic wave propagation. Three-dimensional elasto-statics. Prerequisite: APSC 6211; CE 6207.

CE 8321. Nonlinear Mechanics of Continua. 3 Credits.

Polar decomposition, invariance, isotropy, representation theorems for invariants and isotropic tensor functions. Deformation, kinematics, stress, balance principles. Principles for constitutive relations. Applications to nonlinear elasticity and non-Newtonian fluids. Prerequisite: CE 6206.

CE 8330. Advanced Finite Element Analysis. 3 Credits.

Review of variational formulation of the finite element method. Formulation of various continuum and structural elements. Application to static and dynamic problems in elasticity, plasticity, large deflection, and instability in plates and shells. Recent developments in finite element methods. Same as MAE 6288. Prerequisite: CE 6206, 6210; or MAE 6210, MAE 6286.

CE 8350. Sedimentation Engineering. 3 Credits.

Problems of erosion and sedimentation. Properties of sediment. Initiation of motion. Suspension of sediment and sediment discharge theories. Sedimentation measurements. Economic and legal aspects. Prerequisite: CE 6601 or approval of department.

CE 8351. Mechanics of Alluvial Channels. 3 Credits.

Physical processes in drainage basins and channels. Channel forms and bed forms. Hydraulics and sediment transport in alluvial channels. Design of stable channels. Qualitative and quantitative response of rivers. Channel stabilization, navigation channels. Case studies including environmental impacts. Prerequisite: CE 6601 or approval of department.

CE 8352. Advanced Hydraulics. 3 Credits.

Theory of unsteady flow. Diffusion and dispersion through pipes and open channels. Numerical solutions using finite element and finite difference methods. Prerequisite: CE 6601 or approval of department.

CE 8370. Intelligent Systems Theory and Applications. 3 Credits.

Overview of artificial intelligence, neural networks, genetic algorithms, fuzzy systems, and hybrid intelligent systems and their integration with other information processing methods. Intelligent systems applications; examples are drawn from ITS and traffic engineering, vehicle safety, remote sensing, and structural design optimization. Prerequisite: CE 6707.

CE 8380. Advanced Biomechanics. 3 Credits.

Historical overview of biomechanics and biomaterials. Fundamental concepts in mechanics as applied to the treatment of biological systems. Approaches to the mechanical analysis of the human structure under physiological and non-physiological loading conditions. Constitutive laws for biological materials. Finite element applications. Prerequisite: CE 6206 or 6350. (As arranged).

CE 8998. Advanced Reading and Research. 1-12 Credits.

Limited to students preparing for the Doctor of Philosophy qualifying examination. May be repeated for credit.

CE 8999. Dissertation Research. 1-12 Credits.

Limited to Doctor of Philosophy candidates. May be repeated for credit.

BACHELOR OF SCIENCE WITH A MAJOR IN CIVIL ENGINEERING

Civil engineering encompasses those branches of engineering most closely related to the control and improvement of our environment and of the physical conditions of life. Civil engineers apply many technical specialties in order to plan, design, and construct projects that range from buildings and transportation systems to space stations and space habitats.

Visit the program website (<http://www.cee.seas.gwu.edu/programs-degrees>) for additional information.

REQUIREMENTS

Recommended program of study

First semester

CE 1010	Introduction to Civil and Environmental Engineering
---------	---

UW 1020	University Writing *
---------	----------------------

SEAS 1001	Engineering Orientation
-----------	-------------------------

MATH 1231	Single-Variable Calculus I *
-----------	------------------------------

CHEM 1111	General Chemistry I *
-----------	-----------------------

One humanities or social sciences elective **

Second semester

PHYS 1021	University Physics I *
-----------	------------------------

MATH 1232 Single-Variable Calculus II *

MAE 1004 Engineering Drawing and Computer Graphics

CSCI 1121 Introduction to C Programming

One humanities or social sciences elective **

Third semester

APSC 2057 Analytical Mechanics I

APSC 2113 Engineering Analysis I

MATH 2233 Multivariable Calculus

PHYS 1022 University Physics II *

One humanities or social sciences elective **

Fourth semester

APSC 2058 Analytical Mechanics II

CE 2210 Engineering Computations

CE 2220 Introduction to the Mechanics of Solids

CE 2710 Introduction to Transportation Engineering

GEOL 1001 Physical Geology *

One humanities or social sciences elective **

Fifth semester

APSC 3115 Engineering Analysis III

CE 3110W Civil Engineering Materials

CE 3111W Civil Engineering Materials Lab

CE 3230 Structural Theory I

CE 3720 Highway Engineering and Design

MAE 3126 Fluid Mechanics I

One humanities or social sciences elective **

Sixth semester

CE 3240 Structural Theory 2

CE 3310 Reinforced Concrete Structures

CE 3611 Hydraulics Laboratory

CE 3520 Environmental Engineering I: Water Resources and Water Quality

CE 3610 Hydraulics

CE 3521 Environmental Engineering Laboratory

One humanities or social sciences elective **

Seventh semester

CE 4410 Introduction to Geotechnical Engineering

CE 4411 Geotechnical Engineering Laboratory

CE 4320 Metal Structures

CE 4620 Hydrology and Hydraulic Design

CE 4530 Environmental Engineering II: Water Supply and Pollution Control

One engineering elective selected from list below

Eighth semester

CE 4330 Contracts and Specifications

CE 4340 Design and Cost Analysis of Civil Engineering Structures

CE 6403 Geotechnical Engineering

Two engineering electives from the list below

Engineering electives

CE 4810 Research

CE 4820 Special Topics

CE 6102 Application of Probability Methods in Civil Engineering

CE 6201 Advanced Strength of Materials

CE 6202 Methods of Structural Analysis

CE 6203 Reliability Analysis of Engineering Structures

CE 6204 Analysis of Plates & Shells

CE 6205 Theory of Structural Stability

CE 6206 Continuum Mechanics

CE 6207 Theory of Elasticity I

CE 6208 Plasticity

CE 6209 Mechanics of Composite Materials

CE 6301 Design of Reinforced Concrete Structures

CE 6302 Prestressed Concrete Structures

CE 6320	Design of Metal Structures
CE 6321	Advanced Metal Structures
CE 6401	Fundamentals of Soil Behavior
CE 6402	Theoretical Soil Mechanics
CE 6403	Geotechnical Engineering
CE 6404	Geotechnical Earthquake Engineering
CE 6405	Rock Engineering
CE 6501	Environmental Chemistry
CE 6502	Advanced Sanitary Engineering Design
CE 6503	Principles of Environmental Engineering
CE 6504	Water and Wastewater Treatment Processes
CE 6505	Environmental Impact Assessment
CE 6506	Microbiology for Environmental Engineers
CE 6507	Advanced Treatment Processes
CE 6508	Industrial Waste Treatment
CE 6509	Introduction to Hazardous Wastes
CE 6601	Open Channel Flow
CE 6602	Hydraulic Engineering
CE 6603	Design of Dams
CE 6604	Advanced Hydrology
CE 6605	Ground Water and Seepage
CE 6606	Mechanics of Water Waves
CE 6607	Water Resources Planning and Control
CE 6608	Hydraulic Modeling
CE 6609	Numerical Methods in Environmental and Water Resources
CE 6610	Pollution Transport Systems
CE 6701	Analytical Mechanics
CE 6702	Vehicle Dynamics
CE 6703	Vehicle Standards and Crash Test Analysis

BACHELOR OF SCIENCE WITH A MAJOR IN CIVIL ENGINEERING, ENVIRONMENTAL ENGINEERING OPTION

Graduates with the degree of Bachelor of Science in Civil Engineering, Environmental Engineering Option, can identify, formulate, and solve problems involving design, experimentation, and analysis of a wide variety of civil engineering applications. The program of study prepares students to understand the impact of engineering solutions in a global economic, environmental, and social context. The well-structured curriculum enables students to design systems, components, or processes to meet desired needs within realistic constraints such as economic, environmental, social, political, health and safety, manufacturability, and sustainability.

Visit the program website (<http://www.cee.seas.gwu.edu/programs-degrees>) for additional information.

BACHELOR OF SCIENCE WITH A MAJOR IN CIVIL ENGINEERING, MEDICAL PREPARATION OPTION

The degree program for the Bachelor of Science in Civil Engineering, Medical Preparation Option, focuses on proficiency in mathematics through differential equations, probability and statistics, calculus-based physics, and general chemistry; and the ability to conduct laboratory experiments and to critically analyze and interpret data. The curriculum prepares students to use their technical knowledge and expertise in mathematics, science, and engineering to identify, formulate, and solve problems involving design, experimentation, and analysis of a wide variety of civil engineering applications with special emphasis on the medical field.

Visit the program website (<http://www.cee.seas.gwu.edu/programs-degrees>) for additional information.

A complete list of engineering electives can be found on the department's website (<http://www.cee.seas.gwu.edu/programs-degrees>).

BACHELOR OF SCIENCE WITH A MAJOR IN CIVIL ENGINEERING, SUSTAINABILITY OPTION

Civil engineering encompasses those branches of engineering most closely related to the control and improvement of our environment and the physical conditions of life. The Bachelor of Science in Civil Engineering prepares graduates to design systems, components, or processes to meet desired needs within realistic constraints such as sustainability. The University defines sustainability as the balance of environmental resources, social equity, and economic prosperity across the globe and across generations. The curriculum for the Bachelor of Science in Civil Engineering, Sustainability Option, enables students to develop the required analytical, experimental, and design skills. Students can apply interdisciplinary methods and approaches to sustainability to analyze challenges, and develop and implement solutions.

Visit the program website (<http://www.cee.seas.gwu.edu/programs-degrees>) for additional information.

CE 2210	Engineering Computations
CE 2220	Introduction to the Mechanics of Solids
CE 2710	Introduction to Transportation Engineering
GEOL 1001	Physical Geology

One humanities or social sciences elective **

Fifth semester

APSC 3115 Engineering Analysis III

CE 3110W Civil Engineering Materials

CE 3111W Civil Engineering Materials Lab

CE 3230 Structural Theory I

CE 3720 Highway Engineering and Design

MAE 3126 Fluid Mechanics I

One humanities or social sciences elective **

Sixth semester

CE 3140 Sustainability in Engineering Materials

CE 3240 Structural Theory 2

CE 3310 Reinforced Concrete Structures

CE 3520 Environmental Engineering I: Water Resources and Water Quality

CE 3521 Environmental Engineering Laboratory

CE 3610 Hydraulics

CE 3611 Hydraulics Laboratory

Seventh semester

CE 4410 Introduction to Geotechnical Engineering

CE 4411 Geotechnical Engineering Laboratory

CE 4320 Metal Structures

CE 4620 Hydrology and Hydraulic Design

CE 4530 Environmental Engineering II: Water Supply and Pollution Control

Civil engineering elective from the list below

Eighth semester

CE 4330 Contracts and Specifications

CE 4340 Design and Cost Analysis of Civil Engineering Structures

CE 4450 Introduction to Geo-environmental Engineering

Two engineering electives from the list below

Engineering electives

CE 4810 Research

CE 4820 Special Topics

CE 6102 Application of Probability Methods in Civil Engineering

CE 6201 Advanced Strength of Materials

CE 6202 Methods of Structural Analysis

CE 6203 Reliability Analysis of Engineering Structures

CE 6204 Analysis of Plates & Shells

CE 6205 Theory of Structural Stability

CE 6206 Continuum Mechanics

CE 6207 Theory of Elasticity I

CE 6208 Plasticity

CE 6209 Mechanics of Composite Materials

CE 6301 Design of Reinforced Concrete Structures

CE 6302 Prestressed Concrete Structures

CE 6320 Design of Metal Structures

CE 6321 Advanced Metal Structures

CE 6401 Fundamentals of Soil Behavior

CE 6402 Theoretical Soil Mechanics

CE 6403 Geotechnical Engineering

CE 6404 Geotechnical Earthquake Engineering

CE 6405 Rock Engineering

CE 6501 Environmental Chemistry

CE 6502 Advanced Sanitary Engineering Design

CE 6503 Principles of Environmental Engineering

CE 6504 Water and Wastewater Treatment Processes

CE 6505 Environmental Impact Assessment

CE 6506 Microbiology for Environmental Engineers

CE 6507 Advanced Treatment Processes

CE 6508 Industrial Waste Treatment

CE 6509	Introduction to Hazardous Wastes
CE 6601	Open Channel Flow
CE 6602	Hydraulic Engineering
CE 6603	Design of Dams
CE 6604	Advanced Hydrology
CE 6605	Ground Water and Seepage
CE 6606	Mechanics of Water Waves
CE 6607	Water Resources Planning and Control
CE 6608	Hydraulic Modeling
CE 6609	Numerical Methods in Environmental and Water Resources
CE 6610	Pollution Transport Systems
CE 6701	Analytical Mechanics
CE 6702	Vehicle Dynamics
CE 6703	Vehicle Standards and Crash Test Analysis
CE 6704	Crash Investigation and Analysis
CE 6705	Nonlinear Finite Element Modeling and Simulation
CE 6706	Pavement & Runway Design
CE 6707	Systems Dynamics Modeling and Control
CE 6721	Traffic Engineering and Highway Safety
CE 6722	Intelligent Transportation Systems
CE 6800	Special Topics
EMSE 6410	Survey of Finance and Engineering Economics

*Course satisfies the university general education requirement in math, science, and writing.

**At least two social and behavioral sciences courses must be selected from the University General Education Requirement list (p. 28); the remaining course must be selected from either the University General Education Requirement list or the SEAS General Education Requirement list (http://www.seas.gwu.edu/sites/www.seas.gwu.edu/files/downloads/HSS%20Form%20Fall%202015%20Admits%201_0.pdf). At least one humanities course must be selected from the University General Education Requirement list (p. 28); the remaining courses must be selected from either the University General Education Requirement list or the SEAS General Education Requirement

list. (http://www.seas.gwu.edu/sites/www.seas.gwu.edu/files/downloads/HSS%20Form%20Fall%202015%20Admits%201_0.pdf)

BACHELOR OF SCIENCE WITH A MAJOR IN CIVIL ENGINEERING, TRANSPORTATION ENGINEERING OPTION

Civil engineering encompasses those branches of engineering most closely related to the control and improvement of our environment and the physical conditions of life. The Bachelor of Science in Civil Engineering, Transportation Engineering Option, prepares students to design systems, components, or processes to meet desired needs within realistic constraints such as economic, environmental, social, political, health and safety, manufacturability, and sustainability. Students are able to use their experience with interdisciplinary methods and approaches to transportation engineering and design to develop the required analytical, experimental, and design skills. Graduates understand issues involving professional practice such as procurement of work, bidding versus quality-based selection processes, and how construction professionals and civil engineers interact to design and construct a project.

Visit the program website (<http://www.cee.seas.gwu.edu/programs-degrees>) for additional information.

REQUIREMENTS

Recommended program of study

First semester

CE 1010	Introduction to Civil and Environmental Engineering
CHEM 1111	General Chemistry I *
SEAS 1001	Engineering Orientation
MATH 1231	Single-Variable Calculus I *
UW 1020	University Writing *

One humanities or social sciences elective **

Second semester

CSCI 1121	Introduction to C Programming
MAE 1004	Engineering Drawing and Computer Graphics
MATH 1232	Single-Variable Calculus II *
PHYS 1021	University Physics I *

One humanities or social sciences elective **

Third semester

APSC 2057 Analytical Mechanics I

APSC 2113 Engineering Analysis I

MATH 2233 Multivariable Calculus *

PHYS 1022 University Physics II *

One humanities or social sciences elective **

Fourth semester

APSC 2058 Analytical Mechanics II

CE 2210 Engineering Computations

CE 2220 Introduction to the Mechanics of Solids

CE 2710 Introduction to Transportation Engineering

GEOL 1001 Physical Geology

One humanities or social sciences elective **

Fifth semester

APSC 3115 Engineering Analysis III

CE 3110W Civil Engineering Materials

CE 3111W Civil Engineering Materials Lab

CE 3230 Structural Theory I

CE 3720 Highway Engineering and Design

MAE 3126 Fluid Mechanics I

One humanities or social sciences elective **

Sixth semester

CE 3240 Structural Theory 2

CE 3310 Reinforced Concrete Structures

CE 3520 Environmental Engineering I: Water Resources and Water Quality

CE 3521 Environmental Engineering Laboratory

CE 3611 Hydraulics Laboratory

CE 3610 Hydraulics

One humanities or social sciences elective **

Seventh semester

CE 4410 Introduction to Geotechnical Engineering

CE 4411 Geotechnical Engineering Laboratory

CE 4320 Metal Structures

CE 4620 Hydrology and Hydraulic Design

CE 4530 Environmental Engineering II: Water Supply and Pollution Control

One engineering elective from the list below

Eighth semester

CE 4330 Contracts and Specifications

CE 4340 Design and Cost Analysis of Civil Engineering Structures

CE 6403 Geotechnical Engineering

Two engineering electives from the list below

Engineering electives

CE 4810 Research

CE 4820 Special Topics

CE 6102 Application of Probability Methods in Civil Engineering

CE 6201 Advanced Strength of Materials

CE 6202 Methods of Structural Analysis

MASTER OF SCIENCE IN THE FIELD OF CIVIL AND ENVIRONMENTAL ENGINEERING

The Master of Science in the field of civil and environmental engineering program is designed to provide students with the fundamentals and knowledge about the various specializations within environmental engineering. These include water, wastewater, hazardous wastes, industrial wastes, and pertinent regulatory requirements. As one of the fastest growing fields in the U.S. and developing countries, new methods and technologies are emerging in civil and environmental engineering. Environmental engineering students use one of the world's largest wastewater treatment plants as a real-world laboratory to improve the water quality of the Potomac River and the Chesapeake Bay watershed. Structural engineering students study earthquake engineering, extreme event design of structures, and bridge design on a state-of-the-art, six-degrees-of-freedom earthquake simulator. And transportation engineering students learn from faculty and experts at GW's National Crash Analysis Center and the Federal Outdoor Impact Laboratory.

Specific admission requirements are shown on the Graduate Program Finder (<http://www.gwu.edu/all-graduate-programs>).

More information can be found on the departmental website (<http://www.cee.seas.gwu.edu/master-science-program>).

REQUIREMENTS

The following requirements must be fulfilled:

Minimum requirements for the degree are 33 credits of coursework, or 24 credits of coursework and 6 credits of thesis.

Required courses

Engineering Mechanics:

APSC 6213 Analytical Methods in Engineering III

CE 6206 Continuum Mechanics

CE 6210 Introduction to Finite Element Analysis

Environmental engineering:

CE 6503 Principles of Environmental Engineering

CE 6601 Open Channel Flow

CE 6609 Numerical Methods in Environmental and Water Resources

Geotechnical engineering:

CE 6210 Introduction to Finite Element Analysis

CE 6402 Theoretical Soil Mechanics

CE 6605 Ground Water and Seepage

Structural engineering:

CE 6201 Advanced Strength of Materials

CE 6202 Methods of Structural Analysis

CE 6210 Introduction to Finite Element Analysis

Transportation safety engineering:

CE 6210 Introduction to Finite Element Analysis

CE 6701 Analytical Mechanics

CE 6102 Application of Probability Methods in Civil Engineering

or CE 6722 Intelligent Transportation Systems

Water resources engineering:

CE 6503 Principles of Environmental Engineering

CE 6601 Open Channel Flow

CE 6609 Numerical Methods in Environmental and Water Resources

COMPUTER SCIENCE

Mission Statement

The mission of the Department of Computer Science is to serve the global community by providing high-quality computer science education, research, and professional services and to advance computer technology in selective areas while upholding standards of excellence.

Educational Objectives

The undergraduate program of study is designed to prepare graduates to earn an advanced degree in computer science or related disciplines; for a professional degree such as law, business, or medicine; or for employment in the computer or IT industry, where they will apply the skills and knowledge learned in the program. Graduates will conduct themselves

professionally and ethically, work effectively in teams, and communicate effectively with both technical and non-technical audiences.

Educational Outcomes

A graduate in computer science will have the ability to do the following:

- Apply knowledge of computing and mathematics appropriate to the discipline;
- Analyze a problem and identify and define the computing requirements appropriate to its solution;
- Design, implement, and evaluate a computer-based system, process, component, or program to meet desired needs;
- Function effectively on teams to accomplish a common goal;
- Understand professional, ethical, legal, security, and social issues and responsibilities;
- Communicate effectively with a range of audiences;
- Analyze the local and global impact of computing on individuals, organizations, and society;
- Recognize the need to engage in continuing professional development;
- Use current techniques, skills, and tools necessary for computing practice;
- Apply mathematical foundations, algorithmic principles, and computer science theory in the modeling and design of computer-based systems in a way that demonstrates comprehension of the trade-offs involved in design choices; and
- Apply design and development principles in the construction of software systems of varying complexity.

UNDERGRADUATE

Bachelor's programs

- Bachelor of Arts with a major in computer science (p. 1053)
- Bachelor of Science with a major in computer science (p. 1055)

GRADUATE

Master's programs

- Master of Science in the field of computer science (p. 1056)
- Master of Science in the field of cybersecurity in computer science (p. 1057)

Doctoral program

See the School of Engineering and Applied Science for programs leading to the doctoral degree.

CERTIFICATES

- Certificate in computer security and information assurance (p. 1057)

FACULTY

Professors S.Y. Berkovich, H.A. Choi, J.K. Hahn, R.S. Heller, B. Narahar, R. Simha, A. Youssef (*Chair*),

Associate Professors A. Bellaachia, X. Cheng, M. Diab, S. Rotenstreich, P. Vora, N. Zhang

Assistant Professors E. Drumwright, C. Monteleoni, G.A. Parmer, T. Wood

COURSES

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000–4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master’s, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

Note: With the exception of CSCI 1010, CSCI courses numbered CSCI 1041 and below may not normally be counted toward degree requirements for computer science majors, unless approved by a department advisor. Credit may be earned for only one course in each of the following pairs of courses:

CSCI 2441 Database Systems and Team Projects

or CSCI 6441 Database Management Systems

CSCI 3362 Probability for Computer Science

or CSCI 6362 Probability for Computer Science

CSCI 4223 Principles of Programming Languages

or CSCI 6223 Principles of Programming Languages

CSCI 4331 Cryptography

or CSCI 6331 Cryptography

CSCI 4341 Continuous Algorithms

or CSCI 6341 Continuous Algorithms

CSCI 4364 Machine Learning

or CSCI 6364 Machine Learning

CSCI 4431 Computer Networks I

or CSCI 6431 Computer Networks

CSCI 4521 Introduction to Mobile Robotics

or CSCI 6521 Introduction to Mobile Robotics

CSCI 4525 Autonomous Robotics: Manipulation

or CSCI 6525 Autonomous Robotics: Manipulation

CSCI 4527 Introduction to Computer Vision

or CSCI 6527 Introduction to Computer Vision

CSCI 4531 Computer Security

or CSCI 6531 Computer Security

CSCI 4532 Information Policy

or CSCI 6532 Information Policy

CSCI 4541 Network Security

or CSCI 6541 Network Security

CSCI 1010. Computer Science Orientation. 1 Credit.

Introduction to the field of computer science. Basic and emerging concepts and applications of computer science. Hands-on experiments and team projects. Technical resources, professional ethics, writing, and presentation.

CSCI 1011. Introduction to Programming with Java. 3 Credits.

An introductory course in programming a computer, using the Java language. Object-oriented programming, classes, applets, methods, control structures, inheritance, overriding, GUI widgets, containers, and exceptions.

CSCI 1020. Applications Software. 3 Credits.

Introduction to the use of microcomputer hardware and software for word processing (e.g., Word), spreadsheets (e.g., Excel), and database management (e.g., Access), with emphasis on the use of computers to solve typical problems in academia and business.

CSCI 1021. Introduction to Computers and the Internet. 3 Credits.

Survey of computers and languages. Introduction to computer programming. History of computing and networking. The effects of computing and the Internet on our lives. E-commerce and new technologies. Concepts of web page design. (Fall and spring).

CSCI 1022. Introduction to Internet Technology. 3 Credits.

An introductory course for non-technical students who wish to obtain a better understanding of the hardware and software that comprise the Internet. Information transfer over fiber, routing and switching of packets, methods of information transfer, protocols, software, ISP, web pages and multimedia.

CSCI 1023. Introduction to Web Software Development. 3 Credits.

Introduction to the Internet. Topics include address and URL to find your way, linking to a URL, HTML and web programming, building a web page, building a home page, client-server techniques. (Fall and spring).

CSCI 1030. Technology and Society. 3 Credits.

Historical, social, and ethical issues of the technological age. Ethical principles and skills and social analysis skills needed to evaluate the design and implementation of complex computer systems. Privacy, computer crime, equity, intellectual property, professional ethics. Data collection, analysis, and presentation; technical writing and oral communication skills.

CSCI 1030W. Technology and Society. 3 Credits.

Historical, social, and ethical issues of the technological age. Ethical principles and skills and social analysis skills needed to evaluate the design and implementation of complex computer systems. Privacy, computer crime, equity, intellectual property, professional ethics. Data collection, analysis, and presentation; technical writing and oral communication skills.

CSCI 1041. Introduction to FORTRAN Programming. 3 Credits.

Structured programming with high-level language using FORTRAN. Control structures. Different data types with emphasis on real and complex number computations. Arrays used with vector and matrix manipulation to solve simultaneous equations. External subroutines for mathematical and graphical applications. Prerequisite or corequisite: Math 1220 or MATH 1231.

CSCI 1111. Introduction to Software Development. 3 Credits.

Introduction to the solution of problems on a digital computer using the Java language. Object-oriented programming concepts; documentation techniques; design of test data. Writing, debugging, and running programs in an interactive computing environment.

CSCI 1112. Algorithms and Data Structures. 3 Credits.

Object-oriented software. Inheritance, exceptions, development of classes, event-driven programming. Data structures such as trees, lists, stacks, queues, and strings. Sorting and searching. Introduction to algorithm performance prediction. May be taken for graduate credit by students in fields other than computer science. Prerequisites: CSCI 1111 with a grade of C or higher; and MATH 1220 or MATH 1231. (Spring).

CSCI 1121. Introduction to C Programming. 3 Credits.

Structured programming with the C language. Control structures. Data types. Use of pointers. Matrix manipulation to solve simultaneous equations. External subroutines for mathematical and graphical applications. Introduction to C> Complex number representation. Corequisite: MATH 1220 or MATH 1231.

CSCI 1131. Introduction to Programming with C. 3 Credits.

Intensive introductory course for students with a science, mathematics, or other quantitative background. Solution of numerical and nonnumerical problems on a digital computer using C programming language in a Unix environment. Recommended for graduate and advanced undergraduate students in other departments. Prerequisite: MATH 1232 .

CSCI 1132. Data Structures and Software Design. 3 Credits.

Data structures such as trees, lists, stacks, queues, and strings. Big-O notation and introduction to algorithm performance analysis. Solutions of numerical and non-numerical problems. Use of I/O libraries. Application development and software testing. Prerequisite: CSCI 1121.

CSCI 1311. Discrete Structures I. 3 Credits.

Mathematics for computer science. Sets, functions, sequences. Propositional and predicate calculus, formal proofs, mathematical induction. Matrices, semigroups, groups, isomorphism. Relations, partitions, equivalence relations, trees, graphs. May be taken for graduate credit by students in fields other than computer science. Prerequisites: MATH 1220 or MATH 1231. (Fall).

CSCI 2113. Software Engineering. 3 Credits.

Programming techniques and software development in one or more programming languages. Application development with GUIs, database access, threads, Web programming. Prerequisites: CSCI 1112 with a grade of C or higher; MATH 1231. (Fall).

CSCI 2312. Discrete Structures II. 3 Credits.

Basic discrete techniques in computer science. Proofs, algebraic structures, number theory, graph theory, (coloring and planar graphs, communication networks), advanced recurrences, advanced sums, approximations and asymptotics. Prerequisites: CSCI 1311 with a grade of C or higher; MATH 1231. (Fall).

CSCI 2441. Database Systems and Team Projects. 3 Credits.

Design of relational database systems, relational query languages, normal forms, design of database applications. Team software development, integration, and testing. Professional code of ethics, intellectual property, privacy, software copyrights. Corequisite: CSCI 2113.

CSCI 2441W. Database Systems and Team Projects. 3 Credits.

Design of relational database systems, relational query languages, normal forms, and design of database applications. Team software development, integration, and testing. Professional code of ethics, intellectual property, privacy, and software copyrights. Corequisite: CSCI 2113. (Spring).

CSCI 2461. Computer Architecture I. 3 Credits.

Number representation, computer arithmetic, digital logic and circuit design. Computer organization, micro-architecture and processor datapath, assembly and machine language programming. Introduction to memory organization and the hardware-software interface. Implementation of high-level language constructs. Prerequisites: CSCI 1112 with a grade of C or higher; CSCI 1311. (Fall).

CSCI 3212. Algorithms. 4 Credits.

Core concepts in design and analysis of algorithms, data structures, and problem-solving techniques. Hashing, heaps, trees. Graph algorithms, searching, sorting, graph algorithms, dynamic programming, greedy algorithms, divide and conquer, backtracking. Combinatorial optimization techniques. NP-completeness. Prerequisite: CSCI 1311, CSCI 2113.

CSCI 3221. Programming Languages. 3 Credits.

Programming language and software design fundamentals. Writing programs in a non-procedural programming language. Closures; procedure and data abstraction; object-oriented, procedural, and declarative programming; continuation compilation and interpretation, and syntactic extension. Advanced control structures appropriate for parallel programming. Prerequisite: CSCI 2113.

CSCI 3240. Pre-Senior Design with Research. 3 Credits.

For students who wish to combine a research project with their Senior Design project. The goal is to complete the research, under a faculty mentor, within three semesters. Prerequisite: CSCI 3212, CSCI 3313, CSCI 3411, and permission of instructor.

CSCI 3313. Foundations of Computing. 4 Credits.

Theoretical foundations. Formal languages and automata; regular expressions, context-free languages; finite state automata and pushdown automata; Turing machines and computability, recursive function theory, undecidability. Compiler construction. Lexical and syntax analysis; parsing and parsing techniques; lexical and parsing tools. Prerequisite: CSCI 2461, CSCI 2113.

CSCI 3362. Probability for Computer Science. 3 Credits.

Introduction to probability and statistics for computer scientists. Random variables. Conditional probability, independence, correlation. Applications to computer science, including information theory, data compression, coding, inference, Markov chains, introduction to randomized algorithms. Prerequisite: Math 1232, CSCI 1311; or permission of instructor.

CSCI 3410. Systems Programming. 3 Credits.

Concepts underlying all computer systems. Processor operation, hierarchical memory systems, embedded boards, data acquisition, actuation, and systems software such as compilers, linkers, and operating systems from the programmer's perspective. Use of embedded platforms to examine how programs interact with and are constrained by hardware. Prerequisite: CSCI 2461, CSCI 2113.

CSCI 3411. Operating Systems. 4 Credits.

Process management, process state, concurrent processing, synchronization, events. Operating system structure, the kernel approach, processor scheduling, task switching, monitors, threads. System management, memory management, process loading, communication with peripherals. File systems. Socket programming, packets, Internet protocols. Prerequisite: CSCI 2461, CSCI 2113.

CSCI 3462. Computer Architecture II. 3 Credits.**CSCI 3571. Introduction to Bioinformatics. 3 Credits.**

Same as BiSc 2584.

CSCI 3907. Special Topics. 1-3 Credits.

Topic to be announced in the Schedule of Classes. (Fall and spring).

CSCI 3908. Research. 1-3 Credits.

Applied research and experimentation projects, as arranged. Prerequisite: junior or senior status.

CSCI 4222. Theory of Computer Translators. 3 Credits.

Lexical and syntax analysis, regular expressions, context-free grammars, parsing techniques, top-down parsing, efficient parsing, syntax-directed translation, intermediate formats, flow of control, block structures, procedure calls, symbol tables, run-time storage, error-detection and recovery, code optimization, code generation. Prerequisite: CSCI 3462, CSCI 3313.

CSCI 4223. Principles of Programming Languages. 3 Credits.

Fundamental concepts underlying design of programming languages. Detailed study of functional and object-oriented computational models. Types, evaluation, abstraction, control flow, modules, mutation, laziness, polymorphism, subtyping, inheritance. Practice learning new languages. Prerequisite: CSCI 1311, CSCI 2113.

CSCI 4235. Development of Open-Source Software. 3 Credits.

Design, process, tools, and culture of open-source software development. Cross-platform development and testing. Geographic dispersal, social and team dynamics, licenses (GPL, BSD, other); code reuse (modular code, shared libraries); very-large-scale distributed development techniques (CVS, Bugzilla, release-management, mailing-lists). May be taken for graduate credit. Prerequisite: CSCI 2113 or CSCI 6221.

CSCI 4237. Software Design for Handheld Devices. 3 Credits.

Design of interactive software for handheld devices. Event driven programming, user interface design practices, memory management, handheld debugging techniques. May be taken for graduate credit. Prerequisite: CSCI 2113 or CSCI 6221.

CSCI 4243. Capstone Design Project I. 3 Credits.

Planning, design, and construction of the capstone project. Economic analysis of the project. Application of software engineering principles, including software requirements, specification, requirements engineering, reuse, documentation, verification/validation, testing, configuration management. Report writing and presentations. Prerequisite: senior status.

CSCI 4243W. Capstone Design Project I. 4 Credits.

Planning, design, and construction of the capstone project. Economic analysis of the project. Application of software engineering principles, including software requirements, specification, requirements engineering, reuse, documentation, verification/validation, testing, configuration management. Report writing and presentations. Prerequisite: senior status.

CSCI 4244. Capstone Design Project II. 4 Credits.

Continuation of CSCI 4243. Planning, design, and construction of the capstone project. Economic analysis of the project. Application of software engineering principles, including software requirements, specification, requirements engineering, reuse, documentation, verification/validation, testing, configuration management. Report writing and presentations. Prerequisite: senior status.

CSCI 4314. Discrete Analysis-Computer Sci. 3 Credits.

Combinatorial theory: permutations and combinations, generating functions, recurrence relations, the principle of inclusion and exclusion. Block designs. Applications to the analysis of algorithms, computer organization, VLSI placement, coding theory, simulation, and other problems. May be taken for graduate credit. Prerequisite: CSCI 1311 or permission of instructor.

CSCI 4331. Cryptography. 3 Credits.

Algorithmic principles of cryptography from Julius Caesar to public key cryptography. Key management problems and solutions. Cryptographic systems and applications. Prerequisite: CSCI 2312, CSCI 3313, CSCI 3212.

CSCI 4341. Continuous Algorithms. 3 Credits.

Overview of structures in continuous mathematics from a computational viewpoint. Main topics include continuous system simulation, computational modeling, probability, statistical techniques, next-event simulation, algorithms for continuous optimization, machine learning, neural networks, statistical language processing, robot control algorithms. Prerequisite: CSCI 1311, CSCI 2113.

CSCI 4342. Computational Linear Algebra and Applications. 3 Credits.

Application of linear algebra to computer science and engineering, with a computational perspective. Topics include points, vectors, matrices, and their programming representations; algorithms for 3D transformations, pose and viewpoint estimation; linear equations, independence, rank; algorithms for matrix decompositions, reduction of dimension; computation with large matrices, under and over-determined systems; applications to large data, computer vision, text processing. Prerequisite: CSCI 2113.

CSCI 4361. Simulation Methods. 3 Credits.

Computational methods for continuous and discrete system simulation. Effects of computer software and hardware architectures on computational precision and accuracy requirements. Random-number generation and testing. Calibration and scaling technique. Verification and validation technique. May be taken for graduate credit. Prerequisite: CSCI 2113.

CSCI 4364. Machine Learning. 3 Credits.

Overview of core machine learning techniques: nearest-neighbor, regression, classification, perceptron, kernel methods, support vector machine (SVM), logistic regression, ensemble methods, hidden Markov models (HMM), non-parametrics, online learning, active learning, clustering, feature selection, parameter tuning, and cross-validation.

CSCI 4415. Real-Time and Embedded Systems. 3 Credits.

Development of software for real-time control of physical systems. Reliability and fault tolerance, exceptions and exception handling, reliability and concurrent processes, timeouts, deadline scheduling, shared-memory and message-based device drivers. May be taken for graduate credit. Prerequisite: CSCI 2113.

CSCI 4417. UNIX System Programming. 3 Credits.

Exposure to UNIX internals. Use of UNIX system calls and utilities in conjunction with script and C programs. RFCs, GNU project, and other collaborative traditions in the UNIX community. May be taken for graduate credit. Prerequisite: Senior status or 1 year of C programming and UNIX user experience.

CSCI 4418. UNIX System Administration. 3 Credits.

System administration for the stand-alone system or small networks. Installation of two or more UNIX variants (Linux, FreeBSD, Solaris) on Intel or Sparc platforms. Configuration of mail, name services, and other network utilities. Backup and recovery, security and ethics. May be taken for graduate credit. Prerequisite: CSCI 4417.

CSCI 4431. Computer Networks I. 3 Credits.

Higher-layer protocols and network applications on the Internet, such as session layer, presentation layer, data encryption, directory services and reliable transfer services, telnet, network management, network measurements, e-mail systems, and error reporting. Prerequisite: CSCI 2461, CSCI 2113.

CSCI 4431W. Computer Networks I. 3 Credits.

Higher-layer protocols and network applications on the Internet, such as session layer, presentation layer, data encryption, directory services and reliable transfer services, telnet, network management, network measurements, e-mail systems, and error reporting. Prerequisite: CSCI 2461, CSCI 2113.

CSCI 4432. Computer Networks II. 3 Credits.

Computer networks and open system standards. Network configurations and signals, encoding and modulation, transmission media, connection interfaces, error detection and correction, signal compression, switching, link layer control, ISDN, X.25, frame relay, ATM, and Sonet. Bridges, routers, and routing algorithms. Prerequisite: CSCI 4431.

CSCI 4455. Computer Game Design and Programming. 3 Credits.

Principles, techniques, and design of computer games. Graphic game engines, modeling, motion, AI and interaction; sound design and synthesis; real-time software and hardware issues. May be taken for graduate credit. (Fall).

CSCI 4511. Artificial Intelligence Algorithms. 3 Credits.

Knowledge representation and reasoning, propositional logic and predicate calculus. Logic programming. Search, game trees, backtracking. Planning. May be taken for graduate credit. Prerequisite: CSCI 3221, CSCI 3212.

CSCI 4521. Introduction to Mobile Robotics. 3 Credits.

Overview of autonomous mobile robotics. Sensing, localization, calibration, mapping, perception, decision making, planning, and control. Emphasis on algorithmic rather than hardware aspects of robotics. Development of algorithms that can operate autonomous mobile platforms in complex, real-world environments. Prerequisite: MATH 1232, MATH 2184; CSCI 3362 or CSCI 4341.

CSCI 4525. Autonomous Robotics: Manipulation. 3 Credits.

Introduction to robot manipulation. Core principles necessary to program robots for autonomous operation in dynamic and typically human-centric environments. Transdisciplinary concepts from computer science (reinforcement learning, perception), mechanical engineering (kinematics, dynamics), and electrical engineering (control theory). Prerequisite: permission of instructor.

CSCI 4527. Introduction to Computer Vision. 3 Credits.

Introduction and overview of computer vision. Image-formation signal processing and filtering. Saliency, image features and feature extraction, tracking, stereo disparity estimation, structure from motion, photogrammetry, optic flow, homography estimation and warping, scene segmentation, place recognition, object recognition, robust estimation, and camera calibration. Prerequisite: MATH 1232, MATH 2184; CSCI 4362 or CSCI 4341.

CSCI 4531. Computer Security. 3 Credits.

Risk analysis, cryptography, operating system security, identification and authentication systems, database security. Prerequisite: CSCI 3411; corequisite: CSCI 4431.

CSCI 4532. Information Policy. 3 Credits.

Roles, issues, and impacts of computer-based information systems in national and international arenas, focusing on privacy, equity, freedom of speech, intellectual property, and access to personal and governmental information. Professional responsibilities, ethics, and common and best practices in information use.

CSCI 4541. Network Security. 3 Credits.

Security protocols and applications in local, global, and wireless networks; IPsec and packet-level communication security systems; network authentication and key-exchange protocols; intrusion detection systems and firewalls; secure network applications; network worms and denial-of-service attacks. Prerequisite: CSCI 4531.

CSCI 4551. Concepts and Applications of Computer Graphics. 3 Credits.

Introduction to computer graphics without programming; building 3-D geometry and rendering; computer animation; virtual reality and computer games; hands-on projects in modeling, rendering, and animation using commercial software; hands-on projects in photo and video manipulation.

CSCI 4552. Design of Computer Animation I. 3 Credits.

Use of commercial 3-D computer animation packages to create digital artistic works. Principles of animation, including timing, exaggeration of motion, and anticipation; use of a storyboard; modeling; motion; rendering and editing. Prerequisite: CSCI 4551.

CSCI 4553. Design of Computer Animation II. 3 Credits.

Use of commercial 3-D animation packages to create artistic works and visualizations. Process-spanning concepts of development through pre-production, production, and post-production. Emphasis on developing original content and attaining high production values. Prerequisite: CSCI 4552.

CSCI 4554. Computer Graphics 1. 3 Credits.

Hardware; concepts of graphics subroutine packages; programming concepts for interaction, display, and data structuring; basic clipping and scan-conversion algorithms; homogeneous coordinates; three-dimensional viewing transforms; basic rendering. May be taken for graduate credit. Prerequisite: CSCI 2113 or CSCI 6221.

CSCI 4561. Design of User-Interface Programs. 3 Credits.

Structure of interactive programs. Widgets, windows, and input devices. Client-server model, event-driven programming, and callbacks. Window systems (e.g., Xwindows) and dialog control. May be taken for graduate credit. Prerequisite: CSCI 2113 or CSCI 6221.

CSCI 4572. Computational Biology. 3 Credits.

Pairwise alignment and scoring. Multiple sequence alignment. Fragment assembly, physical mapping of DNA. Phylogenetic trees. Molecular structure prediction and protein folding. Microarrays and microarray data, image comparison. Clustering. Overview of biological databases, PDB, MMDB, GenBank. Draft genomes and genome browsers. Pathway databases. May be taken for graduate credit. Prerequisite: CSCI 3571 and CSCI 3212 or CSCI 6212.

CSCI 4576. Introduction to Biomedical Computing. 3 Credits.

A survey of the problems and solutions in biomedical computing. Application of computers in medicine. Patient care and monitoring systems, electronic medical records, digital imaging and analysis. Telemedicine, medical ethics, health care regulations and organizations.

CSCI 4577. Biomedical Computing. 3 Credits.

Computing issues in epidemiology and biosurveillance, decision support, medical imaging and visualization, image-guided surgery; medical databases, issues in system integration, mobile medical computing. May be taken for graduate credit. Prerequisite: CSCI 2113, CSCI 4576; corequisite: CSCI 2441.

CSCI 6010. Introduction to Computer Science Fundamentals. 3 Credits.

Review of programming in a high-level language using Java or C++ Introduction to objects and object-oriented programming: static and dynamic objects, inheritance, dynamic method invocation. Data structures: 2D-arrays, linked-lists, stacks, queues, trees, hashing. Discrete structures: sets, graphs, permutations and combinations. Prerequisite: one year of course work in programming in C, C++ or Java.

CSCI 6011. Introduction to Computer Systems. 3 Credits.

Introduction to basic concepts underlying all computer systems. Processor operation, hierarchical memory systems, elementary logic circuits, and systems software such as compilers, linkers, and operating systems from the programmer's perspective. Prerequisite: one year of course work in programming in C, C++ or Java.

CSCI 6212. Design and Analysis of Algorithms. 3 Credits.

Design and analysis of algorithms. Turing machines; NP-Complete theory. Algorithmic techniques: divide-and-conquer, greedy, dynamic programming, graph traversal, backtracking, and branch-and-bound. Applications include sorting and searching, graph algorithms, and optimization. Prerequisite: CSCI 1311, CSCI 1112.

CSCI 6213. Advanced Data Structures. 3 Credits.

Sparse matrix transpose and multiplication. List insertion and deletion, lists of available space. In-order, preorder, and postorder traversal of trees. Topological sorting. Binary search trees, including AVL trees, B-trees, and tries. Dynamic hashing. Prerequisite: CSCI 6212.

CSCI 6221. Advanced Software Paradigms. 3 Credits.

Object-oriented, procedural, functional, and concurrent software design paradigms; design patterns; software life-cycle concepts. Tradeoffs between compiled and interpreted languages. Examples from Java, C, C++ and Perl.

CSCI 6223. Principles of Programming Languages. 3 Credits.

Fundamental concepts underlying design of programming languages. Detailed study of functional and object-oriented computational models. Types, evaluation, abstraction, control flow, modules, mutation, laziness, polymorphism, subtyping, inheritance. Practice learning new languages. Prerequisite: CSCI 1311, CSCI 2113.

CSCI 6231. Software Engineering. 3 Credits.

The life-cycle model. Requirements and specifications. Design models, structured and object-oriented design. Program development, PDL's tools, configuration control. Program, unit, and integration testing. Program verification. Other development models. Development metrics. Computer-aided software engineering (CASE). Prerequisite: CSCI 6221, CSCI 6212.

CSCI 6232. Software Engineering Development. 3 Credits.

Formal methods in software engineering. First-order logic, basic specification elements, rigorous proofs, formal development process, concurrency. Prerequisite: CSCI 6461, CSCI 6212.

CSCI 6233. Software Testing & Quality. 3 Credits.

Flow graphs and path testing, transaction flow testing, data flow testing, software metrics, system testing, test planning and documentation, reliability, statistical testing. Prerequisite: CSCI 6231.

CSCI 6234. Object-Oriented Design. 3 Credits.

Object-oriented systems, software reusability, software modularity, top-down and bottom-up approaches, object classification, genericity, metaprogramming, concurrent object-oriented programming languages. Prerequisite: CSCI 6221.

CSCI 6235. Component-Based Enterprise Software Development. 3 Credits.

Component-based software development for enterprise applications. Component models, multi-tier architecture. Specific case studies may include topics such as Enterprise Java Beans, DCOM, and COBRA. Prerequisite: CSCI 6221.

CSCI 6311. Theory of Computation. 3 Credits.

Theoretical foundations of computer science. Formal languages and automata; regular expressions, context-free languages, parsing; Turing machines and complexity; partial recursive functions; undecidability; program correctness; fixed-point theory; formal specifications of software. Prerequisite: CSCI 6212.

CSCI 6312. Graph Theory & Applications. 3 Credits.

Undirected and directed graphs. Connectivity, partitions, cycles and matchings. Edge and vertex coloring, chromatic polynomials, and the four-coloring problem. Planar graphs and Kuratowski's theorem. Properties of random graphs. Applications to a variety of problems. Prerequisite: CSCI 6212.

CSCI 6313. Advanced Discrete Structures. 3 Credits.

Discrete techniques in computer science. Algebraic structures, vector spaces, linear transforms, norms, matrices, complex numbers, convolution and polynomial multiplication, Fourier analysis, discrete Fourier transform, number theory. Applications to computer security, coding theory, and audiovisual signal processing. Prerequisites: CSCI 1311, MATH 1232 or graduate status. (Fall).

CSCI 6318. Complex Systems. 3 Credits.

The edge-of-chaos phenomenon, phase transitions, power laws, small-world networks, Boolean networks, cellular automata, and complex dynamics. Applications to networks and biological systems. Prerequisite: CSCI 6212.

CSCI 6331. Cryptography. 3 Credits.

Review of mathematical theory for cryptography. Classical ciphers. Modern block and stream ciphers. Symmetric and asymmetric systems. Digital signatures. Public key infrastructure. Authentication. Prerequisite: CSCI 6212.

CSCI 6341. Continuous Algorithms. 3 Credits.

Overview of structures in continuous mathematics from a computational viewpoint. Main topics include continuous system simulation, computational modeling, probability, statistical techniques, next-event simulation, algorithms for continuous optimization, machine learning, neural networks, statistical language processing, robot control algorithms. Prerequisite: CSCI 1311, CSCI 2113.

CSCI 6342. Computational Linear Algebra and Applications. 3 Credits.

Linear algebra applied to computational problems in computer science and engineering. Topics include points, vectors, matrices, and their programming abstractions; 3D transformations, pose and viewpoint estimation; linear equations; algorithms for matrix decompositions, dimension reduction, computation with large matrices, under- and over-determined systems; applications to big data, computer vision, text processing. Prerequisite: CSCI 2113.

CSCI 6343. Numerical Solutions of Algebraic Systems. 3 Credits.

Numerical solutions of linear algebraic equations and the algebraic eigenvalue problem. Sparse matrix techniques. Solutions of nonlinear simultaneous equations. Interpolation and extrapolation. Prerequisite: CSCI 6212.

CSCI 6351. Data Compression. 3 Credits.

Background on signals, information theory, transforms, human vision, and metrics. Lossless and lossy compression techniques. Video compression. Compression standards. Progressive transmission. Prerequisite: CSCI 6212.

CSCI 6362. Probability for Computer Science. 3 Credits.

Concepts of probability and statistics used in computer science. Random variables. Conditional probability, independence, correlation. Law of large numbers, central limit theorem. Applications to computer science, including entropy, information theory, data compression, coding, inference, Markov chains, randomized algorithms. Prerequisite: MATH 1232, CSCI 1311; or permission of instructor.

CSCI 6364. Machine Learning. 3 Credits.

Machine learning algorithms: nearest-neighbor, regression, classification, perceptron, kernel methods, support vector machine (SVM), logistic regression, ensemble methods, boosting, graphical models, hidden Markov models (HMM), non-parametrics, online learning, active learning, clustering, feature selection, parameter tuning, and cross-validation. Prerequisite: CSCI 6212; CSCI 6362, MATH 2184; or permission of instructor.

CSCI 6365. Advanced Machine Learning. 3 Credits.

Theory and algorithms for machine learning research. In-depth focus on advanced machine learning topics such as clustering, learning from data streams, and Climate Informatics. Prerequisite: CSCI 4364, CSCI 6212, CSCI 6362, MATH 2184; or permission of instructor.

CSCI 6411. Advanced Operating Systems. 3 Credits.

Fundamentals of operating system design and structure, resource management, and system support for multi-core. Topics include scheduling, synchronization, system structure, virtual address spaces, memory management, I/O management, and systems abstractions for modern multi-core architectures. The course involves an implementation component and requires substantial programming experience. This course can be taken for credit by undergraduates who have taken CSCI 3411. Prerequisite: CSCI 6461 or CSCI 2461.

CSCI 6412. OS Design & Implementation. 3 Credits.

Builds on CSCI 6411 to provide students with the knowledge to build parts of modern operating systems, which will be studied and motivated from the viewpoint of practical design and implementation. Students will learn how operating system's components for resource management and abstraction are built from the ground up and integrated into working systems considering the challenges of reliability, multi-core, and security. The course has a significant implementation component; substantial low-level programming experience is required. Prerequisite: CSCI 6411.

CSCI 6421. Distributed and Cluster Computing. 3 Credits.

In-depth study of the algorithmic and implementation challenges in building large scale distributed applications. Topics include distributed coordination, scheduling, consistency issues, and fault tolerance algorithms. The course will cover how fundamental distributed systems concepts are applied to both high performance computing and cloud computing environments. The course will mix algorithmic concepts and practical implementation concerns; substantial programming experience is recommended. Prerequisite: CSCI 6212, CSCI 3411.

CSCI 6431. Computer Networks. 3 Credits.

Fundamental concepts in the design and implementation of computer communication networks and internet, their protocols, and applications. Layered network architectures, applications, network programming interfaces, transport, routing, data link protocols, local area networks, network management, and network security. Prerequisite: CSCI 6461.

CSCI 6433. Internet Protocols. 3 Credits.

Understanding of the layered protocols for the Internet. Interconnection of networks. The IP protocol and routing algorithms, switches, bridges, and routers. The transmission control protocol (TCP). Addressing and names. Application-specific protocols, FTP, TELNET, SMTP, SNMP, HTTP. Domain name services. Prerequisite: CSCI 6221, CSCI 6431.

CSCI 6434. Design of Internet Protocols. 3 Credits.

Protocol specifications and formal description methods. Finite-state descriptions of Internet protocols. Specification and Description Language. Implementation of protocol specifications. Prerequisite: CSCI 6212, CSCI 6433.

CSCI 6441. Database Management Systems. 3 Credits.

Design and architecture of relational database management systems; query languages, data models, index structures, database application design. Prerequisite: CSCI 6221, CSCI 6461.

CSCI 6442. Database Systems II. 3 Credits.

Concepts in database systems. Relational database design. Editing, report generation, updating, schema refinement, tuning. Construction of database management systems. Conceptual and logical design of a database. Prerequisite: CSCI 6441.

CSCI 6443. Data Mining. 3 Credits.

Fundamental concepts of data mining. Algorithm techniques for data mining, including classification, clustering, association rules mining. Prerequisite: CSCI 6441 or permission of instructor.

CSCI 6448. Scientific Databases and Knowledge Formation. 3 Credits.

Database management and information retrieval. Relational algebra and SQL query language. Advanced retrieval capabilities. Data mining. Rules of inductive inference. Classification, clustering, and machine learning techniques. Confronting the problems of complexity. Prerequisite: CSCI 1311 and either CSCI 1132 or CSCI 1112.

CSCI 6451. Information Retrieval Systems. 3 Credits.

Information organization and retrieval of natural language data by digital computer systems; statistical, syntactic, and logical analysis of natural language; dictionary and thesaurus systems; searching strategies and cataloging. Large-scale file structures. Prerequisite: CSCI 6221, CSCI 6461.

CSCI 6461. Computer System Architecture. 3 Credits.

Concepts in processor, system, and network architectures; architecture of pipeline, superscalar, and VLIW/EPIC processors; multiprocessors and interconnection networks. Cache coherence and memory subsystem design for multiprocessor architectures. Parallel and distributed system architecture; internetworking. Prerequisite: CSCI 1311, CSCI 1112, CSCI 2461.

CSCI 6511. Artificial Intelligence. 3 Credits.

Representation and space search. Heuristic search. Predicate calculus. Knowledge representation and knowledge engineering for expert systems. Rule-based, hybrid, and O-O systems. Semantic nets, frames, and natural language. Theorem provers. Overview of planning, learning, neural nets. Use of AI languages. Prerequisite: CSCI 4511, CSCI 6212.

CSCI 6512. Adaptive Learning Systems I. 3 Credits.

Learning as an alternative to rule-based schemes for artificial intelligence. Deterministic and probabilistic simulation of games. Markovian and bounded-context systems. The algedonic process. Introduction to collective learning systems theory. Design, simulation, and evaluation of collective learning automata. Prerequisite: CSCI 4511, CSCI 6212.

CSCI 6515. Natural Language Understanding. 3 Credits.

The state of the art of natural language parsing and semantic understanding by computer systems. Review of formal, context-free, and transformational grammars and parsing. Augmented transition networks: problems of complexity, semantics, and context. Deterministic parsing and semantic parsing. Prerequisite: CSCI 6511.

CSCI 6519. Models of Cognition. 3 Credits.

The central nervous system as a natural precedent for AI: structure and function of the neuron and neural networks; sensors and actuators; modular brain function. The cognitive process. Intelligence metrics. Genetics and self-organizing systems. Memory mechanisms. The psychological basis of learning and behavior. Prerequisite: CSCI 4511, CSCI 6212.

CSCI 6521. Introduction to Mobile Robotics. 3 Credits.

Concepts of autonomous mobile robotics with emphasis on algorithmic aspects. Sensing, sensor fusion, localization, calibration, mapping, perception, decision making, planning, behavior-based control, world modeling, and navigation. Development of algorithms that can operate autonomous mobile platforms in complex, real-world environments. Prerequisite: MATH 1232, MATH 2184; CSCI 6362 or CSCI 4341.

CSCI 6525. Autonomous Robotics: Manipulation. 3 Credits.

Manipulation and autonomous operation in dynamic, human-centric environments. Reinforcement learning, perception, optimization algorithms, kinematics, dynamics, control theory. Prerequisite: CSCI 6362, MATH 2184; or permission of instructor.

CSCI 6527. Introduction to Computer Vision. 3 Credits.

Image signal processing and filtering. Saliency, features and feature extraction, tracking, stereo disparity estimation, structure from motion, photogrammetry, optic flow, homography estimation and warping, scene segmentation, place recognition, object recognition, robust estimation, and camera calibration. Current research topics. Prerequisite: MATH 1232, MATH 2184; CSCI 6362 or CSCI 6341.

CSCI 6531. Computer Security. 3 Credits.

Functional description of cryptographic primitives. Risk analysis. Policy models: security, confidentiality, integrity, hybrid. Design principles: access control, information flow, confinement. Assurance: formal methods, evaluation. Malicious logic: security effects of programming languages. Prerequisite: CSCI 6461.

CSCI 6532. Information Policy. 3 Credits.

Roles, issues, and impacts of computer-based information systems in national and international arenas, focusing on privacy, equity, freedom of speech, intellectual property, and access to personal and governmental information. Professional responsibilities, ethics, and common and best practices in information use.

CSCI 6534. Information Security in Government. 3 Credits.**CSCI 6541. Network Security. 3 Credits.**

Security protocols and applications in local, global, and wireless networks; IPsec and packet-level communication security systems; network authentication and key-exchange protocols; intrusion detection systems and firewalls; secure network applications; network worms and denial-of-service attacks. Prerequisite: CSCI 6531.

CSCI 6542. Computer Network Defense. 3 Credits.

Offensive and defensive information warfare operations. Simulation of various attacks on and defenses of computer systems. Laws related to information warfare. History and literature related to information warfare attacks. Prerequisite: CSCI 6541.

CSCI 6545. Software Security. 3 Credits.

Security for software systems. Theory and practice of designing and implementing secure software. Security in the context of software engineering. Practical experience with building a software system and securing it, with emphasis on correctness and robustness. Requires substantial prior programming experience. Prerequisite: CSCI 6461 or CSCI 6411; CSCI 6531 or EMSE 6540 or permission of instructor.

CSCI 6547. Wireless and Mobile Security. 3 Credits.

Mobile Agents, Wireless Web, WAP, WEP, Peer-to-Peer Computing; secure routing; intrusion detection and authentication on wireless networks; security for handheld devices; encryption and cryptographic measures for wireless; real-time wireless security; security measures for embedded devices. Prerequisite: CSCI 6431, CSCI 6531.

CSCI 6548. E-Commerce Security. 3 Credits.

Advanced technical topics in e-commerce security. X.509 registration systems, X.509/PKIX certification systems, secure payment methods, smart cards, authorization models in open distributed environments. Secure web systems, technologies, and applications. Prerequisite: CSCI 6541.

CSCI 6554. Computer Graphics II. 3 Credits.

Curves and surfaces. Spatial sampling and aliasing. Visible surface algorithms. Illumination and shading models, raytracing and radiosity. Image manipulation and texture mapping. Procedural models. Prerequisite: CSCI 4554.

CSCI 6555. Computer Animation. 3 Credits.

Euler angles and quaternions; articulated figure motion; forward and inverse kinematics; kinematic, physics based, and behavioral motion control; rendering problems (temporal aliasing); sound synthesis and synchronization; recording and editing techniques. Prerequisite: CSCI 4554 or permission of instructor.

CSCI 6561. Design of Human-Computer Interface. 3 Credits.

Design of dialogues for interactive systems. Psychological, physiological, linguistic, and perceptual factors. Advantages and disadvantages of various interaction techniques, command language syntaxes, and data presentations. Design methodology and guidelines. Case studies, research readings, and projects. Prerequisite: CSCI 6221.

CSCI 6562. Design of Interactive Multimedia. 3 Credits.

History, theory, and development of multimedia concepts. Hardware components, platforms, and authoring tools. Scientific, technical, and cognitive foundations of various media including text, sound, graphics, and video. Interface design. Use of a media taxonomy as a design and evaluation tool. Completion of a multimedia portfolio required. Prerequisite: CSCI 6221.

CSCI 6572. Computational Biology Algorithms. 3 Credits.

Algorithms and models for DNA and protein sequence alignments, gene finding, identification of gene regulatory regions, sequence evolution and phylogenetics, RNA and protein structure, microarray and/or proteomics data analysis. Prerequisite: CSCI 6212 ; programming experience in C/C or Java.

CSCI 6900. Colloquium. 0 Credits.

Lectures by outstanding authorities in computer science. Topics to be announced each semester. (Fall and spring).

CSCI 6907. Special Topics. 1-3 Credits.

Topics to be announced in the Schedule of Classes. (Fall and spring).

CSCI 6908. Research. 1-12 Credits.

Applied research and experimentation projects, as arranged. May be repeated for credit.

CSCI 6998. Thesis Research. 3 Credits.

CSCI 6999. Thesis Research. 3 Credits.

CSCI 8211. Advanced Topics in Algorithms. 3 Credits.

Graph algorithms, strongly connected components, biconnected components, dominators in acyclic graphs, ordered trees, network flow, planarity testing, bipartite matching, theory of NP completeness, NP-complete problems. Design and analysis of approximation algorithms for NP-complete problems. Prerequisite: CSCI 6212.

CSCI 8231. Advanced Topics in Software Engineering. 3 Credits.

Seminar on current research and developments in software engineering. Students develop a software package with the aid of available software tools such as requirement tool, design tool, code generators, testing tools, measurement tools, cost estimation tools. Prerequisite: CSCI 6232, CSCI 6233.

CSCI 8331. Advanced Cryptography. 3 Credits.

Linear and differential cryptanalysis. Cryptanalysis of AES. Factorization and primality. Computational and information-theoretic secrecy. Theory of secrecy. Zero-knowledge proofs. Secret sharing. Cooperative distributed cryptography. Provable security. Prerequisite: CSCI 6331.

CSCI 8401. Advanced Topics in Systems. 3 Credits.

Seminar on current research and developments in computer operating systems. May be repeated for credit. (Spring, even years).

CSCI 8431. Advanced Topics in Computer Networks and Networked Computing. 3 Credits.

Seminar on current research and developments in computer networks, Internet, networked computing, mobile computing and pervasive computing. May be repeated for credit. Prerequisites: CSCI 6461, CSCI 6212, CSCI 6433.

CSCI 8440. Advanced Topics in Data Management. 3 Credits.

Seminar on current research and developments in computer database systems and information retrieval. May be repeated for credit. Prerequisite: CSCI 6442 or CSCI 6451.

CSCI 8511. Advanced Topics in Artificial Intelligence. 3 Credits.

Seminar on current research and developments in machine intelligence and cognitive science. May be repeated for credit. Prerequisite: Permission of the instructor.

CSCI 8531. Advanced Topics in Security. 3 Credits.

Seminar on current research and developments in information assurance. May be repeated for credit. Prerequisite: CSCI 6531.

CSCI 8554. Advanced Topics in Computer Graphics. 3 Credits.

Seminar on current research and developments in computer graphics. Spatial and temporal anti-aliasing: hidden-surface algorithms: illumination models, radiosity, textural mapping. May be repeated for credit. Prerequisite: CSCI 6554.

CSCI 8900. Advanced Selected Topics. 3 Credits.

Topics announced in the Schedule of Classes.

CSCI 8901. Research and Evaluation Methods. 3 Credits.

Required for all computer science doctoral candidates. The scientific method; research/design requirements and objectives: qualitative, quantitative, and case studies; performance metrics; design procedures and control; sources of error and bias; evaluation tools; formal validation methods; documentation standards. Prerequisite: APSC 3115.

CSCI 8998. Computer Science Research. 1-12 Credits.

Limited to students preparing for the Doctor of Philosophy qualifying examination. May be repeated for credit.

CSCI 8999. Dissertation Research. 1-12 Credits.

Limited to Doctor of Philosophy candidates. May be repeated for credit.

BACHELOR OF ARTS WITH A MAJOR IN COMPUTER SCIENCE

The Bachelor of Arts major in computer science provides a broad-based liberal arts curriculum for students who wish to augment technical knowledge with humanities, social sciences, business, communication, or management skills. Foundation courses focus on mathematics, science, software design and programming, computer systems and architecture, and algorithm design. Additional breadth or depth is afforded by selection of technical track courses that build on the foundations to provide in-depth exposure to a specific field in computer science. The program is designed for those with interests in two or more disciplines; students complete a second major or two minors in another academic department.

Second Major or Minor in Computer Science:

Students who are not enrolled in the School of Engineering and Applied Science (SEAS) but wish to declare a second major in computer science must apply and be admitted to the second major program in computer science.

Criteria for admission:

To be considered for admission to the second major or minor in computer science, a student must satisfy the following criteria:

- A minimum grade of *B* or above in CSCI 1111 or CSCI 1101 or CSCI 1121; and a *B-* or above in Math 1220 and Math 1221 or a *B-* in Math 1231;
- A minimum overall grade-point average of 3.0 at the time of application to the major or minor;
- The application is due no later than the start of the 5th semester of study at GW or completion of the 60th credit, whichever comes first.

Credits in residence requirement:

- For a second major at least 24 credits in computer science courses must be completed in SEAS.
- For students pursuing a minor, at least 15 credits in computer science courses must be completed at GW.

Graduation grade-point average criteria:

- To satisfactorily complete a second major or minor in computer science, a student must have a minimum grade-point average of 2.2 in all the computer science courses. See the department webpage (<http://www.seas.gwu.edu/department-computer-science>) for more information on curriculum requirements for the second major in computer science.

REQUIREMENTS

The minimum number of credits required for the major in computer science is 120; the credit total depends on the second major or minors chosen by the student. Students interested in pursuing a computer science major with preparation for application to medical school can also choose the medical preparation option. Additional information about the Bachelor of Arts major in computer science is available online (http://www.cs.gwu.edu/academics/undergraduate_programs/ba).

Students in this program complete a second major or two minors in another department outside engineering.

Recommended program of study

First semester

CSCI 1010 Computer Science Orientation

CSCI 1111 Introduction to Software Development

SEAS 1001 Engineering Orientation

UW 1020 University Writing *

Math requirement *

Social and behavioral sciences elective **

Second semester

CSCI 1112 Algorithms and Data Structures

CSCI 1311 Discrete Structures I

Math requirement *

Science requirement *

Social and behavioral sciences elective **

Third semester

CSCI 2113 Software Engineering

CSCI 2461 Computer Architecture I

Science requirement *

Humanities elective ***

Statistics requirement - one of the following:

APSC 3115 Engineering Analysis III

CSCI 3362 Probability for Computer Science

CSCI 4341 Continuous Algorithms

STAT 1051 Introduction to Business and Economic Statistics

STAT 1053 Introduction to Statistics in Social Science

STAT 1091 Principles-Statistical Methods

Fourth semester

CSCI 2441 Database Systems and Team Projects

Humanities elective ***

Second major elective

Science requirement *

Unrestricted elective

Fifth semester

Computer science restricted elective

Creative arts elective

Second major electives (9 credits)

Sixth semester

Technical track elective

Humanities elective ***

Foreign languages and culture elective

Second major electives (6 credits)

Seventh semester

Computer science restricted elective

Technical track elective

Foreign languages and culture elective

Second major electives (6 credits)

Eighth semester

Technical track elective

Humanities elective ***

Unrestricted elective

Second major electives (6 credits)

*Course satisfies the university general education requirement in math, science, and writing.

**At least two social and behavioral sciences courses must be selected from the University General Education Requirement list (p. 28); the remaining course must be selected from either the University General Education Requirement list or the SEAS General Education Requirement list (http://www.seas.gwu.edu/sites/www.seas.gwu.edu/files/downloads/HSS%20Form%20Fall%202015%20Admits%201_0.pdf).

***At least one humanities course must be selected from the University General Education Requirement list (p. 28); the remaining courses must be selected from either the University General Education Requirement list or the SEAS General Education Requirement list (http://www.seas.gwu.edu/sites/www.seas.gwu.edu/files/downloads/HSS%20Form%20Fall%202015%20Admits%201_0.pdf).

BACHELOR OF SCIENCE WITH A MAJOR IN COMPUTER SCIENCE

The program combines software development, computer systems and architecture, algorithms, project design, science, and mathematics to provide a strong foundation in the underpinnings of computer science. Students are prepared to design and implement software needed for Internet operations, computer graphics and animation, secure systems, and applications for small, large, and embedded systems. In consultation with the advisor, students choose a technical track and a non-technical track. The technical track provides depth in a particular area of computer science, while the non-technical track enables students to stay current with the rapidly evolving field and to establish the relevance of their studies in the ever-changing global environment. The B.S. in Computer Science program is accredited by the Accreditation Board for Engineering and Technology (ABET).

Medical Preparation Option in Computer Science

This option is for students interested in pursuing a computer science major as they prepare to apply to a medical school. The degree program combines additional natural science course work with computer science course requirements.

