Errors

1) Data source contained quarterly and yearly totals.
2) The chart did not contain a title.
3) The 3-D effect is misleading.
4) Y-axis was displayed in thousands.
5) The Mobile data labels are too hard to read.
6) The chart is stretched too wide.
7) The chart used colors that were too dark.

Solution

Remove both totals from the data source range.
Added a descriptive chart title.
Changed to a regular stacked column chart.
Changed it back to its default values.
Removed the data labels; changed major Y units to 10.
Adjusted the width and height for better proportions.
Changed the chart style to be more readable.
