MKP HC3. Harpsichord. 2 Credit Hours.

1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit.

Requisite: Frost School of Music.

Components: STU.

Grading: GRD.

Typically Offered: Fall & Spring.

MKP HC5. Harpsichord. 1-4 Credit Hours.

Requisite: Frost School of Music.

Components: STU.

Grading: GRD.

Typically Offered: Fall & Spring.

MKP HC6. Harpsichord. 1-2 Credit Hours.

Requisite: Frost School of Music.

Components: STU.

Grading: GRD.

Typically Offered: Fall & Spring.

MKP HC7. Harpsichord. 1-2 Credit Hours.

Requisite: Frost School of Music.

Components: STU.

Grading: GRD.

Typically Offered: Fall & Spring.

MKP HCB. Harpsichord. 1-2 Credit Hours.

1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit.

Requisite: Frost School of Music.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MKP HCC. Harpsichord. 1-2 Credit Hours.

1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit.

Requisite: Frost School of Music.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MKP HCD. Harpsichord. 1-2 Credit Hours.

1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit.

Requisite: Frost School of Music.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MKP HCF. Harpsichord. 1-2 Credit Hours.

1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit.

Requisite: Frost School of Music.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MKP HCG. Harpsichord. 1-2 Credit Hours.

1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit.

Requisite: Frost School of Music.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MKP HCH. Harpsichord. 1-2 Credit Hours.

1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit.

Requisite: Frost School of Music.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MKP HCK. Harpsichord. 1-4 Credit Hours.

Requisite: Frost School of Music.

Components: LSN.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MKP HCL. Harpsichord. 1-4 Credit Hours.

Requisite: Frost School of Music.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MKP HCN. Harpsichord. 1-4 Credit Hours.

Requisite: Frost School of Music.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MKP HCO. Harpsichord. 1-4 Credit Hours.

Requisite: Frost School of Music.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MKP HCP. Harpsichord. 1-4 Credit Hours.

Requisite: Frost School of Music.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MKP HCQ. Harpsichord. 1-4 Credit Hours.

Requisite: Frost School of Music.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MKP HCR. Harpsichord. 1-4 Credit Hours.

Requisite: Frost School of Music.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MKP ORB. Organ. 1-2 Credit Hours.

1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Gleason, Method of Organ Playing: selected exercises from Manual Technique and Pedal

Technique. Repertoire: Gleason, Method of Organ Playing: Compositions for Manuals, Studies and Compositions for Manuals and Pedal; selected chorale preludes and smaller-scale preludes and fugues by Bach, Buxtehude, Brahms, and others; basics of hymn playing.

Requisite: Frost School of Music.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MKP ORC. Organ. 1-2 Credit Hours.

1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Gleason, Method of Organ Playing: selected exercises from Manual Technique, Pedal Exercises and Scales. Repertoire: Gleason, Method of Organ Playing: selected Compositions for Manuals and Pedals; intermediate-level works by Bach, Mendelssohn, Franck, and others; Additional hymn playing techniques.

Requisite: Frost School of Music.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MKP ORD. Organ. 1-2 Credit Hours.

1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Gleason, Method of Organ Playing: selected exercises from Manual Technique, Pedal Exercises and Scales. Repertoire: Gleason, Method of Organ Playing: selected Compositions for Manuals and Pedals; intermediate-level works by Bach, Mendelssohn, Franck, and others; Additional hymn playing techniques.

Requisite: Frost School of Music.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MKP ORF. Organ. 1-2 Credit Hours.

1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Gleason, Method of Organ Playing: selected exercises from Pedal Scales, Broken Chords, Advanced Exercises. Repertoire: Selected compositions by Bach and

representative Baroque, Classical, Romantic, and Modern composers. Hymn playing and organ accompanying techniques.

Requisite: Frost School of Music.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MKP ORG. Organ. 1-2 Credit Hours.

1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Nilson, *A System of Technical Studies in Pedal Playing for the Organ*; selected exercises.

Repertoire: Selected works by composers from all style periods, with an emphasis on the French Romantic and Modern French schools.

Advanced service-playing techniques.

Requisite: Frost School of Music.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MKP ORH. Organ. 1-2 Credit Hours.

1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Nilson, *A System of Technical Studies in Pedal Playing for the Organ*; selected exercises.

Repertoire: Selected works by composers from all style periods, with an emphasis on the French Romantic and Modern French schools.

Advanced service-playing techniques.

Requisite: Frost School of Music.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MKP ORK. Organ. 1-4 Credit Hours.

Requisite: Frost School of Music.

Components: LSN.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MKP ORL. Organ. 1-4 Credit Hours.

Requisite: Frost School of Music.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MKP ORN. Organ. 1-4 Credit Hours.

Requisite: Frost School of Music.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MKP ORO. Organ. 1-4 Credit Hours.

Requisite: Frost School of Music.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MKP ORP. Organ. 1-4 Credit Hours.

Requisite: Frost School of Music.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MKP ORQ. Organ. 1-4 Credit Hours.

Requisite: Frost School of Music.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MKP ORR. Organ. 1-4 Credit Hours.

Requisite: Frost School of Music.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MKP PI1. Piano. 2 Credit Hours.

1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: To show a comprehensive foundation in basic/advanced keyboard skills. Repertoire: Appropriate repertoire as required.

Requisite: Frost School of Music.

Components: STU.

Grading: GRD.

Typically Offered: Fall & Spring.

MKP PI3. Piano. 2 Credit Hours.

1-hour lesson for students enrolled for 2-credits. 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Complete Junior Recital as required. Repertoire: Appropriate repertoire as required.

Requisite: Frost School of Music.

Components: STU.

Grading: GRD.

Typically Offered: Fall & Spring.

MKP PI5. Piano. 1-4 Credit Hours.

Requisite: Frost School of Music.

Components: STU.

Grading: GRD.

Typically Offered: Fall & Spring.

MKP PI6. Piano. 1-2 Credit Hours.

Requisite: Frost School of Music.

Components: STU.

Grading: GRD.

Typically Offered: Fall & Spring.

MKP PI7. Piano. 1-2 Credit Hours.

Requisite: Frost School of Music.

Components: STU.

Grading: GRD.

Typically Offered: Fall & Spring.

MKP PIB. Piano. 1-2 Credit Hours.

1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: To show a comprehensive foundation in basic/advanced keyboard skills. Repertoire: Appropriate repertoire as required.

Requisite: Frost School of Music.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MKP PIC. Piano. 1-2 Credit Hours.

1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: To show a comprehensive foundation in basic/advanced keyboard skills. Repertoire: Appropriate repertoire as required.

Requisite: Frost School of Music.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MKP PID. Piano. 1-2 Credit Hours.

1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: To show a comprehensive foundation in basic/advanced keyboard skills. Repertoire:

Appropriate repertoire as required.

Requisite: Frost School of Music.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MKP PIF. Piano. 1-2 Credit Hours.

1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Complete Junior Recital as required. Repertoire: Appropriate repertoire as required.

Requisite: Frost School of Music.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MKP PIG. Piano. 1-2 Credit Hours.

1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Complete Senior Recital as required. Repertoire: Appropriate repertoire as required.

Requisite: Frost School of Music.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MKP PIH. Piano. 1-2 Credit Hours.

1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Complete Senior Recital as required. Repertoire: Appropriate repertoire as required.

Requisite: Frost School of Music.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MKP PIK. Piano. 1-4 Credit Hours.

Requisite: Frost School of Music.

Components: LSN.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MKP PIL. Piano. 1-4 Credit Hours.

Requisite: Frost School of Music.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MKP PIN. Piano. 1-4 Credit Hours.

Requisite: Frost School of Music.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MKP PIO. Piano. 1-4 Credit Hours.

Requisite: Frost School of Music.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MKP PIP. Piano. 1-4 Credit Hours.

xPrerequisite: Doctoral level.

Requisite: Frost School of Music.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MKP PIQ. Piano. 1-4 Credit Hours.

Requisite: Frost School of Music.

Components: LSN.

Grading: GRD.

MKP PIR. Piano. 1-4 Credit Hours.

Requisite: Frost School of Music.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

Kinesiology (KIN)

KIN 100. Leadership, Management, and Ethics in Sports. 3 Credit Hours.

Students will gain an understanding of skills and philosophies of leadership, management, and ethic necessary for a position in the sport industry.

Components: LEC.

Grading: GRD.

Typically Offered: Summer.

KIN 105. Introduction to Athletic Training and Sports Medicine. 3 Credit Hours.

In this practical, hands-on course, the students will learn to identify basic sport injuries that afflict the major joints of the body, and review basic methods to treat these injuries. The student will also learn how nutrition, improper biomechanics, and poor training can all impact sport performance. Plus, participants will be given the opportunity to learn and practice techniques or procedures (such as athletic taping or bracing) that may be useful in minimizing the incidence of injury.

Components: LEC.

Grading: GRD.

Typically Offered: Summer.

KIN 110. Explorations in Sports Medicine. 3 Credit Hours.

This class will consist of an introduction to the field of Sports Medicine and Exercise Science. Basic information relevant to appropriate exercise prescription, proper nutritional habits, implications on health, longevity and performance will be addressed. Hands-on practical experiences will supplement theoretical concepts learned in the classroom setting.

Components: LEC.

Grading: GRD.

Typically Offered: Summer.

KIN 137. Introduction To The Theory, Application, And Practice Of Yoga. 2 Credit Hours.

Components: LEC.

Grading: GRD.

Typically Offered: Summer.

KIN 140. Introduction to Athletic Training. 2 Credit Hours.

The application of athletic training practices in selected clinical education settings. The student must complete 150 hours of documented clinical educational hours, which apply toward the graduation requirement of 1000 hours. Clinical education hours will emphasize emergency procedures, first aid, and protective equipment. Successful completion of the retention process and formal admittance into the clinical portion of the Athletic Training Program.

Corequisite: KIN 141. Prerequisite: Athletic Training, Pre-Athletic Training, and Sophomore Status.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

KIN 141. Introduction to Athletic Training Lab. 1 Credit Hour.

Introduction to clinical athletic training for the first year athletic training major. Hands on experience for the entry level athletic training student. Students will be required to complete a competencies check list with a passing grade. Clinical hours in the athletic training room will give the student the opportunity to use the knowledge, skills, and techniques learned in this course. The student must complete 70 clinical hours which are required for the application process to the Athletic Training Education Program. Student must be additionally enrolled in ESS 140. Fee \$65.00 required for Lab.

Corequisite: KIN 140. Prerequisite: ATHT, PAT Majors only and a Sophomore Status.

Components: LAB.

Grading: GRD.

Typically Offered: Fall.

KIN 145. Responding to Emergencies. 2 Credit Hours.

Students will become familiar with accident, injury, and illness situations, techniques for immediate first aid, and legal parameters involved when administering emergency care. Certification in adult CPR will be obtained. A \$40 lab fee will be required for this class.

Prerequisite: ATHT Majors only and Sophomore Status.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

KIN 150. General Nutrition for Health and Performance. 3 Credit Hours.

Fundamentals and theories of nutrition with a specific focus on nutrition for both sports and fitness.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

KIN 155. Biological Bases for Physical Activity and Health. 3 Credit Hours.

This course serves as an introduction to the field of exercise physiology. Students will learn the biological need for physical activity, discuss specific mechanisms on how physical activity reduces disease risk and understand the relationship between physical activity and chronic diseases such as coronary heart disease, obesity, diabetes, cancer, aging and mental health.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

KIN 184. Athletic and Sport Injuries. 3 Credit Hours.

Athletic injuries in sports that occur over the principal joints in the body and the inclusion of anatomical structures that are frequently damaged. Operational treatments and rehabilitation program after surgery.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

KIN 200. Survey of Sports Administration. 3 Credit Hours.

Students will examine the employment opportunities and skills needed in professional, collegiate, and amateur sports as well as the health and fitness industry.

Components: LEC.

Grading: GRD.

Typically Offered: Summer.

KIN 201. Introduction to Sport Administration. 3 Credit Hours.

Basic overview of the fields of sport management. Majors must receive a grade of B- or higher.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

KIN 202. Applied Nutrition for Health and Performance. 3 Credit Hours.

The study of nutrition, diet analysis, biochemical processes in energy metabolism, nutrition and health problems, and nutrition as it relates to physical performance. The class will have 3 sections: 1) nutritional links to chronic disease; 2) nutrition before, during and after exercise bout; and 3) nutritional supplements for health and performance.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

KIN 203. Introduction to Gaming and Casino Management. 3 Credit Hours.

The course will focus on the management of gaming and casino operations. Gambling has emerged as a major segment of the sport industry, comprising 10% of sport expenditures and injecting over \$20B annually into the economy. Students will be exposed to the managerial requirements and organizational structures of various gaming operations. They will also learn about the history of the gaming industry and its impact on the South Florida and the Caribbean economy. The course will provide an introductory level of knowledge regarding the managerial nuances which make working within the industry unique to the traditional sport business environments.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

KIN 206. Sport Facilities and Event Management. 3 Credit Hours.

This course is an overview of the policy and procedures necessary to organize and develop sport events and facilities. In depth review of all programs, functions and procedures necessary for the operation of events and facilities are examined.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

KIN 210. Foundations in Athletic Training. 2 Credit Hours.

Introduction to Sports Medicine/Athletic Training with emphasis on study of the sports medicine team, legal concerns, nutrition, and pre-participation physicals. Course will discuss the basic principles of injury prevention including the role of conditioning, equipment, and protective padding. Additionally, students will be introduced to the study of etiology and mechanisms of injury, pathology, and recognition of clinical signs and symptoms of athletic injury. The student must complete 50 clinical observation hours, which are required for the retention process of the Athletic Training Education Program. Prerequisites: Must have sophomore status.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

KIN 211. Introduction to Campus Recreation. 3 Credit Hours.

This course is an introductory course and provides a broad overview of campus recreation. It will include information on how to plan, and execute programs such as intramurals, club sports and fitness and wellness. Risk management will be stressed in every aspect in the field along with other important topics such as sponsorships, budgeting, and evaluating programs and employees. Students will gain an understanding of what campus recreation is and its importance to a healthy lifestyle on campus.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

KIN 212. Elements of Sports Psychology. 3.00 Credit Hours.

Introduction to the field of sport and exercise psychology by examination of psychological theories and research related to sport and exercise behavior.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

KIN 221. Biochemistry And Skeletal Muscle. 3 Credit Hours.

This course will offer an overview of the biochemistry pertaining to neuroendocrine responses, nutrition, and neuromuscular function; as well as the physiological and biochemical plasticity within skeletal muscle associated with various interventions, diseases, injuries, and aging. Majors must receive a grade of B- or higher.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

KIN 222. Exercise Physiology Laboratory: Neuromuscular. 2 Credit Hours.

This course examines the nature of data collection in exercise physiology. Students will receive information on collection theory and its application to the measurement of a number of physiological systems during exercise. The course is designed to establish a clear linkage between the chronic and acute changes that occur during exercise and the laboratory methods that are used to assess those changes. Co-requisite: KIN 221.

Components: LAB.

Grading: GRD.

Typically Offered: Fall.

KIN 230. Medical Terminology and Documentation. 1 Credit Hour.

Terminology, note writing, and documentation techniques in sports medicine. A treatment cycle model will be introduced.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

KIN 232. Basic Human Physiology. 3 Credit Hours.

This course presents a general overview of the major systems of the human organism with an examination of how they function in the human body. Majors must receive a grade of B- or higher.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

KIN 233. Basic Anatomy Lab. 2 Credit Hours.

This course presents a general overview of the anatomy of the major body systems, such as the skeletal, muscular, cardiovascular, nervous, digestive, respiratory and reproductive systems as well as the integumentary system and special senses.

Components: LAB.

Grading: GRD.

Typically Offered: Fall.

KIN 234. Functional Human Anatomy. 3 Credit Hours.

The study of human anatomy specifically for the sports medicine practitioner

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

KIN 235. Personal and Community Health. 3 Credit Hours.

Overview of current strategies and practices for healthy living, including health maintenance and disease prevention.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

KIN 245. Kinesiology. 3 Credit Hours.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

KIN 250. Orthopedic Assessment: Lower Extremity. 3 Credit Hours.

Common types of orthopedic/sports dysfunctions to lower extremity will be discussed. Injuries will be discussed from the following viewpoints: etiology and mechanism of injury, pathology, recognition and valuation techniques, protocols, and prevention. Co-requisite: Ess 251. This course is a designated Upper Level Communication Requirement; Advanced written, digital and/or oral communication proficiencies will be emphasized in this course.

Corequisite: KIN 251. Requisite: Athletic Training.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

KIN 251. Orthopedic Assessment: Lower Extremity Lab. 1 Credit Hour.

Techniques used to evaluate orthopedic and sports injuries occurring to the lower extremity. The student must complete 100 clinical education hours, which apply toward the graduation requirement of 1000 hours. Clinical education hours will emphasize lower extremity orthopedic assessment, goniometry, manual muscle testing techniques, and gait evaluations. Students must be additionally enrolled in ESS 250.

Components: LAB.

Grading: GRD.

Typically Offered: Fall.

KIN 257. Research Experience in Exercise Physiology. 3 Credit Hours.

This course provides students the opportunity to be immersed in the research process within the discipline of exercise physiology. This includes the entire research process starting with conceptualization of the study and proceeding through research design, implementation (assessment and equipment use), data handling, statistical analysis, and culminating in preparation of manuscripts or presentations.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

KIN 260. Orthopedic Assessment: Upper Extremity. 3 Credit Hours.

Common types of orthopedic/sports dysfunctions to the upper extremity will be discussed. Injuries will be discussed from the following viewpoints: etiology and mechanism of injury, pathology, recognition and evaluation techniques, protocols, and prevention. Co-requisite: ESS 261. This course is a designated Upper Level Communication Requirement; Advanced written, digital and/or oral communication proficiencies will be emphasized in this course.

Corequisite: KIN 261. Prerequisite: Athletic Training.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

KIN 261. Orthopedic Assessment: Upper Extremity Lab. 1 Credit Hour.

Techniques used to evaluate orthopedic and sports injuries occurring to the upper extremity. The student must complete 100 clinical education hours, which apply toward the graduation requirement of 1000 hours. Clinical education hours will emphasize upper extremity orthopedic assessment, goniometry, and manual muscle testing techniques. Students must be additionally enrolled in ESS 260.

Components: LAB.

Grading: GRD.

Typically Offered: Spring.

KIN 264. General Medical Conditions Evaluation. 1 Credit Hour.

This class is the study of the clinical signs and symptoms of General Medical conditions that will present to the Certified Athletic Trainer. Emphasis will be placed on the techniques and instrumentation used for performing appropriate evaluation procedures.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

KIN 297. Practicum in Sport Administration. 1-3 Credit Hours.

A comprehensive program of observation and supervised experience for one semester under the direction of a professional in the sports field. Supervised by Sport Administration program Internship Director. Course only open to Sport Administration Majors & Minors.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

KIN 301. Athletic Injuries & Sport First Aid. 3 Credit Hours.

Course will help coaches, camp counselors, teachers, personal trainers, and athletes of all levels to fulfill the role of being a competent first responder to athletic injuries and illnesses. Upon completion of this course, students will have knowledge of basic sport first aid skills, anatomy and sport injury terminology, and knowledge of specific athletic injuries and illnesses. These will include head injuries, sudden illnesses, weather-related problems, upper and lower body musculoskeletal injuries, respiratory emergencies and illnesses, and internal injuries. Students will also learn basic hands-on skills such as splinting, taping, and bracing as it relates to preventing and treating athletic injuries.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

KIN 302. Sport Marketing. 3 Credit Hours.

This course is designed as a marketing course that deals exclusively with Sport Marketing. Students are expected to develop comprehensive marketing and sponsorship plans. This course will require moderate to heavy computer knowledge. This course is designed to maximize the practical applications of marketing theory to the sport business environment.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

KIN 306. Essential Leadership in Sports and the Professions. 3 Credit Hours.

A variety of leadership and management skills will be examined, including communication, problem solving, conflict management, group dynamics, and leadership theory. Practical application to sport and allied professions will be included. Self-assessment opportunities and exercises will be utilized. Open to majors only. This course is a designated Upper Level Communication Requirement; Advanced written, digital and/or oral communication proficiencies will be emphasized in this course.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

KIN 308. Ethical Decision Making in Sport and the Professions. 3 Credit Hours.

This course will examine ethical dilemmas in decision-making and other contemporary issues in sports management and campus and community environment. Real and hypothetical situations will be utilized.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

KIN 310. Adolescent Growth and Maturation. 3 Credit Hours.

This course is an in-depth study of pediatric exercise physiology with special emphasis on growth, maturation, physical activity, and performance. Topics include a comprehensive summary of biological growth and maturation, processes that impact physical performance. Additionally, students will learn the basis of training pediatric populations.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

KIN 321. Introduction to Systemic Exercise Physiology. 3 Credit Hours.

The structure, function, and training of the cardiorespiratory system. Special emphasis on structural changes in the systems with exercise and their influence on cardiovascular performance, body composition, exercise efficiency and health.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

KIN 322. Exercise Physiology Laboratory: Cardiorespiratory. 2 Credit Hours.

This course concentrates on collection of cardiorespiratory data. In addition, the application of these data to exercise prescription for specific athletic and non-athletic populations will be covered. Corequisite: ESS 321.

Components: LAB.

Grading: GRD.

Typically Offered: Spring.

KIN 330. Medical Terminology. 3 Credit Hours.

Components: LEC.

Grading: GRD.

Typically Offered: Summer.

KIN 340. Strength and Conditioning. 3 Credit Hours.

Introduction to Sport Specific Strength Training. Students will learn the practice of Olympic Weight Lifting and related exercise techniques.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

KIN 344. Gross Anatomy For Kinesiology And Sport Sciences. 3 Credit Hours.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

KIN 345. Kinesiology. 3 Credit Hours.

Study of the structure and function of the skeletal, joint, and muscular systems. Emphasis is placed on the mechanics of the movement of the human body and its relationship to sport and physical performance.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

KIN 365. Principles of Exercise Prescription: Cardiovascular. 3 Credit Hours.

This class is the study of the theory and principles behind the development of exercise programs. Students will learn how to accurately evaluate and develop individual exercise prescription based upon sound scientific research. Exercise prescriptions will be developed in accordance with the guidelines set forth by the National Strength and Conditioning Association and the American College of Sports Medicine. This course is a designated Upper Level Communication Requirement; Advanced written, digital and/or oral communication proficiencies will be emphasized in this course.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

KIN 366. Exercise Physiology Laboratory: Assessment. 3 Credit Hours.

This lab course is designed to complement the ESS 365 lecture course (Principles of Exercise Prescription): Cardiovascular. Students will apply practical field assessments for body composition, aerobic capacity, muscular fitness, and joint range of motion, and will employ exercise strategies to improve each of the assessed fitness components. Students will also prescribe exercises to improve performance-based fitness, such as coordination, balance, agility, speed and power while learning proper exercise training techniques. Must be a declared Exercise Physiology (EXPH) major and receive a grade of "C" or better to satisfy requirements.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

KIN 399. Neuromuscular Basis For Training. 3 Credit Hours.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

KIN 401. Legal Aspects of Sport. 3 Credit Hours.

This course will focus on legal issues applicable to sport administration, including tort law, risk management, negligence, and constitutional law. Relevant legal cases and concepts will be incorporated.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

KIN 402. Sport Sponsorship and Promotion. 1-3 Credit Hours.

This course is designed to provide a detailed examination of the relationship between sport and corporate sponsorship. Topics covered will include the theoretical premise of sponsorship, alignment marketing, strategic communication through sponsorship, determining the value of sponsorship, and evaluation of sponsorship activities. Perspectives from the property offering a sponsorship and from the organization functioning as the sponsor will be considered.

Components: LEC.

Grading: GRD.

Typically Offered: Summer.

KIN 403. Sport Information Management. 3 Credit Hours.

This course centers upon the development of those skills that are necessary for Sport Information Directors. Specifically, these traditionally include marketing, media, promotion, and public relations. This course hopes to provide detailed knowledge to allow the student to participate in these activities in a professional manner.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

KIN 405. Finance and Budget in Sport Administration. 3 Credit Hours.

This course seeks to develop those financial skills necessary to understand a wide variety of financial concepts that impact sport managers. Such topics would include but not be limited to: Sport franchise value/valuations; economic impact of sport; risk-return models; financial statement analysis, and budgeting.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

KIN 410. Problems and Issues in Sport Administration. 3 Credit Hours.

This course is designed as a seminar course. Topical issues in high school, collegiate and professional sport are presented and discussed in detail. A number of student-centered activities are introduced to aid in the development of the student.

Requisites: SPAD Majors and Senior Status.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

KIN 412. Psychophysiology. 3 Credit Hours.

The study of the physiological effects of acute vs. chronic training on homeostatic function, musculoskeletal systems, energy system function, cardiovascular system, and the pulmonary system. Students will be able to understand and interpret terminology and research literature published in the field.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

KIN 415. Evidence Based Sports Medicine. 3 Credit Hours.

This course will introduce the student to clinical epidemiology and the evaluation of the efficacy of prevention, diagnostic, and treatment strategies in athletic training and sport medicine.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

KIN 416. Research Methods in Exercise Physiology. 3 Credit Hours.

This course will introduce the student to clinical epidemiology and the evaluation of the efficacy of prevention, diagnostic, and treatment strategies in exercise physiology and related professions.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

KIN 421. Advanced Systemic Exercise Physiology. 3 Credit Hours.

This course examines the short and long term physical responses to exercise and provides a general overview of the field of exercise physiology with reference to the latest trends in modern physiological research.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

KIN 435. Clinical Biomechanics for Sport Medicine Professionals.. 3 Credit Hours.

A lecture course stressing the biomechanics of joints and pathomechanics of orthopedic injuries.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Summer.

KIN 443. Clinical Athletic Training Lab I. 2 Credit Hours.

The application of athletic training practices in selected clinical education settings. The student must complete 150 hours of documented clinical education hours, which apply toward the graduation requirement of 1000 hours. Clinical education hours will emphasize emergency procedures, first aid, and protective equipment. Prerequisite: Successful completion of the retention process and formal admittance into the clinical portion of the Athletic Training Program.

Components: LAB.

Grading: GRD.

Typically Offered: Fall & Spring.