Visit the program website (<http://www.cs.seas.gwu.edu/bachelor-science-program>) for additional information.

REQUIREMENTS

Recommended program of study

First semester

UW 1020	University Writing *
CSCI 1010	Computer Science Orientation
CSCI 1111	Introduction to Software Development

SEAS 1001 Engineering Orientation

Math requirement *

Humanities or social sciences elective **

Second semester

CSCI 1311 Discrete Structures I

CSCI 1112 Algorithms and Data Structures

Math requirement *

Science requirement *

Humanities or social sciences elective **

Third semester

CSCI 2312 Discrete Structures II

CSCI 2461 Computer Architecture I

CSCI 2113 Software Engineering

Science requirement *

Humanities or social sciences elective **

Fourth semester

CSCI 3410 Systems Programming

CSCI 2441 Database Systems and Team Projects

Computer science elective

Science requirement *

Statistics requirement - one of the following:

CSCI 4341 Continuous Algorithms

CSCI 3362 Probability for Computer Science

APSC 3115 Engineering Analysis III

STAT 4157 Introduction to Mathematical Statistics I

Fifth semester

CSCI 3313 Foundations of Computing

CSCI 3212 Algorithms

CSCI 3411 Operating Systems

Humanities or social sciences elective **

Sixth semester

Technical track elective

Non-technical track elective

Math or science elective *

Humanities or social sciences elective **

Unrestricted elective

Seventh semester

CSCI 4243 Capstone Design Project I

Technical track elective

Non-technical track elective

Humanities or social sciences elective **

Unrestricted elective

Eighth semester

CSCI 4244 Capstone Design Project II

Technical track elective

Non-technical track elective

Two unrestricted electives

*Course satisfies the university general education requirement in math, science, or writing.

**At least two social and behavioral sciences courses must be selected from the University General Education Requirement list (p. 28); the remaining course must be selected from either the University General Education Requirement list or the SEAS General Education Requirement list (http://www.seas.gwu.edu/sites/www.seas.gwu.edu/files/downloads/HSS%20Form%20Fall%202015%20Admits%201_0.pdf). At least one humanities course must be selected from the University General Education Requirement list (p. 28); the remaining courses must be selected from either the University General Education Requirement list or the SEAS General Education Requirement list. (http://www.seas.gwu.edu/sites/www.seas.gwu.edu/files/downloads/HSS%20Form%20Fall%202015%20Admits%201_0.pdf)

Mathematics requirements can be met by taking MATH 1220 Calculus with Precalculus I-MATH 1221 Calculus with Precalculus II and MATH 1232 Single-Variable Calculus II or by taking MATH 1231 Single-Variable Calculus I and MATH 1232 Single-Variable Calculus II. All students must take two math courses not counting MATH 1220 Calculus with Precalculus I; students who take MATH 1220 Calculus with Precalculus I must take it as one of their unrestricted electives. Science requirements can be met by choosing from BISC 1111 Introductory Biology: Cells and Molecules-BISC 1112 Introductory Biology: The Biology of Organisms, CHEM 1111 General Chemistry I-CHEM 1112 General Chemistry II, and PHYS 1021 University Physics I-PHYS 1022 University Physics

II. The three science requirement courses must include a two-course sequence.

CSCI 4341 Continuous Algorithms and CSCI 3362/6362 Probability for Computer Science can count towards the Statistics Requirement or the Math/Science Elective, but not both. Students who were admitted prior to fall 2014 may count STAT 1051 Introduction to Business and Economic Statistics and STAT 1053 Introduction to Statistics in Social Science towards the Statistics Requirement, if they took the course prior to the start of the Spring 2015 semester.

Some examples of technical tracks include computer security and information assurance, digital media, foundations and theory, biomedical computing, systems, software engineering and applications and research. Examples of non-technical tracks include business, project management, global engineering, pre-law,, and environment and climate change. Students may define their own non-technical track in consultation with their advisor. More information on the tracks and track requirements may be found on the program website (<http://www.cs.seas.gwu.edu/bachelor-science-program>).

MASTER OF SCIENCE IN THE FIELD OF COMPUTER SCIENCE

The Department of Computer Science offers a graduate program leading to the Master of Science in computer science. After completing core requirements, students select electives in topics such as computer security and information assurance, database and information retrieval systems, software engineering and systems, biomedical computing, digital media and computer graphics, networking and mobile computing, computer architecture, pervasive computing and embedded systems, machine intelligence, robotics, and algorithms and theory.

Both thesis and non-thesis options are available. In addition to the entrance requirements, students are expected to be adequately prepared in the basic physical sciences and in mathematics (one year each of university laboratory science and of math beyond precalculus), and to have taken a course in computer programming using a structured language and CSCI 1112, CSCI 1311, and CSCI 2461 or their equivalents.

Graduate students are required to attend several department colloquia each semester. These are intended to broaden the student's professional outlook and to encourage interaction with the faculty.

Specific admission requirements are shown on the Graduate Program Finder. (<http://www.gwu.edu/all-graduate-programs>)

Visit the program website (<http://www.cs.seas.gwu.edu/master-science-computer-science>) for additional information.

REQUIREMENTS

The following requirements must be fulfilled: 30 credits, including 9 credits in required courses and 21 credits in electives.

Required

CSCI 6212 Design and Analysis of Algorithms

CSCI 6221 Advanced Software Paradigms

CSCI 6461 Computer System Architecture

Electives

21 credits determined in consultation with the advisor. As a general rule, no more than two courses may be taken outside of those offered by the department.

At least 24 of the 30 credits required for this program must be at the 6000 level.

MASTER OF SCIENCE IN THE FIELD OF CYBERSECURITY IN COMPUTER SCIENCE

The Master of Science in cybersecurity in computer science degree program was created in response to the significant and fast-growing need for technical cybersecurity experts, both nationally and internationally. Students in the program acquire up-to-date knowledge and skills in cybersecurity, a field with increasing importance to national security, the economy, and private citizens. Students take courses in computer security, software security, network security, cryptography, security management, among others. They also gain a firm grounding in computer science and take courses in related disciplines such as cybersecurity law and digital forensics.

Specific admission requirements are shown on the Graduate Program Finder. (<http://www.gwu.edu/all-graduate-programs>)

More information can be found on the departmental website (<http://www.cs.seas.gwu.edu/master-science-cybersecurity-computer-science>).

REQUIREMENTS

Students are expected to be adequately prepared in the basic physical sciences and in mathematics (one year each of university laboratory science and of math beyond precalculus), and to have taken a course in computer programming using a structured language; and CSCI 1112, CSCI 1311, and CSCI 2461 or their equivalents.

The following requirements must be fulfilled: 30 credits, including 12 credits in required courses and 18 credits in electives. Both thesis and non-thesis options are available.

Required

CSCI 6212 Design and Analysis of Algorithms

CSCI 6221 Advanced Software Paradigms

CSCI 6461 Computer System Architecture

EMSE 6540 Management of Information and Systems Security

Electives

18 credits from designated cybersecurity-related courses; two courses must be from the Department of Computer Science, and at least one of those must be indicated as applied cryptography.

Normally, no more than three courses may be taken outside of those offered by the department.

At least 24 of the 30 credits required for the degree must be at the 6000 level.

GRADUATE CERTIFICATE IN COMPUTER SECURITY AND INFORMATION ASSURANCE

REQUIREMENTS

Specific admission requirements are shown on the Graduate Program Finder. (<http://www.gwu.edu/all-graduate-programs>)

Required:

CSCI 6531 Computer Security

CSCI 6541 Network Security

Two elective courses selected from the following:

CSCI 6532 Information Policy

CSCI 6331 Cryptography

CSCI 8331 Advanced Cryptography

CSCI 6542 Computer Network Defense

CSCI 6548 E-Commerce Security

CSCI 8531 Advanced Topics in Security

CSCI 6547 Wireless and Mobile Security

ELECTRICAL AND COMPUTER ENGINEERING

OVERVIEW

Mission Statement

The mission of the Department is to motivate and inspire students by providing high-caliber, fully integrated programs in electrical and computer engineering. These programs prepare graduates to provide leadership in a rapidly evolving global information society and to serve the greater good. The programs are also designed to allow students to advance the state of knowledge in our disciplines by actively pursuing scholarly research for publication and dissemination.

Educational Objectives

The objectives of the electrical and computer engineering undergraduate program of study are to educate students in the principles of engineering, as well as ensure awareness of their social responsibilities. The engineering education is based on the sciences and the principles of design. A balanced program in the humanities and social sciences as well as coverage of specific topics in professional ethics and social responsibilities, further instills a sense of social responsibilities. The programs provide students with a solid foundation in electrical and computer engineering through a balanced curriculum integrating the underlying scientific and mathematical knowledge with the latest technological developments. The curriculum is designed to produce engineers capable of functioning in the present technological environment and of adapting to future directions of the profession. Specifically, the programs aim to teach students how to analyze and implement complex interdisciplinary engineering projects; to give students a strong foundation for graduate studies in their field; to prepare students for competitive and challenging industrial applications; to teach students how to use state-of-the-art computer tools for solving engineering problems; to expose students to hands-on engineering experience through laboratory courses; to cultivate students' abilities to communicate and work effectively in teams; and to help students develop an understanding of the ethical issues and global perspectives arising in the practice of the engineering profession.

Educational Outcomes

The Department of Electrical and Computer Engineering aims to produce graduates who will have the broad education necessary to understand the impact of engineering solutions in a global, economic, environmental, and societal context, as well as professional and ethical responsibility; and a recognition of the need for, and an ability to engage in life-long learning.

Graduates will also have the ability to:

- Apply knowledge of mathematics, science, and engineering

- Design and conduct experiments, as well as analyze and interpret data
- Design a system, component, or process to meet desired needs within realistic constraints such as economic, environmental, social, political, ethical, health and safety, manufacturability, and sustainability
- Function on multidisciplinary teams
- Identify, formulate, and solve engineering problems
- Communicate effectively
- Use the techniques, skills, and modern engineering tools necessary for engineering practice.

UNDERGRADUATE

Bachelor's programs

- Bachelor of Science with a major in computer engineering (p. 1067)
- Bachelor of Science with a major in electrical engineering (p. 1069)

GRADUATE

Master's programs

- Master of Science in the field of computer engineering (<http://bulletin.gwu.edu/engineering-applied-science/electrical-computer-engineering/computer-engineering>)
- Master of Science in the field of electrical engineering (<http://bulletin.gwu.edu/engineering-applied-science/electrical-computer-engineering/electrical-engineering>)
- Master of Science in the field of telecommunications engineering (<http://bulletin.gwu.edu/engineering-applied-science/electrical-computer-engineering/telecommunications-engineering>)

Professional programs

See the School of Engineering and Applied Science for programs leading to the professional degree.

Doctoral programs

See the School of Engineering and Applied Science for programs leading to the doctoral degree.

CERTIFICATES

- Graduate certificate in high-performance computing (p. 1070)

FACULTY

Professors S. Ahmadi (*Teaching*), L. Bennett (*Research*), R.L. Carroll, K.B. Eom, T. El-Ghazawi, R.J. Harrington, H.J. Helgert, E. Della Torre, C.E. Korman, N. Kyriakopoulos, R.H. Lang, M.H. Loew (*Courtesy*), Jr., S. Subramaniam, B. Vojcic, W. Wasylkiwski, M.E. Zaghloul,

Associate Professors M. Doroslovacki, H.H. Huang, M.W. Kay, G.P. Venkataramani, J.M. Zara, V. Zderic

Assistant Professors A. Etemadi, T. Lan, E. Simsek, V. Sorger

Professorial Lecturers A. Mehrotra, D. Nagel, S.A. Torrico

COURSES

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000-4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

ECE 1010. Introduction to Electrical, Computer, and Biomedical Engineering. 1 Credit.

Basic and emerging concepts in electrical, computer, and biomedical engineering. Hands-on experiments and projects. Introduction to the professional literature and available resources and to technical writing, speaking, and presentation skills.

ECE 1020. Introduction to Electrical, Computer, and Biomedical Engineering. 1 Credit.

Continuation of ECE 1010. Basic and emerging concepts in electrical, computer, and biomedical engineering. Hands-on experiments and projects. Introduction to the professional literature and available resources and to technical writing, speaking, and presentation skills.

ECE 1120. C Programming for ECE. 3 Credits.

Basic programming concepts including algorithmic thinking and structured programming, control flow, data types, pointers, functions, algorithms, I/Os, threads, and performance evaluation and optimization. Concurrency and multicore programming using threads, processes as well as parallel C programming paradigms. Controlling hardware devices and fine control via interfacing with assembly language.

ECE 1125. Data Structures&Algorithms ECE. 3 Credits.

Fundamentals of algorithms and data structures for electrical and computer engineering. Topics include techniques to solve problems through programming in C/C++ languages, linked lists, stacks, queues and trees; searching methods such as binary trees, hashing, and multi-way trees; design and analysis of algorithms and their space and time complexity. (Fall).

ECE 2110. Circuit Theory. 4 Credits.

Lecture (3 hours), laboratory (3 hours). Circuit elements, techniques of circuit analysis; circuit theorems; operational amplifiers; RLC circuits; natural and step responses; series, parallel and resonant circuits; sinusoidal steady-state analysis; phasers; power calculations; transformers; two-port circuits. CAD tools used in circuit projects. Corequisite: APSC 2113, PHYS 1022.

ECE 2115. Engineering Electronics. 4 Credits.

Lecture (3 hours), laboratory (3 hours). Solid-state devices used in electronic engineering. Physics of their operation. Application to electronic circuits. Primary emphasis on application of these elements in power supplies and in linear amplifiers. Design concepts through use of SPICE and graphical techniques. Prerequisite: ECE 2110.

ECE 2120. Engineering Seminar. 0-1 Credits.

This seminar course provides electrical and computer engineering students with a detailed view of the electrical and computer engineering professions. Speakers from within and outside of the department discuss facets of ECE, engineering education, and other important department, college, or university topics of interest. (Fall).

ECE 2140. Design of Logic Systems I. 4 Credits.

Lecture (3 hours), laboratory (3 hours). Boolean algebra; combinational and sequential circuits; minimization techniques; design-and-build logic subsystems, such as decoders, multiplexers, adders, and multipliers; use of CAD tools. Corequisite: ECE 2115.

ECE 2210. Circuits, Signals, and Systems. 3 Credits.

Circuit analysis using Laplace transforms; transfer functions; poles and zeroes; Bode diagrams; effects of feedback on circuits; convolution; Fourier series and Fourier transforms; design of filters; CAD tools used in design of projects. Prerequisite: ECE 2110.

ECE 3125. Analog Electronics Design. 4 Credits.

Design, testing, and measurement of analog electronic circuits. Differential and multistage amplifiers. Output stages and power amplifiers. Frequency response of amplifiers, high-frequency models of FETs and BJTs. Introduction to feedback circuit topologies. Use of electronic CAD tools, such as P-SPICE. Prerequisite: ECE 2115.

ECE 3130. Digital Electronics and Design. 4 Credits.

Lecture (3 hours), laboratory (3 hours). Design and testing of logic gates, regenerative logic circuits, and semiconductor memory circuits. Implementation of such circuits with NMOS, CMOS, TTL, and other integrated circuit technologies. Use of electronic CAD tools, such as SPICE. Prerequisite: ECE 2140.

ECE 3135. Design of Logic Systems II. 4 Credits.

Lecture (3 hours), laboratory (3 hours). Introduction of ASIC design techniques; design and programming of FPGAs using CAD tools; timing in sequential circuits; essential hazards; races in sequential circuits; design-and-build FPGA project. Prerequisite: ECE 2140.

ECE 3215. Analog Signals and Systems. 3 Credits.

Applications of matrix theory and linear graphs to electrical network analysis; network equations; state-space formulation and solution, Fourier transforms and spectra in electrical systems. Network functions; analysis and synthesis of analog filters, the approximation problem; realization of filters. Prerequisite: ECE 2210, 2115.

ECE 3220. Intro to Digital Signal Proces. 3 Credits.

Signal representation, sampling and quantization, discrete-time signals, z-transforms and spectra, difference equations. Fourier analysis. Discrete Fourier transform, IIR and FIR filter design. Prerequisite: ECE 2210.

ECE 3225. Signal and Image Analysis. 3 Credits.

Introduction and clinical applications; characteristics of biomedical problems, time- and frequency-domain techniques for signal feature analysis; spectral estimation and analysis; autoregressive modeling; detection and estimation of periodicity; digital images as two-dimensional signals; 2-D Fourier transform. Corequisite: ECE 2210, ApSc 3115.

ECE 3310. Introduction to Electromagnetics. 3 Credits.

Maxwell's equations, pulse propagation in one dimension, transmission line equations, reflection coefficient, capacitance and inductance calculations, Smith chart, plane waves, reflection from a dielectric of fiber and integrated optics. Prerequisite: APSC 2113, PHYS 1022.

ECE 3315. Fields and Waves I. 3 Credits.

Complex phasor notation, uniform transmission lines, standing wave ratio, power, reflection coefficient, impedance matching. Review of vector analysis and numerical methods. Electrostatics, generalizations of Coulomb's law, Gauss's law, potential, conductors, dielectrics, capacitance, energy. Prerequisite: APSC 2113; PHYS 1022.

ECE 3410. Communications Engineering. 3 Credits.

Fourier series and Fourier transform in relation to signal analysis. Convolution and linear filtering. Signal bandwidth and sampling theorem. Analog modulation. Random variables and stochastic processes; power spectrum. Digital modulation: BPSK, QPSK, MSK. Pulse code modulation, DPCM and delta modulation. Prerequisite: APSC 3115, ECE 2210.

ECE 3415. Introduction to Computer Networks. 3 Credits.

Types of networks. Circuit and packet switching. Layered network architectures. Electrical interfaces. Parity checking and CRC error detection codes. Automatic-repeat-request protocols. Routing. Flow and congestion control. Multiple-access protocols. LAN standards. Internetworking and transport layer protocol. Prerequisite: APSC 3115.

ECE 3420. Communications Laboratory. 1 Credit.

Experiments supporting communications systems. Fourier analysis and Fourier transform. Sampling theorem, filtering, and aliasing. Amplitude modulation (AM), frequency modulation (FM), quantization, and pulse code modulation (PCM). Delta modulation. Binary phase shift keying (BPSK). Quadrature phase shift keying (PSK). Prerequisite or corequisite: ECE 3410.

ECE 3425. Data Communications Laboratory. 1 Credit.

Experiments in support of the analysis and design of communications systems with emphasis on network protocols. Time and frequency division multiplexing, flow control, automatic repeat request, interfacing, token ring, token bus, multiple access for Ethernet, routing, packet switching. Prerequisite or corequisite: ECE 3415.

ECE 3515. Computer Organization. 3 Credits.

Structure and operation of a digital computer. Design of computer arithmetic units, data and instruction paths. Microprogramming; memory technology; virtual memory; caches; pipelined computer organization; characteristics of secondary storage; I/O interfacing. May be taken for graduate credit. Prerequisites: ECE 3135; corequisite: ECE 3525. (Spring).

ECE 3520. Microprocessors: Software, Hardware, and Interfacing. 3 Credits.

Microprocessor architecture, assembly language, address decoding, hardware interrupt, parallel and serial interfacing with various circuits, timer/counters, direct memory access, microprocessor-based system. Hands-on laboratory experience is an integral part of this course. Prerequisite: ECE 2140.

ECE 3525. Introduction to Embedded Systems. 3 Credits.

Microcontrollers and their application in embedded systems. Topics include assembly and C for microcontroller programming, serial and parallel I/O interfacing, and multimedia interfacing. Students perform laboratory experiments and a final project to develop a microcontroller-based embedded system. Prerequisite: CSCI 1121, ECE 3520.

ECE 3530. Introduction to Parallel and Distributed Computer Systems. 3 Credits.

Shared and distributed memory computer systems. Parallel computation. Interprocess communication and synchronization. Terminal, file transfer, and message handling protocols. Algorithms for deadlock detection, concurrency control, and synchronization in distributed systems. Network security and privacy. Resource control and management. Prerequisite: ECE 3515.

ECE 3915. Electrical, Computer, and Biomedical Engineering Capstone Project Lab I. 1 Credit.

ECE 3915, ECE 4920, and ECE 4925 are taken in sequence by departmental majors beginning in the second semester of the junior year. After an introduction to the formal design process, the student plans, refines, designs, and constructs a one-year project. (Spring).

ECE 3915W. Electrical, Computer, and Biomedical Engineering Capstone Project Lab I. 1 Credit.

ECE 3915, ECE 4920, and ECE 4925 are taken in sequence by departmental majors beginning in the second semester of the junior year. After an introduction to the formal design process, the student plans, refines, designs, and constructs a one-year project.

ECE 4140. VLSI Design and Simulation. 3 Credits.

Design of VLSI circuits. PMOS and NMOS transistors, switch and gate logic, design rules, CAD system, speed and power considerations, scaling of transistors to the nano-scale, designing with highly variable process parameters. The student will design a VLSI chip and simulate the design. May be taken for graduate credit. Prerequisite: ECE 3130, ECE 3135.

ECE 4145. Micro & Nano Fabrication Tech. 3 Credits.

Modern process technologies associated with various types of processing. Silicon fabrication process, micro- and nanofabrications. Limitation at nano-scale, and other available technologies. Alternatives approach. May be taken for graduate credit.

ECE 4150. ASIC Design and Testing of VLSI Circuits. 3 Credits.

ASIC and mixed-signal design methodology, use of ASIC design CAD tools. Logic synthesis, styles of synthesis, power/area/speed constraints. VLSI testing, fault models, design for testability techniques, scan path, built-in self-test. Testing of chips designed in ECE 4140 and of nano-scale circuits. May be taken for graduate credit. Prerequisite: ECE 4140.

ECE 4155. Modern Measurements and Sensors. 3 Credits.

Measurement of dc, ac, and high-frequency signals. Interface electronic circuits. Sensors for measurement of mechanical, optical, magnetic, electromagnetic, thermal, chemical, and biochemical signals. Prerequisite: ECE 4320, ECE 3125, ECE 2140. May be taken for graduate credit.

ECE 4160. Introduction to Nano-electronics. 3 Credits.

Technology development beyond CMOS; trends in nano-fabrication and nano-metrology. Current flow in 1-D, 2-D, and 3-D electronic structures and their energy levels. Nano-structures such as nano-wire (Silicon or other material), Carbon Nano Tube (CNT), and Graphene. Nano-scale transistors. May be taken for graduate credit. Prerequisites: ECE 2115. (Fall).

ECE 4320. Fields and Waves II. 3 Credits.

Magneto-stationary fields, Lorentz force torques, Biot-Savart law, Ampere's law, magnetic materials, inductance, energy. Maxwell's equations, Faraday's law, charge-current continuity, vector potential. Time-harmonic fields, plane waves, polarization, skin effect, dielectric boundaries, and fiber optics. Radiation, dipole, gain, effective area. Prerequisite: APSC 2114, ECE 3315.

ECE 4325. Microwave and Optics Laboratory. 1 Credit.

Experiments in transmission lines, network analyzer measurements of scattering parameters, microwave systems, fiber-optic systems and antennas. Introduction to the characteristics of laser and optical systems. Prerequisite: ECE 4320.

ECE 4435. Fiber Optical Communications. 3 Credits.

Lightwave fundamentals. Integrated optics. Optical fiber waveguides. Light sources and detectors. Distribution networks and fiber components. Modulation. Noise and detection. System design. Prerequisite: APSC 2114; ECE 3310 or ECE 4320.

ECE 4535. Computer Architecture and Design. 3 Credits.

Design of bus-based digital computer systems, memory subsystems, caches, and multiple processors. Comparison of RISC and CISC processors and standard buses. Bus transfer and control signals. Performance, memory management, architectural support for protection, task switching, exception handling, instruction pipelines. Prerequisite: ECE 3515.

ECE 4610. Electrical Energy Conversion. 3 Credits.

Three-phase and single-phase AC rotating machines and transformers, DC machines, rotating machines as circuit elements, power semiconductor converters. Renewable generation, utility grid integration, smart grid applications. May be taken for graduate credit by students in fields other than electrical engineering. Prerequisite: ECE 2210, ECE 3315.

ECE 4615. Electrical Power Laboratory. 1 Credit.

Experiments in support of the analysis and design of electrical power systems. Measurements of the characteristics of devices to generate electric power. Rectification and inversion processes for power systems and drives. Prerequisite or corequisite: ECE 4610.

ECE 4620. Electrical Power Systems. 3 Credits.

AC power grids, transmission line parameters, load flow, economic dispatch voltage, frequency and power flow control. Voltage, current and power limitations. Fault analysis and stability considerations. Effect of independent power producers and variable energy sources and energy storage. (Same as ECE 6620) (Fall).

ECE 4710. Control Systems Design. 3 Credits.

Mathematical models of linear systems; steady-state and transient analyses; root locus and frequency response methods; synthesis of linear feedback control systems. Prerequisite: APSC 2114, ECE 2210 or MAE 3134.

ECE 4715. Control Systems Laboratory. 1 Credit.

Experiments in support of control theory, involving the use of the digital computer for process control in real time. Design of feedback and compensation with computer implementation. Digital simulation of linear and nonlinear systems. Prerequisite or corequisite: ECE 4710.

ECE 4730. Robotic Systems. 3 Credits.

Modeling and analysis of robot designs. Kinematics of mechanical linkages, structures, actuators, transmissions, and sensors. Design of robot control systems, computer programming, and vision systems. Use of artificial intelligence. Current industrial applications and limitations of robotic systems. Same as MAE 3197. Prerequisite: computer programming, APSC 2058, ECE 4710.

ECE 4735. Robotics Laboratory. 1 Credit.

Experiments illustrating basic principles and programming of robots and other automated machinery. Design and writing of computer programs to use a robot's arm, vision, and data files to accomplish tasks. Prerequisite or corequisite: ECE 4730/MAE 3197.

ECE 4920. Electrical, Computer, and Biomedical Engineering Capstone Project Lab II. 3 Credits.

ECE 3915, ECE 4920, and ECE 4925 are taken in sequence by departmental majors beginning in the second semester of the junior year. After an introduction to the formal design process, the student plans, refines, designs, and constructs a one-year project. (Fall).

ECE 4920W. Electrical, Computer, and Biomedical Engineering Capstone Project Lab II. 3 Credits.

ECE 3915, ECE 4920, and ECE 4925 are taken in sequence by departmental majors beginning in the second semester of the junior year. After an introduction to the formal design process, the student plans, refines, designs, and constructs a one-year project.

ECE 4925. Electrical, Computer, and Biomedical Engineering Capstone Project Lab III. 2 Credits.

ECE 3915, ECE 4920, and ECE 4925 are taken in sequence by departmental majors beginning in the second semester of the junior year. After an introduction to the formal design process, the student plans, refines, designs, and constructs a one-year project. (Spring).

ECE 4925W. Electrical, Computer, and Biomedical Engineering Capstone Project Lab III. 2 Credits.

ECE 3915, ECE 4920, and ECE 4925 are taken in sequence by departmental majors beginning in the second semester of the junior year. After an introduction to the formal design process, the student plans, refines, designs, and constructs a one-year project.

ECE 4980. Special Topics. 1-3 Credits.

Topic to be announced in the Schedule of Classes. (Fall and spring).

ECE 4990. Research. 1-3 Credits.

Applied research and experimentation projects, as arranged. Prerequisite: junior or senior status.

ECE 6005. Microcomputer Systems Architecture. 3 Credits.

Advanced microprocessor-based systems CISC and RISC. Buses, timing, and system interface protocols. Advanced memory designs. Multilevel cache designs. Architectural support for memory management, protection, task switching, and exception handling. Multiprocessor systems. Prerequisite: ECE 3515.

ECE 6010. Linear Systems Theory. 3 Credits.

Introduction to linear systems theory. Topics include linear vector spaces and linear operators, mathematical representation of dynamic linear systems, concept of state and solution of the state equation, controllability and observability, canonical forms of the state equation, state feedback, and state estimation. Prerequisite: ECE 2210.

ECE 6015. Stochastic Processes in Engineering. 3 Credits.

Basic concepts of modeling of random phenomena in electrical and computer systems: probability framework, stationarity, linear filtering. Optimization of discrete and continuous stochastic processes. Elements of performance analysis. Prerequisite: ECE 2210, APSC 3115.

ECE 6020. Applied Electromagnetics. 3 Credits.

Review of Maxwell's equations; electromagnetics of circuits, plane wave propagation; transmission lines; waveguides; radiating systems; receiving antennas and pattern reciprocity, array antennas; electromagnetic properties of materials: conductors, crystals, devices; optical transmission. Prerequisite: ECE 4320.

ECE 6025. Signals and Transforms in Engineering. 3 Credits.

Representation of discrete and analog signals as sums of canonical elementary functions; normal equations and the LMS approximation theory, singular value decomposition for discrete and continuous signals; application of classical transform theory to the study of linear systems. Prerequisite: ECE 2210; APSC 2114.

ECE 6030. Device Electronics. 3 Credits.

Semiconductor device concepts; doping, drift diffusion, recombination. Analysis of Schottky and Ohmic contacts, pn junctions, MOS systems. Modeling and analysis of semiconductor devices such as MOSFET and bipolar transistors. Hot electron and short and narrow channel effects. Prerequisite: ECE 6221.

ECE 6035. Introduction to Computer Networks. 3 Credits.

Layered protocol architectures. Digital transmission, fundamental limits. Error detection and ARQ protocols. Data link layer and control. Multiple access protocols. Circuit and packet switching. Multiplexing. Routing. Flow and congestion control, queue management. LAN standards. TCP/IP. Next-generation Internet. May not be taken for credit by students who have taken ECE 3415. Prerequisite: APSC 3115.

ECE 6045. Special Topics. 1-3 Credits.

Topics to be announced in the Schedule of Classes. (Fall and spring).

ECE 6050. Research. 1-12 Credits.

Applied research and experimentation projects, as arranged. May be repeated for credit.

ECE 6060. Electric Power Generation. 3 Credits.

Overview of primary traditional and alternative energy sources and storage. Analysis of machinery employed in energy conversion processes. Effect of independent power producers on long-term and short-term stability of large grids. Prerequisite: ECE 4620 or permission of course director.

ECE 6065. Colloquium. 0 Credits.

Lectures by outstanding authorities in electrical and computer engineering. Topics to be announced each semester. (Fall and spring).

ECE 6105. Introduction to High-Performance Computing. 3 Credits.

Taxonomy and classifications of computers and parallel computers. Parallel thinking and parallel algorithms. Domain decomposition and load balancing. Programming parallel computers using the message passing, global address space, and partitioned global address space paradigms. Prerequisite: graduate standing in science or engineering or consent of instructor.

ECE 6120. High-Performance Processors. 3 Credits.

Processor microarchitecture and instruction-level parallelism. Superpipelines and superscalar processors. Multiple-instruction fetching, aligning, merging, and issuing. Hardware and software solutions to structural and data and control hazards. Branch prediction and static and dynamic speculation. Register renaming, Tomasulo's algorithm. VLIWs. Prerequisite: ECE 6005.

ECE 6125. Parallel Computer Architecture. 3 Credits.

Architectural classifications and taxonomies of parallel computers; enabling technologies, including advanced processor concepts, interconnection networks, high-speed memory architectures and protocols; parallel performance and scalability; and introduction to parallel algorithms and parallel programming. Prerequisite: ECE 6005 or ECE 6105.

ECE 6130. Grid and Cloud Computing. 3 Credits.

Introduction to grid, cloud, and distributed computing. Large-scale computing and storage systems. Network protocols, quality-of-service and security issues. Hardware infrastructure and middleware. Distributed algorithms, programming tools, operating and file systems. Prerequisite: ECE 6105.

ECE 6140. Embedded Systems. 3 Credits.

Architectural advances and instruction sets for embedded microprocessors. Real-time operating systems and real-time scheduling, use of pre-designed software and hardware cores. Sensors, actuators, and data acquisition. System-on-chip (SoC). Design case studies. Prerequisite: ECE 6005.

ECE 6213. Design of Vlsi Circuits. 3 Credits.

Top-down ASIC-FPGA design methodology. Modeling of VLSI circuits using HDL. Behavioral, structural, and RTL modeling techniques; validation and verification techniques. Introduction to logic synthesis. Intellectual property usage. Students design and simulate a project using state-of-the-art commercial VLSI CAD tools. Prerequisite: ECE 4140.

ECE 6214. High-Level VLSI Design Methodology. 3 Credits.

High-level ASIC-FPGA design methodology. RTL modeling of VLSI circuits, using HDL for synthesis. Detailed discussion of logic synthesis. Architectural tradeoff for large VLSI circuits. Advanced optimization techniques. VLSI design flow, using the state-of-the-art, front-end design entry and simulation tools and back-end logic synthesis. Prerequisite: ECE 6213.

ECE 6215. Introduction to MEMS. 3 Credits.

MicroElectroMechanical Systems. Micro/nano fabrication techniques, bulk micromachining, surface micromachining. Examples of mechanical sensors and actuators, examples of microsystems, interface circuits and MEMS applications. Use of the CAD tools to design MEMS devices. May be taken by undergraduates. Prerequisite: ECE 4140.

ECE 6216. RF/VLSI Circuit Design. 3 Credits.

Introduction to radio frequency systems: RF design, noise, amplifiers, specifications, matching concepts, mixers, oscillators, system-level design. Prerequisite: ECE 4140.

ECE 6218. Advanced Analog VLSI Circuit Design. 3 Credits.

MOS technology: building blocks, devices, capacitors, limitations. Operational amplifiers and other analog systems. Layout examples and design principles. Mixed-signal A/D and D/A. Students use the CAD VLSI laboratory to design and simulate circuits. Prerequisite: ECE 4140.

ECE 6221. Introduction to Physical Electronics. 3 Credits.

Theoretical principles underlying the operation of electronic devices. Postulates of quantum mechanics: wave-particle duality, uncertainty relations, electronic band structure. Free-carrier statistics; electron-photon interaction. Physical principles of semiconductor and optoelectronic devices. Prerequisite: ECE 4320.

ECE 6240. VLSI Design and Simulation. 3 Credits.

Study of VLSI circuit design including PMOS and NMOS transistor analysis, switch and gate logic design, understanding of semiconductor fabrication processes and design rules, CAD system, speed and power considerations, scaling of transistors to the nano-scale, and designing with highly variable process parameters. Each student will design a VLSI chip, simulate the design and submit a GDS II file for Chip fabrication. (Same as ECE 4140) (Fall).

ECE 6250. ASIC Design and Testing of VLSI Circuits. 3 Credits.

ASIC and mixed-signal design methodology, use of ASIC design CAD tools. Logic synthesis, styles of synthesis, power/area/speed constraints. MIPS CPU HDL implementation/verification/testing. VLSI testing, fault models, design for testability techniques, scan path, built-in self-test. Testing of chips designed and fabricated in ECE 4140 or equivalent chips. (Same as ECE 4150) (Spring).

ECE 6260. Introduction to Nanoelectronics. 3 Credits.

Nanoscience and technology and nanoelectronics. Basic nanofabrication steps; techniques to build devices such as carbon nanotubes, graphene device, and other 2D nanoelectronic devices. Tools for performing design and characterizations of nanodevices, including scanning electron microscopy (SEM), atomic force microscopy (AFM), and transmission electron microscope (TEM). (Same as ECE 4160) (Fall).

ECE 6484. Biomedical Signal Analysis. 3 Credits.

Origin, acquisition, and analysis of physiological signals. Deterministic and probabilistic modeling; fitting models; sequences and time series. Feature extraction from EEG and ECG; Fourier analysis and filtering; modeling. Noise and artifact removal and signal compensation. Prerequisite: ECE 6482.

ECE 6500. Information Theory. 3 Credits.

The concepts of source and channel. Measure of information, entropy, mutual information. The noiseless coding theorem. The noisy coding theorem. Channel capacity: symmetric and nonsymmetric channels, Gaussian and binary symmetric channels. Rate-distortion theory. Basics of multiple-user information theory. Prerequisite: ECE 6015.

ECE 6505. Error Control Coding. 3 Credits.

Algebraic coding theory: finite fields, linear block codes, cyclic and Reed-Solomon codes. Error detection using CRC codes. Convolutional codes and trellis-coded modulations: structure, properties, performance bounds. Capacity achieving codes; soft-input-soft-output decoding; computationally efficient decoding algorithms. Prerequisite: ECE 6015.

ECE 6510. Communication Theory I. 3 Credits.

Principles of digital communications. Channels, digital modulation; optimum receivers and algorithms in the AWGN; coherent, non-coherent, and fading channels. Correlation detectors, matched filters; diversity. Bounds on performance of communications, comparison of communications systems and implementation issues. Prerequisite: ECE 6015.

ECE 6520. Mobile & Wireless Comm Systems. 3 Credits.

Mobile channel characterization. Modulation and coding techniques. Code division multiple access. Fading countermeasures; coding, equalization, and multiple transmit/receive antennas. Power control. Capacity of cellular and ad hoc networks. Structure and evolution of mobile communications networks. Evolving technologies and standards. Prerequisite: ECE 6510.

ECE 6525. Satellite Communication Systems. 3 Credits.

Low earth orbit and geostationary satellite systems. Transmission systems. RF link budgets. Modulation and multiplexing. Multiple access techniques: FDMA, TDMA, CDMA. Satellite transponders, antennas, and earth stations. Prerequisite: ECE 6510.

ECE 6530. Electronic Warfare. 3 Credits.

Electronic attack and protection of information. Countermeasures and counter-countermeasures. Electronic attacks on ranging and tracking radar systems, jamming and jamming defense. Electronic attack on communications systems. Defensive techniques, signal design, spread spectrum. Attack and defense of optical and high-energy systems. Prerequisite: ECE 6510.

ECE 6550. Advanced Network Architectures. 3 Credits.

Review of packet and circuit switching. Introduction to the Internet architecture. High-speed, wide-area networks: Frame Relay, ATM. High-speed switched LANs: Gigabit Ethernet. Switching architectures. Blocking and nonblocking switches. Quality-of-service and traffic engineering, MPLS. Overview of wireless and optical networks. Prerequisite: ECE 3415 or ECE 6035.

ECE 6555. Networks Protocols. 3 Credits.

Layering, OSI, and Internet architectures. Link-layer protocols: PPP, HDLC, SONET. Cell-switching, ATM, and adaptation protocols. MAC layer protocols: Ethernet, 802.11. IP addressing, routing protocols: RIP, OSPF. Multi-domain routing: CIDR, BGP. End-to-end protocols: UDP, TCP. TCP congestion control. Application layer protocols: DNS, HTTP, SMTP, FTP. Prerequisite: ECE 3415 or ECE 6035.

ECE 6560. Network Performance Analysis. 3 Credits.

Telecommunications traffic models: arrival and service time distributions, Poisson and Erlang formulas. Topological design algorithms. Delay and blocking models and probabilities for packet switched networks. Routing, relaying, and flow control algorithms: delay and cost minimization, throughput optimization. Prerequisite: ECE 6015 and any of ECE 6035, ECE 6545, or ECE 6555.

ECE 6565. Telecommunications Security. 3 Credits.

Speech and data scrambling. Linear and nonlinear transformations. Cryptographic techniques. Block and stream ciphers. The Data Encryption Standard (DES). Key management, digital signatures, message authentication, hash functions. Public key algorithms. Prerequisite: graduate standing in science or engineering or consent of instructor.

ECE 6570. Telecommunications Security Protocols. 3 Credits.

The OSI security architecture: services and mechanisms, risk analysis. Internet protocol mechanisms. Ipv4 and Ipv6 security, security associations, authentication, MD5. Encapsulating security payload. E-mail security: PGP, S/MIME, PEM, MSP. Secure voice communications algorithms. Security in Internet commerce: SSL, SET. Prerequisite: ECE 6565, ECE 6555.

ECE 6575. Optical Communication Networks. 3 Credits.

Wave propagation through fiber, dispersion, polarization. Multiplexing techniques, WDM. Optical networking components. Optical transmission systems design. All-optical networking, broadcast star and wavelength routing networks. Performance analysis, survivability, control and management. Optical access networks. Prerequisite: APSC 3115.

ECE 6580. Wireless Networks. 3 Credits.

Wireless channels and transmission fundamentals. Wide area networks: CDMA (UMTS/cdma2000) and OFDMA-based networks. Physical, MAC, and link layer protocols for wireless networks. Satellite systems. Broadcast systems. Wireless LANs, sensor and ad-hoc networks. Mobility support: handoffs and Mobile IP. Prerequisite: ECE 3415.

ECE 6610. Electrical Energy Conversion. 3 Credits.

Three-phase and single-phase AC rotating machines and transformers, DC machines, rotating machines as circuit elements, power semiconductor converters. Renewable generation, utility grid integration, smart grid applications. May be taken for graduate credit by students in fields other than electrical engineering. Prerequisites: ECE 2210 and ECE 3315. (Same as ECE 4610) (Spring).

ECE 6620. Electrical Power Systems. 3 Credits.

AC power grids, transmission line parameters, load flow, economic dispatch voltage, frequency, and power flow control. Voltage, current, and power limitations. Fault analysis and stability considerations. Effect of independent power producers and variable energy sources and energy storage. (Same as ECE 4620) (Fall).

ECE 6662. Power Electronics. 3 Credits.

Power semiconductors and applications to power supply, frequency control, uninterruptibility, and the design of HVDC power transmission. Multiphase power electronic circuits for AC and DC machines and industrial processes. Role of power electronics for renewable energy sources interconnected to distribution grids. Prerequisite: ECE 4625.

ECE 6666. Power System Transmission, Control, and Security. 3 Credits.

Analysis of AC networks, load flow, economic dispatch, voltage and frequency control. N-1 contingency and its role in assessing and maintaining system integrity. Analysis of loss of critical generating units and transmission capabilities under severe threats. Rapid restoration techniques based on historical data and heuristic approaches. Prerequisite: ECE 4620 or permission of course director.

ECE 6667. Nuclear Power Generation. 3 Credits.

Review of Nuclear Reactor Engineering, traditional and developing reactor design, issues regarding the safe operation of nuclear plant, control and regulatory aspects of nuclear power generation. Prerequisites: ECE 4620 or permission of course director. (Fall, even years).

ECE 6668. Power Distribution Grids. 3 Credits.

Equipment for power distribution for industrial, commercial, and residential applications. Switching and safety at the distribution voltage level. Bulk insulation level and insulation coordination principles. Smart grid innovations. Remote metering. Prerequisites: ECE 4620 or permission of course director. (Fall, odd years).

ECE 6669. Developing Trends in Electrical Power Networks. 3 Credits.

Planning and operating efficient electric utility power systems. Economics, finance, and regulation; industrial power economics; load demand and management. Reliability of the generation system, capacity and transmission planning. Prerequisites: ECE 4620 or permission of course director. (Spring, odd years).

ECE 6670. Power System Protection. 3 Credits.

Main philosophy for protection of power systems. Protection systems and approaches. Reliability and Security of Protection Systems. Protection of Generators, Transformers, Motors and Transmission Lines. Requirements for Distributed Source Generation (DSG's). Requirements for system protection, to prevent grid blackouts and to enhance power system security. Prerequisites: ECE 4620 or permission of course director. (Spring, even years).

ECE 6690. Power Systems Economics. 3 Credits.

Overview of electrical power market economics and market participants. Production pricing and market clearing pricing. Market ancillary service pricing. Location marginal pricing and zonal pricing schemes. New electrical generation entrant impact. Investing in generation and in transmission. Independent power producers and independent transmission owners. Prerequisites: ECE 6060 or permission of course director. (Fall).

ECE 6691. Power Systems Reliability. 3 Credits.

Overview of probability theory and basic power market reliability modeling and evaluation. Generation supply reliability techniques. Reliability of transmission system and delivery of supply. Loss of load probability evaluation. Forced and maintenance outages. Load forecasting and probability of interconnected systems. Risk evaluation and operating reserves. Prerequisites: ECE 4620 or permission of course director. (Spring, even years).

ECE 6699. Energy and Sustainability. 3 Credits.

Energy sources, consumption, and the societal and environmental impacts. Energy generation and harvesting technology. Thermodynamics and efficiency limits. Nanotechnology for sustainability. Emission and pollution. Growth models; learning curves. Life-cycle analysis. Energy in an international perspective: origins, crises, and solutions. Recommended background: Basic understanding of energy and thermodynamics, such as ECE 4620, MAE 2131, or with permission from the course director. (Fall, even years).

ECE 6705. Introduction to Microwave Engineering I. 3 Credits.

Transmission lines, scattering parameters, microwave networks, resonators. Modes in uniform waveguides, general characteristics of waveguide junctions. Transfer representations, filters, couplers, symmetrical waveguide junctions. Prerequisite: ECE 6020.

ECE 6710. Introduction to Microwave Engineering II. 3 Credits.

Active microwave components, amplifiers, oscillators, and mixers. Design of microwave amplifiers and oscillators, microwave transmitters and receivers. Introduction to microwave systems: radar, wireless communication systems, and radiometer systems. Prerequisite: ECE 6705.

ECE 6715. Antennas. 3 Credits.

Antenna circuits, radiation pattern, reciprocity, gain, receiving cross-section, scattering by antennas, mutual coupling, arrays. Polarization. Radiation from current distributions, equivalent aperture currents, dipoles, patch antennas, large phased arrays. Prerequisite: ECE 6020.

ECE 6720. Remote Sensing. 3 Credits.

Active and passive remote-sensing systems: scatterometers, real-aperture imaging, and synthetic-aperture radars. Sensing of surface, subsurface, and atmospheric parameters at microwave, infrared, and optical frequencies. Analysis of radiometric techniques using radiative transport theory, inverse scattering methods, profile inversion. Prerequisite: ECE 6020.

ECE 6725. Electromagnetic Radiation and Scattering. 3 Credits.

Alternative representations of solutions to Maxwell equations, Fourier transforms and spherical mode representations, field equivalence principles, dyadic Green's functions, radiation and scattering by simple shapes, geometrical theory of diffraction, integral equations and the moment method. Prerequisite: ECE 6020, ECE 6025.

ECE 6730. Waves in Random Media. 3 Credits.

Propagation and scattering of electromagnetic, optical, and acoustic waves in random media, scattering from rough surfaces and randomly distributed particles, turbulence. Applications to propagation through rain and fog. Laser beam scintillations, remote sensing, and communications channel modeling. Monte Carlo simulation. Prerequisite: ECE 6015, ECE 6725.

ECE 6735. Numerical Electromagnetics. 3 Credits.

Numerical methods for the solution of electromagnetic scattering and radiation problems. Major techniques: method of moments, T-matrix and finite element methods, geometrical theory of diffraction and hybrid approaches to solve scattering and radiation by wire structures, surfaces, and composite bodies. Prerequisite: ECE 6020, ECE 6025, ECE 6800.

ECE 6745. Analysis of Nonlinear and Multivalued Devices. 3 Credits.

Numerical techniques for modeling semiconductor and magnetic devices. Modeling multivalued behavior of memory materials. Optimization of geometry. Prerequisite: ECE 6020.

ECE 6750. Introduction to Radar Systems. 3 Credits.

The radar range equation. Radar cross section of targets, target detection and parameter estimation, detection in clutter. Resolution, ambiguities, and signal design. Moving-target indicators. Pulse Doppler radar. Radar antennas, phased arrays. Synthetic aperture and space-based radar. Prerequisite: ECE 4320, ECE 6015.

ECE 6760. Propagation Modeling in Wireless Communications. 3 Credits.

Wireless communication channel modeling, propagation mechanisms, terrestrial fixed links, satellite fixed links, macrocells, fading models, micro-cells, picocells, diversity, equalizers. Prerequisite: ECE 6020 or permission of instructor.

ECE 6765. Photonics and Fiber Optics. 3 Credits.

Propagation of light in optical fibers and planar waveguides, absorption and material dispersion effects, polarization, birefringence, spatial and temporal coherence. Components in fiber optic networks: directional couplers, power splitters, tunable filters and diffraction gratings. Prerequisite: ECE 6020.

ECE 6770. Applied Magnetism. 3 Credits.

Classification of magnetic materials. Magnetic measurements. Soft and hard magnetic materials. Applications to microwave, magnetic recording, permanent magnets, magneto-optics, magnetostrictive devices. Magnetic sensors. Electric power. Superconducting devices. Prerequisite: ECE 6020.

ECE 6800. Computational Techniques in Electrical Engineering. 3 Credits.

Introduction to linear algebra and vector spaces as applied to networks and electrical systems. Orthogonal bases, projections, and least squares. Fast Fourier transforms. Eigenvalues and eigenvectors with applications. Computations with matrices. Constrained optimization in electrical systems. Network models and applications. Prerequisite: ECE 2210, APSC 2114.

ECE 6810. Speech and Audio Processing by Computer. 3 Credits.

Acoustic sensor technologies and characteristics. Speech coding: waveform coding, voice source coding. Speech enhancement and noise reduction. Speech analysis and synthesis, audio formats and compression standards. Speech recognition: isolated word recognition, continuous speech recognition, language identification. Models for speech and audio. Prerequisite: graduate standing.

ECE 6815. Microarchitect/Multimedia Proc. 3 Credits.

Introduction to multimedia. Multimedia formats, conversion, and combinations. Delivery and trends. Servers and networks. Hardware and architecture. End-user devices. Digital libraries, video conferencing and collaboration. Educational and health applications. Case studies and trials. Prerequisite: ECE 6005.

ECE 6820. Real Time DSP. 3 Credits.

Digital signals, binary number representation, fixed-point and floating-point DSP architectures. Q-format for data representation, bit allocation and arithmetic. Portability of arithmetic expressions: floating point vs. fixed point. Applications to signal parameter estimation, signal generation, filtering, signal correlation, spectral estimation (FFT). Prerequisite: ECE 6005.

ECE 6825. Computer Control Systems. 3 Credits.

Analysis of automatic control systems in which the control procedure uses on-line digital computation. Topics include single- and multirate sampling, z-transforms, responses of discrete systems, stability criteria, and discrete control design. Prerequisite or concurrent registration: ECE 6010.

ECE 6830. System Optimization. 3 Credits.

Parameter optimization problems, theory of minima and maxima. Optimization problems for dynamic systems, calculus of variations, the maximum principle and the Hamilton–Jacobi equation. Optimization problems with constraints, optimal feedback systems. Numerical solution of optimal problems. Prerequisite: ECE 6010.

ECE 6835. Nonlinear Systems. 3 Credits.

Definition of linear and nonlinear systems; introduction to approximate analysis of nonlinear systems—describing functions, Krylov and Bogoliubov asymptotical method, and Tsytkin locus. Forced oscillations—jump resonance. Stability analysis—Liapunov criterion. Luré problem and Popov method. Prerequisite: ECE 6010.

ECE 6840. Digital Image Processing. 3 Credits.

Properties of images and visual systems. Image acquisition, sampling, quantization. One- and two-dimensional image transform techniques; enhancement and restoration. Image coding and data compression. Segmentation, representation, boundary and shape, texture, matching. Image understanding. Prerequisite: ECE 6800.

ECE 6842. Image Engineering. 3 Credits.

Sensor/camera design and analysis as a system. Detection and noise processes underlying the sensing of optical radiation; the engineering and physics of image formation. Topics covered include radiometry/photometry, optics and image formation, device and camera characterization, and image quality metrics and system design trades. Prerequisites: ECE 6010, ECE 6015. (Fall, even years).

ECE 6845. Image Synthesis. 3 Credits.

Image synthesis techniques, mathematical image models, image reconstruction techniques, color texture synthesis, synthesis of three-dimensional scenes. Prerequisite: ECE 6015.

ECE 6850. Pattern Recognition. 3 Credits.

Random vectors, transformations. Hypothesis testing, error probability, sequential methods. Bayes, other linear classifiers. Discriminant functions, parameter estimation, learning, and dimensionality reduction. Nonparametric methods; clustering; feature selection and ordering. Computer applications and projects. Prerequisite: ECE 6015.

ECE 6855. Digital Signal Processing Techniques. 3 Credits.

Signal and system representation, sampling and quantization, transform techniques. Recursive and nonrecursive digital filter design, recursive estimation, linear predictive filtering. Fast algorithms for signal processing. Current topics. Prerequisite: ECE 3220 or ECE 6025, and ECE 6015.

ECE 6860. Compression Techniques for Data, Speech, and Video. 3 Credits.

Lossless and lossy coding theorems, rate distortion bound. Data compression algorithms: Huffman coding, run-length coding. Differential coding. Transform coding. Voice, audio, image and video coding techniques: CELP, JPEG, MPEG, MP3. Data coding standards: G.722, G.726, G.728, H.261, H.323. Prerequisite: ECE 6015, ECE 6025.

ECE 6865. Signal Detection & Estimation. 3 Credits.

Minimum variance unbiased estimation. Cramer–Rao bound, statistical modeling, sufficient statistics, maximum likelihood estimation, efficient estimators, least squares. Bayesian estimators. Wiener and Kalman filters, complex data and parameters. Applications to radar, speech, image, biomedicine, communications, control. Prerequisite: ECE 6010, ECE 6015, ECE 6025.

ECE 6875. Wavelets and Their Applications. 3 Credits.

Time-frequency analysis. Continuous, discrete, and discrete-time wavelet transform. Multirate filter banks. Multiband wavelets, two-dimensional wavelets. Wavelet packets and matching pursuit. Wavelets in noise filtering, compression, modeling of fractals, communications, detection, adaptive systems, neural networks, and fast computation. Prerequisite: ECE 6025, ECE 6855.

ECE 6880. Adaptive Signal Processing. 3 Credits.

Adaptation criteria. On-line adaptive filtering algorithms: least mean square and recursive least square. Adaptation in transform domain. Convergence of adaptive algorithms and tracking. Applications in system identification, adaptive channel equalization, interference cancellation and suppression, and adaptive antenna arrays. Blind deconvolution. Prerequisite: ECE 6865.

ECE 6885. Computer Vision. 3 Credits.

Image processing; edge detection, segmentation, local features, shape and region description in 2D and 3D. Insights from human vision studies. Representation for vision: object models, synthetic images, matching, gaps, algorithms. Interference, production system, syntactic networks. Planning spatial reasoning for robot vision. Prerequisite: CSCI 6511; ECE 6850.

ECE 6998. Thesis Research. 3 Credits.**ECE 6999. Thesis Research. 3 Credits.****ECE 8150. Advanced Topics in Computer Architecture. 3 Credits.**

Examples of topics are interconnection networks, fault tolerance, load balancing, workload characterization, and performance modeling of advanced computer systems. Prerequisite: ECE 6120, ECE 6125.

ECE 8999. Dissertation Research. 0-12 Credits.

Limited to Doctor of Philosophy candidates. May be repeated for credit.

BACHELOR OF SCIENCE WITH A MAJOR IN COMPUTER ENGINEERING

Computer engineering combines electronic design, computer architecture, programming of computing systems, computer networks, and applied mathematics. The program prepares students in the theory and application of hardware and software design, computer networks, embedded systems, and very large scale integrated (VLSI) circuit design and

applications. Students can take electives in advanced topics, such as optical networks, broadband wireless networks, and technologies for the next generation of information systems.

Visit the program website (<http://www.ece.seas.gwu.edu/bachelor-science-computer-engineering>) for additional information.

REQUIREMENTS

Recommended program of study

First semester

CHEM 1111	General Chemistry I *
ECE 1010	Introduction to Electrical, Computer, and Biomedical Engineering
MATH 1231	Single-Variable Calculus I *
SEAS 1001	Engineering Orientation
UW 1020	University Writing *
Humanities or social sciences elective **	

Second semester

CSCI 1311	Discrete Structures I
ECE 1020	Introduction to Electrical, Computer, and Biomedical Engineering
ECE 1120	C Programming for ECE
MATH 1232	Single-Variable Calculus II *
PHYS 1021	University Physics I *
Humanities or social sciences elective **	

Third semester

APSC 2113	Engineering Analysis I
ECE 1125	Data Structures&Algorithms ECE
ECE 2110	Circuit Theory
ECE 2120	Engineering Seminar
MATH 2233	Multivariable Calculus *
PHYS 1022	University Physics II *

Fourth semester

APSC 3115	Engineering Analysis III
ECE 2115	Engineering Electronics
ECE 2140	Design of Logic Systems I

ECE 2210 Circuits, Signals, and Systems

Humanities or social sciences elective **

Fifth semester

CSCI 3411	Operating Systems
ECE 3130	Digital Electronics and Design
ECE 3220	Intro to Digital Signal Proces
ECE 3515	Computer Organization
ECE 3520	Microprocessors: Software, Hardware, and Interfacing

Sixth semester

ECE 3135	Design of Logic Systems II
ECE 3310	Introduction to Electromagnetics
ECE 3415	Introduction to Computer Networks
ECE 3425	Data Communications Laboratory
ECE 3525	Introduction to Embedded Systems
ECE 3915	Electrical, Computer, and Biomedical Engineering Capstone Project Lab I

Humanities or social sciences elective **

Seventh semester

ECE 4140	VLSI Design and Simulation
ECE 4535	Computer Architecture and Design
ECE 4920	Electrical, Computer, and Biomedical Engineering Capstone Project Lab II

Humanities or social sciences elective **

Technical elective

Eighth semester

ECE 4150	ASIC Design and Testing of VLSI Circuits
ECE 4925	Electrical, Computer, and Biomedical Engineering Capstone Project Lab III
PHIL 2135	Ethics in Business and the Professions

Two technical electives

*Course satisfies the university general education requirement in math, science, and writing.

**At least two social and behavioral sciences courses must be selected from the University General Education Requirement

list; (p. 28) the remaining course must be selected from either the University General Education Requirement list or the SEAS General Education Requirement list (http://www.seas.gwu.edu/sites/www.seas.gwu.edu/files/downloads/HSS%20Form%20Fall%202015%20Admits%201_0.pdf). At least one humanities course must be selected from the University General Education Requirement list (p. 28); the remaining courses must be selected from either the University General Education Requirement list or the SEAS General Education Requirement list. (http://www.seas.gwu.edu/sites/www.seas.gwu.edu/files/downloads/HSS%20Form%20Fall%202015%20Admits%201_0.pdf)

Three 3-credit technical courses must be chosen with the approval of the advisor from advanced undergraduate or graduate courses in engineering, computer science, mathematics, physical sciences, or biological sciences. At least one of the technical electives must be an upper level math or science course.

BACHELOR OF SCIENCE WITH A MAJOR IN ELECTRICAL ENGINEERING

Electrical engineers design the enabling technology for all applications of electricity; examples include energy, telecommunications, the Internet, biomedical instrumentation, and electromagnetic applications. The program in electrical engineering focuses on signal processing; communication theory and practice; voice, data, video and multimedia communication networks; very large scale integrated (VLSI) circuit design and applications; and control and power systems. Students can take electives in advanced topics, such as optical networks, broadband wireless networks, and technologies for the next generation of information systems.

Visit the program website (<http://www.ece.seas.gwu.edu/bachelor-science-electrical-engineering>) for additional information.

REQUIREMENTS

Recommended program of study

First semester

CHEM 1111	General Chemistry I *
ECE 1010	Introduction to Electrical, Computer, and Biomedical Engineering
MATH 1231	Single-Variable Calculus I *
SEAS 1001	Engineering Orientation
UW 1020	University Writing *
Humanities or social sciences elective **	

Second semester	
ECE 1020	Introduction to Electrical, Computer, and Biomedical Engineering
ECE 1120	C Programming for ECE
MATH 1232	Single-Variable Calculus II *
PHYS 1021	University Physics I *
Two humanities or social sciences electives **	

Third semester	
APSC 2113	Engineering Analysis I
ECE 1125	Data Structures&Algorithms ECE
ECE 2110	Circuit Theory
ECE 2120	Engineering Seminar
MATH 2233	Multivariable Calculus *

ECE 4710	Control Systems Design
ECE 4920	Electrical, Computer, and Biomedical Engineering Capstone Project Lab II

Technical elective

Two ECE restricted electives

Eighth semester

ECE 4610	Electrical Energy Conversion
ECE 4925	Electrical, Computer, and Biomedical Engineering Capstone Project Lab III
PHIL 2135	Ethics in Business and the Professions

Two technical electives

Humanities or social sciences elective **

*Course satisfies the university general education requirement in math, science, and writing.

**At least two social and behavioral sciences courses must be selected from the University General Education Requirement list (p. 28); the remaining course must be selected from either the University General Education Requirement list or the SEAS General Education Requirement list (http://www.seas.gwu.edu/sites/www.seas.gwu.edu/files/downloads/HSS%20Form%20Fall%202015%20Admits%201_0.pdf). At least one humanities course must be selected from the University General Education Requirement list; the remaining courses must be selected from either the University General Education Requirement list or the SEAS General Education Requirement list.

The Electrical and Computer Engineering electives must be selected from upper level ECE courses. Three 3-credit technical courses must be chosen with the approval of the advisor from advanced undergraduate or graduate courses in engineering, computer science, mathematics, physical sciences, or biological sciences.

The Department of Electrical and Computer Engineering also offers the Bachelor of Science major in electrical engineering with the options listed below.

Visit the program website (<http://www.ece.seas.gwu.edu/bachelor-science-electrical-engineering>) for additional information.

Energy Option in Electrical Engineering

The energy option leads to a bachelor's degree in electrical engineering and prepares the student to work in technical energy fields such as electric utility companies and in research into improved methods of generation, transmission, and distribution of electrical energy.

Medical Preparation Option in Electrical Engineering

The medical preparation option leads to a bachelor's degree in electrical engineering and prepares the student for application to medical school. The student is also prepared to work in various health sciences fields, to conduct research toward development of electronic equipment to assist in diagnosing and treating disease, or to continue as a graduate student in engineering with exceptional qualifications for biomedical engineering.

GRADUATE CERTIFICATE IN HIGH-PERFORMANCE COMPUTING

The Graduate Certificate in the field of high-performance computing (HPC) program provides a mechanism for practicing interdisciplinary computational engineers and scientists to acquire up-to-date knowledge in the advances of computer systems, in particular, the rapidly growing use of multicore processors, parallel computers, hardware accelerators, and networked computing platforms in applications. The program is tailored to provide students with necessary knowledge in all aspects of high performance computing including programming, applications, performance, architectures, and systems.

The certificate program may serve as an alternative to a Master of Science degree program for professionals who may not have the time to commit to a full graduate degree program, but who wish to align their background with the rapid changes in computing technologies and to expand their education beyond the bachelor's degree. All courses taken as part of this program may be transferred to the Department of Electrical and Computer Engineering's M.S. and/or Ph.D. programs. While the HPC certificate can be coupled with a graduate degree program, interested students must be admitted to and complete the HPC certificate program separately.

Specific admission requirements are shown on the Graduate Program Finder (<http://www.gwu.edu/all-graduate-programs>).

Visit the program website (<http://www.ece.seas.gwu.edu/graduate-certificate-high-performance-computing>) for additional information.

REQUIREMENTS

The following requirements must be fulfilled: 12 credits, including 6 credits in required courses and 6 credits in elective courses.

Required

ECE 6105	Introduction to High-Performance Computing
----------	--

At least one of the following:

ECE 6125 Parallel Computer Architecture

ECE 6130 Grid and Cloud Computing

Electives

Six additional credits from the following:

CE 6210 Introduction to Finite Element Analysis

CE 6705 Nonlinear Finite Element Modeling and Simulation

CE 8330 Advanced Finite Element Analysis

CSCI 3571 Introduction to Bioinformatics

CSCI 4572 Computational Biology

CSCI 6421 Distributed and Cluster Computing

ECE 6005 Microcomputer Systems Architecture

ECE 6045 Special Topics

ECE 6050 Research

ECE 6120 High-Performance Processors

ECE 6140 Embedded Systems

ECE 6213 Design of Vlsi Circuits

ECE 6214 High-Level VLSI Design Methodology

ECE 6735 Numerical Electromagnetics

ECE 6800 Computational Techniques in Electrical Engineering

MAE 6225 Computational Fluid Dynamics

MAE 6291 Special Topics in Mechanical Engineering

PHYS 6130 Computational Physics I

PHYS 6230 Computational Physics II

PHYS 6330 Computational Physics III

PHYS 8110 Selected Topics in Theoretical Nuclear Physics

Credits taken for the certificate may be used towards a graduate degree, with academic advisor approval.

ENGINEERING MANAGEMENT AND SYSTEMS ENGINEERING

Mission Statement

The mission of the Department of Engineering Management and Systems Engineering is to deliver an integrated program of research, teaching, and public service to the technology community. The Department develops creative leadership to bridge dynamic, complex technologies and societal needs. This includes delivering instruction in the management of technology and in systems engineering, operations research, and allied fields to undergraduate and graduate students who are preparing to assume leadership roles as technology professionals. The Department's programs provide an understanding of the managerial role, analysis of the diverse functions of technology-based organizations, and instruction in modern management and mathematical analysis and modeling tools as they apply to formulating and executing decisions in engineering and scientific organizations. In addition, research programs feature the study of the management of technology; fundamental and applied research in systems engineering and operations, with a particularly strong interest in stochastic analysis and system optimization; sponsorship from government, industry, and the technology community; and a strong presence in refereed professional journals and leadership in professional societies.

Educational Objectives

The systems engineering undergraduate program of study prepares graduates for work as systems engineers in a variety of professional fields and for continuing study at the graduate level. The educational objectives include conveying the expectations of an ethical and professional work environment where graduates fully engage with both technical and non-technical colleagues.

Educational Outcomes

A systems engineering graduate will have achieved the knowledge and the skills to:

1. Apply the fundamentals of systems engineering, including needs elicitation, requirements elaboration, design option analyses, architectural trade studies, system traceability methods, configuration baseline and management, and engineering change process;
2. Understand the complexity in large systems development and operations;
3. Communicate effectively to convey complex systems information to a variety of audiences;
4. Participate effectively in team-based projects; and
5. Demonstrate the application of systems engineering skills through the development and completion of a large capstone project.

UNDERGRADUATE

Bachelor's programs

- Bachelor of Arts with a major in applied science and technology (p. 1072)
- Bachelor of Science with a major in systems engineering (p. 1073)

GRADUATE

Master's programs

- Master of Science in the field of engineering management (p. 1075)
- Master of Science in the field of systems engineering (p. 1077)

Doctoral program

- Doctor of Engineering in the field of Engineering Management (p. 1077)

CERTIFICATES

Certificate programs offered by the Department of Engineering Management and Systems Engineering include:

- Graduate certificate in homeland security emergency preparedness and response
- Graduate certificate in emergency management and public health
- Graduate certificate in engineering and technology management
- Graduate certificate in greenhouse gas management (p. 1078)
- Graduate certificate in knowledge and information management
- Graduate certificate in systems engineering

FACULTY

Professors J.P. Deason, J.R. van Dorp, T.A. Mazzuchi (*Chair*), S. Sarkani

Associate Professors H. Abeledo, J.A. Barbera, M.R. Duffey, J.J. Ryan, G.L. Shaw

Assistant Professors D. Broniatowski, R.A. Francis, E. Gralla, J.R. Santos, E. Shittu, Z. Szajnfarber,

Professorial Lecturers R.M. Andersen, M.J. Armstrong, J.H. Chang, T.H. Holzer Jr., D.J. Ryan, J.V. Shah, J.S. Wasek, R.C. West

COURSES

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses

- Those in the 2000–4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office
- Applied Sciences (APSC) (p. 1491)
- Engineering Management and Systems Engineering (p. 1571)EMSE (p. 1571))

BACHELOR OF ARTS WITH A MAJOR IN APPLIED SCIENCE AND TECHNOLOGY

The Bachelor of Arts major in applied science and technology is a broad-based, engineering-oriented program that includes significant exposure to the liberal arts. It is designed for students who intend to make their careers in fields allied to science and technology and/or continue their education toward professional careers in law, medicine, business, teaching, or the media.

The program can be enhanced with a second major in either the Columbian College of Arts and Sciences or the Elliott School of International Affairs. A second major in SEAS is also possible. A concentration in general business through the School of Business is available.

Visit the program website (<http://www.emse.seas.gwu.edu/bachelor-arts-applied-science-technology>) for additional informational.

REQUIREMENTS

Recommended program of study

First semester

CHEM 1111	General Chemistry I *
EMSE 1001	Introduction to Systems Engineering
SEAS 1001	Engineering Orientation
MATH 1231	Single-Variable Calculus I *
UW 1020	University Writing *
Humanities or social sciences elective **	

Second semester

CHEM 1112	General Chemistry II *
CSCI 1121	Introduction to C Programming

or CSCI 1112 Algorithms and Data Structures

MATH 1232 Single-Variable Calculus II *

Humanities or social sciences elective **

Arts elective ?

Third semester

CSCI 1132 Data Structures and Software Design

or CSCI 1112 Algorithms and Data Structures

PHYS 1011 General Physics I *

or PHYS 1021 University Physics I

Literature elective ?

