

This document will include notes on Windows 7 features, as if the student were recording notes to use in a demonstration speech for a speech class. In 1, 2, 3 fashion, directions will be included to:

Customize the desktop with a background and screen saver

Pin programs to the taskbar and the Start menu

Use the Start menu Search box to find and open a program

Get help on an item related to Windows 7

Make sure a computer is protected against spyware and hacking.