KIN 444. Clinical Athletic Training Lab II. 2 Credit Hours.

The application of athletic training practices in selected clinical and educational settings. The student must complete 150 hours of documented clinical education hours, which apply toward the graduation requirement of 1000 hours. Clinical education hours will emphasize general medical conditions, nutritional issues, psychosocial intervention, and injury prevention and risk management. Prerequisite: A grade of "B" or better in KIN 443 (Formally ESS 443).

Components: LAB.

Grading: GRD.

Typically Offered: Spring.

KIN 455. Clinical Athletic Training Lab III. 2 Credit Hours.

The application of athletic training practices in selected clinical and educational settings. The student must complete 150 hours of documented clinical education hours, which apply toward graduation requirement of 1000 hours. Clinical education hours will emphasize acute care of injuries and illnesses, lower extremity orthopedic assessment, and risk management and injury prevention. Prerequisite: A grade of "B" or better in KIN 443 and KIN 444 (formally ESS 443 and ESS 444).

Components: LAB.

Grading: GRD.

Typically Offered: Fall.

KIN 456. Clinical Athletic Training Lab IV. 2 Credit Hours.

The application of athletic training practices in selected clinical and educational settings. The student must complete 150 hours of documented clinical education hours, which apply toward the graduation requirement of 1000 hours. Clinical education hours will emphasize upper extremity orthopedic assessment, conditioning and rehabilitation, and therapeutic and therapeutic modalities. Prerequisite: A grade of "B" or better in KIN 443, KIN 444, KIN 455 (formally ESS 443, ESS 444, ESS 455).

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

KIN 457. Practicum in Kinesiology and Sport Sciences. 1-3 Credit Hours.

A comprehensive program of observation and supervised experience under the direction of a professional in the field for one semester. Supervised by University faculty. This course is a designated Upper Level Communication Requirement; Advanced written, digital and/or oral communication proficiencies will be emphasized in this course.

Components: PRA.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

KIN 458. Practicum in Kinesiology and Sport Sciences. 3 Credit Hours.

A comprehensive program of supervised experience conducted under the direction of a professional in the field. Must culminate in research or hands-on experience conducted in the exercise science field.

Components: PRA.

Grading: GRD.

Typically Offered: Fall & Spring.

KIN 461. Therapeutic Modalities. 2 Credit Hours.

Students will acquire the theoretical knowledge necessary for the clinical application of therapeutic modalities. Principles of electrophysics and biophysics, specific physiological effects and therapeutic indications and contraindications associated with cyotherapy, paraffin, ultrasound, electrotherapeutic and hydrotherapeutic modalities, intermittent compression, message, and other contemporary modalities will be discussed. Prerequisite: Open only to ATHT majors. Must have completed KIN 140 and 141 and earned a grade of B or better for both courses, Corequisite: KIN 462 (Formally ESS 140 and 141 and ESS 462). Corequisite: KIN 462. Requisite: Athletic Training.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

KIN 462. Therapeutic Modalities Laboratory. 1 Credit Hour.

"This laboratory will help students apply the techniques and clinical skills related to the application of therapeutic modalities. Clinical education hours will give the student the opportunity to use the knowledge, skills, and techniques learned in this course. Students must complete 50 hours of documented clinical education hours, which apply toward the graduation requirement of 1000 hours. Students must be additionally enrolled in KIN 461 (Formally ESS 461).

Components: LAB.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

KIN 463. Therapeutic Rehabilitation. 2 Credit Hours.

"Students will acquire the theoretical knowledge for the clinical application of a rehabilitation program, physical examination, principles of therapeutic exercise, open and closed chain exercise, muscle reeducation, and special therapeutic techniques such as aquatic therapy. Prerequisite: Open only to ATHT majors. Student must be additionally enrolled in KIN 464."

Corequisite: KIN 464. Requisite: Athletic Training.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

KIN 464. Therapeutic Rehabilitation Laboratory. 1 Credit Hour.

This laboratory will place emphasis on the techniques and clinical skills relating to the rehabilitation of athletic injuries. Clinical education hours in a therapeutic rehabilitation facility will give the students the opportunity to use the knowledge, skills, and techniques learned in this course. The student must complete 100 hours of documented clinical education hours, which apply toward the clinical education requirement for graduation. Students must be additionally enrolled in KIN 463 (Formally ESS 463).

Components: LAB.

Grading: GRD.

Typically Offered: Fall.

KIN 465. Pharmacology. 2 Credit Hours.

Introduction to the basic principles of pharmaceutical intervention and the implications for rehabilitation as related to the Certified Athletic Trainer.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

KIN 470. Administrative Aspects of Athletic Training. 2 Credit Hours.

Basic concepts of legal liability, budget, financial management, inventory control, facilities design and maintenance will be addressed. Additionally, the student will discuss the day to day supervision, scheduling and general administration of the athletic training room. Open only to ATHT majors. Must have completed KIN 140 and 141 and earned a grade of B or better for both courses (Formally ESS 140 and ESS 141).

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

KIN 473. Sports Governance. 3 Credit Hours.

This course provides the students with an examination of the governing organizations of sport at the youth, secondary, intercollegiate, professional, international, sport specific and olympic levels. In addition, policy development in sport management will be explored.

Components: LEC.

Grading: GRD.

KIN 476. Seminar in Athletic training. 2 Credit Hours.

Topics in Athletic Training with discussions covering the NATA competencies and objectives in written and oral practical formats.

Components: SEM.

Grading: GRD.

Typically Offered: Fall.

KIN 477. Advanced Nutrition for Health and Fitness. 3 Credit Hours.

This course is an in-depth study of nutritional concerns of today's athlete. From dehydration to classic carbohydrate loading and from the Female Athlete Triad to ergogenic aids in sports, this course provides state of the art information on the latest nutritional issues for the exercising individual and for the athlete.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

KIN 488. Gross Anatomy. 3 Credit Hours.

The essentials of Myology, Osteology, and Arthrology. Major nerves and arteries are also dissected. Many of the dissection areas are injury sites in sports such as the knee, shoulder, elbow, neck, and spinal nerves.

There is a laboratory fee requirement for this course (\$100.00).

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

KIN 490. Special Topics In Kinesiology And Sports Sciences. 1-3 Credit Hours.

This course is designed for students wishing to focus on a specific area of study within the umbrella of the field of Kinesiology. Students will be given supervision and support in a direction relevant to their needs and interests in a structured setting.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

KIN 495. Individual Study. 1-3 Credit Hours.

The Application for Admission to Advanced Individual Study Form will be required.

Components: THI.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

KIN 496. Individual Study. 1-3 Credit Hours.

The Application for Admission to Advanced Individual Study Form will be required.

Components: THI.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

KIN 497. Internship in Sport Administration. 1-9 Credit Hours.

KIN 497: Internship in Sport Administration Filed Experience that requires the student to participate in the work environment (Formally ESS 497).

Requisites: SPAD Majors and Senior Status.

Components: PRA.

Grading: GRD.

Typically Offered: Fall.

KIN 498. Seminar in Sport Administration. 3 Credit Hours.

Professional seminar to accompany internship in sport administration. Students will be required to interact with other internship students and supervisors on a regular basis and additionally, students will be required to submit comprehensive reports regarding their internship experiences. This course is a designated Upper Level Communication Requirement; Advanced written, digital and/or oral communication proficiencies will be emphasized in this course.

Requisites: SPAD Majors and Senior Status.

Components: PRA.

Grading: GRD.

Typically Offered: Spring.

KIN 502. Sport Sponsorship and Promotion. 1-3 Credit Hours.

Components: LEC.

Grading: GRD.

Typically Offered: Summer.

KIN 503. ADVANCED SPORT INFORMATION MANAGEMENT. 3 Credit Hours.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

KIN 515. Nutrition Diet and Exercise. 3 Credit Hours.

Students will learn the latest concepts in weight management, physical fitness, and healthy eating. They will be able to understand the complex interplay of carbohydrates, protein, fat, water, fiber, vitamins, and minerals in the nourishment of their body and overall well-being. They will also examine serious health issues such as the use/misuse of anabolic steroids, weight control, and eating disorders.

Components: LEC.

Grading: GRD.

Typically Offered: Summer.

KIN 520. Cellular Exercise Physiology. 3 Credit Hours.

The course examines Bioenergetics and Muscular Physiology in training and detraining. Topics include the energy systems and their functional application during exercise, muscle structure and function, cellular and sub-cellular modifications of organelles and contractile mechanisms as result of training and physiological bases of training techniques.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

KIN 521. Advanced Systemic Exercise Physiology. 3 Credit Hours.

The study of the physiological effects of acute vs. chronic training on homeostatic function, musculoskeletal systems, energy system function, cardiovascular and the pulmonary systems. Students will be able to understand and interpret terminology and research literature published in the field.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

KIN 522. Basic Statistics in Kinesiology and Sport Sciences. 3 Credit Hours.

Introduction to basic statistical techniques commonly used in the Exercise and Sport Sciences. Designed as a prerequisite for KIN 646 (Formally ESS 646).

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Summer.

KIN 523. Athletic Training Techniques - Assessment. 3 Credit Hours.

This course will introduce the basic concepts related to injury evaluation. With this information, and with the development of basic skills, the student should be able to form an impression of the nature of most musculoskeletal injuries.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

KIN 524. Athletic Training Techniques - Rehabilitation. 3 Credit Hours.

This course will introduce theoretical concepts that must be understood in order to be able to rehabilitate a musculoskeletal injury. Regarding actual rehabilitation techniques, the emphasis will be on therapeutic exercise with only a brief introduction to therapeutic modalities.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

KIN 525. Advanced Kinesiology. 3 Credit Hours.

In-depth study of the human skeletal and muscular systems with a focus on the mechanics of movement as related to physical activity, sports, and athletics.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

KIN 527. Community and Global Nutrition. 3 Credit Hours.

This course is designed to provide an overview of nutritional issues & related aspects of infectious and chronic disease impacting the health and performance of athletes, individuals & groups domestically & globally. Economic and environmental issues which impact nutritional status and deficiency in the Western societies & third world countries will be addressed. An international and cultural perspective on food, eating behaviors and customs will be explored.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

KIN 530. Laboratory Techniques in Functional Evaluation of Skeletal Muscle. 3 Credit Hours.

This course examines the theories of data collection and collection techniques used to evaluate musculo-skeletal and neuromuscular function. The application of both computerized and non-computerized collection systems for performance evaluation is covered. The course is also designed to establish a clear linkage between the acute and chronic musculo-skeletal and neuromuscular changes that occur during exercise and the laboratory methods used to assess those changes. Collection theory, musculoskeletal and neuromuscular function, methods of strength evaluation, anaerobic power testing, electromyography, and a number of other functional parameters will be discussed.

Components: LAB.

Grading: GRD.

Typically Offered: Spring.

KIN 531. Laboratory Experiences in Systemic Exercise Physiology. 3 Credit Hours.

This course provides a laboratory assessment of physiological principles and theories learned in the classroom setting. Focus will be on systemic application to exercise as an acute or chronic stressor. Corequisite: ESS 521.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

KIN 532. Sports Injuries: Prevention and Treatment. 3 Credit Hours.

Prevention, diagnosis, treatment and rehabilitation of sports injuries. Anatomical and Kinesiological application to sports injuries.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

KIN 534. Integrative & Functional Nutrition. 3 Credit Hours.

This course will discuss integrative and functional medicine and how it emerged. This course will analyze the healthcare models that include personalized care and the whole-person perspective. In this course we will discuss various factors that influence disease including diet and nutrition, stress, activity level, pharmaceuticals and environmental pollutants. Alternative approaches to treatment will also be discussed.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

KIN 535. Clinical Biomechanics for Sport Medicine Professionals. 3 Credit Hours.

A lecture course stressing biomechanics of joints and pathomechanics of orthopedic injuries.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Summer.

KIN 536. Strength and Conditioning I. 3 Credit Hours.

This course serves as the practical/technical foundation for major compound movements and Olympic lifts. It also provides comprehension of movement specific dynamic warm-ups, advanced stretching techniques, methods for identifying movement compensations and underlying issues as well as evaluating Olympic techniques. Due to the practical nature of the course, all the sections of this course are held in the Hecht Athletic Center (HAC).

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

KIN 537. Strength and Conditioning II. 3 Credit Hours.

This course is the continuation of Strength and Conditioning I (KIN 536). It provides more advanced Olympic weightlifting techniques and ballistic training, alongside a continued focus on corrective exercises to ensure a reduced risk of injury. The course also provides an introduction to exercise programming including specialized training techniques for athletic development. Due to the practical nature of the course, all sections of this course are held in the Hecht Athletic Center (HAC).

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

KIN 538. Nutrition during the Lifecycle. 3 Credit Hours.

This course is designed to examine the changes in nutrition requirements during the life cycle, particularly as related to growth, development and aging. Psychosocial, cultural, and economic issues related to food intake at various life stages will be reviewed.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

KIN 539. Dietary Supplements And Human Performance. 3 Credit Hours.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

KIN 540. Exercise Psychobiology. 3 Credit Hours.

This course is designed primarily for graduate level Exercise and Sport science students who are interested in the biochemical basis of personality as affected by exercise and sport. The course involves interdisciplinary integration and comprehensive reviews of ancient and current literature dealing with exercise, stress, emotional, personality, immune system function and neuroendocrine function.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

KIN 541. Neurophysiology in Exercise Science. 3 Credit Hours.

Examination of the functions of the central, peripheral, and autonomic nervous systems in regulating exercise homeostasis and the structural and functional modifications to the systems through training. NOTE: This course is a writing intensive course. This means that all examinations and papers include a critical evaluation of the student's ability to convey information using the written word.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

KIN 542. STRENGTH AND CONDITIONING. 3 Credit Hours.

A comprehensive overview of strength and conditioning.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

KIN 543. Professional Training and Counseling for Integrative Health. 3 Credit Hours.

Students will learn the integrative health care model, theories, behavior change models, approaches & techniques used in nutritional counseling to help athletes, individuals and groups implement and sustain behaviors, lifestyles, and attitudes to achieve optimal health. Lecture & personal application will allow for the development of skills in each of these areas.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

KIN 545. Special Sport Populations. 3 Credit Hours.

This course presents an in-depth examination of chronic conditions and medical problems commonly observed in athletes. Students will learn about the etiology of the medical condition, how exercise affects the condition, and the most recent therapeutic treatments prescribed for the condition.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

KIN 546. Elite Conditioning I. 3 Credit Hours.

Elite Conditioning I provides an introduction to evaluation techniques catered specifically to the athletic population including tests for strength, power, speed, agility, balance and stability. The course also provides instruction on how to apply these evaluations to their respective sports/positions. These evaluation techniques provide data that students will use in the process of corrective exercise prescription. Students are taught how to implement corrective strategies to improve athletic performance. Due to the practical nature of the course, all sections of this course are held in the Hecht Athletic Center(HAC).

Components: LAB.

Grading: GRD.

Typically Offered: Fall & Spring.

KIN 547. Elite Conditioning II. 3 Credit Hours.

Elite Conditioning II is the continuation of Elite Conditioning I (KIN 546). This course provides students with an understanding of the design and implementation of periodized conditioning programs for athletes based on the testing, evaluation, and applications to specific sports learned in Elite Conditioning I. The course focuses on speed agility and quickness for sports. It also includes practical implementation of ballistic, plyometric, speed, and conditioning drills emphasizing evidence based methods and training techniques. Due to the practical nature of the course, all sections of this course are held in Hecht Athletic Center(HAC).

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

KIN 549. Nutrition Assessment and Lab. 3 Credit Hours.

Application of the principles of normal and therapeutic nutrition, nutrition assessment, evaluation and intervention as related to sports performance and the management and treatment of disease states. Laboratories will allow for the development of skills in each of these areas.

Components: LAB.

Grading: GRD.

Typically Offered: Fall.

KIN 550. Nutrition Biochemistry. 3 Credit Hours.

To learn the fundamental biochemical structure and pathways governing nutrient intake and utilization. Students will learn how major forms of nutrients (macronutrients, vitamins, minerals and trace elements) are processed and utilized by different organs with a particular emphasis on muscle metabolism. Students will also learn how to relate their newly acquired knowledge to health and disease outcomes with focus on lifestyle disease related to metabolism such as diabetes and obesity.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

KIN 555. Medical Nutrition Therapy. 3 Credit Hours.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

KIN 556. GLOBALIZATION OF SPORT. 3 Credit Hours.

This course will address the intertwined relationship between globalization, sport, and development from a critical global perspective. This course highlights the extent to which contemporary sport cultures are the result of an interplay between local and global forces. We will explore the international character of professional and amateur sports including international competitions, league expansions beyond national boundaries, and the movement of athletes. Course topics include international sport organization, international competition, sport governance, international dispute resolution, international sports law, and new media.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

KIN 557. Diagnostic Imaging Techniques In Sports Medicine. 3 Credit Hours.

This course is designed as an elective for undergraduate KIN students or graduate students. The basic physics of radiological imaging will be covered including radiology, fluoroscopy, CT scan, ultrasound, MRI, and nuclear medicine including image archiving. Normal anatomy will be compared to the corresponding radiographic anatomy. Common sports injuries will be evaluated by multiple radiographic modalities and will be correlated with the clinical condition. Discussion will include bony pathology as well as soft tissues such as ligaments, tendons, and menisci.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

KIN 561. Facility Management. 3 Credit Hours.

Facility management provides students with an understanding of fitness entrepreneurship, giving students a comprehensive understanding of the, laws, regulations, polices, and work involved in setting up a fitness facility such as a gym, wellness center, or athletic training center. Students are responsible for developing a viable sports or fitness complex including all aspects of administrative and facility management.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

KIN 562. Fiscal Management in Sport Administration. 3 Credit Hours.

Fiscal management as related to athletic sports administration, recreation and leisure sports administration, and physical education.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

KIN 563. Facilities and Event Management. 3 Credit Hours.

This course is designed to introduce students to principles and practices of planning, funding and managing facilities associated with sports participation including professional sport venues, college sports, parks, recreational sport and health/fitness clubs. Students will gain an understanding of promoting, marketing, and maintaining sport facilities.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

KIN 564. Principles of Sport Marketing. 3 Credit Hours.

This course will focus on the vast world of sports marketing. The basic principles of marketing and marketing management will be introduced and integrated with application of these principles to sport and sports-related organizations.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

KIN 565. Legal Aspects of Sports and Exercise Science. 3 Credit Hours.

Legal liability, personal injury, negligence and other related legal aspects of sports and exercise science.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

KIN 566. Organization and Administration of Sports Programs. 3 Credit Hours.

Administrative and organizational procedures and problems specific to athletic administration, recreation and leisure sports administration, and physical education.

Components: DIL.

Grading: GRD.

Typically Offered: Fall.

KIN 567. Elements of Sports Psychology. 3 Credit Hours.

Introduction to the study of sport and exercise psychology including theory, current research and practical application.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

KIN 568. Developmental Sports Psychology. 3 Credit Hours.

Examination of the concept of sport psychology which includes but is not limited to performance, enhancement, student performance and academic application.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

KIN 569. The Foundations of Exercise Prescription. 3 Credit Hours.

Students will learn various assessments of Health and Wellness, and discover how to most effectively prescribe exercise strategies to treat the diagnosed needs of an individual.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

KIN 570. Advanced Programming. 3 Credit Hours.

Advance programming allows students to dissect sports by movement, metabolism and limitation. The course investigates current trends and evidenced based applications of specific training techniques for optimal sport performance. Students will perform complete sports analysis and develop periodized programs for major sports.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

KIN 571. Sport Industry in South Florida. 3 Credit Hours.

This course will examine the various sport based organizations/events that are part of the sport industry in South Florida. Study of these organizations/events will include (a) products/services produced, (b) organizational structure, (c) economic impact on the local community, (d) key management personnel, (e) physical facilities, and (f) internship/employment opportunities.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

KIN 572. Creative Approaches to Problem Solving and Conflict Management. 3 Credit Hours.

This hands-on course will examine the concepts of problem solving and conflict management from both personal and organizational perspectives. Students will have the opportunity to study in-depth both of these concepts (and the relationship between them) through a combination of lecture, theory, individual and group activities, readings, practical exercises, and self-assessment tools.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

KIN 574. Ethical Decision Making in Sports and the Professions. 3 Credit Hours.

This course will examine ethical decision-making in a variety of environments with an emphasis on sport professions. Real and hypothetical situations will be utilized, and the course will combine theory with practical application. The case method in sport ethics will be incorporated.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

KIN 575. Essential Leadership in Sport and the Professions. 3 Credit Hours.

This course will examine the concept of leadership as it pertains to sports and other professions. Various leadership and management skills will be included with a focus on practical applications in a work environment. Theory and self-assessment strategies will be incorporated.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

KIN 576. Practical Approach to Motivation and Ethical Decision Making. 1-3 Credit Hours.

A critical study of practical problems of professionals in Exercise and Sport Sciences.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

KIN 577. Advanced Nutrition for Health and Fitness. 3 Credit Hours.

This course presents an in-depth study of the nutritional concerns of today's Recreational and competitive athlete. Topics include dehydration, classic carbohydrate loading, protein needs, ergogenic aids, and more. State-of-the-art research in the field is provided. This is also a writing intensive course. Thus, writing skills will represent an integral part of one's grade.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

KIN 578. Pharmacology for Allied Health Professionals. 3 Credit Hours.

The study of drug families and drugs in common use across spectra of age, illness, disease, and disability. Students will understand body systems treated with current pharmaceuticals over-the-counter (OTC) medications, and nutraceuticals. Actions, key adverse effects, and influences on individuals undergoing physical activity will be emphasized.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

KIN 579. Principles of Exercise Assessment: Cardiovascular. 3 Credit Hours.

This course presents a comprehensive overview of the physical, physiological and metabolic responses of the human body to exercise testing and training both in health and disease. The successful student will gain an understanding of the process involved in prescribing safe and effective therapeutic exercise in healthy individuals as well as patients with heart and lung disease, diabetes and obesity. An overview of environmental and legal considerations in the prescriptive process will also be discussed.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

KIN 580. Principles of exercise Prescription: Neuromuscular. 3 Credit Hours.

An examination of the scientific bases of modern training techniques designed to optimize performance, their functional application and potential impact on performance in sport and everyday activity.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

KIN 581. Development and Maturation of Athletes.. 3 Credit Hours.

This course is an in-depth study of pediatric exercise physiology with special emphasis on growth, maturation, physical activity, and performance. Topics include a comprehensive summary of biological growth and maturation, processes as it impacts physical performance. Additionally, students will learn the bases of pediatric exercise physiology in order to understand the concepts of motor development, strength, aerobic and anaerobic performance in the pediatric population.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

KIN 584. Neurological Mechanisms of Metabolism and Weight Regulation. 3 Credit Hours.

The focus of this course is on the integrative neurophysiological functions that regulate and influence obesity, metabolic disease, and inflammation. Students will be able to understand the role that chronic inflammation plays in the pathology of disease. A combination of lecture, critical reading, and group discussion will be utilized to explore the underlying basis for metabolic abnormalities.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

KIN 585. Advanced Topics in Kinesiology and Sport Sciences. 3 Credit Hours.

This course will provide a synthesis of essential concepts in specialty subjects relevant to one's field of interest.

Components: THI.

Grading: GRD.

Typically Offered: Spring & Summer.

KIN 586. Exercise Prescription/Assessment Laboratory. 3 Credit Hours.

This course presents an overview of the laboratory techniques used to assess cardiovascular endurance and general fitness, pulmonary function and anaerobias observed during competition.

Components: LAB.

Grading: GRD.

Typically Offered: Fall.

KIN 587. Laboratory Experience in Sports Nutrition. 3 Credit Hours.

This laboratory class provides case study analyses and computerized nutrient analysis systems designed to evaluate nutrition and hydration needs of the recreational and competitive athlete. From urinalysis and blood work to body composition and computerized nutrient data base systems, this laboratory provides a clinical approach to evaluating the nutrition status of the exercising individual. Corequisite: ESS 577.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

KIN 588. Advanced Gross Anatomy In Kinesiology And Sport Sciences. 3 Credit Hours.

Human dissection of the major muscles, arteries and nerves of the body. Course is held at the University of Miami, Medical Campus, cadaver laboratory. Special consideration is given to injury sites in sports such as the knee, shoulder, elbow, neck and spinal areas. Students are required to pay a \$100 laboratory fee for the class. This course is to be taken by undergraduate Athletic Training majors and for the 5- year Sports Medicine with a Concentration in Athletic Training program students only.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

KIN 589. Directed Readings in Kinesiology and Sport Sciences. 3 Credit Hours.

Directed Readings focusing on research and contemporary trends in the field.

Components: PRA.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

KIN 590. Special Topics in Kinesiology and Sport Sciences. 1-3 Credit Hours.

This course is designed for students wishing to focus on a specific area of study within the umbrella of the Kinesiology and Sport Sciences curriculum. Students will be given supervision and support in a direction relevant to their needs and interests in a structured setting.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

KIN 595. Research Honors Project. 2 Credit Hours.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

KIN 596. Research Honors Project. 2 Credit Hours.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

KIN 597. Research Honors Project - Thesis Writing. 2 Credit Hours.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

KIN 598. Research Honors Project - Seminar. 1 Credit Hour.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

KIN 599. Advanced Programming for Endurance Athletes. 3 Credit Hours.

This course provides students with training techniques to improve aerobic capacity, endurance, and lactate threshold for optimal performance. Students will review evidenced based principles of sports nutrition, strategies to ensure proper hydration, thermoregulation, and fuel (substrate) availability during prolonged exercise as well as develop programs for competitive sports including triathlon, marathon, and cycling.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

KIN 601. Organization and Administration of Sports Programs. 3 Credit Hours.

Administrative and organizational procedures and problems specific to athletic administration, recreation and leisure sports administration, and physical education.

Components: DIL.

Grading: GRD.

Typically Offered: Fall.

KIN 602. Fiscal Management in Sport Administration FISCAL MGT SPTS AD. 3 Credit Hours.

Fiscal management as related to athletic sports administration, recreation and leisure sports administration, and physical education.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

KIN 603. Principles of Sport Marketing. 3 Credit Hours.

This course will focus on the vast world of sports marketing. The basic principles of marketing and marketing management will be introduced and integrated with application of these principles to sport and sports-related organizations.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

KIN 604. Essential Leadership in Sport and the Professions. 3 Credit Hours.