Two unrestricted electives

Fourth semester

APSC 3115 Engineering Analysis III

EMSE 4410 Survey of Finance and Engineering Economics

PHYS 1012 General Physics II *

or PHYS 1022 University Physics II

Literature elective ?

Unrestricted elective

Fifth semester

BISC 1111 Introductory Biology: Cells and Molecules

EMSE 3850 Quantitative Models in Systems Engineering

COMM 1040 Public Communication *

or COMM 1041 Interpersonal Communication

or COMM 1042 Business and Professional Speaking

MAE 1004 Engineering Drawing and Computer Graphics

Allied minor elective

Sixth semester

BISC 1112 Introductory Biology: The Biology of Organisms *

ISTM 4121 Database Design and Applications

Two allied minor electives

Humanities or social sciences elective **

Seventh semester

MAE 3192 Manufacturing Processes and Systems

EMSE 3740 Systems Thinking and Policy Modeling I

EMSE 6005 Organizational Behavior for the Engineering Manager

Allied minor elective

SEAS elective

Eighth semester

CE 4330 Contracts and Specifications

Allied minor elective

Humanities or social sciences elective **

Three unrestricted electives

Electives

Students choose electives in specified categories from lists of courses available from the advisor. Allied minor electives are selected, with the approval of the advisor, to form a coherent and meaningful program of 15 credits. Popular selections include biology, communication, computer science, design, economics, engineering, environmental studies, finance, international business, management, mathematics, medical preparation, psychology, statistics, and operations research.

*Course satisfies the university general education requirement in math, science, and writing.

**At least two social and behavioral sciences courses must be selected from the University General Education Requirement list (p. 28); the remaining course must be selected from either the University General Education Requirement list or the SEAS General Education Requirement list (http://www.seas.gwu.edu/sites/www.seas.gwu.edu/files/downloads/HSS%20Form%20Fall%202015%20Admits%201_0.pdf). At least one humanities course must be selected from the University General Education Requirement list; the remaining courses must be selected from either the University General Education Requirement list or the SEAS General Education Requirement list.

BACHELOR OF SCIENCE WITH A MAJOR IN SYSTEMS ENGINEERING

The multidisciplinary field of systems engineering applies engineering techniques and mathematical methods to improve planning and decision-making in organizational systems composed of people, machines, and procedures. By observing,

understanding, modeling, and predicting the behavior of such systems, practitioners of systems engineering assist the decision-making process that seeks to design and operate the systems optimally. Systems engineering finds application in many areas, including communications, energy, environment, finance, health care, information technology, marketing, national defense, project management, software development, and transportation.

The systems engineering program is designed to provide the student with a broad and solid education in the basics of mathematical modeling, software and information systems, and the treatment of uncertainty. Analytical thinking is stressed in order to prepare the student for graduate education or productive professional employment. The program fosters communication skills and awareness of the current professional world.

Each student must participate in an appropriate internship/co-op experience during the last two years of the program. This requirement may be satisfied by an approved full-time summer position after the second or third year, or by one or two approved part-time positions requiring 15-20 hours per week during two of the final four semesters. A position obtained through the GW Career Center (<http://gwired.gwu.edu/career>) will usually be acceptable; the position may be either paid or unpaid.

REQUIREMENTS

Recommended program of study

First semester

CSCI 1111 Introduction to Software Development

EMSE 1001 Introduction to Systems Engineering

MATH 1231 Single-Variable Calculus I *

SEAS 1001 Engineering Orientation

UW 1020 University Writing *

Science elective *

EMSE 3855W Critical Infrastructure Systems

EMSE 4410 Survey of Finance and Engineering Economics

Professional elective

Humanities or social sciences elective **

Seventh semester

EMSE 3760 Discrete Systems Simulation

EMSE 4190 Senior Project in Systems Engineering I

EMSE 4710 Applied Optimization Modeling

STAT 2118 Regression Analysis

Professional elective

Eighth semester

EMSE 4191 Senior Project in Systems Engineering II

STAT 2183W Intermediate Statistical Laboratory: Statistical Computing Packages

Three professional electives

Science requirements can be met by the following:

BISC 1111 & BISC 1112 Introductory Biology: Cells and Molecules and Introductory Biology: The Biology of Organisms *

CHEM 1111 & CHEM 1112 General Chemistry I and General Chemistry II *

PHYS 1021 & PHYS 1022 University Physics I and University Physics II *

*Course satisfies the university general education requirement in math, science, and writing.

**At least two social and behavioral sciences courses must be selected from the University General Education Requirement list (p. 28); the remaining course must be selected from either the University General Education Requirement list or the SEAS General Education Requirement list (http://www.seas.gwu.edu/sites/www.seas.gwu.edu/files/downloads/HSS%20Form%20Fall%202015%20Admits%201_0.pdf). At least one humanities course must be selected from the University General Education Requirement list (p. 28); the remaining courses must be selected from either the University General Education Requirement list or the SEAS General Education Requirement list. (<http://www.seas.gwu.edu/sites/www.seas.gwu.edu/>

[files/downloads/HSS%20Form%20Fall%202015%20Admits%201_0.pdf](http://www.seas.gwu.edu/sites/www.seas.gwu.edu/files/downloads/HSS%20Form%20Fall%202015%20Admits%201_0.pdf))

Technical electives

Each systems engineering major will gain specific expertise in a chosen technical area by taking a six-course sequence leading to a minor from another department of the University. Technical electives are selected with the approval of the student's academic advisor. Areas frequently chosen are computer science, economics, finance, management, mathematics, naval science, statistics, or specific fields of engineering. Consult the advisor for other approved areas and requirements.

Medical preparation option

The medical preparation option leads to a bachelor's degree in systems engineering and quantitatively prepares students for medical careers through a program that emphasizes decision modeling. Decision modeling is increasingly applicable to the medical field because of the growing use of computers and information systems in medicine and the interplay of diagnosis, treatment, and economics.

MASTER OF SCIENCE IN THE FIELD OF ENGINEERING MANAGEMENT

The Master of Science in engineering management is designed for the technical manager who needs a broad education to keep an organization operating efficiently and working ahead of its competitors. The program provides graduate education in the most current management techniques for technological and scientific organizations. Students can pursue their degree by selecting electives in one of five areas of focus: crisis, emergency, and risk management; economics, finance and cost engineering; engineering and technology management; environmental and energy management; and knowledge and information management.

Specific admission requirements are shown on the Graduate Program Finder. (<http://www.gwu.edu/all-graduate-programs>)

Visit the program website (<http://www.emse.seas.gwu.edu/master-science-engineering-management>) for additional information.

REQUIREMENTS

The following requirements must be fulfilled: 36 credits, including 12 credits in required courses, 12 to 15 credits in a focus area, and 3 to 9 credits in elective courses, depending on which focus area is selected.

Focus areas (select one): Crisis, Emergency, and Risk Management, Engineering and Technology Management, Environmental and Energy Management, and Economics, Finance, and Cost Engineering.

Required:

EMSE 6001	The Management of Technical Organizations
EMSE 6020	Decision Making with Uncertainty
EMSE 6410	Survey of Finance and Engineering Economics
EMSE 6801	Systems Engineering I

Crisis, Emergency, and Risk Management**Required:**

EMSE 6305	Crisis and Emergency Management
EMSE 6310	Information Technology in Crisis and Emergency Management
EMSE 6315	Management of Risk and Vulnerability for Hazards and Terrorism
EMSE 6325	Medical and Public Health Emergency Management
or EMSE 6330	Management of Terrorism Preparedness and Response

Two of the following:

EMSE 6240	Environmental Hazard Management
EMSE 6300	Homeland Security: The National Challenge
EMSE 6345	Disaster Recovery and Organizational Continuity
EMSE 6350	Hazard Mitigation in Disaster Management
EMSE 6540	Management of Information and Systems Security
EMSE 6820	Program and Project Management
EMSE 6992	Special Topics (with program advisor approval)

Electives:

Two additional Engineering Management and Systems Engineering departmental courses with program advisor approval

Engineering and Technology Management**Required:**

EMSE 6005	Organizational Behavior for the Engineering Manager
EMSE 6820	Program and Project Management
EMSE 6099	Problems in Engineering Management and Systems Engineering

Two of the following:

EMSE 6010	HR for Engineering Managers
EMSE 6014	Management of Engineering Contracts
EMSE 6018	Engineering Law
EMSE 6023	Technology Issue Analysis
EMSE 6026	Technical Enterprises
EMSE 6030	Technological Forecasting and Management
EMSE 6035	Marketing of Technology
EMSE 6070	Management of Research and Development
EMSE 6430	Finance for Engineers
EMSE 6505	Knowledge Management I
EMSE 6760	Discrete Systems Simulation
EMSE 6805	Systems Engineering II
EMSE 6992	Special Topics (with program advisor approval)

Electives:

Three additional Engineering Management and Systems Engineering departmental courses with program advisor approval

Environmental and Energy Management**Required:**

EMSE 6220	Environmental Management
EMSE 6225	Air Quality Management
EMSE 6235	Water Quality Management
EMSE 6260	Energy Management

Two of the following:

EMSE 6200	Policy Factors in Environmental and Energy Management
-----------	---

MASTER OF SCIENCE IN THE FIELD OF SYSTEMS ENGINEERING

The Master of Science in systems engineering program provides broad knowledge of the "systems approach" for designing and managing large-scale engineering systems throughout the lifecycle, with faculty and students exploring case studies and methodologies from NASA, the U.S. Department of Defense, and U.S. corporations. Students can pursue their degrees by selecting electives in one of three areas of focus: operations research and management science, systems engineering and integration, or enterprise information assurance.

Specific admission requirements are shown on the Graduate Program Finder. (<http://www.gwu.edu/all-graduate-programs>)

Visit the department website (<http://www.emse.seas.gwu.edu/master-science-systems-engineering>) for more information.

REQUIREMENTS

The following requirements must be fulfilled: 36 credits, including 12 credits in required courses and 24 credits in approved elective courses.

Required

EMSE 6001	The Management of Technical Organizations
EMSE 6020	Decision Making with Uncertainty
EMSE 6410	Survey of Finance and Engineering Economics
EMSE 6801	Systems Engineering I

Electives

24 credits selected in consultation with the program advisor

DOCTOR OF ENGINEERING IN THE FIELD OF ENGINEERING MANAGEMENT

The Doctor of Engineering (D.Eng.) in the field of Engineering Management (EM) is designed for students who seek a practice- or praxis-oriented doctoral degree. Such students typically have professional needs that the traditional Ph.D. degree does not meet. The D.Eng. (EM) focuses on solutions to real-world problems. Unlike the Ph.D., for which fundamental research leads to foundational work that is published and contributes to the basic understanding of a field, the D.Eng. (EM) is applied, not basic.

In a broad-based program of study, the D.Eng. (EM) course work culminates in the student's production of a praxis for use

EMSE 6230	Hazardous Waste Management and Cleanup
EMSE 6240	Environmental Hazard Management
EMSE 6245	Analytical Tools for Environmental Management
EMSE 6285	Analytical Tools for Energy Management
EMSE 6290	Climate Change: Policy, Impact
EMSE 6295	Environmental Security
EMSE 6992	Special Topics (with program advisor approval)

Electives:

Two additional Engineering Management and Systems Engineering departmental courses with program advisor approval

Economics, Finance, and Cost Engineering

Required:

EMSE 6420	Economic Analysis in Engineering Planning
EMSE 6430	Finance for Engineers
EMSE 6450	Quantitative Methods in Cost Engineering
EMSE 6820	Program and Project Management
Two of the following:	
EMSE 6014	Management of Engineering Contracts
EMSE 6018	Engineering Law
EMSE 6026	Technical Enterprises
EMSE 6701	Operations Research Methods
EMSE 6840	Applied Enterprise Systems Engineering
EMSE 6850	Quantitative Models in Systems Engineering
EMSE 6992	Special Topics (with program advisor approval)

Electives:

Two additional Engineering Management and Systems Engineering departmental courses with program advisor approval

by practicing engineers. The D.Eng. (EM) is ideal for individuals doing advanced engineering in the workplace, who want to update their knowledge with cutting-edge techniques from the engineering disciplines, and cap it with a formal degree that recognizes their contributions to the field.

Specific admission requirements are shown on the Graduate Program Finder. (<http://www.gwu.edu/all-graduate-programs>)

Visit the program website (<http://emse.offcampus.gwu.edu/doctor-engineering-degree-program>) for additional information.

REQUIREMENTS

The following requirements must be fulfilled: 45 credits, including 30 credits in required courses and 15 credits in research culminating in a practice-based case study.

Required

EMSE 6030	Technological Forecasting and Management
EMSE 6506	Knowledge Management II
EMSE 6573	Managing E-Commerce Technologies
EMSE 6765	Data Analysis for Engineers and Scientists
EMSE 6770	Techniques of Risk Analysis and Management
EMSE 6790	Logistics Planning
EMSE 6830	Human Factors Engineering
EMSE 6992	Special Topics (Quantitative Methods for Engineering Managers)
EMSE 6992	Special Topics (Entrepreneurship)
EMSE 6992	Special Topics (Research Methods for the Case Study)
EMSE 8998	Adv Reading & Research

GRADUATE CERTIFICATE IN GREENHOUSE GAS MANAGEMENT

The Graduate Certificate in Greenhouse Gas (GHG) Management, which was developed in cooperation with experts at the Greenhouse Gas Management Institute, provides an alternative for professionals who wish to expand their knowledge in the field without committing to the requirements of a master's degree program. The program addresses the

engineering, economic, legal, and logistical considerations for implementing GHG management in compliance with existing and planned GHG mitigation. The focus is on managing GHG emissions from energy-related activities in a business setting, through the measurement, reporting, analysis, reduction, trading, and verification of GHG emissions from these activities.

Specific admission requirements are shown on the Graduate Program Finder (<http://www.gwu.edu/all-graduate-programs>).

REQUIREMENTS

The following requirements must be fulfilled:

Required

EMSE 6290	Climate Change: Policy, Impact
EMSE 6291	Greenhouse Gas Measurement and Reporting
EMSE 6292	Greenhouse Gas Mitigation
EMSE 6293	Greenhouse Gas Management Assurance and Information Systems Design

MECHANICAL AND AEROSPACE ENGINEERING

Mission Statement

The mission of the Department of Mechanical and Aerospace Engineering is to educate students to become professional mechanical and aerospace engineers who are confident in their understanding of science and technology and creative in the face of new challenges. Graduates of the mechanical engineering program have the analytical skill and thirst for lifelong learning that will expand career horizons. The program prepares students to conduct relevant research at the forefront of mechanical and aerospace engineering knowledge. Students learn through faculty mentoring and go on to practice mechanical engineering as skilled, responsible, and ethical professionals.

Educational Objectives

The mechanical engineering program provides an integrated curriculum designed to produce graduates who develop successful careers in mechanical engineering or in science and technology. Graduates will be prepared to accomplish the following objectives within a few years after graduation:

1. Practice mechanical engineering in industry or government, applying knowledge and skills acquired in the program to the design of engineering systems and devices, and the analysis and solution of engineering problems of complex scope; and/or

2. Succeed in advanced education, research and development, or other creative efforts in engineering, science, and technology; and/or
3. Apply engineering skills while pursuing careers in other professions, such as law, medicine, business, or public policy (this objective reflects the program's patent law and medical preparation options and will apply to a selected group of graduates);
4. Conduct themselves in a responsible and ethical manner, cognizant of the social, environmental, and economic impact of engineering and technology on society;
5. Embark upon a process of lifelong learning in their profession; and
6. Enter into leadership roles in technological development or local, national, or global economic development.

Student Outcomes

Students acquire knowledge of the following disciplines:

- Chemistry and calculus-based physics with depth in at least
- Advanced mathematics through multivariate calculus and differential equations; familiarity with statistics and linear algebra
- Thermal, fluid, and mechanical systems areas.

In addition, students gain the ability to fulfill the following professional responsibilities:

- Understand professional and ethical responsibility
- Apply knowledge of mathematics, science, and engineering, and familiarity with materials science, electrical circuits, and electromechanical control theory
- Design and conduct experiments, as well as analyze and interpret data
- Design a mechanical engineering system, component, or process to meet desired needs within realistic constraints
- Identify, formulate, and solve engineering problems
- Use the techniques, skills, and modern engineering tools necessary for engineering practice
- Use computer systems and knowledge of computer programming
- Apply computer software used in engineering practice, such as computer-aided engineering packages and mathematical software, to the solution of mechanical engineering problems
- Apply manufacturing techniques to realize mechanical engineering designs
- Communicate effectively both orally and graphically
- Write technical reports in a professional manner
- Function on multidisciplinary teams.

The program prepares graduates who have the broad education necessary to practice mechanical engineering, including the following fundamentals:

- An understanding of the impact of engineering solutions in a global, economic, environmental, and societal context.
- A recognition of the need for, and an ability to engage in life-long learning
- A knowledge of contemporary issues.

For more information contact the Department of Mechanical and Aerospace Engineering. (<http://www.mae.seas.gwu.edu>)

UNDERGRADUATE

Bachelor's programs

- Bachelor of Science with a major in mechanical engineering (p. 1087)
- Bachelor of Science with a major in mechanical engineering, aerospace option (p. 1088)
- Bachelor of Science with a major in mechanical engineering, biomechanical option (p. 1089)
- Bachelor of Science with a major in mechanical engineering, medical preparation option (p. 1090)
- Bachelor of Science with a major in mechanical engineering, patent law option (p. 1092)
- Bachelor of Science with a major in mechanical engineering, robotics option (p. 1093)

GRADUATE

Master's program

- Master of Science in the field of mechanical and aerospace engineering (p. 1094)

Doctoral program

See the School of Engineering and Applied Science for programs leading to the doctoral degree.

CERTIFICATE

- Graduate certificate in the field of computer-integrated design in mechanical and aerospace engineering (p. 1096)

FACULTY

Professors E. Balaras, A.D. Cutler, D.S. Dolling, C.A. Garris, S.M. Hsu, M. Keidar, J.D.-Y. Lee, M.W. Plesniak (*Chair*), K. Sarker, Y.-L. Shen, M. Snyder

Associate Professors L. Barba, Y. Leng, S. Solares

Assistant Professors P.M. Bardet, P. Ben-Tzvi, S. LeBlanc, T. Lee, M. Leftwich, C. Liang, A.M. Wickenheiser, L. Zhang

Professorial Lecturers M.A. Busby, K. Bulusu, T. Conway, S.S. Dodbele, G.C. Everstine, J.M. Fleming, D.R. Gerk, T.M. Krafchak, R. Krishnamurthy, J.H. Milgram, A. Rao, J. Silver, J.K. Soldner

COURSES

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000-4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

MAE 1001. Introduction to Mechanical and Aerospace Engineering. 1 Credit.

Careers in mechanical and aerospace engineering and the necessary academic program. Teamworking and problem-solving skills for solution of design problems. Analytical and design problems and correlations between academic skills and the mechanical and aerospace engineering professions. Basic aspects of engineering ethics.

MAE 1004. Engineering Drawing and Computer Graphics. 0-3 Credits.

Introduction to technical drawing, including use of instruments, lettering, geometric construction, sketching, orthographic projection, section view, dimensioning, tolerancing, and pictorial drawing. Introduction to computer graphics, including topics covered in manual drawing and computer-aided drafting.

MAE 2117. Engineering Computations. 3 Credits.

Numerical methods for engineering applications. Round-off errors and discretization errors. Methods for solving systems of linear equations, root finding, curve fitting, numerical Fourier transform, and data approximation. Numerical differentiation and integration and numerical solution of differential equations. Computer applications. Prerequisite: CSCI 1121 or CSCI 1041.

MAE 2124. Linear Systems Analysis for Robotics. 3 Credits.

Properties of linear systems. Mathematical modeling of dynamic systems. State space, state variables, and their selection. Linearization of non-linear behavior. Matrix functions. Solution of state equations in the time domain and using transformations. System stability and frequency response.

MAE 2131. Thermodynamics. 3 Credits.

Fundamentals of equilibrium thermodynamics; Zeroth, First, and Second Laws. Work, heat, internal energy, enthalpy, thermodynamic potential functions; heat transfer mechanisms, phase diagrams, equations of state and property tables, power systems, refrigeration, heat pump systems. Reversible and irreversible processes, Carnot cycle, entropy, exergy. Prerequisite: PHYS 1021.

MAE 2170. History and Impact of the U.S. Patent System. 3 Credits.

Economic systems and emergence of the free market; role of the patent system in the industrial development of the United States; constitutional foundations; evolution of the U.S. patent system; landmark litigation; impact on future innovation; international aspects; the likely future of the patent system.

MAE 3120. Methods of Engineering Experimentation. 0-3 Credits.

Acquisition and analysis of experimental data. Laws of modeling and simulation. Report formulation and presentation. Basic principles of measuring instruments and sensors. Fundamentals of digital data acquisition and use of computer-based data systems. Strain gages, oscilloscopes, transducers, and computerized data systems. Prerequisite: MAE 2117.

MAE 3126. Fluid Mechanics I. 0-3 Credits.

Fluid properties, fluid statics, integral and differential formulations of conservation of mass, momentum, and energy. Bernoulli's equation. Dimensional analysis and similitude. Inviscid flow. Viscous flow. Experimental and computational methods in fluid mechanics. Prerequisite: APSC 2058.

MAE 3128. Biomechanics I. 3 Credits.

Mechanical analysis of biological systems. Characterization of living tissue. Applications of statics, solid mechanics, kinematics, and elementary dynamics to the human musculoskeletal system. May be taken for graduate credit with approval of department. Prerequisite: APSC 2057, CE 2220.

MAE 3134. Linear System Dynamics. 3 Credits.

Modeling of linear mechanical, electrical, and fluid systems as transfer functions and in state space. Linearization, discretization. Laplace and z-transforms. Natural frequencies and damping, free vibration, forced vibration. Measurement techniques, parameter estimation, and computer simulation. Time and frequency domain analysis. Prerequisite: APSC 2113; corequisite: APSC 2058.

MAE 3145. Orbital Mechanics and Spacecraft Dynamics. 3 Credits.

Coordinate systems and transformations, rocket equation, two-body problem, orbit transfers, orbit perturbations, attitude dynamics and stability of symmetric spacecraft, environmental and control torques. Prerequisite: APSC 2058. (Fall).

MAE 3155. Aerodynamics. 3 Credits.

Subsonic and supersonic aerodynamics: potential flow, lift and form drag, viscous effects, compressible flow. Prerequisite: MAE 3126.

MAE 3162. Aerospace Structures. 3 Credits.

Basic structural theory of lightweight aerospace structures. Development of shear and bending moment diagrams and stresses. Analysis of typical monocoque structures. External airloads and their distribution. Mechanical properties of metal and advanced composite structures. Design of members in tension, bending or torsion, and design of webs in shear. Prerequisite: APSC 2057 and CE 2220. (Spring).

MAE 3166. Materials Science and Enginrg. 3 Credits.

Mechanical properties, plastic deformation dislocation theory, yielding, strengthening mechanisms, microstructure and properties, heat treatment of steel, composites, amorphous materials, viscoelastic deformation, creep, fracture, fatigue, fatigue crack propagation. Prerequisite or concurrent registration: CHEM 1111, PHYS 1022.

MAE 3166W. Materials Science and Enginrg. 3 Credits.

Mechanical properties, plastic deformation dislocation theory, yielding, strengthening mechanisms, microstructure and properties, heat treatment of steel, composites, amorphous materials, viscoelastic deformation, creep, fracture, fatigue, fatigue crack propagation. Prerequisite or concurrent registration: CHEM 1111, PHYS 1022.

MAE 3167. Mechanics of Materials Lab. 1 Credit.

Measurement of strains and study of failure resulting from applied forces in ductile, brittle, anisotropic, elastomeric, plastic, and composite materials. Study of tension, compression, bending, impact, and shear failures. Prerequisite or concurrent registration: MAE 3166.

MAE 3167W. Mechanics of Materials Lab. 1 Credit.

Measurement of strains and study of failure resulting from applied forces in ductile, brittle, anisotropic, elastomeric, plastic, and composite materials. Study of tension, compression, bending, impact, and shear failures. Prerequisite or concurrent registration: MAE 3166.

MAE 3171. Patent Law for Engineers. 3 Credits.

Types of patents; international patents; inventorship; prosecution process; basic references for patents; detailed structure of a patent; patentability requirements; reexamination and reissue; litigation; infringement and invalidity; copyrights, trademarks, and trade dress. May be taken for graduate credit with approval of department.

MAE 3184. Robotics Lab. 1 Credit.

Forward and inverse kinematics modeling of robots, control design, trajectory planning, and force rendering. Corequisite: MAE 3197.

MAE 3187. Heat Transfer. 3 Credits.

Steady- and unsteady-state heat conduction problems. Analytical and numerical solution methods. Convective heat transfer, boundary-layer approach, analogy between heat and momentum transfer. Thermal radiation; fundamental concepts and laws. Heat-exchanger design. Prerequisite: MAE 3126, MAE 2131.

MAE 3190. Analysis and Synthesis of Mechanisms. 3 Credits.

Kinematics and dynamics of mechanisms. Displacements, velocities, and accelerations in linkage, cam, and gear systems by analytical, graphical, and computer methods. Synthesis of linkages to meet prescribed performance requirements. Prerequisite: APSC 2058. (Fall).

MAE 3191. Mechanical Design. 3 Credits.

Integration of knowledge of strength of materials in a design context. Stresses and deflections in engineering structures. Theories of failure. Introduction to the design of mechanical components, such as fasteners, shafts, springs. Introduction to the use of computers in mechanical engineering design. Prerequisite: CE 2220, MAE 2117.

MAE 3192. Manufacturing Processes and Systems. 3 Credits.

Introduction to manufacturing techniques for metals, polymers, ceramics, and composites. Relationships between properties of materials and techniques for processing them. Process selection, design, control, and integration. Computer-integrated manufacturing, robotics and assembly automation. Prerequisite or concurrent registration: MAE 1004.

MAE 3195. Computer-Aided Engineering of Mechanical Systems. 3 Credits.

Presentation of the major elements of computer-aided engineering systems: interactive computer graphics, finite element analysis, and design optimization. Consideration of economics, safety, and reliability factors. Prerequisite: MAE 4193; concurrent registration: MAE 3196.

MAE 3196. Computer-Aided Engineering Laboratory. 1 Credit.

Instruction and hands-on applications of computer-aided engineering systems to the design, analysis, and optimization of mechanical engineering components and systems. Concurrent registration: MAE 3195.

MAE 3197. Robotic Systems Design and Applications. 3 Credits.

Modeling and analysis of robot designs. Kinematics, statics, and dynamics of linkages. Design and selection of mechanical structures, actuators, transmissions, and sensors. Design of robotic control systems. Relevant computer hardware and software. Industrial applications and limitations of robot systems. Lab experiments. Same as ECE 4730. Prerequisite: MAE 3134.

MAE 4129. Biomechanics II. 3 Credits.

Mechanical analysis of physiological fluid dynamics. Application of fluid flow analysis techniques to cardiovascular, pulmonary, respiratory, and phonatory flows. Introduction to biomedical devices that manipulate physiological flows. May be taken for graduate credit with approval of department. Prerequisite: MAE 3128.

MAE 4149. Thermal Systems Design. 3 Credits.

Completion of a thermal systems design project that requires integration of engineering science, economics, reliability, safety, ethics, professional responsibility, and social considerations. Development and use of design methodology, optimization, feasibility considerations, detailed system descriptions, and presentation of results. Prerequisite: MAE 3187.

MAE 4152W. Mechanical Engineering Laboratory. 3 Credits.

Project-oriented course. Simulates working environment of professional engineers. Projects are assigned in student's areas of interest; student is expected to design and assemble own experiments. Extensive use of instrumentation and computing facilities. Project proposal, progress reports, final report, and periodic oral presentations required. (Spring).

MAE 4157. Aerodynamics Laboratory. 1 Credit.

Subsonic and supersonic wind tunnel experiments and simulations. Prerequisite: MAE 3155. (Fall).

MAE 4163. Airplane Performance. 3 Credits.

Lift and drag estimation methods. Airplane performance measures, such as range and endurance, turning flight, specific excess power and acceleration, takeoff and landing performance. Longitudinal and lateral-direction static and dynamic stability. Control surface effectiveness. Prerequisites: MAE 3134. (Fall).

MAE 4168. Intro. to Biomaterials. 3 Credits.

Fundamentals of materials science and engineering applied to artificial materials in the human body. Topics include biocompatibility, techniques to minimize corrosion or other degradation of implant materials, and the use of artificial materials in various tissues and organs. Prerequisite: Approval of department. Course not open to MAE students.

MAE 4172. Engineering Design and the Patent System. 3 Credits.

Design experience in group projects involving following precisely the teachings of a licensed patent; or avoiding infringement of a provided patent while offering a competitive alternative; or evaluating a provided patent in light of prior art or by attempting to design a competitive product. May be taken for graduate credit with approval of department. Prerequisite: MAE 3171 and senior status.

MAE 4182. Electromechanical Control System Design. 3 Credits.

Application of control theory to the design of electromechanical systems. Transducers, valves, and other control components. Mathematical models of open- and closed-loop electromechanical systems. Root locus and frequency response methods; application to the synthesis of feedback systems by both manual and computer-aided techniques. Prerequisite: MAE 2117, MAE 3134.

MAE 4183. Controls Lab. 1 Credit.

Modeling, control design, simulation, implementation, tuning, and operation of a control system. Corequisite: MAE 4182.

MAE 4193. Engineering Systems Design. 3 Credits.

Creative engineering design, problem definition, and concept generation. Design of journal and roller element bearings, fasteners and permanent joints, and springs. Design project incorporating design selection, and optimization. Project presentation using graphical and computer resources. Prerequisite: MAE 3191.

MAE 4194. Mechatronics Design. 3 Credits.

Data acquisition and digital signal processing. Sensors and their characteristics—displacement, position/velocity, force/pressure, piezoelectric. Actuators—mechanical, electrical, pneumatic, hydraulic. Modeling and simulation of dynamic systems. Mechanism design. Digital control systems. Microprocessors, digital logic/circuits, motor drives. Lab experiments. Prerequisite: MAE 4182.

MAE 4198. Research. 1-3 Credits.

Applied research and experimentation projects, as arranged. Prerequisite: junior or senior status.

MAE 4199. Student Design Project. 1-3 Credits.

Special student projects involving extensive design of various mechanical engineering systems. Examples include the solar car, mini-Baja, or other design competitions that typically are national in scope. May be taken for graduate credit by graduate students.

MAE 6201. Intro to Manufacturing. 3 Credits.

Fundamentals of modern manufacturing. Processes for manufacturing mechanical and electronic components from metals, polymers, ceramics, and silicon. Manufacturing systems, CAD, robotics, and design for assembly. Current capabilities, technological needs, and competitiveness. Examples from high-tech industries. Prerequisite: approval of department.

MAE 6203. Adv Experimentation Tech. 3 Credits.

Sensors; measurement of displacement, temperature, pressure and velocity. Optical methods. Signal conditioning. Computer data acquisition. Uncertainty analysis. Case studies of instrumentation systems such as hot-wire anemometers, laser-doppler anemometers, shlieren/shadowgraph and interferometers. Laboratory projects. (As arranged).

MAE 6204. Tissue Engineering. 3 Credits.

MAE 6207. Theory of Elasticity I. 3 Credits.

Introduction to Cartesian tensors; deformation, stress, constitutive relations for linear elasticity; formulation of boundary value problems, variational principles, torsion and bending of prismatic rods, plane problems. Prerequisite: approval of department. Same as CE 6207.

MAE 6210. Continuum Mechanics. 3 Credits.

Tensor analysis; fundamental concepts of continuum mechanics; kinematics of continuum; derivation of balance laws of mass, linear momentum, angular momentum, energy and entropy; axioms of constitutive theory; formulation of constitutive theories; Onsager's principle; objectivity; representation theorem for isotropic functions; plasticity, including concepts of internal variables, yield surface, return mapping algorithm. Prerequisite: approval of department.

MAE 6220. Applied Computational Fluid Dynamics. 3 Credits.

Basic principles of fluid dynamics and aerodynamics. Finite difference and finite volume methods. Fluid flow and heat transfer analysis of thermo-fluid mechanical systems. Computational aerodynamics codes. Individual hands-on experience with a commercial CFD code such as FLUENT. Prerequisite: approval of department.

MAE 6221. Fluid Mechanics. 3 Credits.

Continuum, kinematics of fluids; stress and strain rate tensors; fundamental equations of viscous compressible flows. Irrotational flows; sources, sinks, doublets, and vortices. Laminar flow of viscous incompressible fluids; boundary-layer concept. Prerequisite: approval of department.

MAE 6222. Applied Aerodynamics. 3 Credits.

Introduction to practical and computational methods for solving two-dimensional and three-dimensional aerodynamics problems. Linear methods, nonlinear potential methods, coordinate transforms, and boundary-layer methods. Prerequisite: MAE 6221, MAE 6286.

MAE 6223. Turbomachinery. 3 Credits.

Turbine, compressor, and pump types and uses; dimensional analysis of turbomachines; cycle analysis of gas and steam turbines; energy interchange in fluid machinery; design, characteristics, and performance of turbines, compressors, and pumps; comparison of types of turbines, compressors, and pumps. Prerequisite: MAE 6221.

MAE 6224. Viscous Flow. 3 Credits.

Exact solutions of Navier-Stokes equations; the laminar boundary-layer theory. Reynolds stresses and turbulence; internal, boundary-layer, and mixing flows. Applications to heat and mass transfer and to reacting flows. Prerequisite: APSC 6213, MAE 6221, .

MAE 6225. Computational Fluid Dynamics. 3 Credits.

Theory of discrete methods for solving the governing equations of fluid dynamics. Potential flow, Euler equations, Navier-Stokes equations. Emphasis on algorithm development appropriate to modern supercomputers. Prerequisite: MAE 6221, MAE 6286.

MAE 6226. Aero/Hydrodynamics. 3 Credits.

Inviscid flows in two and three dimensions and irrotational flow theory; conformal mapping and applications. Helmholtz theorems and vorticity dynamics. Applications such as airfoil theory, finite wing theory, panel methods, instabilities, free surface flow. Prerequisite: MAE 6221 .

MAE 6227. Aeroelasticity. 3 Credits.

Static and dynamic structural deformations; static aeroelasticity (structural deformation, divergence, control effectiveness, and reversal); dynamic aeroelasticity (flutter, response to gusts and turbulence); unsteady aerodynamics for 2-D wings; strip theory for 3-D lifting surfaces; piston and Newtonian-flow theories. Prerequisite: MAE 6221, MAE 6257.

MAE 6228. Compressible Flow. 3 Credits.

Thermodynamics and equations of compressible inviscid flow. One-dimensional flow. Isentropic flow. Normal and oblique shock waves. Quasi-one-dimensional flow. Unsteady one-dimensional and steady two-dimensional flow. Introduction to transonic flow. Prerequisite: APSC 6213, MAE 6221 .

MAE 6229. Propulsion. 3 Credits.

Basic concepts of propulsion: energy transformations in propulsive flows, gas dynamics of combustion. Thermal and propulsive efficiencies. Cycle and engine component analysis. Intake, nozzle performance. Drag and thrust generation. Augmentation. Propellers, turbojets, turbofans, ramjets, and rockets. Prerequisite: Graduate Standing or MAE 2131 and MAE 3126. (Spring).

MAE 6230. Space Propulsion. 3 Credits.

Advanced chemical propulsion: dynamic combustion and instabilities in solid propellants. Injection, atomization, mixing in liquid propellant engine performance. Plasma propulsion: electrostatic, electromagnetic, and electrothermal instabilities (laser and microwave). Nuclear propulsion. Prerequisite: MAE 6229.

MAE 6231. Structure and Transformations in Materials. 3 Credits.

Structure of crystals, crystal binding, crystal defects, dislocations, solid solutions, phases, diffusion, phase transformations, deformation twinning, and martensite. Prerequisite: APSC 2130.

MAE 6232. Fracture Mechanics. 3 Credits.

Concepts, history, and recent developments of fracture mechanics. Singularity at the crack tip; solutions around crack tip; stress intensity factors; energy release rate; J-integral; direction of crack extension; Plasticity and slow crack growth; dynamic crack propagation; molecular dynamics simulation of fracture. Prerequisite: approval of department.

MAE 6233. Mechanics of Composite Materials. 3 Credits.

Stress-strain relationship for orthotropic materials, invariant properties of an orthotropic lamina, biaxial strength theory for an orthotropic lamina. Mechanics of materials approach to stiffness, elasticity approach to stiffness. Classical lamination theory, strength of laminates. Statistical theory of fatigue damage. Same as CE 6209. Prerequisite: approval of department.

MAE 6234. Composite Materials. 3 Credits.

Principles of composites and composite reinforcement. Micromechanics and failure, interface reactions in various composites, reinforcing materials. Structure of composites: fiber-reinforced polymers, filler-reinforced polymers, fiber-reinforced metals, directionally solidified alloys, dispersion-strengthened metals. Prerequisite: approval of department.

MAE 6235. Deformation and Failure of Materials. 3 Credits.

Elastic and plastic deformation, yield, dislocation theory, strengthening mechanisms, creep, polymers, fracture, transition temperature, microstructure, fatigue. (Spring, odd years).

MAE 6237. Applied Electrochemistry. 3 Credits.

Charged interfaces, electrochemical cells, corrosion thermodynamics, electrode kinetics, general corrosion, crevice corrosion, pitting, stress-corrosion cracking, corrosion protection, batteries and fuel cells, energy storage. May include current and potential distribution in electrochemical cells and scaling effects in modeling. Prerequisite: approval of department.

MAE 6238. Biomaterials. 3 Credits.

Applications of materials science and engineering to artificial materials in the human body with the objective of detailed understanding of synthetic materials and biopolymers. Biocompatibility and its consequences on tissue-implant interfaces. Design and development of new implant materials, drug delivery systems, and biosensors. Prerequisite: MAE 3166 or MAE 4168.

MAE 6239. Computational Nanosciences. 3 Credits.

Introduction to surface force measurements in nanosciences; continuum contact mechanics in nanoscience research; intermolecular forces; empirical potentials for transition metals; surface forces in liquids; large-scale atomic/molecular massively parallel simulator; force field development from quantum mechanical density-functional theory for organic/metal molecular systems. Prerequisite: approval of department.

MAE 6240. Kinematic Synthesis. 3 Credits.

Techniques for the analysis and synthesis of function, path, and motion generating mechanisms. Methods for the dimensional design of mechanisms. Computer-aided techniques for the optimal design of planar linkages. Review of recent developments and current research. Term project. Prerequisite: MAE 3190 .

MAE 6241. Computer Models of Physical and Engineering Systems. 3 Credits.

Reduction of physical and engineering systems to simplified physical and mathematical models. Manipulation of models using C/C programming. Numerical algorithms for optimization, graph identification, mini-sum arithmetic, and searching. Styles of problem solving. Prerequisite: MAE 2117.

MAE 6242. Advanced Mechanisms. 3 Credits.

Emphasis on spatial kinematics. Analysis and synthesis of mechanisms. Analytical techniques using matrices, dual numbers, quaternion algebra, finite and instantaneous screws, theory of envelopes. Applications to design of linkages, cams, gears. Use of digital computers in mechanism analysis and design. (Spring, even years).

MAE 6243. Advanced Mechanical Engineering Design. 3 Credits.

Design of mechanical engineering components and systems emphasizing computer-aided engineering (CAE), including interactive computer graphics, finite element analysis, and design optimization. Creation of a complete design on an engineering workstation. Prerequisite: approval of department.

MAE 6244. Computer-Integrated Engineering Design. 3 Credits.

Design of engineering components and systems on engineering workstations using I-DEAS. Interactive computer graphics, finite element analysis, computer-based design optimization, and other relevant computer-based tools. Students apply design concepts in a computer-aided engineering environment to a selected project. Prerequisite: approval of department.

MAE 6245. Robotic Systems. 3 Credits.

Classification, features, and applications of industrial robots. Spatial descriptions and transformations, forward and inverse kinematics. Jacobian matrix, velocities and static forces, manipulator dynamics and controls. Robot actuators, transmissions, sensors, end effectors, and programming. Prerequisite: MAE 4182 .

MAE 6246. Electromechanical Control Systems. 3 Credits.

State-space representations of dynamic systems; dynamics of linear systems; controllability and observability; linear observers; compensator design by separation principle; linear-quadratic optimal control; Riccati equations; random processes; Kalman filter; applications of optimal stochastic control theory to robotics and earthquake engineering. Prerequisite: approval of department.

MAE 6247. Aircraft Design I. 3 Credits.

Conceptual design methods used in response to prescribed mission and performance requirements, alternate configuration concepts. Configuration general arrangement and empennage sizing. Estimation of aircraft size, weight, and balance; lift, thrust and drag; system level tradeoff and sensitivity studies. Prerequisite: Graduate Standing or MAE 4163. (Spring).

MAE 6249. Spacecraft Design. 3 Credits.

Computer-aided design of spacecraft and satellites to meet specific mission requirements. Environment, propulsion, structure, heat transfer, orbital mechanics, control considerations. Use of modern computer codes for design studies. Prerequisite: Graduate Standing or MAE 3145. (Fall).

MAE 6251. Computer-Integrated Manufacturing. 3 Credits.

Automation techniques for processing metals, polymers, and composites. Use of sensing and process modeling in process control. Numerical control and robot applications and limitations. Integration, scheduling, and tool management in the computer-integrated factory. Quality control. Social and economic considerations in CIM. Prerequisite: MAE 3192 .

MAE 6252. Projects in Computer-Integrated Design and Manufacturing. 3 Credits.

Applications of the concepts of computer-integrated manufacturing to group projects, culminating in written and oral presentations. Robot programming, vision-guided assembly, force sensing, fixturing, and end-effector design for practical applications. Factory simulation, part scheduling, and NC program-verification algorithms. Prerequisite: MAE 6251.

MAE 6253. Aircraft Structures. 3 Credits.

Statics of thin-walled beams and panels, force interplay between stiffeners and skin in the analysis and design of stiffened thin-walled structures. Strength and stiffness of locally buckled stiffened structures. Design considerations. Critical evaluation of various design procedures. Prerequisite: approval of department.

MAE 6254. Applied Nonlinear Control. 3 Credits.

Dynamic characteristics of nonlinear systems. State stability and input-output stability. Lyapunov stability theory and invariance principle. Nonlinear control systems, including feedback linearization, back-stepping, sliding mode control, and passivity-based design. Applications to robotics, aircraft, and spacecraft control systems. Geometric controls and hybrid systems. Prerequisite: approval of department.

MAE 6255. Plasma Engineering in Aerospace and Nanotechnology. 3 Credits.

Plasma fundamentals, electromagnetic waves in plasma, plasma-wall interactions, modeling and experimental techniques in plasmas, electrical discharge, plasma propulsion, plasma-based nanotechnology. Prerequisite: MAE 3126.

MAE 6257. Theory of Vibration. 3 Credits.

Damped and undamped natural vibration, response of single- and multiple-degrees-of-freedom systems to steady-state and transient excitations, modal analysis, nonproportional damping and complex modes, variation formulation of equations of motion, discretization of structural systems for vibrational analysis. Prerequisite: approval of department.

MAE 6258. Advanced Vibration Analysis and Control. 3 Credits.

Passive and active vibration control of discrete and continuous systems, dynamic vibration absorbers, random vibrations, failure analysis, modal analysis, nonlinear vibrations. Prerequisites: MAE 3134 and MAE 4182 or graduate standing. (Spring).

MAE 6260. Nanomechanics. 3 Credits.

Introduction to crystallography; interatomic potentials; phonon dispersion relations; molecular dynamics simulation; Nose-Hoover thermostat; coarse grained non-equilibrium molecular dynamics; multiple length/time scale theory of multi-physics; microcontinuum field theories; applications to nano materials/structures. Prerequisite: approval of department.

MAE 6261. Air Pollution. 3 Credits.

Introductory course on the generation, monitoring, and control of air pollution. Atmospheric pollutants; current levels and health problems. Combustion chemistry and mixing. Photochemical processes; smog and measurements. Atmospheric dispersion; inversion and acid rain. Prerequisite: approval of department.

MAE 6262. Energy Systems Analysis I. 3 Credits.

Analysis of energy resources and conversion devices. Statistical data analysis, forecasting, I/O, and net energy analyses, mathematical modeling. Prerequisite: approval of department.

MAE 6263. Advances in Energy Engineering. 3 Credits.

Review of thermodynamics, heat transfer, fluid dynamics, and materials technology used in the energy industries. New energy-efficient technologies in transportation and buildings; renewable energy (wind, solar, and biomass). Climate change and sustainability issues, such as carbon capture, cap and trade, carbon sequestration.

MAE 6270. Theoretical Acoustics. 3 Credits.

Basic acoustic theory in stationary and uniformly moving media; waves in infinite space; sound transmission through interfaces; sound radiation from simple solid boundaries, source and dipole fields; propagation in ducts and enclosures; elements of classical absorption of sound. Prerequisite: APSC 6213, MAE 6221.

MAE 6271. Time Series Analysis. 3 Credits.

Harmonic analysis of random signals; auto- and cross-correlations and spectra; coherence; modern techniques for spectral estimation, including fast Fourier transform, maximum entropy, and maximum likelihood; bias and variability; randomly sampled data; digital filtering; applications. Prerequisite: approval of department.

MAE 6274. Dynamics/Cntrl of Spacecraft. 3 Credits.

Fundamentals of satellite attitude dynamics and passive stabilization. Spacecraft attitude representation, rotational kinematics and kinetics. External torques. Dynamics of gyroscopes. Gravity gradient stabilization. Effect of internal energy dissipation on stability of spinning bodies and methods of despin. Dual spin satellites. Prerequisite: approval of department.

MAE 6275. Stability and Control of Aircraft. 3 Credits.

Derivation of equations of motion, Euler transformations and direction cosines, stability derivatives and linearization of equations of motion, stability of linear systems with application to longitudinal and lateral dynamics, Laplace transform techniques, and frequency-response analysis. Prerequisite: approval of department.

MAE 6276. Mechanics of Space Flight. 3 Credits.

Coordinate and time systems. Newton's laws; 2-, 3-, and n-body problems, Lagrange points, gravity-assisted trajectories, variation of parameters and orbit perturbations, non-central gravity effects, drag, sun-synchronous, and formation orbits. Numerical applications using MatLab. Prerequisite: approval of department.

MAE 6277. Spacecraft Attitude Control. 3 Credits.

Control of spinning and three-axis stabilized spacecraft. Elements of linear control theory for single-input, single-output systems and basic feedback control laws. Momentum management and actuator desaturation. Sensors for attitude determination. Application of modern control for multi-input, multi-output systems. Control system simulations using MatLab. (As arranged).

MAE 6280. Thermodynamics. 3 Credits.

Review of First and Second Laws of Thermodynamics and combining the two through exergy; entropy generation minimization and applications. Single phase systems, exergy analyses, multiphase systems, phase diagrams and the corresponding states principle. Prerequisite: approval of department.

MAE 6281. Advanced Thermodynamics. 3 Credits.

Development of classical and quantum statistical mechanics, including Maxwell-Boltzman distributions and microscopic origins of entropy and other thermodynamic variables. Partition functions and micro- and grand-canonical ensembles; Fermi-Dirac, Bose-Einstein, and intermediate statistics. Einstein and Debye models of solids. Prerequisite: MAE 6280 .

MAE 6282. Convective Heat/Mass Transfer. 3 Credits.

Heat and momentum transfer in laminar and turbulent flow. The laminar boundary-layer solution. Similarity and nondimensional parameters. Mass-momentum heat transfer analogy. Convective heat transfer at high velocity. Stability, transition, and turbulence. Free convection. Prerequisite: MAE 6221 .

MAE 6283. Radiative Heat Transfer. 3 Credits.

Basic concepts of heat transfer by thermal radiation starting from Planck's equation for blackbody radiation. Realistic engineering problems are addressed, some involving radiative heat transfer with a variety of surfaces, geometries, and enclosures. Radiative heat flow combined with conduction and convection boundaries. Prerequisite: approval of department.

MAE 6284. Combustion. 3 Credits.

Basic combustion phenomena. Rate processes and chemical kinetics. Chain reaction theory. Detonation, deflagration, diffusion flames, heterogeneous combustion. Experimental measurements. Impact of pollution regulations and alternate fuels. Prerequisite: approval of department.

MAE 6286. Numerical Solution Techniques in Mechanical and Aerospace Engineering. 3 Credits.

Development of finite difference and finite element techniques for solving elliptic, parabolic, and hyperbolic partial differential equations. Prerequisite: APSC 6213.

MAE 6287. Applied Finite Element Methods. 3 Credits.

Review of theory of elasticity. Basic aspects of theory and application of finite element methods. Utilization of MSC/ NASTRAN for static, dynamic, linear, and nonlinear analyses of problems in mechanical, aeronautical, and astronautical engineering. Course emphasizes individual hands-on experience with the MSC/NASTRAN code. Prerequisite: approval of department.

MAE 6288. Advanced Finite Element Analysis. 3 Credits.

Review of variational formulation of the finite element method. Finite element analysis of large-strain thermomechanics. Applications to static and dynamic problems in finite elasticity, Fung elasticity (biomechanics), nonlocal theory, active stress in living biological tissues, biological growth, and large-strain plasticity. Recent developments in finite element methods. Same as CE 8330. Prerequisite: approval of department.

MAE 6290. Special Topics in Materials Science. 3 Credits.

Selected subjects of current interest. Arranged by consultation between department faculty and students. Typical topics include experimental methods in materials science and nondestructive inspection of materials. Prerequisite: approval of department.

MAE 6291. Special Topics in Mechanical Engineering. 3 Credits.

Selected subjects of current interest. Arranged by consultation between department faculty and students. Typical topics include tribology, power systems design, solar heating systems, HVAC, and plasticity theory. Prerequisite: approval of department.

MAE 6292. Special Topics in Aerospace Engineering. 3 Credits.

Selected subjects of current interest. Arranged by consultation between department faculty and students. Typical topics include environmental noise control, aeroacoustics, hypersonic flow, and flight vehicle aerodynamics. May be repeated for credit. Prerequisite: approval of department.

MAE 6298. Research. 1-6 Credits.

Basic research projects as arranged. May be repeated for credit.

MAE 6998. MS Thesis Research. 3 Credits.**MAE 6999. MS Thesis Research. 3 Credits.****MAE 8350. Advanced Topics in Materials Science. 3 Credits.**

Topics such as surface science that are of current research interest. Selected after consultation between department faculty and students. Prerequisite: approval of department.

MAE 8351. Advanced Topics in Mechanical Engineering. 3 Credits.

Topics such as advanced analytical mechanics, advanced mechanics of continua, and advanced theory of elasticity that are of current research interest. Selected after consultation between department faculty and students. Prerequisite: approval of department.

MAE 8352. Advanced Topics in Aerospace Engineering. 3 Credits.

Topics such as nonsteady flow, physical gas dynamics, turbulence, and nonlinear wave propagation that are of current research interest. Selected after consultation between department faculty and students. Prerequisite: approval of department.

MAE 8998. Advanced Reading & Research. 1-12 Credits.

Limited to students preparing for the Doctor of Philosophy qualifying examination. May be repeated for credit.

MAE 8999. Dissertation Research. 1-12 Credits.

Limited to Doctor of Philosophy candidates. May be repeated for credit.

BACHELOR OF SCIENCE WITH A MAJOR IN MECHANICAL ENGINEERING

Mechanical engineering encompasses a vast range of industrial activities. Mechanical engineers conceive, plan, design, and direct the manufacture, distribution, and operation of complex systems. Applications include aerospace, energy conversion, computer-aided design and manufacturing, power and propulsion systems, robotics, and control systems. The Department of Mechanical and Aerospace Engineering offers the Bachelor of Science in mechanical engineering degree which is accredited by ABET (Accreditation Board for Engineering and Technology).

REQUIREMENTS

Recommended program of study

First semester

CHEM 1111 General Chemistry I *

MAE 1001 Introduction to Mechanical and Aerospace Engineering

MATH 1231 Single-Variable Calculus I *

SEAS 1001 Engineering Orientation

UW 1020 University Writing

Humanities or social sciences elective **

Second semester

MAE 1004 Engineering Drawing and Computer Graphics

MATH 1232 Single-Variable Calculus II *

MATH 2184 Linear Algebra I

PHYS 1021 University Physics I *

Humanities or social sciences elective **

Third semester

APSC 2057 Analytical Mechanics I

APSC 2113 Engineering Analysis I

MAE 2117 Engineering Computations

MATH 2233 Multivariable Calculus *

PHYS 1022 University Physics II *

Fourth semester

APSC 2058 Analytical Mechanics II

CE 2220 Introduction to the Mechanics of Solids

CSCI 1121 Introduction to C Programming

ECE 2110 Circuit Theory

MAE 2131 Thermodynamics

Fifth semester

APSC 3115 Engineering Analysis III

MAE 3126 Fluid Mechanics I

MAE 3166 Materials Science and Enginrg

MAE 3191 Mechanical Design

MAE 3192 Manufacturing Processes and Systems

Humanities or social sciences elective **

Humanities or social sciences elective **

*Course satisfies the university general education requirement in math, science, and writing.

**At least two social and behavioral sciences courses must be selected from the University General Education Requirement list (p. 28); the remaining courses must be selected from either the University General Education Requirement list or the SEAS General Education Requirement list (http://www.seas.gwu.edu/sites/www.seas.gwu.edu/files/downloads/HSS%20Form%20Fall%202015%20Admits%201_0.pdf). At least one humanities course must be selected from the University General Education Requirement list (p. 28); the remaining courses must be selected from either the University General Education Requirement list or the SEAS General Education Requirement list. (http://www.seas.gwu.edu/sites/www.seas.gwu.edu/files/downloads/HSS%20Form%20Fall%202015%20Admits%201_0.pdf)

Humanities and social sciences electives must include PHIL 2135 Ethics in Business and the Professions.

Technical electives are chosen from MAE courses in the 3000, 4000, and 6000 series, excluding:

MAE 3171 Patent Law for Engineers

MAE 4172 Engineering Design and the Patent System

MAE 6298 Research

MAE 6998 & MAE 6999 MS Thesis Research and MS Thesis Research

All technical electives must be approved by the undergraduate advisor. On a case-by-case basis, technical electives may be chosen from other departments if approved by both the undergraduate advisor and the department chair.

Visit the program website (<http://www.mae.seas.gwu.edu/programs-degrees>) for additional information.

BACHELOR OF SCIENCE WITH A MAJOR IN MECHANICAL ENGINEERING, AEROSPACE OPTION

Mechanical engineering encompasses a vast range of industrial activities. Mechanical engineers conceive, plan, design, and direct the manufacture, distribution, and operation of complex systems. Applications include aerospace, energy conversion, computer-aided design and manufacturing, power and propulsion systems, robotics, and control systems.

The aerospace engineering option leads to a bachelor's degree in mechanical engineering while preparing students to work in the aerospace industry or to pursue graduate study in aerospace engineering. It provides a strong foundation in aerodynamics, airplane performance, propulsion, aerospace structures, orbital mechanics, spacecraft dynamics, and aircraft and spacecraft design.

BACHELOR OF SCIENCE WITH A MAJOR IN MECHANICAL ENGINEERING, PATENT LAW OPTION

Mechanical engineering encompasses a vast range of industrial activities. Mechanical engineers conceive, plan, design, and direct the manufacture, distribution, and operation of complex systems. Applications include aerospace, energy conversion, computer-aided design and manufacturing, power and propulsion systems, robotics, and control systems.

The patent law option in mechanical engineering leads to a bachelor's degree in mechanical engineering while providing a strong foundation in fundamental principles of patent law and the influences of the U.S. patent system on modern engineering design. Students in this option obtain backgrounds that can lead to work as a technical specialist in a patent law firm or in the patent department of an industrial employer. The option also provides excellent preparation for pursuit of a subsequent J.D. that may focus on intellectual property law.

BACHELOR OF SCIENCE WITH A MAJOR IN MECHANICAL ENGINEERING, ROBOTICS OPTION

Mechanical engineering encompasses a vast range of industrial activities. Mechanical engineers conceive, plan, design, and direct the manufacture, distribution, and operation of complex systems. Applications include aerospace, energy conversion,

computer-aided design and manufacturing, power and propulsion systems, robotics, and control systems.

The robotics engineering option leads to a bachelor's degree in mechanical engineering while preparing the student to work in the robotics industry or to pursue graduate study in robotics engineering. It provides a strong foundation in robotic mechanisms design, analysis, and integration; kinematics, dynamics, and control of robots; mechatronics design; sensing, actuation, and measurement; microprocessors for robotic systems; robotic haptics; and topics on artificial intelligence.

REQUIREMENTS

Recommended program of study

First semester

CHEM 1111	General Chemistry I *
MAE 1001	Introduction to Mechanical and Aerospace Engineering
MATH 1231	Single-Variable Calculus I *
SEAS 1001	Engineering Orientation
UW 1020	University Writing *

Humanities or social sciences elective **

Second semester

MAE 1004	Engineering Drawing and Computer Graphics
MATH 2184	Linear Algebra I
MATH 1232	Single-Variable Calculus II *
PHYS 1021	University Physics I *

Humanities or social sciences elective **

Third semester

APSC 2057	Analytical Mechanics I
APSC 2113	Engineering Analysis I
MAE 2117	Engineering Computations
MATH 2233	Multivariable Calculus *
PHYS 1022	University Physics II *

Fourth semester

APSC 2058	Analytical Mechanics II
CE 2220	Introduction to the Mechanics of Solids
CSCI 1121	Introduction to C Programming

ECE 2110	Circuit Theory
MAE 2131	Thermodynamics
MAE 3134	Linear System Dynamics

Fifth semester

APSC 3115	Engineering Analysis III
MAE 3126	Fluid Mechanics I
MAE 3166	Materials Science and Enginrg
MAE 3191	Mechanical Design
MAE 3192	Manufacturing Processes and Systems

Sixth semester

ECE 2115	Engineering Electronics
MAE 3120	Methods of Engineering Experimentation
MAE 3167W	Mechanics of Materials Lab
MAE 3184	Robotics Lab
MAE 3187	Heat Transfer
MAE 3193	Mechanical Systems Design
MAE 3197	Robotic Systems Design and Applications

Seventh semester

MAE 4151	Mechanical Engineering Project
MAE 4182	Electromechanical Control System Design
MAE 4183	Controls Lab

Technical elective

Humanities or social sciences electives **

Eighth semester

ECE 3220	Intro to Digital Signal Proces
MAE 4152W	Mechanical Engineering Laboratory
MAE 4194	Mechatronics Design
MAE 4195	Mechatronics Lab
MAE 6245	Robotic Systems

Humanities or social sciences elective **

*Course satisfies the university general education requirement in math, science, and writing.

**At least two social and behavioral sciences courses must be selected from the University General Education Requirement list (p. 28); the remaining course must be selected from either the University General Education Requirement list or the SEAS General Education Requirement list (http://www.seas.gwu.edu/sites/www.seas.gwu.edu/files/downloads/HSS%20Form%20Fall%202015%20Admits%201_0.pdf). At least one humanities course must be selected from the University General Education Requirement list (p. 28); the remaining courses must be selected from either the University General Education Requirement list or the SEAS General Education Requirement list. MASTER OF SCIENCE IN THE FIELD OF MECHANICAL AND AEROSPACE ENGINEERING

The Master of Science in Mechanical and Aerospace Engineering degree program offers a rigorous course of study through which students are prepared for leadership careers in government and industry. Students have the opportunity to work across disciplines in emerging areas of technology. The program is designed to build a solid background on the fundamentals of the related discipline, and at the same time it can be tailored to meet individual needs under the guidance of an academic advisor. Students can tailor their program to meet their interests and goals by choosing from offered focus areas.

Specific admission requirements are shown on the Graduate Program Finder. (<http://www.gwu.edu/all-graduate-programs>)

More information can be found on the departmental website (<http://www.graduate.seas.gwu.edu/programs/mechanical-and-aerospace-engineering/admissions-requirements>).

REQUIREMENTS

The following requirements must be fulfilled: non-thesis option—a minimum of 33 credits, including the required focus area curriculum; thesis option—27 credits, including the required focus area curriculum and 6 credits in thesis research.

Aerospace Engineering

Required

APSC 6212	Analytical Methods in Engineering II
or APSC 6213	Analytical Methods in Engineering III

MAE 6286	Numerical Solution Techniques in Mechanical and Aerospace Engineering
----------	---

One of the following:

MAE 6207 Theory of Elasticity I

MAE 6221 Fluid Mechanics

MAE 6276 Mechanics of Space Flight

Electives

Remaining credits in aeroacoustics, aeronautics, astronautics, propulsion, or space systems elective courses

Design of Mechanical Engineering Systems

Required

MAE 6243 Advanced Mechanical Engineering Design

MAE 6251 Computer-Integrated Manufacturing

MAE 6286 Numerical Solution Techniques in Mechanical and Aerospace Engineering

Electives

Remaining credits in computer-aided design, computer-integrated design and manufacturing, mechanical engineering design, or robotics courses

Fluid Mechanics, Thermal Sciences, and Energy

Required

APSC 6213 Analytical Methods in Engineering III

MAE 6221 Fluid Mechanics

MAE 6286 Numerical Solution Techniques in Mechanical and Aerospace Engineering

Electives

Remaining credits in elective courses

Industrial Engineering

Required

EMSE 6755 Quality Control and Acceptance Sampling

EMSE 6770 Techniques of Risk Analysis and Management

MAE 6201 Intro to Manufacturing

MAE 6252 Projects in Computer-Integrated Design and Manufacturing

One of the following:

MATH 2233 Multivariable Calculus

APSC 3115 Engineering Analysis III

CSCI 1041 Introduction to FORTRAN Programming

CSCI 1121 Introduction to C Programming

CSCI 1131 Introduction to Programming with C

Electives

Remaining credits in elective courses in two approved three-course sequences, one in the Department of Mechanical and Aerospace Engineering, the other in a cooperating department in SEAS

Solid Mechanics and Materials Science

Required

APSC 6213 Analytical Methods in Engineering III

Two of the following:

MAE 6210 Continuum Mechanics

MAE 6238 Biomaterials

MAE 6239 Computational Nanosciences

Electives

Remaining credits in elective courses

Structures and Dynamics

Required

APSC 6213 Analytical Methods in Engineering III

MAE 6207 Theory of Elasticity I

MAE 6286 Numerical Solution Techniques in Mechanical and Aerospace Engineering

Electives

Remaining credits in elective courses

Robotics, Mechatronics, and Controls

Required

MAE 6245 Robotic Systems

MAE 6246 Electromechanical Control Systems

One of the following:

MAE 6240 Kinematic Synthesis

MAE 6242	Advanced Mechanisms
MAE 6243	Advanced Mechanical Engineering Design

Electives

Remaining credits in elective courses

CERTIFICATE IN COMPUTER- INTEGRATED DESIGN IN MECHANICAL AND AEROSPACE ENGINEERING

REQUIREMENTS

Required:

MAE 6287	Applied Finite Element Methods
MAE 6246	Electromechanical Control Systems
MAE 6220	Applied Computational Fluid Dynamics
MAE 6243	Advanced Mechanical Engineering Design

GRADUATE SCHOOL OF EDUCATION AND HUMAN DEVELOPMENT

Dean M.J. Feuer

Senior Associate Dean C.A. Kochhar-Bryant

Associate Dean for Research and External Relations M.B. Freund

Administrative Dean and Chief of Operations P.H. Stevenson

Assistant Dean of Academic Services R. Jakeman

The Graduate School of Education and Human Development is the administrative unit for the departments of Counseling and Human Development, Curriculum and Pedagogy, Educational Leadership, Human and Organizational Learning, and Special Education and Disability Studies. The School offers the Master of Arts in Education and Human Development, Master of Arts in Teaching, Master of Education, Education Specialist, Doctor of Education, and Doctor of Philosophy in the field of counseling degrees. Many of the master's programs are offered in numerous fields of study.

In addition to its degree programs, the School offers graduate certificate programs; credit and noncredit workshops designed to meet the unique needs of metropolitan area school systems and other clientele in industry and government; and a wide range of courses for teachers who wish to pursue advanced studies and additional endorsements and for provisional teachers who wish to prepare for teaching certificates.

All programs are designed to meet the broad needs of individuals who seek the knowledge and skills necessary to provide effective learning and teaching, research, services, and leadership in a variety of settings that cover the entire life span. Special curricula are individually tailored for liberal arts graduates and graduates of other professional schools who are interested in teaching or in other human services areas.

Clinical facilities are provided by the Community Counseling Service Center, which supports counseling internships as well as outreach services to the community. The Office of Professional Preparation and Accreditation supports liaison with schools for clinical experiences required for educator licensure. Field and internship experiences required in master's and doctoral programs are provided in cooperation with public and private schools, social and health agencies, museums, institutions in the business community, institutions of higher education, nonprofit and professional associations, and the federal government. Some program and courses are also offered at off-campus locations or via distance learning.

The Graduate School of Education and Human Development is accredited by the District of Columbia Office of the State Superintendent of Education (DC-OSSE) and the National Council for the Accreditation of Teacher Education/Council for the Accreditation of Educator Preparation (NCATE/CAEP). Programs that prepare students to become eligible for

licensure/certification as teachers and other school personnel are state-approved by the DC-OSSE.

Mission Statement

The Graduate School of Education and Human Development, strategically based in the nation's capital and serving the global community, develops informed and skilled leaders through innovative teaching and learning. Students engage in scholarly inquiry that links policy, research, and practice across the lifespan and fosters continuous self-examination and critical analysis towards excellence.

Bridging Concepts

The following bridging concepts are central to the unified conceptual framework of the School and weave through the mission, goals, and initiatives of its strategic plan.

- Research and scholarship are prerequisite to the improvement of educational practice.
- Leadership is critical in the transformation of education and human service at all levels.
- Building reflective practitioners through integration of theory and practice must be a focus of all programs.
- A community of diverse learners is prerequisite to success in the education and human service professions.

REGULATIONS

Admissions Requirements for the Master of Education, the Master of Arts in Education and Human Development, and the Master of Arts in Teaching

The Graduate School of Education and Human Development seeks applicants with strong academic potential, high motivation, and aptitude to do graduate-level work. Admission decisions are based on an evaluation of all material submitted in support of the application. The School requires a bachelor's degree from a regionally accredited institution, official transcripts of all previous undergraduate and graduate course work, and acceptable test scores on either the Graduate Record Examination or the Miller Analogies Test in some programs. In the field of education policy studies, only the GRE is acceptable.

Two letters of recommendation and a statement of purpose are required. Most programs also require an interview with program faculty. The interview may be waived with permission of the lead faculty of the desired program for those living outside the Washington metropolitan area. In addition to these basic requirements, individual programs may require relevant professional experience and other supporting documentation before a final decision on admission is made.

Advanced Standing

Advanced standing is granted for approved courses taken at other regionally accredited institutions, but a minimum of 24

credit hours must be completed in the Graduate School of Education and Human Development as a master's candidate. A maximum of 12 credit hours taken in nondegree status may be credited toward the master's degree. Advanced standing is not granted for work completed five or more years before application for admission or readmission to master's candidacy. All work accepted for advanced standing must have been earned with a grade of *B* or better and must be approved for acceptance by both the advisor and the dean. *Credit*, *Satisfactory*, *Audit*, or other nonletter grades are not acceptable.

Plan of Study

The plan of study leading to the degree of Master of Arts in Education and Human Development varies by degree, but requires a minimum of 30 hours of graduate credit. Programs include EDUC 6114 Introduction to Quantitative Research, or EDUC 6116 Introduction to Educational Statistics, or EDUC 6112 Foundations of Assessment, Testing, and Measurement in Education to satisfy the research requirements. Several programs have additional credit hour requirements.

All degree requirements must be completed within 6 years, whether study is full time or part time. An additional (or 7th) year is allowed in the case of a student who breaks enrollment and is subsequently readmitted.

Thesis Option

Students in select programs may elect a theses option. The choice of the thesis subject must be approved in writing by the student's advisor and filed in the office of the dean. All theses must be submitted electronically and meet the formatting and other requirements set forth online at www.gwu.edu/~etds. Payment of tuition for the thesis course entitles the candidate, during the period of registration, to the advice and direction of the member of the faculty under whom the theses is to be written. In case a thesis is unfinished, additional time may be granted. The student must, however, be enrolled continuously in the program.

Grades

Information on grades and computing the grade-point average is found under University Regulations (p. 19).

