

## *Advising Session on Monday*

For your advising session on Monday, I would like you to seriously consider the following questions and write a brief answer. I will keep this in your advising file in my office, and we will return to it to see how your educational goals change and mature with time. Please take this “assignment” seriously! Please be honest with your answers. This is NOT an exam, and there are no right or wrong answers. I’m just trying to get to know you and your goals.

---

1. What are your educational goals? In other words, what ideas and skills do you want to learn?
2. Which do you think are your strongest academic skills? Weakest?
3. What do you see yourself doing in life after you graduate from Furman? What types of careers interest you and why?
4. Which of the many extracurricular activities at Furman do you expect to join, and at what level of involvement?
5. How do you plan to balance your academic and social life? In other words, how do you plan to best manage your time?