This course will examine the concept of leadership as it pertains to sports and other professions. Various leadership and management skills will be included with a focus on practical applications in a work environment. Theory and self-assessment strategies will be incorporated.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

KIN 605. Sport Sponsorship and Promotion. 1-3 Credit Hours.**Components:** LEC.**Grading:** GRD.**Typically Offered:** Summer.**KIN 606. Ethical Decision Making in Sports and the Professions. 3 Credit Hours.**

This course will examine ethical decision-making in a variety of environments with an emphasis on sport professions. Real and hypothetical situations will be utilized, and the course will combine theory with practical application. The case method in sport ethics will be incorporated.

Components: LEC.**Grading:** GRD.**Typically Offered:** Fall & Spring.**KIN 607. Legal Aspects of Sports and Exercise Science. 3 Credit Hours.**

Legal liability, personal injury, negligence and other related legal aspects of sports and exercise science.

Components: LEC.**Grading:** GRD.**Typically Offered:** Spring.**KIN 608. GLOBALIZATION OF SPORT. 3 Credit Hours.****Components:** LEC.**Grading:** GRD.**KIN 609. ADVANCED SPORT INFORMATION MANAGEMENT. 3 Credit Hours.****Components:** LEC.**Grading:** GRD.**Typically Offered:** Offered by Announcement Only.**KIN 610. Facilities and Event Management. 3 Credit Hours.**

This course is designed to introduce students to principles and practices of planning, funding and managing facilities associated with sports participation including professional sport venues, college sports, parks, recreational sport and health/fitness clubs. Students will gain an understanding of promoting, marketing, and maintaining sport facilities.

Components: LEC.**Grading:** GRD.**Typically Offered:** Spring.**KIN 611. Field Experience in Sport Administration I. 1-9 Credit Hours.**

Practical experience not ordinarily available through coursework sequences. Placement in a variety of settings, clinics, public and private voluntary agencies and schools. Supervised by a faculty member of the department.

Components: PRA.**Grading:** GRD.**Typically Offered:** Fall.**KIN 612. Field Experience In Sport Administration II. 1-3 Credit Hours.**

Practical experience not ordinarily available through coursework sequences. Placement in a variety of settings, clinics, public and private voluntary agencies and schools. Supervised by a faculty member of the department.

Components: SEM.**Grading:** GRD.**Typically Offered:** Fall & Summer.**KIN 613. Field Experience in Sport Administration III. 1-3 Credit Hours.**

Practical experience not ordinarily available through coursework sequences. Placement in a variety of settings, clinics, public and private voluntary agencies and schools. Supervised by a faculty member of the department.

Components: PRA.**Grading:** GRD.**Typically Offered:** Summer.**KIN 615. Practical Approach to Motivation and Ethical Decision Making. 1-3 Credit Hours.**

A critical study of practical problems of professionals in Exercise and Sport Sciences.

Components: LEC.**Grading:** GRD.**Typically Offered:** Spring.**KIN 616. Advanced Sport Governance. 3 Credit Hours.**

This course provides the student with an examination of the governing organizations of sport at the youth, secondary, intercollegiate, professional, international, sport specific and Olympic levels. In addition, policy development in sport management will be explored.

Components: LEC.**Grading:** GRD.**Typically Offered:** Spring & Summer.**KIN 617. Creative Approaches to Problem Solving and Conflict Management. 3 Credit Hours.**

This hands-on course will examine the concepts of problem solving and conflict management from both personal and organizational perspectives. Students will have the opportunity to study in-depth both of these concepts (and the relationship between them) through a combination of lecture, theory, individual and group activities, readings, practical exercises, and self-assessment tools.

Components: LEC.**Grading:** GRD.**Typically Offered:** Spring.**KIN 620. Contemporary Issues in Kinesiology and Sport Sciences. 1-3 Credit Hours.**

Problem identification, investigation, analysis, and problem solving approaches in Kinesiology and Sport Sciences.

Components: LEC.**Grading:** GRD.**Typically Offered:** Spring.**KIN 621. Advanced Systemic Exercise Physiology. 3 Credit Hours.**

The study of the physiological effects of acute vs. chronic training on homeostatic function, musculoskeletal systems, energy system function, cardiovascular and the pulmonary systems. Students will be able to understand and interpret terminology and research literature published in the field.

Components: DIS.**Grading:** GRD.**Typically Offered:** Fall.**KIN 623. Food Science and Management Principles. 3 Credit Hours.****Components:** LEC.**Grading:** GRD.**Typically Offered:** Fall, Spring, & Summer.

KIN 624. Athletic Training Techniques - Rehabilitation. 3 Credit Hours.

This course will introduce theoretical concepts that must be understood in order to be able to rehabilitate a musculoskeletal injury. Regarding actual rehabilitation techniques, the emphasis will be on therapeutic exercise with only a brief introduction to therapeutic modalities.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

KIN 625. Advanced Kinesiology. 3 Credit Hours.

In-depth study of the human skeletal and muscular systems with a focus on the mechanics of movement as related to physical activity, sports, and athletics.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

KIN 626. Nutrition Diet and Exercise. 3 Credit Hours.

Students will learn the latest concepts in weight management, physical fitness, and healthy eating. They will be able to understand the complex interplay of carbohydrates, protein, fat, water, fiber, vitamins, and minerals in the nourishment of their body and overall well-being. They will also examine serious health issues such as the use/misuse of anabolic steroids, weight control, and eating disorders.

Components: LEC.

Grading: GRD.

Typically Offered: Summer.

KIN 627. Community and Global Nutrition. 3 Credit Hours.

This course is designed to provide an overview of nutritional issues & related aspects of infectious and chronic disease impacting the health and performance of athletes, individuals & groups domestically & globally. Economic and environmental issues which impact nutritional status and deficiency in the Western societies & third world countries will be addressed. An international and cultural perspective on food, eating behaviors and customs will be explored.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

KIN 628. Basic Statistics in Kinesiology and Sport Sciences. 3 Credit Hours.

Introduction to basic statistical techniques commonly used in the Exercise and Sport Sciences. Designed as a prerequisite for KIN 646 (Formally ESS 646).

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Summer.

KIN 630. Cellular Exercise Physiology. 3 Credit Hours.

The course examines Bioenergetics and Muscular Physiology in training and detraining. Topics include the energy systems and their functional application during exercise, muscle structure and function, cellular and sub-cellular modifications of organelles and contractile mechanisms as result of training and physiological bases of training techniques.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

KIN 631. Laboratory Techniques in Functional Evaluation of Skeletal Muscle. 3 Credit Hours.

This course examines the theories of data collection and collection techniques used to evaluate musculo-skeletal and neuromuscular function. The application of both computerized and non-computerized collection systems for performance evaluation is covered. The course is also designed to establish a clear linkage between the acute and chronic musculo-skeletal and neuromuscular changes that occur during exercise and the laboratory methods used to assess those changes. Collection theory, musculoskeletal and neuromuscular function, methods of strength evaluation, anaerobic power testing, electromyography, and a number of other functional parameters will be discussed.

Components: LAB.

Grading: GRD.

Typically Offered: Spring.

KIN 632. Sports Injuries: Prevention and Treatment. 3 Credit Hours.

Prevention, diagnosis, treatment and rehabilitation of sports injuries. Anatomical and Kinesiological application to sports injuries.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

KIN 634. Integrative & Functional Nutrition. 3 Credit Hours.

This course will discuss integrative and functional medicine and how it emerged. This course will analyze the healthcare models that include personalized care and the whole-person perspective. In this course we will discuss various factors that influence disease including diet and nutrition, stress, activity level, pharmaceuticals and environmental pollutants. Alternative approaches to treatment will also be discussed.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

KIN 635. Clinical Biomechanics for Sport Medicine Professionals. 3 Credit Hours.

A lecture course stressing biomechanics of joints and pathomechanics of orthopedic injuries.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Summer.

KIN 636. Strength and Conditioning I. 3 Credit Hours.

This course serves as the practical/technical foundation for major compound movements and Olympic lifts. It also provides comprehension of movement specific dynamic warm-ups, advanced stretching techniques, methods for identifying movement compensations and underlying issues as well as evaluating Olympic techniques. Due to the practical nature of the course, all the sections of this course are held in the Hecht Athletic Center (HAC).

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

KIN 637. Strength and Conditioning II. 3 Credit Hours.

This course is the continuation of Strength and Conditioning I (KIN 536). It provides more advanced Olympic weightlifting techniques and ballistic training, alongside a continued focus on corrective exercises to ensure a reduced risk of injury. The course also provides an introduction to exercise programming including specialized training techniques for athletic development. Due to the practical nature of the course, all sections of this course are held in the Hecht Athletic Center (HAC).

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

KIN 638. Nutrition during the Lifecycle. 3 Credit Hours.

This course is designed to examine the changes in nutrition requirements during the life cycle, particularly as related to growth, development and aging. Psychosocial, cultural, and economic issues related to food intake at various life stages will be reviewed.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

KIN 639. Dietary Supplements And Human Performance. 3 Credit Hours.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

KIN 640. Exercise Psychobiology. 3 Credit Hours.

This course is designed primarily for graduate level Exercise and Sport science students who are interested in the biochemical basis of personality as affected by exercise and sport. The course involves interdisciplinary integration and comprehensive reviews of ancient and current literature dealing with exercise, stress, emotional, personality, immune system function and neuroendocrine function.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

KIN 641. Neurophysiology in Exercise Science. 3 Credit Hours.

Examination of the functions of the central, peripheral, and autonomic nervous systems in regulating exercise homeostasis and the structural and functional modifications to the systems through training. NOTE: This course is a writing intensive course. This means that all examinations and papers include a critical evaluation of the student's ability to convey information using the written word.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

KIN 642. STRENGTH AND CONDITIONING. 3 Credit Hours.

A comprehensive overview of strength and conditioning.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

KIN 643. Professional Training and Counseling for Integrative Health. 3 Credit Hours.

Students will learn the integrative health care model, theories, behavior change models, approaches & techniques used in nutritional counseling to help athletes, individuals and groups implement and sustain behaviors, lifestyles, and attitudes to achieve optimal health. Lecture & personal application will allow for the development of skills in each of these areas.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

KIN 645. Special Sport Populations. 3 Credit Hours.

This course presents an in-depth examination of chronic conditions and medical problems commonly observed in athletes. Students will learn about the etiology of the medical condition, how exercise affects the condition, and the most recent therapeutic treatments prescribed for the condition.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

KIN 646. Elite Conditioning I. 3 Credit Hours.

Elite Conditioning I provides an introduction to evaluation techniques catered specifically to the athletic population including tests for strength, power, speed, agility, balance and stability. The course also provides instruction on how to apply these evaluations to their respective sports/positions. These evaluation techniques provide data that students will use in the process of corrective exercise prescription. Students are taught how to implement corrective strategies to improve athletic performance. Due to the practical nature of the course, all sections of this course are held in the Hecht Athletic Center(HAC).

Components: LAB.

Grading: GRD.

Typically Offered: Fall & Spring.

KIN 647. Elite Conditioning II. 3 Credit Hours.

Elite Conditioning II is the continuation of Elite Conditioning I (KIN 546). This course provides students with an understanding of the design and implementation of periodized conditioning programs for athletes based on the testing, evaluation, and applications to specific sports learned in Elite Conditioning I. The course focuses on speed agility and quickness for sports. It also includes practical implementation of ballistic, plyometric, speed, and conditioning drills emphasizing evidence based methods and training techniques. Due to the practical nature of the course, all sections of this course are held in Hecht Athletic Center(HAC).

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

KIN 649. Nutrition Assessment and Lab. 3 Credit Hours.

Application of the principles of normal and therapeutic nutrition, nutrition assessment, evaluation and intervention as related to sports performance and the management and treatment of disease states. Laboratories will allow for the development of skills in each of these areas.

Components: LAB.

Grading: GRD.

Typically Offered: Fall.

KIN 650. Nutrition Biochemistry. 3 Credit Hours.

To learn the fundamental biochemical structure and pathways governing nutrient intake and utilization. Students will learn how major forms of nutrients (macronutrients, vitamins, minerals and trace elements) are processed and utilized by different organs with a particular emphasis on muscle metabolism. Students will also learn how to relate their newly acquired knowledge to health and disease outcomes with focus on lifestyle disease related to metabolism such as diabetes and obesity.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

KIN 655. Medical Nutrition Therapy. 3 Credit Hours.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

KIN 657. Diagnostic Imaging Techniques In Sports Medicine. 3 Credit Hours.

This course is designed as an elective for undergraduate KIN students or graduate students. The basic physics of radiological imaging will be covered including radiology, fluoroscopy, CT scan, ultrasound, MRI, and nuclear medicine including image archiving. Normal anatomy will be compared to the corresponding radiographic anatomy. Common sports injuries will be evaluated by multiple radiographic modalities and will be correlated with the clinical condition. Discussion will include bony pathology as well as soft tissues such as ligaments, tendons, and menisci.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

KIN 661. Facility Management. 3 Credit Hours.

Facility management provides students with an understanding of fitness entrepreneurship, giving students a comprehensive understanding of the, laws, regulations, policies, and work involved in setting up a fitness facility such as a gym, wellness center, or athletic training center. Students are responsible for developing a viable sports or fitness complex including all aspects of administrative and facility management.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

KIN 662. Fitness Facility Management II. 3 Credit Hours.

Fiscal management as related to athletic sports administration, recreation and leisure sports administration, and physical education. Corequisite: KIN 661.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

KIN 667. Elements of Sports Psychology. 3 Credit Hours.

Introduction to the study of sport and exercise psychology including theory, current research and practical application.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

KIN 668. Developmental Sports Psychology. 3 Credit Hours.

Examination of the concept of sport psychology which includes but is not limited to performance, enhancement, student performance and academic application.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

KIN 669. The Foundations of Exercise Prescription. 3 Credit Hours.

Students will learn various assessments of Health and Wellness, and discover how to most effectively prescribe exercise strategies to treat the diagnosed needs of an individual.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

KIN 670. Advanced Programming. 3 Credit Hours.

Advanced programming allows students to dissect sports by movement, metabolism and limitation. The course investigates current trends and evidenced based applications of specific training techniques for optimal sport performance. Students will perform complete sports analysis and develop periodized programs for major sports.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

KIN 671. Sport Industry in South Florida. 3 Credit Hours.

This course will examine the various sport based organizations/events that are part of the sport industry in South Florida. Study of these organizations/events will include (a) products/services produced, (b) organizational structure, (c) economic impact on the local community, (d) key management personnel, (e) physical facilities, and (f) internship/employment opportunities.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

KIN 673. Advanced Sport Governance. 3 Credit Hours.

This course provides the student with an examination of the governing organizations of sport at the youth, secondary, intercollegiate, professional, international, sport specific and Olympic levels. In addition, policy development in sport management will be explored.

Components: LEC.

Grading: GRD.

Typically Offered: Spring & Summer.

KIN 677. Advanced Nutrition for Health and Fitness. 3 Credit Hours.

This course presents an in-depth study of the nutritional concerns of today's Recreational and competitive athlete. Topics include dehydration, classic carbohydrate loading, protein needs, ergogenic aids, and more. State-of-the-art research in the field is provided. This is also a writing intensive course. Thus, writing skills will represent an integral part of one's grade.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

KIN 678. Pharmacology for Allied Health Professionals. 3 Credit Hours.

The study of drug families and drugs in common use across spectra of age, illness, disease, and disability. Students will understand body systems treated with current pharmaceuticals over-the-counter (OTC) medications, and nutraceuticals. Actions, key adverse effects, and influences on individuals undergoing physical activity will be emphasized.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

KIN 679. Principles of Exercise Assessment: Cardiovascular. 3 Credit Hours.

This course presents a comprehensive overview of the physical, physiological and metabolic responses of the human body to exercise testing and training both in health and disease. The successful student will gain an understanding of the process involved in prescribing safe and effective therapeutic exercise in healthy individuals as well as patients with heart and lung disease, diabetes and obesity. An overview of environmental and legal considerations in the prescriptive process will also be discussed.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

KIN 680. Principles of exercise Prescription: Neuromuscular. 3 Credit Hours.

An examination of the scientific bases of modern training techniques designed to optimize performance, their functional application and potential impact on performance in sport and everyday activity.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

KIN 681. Development and Maturation of Athletes.. 3 Credit Hours.

This course is an in-depth study of pediatric exercise physiology with special emphasis on growth, maturation, physical activity, and performance. Topics include a comprehensive summary of biological growth and maturation, processes as it impacts physical performance. Additionally, students will learn the bases of pediatric exercise physiology in order to understand the concepts of motor development, strength, aerobic and anaerobic performance in the pediatric population.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

KIN 684. Obesity, Metabolic Disease, and Inflammation. 3 Credit Hours.

The focus of this course is on the integrative neurophysiological functions that regulate and influence obesity, metabolic disease, and inflammation. Students will be able to understand the role that chronic inflammation plays in the pathology of disease. A combination of lecture, critical reading, and group discussion will be utilized to explore the underlying basis for metabolic abnormalities.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

KIN 685. Advanced Topics in Kinesiology and Sport Sciences. 3 Credit Hours.

This course will provide a synthesis of essential concepts in specialty subjects relevant to one's field of interest.

Components: THI.

Grading: GRD.

Typically Offered: Spring & Summer.

KIN 686. Exercise Prescription/Assessment Laboratory. 3 Credit Hours.

This course presents an overview of the laboratory techniques used to assess cardiovascular endurance and general fitness, pulmonary function and anaerobias observed during competition.

Components: LAB.

Grading: GRD.

Typically Offered: Fall.

KIN 687. Laboratory Experience in Sports Nutrition. 3 Credit Hours.

This laboratory class provides case study analyses and computerized nutrient analysis systems designed to evaluate nutrition and hydration needs of the recreational and competitive athlete. From urinalysis and blood work to body composition and computerized nutrient data base systems, this laboratory provides a clinical approach to evaluating the nutrition status of the exercising individual. Corequisite: ESS 577.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

KIN 688. Advanced Gross Anatomy In Kinesiology And Sport Sciences. 3 Credit Hours.

Human dissection of the major muscles, arteries and nerves of the body. Course is held at the University of Miami, Medical Campus, cadaver laboratory. Special consideration is given to injury sites in sports such as the knee, shoulder, elbow, neck and spinal areas. Students are required to pay a \$100 laboratory fee for the class. This course is to be taken by undergraduate Athletic Training majors and for the 5- year Sports Medicine with a Concentration in Athletic Training program students only.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

KIN 689. Directed Readings in Kinesiology and Sport Sciences. 3 Credit Hours.

Directed Readings focusing on research and contemporary trends in the field.

Components: PRA.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

KIN 690. Strength And Conditioning Independent Study/Project. 3 Credit Hours.

Practical experience not ordinarily available through coursework sequences. Placement in a variety of settings, clinics, public and private voluntary agencies and schools. Supervised by a faculty member of the department.

Components: THI.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

KIN 698. Professional Training & Counseling For Integrative Health. 3 Credit Hours.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

KIN 699. Advanced Programming for Endurance Athletes. 3 Credit Hours.

This course provides students with training techniques to improve aerobic capacity, endurance, and lactate threshold for optimal performance. Students will review evidenced based principles of sports nutrition, strategies to ensure proper hydration, thermoregulation, and fuel (substrate) availability during prolonged exercise as well as develop programs for competitive sports including triathlon, marathon, and cycling.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

KIN 702. Athletics in the United States. 3 Credit Hours.

An Assessment of athletics in the United States. Focus on historical perspectives, contemporary issues, interface with international athletics, and future trends.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

KIN 704. Recreation in the United States. 3 Credit Hours.

An assessment of recreation and leisure in the United States. Focus on past, present, and future trends, problems, and issues.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

KIN 710. Advanced Adolescent Growth and Maturation. 3 Credit Hours.

This course is an in-depth study of pediatric exercise physiology with special emphasis on growth, maturation, physical activity, and performance. Topics include a comprehensive summary of biological growth and maturation, processes that impact physical performance. Additionally, students will learn the basis of training pediatric populations.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

KIN 712. Applied Sport Psychophysiology. 3 Credit Hours.

The study of the physiological effects of acute vs. chronic training on homeostatic function, musculoskeletal systems, energy system function, cardiovascular system, and the pulmonary system. Students will be able to understand and interpret terminology and research literature published in the field.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

KIN 715. Evidence-Based Sports Medicine. 3 Credit Hours.

Introduction to clinical epidemiology and the evaluation of the efficacy of prevention, diagnostic, and treatment strategies or orthopedic injuries in sports medicine.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

KIN 716. Advanced Rehabilitation Techniques in Sports Medicine. 3 Credit Hours.

This is an advanced athletic training course designed to enhance the athletic trainer's ability to plan and implement a comprehensive sports injury rehabilitation program based on the sequential events of musculoskeletal tissue healing. Discussion focuses on the development of a conceptual model for sports injury rehabilitation which incorporates rehabilitation phases, intervention goals, and progression criteria.

Application of the problem-oriented approach to the management of athletic injuries is a predominant theme throughout this course

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

KIN 717. Advanced Evaluation Techniques in Sports Medicine. 3 Credit Hours.

A lecture/lab course stressing clinical techniques involved in the use of posture evaluation, back evaluation, advanced orthopedic evaluation, and gait analysis, in conjunction with the scientific foundations of physiology and biomechanical principles associated with advanced evaluation techniques.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

KIN 720. Practicum in Athletic Training. 3 Credit Hours.

Field experience at the athletic training setting through working with collegiate athletes to expose students to the role and function of athletic training as a certified athletic trainer and as an clinical instructor.

Components: PRA.

Grading: GRD.

Typically Offered: Fall.

KIN 721. Independent Study I. 1 Credit Hour.

This course is an advanced study of a particular theme or topic in the athletic training field such as students, research topic, and current issues of relevance to certified trainers and other professionals in the sports health care profession. Students will prepare for class discussion by reviewing assigned readings from professional journals and other pertinent sources. Class sessions will consist of lectures, laboratories, and discussion sessions.

Components: THI.

Grading: GRD.

Typically Offered: Fall.

KIN 722. Practicum in Athletic Training 2. 3 Credit Hours.

Field experience at that athletic training setting through working with collegiate athletes to expose students to the role and function of athletic training as certified athletic trainer and a clinical instructor as well.

Components: PRA.

Grading: GRD.

Typically Offered: Spring.

KIN 723. Independent Study 2. 1 Credit Hour.

This course is an advanced study of a particular theme or topic in the athletic training field such as students' research topic, current issues of relevance to certified athletic trainers and other professionals in the sports health care professions. Students will prepare for class discussion by reviewing assigned readings from professional journals and other pertinent sources. Class sessions will consist of lectures, laboratories, and discussion sessions.

Components: LAB.

Grading: GRD.

Typically Offered: Spring.

KIN 724. Practicum in Athletic Training III. 3 Credit Hours.

Field experience at the athletic training setting through working with collegiate athletes to expose students to the role and function of athletic training as a certified athletic trainer and clinical instructor as well.

Components: PRA.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

KIN 725. Independent Study III. 1 Credit Hour.

This course is an advanced study of a particular theme or topic in the athletic training field such as students' research topic, current issues of relevance to certified athletic trainers and other professionals in the sports health care professions. Students will prepare for class discussion by reviewing assigned readings from professional journals and other pertinent sources. Class sessions will consist of lectures, laboratories, and discussion sessions.

Components: THI.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

KIN 726. Practicum in Athletic Training IV. 3 Credit Hours.

Field experience at the athletic training setting through working with collegiate athletes to expose students to the role and function of athletic training as a certified athletic trainer and clinical instructor as well.

Components: PRA.

Grading: GRD.

Typically Offered: Spring.

KIN 727. Pract in Nutrition. 3 Credit Hours.

Components: THI.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

KIN 735. Methods in Biomechanical Analysis. 3 Credit Hours.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

KIN 740. Neurophysiology in Exercise Science. 3 Credit Hours.

Examination of the functions of the central, peripheral, and autonomic nervous systems in regulating exercise homeostasis and the structural and functional modifications to the systems through training. NOTE: This course is a writing intensive course. This means that all examinations and papers include a critical evaluation of the student's ability to convey information using the written word.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

KIN 741. Aging: Physiological Changes and Their Implications of Training. 3 Credit Hours.

The physiological changes that occur due to aging and their impact on fall prevention, independence and the application of prophylactic exercise prescriptions.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

KIN 742. Fundamentals of Cardiology. 3 Credit Hours.

This course represents an in-depth review and evaluation of the field of cardiology. Students must understand the etiology of coronary artery diseases, assessment techniques in the evaluation of cardiac pathologies, the latest risk factors, and most recent trends in treatment and rehabilitation. Phase I through Phase IV review of Cardiac Rehabilitation will be fully examined.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

KIN 743. Laboratory Experiences in Cardiac Rehabilitation. 3 Credit Hours.

This class provides hands-on clinical experiences in preparation of patient for testing, assessment of pre-existing medical conditions and risk factors as well as appropriate procedures for stress testing. Student will, in addition, have the opportunity to view Thallium stress tests, echocardiography and cardiac surgical procedures such as angioplasty and bypass surgery.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

KIN 744. Interpretation Of The Ecg. 3 Credit Hours.

This class will provide information of the electrophysiology of the heart, medicines used to improve heart function, and critical examination of waveform analyses in interpreting the electrocardiogram. Prerequisite: KIN 642 (Formally ES S 642) or permission of the instructor.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

KIN 746. Research Methods in Kinesiology and Sport Sciences. 3 Credit Hours.

This Course reviews the approach and research methods used to evaluate quantitative research questions in the field of Kinesiology and Sport Sciences.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

KIN 747. Analytic Methods in Kinesiology and Sport Sciences. 3 Credit Hours.

Methods of analyzing research data in Kinesiology and Sport Sciences.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

KIN 755. Exercise Biochemistry. 3 Credit Hours.

This course presents an in-depth examination of the biochemical basis of exercise. Topics include carbohydrate and lipid metabolism at rest and during exercise, integration of metabolism, the use of stable isotopes in the characterization of substrate kinetics, and metabolic bases of fatigue. Both the instructor and the students will incorporate current peer-reviewed research in the field.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

KIN 781. Issues Specific to Women's Health. 3 Credit Hours.