The symbol *I* (Incomplete) indicates that a satisfactory explanation has been given the instructor for the student's inability to complete the required work of the course during the semester of enrollment. The work must be completed within the designated time period agreed upon by the instructor, student, and school, but no more than one calendar year from the end of the semester in which the course was taken. All students who receive an Incomplete must maintain active student status during the subsequent semester(s) in which the work of the course is being completed. If not registered in other classes during this period, the student must register for Continuous Enrollment status.

When work for the course is completed, the instructor will complete a grade change form and turn it in to the Office of the Registrar. Beginning with the fall 2014 semester, the final grade will replace the symbol of *I*. If work for the course is not completed within the designated time, the grade will be converted automatically to a grade of *F*, Failure, 0 quality points, and the grade-point average and academic standing recalculated. See University Regulations for full details.

Scholarship

A grade-point average of 3.0 is required for graduation. Students who receive a grade of *C* in more than 6 credit hours are subject to suspension. Students who receive a grade of *F* must confer with the academic advisor before enrollment for further course work is allowed. More detailed information for doctoral students can be found in the Doctoral Student Handbook.

Master's Comprehensive Examination

A comprehensive examination is required for some programs. Candidates who plan to take the examination must file a written application in the Office of Student Life of the Graduate School of Education and Human Development by the published deadline.

Second Master's Degree

Persons seeking a second master's degree in the Graduate School of Education and Human Development must complete all core and specialization requirements and a minimum residency requirement of 24 credit hours.

Continuous Enrollment and Residency

Students must be continuously enrolled in GSEHD unless the Dean's Office grants a leave of absence. Failure to register each semester of the academic year will result in lapse of candidacy. Subsequent readmission is subject to whatever new conditions and regulations have been established by the School. See Continuous Enrollment Status under University Regulations.

When master's degree candidates are sitting for a comprehensive examination and are not otherwise enrolled in course work, they may prepare for and sit for the exam in continuous enrollment status. All doctoral and education specialist students and those master's students who elect to take an additional semester to prepare for the examination or who must retake the examination are required to sign up for the examination preparation course, which carries a fee equivalent to 1 credit hour of tuition. See Master's Comprehensive Examination, below.

Leave of Absence

Students who, for personal reasons, are temporarily unable to continue their program of studies may request a leave of absence for a specific period of time not to exceed one calendar year during the total period of degree candidacy. If the request is approved, the student must register for leave of absence each semester. If a student fails to register,

degree candidacy is terminated. Students who need additional semesters of leave of absence must seek approval from the appropriate appeals committee.

Class Attendance Policy

Attending class and scheduled make-up classes, discussions, and other course meetings is a fundamental student responsibility. Faculty may use class attendance and participation as factors in determining course grades.

PRAXIS® Teacher Assessments

All degree programs preparing students for initial teacher licensure require completion of the Educational Testing Service PRAXIS® teacher assessments as specified by the Office of the State Superintendent of Education of the District of Columbia.

MASTER'S

Teacher Certification Preparation Programs

Programs are available to prepare students for teacher licensure in elementary, secondary, and special education through the Master of Arts in Education and Human Development, Master of Education, and Education Specialist degree programs. Students who plan to prepare for licensure must apply to the appropriate degree program. These degree programs are also available to credentialed teachers seeking additional endorsements.

In accordance with the 2008 Higher Education Opportunity Act, Title II, Section 205, The George Washington University Graduate School of Education and Human Development provides required information in response to any request by potential applicants, guidance counselors, and prospective employers. An information sheet can be viewed at the school's website (<http://gsehd.gwu.edu>).

Master of Arts in Teaching

- Master of Arts in Teaching in the field of museum education (p. 1112)

Master of Education

- Master of Education in the field of elementary education (p. 1109)
- Master of Education in the field of secondary education (p. 1115)

Master of Arts in Education and Human Development

- Master of Arts in Education and Human Development individualized program (p. 1111)
- Master of Arts in Education and Human Development in the field of assessment, testing, and measurement in education (p. 1103)

- Master of Arts in Education and Human Development in the field of clinical mental health counseling (p. 1103)
- Master of Arts in Education and Human Development in the field of curriculum and instruction (p. 1104)
- Master of Arts in Education and Human Development in the field of curriculum and instruction, concentration in elementary education (p. 1104)
- Master of Arts in Education and Human Development in the field of curriculum and instruction, concentration in interdisciplinary studies of literacy and reading education (p. 1105)
- Master of Arts in Education and Human Development in the field of curriculum and instruction, concentration in secondary education (p. 1105)
- Master of Arts in Education and Human Development in the field of early childhood special education (p. 1106)
- Master of Arts in Education and Human Development in the field of educational leadership and administration (p. 1108)
- Master of Arts in Education and Human Development in the field of education policy studies (p. 1107)
- Master of Arts in Education and Human Development in the field of educational technology leadership (p. 1108)
- Master of Arts in Education and Human Development in the field of experiential education and Jewish cultural arts (p. 1109)
- Master of Arts in Education and Human Development in the field of higher education administration (p. 1110)
- Master of Arts in Education and Human Development in the field of international education (p. 1111)
- Master of Arts in Education and Human Development in the field of organizational leadership and learning (p. 1112)
- Master of Arts in Education and Human Development in the field of rehabilitation counseling (p. 1113)
- Master of Arts in Education and Human Development in the field of school counseling (p. 1114)
- Master of Arts in Education and Human Development in the field of secondary special education and transition services (p. 1116)
- Master of Arts in Education and Human Development in the field of special education for children with emotional and behavioral disabilities (p. 1118)
- Master of Arts in Education and Human Development in the field of special education for culturally and linguistically diverse learners

Joint Program

- Master of Arts in Education and Human Development in the field of Educational Policy and Juris Doctor (<http://bulletin.gwu.edu/education-human-development/masters-program/education-human-development-education-policy-studies-jd>)

EDUCATION SPECIALIST

The Degree of Education Specialist

The program of advanced study leading to the degree of Education Specialist is for students with a master's degree in education who seek further professional preparation for specific objectives. The program is available in the fields of educational leadership and administration, counseling, curriculum and instruction, higher education administration, human and organizational learning, and special education.

Admission Requirements

The following are required for entrance to an Education Specialist program: an undergraduate degree and a Master of Arts in Education and Human Development or its equivalent from a regionally accredited institution, two years of pertinent experience in an education or human development field, and a graduate scholastic average of at least 3.3 and, in some programs, an acceptable score on either the Graduate Record Examination or Miller Analogies Test. Two letters of recommendation, one from a professional supervisor and one from the most recent graduate faculty advisor, are required, along with a statement of professional goals. Each applicant must be interviewed and recommended by a faculty advisor in the major field.

Programs of Study and Degree Requirements

Individual programs are developed, through a plan of study worked out with a faculty advisor, to fit the candidate's skills, interests, and career goals. A minimum of 30 credits beyond the requirements of the degree of Master of Arts in Education and Human Development is required. At least 21 credits of this work must be taken in residence at GW. A maximum of five calendar years is allowed for completion of the program.

At least 12 of the required 30 credits must be in appropriate graduate courses in education selected from the following areas: (1) foundations and cognate study, (2) background and general principles of the field of study, and (3) an area of specialization. A graduate-level research methods course must be included in the program if it was not completed in previous graduate work.

The Comprehensive Examination

Successful completion of a six-hour written or oral examination or its equivalent, at the option of the major field advisor, is required. Candidates taking the examination must be registered for at least 1 credit in the semester it is to be taken and submit an online comprehensive examination application by the published deadline.

Education Specialist Programs

- Education Specialist in the field of educational leadership and administration (p. 1120)
- (p. 1120)

DOCTORAL

The Degree of Doctor of Education

The Graduate School of Education and Human Development offers programs of advanced study leading to the degree of Doctor of Education (EdD). These programs provide major fields of study in curriculum and instruction, special education, educational administration and policy studies, human and organizational learning, and higher education administration. Supporting fields are available in educational administration, higher education administration, counseling, curriculum and instruction, education policy, elementary education, human development, human and organizational learning, international education, program evaluation, secondary education, special education, supervision, and teacher education. With the approval of a student's program planning committee, course work may be taken in other departments of the University and through the Consortium. All programs require study of interrelated areas of education and a doctoral dissertation in the major field of study.

All doctoral programs are designed to accommodate the needs of full-time students as well as working professionals who must pursue their studies on a part-time basis. Required graduate courses, with few exceptions, are offered in the late afternoon and evening. In some programs, selected courses may be taken at off-campus locations.

Admission Requirements

The applicant must have adequate preparation for advanced study, including the undergraduate degree and graduate work from a regionally accredited institution in the fields prerequisite to his or her objective and comparable to that required for the degree of Master of Arts in Education and Human Development at this University. Students with a master's degree in a field other than education may be considered for doctoral study provided that the degree and previous experience are judged relevant by the major field program faculty.

For an application to be considered by the major field program faculty, an applicant must have a minimum graduate scholastic average of 3.3 on a scale of 4.0 and an acceptable score on the Miller Analogies Test or Graduate Record Examination. In the field of human organizational learning, the Graduate Management Admissions Test is acceptable as well. Programs often set higher admissions standards, and the number of new doctoral students in each program is limited. All applicants must have an interview with faculty members in the major field. Students receiving favorable recommendations from the major field faculty are admitted to precandidacy for the degree.

Precandidacy and Candidacy

The Doctor of Education program is divided into two states: precandidacy and candidacy. In general, the degree program requires three or more years of full-time study beyond the master's degree or the equivalent in part-time study. Course

work and the comprehensive examination must be completed within five years, and the entire program must be completed within eight years. The minimum residency requirement in degree status for the EdD is 36 credits of course work in the precandidacy stage and 12 to 24 credits of dissertation research in the candidacy stage. In most cases, course work beyond the minimum is required.

In the precandidacy stage, all course work in the program must be completed and the comprehensive examination passed. Course work toward the doctorate is established on the basis of a framework of seven domains: knowledge of foundations; critical literature review; research methods; clarity of thought, as expressed both in speech and in writing; professional development; technological skills; and depth of knowledge of the specialty area. A program plan of study is developed between the doctoral student and a doctoral study advising team, generally consisting of two members of the program faculty.

The comprehensive examination is generally a two-day examination held each semester and taken upon completion of all course work (Pre-Dissertation Seminar may be excepted). Students taking the examination must be registered for at least 1 credit in the semester it is to be taken and must file an online application in the dean's office by the published deadline. Programs may have specific comprehensive exam requirements.

The candidacy stage of doctoral study begins after successful completion of the content course work *and* the comprehensive examination. A doctoral research dissertation committee is established and the candidate develops a dissertation proposal (this may be while registered in Pre-Dissertation Seminar). Upon successful completion of course work listed on the approved program plan of study, students must register for dissertation research at the rate of 3 or 6 credits each fall and spring semester. A minimum of 12 dissertation research credits are required for graduation. Students who have not defended their dissertation after 12 credits continue to register at the rate of 3 or 6 credits until they have reached 24 credits of dissertation research. Once they have reached their 24 credit maximum, they must register each subsequent fall and spring semester for 1 credit of Continuing Research until completion of their degree program with the successful defense of the dissertation to the Dissertation Oral Examination Committee. The accepted dissertation is submitted electronically, with a processing fee paid directly to Proquest/UMI.

Detailed information on the EdD program and its administration is available in the GSEHD Doctoral Student Handbook (<http://gsehd.gwu.edu/sites/default/files/2014%20-%202015%20Doctoral%20Handbook.pdf>). Students completing their degree program should refer to the section on Graduation Requirements, Participating in the Commencement Ceremony, under University Regulations.

The Degree of Doctor of Philosophy in the Field of Counseling

A Ph.D. in the field of counseling is accredited by the Council for Accreditation of Counseling and Related Educational Programs.

Doctoral programs

- Doctor of Education in the field of curriculum and instruction (p. 1122)
- Doctor of Education in the field of educational administration and policy studies (p. 1123)
- Doctor of Education in the field of higher education administration (p. 1125)
- Doctor of Education in the field of human and organizational learning (p. 1125)
- Doctor of Education in the field of special education (p. 1127)
- Doctor of Philosophy in the field of counseling (p. 1128)

CERTIFICATES

The Graduate School of Education and Human Development offers the following graduate certificate programs. Graduate certificates do not constitute eligibility for an initial license or assure admission to a subsequent degree program. Courses taken as part of a certificate program may be applied toward advanced credentials or endorsements added to an initial license.

- Assessment, Testing, and Measurement in Education (p. 1129)
- Autism Spectrum Disorders
- Brain Injury: Educational and Transition Services
- Counseling and Life Transitions
- Design and Assessment of Adult Learning
- Educational Leadership and Administration
- E-Learning
- Global Leadership in Teams and Organizations
- Incorporating International Perspectives in Education (p. 1130)
- Instructional Design
- Integrating Technology into Education (p. 1130)
- Job Development and Placement
- Leadership Development
- Leadership in Educational Technology
- Multimedia Development
- Organizational Learning and Change
- Professional Teaching Standards
- Reading and Literacy
- Secondary Special Education and Transition Services
- Special Education for Culturally and Linguistically Diverse Learners

- STEM Master Teacher (p. 1130)
- Teaching English Language Learners
- Training and Educational Technology

COURSES

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000-4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office
- Counseling (CNSL) (p. 1538)
- Curriculum and Pedagogy (CPED) (p. 1541)
- Education (EDUC) (p. 1554)
- Human and Organizational Learning (HOL) (p. 1637)
- Special Education (SPED) (p. 1819)

MASTER'S PROGRAMS

Teacher Certification Preparation Programs

Programs are available to prepare students for teacher licensure in elementary, secondary, and special education through the Master of Arts in Education and Human Development, Master of Education, and Education Specialist degree programs. Students who plan to prepare for licensure must apply to the appropriate degree program. These degree programs are also available to credentialed teachers seeking additional endorsements.

In accordance with the 2008 Higher Education Opportunity Act, Title II, Section 205, The George Washington University Graduate School of Education and Human Development provides required information in response to any request by potential applicants, guidance counselors, and prospective employers. An information sheet can be viewed at the school's website (<http://gsehd.gwu.edu>).

Master of Arts in Teaching

MASTER OF ARTS IN EDUCATION AND HUMAN DEVELOPMENT IN THE FIELD OF ASSESSMENT, TESTING AND MEASUREMENT IN EDUCATION

The M.A.Ed.&H.D. in the field of assessment, testing, and measurement (ATM) in education program is designed for individuals who are entering or advancing in positions associated with assessment, testing, and measurement in diverse settings. This specialized field combines the study of human behavior with statistical analysis, testing theory, educational measurement, and evaluation. ATM is the science of measuring educational factors such as learning, preference, aptitude, and personality. ATM specialists (commonly called psychometricians) design tests that collect empirical data and quantify the personal characteristics of individuals, comparing those results within or across populations. In addition to creating assessment instruments, some psychometricians also govern the tests and analyze the results.

Specific admission requirements are shown on the Graduate Program Finder. (<http://www.gwu.edu/all-graduate-programs>)

Visit the program website (<http://gsehd.gwu.edu/programs/assessment-testing-and-measurement-education>) for additional information.

REQUIREMENTS

The following requirements must be fulfilled: 30 credits, including 24 credits in required courses and 6 credits in electives, and completion of a written qualifying examination.

Required

EDUC 6112 Foundations of Assessment, Testing, and Measurement in Education

EDUC 8120 Group Comparison Designs and Analyses

EDUC 8170 Educational Measurement

EDUC 8171 Predictive Designs and Analyses

EDUC 8175 Item Response Theory

EDUC 8177 Assessment Engineering

EDUC 8179 Capstone Project in Assessment, Testing, and Measurement in Education

Elective

6 credits in approved electives

Elective courses should be selected in consultation with the program advisor.

A written qualifying exam (administered during the early spring semester by an ATM committee).

MASTER OF ARTS IN EDUCATION AND HUMAN DEVELOPMENT IN THE FIELD OF CLINICAL MENTAL HEALTH COUNSELING

The M.A.Ed.&H.D. in the field of mental health counseling program prepares graduates to enter the counseling profession in a variety of human service settings, including welfare and other social service agencies, mental health centers, penal institutions, court systems, employment centers, allied health agencies, government service agencies, community college counseling centers, employee assistance programs, and private practice. A subspecialty in employee assistance counseling is available to prepare counselors for business, industry, and government settings. The program is accredited by the Council for Accreditation of Counseling and Related Educational Programs (CACREP).

Specific admission requirements are shown on the Graduate Program Finder. (<http://www.gwu.edu/all-graduate-programs>)

Visit the program website (<http://gsehd.gwu.edu/programs/clinical-mental-health-counseling>) for additional information.

REQUIREMENTS

The following requirements must be fulfilled: 60 credits, including 54 credits in required courses and 6 credits in elective courses, and completion of 600 hours in internships and 100 hours in a practicum.

Required

EDUC 6114 Introduction to Quantitative Research

Elective courses should be selected in consultation with the program advisor

MASTER OF ARTS IN EDUCATION AND HUMAN DEVELOPMENT IN THE FIELD OF CURRICULUM AND INSTRUCTION

This program prepares teachers and other educational personnel for increased responsibilities in the planning, implementation, research, and evaluation of curriculum and instruction. The minimum 30-credit program includes study in curriculum development, research and evaluation of instructional practice, teacher education, work with special populations, and school policy and leadership. Students must select from one of the following program specialty concentrations:

- Concentration in elementary education (p. 1104)
- Concentration in interdisciplinary studies of literacy and reading education (p. 1105)
- Concentration in secondary education (p. 1105)

Specific admission requirements are shown on the Graduate Program Finder. (<http://www.gwu.edu/all-graduate-programs>)

MASTER OF ARTS IN EDUCATION AND HUMAN DEVELOPMENT IN THE FIELD OF CURRICULUM AND INSTRUCTION WITH A CONCENTRATION IN ELEMENTARY EDUCATION

The M.A.Ed.&H.D. in the field of curriculum and instruction with a concentration in elementary education program prepares teachers and other educational personnel for increased responsibilities in the planning, implementation, research, and evaluation of curriculum and instruction. The program includes study in curriculum development, research and evaluation of instructional practice, teacher education, work with special populations, and school policy and leadership. A program specialty concentration may include reading and literacy, elementary education, or secondary education.

Students enrolled in the Master's in Curriculum and Instruction program can do so concurrently with the Incorporating International Perspectives in Education certificate. Courses can be double counted toward earning the master's degree and certificate.

Specific admission requirements are shown on the Graduate Program Finder. (<http://www.gwu.edu/all-graduate-programs>)

Visit the program website (<http://bulletin.gwu.edu/education-human-development/masters-program/education-human-development-curriculum-instruction/elementary-education/Master%20of%20Arts%20in%20Education%20and%20Human%20Development%20in%20the%20Field%20of%20Curriculum%20and%20Instruction%20with%20a%20Concentration%20in%20Elementary%20Education>) for additional information.

REQUIREMENTS

CPED 6370	Perspectives and Research in Teaching Mathematics
CPED 6239	Practicum in Curriculum and Instruction

The remaining credits should be selected in consultation with the departmental advisor

Master of Arts in Education and Human Development comprehensive exam required

MASTER OF ARTS IN EDUCATION AND HUMAN DEVELOPMENT IN THE FIELD OF EARLY CHILDHOOD SPECIAL EDUCATION

The M.A.Ed.&H.D. in the field of early childhood special education offers students the opportunity to train in age-related subspecialties of preprimary, birth to age five, or primary school age, or K - grade 3. The program is approved by the National Association for the Education of Young Children (NAEYC) and the Division of Early Childhood (DEC) of

the Council for Exceptional Children. Students gain knowledge and skills in the specific content areas recommended by NAEYC and DEC: child development and learning; curriculum development and implementation; routine-based intervention in natural environments; family-centered services delivery models; child assessment, evaluation, and progress monitoring; cultural, linguistic, and economic diversity; and field-based practicum and internships.

REQUIREMENTS

The following requirements must be fulfilled: for the regular degree—39 credits, including the required core courses and general courses; or, for the degree with an optional concentration in infant special education—42 credits, including the required core courses and infant special education courses. In both cases, completion of the Master of Arts in Education and Human Development comprehensive examination, and completion of the relevant teacher licensure assessments (see below) are required.

Core

EDUC 6114	Introduction to Quantitative Research
SPED 6222	Legal Issues and Public Policy for Individuals With Disabilities
SPED 6240	Family Support and Guidance in Special Education
or SPED 6100	Selected Topics
SPED 6261	Practicum: Methods and Materials for Young Children with Disabilities
SPED 6266	The Development of Language and Literacy
SPED 6268	Development of Children and Youth with Disabilities
SPED 6269	Etiology, Symptomatology, and Approaches to Intervention with Children with Disabilities
SPED 6290	Affective Development and Behavior Management in Special Education

Students may choose to complete the regular degree with the following four courses or to complete the degree with the optional concentration in infant special education, below.

CPED 6622	Foundations of Reading Development
SPED 6260	Developmental Assessment in Special Education
SPED 6262	Formal Assessment of Young Children with Disabilities

SPED 6993 Internship: Teaching Young Children with Disabilities (taken for six credits)

Master of Arts in Education and Human Development comprehensive exam required

Completion of the relevant teacher licensure assessments (i.e., PRAXIS) required by the District of Columbia Educator Licensure Services Office

Infant special education concentration option courses

CPED 6221 Developmental Reading: Emergent Literacy

SPED 6242 Neurodevelopmental Assessment and Programming for Infants and Toddlers with Disabilities

SPED 6243 Developmental Assessment of Infants

SPED 6267 Instructional and Assistive Technology in Early Childhood Special Education

SPED 6994 Internship: Early Intervention (taken for six credits)

Completion of the relevant teacher licensure assessments (i.e., PRAXIS) required by the District of Columbia Educator Licensure Services Office

MASTER OF ARTS IN EDUCATION AND HUMAN DEVELOPMENT IN THE FIELD OF EDUCATION POLICY STUDIES

The M.A.Ed.&H.D in the field of education policy studies program helps students develop skills in analyzing problems and policies related to education policy issues at the national, state, and local levels, and in the K-12 and higher education sectors. Emphasis is placed on developing an understanding of the political, economic, and social environments affecting education policy and on the competencies needed to develop policy options, analyze their potential, select the most promising, implement policies effectively, and evaluate their impact. Internships are possible in a variety of federal, state, and local agencies. Topics covered in this field include school reform, urban education problems, student achievement, school finance and its equity, teacher quality and effectiveness, equal opportunity, access to higher education, and accountability. Elective credits are used to develop expertise and skills in a substantial area of education policy.

Specific admission requirements are shown on the Graduate Program Finder. (<http://www.gwu.edu/all-graduate-programs>)

Visit the program website (<http://gsehd.gwu.edu/programs/education-policy-studies>) for additional information.

MASTER OF ARTS IN EDUCATION AND HUMAN DEVELOPMENT IN THE FIELD OF EDUCATIONAL LEADERSHIP AND ADMINISTRATION

Offered in both classroom and distance learning formats, the M.A.Ed.&H.D in the field of educational leadership and administration program prepares students for various school-based and central office leadership positions, supervisory positions, and increased responsibility in teaching. The program is designed to prepare graduates for advanced levels of professional responsibility in diverse educational communities and to increase their technical, conceptual, political, and leadership skills. Emphasis is on leadership and management, change, communication, organizational learning, administrative and legal issues, human relations, human resource development, general supervisory principles and responsibilities, and supervision of instruction.

The program includes courses and field experiences designed to meet administrative certification requirements in the District of Columbia, Maryland, Virginia, North Carolina, and other states that honor interstate compact agreements.

Specific admission requirements are shown on the Graduate Program Finder. (<http://www.gwu.edu/all-graduate-programs>)

Visit the program website (<http://gsehd.gwu.edu/programs/educational-leadership-administration-0>) for additional information.

MASTER OF ARTS IN EDUCATION AND HUMAN DEVELOPMENT IN THE FIELD OF EDUCATIONAL TECHNOLOGY LEADERSHIP

The M.A.Ed.&H.D in the field of education and human development in the field of educational technology leadership is designed for individuals who are entering or advancing in positions associated with schools, higher education, alternative educational settings, or other human service occupations in which computers and related information delivery technologies are used. The program of study is delivered online and provides students with opportunities to develop the knowledge, understanding, and skills necessary to provide leadership in the rapidly changing environment of technology in education.

This pioneering program is delivered in an interactive distance learning format to students around the world. The required curriculum covers the theory and practice of educational technology, including the use of computers and other instructional technology systems, technological management systems, policy making, research methods, and leadership.

Specific admission requirements are shown on the Graduate Program Finder. (<http://www.gwu.edu/all-graduate-programs>)

Visit the program website (<http://gsehd.gwu.edu/programs/educational-technology-leadership>) for additional information.

Methodology

MASTER OF ARTS IN EDUCATION AND HUMAN DEVELOPMENT IN THE FIELD OF EXPERIENTIAL EDUCATION AND JEWISH CULTURAL ARTS

The Graduate School of Education and Human Development, in concert with the Columbian College of Arts and Sciences, offers an interdisciplinary, two-year program in experiential education and Jewish cultural arts. The program is designed to prepare graduates for leadership in Jewish cultural programming in museums and historic sites, arts organizations and festivals, community centers and campus associations, cultural diplomacy and heritage tourism, as well as private and public educational institutions.

Students more specifically interested in museum education should refer to the M.A. in teaching, museum education program (<http://gsehd.gwu.edu/programs/museum-education>). Those interested in museum studies more generally should refer to the M.A. in the field of museum studies program (<http://bulletin.gwu.edu/arts-sciences/museum-studies>) in Columbian College.

Specific admission requirements are shown on the Graduate Program Finder. (<http://www.gwu.edu/all-graduate-programs>)

Visit the program website (<http://gsehd.gwu.edu/programs/experiential-education-jewish-cultural-arts>) for additional information.

REQUIREMENTS

The following requirements must be fulfilled: 30 credits in required courses.

Required

EDUC 6100	Experimental Courses (Mosaic: The Institute I (taken for 1 credit))
EDUC 6100	Experimental Courses (Mosaic: The Institute II (taken for 2 credits))
EDUC 6100	Experimental Courses (An Introduction to Experiential Jewish Education (taken for 6 credits))

EDUC 6100	Experimental Courses (Capstone Fellows Program (taken for 3 credits))

Mosaic Workshop (credits earned in Mosaic: The Institute II)

MASTER OF ARTS IN EDUCATION AND HUMAN DEVELOPMENT IN THE FIELD OF HIGHER EDUCATION ADMINISTRATION

The M.A.Ed.&H.D in the field of higher education administration program is designed to provide students with the skills and knowledge for successful work in entry- and mid-career professional positions in institutions of higher education, associations, national and international government agencies, and other related organizations. Students may select a concentration in general administration, student affairs administration, higher education policy and finance, and international education. The program of study includes an introduction to higher education administration, research

design and analysis, the concentration (in-depth focus on a particular aspect of higher education and its administration), application electives (including internships and practicums), and leadership integration.

Specific admission requirements are shown on the Graduate Program Finder. (<http://www.gwu.edu/all-graduate-programs>)

Visit the program website (<http://gsehd.gwu.edu/programs/higher-education-administration-0>) for additional information.

REQUIREMENTS

The following requirements must be fulfilled: 30 credits, including 12 credits in required core courses, 12 to 15 credits in one concentration, and 3 to 6 credits in elective courses.

Higher education administration core courses:

EDUC 6112 Foundations of Assessment, Testing, and Measurement in Education

EDUC 6500 Intro Stu Aff & Higher Ed

EDUC 6510 Administration of Higher Education

EDUC 6585 Master's Internship in Higher Education Administration

General administration concentration:

EDUC 6540 Group and Organizational Theories

EDUC 6560 Legal Problems in Higher Education

EDUC 6555 Higher Education Policy

or EDUC 6565 Financing Higher Education

EDUC 8560 Case Studies in Higher Education Administration

Electives

6 credits in elective courses to be selected in consultation with the advisor.

Higher education policy and finance concentration:

EDUC 6555 Higher Education Policy

EDUC 6565 Financing Higher Education

EDUC 6560 Legal Problems in Higher Education

EDUC 8540 History of Higher Ed

Electives

6 credits in elective courses to be selected in consultation with the advisor.

International education concentration:

EDUC 6602	Regional Studies in International Education
or EDUC 6615	Internationalizing U.S. Schools
or EDUC 6630	International Experiences
EDUC 6610	Programs and Policies in International Education
EDUC 6620	Strategies and Analysis in International Education
EDUC 8560	Case Studies in Higher Education Administration

Electives

6 credits in elective courses to be selected in consultation with the advisor.

Student affairs administration concentration:

EDUC 6520	Foundations of College Student Development
EDUC 6525	Managing College Student Services Programs
EDUC 6530	Intercultural Campus Ldrshp
EDUC 6540	Group and Organizational Theories
EDUC 6585	Master's Internship in Higher Education Administration

Electives

3 credits in elective courses to be selected in consultation with the advisor.

MASTER OF ARTS IN EDUCATION AND HUMAN DEVELOPMENT - INDIVIDUALIZED PROGRAM

The M.A.Ed.&H.D. individualized program provides students with an opportunity to develop a program of study that cuts across existing fields, both within the Graduate School of Education and Human Development and between the School and other schools and departments of the University and the Consortium. It is designed to meet specific career and professional objectives of applicants who have unique needs. The flexible program structure can be tailored to prepare for new and emerging fields in education and human

development. This program is available within or across the five departments of the Graduate School of Education and Human Development.

Specific admission requirements are shown on the Graduate Program Finder (<http://www.gwu.edu/all-graduate-programs>).

REQUIREMENTS

The following requirements must be fulfilled: 30 credits distributed as outlined below:

12 credits of core foundation curriculum courses in human development, social/historical/philosophical foundations in education, and curriculum

12 credits of courses that meet student's program goals and objectives

Minimum of 6 credits of fieldwork or the equivalent

All work toward the degree must be specified at the time the initial program is developed.

MASTER OF ARTS IN EDUCATION AND HUMAN DEVELOPMENT IN THE FIELD OF INTERNATIONAL EDUCATION

The M.A.Ed.&H.D in the field of international education program is designed for individuals who are entering or advancing in positions associated with training, education, adult learning, and development activities in diverse settings that require international understanding. Students acquire knowledge of other countries and cultures, using the education system as a means of interpreting and translating knowledge across cultures, and analysis of the formal and non-formal school systems as they reflect history, culture, development, values, contemporary concerns, and future trends. In addition, students acquire tools, methods, and habits of analysis that enable them to play a variety of roles as leaders and change agents.

Students in this program can also enroll in and receive a graduate certificate in incorporating international perspectives in education.

Specific admission requirements are shown on the Graduate Program Finder. (<http://www.gwu.edu/all-graduate-programs>)

Visit the program website (<http://gsehd.gwu.edu/programs/international-education>) for additional information.

REQUIREMENTS

Required: 36 credits, including 18 credits in required courses, 9 credits in courses in a specialization, and 9 credits in elective courses.

Required

EDUC 6114	Introduction to Quantitative Research
or EDUC 6116	Introduction to Educational Statistics

And five of the following:

EDUC 6601	International and Comparative Education
EDUC 6602	Regional Studies in International Education
EDUC 6610	Programs and Policies in International Education
EDUC 6615	Internationalizing U.S. Schools
EDUC 6620	Strategies and Analysis in International Education
EDUC 6630	International Experiences
EDUC 6660	Capstone in International Education
EDUC 6631	Internship: International Education
EDUC 6640	Selected Topics in International Education
EDUC 6650	Education and National Development

Specialization

9 credits in a professional, academic, or regional specialization selected in consultation with the program advisor.

Elective

9 credits of approved electives selected in consultation with the program advisor.

Up to 6 additional credit hours of internship may be required for students who do not have international education related experience.

MASTER OF ARTS IN TEACHING IN THE FIELD OF MUSEUM EDUCATION

The M.A.Ed.&H.D. in the field of museum education is an intensive, interdisciplinary program designed to prepare graduates for work fulfilling the educational mission of history or science museums; zoos, aquaria, or nature centers; and historical societies or sites. Graduates also qualify to serve as liaisons between schools and museums and as professionals in museum-related private and public agencies.

Students interested in museum studies more generally should refer to Museum Studies (p. 607). Those interested in the collaborative program on Jewish cultural arts should refer to Experiential Education and Jewish Cultural Arts (p. 1109).

Specific admission requirements are shown on the Graduate Program Finder. (<http://www.gwu.edu/all-graduate-programs>)

Visit the program website (<http://gsehd.gwu.edu/programs/museum-education>) for additional information.

REQUIREMENTS

The following requirements must be fulfilled: 33 credits, including 27 credits in required courses and 6 credits in elective courses.

Required

EDUC 6701	Museums as Institutions I: Fundamentals
EDUC 6702	Facilitating Museum Learning I: Fundamentals
EDUC 6703	Museum Audiences
EDUC 6704	Facilitating Museum Learning II: Field Placement and Seminar
EDUC 6705	Museums as Institutions II: Field Placement and Seminar
EDUC 6706	Evaluating Museum Learning
EDUC 6707	Museum Proposal Writing

Elective

6 credits in elective courses.

Elective courses should be selected in consultation with the program advisor.

MASTER OF ARTS IN EDUCATION AND HUMAN DEVELOPMENT IN THE FIELD OF ORGANIZATIONAL LEADERSHIP AND LEARNING

The M.A.Ed.&H.D. in the field of organizational leadership and learning program is designed for individuals entering or advancing in positions associated with learning in organizational settings in all sectors of society. Typical careers are in organizational development, internal and external consulting, and training and development. The program is interdisciplinary, and students are encouraged to tailor their programs to individual career needs and objectives.

The required courses in the 30-credit program cover human behavior in organizations, adult learning, group dynamics, research methods, organizational change, strategic change, global leadership, leadership development, and assessing the impact of change efforts. Project work in Washington-area business, industry, government, and community organizations may be a part of the learning experience.

Specific admission requirements are shown on the Graduate Program Finder. (<http://www.gwu.edu/all-graduate-programs>)

Visit the program website (<http://gsehd.gwu.edu/programs/organizational-leadership-learning>) for additional information.

REQUIREMENTS

The following requirements must be fulfilled: 30 credits, including 21 credits in required courses and 9 credits in elective courses.

Required

EDUC 6112	Foundations of Assessment, Testing, and Measurement in Education
HOL 6700	Human Behavior and Learning in Organizations
HOL 6701	Adult Learning
HOL 6702	Organizational Change I
HOL 6703	Organizational Change II
HOL 6704	Leadership in Organizations
HOL 6746	Work Groups and Teams in Organizations

Elective

Any combination of 3 courses from the following tracks for a broader competency or 3 courses from any one track for a more in-depth competency

Leadership Track

Global Leadership	
HOL 6706	Current Issues in Organizational Leadership
Leadership Development	
HOL 6101	Research and Independent Study
HOL 6725	Internship in Human Resource Development

Learning Track

HOL 6101	Research and Independent Study
----------	--------------------------------

HOL 6707	Organizational Learning
HOL 6724	Increasing the Capacity to Learn
HOL 6725	Internship in Human Resource Development
HOL 6742	Design of Adult Learning Interventions
HOL 6743	Action Learning
Change Track	
HOL 6101	Research and Independent Study
HOL 6705	Strategic Change
HOL 6721	Assessing the Impact of Organizational Change
HOL 6725	Internship in Human Resource Development
HOL 6744	Meaningful Workplaces
Globalization Track	
HOL 6100	Special Workshop (Global Mindset)
HOL 6100	Special Workshop (Globalization, Change and Learning)
HOL 6101	Research and Independent Study
HOL 6725	Internship in Human Resource Development
HOL 6747	International and Multicultural Issues in Organizations

Note: Internship and research/independent study courses might be used as electives in a track, provided the subject matter of the work is relevant. For example, a research project in leadership could qualify for 3 elective credits in the Leadership Track.

MASTER OF ARTS IN EDUCATION AND HUMAN DEVELOPMENT IN THE FIELD OF REHABILITATION COUNSELING

The M.Ed.&H.D. in the field of education and human development rehabilitation counseling program prepares highly knowledgeable students to become professional practitioners assisting persons who are physically, mentally, emotionally, or socially disabled to become empowered and to assume or to resume their place in society. This program leads to licensure and public and private employment opportunities.

Areas of concentration include autism spectrum disorder, traumatic brain injury, and psychiatric disabilities and substance abuse.

Specific admission requirements are shown on the Graduate Program (<http://www.gwu.edu/all-graduate-programs>) Finder.

Visit the program website (<http://gsehd.gwu.edu/programs/rehabilitation-counseling>) for additional information.

REQUIREMENTS

The following requirements must be fulfilled: A minimum of 48 credits (50 credits for the specialization in the rehabilitation of individuals who are mentally ill) from the following:

Required

CNSL 6130	Vocational Assessment of Individuals with Disabilities
or CNSL 6157	Individual Assessment in Counseling
CNSL 6151	Professional and Ethical Orientation to Counseling
CNSL 6153	Counseling Interview Skills
CNSL 6154	Theories and Techniques of Counseling
CNSL 6155	Career Counseling
CNSL 6161	Group Counseling
CNSL 6163	Social/Cultural Dimensions-Cns
CNSL 6185	Practicum/Internship in Counseling
CNSL 6186	Advanced Internship in Counseling
CNSL 6376	Foundations/Practicum: Rehabilitation and Case Management
CNSL 6378	Disability Management and Psychosocial Rehabilitation
CNSL 6380	Job Placement and Supported Employment
CNSL 6381	Medical and Psychosocial Aspects of Disabilities
EDUC 6114	Introduction to Quantitative Research
or EDUC 6116	Introduction to Educational Statistics
Electives	

Six credits of electives selected in consultation with advisor

Optional concentrations are available in autism and spectrum disorders, substance abuse and psychiatric disabilities, and traumatic brain injury.

Students who are admitted to the program with a specialization in the rehabilitation of individuals who are mentally ill must complete 50 credits of the following:

Rehabilitation of individuals who are mentally ill specialization requirements:

EDUC 6114	Introduction to Quantitative Research
CNSL 6100	Special Workshop
CNSL 6101	Research and Independent Study
CNSL 6130	Vocational Assessment of Individuals with Disabilities
CNSL 6151	Professional and Ethical Orientation to Counseling
CNSL 6153	Counseling Interview Skills
CNSL 6154	Theories and Techniques of Counseling
CNSL 6155	Career Counseling
CNSL 6161	Group Counseling
CNSL 6163	Social/Cultural Dimensions-Cns
CNSL 6173	Diagnosis and Treatment Planning
CNSL 6185	Practicum/Internship in Counseling
CNSL 6186	Advanced Internship in Counseling
CNSL 6376	Foundations/Practicum: Rehabilitation and Case Management
CNSL 6378	Disability Management and Psychosocial Rehabilitation
CNSL 6380	Job Placement and Supported Employment
CNSL 6381	Medical and Psychosocial Aspects of Disabilities

MASTER OF ARTS IN EDUCATION AND HUMAN DEVELOPMENT IN THE FIELD OF SCHOOL COUNSELING

The M.A.Ed.&H.D. in the field of school counseling is accredited by Council for Accreditation of Counseling and Related Educational Programs (CACREP) and provides professional preparation for individuals who wish to become

certified as counselors in public and private schools. The program is designed to equip students with the requisite knowledge and skills to provide professional counseling, assessment, consultation, and guidance services in a school setting.

Specific admission requirements are shown on the Graduate Program Finder. (<http://www.gwu.edu/all-graduate-programs>)

Visit the program website (<http://gsehd.gwu.edu/programs/school-counseling>) for additional information.

REQUIREMENTS

The following requirements must be fulfilled: 48 credits, including 42 credits in required courses and 6 credits in elective courses:

Required

EDUC 6114	Introduction to Quantitative Research
or EDUC 6116	Introduction to Educational Statistics
CNSL 6151	Professional and Ethical Orientation to Counseling
CNSL 6153	Counseling Interview Skills
CNSL 6154	Theories and Techniques of Counseling
CNSL 6155	Career Counseling
CNSL 6157	Individual Assessment in Counseling
CNSL 6159	Psychosocial Adaptation
CNSL 6161	Group Counseling
CNSL 6163	Social/Cultural Dimensions-Cns
CNSL 6185	Practicum/Internship in Counseling
CNSL 6186	Advanced Internship in Counseling
CNSL 6466	Foundations of School Counseling K-12
HDEV 6108	Life Span Human Development
HDEV 6109	Child Development
or HDEV 6110	Adolescent Development

Elective

6 credits of approved electives

The remaining credits should be selected in consultation with the program advisor.

Counseling students are required to complete 600 hours as part of their internships (300 hours per course) and 100 hours as part of their practicum.

MASTER OF EDUCATION IN THE FIELD OF SECONDARY EDUCATION

The M.Ed. in the field of secondary education program is designed for those individuals with an undergraduate degree in the arts and sciences. Students are expected to enter the program with substantial coursework in an academic field taught in secondary schools. Degree candidates may specialize in English, English as a second language, foreign languages (Arabic, Chinese, French, German, Italian, Latin, Russian, and Spanish), mathematics, science (biology, chemistry, general science, and physics), or social studies. Required program coursework includes credits leading to eligibility for teacher licensure/certification; specific course work in the subject area to be taught may be needed to meet jurisdictional requirements for licensure/certification.

Specific admission requirements are shown on the Graduate Program Finder. (<http://www.gwu.edu/all-graduate-programs>)

Visit the program website (<http://gsehd.gwu.edu/programs/secondary-education>) for additional information.

REQUIREMENTS

The following requirements must be fulfilled: 30 credits (36 credits for the ESL concentration), including required core courses, all courses in one concentration, and elective credits indicated in each concentration, if applicable; completion of master of education comprehensive examination; and completion of the relevant teacher licensure assessments, in this case PRAXIS, which is required by the District of Columbia Educator Licensure Services Office.

Required core

CPED 6340	Teacher Leadership in Education
CPED 6507	Instructional Models and Classroom Management
CPED 6532	Professional Internship in Middle School Education
CPED 6534	Professional Internship in Secondary Education
CPED 6606	Theories of Learning and Development
CPED 6608	Development and Diversity
EDUC 6112	Foundations of Assessment, Testing, and Measurement in Education

English concentration

CPED 6546 Teaching English in Secondary Schools

CPED 6691 Interdisciplinary Adolescent Literacies

3 credits of electives selected in consultation with program advisor

Master of Education comprehensive exam required

Completion of the relevant teacher licensure assessments (i.e., PRAXIS) required by the District of Columbia Educator Licensure Services Office

General science concentration

CPED 6547 Teaching Science in Secondary Schools

CPED 6691 Interdisciplinary Adolescent Literacies

3 credits of electives selected in consultation with program advisor

Master of Education comprehensive exam required

Completion of the relevant teacher licensure assessments (i.e., PRAXIS) required by the District of Columbia Educator Licensure Services Office

Social studies concentration

CPED 6548 Teaching Social Studies in Secondary Schools

CPED 6691 Interdisciplinary Adolescent Literacies

3 credits of electives selected in consultation with program advisor

Master of Education comprehensive exam required

Completion of the relevant teacher licensure assessments (i.e., PRAXIS) required by the District of Columbia Educator Licensure Services Office

Mathematics concentration

CPED 6550 Teaching Mathematics in Secondary Schools

CPED 6691 Interdisciplinary Adolescent Literacies

3 credits of electives selected in consultation with program advisor

Master of Education comprehensive exam required

Completion of the relevant teacher licensure assessments (i.e., PRAXIS) required by the District of Columbia Educator Licensure Services Office

Foreign language concentration

CPED 6551 Second Language Instruction

CPED 6557 Second Language Acquisition

CPED 6627 Teaching Second Language Reading and Writing

Master of Education comprehensive exam required

Completion of the relevant teacher licensure assessments (i.e., PRAXIS) required by the District of Columbia Educator Licensure Services Office

ESL concentration

CPED 6176 Academic and Psychosocial Assessment of the Culturally and Linguistically Diverse Student

CPED 6551 Second Language Instruction

CPED 6556 Linguistic Applications in English as a Second Language

CPED 6557 Second Language Acquisition

Master of Education comprehensive exam required

Completion of the relevant teacher licensure assessments (i.e., PRAXIS) required by the District of Columbia Educator Licensure Services Office

MASTER OF ARTS IN EDUCATION AND HUMAN DEVELOPMENT IN THE FIELD OF SECONDARY SPECIAL EDUCATION AND TRANSITION SERVICES

This interdisciplinary M.A.Ed.&H.D. program prepares educators and support personnel to address the needs of youth and young adults with special needs for careers and transition from school to postsecondary education, employment, and independent self-adjustment. Teacher licensure certification preparation in categorical learning, emotional, and behavioral disabilities or noncategorical special education is available through the program. The curriculum integrates the roles of relevant disciplines and service agencies, including postsecondary planning, alternative service models, and extended career support and adjustment to independent living. The program includes traditional course work, practicum, and field-based professional practice and

research. Students can plan their programs to emphasize secondary and career programming, learning disabilities, collaborative vocational evaluation, traumatic brain injury, corrections, and business-education partnerships.

Specific admission requirements are shown on the Graduate Program Finder. (<http://www.gwu.edu/all-graduate-programs>)

Visit the program website (<http://gsehd.gwu.edu/programs/secondary-special-education-and-transition-services>) for additional information.

REQUIREMENTS

The following requirements must be fulfilled: a minimum of 39 credits, including 15 credits in core courses, 24 to 27 credits within a concentration, and successful completion of the master's comprehensive examination. Requirements for completion of the comprehensive examination and for teacher licensure assessments (PRAXIS) vary by concentration.

Secondary special education and transition services required core courses:

EDUC 6114	Introduction to Quantitative Research
SPED 6222	Legal Issues and Public Policy for Individuals With Disabilities
SPED 6233	Curriculum in Secondary Special Education and Transition
SPED 6236	Introduction to Career and Career-Technical Education and Transition Services
SPED 6280	Developmental Assessment of Adolescents

Adolescents with emotional and behavioral disabilities concentration:

CPED 6626	Practicum 1: Reading Diagnosis, Assessment and Solutions
SPED 6201	Introduction to Special Education
SPED 6231	Instructional Methods in Secondary Special Education and Transition
SPED 6238	Issues in Educating Individuals with Learning, Emotional, and Intellectual Disabilities
SPED 6239	Collaboration for Professionals Working with Students with Disabilities
SPED 6288	Characteristics of Individuals with Learning, Emotional, and Intellectual Disabilities

SPED 6290	Affective Development and Behavior Management in Special Education
SPED 6992	Behavior Management Practicum: Adolescents with Disabilities
SPED 6996	Teaching Internship in Transition Special Education
Master of Arts in Education and Human Development comprehensive exam required	
Completion of the relevant teacher licensure assessments (i.e., PRAXIS) required by the District of Columbia Educator Licensure Services Office	

Adolescents with learning disabilities concentration:

CPED 6626	Practicum 1: Reading Diagnosis, Assessment and Solutions
SPED 6201	Introduction to Special Education
SPED 6231	Instructional Methods in Secondary Special Education and Transition
SPED 6238	Issues in Educating Individuals with Learning, Emotional, and Intellectual Disabilities
SPED 6239	Collaboration for Professionals Working with Students with Disabilities
SPED 6288	Characteristics of Individuals with Learning, Emotional, and Intellectual Disabilities
SPED 6290	Affective Development and Behavior Management in Special Education
SPED 6996	Teaching Internship in Transition Special Education (taken twice)
Master of Arts in Education and Human Development comprehensive exam required	
Completion of the relevant teacher licensure assessments (i.e., PRAXIS) required by the District of Columbia Educator Licensure Services Office	

Brain injury special educator concentration:

CPED 6626	Reading Diagnosis, Assessment & Solutions
SPED 6201	Introduction to Special Education
SPED 6223	Introduction to Brain Injury: Programs, Policies, and Resources

SPED 6224 Brain Function and Impact of Brain Injury on Learning and Education

SPED 6231 Instructional Methods in Secondary Special Education and Transition

SPED 6240 Family Support and Guidance in Special Education

SPED 6255 Collaboration with Systems and Families

SPED 6290 Affective Development and Behavior Management in Special Education

SPED 6996 Teaching Internship in Transition Special Education

Master of Arts in Education and Human Development comprehensive exam required

Completion of the relevant teacher licensure assessments (i.e., PRAXIS) required by the District of Columbia Educator Licensure Services Office

Brain injury specialist concentration (without licensure):

SPED 6223 Introduction to Brain Injury: Programs, Policies, and Resources

SPED 6224 Brain Function and Impact of Brain Injury on Learning and Education

SPED 6230 Vocational Assessment of Individuals with Disabilities (taken for 3 credits)

SPED 6240 Family Support and Guidance in Special Education

SPED 6255 Collaboration with Systems and Families

SPED 6290 Affective Development and Behavior Management in Special Education

SPED 6995 School- and Community-Based Internship in Special Education and Transition (taken twice)

Master of Arts in Education and Human Development comprehensive exam required

Interdisciplinary transition services concentration (without licensure):

SPED 6210 Universal Design for Learning and Assessment

SPED 6230 Vocational Assessment of Individuals with Disabilities (taken for 3 credits)

SPED 6231 Instructional Methods in Secondary Special Education and Transition

SPED 6234 Seminar in Advanced Writing and Professional Presentation (taken for 3 credits)

SPED 6235 Employment Models for Individuals with Disabilities

SPED 6255 Collaboration with Systems and Families

SPED 6995 School- and Community-Based Internship in Special Education and Transition (taken twice)

Master of Arts in Education and Human Development comprehensive exam required

MASTER OF ARTS IN EDUCATION AND HUMAN DEVELOPMENT IN THE FIELD OF SPECIAL EDUCATION FOR CHILDREN WITH EMOTIONAL AND BEHAVIORAL DISABILITIES

The M.A.Ed.&H.D. in the field of special education for children with emotional and behavioral disabilities (EBD) is an intensive program that prepares its graduates to work with learning and emotional problems in grades K-8. The program is designed to develop competencies in the nature and needs of troubled children; assessment, programming, and teaching; and working effectively as an interdisciplinary and interagency team member. EBD students have the opportunity to work intensively with students with disabilities in a therapeutic school setting, applying their coursework directly to practice while being mentored by school-based cooperating teachers and University faculty and staff.

The program is nationally recognized by the Council for Exceptional Children, is accredited by the Council for the Accreditation of Educator Preparation (CAEP), and has been training exemplary special educators for twenty years.

Specific admission requirements are shown on the Graduate Program Finder. (<http://www.gwu.edu/all-graduate-programs>)

Visit the program website (<http://gsehd.gwu.edu/programs/special-education-children-emotional-behavioral-disorders>) for additional information.

REQUIREMENTS

The following requirements must be fulfilled: 39 credits in required courses, completion of the Master of Arts in Education and Human Development comprehensive examination,

and completion of the relevant teacher licensure assessments (see below).

Required

CPED 6224	Diagnostic Teaching of Reading: K-6
CPED 6236	Analysis of Teaching
CPED 6411	Elementary School Curriculum and Methods (in subject matter Social Studies, Mathematics, Science, or Language Arts)
CPED 6411	Elementary School Curriculum and Methods (in subject matter Social Studies, Mathematics, Science, or Language Arts)
EDUC 6114	Introduction to Quantitative Research
SPED 6201	Introduction to Special Education
SPED 6238	Issues in Educating Individuals with Learning, Emotional, and Intellectual Disabilities
SPED 6239	Collaboration for Professionals Working with Students with Disabilities
SPED 6260	Developmental Assessment in Special Education
SPED 6288	Characteristics of Individuals with Learning, Emotional, and Intellectual Disabilities
SPED 6290	Affective Development and Behavior Management in Special Education
SPED 6990	Internship in Teaching Children with Emotional and Behavioral Disabilities: Assistant Teacher
SPED 6991	Internship in Teaching Children with Emotional and Behavioral Disabilities: Co-Teacher

Master of Arts in Education and Human Development comprehensive exam

Completion of the relevant teacher licensure assessments (i.e., PRAXIS) required by the District of Columbia Educator Licensure Services Office

MASTER OF ARTS IN EDUCATION AND HUMAN DEVELOPMENT IN THE FIELD OF SPECIAL EDUCATION FOR CULTURALLY AND LINGUISTICALLY DIVERSE LEARNERS

This M.A.Ed. & H.D. program equips current educators with the knowledge and skills needed to understand and address the cultural, linguistic, social, and learning needs of students –including those with special needs–whose diversity impacts their school success. The program is designed for licensed teachers and educators who wish to expand their knowledge to address the changing demographics of the modern classroom. Program course work and field experiences are built around competencies in the areas of assessment, lesson planning, and teaching, with a focus on culturally and linguistically diverse students. Master’s degree students develop a professional portfolio and sit for the ESOL PRAXIS, and SPED PRAXIS exams at the end of the program. Graduates are prepared to work with students who have disabilities and those in the process of second language acquisition. Course work is offered in both distance learning and on-campus formats.

Specific admission requirements are shown on the Graduate Program Finder. (<http://www.gwu.edu/all-graduate-programs>)

Visit the program website (<http://gsehd.gwu.edu/programs/special-education-culturally-linguistically-diverse-learners>) for additional information.

REQUIREMENTS

The following requirements must be fulfilled: 42 credits in required courses; completion of the Master of Arts in Education and Human Development comprehensive examination; and completion of the relevant teacher licensure assessments (see below).

Required

EDUC 6114	Introduction to Quantitative Research
CPED 6221	Developmental Reading: Emergent Literacy
CPED 6551	Second Language Instruction
CPED 6556	Linguistic Applications in English as a Second Language
CPED 6627	Teaching Second Language Reading and Writing
SPED 6255	Collaboration with Systems and Families

SPED 6273	Impact of Culture on Education
SPED 6266	The Development of Language and Literacy
SPED 6268	Development of Children and Youth with Disabilities
SPED 6272	Strategies for Inclusion: Addressing the Needs of Diverse Learners
SPED 6275	The Culturally and Linguistically Diverse Student with Disabilities: Policy, Research, and Trends
SPED 6276	Academic and Psychosocial Assessment of the Culturally and Linguistically Diverse Student
SPED 6277	Teaching Culturally and Linguistically Diverse Students with Disabilities
SPED 6997	Internship in Teaching Culturally and Linguistically Diverse Students with Disabilities
Master of Arts in Education and Human Development comprehensive exam	

Completion of the relevant teacher licensure assessments (i.e., PRAXIS) required by the District of Columbia Educator Licensure Services Office

EDUCATION SPECIALIST PROGRAMS

The Degree of Education Specialist

The program of advanced study leading to the degree of Education Specialist is for students with a master's degree in education who seek further professional preparation for specific objectives. The program is available in the fields of educational leadership and administration, counseling, curriculum and instruction, higher education administration, human and organizational learning, and special education.

Admission Requirements

The following are required for entrance to an Education Specialist program: an undergraduate degree and a Master of Arts in Education and Human Development or its equivalent from a regionally accredited institution, two years of pertinent experience in an education or human development field, and a graduate scholastic average of at least 3.3 and, in some programs, an acceptable score on either the Graduate Record Examination or Miller Analogies Test. Two letters of recommendation, one from a professional supervisor and one from the most recent graduate faculty advisor, are required, along with a statement of professional goals. Each applicant

must be interviewed and recommended by a faculty advisor in the major field.

Programs of Study and Degree Requirements

Individual programs are developed, through a plan of study worked out with a faculty advisor, to fit the candidate's skills, interests, and career goals. A minimum of 30 credits beyond the requirements of the degree of Master of Arts in Education and Human Development is required. At least 21 credits of this work must be taken in residence at GW. A maximum of five calendar years is allowed for completion of the program.

At least 12 of the required 30 credits must be in appropriate graduate courses in education selected from the following areas: (1) foundations and cognate study, (2) background and general principles of the field of study, and (3) an area of specialization. A graduate-level research methods course must be included in the program if it was not completed in previous graduate work.

The Comprehensive Examination

Successful completion of a six-hour written or oral examination or its equivalent, at the option of the major field advisor, is required. Candidates taking the examination must be registered for at least 1 credit in the semester it is to be taken and submit an online comprehensive examination application by the published deadline.

Education Specialist Programs

- Education Specialist in the field of educational leadership and administration (p. 1120)

EDUCATION SPECIALIST IN THE FIELD OF EDUCATIONAL LEADERSHIP AND ADMINISTRATION

The Education Specialist degree program, which can be pursued either on campus or in a distance learning format, prepares students to lead and promote high-quality student achievement at the district, sub-district, or school-wide level. Graduates are prepared to be PK-12 leaders who understand curriculum design, instructional excellence, motivation and support of classroom professionals, and the needs of diverse learning communities. Course work emphasizes leadership and management, change, communication, administrative and legal issues, human relations, supervision of instruction, and curriculum analysis.

The Education Specialist academic program includes courses and field experiences designed to meet administrative certification requirements in the District of Columbia, Maryland, Virginia, North Carolina, and other states that honor interstate compact agreements.

Specific admission requirements are shown on the Graduate Program Finder. (<http://www.gwu.edu/all-graduate-programs>)

Visit the program website (<http://gsehd.gwu.edu/programs/educational-leadership-administration>) for additional information.

REQUIREMENTS

The following requirements must be fulfilled: 30 credits in required courses.

Required:

EDUC 6100	Experimental Courses
EDUC 6232	Supervision and Evaluation of Instruction
EDUC 6234	Site-Based Leadership: K-12
EDUC 6236	School Law and Policy
EDUC 6240	Fundamentals of Educational Leadership and the Change Process
EDUC 6244	School-Community Relations
EDUC 6246	Seminar: Applied Educational Administration
EDUC 6287	Internship: Administration (taken twice)
EDUC 6422	Instructional Needs Analysis

DOCTORAL PROGRAMS

The Graduate School of Education and Human Development offers programs of advanced study leading to the degree of Doctor of Education (Ed.D.) and a Ph.D. in the field of counseling is offered through Columbian College of Arts and Sciences in collaboration with the Graduate School of Education and Human Development.

The Degree of Doctor of Education

The Graduate School of Education and Human Development offers programs of advanced study leading to the degree of Doctor of Education (EdD). These programs provide major fields of study in curriculum and instruction, special education, educational administration and policy studies, human and organizational learning, and higher education administration. Supporting fields are available in educational administration, higher education administration, counseling, curriculum and instruction, education policy, elementary education, human development, human and organizational learning, international education, program evaluation, secondary education, special education, supervision, and teacher education. With the approval of a student's program planning committee, course work may be taken in other departments of the University and through the Consortium. All programs require study of

interrelated areas of education and a doctoral dissertation in the major field of study.

All doctoral programs are designed to accommodate the needs of full-time students as well as working professionals who must pursue their studies on a part-time basis. Required graduate courses, with few exceptions, are offered in the late afternoon and evening. In some programs, selected courses may be taken at off-campus locations.

Admission Requirements

The applicant must have adequate preparation for advanced study, including the undergraduate degree and graduate work from a regionally accredited institution in the fields prerequisite to his or her objective and comparable to that required for the degree of Master of Arts in Education and Human Development at this University. Students with a master's degree in a field other than education may be considered for doctoral study provided that the degree and previous experience are judged relevant by the major field program faculty.

For an application to be considered by the major field program faculty, an applicant must have a minimum graduate scholastic average of 3.3 on a scale of 4.0 and an acceptable score on the Miller Analogies Test or Graduate Record Examination. In the field of human organizational learning, the Graduate Management Admissions Test is acceptable as well. Programs often set higher admissions standards, and the number of new doctoral students in each program is limited. All applicants must have an interview with faculty members in the major field. Students receiving favorable recommendations from the major field faculty are admitted to precandidacy for the degree.

Precandidacy and Candidacy

The Doctor of Education program is divided into two states: precandidacy and candidacy. In general, the degree program requires three or more years of full-time study beyond the master's degree or the equivalent in part-time study. Course work and the comprehensive examination must be completed within five years, and the entire program must be completed within eight years. The minimum residency requirement in degree status for the EdD is 36 credits of course work in the precandidacy stage and 12 to 24 credits of dissertation research in the candidacy stage. In most cases, course work beyond the minimum is required.

In the precandidacy stage, all course work in the program must be completed and the comprehensive examination passed. Course work toward the doctorate is established on the basis of a framework of seven domains: knowledge of foundations; critical literature review; research methods; clarity of thought, as expressed both in speech and in writing; professional development; technological skills; and depth of knowledge of the specialty area. A program plan of study is developed between the doctoral student and a doctoral study advising

team, generally consisting of two members of the program faculty.

The comprehensive examination is generally a two-day examination held each semester and taken upon completion of all course work (Pre-Dissertation Seminar may be excepted). Students taking the examination must be registered for at least 1 credit in the semester it is to be taken and must file an online application in the dean's office by the published deadline. Programs may have specific comprehensive exam requirements.

The candidacy stage of doctoral study begins after successful completion of the content course work *and* the comprehensive examination. A doctoral research dissertation committee is established and the candidate develops a dissertation proposal (this may be while registered in Pre-Dissertation Seminar). Upon successful completion of course work listed on the approved program plan of study, students must register for dissertation research at the rate of 3 or 6 credits each fall and spring semester. A minimum of 12 dissertation research credits are required for graduation. Students who have not defended their dissertation after 12 credits continue to register at the rate of 3 or 6 credits until they have reached 24 credits of dissertation research. Once they have reached their 24 credit maximum, they must register each subsequent fall and spring semester for 1 credit of Continuing Research until completion of their degree program with the successful defense of the dissertation to the Dissertation Oral Examination Committee. The accepted dissertation is submitted electronically, with a processing fee paid directly to Proquest/UMI.

Detailed information on the EdD program and its administration is available in the GSEHD Doctoral Student Handbook (<http://gsehd.gwu.edu/sites/default/files/2014%20-%202015%20Doctoral%20Handbook.pdf>). Students completing their degree program should refer to the section on Graduation Requirements, Participating in the Commencement Ceremony, under University Regulations.

The Degree of Doctor of Philosophy in the Field of Counseling

A Ph.D. in the field of counseling is accredited by the Council for Accreditation of Counseling and Related Educational Programs.

Doctoral programs

- Doctor of Education in the field of curriculum and instruction (p. 1122)
- Doctor of Education in the field of educational administration and policy studies (p. 1123)
- Doctor of Education in the field of higher education administration (p. 1125)
- Doctor of Education in the field of human and organizational learning (p. 1125)

- Doctor of Education in the field of special education (p. 1127)
- Doctor of Philosophy in the field of counseling (p. 1128)

DOCTOR OF EDUCATION IN THE FIELD OF CURRICULUM AND INSTRUCTION

The Doctor of Education in Curriculum and Instruction prepares education leaders whose objective is to improve pre-K through 16+ education in local, national, and international settings. The program encourages critical thought and creative work through course work focusing on curriculum, instruction, research, and other learning opportunities that intentionally link teaching and learning, policy, and evaluation to students' prior experiences.

The program focuses on understanding how curriculum and instruction can be constructed and applied to educational reform and diverse student populations. Doctoral students become part of a community that links scholars with practicing professionals, policy makers, and educational organizations in Washington, D.C., and beyond. Students can also use the program to expand their content knowledge or delve into other fields through linkages with Columbian College of Arts and Sciences or other schools at GW.

Graduates of the program can be found working in government agencies, teaching in university settings, or running informal education organizations. They may be curriculum supervisors in school systems or master teacher leaders in schools.

Specific admission requirements are shown on the Graduate Program Finder. (<http://www.gwu.edu/all-graduate-programs>)

Visit the program website (<http://gsehd.gwu.edu/programs/curriculum-instruction>) for additional information.

REQUIREMENTS

The following requirements must be fulfilled:

Requirements for the doctoral program (<http://bulletin.gwu.edu/education-human-development/doctoral-programs/education>).

A minimum of 66 credits.

Required

CPED 6305	Foundations of Curriculum Theory
CPED 8325	Advanced Ideas in Curriculum Theory
CPED 8330	Paradigms of Instruction and Assessment
CPED 8331	Seminar in Instruction

CPED 8334 Seminar in Research in Curriculum and Instruction I

EDUC 8110 Advanced Study: Ideas, Issues, and Practices in Education

Policy and evaluation

CPED 8340 Education Policy, Reform & Teacher Leadership

CPED 8341 Evaluation in Curriculum & Instruction

Area of specialization

9 credits selected in consultation with advisor

Up to 6 credits of CPED 8101 may be counted towards the area of specialization

Research

CPED 8335 Seminar in Research in Curriculum and Instruction II

EDUC 6116 Introduction to Educational Statistics

EDUC 8120 Group Comparison Designs and Analyses

EDUC 8122 Qualitative Research Methods

3 credits from the following:

EDUC 8100 Experimental Courses

EDUC 8130 Survey Research Methods

EDUC 8131 Case Study Research Methods

EDUC 8140 Ethnographic Research Methods

EDUC 8142 Phenomenological Research Methods

EDUC 8170 Educational Measurement

EDUC 8171 Predictive Designs and Analyses

Doctoral internship

CPED 8354 Doctoral Internship: Teacher Education (taken for 3 credits)

Dissertation

CPED 8998 Doctoral Seminar in Curriculum and Instruction (taken for 3 credits)

CPED 8999 Dissertation Research (minimum 12 credits needed to complete requirement)

Approved dissertation proposal required

Successful completion of comprehensive exam required

DOCTOR OF EDUCATION IN THE FIELD OF EDUCATIONAL ADMINISTRATION AND POLICY STUDIES

The Doctor of Education (Ed.D.) in Educational Administration and Policy Studies program provides students with the skill and knowledge they need either to excel within policy research and analysis or achieve high-level success in a K-12 school setting. Though these specialties are offered under the same degree title, they are offered at different campus locations with entirely different curricula.

Offered at GW's Foggy Bottom campus in Washington, D.C., the Ed.D. in Education Policy prepares researchers and analysts to advance knowledge and improve practice for the purposes of promoting excellence, equity, and efficiency in educational systems and organizations. The goal is for students to graduate with leadership positions as skilled analysts who are able to solve problems, make informed decisions, and help improve practice.

The Ed.D. in Education Administration program is offered at three GW campus locations—the Virginia Science and Technology Campus, Alexandria Graduate Center, and Hampton Roads Center. This academically rigorous program prepares students for leadership responsibilities within all facets of the educational arena. Researchers and practitioners who aspire to high levels of responsibility in educational organizations will develop leadership skills through course work, seminars, research associations with faculty, and self-directed activities.

Specific admission requirements are shown on the Graduate Program Finder. (<http://www.gwu.edu/all-graduate-programs>)

Visit the program website (<http://gsehd.gwu.edu/programs/educational-administration-policy-studies>) for additional information.

REQUIREMENTS

The degree is offered in two specialized areas. All requirements in one specialized area must be fulfilled:

Educational administration specialty—a minimum of 48 credits, including 27 credits in required courses, a 3-credit research course, 18 credits in dissertation courses, and successful completion of the comprehensive examination.

Education policy specialty—a minimum of 54 credits, including 12 credits in required courses, 12 credits in research courses, 15 credits in dissertation courses, 15 credits in elective courses, and successful completion of the comprehensive

examination. Six additional credits in prerequisite courses may be required.

Fulfillment of the requirements for the Doctor of Philosophy programs (<http://bulletin.gwu.edu/education-human-development/doctoral-programs/education>) is required for both specialties.

Educational Administration and Policy Studies (Educational Administration)

Required

EDUC 6116	Introduction to Educational Statistics
EDUC 6368	Power, Leadership & Education
EDUC 6371	Education Policy
EDUC 6570	Educational Planning
EDUC 8110	Advanced Study: Ideas, Issues, and Practices in Education
EDUC 8120	Group Comparison Designs and Analyses
EDUC 8122	Qualitative Research Methods
EDUC 8276	Seminar: Administration and Supervision
EDUC 8280	Critical Review of Educational Leadership Literature

Research

3 credits from the following:

EDUC 8100	Experimental Courses
EDUC 8130	Survey Research Methods
EDUC 8131	Case Study Research Methods
EDUC 8140	Ethnographic Research Methods
EDUC 8142	Phenomenological Research Methods
EDUC 8144	Discourse Analysis
EDUC 8170	Educational Measurement
EDUC 8171	Predictive Designs and Analyses

Dissertation

EDUC 8998	Pre-Dissertation Seminar (taken for 6 credits)
EDUC 8999	Dissertation Research (12 credits minimum)

Approved dissertation proposal required

Successful completion of comprehensive exam required

Educational Administration and Policy Studies (Education Policy)

Prerequisites

EDUC 6116	Introduction to Educational Statistics
EDUC 6371	Education Policy

Required

EDUC 8110	Advanced Study: Ideas, Issues, and Practices in Education
EDUC 8321	Economics of Education
EDUC 8322	Education Policy Implementation
EDUC 8340	Methods of Policy Analysis in Education

Research

EDUC 6381	Program Evaluation: Theory and Practice
EDUC 8120	Group Comparison Designs and Analyses
EDUC 8122	Qualitative Research Methods
EDUC 8171	Predictive Designs and Analyses

Dissertation

EDUC 8998	Pre-Dissertation Seminar (taken for 3 credits)
EDUC 8999	Dissertation Research (minimum 12 credits)

Approved dissertation proposal required

Electives

15 credits selected in consultation with advisor

Students may elect to take elective courses to develop expertise in a specific area in policy and/or take additional research methods courses to advance their research methods skills.