This course focuses upon clinical health issues relevant to women. Students will acquire a body of knowledge concerning the specific biological and physiological changes women experience from birth to maturity, and from the pre- to post menopausal state. Women will learn significant issues related to women's health and be able to make more educated decisions regarding their health and treatment options.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

KIN 782. Psychosocial Issues in Women's Health. 3 Credit Hours.

This course covers a broad perspective of women and their self-esteem, their femininity, and their role in family household. Attention will be paid to the historical, cultural, and anthropological development of women and their role in society. The influence of gender will explore several areas which include a) pregnancy, b) menopause, c) menstrual cycle, d) stress and career vs. family, e) depression, and f) body image.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

KIN 783. Sports Medicine for the Female Athlete. 3 Credit Hours.

This course focuses upon the physiological effects of exercise on the female athlete as it relates to her performance and health. Physiological differences between male and female will be examined as it impacts the women's performance capabilities and potential. Gender specific problems regarding the exercising female will be explored.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

KIN 784. Advance Neurological Mechanisms of Metabolism and Weight Regulation. 3 Credit Hours.

This course is designed to evaluate dieting, rebound effect, set point theory, brown fat, and adaptive thermogenesis, as they relate to the etiology of obesity. The course will cover a step-by-step approach in the recognition, and management of the overweight patient. The course will also examine adipocyte morphology and the health implications of being overweight and obese. Students will examine the impact of both diet and exercise on long-term weight management.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

KIN 791. Practicum in Kinesiology and Sport Sciences/Master's students. 1 Credit Hour.

The course presents graduate students with the theoretical and practical tools necessary for expanding their critical thinking and argumentative skills in order to present their scientific research results in an evaluative, logical and analytical manner. The course consists of weekly presentations of related literature, results, and findings on various Master's projects.

Components: PRA.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

KIN 792. Optional Internship-Strength and Conditioning. 1 Credit Hour.

This 1 credit internship allows students to pursue professional internships in the field of strength and conditioning/fitness entrepreneurship. Students will be provided with contact information and a number of opportunities by Dr. Biagioli relative to their interests.

Components: SEM.

Grading: SUS.

Typically Offered: Fall, Spring, & Summer.

KIN 793. Research Colloquium.. 1-3 Credit Hours.

This course presents graduate students with the theoretical and practical tools necessary for presenting their scientific research in an organized, logical, and analytical manner.

Components: THI.

Grading: GRD.

Typically Offered: Fall & Spring.

KIN 794. Advanced Individual Study. 1-3 Credit Hours.

The Application for Admission to Individual Study Form will be required.

Components: THI.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

KIN 795. Graduate/Clinical Field Experience in Kinesiology and Sport Sciences. 3 Credit Hours.

Practical experience not ordinarily available through coursework sequences. Placement in a variety of settings, clinics, public and private voluntary agencies and schools. Supervised by a faculty member of the department.

Components: PRA.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

KIN 799. Special Project. 1-3 Credit Hours.

This course represents the capstone course in a student's field and should represent a culmination of all information learned in class.

Components: THI.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

KIN 810. Master's Thesis. 1-6 Credit Hours.

The student working on his/her master's thesis enrolls for credit, in most departments not to exceed six, as determined by his/her advisor. Credit is not awarded until the thesis has been accepted.

Components: PRA.

Grading: SUS.

Typically Offered: Fall, Spring, & Summer.

KIN 820. Research in Residence. 1 Credit Hour.

Used to establish research in residence for the thesis for the master's degree after the student has enrolled for the permissible cumulative total in ESS 710 (usually six credits). Credit not granted. May be regarded as full time residence.

Components: PRA.

Grading: GRD.

Typically Offered: Fall & Spring.

KIN 825. Continuous Registration--Master's Study. 1 Credit Hour.

To establish residence for non-thesis master's students who are preparing for major examinations. Credit not granted. Regarded as full time residence.

Components: PRA.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

KIN 830. Pre-Candidacy to Dissertation Research. 1-10 Credit Hours.

Admission to doctoral program. Requires approval of advisor and department chair.

Components: PRA.

Grading: SUS.

Typically Offered: Fall, Spring, & Summer.

KIN 835. Practicum. 1-2 Credit Hours.

The course presents graduate students with the theoretical and practical tools necessary for expanding their critical thinking and argumentative skills in order to present their scientific research results in an evaluative, logical and analytical manner. The course consists of weekly presentations of related literature, results, and findings on various Doctoral projects.

Components: PRA.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

KIN 840. Post-Candidacy Dissertation Research. 1-12 Credit Hours.

Components: THI.

Grading: SUS.

Typically Offered: Fall, Spring, & Summer.

KIN 850. Research in Residence. 1 Credit Hour.

Used to establish research in residence for the PH.D. Student, after the student has been enrolled for the permissible cumulative total in appropriate doctoral research. Credit not granted. May be regarded as full-time residence as determined by the Dean of the Graduate school.

Components: PRA.

Grading: SUS.

Typically Offered: Fall, Spring, & Summer.

Latin (LAT)

LAT 101. Elementary Latin I. 3 Credit Hours.

Elementary vocabulary, grammar and reading.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

LAT 102. Elementary Latin II. 3 Credit Hours.

Continuation of LAT 101.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

LAT 201. Intermediate Latin I. 3 Credit Hours.

Translation and grammatical analysis of selected texts from Latin authors.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

LAT 202. Intermediate Latin II. 3 Credit Hours.

Introduction to reading Latin poetry. Students will read selections from the Aeneid, with emphasis on Virgil's language and meter, as well as the ancient epic tradition. Latin 202 prepares students for 300- and 400-level Latin poetry courses.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

LAT 203. Ovid's Metamorphoses. 3 Credit Hours.

Readings in Latin from Ovid's Metamorphoses, including Apollo and Daphne, Echo and Narcissus, Midas and more.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

LAT 301. Catullus. 3 Credit Hours.

An advanced Latin course on the works of the Roman poet Catullus. Students will read almost all of the poems in the Catullan corpus, and be introduced to the related secondary literature, covering topics such as ancient sexuality, invective and obscenity, the figure of the mistress in Latin love poetry, the arrangement of poems within a poetic book, meter, and the textual tradition.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

LAT 302. Petronius. 3 Credit Hours.

An advanced Latin prose reading course on Petronius' Satyricon, a mysterious and fragmented novel dating from the time of the decadent emperor Nero. Trimalchio's Dinner-Party, the central section of the work, forms the focus of the course. It is an account of a dinner hosted by a wealthy ex-slave, and can be read as a critique of the excesses of the Neronian age.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

LAT 311. Cicero: Orations. 3 Credit Hours.

Readings from the speeches of Cicero, with an emphasis on syntax, vocabulary, rhetorical theory and practice, and the historical situation of the speeches.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

LAT 321. Vergil. 3 Credit Hours.

An advanced reading course in the poems of Vergil.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

LAT 322. Martial Epigrams. 3 Credit Hours.

Examines selected works of the first-century CE poet Martial, the acknowledged master of the verse epigram, considering his writing both as poetry (within the Greek and Roman traditions) and as social and political commentary.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

LAT 323. Seneca. 3 Credit Hours.

Examines in Latin select writings of the Roman philosopher and statesman Lucius Annaeus Seneca.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

LAT 401. Special Topics in Latin Literature. 3 Credit Hours.

Prerequisite: LAT 201.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

LAT 402. Special Topics in Latin Literature. 3 Credit Hours.

This course will address a specific author, topic, or text (appearing as a subtitle). Analogous to REL 404-409 courses. [this will vary each time the course is offered]

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

LAT 403. Special Topics in Latin Literature. 3 Credit Hours.

This course will address a specific author, topic, or text (appearing as a subtitle) Analogous to REL 404-409 courses. [this will vary each time the course is offered]

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

LAT 404. Special Projects in the Literature & Culture of Ancient Rome. 3 Credit Hours.

[This course will address a specific project in Classics (appearing as a subtitle) Analogous to REL 407-409 this will vary each time the course is offered]

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

LAT 406. Special Projects in the Literature and Culture of Ancient Rome. 3 Credit Hours.

This course will address a specific project in Classics (appearing as a subtitle). Analogous to REL 407-409.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

LAT 407. Supervised Reading in Classical Latin. 3 Credit Hours.

Variable subject matter determined by instructor and student. Analogous to REL 401-403.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

LAT 408. Supervised Reading in Classical Latin. 3 Credit Hours.

Variable subject matter determined by instructor and student. Analogous to REL 401-403.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

LAT 409. Supervised Reading in Classical Latin. 3 Credit Hours.

Variable subject matter determined by instructor and student. Analogous to REL 401-403.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

LAT 411. Horace. 3 Credit Hours.

Readings in the odes, epodes, satires and epistles of Horace.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

LAT 421. Roman Epic. 3 Credit Hours.

Studies from Roman epic poetry of Lucretius and Virgil to Lucan and Statius.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

LAT 422. Lucretius. 3 Credit Hours.

Detailed treatment of the Latin philosophical poet Lucretius and his lone surviving poem, *De rerum natura*.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

LAT 431. Livy. 3 Credit Hours.

Readings from the Roman historian Livy.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

LAT 491. Directed Readings. 1-3 Credit Hours.

Content to be determined by faculty member and registering student(s).

Components: THI.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

LAT 625. Elementary Latin for Graduate Research. 0 Credit Hours.

Grammatical structures, verb tenses, and word families necessary for reading texts with minimal use of a dictionary. May fulfill the Foreign Language Reading Competency Requirement (consult your graduate advisor).

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

LAT 691. Directed Reading in Latin for Graduate Students. 3 Credit Hours.

Requisite: Graduate Status.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

Latin American Studies (LAS)

LAS 101. Introduction to Latin American and Caribbean Studies. 3 Credit Hours.

Course will focus on culture, economy, geography, history, politics, and society of Latin America and the Caribbean, as well as on the ways in which scholars have studied the region. LAS101 replaces LAS201.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

LAS 110. Students in Latin America and the Caribbean. 1-3 Credit Hours.

Latin American and Caribbean Studies Courses taken at other institutions with no direct equivalent.

Components: LEC.

Grading: GRD.

LAS 111. Studies in Latin America and the Caribbean. 1-3 Credit Hours.

Latin American and Caribbean Studies Courses taken at other institutions with no direct equivalent.

Components: LEC.

Grading: GRD.

LAS 112. Studies in Latin America and the Caribbean. 1-3 Credit Hours.

Latin American and Caribbean Studies Courses taken at other institutions with no direct equivalent.

Components: LEC.

Grading: GRD.

LAS 113. Studies in Latin America and the Caribbean. 1-3 Credit Hours.

Latin American and Caribbean Studies Courses taken at other institutions with no direct equivalent.

Components: LEC.

Grading: GRD.

LAS 114. Studies in Latin America and the Caribbean. 1-3 Credit Hours.

Latin American and Caribbean Studies Courses taken at other institutions with no direct equivalent.

Components: LEC.

Grading: GRD.

LAS 115. Studies in Latin America and the Caribbean. 1-3 Credit Hours.

Latin American and Caribbean Studies Courses taken at other institutions with no direct equivalent.

Components: LEC.

Grading: GRD.

LAS 200. Introduction To Latina/O Studies. 3 Credit Hours.

Do all Americans who descend from Spanish-speaking countries have something in common? By what label—Hispanic, Latino, Chicano—should descendants from Latin America or the Caribbean identify? Are Latinos a race, an ethnic group, or neither? This course addresses these concerns while analyzing the competing and complementary theoretical perspectives on the “Latinization” of the United States. Our readings, discussions and assignments will explore how multifaceted groups of people have met the various political, social, cultural and economic complexities of U.S. Society.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

LAS 211. Studies in Latin America and the Caribbean. 1-3 Credit Hours.

Latin American and Caribbean Studies Courses taken at other institutions with no direct equivalent.

Components: LEC.

Grading: GRD.

LAS 212. Studies in Latin America and the Caribbean. 1-3 Credit Hours.

Latin American and Caribbean Studies Courses taken at other institutions with no direct equivalent.

Components: LEC.

Grading: GRD.

LAS 213. Studies in Latin America and the Caribbean. 1-3 Credit Hours.

Latin American and Caribbean Studies Courses taken at other institutions with no direct equivalent.

Components: LEC.

Grading: GRD.

LAS 214. Studies in Latin America and the Caribbean. 1-3 Credit Hours.

Latin American and Caribbean Studies Courses taken at other institutions with no direct equivalent.

Components: LEC.

Grading: GRD.

LAS 215. Studies in Latin America and the Caribbean. 1-3 Credit Hours.

Latin American and Caribbean Studies Courses taken at other institutions with no direct equivalent.

Components: LEC.

Grading: GRD.

LAS 290. Andean Societies. 3 Credit Hours.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

LAS 291. Peruvian History and Culture. 3 Credit Hours.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

LAS 301. Interdisciplinary Topics in Latin American and Caribbean Studies. 3 Credit Hours.

Topics vary, Interdisciplinary focus may be thematic (e.g.: revolutions, new social movements, women's rights, Latin Americanism, testimonio, culture industries, etc.) or regional/national (e.g.: Andean Studies, Southern Cone Studies, Caribbean Studies, Mexican Studies, etc.)

Components: SEM.

Grading: GRD.

Typically Offered: Fall & Spring.

LAS 302. Interdisciplinary Topics in Latin American and Caribbean Studies-Travel Course. 3 Credit Hours.

Topics vary, Interdisciplinary focus is thematic and regional (i.e. tourism in Yucatan; civil society in Chile, civil society in Haiti, cultural policy in the Caribbean, environmental policy in Panama.). Course involves travel during Spring Break and it has a program fee.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

LAS 311. Studies in Latin America and the Caribbean. 1-3 Credit Hours.

Latin American and Caribbean Studies Courses taken at other institutions with no direct equivalent.

Components: LEC.

Grading: GRD.

LAS 312. Studies in Latin America and the Caribbean. 1-3 Credit Hours.

Latin American and Caribbean Studies Courses taken at other institutions with no direct equivalent.

Components: LEC.

Grading: GRD.

LAS 313. Studies in Latin America and the Caribbean. 1-3 Credit Hours.

Latin American and Caribbean Studies Courses taken at other institutions with no direct equivalent.

Components: LEC.

Grading: GRD.

LAS 314. Studies in Latin America and the Caribbean. 1-3 Credit Hours.

Latin American and Caribbean Studies Courses taken at other institutions with no direct equivalent.

Components: LEC.

Grading: GRD.

LAS 315. Studies in Latin America and the Caribbean. 1-3 Credit Hours.

Latin American and Caribbean Studies Courses taken at other institutions with no direct equivalent.

Components: LEC.

Grading: GRD.

LAS 320. Special Topics in Latin American and Caribbean Environment. 3 Credit Hours.

Topics vary. Interdisciplinary focus on policies and impact on globalization on the environment.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

LAS 321. Latin American Environmental Issues. 3 Credit Hours.

A comprehensive course on Latin American and Caribbean environmental issues in their political, economic, and social dimensions.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

LAS 330. Special Topics in Latin American and Caribbean Religions. 3 Credit Hours.

Topics vary. Interdisciplinary focus may be thematic or regional (eg: Liberation Theology, Latin American and Latino Religions, Caribbean Religions.)

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

LAS 340. Special Topics in Latin American and Caribbean Economics. 3 Credit Hours.

Topics vary. Focus may be thematic or regional, but will address issues in Latin American and Caribbean Economics and Economic Development.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

LAS 350. Special Topics in Latin American and Caribbean Art and Culture. 3 Credit Hours.

Topics vary. Focus may be thematic or regional, but will address issues in Latin American and Caribbean Art and Culture.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

LAS 360. Special Topics in Latin American and Caribbean Politics. 3 Credit Hours.

Topics Vary. Interdisciplinary focus may be thematic or regional (eg: democracy, new social movements, globalization, politics and society.)

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

LAS 362. Drug Trafficking In Latin America And The Caribbean. 3 Credit Hours.

This course introduces students to the study of drug trafficking in Latin America and the Caribbean and its relationship with organized crime, understanding both as important aspects in the dynamics of globalization, international relations, and domestic politics.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

LAS 370. Special Topics in Latin American and Caribbean Media and Communications. 3 Credit Hours.

Topics vary. Focus may be thematic or regional, but will address issues in Latin American and Caribbean Media and Communication.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

LAS 410. Studies in Latin America and the Caribbean. 1-3 Credit Hours.

Latin American and Caribbean Studies Courses taken at other institutions with no direct equivalent.

Components: LEC.

Grading: GRD.

LAS 411. Studies in Latin America and the Caribbean. 1-3 Credit Hours.

Latin American and Caribbean Studies Courses taken at other institutions with no direct equivalent.

Components: LEC.

Grading: GRD.

LAS 412. Studies in Latin America and the Caribbean. 1-3 Credit Hours.

Latin American and Caribbean Studies Courses taken at other institutions with no direct equivalent.

Components: LEC.

Grading: GRD.

LAS 413. Studies in Latin America and the Caribbean. 1-3 Credit Hours.

Latin American and Caribbean Studies Courses taken at other institutions with no direct equivalent.

Components: LEC.

Grading: GRD.

LAS 414. Studies in Latin America and the Caribbean. 1-3 Credit Hours.

Latin American and Caribbean Studies Courses taken at other institutions with no direct equivalent.

Components: LEC.

Grading: GRD.

LAS 415. Studies in Latin America and the Caribbean. 1-3 Credit Hours.

Latin American and Caribbean Studies Courses taken at other institutions with no direct equivalent.

Components: LEC.

Grading: GRD.

LAS 491. Debates On Current Issues In Latin American And Caribbean Studies. 3 Credit Hours.

Content may vary from semester to semester. This is an upper level course to allow debate and discussion on current issues and events affecting Latin America, the Caribbean and Latino communities in the United States.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

LAS 494. Independent Study in Latin American and Caribbean Studies. 1-3 Credit Hours.

Independent study leading to a thesis, original piece of research, or creative project on a Latin American or Caribbean subject.

Components: THI.

Grading: GRD.

Typically Offered: Fall & Spring.

LAS 495. SENIOR HONORS THESIS I. 3 Credit Hours.

This course pairs students with a faculty mentor to set and guide a research agenda in preparation for writing the senior honors thesis. Students will study advanced topics in Latin American and Caribbean Studies, according to faculty interests.

Prerequisite: LAS 101.

Components: IND.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

LAS 496. SENIOR HONORS THESIS II. 3 Credit Hours.

This course pairs students with a faculty mentor to guide the writing process for the senior honors thesis. Students will study advanced topics in Latin American and Caribbean Studies, according to faculty interests.

Prerequisite: LAS 101.

Components: IND.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

LAS 501. Interdisciplinary In Latin American And Caribbean. 3 Credit Hours.

Interdisciplinary methods and politics of Latin American and Caribbean area Studies.

Components: SEM.

Grading: GRD.

Typically Offered: Fall.

LAS 502. Research Design in Latin American Studies. 3 Credit Hours.

Interdisciplinary research methods and skills in Latin American and Caribbean studies.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

LAS 503. Program Seminar in Latin American Studies and Caribbean Studies. 3 Credit Hours.

Content of course will vary by semester.

Components: SEM.

Grading: GRD.

Typically Offered: Fall & Spring.

LAS 504. Interdisciplinary Topics in Latin American and Caribbean Studies - Travel Course.. 3 Credit Hours.

Topics vary. Interdisciplinary focus is thematic and regional (e.g.: tourism in Yucatan; civil society in Chile, Haiti-Dominican Republic relations, cultural policy in the Caribbean, environmental policy in Panama.) Course involves travel during Spring Break and it has a program fee.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

LAS 505. Internship in Latin American and Caribbean Studies. 1-3 Credit Hours.

On-site experience in business, governmental organization, or non-profit organization dealing with Latin America and/or the Caribbean.

Components: THI.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

LAS 506. Civic Engagement In Latin America. 1-3 Credit Hours.

On site experience in a civic engagement project in Latin America or the Caribbean.

Components: IND.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

LAS 520. Interdisciplinary Topics in Latin American and Caribbean Environments. 3 Credit Hours.

Topics vary. Interdisciplinary focus on policies and impact of globalization on the environment.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

LAS 521. Latin American Environmental Issues. 3 Credit Hours.

A comprehensive course on Latin American and Caribbean environmental issues in their full political, economic, and social dimensions.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

LAS 530. Special Topics in Latin American and Caribbean Religions. 3 Credit Hours.

Topics vary. Interdisciplinary focus may be thematic or regional (eg: Liberation Theology, Latin American and Latino Religions, Caribbean Religions), but will address Latin American and Caribbean Religion.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

LAS 540. Special Topics in Latin American and Caribbean Media and Communication. 3 Credit Hours.

Topics vary. Interdisciplinary focus may be thematic or regional (eg: global media, Spanish- or Portuguese-language television or radio, social media) but will address Latin American and Caribbean Media and Communication.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

LAS 550. Special Topics in Latin American and Caribbean Art and Culture. 3 Credit Hours.

Topics vary. Interdisciplinary focus may be thematic or regional, but will address Latin American and Caribbean Art & Culture.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

LAS 560. Special Topics in Latin American and Caribbean Politics. 3 Credit Hours.

Topics vary. Interdisciplinary focus may be thematic or regional (eg: democracy, new social movements, globalization, politics and society), but will address Latin American and Caribbean Politics.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

LAS 580. Special Topics in Latin American and Caribbean History. 3 Credit Hours.

Topics vary. Interdisciplinary focus may be thematic or regional, but will address the history of political, social and economic development in Latin America and the Caribbean.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

LAS 591. Debates On Current Issues In Latin American And Caribbean Studies. 3 Credit Hours.

Content may vary from semester to semester. This is a graduate course to allow debate and discussion on current issues and events affecting Latin America, the Caribbean and Latino communities in the United States.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

LAS 601. Interdisciplinary In Latin American And Caribbean. 3 Credit Hours.

Interdisciplinary methods and politics of Latin American and Caribbean area Studies.

Components: SEM.

Grading: GRD.

Typically Offered: Fall.

LAS 602. Research Design in Latin American Studies. 3 Credit Hours.

Interdisciplinary research methods and skills in Latin American and Caribbean studies.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

LAS 603. Program Seminar in Latin American Studies and Caribbean Studies. 3 Credit Hours.

Content of course will vary by semester.

Components: SEM.

Grading: GRD.

Typically Offered: Fall & Spring.

LAS 604. Interdisciplinary Topics in Latin American and Caribbean Studies - Travel Course.. 3 Credit Hours.

Topics vary. Interdisciplinary focus is thematic and regional (e.g.: tourism in Yucatan; civil society in Chile, Haiti-Dominican Republic relations, cultural policy in the Caribbean, environmental policy in Panama.) Course involves travel during Spring Break and it has a program fee.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

LAS 605. Internship in Latin American and Caribbean Studies. 1-3 Credit Hours.

On-site experience in business, governmental organization, or non-profit organization dealing with Latin America and/or the Caribbean.

Components: THI.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

LAS 606. Civic Engagement In Latin America. 1-3 Credit Hours.

On site experience in a civic engagement project in Latin America or the Caribbean.

Components: IND.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

LAS 620. Interdisciplinary Topics in Latin American and Caribbean Environments. 3 Credit Hours.

Topics vary. Interdisciplinary focus on policies and impact of globalization on the environment.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

LAS 630. Special Topics in Latin American and Caribbean Religions. 3 Credit Hours.

Topics vary. Interdisciplinary focus may be thematic or religion (eg: Liberation Theology, Latin American and Latino Religions, Caribbean Religions), but will address Latin American and Caribbean Religion.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

LAS 640. Special Topics in Latin American and Caribbean Media and Communication. 3 Credit Hours.

Topics vary. Interdisciplinary focus may be thematic or religion (e.g. Global media, Spanish- or Portuguese- language television or radio, social media), but will address Latin American and Caribbean Media and Communication.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

LAS 650. Special Topics in Latin American and Caribbean Art and Culture. 3 Credit Hours.

Topics vary. Interdisciplinary focus may be thematic or religion, but will address Latin American and Caribbean Art and Culture.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

LAS 660. Special Topics in Latin American and Caribbean Politics. 3 Credit Hours.

Topics vary. Interdisciplinary focus may be thematic or religion (e.g.: democracy, new social movements, globalization, politics and society), but will address Latin American and Caribbean Politics.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

LAS 680. Special Topics in Latin American and Caribbean History. 3 Credit Hours.

Topics vary. Interdisciplinary focus may be thematic or religion, but will address the history of political, social and economic development in Latin America and the Caribbean

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

LAS 691. Debates On Current Issues In Latin American And Caribbean Studies. 3 Credit Hours.

Content may vary from semester to semester. This is a graduate course to allow debate and discussion on current issues and events affecting Latin America, the Caribbean and Latino communities in the United States.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

LAS 694. Directed Readings in Latin America and Caribbean. 3 Credit Hours.

Independent Study leading to an original piece of research, or creative project on a Latin American or Caribbean interdisciplinary topic.

Components: THI.

Grading: GRD.

Typically Offered: Fall & Spring.

LAS 697. Readings for the Comprehensive Exam. 3 Credit Hours.

Readings for M.A. students who are preparing for comprehensive examinations.

Components: THI.

Grading: GRD.

Typically Offered: Fall & Spring.

LAS 810. Pre-candidacy thesis credits. 3 Credit Hours.

The student working on his/her master's thesis enrolls for credit, not to exceed three, before student has been admitted to candidacy. Credit is not awarded until the thesis has been accepted.

Components: THI.

Grading: SUS.

Typically Offered: Fall & Spring.

LAS 815. Post-candidacy thesis credits. 3 Credit Hours.

The student working on his/her master's thesis enrolls for credit, not to exceed six, after student has been admitted to candidacy. Credit is not awarded until the thesis has been accepted.

Components: THI.

Grading: GRD.

Typically Offered: Fall & Spring.

LAS 820. Research in residence.. 1 Credit Hour.

Used to establish research in residence for the thesis for the master's degree after the student has enrolled for the permissible cumulative total in LAS 710 (usually six credits). Credit not granted. May be regarded as full time residence.

Components: THI.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

Management (MGT)

MGT 251. Nature and Foundations of Entrepreneurship. 3 Credit Hours.

This course seeks to understand some of the basic social, legal, cultural, and economic infrastructure that enables and sustains the creation of new enterprises. Although conventional perspectives on entrepreneurship often overlook political or religious activists whose "products" are not "sold" in traditional markets, a more expansive view considers actions that transform ideas into enterprises that generate intellectual, social, cultural, religious, or economic value. Theory, data, and case study will be covered to help students to think both broadly and deeply about what it means - and what it takes - to be an entrepreneur, and what characterizes the entrepreneurial society.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MGT 270. Introduction To Health Sector Organization And Management. 3 Credit Hours.

This course provides a basic understanding of the components of the health care sector and their interrelationships. The role of hospitals, ambulatory care (including physicians), long-term care, mental health care, hospice care, and pharmaceuticals will be examined. The role of government financed (Medicare and Medicaid) and private health insurance in affecting decision making by health care consumers and providers will be examined as well. A historical context will be used.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

MGT 302. Human Resource Management. 3 Credit Hours.

Theory and practice of modern personnel management related to the other management functions in the conduct of the enterprise. Attention is focused on the needs of the line executive as well as those intending to pursue a staff career.

Requisite: Must be in the School of Business or have a MGT minor plan.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

MGT 303. Operations Management. 3 Credit Hours.

Problems and methods of planning the efficient utilization of capital, labor, equipment, and materials. Sales forecasting, production planning, production control, scheduling, routing, dispatching, expediting, materials planning, inventory control, capital budgets, and costing are discussed. The application of quantitative techniques in problem solving and decision making are included as well as case problems.

Prerequisite: MAS 201.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

MGT 304. Organizational Behavior. 3 Credit Hours.

First professional course in management. Concepts of organization, motivation, leadership, dynamics of the group, personality, organizational development strategies, and other behavioral aspects involved in the effective management of an organization are discussed.

Requisite: Must be in the School of Business or have a MGT minor plan.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MGT 307. Advanced Organizational Behavior. 3 Credit Hours.

Continuation of MGT 304—primarily for, but not limited to, BMO majors. Through case analysis and other relevant exercises, theories are applied to specific situations in organizational settings.

Requisite: Must be in the School of Business or have a MGT minor plan.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

MGT 308. Training and Development. 3 Credit Hours.

An examination of key issues in designing training and development programs. Topics include organizational needs analysis, training design and implementation, evaluation techniques, and understanding of how such programs interact with other human resource functions.

Requisite: Must be in the School of Business or have a MGT minor plan.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MGT 324. Negotiation Strategies. 3 Credit Hours.

Requisite: Must be in the School of Business or have a MGT minor plan.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MGT 349. International Business. 3 Credit Hours.

This course is designed to introduce students to the study of international business. Through discussions and analyses of the unique challenges and opportunities faced by multinational corporations (MNCs) and their managers, students gain an understanding of how to conduct business across different cultural, political, economic, and legal environments, as well as how to function effectively and succeed in MNCs. The course work and usage of teaching methods such as case analyses, experiential learning exercises, and debates seek to help students develop a global mindset and skills for effective global management (e.g., conceptual, analytical, cross-cultural communication, negotiation, and presentation skills).

Requisite: Must be in the School of Business or have a MGT minor plan.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

MGT 353. Introduction to Entrepreneurship. 3 Credit Hours.

The opportunities for the organization and operation of the small business. Organization, location, financial planning, records, unit costs, merchandising, credits, and personnel are discussed. Opportunities in various other fields are also considered.

Requisite: Must be in the School of Business or have a MGT minor or ENT major or minor.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

MGT 357. Entrepreneurship Simulation Experience: Inside the Mind of the Entrepreneurial CEO. 3 Credit Hours.

This course provides students with unique entrepreneurial experiences derived from starting and running businesses through computer simulation. Topics include: opportunity and environment assessment for potential businesses; initiation, organization, administration, and launch of the businesses; operation of the businesses in a competitive environment; responsibilities, functioning, and issues of entrepreneurial teams; evaluation, measurement, and competitive ranking of business success.

Requisite: Must be in the School of Business or have a MGT minor or ENT major or minor.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

MGT 359. Comparative Management. 3 Credit Hours.

Analysis of professional management as affected by the cultural environments in which it operates in major industrial nations. The problems of trans-cultural managers in multinational structures is examined.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MGT 360. Effective Leadership. 3 Credit Hours.

This course covers the key theories, models, and frameworks about the effective leadership of people in organizations. A multimedia approach is taken, using readings, films, lecture, discussion, and case analyses. The emphasis is on building a sound grasp of good practice, and on developing the ability to apply such knowledge to everyday leadership situations.

Prerequisite: MGT 304.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

MGT 371. DOING BUSINESS IN LATIN AMERICA. 3 Credit Hours.

This elective examines the key local, regional, and global forces affecting the conduct of business in the main Latin American markets of Mexico, Brazil, Venezuela and Chile. These forces include historical, cultural and demographic factors as well as the fast-changing politics and economics of the region. Students will be introduced to the complex relationships between business and government in LatAm as well as the unique advantages and disadvantages of companies based in the region.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

MGT 401. Strategic Management. 3 Credit Hours.

An integrative approach to strategy formulation and implementation, from a domestic and international perspective, is the focus of this core capstone course. All the primary areas of business are emphasized using cases and readings. Course is required of all graduating seniors in Business.

Requisite: School of Business Administration.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

MGT 422. Leading Teams. 3 Credit Hours.

The objectives of this course are to develop interpersonal communication and conflict management skills necessary to work in teams and exercise leadership in teams. Topics include team development, decision making, and managing conflict.

Requisite: Must be in the School of Business or have a MGT minor plan.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MGT 428. Compensation and Benefits Design. 3 Credit Hours.

Examines techniques and theories related to the design and management of compensation and benefits programs within organizations.

Compensation includes cash compensation, such as base pay, merit pay, seniority pay, individual, group and organization-wide incentive plans, skills-based pay, and pay-for-knowledge. Benefits include health care plans, pension and profit-sharing plans, life and disability plans, and paid time off.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

MGT 445. Supply Chain Modeling and Analysis. 3 Credit Hours.

This course will introduce students to managerial decision problems in modern supply chains, and will develop structured mathematical tools to model and solve these problems. Students will also learn to apply these tools through problem-solving exercises, experiential games, and spreadsheet-based case studies.

Requisite: Must be in the School of Business or have a MGT minor plan.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

MGT 446. Supply Chain Strategy. 3 Credit Hours.

This course will deal with issues such as inventory management, supply chain design/coordination, revenue management, and sourcing. Each module discusses how a real company practices some aspect of supply chain strategy, and then reviews the concepts behind that practice.

Tools are provided to analyze the concepts, distill their principles, and suggest guidelines for implementation and improvement.

Prerequisite: MGT 303.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

MGT 450. MGT Internship. 1 Credit Hour.

Student is individually assigned to operating business firm or other organization to gain insight into management practice in area of career interest. Periodic reports and conferences are required. Cannot be used toward major requirements.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MGT 454. Business Planning for Entrepreneurs. 3 Credit Hours.

The basics of starting a business for aspiring entrepreneurs. Topics include sources of capital, market choices, division of the equity pie, choice of distribution channels, choosing an accountant and a legal advisor, preparation of a business plan, and product design. Teams of students develop business plans to start new enterprises.

Requisite: Must be in the School of Business or have a MGT minor or ENT major or minor.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MGT 455. Entrepreneurial Consulting. 3 Credit Hours.

Students review techniques, methods, and organizational forms of management consultants. Emphasis on small business problems, particularly start-ups, is provided through preparation of consulting reports on written cases, guest speakers, and actual business firms or start-ups.

Requisite: Must be in the School of Business or have a MGT minor or ENT major or minor.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MGT 459. International and Multinational Management. 3 Credit Hours.

Foreign environment for overseas operations with a survey involving economics, political, and social constraints. The effects of overseas investments on foreign economies with emphasis on the emerging managerial structures is included.

Requisite: Must be in the School of Business or have a MGT minor plan.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

MGT 480. Organizational Development and Change. 3 Credit Hours.

Course is intended for students who are interested in learning about how to manage, plan, and implement large-scale change efforts within organizations. Part of the course is devoted to organizational analysis techniques and the remainder addresses behavioral intervention strategies (including survey feedback, technostructural interventions, and team building).

Requisite: Must be in the School of Business or have a MGT minor plan.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

MGT 498. Selected Topics. 1-6 Credit Hours.

Topics in selected areas of specialization.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MGT 499. Directed Study. 1-6 Credit Hours.

Individually supervised research projects in selected fields. Approval of supervising professor as to topic and evaluation of project required at time of registration. Only open to undergraduate students.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MGT 600. Managing Responsible Behavior in Organizations. 3 Credit Hours.

For Executive MBA students only. Course covers organizational behavior and utilizes cases and lectures to explore topics such as personality, motivation, leadership, group processes, organizational structure/design, and social responsibility.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MGT 602. Human Resource Management. 3 Credit Hours.

Modern personnel administration: job analysis and design, evaluation and appraisal, recruitment and interviewing, training and development, wages and benefits, and health and safety. Unionization, regulation of wages, hours and working conditions, financial security for workers, job anti-discrimination legislation, and manpower planning is also discussed.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

MGT 603. Leading Teams. 3 Credit Hours.

The objectives of this course are to develop interpersonal communication and conflict management skills necessary to work in teams and/or exercise leadership in teams. Topics include team development, decision making, and diagnosing team process issues.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

MGT 617. Leading Across Cultures. 2 Credit Hours.

This course examines what constitutes "effective" leadership across cultures. Skills and behaviors that are perceived as effective leadership in one culture are not necessarily those that will be effective in a different culture. By exploring the ways in which specific cultural values and leadership prototypes are seen across different cultures, students will be prepared for cross-cultural adjustment and effective leadership. These skills may be applied to work assignments in a culture that is not their own or to leading diverse followers in their home country. The goal of the course is to help prepare students for leadership in multicultural environments.

Prerequisites: MGT 600 or MGT 620 or MGT 651.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

MGT 618. Leading Change In Organizations. 2 Credit Hours.

Charles Darwin aptly noted, "It is not the strongest species that survive, not the most intelligent, but the ones who are most responsive to change." The primary goal of this course is to help you learn how to lead and manage the challenges associated with organizational change processes. Together we will identify the opportunities that require change programs; discuss ways to overcome the inevitable obstacles to change; learn how to build successful coalitions to support change efforts; analyze strategies for implementing change; and examine ways to consolidate the results of such efforts to ensure that changes are sustainable over time.

Prerequisites: MGT 600 or MGT 620 or MGT 651.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

MGT 619. Leading With Power And Influence. 2 Credit Hours.

One of the realities of organizational life is that people continually attempt to control the actions of others and to successfully influence their behavior. This reality leads to a wide array of organizational activities aimed at enhancing one's own or one's group's personal agendas. This course focuses on preparing graduates for the challenges and "realities" they will ultimately face as leaders. Given that most students will eventually be leading the efforts of others, it is essential that they understand how to acquire power and, within ethical bounds, exercise influence.

Prerequisites: MGT 600 or MGT 620 or MGT 651.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

MGT 620. Managing Through People. 2 Credit Hours.

This core course in the MBA program introduces students to some of the key behavioral topics necessary to manage oneself and others in organizations. Specifically, the topics covered include individual attributes (personality, perception, motivation, relationship building), group processes (norms, roles, and team basics), leadership views, and organizational culture/change. An understanding of the relationship between each of these areas and organizational outcomes is enhanced through lecture, cases, and interactive exercises.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

MGT 621. High Performance Leadership. 2 Credit Hours.

Leadership skills are critical for high performing organizations. Course utilizes lecture, cases, exercises, self-assessments, and contemporary reading materials to present leadership approaches that both motivate and enable employees to perform beyond normal or ordinary expectations. Topics include followership and organizational culture, power, influence, rewards and punishments, path-goal and exchange theories, participation and empowerment, charismatic and transformational leadership, and contingency and cognitive resources theory.

Requisite: Master of Science in Management Studies Students Only.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

MGT 622. High Performance Teams. 2 Credit Hours.

This elective course highlights how to manage and construct effective teams to achieve strategic goals. Team-based organizations have been created to enhance organizational performance. The benefits of effective team leadership are performance beyond expectations and enhancement of learning for employees. Topics covered include team decision-making, team leadership, diversity in teams, conflict resolution, and team creativity.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

MGT 623. Human Resource Systems. 2 Credit Hours.

Leaders must manage their human resource assets effectively to achieve high performance organizations. Course topics include recruitment and selection of high performance employees, designing performance appraisal systems, implementing policies to satisfy legal issues impacting human resources, and instituting training/development systems.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

MGT 624. Negotiation Strategies. 2-3 Credit Hours.

This course is a skills-based approach to learning the art and science of negotiation. Negotiation is a core management competency; these skills are increasingly necessary for leaders in business, non-profits, small businesses and other organizations. This course will cover preparation, and negotiation skills such as establishing trust and relationship-building. Topics covered include power, persuasion, creativity and problem-solving, ethics and cross-cultural negotiation. Skills and self-insight will be acquired through self-assessment, role-play negotiation exercises and case studies.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

MGT 625. Entrepreneurship: Creating New Ventures. 2 Credit Hours.

This is a two-credit course for MBA students (only). The course is designed to help students understand the basic essentials for creating a new venture. Among some of the topics covered will be: preparation of a business plan, securing sources of capital, choosing and creating appropriate distribution channels, and understanding the complexities of selecting a management team. Students will be required to critique and develop business plans as a key evaluation component for this course.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

MGT 628. Global Entrepreneurship. 4 Credit Hours.

This seminar-type course is an advanced elective specially designed for graduate students either interested in starting their own firms or developing the skills with which to submit business plans within the corporate world (i.e., corporate entrepreneurship) in today's global, interdependent economy. Students will learn to assess the new venture opportunities that he/she may have considered and choose the one that seems most attractive and viable and develop a unique business model which enhances the plan's viability in the short term, and ensures the development of sustainable advantages in the long term. Each student will draft a comprehensive business plan after working on its functional components (e.g., marketing, finance, human and intellectual capital plans) to be developed throughout nine classes and several individual meetings along the program's academic calendar. At the end, students will present their business plans to a panel of new venture investors who will assess all projects, give individual feedback, and choose the best project(s).

Components: LEC.

Grading: SUS.

Typically Offered: Fall.

MGT 643. Principles of Operations Management. 2 Credit Hours.

Introduction to operations management, forecasting, process analysis, aggregate planning, capacity management, waiting line management, system design, quality management, and inventory management.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

MGT 645. Principles of Supply Chain Management. 2 Credit Hours.

Course introduces students to the business discipline of Supply Chain Management (SCM) which centers on concepts and techniques that enables firms to better coordinate material and information flows, and non-material activities associated with logistical and marketing processes that occur within and across organizations. Course also discusses concepts and recent influential innovations in SCM (e.g., Cross-Docking, Vendor Managed Inventory (VMI), Third-Party Logistics (3PL), Efficient Consumer Response (ECR), and Quick Response (QR)).

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

MGT 651. Behavioral and Organizational Systems. 3 Credit Hours.

Exploration of relevant concepts, research findings, and pragmatic implications of the behavioral sciences for the management of complex socio-technical systems.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

MGT 653. Operations Management. 3 Credit Hours.

Introduction to major managerial problems and decision processes of operations management. Topics include the design of operations, planning, scheduling, quality control, systems analysis and evaluation, resource allocation, materials requirement planning, and integration of operations management with the other functional areas.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

MGT 654. Sel Top In Oper Mgt. 3 Credit Hours.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

MGT 655. Research Methods. 3 Credit Hours.

Course addresses the fundamentals of research in business including exploratory designs, correlational and multivariate designs, experimental and non-experimental studies, measurement theory, internal and external validity considerations, and ethical requirements in conducting organizational research.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MGT 656. Seminar: Organizational Behavior. 3 Credit Hours.

Seminar addresses the current research and theoretical foundations in organizational behavior. Topics include individual attributes, job attitudes, leadership, motivation, and group processes.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MGT 658. Strategic Management. 3 Credit Hours.

The formulation and implementation of strategy, from a domestic and international perspective, is explored through cases, readings, and decision simulation. An integration of all the core areas of business is emphasized. This core course is required of all MBA students.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

MGT 659. Management of Multinational Enterprise. 3 Credit Hours.

Analysis of the management tasks confronting managers operating in the international arena presented from both an environmental and an operational perspective. Alternatives for overall corporate policy and strategy that accommodate global operations is also included.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

MGT 660. Leadership and Motivation in Organizations. 3 Credit Hours.

Selected topics pertaining to leadership, motivation, and individual processes are surveyed through selected readings, class discussions, and a guided research project. Students' ability to conceptualize, integrate, and apply diverse approaches to the leadership and motivation of people in organizations is emphasized.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MGT 661. Influence, Power and Politics in Organizations. 3 Credit Hours.

One of the basic realities of organizational life is that people continually attempt to control the actions of others and to successfully influence their behavior. This reality leads to a wide array of organizational politics aimed at enhancing one's own or one's group's personal agendas. This course focuses on preparing graduate business students for the challenges and "realities" they will ultimately face as managers. Given that most business students will eventually be leading the efforts of others, it is essential that they understand how to acquire power and exercise power within ethical bounds.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MGT 675. Business Policy and Strategy. 2 Credit Hours.

The objectives of the course are to improve the student's ability to think strategically and to provide an intellectual framework that enhances understanding of the MBA program. The course focuses on relationships among the firm, its strategy, and its environment; why firms choose certain businesses; which business strategies are successful; and how firms can change in response to a dynamic environment. Models for strategic formulation, implementation, and control are developed that facilitate an integrated understanding of the courses that comprise the MBA curriculum. Readings and lectures illustrate strategic management theories and frameworks while case discussions, experiential exercises, and team projects provide opportunities for application.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

MGT 677. Corporate Strategy and Organization. 2 Credit Hours.

This capstone course focuses on the perspective and skills of the general manager. Its purpose is to provide practice in diagnosing and identifying realistic solutions to complex strategic and organizational problems.

Course builds on previous coursework by providing an opportunity to integrate various functional areas by providing a total business perspective. Since the course focus is on pragmatic, action-oriented general management skills, the course is taught primarily through the case method and requires both written analyses and case presentations.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

MGT 679. Merger and Acquisition Strategies. 2.00 Credit Hours.

This course examines the merger and acquisition growth of two sets of actors. First, it focuses on "financial buyers" (hedge funds, leveraged buy-out groups, private equity funds) that acquire with the intention of divesting the asset at a profit in the near or medium term. Second, it focuses on "strategic buyers" (corporations or companies) that acquire with the intention of operating the acquired asset as a stand-alone business or by integrating it into an on-going operation or set of businesses. The course utilizes lectures, case discussions, presentations, and guest speakers to examine issues of strategy formulation and subsequent execution.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Summer.

MGT 680. Doing Business In China. 2 Credit Hours.

THIS COURSE EXPLORES VARIOUS BUSINESS AND MANAGEMENT ISSUES FACED BY INTERNATIONAL EXECUTIVES WHO ARE INTERESTED OR ACTIVE IN VARIOUS INDUSTRIES AND MARKETS IN CHINA, AIMING TO IMPROVE THEIR UNDERSTANDING OF THIS LARGEST EMERGING MARKET IN THE WORLD. SEVERAL CASE STUDIES OF BUSINESS ORGANIZATIONS AND INDUSTRIES ARE USED THROUGHOUT THE COURSE. EMPHASIS OF THE COURSE MATERIAL AND CLASS DISCUSSION IS ON CRITICAL THINKING, SOLUTIONS TO PROBLEMS, AND EVALUATING DIFFERENT OPTIONS.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

MGT 681. Essentials of Health Care Management and Policy. 3 Credit Hours.

This course develops an understanding of the basic elements of the health services industry in the United States. A systems approach will be used utilizing a historical perspective as a basis and moving on to current and potential future system dynamics. The various components of the health care system will be examined, including physician services, hospital and hospital systems, long-term care providers, mental health services, and pharmaceutical services. Various elements associated with the financing of health services will be examined as well as indemnity insurance, capitation, and the role of managed care and consumer driven health care in theory and practice. The role of government and its impact on our health care system will be explored as well.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MGT 682. Issues in Health Care Administration. 3 Credit Hours.

A seminar on current problems and issues in health care administration.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MGT 684. Analysis of Health Care Delivery and Policy. 3 Credit Hours.

This course examines theoretical and operational incentive structures which guide health care consumers, providers and health care organization toward decisions both efficient and inefficient.

Components: LEC.

Grading: GRD.

Typically Offered: Summer.

MGT 685. Economic Models in Operations and Supply Chain Management. 3 Credit Hours.

In this course we will study the academic literature that is based on analytical models of supply chain and channel management. In particular we will be concerned with models that capture the economics that govern the interaction among the firms in a supply chain/distribution channel. Since this topic is of interest to both the marketing and operations management communities, we will draw upon readings from both areas. One of our objectives will be to identify opportunities for building bridges between these two bodies of knowledge.

Components: SEM.

Grading: GRD.

Typically Offered: Fall & Spring.

MGT 686. Optimization Models For Operations And Supply Chain Management. 3 Credit Hours.

This course is designed primarily for advanced graduate students who are interested in research on supply chain and operations management, focusing on the study of (deterministic) optimization models to support system design, planning, and operational decisions. The course complements other related doctoral courses such as those on economic models for supply chain and operations management.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MGT 687. Health Care Organization, Economics, and Ethics. 3 Credit Hours.

Course provides the student insight into organizational and behavioral aspects of the various sectors and agents within the health care industry and understanding of how such aspects in turn affect performance measured in terms of both economic and ethical criteria.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MGT 688. Individual and Interpersonal Processes. 3 Credit Hours.

Basic Overview of many topics relevant to studying individuals and dyads in organizations. Course will introduce students to a variety of topics related to individual and interpersonal differences, processes, and behaviors in organizations. Students will begin to see how to link research designs with a theoretical framework for empirical testing.

Components: SEM.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MGT 689. Doctoral Seminar in Leadership and Group Processes. 3 Credit Hours.

This seminar examines the theory and research that focuses individual leadership and examines implications for individual and group behaviors as well as bridging the micro-macro divide. You will perform a critical in-depth examination of the primary research literature, focusing on appropriateness of design, analysis, interpretation, contribution and future research directions.

Components: SEM.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MGT 690. Sustainable Business Operations: Value Creation & Environmental Considerations. 3 Credit Hours.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MGT 691. International Management. 2 Credit Hours.

Course is designed to provide an overview of management problems and issues for organizations and executives operating internationally. Students learn how multinational enterprises are different, why they behave as they do, and how to apply management principles to problem-solving in such contexts.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

MGT 692. Theories in Management and Organization. 3 Credit Hours.

This course provides an in-depth review of major theories in the broad field of management and organization. It covers a multitude of management and organization theories that are derived not only from general management but from economics, sociology, ecology, and the like. The course will use several techniques, including lectures, article presentations and discussions, theory development, research project, and manuscript preparation. By the end of the term, students are expected to understand the central notions of each theory being discussed, comment on various arguments in these theories, improve the skills in applying these theories to their specific research questions, and sharpen their ability to develop theoretical models.

Components: SEM.

Grading: GRD.

Typically Offered: Fall.

MGT 693. Theories and Research in Global Strategic Management.. 3 Credit Hours.

This course is designed to provide doctoral students an in-depth review of major theories, paradigms, and perspectives in global strategy and international business. We'll also explore how to apply existing theories and perspectives to new contextual settings, such as emerging markets and outsourcing. Furthermore, we'll do all this while reading and critiquing the major branches and works within the strategic management and international business literature. The course is intended for doctoral students in business or related fields. There are no formal prerequisites for the course although some basic knowledge of global business is expected.

Components: SEM.

Grading: GRD.

Typically Offered: Fall & Spring.

MGT 694. Ph.D Seminar in Strategic Management. 3 Credit Hours.

This course is designed to provide doctoral students an in-depth review of major theories, perspectives, and methods in strategic management. The course is intended for doctoral students in business or related fields.

Components: LEC.

Grading: SUS.

Typically Offered: Spring.

MGT 695. Ph.D Seminar in Emerging Market Research. 3 Credit Hours.

This course is designed to provide doctoral students an in-depth review and study of major theories, perspectives, methods, findings, and future research issues in business and management involving emerging economies. It encompasses both macro- (e.g., strategic management, international business, entrepreneurship), and micro- (e.g., culture, human resources management, leadership, and organizational behavior) levels.

Components: SEM.

Grading: GRD.

Typically Offered: Fall.

MGT 698. Selected Topics. 1-6 Credit Hours.

Topics in selected areas of specialization.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MGT 699. Directed Study. 1-6 Credit Hours.

Individually supervised research project in selected field of management. Approval of supervising professor of the topic/scope of work/evaluation is required prior to registration.

Components: THI.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MGT 825. Comprehensive Test Preparation. 1-3 Credit Hours.

Doctoral students who are preparing for their qualifying examinations may use this course designation. Enrolled students must develop, with the approval of their advisor, a "Plan of Study" for these credits.

Components: THI.

Grading: SUS.

Typically Offered: Fall, Spring, & Summer.

MGT 830. Doctoral Dissertation. 1-12 Credit Hours.

Course is required of all candidates for the Ph.D. The student enrolls for credit as determined by his/her advisor.

Components: THI.

Grading: SUS.

Typically Offered: Fall, Spring, & Summer.

Management Science (MAS)

MAS 105. Quantitative Methods in Business I. 3 Credit Hours.

This course provides a background in algebra, linear equations, matrices, quadratic, exponential, and logarithmic functions appropriate for the successful understanding, interpretation, and use of these concepts and their application to business and economics within the Business School curriculum and in career endeavors. The course also provides an introduction to the mathematics of finance, interest rates, discounting of future returns, and linear programming.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MAS 110. Quantitative Applications in Business. 3 Credit Hours.

Review of algebra emphasizing its application to supply and demand functions, market equilibrium, compound interest, and amortization. Differential calculus emphasizing its applications to marginal cost and revenue functions, maximization, taxation in competitive markets, and elasticity of demand are discussed. The application of integral calculus to total cost and profit of demand, to total cost and profit functions, consumer's and producer's surplus, computation of present value, and constrained optimization using partial differentiation are also included. Prerequisites: MTH 107 or equivalent or ALEKS score greater than or equal to 76.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MAS 201. Introduction to Business Statistics. 3 Credit Hours.