Successful completion of comprehensive exam required

DOCTOR OF EDUCATION IN THE FIELD OF HIGHER EDUCATION ADMINISTRATION

The mission of the Doctor of Education in Higher Education Administration program is to prepare exceptional leaders for administrative, academic, and research positions in two- and four-year higher education institutions, national and international associations, government agencies, and other post-secondary educational settings. The degree provides a high-quality, fast-paced scholarly experience in which students can integrate theory and research seamlessly with practice.

Program graduates rise rapidly within administrative and scholarly ranks based on their knowledgeable of critical issues in the field of higher education, ability to conduct independent primary research, and possession of the skills necessary for academic and administrative career development.

Specific admission requirements are shown on the Graduate Program Finder. (<http://www.gwu.edu/all-graduate-programs>)

Visit the program website (<http://gsehd.gwu.edu/programs/higher-education-administration>) for additional information.

REQUIREMENTS

The following requirements must be fulfilled:

The requirements for the Doctor of Education programs (<http://bulletin.gwu.edu/education-human-development/doctoral-programs/education>).

A minimum of 63 credits and successful completion of a comprehensive examination.

Required

EDUC 6510	Administration of Higher Education
EDUC 6520	Foundations of College Student Development
EDUC 6555	Higher Education Policy
EDUC 8505	Seminar: Higher Education Administration
EDUC 8110	Advanced Study: Ideas, Issues, and Practices in Education
EDUC 8525	College and University Curriculum
EDUC 8530	Leadership in Higher Education

Electives

15 credits selected in consultation with advisor

Research

EDUC 8120	Group Comparison Designs and Analyses
EDUC 8122	Qualitative Research Methods
3 credits from the following:	
EDUC 8100	Experimental Courses
EDUC 8130	Survey Research Methods
EDUC 8131	Case Study Research Methods
EDUC 8140	Ethnographic Research Methods
EDUC 8142	Phenomenological Research Methods
EDUC 8144	Discourse Analysis
EDUC 8170	Educational Measurement
EDUC 8171	Predictive Designs and Analyses

Dissertation

EDUC 8280	Critical Review of Educational Leadership Literature
EDUC 8998	Pre-Dissertation Seminar (taken for 3 credits)
EDUC 8999	Dissertation Research (minimum 12 credits needed to complete requirement)

Approved dissertation proposal required

Successful completion of comprehensive exam required

DOCTOR OF EDUCATION IN THE FIELD OF HUMAN AND ORGANIZATIONAL LEARNING

The Doctor of Education (Ed.D.) in Human and Organizational Learning is designed to provide professionals with a foundation in relevant theories, concepts, and practices towards facilitating change initiatives and in becoming more effective leaders and decision makers.

The program is offered with two distinct focuses at different GW campuses.

Foggy Bottom campus offers working professionals evening courses on weeknights. The curriculum focuses on organizational issues such as strategic change, transformational leadership, individual and group learning processes, organizational development, global and international issues, the humane organization, virtual organizations, meaning of work, and self-directed learning. In addition to completing the required course work, students work with an advisor to create

an individually designed program around the student's area of interest. All classes at the Foggy Bottom campus are offered on weeknights.

The Virginia Science and Technology campus cohort focuses on the interrelationships among people, organizations, and learning, while using systemic change processes. The program encourages students to challenge assumptions through critical reflection and fosters group and self-directed learning. Program students come from a variety of professions including business, health care, the military, education, federal agencies, information technology, and manufacturing, and have a variety of academic backgrounds with degrees in fields such as engineering, psychology, health and medical sciences, the humanities, and business. This diverse population enriches the learning experience for fellow students and provides both local and global networking opportunities. All classes at the Virginia Science and Technology campus are offered over a two-day period (Friday- Saturday), once a month, enabling students to continue working full time while pursuing the degree. In addition to the general requirements for admission to the Ed.D., applicants must have at least five years of full-time experience in a field related to human and organizational learning.

Specific admission requirements are shown on the Graduate Program Finder. (<http://www.gwu.edu/all-graduate-programs>)

Visit the program website (<http://gsehd.gwu.edu/programs/human-organizational-learning>) for additional information.

REQUIREMENTS

The following requirements must be fulfilled:

Requirements for the doctoral program (<http://bulletin.gwu.edu/education-human-development/doctoral-programs/education>).

A minimum of 69 credits for students at the main campus location and 72 credits for students in the Executive Leadership program as well as and successful completion of a comprehensive examination.

Main Campus Program

Required

EDUC 8110	Advanced Study: Ideas, Issues, and Practices in Education
HOL 8700	Foundations of Human and Organizational Learning
HOL 8701	Theory, Research, and Practice in Adult Learning and Development
HOL 8702	Theory and Design of Organizational Diagnosis and Development

HOL 8703	Human Systems Change
HOL 8704	Leadership Theory, Research, and Practice
HOL 8706	Interdisciplinary Readings in Human and Organizational Learning

Research methods

EDUC 8120	Group Comparison Designs and Analyses
EDUC 8122	Qualitative Research Methods
HOL 8720	Seminar: Applied Research in Human and Organizational Learning
HOL 8722	Seminar: Advanced Issues in Human and Organizational Learning

Three credits from the following:

EDUC 8100	Experimental Courses
EDUC 8130	Survey Research Methods
EDUC 8131	Case Study Research Methods
EDUC 8140	Ethnographic Research Methods
EDUC 8142	Phenomenological Research Methods
EDUC 8144	Discourse Analysis
EDUC 8170	Educational Measurement
EDUC 8171	Predictive Designs and Analyses
EDUC 8173	Structural Equation Modeling

Dissertation

HOL 8998	Predissertation Seminar
HOL 8999	Dissertation Research (minimum 12 credits needed to complete requirement)

Approved dissertation proposal required

Electives

18 credits from the following selected in consultation with advisor

HOL 6100	Special Workshop
HOL 6707	Organizational Learning
HOL 6721	Assessing the Impact of Organizational Change

HOL 6724	Increasing the Capacity to Learn
HOL 6743	Action Learning
HOL 6744	Meaningful Workplaces
HOL 6746	Work Groups and Teams in Organizations
HOL 6747	International and Multicultural Issues in Organizations
HOL 8101	Research and Independent Study
HOL 8721	Practicum in Human and Organizational Learning
HOL 8742	Work, Identity, and Adult Development

Successful completion of comprehensive exam required

Executive Leadership Program

Required

EDUC 8110	Advanced Study: Ideas, Issues, and Practices in Education
HOL 8100	Special Topics in Human and Organizational Learning - Doctoral Studies (taken for 9 credits)
HOL 8700	Foundations of Human and Organizational Learning
HOL 8701	Theory, Research, and Practice in Adult Learning and Development
HOL 8702	Theory and Design of Organizational Diagnosis and Development
HOL 8703	Human Systems Change
HOL 8704	Leadership Theory, Research, and Practice
HOL 8706	Interdisciplinary Readings in Human and Organizational Learning
HOL 8720	Seminar: Applied Research in Human and Organizational Learning
HOL 8721	Practicum in Human and Organizational Learning (taken for 9 credits)
HOL 8722	Seminar: Advanced Issues in Human and Organizational Learning

Electives

3 credits selected in consultation with advisor

Research methods

EDUC 8120	Group Comparison Designs and Analyses
EDUC 8122	Qualitative Research Methods
Three credits from the following:	
EDUC 8100	Experimental Courses
EDUC 8130	Survey Research Methods
EDUC 8131	Case Study Research Methods
EDUC 8140	Ethnographic Research Methods
EDUC 8142	Phenomenological Research Methods
EDUC 8144	Discourse Analysis
EDUC 8170	Educational Measurement
EDUC 8171	Predictive Designs and Analyses

Dissertation

HOL 8998	Predissertation Seminar
HOL 8999	Dissertation Research (minimum 12 credits needed to complete requirement)

Approved dissertation proposal required

Successful completion of comprehensive exam required

DOCTOR OF EDUCATION IN THE FIELD OF SPECIAL EDUCATION

The Doctor of Education in the field of special education program advances students' understanding of the relationship between structural and functional changes in the brain across time and experiences, examines cognitive processing, and considers the implications of these findings for teaching, learning, and educational policy. The program also addresses the challenging demands of disability in society and institutional improvements essential to support individuals with disabilities. The curriculum includes leadership, policy, and research courses, as well as foundational courses in brain development from early childhood through adulthood. The program works closely with Graduate School of Education and Human Development's Center for Applied Developmental Science and Neuroeducation (<http://gsehd.gwu.edu/center-applied-developmental-science-and-neuroeducation>) to provide research and internship opportunities for students to translate and apply research related to learning for diverse populations. Graduates leave prepared to have an impact through leadership in academic settings, research communities, policy institutions, and advocacy organizations.

Specific admission requirements are shown on the Graduate Program Finder.

Visit the program website for additional information.

REQUIREMENTS

The following requirements must be fulfilled:

The requirements for the Doctor of Education programs (<http://bulletin.gwu.edu/education-human-development/doctoral-programs/education>).

66 credits, including 27 credits in required courses, a minimum 12 credits in research courses including 3 credits in advanced research, 6 credits in internship courses, a minimum 15 credits in dissertation courses, 6 credits in elective courses, and successful completion of a comprehensive examination.

Required

SPED 8305	Foundations of Neuroscience in Special Education
SPED 8306	Advanced Study in Development Science and Variance I: The Early Years
SPED 8310	Advanced Study in Development Science and Variance II: The Later Years
SPED 8311	Proseminar in Special Education: The Interdisciplinary Foundations
EDUC 8110	Advanced Study: Ideas, Issues, and Practices in Education
SPED 8100	Selected Topics
SPED 8352	Disability and Public Policy
SPED 8304	Research and Trends in Special Education
SPED 8308	Preparation for the Professoriate in Special Education

Research (minimum 12 credits)

EDUC 6116	Introduction to Educational Statistics
EDUC 8120	Group Comparison Designs and Analyses
EDUC 8122	Qualitative Research Methods

Advanced research

3 credits from the following:

EDUC 8100	Experimental Courses
EDUC 8130	Survey Research Methods

EDUC 8131	Case Study Research Methods
EDUC 8140	Ethnographic Research Methods
EDUC 8142	Phenomenological Research Methods
EDUC 8144	Discourse Analysis
EDUC 8170	Educational Measurement
EDUC 8171	Predictive Designs and Analyses

Internship

SPED 8353	Post-Master's Internship in Special Education
SPED 8354	Doctoral Internship: Special Education

Dissertation

SPED 8998	Doctoral Seminar in Special Education
SPED 8999	Dissertation Research (minimum 12 credits needed to complete requirement)

Approved dissertation proposal required

Electives

6 credits in consultation with advisor

Successful completion of comprehensive exam required

DOCTOR OF PHILOSOPHY IN THE FIELD OF COUNSELING

The Ph.D. in counseling program balances rigorous research with clinical work to graduate scholar practitioners. Graduates are prepared for a number of roles, such as teaching in universities, practicing in a variety of settings from directing high school counseling departments, and leading county mental health treatment programs. The program offers challenging course work, practical experience at mental health sites, and the opportunity to train as supervisors at GSEHD's Community Counseling Service Center. Designed to be completed in four to five years, the program is unique in building students' knowledge and capacity to conduct research, publish, provide clinical services, and educate at the graduate level. Instruction is provided in areas including trauma, human sexuality, child and adolescent development, grief and loss, substance abuse, multicultural counseling, as well as a deep knowledge of diagnosis, assessments, interventions and treatment approaches. The program is accredited by the Council for the Accreditation of Counseling and Related Educational Programs (CACREP).

Specific admission requirements are shown on the Graduate Program Finder. (<http://www.gwu.edu/all-graduate-programs>)

Visit the program website (<http://gsehd.gwu.edu/programs/counseling>) for additional information.

REQUIREMENTS

The following requirements must be fulfilled:

Requirements for the doctoral program (<http://bulletin.gwu.edu/education-human-development/doctoral-programs/education>).

A minimum of 69 credits, including 24 credits in core courses, 15 credits in research courses, 6 credits in human development courses, 9 credits in area of specialization, 15 credits in dissertation courses, and successful completion of the comprehensive examination.

A Ph.D. in the field of counseling is offered through Columbian College of Arts and Sciences in collaboration with the Graduate School of Education and Human Development. The program is accredited by the Council for the Accreditation of Counseling and Related Educational Programs (CACREP). Application for admission is made to Columbian College of Arts and Sciences.

GRADUATE CERTIFICATE PROGRAMS

The Graduate School of Education and Human Development offers the following graduate certificate programs. Graduate certificates do not constitute eligibility for an initial license or assure admission to a subsequent degree program. Courses taken as part of a certificate program may be applied toward advanced credentials or endorsements added to an initial license.

- Assessment, Testing, and Measurement in Education (p. 1129)
- Autism Spectrum Disorders
- Brain Injury: Educational and Transition Services
- Counseling and Life Transitions
- Design and Assessment of Adult Learning
- Educational Leadership and Administration
- E-Learning
- Global Leadership in Teams and Organizations
- Incorporating International Perspectives in Education (p. 1130)
- Instructional Design
- Integrating Technology into Education (p. 1130)
- Job Development and Placement
- Leadership Development
- Leadership in Educational Technology
- Multimedia Development
- Organizational Learning and Change

- Professional Teaching Standards
- Reading and Literacy
- Secondary Special Education and Transition Services
- Special Education for Culturally and Linguistically Diverse Learners
- STEM Master Teacher (p. 1130)
- Teaching English Language Learners
- Training and Educational Technology

Visit the Graduate School of Education and Human Development website (<http://gsehd.gwu.edu/home>) for more information.

GRADUATE CERTIFICATE IN ASSESSMENT, MEASUREMENT, AND TEACHING IN EDUCATION

Assessment, Testing, and Measurement (ATM) is a specialization within education and human development combining statistical analysis, testing theory, and the study of human behavior, educational measurement, and evaluation. ATM is the science of measuring educational factors such as learning, preference, aptitude, and personality.

This 18-credit graduate certificate program is designed for individuals who are entering or advancing in positions associated with assessment, testing, and measurement in diverse settings or as preparation for admission to master's or Ph.D. programs in the field. This program offers premier graduate training in psychometric and statistical methods taught by faculty who are engaged in world-class research.

Specific admission requirements are shown on the Graduate Program Finder. (<http://www.gwu.edu/all-graduate-programs>)

REQUIREMENTS

The following requirements must be fulfilled: 18 credits in required courses.

Required:

EDUC 6112	Foundations of Assessment, Testing, and Measurement in Education
EDUC 8170	Educational Measurement
EDUC 8171	Predictive Designs and Analyses
EDUC 8175	Item Response Theory
EDUC 8177	Assessment Engineering
EDUC 8179	Capstone Project in Assessment, Testing, and Measurement in Education

GRADUATE CERTIFICATE IN INCORPORATING INTERNATIONAL PERSPECTIVES IN EDUCATION

The 12-credit Incorporating International Perspectives in Education certificate is designed for individuals with either a bachelor's or master's degree who are interested in introducing global perspectives into curriculum, pedagogy, and school policy and practice. The curriculum of two required and two elective courses allows students to pursue individual interests while providing a foundation in internationalization as it relates to school systems and the development of curriculum in K-12 settings.

REQUIREMENTS

The following requirements must be met: 12 credits, including 6 credits in required courses and 6 credits in elective courses.

Required

CPED 6305 Foundations of Curriculum Theory

EDUC 6615 Internationalizing U.S. Schools

Elective

6 credits from the following:

CPED 6225 Introduction to International Curricula

CPED 6557 Second Language Acquisition

CPED 6608 Development and Diversity

CPED 6627 Teaching Second Language Reading and Writing

EDUC 6602 Regional Studies in International Education (Comparative Solutions to Common Educational Problems)

EDUC 6602 Regional Studies in International Education (Education and Modernization in Asia)

EDUC 6602 Regional Studies in International Education (Education and Transition in Eastern Europe and the former Soviet Union)

EDUC 6602 Regional Studies in International Education (Education and Equality in Latin America and the Caribbean)

EDUC 6602 Regional Studies in International Education (Education and Tradition in Islamic Societies)

EDUC 6602 Regional Studies in International Education (Education and Diversity in Europe and the EU)

EDUC 6640 Selected Topics in International Education (Citizen, Culture, Language and Nation-building in the Global Era)

GRADUATE CERTIFICATE IN INTEGRATING TECHNOLOGY INTO EDUCATION

The Graduate Certificate in Integrating Technology into Education provides students from varied professional educational backgrounds (including public and private sectors, K-12, and higher education) with the foundational knowledge and skills required to integrate technology effectively into their instruction. The curriculum, which is taught in a distance learning format, prepares students to apply, manage, and evaluate theories, standards, technologies, and techniques for integrating technology within their professional educational settings. Students integrate their professional experiences into their learning, apply their course assignments to their current professional activities, and actively engage with other professionals.

Specific admission requirements are shown on the Graduate Program Finder. (<http://www.gwu.edu/all-graduate-programs>)

REQUIREMENTS

The following requirements must be fulfilled: 18 credits in required courses.

Required

EDUC 6368 Power, Leadership & Education

EDUC 6401 Applying Educational Media and Technology

EDUC 6402 Computers in Education and Human Development

EDUC 6404 Managing Computer Applications

EDUC 6405 Developing Multimedia Materials

EDUC 6406 Instructional Design

GRADUATE CERTIFICATE IN STEM MASTER TEACHER

The GW STEM Master Teacher Certificate provides licensed K-12 educators with an opportunity to expand their skills and methods for engaging students in rich, powerful STEM (science, technology, engineering, and mathematics) learning experiences. The establishment of this 12-credit certificate

coincides with adoption of the Next Generation Science Standards and Common Core State Standards for Mathematics and addresses the anticipated professional development needs of school districts adopting these new standards.

Specific admission requirements are shown on the Graduate Program Finder. (<http://www.gwu.edu/all-graduate-programs>)

REQUIREMENTS

The following requirements must be fulfilled: 12 credits, including 9 credits in required courses and a 3-credit elective course.

Required

CPED 6701	Arts in the STEM Curriculum
CPED 6702	Integrating Engineering in the Math and Science Classroom
CPED 6703	Advanced STEM Teaching Methods

Elective

One of the following:

CPED 6367	Perspectives and Research in Teaching Science
CPED 6370	Perspectives and Research in Teaching Mathematics
CPED 8309	Supervising Preservice Clinical Experience

Students may apply courses toward the Master of Arts in Education and Human Development in the field of Curriculum and Instruction.

COUNSELING AND HUMAN DEVELOPMENT

GRADUATE

Master's programs

- Master of Arts in Education and Human Development in the field of clinical mental health counseling (p. 1103)
- Master of Arts in Education and Human Development in the field of rehabilitation counseling (p. 1113)
- Master of Arts in Education and Human Development in the field of school counseling (p. 1114)
- Master of Arts in Education and Human Development individualized program (p. 1111)

Doctoral program

- Doctor of Philosophy in the field of counseling (p. 1128)

FACULTY

Professors J. Garcia, K.C. Hergenrather (*Chair*), C.H. Hoare, S.A. Marotta-Walters,

Associate Professors R. Lanthier, M.C. McGuire-Kuletz, M.M. Megivern, S. Steen

Assistant Professors S. Beveridge, S. Cho Kim, R.M. Dedmond, D.M. Pittman

Professorial Lecturers O. Madison, R.J. Pasi, B.J. Thompson, R.C. Windham,

Lecturers E. Rhymers, P. Tschudi

COURSES

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000-4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

Programs in counseling are offered at the graduate level by the Graduate School of Education and Human Development (<http://gsehd.gwu.edu>) through its Department of Counseling and Human Development (<http://gsehd.gwu.edu/counseling-and-human-development>).

CNSL 0920. Continuing Research - Masters. 1 Credit.

CNSL 0940. Cont Research - Doctoral. 1 Credit.

CNSL 2102. Foundations of Counseling. 3 Credits.

CNSL 2162. Professional and Ethical Orientation to Counseling. 3 Credits.

The roles and functions of a professional counselor and the ethical standards that govern the profession.

CNSL 2163. Psychosocial Adjustment. 3 Credits.

Mental health problems; emphasis on needs of counselors, teachers, and others working with children and adolescents.

CNSL 2376. Introduction to Rehabilitation Counseling. 3 Credits.

Overview of rehabilitation profession, including philosophy, history, ethics, theory, legislation, settings, and practice.

CNSL 2378. Disability Management and Psychosocial Rehabilitation. 3 Credits.

Case management services for persons with physical, mental, and emotional disabilities.

CNSL 2381. Medical and Psychosocial Aspects of Disabilities. 3 Credits.

Chronic and traumatic disorders; rehabilitation and psychosocial implications.

CNSL 6100. Special Workshop. 1-12 Credits.

Topics to be announced in the Schedule of Classes. May be repeated for credit.

CNSL 6101. Research and Independent Study. 1-3 Credits.

Individual research under guidance of a staff member. Program and conferences arranged with an instructor.

CNSL 6103. Thesis Research. 3 Credits.

CNSL 6104. Thesis Research. 3 Credits.

CNSL 6130. Vocational Assessment of Individuals with Disabilities. 3 Credits.

Investigation of vocational appraisal processes and techniques for individuals with disabilities. Includes assessment for transition using field-based assignments. Three credits of practicum experience for students specializing in vocational evaluation. Material fee. Same as SPED 6230.

CNSL 6151. Professional and Ethical Orientation to Counseling. 3 Credits.

The roles and functions of a professional counselor and the ethical standards that govern the profession.

CNSL 6153. Counseling Interview Skills. 3 Credits.

Acquisition of counseling skills common to all theories through lectures, demonstrations by faculty, role playing, and videotaping. Prerequisite or concurrent registration: CNSL 6151 (for counseling majors); permission of instructor is required for others. Material fee.

CNSL 6154. Theories and Techniques of Counseling. 3 Credits.

An introduction to basic counseling and psychotherapeutic theories and associated techniques. Prerequisite or concurrent registration: CNSL 6151 (for counseling majors); permission of instructor is required for others.

CNSL 6155. Career Counseling. 3 Credits.

A consideration of theory, practice, and the body of information related to career counseling, choice, and development over the life span. Prerequisite: CNSL 6153, EDUC 6114 for counseling majors; permission of instructor is required for others. Material fee.

CNSL 6157. Individual Assessment in Counseling. 3 Credits.

Detailed study of individual analysis and appraisal techniques. Development of systematic case study. Prerequisite: CNSL 6153, EDUC 6114 for counseling majors; permission of instructor is required for others. Material fee.

CNSL 6159. Psychosocial Adaptation. 3 Credits.

Mental health problems; emphasis on needs of counselors, teachers, and others working with children, adolescents, and adults.

CNSL 6161. Group Counseling. 3 Credits.

Principles of group dynamics as related to interaction within groups. Techniques and practice in group counseling. Prerequisite or concurrent registration: CNSL 6151 (for counseling majors); permission of instructor is required for others.

CNSL 6163. Social/Cultural Dimensions-Cns. 3 Credits.

Basic sociocultural concepts in counseling theory and how they apply to the practice of the counseling profession. Prerequisite or concurrent registration: CNSL 6153 (for counseling majors); permission of instructor is required for others.

CNSL 6164. Values, Spiritual, and Religious Issues in Counseling. 3 Credits.

The theoretical and practical intersection of counseling, psychotherapy, and mental health considerations with religion and spirituality. The clinically effective and ethically responsible integration of religion and spirituality into counseling. Prerequisite or concurrent registration: CNSL 6151 (for counseling majors); permission of instructor is required for others.

CNSL 6169. Counseling Substance Abusers. 3 Credits.

Individual, group, family, and self-help counseling applied to substance abusers. Prerequisite or concurrent registration: CNSL 6153 (for counseling majors); permission of instructor is required for others.

CNSL 6170. Grief and Loss. 3 Credits.

Exploration and discussion of grief and loss from theoretical, practical, cross-cultural, and personal perspectives; implications for counselors within a multidisciplinary environment.

CNSL 6171. Family Counseling. 3 Credits.

The family as a system: how it affects the client and how the client affects it. Didactic presentations, role playing, and work with simulated families. Prerequisite or concurrent registration: CNSL 6153 (for counseling majors); permission of instructor is required for others.

CNSL 6172. Human Sexuality for Counselors. 3 Credits.

Issues of sexuality as related to counseling in contemporary society. Prerequisite or concurrent registration: CNSL 6153 (for counseling majors); permission of instructor is required for others.

CNSL 6173. Diagnosis and Treatment Planning. 3 Credits.

For counselors and mental health practitioners. Symptoms and treatment of various mental disorders. The process of making psychiatric diagnoses. A variety of treatment strategies are covered, along with their application to various disorders. Prerequisite: CNSL 6153.

CNSL 6174. Trauma and Crisis Intervention. 3 Credits.

This course provides the counseling student with an introduction to research, theory, and practices within the field of traumatology. The course will cover the historical evolution of the field; biopsychosocial underpinnings of trauma and trauma spectrum disorders; issues in diagnosis, assessment, and intervention from a culturally diverse framework; and a synthesis of best practices as they are currently evolving. Using a developmental and systemic approach, the course will provide a counseling perspective on the knowledge base from the multiple disciplines that contribute to the field of traumatology.

CNSL 6175. Living and Dying: A Counseling Perspective. 3 Credits.

Survey of fundamental psychosocial issues surrounding grief, loss, and life-threatening illness. Topics include AIDS, suicide, multiple loss, caregiver's grief, spirituality, and cross-cultural issues.

CNSL 6177. Spirituality and Loss. 3 Credits.

Exploration of how spiritual beliefs, faith traditions, and life philosophy affect the process of dying, bereavement, and grieving. Effective counseling approaches.

CNSL 6179. Children and Loss. 3 Credits.

The process of grief, loss, and death as experienced by children and adolescents from theoretical, moral, spiritual, and developmental perspectives. Development of effective and sensitive skills and competencies to meet the needs of children and their families as they face life-challenging transitions.

CNSL 6185. Practicum/Internship in Counseling. 3 Credits.

Part of a two-semester clinical experience for degree and certificate candidates in counseling. Includes 100 hours of supervised practicum in a counseling setting. Material fee.

CNSL 6186. Advanced Internship in Counseling. 3-6 Credits.

Part of a two-semester clinical experience for degree and certificate candidates in counseling. Material fee. Prerequisite: CNSL 6185.

CNSL 6188. Systems in Career Counseling Development. 3 Credits.

The complex role of systems in career counseling and development. Class and work experience in the areas of career assessment, computerized career planning, and the design and evaluation of career counseling systems.

CNSL 6189. Career Development and the Contemporary Workforce. 3 Credits.

Through case studies, simulations, and group work, the demographics and challenges of the workforce in the United States are examined. The knowledge, skills, and competencies necessary to respond to current trends and projected changes in the global workforce.

CNSL 6190. Advanced Career Counseling. 3 Credits.

Expansion of career development theory, concepts, and practice: the helping relationship, delivery systems, current market and economic information, and available resources. Prerequisite: CNSL 6155 (for counseling majors); permission of instructor is required for others. Material fee.

CNSL 6268. Foundations/Practicum: Clinical Mental Health Counseling. 3 Credits.

Description of community counseling settings, problems clients present, and a consideration of appropriate intervention strategies.

CNSL 6376. Foundations/Practicum: Rehabilitation and Case Management. 3 Credits.

Survey of history, philosophy, basic principles, legislation, roles, and services.

CNSL 6378. Disability Management and Psychosocial Rehabilitation. 3 Credits.

Disability management services; psychosocial aspects of disability; rehabilitation services for persons with psychiatric disabilities.

CNSL 6380. Job Placement and Supported Employment. 3 Credits.

Job development and modification: placement of persons with disabilities.

CNSL 6381. Medical and Psychosocial Aspects of Disabilities. 3 Credits.

Chronic and traumatic disorders with rehabilitation and psychosocial implications.

CNSL 6395. Foundations of Forensic Rehabilitation Counseling I. 3 Credits.

Overview of the roles and functions of professionals who provide forensic rehabilitation services in matters of litigation. Vocational assessments, labor market issues, transferable skills analysis, job analyses. Instruments utilized in forensic rehabilitation.

CNSL 6396. Foundations of Forensic Rehabilitation Counseling II. 3 Credits.

Workers' compensation, personal injury, medical/professional malpractice, catastrophic injury, loss of earnings capacity, and life care planning. Ethical standards, practices, federal court rules, and common situations found in the litigation process.

CNSL 6397. Law and the Rehabilitation Consultant. 3 Credits.

Overview of law and court procedures for forensic rehabilitation professionals. Qualification of forensic experts, roles and functions of expert witnesses, discovery, work product, hearsay, direct and cross-examination, admissibility of evidence, and opinions in state and federal venues.

CNSL 6398. Psychopharmacology. 3 Credits.

CNSL 6466. Foundations of School Counseling K-12. 3 Credits.

Study of the environmental and specialty elements for school counseling, with special attention to the principles and practices of school counseling.

CNSL 8100. Special Workshop. 1-12 Credits.

Topics to be announced in the Schedule of Classes. May be repeated for credit.

CNSL 8101. Research and Independent Study. 1-3 Credits.

CNSL 8244. Advanced Group Counseling. 3-6 Credits.

A post-master's course on interpersonal process groups, with didactic, experiential, and supervisory components. Prerequisite: CNSL 6161 ; permission of instructor is required.

CNSL 8252. Advanced Leadership and Advocacy in Counseling. 3 Credits.

Theory and practice of consultation and administration, with focus on school, community, and rehabilitation settings. Research issues. Admission by permission of instructor.

CNSL 8253. Work, Identity, and Adult Development. 3 Credits.

The influence of work on identity, intellectual and personality development, and other developmental attributes. Same as HDEV 8253/HOL 8742.

CNSL 8254. Advanced Multicultural Counseling. 3 Credits.

Recent research addressing key aspects of multicultural counseling. Practical knowledge about effective skills practice in the provision of services to clients from different cultural backgrounds, with emphasis on experiential and cognitive/behavioral approaches. Restricted to Admission by permission of instructor. Prerequisites: CNSL6163 Social and Cultural Dimensions of Counseling. Recommended background: PhD degree student in the field of counseling; completed a master's degree in counseling.

CNSL 8255. Advanced Supervision in Counseling. 3 Credits.

Theory and practice of clinical supervision and consultation for preparation to enter supervisory positions in the field of counselor education. Current thinking regarding supervisory theory/models, practice, research, and ethics. Restricted to Admission by permission of instructor. Recommended background: For PhD degree students.

CNSL 8257. Doctoral Practicum in Counseling. 3 Credits.

Experiential learning of advanced counseling and counseling-related competencies through direct, supervised participation in group work, research, teaching, and/or consultation. Admission by permission of instructor.

CNSL 8258. Advanced Theories of Counseling. 3 Credits.

Current research on counseling and psychotherapy process and outcome; critical analysis of theory with applications for practice and research. For Ed.S. and Ph.D. degree candidates in the field of counseling. Admission by permission of instructor.

CNSL 8259. Doctoral Internship in Counseling and Counselor Supervision. 3 Credits.

CNSL 8260. Doctoral Internship in Counseling and Counselor Supervision. 3 Credits.

CNSL 8961. Seminar: Counseling. 1-12 Credits.

CNSL 8998. Predissertation Seminar. 3 Credits.

CNSL 8999. Dissertation Research. 3,6 Credits.

Prerequisite: CNSL 8998/ EDUC 8998.

HDEV 6108. Life Span Human Development. 3 Credits.

Continuity and change in developmental attributes. The developing person in relation to social norms, roles, and stage-graded expectations from birth to death. Interaction between biogenetics and environment.

HDEV 6109. Child Development. 3 Credits.

Typical development and the familial and social antecedents of developmental risk. Environments that foster competent children and developmental sequelae of childhood vulnerability and trauma. For graduate students in counseling, psychology, and related disciplines.

HDEV 6110. Adolescent Development. 3 Credits.

Key attributes and problems in adolescent development. Typical adolescent development and contemporary social problems in relation to stress, risk, and resilience. For graduate students in counseling, psychology, and related areas.

HDEV 6129. Cultural Effects on Human Development. 3 Credits.

Effects of culture on the experience and expression of self, others, space, time, faith systems, norms, and other attributes. Egocentric and sociocentric effects, primitive and technological effects. Group immersion as the basis for prejudice. Developmental consequences as a consequence of cultural context.

HDEV 6161. Practicum in Human Development. 3 Credits.

Admission by permission of instructor.

HDEV 6162. Internship in Human Development. 3 Credits.

Admission by permission of instructor.

HDEV 6701. Adult Learning. 3 Credits.

Same as HOL 6701.

HDEV 8100. Issues and Special Topics in Human Development. 3-6 Credits.

Issues and special contemporary topics related to child, adolescent, and adult development. Applications for professional roles.

HDEV 8241. Emotional and Cognitive Dev. 3 Credits.

Emotional and cognitive development as related to self-esteem, social cognition, and interpersonal skills. Relationships among cognitive development, intellectual reasoning, insight, and social development.

HDEV 8244. Adult and Aging Development. 3 Credits.

Theories and research on personality and intelligence in adulthood. Research designs and methods. Implications of developmental data for counseling and selected professional roles.

HDEV 8253. Work, Identity, and Adult Development. 3 Credits.

The influence of work on identity, intellectual and personality development, and other developmental attributes. Same as CNSL 8253/ HOL 8742.

CURRICULUM AND PEDAGOGY

GRADUATE

Master's programs

- Master of Arts in Education and Human Development in the field of curriculum and instruction (p. 1104)
- Master of Arts in Education and Human Development in the field of curriculum and instruction, concentration in elementary education (p. 1104)
- Master of Arts in Education and Human Development in the field of curriculum and instruction, concentration in interdisciplinary studies of literacy and reading education (p. 1105)
- Master of Arts in Education and Human Development in the field of curriculum and instruction, concentration in secondary education (p. 1105)
- Master of Arts in Education and Human Development individualized program (p. 1111)
- Master of Education in the field of elementary education (p. 1109)
- Master of Education in the field of secondary education (p. 1115)

Doctoral program

- Doctor of Education in the field of curriculum and instruction (p. 1122)

FACULTY

Professors A.U. Chamot, S.J. Lynch

Associate Professors S.S. Beck, B. Casemore (Asst. Chair), J. Eakle, C. Green, C.L. Pyke, P.S. Tate,

Assistant Professors M.G. Sheppard (*Chair*), T. Sikorski

COURSES

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000-4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work

- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

CPED 0920. Continuing Research - Masters. 1 Credit.**CPED 0940. Continuing Research - Doctoral. 1 Credit.****CPED 6100. Special Topics. 1-12 Credits.**

Topics and fees announced in the Schedule of Classes.

CPED 6100W. Special Topics. 1-12 Credits.**CPED 6101. Research and Independent Study. 1-3 Credits.**

Individual research under the guidance of a staff member; program and conferences arranged with an instructor.

CPED 6172. Strategies for Inclusion: Addressing the Needs of Diverse Learners. 3 Credits.

Strategies by which teachers can more effectively assume the responsibility to serve all children in an inclusionary setting, including those who are second language learners and students with disabilities. Same as SPED 6272.

CPED 6175. The Culturally and Linguistically Diverse Student with Special Needs: Policy, Research, and Trends. 3 Credits.

Educational service delivery for the culturally and linguistically diverse student. National, state, and local policies; current research in bilingual education, special education, and bilingual special education. Material fee. Same as SPED 6275.

CPED 6176. Academic and Psychosocial Assessment of the Culturally and Linguistically Diverse Student. 3 Credits.

Issues in academic and psychosocial assessment of second language learners. The impact of second language acquisition and culture on the assessment process; differentiation between language difference and disability; IEP development; the use of interpreters and translators; the involvement of family and communities; standardized and alternative assessments; and legislative mandates. Material fee. Same as SPED 6276.

CPED 6199. Federal Education Policy Institute. 3 Credits.

The federal role in education policymaking in the context of national, state, and local efforts to create school environments for effective learning and the promotion of social and emotional health in children and youth. Same as SPED 6299.

CPED 6221. Developmental Reading: Emergent Literacy. 3 Credits.

The components of a balanced literacy program for emergent, beginning, and early-instructional-level readers. Incorporation of phonological awareness, phonics, fluency, reading comprehension, and writing lessons into a balanced reading-literacy program.

CPED 6223. Interdisciplinary Elementary School Literacies. 3 Credits.

Theory and practice of interdisciplinary elementary school studied in the context of the interactions between the domain-specific and strategic processes involved in teaching and learning from printed text and other media in science, literature, mathematics, social studies, and the arts.

CPED 6224. Diagnostic Teaching of Reading: K-6. 3 Credits.

Collection of diagnostic data; construction of informal traditional and non-traditional reading and writing tests; other instruments of evaluation; selecting and planning activities suitable to specific problems. Prerequisite: at least one previous course in reading.

CPED 6225. Introduction to International Curricula. 3 Credits.

CPED 6229. Current Issues in Elementary Education. 3 Credits.

Identification, definition, and analysis of some of the most important problems facing the contemporary American elementary school.

CPED 6236. Analysis of Teaching. 3 Credits.

Teaching viewed as a system; component aspects are examined with a view toward developing a critical method of analysis. Material fee.

CPED 6238. Clinical Practicum in Reading. 3-6 Credits.

Supervised clinical experience, including observation and participation, in testing, tutoring, and teaching. Clients may include preschoolers through adults. Minimum clinic hours required are 120 for 3 credits and 220 for 6 credits. Admission by permission of instructor. Material fee.

CPED 6239. Practicum in Curriculum and Instruction. 3-6 Credits.

Supervised field experience in curriculum and instruction. Admission by permission of instructor.

CPED 6287. Clinical Study and Treatment of Reading Problems. 3 Credits.

A case study approach is employed to develop participants' competence to assess and tutor children, adolescents, and adults of diverse backgrounds, presenting a variety of reading and writing difficulties. Prerequisite: CPED 6622 and CPED 6224. Material fee.

CPED 6288. Clinical Study and Treatment of Reading Problems. 3 Credits.

Continuation of CPED 6287. A case study approach is employed to develop participants' competence to assess and tutor children, adolescents, and adults of diverse backgrounds, presenting a variety of reading and writing difficulties. Prerequisite: CPED 6622 and CPED 6224. Material fee.

CPED 6289. New Literacies Coach and Reading Specialist. 3 Credits.

Contemporary issues and conditions influencing literacy/reading leadership roles and the expanded roles of the new literacy reading coach and reading specialist. Topics include designing and evaluating interdisciplinary literacy education environments. Students work with educators on instructional and professional development activities to meet the literacy education needs of children. Prerequisites: CPED 6224 and departmental approval.

CPED 6292. Internship: Reading. 3-6 Credits.

Limited to graduate students in reading and literacy education. Experience in a selected area of teaching or supervisory service in field-based programs. Prerequisite: permission of instructor.

CPED 6305. Foundations of Curriculum Theory. 3 Credits.

Examination of the educational ideas of individuals and groups that have influenced American and international curriculum development and practice during the 20th and 21st centuries. Comparisons of the issues, models, and principles that have guided curricular thought, development, and innovation.

CPED 6340. Teacher Leadership in Education. 3 Credits.

From the perspectives of educational theory and practice, the ideals and realities of contemporary public school teaching are viewed within a system of local, state, and federal organizations, with the goal of enhancing the role of teachers as knowledgeable and effective leaders in their profession. Material fee.

CPED 6353. Post-Master's Internship in Curriculum and Instruction. 3-6 Credits.

Supervised professional internship in curriculum, instruction, teaching, research, or policymaking. Internships are individually arranged. (Same as SPED 8353).

CPED 6365. Perspectives and Research in Teaching Computer Science. 3 Credits.

CPED 6366. Perspectives and Research in Teaching English. 3 Credits.

Prerequisite: the appropriate subject content course from CPED 6545 through CPED 6550.

CPED 6367. Perspectives and Research in Teaching Science. 3 Credits.

Significant trends, findings, and perspectives in science education in the United States from the early 19th century to the present.

CPED 6368. Perspectives and Research in Teaching Social Studies. 3 Credits.

Deepens students' understanding of the social studies curriculum through analysis of current research, theory, and practice, and application of this knowledge to instructional planning.

CPED 6370. Perspectives and Research in Teaching Mathematics. 3 Credits.

Survey of the history of mathematics, mathematics education research, instructional design, and the teaching of science, technology, engineering, and mathematics (STEM) curriculum standards. The impact of history in the field and research on teaching.

CPED 6409. Reading Children's Literature Across the Curriculum. 3 Credits.

Participants read and analyze multicultural children's literature (from folktale to nonfiction) while simultaneously practicing discussion, dramatization, art, and writing response strategies suitable for involving all students and integrating literature across the school curriculum.

CPED 6410. Reading Children's Literature across the Curriculum. 2 Credits.

Participants read and analyze multicultural children's literature (from folktale to nonfiction) while simultaneously practicing discussion, dramatization, art, and writing response strategies suitable for involving all students and integrating literature across the school curriculum.

CPED 6411. Elementary School Curriculum and Methods. 3 Credits.

A comprehensive block course with subsections in mathematics, science, language arts, and social studies. Integrated with CPED 6635. May be repeated for up to 15 credits; with permission, up to four blocks (to a total of 12 credits) may be taken in one semester. Admission by permission of advisor. Material fee.

CPED 6412. Elementary School Curriculum and Methods. 2 Credits.

A comprehensive block course with sections in mathematics, science, language arts, and social studies. Integrated with CPED 6635. Pre-service teachers taking the four sections learn to be successful teachers of elementary methods in all content areas, including how to incorporate content and pedagogy into practice at their internships. May be repeated for up to 8 credits; with permission, up to four blocks (to a total of 8 credits) may be taken in one semester. Restricted to Admission by permission of advisor.

CPED 6507. Instructional Models and Classroom Management. 3 Credits.

The interconnections between effective instruction and positive classroom management. Through planning, implementing, and evaluating learning activities that apply research-based practices, students link instructional and management strategies to specific content and thinking goals. Microteaching lab. Material fee.

CPED 6530. Assessment in the Secondary Classroom. 3 Credits.

Key concepts and principles in the field of educational assessment, with emphasis on practical applications for classroom teachers. Students design and evaluate a range of assessment tools in their content areas.

CPED 6532. Professional Internship in Middle School Education. 3-6 Credits.

Supervised internship in middle schools; required seminar. Admission by permission of instructor. Material fee.

CPED 6534. Professional Internship in Secondary Education. 3-6 Credits.

Supervised internship; required seminar. Admission by permission of instructor. Material fee.

CPED 6544. Educational Technology and Computer Literacy Methods. 3 Credits.

Computers and related technologies in educational settings. Using national technology standards for teachers as a framework, the course combines discussion of key issues related to technology in education, demonstration of technology-related instructional methods, and hands-on computer use and materials development. Material fee.

CPED 6545. Teaching Computer Science in Secondary Schools. 3 Credits.

Theoretical, curricular, and practical considerations. Thirty hours of field experience in a secondary classroom is required. Material fee.

CPED 6546. Teaching English in Secondary Schools. 3 Credits.

Offers theoretical, curricular, and practical considerations for teaching the content area concerned. Requires a 30-hour field experience in a secondary classroom. Prerequisite: CPED 6606 and CPED 6507 and the approved certification course work in the content area. Material fee.

CPED 6547. Teaching Science in Secondary Schools. 3 Credits.

Offers theoretical, curricular, and practical considerations for teaching the content area concerned. Requires a 30-hour field experience in a secondary classroom. Prerequisite: CPED 6606 and CPED 6507 and the approved certification course work in the content area. Material fee.

CPED 6548. Teaching Social Studies in Secondary Schools. 3 Credits.

Theoretical, curricular, and practical considerations. 30-hour field experience in a secondary classroom is required. Material fee. Prerequisites: CPED 6606, CPED 6507.

CPED 6549. Teaching Art in Secondary Schools. 3 Credits.

Theoretical, curricular, and practical considerations. Material fee.

CPED 6550. Teaching Mathematics in Secondary Schools. 3 Credits.

Introductory course in mathematics teaching that derives its goals from pedagogy standards for secondary mathematics developed in collaboration with the National Council of Teachers of Mathematics (NCTM). Focus on developing and understanding middle and high school curriculum standards. Material fee.

CPED 6551. Second Language Instruction. 3 Credits.

Offers theoretical, curricular, and practical considerations for teaching the content area concerned. Requires a 30-hour field experience in a secondary classroom. Prerequisite: CPED 6606 and CPED 6507 and the approved certification course work in the content area. Material fee.

CPED 6554. Issues, Study & Practices-ESL. 3 Credits.

A critical review of scholarship and research findings in English as a second language. Major policy issues and implications that relate to ESL practice.

CPED 6555. Educating Language Minorities. 3 Credits.

A study of federal, state, and local policies and issues affecting the education of linguistically diverse populations. Resources for use with specific linguistically diverse groups.

CPED 6556. Linguistic Applications in English as a Second Language. 3 Credits.

A study of the science of language (phonology, morphology, syntax, semantics) and how its different branches (descriptive, social, applied, etc.) may be used for ESL teacher training, classroom instruction, material development, evaluation, research, and policy development.

CPED 6557. Second Language Acquisition. 3 Credits.

Nature of first and second language acquisition and development; emphasis on sociolinguistics and psycholinguistics most pertinent to educational settings.

CPED 6604. Perspectives in American Education. 3 Credits.

Historical and social development of education in the United States; evolution of American education related to the growth of the nation and the changing social order; examination of selected issues in contemporary education.

CPED 6606. Theories of Learning and Development. 3 Credits.

A comprehensive investigation of the complex relationship between teaching and learning. How learning takes place, how it is motivated, and how it is influenced. Material fee.

CPED 6608. Development and Diversity. 3 Credits.

Student diversity in relation to theories of human growth and development. Diverse student strengths and needs; the special needs population; dynamics of inclusion; and intercultural issues related to the teaching/learning process. Material fee.

CPED 6622. Foundations of Reading Development. 3 Credits.

Theories of printed text reading acquisition and development; strategic processes of teaching and learning from printed texts; linguistic, cognitive, developmental, sociocultural, and affective dimensions and models of reading; design and implementation of meaningful reading instruction.

CPED 6623. Foundations of Reading Development. 2 Credits.

Basic theories and processes of reading acquisition and assessment; linguistic, cognitive, developmental, social, and affective bases of reading; influences of media, instructional strategies, including formal and informal assessment. Design and implementation of instruction in critical literacy.

CPED 6624. Foundations and Research of Literacy and Reading Education. 3 Credits.

Study of the scholarship on foundational and new literacy knowledge, concepts, and practices. Topics include models of literacy, theories and relations of multimodal and printed text reading (e.g., linguistic, psychological, and sociocultural), and the uses of these theories for the teaching and learning of literacies.

CPED 6626. Diagnostic Teaching of Reading in Secondary School. 3 Credits.

Collection of diagnostic data; construction of informal traditional and non-traditional reading and writing tests; other instruments of evaluation; selecting and planning activities suitable to specific problems. Prerequisite: at least one previous course in reading.

CPED 6627. Teaching Second Language Reading and Writing. 3 Credits.

Acquisition and continuing development of content literacy, including integrated methods, media, and teaching demonstrations geared toward second language learning requirements. Material fee.

CPED 6628. Literacies in Informal Learning Environments. 3 Credits.

How culture, language, and out-of-school literacy experiences, particularly those in museums, influence attitude, learning, affective and interdisciplinary knowledge, and teaching practices. New literacy research, curriculum, and literature, and how social and cultural factors contribute to the literacies of everyday life.

CPED 6635. Professional Internship in Elementary Education. 3-6 Credits.

Supervised internship; required seminar. Admission by permission of instructor. Material fee.

CPED 6691. Interdisciplinary Adolescent Literacies. 3 Credits.

Theory and practice of interdisciplinary adolescent literacies studied in the context of the interactions between the domain-specific and strategic processes involved in teaching and learning from printed text and other media in science, literature, mathematics, social studies, and the arts.

CPED 6701. Arts in the STEM Curriculum. 3 Credits.

In-depth coverage of approaches to integrating arts and design into STEM curricula ("STEAM") for student learning; criteria and approaches for assessing student learning in arts-integrated STEM curricula; building a culture of craftsmanship; and collaborating with arts and design professionals.

CPED 6702. Integrating Engineering in the Math and Science Classroom. 3 Credits.

Approaches to integrating engineering and design into K-12 math and science classrooms. Students develop competencies by engaging in various forms of engineering and design, from small "design challenges" to more complex, semester-long engineering projects.

CPED 6703. Advanced STEM Teaching Methods. 3 Credits.

Advanced approaches for integrating science, technology, engineering, and mathematics into the K-12 classroom.

CPED 8100. Special Topics. 1-12 Credits.

Topics and fees announced in the Schedule of Classes.

CPED 8101. Research and Independent Study. 1-3 Credits.

Individual research under guidance of a faculty member. Program and conferences arranged with an instructor.

CPED 8199. Federal Educ Policy Institute. 3 Credits.

CPED 8309. Supervising Preservice Clinical Experience. 1-3 Credits.

.

CPED 8325. Advanced Ideas in Curriculum Theory. 3 Credits.

Examination of reviews and research studies on curriculum theory. Focus on trends, values, interpretations, design systems, and evaluation. Prerequisite: CPED 6305.

CPED 8330. Paradigms of Instruction and Assessment. 3 Credits.

A foundation of theory, models, and variables that have contributed to the fields of instruction and assessment. The major paradigms of instruction and assessment. Material fee.

CPED 8331. Seminar in Instruction. 3 Credits.

Analysis of alternative models of instruction and the factors that influence the instructional process in schools. Connections among learning, instructional theory, research, and practice. Material fee.

CPED 8332. Search of the Literature in Curriculum and Instruction. 3 Credits.

Analysis of types of literature reviews in the field of curriculum and instruction and development of a literature review; the relationship of theory building to review of literature, and how research questions arise from extant theory and related literature. For doctoral students in curriculum and instruction, to precede CPED 8998. Material fee.

CPED 8333. School Reform through Professional Development. 3 Credits.

Fundamental perspectives of school reform through professional development of educators (K-12); evolution of contemporary professional development models and trends: examination of interactive modules using selected professional development activities. Material fee.

CPED 8334. Seminar in Research in Curriculum and Instruction I. 1-3 Credits.

Models of curriculum and instruction research that span various research methods.

CPED 8335. Seminar in Research in Curriculum and Instruction II. 1-3 Credits.

Development of initial research proposal ideas for the dissertation.

CPED 8340. Education Policy, Reform & Teacher Leadership. 3 Credits.

This online course will engage students in the study of education policies and reforms that specifically focus on teaching and teachers. Further, this course will examine teacher leadership as it impacts school reform through professional development initiatives that sustain change efforts. Four areas of study ground the focus of this course: education policy, change theories and school reform, teacher leadership, and professional development. Restricted to Doctoral level course; masters students by permission of instructor. Prerequisites: None.

CPED 8341. Evaluation in Curriculum & Instruction. 3 Credits.

This course will teach doctoral and masters' students about evaluating curriculum and instruction related programs, projects, or policies. This course provides students with the theoretical grounding and practical experiences they need to develop and implement evaluation research. Students in the course are required to: 1) read current literature that covers the breadth of theories and models applied in the field of evaluation, 2) participate in live online discussions and instructor presentations and, 3) design, implement and report on a targeted evaluation of a curriculum and instruction related program, project or policy. Restricted to For doctoral students. Masters students with approval of instructor.

CPED 8354. Doctoral Internship: Teacher Education. 3-6 Credits.

Supervised professional internship in college teaching, administration, supervision, research, policymaking, or private agency function. Admission by permission of advisor.

CPED 8998. Doctoral Seminar in Curriculum and Instruction. 3-6 Credits.

Review of literature; preparation of a dissertation proposal and a manuscript of publishable quality. Admission by permission of instructor and approval of major advisor. Material fee.

CPED 8999. Dissertation Research. 3-6 Credits.

Prerequisite: CPED 8998.

EDUCATIONAL LEADERSHIP

GRADUATE

Master's programs

- Master of Arts in Education and Human Development in the field of assessment, testing, and measurement in education (p. 1103)
- Master of Arts in Education and Human Development in the field of education policy studies (p. 1107)

- Master of Arts in Education and Human Development in the field of educational leadership and administration (p. 1108)
- Master of Arts in Education and Human Development in the field of educational technology leadership (p. 1108)
- Master of Arts in Education and Human Development in the field of experiential education and Jewish cultural arts (p. 1109)
- Master of Arts in Education and Human Development in the field of higher education administration (p. 1110)
- Master of Arts in Education and Human Development in the field of international education (p. 1111)
- Master of Arts in Education and Human Development individualized program (p. 1111)
- Master of Arts in Teaching in the field of museum education (p. 1112)

Post-master's program

- Education Specialist (p. 1100)

Doctoral program

- Doctor of Education in the field of educational administration and policy studies (p. 1123)
- Doctor of Education in the field of higher education administration (p. 1125)

FACULTY

Professors W.K. Cummings, M.J. Feuer, M.H. Futrell, N.B. Paley, I.C. Rotberg (*Research*), R. Whitaker,

Associate Professors R.A. Chernak, J. Choi, M.D. Corry, S.A. Dannels, J. Gomez (*Chair*), M. Kim, L. Lemasters, N.B. Milman, Y. Nakib, P.H. Stevenson, C.B. Stapp, A.A. Tekleselassie, R.R. Watkins, J.H. Williams

Assistant Professors A.A. Ali, J.K. Clayton, A.J. Collins, W.R. Dardick, P. Ehrensall, L.C. Engel, L.C. Howard, R.C. Jakeman, D. Klasik, L. Malcom-Piqueux, K.A. Sherrill, B.T. Streitweiser, S. Swayze, B.A. Weiss,

Lecturers B. Bowers, L. Lent, J.A. Washburn

COURSES

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000-4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

EDUC 0920. Continuing Research - Masters. 1 Credit.

EDUC 0940. Cont Research: Doctoral. 1 Credit.

EDUC 2701. Museums as Cultural and Educational Resources. 3 Credits.

A general introduction to museums as institutions, sources of information, and places for enjoyment. Classes take place on campus and at museums in the metropolitan area. Admission by permission of instructor.

EDUC 3002. Special Workshops. 3 Credits.

EDUC 6100. Experimental Courses. 1-12 Credits.

Topic to be announced in the Schedule of Classes. May be repeated for credit provided the topic differs.

EDUC 6101. Research and Independent Study. 1-3 Credits.

Individual research under guidance of a staff member. Program and conferences arranged with a program advisor.

EDUC 6112. Foundations of Assessment, Testing, and Measurement in Education. 3 Credits.

Foundations of assessment, testing, and measurement with a focus on basic statistical concepts for assessment data literacy, research design issues for assessments, a review of other educational assessments (IQ and psychological, personality and diagnostic), and other issues with assessment and testing including technology, ethical, and legal issues.

EDUC 6114. Introduction to Quantitative Research. 3 Credits.

Development of a conceptual understanding of research design and quantitative analysis options for the consumer of research. Appropriate use of vocabulary and interpretation of research findings. Critique of research articles and/or development of a small-scale proposal.

EDUC 6116. Introduction to Educational Statistics. 3 Credits.

Fundamentals of descriptive statistics and hypothesis testing; introduction to inferential statistics and research design, distinguishing between nonexperimental, quasi-experimental, and true experimental designs. Designed for those with little preparation in quantitative methods or who are not prepared for Educ 8120.

EDUC 6232. Supervision and Evaluation of Instruction. 3 Credits.

The roles and functions of educational leaders in the areas of curriculum, staff development, instructional supervision, and evaluation of personnel. Theory and practice to increase teacher effectiveness and improve student learning through supervisory strategies.

EDUC 6234. Site-Based Leadership: K-12. 3 Credits.

A general introduction to the principalship. Stresses leadership theory, roles, and management tasks in instruction, curriculum, budget, staff development, supervision, interagency services, student learning, and policy considerations. Site-based management and communication within a changing and diverse school environment.

EDUC 6236. School Law and Policy. 3 Credits.

The legal basis of education and public schools in the United States. Constitutional provisions and federal statutes that guide school law. Legal factors that influence school policy. Consideration of practical school situations for legal implications, development of skills to research legal issues affecting schools, and preventive law measures.

EDUC 6240. Fundamentals of Educational Leadership and the Change Process. 3 Credits.

Current leadership theory and systems behavior in the context of administrative practice in educational settings. Key elements of leadership and management. The impact of context, culture, power, politics, change, communications, and organizational learning on administration.

EDUC 6242. Administrative Issues in Education. 3 Credits.

The impact of major social, political, economic, and education issues on the role of school leaders and the delivery and quality of programs and services.

EDUC 6244. School-Community Relations. 3 Credits.

The purpose, scope, essential elements, and impact of a successful school-community relations program. Community power structures, the roles of policy and leadership, communication techniques for interacting with various audiences and the media, evaluation of public relations and marketing for educational institutions.

EDUC 6246. Seminar: Applied Educational Administration. 3-6 Credits.

Application of the theories and principles of administration to public and private schools. Field experience in a phase of administration and supervision. Admission by permission of instructor.

EDUC 6252. Human Relations Diversity. 3 Credits.

Application of current theory and research findings in human relations to staff motivation, change, conflict management, and communication techniques for working with individuals and groups within organizations.

EDUC 6256. School Business Management. 3 Credits.

Management and control of the business functions of school districts. Assessing, planning, developing, and presenting educational budgets; the legal contexts affecting school business management. Risk management and school-site budgeting.

EDUC 6258. School Finance. 3 Credits.

The financing of public elementary and secondary education in the United States; current revenue sources, distribution decisions, and trends in the fiscal operations of schools. Litigation, finance policies, and equitable investments of public monies.

EDUC 6260. Practicum in Supervision. 3-6 Credits.

Practical experience in supervision of instruction. Admission by permission of instructor.

EDUC 6262. Internship in Supervision and Instructional Leadership. 3-6 Credits.

Service in a school situation directed by the University's faculty and school systems; integration of theory and practice.

EDUC 6264. Problems and Practices in Staff. 3 Credits.

Application of principles and practices concerned with change and evaluation of educational administration.

EDUC 6287. Internship: Administration. 3-6 Credits.

Service in an educational institution or education-related program directed by the University's faculty.

EDUC 6314. History of American Education Reform. 3 Credits.

An examination of how evolving social, economic, and political forces have propelled and opposed American education reform efforts throughout history.

EDUC 6368. Power, Leadership & Education. 3 Credits.

A general introduction to issues of leadership applicable to education settings and to key features of educational organization, including schools, school systems, colleges and universities, and advocacy organizations. Leadership as a process and set of skills. The interaction between leadership styles and organizational contexts.

EDUC 6371. Education Policy. 3 Credits.

An introduction to the development, implementation, and assessment of education policies at national, state, and local levels.

EDUC 6381. Program Evaluation: Theory and Practice. 3 Credits.

Introduction to the theory of social program evaluation, alternative evaluation models and methodologies, and the political and social contexts of evaluation.

EDUC 6388. Analysis of Education Policy Issues. 3 Credits.

Covers a range of education policy options, assessing their advantages and disadvantages based on evidence, and drawing implications for policy formulation. A critical approach is applied to the assigned readings, questioning the sources of evidence, appropriateness of analysis, and validity of the findings. Prerequisite: EDUC 6371, EDUC 6114, or permission of instructor.

EDUC 6392. Practicum in Educational Policy Program Evaluation. 3-6 Credits.

Supervised practical experience in field placements. Admission by permission of instructor. Prerequisite: EDUC 6381.

EDUC 6401. Applying Educational Media and Technology. 3 Credits.

Theory and practice of educational technology. Key characteristics of different media, principles of application, and issues concerning their appropriate use.

EDUC 6402. Computers in Education and Human Development. 3 Credits.

The research and practice surrounding the use of computers in educational and training settings. Students will acquire the practical knowledge necessary to the development and evaluation of computer-related curricula through projects and case studies.

EDUC 6403. Educational Hardware Systems. 3 Credits.

Design and implementation of educational hardware systems, including computers and computer networks.

EDUC 6404. Managing Computer Applications. 3 Credits.

For managers and prospective managers in education and human services who are concerned with the automation of their operations. Basic principles needed to design, implement, and manage an information system. Admission by permission of instructor.

EDUC 6405. Developing Multimedia Materials. 3 Credits.

The design, development, integration, and use of multimedia resources in education and training settings. Students examine and critique multimedia technologies, develop instructional materials, and create a unit or module that applies instructional design theory.

EDUC 6406. Instructional Design. 3 Credits.

Designing, implementing, and evaluating instructional strategies for learners. Assessing needs, writing objectives, selecting curriculum/content, selecting and implementing methods and techniques, selecting appropriate devices and evaluating instruction.

EDUC 6407. Design and Implementation of Educational Software. 3 Credits.

Theory and practice of creating educational software; psychological basis of using software in learning; instructional programs; authoring tools; artificial intelligence applications; interactive media. Students design and evaluate an educational program. Prerequisite: EDUC 6401 or permission of instructor.

EDUC 6421. Critical Issues in Distance Education. 3 Credits.

Historical, conceptual, theoretical, and practical issues associated with distance education as a foundation for research and practice in the domain of distance education as well as adult learning, educational systems design, and school administration and policy.

EDUC 6422. Instructional Needs Analysis. 3 Credits.

An introduction to the role of instructional needs analysis and assessment. The design and development of instruction. Key elements of the instructional design cycle, including data analysis.

EDUC 6423. Technology and Disabilities. 3 Credits.

Assistive technology as it impacts the lives of people with disabilities, including the performance of tasks related to employment, education, and activities of daily living.

EDUC 6424. Learning Technologies and Organizations. 3 Credits.

The role of learning technology in organizations, learning in the workplace, and knowledge management in corporations, schools, and universities.

EDUC 6425. Developing Effective Training with Technology. 3 Credits.

Development of skills in planning and producing effective technology-rich training that meets institutional and organizational needs.

EDUC 6426. Computer Interface Design for Learning. 3 Credits.

Human-computer interaction, both in general and with emphasis on issues in education. General design aspects; theories, principles, and guidelines related to human-computer interaction.

EDUC 6427. Advanced Instructional Design. 3 Credits.

Development of a prototype instructional design project and documentation report requiring rapid design and development strategies. Prerequisites: EDUC 6406.

EDUC 6428. Developing Digital Professional Portfolios. 3 Credits.

Students create a digital professional portfolio, using advanced skills in the design, development, integration, and use of multimedia resources.

EDUC 6441. Internship in Educational Technology Leadership. 3 Credits.

Students are assigned to a cooperating agency and work in consultation under the guidance of the course instructor. Admission by permission of instructor.

EDUC 6442. Educational Technology Leadership Master's Project. 1-6 Credits.

Students design, develop, implement, and evaluate an individual project. Admission by permission of instructor.

EDUC 6500. Intro Stu Aff & Higher Ed. 3 Credits.

Introduction to the study of higher education and the student affairs profession, including the ways in which broader aspects of higher education research, theory and policy inform the work of student affairs practitioners. Historical and current contexts of American higher education, the academic community, and existing issues and emerging challenges surrounding the practice of student affairs in the current higher education landscape.

EDUC 6510. Administration of Higher Education. 3 Credits.

Government, organization, and administration of colleges and universities; duties of trustees and administrators.

EDUC 6520. Foundations of College Student Development. 3 Credits.

College student development theories, practices, and problems, including historical overview and human development theories related to college students.

EDUC 6525. Managing College Student Services Programs. 3 Credits.

An overview of student affairs administrative practices, including planning models, budgeting, policy development, program development, facility management, and team building. Admission by permission of instructor.

EDUC 6530. Intercultural Campus Ldrshp. 3 Credits.

This course is designed to explore intercultural leadership skills through the lens of understanding group identity differences, multicultural competence, and the foundations of effective advocacy for social justice. Lectures, readings, class discussions, written assignments, and experiential activities are used to promote an understanding of intercultural leadership skills to help create inclusive learning environments. The course will explore how oppression and privilege relate to differences based on gender, race and ethnicity, sexual orientation, and (dis)ability. Students will also study how these identities intersect with each other.

EDUC 6540. Group and Organizational Theories. 3 Credits.

Review of major organizational theories inside and outside higher education, including systems, institutional, cultural, cognitive, environmental, ecological, as well as power and influence.

EDUC 6550. Assessment in Higher Ed. 3 Credits.

Key concepts in the assessment of outcomes in higher education and in student affairs. History of the assessment movement in higher education, strategies and methods for measuring outcomes of the college experience, identifying the limitations of operational processes that can be improved, and current issues in measuring student success in higher education.

EDUC 6555. Higher Education Policy. 3 Credits.

Assessment of policies that impact higher education, including the relationship of K-12 policy to higher education. Policy networks and mechanisms of policymaking. Policy development and assessment.

EDUC 6560. Legal Problems in Higher Education. 3 Credits.

Investigation of legal problems in higher education related to the legal structure of higher education, religious concerns, students, faculty, and academic programs.

EDUC 6565. Financing Higher Education. 3 Credits.

Analysis of private, state, federal, and other revenue sources; strategic planning, program budgets, and financial methods and practices.

EDUC 6570. Educational Planning. 3 Credits.

An examination of the planning movement in education: its historical development and the recent shift in premises, context, and expectations. Different approaches to the planning process; its role in research; and overview of main analytical techniques currently in use.

EDUC 6572. Dynamics of Change. 3 Credits.

An analysis of the process of change, particularly as it relates to educational policy. Comparison of theories; analytical tools; historical precedents; examples of federal education policies.

EDUC 6575. Personnel Administration. 3 Credits.

Human resource management: planning, recruitment, selection, placement and induction, staff development, rewards, and negotiations. Issues and legislation that influence personnel functions and policy; communication skills for human resource leadership.

EDUC 6579. Managing Multicultural Environments. 3 Credits.

Application of multicultural research in identifying key elements for managing diverse environments, communicating with families, planning professional development activities, and increasing student learning.

EDUC 6585. Master's Internship in Higher Education Administration. 3-6 Credits.

Supervised field experience in higher education settings. Admission by permission of instructor.

EDUC 6601. International and Comparative Education. 3 Credits.

Theoretical foundations of comparative and international education; systematic investigation of the structure and practices of selected representative school systems in different parts of the world. Emphasis on development of methodologies for comparative study.

EDUC 6602. Regional Studies in International Education. 3 Credits.

In-depth study of education in a selected region of the world. Structures and issues facing education systems in social, political, economic, cultural, and historical context. Prospects of education for human national development. May be repeated for credit provided the region differs.

EDUC 6610. Programs and Policies in International Education. 3 Credits.

Overview of policies and programmatic responses to issues in international education. Topics include education and development, international higher education and student services, and education and marginalized people. May be repeated for credit provided the topic differs.

EDUC 6615. Internationalizing U.S. Schools. 3 Credits.

EDUC 6620. Strategies and Analysis in International Education. 3 Credits.

Strategies for improving education in international contexts. Topics include education and development, international higher education and student services, or education and marginalized people. May be repeated for credit provided the topic differs.

EDUC 6630. International Experiences. 1-6 Credits.

Study and research in a foreign country as part of a group program. Admission by permission of the instructor.

EDUC 6631. Internship: International Education. 1-6 Credits.

Service in an international education institution or related individually designed program planned to enable the student to connect theory to practice. Admission by permission of instructor.

EDUC 6640. Selected Topics in International Education. 3 Credits.

Current trends, themes, and issues in international education. May be repeated for credit provided the topic differs.

EDUC 6650. Education and National Development. 3 Credits.

In terms of the basic assumption that education contributes to national development, the course examines the role education plays in the process of national development in advanced industrial societies and societies moving to industrialism.

EDUC 6660. Capstone in International Education. 3 Credits.

Review of core topics in international education and completion of major supervised project or paper. Taken near the end of the master's program in lieu of the Comprehensive Examination.

EDUC 6701. Museums as Institutions I: Fundamentals. 3 Credits.

An overview of the museum as an environment for learning, considering the influence of institutional history and organizational structure on the museum's mission of serving the public.

EDUC 6702. Facilitating Museum Learning I: Fundamentals. 3 Credits.

Theory of and practice in the development of communication skills in the museum. Educational concepts; teaching strategies and techniques; institutional liaison and group process.

EDUC 6703. Museum Audiences. 3 Credits.

A survey of the museum's diverse audience, emphasizing implications for effective programming, with attention to audience research.