Data analysis and presentation, cross tabulations, descriptive statistical measures, probability, sampling, statistical inference, hypothesis testing for one and two populations, covariance and correlation analysis. Utilization of microcomputer statistical packages is also included. Prerequisites: MAS 110 or MTH 130 or MTH 141 or MTH 151 or MTH 161 or MTH 171.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MAS 202. Intermediate Business Statistics. 3 Credit Hours.

Chi-squared goodness of fit tests, and contingency tables, analysis of variance, simple linear regression, multiple regression, time series, forecasting, statistical methods of quality. Utilization of microcomputer statistical packages, case analyses, and presentations are also included. Prerequisites: MAS 201 or MAS 311 or MTH 224 or IEN 311 or PSY 204 or PSY 291 or PSY 292.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MAS 311. Applied Probability and Statistics. 3 Credit Hours.

Descriptive statistics, basic probability, probability distributions, distribution theory, point and interval estimation, and single sample hypothesis testing.

Prerequisites: MTH 162 or MTH 172. Or Corequisites: MTH 162 or MTH 172 including equivalents.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

MAS 312. Statistical Methods and Quality Control. 3 Credit Hours.

Two sample hypothesis testing, simple and multiple regression, analysis of variance, design of experiments, and statistical quality control.

Prerequisites: MAS 311 or IEN 311 or equivalent.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

MAS 332. Data Acquisition, Preparation and Visualization. 3 Credit Hours.

Prerequisites: MAS 202 or MAS 312.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

MAS 342. Introduction to Optimization and Decision Making. 3 Credit Hours.

Introduction to deterministic mathematical models with applications to business problems. Topics include the methodology of operations research, linear, integer, and dynamic programming, project management, networks, multi-objective optimization and heuristics. Software packages are used for programming applications. Lecture, 3 hours.

Prerequisites: MTH 162 or MTH 172, MAS 201 or MTH 311.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

MAS 432. Data Analysis. 3 Credit Hours.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MAS 442. Stochastic Models in Operations Research. 3 Credit Hours.

Introduction to probabilistic models and their applications. Topics include inventory theory, stochastic processes (queuing systems, Markov chains), and computer simulation. Lecture, 3 hours.

Prerequisites: MAS 311 or equivalent.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MAS 452. Systems Analysis Methodology and Applications. 3 Credit Hours.

Solution of problems from the general systems point of view. Case studies are used with emphasis on report writing. The preparation of a project proposal and the conduct of the proposed study are also required.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MAS 499. Directed Study. 1-3 Credit Hours.

Independent investigation of special problems. Offered by special arrangement only. Approval of supervising professor as to topic and evaluation of project required at time of registration.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MAS 547. Computer Simulation Systems. 3 Credit Hours.

Introduction to discrete-event computer simulation and hands-on development of simulation models. Topics include introduction to queuing theory, input and output analysis, random number generation, and variance reduction techniques. Students practice their modeling skills using commercial state-of-the-art simulation software. Assigned readings of real-life simulation projects complement the material learned in the classroom. Lecture, 3 hours.

Components: THI.

Grading: GRD.

Typically Offered: Fall.

MAS 548. Data Mining and Knowledge Acquisition. 3 Credit Hours.

This course provides an introduction to the principles and techniques of data mining. Topics covered include the data mining process, data preprocessing, data mining techniques and data mining evaluation. The course will involve a combination of lectures, labs, projects and case studies.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MAS 550. Management Science Internship. 1-3 Credit Hours.

Student is individually assigned to operating business firm or other organization to gain insight into management practice in area of career interest. Periodic reports and conferences are required. Permission of department chair is required prior to registration.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MAS 555. Management Science Honors Research Project.. 3.00 Credit Hours.

Research project to fulfill requirements for Departmental Honors in Management Science.

Components: THI.

Grading: SUS.

Typically Offered: Offered by Announcement Only.

MAS 595. Topics in Management Science. 1-3 Credit Hours.

Topics in selected areas of specialization.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MAS 596. Topics in Management Science. 1-3 Credit Hours.

Topics in selected areas of specialization.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MAS 601. Applied Regression Analysis. 3 Credit Hours.

Theory and practical application of regression modeling and analysis. Computer control language, text editing, data base manipulation, and use of various data scales are covered. Understanding the role and responsibility of a statistician is also included.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MAS 610. Statistical Analysis for Managerial Decision Making. 3 Credit Hours.

Data analysis, probability concepts, distributions, sampling, estimation, hypothesis testing, simple and multiple regression and correlation analysis. Required of all MBA students unless satisfied by a waiver examination or equivalent undergraduate course or courses.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MAS 611. Principles of Quality Management. 3 Credit Hours.

The definition of quality management, its history, and comparison of various schools of thought. An introduction to the theories of systems, variation, knowledge, and psychology as they relate to quality management. Deming's fourteen points for management are studied through examples and cases.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MAS 612. Advanced Quantitative Analysis. 3 Credit Hours.

The application of probability theory to the formulation and analysis of mathematical models for decision making. Applications are taken from inventory control, forecasting, waiting lines, quality control, production, and operations management.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MAS 629. SAS Programming for Business Analytics. 2 Credit Hours.

SAS (Statistical Analysis System) is considered a world leader in business analytics software. This course provides the student with the tools necessary to program in SAS at an intermediate level necessary for data scientists in many Fortune 500 companies in the pharmaceutical, financial, manufacturing and health care industries. The course begins with an introduction to Base SAS software, including the reading, manipulation and transformation of data. Techniques for restructuring data files, merging and concatenating data sets, creating summary reports as well as the utilization of basic statistical procedures will comprise the first half of the course. The middle of the course will focus on intermediate SAS skills for Data Management. The topics include error checking, report generation, date and time processing, PROC SQL, SAS Graph, SAS Macros, and the ODS (Output Delivery System) for production quality output. The last third of the course will include SAS statistical procedures most often utilized by data analysts and covered in the SAS Certified Statistical Business Analyst Credential.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

MAS 630. Quality Management in Practice. 3 Credit Hours.

This course presents administrative systems necessary for an organization or an individual to pursue quality management. The course presents a functional model for quality management.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MAS 631. Statistics for Managerial Decision Making. 2 Credit Hours.

This course aims to familiarize the student with statistical theory, tools, and methods required for business systems analysis and improvement. Topics include descriptive methods, elementary probability, random variables and the distributions, hypothesis testing, confidence intervals, statistical modeling, and regression.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MAS 632. Management Science Models for Decision Making. 2 Credit Hours.

This course aims to familiarize the student with Management Science tools for business systems analysis and improvement. The coverage includes linear and integer programming models, project management, simulation, queuing, and decision analysis. Some widely used software are illustrated through examples and case studies derived from business applications.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MAS 633. Introduction to Quality Management. 2 Credit Hours.

Introduction to the major elements of Dr. Deming's theory of management, including Dr. Deming's System of Profound Knowledge and Fourteen Points for Management. Additionally, participants are introduced to "Six Sigma" tools and methods. These tools and methods have been adopted with great success by many of the largest organizations in the world, for example, General Electric, Allied Signal, Dupont, American Express, and J.P. Morgan. Additionally, the course is a prerequisite for the "Six Sigma" Green Belt certification examination. Requisite: Master of Science in Business Analytic Students Only.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MAS 634. Administrative Systems for Quality Management. 2 Credit Hours.

This course presents a model to pursue quality management (QM). It features administrative systems and structures necessary for Quality Management. The administrative systems and structures presented in this course are required to sit for the Six Sigma Management "Green Belt" certification examination.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MAS 635. Design of Experiments. 2 Credit Hours.

This course presents tools and methodology useful in conducting experiments that provide valid answers to questions of interest to the experimenter. The course discusses an overall approach to obtaining and analyzing experimental data, the advantages of using structured multi factor experiments to screen for important factors, ways of minimizing the amount of data points needed to obtain desired information, and how to identify values of experimental factors that optimize the value of measured responses. Factorial designs, fractional factorial designs, screening designs, and response surface designs are presented. Emphasis is placed on the knowledge required for proper application of these methods through many examples in business and quality management.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MAS 636. Statistical Process Control and Reliability. 2 Credit Hours.

This course aims to introduce some fundamental concepts of statistical process control and reliability with an emphasis on business applications. The first part of the course focuses on control charts and other tools that are used to monitor and improve business processes. The second part of the course introduces some basic ideas of reliability models and presents methods used in identifying failure modes in products and in business systems.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MAS 637. Applied Regression Analysis and Forecasting. 2 Credit Hours.

This course aims to familiarize the student with statistical prediction. It covers simple and multiple regression methods as well as time series and forecasting models in business. Instead of theoretical development, the course emphasizes the application of these methods in business systems analysis and improvement.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MAS 638. Management Science Consulting. 2 Credit Hours.

The purpose of this course is to enhance students' consulting skills in management science. In addition to skills of modeling and choosing appropriate tools for analysis, these include the communication skills of presenting quantitative and analytical material in business settings. The course is structured around a set of case studies that are based on real applications of management science models and methods discussed in MAS 631 and MAS 632.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MAS 639. Data Acquisition, Preparation And Visualization. 2 Credit Hours.

This course teaches using statistical computing software to get a better understanding of what problems can occur (and what solutions exist) when dealing with a variety of data types and sources. It will also discuss how to address data visualization and how to leverage current methods and software to best communicate with results and decision with stakeholders.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

MAS 640. Applied Time Series Analysis and Forecasting. 2 Credit Hours.

Time series data occur when a single experimental unit or process is observed repeatedly over time. Data of this type are common in finance and economics. Statistical methods that assume independence are inappropriate for time series data. This course will provide the students with the basic theory and tools for the statistical analysis and interpretation of time series data. Broadly, the methods may be categorized into time-domain and frequency-domain methods. Time-domain methods develop explicit models for the evolution of a process over time. Frequency-domain methods equivalently model the correlation structure of the time series. Other topics include methods for model-based estimation, model selection, diagnostics, forecasting, and computing as they relate to time series analysis.

Prerequisites: MAS 637 or MAS 601.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

MAS 641. Operations Research Models in Management. 3 Credit Hours.

The application of Operations Research techniques in Management. Topics include linear programming, PERT/CPM, queuing theory, forecasting, inventory models, statistical quality control, decision theory, and Simulation.

Prerequisites: MAS 631, MAS 632, MAS 637, MAS 639 or equivalent.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MAS 647. Computer Simulation Systems. 3 Credit Hours.

Introduction to discrete-event computer simulation and hands-on development of simulation models. Topics include introduction to queuing theory, input and output analysis, random number generation, and variance reduction techniques. Students practice their modeling skills using commercial state-of-the-art simulation software. Assigned readings of real-life simulation projects complement the material learned in the classroom. Lecture, 3 hours.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MAS 648. Data Mining and Knowledge Acquisition. 3 Credit Hours.

This course provides an introduction to the principles and techniques of data mining. Topics covered include the data mining process, data preprocessing, data mining techniques and data mining evaluation. The course will involve a combination of lectures, labs, projects and case studies.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MAS 650. Management Science Internship. 1-3 Credit Hours.

Student is individually assigned to operating business firm or other organization to gain insight into management practice in area of career interest. Periodic reports and conferences are required. Permission of department chair is required prior to registration.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MAS 663. Project Management and Modeling. 2 Credit Hours.

This course considers the various methods, techniques, and software tools of project management and modeling with special emphasis on real estate projects and development. Topics include: project selection and strategy, risk assessment, conflict and negotiation, budgets, costs, and resource allocation, monitoring and information systems, project control and auditing, and project closure. The course is designed to show the integration of the various roles of owners, developers, builders, architects, and engineers in the project management process.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MAS 680. Spatial Statistics. 3 Credit Hours.

Prerequisite: ECO 520.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MAS 691. Topics in Management Science. 1-3 Credit Hours.

Topics in selected areas of specialization.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MAS 692. Topics in Management Science. 1-3 Credit Hours.

Topics in selected areas of specialization.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MAS 693. Directed Study in Operations Research. 1-3 Credit Hours.

Investigation and research in special areas of interest. Offered by special arrangement.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MAS 695. Directed Study in Operations Research. 1-3 Credit Hours.

Investigation and research in special areas of interest. Offered by special arrangement.

Components: SEM.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MAS 696. Directed Study in Statistics. 1-3 Credit Hours.

Investigation and research in special areas of interest. Offered by special arrangement.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MAS 699. Directed Study. 1-3 Credit Hours.

Offered by special arrangement.

Components: THI.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MAS 720. Research in Residence. 0 Credit Hours.

Used to establish research in residence for the thesis for the master's degree after the student has enrolled for the permissible cumulative total in MAS 710 (usually six credits). Credit not granted. May be regarded as full time residence.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MAS 725. Continuous Registration--Master's Study. 0 Credit Hours.

To establish residence for non-thesis master's students who are preparing for major examinations. Credit not granted. Regarded as full time residence.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MAS 810. Master's Thesis. 1-6 Credit Hours.

The student working on his/her master's thesis enrolls for credit, in most departments not to exceed six, as determined by his/her advisor. Credit is not awarded until the thesis has been accepted.

Components: LEC.

Grading: SUS.

Typically Offered: Offered by Announcement Only.

MAS 830. Doctoral Dissertation. 1-12 Credit Hours.

Required of all candidates for the Ph.D. The student will enroll for credit as determined by his/her advisor but not for less than a total of 24. Not more than 12 hours of MAS 730 may be taken in a regular semester, nor more than six in a summer session. Where a student has passed his/her (a) qualifying examinations, and (b) is engaged in an assistantship, he/she may still take the maximum allowable credit stated above.

Components: LEC.

Grading: SUS.

Typically Offered: Offered by Announcement Only.

MAS 850. Research in Residence. 0 Credit Hours.

Used to establish research in residence for the Ph.D., after the student has been enrolled for the permissible cumulative total in appropriate doctoral research. Credit not granted. May be regarded as full-time residence as determined by the Dean of the Graduate School.

Components: LEC.

Grading: SUS.

Typically Offered: Offered by Announcement Only.

Marine Affairs and Policy (MAF)

MAF 500. Fldwrk Costl Culture. 3 Credit Hours.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MAF 501. Political Ecology of Marine Management. 3 Credit Hours.

Course provides a grounding in political ecology as an important theoretical approach to resource policy and management. The social analysis of resource use, social change, and development are discussed. Models of development and concepts of nature relate to resource use and policy formation are also included. Within this framework, ethnicity, class, and the politics of conservation are explored.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MAF 502. Economics of Natural Resources. 3 Credit Hours.

Course brings together the approaches of natural resource and environmental economics to provide a comprehensive overview of the economics of national, international, and global environmental problems. A unifying theme throughout the course is the concept of sustainable development, defined as maximizing the net benefit to economic development while maintaining the services and quality of natural resources over time. Economic reasoning is used to examine the causes and consequences of environmental and resource problems and measures for dealing with them.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MAF 504. Fieldwork in Coastal Management. 3 Credit Hours.

The field portion of this course will occur in Bocas del Toro, Panama, on the northwest Caribbean coast of Panama where the University of Miami has been involved in the development of a Coastal Management plan since 2004. The Bocas del Toro Archipelago of over 20 nearshore islands boasts a rich diversity of cultures, as well as high quality coastal environments. The region is currently experiencing rapid tourist growth, as well as residential development projects for foreigners. The cultural and biological diversities of the region, as well as the development pressures they face, provide an excellent opportunity to study the socioeconomic and environmental impacts of tourist development; regional attempts to create land use and coastal plans; conflicts among different uses and users; and various cultural perspectives on the current and evolving situation. The course allows students to develop projects tailored to their interests and skills.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MAF 505. Fieldwork in Coastal Cultures. 3 Credit Hours.

Field course in which the student participates in a social and economic analysis of a coastal culture (i.e., stone crab fishermen in Everglades City, spiny lobster fishermen in Key West, boat builders and commercial divers in the Abacos, Bahamas). Preliminary lectures and reading introduce the theory and method which the student then practices during a week-long field trip.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MAF 506. Advance Fieldwork In Coastal Cultures. 3 Credit Hours.

This ethnographic fieldwork course lets you experience coastal cultures first-hand in Miami and the Keys. Learning the political ecology approach in the field, you keep an in-depth field journal, complimenting entries with photography as visual anthropology. We will be interacting with some of Miami's wealth of ethnic communities, both Latino and Haitian. Tourism has become a mainstay of the Miami and Keys economy. We will examine real estate development and social conservation in relation to commercial and recreational fisheries. We will examine the rivalries and alliances among different interest groups involved in tourism from conservation to development. We will observe human/environmental interactions, as well as interview various interest groups such as tour operators, real estate developers, visitors, store and restaurant owners, and park managers.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MAF 510. Environmental Planning and the Environmental Impact Statement. 3 Credit Hours.

Course takes a broad view of environmental planning and analysis while focusing specifically on the preparation of environmental impact statements. Statutory requirements and procedures at the federal level are examined. Judicial opinions are studied that reflect environmental disputes and controversies. The course also considers some of the substantive requirements of environmental impact analyses such as the assessment of physical and biological environment and socioeconomic impacts.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MAF 512. Aquaculture Management. 3 Credit Hours.

Course examines the various strategies of resource exploitation and utilization in developing aquaculture projects. Resources include environmental, technological, social, economical, and administrative aspects encountered in commercial aquaculture development. The course covers all stages of planning and development, with emphasis on determining the technical and economic feasibility of aquaculture projects.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MAF 513. Aquaculture Management II. 3 Credit Hours.

Course is a complement to Aquaculture Management (MAF 512) and examines advanced aquaculture management techniques and strategies with emphasis on commercial operations. Course requires a background in either aquaculture or business. Prerequisite: MAF 512 or permission of instructor.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MAF 514. Field Techniques in Prehistoric Underwater Archaeological Excavation. 3 Credit Hours.

An introduction to specialized techniques of underwater excavation applicable to the excavation of Little Salt Spring (LSS), a prehistoric site owned and operated by Rosenstiel School of Marine and Atmospheric Science. All students participate in a one-week intensive lecture course in the prehistory of Florida and general techniques of underwater excavation. The field course begins after that. All students must be present for all of the field course in order to complete the basic requirements. Activities include daily underwater excavation in depths of 10-30 feet of water, as well as surface support activities relating to diving and the recording and basic conservation of recovered ecofacts and artifacts dating before 9,000 radiocarbon years before present.

Components: LEC.

Grading: GRD.

Typically Offered: Summer.

MAF 515. Techniques of Marine Archaeological Survey and Recording. 3 Credit Hours.

The location and study of underwater archaeological sites is undergoing fundamental changes because of application of advanced technologies developed for other fields, notably remote sensing, and the general availability of computer power for individual users. This course introduces the student to the latest techniques of survey and recording, focusing on hardware and software that can greatly increase the efficiency of any underwater excavation.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MAF 516. Ocean Policy and Development and Analysis. 3 Credit Hours.

Ocean policy development and analysis of issues such as: offshore oil drilling, fisheries resource conflicts, marine mammal protection, ocean dumping and incineration, multiple use conflicts in marine protected areas, pollution from land based sources, and oil spill contingency planning.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MAF 517. Legal Environment And Business Planning In Aquaculture. 3 Credit Hours.

This course examines the substantive legal issues concerning Aquaculture and the Coastal Zone. Legal aspects of Aquaculture related to ownership and boundaries in the coastal zone, legal and regulatory constraints, international consideration private and public rights, risks and incentives. Fish and shellfish as personal property and conservation laws affecting the fish farmer.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MAF 518. Coastal Zone Management. 3 Credit Hours.

Development of a framework for formulation and assessment of coastal zone policy. Analysis of issues and conflicts in coastal zone management (CZM), such as: zoning and planning, coastal and beach protection, ecosystem protection, the federal flood insurance program, adaptations to sea level rise, coastal pollution from land-based sources, and tourism impacts.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MAF 519. Aquaculture Management III (Fieldwork). 3 Credit Hours.

Students will conduct fieldwork on environmental, technological, social, economical, and administrative aspects encountered in commercial aquaculture operations. This fieldcourse will complement Aquaculture Management I and II. Students will be able to apply most of the topics taught in MAF 512 and MAF 513. They will participate in all stages of the production process, including maturation, spawning, larval husbandry, nursery and growout techniques, as well as harvesting, processing and exporting. Students will visit several large commercial hatcheries, farms and processing plants currently producing processing, packing and exporting shrimp and fish (both marine and freshwater) for US and European and Asian markets.

Components: LEC.

Grading: GRD.

Typically Offered: Summer.

MAF 520. Environmental Law. 3 Credit Hours.

An introductory course focusing on environmental problems. The study of Regulatory legislation, common law, and administrative law. Topics include toxic substances, air and water pollution, and habitat and species protection.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MAF 525. Fisheries Socioeconomics and Management. 3 Credit Hours.

This course applies microeconomic theory to fisheries resource problems and policies. Economic models with the value of production as their objective, will contrast economists' and biologists' definitions of maximum yield and show why an unregulated fishery will not operate at either level. We will use economic reasoning to examine causes and consequences of fisheries problems and measures for dealing with them.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MAF 526. Marine Cultural Resource Management. 3 Credit Hours.

Submerged archaeological sites as exhaustible resources of a country's cultural heritage. Policies and procedures for their protection or mitigation will be surveyed using as examples the statutes and regulations of foreign states, the federal government, and the US states.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MAF 530. Port Operations and Policy. 3 Credit Hours.

The course will include: Introduction to ports; port geography; port operations; port administration; Federal port policy; free ports/free zones; port investment/tariffs; port marketing; Coastal Zone Management and ports; case studies, CZM; fostering economic development; and Port planning and development.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MAF 560. Introduction to Marine Geographic Information Systems. 3 Credit Hours.

Marine Geographic Information Systems are emerging as a distinct subset of GIS, due to fundamental differences between terrestrial and underwater spatial information (2-D vs. 3-D, multiresolution, synoptic data collection, time depth (4-D) modeling). Approximately the first half of this course is a brief review of basic GIS, and the second half concentrates on aspects of marine data acquisition and manipulation in the GIS context.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MAF 561. Introduction to Marine Geographic Information Systems - Laboratory. 0 Credit Hours.

Introduction to Marine Geographic Information Systems - Laboratory introduces students the basic methods and technology in Marine Geographic Information Systems. The course is taught with hands-on laboratory exercises following the evolution of Marine Geographic Information Systems, from basic cartography to topological and network modeling to internet access and application.

Components: LAB.

Grading: SUS.

Typically Offered: Fall & Summer.

MAF 562. Spatial Analysis: Intermediate Course in Marine GIS. 3 Credit Hours.

Course provides a general survey of available quantitative methods for spatial analysis using Geographic Information Systems (GIS). Although GIS has been widely used for mapping and database management, this course is focused on the functionality of GIS as an effective tool for modeling and analyzing complex spatial relationships. Quantitative methods suitable for analyzing different features types are discussed. Applications for such methods are also presented.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MAF 564. Citizen & Participatory Science. 3 Credit Hours.

The Citizen and Participatory Science course will focus on preparing students for designing and implementing citizen and participatory science projects aimed at addressing questions and problems around specific environmental issues. As social networks grow, open data comes online and mobile technologies proliferate and advance, the opportunity to tap into eager and interested citizens to collect data for research and documentation purposes is quickly rising. This program will look at history of citizen science, which is over 100 years old, and will analyze current and past projects. Students will be exposed to how citizen science projects are designed and implemented and how they can be best leveraged to gain useful data for research. Guest lecturers will be invited for virtual and in-person presentations. A key component of the course will be for students to design a citizen science project using best practices. These projects can provide the baseline for launching real projects with organizations interested in applying citizen science to their work. The course will look at both technology driven projects as well as low-tech projects to expose students to the range of work being done in this rapidly evolving area.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MAF 570. Conservation and Management of Marine Mammals. 3 Credit Hours.

This course emphasizes on the notion that proper conservation and management of large marine vertebrates (i.e., marine mammals, sea turtles, sharks and rays) require the understanding and integration of some important aspects of the (comparative) biology and ecology of these groups of animals with the multifaceted nature (e.g., social, economical, ethical and cultural dimensions) of these concerns.

Components: LEC.

Grading: SUS.

Typically Offered: Spring.

MAF 571. Marine Conservation Biology: An Ecosystem-Based Paradigm. 3 Credit Hours.

Until now, fisheries management has used a species-specific approach to conservation, focusing attention on economically important species that people consume. There has been some research on charismatic mega-fauna, particularly whales, seabirds and sea turtles. To this day, fishery biologists are concerned mainly with assessing stocks of commercially harvested species to maintain biomass production, rather than maintaining and restoring biological integrity: species composition, habitat structure and ecosystem function. It is only in the past few years that a new biodiversity-focused, ecosystem-based, multidisciplinary scientific approach to marine conservation has emerged. This new paradigm is known as Marine Conservation Biology.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MAF 572. A HISTORY OF SEAFARING. 3 Credit Hours.

Ships and seafarers have had considerable influences on civilization throughout history. The ship typically represents the pinnacle of a society's understanding of many disciplines: astronomy, geography, metallurgy, physics, warfare, et cetera. No other process similarly spread the delights and devastation of the world so effectively. This course studies man's evolutionary relationship with the sea from early civilization through the 20th century. Emphasis will be on archaeological and ethnographical investigations concerning shipwrecks and maritime epicenters supporting maritime culture. This will be a lecture course supported by visual, audible, and hands-on presentations. The final lectures make ample use of online resources. A voluntary and complimentary field trip at sea to Miami's underwater archaeological preserve, Half Moon/Germania, will be offered toward the end of the class.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MAF 573. MARINE CONSERVATION OUTREACH. 3 Credit Hours.

This course will explore the concepts, theories and practices of creating and evaluating effective Marine Conservation Outreach. The course will cover the project life cycle from planning to implementation to evaluating effectiveness

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MAF 574. From Gold to Glory : The Evolving History & Ethics of Exploration. 3 Credit Hours.

This course will address changes in motivation and approaches to exploration with a focus on risk perception, physiological limitations, and social-cultural context, including how past colonial legacy is still influencing perceptions of the current generation of scientists, explorers, and the groups they interact with. Assignments will include critical readings of source materials and case studies of particular expeditions.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MAF 576. Special Topics. 1-4 Credit Hours.