EDUC 6704. Facilitating Museum Learning II: Field Placement and Seminar. 3-6 Credits.

Sixteen-hours per week placement in local educational institutions supervised by GW faculty. On-campus seminar focuses on human development and learning theory.

EDUC 6705. Museums as Institutions II: Field Placement and Seminar. 6 Credits.

Thirty-two hours-per-week supervised placement in education departments in area museums; students carry out projects in cooperation with the site. On-campus seminar includes presentations by leading practitioners.

EDUC 6706. Evaluating Museum Learning. 3 Credits.

Evaluation and research methods appropriate to the museum setting. Review of research on museum audiences; designing exhibition and program evaluations.

EDUC 6707. Museum Proposal Writing. 3 Credits.

Preparation of proposals for museums seeking support from public and private funders. Proposals are developed in cooperation with local museums.

EDUC 6709. Interpretation in the Historic House Museum. 3 Credits.

Seminar integrating advanced practices of museum education with current scholarship in architectural history, material culture, and social history. Extensive use of Washington museum resources. Same as AMST 6709. Admission by permission of instructor.

EDUC 6710. Museums and Technology. 3 Credits.

Applications of technology that link the public with the museum: Internet exhibitions, interactive computer programs, video conferencing, the electronic classroom. Guest lectures, field trips, and group projects.

EDUC 6711. Museum as a Learning Environment. 3 Credits.

Exploration of why visitors frequent museums and how they create personal meaning. Approaches to support the audience's engagement with the museum's resources.

EDUC 6998. Thesis Research. 3 Credits.

Thesis research.

EDUC 6999. Thesis Research. 3 Credits.

EDUC 8100. Experimental Courses. 1-12 Credits.

Topic to be announced in the Schedule of Classes. May be repeated for credit provided the topic differs.

EDUC 8101. Research and Independent Study. 1-3 Credits.

Review of literature. Preparation of a dissertation proposal and a manuscript of publishable quality.

EDUC 8110. Advanced Study: Ideas, Issues, and Practices in Education. 3 Credits.

For precandidates for the Ed.D. Alternative means of responding to the complexities of the educational process. Topics vary but concern education as an individual process and as sociocultural preservation and renewal. May be repeated for credit.

EDUC 8120. Group Comparison Designs and Analyses. 3 Credits.

Designs and analyses to assess differences for more than two groups when compared on one dependent variable. Fixed, random, and mixed effects ANOVA and ANCOVA models within factorial design, multiple comparison tests, and introduction to regression analysis. Prerequisites: EDUC 6116.

EDUC 8122. Qualitative Research Methods. 3 Credits.

A general introduction to several major qualitative research traditions (e.g., biography, grounded theory, ethnography, phenomenology, and case study). Application of qualitative research design and procedures, including preliminary data collection, analysis, and writing.

EDUC 8130. Survey Research Methods. 3 Credits.

Techniques used to collect an array of information from a large number of people through structured interviews and mailed, e-mailed, or web-based questionnaires. Defining the research question and design; sampling, survey development, data collection procedures, pretesting, and data handling. Prerequisite: EDUC 8120, EDUC 8122.

EDUC 8131. Case Study Research Methods. 3 Credits.

Techniques used to examine one or a few complex cases, collecting data from several types of sources and by several methods. The course covers design, data collection, and data analysis/integration. Prerequisite: EDUC 8122.

EDUC 8140. Ethnographic Research Methods. 3 Credits.

Techniques used to examine systematically the contemporary daily life of a given group in its natural setting, focusing on culture—the recurring patterns of thought and social relations. Issues of research design and data collection and analysis. Prerequisite: EDUC 8122.

EDUC 8142. Phenomenological Research Methods. 3 Credits.

Techniques used to elicit and recognize perceptions, interpretations, motives, expectations, and imaginations. The framing of appropriate research questions, data collection and analysis, and the statement of conclusions. Prerequisite: EDUC 8122.

EDUC 8144. Discourse Analysis. 3 Credits.

Techniques used to examine verbal and nonverbal communication to understand identity, beliefs, intentions, relationships, and culture. The framing of appropriate research questions; data collection and analysis. Prerequisite: EDUC 8122.

EDUC 8170. Educational Measurement. 3 Credits.

Classical and modern measurement theory, item response theory, and factor analysis. Educational and psychological instrument development and validation. Interpretation of scale scores and assessment of instrument adequacy. Prerequisites: EDUC 8120. Recommended background: EDUC 6112 or equivalent.

EDUC 8171. Predictive Designs and Analyses. 3 Credits.

Techniques used to assess how independent variables are related to one dependent variable. Multiple linear regression, logistic regression, ordinal regression, and non-linear regression. Appropriate research questions, data interpretation, and design within generalized linear modeling. Prerequisites: EDUC 8120.

EDUC 8172. Multivariate Analysis. 3 Credits.

Techniques for assessment of relationships among multiple independent variables and dependent variables. Multivariate analysis of variance (MANOVA), multivariate analysis of covariance (MANCOVA), discriminant analysis, and exploratory factor analysis. Prerequisite: EDUC 8171.

EDUC 8173. Structural Equation Modeling. 3 Credits.

Multivariate techniques used for assessment of structural (causal) relations among latent (unobserved) variables with multiple observed indicators: observed and latent variable path analysis and confirmatory factor analysis. Latent means analysis and latent growth modeling. Prerequisite: EDUC 8171.

EDUC 8174. Hierarchical Linear Modeling. 3 Credits.**EDUC 8175. Item Response Theory. 3 Credits.**

Conceptual, mathematical, and applied issues in item response theory. Dichotomous models, item response theory software used for estimation and model fit, test construction, differential item functioning, and item response theory equating. Prerequisites: EDUC 8170.

EDUC 8177. Assessment Engineering. 3 Credits.

In-depth coverage of topics related to assessment engineering, including cognitive model development using cognitive diagnostic assessment and formative assessment modeling, item model development using auto item generation, and automated test assembly and psychometric model development using computer adaptive testing. Introduction to current assessment engineering and educational big-data analytic applications. Prerequisites: EDUC 8170.

EDUC 8179. Capstone Project in Assessment, Testing, and Measurement in Education. 3,6 Credits.

Multifaceted assessment that serves as a culminating academic and intellectual experience for students during the end of their academic program. The capstone project is similar to a thesis or dissertation but may take a variety of forms. Restricted to Permission of instructor. Prerequisites: EDUC 8170.

EDUC 8276. Seminar: Administration and Supervision. 1-12 Credits.**EDUC 8277. Adv Instr LdrshpSchool Improv. 3 Credits.****EDUC 8280. Critical Review of Educational Leadership Literature. 1,3 Credit.**

The techniques, tools, and presentation of critical reviews and syntheses of educational literature used to inform forthcoming research. Systematic mapping of what is known and deriving research questions, conceptual frameworks, and applicable methods. Prerequisite: an approved dissertation topic or permission of instructor.

EDUC 8320. The Politics of Education. 3 Credits.

Examination of the contextual factors (political, economic, and historical) and the nature of political decision making on education issues, primarily at the state and local level. Prerequisite: EDUC 6371.

EDUC 8321. Economics of Education. 3 Credits.

Application of economic theory and analysis to education problems and policies. Contemporary education reforms that are adopted to improve educational outcomes are analyzed with emphasis on their complexities. Prerequisites: EDUC 6371, EDUC 8120.

EDUC 8322. Education Policy Implementation. 3 Credits.

The evolution and implementation of education policies. Analysis of policy implementation at varying governance levels and types of educational systems. Policy is analyzed as a process and as it interacts with organizational, social, economic, and political factors. Prerequisites: EDUC 6371.

EDUC 8323. Policies of Education Equity. 3 Credits.

Analysis of the development, implementation, and evaluation of education equity policies, with consideration of their context, formulation, and application. Prerequisite: EDUC 6371.

EDUC 8325. Policy Design: Accountability in Education. 3 Credits.

Issues of policy design that underlie the push for greater accountability in education. Students review research articles and conceptual argument, discuss evidence on actual practice, and identify strengths and weaknesses of a range of policy tools. Prerequisite: EDUC 6371.

EDUC 8329. Seminar in Program Evaluation. 3 Credits.

Contemporary problems and issues in evaluation of social programs: design, implementation, analysis, and utilization. Prerequisite: EDUC 6381 and approval of instructor.

EDUC 8334. Doctoral Internship in Educational Policy. 3-6 Credits.

Methods of analysis used in the study of educational policy issues. Case studies on a range of policy issues and trends, including testing and accountability, school finance, school choice, and the federal role. Prerequisite: EDUC 6371, EDUC 6114, or permission of instructor.

EDUC 8340. Methods of Policy Analysis in Education. 3 Credits.

Methods of analysis used in the study of educational policy issues. Case studies on a range of policy issues and trends, including testing and accountability, school finance, school choice, and the federal role. Prerequisite: EDUC 6371, EDUC 6114, or permission of instructor.

EDUC 8345. Advanced Studies in Educational Policy Analysis. 1-12 Credits.

The process by which education policies are designed, adopted, and implemented by education systems. Case studies of specific policies, examining their assumptions and objectives, the criteria for assessing their effectiveness, and their governance at federal, state, and local levels. Prerequisite: EDUC 6371, EDUC 8120, or permission of instructor.

EDUC 8505. Seminar: Higher Education Administration. 1-12 Credits.**EDUC 8525. College and University Curriculum. 3 Credits.**

Development, patterns, creative design, issues, problems, evaluation, and trends in the higher education curriculum.

EDUC 8530. Leadership in Higher Education. 3 Credits.

Cognitive leadership theory as articulated in higher education: what leadership is, how it works, how it is practiced, how it is considered by scholars and practitioners, and how it is researched.

EDUC 8540. History of Higher Ed. 3 Credits.

History, philosophy, scope, purpose, present status, programs, and trends in higher education in the United States.

EDUC 8560. Case Studies in Higher Education Administration. 3 Credits.

An analysis of case studies related to administrative functions in colleges and universities.

EDUC 8565. College and University Governance. 3 Credits.

Organizational and administrative structures, patterns, and relationships in higher education.

EDUC 8580. The Community/Junior College. 3 Credits.

The two-year college as it relates to secondary education, four-year colleges, and universities. Objectives, curricula, students, faculty, legal concerns, and special problems of two-year colleges.

EDUC 8582. Administration and Governance of Two-Year Colleges. 3 Credits.

A study of the community/junior college, focusing on administrative and governance patterns and national, regional, state, and local influences, as well as the theory and structure of two-year college organization.

EDUC 8585. Doctoral Internship in Higher Education Administration. 3-6 Credits.

Service in a higher education situation directed by the University and the cooperating institution to integrate theory and practice. Admission by permission of instructor.

EDUC 8594. Current Issues in Higher Education. 3 Credits.

Analysis of contemporary issues in higher education practice and scholarship.

EDUC 8998. Pre-Dissertation Seminar. 3-6 Credits.

Required of all departmental Ed.D. degree candidates. Approval of the dissertation research proposal by the dissertation committee is necessary for successful completion of the seminar. Admission by permission of instructor.

EDUC 8999. Dissertation Research. 3,6 Credits.

Prerequisite: EDUC 8998.

HUMAN AND ORGANIZATIONAL LEARNING

GRADUATE

Master's programs

- Master of Arts in Education and Human Development in the field of organizational leadership and learning (p. 1112)
- Master of Arts in Education and Human Development individualized program (p. 1111)

Doctoral program

- Doctor of Education in the field of human and organizational learning (p. 1125)

FACULTY

Professors D. Burley, S. Khilji, M. Marquardt (*Chair*), D.R. Schwandt,

Associate Professors A.J. Casey, N.E. Chalofsky, M. Cseh, E. Goldman, R.B. Morgan, J. Storberg-Walker

Assistant Professor E.M. Scully-Russ

COURSES

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000–4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

HOL 0920. Continuing Research - Master's. 1 Credit.

HOL 0940. Cont. Res. - Doctoral. 1 Credit.

HOL 6100. Special Workshop. 1-12 Credits.

Topics to be announced in the Schedule of Classes. May be repeated for credit.

HOL 6101. Research and Independent Study. 1-3 Credits.

Preparation of an in-depth project under the guidance of a faculty member. The course is arranged individually with the program advisor.

HOL 6700. Human Behavior and Learning in Organizations. 3 Credits.

How individuals and groups learn and interact within organizations and how organizations function and learn. Motivation, group dynamics, leadership, systems theory, organizational culture, and change.

HOL 6701. Adult Learning. 3 Credits.

Premises and theories used to meet learning needs of adults. Overview of various learning theories and the impact of various stages of adult development on learners. Topics including self-directed learning, accommodating individual learning needs, and creation of effective learning techniques. Same as HDEV 6701.

HOL 6702. Organizational Change I. 3 Credits.

The assessment of organizational conditions, including collection and interpretation of information, operations, and problems (human, structural, and systemic). Course participants collect and analyze data to provide solutions to enhance organizational effectiveness.

HOL 6703. Organizational Change II. 3 Credits.

Introduction to the concepts, methods, and skills required for effective consultation in organizations, as either an internal or an external consultant. Meeting the human needs in organizations, while improving performance and productivity. Students undertake a consulting project in an organization.

HOL 6704. Leadership in Organizations. 3 Credits.

Developments in theory and research centered on organizational leadership. Emphasis on various types of leadership including transformational, responsible, authentic, and ethical.

HOL 6705. Strategic Change. 3 Credits.

Overview of best practices for organizing and managing people and organizations to compete successfully. Leading an organization through a process of self-examination, redesign, and change that results in sustained effectiveness, learning, and high performance.

HOL 6706. Current Issues in Organizational Leadership. 3 Credits.

Current issues and future trends in organizational leadership. Students gather data and analyze key topics associated with areas such as talent management, leading through demographic shifts, leadership in a globalized world, leading global change, and developing new forms of leadership, ethics, and sustainability.

HOL 6707. Organizational Learning. 3 Credits.

Learning in an organizational context. Processes through which the organization as a system learns, unlearns, changes, and disseminates information. Organizational learning theories address the processes and barriers of gathering, using, developing, and retaining knowledge in organizations.

HOL 6708. Global Leadership. 3 Credits.

The changes taking place in organizations due to the process of globalization and the requirements for leadership. The changing global environment, how those changes influence operational and strategic issues within global organizations, and how a leader can better understand the global environment to help organizations meet these new challenges.

HOL 6709. Leadership Development. 3 Credits.

The processes employed to develop leaders/leadership and how individuals change as a result of the process. Examination of the context within which leadership is developed. Prerequisites: HOL 6704.

HOL 6710. Globalization, Change, and Learning. 3 Credits.

With learning as the coping strategy, focus on how policymakers and global leaders can be helped to take advantage of the opportunities and address the challenges that globalization presents.

HOL 6720. Advanced Strategies for Adult Learning. 3 Credits.

Theoretical and practical strategies of adult learning in various settings, including corporate environments. Learning strategies, such as creative thinking and self-directed learning. Critical adult learning issues.

HOL 6721. Assessing the Impact of Organizational Change. 3 Credits.

Knowledge and skills needed to evaluate the impact and return on investment of change efforts. Focus on how to plan and conduct systematic evaluations of change efforts, including the choice, development, and use of various tools for measuring individual, group, and organizational change. Assessing the success of the planned change.

HOL 6724. Increasing the Capacity to Learn. 3 Credits.

Identification of actions that can help increase the capacity to learn. Emphasis on experimental learning and critical reflection.

HOL 6725. Internship in Human Resource Development. 3-6 Credits.

Supervised experience in selected areas of human resource development and adult education. Admission by permission of the program advisor.

HOL 6742. Design of Adult Learning Interventions. 3 Credits.

Designing and implementing adult learning programs. Topics include instructional design techniques, designing effective programs, program planning and marketing techniques, and conducting needs assessments and evaluations of adult learning programs.

HOL 6743. Action Learning. 3 Credits.

Processes, principles, and skills necessary to participate in and lead both single- and multiple-problem action learning sets. The six dimensions of action learning; educational psychological, political, sociological, and management theories underlying action learning.

HOL 6744. Meaningful Workplaces. 3 Credits.

Characteristics of the humane organization and of meaningful work. Intrinsic motivation, work-life balance, and the workplace community.

HOL 6745. Technology and Human Resource Development. 3 Credits.

How technology can best be utilized in the HRD environment. Discussion of CBT, use of the Internet for instruction, and distance learning techniques.

HOL 6746. Work Groups and Teams in Organizations. 3 Credits.

Exploration of the nature of work groups and teams as they are utilized in organizational settings. Group and team dynamics, facilitating and leading skills, and group roles and culture.

HOL 6747. International and Multicultural Issues in Organizations. 3 Credits.

The impact of culture and globalization on U.S. and international human and organizational learning programs and practices. Adult learning and organizational change approaches that develop and utilize the synergy of a global workforce.

HOL 6998. Thesis Research. 3 Credits.

Thesis research.

HOL 6999. Thesis Research. 3 Credits.

Thesis research.

HOL 8100. Special Topics in Human and Organizational Learning - Doctoral Studies. 3 Credits.

Topics to be announced in the Schedule of Classes. May be repeated for credit.

HOL 8101. Research and Independent Study. 1-3 Credits.

HOL 8700. Foundations of Human and Organizational Learning. 3 Credits.

The study of individuals and their interactions within an organizational context. Overview of key theories in leadership, systems theory, group dynamics, learning, organizational culture, and motivational theory. The use of research in human and organizational learning.

HOL 8701. Theory, Research, and Practice in Adult Learning and Development. 3 Credits.

Learning theories as applied to adults in individual and group learning transactions; effect of age on learning; psychological, physical, and social environments in adult education situations.

HOL 8702. Theory and Design of Organizational Diagnosis and Development. 3 Credits.

Focus on various paradigms through which organizations and their functions may be viewed; a variety of analytical models of organizations; techniques for assessing systems; application of analysis techniques.

HOL 8703. Human Systems Change. 3 Credits.

The classical and contemporary ideas related to social systems change; the relation of these ideas to current issues in organizations.

HOL 8704. Leadership Theory, Research, and Practice. 3 Credits.

Leadership in organizations with a focus on transformational leadership. Historical review of leadership theory and research; current developments in understanding leadership. Students examine their own leadership style and plan for continued development as a leader.

HOL 8705. Organizational Culture. 3 Credits.

Theory and research on organizational culture, from the multidisciplinary seminal works in anthropology, psychology, sociology, and management to current day theorizing and empirical research on culture. The rituals, values, and behaviors that differentiate cultural groups and the way cultural identities manifest themselves in organizational practices; and how organizational culture evolves and its relationship to other organizational phenomena such as innovation, strategy, sensemaking, and performance. Current trends in organizational culture theorizing. Restricted to None (can add ELP restrictions at the "section level" on a case-by-case basis). Prerequisites: None. Recommended background: None.

HOL 8706. Interdisciplinary Readings in Human and Organizational Learning. 3 Credits.

Seminal works from various disciplines related to current research and practice.

HOL 8707. Advanced Organizational Learning. 3 Credits.

The psychological and sociological paradigms associated with the learning of a collective whole.

HOL 8720. Seminar: Applied Research in Human and Organizational Learning. 3 Credits.

Identification of initial constructs and theories that support the identified research interest, with a problem statement and critical analysis of research reports and review of research literature.

HOL 8721. Practicum in Human and Organizational Learning. 3-6 Credits.**HOL 8722. Seminar: Advanced Issues in Human and Organizational Learning. 1-12 Credits.**

Forum in which candidates critically examine relevant classic and contemporary literature, with analysis and synthesis to defend their research questions and conceptual frameworks.

HOL 8723. Organizations and Strategy in Human Resource Systems. 3 Credits.

Overview of paradigms, theories, models, and constructs of organizations and strategy to understand organizations and their environments.

HOL 8741. Managerial and Organizational Cognition. 3 Credits.

The emerging field of collective cognition in organizations, including theoretical foundations and seminal and current literature on knowledge structures and their role in strategy formation, organizational change, and sensemaking.

HOL 8742. Work, Identity, and Adult Development. 3 Credits.

The influence of work on identity, intellectual and personality development, and other developmental attributes. Same as CNSL 8253/HDEV 8253.

HOL 8746. Work Groups and Teams in Organizations. 3 Credits.

Theoretical understanding and practical considerations of working with groups and teams. Group dynamics, facilitating and leading groups, and member roles. Group facilitation techniques across different group settings and environments.

HOL 8998. Predissertation Seminar. 3-6 Credits.

Platform for further development of the dissertation proposal.

HOL 8999. Dissertation Research. 3,6 Credits.

Prerequisite: HOL 8998.

SPECIAL EDUCATION AND DISABILITY STUDIES

GRADUATE

Master's programs

- Master of Arts in Education and Human Development in the field of early childhood special education (p. 1106)
- Master of Arts in Education and Human Development in the field of secondary special education and transition services (p. 1116)
- Master of Arts in Education and Human Development in the field of special education for children with emotional and behavioral disabilities (p. 1118)
- Master of Arts in Education and Human Development in the field of special education for culturally and linguistically diverse learners (p. 1119)
- Master of Arts in Education and Human Development individualized program (p. 1111)

Doctoral program

- Doctor of Education in the field of special education (p. 1127)

FACULTY

Professors M.S. Castleberry, M.B. Freund, C.A. Kochhar-Bryant, J.M. Taymans

Associate Professor E.K. Rice (*Chair*)

Assistant Professors J.R. Frey, K. Ihrig, P. Peng, E. Tuckwiller

COURSES

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000-4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students

- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

SPED 0920. Continuing Research - Masters. 1 Credit.

SPED 0940. Cont Research - Doctoral. 1 Credit.

SPED 6100. Selected Topics. 1-12 Credits.

Topics and fees announced in the Schedule of Classes.

SPED 6101. Research and Independent Study. 1-3 Credits.

Individual study or research under guidance of staff member. Admission by permission of advisor. May be repeated for credit.

SPED 6201. Introduction to Special Education. 3 Credits.

Survey course to acquaint prospective teachers with special education and to help them become aware of the various educational modifications necessary to accommodate children with special needs in a school program.

SPED 6210. Universal Design for Learning and Assessment. 3 Credits.

Overview and introduction to universal design for learning, including contemporary issues, applications of digital and assistive technologies, and tools for developing a comprehensive plan for implementation. Same as CPED 6110.

SPED 6221. Accessing Community Systems for Individuals with Disabilities. 3 Credits.

Overview of access to community systems and service delivery for individuals with special needs and their families. Material fee.

SPED 6222. Legal Issues and Public Policy for Individuals With Disabilities. 3 Credits.

Examination, interpretation, and analysis of legislation and policies affecting the education and career development of individuals with disabilities. Emphasis on federal legislation in the context of national policy reform in disability services. Material fee.

SPED 6223. Introduction to Brain Injury: Programs, Policies, and Resources. 3 Credits.

An overview of acquired brain injury and its effects; current trends in the field, related policy, research, and development of new resources.

SPED 6224. Brain Function and Impact of Brain Injury on Learning and Education. 3 Credits.

Provides an in-depth understanding of neuroanatomy related to the impact of brain injury on child and adolescent development and learning to prepare educators to participate in educational assessment and planning.

SPED 6227. Technology in Vocational Evaluation. 3 Credits.

Introduction to an array of assistive technology services and products facilitating professional interventions and vocational evaluation procedures; application to the assessment of persons with disabilities. Material fee.

SPED 6228. Community-Based Assessment and Work Sample Development. 3 Credits.

Introduction to community-based vocational appraisal methods; development of job training analysis skills, labor market surveys, work samples; requirements of The Americans with Disabilities Act; incorporation of assistive technology; classroom theory and field work. Material fee.

SPED 6229. Interpretation and Application of Academic and Vocational Assessment Information. 3 Credits.

Specific strategies and techniques to analyze, interpret, and synthesize assessment information for the development of comprehensive academic/vocational profiles for adolescents and adults with disabilities. Observation and recording procedures, report development, and postassessment conferencing are emphasized. Material fee.

SPED 6230. Vocational Assessment of Individuals with Disabilities. 3-6 Credits.

Investigation of vocational appraisal processes and techniques for individuals with disabilities. Includes assessment for transition using field-based assignments. Three credits of practicum experience for students specializing in vocational evaluation. Material fee. Same as CNSL 6130.

SPED 6231. Instructional Methods in Secondary Special Education and Transition. 3 Credits.

Techniques and processes used in programming for the needs of individuals with disabilities as they prepare for transition to postsecondary programs and employment. Emphasis on skills related to professional liaison and support roles in the design of instructional arrangements and cooperative training. Material fee.

SPED 6232. Foundations in Special Education, Career Development, and Transition. 3 Credits.

Overview of historical, theoretical, and philosophical foundations of career development and transition. Explores directions for career development/transition practices in the context of educational reform and social and political change. Material fee.

SPED 6233. Curriculum in Secondary Special Education and Transition. 3 Credits.

Theory and practice in planning, implementing, and evaluating curriculum for individuals with disabilities. Emphasis on techniques for modifying curriculum and materials for individualized programming. Requires field-site curriculum implementation. Material fee.

SPED 6234. Seminar in Advanced Writing and Professional Presentation. 3-6 Credits.

Analysis and development of advanced professional writing skills, including literature synthesis, persuasive writing, and proposal writing. Material fee.

SPED 6235. Employment Models for Individuals with Disabilities. 3 Credits.

Rationale, occupational resources, and programming strategies for job placement and the development and coordination of employment programs for individuals with disabilities. Material fee.

SPED 6236. Introduction to Career and Career-Technical Education and Transition Services. 3-6 Credits.

Introduction to programs and services that provide career development and transition planning for individuals with disabilities. Material fee.

SPED 6237. Learning Strategies, Assessment, and Instruction for Individuals with Learning Disabilities. 3-6 Credits.

Theory and practice in evidence-based reading interventions. Learning strategies; content enhancement focused on literacy and self-determination. Material fee.

SPED 6238. Issues in Educating Individuals with Learning, Emotional, and Intellectual Disabilities. 3 Credits.

Introduction to the academic, cognitive, social, and emotional characteristics of individuals with learning disabilities; etiological theories; educational service delivery models, with particular emphasis on the adolescent with learning disabilities. Policy issues, continuum of services, and the transition from school to post-school environments. Material fee.

SPED 6239. Collaboration for Professionals Working with Students with Disabilities. 3 Credits.

Exploration of attitudes and beliefs about team teaching, collaboration and inclusionary environments. Development of knowledge and skills related to collaborative consultation and team teaching; interpersonal communication; the dynamics of collaborative teams; examination of the variety of environments in which special educators work. Material fee.

SPED 6240. Family Support and Guidance in Special Education. 3 Credits.

The developmental process of parenting and how that process is affected by having a child with developmental delay or disability. Family systems theory, stress and coping mechanisms, and communication and support strategies. Material fee.

SPED 6242. Neurodevelopmental Assessment and Programming for Infants and Toddlers with Disabilities. 3 Credits.

Application of the neurodevelopmental model to techniques for developing and implementing educational programs for infants and toddlers with disabilities. Prerequisite or concurrent registration: SPED 6263 or SPED 6268 or permission of instructor. Material fee.

SPED 6243. Developmental Assessment of Infants. 3 Credits.

Theory and current practice in the assessment of infants with or at risk for developmental disabilities. Material fee.

SPED 6244. Ethical Considerations in Neonatal and Infant Intervention. 3 Credits.

Overview of the major ethical issues involved in neonatal and infant intervention. The impact of recent and emerging technological innovations considered from medical, legal, ethical, and psychosocial perspectives. Material fee.

SPED 6245. Developmental Implications of Prematurity and Risk. 3 Credits.

Causes of prematurity. Conditions that place children at developmental and educational risk.

SPED 6253. Introduction to Autism Spectrum Disorders. 3 Credits.

Overview of autism spectrum disorders with a focus on etiology, characteristics, and evidence-based practices. Topics include defining, assessing, accommodating, and instructing students with autism spectrum disorders.

SPED 6254. Autism Spectrum Disorders and Transition to Employment and Post-Secondary Life. 3 Credits.

The policies, principles, models, and processes involved in job development, job accommodations and modifications, and employment and post-secondary placement services for individuals with autism and related disabilities. Legislation is reviewed in terms of its impact on placement of persons with autism who will transition into the workplace and/or post-secondary education.

SPED 6255. Collaboration with Systems and Families. 3 Credits.

Overview of models and strategies for coordinating services across disciplines and among school and community agencies for special populations. Emphasis on interdisciplinary team coordination, communication, decision making, planning, and follow-up for individuals with disabilities. Material fee.

SPED 6260. Developmental Assessment in Special Education. 3 Credits.

Examination of formal psychoeducational tests used with preschool and elementary-school-aged children. Development of formal and informal assessment techniques. Introduction to the skills necessary to write psychoeducational reports. Material fee.

SPED 6261. Practicum: Methods and Materials for Young Children with Disabilities. 3,6 Credits.

Implementation of educational strategies and materials, including designing and developing teaching materials, classroom teaching, feedback and evaluation with professor. A seminar accompanies this clinical experience.

SPED 6262. Formal Assessment of Young Children with Disabilities. 3 Credits.

Weekly seminar designed to prepare early childhood special educators to translate formal assessment data into instructional programming. Requires fieldwork with children. Material fee. Prerequisite: SPED 6260 .

SPED 6263. Development of the Infant with Special Needs. 3 Credits.

The processes of normal infant development and interrelationships among areas of development; relationship of these processes to the growth and development of infants with or at risk for developmental disabilities. Material fee.

SPED 6264. Medical and Genetic Conditions of Infants and Children with Developmental Disabilities. 3 Credits.

Introduction to medical and genetic conditions that affect the cognitive, language, and social development of infants and children with developmental disabilities.

SPED 6266. The Development of Language and Literacy. 3 Credits.

Within the context of typical and atypical development, the impact of various disabilities on language and literacy development. Material fee.

SPED 6267. Instructional and Assistive Technology in Early Childhood Special Education. 2,3 Credits.

Instructional strategies and assistive technology and their implications and uses for young children (0-5 yrs) in a wide variety of environments. Lectures, laboratory, and demonstrations. Material fee.

SPED 6268. Development of Children and Youth with Disabilities. 3 Credits.

Theories of human growth and development are considered as a framework for examination of typical and atypical development of children and youth. Material fee.

SPED 6269. Etiology, Symptomatology, and Approaches to Intervention with Children with Disabilities. 3 Credits.

An in-depth examination of the causes and characteristics of various disabilities. Current principles and approaches to intervention are examined. Material fee.

SPED 6272. Strategies for Inclusion: Addressing the Needs of Diverse Learners. 3 Credits.

Strategies by which teachers can more effectively assume the responsibility to serve all children in an inclusionary setting, including those who are second language learners and students with disabilities. Same as CPED 6172. Material fee.

SPED 6273. Impact of Culture on Education. 3 Credits.

The impact of culture and ethnicity on educational experiences. The relationship between school culture in the United States, one's own culture(s), and the cultures of diverse populations existing within our schools. Values, norms, rules, ethics, beliefs, attitudes, expectations, and assumptions of various cultures. Material fee.

SPED 6274. In-Service Planning/Programmng. 3 Credits.

SPED 6275. The Culturally and Linguistically Diverse Student with Disabilities: Policy, Research, and Trends. 3 Credits.

Educational service delivery for the culturally and linguistically diverse student. National, state, and local policies; current research in bilingual education, special education, and bilingual special education. Same as CPED 6175. Material fee.

SPED 6276. Academic and Psychosocial Assessment of the Culturally and Linguistically Diverse Student. 3 Credits.

Issues in academic and psychosocial assessment of second language learners. The impact of second language acquisition and culture on the assessment process; differentiation between language difference and disability; IEP development; the use of interpreters and translators; the involvement of family and communities; standardized and alternative assessments; and legislative mandates. Same as CPED 6176. Material fee.

SPED 6277. Teaching Culturally and Linguistically Diverse Students with Disabilities. 3 Credits.

Methods and materials for teaching students with disabilities who are English language learners. Classroom management, instructional and assessment strategies, materials and curricula, and collaborating with families and communities to meet the cultural, linguistic, academic, social, and emotional needs of students in various settings. Material fee.

SPED 6280. Developmental Assessment of Adolescents. 3 Credits.

Formal and informal psychoeducational assessment; assessment instruments commonly used with upper-elementary, junior, and senior high school students; the writing of psychoeducational reports. Material fee.

SPED 6283. The Urban Impact on Children and Youth with Disabilities. 3 Credits.

Effects of the total environment in which inner-city children live on their ability to learn and their cognitive, social-behavioral, and physical/health development. Material fee.

SPED 6288. Characteristics of Individuals with Learning, Emotional, and Intellectual Disabilities. 3 Credits.

An in-depth examination of typical and atypical growth and development, psychiatric diagnosis and psychosocial development issues, and general and specific characteristics of the student with serious emotional disabilities. May be repeated for credit. Material fee.

SPED 6290. Affective Development and Behavior Management in Special Education. 3 Credits.

Theory, programming, and behavior management strategies from theoretical and practical points of view. Material fee.

SPED 6299. Federal Education Policy Institute. 3 Credits.

The federal role in education policymaking in the context of national, state, and local efforts to create school environments for effective learning and the promotion of social and emotional health in children and youth. Same as CPED 6199.

SPED 6990. Internship in Teaching Children with Emotional and Behavioral Disabilities: Assistant Teacher. 3-6 Credits.

The federal role in education policymaking in the context of national, state, and local efforts to create school environments for effective learning and the promotion of social and emotional health in children and youth. Same as CPED 6199.

SPED 6991. Internship in Teaching Children with Emotional and Behavioral Disabilities: Co-Teacher. 3-6 Credits.

Continuation of SPED 6990. Graduate students become the primary teaching team in the classroom with ongoing supervision. Graduate students plan and apply psychoeducational teaching strategies with children with emotional and behavioral disabilities. Refinement of instructional and behavior management strategies. Weekly seminar continues. Material fee.

SPED 6992. Behavior Management Practicum: Adolescents with Disabilities. 3 Credits.

Field-based examination of theory of behavior development and techniques for classroom management. Material fee.

SPED 6993. Internship: Teaching Young Children with Disabilities. 3,6 Credits.

Supervised internship in early childhood special education. Weekly seminar. Material fee.

SPED 6994. Internship: Early Intervention. 3-6 Credits.

Supervised internship in early intervention. Weekly seminar. Material fee.

SPED 6995. School- and Community-Based Internship in Special Education and Transition. 1-9 Credits.

A 50- to 450-hour supervised internship in school- and community-based settings involved in career, vocational, and transition services.

SPED 6996. Teaching Internship in Transition Special Education. 3-6 Credits.

Supervised teaching internship; seminar required. Permission by instructor. Material fee.

SPED 6997. Internship in Teaching Culturally and Linguistically Diverse Students with Disabilities. 3-6 Credits.

Supervised internship and weekly seminar. A full-time, field-based teaching experience working with students with disabilities who are English language learners. Writing an appropriate IEP, interacting with families and communities, and planning and implementing instructional approaches and strategies. Material fee.

SPED 8100. Selected Topics. 1-12 Credits.

Topics and fees announced in the Schedule of Classes.

SPED 8101. Research and Independent Study. 1-3 Credits.

Individual research under guidance of a staff member. Program and conferences arranged with program advisor.

SPED 8301. Research Seminar in Special Education. 1-12 Credits.

Participation in a small group with a selected faculty member; research on and discussion of an area of common interest. Admission by permission of instructor.

SPED 8303. Administration and Supervision of Special Education. 3 Credits.

Philosophy and nature of special education; program organization, administration, and development. Surveying local needs; program evaluation and supervision. Admission by permission of instructor. Material fee.

SPED 8304. Research and Trends in Special Education. 3 Credits.

Emphasis on topical research issues, problems of conducting research, and research syntheses. Material fee.

SPED 8305. Foundations of Neuroscience in Special Education. 3 Credits.

Develops understanding of the neurological bases of sensation and perception, object recognition, control of motor action, learning and memory, emotion and language, attention, consciousness and cognitive control, and social cognition.

SPED 8306. Advanced Study in Development Science and Variance I: The Early Years. 3 Credits.

Consideration of cognitive neuroscience research on developmental issues of infancy and early years; assessment, identification, and related prevention and intervention. Prerequisite: SPED 8305.

SPED 8308. Preparation for the Professoriate in Special Education. 3 Credits.

Philosophical, ethical, and methodological aspects of personnel preparation in university and field-based programs; opportunities for practice in pedagogical design and delivery. Material fee.

SPED 8310. Advanced Study in Development Science and Variance II: The Later Years. 3 Credits.

Consideration of cognitive neuroscience research on adolescent development, including executive functioning, self-regulation, atypicality in learning, social and emotional behavior, motivation, and attention. Prerequisite: SPED 8306.

SPED 8311. Proseminar in Special Education: The Interdisciplinary Foundations. 3 Credits.

A theoretical and research-based course that introduces students to strategies by which data from cognitive neuroscience research can be applied to conceptualizing research in special education. A doctoral student forum addresses interdisciplinary research knowledge. Prerequisite: SPED 8310.

SPED 8343. Psychoeducational Diagnosis in Special Education. 3 Credits.

The range of diagnostic and intervention strategies applicable to the student who presents psychosocial and related learning difficulties. Admission by permission of instructor. Material fee.

SPED 8345. Consultation and the Change Process. 3 Credits.

Consultation models from organizational development, organizational psychology, and mental health applied to professional practice in education and special education. Material fee.

SPED 8352. Disability and Public Policy. 3 Credits.

Overview of current legislation and public policy affecting education, employment, and civil rights of individuals with disabilities. The evolution of disability policies and their relationship to principles of social justice. Material fee.

SPED 8353. Post-Master's Internship in Special Education. 1-6 Credits.

Supervised professional internship in college teaching, administration, supervision, research, or policymaking. Internships are individually arranged. Admission by permission of instructor.

SPED 8354. Doctoral Internship: Special Education. 1-6 Credits.

Supervised professional internship in research college teaching, administration, policymaking, or private agency function. Admission by permission of advisor.

SPED 8360. Interdisciplinary Techniques in the Diagnostic Process in Special Education. 3 Credits.

Application of theoretical concepts of assessment; development of assessment programs; interpretation and application of interdisciplinary diagnostic evaluations. Prerequisite: SPED 6260, and permission of instructor. Material fee.

SPED 8998. Doctoral Seminar in Special Education. 3-6 Credits.

Review of literature in a topical area; preparation of a dissertation proposal and a manuscript of publishable quality. Admission by permission of instructor and approval of major advisor. Material fee.

SPED 8999. Dissertation Research. 3,6 Credits.

Prerequisite: SPED 8998.

SCHOOL OF BUSINESS

Dean L.A. Livingstone

Vice Dean J. Spencer

Associate Deans R. Achrol (*Interim*), G. Jabbour, V. Perry (*Interim*), L. Moersen (*Interim*)

First organized as the School of Government in 1928, the School of Business (<http://www.business.gwu.edu>) has been responsible for the professional development of individuals assuming leadership roles in society. The School has eight departments—Accountancy, Decision Sciences, Finance, Information Systems and Technology Management, International Business, Management, Marketing, and Strategic Management and Public Policy. The use of a multidisciplinary approach in educational programming helps prepare both the generalist and specialist for professional careers in today's complex, organizational society.

The School of Business is a member of AACSB International—The Association to Advance Collegiate Schools of Business (<http://www.aacsb.edu>), and the undergraduate and graduate programs in business administration and accounting are accredited by the Association.

Mission Statement

The mission of The George Washington University School of Business is to have a lasting intellectual impact by offering quality education through innovative programs that provide theoretical frameworks and real-world learning experiences; engaging in rigorous scholarship that advances knowledge in the management of organizations in the global environment; and contributing as a local, national, and global citizen. The School accomplishes this within a community built upon respect, integrity, and active engagement.

Vision

The George Washington University School of Business will set itself apart as a thought leader at the intersection of the private, public, and nonprofit sectors. It will be recognized for advancing knowledge on the role of organizations in the global arena. Its graduates will possess the multidisciplinary knowledge, critical-thinking skills, and ethical standards to make a positive impact on economies and societies.

Strategic Goals

The School of Business's strategic goals address three areas that translate the School's mission into specific strategies, programs, and initiatives. The School aspires to enhance its reputation and prestige among internal and external stakeholders through recognition, accreditation, and rankings.

Educational Goal

The School of Business offers a distinctive educational experience to prepare global business leaders through a portfolio of niche programs that emphasize academic rigor,

learning outcomes, and teaching excellence in both delivery and content.

Intellectual Contribution Goal

The School of Business engages in scholarly research that contributes to the creation of knowledge for improving the management and performance of organizations.

Service and Outreach Goal

The School of Business engages as citizen-leaders in the communities of which it is a part.

REGULATIONS

- Undergraduate Programs (p. 1155)
- Graduate Programs (p. 1156)

Undergraduate Programs

The School offers programs leading to the degrees of Bachelor of Accountancy, Bachelor of Business Administration, and Bachelor of Science. The programs include foundation knowledge for business in accounting, economics, mathematics, and statistics. Curricula are designed to provide perspectives on ethical and global issues, the influence of political, social, legal and regulatory, environmental, and technological issues, and the impact of demographic diversity on organizations. A Bachelor of Business Administration student selects a field of concentration from among accountancy; business analytics; business economics and public policy; finance; information systems and technology management; innovation and entrepreneurship; international business; marketing; sport, event, and hospitality management; or, with faculty approval, may structure an individualized field of concentration reflecting a specific interest in management. Additionally, a minor in non-business field is required. The Bachelor of Science integrates the University's emphasis on interdisciplinary study at the undergraduate level by requiring one major in the School of Business and a second major in a non-business field.

Advising

Students entering the School of Business are assigned a professional academic advisor who advises them through graduation. The GWSB Advising Center (<http://business.gwu.edu/ugrad/advising-center>) staff empower students to take ownership of, and responsibility for, their educational experiences. Students partner with advisors to successfully navigate their academic careers through conversations that range from understanding University and School requirements, exploring degree and major possibilities, overcoming academic challenges, setting goals, and finding appropriate campus resources.

Students should meet with their GWSB advisor each semester to ensure that they remain on track for fulfilling all degree requirements. Students are also encouraged to build a support system that ensures academic success. Professors, faculty mentors, professional advisors, tutors, and/or

counselors should be part of that support system. Assistance is also available through the Division of Student Affairs (<http://students.gwu.edu>), Mental Health Services (<http://counselingcenter.gwu.edu>), Multicultural Student Services Center (<http://gwired.gwu.edu/mssc?url=mssc>), International Services Office (<http://internationalservices.gwu.edu>), and Writing Center (<http://writingprogram.gwu.edu/writing-center>).

Scholarship Requirements

A student must have the following to graduate:

1. a minimum of 120 credits;
2. an overall grade-point average of at least 2.0; and
3. a grade-point average of at least 2.0 in all required upper-division B.B.A., B.Accy., or B.S. courses and concentration-related courses (the major field grade-point average).

All courses taken at GW are included in the overall grade-point average calculation. Elective courses in or out of the School of Business cannot be used as substitutes for required courses in the calculation of the major field grade-point average.

Academic Standing

Rules governing academic probation and suspension, described under University Regulations, are applicable to undergraduate students at the School of Business. In addition, students are required to maintain a 2.0 grade-point average in their business core and major/concentration courses. Students who do not meet these requirements will be placed on academic probation or may be academically suspended from the University.

Undergraduate Policies

Pass/No Pass Option—A junior or senior student who has a cumulative grade-point average of 2.5 or better may, with approval of the instructor, the advisor, and the director of the Advising Center, take one upper-level non-business or unrestricted elective a semester and receive a grade of *P*, Pass, or *NP*, No Pass, which will be recorded on the student's transcript but will not be reflected in the grade-point average. No student will be allowed to take more than four pass/no pass courses, with a limit of one per semester. Under no circumstances may a student change from pass/no pass status to graded status, or vice versa, after the last date to withdraw from a course. Required courses (including WID courses) may not be taken on the pass/no pass basis. A transfer student may not choose this option until the second semester of enrollment in the University.

Incomplete Grades—Conditions under which the symbol *I* (Incomplete) may be assigned are described under University Regulations. In the School of Business, the conditions for granting a notation of *I* should be documented by a written contract between the faculty member and the student; this Incomplete Contract can be found on the GWSB Advising Center website (<http://business.gwu.edu/ugrad/advising-center>).

center). These contracts are kept in the student's file in the Advising Center.

Independent Study—A junior or senior of demonstrated capacity, with a special interest in the subject matter of a course, may be permitted to undertake study under the personal direction of a regular, full-time member of the faculty, in accordance with the rules of the appropriate department. Credit under this plan is limited to the specific credits normally allowed when a course is taken on a class basis. A petition outlining the student's specific study plan must be submitted to the director of the Advising Center (<http://business.gwu.edu/ugrad/advising-center>) prior to beginning any independent study. Generally, a maximum of two independent studies in two separate semesters is permitted.

Concentration Regulations—A student may pursue up to two concentrations in the B.B.A. Degree. When double counting courses between concentrations (and other degree requirements such as the minor), each concentration must have at least four unique courses. Additionally, the maximum number of credits may transfer into each concentration, including study abroad credits, is two courses (six credits).

Signature Courses—Signature courses for the School of Business undergraduate degrees must be taken in residence at GW. These courses include BADM 1001 and 1002 *First Year Development Program*; BADM 1003 *Transfer Student Development Course*; BADM 1004 *Age of Globalization*; BADM 2001W *Markets and Politics*; BADM 3001 *Career Management Strategy*; and BADM 4101 *Business Law and Ethics*.

Graduate Programs

Entrance Requirements

To be considered for admission, applicants must present a bachelor's degree from a regionally accredited college or university. Admission to master's programs is highly competitive. Previous academic history, performance on the applicable entrance examination, letters of recommendation, motivation and aptitude to do graduate-level work, and professional experience are all taken into consideration.

Applicants for admission to programs leading to the Master of Business Administration, Master of Accountancy, Master of Science in Finance, and Master of Tourism Administration must submit scores on the Graduate Management Admission Test or the Graduate Record Examination. Test scores that are more than five years old are not accepted for admissions review.

English Language Requirements for International Students

Applicants who are not citizens of countries where English is the official language or who do not hold a degree from a regionally accredited U.S. institution of higher learning are required to submit scores from the Test of English as a Foreign Language (TOEFL), the academic International English Language Testing System (IELTS),

or the Pearson Test of English–Academic (PTE). Specified possible exemptions from this policy can be found at graduate.admissions.gwu.edu/english-language-requirements (<http://graduate.admissions.gwu.edu/english-language-requirements>).

The Master of Science in Finance program requires a minimum score of 550 paper-based or 80 Internet-based on the TOEFL, or an overall band score of 6.5 on the IELTS with no individual band score below 5.5. All other School of Business graduate degree programs require a minimum TOEFL score of 600 paper-based or 100 Internet-based, or an overall band score of 7.0 on the IELTS with no individual band score below 6.0, or a score of 68 on the PTE. In some instances, an interview will be required of applicants.

Applicants for graduate teaching assistantships must have a minimum score of 600 paper-based or 100 Internet-based on the TOEFL, an overall band score of 7.0 on the IELTS with no individual band score below 6.0, or a score of 68 on the PTE.

Students with the following English language test scores are exempt from taking English for Academic Purposes (EAP) courses: TOEFL, 600 paper-based or 100 Internet-based; IELTS, overall band score of 7.0 with no individual band score below 6.0; PTE, 68. Students with test scores below these minimums must register for an EAP course during their first semester. Students assigned EAP courses should anticipate additional tuition expenses as well as a possible extended period of time required to complete their degree program. EAP courses do not count toward degree requirements.

Transfer Within the School

Currently enrolled students wishing to transfer from one graduate degree program to another within the School must complete a new application for admission through the appropriate degree program office. Applicants for transfer are subject to requirements in effect at the time of transfer. In addition, students must submit all required credentials no later than the established completion dates for the term for which the transfer is requested. Students must be in good academic standing (3.0 grade-point average) for transfer consideration.

Readmission

A student who withdraws, is suspended, or is otherwise absent without authorization from the University for one semester or more must make formal application for readmission to the director of the student's degree program and resubmit all supporting credentials including transcripts from previous schools attended, including George Washington University, and entrance examination scores. If readmitted, the student is subject to the rules and regulations in force at the time of return. If the student has attended one or more regionally accredited colleges or universities during absence from the University, complete official transcripts must accompany the application for readmission.

The application fee is waived for a student applying for readmission who was registered as a degree candidate at the time of last registration at the University and has not since registered at another college or university.

General Requirements

All students must complete the prescribed minimum number of credits of graduate course work. A maximum of 6 credits of graduate course work may be approved for transfer to the School of Business from enrollment at GW in nondegree status or from another degree-granting school of this University, or another regionally accredited college or university under the following conditions: The course work must be approved as part of the student's program of studies; it must not have been applied to the completion of requirements for another degree, it must be at the graduate level, it must have been taken within the two years prior to acceptance into the program, and the student must have received a grade of *B* or better. A transcript and description of the course work must be on file before the petition can be considered. Should advanced standing be granted, the credit will count but not the grade.

Students who enroll in course work at a School of Business exchange partner institution while enrolled in a GWSB degree program may transfer a maximum of 12 credits from the partner institution after participation in an official exchange program. Such credits do not count toward the 6-credit maximum transfer restriction. Exchange partners must have an established Memorandum of Understanding with the School of Business. Course work must be approved as part of the student's program of study; it must be at the graduate level and must meet the GWSB program's grade requirements for transfer credit. For additional information, contact the Office for Global and Experiential Education.

Master's degrees are awarded by vote of the Faculty on completion of the required course work and completion of an acceptable thesis (if one is elected) in the chosen degree or field of concentration.

Although work counted toward a bachelor's degree may not be counted toward a master's degree, a student who has completed the equivalent of a Master of Accountancy or Master of Business Administration core prerequisite course with a grade of *B* or better as part of the bachelor's degree program may request a waiver of that course at the master's level. A grade of *B* or better is required to waive remaining core prerequisite courses on the basis of equivalent graduate-level courses completed at GW or another AACSB-accredited college or university prior to admission to the program. All courses presented for waiver consideration must have been taken within five years prior to the first semester of enrollment into the program. Students should contact their degree program director for specific waiver criteria and deadlines for requesting waivers.

A full-time student may register for a minimum of 9 to a maximum of 15 credits each semester and 6 credits each

summer session (the maximum is 18 for full-time M.B.A. students). All work for a master's degree must be completed in five years.

Students who expect to continue studies for a doctoral degree after receiving the master's degree should ask for assistance in planning their programs of study.

No credit is granted for work done in absentia or without formal instruction, except for supervised field experience, independent study, and the thesis, which may be completed in absentia with the permission of the department, designated faculty advisor, or committee concerned.

Independent Study Plan

A graduate student of demonstrated capacity, with a special interest in the subject matter of a course, may be permitted to undertake study under the personal direction of an instructor, in accordance with the rules of the appropriate department. Credit under this plan is limited to the specific credits normally allowed when a course is taken on a class basis. A petition outlining the student's specific study plan must be submitted to the student's degree program director prior to beginning any independent study. The student may petition to complete a maximum of two independent studies in two separate semesters.

Students from Other Schools Within the University

Degree candidates from other schools of the University cannot register for more than 12 credits from the Master of Accountancy, Master of Science in Finance, or Master of Business Administration degree programs.

Scholarship Requirements

The University's general scholarship requirements, including information on grades and computing the grade-point average, appear under University Regulations in this Bulletin. A minimum grade-point average of 3.0 must be maintained and is required for award of a graduate degree. All graduate courses and undergraduate courses taken for graduate credit after matriculation as a degree candidate (except those audited or taken for the grade of *CR*) will be used in the calculation of the grade-point average.

Probation

A student whose grade-point average falls below 3.0 at any point after completing 9 credits will be placed on probation. This probation extends through the period in which the student next attempts up to 12 credits of work, including prescribed courses. A student's program may be restricted by the program director if deemed necessary. During this period, the student's performance will be monitored to determine suitability for continued study. A student who fails to raise the cumulative grade-point average to 3.0 or better during the period of probation will be suspended. Incomplete grades and grades of *F* are not allowed during the probation period and are

grounds for automatic suspension. A student who is subject to probation for a second time at any point during the program is automatically suspended and subsequent readmission will be denied.

Grade of F

A master's degree candidate who receives a grade of *F* is required to present cause, for consideration by the director of the student's degree program, as to why continued study should be permitted. Once a grade of *F* is earned in a core, required, or elective course, it remains a part of the student's permanent record and is calculated into the grade-point average. A master's degree candidate given the grade of *F* in a core or other required course, and permitted to continue in graduate studies, must repeat the course and achieve at least the grade of *B*. If the grade earned is below *B*, the student will be denied further registration as a degree candidate.

Suspension

A graduate student who does not meet the conditions of probation (see above) will be suspended. A student who is suspended or withdraws under these conditions may apply for readmission after the lapse of one semester except when suspended a second time. An outstanding Incomplete grade at the time of suspension will become an *F*. To be readmitted the student must submit evidence that indicates academic success if readmitted. A student so readmitted will continue on academic probation and must achieve a minimum grade-point average of 3.5 in the next 12 credits of graduate study. Should the student fail to achieve this minimum grade-point average, a second suspension will result and subsequent readmission will be denied.

Incompletes

Conditions under which the symbol *I* (Incomplete) may be assigned and changed are described under University Regulations. The symbol *I* must be changed by a date agreed on by the instructor and the student but usually no later than the last day of the examination period within one calendar year for the fall, spring or summer semester in which the symbol *I* is assigned. An Incomplete that is not changed within this period automatically becomes an *IF*, at which time a student is placed on F-Probation (see Grade of *F* above). In cases of well-documented extenuating circumstances, an instructor and a student may jointly petition the director of the student's degree program for additional time in which to complete the work of the course. Such petitions should be submitted within the same period. The symbol of *I* cannot be changed by reregistering for the course here or by taking its equivalent elsewhere. Upon submission of the assigned grade, the *I* is removed from the transcript.

Withdrawing From a Course

The School of Business requires that students requesting to withdraw from a course after the eighth week of classes (or after the fourth week for modules) must present a petition to the dean and receive written permission. The student must

be passing the class and obtain the written approval of the instructor. If approved, a *W* (Authorized Withdrawal) will appear on the transcript. Tuition will not be refunded.

Thesis

Students contemplating doctoral study are strongly urged to include the thesis as an elective in their master's program. The thesis subject should be selected as early as possible to permit effective integration with the course work.

The subject must be approved by the professor in charge of the student's field. The thesis in its final form must have the approval of the professor in charge. All theses must be submitted electronically and meet the formatting and other requirements set forth on line at GW's Electronic Theses and Dissertations Submission website (<http://library.gwu.edu/etds>)

Payment of tuition for the thesis entitles the candidate, during the semesters in which registered for thesis seminar and/or thesis research, to the advice and direction of the member of the faculty under whom the thesis is to be written. In case a thesis is unfinished, additional time is granted. The student must, however, be enrolled continuously in the program. If the preparation of the thesis extends more than three semesters beyond the date registered for thesis research, the student must register for the entire required thesis credits again and pay additional tuition.

UNDERGRADUATE

Bachelor's programs

- Bachelor of Accountancy (p. 1160)
- Bachelor of Business Administration (p. 1164)
 - concentration in accountancy (p. 1167)
 - concentration in business analytics (p. 1168)
 - concentration in business economics and public policy (p. 1169)
 - concentration in innovation and entrepreneurship (p. 1168)
 - concentration in finance (p. 1170)
 - concentration in information systems (p. 1171)
 - concentration in international business (p. 1171)
 - concentration in marketing (p. 1172)
 - concentration in sport, event, and hospitality management (p. 1173)
 - concentration in individualized field (p. 1174)
- Bachelor of Science with a major in finance (p. 1175)
- Dual degree programs (p. 1179)

Minor

- Minor in business administration (p. 1179)

GRADUATE

Master's programs

- Master of Accountancy (p. 1180)
- Master of Science in Business Analytics (p. 1181)
- Master of Science in Finance (p. 1182)
- Master of Science in Information Systems Technology (p. 1182)
- Master of Science in Government Contracts (p. 1183)
- Master of Science in Project Management (p. 1183)
- Master of Tourism Administration (p. 1184)

Masters of Business Administration programs

- Global Master of Business Administration (p. 1185)
- Healthcare Master of Business Administration (p. 1191)
- Professional Master of Business Administration (p. 1192)
- World Executive Master of Business Administration (p. 1197)

Joint Degree Programs

- Joint Master of Business Administration/Juris Doctor with the Law School (p. 1198)
- Joint Master of Business Administration/Master of Arts with a focus on international business with the Elliott School of International Affairs (p. 1198)
- Joint Master of Business Administration/Master of Science in Finance (p. 1198)
- Joint Master of Business Administration/Master of Science in Project Management (p. 1198)

Doctoral program

- Doctor of Philosophy in the field of business administration (p. 1199)

CERTIFICATES

The School of Business Post-Master's Graduate Certificate is designed to provide School of Business master's degree alumni an opportunity to build upon their graduate study to keep pace with today's business climate. Participants may undertake a 12-credit program of study in an existing School of Business field or from a series of specially designed program offerings. Further information is available from the Office of the Dean.

In addition, three graduate certificate programs of study are available in the following fields:

- Walkable Urban Development: A 16.5-credit graduate certificate is available to current School of Business students and to non-degree students.
- Responsible Management: A 12-credit graduate certificate is available to current M.B.A. students.

- Nonprofit Management: A 12-credit graduate certificate is available to current M.B.A. students.

COURSES

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000–4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master’s, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office
- Accountancy (ACCY) (p. 1474)
- Business Administration (BADM) (p. 1509)
- Decision Sciences (DNSC) (p. 1545)
- Finance (FINA) (p. 1593)
- Information Systems and Technology Management (ISTM) (p. 1641)
- International Business (IBUS) (p. 1653)
- Management (MGT) (p. 1698)
- Marketing (MKTG) (p. 1700)
- Master of Business Administration (MBAD) (p. 1701)
- Strategic Management and Public Policy (SMPP) (p. 1831)
- Tourism Studies (TSTD) (p. 1837)

UNDERGRADUATE PROGRAMS

Bachelor's programs

- Bachelor of Accountancy (p. 1160)
- Bachelor of Business Administration (p. 1164)
 - concentration in accountancy (p. 1167)
 - concentration in business analytics (p. 1168)
 - concentration in business economics and public policy (p. 1169)
 - concentration in innovation and entrepreneurship (p. 1168)
 - concentration in finance (p. 1170)
 - concentration in information systems (p. 1171)
 - concentration in international business (p. 1171)

 - concentration in sport, event, and hospitality management (p. 1173)
 - concentration in individualized field (p. 1174)
- Bachelor of Science with a major in finance (p. 1175)
- Dual degree programs (p. 1179)

Minor

- Minor in business administration (p. 1179)

BACHELOR OF ACCOUNTANCY

The Bachelor of Accountancy offers both specialized knowledge in accounting and a general education leading to a broad understanding of the business world. The program is designed to prepare students for a professional career in accounting in the public or private sector as well as for graduate study in business, finance, information systems, or law. Students are provided with multiple opportunities to gain practical experience, such as the ability to study the stock market in a classroom that looks like a Wall Street trading venue.

Visit the program website (<http://business.gwu.edu/undergraduate/baccy>) for additional information.

REQUIREMENTS

General education and pre-business courses

BADM 1001 & BADM 1002	First Year Development Course I and First Year Development Course II (*)
or BADM 1003	Transfer Student Development
BADM 1004	The Age of Globalization
ECON 1011	Principles of Economics I
ECON 1012	Principles of Economics II
STAT 1051	Introduction to Business and Economic Statistics
or STAT 1053	Introduction to Statistics in Social Science
or STAT 1111	Business and Economic Statistics I
or APSC 3115	Engineering Analysis III
UW 1020	University Writing
One humanities course**	
Two science courses**	
A sequence of two math courses from the following:	
MATH 1051 & MATH 1252	Finite Mathematics for the Social and Management Sciences and Calculus for the Social and Management Sciences
Or	
MATH 1231 & MATH 1232	Single-Variable Calculus I and Single-Variable Calculus II

Business core courses

ACCY 2001	Intro Financial Accounting
ACCY 2002	Introductory Managerial Accounting
BADM 2001W	Markets and Politics
BADM 2301	Management Information Systems Technology
or BADM 2301W	Mgt Information Systems Tech
BADM 3001	Career Management Strategy
BADM 3103	Human Capital in Organizations
BADM 3401	Basic Marketing Management
or BADM 3401W	Basic Marketing Management
BADM 3501	Financial Management and Markets
BADM 4801	Strategy Formulation and Implementation

Accountancy major courses

ACCY 3101	Intermediate Accounting I
ACCY 3102	Intermediate Accounting 2
ACCY 3401	Federal Income Tax:Individuals
ACCY 3403	Advanced Tax
ACCY 3601	Business Law: Contracts, Torts, and Property
ACCY 4107	Advanced Accounting
ACCY 4301	Auditing
ACCY 4501	Accounting Systems
ACCY 4601	Business Law: Enterprise Organization
ACCY 4801	Financial Accounting Capstone

International field course

One of the following:

ECON 2180	Survey of International Economics
ECON 2181	International Trade Theory and Policy
IBUS 3001	Introduction to International Business
IBUS 3101	Global Financial Environment
IBUS 3301	International Business Finance
IBUS 4401	Managing the Multinational Enterprise

Electives ‡

6 credits in non-business courses numbered 1000-4999. Courses cannot be in GWSB, MATH, STAT, ECON, CSCI, or LSPA.

9 credits in upper-level non-business courses numbered 2000-4999. Courses cannot be in GWSB, MATH, STAT, ECON, CSCI, or LSPA.

3 credits in an unrestricted elective course numbered 1000-4999.

12 credits in upper-level unrestricted elective courses numbered 2000-4999.

*Freshmen are required to take BADM 1001 and BADM 1002; transfer students are required to take BADM 1003.

**A list of approved courses can be found on the General Education Requirement page (p. 28).

‡Elective courses may include a maximum of one HLWL (health and wellness) course.

Students who intend to take the C.P.A. examination should be aware that the course work required for admission to the examination varies from state to state. Students are advised to consult the Board of Accountancy for the state in which they plan to take the examination and choose courses that meet that state's requirements.

COURSES

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000-4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

ACCY 2001. Intro Financial Accounting. 3 Credits.

The fundamental concepts underlying financial statements and the informed use of accounting information. Analysis and recording of business transactions; preparation and understanding of financial statements. Measurement of the profitability and financial position of a business. Restricted to sophomore standing.

ACCY 2002. Introductory Managerial Accounting. 3 Credits.

The use of accounting information to plan and control the activities of a business. Several widely used methods of determining the cost of business activities for use in making business decisions. Prerequisite: ACCY 2001.

ACCY 3101. Intermediate Accounting I. 3 Credits.

Financial accounting concepts underlying the preparation and interpretation of financial statements. Topics include revenue and expense recognition; accounting for receivables, inventories, fixed assets, intangible assets, and liabilities. Prerequisite: ACCY 2001.

ACCY 3102. Intermediate Accounting 2. 3 Credits.

Financial accounting concepts underlying the preparation and interpretation of financial statements. Topics include accounting for stockholders' equity, earnings per share, debt and equity investments, incomes taxes, pensions and other postretirement benefits, accounting changes, statements of cash flows, financial statement analysis, and disclosure. Prerequisite: ACCY 2001.

ACCY 3103. Advanced Financial and Tax Accounting. 3 Credits.

Financial and tax accounting issues relating to corporations and partnerships, including formation, operation, and liquidation of each type of entity. Financial accounting for corporate combinations. Prerequisite: ACCY 3101, ACCY 3401.

ACCY 3106. Financial Statement Analysis. 3 Credits.

Introduction to the analysis and interpretation of corporate financial statements within the context of a company's industry and economic environment. Cash flow analysis, profitability and risk analysis, accounting policy analysis, forecasting and performance analysis, elements of equity valuation, and decision perspectives of creditors. Students cannot earn credit for both this course and ACCY 4801.

ACCY 3401. Federal Income Tax:Individuals. 3 Credits.

A study of federal income tax concepts, including what shall be taxed, and when, and at what rate. Taxable entities, income measurement, the use of different tax rates for different types of income, and the use of the tax laws to motivate taxpayer behavior to achieve economic goals.

ACCY 3403. Advanced Tax. 3 Credits.

Taxation of partnerships, corporations, and their owners. Formation, operation, and liquidation of each type of entity. Financial and tax accounting for each type of transaction, with the goal of gaining a better understanding of each system by comparing and contrasting it with the other one. Prerequisites: ACCY 2001 & ACCY 3401.

ACCY 3601. Business Law: Contracts, Torts, and Property. 3 Credits.

Essential legal principles of contracts, torts, and property, including trusts and estates, leases, professional liability, and the Uniform Commercial Code.

ACCY 4107. Advanced Accounting. 3 Credits.

Accounting for corporate combinations, foreign currency financial statements, and derivative financial instruments. Governmental and not-for-profit accounting. Prerequisites: ACCY 3101 and ACCY 3102.

ACCY 4201. Advanced Managerial Accounting. 3 Credits.

Techniques and practices that foster an informed use of financial information for planning, resource allocation, performance evaluation, and control purposes. Integration of concepts from other disciplines, especially economics, quantitative methods, behavioral science, and business policy and strategy. Primarily taught using case method. Prerequisite: ACCY 2002.

ACCY 4301. Auditing. 3 Credits.

A study of generally accepted auditing standards and accepted professional auditing practices and procedures, including reviewing and evaluating financial controls, auditing financial statements, and testing financial data of manual and automated accounting systems. Prerequisite: ACCY 3102.

ACCY 4501. Accounting Systems. 3 Credits.

Introduction to the design and operation of accounting systems and data management controls. Principles and applications of internal control applicable to manual and automated accounting systems. Prerequisite: ACCY 3102.

ACCY 4601. Business Law: Enterprise Organization. 3 Credits.

The legal aspects of organizing, financing, and operating an enterprise: agency, partnerships, corporations, securities regulation, insurance, secured credit financing, and commercial paper. Prerequisite: ACCY 2001.

ACCY 4801. Financial Accounting Capstone. 3 Credits.

Synthesis and application of knowledge of financial accounting to specific contexts, using the perspectives of the preparer and user of financial statements. Students cannot earn credit for both this course and ACCY 3106.

ACCY 4900. Special Topics. 3 Credits.

Experimental offering; new course topics and teaching methods. Restricted to department approval.

ACCY 4995. Independent Study. 3 Credits.

Assigned topics. Admission by permission of the department chair.

ACCY 6101. Financial Accounting. 3 Credits.

The basic concepts and methods used in financial reports for understanding their content and context. The income statement, balance sheet, and statement of cash flows. Detailed accounting procedures and choices. How the most important accounting procedures are calculated and how different choices impact financial statements. Same as MBAD 6211.

ACCY 6104. Intermediate Accounting I. 3 Credits.

Accounting principles and concepts for financial accounting and reporting; emphasis on the preparation of general-purpose financial statements. Prerequisite: ACCY 6101/MBAD 6211.

ACCY 6105. Intermediate Accounting II. 3 Credits.

Revenue recognition, employee compensation and pension plans, income tax expense, and earnings per share. Restricted to Exclude: Level - 00 - Non-Degree Exclude: Level - 01 - Undergraduate. Prerequisites: ACCY 6104, Intermediate Accounting I.

ACCY 6106. Financial Statement Analysis. 3 Credits.

Analysis and interpretation of financial statements for managers, stockholders, creditors, and financial analysts; ratio-driven financial analysis; earnings-based and cash-flow-based equity valuation; sales and EPS forecasting; preparation of projected financial statements. Prerequisites: ACCY 6101/MBAD 6211.

ACCY 6107. Corp Reorganizatn &Affiliation. 3 Credits.

Financial and tax accounting for intercorporate investments and corporate acquisitions and for consolidated groups of corporations. Consolidation procedures, accounting for goodwill, intercompany sales, foreign subsidiaries, and taxation of the corporations and their shareholders. Prerequisite: ACCY 6102, ACCY 6401.

ACCY 6110. International Reporting and Control. 1.5 Credit.

International comparisons of forces that shape financial management, such as corporate governance mechanisms, tax policies, economic development, and privatization. Same as IBUS 6308.

ACCY 6111. International Accounting. 1.5 Credit.

Financial management in multinational enterprises: management techniques that improve international financial reporting and control, such as hedging foreign currency fluctuations, and controlling foreign subsidiaries. Prerequisite: ACCY 6101. Same as IBUS 6309.

ACCY 6112. International Financial Reporting Standards. 1.5 Credit.

Financial reporting standards that are used throughout most of the world other than the United States. Comparisons of these standards with those of the United States. Prerequisite: ACCY 6101/MBAD 6211. Same as IBUS 6310.

ACCY 6201. Managerial Accounting I. 1.5 Credit.

Effective use of accounting information in decision making and control of organizations. Same as MBAD 6213. Prerequisite: ACCY 6101/MBAD 6211.

ACCY 6202. Managerial Accounting II. 1.5 Credit.

Further topics in applying concepts of control and decision analysis to optimize the financial management of organizations. Prerequisite: ACCY 6201/MBAD 6213.

ACCY 6203. Controls, Alignment & the Org.. 1.5 Credit.**ACCY 6301. Contemporary Auditing Theory. 3 Credits.**

A comprehensive survey of contemporary auditing as practiced by external auditors (primarily certified public accountants) and internal auditors (those employed within government and corporate entities). Generally accepted auditing standards; government auditing standards. Planning, directing, and reporting on various audits. Prerequisite: ACCY 6101/MBAD 6211; corequisite: ACCY 6104.

ACCY 6302. Fraud Examination and Forensic Accounting. 3 Credits.

Financial statement fraud, misappropriation of assets, and methods of deterrence, prevention, detection, and investigation. Prerequisite: ACCY 6101/MBAD 6211; a course in auditing preferred but not required.

ACCY 6401. Federal Income Taxation. 3 Credits.

A study of federal income taxation, covering gross income, deductions and credits, sales and other disposition of property, capital gains and losses, and timing of income and deductions.

ACCY 6402. Federal Income Taxation of Partnerships. 3 Credits.

Financial and tax accounting for partnerships; formation and operation, distribution to partners, liquidation, and transfer of partnership interests. S corporations are also considered. Prerequisite: ACCY 6401.

ACCY 6403. Federal Income Taxation of Corporations. 3 Credits.

Federal income taxation of C corporations, covering formation, capital structure, nonliquidating distributions, complete liquidations, corporate accumulations, and the alternative minimum tax.

ACCY 6501. Accounting Information Systems and EDP. 3 Credits.

Development and application of accounting system theory, including analysis, design, control concepts, and implementation. Integration of electronic data processing, accounting systems, and management information systems. Prerequisite: ACCY 6101/MBAD 6211.

ACCY 6601. Business Law: Contracts, Torts, and Property. 3 Credits.

Essential legal principles of contracts, torts, and property, including trusts and estates, leases, professional liability, and the Uniform Commercial Code.

ACCY 6602. Business Law: Enterprise Organization. 3 Credits.

The legal aspects of organizing, financing, and operating an enterprise: agency, partnerships, corporations, securities regulation, insurance, suretyship, secured credit financing, and commercial paper.

ACCY 6701. Government and Nonprofit Accounting and Auditing. 3 Credits.

The budgeting, accounting, financial reporting, and auditing required of federal, state, and local governments, nonprofit organizations, and colleges and universities. The financial practices and requirements applicable to organizations receiving governmental financial assistance and those subject to governmental audits. Prerequisite: ACCY 6101/MBAD 6211.

ACCY 6801. Corporate Governance and Ethics. 3 Credits.

The theory, practice, and public policy environment of corporate governance. Purpose, functioning, and responsibilities of boards of directors. Power, control, and compensation of corporate management. Shareholders and stakeholders. Corporate governance in comparative national settings. Same as SMPP 6215.

ACCY 6900. Special Topics. 1-3 Credits.

Experimental offering; new course topics and teaching methods.

ACCY 6998. Directed Readings and Research. 1-3 Credits.

ACCY 8001. Doctoral Seminar. 1-12 Credits.

Reasoning and research in technical areas of accounting; theoretical issues and their application to practice; conceptual themes in professional literature; comparative accounting research analyses.

ACCY 8002. Doctoral Seminar. 0-3 Credits.

ACCY 8009. Dissertation Research. 1-12 Credits.

Limited to doctoral candidates. May be repeated for credit.

ACCY 8999. Advanced Reading and Research. 1-12 Credits.

Limited to doctoral candidates preparing for the general examination. May be repeated for credit.

BACHELOR OF BUSINESS ADMINISTRATION

The Bachelor of Business Administration (B.B.A.) degree offers general management preparation with an opportunity for specialization in a specific field of business. It represents a careful balance of structure and choice, with flexibility that allows students to tailor their programs to reflect the individual career goals they have selected. While each student takes the same basic business core classes, many of the general education courses and courses in the field of concentration are individually selected to suit each student.

Changes to degree requirements

The Bachelor of Business Administration curriculum was revised for all B.B.A. students entering the University in fall 2014 and beyond. Students who entered prior to fall 2014 will continue with the curriculum for the academic year in which they entered. This degree requires a minor outside of the School of Business. In addition, the B.B.A. curriculum includes general education and pre-business courses, business core courses, business concentration courses, and electives. The

B.B.A. degree program integrates the University's emphasis on interdisciplinary study.

REQUIREMENTS

The Bachelor of Business Administration curriculum has been revised for all students entering the University in fall 2014 or after (see below). Students who entered prior to fall 2014 will continue with the curriculum for the academic year in which they entered.

General education and pre-business

UW 1020 University Writing

BADM 1004 The Age of Globalization

ECON 1011 & ECON 1012 Principles of Economics I and Principles of Economics II

STAT 1051 Introduction to Business and Economic Statistics

or STAT 1053 Introduction to Statistics in Social Science

or STAT 1111 Business and Economic Statistics I

or APSC 3115 Engineering Analysis III

STAT 2112 Business and Economic Statistics II

or STAT 2118 Regression Analysis

One humanities course*

Two science courses*

A sequence of two math courses from the following:

MATH 1051 & MATH 1252 Finite Mathematics for the Social and Management Sciences and Calculus for the Social and Management Sciences

Or

MATH 1231 & MATH 1232 Single-Variable Calculus I and Single-Variable Calculus II

Business core

BADM 1001 First Year Development Course I

BADM 1002 First Year Development Course II

ACCY 2001 Intro Financial Accounting

ACCY 2002 Introductory Managerial Accounting

BADM 2001W Markets and Politics

BADM 2301	Management Information Systems Technology
or BADM 2301W	Mgt Information Systems Tech
BADM 3001	Career Management Strategy
BADM 3103	Human Capital in Organizations
BADM 3401	Basic Marketing Management

BADM 3501	Financial Management and Markets
BADM 3601	Operations Management
BADM 4101	Business Law and Ethics
BADM 4801	Strategy Formulation and Implementation

***A list of approved courses can be found on the General Education Requirement page (p. 28).**

Business concentration courses

A business concentration is required for all Bachelor of Business Administration students. Students select a field of concentration from among accountancy; business analytics; business economics and public policy; innovation and entrepreneurship; finance; information systems and technology management; international business; marketing; sport, event, and hospitality management; or, with faculty approval, may structure an individualized field of concentration reflecting a specific interest in management. The concentration consists of five field courses plus an international focus field course designated by the department. The concentration must be selected no later than the second semester of the sophomore year; students should contact the advising center to declare a concentration. Students may declare two concentrations, but they should note that this may increase the number of credits required to complete the B.B.A. In all cases, students must consult the academic advisor for an appropriate international focus field course. Concentration requirements are available at the School of Business website (<http://business.gwu.edu/ugrad>) or at the Undergraduate Advising Center (<http://business.gwu.edu/ugrad/advising-center>).

A B.B.A. student with a minimum GPA of 3.2 and a specific interest in an area of management not reflected by the standard B.B.A. concentrations may design and seek approval for an individualized concentration drawing upon courses across the University. Such a concentration consists of five field courses and one international focus field course selected with the guidance of faculty with expertise in the area of interest. All individualized concentration proposals must be submitted by the end of the junior year and must be approved in advance by the individualized concentration faculty review committee.

Interested students should discuss their idea with the GWSB advisor who oversees individualized fields in the GWSB Advising Center (<http://business.gwu.edu/ugrad/advising-center>).

Minor courses

A minor outside of the School of Business is required for this degree. Courses will vary according to minor and may require 15 to 18 credits. Students should reference the Bulletin and consult their academic advisor for assistance and additional information.

Elective courses

Elective courses may be numbered 1000-4999; at least six credits must be upper-level (numbered 2000-4999). Electives may not include LSPA (Lifestyle, Sport, and Physical Activity) courses and may include a maximum of one HLWL (Health and Wellness) course. In general, students will complete 18 credits of electives, or the minimum necessary to reach 120 credits for the degree.

Students may select their required concentration from the following:

- accountancy (p. 1167)
- business analytics (p. 1168)
- business economics and public policy (p. 1169)
- innovation and entrepreneurship (p. 1168)
- finance (p. 1170)
- information systems (p. 1171)
- international business (p. 1171)
- marketing (p. 1172)
- sport, event, and hospitality management (p. 1173)
- individualized field of concentration

COURSES

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000-4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

BADM 1001. First Year Development Course I. 1 Credit.

Required of all first-year students in School of Business. This course is designed to enhance students' education and begin preparation for business careers. The course meets periodically during the semester. Course fee. Restricted to students in the first year of enrollment in School of Business.

BADM 1002. First Year Development Course II. 1 Credit.

Continuation of BADM 1001. Required of all first-year students in School of Business. This course is designed to enhance students' education and begin preparation for business careers. The course meets periodically during the semester. Course fee. Restricted to students in the first year of enrollment in School of Business.

BADM 1003. Transfer Student Development. 1 Credit.**BADM 1004. The Age of Globalization. 3 Credits.**

A multidisciplinary foundation for all School of Business freshmen in assessing the geopolitical and political economy landscape of various regions and critical issues, viewing the world through a global lens while analyzing newsworthy current events and understanding their implications within their geographic, historic, political, economic, social, and cultural context. The central theme of this course is globalization of people, markets, and firms. The course coordinates with the newspaper reading requirement of the first-year development program.

BADM 1101. Organizational Behavior. 3 Credits.

Introduction to concepts of psychology and the social dynamics that characterize organizations. Decision making, motivation, attitudes, teamwork, power, and leadership. An experiential laboratory component uses case discussions and exercises to illustrate applications of theory and concepts. Restricted to School of Business freshmen.

BADM 1900. Special Topics. 1-3 Credits.**BADM 2001. Markets and Politics. 3 Credits.**

Economic and political resource allocation; social and political influences on business organizations; contemporary problems and issues.

BADM 2001W. Markets and Politics. 3 Credits.

Economic and political resource allocation; social and political influences on business organizations; contemporary problems and issues.

BADM 2003W. Analysis of Business Issues. 3 Credits.

Restricted to School of Business students in their sophomore year. Introduction to common language and analytic techniques. Business concepts and information resources are introduced through case analysis focusing on written and verbal communication and critical thinking skills.

BADM 2101. Management, Organizations, and Society. 1.5 Credit.

A history of management thought and an introduction to the role of the manager and the management process in the context of organizations and society.

BADM 2201. International Financial Environment. 1.5 Credit.

Assessment of international economic and financial environments as they affect international corporate activity. Conceptual issues and current developments in the international financial environment, including an overview of international economic systems, international financial systems, and global financial markets. Prerequisite: ECON 1012.

BADM 2301. Management Information Systems Technology. 3 Credits.

An introduction to data and information processing concepts and systems viewed from a contemporary management perspective. Emphasis on uses and applications as well as emerging managerial issues with the potential to reshape the form and function of information systems. Lab required. Prerequisite: basic knowledge of Microsoft Word, Excel, and PowerPoint.

BADM 2301W. Mgt Information Systems Tech. 3 Credits.

An introduction to data and information processing concepts and systems viewed from a contemporary management perspective. Emphasis on uses and applications as well as emerging managerial issues with the potential to reshape the form and function of information systems. Lab required. Prerequisite: basic knowledge of Microsoft Word, Excel, and PowerPoint.

BADM 3001. Career Management Strategy. 1 Credit.

Restricted to School of Business students in their junior year. The career development process, including job search strategies and formulation of a career management plan, with practice in producing a resume and interviewing for a position.

BADM 3101. Human Resource Management. 3 Credits.

Global and strategic implications of human capital policies and practices, including human resource planning, recruitment, selection, training, development, compensation, and collective bargaining. Prerequisite: BADM 1101 or PSYC 1001.

BADM 3102. Business and Government Relations. 3 Credits.

Economic and legal environment of business enterprise; social and political influences; contemporary problems and issues.

BADM 3102W. Business/Government Relations. 3 Credits.**BADM 3103. Human Capital in Organizations. 3 Credits.**

An introduction and integration of concepts drawn from human resource management and organizational behavior. Application of these concepts to individual, group/team, and organizational scenarios through experiential exercises, cases, and projects. Development of skills in analyzing and evaluating human capital problems and determining appropriate solutions.

BADM 3401. Basic Marketing Management. 3 Credits.

Consumer and organizational buying behavior. Strategic marketing processes (market research, segmentation, targeting, positioning, and relationship-building). Product development and brand management, valuation and pricing, channel and logistics management, integrated marketing communications, e-commerce. Prerequisite: ECON 1012 or HONR 2044.

BADM 3401W. Basic Marketing Management. 3 Credits.

Consumer and organizational buying behavior. Strategic marketing processes (market research, segmentation, targeting, positioning, and relationship-building). Product development and brand management, valuation and pricing, channel and logistics management, integrated marketing communications, e-commerce. Prerequisites: ECON 1012 or HONR 2044.

BADM 3501. Financial Management and Markets. 3 Credits.

Introduction to financial markets, investment analysis, and financial management. Financial analysis, risk management, working capital management, capital budgeting, financial structure, cost of capital, and dividend policy. Prerequisites: ACCY 2001; ECON 1012 or HONR 2044; MATH 1221 or MATH 1231 or MATH 1252; STAT 1051, STAT 1053, or STAT 1111.

BADM 3601. Operations Management. 3 Credits.

Production planning concepts and analytical tools. Designing and managing production processes: facilities, equipment, process control systems. Design issues, demand forecasting, material planning, acquisition techniques. Managing the factory floor: scheduling, total quality management, continuous improvement concepts and methods. Prerequisite: STAT 1051, STAT 1053, or STAT 1111.

BADM 3999. Bus. Admin. Trans. Cred-Upper. 1-36 Credits.**BADM 4101. Business Law and Ethics. 3 Credits.**

Overview of the American legal system and related ethical issues with reference to business law and the Universal Commercial Code. Key legal concepts such as contracts and torts. The role of courts: regulation, litigation, and constitution issues.

BADM 4801. Strategy Formulation and Implementation. 3 Credits.

An integrative capstone course to develop skills in diagnosing organizational problems, formulating and selecting strategic alternatives, and recognizing problems inherent in strategy implementation. Restricted to seniors in the B.B.A., B.Accy., and SEAS business concentration programs.

BADM 4900. Special Topics. 0-3 Credits.

Experimental offering; new course topics and teaching methods.

BADM 4900W. Special Topics. 0-3 Credits.

Experimental offering; new course topics and teaching methods.

BADM 4950. Internship. 0 Credits.

School of Business undergraduates may register for this course when they wish to have an internship recorded on the transcript. The supervisor must verify that the internship has been completed for a minimum of six hours per week. An administrative fee is charged. May be repeated each semester if desired.

BADM 4995. Independent Study. 1-6 Credits.

Assigned topics with interdisciplinary focus. Admission by prior permission of advisor. May be repeated once for credit but in a separate semester.

BACHELOR OF BUSINESS ADMINISTRATION WITH A CONCENTRATION IN ACCOUNTANCY

The Bachelor of Business Administration (B.B.A.) with a concentration in Accountancy provides undergraduate students with the analytical tools and conceptual framework needed to understand and record financial transactions.

GWSB offers two options for students to study accountancy: the Bachelor of Business Administration degree (B.B.A.) with a concentration in Accountancy and the Bachelor of Accountancy (B.Accy.) degree. For students who plan to work as an accountant, often with a CPA designation, the B.Accy. degree program is more appropriate because it offers substantially more preparation in accounting. The B.B.A. degree with an accountancy concentration is intended to be paired with a complementary field of concentration. In the B.Accy. degree program, students take ten upper-level accounting classes, compared to five courses for the B.B.A. concentration in accountancy. For B.B.A. students who plan to pursue careers in finance, accountancy is an ideal second concentration with finance because it provides a strong background in the accounting information that underlies many financial decisions. B.B.A. students with a concentration in information systems often pursue jobs related to accounting information systems, which would make accountancy an excellent choice for a second concentration.

REQUIREMENTS

In addition to the requirements for the Bachelor of Business Administration (p. 1164) the concentration in Accountancy requires five field courses and one international field course:

Field	
ACCY 3101	Intermediate Accounting I
ACCY 3102	Intermediate Accounting 2
ACCY 3106	Financial Statement Analysis *

or ACCY 4501 Accounting Systems

Two of the following:

ACCY 3106 Financial Statement Analysis *

ACCY 3401 Federal Income Tax:Individuals

ACCY 3403 Advanced Tax

ACCY 4107 Advanced Accounting

ACCY 4301 Auditing

ACCY 4501 Accounting Systems *

International field

One of the following:

ECON 2180 Survey of International Economics

ECON 2181 International Trade Theory and Policy

IBUS 3001 Introduction to International Business

IBUS 3101 Global Financial Environment

*ACCY 3106 Financial Statement

Analysis and ACCY 4501 Accounting Systems are options for both the required and additional field course categories. If only one is taken, it will apply to the required field course category; if both are taken, one will apply to the required field courses, and one will apply to the additional field course category.

Students should consult with the advisor for specific Bachelor of Business Administration general education courses (p. 1164) that apply to this concentration

BACHELOR OF BUSINESS ADMINISTRATION WITH A CONCENTRATION IN BUSINESS ANALYTICS

A concentration in Business Analytics provides undergraduate students with analytical tools and conceptual framework needed to understand and apply data and decision modeling regardless of the size of the data and complication of the decision problem in real life settings. Analytics is defined as the extensive use of data, statistical and quantitative models, and fact based management to drive decisions and actions. It is more than just modeling and data manipulation; it is a process of transforming data into actions through analysis and insights in the context of organizational decision making and problem solving.

REQUIREMENTS

In addition to the requirements for the Bachelor of Business Administration (p. 1164) the concentration in business analytics requires five field courses and one international field course:

Field

DNSC 3401 Introduction to Business Analytics

DNSC 3402 Data Mining

ISTM 4121 Database Design and Applications

Two of the following:

DNSC 4404 Essentials of Project Management

DNSC 4900 Special Topics (Decision Modeling; Forecasting; Marketing Analytics; or Supply Chain Analytics)

ISTM 3119 Introduction to Programming

International field

One of the following:

IBUS 3001 Introduction to International Business

IBUS 3101 Global Financial Environment

IBUS 4401 Managing the Multinational Enterprise

IBUS 4203 Foreign Market Analysis

IBUS 4402 Managing in Developing Countries

ORSC 2046 Global Organizations

PSC 2992 Special Topics in American Politics and Government (Politics of the Internet)

Students should consult with the advisor for specific Bachelor of Business Administration general education courses (p. 1164) that apply to this concentration.

BACHELOR OF BUSINESS ADMINISTRATION WITH A MAJOR IN INNOVATION AND ENTREPRENEURSHIP

The Bachelor of Business Administration (B.B.A.) with a major in innovation and entrepreneurship (INEN) provides undergraduate students with a broad spectrum of skills that enable them to start, manage, and grow a new and/or existing business. With that as background, graduates are equipped to work in major organizations that develop new products, procedures, and services. The program provides students

with opportunities to explore new organizational types, both for- and not for-profit, and to develop the skills needed to become effective consultants. The INEN concentration emphasizes practical learning and encourages students to excel in the classroom while participating in field-related activities. Exposure to scenarios designed to sharpen their ability to use fast-paced decision making, INEN students are challenged to operate with success in turbulent environments.

REQUIREMENTS

In addition to the requirements for the Bachelor of Business Administration (p. 1164) the concentration in Innovation and Entrepreneurship requires five field courses and one international field course:

Field

MGT 3300W	Entrepreneurship
-----------	------------------

MGT 4003	Management of the Growing Entrepreneurial Venture
----------	---

Three of the following:

MGT 3301	Small Business Management
----------	---------------------------

MGT 3302	e-Entrepreneurship
----------	--------------------

MGT 3303	Women's Entrepreneurial Leadership
----------	------------------------------------

MGT 4900	Special Topics (Human Capital and Sustainability)
----------	---

International field

IBUS 3001	Introduction to International Business
-----------	--

IBUS 3101	Global Financial Environment
-----------	------------------------------

IBUS 3201	International Marketing Management
-----------	------------------------------------

IBUS 3301	International Business Finance
-----------	--------------------------------

PSC 1003	Introduction to International Politics
----------	--

Students should consult with the advisor for specific Bachelor of Business Administration general education courses (p. 1164) that apply to this concentration.

BACHELOR OF BUSINESS ADMINISTRATION WITH A CONCENTRATION IN BUSINESS ECONOMICS AND PUBLIC POLICY

The Bachelor of Business Administration degree (BBA) with a concentration in Business Economics and Public Policy (BEPP) is

concerned with the continuing business-government dialogue that leads to effective decision making and equitable relations between the public and private sectors of society. Study of the economic and social foundations of government programs and regulatory activity is used to establish a basis for developing and evaluating effective business responses.

The field is designed to develop understanding and skills useful for a wide variety of positions in public, private, for-profit, and not-for-profit organizations. Students deepen their understanding of the social and legal environments that influence business and its relationships with government at all levels. Students also receive strong in-depth training in micro- and macroeconomic analysis. This key element of the field prepares students to perform rigorous and sophisticated analyses of the economic impacts of policy decisions on various types of institutions and organizations.

The field is also designed to ensure that students understand the workings of political systems and institutions, particularly the U.S. federal government. This understanding includes recognizing not only what government can do and achieve, but also the limits of its power and the role of private interests in driving political decision-making in Congress and in the agencies.

REQUIREMENTS

In addition to the requirements for the Bachelor of Business Administration (p. 1164) (p. 1164) the concentration in Business Economics and Public Policy requires five field courses and one international field course:

Field

ECON 2101	Intermediate Microeconomic Theory
-----------	-----------------------------------

PSC 2222 Science, Technology, and Politics

International field

One of the following:

ECON 2181 International Trade Theory and Policy

IBUS 3001 Introduction to International Business

IBUS 3101 Global Financial Environment

IBUS 3301 International Business Finance

Students should consult with the advisor for specific Bachelor of Business Administration general education courses (p. 1164) that apply to this concentration

BACHELOR OF BUSINESS ADMINISTRATION WITH A CONCENTRATION IN FINANCE

The Bachelor of Business Administration (B.B.A.) with a concentration in finance provides undergraduate students with the analytical tools and conceptual framework needed to evaluate financial transactions and make financial decisions within firms. The academic program allows students to understand finance from three interrelated perspectives:

- Financial management related to capital budgeting, financial structure, financial analysis, working capital management, and dividend policy;
- Investment and portfolio management related to the valuation of stocks, bonds, and derivative contracts and the construction of efficient portfolios; and
- The money and capital market related to the issuance and investment in financial instruments by banking organizations with emphasis on the consequence of interest rates and interest rate structure on valuation and risk.

Upon successful completion of the B.B.A. with a concentration in finance, students can apply for professional positions such as a credit analyst, equity analyst, or financial analyst with governmental agencies, for-profit corporations, and investment banks. Finance also provides an excellent foundation for graduate study in business, economics, public policy, and law.

REQUIREMENTS

In addition to the requirements for the Bachelor of Business Administration (p. 1164) the concentration in finance requires five field courses and one international field course:

Field

FINA 3001 Intermediate Finance

FINA 3101 Investment and Portfolio Management

FINA 4001 Advanced Financial Management

or FINA 4001W Advanced Financial Management

Two of the following:

FINA 3201W Exploring Finance w/Simulation

FINA 3301 Money and Capital Markets

FINA 4101 Applied Financial Securities Analysis

FINA 4201 Real Estate Investment

FINA 4900 Special Topics (Derivatives)

International field

One of the following:

ECON 2180 Survey of International Economics

ECON 2181 International Trade Theory and Policy

ECON 2182 International Macroeconomic Theory and Policy

FINA 4900 Special Topics (History of Finance)

IBUS 3001 Introduction to International Business

IBUS 3101 Global Financial Environment

IBUS 3301 International Business Finance

IBUS 4302 International Banking

IBUS 4303 International Monetary and Financial Issues

Students should consult with the advisor for specific Bachelor of Business Administration general education courses (p. 1164) that apply to this concentration

BACHELOR OF BUSINESS ADMINISTRATION WITH A CONCENTRATION IN INFORMATION SYSTEMS

The Bachelor of Business Administration (B.B.A.) with a concentration in Information Systems and Technology Management (ISTM) enables undergraduate students to acquire an in-depth understanding of information technology (IT) and the skills and analytical methods needed to design and develop the information systems (IS) that businesses find indispensable. The IT overview covers areas ranging from data communications, including the Internet and the World Wide Web, to data management. Students also learn about and have opportunities for practical experience in the structured development of information systems, programming, database design, and other techniques needed for successful IS design and develop. These IS/IT-specific skills and knowledge, coupled with an understanding of the other aspects of business acquired in the program, give students a competitive start in their chosen careers.

REQUIREMENTS

In addition to the requirements for the Bachelor of Business Administration (p. 1164) the concentration in Information Systems and Technology Management requires five courses in the field and one course in the international field:

Field

ISTM 3119	Introduction to Programming
ISTM 4120	Business Systems Development
ISTM 4121	Database Design and Applications

Two of the following:

ISTM 4123	Business Data Communications
ISTM 4130	Writing on the Ethics of Technology
or ISTM 4130W	WritingOnTheEthicsofTechnology

ISTM 4900	Special Topics *
-----------	------------------

International field

One of the following:

IAFF 6141	International Science and Technology Policy Cornerstone
IAFF 6158	Special Topics in International Science and Technology Policy
IBUS 3101	Global Financial Environment

IBUS 4401	Managing the Multinational Enterprise
-----------	---------------------------------------

IBUS 4402	Managing in Developing Countries
-----------	----------------------------------

ISTM 4900	Special Topics (Management of Technology and Innovation/Innovation Ventures**)
-----------	--

ORSC 2046	Global Organizations
-----------	----------------------

PSC 2992	Special Topics in American Politics and Government (Politics of the Internet)
----------	---

*Enrollment in ISTM 4900 on topics announced in the Schedule of Classes requires ISTM program director approval.

**ISTM 4900 offered as *Management of Technology and Innovation/Innovation Ventures* may be used toward either the Field course requirement or the International Field course requirement, but not both.

Students should consult with the program director for specific Bachelor of Business Administration general education courses (p. 1164) that apply to this concentration

BACHELOR OF BUSINESS ADMINISTRATION WITH A CONCENTRATION IN INTERNATIONAL BUSINESS

The Bachelor of Business Administration (B.B.A.) with a concentration in International Business provides undergraduates with the analytical tools and conceptual framework needed to understand the international financial, political, and economic environment; how that environment influences a firm's strategy and performance; how culture plays a role in guiding a firm's strategic activities; and how a firm can leverage home and host country resources to overcome challenges inherent in managing a multinational enterprise. The academic program allows students to understand international business from three interrelated perspectives: international economics and finance, international marketing, and international corporate strategy.

This field provides the basic academic foundations for entry-level positions in international business, particularly in multinational corporations, international banks, and governmental agencies. Such organizations include the Export-Import Bank, Overseas Private Investment Corporation, and the Departments of Commerce, State, and Treasury, in addition to international institutions such as the World Bank and the International Finance Corporation.

REQUIREMENTS

In addition to the requirements for the Bachelor of Business Administration (p. 1164) the concentration in International Business requires five field courses, one international field

course, one foreign language course, and one upper-level course.

Field

IBUS 3001 Introduction to International Business

IBUS 3101 Global Financial Environment

Three of the following:

IBUS 3201 International Marketing Management

IBUS 3301 International Business Finance

IBUS 4202 Regional Strategy for Multinationals

IBUS 4203 Foreign Market Analysis

IBUS 4302 International Banking

IBUS 4303 International Monetary and Financial Issues

IBUS 4401 Managing the Multinational Enterprise

IBUS 4402 Managing in Developing Countries

IBUS 4900 Special Topics

IBUS 4995 Independent Study

International field

One of the following:

ECON 2169 Introduction to the Economy of China

ECON 2181 International Trade Theory and Policy

ECON 2182 International Macroeconomic Theory and Policy

ECON 2185 Economic History and Problems of Latin America

GEOG 2145 Cultural Geography

or GEOG 2145W Cultural Geography

GEOG 2146 Political Geography

GEOG 3154 Geography of the Middle East and North Africa

PSC 2330 Comparative Politics of Western Europe

PSC 2442 International Organizations

PSYC 3125 Cross-Cultural Psychology

SOC 2168 Economic Sociology

Other requirements

One foreign language course at the intermediate I or higher level

One upper-level course numbered 2000-4999 from any department with the exception of AH, FA, EXSC, IBUS, MUS, or TRDA

Students should consult with the advisor for specific Bachelor of Business Administration general education courses (p. 1164) that apply to this concentration.

BACHELOR OF BUSINESS ADMINISTRATION WITH A CONCENTRATION IN MARKETING

The Bachelor of Business Administration (B.B.A.) with a concentration in Marketing provides undergraduate students with the analytical and conceptual foundations for strategic marketing processes. These processes include market research, segmentation, targeting, positioning, integrated marketing communications, and relationship building. Students develop competencies and skills in identifying customer needs and wants; making decisions about which markets organizations should serve; designing product, service, and program offerings for these markets; planning and implementing strategies to communicate with and sell to these markets; and creating value through profitable relationships with customers as well as channel partners, suppliers, and other stakeholders.

REQUIREMENTS

In addition to the requirements for the Bachelor of Business Administration (p. 1164) the concentration in Marketing requires five field courses and one international field course:

Field

MKTG 3142 Consumer Behavior

MKTG 3143 Marketing Research

Three of the following:

MKTG 4148 Advertising

MKTG 4149 Advanced Advertising Campaigns *

MKTG 4159 Marketing Strategy

MKTG 4150 Salesmanship and Sales Management

MKTG 4152 Retailing Management

MKTG 4900 Special Topics **

International field

One of the following:

IBUS 3001 Introduction to International Business

IBUS 3101 Global Financial Environment

IBUS 3201 International Marketing Management

* Students with a specific interest in advertising may apply to take MKTG 4149. If accepted, they must also register for MKTG 4151W - Marketing Communications Planning. MKTG 4151W cannot be used to fulfill a field course, but can be used to fulfill an elective requirement, if needed. Students who wish to take MKTG 4149 must complete MKTG 4148 as one of their field courses before spring of their senior year.

**MKTG 4900 may be taken multiple times as a field course providing the topics differ.

Students should consult with the advisor for specific Bachelor of Business Administration general education courses (p. 1164) that apply to this concentration

Required Field Courses:

MKTG 3142 Consumer Behavior

MKTG 3143 Marketing Research

Additional Field Courses

Choose three from the following:

MKTG 4148 Advertising

MKTG 4149 Advanced Advertising Campaigns (*)

MKTG 4159 Marketing Strategy

MKTG 4150 Salesmanship and Sales Management

MKTG 4152 Retailing Management

MKTG 4900 Special Topics (Multiple MKTG 4900 courses may be taken as field courses as long as they are different topics; options vary by semester. Examples include: Digital Marketing or Integrated Marketing Communication)

International Field Course

Choose one from the following:

IBUS 3001 Introduction to International Business

IBUS 3101 Global Financial Environment

IBUS 3201 International Marketing Management

Special Notes for the Marketing Concentration:

- *** MKTG 4149:** Students with a specific interest in advertising may apply to take MKTG 4149. If accepted, students must also register for MKTG 4151W - *Marketing Communications Planning*. MKTG 4151W cannot be used to fulfill a Field Course, but can be used to fulfill an elective requirement, if needed. Students who wish to take MKTG 4149 must complete MKTG 4148 as one of their Field Course Choices before Spring of their Senior Year.
- **BADM 3001 *Career Management Strategy*** should ideally be completed by the end of sophomore year and marketing-specific sections are available; please register for a section that aligns with your career goals.

BACHELOR OF BUSINESS ADMINISTRATION WITH A CONCENTRATION IN SPORT, EVENT, AND HOSPITALITY MANAGEMENT

The Bachelor of Business Administration (B.B.A.) with a concentration in Sport, Event, and Hospitality Management provides students with a theoretical and practical understanding of the sport, event, and hospitality industries through three different tracks:

- Sport management track focuses on the management and marketing of sport events, organizations, products, and athletes, as well as in special events, conferences, meetings, expositions, festivals, and other entertainment properties including sport and event facilities.
- Event management track focuses on the marketing and management of businesses related to conventions, meetings, special events, conferences, expositions, and festivals.
- Hospitality management track focuses on the marketing, management, and financing of both hotels and those businesses related to tourism, including cities, attractions, restaurants, and airlines.

Typical entry-level positions include those in collegiate and professional sport organizations, sport marketing agencies, sport manufacturers, sport and event facilities, hotels and resorts, restaurants and food service operations, visitor and convention bureaus, theme parks and recreation centers, museums, tour operators, travel management firms, destination management companies, event producers, associations, corporate sponsors, and consulting firms.

REQUIREMENTS

In addition to the requirements for the Bachelor of Business Administration (p. 1164), the concentration in Sport, Event, and Hospitality Management requires completion of five courses in the field, all courses in one track, and one course in the international field.

Field

TSTD 3001 Intro-Tourism/Hospitality Mgt

TSTD 4102 Practicum

Or MGT 4900 Human Capital & Sustainability

All courses from one of the following tracks:

Track A - Sport Management

TSTD 3101 Sport & Event Business Mgt

TSTD 3102W Sport and Event Marketing

TSTD 4101 Issues in Sport & Event Mgmt

Track B - Event Management

TSTD 3301 Hospitality Industry Managemnt

or TSTD 3101 Sport & Event Business Mgt

TSTD 4301 Travel Marketing Communication

or TSTD 3102W Sport and Event Marketing

TSTD 4900 Special Topics (Convention and Meeting Management)

Track C - Hospitality Management

TSTD 3301 Hospitality Industry Managemnt

TSTD 3302 Financial Mgt-Tourism/Hospitly

TSTD 4301 Travel Marketing Communication

International field

One of the following:

GEOG 2145 Cultural Geography

or GEOG 2145W Cultural Geography

IBUS 3001 Introduction to International Business

IBUS 3101 Global Financial Environment

IBUS 3201 International Marketing Management

Students should consult with the advisor for specific Bachelor of Business Administration general education courses (p. 1164) that apply to this concentration

BACHELOR OF BUSINESS ADMINISTRATION, INDIVIDUALIZED CONCENTRATION

The purpose of the individualized concentration is to assist Bachelor of Business Administration students who have a clear career objective that falls outside of the nine standard B.B.A. concentrations (<http://gwsbwebsite.com/undergraduate/bba>). The career objectives of most B.B.A. students can easily be met by one of the standard concentrations, in which case pursuing an individualized program of study is not recommended.

REQUIREMENTS

Program of study

The program of study for the B.B.A. individualized concentration varies greatly depending on the individual student's objectives. Past individualized concentrations pursued include entrepreneurship and/or small business management, health administration, human resource management, performing arts management, real estate development, strategic management, and supply chain management.

Proposal and application process

As part of the application process, students must create a proposal that includes the following core requirements:

- five field courses
- one international field course

Students develop their full proposal based on extensive research and with the assistance of faculty members who focus in related fields. Complete criteria and application directions can be found in the Individualized Field Application Packet (http://business.gwu.edu/wp-content/uploads/2014/02/Individualized_Field_Information_and_Application_packet_FA14.pdf).

Two key factors to be aware of:

- GWSB students must have a 3.2 or higher cumulative GPA in order to submit an Individualized concentration proposal.
- Proposals must be submitted before the start of senior year.

Important Note

The Individualized concentration application process typically takes 10 to 12 weeks from initial research to receiving the faculty committee's final decision; therefore, it is recommended that students start this process no later than spring of their junior year. Students are advised not to take proposed courses prior to approval of the individualized field.

BACHELOR OF SCIENCE WITH A MAJOR IN FINANCE

Emphasizing a finance-focused education, the Bachelor of Science with a Major in Finance degree program directly targets the financial industry including commercial banks, investment banks, investment companies, and insurance companies.

The degree is offered by the School of Business both to its own students and to those enrolled in other GW schools. School of Business students enrolled in the program are required to take a second major in another GW school, while those from other GW schools take the program as a second major. Having two majors that span the School of Business and another school ensures the breadth and depth of a student's program while integrating the University's emphasis on interdisciplinary study. The degree is offered with a major in finance requiring a minimum of 120 credits and completion of all required courses. Students must apply and be admitted to this competitive program.

Visit the (<http://business.gwu.edu/undergraduate/bs-finance>)program website (<http://business.gwu.edu/ugrad>) for additional information.

REQUIREMENTS

General education

UW 1020 University Writing

One humanities course from approved list **

Two science courses from approved list **

Prerequisite

MATH 1231 & MATH 1232 Single-Variable Calculus I and Single-Variable Calculus II

ECON 1011 & ECON 1012 Principles of Economics I and Principles of Economics II

STAT 1051 Introduction to Business and Economic Statistics

or STAT 1053 Introduction to Statistics in Social Science

or STAT 1111 Business and Economic Statistics I

or APSC 3115 Engineering Analysis III

STAT 2118 Regression Analysis

Signature

BADM 1001 & BADM 1002 First Year Development Course I and First Year Development Course II *

or BADM 1003 Transfer Student Development

BADM 1004 The Age of Globalization

BADM 2001W Markets and Politics

BADM 3001 Career Management Strategy

BADM 4101 Business Law and Ethics

Major

ACCY 2001 Intro Financial Accounting

ACCY 3106 Financial Statement Analysis

BADM 3501 Financial Management and Markets

FINA 3001 Intermediate Finance

FINA 3101 Investment and Portfolio Management

FINA 4001 Advanced Financial Management

or FINA 4001W Advanced Financial Management

Four of the following:

FINA 3201W Exploring Finance w/Simulation

FINA 3301 Money and Capital Markets

FINA 4101 Applied Financial Securities Analysis

FINA 4201 Real Estate Investment

FINA 4900 Special Topics (Financial Derivatives)

FINA 4900 Special Topics (History of Finance)

One of the following:

ECON 2180 Survey of International Economics

ECON 2181 International Trade Theory and Policy

ECON 2182 International Macroeconomic Theory and Policy

IBUS 3001 Introduction to International Business

IBUS 3101 Global Financial Environment

IBUS 3301 International Business Finance

IBUS 4302 International Banking

IBUS 4303 International Monetary and Financial Issues

*Freshmen are required to take BADM 1001 and BADM 1002; transfer students are required to take BADM 1003.

**A list of approved courses can be found on the General Education Requirement page (p. 28).

COURSES

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000-4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

FINA 3001. Intermediate Finance. 3 Credits.

Theory and practice of acquiring and using funds. Simulations of business decisions by cases and/or models to assess the risk/return interaction of investment, financing, and dividend decisions. Prerequisite: BADM 3501.

FINA 3101. Investment and Portfolio Management. 3 Credits.

Theory and principles of security analysis and portfolio management, including analysis of the national economy, industry, company, and security markets. Risk-reward and computer-aided analysis. Prerequisite: BADM 3501.

FINA 3201W. Exploring Finance w/Simulation. 3 Credits.

Corporate financial analysis as explored through the FINGAME financial simulation software. Focus on intertemporal decision making for capital budgeting and financing of a simulated firm. Prerequisite: BADM 3501.

FINA 3301. Money and Capital Markets. 3 Credits.

The process of capital formation in a free enterprise economy, with special emphasis on factors affecting the level and structure of interest rates. Money market, capital market, and derivative contracts (futures and swaps) are evaluated from both investment and financing perspectives. Prerequisite: BADM 3501.

FINA 4001. Advanced Financial Management. 3 Credits.

Analysis and readings covering applications of theory to financial management. Case studies for decision making involving working capital, capital budgeting, financing, dividend policy, and valuation. Prerequisite or concurrent registration: BADM 3501 and FINA 3301 or FINA 3001.

FINA 4001W. Advanced Financial Management. 3 Credits.

Analysis and readings covering applications of theory to financial management. Case studies for decision making involving working capital, capital budgeting, financing, dividend policy, and valuation. Prerequisite or concurrent registration: BADM 3501 and FINA 3301 or FINA 3001.

FINA 4101. Applied Financial Securities Analysis. 3 Credits.

Practical security analysis techniques and investing approaches employed by professional investment managers. Prerequisite: BADM 3501.

FINA 4121W. Exploring Finance w/Simulation. 3 Credits.

FINA 4201. Real Estate Investment. 3 Credits.

Principles of real estate investment, including valuation, appraisal, financing, and development, in addition to a discussion of the mortgage market and its institutions. Prerequisite: BADM 3501.

FINA 4900. Special Topics. 3 Credits.

Experimental offering; new course topics and teaching methods. Prerequisite: BADM 3501.

FINA 4900W. Special Topics. 3 Credits.

Experimental offering; new course topics and teaching methods.

FINA 4995. Independent Study. 1-15 Credits.

Assigned topics. Admission by prior permission of advisor. May be repeated once for credit. Prerequisite: BADM 3501.

FINA 6220. Business Financial Management. 3 Credits.

FINA 6221. Financial Decision Making. 3 Credits.

Theory and practice of business finance, emphasizing the impacts of long- and short-term uses and sources of funds on the firm's market value. Prerequisite: MBAD 6234.

FINA 6222. Capital Formation. 3 Credits.

Determinants of saving and investment and resultant funds flow are evaluated. Special emphasis on the level and risk structure and term structure of interest rates. The role and management of financial institutions is stressed. Prerequisites: MBAD 6234 or MBAD 6235.

FINA 6223. Investment Analysis and Portfolio Management. 3 Credits.

Risk-reward analysis of security investments, including analysis of national economy, industry, company, and market; introduction to portfolio management; emphasis on theory and computer methods. Prerequisites: MBAD 6234 or MBAD 6235.

FINA 6224. Financial Management. 3 Credits.

Advanced case studies in domestic and international financial management; working capital policy, capital budgeting, financing with debt and equity, dividend policy, valuation, project finance, venture capital, and mergers and acquisitions. Prerequisites: MBAD 6234 or MBAD 6235.

FINA 6230. Urban Development Economics. 3 Credits.

FINA 6231. Sem:Investment & Portfolio Mgt. 3 Credits.

FINA 6234. New Venture Financing: Due Diligence and Valuation Issues. 3 Credits.

Fundamentals and practice of due diligence and screening of early-stage investment opportunities. Prerequisites: MBAD 6234 or MBAD 6235. (Same as MGT 6293).

FINA 6235. Futures Markets: Trading and Hedging. 3 Credits.

Organization and regulation of futures markets. Alternative strategies for trading of futures contracts for possible hedging uses. High risk-high return investment alternatives. The use of futures markets to manage risks. Recommended: FINA 6221. Prerequisites: MBAD 6234 or MBAD 6235.

FINA 6236. Options. 3 Credits.

Pricing of options on financial instruments. Role of options in risk management, trading strategies, hedging implications for national and international investors, financial engineering, and structure and regulation of option markets. Recommended: FINA 6221. Prerequisites: MBAD 6234 or MBAD 6235.

FINA 6237. Private Wealth Management/Personal Financial Advising. 3 Credits.

For students preparing to be personal financial advisors; the combination of taxes, pensions, investing, budgets, estates and trusts, and insurance into comprehensive personal financial plans. Regulation, professional ethics, and the economics of advisory firms. Extensive use of computer spreadsheets and case studies. Recommended: ACCY 6401. For students preparing to be private wealth managers/personal financial advisors; the combination of taxes, pensions, investing, budgets, estates and trusts, and insurance into comprehensive personal financial plans. Regulation, professional ethics, and the economics of advisory firms. Extensive use of computer spreadsheets and case studies. Prerequisite: FINA 6223; ACCY 6401 is recommended.

FINA 6238. Financial Engineering. 3 Credits.

Valuation and risk management theory for bonds, forward contracts, swaps, options, exotic options, and interest rate options. Development of financial software, including Monte Carlo simulation modeling. Case studies of innovative solutions to investment, corporate finance, and financial institution management problems. Prerequisites: MBAD 6234 or MBAD 6235.

FINA 6239. Applied Portfolio Management. 3 Credits.

Synthesis of the theoretical concepts of securities analysis and portfolio management with the application of analyzing securities and building an actual portfolio. Prerequisites: (MBAD 6234 or MBAD 6235) and permission of instructor.

FINA 6240. Real Estate Development. 3 Credits.

Examination of the forces that shape real estate development; market analysis methods and techniques to evaluate project feasibility; the institutional and legal framework within which real estate development occurs and that influences controls, land value, and development potential. Prerequisites: MBAD 6234 or MBAD 6235.

FINA 6241. Financing Real Estate. 3 Credits.

Principles of real estate finance; evaluating different methods of financing real estate; sources of real estate funding with emphasis on securitization. Incentives provided by governments. Prerequisites: MBAD 6234 or MBAD 6235.

FINA 6242. Real Estate Valuation and Investment. 3 Credits.

Applications of market analysis, valuation, and financial techniques for the real estate appraisal and investment process. Prerequisites: MBAD 6234 or MBAD 6235.

FINA 6245. Land Development Law. 3 Credits.

FINA 6247. Urban Development Economics. 3 Credits.

FINA 6248. Real Estate Development Cases. 3 Credits.

Case study analysis of large-scale commercial real estate developments to gain comprehension of financial, political, legal, and technical complexities and constraints inherent in the real estate development process. Prerequisite: FINA 6221 or permission of instructor.

FINA 6271. Financial Modeling and Econometrics. 4 Credits.

Applied statistical and econometric analysis and modeling in finance. Methodologies include descriptive and inferential statistics, multivariate regression, and time series analysis. Empirical studies are reviewed, and a series of research projects are undertaken. Prerequisites: Master of Science in Finance degree candidacy.

FINA 6272. Global Financial Markets. 4 Credits.

Theories explaining domestic and international interest rate and exchange rate structures. Roles of financial institutions and markets are investigated and forecasting methodologies are applied. Prerequisites: Master of Science in Finance degree candidacy.

FINA 6273. Cases in Financial Management and Investment Banking. 4 Credits.

Computer modeling for analysis and forecasting of a firm's financial statements to reflect possible future performance. Application and integration of financial accounting and financial analysis, using a different case study each week. Financial issues faced by companies and their commercial and investment bankers as tactical and strategic decisions are made about organic growth, growth through merger and acquisition, and corporate reorganization. Prerequisites: Master of Science in Finance degree candidacy.

FINA 6274. Corporate Financial Management and Modeling. 4 Credits.

Causal connections between decisions made by business firms, their expected performance, and the resulting current valuation of the firm's common stock. Factors affecting the level and structure of interest rates, which are incorporated by many financial models, theories, and decisions. Prerequisites: Master of Science in Finance degree candidacy.

FINA 6275. Investment Analysis and Global Portfolio Management. 4 Credits.

Financial markets and instruments viewed from the investor's perspective. Analysis of the value of equity and fixed-income securities and the construction of efficient portfolios in a global financial market. Issues of market efficiency, tax structures, and investment funds; computer-based models. Prerequisite: Master of Science in Finance degree candidacy.

FINA 6276. Financial Engineering and Derivative Securities. 4 Credits.

Mathematical and theoretical foundations to value-derivative securities, including options, futures, and swaps; hedging and trading applications of these contracts. Arbitrage trading across cash and derivative markets and its role in maintaining equilibrium prices. Prerequisite: Master of Science in Finance degree candidacy.

FINA 6277. Comparative Financial Market Regulation and Development. 4 Credits.

Theory and current status of comparative regulation of domestic and international financial institutions and markets. Effects on country economic development and international trade. Prerequisite: Master of Science in Finance degree candidacy.

FINA 6278. Financial Theory and Research. 4 Credits.

Theoretical constructs of business investment and financing decisions and of financial asset pricing structures in domestic and international environments. Analytical and numerical models are developed, and empirical studies are evaluated. Prerequisite: Master of Science in Finance degree candidacy.

FINA 6279. Real Estate Finance and Fixed-Income Security Valuation. 4 Credits.

Application of financial theory to real estate investment: the housing market, mortgage valuation and securitization, commercial properties, CMBS, and REITs. Fixed-income security valuation with focus on theory and data applications on interest rate movements, fixed-income security and derivative pricing, and credit risk. Prerequisites: Master of Science in Finance degree candidacy.

FINA 6280. Financial Institution Management and Modeling. 4 Credits.

Analysis of the financial performance and condition of a bank, toward understanding of the financial environment in which banks operate and regulation of the banking system. Application of asset/liability management principles and statistical and mathematical models employed in bank risk management. Prerequisites: Master of Science in Finance degree candidacy.

FINA 6281. Cases in Financial Modeling and Engineering. 4 Credits.

Through the use of real-world examples from various aspects of finance, students are exposed to the modeling of complex financial instruments and techniques used in market and credit risk management. Underlying mathematics and theoretical constructs are explored and solidified through modeling exercises that make use of analytical solutions and numerical methods. As a practical course, students are asked to implement models. Examples may be motivated by corporate finance, corporate and investment banking, asset management, or other activities. Prerequisites: Master of Science in Finance degree candidacy.

FINA 6282. Advanced Financial Econometrics and Modeling. 0-4 Credits.

Testing of several types of applied financial econometric models typically used in practice. Advanced quantitative techniques applied to aspects of financial markets, the behavior of agents, and market and credit risk management. Various software packages used to implement and program models. Prerequisites: Master of Science in Finance degree candidacy.

FINA 6290. Special Topics. 0-3 Credits.

Experimental offering; new course topics and teaching methods. May be repeated once for credit.

FINA 6297. International Management Experience. 3 Credits.

Same as IBUS 6297/ MGT 6297/ MKTG 6297/ SMPP 6297. May be repeated for credit.

FINA 6298. Directed Readings and Research. 2-4 Credits.

FINA 6299. Thesis Seminar. 3 Credits.

FINA 6999. Thesis Research. 3 Credits.

FINA 8311. Seminar: Public/Private Sector Institutions and Relationships. 3 Credits.

An analysis and critique of alternative theoretical frameworks for describing, understanding, and predicting the nature, values, and actions of American public and private institutions. Problems, potentials, and alternatives for structuring public and private institutional arrangements to meet the needs of society. Same as SMPP 8311.

FINA 8321. Seminar: Financial Markets Research. 3 Credits.

Market efficiency, utility testing, the capital asset pricing model, the arbitrage pricing theory, the option pricing model, and aggregate market volatility.

FINA 8322. Seminar: Corporate Finance Research. 3 Credits.

Capital budgeting, capital structure issues, dividend policy, microeconomic foundations, mergers, and agency theory.

FINA 8323. Seminar: Continuous-Time Finance. 3 Credits.

Review of the stochastic calculus methods needed for continuous-time pricing models. The most important continuous-time models, including pricing of derivative securities, consumption-portfolio selection models, continuous-time capital asset pricing models, consumption-based capital asset pricing models, continuous-time arbitrage pricing theory, and different yield curve models.

FINA 8324. Seminar: Financial Markets and Institutions. 3 Credits.

Multi-period asset pricing, term structure of interest rates, market imperfections and institutional factors, auctions, manipulation, derivative markets, market microstructure, and financial institutions.

FINA 8397. Doctoral Seminar. 1-3 Credits.

FINA 8998. Advanced Reading and Research. 1-12 Credits.

Limited to doctoral candidates preparing for the general examination. May be repeated for credit.

FINA 8999. Dissertation Research. 1-12 Credits.

Limited to doctoral candidates. May be repeated for credit.

DUAL DEGREE PROGRAMS

- Five-Year Dual Bachelor of Accountancy and Master of Accountancy
- Five-Year Dual Bachelor of Business Administration and Master of Accountancy
- Five-Year Dual Bachelor of Business Administration and Master of Science in Information Systems Technology
- Five-Year Dual Bachelor of Business Administration and Master of Tourism Administration

Five-Year Dual B.Accy./M.Accy. and B.B.A./M.Accy.

Students in the five-year dual degree program leading to the Master of Accountancy (p. 1180) first pursue either the Bachelor of Accountancy or Bachelor of Business Administration. They may apply for admission to the M.Accy. after completion of 75 credits toward the undergraduate degree and successful completion of the Graduate Management Admission Test (GMAT). Students typically earn the B.Accy. or B.B.A. after four years and the M.Accy. at the end of the fifth year. The dual degree program requires 150 credits including 30 credits of graduate work.

Five-Year Dual B.B.A./M.S.I.S.T.

Students in the five-year dual degree program leading to the Master of Science in Information Systems Technology first pursue the Bachelor of Business Administration with a concentration in Information Systems. Students pursue the regular B.B.A. curriculum in their first three years of study and are enrolled in courses at both the undergraduate and graduate levels during the final two years. Students can apply for admission to the program when they apply for admission to the University (they must meet specified GPA and other requirements to remain in the program), or they may apply after earning 75 credits. Students typically earn the B.B.A. after four years and the M.S.I.S.T. at the end of the fifth year. Students who choose to discontinue the program at the end of four years may be required to take additional courses to complete requirements for the B.B.A.

Five-Year Dual B.B.A./M.T.A.

Students in the five-year dual degree program leading to the Master of Tourism Administration first pursue the Bachelor of Business Administration with a concentration in Sport, Event, and Hospitality Management. Students pursue the regular B.B.A. curriculum in their first three years of study and are enrolled in courses at both the undergraduate and graduate levels during the final two years. Students can apply for admission to the program when they apply for admission to the University (they must meet specified GPA and other requirements to remain in the program), or they may apply after earning 75 credits. Students typically earn the B.B.A. after

four years and the M.T.A. at the end of the fifth year. Students who choose to discontinue the program at the end of four years may be required to take additional courses to complete requirements for the B.B.A.

MINOR IN BUSINESS ADMINISTRATION

REQUIREMENTS

The School of Business offers a minor in business administration for students from other schools of the University.

The following requirements must be fulfilled: 27 credits, including 15 credits in required courses and 12 credits in pre-approved courses.

Required

ECON 1011	Principles of Economics I
ECON 1012	Principles of Economics II
STAT 1051	Introduction to Business and Economic Statistics
or STAT 1053	Introduction to Statistics in Social Science
or STAT 1111	Business and Economic Statistics I
or APSC 3115	Engineering Analysis III
MATH 1221	Calculus with Precalculus II
or MATH 1231	Single-Variable Calculus I
or MATH 1252	Calculus for the Social and Management Sciences
ACCY 2001	Intro Financial Accounting
At least four of the following:	
BADM 2301	Management Information Systems Technology
BADM 3103	Human Capital in Organizations
BADM 3401	Basic Marketing Management
or BADM 3401W	Basic Marketing Management
BADM 3501	Financial Management and Markets
BADM 3601	Operations Management
IBUS 3001	Introduction to International Business

School of Business students may pursue a minor in other GW schools after receiving approval from the appropriate faculty member in the minor department or program.

GRADUATE PROGRAMS

Master's programs

- Master of Accountancy (p. 1180)
- Master of Science in Business Analytics (p. 1181)
- Master of Science in Finance (p. 1182)
- Master of Science in Information Systems Technology (p. 1182)
- Master of Science in Government Contracts (p. 1183)
- Master of Science in Project Management (p. 1183)
- Master of Tourism Administration (p. 1184)

Masters of Business Administration programs

- Global Master of Business Administration (p. 1185)
- Healthcare Master of Business Administration (p. 1191)
- Professional Master of Business Administration (p. 1192)
- World Executive Master of Business Administration (p. 1197)

Joint Degree Programs

- Joint Master of Business Administration/Juris Doctor with the Law School (p. 1198)
- Joint Master of Business Administration/Master of Arts with a focus on international business with the Elliott School of International Affairs (p. 1198)
- Joint Master of Business Administration/Master of Science in Finance (p. 1198)
- Joint Master of Business Administration/Master of Science in Project Management (p. 1198)

Doctoral program

- Doctor of Philosophy in the field of business administration (p. 1199)

MASTER OF ACCOUNTANCY

The Master of Accountancy (M.Accy.) program consists of 36 credits, with a shorter track of 30 credits available to qualified students who possess a bachelor's degree in accounting or business from a U.S.-accredited university. GW's program, which may be pursued on a full-time or part-time basis, is tailored to individual interests and career objectives in accounting, financial management, and tax practice. No business background is necessary prior to joining the program.

In addition to required courses in accounting, finance, and economics, students can choose from a wide range of specialized accounting subjects and other topics within the School of Business that help them prepare for their professional certification.

Day and evening classes are available to accommodate working professionals, although prior work experience is not required.

Specific admission requirements are shown on the Graduate Program Finder. (<http://www.gwu.edu/all-graduate-programs>)

Visit the program website (<http://business.gwu.edu/programs/specialized-masters/master-of-accountancy>) for additional program information.

REQUIREMENTS

The program requires 30 to 36 credits, depending upon whether the student holds a Bachelor of Accountancy or has similar academic preparation.

Students holding a Bachelor of Accountancy degree from a U.S. institution or a CPA certification

The 30-credit program for students who hold a Bachelor of Accountancy requires 13.5 credits that may be waived on the basis of approved prior preparation with substitution of other coursework. One finance course is required unless students have completed two undergraduate finance courses with a *B* or better in the last five years.

The required but waivable courses are:

ACCY 6104	Intermediate Accounting I
ACCY 6105	Intermediate Accounting II
ACCY 6301	Contemporary Auditing Theory
MBAD 6235	Finance
MBAD 6242	Microeconomics for the World Economy
A statistics workshop	

Elective requirements are 16.5 graduate courses in the School of Business which must include 6 credits in accountancy.

Students holding a Bachelor or Master of Business Administration degree from a U.S. institution

The 30-credit program for students who hold a B.B.A. or M.B.A. degree requires 12 credits that may be waived on the basis of approved prior preparation with substitution of other coursework in the same field of study. One advanced graduate finance course is required unless students have completed two undergraduate finance courses with a *B* or better in the last five years.

Prerequisites are: Financial Accounting, Managerial Accounting, Financial Management, Microeconomics, and Statistics courses taken within five years with a *B* or better.

The required but waivable courses are:

ACCY 6104	Intermediate Accounting I
ACCY 6105	Intermediate Accounting II
ACCY 6301	Contemporary Auditing Theory

Elective requirements are 18 graduate courses in the School of Business which must include 12 credits in accountancy.

Students holding other undergraduate degrees

The 36-credit program requires 18 credits that may be waived with substitution of approved graduate coursework in the same field of study and 1.5 credits that may be waived without substitution (thereby bringing the minimum credit requirement to 34.5). One finance course is required unless students have completed two undergraduate finance courses with a *B* or better in the last five years.

ACCY 6101	Financial Accounting
ACCY 6201	Managerial Accounting I
ACCY 6202	Managerial Accounting II
ACCY 6104	Intermediate Accounting I
ACCY 6105	Intermediate Accounting II
ACCY 6301	Contemporary Auditing Theory
MBAD 6235	Finance
MBAD 6242	Microeconomics for the World Economy (Waivable with substitution)

A statistics workshop

Elective requirements are 16.5 credits of graduate courses in the School of Business, which must include 6 credits in accountancy.

Students who intend to take the C.P.A. examination should be aware that the coursework required for admission to the examination varies from state to state. Students are advised to consult the Board of Accountancy for the state in which they plan to take the examination and choose electives that meet that state's requirements.

MASTER OF SCIENCE IN BUSINESS ANALYTICS

The Master of Science in Business Analytics (M.S.B.A.) is designed to prepare students for careers that help organizations make better decisions through analytics. The program is designed for those with quantitative backgrounds looking to gain a competitive edge before entering the job market, and for those working in analytics and looking to further develop their skills. The program has a rigorous and balanced curriculum that addresses the growing need for analytics professionals in organizations.

The curriculum is a blend of foundational courses in descriptive, predictive, and prescriptive analytics; elective courses in analytics applied to a specific functional area or industry; workshops in communication, team, and project management; and hands-on exposure to industry-standard analytics tools/software. The program culminates in an industry-related project that students complete by working in teams on a real problem and presenting their findings to the client firm at the end of the project.

The 33-credit program is offered in an intensive 10-month format designed for the full-time student and in a part-time, two-year format designed for the working professional.

REQUIREMENTS

Specific admission requirements are shown on the Graduate Program Finder. (<http://www.gwu.edu/all-graduate-programs>)

The following requirements must be fulfilled: 33 credits, including 25.5 credits in required courses and 7.5 credits in elective courses.

Required

DNSC 6201	Intro to Business Analytics
DNSC 6203	Statistics for Analytics
DNSC 6206	Stochastic Fndn: Prob Models
DNSC 6208	Computational Optimization
DNSC 6209	Forecasting for Analytics
DNSC 6210	Decision and Risk Analytics
DNSC 6211	Programming for Analytics
DNSC 6212	Optimization Methods and Applications
DNSC 6216	Business Analytics Skills Workshops
DNSC 6217	Business Analytics Practicum
DNSC 6279	Data Mining

ISTM 6211 Data Warehousing and Online Analytical Processing

Electives

7.5 credits selected in consultation with advisor

MASTER OF SCIENCE IN FINANCE

The Master of Science in Finance degree is designed to prepare students with specific career interests in the areas of financial management and research. The program of study emphasizes the theoretical foundations of finance and quantitative methods in financial management. Students engage in applied research and modeling using a variety of data sets and computer software packages. The curriculum provides in-depth study of the international and federal government regulatory dimensions of finance.

The degree program is designed to be completed in either 12 months of intensive study including a summer session or in 24 months of regular study including two summer sessions.

REQUIREMENTS

Specific admission requirements are shown on the Graduate Program Finder. (<http://www.gwu.edu/all-graduate-programs>)

The following requirements must be fulfilled: 48 credits in required courses

Required:

FINA 6271	Financial Modeling and Econometrics
FINA 6272	Global Financial Markets
FINA 6273	Cases in Financial Management and Investment Banking
FINA 6274	Corporate Financial Management and Modeling
FINA 6275	Investment Analysis and Global Portfolio Management
FINA 6276	Financial Engineering and Derivative Securities
FINA 6277	Comparative Financial Market Regulation and Development
FINA 6278	Financial Theory and Research
FINA 6279	Real Estate Finance and Fixed-Income Security Valuation
FINA 6280	Financial Institution Management and Modeling

FINA 6281 Cases in Financial Modeling and Engineering

FINA 6282 Advanced Financial Econometrics and Modeling

MASTER OF SCIENCE IN INFORMATION SYSTEMS TECHNOLOGY

The Master of Science in Information Systems Technology is designed to provide an in-depth understanding of management information systems and information technology. The Executive Master's in Information Systems Technology is offered on the Virginia Science and Technology Campus.

Applicants with deficiencies in preparation may be required to take prescribed foundation courses before beginning course work in the program. Although test scores are not required, applicants who have not previously demonstrated strong academic performance in a related field should submit GRE or GMAT examination scores as additional evidence of their capability to perform competitively at the graduate level.

The program consists of 33 credits of graduate course work. If foundation courses are prescribed, as many as 9 additional credits will be required. Students must take eight core courses and three electives in their chosen area of specialization.

REQUIREMENTS

The following requirements must be fulfilled: 33 credits, including 21 credits in core courses and 12 credits in elective courses.

Core

ISTM 6201	Information Systems Development and Applications
ISTM 6202	Relational Databases
ISTM 6203	Telecommunications and Enterprise Networks
ISTM 6204	Information Technology Project Management
ISTM 6205	Internet Computing
ISTM 6206	Information Systems Security
ISTM 6207	Information Resources Management
ISTM 6210	Integrated Information Systems Capstone

Electives

Three courses from one of the following concentrations.

Management:

ISTM 6221 Management Perspectives in Electronic Commerce

ISTM 6222 IS/IT Strategy and Implementation

ISTM 6223 Technology Entrepreneurship

ISTM 6224 Management of Technology and Innovation

ISTM 6225 Enterprise Architecture

Technical:

ISTM 6211 Data Warehousing and Online Analytical Processing

ISTM 6213 Enterprise Web and Database Applications

ISTM 6214 Advanced Programming and Business Applications

ISTM 6215 Human-Computer Interaction

General or customized:

ISTM 6211 through ISTM 6225

Students should consult with the advisor regarding their program of study.

MASTER OF SCIENCE IN GOVERNMENT CONTRACTS

The Master of Science in Government Contracts (M.S.G.C.) degree program is designed to give working professionals the knowledge and skills necessary to excel in the world of federal acquisition and is intended for professionals from a variety of acquisition-related jobs in both government and private industry. The 36-credit program blends the study of government procurement law and policy, taught by the Law School, with a core business curriculum taught by the School of Business. The innovative curriculum balances practice and theory, developing the skills that acquisition professionals need to become effective professionals, managers, and leaders. The M.S.G.C. program can be completed in 24 months in evening or online classes.

REQUIREMENTS

Specific admission requirements are shown on the Graduate Program Finder. (<http://www.gwu.edu/all-graduate-programs>)

Required

DNSC 6202 Mathematics and Statistics for Management

DNSC 6261 Introduction to Project and Program Management

GCON 6502 Formation of Government Contracts

GCON 6503 Performance of Government Contracts

GCON 6505 Marketing for the Government Marketplace

GCON 6506 Pricing Issues in Government Contracts

MBAD 6211 Financial Accounting

Capstone courses

GCON 6501 Capstone Research and Writing Project (Must be taken in final semester)

GCON 6504 MSGC Capstone Scholarly Writing (Must be taken prior to or concurrent with GCON 6501)

Electives

11 credits in law or business selected in consultation with advisor

MASTER OF SCIENCE IN PROJECT MANAGEMENT

The Master of Science in Project Management (M.S.P.M.) is a 36-credit degree program designed for professionals who wish to enhance their ability to motivate people, integrate complex projects, and achieve cost-effective results. The curriculum focuses on traditional and modern project management techniques in an industry-independent manner. The curriculum goes beyond the project management body of knowledge and exposes students to international methodologies, decision sciences, advanced project management applications, and management. The M.S.P.M. program is offered both on campus and through distance learning.

Specific admission requirements are shown on the Graduate Program Finder. (<http://www.gwu.edu/all-graduate-programs>)

Visit the program website (<http://business.gwu.edu/programs/specialized-masters/mspm>) for additional information.

REQUIREMENTS

Specific admission requirements are shown on the Graduate Program Finder. (<http://www.gwu.edu/all-graduate-programs>)

The following requirements must be fulfilled: 36 credits, including 30 credits in required courses and 6 credits in elective courses.

Required

DNSC 6202	Mathematics and Statistics for Management
DNSC 6247	Organization, Management, and Leadership
DNSC 6250	Project Management Finance
DNSC 6251	Optimization Models for Decision Making
DNSC 6252	Risk Analysis for Decision Making
DNSC 6254	Risk Management
DNSC 6257	Cost Estimation and Control
DNSC 6258	Executive Decision Making
DNSC 6259	Project Portfolio Management
DNSC 6261	Introduction to Project and Program Management
DNSC 6262	Directed Computational Project Management
DNSC 6267	Planning and Scheduling
DNSC 6269	Project Management Application

Elective

6 credits in elective courses approved by the advisor.

MASTER OF TOURISM ADMINISTRATION

The Master of Tourism Administration program is designed to prepare students for competitive professional management positions in public, commercial, or nonprofit organizations providing visitor services at the local, national, or international level. In addition to course work, students have opportunities to learn from culturally diverse colleagues and from a wide range of visitor-service organizations. Students may choose one of the four formal concentration areas: sustainable tourism, event and meeting management, sport management, or hospitality management. They also may develop an individualized studies program.

Specific admission requirements are shown on the Graduate Program Finder. (<http://www.gwu.edu/all-graduate-programs>)

Visit the program website (<http://business.gwu.edu/programs/specialized-masters/master-of-tourism-administration>) for additional information.

REQUIREMENTS

The following requirements must be fulfilled: 36 credits, including 15 credits in required courses, 12 credits in courses in one field of concentration, and 9 credits in elective courses.

Required

TSTD 6249	Sustainable Destination Development
TSTD 6251	Quantitative Applications in Tourism/Hospitality Management
TSTD 6270	Tourism and Hospitality Management Research

One of the following capstone course series:

TSTD 6283 & TSTD 6297	Practicum and Advanced Topical Studies
TSTD 6998 & TSTD 6999	Thesis Research and Thesis Research

Fields of concentration

Sustainable tourism management

TSTD 6250	Destination Management
TSTD 6260	Destination Economics
TSTD 6261	Tourism Planning
TSTD 6262	Tourism Policy Analysis
TSTD 6263	Destination Marketing

Event and meeting management

TSTD 6276	Risk Management for Events and Meetings
TSTD 6277	Event Management
TSTD 6278	Conference and Exposition Management
TSTD 6279	Event Entertainment Management

Sport management

TSTD 6264	Sport Marketing
TSTD 6265	Sport Law: Contracts and Negotiations
TSTD 6266	Sport and Event Facility Management
TSTD 6267	Sport Media and Communications

Hospitality management

TSTD 6220	International Hotel Management
-----------	--------------------------------

TSTD 6221 Hotel/Resort Market Analysis

TSTD 6278 Conference and Exposition Management

TSTD 6296 Travel Information Management Systems

Individualized studies

The student designs a plan of study and provides a brief justification specifying the courses to be taken, and submits it by petition through the faculty advisor.