Lectures, research projects or directed readings in special topics related to marine affairs.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MAF 577. Special Topics. 1-4 Credit Hours.

Lectures, research projects or directed readings in special topics related to marine affairs. Prerequisite: Permission of instructor.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MAF 578. Special Topics. 1-4 Credit Hours.

Lectures, research projects or directed readings in special topics related to marine affairs.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MAF 579. Special Topics. 1-4 Credit Hours.

Lectures, research projects or directed readings in special topics related to marine affairs.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MAF 580. Special Topics. 1-4 Credit Hours.

Lectures, research projects or directed readings in special topics related to marine affairs.

Components: THI.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MAF 581. Special Topics. 1-3 Credit Hours.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MAF 582. Special Topics. 1-3 Credit Hours.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MAF 583. Special Topics. 1-3 Credit Hours.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MAF 600. Fieldwork Coastal Culture. 3 Credit Hours.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MAF 601. Political Ecology of Marine Management. 3 Credit Hours.

Course provides a grounding in political ecology as an important theoretical approach to resource policy and management. The social analysis of resource use, social change, and development are discussed. Models of development and concepts of nature relate to resource use and policy formation are also included. Within this framework, ethnicity, class, and the politics of conservation are explored.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MAF 602. Economics of Natural Resources. 3 Credit Hours.

Course brings together the approaches of natural resource and environmental economics to provide a comprehensive overview of the economics of national, international, and global environmental problems. A unifying theme throughout the course is the concept of sustainable development, defined as maximizing the net benefit to economic development while maintaining the services and quality of natural resources over time. Economic reasoning is used to examine the causes and consequences of environmental and resource problems and measures for dealing with them.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MAF 604. Fieldwork in Coastal Management. 3 Credit Hours.

The field portion of this course will occur in Bocas del Toro, Panama, on the northwest Caribbean coast of Panama where the University of Miami has been involved in the development of a Coastal Management plan since 2004. The Bocas del Toro Archipelago of over 20 nearshore islands boasts a rich diversity of cultures, as well as high quality coastal environments. The region is currently experiencing rapid tourist growth, as well as residential development projects for foreigners. The cultural and biological diversities of the region, as well as the development pressures they face, provide an excellent opportunity to study the socio-economic and environmental impacts of tourist development; regional attempts to create land use and coastal plans; conflicts among different uses and users; and various cultural perspectives on the current and evolving situation. The course allows students to develop projects tailored to their interests and skills.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MAF 605. Fieldwork in Coastal Cultures. 3 Credit Hours.

Field course in which the student participates in a social and economic analysis of a coastal culture (i.e., stone crab fishermen in Everglades City, spiny lobster fishermen in Key West, boat builders and commercial divers in the Abacos, Bahamas). Preliminary lectures and reading introduce the theory and method which the student then practices during a week-long field trip.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MAF 606. Advance Fieldwork In Coastal Cultures. 3 Credit Hours.

This ethnographic fieldwork course lets you experience coastal cultures first-hand in Miami and the Keys. Learning the political ecology approach in the field, you keep an in-depth field journal, complimenting entries with photography as visual anthropology. We will be interacting with some of Miami's wealth of ethnic communities, both Latino and Haitian.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MAF 610. Environmental Planning and the Environmental Impact Statement. 3 Credit Hours.

Course takes a broad view of environmental planning and analysis while focusing specifically on the preparation of environmental impact statements. Statutory requirements and procedures at the federal level are examined. Judicial opinions are studied that reflect environmental disputes and controversies. The course also considers some of the substantive requirements of environmental impact analyses such as the assessment of physical and biological environment and socioeconomic impacts.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MAF 612. Aquaculture Management. 3 Credit Hours.

Course examines the various strategies of resource exploitation and utilization in developing aquaculture projects. Resources include environmental, technological, social, economical, and administrative aspects encountered in commercial aquaculture development. The course covers all stages of planning and development, with emphasis on determining the technical and economic feasibility of aquaculture projects.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MAF 613. Aquaculture Management II. 3 Credit Hours.

Course is a complement to Aquaculture Management (MAF 512) and examines advanced aquaculture management techniques and strategies with emphasis on commercial operations. Course requires a background in either aquaculture or business. Prerequisite: MAF 512 or permission of instructor.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MAF 614. Field Techniques in Prehistoric Underwater Archaeological Excavation. 3 Credit Hours.

An introduction to specialized techniques of underwater excavation applicable to the excavation of Little Salt Spring (LSS), a prehistoric site owned and operated by Rosenstiel School of Marine and Atmospheric Science. All students participate in a one-week intensive lecture course in the prehistory of Florida and general techniques of underwater excavation. The field course begins after that. All students must be present for all of the field course in order to complete the basic requirements. Activities include daily underwater excavation in depths of 10-30 feet of water, as well as surface support activities relating to diving and the recording and basic conservation of recovered ecofacts and artifacts dating before 9,000 radiocarbon years before present.

Components: LEC.

Grading: GRD.

Typically Offered: Summer.

MAF 615. Techniques of Marine Archaeological Survey and Recording. 3 Credit Hours.

The location and study of underwater archaeological sites is undergoing fundamental changes because of application of advanced technologies developed for other fields, notably remote sensing, and the general availability of computer power for individual users. This course introduces the student to the latest techniques of survey and recording, focusing on hardware and software that can greatly increase the efficiency of any underwater excavation.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MAF 616. Ocean Policy and Development and Analysis. 3 Credit Hours.

Ocean policy development and analysis of issues such as: offshore oil drilling, fisheries resource conflicts, marine mammal protection, ocean dumping and incineration, multiple use conflicts in marine protected areas, pollution from land based sources, and oil spill contingency planning.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MAF 617. Legal Environment And Business Planning In Aquaculture. 3 Credit Hours.

This course examines the substantive legal issues concerning Aquaculture and the Coastal Zone. Legal aspects of Aquaculture related to ownership and boundaries in the coastal zone, legal and regulatory constraints, international consideration private and public rights, risks and incentives. Fish and shellfish as personal property and conservation laws affecting the fish farmer.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MAF 618. Coastal Zone Management. 3 Credit Hours.

Development of a framework for formulation and assessment of coastal zone policy. Analysis of issues and conflicts in coastal zone management (CZM), such as: zoning and planning, coastal and beach protection, ecosystem protection, the federal flood insurance program, adaptations to sea level rise, coastal pollution from land-based sources, and tourism impacts.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MAF 619. Aquaculture Management III (Fieldwork). 3 Credit Hours.

Students will conduct fieldwork on environmental, technological, social, economical, and administrative aspects encountered in commercial aquaculture operations. This fieldcourse will complement Aquaculture Management I and II. Students will be able to apply most of the topics taught in MAF 512 and MAF 513. They will participate in all stages of the production process, including maturation, spawning, larval husbandry, nursery and growout techniques, as well as harvesting, processing and exporting. Students will visit several large commercial hatcheries, farms and processing plants currently producing processing, packing and exporting shrimp and fish (both marine and freshwater) for US and European and Asian markets.

Components: LEC.

Grading: GRD.

Typically Offered: Summer.

MAF 620. Environmental Law. 3 Credit Hours.

An introductory course focusing on environmental problems. The study of Regulatory legislation, common law, and administrative law. Topics include toxic substances, air and water pollution, and habitat and species protection.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MAF 625. Fisheries Socioeconomics and Management. 3 Credit Hours.

This course applies microeconomic theory to fisheries resource problems and policies. Economic models with the value of production as their objective, will contrast economists' and biologists' definitions of maximum yield and show why an unregulated fishery will not operate at either level. We will use economic reasoning to examine causes and consequences of fisheries problems and measures for dealing with them.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MAF 626. Marine Cultural Resource Management. 3 Credit Hours.

Submerged archaeological sites as exhaustible resources of a country's cultural heritage. Policies and procedures for their protection or mitigation will be surveyed using as examples the statutes and regulations of foreign states, the federal government, and the US states.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MAF 630. Port Operations and Policy. 3 Credit Hours.

The course will include: Introduction to ports; port geography; port operations; port administration; Federal port policy; free ports/free zones; port investment/tariffs; port marketing; Coastal Zone Management and ports; case studies, CZM; fostering economic development; and Port planning and development.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MAF 660. Introduction to Marine Geographic Information Systems. 3 Credit Hours.

Marine Geographic Information Systems are emerging as a distinct subset of GIS, due to fundamental differences between terrestrial and underwater spatial information (2-D vs. 3-D, multiresolution, synoptic data collection, time depth (4-D) modeling). Approximately the first half of this course is a brief review of basic GIS, and the second half concentrates on aspects of marine data acquisition and manipulation in the GIS context.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MAF 661. Introduction to Marine Geographic Information Systems - Laboratory. 0 Credit Hours.

Introduction to Marine Geographic Information Systems - Laboratory introduces students the basic methods and technology in Marine Geographic Information Systems. The course is taught with hands-on laboratory exercises following the evolution of Marine Geographic Information Systems, from basic cartography to topological and network modeling to internet access and application.

Components: LAB.

Grading: GRD.

Typically Offered: Fall & Summer.

MAF 662. Spatial Analysis: Intermediate Course in Marine GIS. 3 Credit Hours.

Course provides a general survey of available quantitative methods for spatial analysis using Geographic Information Systems (GIS). Although GIS has been widely used for mapping and database management, this course is focused on the functionality of GIS as an effective tool for modeling and analyzing complex spatial relationships. Quantitative methods suitable for analyzing different features types are discussed. Applications for such methods are also presented.

Components: LEC.

Grading: GRD.

MAF 710. International Ocean Law And Governance. 3 Credit Hours.

This course shall track the history and development of international ocean law, from a series of bi-lateral and multi-lateral treaties, the evolving customary law framework, and coastal and maritime state claims to the codification and proliferation of international legal agreements addressing the panoply of ocean use and management issues. Applying a chronological approach, the course shall identify and discuss key developments in international ocean law, leading to the drafting of the Third United Nations Law of the Sea Convention (UNCLOS III). By evaluating the multifold themes addressed under the convention, the course will analyze the effects of convention in a post UNCLOS III world, especially in the fields of environmental protection, the management of marine fisheries and living resources, the allocation of seabed and subsoil resources, issues affecting the high seas, and polar regions.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MAF 720. Coastal Law and Policy. 3 Credit Hours.

Course examines the authority of different levels and agencies of government to make decisions affecting the coastal zone. Course also explores the coastal problems of shoreline use and development, uses of water areas and the seabed, and the related questions of environmental protection.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MAF 774. Advanced Studies. 1-4 Credit Hours.

Supervised study in areas of special interest to graduate students.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MAF 805. MPS Internship. 1-6 Credit Hours.

The M.A. student must complete an approved six credit internship with an organization engaged in activities associated with marine affairs. Credits are not awarded until the internship has been successfully completed, a written report approved and a formal letter of evaluation received from the cooperating institution.

Components: THI.

Grading: SUS.

Typically Offered: Fall, Spring, & Summer.

MAF 810. Master's Thesis. 1-6 Credit Hours.

The student working on his/her master's thesis enrolls for credit in most departments not to exceed six, as determined by his/her advisor. Credit is not awarded until the thesis has been accepted.

Components: THI.

Grading: SUS.

Typically Offered: Fall, Spring, & Summer.

MAF 820. Research in Residence. 1 Credit Hour.

Used to establish research in residence for the thesis for the master's degree after the student has enrolled for the permissible cumulative total in MAF 710 (usually six credits). Credit not granted. May be regarded as full time residence.

Components: THI.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MAF 825. Continuous Registration--Master's Study. 1 Credit Hour.

To establish residence for non-thesis master's students who are preparing for major examinations. Credit not granted. Regarded as full time residence.

Components: THI.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

Marine Biology and Fisheries (MBF)

MBF 504. Biology of Marine Mammals. 3 Credit Hours.

The purpose of this class is to introduce students to the biology, evolution, taxonomy, physiology, natural history, behavior, conservation, and management of marine mammals.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MBF 505. Marine Mammal Disease and Medicine. 3 Credit Hours.

This course will cover the basics (theory and application) of marine mammal disease and medicine. Applications will focus on the medical management of managed care and wild populations.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MBF 507. Marine Mammal Applied Behavior Analysis and Managed Care. 3 Credit Hours.

This course involves a thorough examination of specific aspects of marine mammal managed care and conservation programs, with an emphasis on behavior management, analysis, and modification as a basis for adaptive response to changing environments both in-situ and ex-situ. Coursework will also focus on health management and assessment, emergency handling and transportation, government regulations, and wildlife conservation.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MBF 508. Biometrics in Marine Science. 3 Credit Hours.

Applied statistical analysis in marine biology and biological oceanography. Descriptive statistics, probability distributions, and hypothesis testing are discussed. Concepts of analysis of variance, simple linear regression, and computer statistical distribution-free methods are also included as well as principles and procedures with computer statistical packages for data analysis. Lecture and laboratory.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MBF 514. Tropical Marine Biology: A Field Course. 3 Credit Hours.

General survey of marine flora and fauna of tropical marine ecosystems. Inhabitants and communities of the sandy shore, rocky shore, seagrass meadows, mangrove shoreline, coral and artificial reefs are collected, identified, maintained. Life histories of representatives are presented. Concepts of island biology and geology such as shore zonation local reef formation and the geological history of the lagoon are also discussed. The 10 day course involves 90 contact hours and approximately 40 hours of formal lectures. Grades are based on a laboratory practicum and written final exam. The course is given in its entirety at the University's field station at Bimini, Bahamas.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MBF 515. Tropical Marine Ecology. 3 Credit Hours.

Marine ecology with emphasis on tropical ecosystems and local habitats. Physical environmental and biotic adaptations, population, and community ecology are discussed. Field exercises in mangrove, sea grass, and coral reef ecosystems are also included.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MBF 518. Coral Reef Biology, Ecology, And Conservation. 3 Credit Hours.

Coral reefs as integrated systems are examined from geological, ecological, and biological perspectives. The roles of global and local environmental fluctuations, physical disturbance, and biotic interactions in controlling reef formation and community structure is emphasized. The physiology of scleractinian corals and their algal symbionts is described and the prevalence of algal-invertebrate symbiosis on coral reefs related to nutrient cycling, productivity, and food webs on coral reefs.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MBF 521. Field Techniques and Instrumentation in Tropical Marine Ecology. 3 Credit Hours.

This course covers the instrumentation and field techniques commonly used to characterize the structure and function of the three dominant ecosystems in the tropics and subtropics, i.e. coral reefs, seagrass beds and mangroves.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MBF 539. Oceanic Productivity. 3 Credit Hours.

History, methods, and current topics relevant to studies of marine primary production. Magnitude and fate of primary production in the sea is essential to understand secondary production, the success of fisheries recruitment, and global climate.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MBF 542. Oceans and Human Health. 3 Credit Hours.

The objective of this interdisciplinary course is to provide students with introductory knowledge of the broad and relatively young field of Oceans and Human Health. The focus is the present, future, and potential effects of oceanic processes and aquatic organisms on human health, and vice versa. These diverse factors reflect the physical, chemical, biotic and social processes which require an integration of information and knowledge from the medical, marine and social sciences. The course covers harmful algal blooms, marine microbes, and global climate change as well as an overview of coastal impacts and remedies (e.g. dredging from the sea and marine models) through a series of coordinated lectures and case studies on human health, physical environment, and oceanographic processes. Prerequisite: Permission of instructor.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MBF 545. Marine Population Assessment Surveys And Analysis. 3 Credit Hours.

In spite of global conservation efforts, marine animal populations show increasingly critical low levels of abundance. Marine population assessment techniques are mostly based on fishery-dependent data for those species that are commercially exploited. Population assessment techniques based on these types of data usually lack spatial resolution and they do not provide spatial-temporal patterns of species diversity and community structure. Conversely, direct resource surveys aim to provide representative estimates of the relative abundance and population structure of the species (and community) of interest. These surveys can generate multi-species population databases that are fundamental for the modeling and understanding of important ecosystem-wide mechanisms of resource conservation. Multi-species indices of relative abundance are also important in the "tuning" of modern stock assessment and conservation methods. In this course students will learn about experimental sampling concepts and designs, instrumentation, survey implementation and statistical methods to directly assess size-structured population abundance (i.e., density estimates scaled to survey area), and of exploited and non-target species (e.g. sea turtles, marine mammals, etc.) in the ecosystem. Students will analyze real data from various surveys carried out in the past using statistical techniques to estimate valid population parameters and variances. Comparative analyses of survey designs are discussed based on an ample literature on the subject matter, which will be made available to the students.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MBF 546. Marine Population Biology Processes And Modeling. 3 Credit Hours.

Marine and freshwater animal populations undergo many changes in response to exploitation of core predator and prey species in their ecosystem while subjected to environmental and anthropogenic perturbations in their habitats. Understanding these changes is a major objective of marine population scientists and paramount to marine conservation science. Marine Population Biology Processes and Modeling considers some of the fundamental properties of wild aquatic populations with the aim of knowing and understanding their interactive dynamics. For this purpose mathematical models are used under assumptions that they will provide an adequate description of the biological processes of interest. In this course students will learn conceptual aspects and estimation methods for the main population processes such as growth, survival, reproduction and feeding. Such concepts are framed by mathematical modeling to facilitate interpretation of dynamic population-level processes. Emphasis is also on data requirements and statistical validation of the data and model fitting such that students will develop an ability to integrate and summarize complex biological knowledge under a set of well defined protocols.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MBF 550. Analytical Techniques in Marine Biology. 2 Credit Hours.

Theory and applications of selected analytical techniques necessary to conduct quantitative research in marine biology (e.g., electrophoresis, metabolite assays, enzyme assays, radioisotope methodology). One hour lecture followed by three hour laboratory per week.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MBF 555. Graduate Physiology.. 3 Credit Hours.

Broad overview of concepts important for physiology. Topics include discussions of genomes, molecular evolution and functional genetics (metabolism), cell biology and cell communication, and organismal - environmental interactions. Readings from the primary literature are included with an emphasis on seminal papers.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MBF 565. Fisheries Ecology and Oceanography. 3 Credit Hours.

Course content is intended to introduce fisheries oriented students to key biological, ecological, oceanographic and climatic processes of direct relevance to fishery species. with a view toward development of an ecosystem perspective. The view that marine ecosystems may operate as complex adaptive systems will be presented as a potential key element of effective long-term ecosystem-based marine resources management

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MBF 570. Special Topics. 1-4 Credit Hours.

Lectures, research projects or directed readings in special topics related to Marine Biology and Fisheries.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MBF 571. Special Topics. 1-4 Credit Hours.

Lectures, research projects or directed readings in special topics related to Marine Biology and Fisheries.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MBF 572. Special Topics. 1-4 Credit Hours.

Lectures, research projects or directed readings in special topics related to Marine Biology and Fisheries.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MBF 573. Special Topics. 1-4 Credit Hours.

Lectures, research projects or directed readings in special topics related to Marine Biology and Fisheries.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MBF 574. Special Topics. 1-4 Credit Hours.

Lectures, research projects or directed readings in special topics related to Marine Biology and Fisheries.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MBF 576. Diseases of Marine Organisms. 3 Credit Hours.

Infectious, genetic, and environmentally induced diseases of marine fishes and invertebrates as well as diagnostic methods, cellular, and molecular pathology. Lecture, 3 hours.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MBF 577. Management And Conservation Of Marine Ecosystems. 3 Credit Hours.

In this course students will learn how fisheries management works to achieve these objectives. The primary focus will be on how fisheries interact with marine ecosystems, including how particular fisheries management measures influence fishing mortality rates. Nevertheless, the ecosystem-based approach to fisheries management requires seeing fisheries as integrated systems, so it will also be necessary to discuss social, economic and legal aspects of fisheries management.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MBF 578. Evolutionary Genetics. 3 Credit Hours.

A Graduate course that presents and overview from "New Evolutionary Synthesis" (1900) to Evolutionary Genomics. The critical points to emphasize is the importance of standing genetic variation, the role of neutral evolutionary process versus evolution by natural selection and how a evolution perspective provides meaning insights into the biology.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MBF 586. Environmental Biology of Fishes. 3 Credit Hours.

Ecology, dispersal, and modes of life of fishes. Adaptations by larvae and adults to various habitats are covered as well as the effects of man on fish faunas and the importance of fishes to various ecological systems.

Lecture, 3 hours.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MBF 590. Acoustic Measurement of Nekton, Plankton and Underwater Habitat.. 3 Credit Hours.

MBF 590 is an introductory course on the theory, history and applications of acoustics to measure nekton, plankton and underwater habitat. It was designed for those students who wish to learn how to make quantitative measures of organisms and structure underwater. It is a prerequisite for MBF 690, Advance Measurement of Nekton, Plankton and Underwater Habitat, which focuses on data acquisition in the field and laboratory signal processing. This course is essential for students who need to make precise and accurate underwater measurements for their research.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MBF 604. Biology of Marine Mammals. 3 Credit Hours.

The purpose of this class is to introduce students to the biology, evolution, taxonomy, physiology, natural history, behavior, conservation, and management of marine mammals.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MBF 605. Marine Mammal Disease and Medicine. 3 Credit Hours.

This course will cover the basics (theory and application) of marine mammal disease and medicine. Applications will focus on the medical management of managed care and wild populations.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MBF 607. Marine Mammal Applied Behavior Analysis and Managed Care. 3 Credit Hours.

This course involves a thorough examination of specific aspects of marine mammal managed care and conservation programs, with an emphasis on behavior management, analysis, and modification as a basis for adaptive response to changing environments both in-situ and ex-situ. Coursework will also focus on health management and assessment, emergency handling and transportation, government regulations, and wildlife conservation.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MBF 608. Biometrics in Marine Science. 3 Credit Hours.

Applied statistical analysis in marine biology and biological oceanography. Descriptive statistics, probability distributions, and hypothesis testing are discussed. Concepts of analysis of variance, simple linear regression, and computer statistical distribution-free methods are also included as well as principles and procedures with computer statistical packages for data analysis. Lecture and laboratory.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MBF 614. Tropical Marine Biology: A Field Course. 3 Credit Hours.

General survey of marine flora and fauna of tropical marine ecosystems. Inhabitants and communities of the sandy shore, rocky shore, seagrass meadows, mangrove shoreline, coral and artificial reefs are collected, identified, maintained. Life histories of representatives are presented. Concepts of island biology and geology such as shore zonation local reef formation and the geological history of the lagoon are also discussed. The 10 day course involves 90 contact hours and approximately 40 hours of formal lectures. Grades are based on a laboratory practicum and written final exam. The course is given in its entirety at the University's field station at Bimini, Bahamas.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MBF 615. Tropical Marine Ecology. 3 Credit Hours.

Marine ecology with emphasis on tropical ecosystems and local habitats. Physical environmental and biotic adaptations, population, and community ecology are discussed. Field exercises in mangrove, sea grass, and coral reef ecosystems are also included.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MBF 618. Coral Reef Biology, Ecology, And Conservation. 3 Credit Hours.

Coral reefs as integrated systems are examined from geological, ecological, and biological perspectives. The roles of global and local environmental fluctuations, physical disturbance, and biotic interactions in controlling reef formation and community structure is emphasized. The physiology of scleractinian corals and their algal symbiontosis described and the prevalence of algal-invertebrate symbiosis on coral reefs related to nutrient cycling, productivity, and food webs on coral reefs.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MBF 621. Field Techniques and Instrumentation in Tropical Marine Ecology. 3 Credit Hours.

This course covers the instrumentation and field techniques commonly used to characterize the structure and function of the three dominant ecosystems in the tropics and subtropics, i.e. coral reefs, seagrass beds and mangroves.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MBF 639. Oceanic Productivity. 3 Credit Hours.

History, methods, and current topics relevant to studies of marine primary production. Magnitude and fate of primary production in the sea is essential to understand secondary production, the success of fisheries recruitment, and global climate.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MBF 642. Oceans and Human Health. 3 Credit Hours.

The objective of this interdisciplinary course is to provide students with introductory knowledge of the broad and relatively young field of Oceans and Human Health. The focus is the present, future, and potential effects of oceanic processes and aquatic organisms on human health, and vice versa. These diverse factors reflect the physical, chemical, biotic and social processes which require an integration of information and knowledge from the medical, marine and social sciences. The course covers harmful algal blooms, marine microbes, and global climate change as well as an overview of coastal impacts and remedies (e.g. dredging from the sea and marine models) through a series of coordinated lectures and case studies on human health, physical environment, and oceanographic processes. Prerequisite: Permission of instructor.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MBF 645. Marine Population Assessment Surveys And Analysis. 3 Credit Hours.

In spite of global conservation efforts, marine animal populations show increasingly critical low levels of abundance. Marine population assessment techniques are mostly based on fishery-dependent data for those species that are commercially exploited. Population assessment techniques based on these types of data usually lack spatial resolution and they do not provide spatial-temporal patterns of species diversity and community structure. Conversely, direct resource surveys aim to provide representative estimates of the relative abundance and population structure of the species (and community) of interest. These surveys can generate multi-species population databases that are fundamental for the modeling and understanding of important ecosystem-wide mechanisms of resource conservation. Multi-species indices of relative abundance are also important in the "tuning" of modern stock assessment and conservation methods. In this course students will learn about experimental sampling concepts and designs, instrumentation, survey implementation and statistical methods to directly assess size-structured population abundance (i.e., density estimates scaled to survey area), and of exploited and non-target species (e.g. sea turtles, marine mammals, etc.) in the ecosystem. Students will analyze real data from various surveys carried out in the past using statistical techniques to estimate valid population parameters and variances. Comparative analyses of survey designs are discussed based on an ample literature on the subject matter, which will be made available to the students.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MBF 646. Marine Population Biology Processes And Modeling. 3 Credit Hours.

Marine and freshwater animal populations undergo many changes in response to exploitation of core predator and prey species in their ecosystem while subjected to environmental and anthropogenic perturbations in their habitats. Understanding these changes is a major objective of marine population scientists and paramount to marine conservation science. Marine Population Biology Processes and Modeling considers some of the fundamental properties of wild aquatic populations with the aim of knowing and understanding their interactive dynamics. For this purpose mathematical models are used under assumptions that they will provide an adequate description of the biological processes of interest. In this course students will learn conceptual aspects and estimation methods for the main population processes such as growth, survival, reproduction and feeding. Such concepts are framed by mathematical modeling to facilitate interpretation of dynamic population-level processes. Emphasis is also on data requirements and statistical validation of the data and model fitting such that students will develop an ability to integrate and summarize complex biological knowledge under a set of well defined protocols.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MBF 650. Analytical Techniques in Marine Biology. 2 Credit Hours.