Electives

6 credits selected in consultation with the advisor.

GLOBAL MASTER OF BUSINESS ADMINISTRATION

The Global Master of Business Administration (Global M.B.A.) is a 55.5-credit program that emphasizes the quantitative and qualitative aspects of business practice with a curriculum that incorporates the application of concepts and analytical tools to current management problems. Teamwork and communication skills are taught through team projects with an emphasis on private and public sector issues.

The first semester of the Global M.B.A. program concentrates on core business skills in strategy, organizations and human capital, accounting, finance, and marketing. The second semester incorporates the core values of the School of Business: ethics and globalization. Course work in global perspectives, business ethics, and public policy allows students to examine specific problems in overseas markets and develop case studies detailing how they would resolve the identified issues. The program culminates in an international consulting abroad project (CAP) where students work with a company on a real-world, overseas project.

Students may choose from 11 concentration options and four graduate-level certificates. In addition, they have the option to customize their studies to their specific career goals through elective courses. Global M.B.A. students wishing to participate in a short-term study abroad program may do so as part of their elective course work; ten such programs usually are available in a one- to two-week format each calendar year.

Specific admission requirements are shown on the Graduate Program Finder. (<http://www.gwu.edu/all-graduate-programs>)

Visit the program website (<http://business.gwu.edu/programs/masters-of-business-administration/global-mba>) for additional information.

REQUIREMENTS

Specific admission requirements are shown on the Graduate Program Finder. (<http://www.gwu.edu/all-graduate-programs>)

The following requirements must be fulfilled: 55 credits, including 28.5 credits in required courses, 3 credits in the consulting abroad project, and 24 credits in elective courses.

Required

MBAD 6211 Financial Accounting

MBAD 6213 Managerial Accounting

MBAD 6224 Decision Making and Data Analysis

MBAD 6223 Operations Management

MBAD 6233 Financial Markets

MBAD 6234 Financial Management

MBAD 6242 Microeconomics for the World Economy

MBAD 6245 Global Perspectives

MBAD 6263 Organizations and Human Capital

MBAD 6289 Business Ethics & Public Policy

MBAD 6274 Marketing

MBAD 6287 Strategy Fundamentals

MBAD 6286 Strategy Formulation and Implementation

Consulting abroad project

MBAD 6294 Consulting Abroad Project

Students must complete both the on-campus and study abroad components of the Consulting Abroad Project.

Electives

Electives may be taken in courses numbered 6000 and above in any GWSB department. Up to 12 credits may be taken in courses outside of GWSB.

MBAD 6298 may not be applied towards the MBA degree requirements.

Concentration Options

Students may choose to complete a 12-credit concentration.

Each concentration comprises 3 to 6 credits in required courses and 6 to 9 credits selected from a list of suggesting courses. For more information on concentration options (<http://business.gwu.edu/current-students-2/mba-programs-and-concentrations/concentrations>), transfer credit, and Consortium

registration, please visit the MBA Current Student (<http://business.gwu.edu/current-students-2>) website. (Students must complete 12 unique credits to complete the concentration.)

The concentration options include:

- Accounting and Advisory Services (p. 1186)
- Consulting* (p. 1186)
- Entrepreneurship (p. 1187)
- Finance* (p. 1188)
- Global Management* (p. 1188)
- Government Contracts (p. 1189)
- Information Systems and Technology Management* (p. 1189)
- Marketing Communications and Digital Marketing (p. 1189)
- Project Management* (p. 1190)
- Sports Management (p. 1190)
- Tourism (p. 1190)

*Concentration can be completed either on-campus or online.

HEALTHCARE MASTER OF BUSINESS ADMINISTRATION

Offered in a distance learning format, the Healthcare Master of Business Administration (Healthcare M.B.A.) is designed for working healthcare professionals who wish to develop the practical business skills and leadership expertise needed to take an active role in transforming the future of the healthcare industry. The 52.5-credit program can be completed in as little as two years and as many as the maximum allowed--five years.

Specific admission requirements are shown on the Graduate Program Finder. (<http://www.gwu.edu/all-graduate-programs>)

Visit the program website (http://healthcaremba.gwu.edu/gw-mbahc-video-lp3/?Access_Code=GW-MBAHC-GOOGLE&kwd=%2Bhealthcare%20%2Bmba&gclid=COiNz4zGyMICFSxk7AodOm8ACw) for additional information.

REQUIREMENTS

Specific admission requirements are shown on the Graduate Program Finder. (<http://www.gwu.edu/all-graduate-programs>)

The following requirements must be fulfilled: 52.5 credits, including 43.5 credits in required core and advanced core courses and 9 credits in elective courses.

Required core

MBAD 6211	Financial Accounting
MBAD 6213	Managerial Accounting
MBAD 6221	Judgment, Uncertainty, and Decisions
MBAD 6222	Data Analysis and Decisions
MBAD 6223	Operations Management

MBAD 6233	Financial Markets
MBAD 6234	Financial Management
MBAD 6241	Global Perspectives
MBAD 6242	Microeconomics for the World Economy
MBAD 6243	Macroeconomics for the World Economy
MBAD 6244	International Management
MBAD 6261	Organizations and Leadership
MBAD 6262	Managing Human Capital
MBAD 6265	Entrepreneurship
MBAD 6272	Nature of Markets
MBAD 6273	Marketing Decisions
MBAD 6281	Business Ethics
MBAD 6284	Business and Public Policy
MBAD 6285	Business Law
MBAD 6286	Strategy Formulation and Implementation

Advanced core

MBAD 6252	Mgmt of Information Systems
ISTM 6251	Info Systems Applications
MGT 6290	Special Topics (Entrepreneurship Planning)
MGT 6290	Special Topics (Electronic Medical Records)
SMPP 6290	Special Topics (Ethics in Health Services Management)
SMPP 6290	Special Topics (Healthcare Policy and Analysis I)
SMPP 6290	Special Topics (Healthcare Policy and Analysis II)

Electives

Electives may be taken in courses numbered 6000 and above in any GWSB department.

Elective courses must be taken for a letter grade with the exception of courses taken at the Law School where courses are letter graded and then converted to a CR on the graduate transcript.

Specially designated healthcare-related electives for the Healthcare MBA program will be offered each semester.

Up to 12 credits may be taken outside of GWSB and up to 6 of those credits may be fulfilled outside of the University. This 12-credit maximum includes approved transfer credit, Consortium coursework, and graduate-level courses completed at GW outside of GWSB.

MBAD 6298 may not be applied towards the MBA degree requirements.

*Up to 6 credits of required core courses may be waived based on previous academic coursework. See the Core Course Waiver Policy (<http://business.gwu.edu/current-students-2/academic-policies/core-course-waivers>) for details.

PROFESSIONAL MASTER OF BUSINESS ADMINISTRATION

The GW Professional Master of Business Administration (PMBA) helps students achieve proficiency in the fundamentals of business and to see the growing value in ethical leadership, globalization, sustainability, and social responsibility.

This part-time program is flexible, being offered in two options: self-paced or cohort. The self-paced option allows students to design their own course schedule to meet their professional and personal needs; students are allowed up to 5 years for completion. The cohort option is structured to be completed in 2 years; students complete all core requirements together during their first three semesters. The 27 credits of electives built into the curriculum allow students to craft a program of study to meet their own objectives.

REQUIREMENTS

Specific admission requirements are shown on the Graduate Program Finder. (<http://www.gwu.edu/all-graduate-programs>)

The following requirements must be fulfilled: 55.5 credits, including 28.5 credits in required courses and 27 credits in elective courses.

Required

MBAD 6211	Financial Accounting
MBAD 6213	Managerial Accounting
MBAD 6224	Decision Making and Data Analysis
MBAD 6223	Operations Management
MBAD 6235	Finance
MBAD 6242	Microeconomics for the World Economy
MBAD 6245	Global Perspectives

MBAD 6263 Organizations and Human Capital

MBAD 6289 Business Ethics & Public Policy

MBAD 6274 Marketing

MBAD 6288 Strategic Management

Electives

Electives may be in courses numbered 6000 and above in any GWSB department. Up to 12 credits in elective courses may be from outside GWSB.

MBAD 6298 may not be applied toward PMBA degree requirements.

Concentration Options

Students may complete an elective concentration by completing coursework as outlined by the academic department. All concentrations require the successful completion of 12 unique credits. Each concentration includes both required coursework (3-6 credits) that must be completed and a list of optional courses to fulfill the remaining credits (6-9 credits). For more information on concentration options (<http://business.gwu.edu/current-students-2/mba-programs-and-concentrations/concentrations>), please visit the MBA Current Student (<http://business.gwu.edu/current-students-2>) website.

The concentration options include:

- Accounting and Advisory Services (p. 1192)
- Consulting* (p. 1193)
- Entrepreneurship (p. 1194)
- Finance* (p. 1194)
- Global Management* (p. 1195)
- Government Contracts (p. 1195)
- Information Systems and Technology Management* (p. 1196)
- Marketing Communications and Digital Marketing (p. 1196)
- Project Management* (p. 1196)
- Sports Management (p. 1197)
- Tourism (p. 1197)

*Concentration can be completed either on-campus or online.

Accounting and Advisory Services

Required

ACCY 6106 Financial Statement Analysis

Electives

9 credits from the following:

WORLD EXECUTIVE MASTER OF BUSINESS ADMINISTRATION

The World Executive Master of Business Administration program is designed for accomplished managers and professionals to enhance their organizational effectiveness. The program has a general management focus, with a strong emphasis on leadership, global and local environments, and mastery of key business functions. The World Executive Master of Business Administration is completed in 16 months. The 52.5-credit program includes core courses, integrative topical courses, electives, residencies, consulting practicums, and a leadership coaching component.

Specific admission requirements are shown on the Graduate Program Finder. (<http://www.gwu.edu/all-graduate-programs>)

See the program webpage (<http://www.business.gwu.edu/emba>) for more information.

JOINT DEGREE PROGRAMS

Master of Business Administration/Juris Doctor with the Law School

Students may work concurrently toward both the Juris Doctor degree and the Master of Business Administration. In consultation with their faculty advisors, students in these programs may transfer up to 14 credits of Law School course work to their M.B.A. program and 12 credits of School of Business course work to fulfill requirements for the J.D. Students must be admitted separately both to the Law School and to the School of Business and must meet all requirements in each degree program prior to receiving either diploma. It is possible for a student to complete work for both degree programs within four years.

Master of Business Administration/Master of Arts with a focus on international business with the Elliott School of International Affairs

A joint degree program is offered with the Elliott School of International Affairs. The joint Master of Business Administration and Master of Arts is available to students who plan a focus on international business. As part of this program, each School accepts up to 12 credits of course work from the other school in fulfillment of its degree requirements. Students must be admitted separately both to the School of Business and to the Elliott School of International Affairs and must meet all requirements for each program prior to receiving either diploma.

Master of Business Administration/Master of Science in Finance

Master of Business Administration/Master of Science in Project Management

Within the School of Business, students may elect a joint Master of Business Administration and Master of Science in Finance, or Master of Science in Project Management; students must be admitted simultaneously to both degree programs to be eligible for the joint degree. Students interested in the join M.B.A. and Master of Science in Information Systems

Technology may be either simultaneously or consecutively admitted to both degree programs. All joint degree programs are completed simultaneously.

DOCTOR OF PHILOSOPHY IN BUSINESS ADMINISTRATION

The Doctor of Philosophy in business administration is a highly specialized research degree designed to prepare students who wish to pursue academic and research careers in a particular field of business.

The minimum admission requirement is a bachelor's degree from a regionally accredited college or university, although most applicants have completed a master's degree in an appropriate field. Applicants whose degrees are in fields other than their proposed area of focus are expected to obtain the necessary background either before or soon after admission to the program. Scores on the Graduate Record Examination or the Graduate Management Admission Test are required; scores may not be more than five years old. Students from countries where English is not the official language and non-native English speakers are required to take either the Test of English as a Foreign Language (TOEFL) or the academic International English Language Testing System (IELTS). Exceptions may be made for applicants who hold a degree from a university located in a country in which English is the official language and also the language of instruction at the university. Minimum acceptable scores for TOEFL are 600 or above (paper exam) or 100 or above (Internet exam); for IELTS, an overall band score of 7.0 with no individual band score below 6.0. The Doctoral Committee does not use specific cutoff points for grade averages and test scores. In making admission decisions it carefully reviews each applicant's entire record and makes its selection on a competitive basis in keeping with enrollment limitations.

The doctoral program consists of two major parts: the pre-dissertation stage and the dissertation stage. The pre-dissertation stage normally involves two years of studies described in an individual study plan developed by the student under the guidance of a committee of at least three faculty advisors. The objective of the dissertation stage is to have the student apply the obtained theoretical and practical knowledge and analytical methods to the resolution of a research problem. The research should be original and result in a contribution, either applied or theoretical, to the existing body of knowledge.

All course work, other educational activities, and required comprehensive evaluations must be completed within five years of matriculation. The total program must be finished in seven years.

The doctoral program is administered and supervised by the Associate Dean and the Committee on Doctoral Studies. For more detailed information on the program, see the Handbook

on the Doctoral Program, available in the Doctoral Program Office.

ACCOUNTANCY

GW Business School's Bachelor of Accountancy and Master of Accountancy degree programs prepare students to make significant contributions to both private and public organizations in the global economy. In addition to a rigorous program of study, students gain practical experience through internships and the opportunity to study the stock market in a classroom outfitted like a Wall Street trading venue. The faculty coordinates access to executives in high-profile firms and agencies and government officials so that students further their exposure to, and training in, the discipline.

Visit the program website (<http://business.gwu.edu/programs/specialized-masters/master-of-accountancy>) for more information.

UNDERGRADUATE

Bachelor's program

- Bachelor of Accountancy (p. 1160)

GRADUATE

Master's program

- Master of Accountancy (p. 1180)

FACULTY

Professors S.H. Kang, C. Linsley (*Teaching*), A. Lusardi

Associate Professors A. Gore (*Chair*), C.L. Jones (*Industry*), S. Kulp, F. Lindahl, L.C. Moersen, K.E. Smith, R.L. Tarpley

Assistant Professors K. Ray, O. Rozenbaum, L. Tan, K. Welch, Y. Xue, Y. Zhang, Y. Zou

Teaching Instructors S. Lancaster, J. Potepa

COURSES

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000–4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

ACCY 2001. Intro Financial Accounting. 3 Credits.

The fundamental concepts underlying financial statements and the informed use of accounting information. Analysis and recording of business transactions; preparation and understanding of financial statements. Measurement of the profitability and financial position of a business. Restricted to sophomore standing.

ACCY 2002. Introductory Managerial Accounting. 3 Credits.

The use of accounting information to plan and control the activities of a business. Several widely used methods of determining the cost of business activities for use in making business decisions. Prerequisite: ACCY 2001.

ACCY 3101. Intermediate Accounting I. 3 Credits.

Financial accounting concepts underlying the preparation and interpretation of financial statements. Topics include revenue and expense recognition; accounting for receivables, inventories, fixed assets, intangible assets, and liabilities. Prerequisite: ACCY 2001.

ACCY 3102. Intermediate Accounting 2. 3 Credits.

Financial accounting concepts underlying the preparation and interpretation of financial statements. Topics include accounting for stockholders' equity, earnings per share, debt and equity investments, incomes taxes, pensions and other postretirement benefits, accounting changes, statements of cash flows, financial statement analysis, and disclosure. Prerequisite: ACCY 2001.

ACCY 3103. Advanced Financial and Tax Accounting. 3 Credits.

Financial and tax accounting issues relating to corporations and partnerships, including formation, operation, and liquidation of each type of entity. Financial accounting for corporate combinations. Prerequisite: ACCY 3101, ACCY 3401.

ACCY 3106. Financial Statement Analysis. 3 Credits.

Introduction to the analysis and interpretation of corporate financial statements within the context of a company's industry and economic environment. Cash flow analysis, profitability and risk analysis, accounting policy analysis, forecasting and performance analysis, elements of equity valuation, and decision perspectives of creditors. Students cannot earn credit for both this course and ACCY 4801.

ACCY 3401. Federal Income Tax:Individuals. 3 Credits.

A study of federal income tax concepts, including what shall be taxed, and when, and at what rate. Taxable entities, income measurement, the use of different tax rates for different types of income, and the use of the tax laws to motivate taxpayer behavior to achieve economic goals.

ACCY 3403. Advanced Tax. 3 Credits.

Taxation of partnerships, corporations, and their owners. Formation, operation, and liquidation of each type of entity. Financial and tax accounting for each type of transaction, with the goal of gaining a better understanding of each system by comparing and contrasting it with the other one. Prerequisites: ACCY 2001 & ACCY 3401.

ACCY 3601. Business Law: Contracts, Torts, and Property. 3 Credits.

Essential legal principles of contracts, torts, and property, including trusts and estates, leases, professional liability, and the Uniform Commercial Code.

ACCY 4107. Advanced Accounting. 3 Credits.

Accounting for corporate combinations, foreign currency financial statements, and derivative financial instruments. Governmental and not-for-profit accounting. Prerequisites: ACCY 3101 and ACCY 3102.

ACCY 4201. Advanced Managerial Accounting. 3 Credits.

Techniques and practices that foster an informed use of financial information for planning, resource allocation, performance evaluation, and control purposes. Integration of concepts from other disciplines, especially economics, quantitative methods, behavioral science, and business policy and strategy. Primarily taught using case method. Prerequisite: ACCY 2002.

ACCY 4301. Auditing. 3 Credits.

A study of generally accepted auditing standards and accepted professional auditing practices and procedures, including reviewing and evaluating financial controls, auditing financial statements, and testing financial data of manual and automated accounting systems. Prerequisite: ACCY 3102.

ACCY 4501. Accounting Systems. 3 Credits.

Introduction to the design and operation of accounting systems and data management controls. Principles and applications of internal control applicable to manual and automated accounting systems. Prerequisite: ACCY 3102.

ACCY 4601. Business Law: Enterprise Organization. 3 Credits.

The legal aspects of organizing, financing, and operating an enterprise: agency, partnerships, corporations, securities regulation, insurance, secured credit financing, and commercial paper. Prerequisite: ACCY 2001.

ACCY 4801. Financial Accounting Capstone. 3 Credits.

Synthesis and application of knowledge of financial accounting to specific contexts, using the perspectives of the preparer and user of financial statements. Students cannot earn credit for both this course and ACCY 3106.

ACCY 4900. Special Topics. 3 Credits.

Experimental offering; new course topics and teaching methods. Restricted to department approval.

ACCY 4995. Independent Study. 3 Credits.

Assigned topics. Admission by permission of the department chair.

ACCY 6101. Financial Accounting. 3 Credits.

The basic concepts and methods used in financial reports for understanding their content and context. The income statement, balance sheet, and statement of cash flows. Detailed accounting procedures and choices. How the most important accounting procedures are calculated and how different choices impact financial statements. Same as MBAD 6211.

ACCY 6104. Intermediate Accounting I. 3 Credits.

Accounting principles and concepts for financial accounting and reporting; emphasis on the preparation of general-purpose financial statements. Prerequisite: ACCY 6101/MBAD 6211.

ACCY 6105. Intermediate Accounting II. 3 Credits.

Revenue recognition, employee compensation and pension plans, income tax expense, and earnings per share. Restricted to Exclude: Level - 00 - Non-Degree Exclude: Level - 01 - Undergraduate. Prerequisites: ACCY 6104, Intermediate Accounting I.

ACCY 6106. Financial Statement Analysis. 3 Credits.

Analysis and interpretation of financial statements for managers, stockholders, creditors, and financial analysts; ratio-driven financial analysis; earnings-based and cash-flow-based equity valuation; sales and EPS forecasting; preparation of projected financial statements. Prerequisites: ACCY 6101/MBAD 6211.

ACCY 6107. Corp Reorganizatn &Affiliation. 3 Credits.

Financial and tax accounting for intercorporate investments and corporate acquisitions and for consolidated groups of corporations. Consolidation procedures, accounting for goodwill, intercompany sales, foreign subsidiaries, and taxation of the corporations and their shareholders. Prerequisite: ACCY 6102, ACCY 6401.

ACCY 6110. International Reporting and Control. 1.5 Credit.

International comparisons of forces that shape financial management, such as corporate governance mechanisms, tax policies, economic development, and privatization. Same as IBUS 6308.

ACCY 6111. International Accounting. 1.5 Credit.

Financial management in multinational enterprises: management techniques that improve international financial reporting and control, such as hedging foreign currency fluctuations, and controlling foreign subsidiaries. Prerequisite: ACCY 6101. Same as IBUS 6309.

ACCY 6112. International Financial Reporting Standards. 1.5 Credit.

Financial reporting standards that are used throughout most of the world other than the United States. Comparisons of these standards with those of the United States. Prerequisite: ACCY 6101/MBAD 6211. Same as IBUS 6310.

ACCY 6201. Managerial Accounting I. 1.5 Credit.

Effective use of accounting information in decision making and control of organizations. Same as MBAD 6213. Prerequisite: ACCY 6101/MBAD 6211.

ACCY 6202. Managerial Accounting II. 1.5 Credit.

Further topics in applying concepts of control and decision analysis to optimize the financial management of organizations. Prerequisite: ACCY 6201/MBAD 6213.

ACCY 6203. Controls, Alignment & the Org.. 1.5 Credit.**ACCY 6301. Contemporary Auditing Theory. 3 Credits.**

A comprehensive survey of contemporary auditing as practiced by external auditors (primarily certified public accountants) and internal auditors (those employed within government and corporate entities). Generally accepted auditing standards; government auditing standards. Planning, directing, and reporting on various audits. Prerequisite: ACCY 6101/MBAD 6211; corequisite: ACCY 6104.

ACCY 6302. Fraud Examination and Forensic Accounting. 3 Credits.

Financial statement fraud, misappropriation of assets, and methods of deterrence, prevention, detection, and investigation. Prerequisite: ACCY 6101/MBAD 6211; a course in auditing preferred but not required.

ACCY 6401. Federal Income Taxation. 3 Credits.

A study of federal income taxation, covering gross income, deductions and credits, sales and other disposition of property, capital gains and losses, and timing of income and deductions.

ACCY 6402. Federal Income Taxation of Partnerships. 3 Credits.

Financial and tax accounting for partnerships; formation and operation, distribution to partners, liquidation, and transfer of partnership interests. S corporations are also considered. Prerequisite: ACCY 6401.

ACCY 6403. Federal Income Taxation of Corporations. 3 Credits.

Federal income taxation of C corporations, covering formation, capital structure, nonliquidating distributions, complete liquidations, corporate accumulations, and the alternative minimum tax.

ACCY 6501. Accounting Information Systems and EDP. 3 Credits.

Development and application of accounting system theory, including analysis, design, control concepts, and implementation. Integration of electronic data processing, accounting systems, and management information systems. Prerequisite: ACCY 6101/MBAD 6211.

ACCY 6601. Business Law: Contracts, Torts, and Property. 3 Credits.

Essential legal principles of contracts, torts, and property, including trusts and estates, leases, professional liability, and the Uniform Commercial Code.

ACCY 6602. Business Law: Enterprise Organization. 3 Credits.

The legal aspects of organizing, financing, and operating an enterprise: agency, partnerships, corporations, securities regulation, insurance, suretyship, secured credit financing, and commercial paper.

ACCY 6701. Government and Nonprofit Accounting and Auditing. 3 Credits.

The budgeting, accounting, financial reporting, and auditing required of federal, state, and local governments, nonprofit organizations, and colleges and universities. The financial practices and requirements applicable to organizations receiving governmental financial assistance and those subject to governmental audits. Prerequisite: ACCY 6101/MBAD 6211.

ACCY 6801. Corporate Governance and Ethics. 3 Credits.

The theory, practice, and public policy environment of corporate governance. Purpose, functioning, and responsibilities of boards of directors. Power, control, and compensation of corporate management. Shareholders and stakeholders. Corporate governance in comparative national settings. Same as SMPP 6215.

ACCY 6900. Special Topics. 1-3 Credits.

Experimental offering; new course topics and teaching methods.

ACCY 6998. Directed Readings and Research. 1-3 Credits.

ACCY 8001. Doctoral Seminar. 1-12 Credits.

Reasoning and research in technical areas of accounting; theoretical issues and their application to practice; conceptual themes in professional literature; comparative accounting research analyses.

ACCY 8002. Doctoral Seminar. 0-3 Credits.

ACCY 8009. Dissertation Research. 1-12 Credits.

Limited to doctoral candidates. May be repeated for credit.

ACCY 8999. Advanced Reading and Research. 1-12 Credits.

Limited to doctoral candidates preparing for the general examination. May be repeated for credit.

MASTER OF ACCOUNTANCY

The Master of Accountancy (M.Accy.) program consists of 36 credits, with a shorter track of 30 credits available to qualified students who possess a bachelor's degree in accounting or business from a U.S.-accredited university. GW's program, which may be pursued on a full-time or part-time basis, is tailored to individual interests and career objectives in accounting, financial management, and tax practice. No business background is necessary prior to joining the program.

In addition to required courses in accounting, finance, and economics, students can choose from a wide range of specialized accounting subjects and other topics within the School of Business that help them prepare for their professional certification.

Day and evening classes are available to accommodate working professionals, although prior work experience is not required.

Specific admission requirements are shown on the Graduate Program Finder. (<http://www.gwu.edu/all-graduate-programs>)

Visit the program website (<http://business.gwu.edu/programs/specialized-masters/master-of-accountancy>) for additional program information.

REQUIREMENTS

The program requires 30 to 36 credits, depending upon whether the student holds a Bachelor of Accountancy or has similar academic preparation.

Students holding a Bachelor of Accountancy degree from a U.S. institution or a CPA certification

The 30-credit program for students who hold a Bachelor of Accountancy requires 13.5 credits that may be waived on the basis of approved prior preparation with substitution of other coursework. One finance course is required unless students have completed two undergraduate finance courses with a *B* or better in the last five years.

The required but waivable courses are:

ACCY 6104 Intermediate Accounting I

ACCY 6105 Intermediate Accounting II

ACCY 6301 Contemporary Auditing Theory

MBAD 6235 Finance

MBAD 6242 Microeconomics for the World Economy

A statistics workshop

Elective requirements are 16.5 graduate courses in the School of Business which must include 6 credits in accountancy.

Students holding a Bachelor or Master of Business Administration degree from a U.S. institution

The 30-credit program for students who hold a B.B.A. or M.B.A. degree requires 12 credits that may be waived on the basis of approved prior preparation with substitution of other coursework in the same field of study. One advanced graduate finance course is required unless students have completed two undergraduate finance courses with a *B* or better in the last five years.

Prerequisites are: Financial Accounting, Managerial Accounting, Financial Management, Microeconomics, and Statistics courses taken within five years with a *B* or better.

The required but waivable courses are:

ACCY 6104 Intermediate Accounting I

ACCY 6105 Intermediate Accounting II

Elective requirements are 18 graduate courses in the School of Business which must include 12 credits in accountancy.

Students holding other undergraduate degrees

The 36-credit program requires 18 credits that may be waived with substitution of approved graduate coursework in the same field of study and 1.5 credits that may be waived without substitution (thereby bringing the minimum credit requirement to 34.5). One finance course is required unless students have completed two undergraduate finance courses with a *B* or better in the last five years.

ACCY 6101	Financial Accounting
ACCY 6201	Managerial Accounting I
ACCY 6202	Managerial Accounting II
ACCY 6104	Intermediate Accounting I
ACCY 6105	Intermediate Accounting II
ACCY 6301	Contemporary Auditing Theory
MBAD 6235	Finance
MBAD 6242	Microeconomics for the World Economy (Waivable with substitution)

A statistics workshop

Elective requirements are 16.5 credits of graduate courses in the School of Business, which must include 6 credits in accountancy.

Students who intend to take the C.P.A. examination should be aware that the coursework required for admission to the examination varies from state to state. Students are advised to consult the Board of Accountancy for the state in which they plan to take the examination and choose electives that meet that state's requirements.

DECISION SCIENCE

GRADUATE

Master's programs

- Master of Science in Business Analytics (p. 1181)
- Master of Science in Project Management (p. 1183)

FACULTY

Professors P.K. Bagchi, E.H. Forman, R. Soyer (*Chair*), M.M. Tarimcilar, P.W. Wirtz

Associate Professors S. Jain, A. Jarrah, S. Kanungo, Y.H. Kwak, P. Delquie, S.Y. Prasad,

Assistant Professors M. Altug, H. Khamooshi, J.S. Kettunen, M.A. Lejeune, M.E. Matta,

COURSES

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000–4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

DNSC 3401. Introduction to Business Analytics. 3 Credits.

Fundamentals of business analytics: what information it provides, how and when that information is used, and how it affects decision making. Working with uncertainty; understanding the dynamic nature of decision making; using data, regardless of its size; and making decisions with incomplete data. The simulation of real-life scenarios to support optimal decision making.

DNSC 3402. Data Mining. 3 Credits.

Introduction to the practice of exploring and discovering actionable business intelligence from large amounts of data. Data mining concepts, methods, and tools with concrete examples from business applications. Overview of various supervised and unsupervised data mining techniques that can be used both to discover relationships in large data sets and build predictive models. Techniques covered include regression models, decision trees, neural networks, clustering, and association analysis. Prerequisites: STAT 1051 and MATH 1052.

DNSC 4403. Decision Models. 3 Credits.

Students learn to design and develop decision models using spreadsheet software with specialized decision support add-ins, and to effectively interpret the models' outputs. Commonly used classes of models including, optimization, Monte Carlo simulation and decision analysis. Models discussed span business disciplines including finance, accounting, marketing, human resources, economics, and operations. Prerequisites: DNSC 3401.

DNSC 4900. Special Topics. 0-3 Credits.

DNSC 6201. Intro to Business Analytics. 1.5 Credit.

DNSC 6202. Mathematics and Statistics for Management. 3 Credits.

Mathematical and statistical concepts employed in the solution of managerial problems. Applications of functions, elements of calculus, and linear algebra. Introduction to probability, frequency distributions, statistical inference, and regression and correlation.

DNSC 6203. Statistics for Analytics. 1.5 Credit.

DNSC 6206. Stochastic Fndn: Prob Models. 1.5 Credit.

DNSC 6207. Applied Probability Models. 1.5 Credit.

DNSC 6208. Computational Optimization. 3 Credits.

DNSC 6209. Forecasting for Analytics. 1.5 Credit.

DNSC 6210. Decision and Risk Analytics. 1.5 Credit.

Concepts, methods, and practical tools to analyze managerial decisions involving risk and uncertainty. Decision tree modeling, the strategic value of information, real options valuation, measurement and incorporation of risk preferences, and Monte Carlo simulation. The roles and limitations of judgment and sensitivity and robustness analysis as means to deal with the ambiguities inevitably present in real situations.

DNSC 6211. Programming for Analytics. 3 Credits.

Accessing, preparation, handling, and processing data that differ in variety, volume, and velocity. The ability to handle and process data is a core capability in the context of any analytics position in the industry. Development of a theoretical grounding in emerging paradigms like schema-less data. The programming environments that will be typically employed include Python and R.

DNSC 6212. Optimization Methods and Applications. 3 Credits.

Linear, network, integer, and nonlinear models and their fundamental underlying analytic concepts and solution methods. Emphasis on development of an intuitive understanding of solution methods and their underpinning theoretical paradigms for effective use of optimization models. Model formulation, solutions, and interpretation of results.

DNSC 6216. Business Analytics Skills Workshops. 0-1.5 Credits.

A series of workshops covering project management techniques for analytics projects, team dynamics skills, communicating quantitative information, and ethics, security, and privacy policies in analytics.

DNSC 6217. Business Analytics Practicum. 1.5 Credit.

Working in small teams, students apply their analytics skills to projects sponsored by public or private institutions. Each team is advised by a faculty member, and the practicum sponsor designates a mentor to provide guidance to the team for the duration of the project. Prerequisite: MSBA degree candidacy.

DNSC 6230. Mgt of Technology Innovation. 3 Credits.

DNSC 6234. Procurement & Contracting. 3 Credits.

Principles and concepts essential to effecting large procurement programs. Planning, sourcing, and contractual design for diverse acquisitions. Emphasis on federal government policy with comparison of buying at other governmental levels and the private sector.

DNSC 6247. Organization, Management, and Leadership. 3 Credits.

Fundamentals of human resource management for project managers. Tools and techniques for success in managing and leading people in a project environment.

DNSC 6250. Project Management Finance. 3 Credits.

DNSC 6251. Optimization Models for Decision Making. 1.5 Credit.

Optimization techniques, including linear programming, sensitivity analysis, networks, integer programming and multiple objective optimization, and nonlinear and evolutionary programming. Prerequisites: DNSC 6202 (equivalent to MBAD 6221 and MBAD 6222 or MBAD 6224).

DNSC 6252. Risk Analysis for Decision Making. 1.5 Credit.

Probabilistic modeling techniques, including influence diagrams, utility theory, subjective and empirical probability distribution assessment, simulation models, queuing theory, Markov chains, and game theory. Prerequisites: DNSC 6202 or MBAD 6221, MBAD 6222 or MBAD 6224.

DNSC 6254. Risk Management. 1.5 Credit.

Basic principles of risk management practices. Developing a risk management plan, including identifying, analyzing, mitigating, and monitoring projects risks. Prerequisites: DNSC 6202 or MBAD 6224 or MBAD 6221, MBAD 6222.

DNSC 6257. Cost Estimation and Control. 1.5 Credit.

Methods of developing project estimates during the planning stages and updating the estimates throughout the life of the project; monitoring, reporting, controlling, and managing project cost; relationships between project cost and other parameters, including scope, time, quality, reliability and procurement risk. Prerequisites: DNSC 6202 or MBAD 6221, MBAD 6222 or MBAD 6224.

DNSC 6258. Executive Decision Making. 1.5 Credit.

DNSC 6259. Project Portfolio Management. 1.5 Credit.

Management of an organization's portfolio of projects for the overall success of the enterprise; alignment of projects with an organization's strategy and goals and consistency with values and culture. Prerequisites: DNSC 6202 or MBAD 6221, MBAD 6222 or MBAD 6224.

DNSC 6261. Introduction to Project and Program Management. 3 Credits.

Practical examination of how projects can be managed from start to finish, including specific emphasis on planning and controlling to avoid common pitfalls. Identifying needs, defining requirements, project costing, scheduling, resource allocation, and project politics.

DNSC 6262. Directed Computational Project Management. 3 Credits.

Practical examination of project management concepts by quantitative application using various software tools. Research in real cost data to support project calculations. Prerequisite: DNSC 6254, DNSC 6257, DNSC 6261, DNSC 6267.

DNSC 6263. Managing External Projects. 3 Credits.

Fundamentals of contract management from a project manager's perspective. The outsourcing process, associated project strategies, and legal elements. Acquisition planning, vendor selection, contract formulation, and performance control.

DNSC 6267. Planning and Scheduling. 3 Credits.

Integrated planning, scheduling, and control systems for planning the scope of a project; optimizing time, cost, and resources; and monitoring and controlling schedules, including those for delayed projects. Prerequisites: DNSC 6202 or MBAD 6221, MBAD 6222 or MBAD 6224.

DNSC 6269. Project Management Application. 3 Credits.

Students will be expected to demonstrate integration of the knowledge accumulated in their study plan and apply integrated knowledge and experience to best practices, a project case history, and a handbook. Prerequisites: M.S.P.M. candidacy or permission of instructor/advisor.

DNSC 6274. Statistical Modeling and Analysis. 3 Credits.

The process of specifying, analyzing, and testing models of human and systemic behavior. Formalization of models; statistical test comparison and selection; computer implementation of univariate, bivariate, and multivariate tests. General linear model: linear regression, analysis of variance, and analysis of covariance. Prerequisite: MBAD 6221 and MBAD 6222 .

DNSC 6275. Advanced Statistical Modeling and Analysis. 3 Credits.

Advanced topics associated with the general linear model. Testing for and remediation of assumption violations. Detection of outliers, influential observations, and multicollinearity. Alternative design strategies in the analysis of variance; latent growth analysis; hierarchical linear modeling; testing for interactions and parallelism. Prerequisite: DNSC 6274 or permission of instructor.

DNSC 6276. Exploratory and Multivariate Data Analysis. 3 Credits.

Methods for exploratory and multivariate data analysis. Application and comparison of advanced multivariate analytical procedures. Multivariate and discriminant analysis, LISREL analysis, and canonical correlation. Prerequisite: DNSC 6274 or permission of instructor.

DNSC 6277. Applied Forecasting and Time-Series Analysis for Managers. 3 Credits.

Introduction to various forecasting techniques, including time-series regression models, cyclical trends, exponential smoothing methods, seasonal and nonseasonal ARIMA processes, and the Box-Jenkins approach. Application of forecasting methods in economics, finance, and marketing. Prerequisite: MBAD 6222 or permission of instructor.

DNSC 6279. Data Mining. 3 Credits.

How organizations make better use of the increasing amounts of data they collect and how they convert data into information that is useful for managerial decision making. Examination of several data mining and data analysis methods and tools for exploring and analyzing data sets. State-of-the-art software tools for developing novel applications.

DNSC 6290. Special Topics. 0-3 Credits.

Experimental offering; new course topics and teaching methods. May be repeated once for credit.

DNSC 6298. Directed Readings and Research. 0-3 Credits.

DNSC 6300. Thesis Seminar. 3 Credits.

DNSC 8328. Special Topics in Decision Making. 3 Credits.

Special topics and advanced applications, such as catastrophe theory, Markovian decision processes, and Bayesian statistics. May be repeated once for credit.

DNSC 8385. Special Topics in Research Methods. 3 Credits.

Research problems and issues related to student dissertations form topics for readings, group discussions, and assigned papers.

DNSC 8397. Advanced Special Topics. 1-3 Credits.

Current research and scholarly issues in management science.

DNSC 8998. Advanced Rdgs & Research. 1-12 Credits.

Limited to doctoral candidates preparing for the general examination. May be repeated for credit.

DNSC 8999. Dissertation Research. 1-12 Credits.

Limited to doctoral candidates. May be repeated for credit.

FINANCE

UNDERGRADUATE

Bachelor's programs

- Bachelor of Business Administration (p. 1164)
- Bachelor of Science with a major in finance (p. 1175)

GRADUATE

Master's program

- Master of Science in the field of finance (p. 1182)

FACULTY

Professors I.G. Bajeux-Besnainou, T.M. Barnhill, W. Handorf, G.M. Jabbour, M.S. Klock, R. Van Order (*Chair*)

Associate Professors S. Agca, A. Baptista, N.G. Cohen, T. Geurts (*Teaching*), M. Hwang, G. Jostova, P.S. Peyser, R. Savickas, A.J. Wilson

Assistant Professors O. Altinkilic, B.J. Henderson, J. Lee

COURSES

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000–4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

Note: MBAD 6234 Financial Management is prerequisite to FINA 6221 Financial Decision Making through FINA 6248 Real Estate Development Cases.

FINA 3001. Intermediate Finance. 3 Credits.

Theory and practice of acquiring and using funds. Simulations of business decisions by cases and/or models to assess the risk/return interaction of investment, financing, and dividend decisions. Prerequisite: BADM 3501.

FINA 3101. Investment and Portfolio Management. 3 Credits.

Theory and principles of security analysis and portfolio management, including analysis of the national economy, industry, company, and security markets. Risk-reward and computer-aided analysis. Prerequisite: BADM 3501.

FINA 3201W. Exploring Finance w/Simulation. 3 Credits.

Corporate financial analysis as explored through the FINGAME financial simulation software. Focus on intertemporal decision making for capital budgeting and financing of a simulated firm. Prerequisite: BADM 3501.

FINA 3301. Money and Capital Markets. 3 Credits.

The process of capital formation in a free enterprise economy, with special emphasis on factors affecting the level and structure of interest rates. Money market, capital market, and derivative contracts (futures and swaps) are evaluated from both investment and financing perspectives. Prerequisite: BADM 3501.

FINA 4001. Advanced Financial Management. 3 Credits.

Analysis and readings covering applications of theory to financial management. Case studies for decision making involving working capital, capital budgeting, financing, dividend policy, and valuation. Prerequisite or concurrent registration: BADM 3501 and FINA 3301 or FINA 3001.

FINA 4001W. Advanced Financial Management. 3 Credits.

Analysis and readings covering applications of theory to financial management. Case studies for decision making involving working capital, capital budgeting, financing, dividend policy, and valuation. Prerequisite or concurrent registration: BADM 3501 and FINA 3301 or FINA 3001.

FINA 4101. Applied Financial Securities Analysis. 3 Credits.

Practical security analysis techniques and investing approaches employed by professional investment managers. Prerequisite: BADM 3501.

FINA 4121W. Exploring Finance w/Simulation. 3 Credits.

FINA 4201. Real Estate Investment. 3 Credits.

Principles of real estate investment, including valuation, appraisal, financing, and development, in addition to a discussion of the mortgage market and its institutions. Prerequisite: BADM 3501.

FINA 4900. Special Topics. 3 Credits.

Experimental offering; new course topics and teaching methods. Prerequisite: BADM 3501.

FINA 4900W. Special Topics. 3 Credits.

Experimental offering; new course topics and teaching methods.

FINA 4995. Independent Study. 1-15 Credits.

Assigned topics. Admission by prior permission of advisor. May be repeated once for credit. Prerequisite: BADM 3501.

FINA 6220. Business Financial Management. 3 Credits.

FINA 6221. Financial Decision Making. 3 Credits.

Theory and practice of business finance, emphasizing the impacts of long- and short-term uses and sources of funds on the firm's market value. Prerequisite: MBAD 6234.

FINA 6222. Capital Formation. 3 Credits.

Determinants of saving and investment and resultant funds flow are evaluated. Special emphasis on the level and risk structure and term structure of interest rates. The role and management of financial institutions is stressed. Prerequisites: MBAD 6234 or MBAD 6235.

FINA 6223. Investment Analysis and Portfolio Management. 3 Credits.

Risk-reward analysis of security investments, including analysis of national economy, industry, company, and market; introduction to portfolio management; emphasis on theory and computer methods. Prerequisites: MBAD 6234 or MBAD 6235.

FINA 6224. Financial Management. 3 Credits.

Advanced case studies in domestic and international financial management; working capital policy, capital budgeting, financing with debt and equity, dividend policy, valuation, project finance, venture capital, and mergers and acquisitions. Prerequisites: MBAD 6234 or MBAD 6235.

FINA 6230. Urban Development Economics. 3 Credits.

FINA 6231. Sem:Investment & Portfolio Mgt. 3 Credits.

FINA 6234. New Venture Financing: Due Diligence and Valuation Issues. 3 Credits.

Fundamentals and practice of due diligence and screening of early-stage investment opportunities. Prerequisites: MBAD 6234 or MBAD 6235. (Same as MGT 6293).

FINA 6235. Futures Markets: Trading and Hedging. 3 Credits.

Organization and regulation of futures markets. Alternative strategies for trading of futures contracts for possible hedging uses. High risk-high return investment alternatives. The use of futures markets to manage risks. Recommended: FINA 6221. Prerequisites: MBAD 6234 or MBAD 6235.

FINA 6236. Options. 3 Credits.

Pricing of options on financial instruments. Role of options in risk management, trading strategies, hedging implications for national and international investors, financial engineering, and structure and regulation of option markets. Recommended: FINA 6221. Prerequisites: MBAD 6234 or MBAD 6235.

FINA 6237. Private Wealth Management/Personal Financial Advising. 3 Credits.

For students preparing to be personal financial advisors; the combination of taxes, pensions, investing, budgets, estates and trusts, and insurance into comprehensive personal financial plans. Regulation, professional ethics, and the economics of advisory firms. Extensive use of computer spreadsheets and case studies. Recommended: ACCY 6401. For students preparing to be private wealth managers/personal financial advisors; the combination of taxes, pensions, investing, budgets, estates and trusts, and insurance into comprehensive personal financial plans. Regulation, professional ethics, and the economics of advisory firms. Extensive use of computer spreadsheets and case studies. Prerequisite: FINA 6223; ACCY 6401 is recommended.

FINA 6238. Financial Engineering. 3 Credits.

Valuation and risk management theory for bonds, forward contracts, swaps, options, exotic options, and interest rate options. Development of financial software, including Monte Carlo simulation modeling. Case studies of innovative solutions to investment, corporate finance, and financial institution management problems. Prerequisites: MBAD 6234 or MBAD 6235.

FINA 6239. Applied Portfolio Management. 3 Credits.

Synthesis of the theoretical concepts of securities analysis and portfolio management with the application of analyzing securities and building an actual portfolio. Prerequisites: (MBAD 6234 or MBAD 6235) and permission of instructor.

FINA 6240. Real Estate Development. 3 Credits.

Examination of the forces that shape real estate development; market analysis methods and techniques to evaluate project feasibility; the institutional and legal framework within which real estate development occurs and that influences controls, land value, and development potential. Prerequisites: MBAD 6234 or MBAD 6235.

FINA 6241. Financing Real Estate. 3 Credits.

Principles of real estate finance; evaluating different methods of financing real estate; sources of real estate funding with emphasis on securitization. Incentives provided by governments. Prerequisites: MBAD 6234 or MBAD 6235.

FINA 6242. Real Estate Valuation and Investment. 3 Credits.

Applications of market analysis, valuation, and financial techniques for the real estate appraisal and investment process. Prerequisites: MBAD 6234 or MBAD 6235.

FINA 6245. Land Development Law. 3 Credits.

FINA 6247. Urban Development Economics. 3 Credits.

FINA 6248. Real Estate Development Cases. 3 Credits.

Case study analysis of large-scale commercial real estate developments to gain comprehension of financial, political, legal, and technical complexities and constraints inherent in the real estate development process. Prerequisite: FINA 6221 or permission of instructor.

FINA 6271. Financial Modeling and Econometrics. 4 Credits.

Applied statistical and econometric analysis and modeling in finance. Methodologies include descriptive and inferential statistics, multivariate regression, and time series analysis. Empirical studies are reviewed, and a series of research projects are undertaken. Prerequisites: Master of Science in Finance degree candidacy.

FINA 6272. Global Financial Markets. 4 Credits.

Theories explaining domestic and international interest rate and exchange rate structures. Roles of financial institutions and markets are investigated and forecasting methodologies are applied. Prerequisites: Master of Science in Finance degree candidacy.

FINA 6273. Cases in Financial Management and Investment Banking. 4 Credits.

Computer modeling for analysis and forecasting of a firm's financial statements to reflect possible future performance. Application and integration of financial accounting and financial analysis, using a different case study each week. Financial issues faced by companies and their commercial and investment bankers as tactical and strategic decisions are made about organic growth, growth through merger and acquisition, and corporate reorganization. Prerequisites: Master of Science in Finance degree candidacy.

FINA 6274. Corporate Financial Management and Modeling. 4 Credits.

Causal connections between decisions made by business firms, their expected performance, and the resulting current valuation of the firm's common stock. Factors affecting the level and structure of interest rates, which are incorporated by many financial models, theories, and decisions. Prerequisites: Master of Science in Finance degree candidacy.

FINA 6275. Investment Analysis and Global Portfolio Management. 4 Credits.

Financial markets and instruments viewed from the investor's perspective. Analysis of the value of equity and fixed-income securities and the construction of efficient portfolios in a global financial market. Issues of market efficiency, tax structures, and investment funds; computer-based models. Prerequisite: Master of Science in Finance degree candidacy.

FINA 6276. Financial Engineering and Derivative Securities. 4 Credits.

Mathematical and theoretical foundations to value-derivative securities, including options, futures, and swaps; hedging and trading applications of these contracts. Arbitrage trading across cash and derivative markets and its role in maintaining equilibrium prices. Prerequisite: Master of Science in Finance degree candidacy.

FINA 6277. Comparative Financial Market Regulation and Development. 4 Credits.

Theory and current status of comparative regulation of domestic and international financial institutions and markets. Effects on country economic development and international trade. Prerequisite: Master of Science in Finance degree candidacy.

FINA 6278. Financial Theory and Research. 4 Credits.

Theoretical constructs of business investment and financing decisions and of financial asset pricing structures in domestic and international environments. Analytical and numerical models are developed, and empirical studies are evaluated. Prerequisite: Master of Science in Finance degree candidacy.

FINA 6279. Real Estate Finance and Fixed-Income Security Valuation. 4 Credits.

Application of financial theory to real estate investment: the housing market, mortgage valuation and securitization, commercial properties, CMBS, and REITs. Fixed-income security valuation with focus on theory and data applications on interest rate movements, fixed-income security and derivative pricing, and credit risk. Prerequisites: Master of Science in Finance degree candidacy.

FINA 6280. Financial Institution Management and Modeling. 4 Credits.

Analysis of the financial performance and condition of a bank, toward understanding of the financial environment in which banks operate and regulation of the banking system. Application of asset/liability management principles and statistical and mathematical models employed in bank risk management. Prerequisites: Master of Science in Finance degree candidacy.

FINA 6281. Cases in Financial Modeling and Engineering. 4 Credits.

Through the use of real-world examples from various aspects of finance, students are exposed to the modeling of complex financial instruments and techniques used in market and credit risk management. Underlying mathematics and theoretical constructs are explored and solidified through modeling exercises that make use of analytical solutions and numerical methods. As a practical course, students are asked to implement models. Examples may be motivated by corporate finance, corporate and investment banking, asset management, or other activities. Prerequisites: Master of Science in Finance degree candidacy.

FINA 6282. Advanced Financial Econometrics and Modeling. 0-4 Credits.

Testing of several types of applied financial econometric models typically used in practice. Advanced quantitative techniques applied to aspects of financial markets, the behavior of agents, and market and credit risk management. Various software packages used to implement and program models. Prerequisites: Master of Science in Finance degree candidacy.

FINA 6290. Special Topics. 0-3 Credits.

Experimental offering; new course topics and teaching methods. May be repeated once for credit.

FINA 6297. International Management Experience. 3 Credits.

Same as IBUS 6297/ MGT 6297/ MKTG 6297/ SMPP 6297. May be repeated for credit.

FINA 6298. Directed Readings and Research. 2-4 Credits.

FINA 6299. Thesis Seminar. 3 Credits.

FINA 6999. Thesis Research. 3 Credits.

FINA 8311. Seminar: Public/Private Sector Institutions and Relationships. 3 Credits.

An analysis and critique of alternative theoretical frameworks for describing, understanding, and predicting the nature, values, and actions of American public and private institutions. Problems, potentials, and alternatives for structuring public and private institutional arrangements to meet the needs of society. Same as SMPP 8311.

FINA 8321. Seminar: Financial Markets Research. 3 Credits.

Market efficiency, utility testing, the capital asset pricing model, the arbitrage pricing theory, the option pricing model, and aggregate market volatility.

FINA 8322. Seminar: Corporate Finance Research. 3 Credits.

Capital budgeting, capital structure issues, dividend policy, microeconomic foundations, mergers, and agency theory.

FINA 8323. Seminar: Continuous-Time Finance. 3 Credits.

Review of the stochastic calculus methods needed for continuous-time pricing models. The most important continuous-time models, including pricing of derivative securities, consumption-portfolio selection models, continuous-time capital asset pricing models, consumption-based capital asset pricing models, continuous-time arbitrage pricing theory, and different yield curve models.

FINA 8324. Seminar: Financial Markets and Institutions. 3 Credits.

Multi-period asset pricing, term structure of interest rates, market imperfections and institutional factors, auctions, manipulation, derivative markets, market microstructure, and financial institutions.

FINA 8397. Doctoral Seminar. 1-3 Credits.

FINA 8998. Advanced Reading and Research. 1-12 Credits.

Limited to doctoral candidates preparing for the general examination. May be repeated for credit.

FINA 8999. Dissertation Research. 1-12 Credits.

Limited to doctoral candidates. May be repeated for credit.

INFORMATION SYSTEMS AND TECHNOLOGY MANAGEMENT

UNDERGRADUATE

Bachelor's programs

- Bachelor of Business Administration with a concentration in information systems and technology management (p. 1164)
- Combined Bachelor of Business Administration and Master of Science in Information Systems Technology (p. 1213)

GRADUATE

Master's program

- Master of Science in Information Systems Technology (p. 1213)

FACULTY

Professors E.G. Carayannis, M.J. Granger

Associate Professors J. Artz, S. Dasgupta, R.G. Donnelly (*Chair*), W. Duan, R.A. Lumley

Assistant Professors Y.C. Ho, , Y. Park

COURSES

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000-4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

Note: M.S.I.S.T. candidacy or departmental approval is prerequisite to ISTM 6201 Information Systems Development and Applications-ISTM 6225 Enterprise Architecture.

ISTM 6401 Individual and Group Decision Processes-ISTM 6490 Special Topics are available only to students enrolled in the Executive Master of Science in Information Systems Technology.

ISTM 3119. Introduction to Programming. 3 Credits.

For students already familiar with basic computer concepts, who will learn a programming language, such as Visual Basic, useful for business applications. Emphasis on computer applications in accounting and management information systems through hands-on programming. Prerequisite: BADM 2301.

ISTM 4120. Business Systems Development. 3 Credits.

Analysis, design, and implementation of management information systems (MIS). Structured methodologies and techniques for various stages of the MIS development process. Computer-aided software engineering tools. May be taken for graduate credit with permission of program director and instructor. Prerequisites: CS 1111 or ISTM 3119 or permission of instructor.

ISTM 4121. Database Design and Applications. 3 Credits.

Theory, architecture, and implementation of database management systems in corporate and organization information systems. Fundamental concepts of database management and processing. Hands-on experience with database management packages. Prerequisites: CS 1111 or ISTM 3119 or permission of instructor.

ISTM 4123. Business Data Communications. 3 Credits.

A technical overview of data communication concepts that are useful in the design and management of local and wide area networks. Internet technologies and their business applications are emphasized. Prerequisite: BADM 2301.

ISTM 4123W. Business Data Communications. 3 Credits.

A technical overview of data communication concepts that are useful in the design and management of local and wide area networks. Internet technologies and their business applications are emphasized. Prerequisite: BADM 2301.

ISTM 4130. Writing on the Ethics of Technology. 3 Credits.

Complex ethical dilemmas inherent in the introduction of new technologies and the influence human behavior asserts on these problems. Students write stories to explore and evaluate specific ethical problems relative to technology from various perspectives.

ISTM 4130W. WritingOnTheEthicsofTechnology. 3 Credits.

Complex ethical dilemmas inherent in the introduction of new technologies and the influence human behavior asserts on these problems. Students write stories to explore and evaluate specific ethical problems relative to technology from various perspectives.

ISTM 4215. Human-Computer Interaction. 3 Credits.

An introduction to and overview of the field of human-computer interaction (HCI), an interdisciplinary field that integrates theories and methodologies from computer science, cognitive psychology, design, and other areas. Readings cover current theory and practice in interface specification, design, and evaluation, and include current and classic research papers in the field.

ISTM 4900. Special Topics. 3 Credits.

Experimental offering; new course topics and teaching methods. May be repeated once for credit.

ISTM 4900W. Special Topics. 3 Credits.

Experimental offering; new course topics and teaching methods. May be repeated once for credit.

ISTM 4995. Independent Study. 3 Credits.

Assigned topics. Admission by prior permission of advisor. May be repeated once for credit.

ISTM 6201. Information Systems Development and Applications. 3 Credits.

The information systems life cycle evaluated in terms of technologies, impact, and management. Structured and object-oriented analysis, prototyping, software reuse, testing, life-cycle costs, software development environments, and organizational and behavioral aspects of development projects. Prerequisite: ISTM 4120 and M.S.I.S.T. candidacy or departmental approval.

ISTM 6202. Relational Databases. 3 Credits.

Introduces the theory of relational databases and commences an in-depth discussion of Relational database theory and design at the conceptual, logical, and physical levels. Structured query language (SQL) is covered in depth. Prerequisite: ISTM 4121 and M.S.I.S.T. candidacy or departmental approval.

ISTM 6203. Telecommunications and Enterprise Networks. 3 Credits.

The technologies and applications of telecommunication systems in the commercial and public sectors with emphasis on wireless, mobile, and Internet communication protocols. Systems technology and configurations to support business application requirements are evaluated. Functional characteristics of network technologies. Prerequisite: M.S.I.S.T. candidacy or departmental approval.

ISTM 6204. Information Technology Project Management. 3 Credits.

Project and program management practices with an emphasis on information technology projects. The basic tools of project management: work breakdown structure, cost, schedule and performance goal setting, and risk analysis. Prerequisite: M.S.I.S.T. candidacy or departmental approval.

ISTM 6205. Internet Computing. 3 Credits.

Concepts, architectures, frameworks, and technology of web application development. The Internet as hardware and software architecture for creating business applications. Web and web application servers, system development methods and techniques, client-side and server-side scripting. Prerequisite: ISTM 3119 and M.S.I.S.T. candidacy or departmental approval.

ISTM 6206. Information Systems Security. 3 Credits.

Comprehensive examination of computer security issues from the design, management, and business information system ownership perspectives. System security concepts, methods, and policies from the design and planning stages to multi-level system implementation. Design of risk assessment strategies to achieve security goals. Prerequisite: M.S.I.S.T. candidacy or departmental approval.

ISTM 6207. Information Resources Management. 3 Credits.

Information resources management strategically assesses and exploits information technology assets for competitive advantage. The CIO role in information resources management, planning, security, information integration, enterprise model development, and data administration. Prerequisite: M.S.I.S.T. candidacy or departmental approval.

ISTM 6210. Integrated Information Systems Capstone. 3 Credits.

Capstone project course in which students apply conceptual and technical knowledge in analyzing, planning, and designing an on-line information system. Culminates with system proposal/design presentations. Restricted to eligible students in their final semester. Prerequisite: ISTM 6201- ISTM 6207 and M.S.I.S.T. candidacy or departmental approval.

ISTM 6211. Data Warehousing and Online Analytical Processing. 3 Credits.

Introduction to the theory of data warehousing, dimensional data modeling, and online analytical processing (OLAP) through case studies, technology, and a design project. Prerequisite: ISTM 6202 and M.S.I.S.T. candidacy or departmental approval.

ISTM 6213. Enterprise Web and Database Applications. 3 Credits.

Enterprise applications concepts, architecture, and technologies for emerging technologies and IT frameworks. The Internet as a major resource for globally distributed applications using grid and utility computing. Web servers, development methods and techniques, data stores for massively distributed applications, and client/server side scripting. Prerequisite: ISTM 6202, ISTM 6205 and M.S.I.S.T. candidacy or departmental approval.

ISTM 6214. Advanced Programming and Business Applications. 3 Credits.

Advanced programming design, development, and analysis topics with an emphasis on business applications. Problem modeling and development of algorithm solutions. Basic data structures and algorithms, such as linked list, stack and tree, graph theory, sorting and searching. Prerequisite: M.S.I.S.T. candidacy or departmental approval.

ISTM 6215. Human-Computer Interaction. 3 Credits.

Human-computer interaction as an interdisciplinary endeavor integrating theories and methodologies from computer science, cognitive psychology, design, and many other areas. Theory and practice in interface specification design and evaluation, and research. Prerequisite: M.S.I.S.T. candidacy or departmental approval.

ISTM 6221. Management Perspectives in Electronic Commerce. 3 Credits.

The tools, skills, and business concepts surrounding the emergence of E-commerce and its information technologies from operational and strategic perspectives. E-commerce security, privacy, content selection and rating, authentication, encryption, acceptable use policies, intellectual property rights, and legal liabilities. Prerequisite: M.S.I.S.T. candidacy or departmental approval.

ISTM 6222. IS/IT Strategy and Implementation. 3 Credits.

The development and implementation of information systems and technology strategies designed to align with and maximize business strategy applications and approaches in a challenging and increasingly global business environment. Prerequisite: M.S.I.S.T. candidacy or departmental approval.

ISTM 6223. Technology Entrepreneurship. 3 Credits.

Case studies on the innovation-entrepreneurship processes used to launch and build new ventures based on information technology and on technology more broadly. Organizing for innovation, raising venture capital, managing the small technology-based venture, marketing technology products and services, intellectual property considerations, and new venture proposal development. Prerequisite: M.S.I.S.T. candidacy or departmental approval.

ISTM 6224. Management of Technology and Innovation. 3 Credits.

Business, technological, economic, and political factors that influence the development and deployment of new technology products, processes, and services. Concepts and practices useful in managing technology and enhancing corporate innovation, corporate organizational alternatives, new approaches, and sources of competitive advantages. Prerequisite: M.S.I.S.T. candidacy or departmental approval.

ISTM 6225. Enterprise Architecture. 3 Credits.

Concepts of enterprise architecture as a management tool for organizations to align their information technology assets, people, operations, and projects with operational characteristics. Service-oriented architectures, performance reference models, configuration management, system development life cycles, and tiered application architectures. Prerequisite: M.S.I.S.T. candidacy or departmental approval.

ISTM 6226. Principles of Information Systems. 3 Credits.

Overview of all information systems, including integration of management, information, and systems concepts into a unified framework. Management information systems development, design, implementation, evaluation strategies.

ISTM 6232. ISTM6242201303. 3 Credits.

Technology transfer among advanced countries and LDCs. Comparative science and technology policies and capabilities of countries. Technology basis for international trade, licensing, patenting, and joint ventures. Global transfer of military technologies and export controls. Technology in economic development.

ISTM 6233. Emerging Technologies. 3 Credits.

Exploration of new developments in scientific and technological innovation, including automation, energy, medicine, bioengineering, social science, information technology, and space. Emphasis on forecasting these technological advances and assessing their economic and social effects. The role of advancing technology in driving social change.

ISTM 6234. New Venture Financing. 3 Credits.

Fundamentals and practice of due diligence and screening of early-stage investment opportunities. Same as FINA 6234.

ISTM 6239. Sem:Competitiveness/Technology. 3 Credits.

Capstone course integrating the field of management of science, technology, and innovation. Commercialization of technology in the private sector and the impact on competitiveness. Implementation of technology in the public sector. Technology development, from new product concept to utilization. Prerequisite: ISTM 6224 or MBAD 6253; ISTM 6232 or ISTM 6233 or permission of instructor.

ISTM 6242. Systems Analysis-Info Systems. 3 Credits.

Development of a specification for an information system. Topics include CASE tools, data gathering, information flow modeling, object-oriented analysis, data file organization, input/output and other nonfunctional requirements. Prerequisite: MBAD 6252.

ISTM 6243. Human Factors in Information Systems. 3 Credits.

The user-computer interaction, human factors of on-line dialogues, interfacing, and various approaches to user-system interaction. Emphasis on the development and evaluation of user-computer interfaces using software such as Visual BASIC and Windows.

ISTM 6244. Telecommunications: Technology, Applications, and Operations. 3 Credits.

Basic technical concepts, applications, and trends of telecommunications; operations; cost considerations of implementing telecommunications systems. Prerequisite: MBAD 6252.

ISTM 6245. Database Management for Information Systems. 3 Credits.

An introduction to the conceptual and logical design of relational databases and techniques for population and exploitation of relational databases. Topics include information modeling, normalized table design, and Structured Query Language. Prerequisite: MBAD 6252.

ISTM 6251. Info Systems Applications. 1.5 Credit.

ISTM 6290. Special Topics. 1-3 Credits.

Experimental offering; new course topics and teaching methods. May be repeated once for credit.

ISTM 6298. Directed Readings and Research. 1-3 Credits.

ISTM 6401. Individual and Group Decision Processes. 3 Credits.

Study of the individual and group processes in decision making in organizations. Topics include decision effectiveness, decision analysis techniques, group dynamics, and managerial style as related to decision making. Available only to students enrolled in the Executive Master of Science in Information Systems Technology.

ISTM 6402. Quantitative Methods for Information Systems. 3 Credits.

Introductory study of quantitative techniques for problem solving. Statistical concepts, including confidence intervals, hypothesis testing, correlation, and regression. Linear programming. Applications and case studies involving management information systems. Available only to students enrolled in the Executive Master of Science in Information Systems Technology.

ISTM 6404. Enterprise Networks in Organizations. 3 Credits.

The role of data communications and networking within organizations. LANs and interconnecting LANs to create enterprise networks. Emerging technologies such as videoconferencing, multimedia, and ATM. The interaction between networks and MIS as typified by client-server architectures is emphasized. Available only to students enrolled in the Executive Master of Science in Information Systems Technology.

ISTM 6405. Database Systems. 3 Credits.

Application and implementation of database management systems in the public and private sectors. Database organization, creation, maintenance, and management. Client-server technology. Review of commercial database management systems. Available only to students enrolled in the Executive Master of Science in Information Systems Technology.

ISTM 6406. Decision Support Systems and Methods. 3 Credits.

Computer-based decision-making aids and simulations. Issues in effective implementation of decision support systems. Review and analysis of various expert systems, including tools and generators, classification vs. diagnostic type systems, and building modules. Design of decision support and expert systems. Available only to students enrolled in the Executive Master of Science in Information Systems Technology.

ISTM 6407. Introduction to MIS Business Relationships. 3 Credits.

Introduction to MIS business solutions. Integration of MIS into the business and organizational environment. Case studies of various organizational structures and MIS needs and solutions. Economic analysis of MIS applications.

ISTM 6408. Strategic Planning and Business Process Engineering. 2 Credits.

Development and implementation of a long-range organizational strategy. Business process engineering and re-engineering. Technology assessment and technical management, use of critical success factors. Innovative uses of MIS in organizations. Available only to students enrolled in the Executive Master of Science in Information Systems Technology.

ISTM 6410. Information Systems Security. 2 Credits.

Network and MIS security issues. Risk assessment, technological and procedural security measures. Computer fraud and privacy issues. Hacker attacks, phone fraud, denial of service, and virus and work attacks. Available only to students enrolled in the Executive Master of Science in Information Systems Technology.

ISTM 6411. Information Systems Design. 4 Credits.

Introduction to the design and analysis of information systems. The systems development life cycle, analysis of requirements, design of logical systems, analysis and design of user interfaces, system documentation and specifications. Planning for system implementation, evaluation, and maintenance. Available only to students enrolled in the Executive Master of Science in Information Systems Technology.

ISTM 6412. The Information System Development Process. 2 Credits.

Management decisions and activities during the life cycle of an information system. Project estimation and planning for information systems. Contractual issues in system development and acquisition. Requirements analysis, systems analysis, development, testing, and maintenance. Rapid prototyping, spiral model development, and alternative development strategies. Available only to students enrolled in the Executive Master of Science in Information Systems Technology.

ISTM 6490. Special Topics. 1-3 Credits.

Available only to students enrolled in the Executive Master of Science in Information Systems Technology.

ISTM 8300. Thesis Seminar. 3 Credits.

ISTM 8333. Seminar: Management of Science, Technology, and Innovation. 3 Credits.

ISTM 8340. Philosophical Issues in Information Systems. 3 Credits.

Seminar for doctoral students interested in information systems. Various philosophical traditions and insights from those traditions applied to problems in information systems.

ISTM 8341. Advanced Topics in MIS Rsrch. 3 Credits.

For information systems doctoral students. Seminal papers and leading methods and instruments as applied to MIS research.

ISTM 8385. Special Topics in Research Methods. 3 Credits.

Research problems and issues related to student dissertations form topics for readings, group discussions, and assigned papers.

ISTM 8390. Philosophical Foundations of Administrative Research. 3 Credits.

Philosophy of science as applied to research in administration. Topics include the nature and current problems of epistemology, the development and role of theories, and the relationship between theory, methodology, and empirical data.

ISTM 8391. Advanced Problems in Research Methodology. 3 Credits.

Use of models and theoretical frameworks in research; formulation of research questions, hypotheses, operational definitions, research designs, sampling and data analysis approaches. For doctoral candidates who have completed the general examination and all courses and are preparing for their dissertation.

ISTM 8397. Doctoral Seminar. 1-3 Credits.

Current research and scholarly issues in management science.

ISTM 8398. Advanced Rdgs and Research. 1-12 Credits.

Limited to doctoral candidates preparing for the general examination. May be repeated for credit.

ISTM 8399. Dissertation Research. 1-12 Credits.

Limited to doctoral candidates. May be repeated for credit.

COMBINED BACHELOR OF BUSINESS ADMINISTRATION AND MASTER OF SCIENCE IN INFORMATION SYSTEMS TECHNOLOGY

REQUIREMENTS