Theory and applications of selected analytical techniques necessary to conduct quantitative research in marine biology (e.g., electrophoresis, metabolite assays, enzyme assays, radioisotope methodology). One hour lecture followed by three hour laboratory per week.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MBF 655. Graduate Physiology.. 3 Credit Hours.

Broad overview of concepts important for physiology. Topics include discussions of genomes, molecular evolution and functional genetics (metabolism), cell biology and cell communication, and organismal-environmental interactions. Readings from the primary literature are included with an emphasis on seminal papers.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MBF 665. Fisheries Ecology and Oceanography. 3 Credit Hours.

Course content is intended to introduce fisheries oriented students to key biological, ecological, oceanographic and climatic processes of direct relevance to fishery species. with a view toward development of an ecosystem perspective. The view that marine ecosystems may operate as complex adaptive systems will be presented as a potential key element of effective long-term ecosystem-based marine resources management

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MBF 670. Special Topics. 1-4 Credit Hours.

Lectures, research projects or directed readings in special topics related to Marine Biology and Fisheries.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MBF 671. Special Topics. 1-4 Credit Hours.

Lectures, research projects or directed readings in special topics related to Marine Biology and Fisheries.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MBF 672. Special Topics. 1-4 Credit Hours.

Lectures, research projects or directed readings in special topics related to Marine Biology and Fisheries.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MBF 673. Special Topics. 1-4 Credit Hours.

Lectures, research projects or directed readings in special topics related to Marine Biology and Fisheries.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MBF 674. Special Topics. 1-4 Credit Hours.

Lectures, research projects or directed readings in special topics related to Marine Biology and Fisheries.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MBF 676. Diseases of Marine Organisms. 3 Credit Hours.

Infectious, genetic, and environmentally induced diseases of marine fishes and invertebrates as well as diagnostic methods, cellular, and molecular pathology. Lecture, 3 hours.

Components: LEC.

Grading: GRD.

MBF 677. Management And Conservation Of Marine Ecosystems. 3 Credit Hours.

In this course students will learn how fisheries management works to achieve these objectives. The primary focus will be on how fisheries interact with marine ecosystems, including how particular fisheries management measures influence fishing mortality rates. Nevertheless, the ecosystem-based approach to fisheries management requires seeing fisheries as integrated systems, so it will also be necessary to discuss social, economic and legal aspects of fisheries management.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MBF 678. Evolutionary Genetics. 3 Credit Hours.

A Graduate course that presents and overview from "New Evolutionary Synthesis" (1900) to Evolutionary Genomics. The critical points to emphasize is the importance of standing genetic variation, the role of neutral evolutionary process versus evolution by natural selection and how a evolution perspective provides meaning insights into the biology.

Components: LEC.

Grading: GRD.

MBF 690. Acoustic Measurement of Nekton, Plankton and Underwater Habitat.. 3 Credit Hours.

MBF 590 is an introductory course on the theory, history and applications of acoustics to measure nekton, plankton and underwater habitat. It was designed for those students who wish to learn how to make quantitative measures of organisms and structure underwater. It is a prerequisite for MBF 690, Advance Measurement of Nekton, Plankton and Underwater Habitat, which focuses on data acquisition in the field and laboratory signal processing. This course is essential for students who need to make precise and accurate underwater measurements for their research.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MBF 702. Biological Oceanography Seminar. 1 Credit Hour.

Participation is required of all students in Marine Biology and Fisheries department every semester they are in residence whether or not they are registered for the course. Students past their second semester must give one 20-minute presentation per year, on their research or other acceptable topic. Dates are be assigned by lottery. Course may be taken for credit only once.

Components: SEM.

Grading: GRD.

Typically Offered: Fall & Spring.

MBF 704. Biological Oceanography. 3 Credit Hours.

A comprehensive course in Biological Oceanography, including energy flow, biogeochemical cycles, planktonic and benthic ecosystem structure, evolutionary ecology, adaptations of marine organisms, and paleoceanography. Course is required of all MBF students and should be taken in sequence with Oceanography I (MPO 501), Oceanography II (MAC 502), and Oceanography IV (MGG 504).

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MBF 707. Biochemical Toxicology. 3 Credit Hours.

Biochemical mechanisms of absorption, distribution, metabolism, and excretion of natural and synthetic environmental toxicants. Methods for evaluation of acute and chronic toxicity, carcinogenesis, mutagenesis, and teratogenesis including *in vivo*, isolated organ, tissue culture, and subcellular approaches to toxicity testing are included.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MBF 710. The Physical Environment of Marine Organisms. 3 Credit Hours.

The fluid environment of the sea influences the growth, distribution, and survival of marine organisms. The physical processes that affect organisms occur in space and time, ranging from the molecular properties of water to basin-wide linkages between oceanic regime and climate shifts are discussed. Course emphasis is placed on how physical processes affect the life of plankton to nekton. Students are required to present reviews based on the literature.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MBF 713. Marine Population Dynamics. 3 Credit Hours.

The concepts of stocks, sub-populations, and populations as biological systems in the marine environment. Quantitative studies of growth, mortality, recruitment, and abundance of marine populations are discussed. Data requirements, experimental design, sampling, and mathematical procedures for estimating population parameters are included. Lecture and laboratory.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MBF 714. Population Modeling and Management. 3 Credit Hours.

Mathematical and computer-intensive models of exploited populations fish, shell fish, marine mammals, and sea turtles. Stock production (surplus production), structured analytical yield (yield-per-recruit and age-size structured assessments), stock and recruitment, simulation modeling, adaptive control theory, risk assessments, and decision theoretic analyses are discussed. Techniques of management, concepts of resource allocation, and fishery management institutions with case studies are also included. Lecture and computer-based laboratory.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MBF 715. Advanced Biometrics in Marine Science. 3 Credit Hours.

An introduction to advanced statistical analysis of multivariate empirical observations with primary emphasis on applications in the assessment and interpretation of the dynamics of marine populations and communities in marine biology, biomedical sciences, fisheries, and biological oceanography. Advanced methods in linear, multiple and nonlinear regression analysis, probability and estimation theory, multiple partial correlation, ANCOVA, GLIM, general additive models, nonlinear optimization, multivariate statistics (classification and ordination), and sampling techniques. Exploratory data analysis and modeling are emphasized using the software SAS, S-PLUS, and MATLAB.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MBF 716. Bayesian Statistics For Marine Scientists. 3 Credit Hours.

Bayesian methods are increasingly used in ecology, fisheries science and marine biology, as a statistically rigorous means to incorporate information from diverse sources into a single analysis, deal with missing or incomplete data, and directly estimate the probabilities of hypotheses or outcomes. This course will cover Bayesian methods from the theory to the practical use of the statistics package OpenBUGS for Bayesian analysis. Topics will include development of prior probability density functions, numerical methods for integrating posterior probability density functions, diagnostics of convergence, and methods for model selection and model averaging. Examples will be taken from ecology and marine science and will include Bayesian meta-analysis of life history parameters, fisheries stock assessment models, tag-recapture models, molecular biology, decision analysis and estimation of animal abundance from surveys. Students will be encouraged to read the peer reviewed literature critically, and evaluate whether the Bayesian methods that are commonly applied are being used and interpreted appropriately. After doing several assigned homework problems, students will have an opportunity to develop a Bayesian analysis on their own data set.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MBF 771. Advanced Studies. 1-4 Credit Hours.

Supervised study in areas of special interest to graduate students.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MBF 772. Advanced Studies. 1-4 Credit Hours.

Supervised study in areas of special interest to graduate students.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MBF 773. Advanced Studies. 1-4 Credit Hours.

Supervised study in areas of special interest to graduate students.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MBF 775. Advanced Studies. 1-4 Credit Hours.

Supervised study in areas of special interest to graduate students.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MBF 787. Biology and Systematics of Fishes. 3 Credit Hours.

Lectures and laboratories on comparative evolution, morphology, physiology, and ecology of fishes. Laboratory emphasis is placed on family level taxonomy and systematics of marine and estuarine fishes.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MBF 790. Advance Measurement on Nekton, Plankton, and Underwater habitat.. 3 Credit Hours.

MBF 690 is the second course in a series on the acoustic measurement of nekton, plankton and underwater habitat. It follows in the introductory course MBF 59 0. In this course, we will focus more on the acquisition and processing of plankton, nekton and marine habitat data using sonar hydrophones. We will also spend time reviewing and discussing the classic papers that have been published on this topic. This class was designed for those students who wish to learn how to make quantitative measures of organisms and underwater habitat structure for their research.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MBF 805. MPS Internship. 1-6 Credit Hours.

Supervised project for students pursuing the Master of Arts degree in Marine Studies. Consists of a paper, researched, and written on a topic approved by the student's advisory committee, and presented as a seminar to the student's division. Six credits are required for graduation.

Components: THI.

Grading: SUS.

Typically Offered: Fall, Spring, & Summer.

MBF 810. Master's Thesis. 1-6 Credit Hours.

The student working on his/her master's thesis enrolls for credit, in most departments not to exceed six, as determined by his/her advisor. Credit is not awarded until the thesis has been accepted.

Components: THI.

Grading: SUS.

Typically Offered: Fall, Spring, & Summer.

MBF 815. Masters Thesis-Post Candidacy. 1-6 Credit Hours.

Used to establish student has been admitted to candidacy for the MS Degree. The student working on his/her Master's Thesis enrolls for credit not to exceed 6 combined with 710. Credit is not awarded until the Thesis has been accepted.

Components: LEC.

Grading: GRD.

MBF 820. Research in Residence. 1 Credit Hour.

Used to establish research in residence for the thesis for the master's degree after the student has enrolled for the permissible cumulative total in MBF 710 (usually six credits). Credit not granted. May be regarded as full time residence.

Components: THI.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MBF 830. Doctoral Dissertation. 1-12 Credit Hours.

Required of all candidates for the Ph.D. The student will enroll for credit as determined by his/her advisor but not for less than a total of 12. Not more than 12 hours of MBF 730 may be taken in a regular semester, nor more than six in a summer session. Where a student has passed his/her (a) qualifying examinations, and (b) is engaged in an assistantship, he/she may still take the maximum allowable credit stated above.

Components: THI.

Grading: SUS.

Typically Offered: Fall, Spring, & Summer.

MBF 850. Research in Residence. 1 Credit Hour.

Used to establish research in residence for the Ph.D., after the student has been enrolled for the permissible cumulative total in appropriate doctoral research. Credit not granted. May be regarded as full-time residence as determined by the Dean of the Graduate School.

Components: THI.

Grading: SUS.

Typically Offered: Fall, Spring, & Summer.

Marine Geology and Geophysics (MGG)

MGG 501. Oceanography I (Geological). 2 Credit Hours.

The first section of the core course curriculum designed as an integrated and multidisciplinary view of ocean processes, covering the major disciplines of marine science and their applications to the study of the marine environment. To be taken in sequence with Oceanography II - Physical (MPO 502), Oceanography III - Chemical (MAC 501), and Oceanography IV - Biological (MBF 502). This course is for non-MGG majors only.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MGG 511. Earth Surface Systems. 3 Credit Hours.

An introduction to the elements of the earth surface environment and their interactions with an emphasis on the application to understanding the geologic record. Course includes discussions of the processes and agents that influence and shape the character of the earth's surface, the attributes of the resultant sedimentary features, and the use of these features to unravel geologic and geomorphic history. Focus is placed on systems dynamics and interactions among sedimentologic, geomorphic, biotic, and hydrologic processes.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MGG 513. Introductory Geochemistry. 3 Credit Hours.

Fundamentals of atomic structure and quantum mechanics applied to Chemistry. Topics include origin and distribution of the elements, chemical bonding and substitution, basic thermodynamics of solids, liquids, and gases. Applications of these concepts to such geochemical processes as magmatic differentiation, rock-water interactions, low temperature aqueous geochemistry, and the geochemical cycling of the elements is also included.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MGG 514. Geophysics. 3 Credit Hours.

Course topics include seismology, gravity, heat flow, thermal history, geomagnetism, plate tectonics, and their importance in understanding the Earth's crust, mantle, and core.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MGG 525. Applied Environmental Geophysics. 3 Credit Hours.

Application of subsurface geophysical tools to environmental problems. Course includes the theory and application of shallow refraction and reflection seismology, conducting field experiments and processing both marine and land seismic data, other marine survey techniques such as side-scan sonar surveying, potential field techniques (gravity, magnetics, EM), ground penetrating radar, and borehole geophysics.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MGG 541. Field Evaluation of Fossil Platforms, Margins, and Basins. 2 Credit Hours.

Field investigation of classic rock sequences formed within ancient platform, margin, and basin environments. The use of ancient exposures as a guide to the interpretation of modern marine environments.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MGG 550. Mathematical Methods for Geoscientists. 3 Credit Hours.

Background mathematics needed to solve problems in the geosciences. Applications in tectonics, geodynamics, structural geology, seismology, and hydrology. Topics include linear inverse problems, least squares, linear algebra, matrix theory, vectors, dimensional analysis, probability and scientific inference, continuum mechanics, transform and numerical methods to solve differential, and partial differential equations.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MGG 570. Continental Tectonics. 3 Credit Hours.

Reviews major research techniques used in the study of the structure and evolution of continental crust and topical discoveries, with an emphasis on the Neogene to Recent time. The course begins with brief introductions to the fields of structural geology, seismology, and geodesy as they relate to continental tectonics. New research in areas such as the rheology of the lithosphere, plate motion models, deformation of continental crust in plate boundary zones, oblique subduction, and earthquake hazard assessment are also discussed.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MGG 579. Plate Tectonics. 3 Credit Hours.

The theory of plate tectonics, sea floor spreading, and continental drift. Mathematical description of plate motions, finite and instantaneous rotation poles, consequences of plate tectonics, mountain building, rifting, erosion, and recycling of continental materials are also discussed.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

MGG 580. Geological and Environmental Remote Sensing. 3 Credit Hours.

This one semester course will cover major remote sensing techniques used in the geological and environmental sciences. The course will begin with an introduction to the basic physics of remote sensing, followed by a review of major remote sensing techniques used in aircraft and satellite platforms, including IR and near IR, optical and microwave systems. We will then discuss specific terrestrial and coastal applications using a case history approach, including geologic, soil and biomass mapping, environmental monitoring, and natural hazard assessment. The course is aimed at graduate students and senior undergraduates with some background in math and physics. Grades are based on problems sets (a minimum of three), a mid-term test, and a report or lab exercise involving image processing, due at the end of the semester.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MGG 581. Petroleum Geology. 4 Credit Hours.

Students will learn the basics of hydrocarbon generation, migration and entrapment using a variety of tools and real subsurface datasets. Participants should be comfortable with sedimentary geology, stratigraphy, structural geology. Some basic geophysics is helpful but not necessary. At the end of the course, students will be able to use ARCGIS and other software tools to build risk maps of hydrocarbon prospectively, assess exploration potential of an area and understand the basics of reserve estimation, prospect level risk assessment and ways to estimate yet-to-find volumes for a basin using a variety of statistical as well as geological techniques. The course stresses an understanding of practical applications of petroleum geochemistry, source rock and fluids characterization, burial history and oil and gas show evaluation to predict new accumulations and appraise discoveries. Basic principles of rock property analysis, coupled with an understanding of subsurface pressures, seals and ways to recognize hydrocarbons on electric logs are also covered. Lastly, seismic stratigraphy and plate tectonics are touched upon. A large number of subsurface datasets are used and the opportunity exists to learn additional software packages for those interested. Many subsurface problems will involve small teams of students working together to make final presentations simulating real work-place discussions and processes.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MGG 583. Scanning Electron Microscopy. 2 Credit Hours.

Theory and practical application of the SEM and the electron probe to research problems. Lectures and laboratory with emphasis on independent operation of the SEM, special preparation techniques, and interpretation of results are included. Course is designed to provide students with a broad and thorough background in scanning electron microscopy.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MGG 584. Special Topics. 1-4 Credit Hours.

Lectures, research projects or directed readings in special topics related to Marine Geology and Geophysics.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MGG 585. Special Topics. 1-4 Credit Hours.

Lectures, research projects or directed readings in special topics related to Marine Geology and Geophysics.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MGG 586. Special Topics. 1-4 Credit Hours.

Lectures, research projects or directed readings in special topics related to Marine Geology and Geophysics.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MGG 601. Oceanography I (Geological). 2 Credit Hours.

The first section of the core course curriculum designed as an integrated and multidisciplinary view of ocean processes, covering the major disciplines of marine science and their applications to the study of the marine environment. To be taken in sequence with Oceanography II - Physical (MPO 502), Oceanography III - Chemical (MAC 501), and Oceanography IV - Biological (MBF 502). This course is for non-MGG majors only.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MGG 611. Earth Surface Systems. 3 Credit Hours.

An introduction to the elements of the earth surface environment and their interactions with an emphasis on the application to understanding the geologic record. Course includes discussions of the processes and agents that influence and shape the character of the earth's surface, the attributes of the resultant sedimentary features, and the use of these features to unravel geologic and geomorphic history. Focus is placed on systems dynamics and interactions among sedimentologic, geomorphic, biotic, and hydrologic processes.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MGG 613. Introductory Geochemistry. 3 Credit Hours.

Fundamentals of atomic structure and quantum mechanics applied to Chemistry. Topics include origin and distribution of the elements, chemical bonding and substitution, basic thermodynamics of solids, liquids, and gases. Applications of these concepts to such geochemical processes as magmatic differentiation, rock-water interactions, low temperature aqueous geochemistry, and the geochemical cycling of the elements is also included.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MGG 614. Geophysics. 3 Credit Hours.

Course topics include seismology, gravity, heat flow, thermal history, geomagnetism, plate tectonics, and their importance in understanding the Earth's crust, mantle, and core.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MGG 625. Applied Environmental Geophysics. 3 Credit Hours.

Application of subsurface geophysical tools to environmental problems. Course includes the theory and application of shallow refraction and reflection seismology, conducting field experiments and processing both marine and land seismic data, other marine survey techniques such as side-scan sonar surveying, potential field techniques (gravity, magnetics, EM), ground penetrating radar, and borehole geophysics.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MGG 641. Field Evaluation of Fossil Platforms, Margins, and Basins. 2 Credit Hours.

Field investigation of classic rock sequences formed within ancient platform, margin, and basin environments. The use of ancient exposures as a guide to the interpretation of modern marine environments.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MGG 650. Mathematical Methods for Geoscientists. 3 Credit Hours.

Background mathematics needed to solve problems in the geosciences. Applications in tectonics, geodynamics, structural geology, seismology, and hydrology. Topics include linear inverse problems, least squares, linear algebra, matrix theory, vectors, dimensional analysis, probability and scientific inference, continuum mechanics, transform and numerical methods to solve differential, and partial differential equations.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MGG 670. Continental Tectonics. 3 Credit Hours.

Reviews major research techniques used in the study of the structure and evolution of continental crust and topical discoveries, with an emphasis on the Neogene to Recent time. The course begins with brief introductions to the fields of structural geology, seismology, and geodesy as they relate to continental tectonics. New research in areas such as the rheology of the lithosphere, plate motion models, deformation of continental crust in plate boundary zones, oblique subduction, and earthquake hazard assessment are also discussed.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MGG 679. Plate Tectonics. 3 Credit Hours.

The theory of plate tectonics, sea floor spreading, and continental drift. Mathematical description of plate motions, finite and instantaneous rotation poles, consequences of plate tectonics, mountain building, rifting, erosion, and recycling of continental materials are also discussed.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

MGG 680. Geological and Environmental Remote Sensing. 3 Credit Hours.

This one semester course will cover major remote sensing techniques used in the geological and environmental sciences. The course will begin with an introduction to the basic physics of remote sensing, followed by a review of major remote sensing techniques used in aircraft and satellite platforms, including IR and near IR, optical and microwave systems. We will then discuss specific terrestrial and coastal applications using a case history approach, including geologic, soil and biomass mapping, environmental monitoring, and natural hazard assessment. The course is aimed at graduate students and senior undergraduates with some background in math and physics. Grades are based on problems sets (a minimum of three), a mid-term test, and a report or lab exercise involving image processing, due at the end of the semester.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MGG 681. Petroleum Geology. 4 Credit Hours.

Students will learn the basics of hydrocarbon generation, migration and entrapment using a variety of tools and real subsurface datasets. Participants should be comfortable with sedimentary geology, stratigraphy, structural geology. Some basic geophysics is helpful but not necessary. At the end of the course, students will be able to use ARCGIS and other software tools to build risk maps of hydrocarbon prospectively, assess exploration potential of an area and understand the basics of reserve estimation, prospect level risk assessment and ways to estimate yet-to-find volumes for a basin using a variety of statistical as well as geological techniques. The course stresses an understanding of practical applications of petroleum geochemistry, source rock and fluids characterization, burial history and oil and gas show evaluation to predict new accumulations and appraise discoveries. Basic principles of rock property analysis, coupled with an understanding of subsurface pressures, seals and ways to recognize hydrocarbons on electric logs are also covered. Lastly, seismic stratigraphy and plate tectonics are touched upon. A large number of subsurface datasets are used and the opportunity exists to learn additional software packages for those interested. Many subsurface problems will involve small teams of students working together to make final presentations simulating real work-place discussions and processes.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MGG 683. Scanning Electron Microscopy. 2 Credit Hours.

Theory and practical application of the SEM and the electron probe to research problems. Lectures and laboratory with emphasis on independent operation of the SEM, special preparation techniques, and interpretation of results are included. Course is designed to provide students with a broad and thorough background in scanning electron microscopy.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MGG 684. Special Topics. 1-4 Credit Hours.

Lectures, research projects or directed readings in special topics related to Marine Geology and Geophysics.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MGG 685. Special Topics. 1-4 Credit Hours.

Lectures, research projects or directed readings in special topics related to Marine Geology and Geophysics.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MGG 686. Special Topics. 1-3 Credit Hours.

Lectures, research projects or directed readings in special topics related to Marine Geology and Geophysics

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MGG 701. Seminar in Marine Geology and Geophysics. 1 Credit Hour.

Oral presentation and discussion of research and special topics by students, faculty, and visiting scientists. Students receiving credit are required to present a seminar.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

MGG 720. Satellite Radar Interferometry in the Earth Sciences. 3 Credit Hours.

Spaceborne interferometric Synthetic Aperture Radar is an important technique for various disciplines in the Earth Sciences, such as geodesy, glaciology and hydrology. This course reviews the principles of radar, synthetic aperture radar of interferometric and differential radar interferometric techniques.

Components: LEC.

Grading: GRD.

MGG 722. Geophysical Inverse Theory. 3 Credit Hours.

This course covers the principles of geophysical inverse theory as applies to problems in the Earth Sciences. Inverse theory is a set of mathematical techniques used to obtain inferences about the Earth from physical measurements. The focus of this class will be on formulating and solving inverse problems, and understanding the non-uniqueness and resolution associated with inversions. The emphasis will be on geodetic data (obtained from GPS and InSAR measurements).

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MGG 750. Stable Isotopes in Biogeochemical Processes. 3 Credit Hours.

Theory of stable isotope fractionation, methods of measurement, and application of results to geological, biological, and oceanographic processes. Hands-on experience in the stable isotope laboratory is provided utilizing a range of techniques. A project chosen either by the student or instructor is required. All students who wish to use the stable isotope facility should take this course. Lecture, 2 hours; laboratory, 3 hours. Prerequisite: Permission of instructor.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MGG 761. Sedimentary Petrology. 3 Credit Hours.

Composition, texture, fabric, and structures of sediments and sedimentary rocks. The occurrence and properties of the major clasts of detrital and chemical sediments from a petrologic and historical perspective is discussed.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MGG 762. Comparative Sedimentology. 3 Credit Hours.

The use of modern sediments to decipher processes of origin, accumulation, and early diagenesis as the basis for interpreting environments and architecture of ancient deposits in outcrop and in the subsurface. Evaluation of the sedimentary record of climate and sea level changes is included as well as the application of facies models for interpretation of seismic and log data.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MGG 768. Isotopic Processes in Earth Sciences. 3 Credit Hours.

The use of isotopic methods in geology, geochemistry, and geophysics, including oceanography and meteorology. General laws governing isotopic effects in chemical and physical processes are discussed. Specific problems in dating, tracing, and paleotemperatures are also included.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MGG 771. Diagenesis of Carbonate Sediments. 3 Credit Hours.

Application of geochemical, mineralogical, and petrological principles to the behavior of carbonate minerals in sediments. Physical and chemical conditions responsible for cementation, dolomitization, and aragonite-calcite phase transitions are emphasized. Types of depositional and diagenetic information which may be preserved in carbonate sediments. Laboratory studies of sediments are included.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MGG 772. Basin Analysis and Seismic Interpretation. 3 Credit Hours.

The processes of basin formation and filling. The principles of seismic facies analysis, seismic sequence stratigraphy, and their applications in basin analysis, groundwater management, and exploration for hydrocarbons are discussed.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MGG 776. Paleoclimatology. 3 Credit Hours.

Climatic variables and their effects on geological and biological processes. The development of the paleoclimatic record, modeling of present climate, and the extrapolation to past and future climates are discussed.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MGG 777. Physical Volcanology. 3 Credit Hours.

Volcanology is the study of volcanoes of the Earth and planets. On Earth, volcanoes occur on land and under the sea. Eruptions vary in size, duration, and frequency, and in the composition of eruptive rocks and volatiles. Proximity to centers of population makes some of them extremely dangerous. This course covers the principles of physical volcanology, including introductory petrology, mineralogy, geology, magma physics, the fluid dynamics of magmas, and volcanic hazards. Course logistics: Lectures supplemented by homework. Homework will be designed to illustrate physical processes.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MGG 781. Advanced Studies. 1-4 Credit Hours.

Special study in areas of special interest to graduate students.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MGG 782. Advanced Studies. 1-4 Credit Hours.

Special study in areas of special interest to graduate students.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MGG 783. Advanced Studies. 1-4 Credit Hours.

Special study in areas of special interest to graduate students.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MGG 784. Advance Studies. 1-3 Credit Hours.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MGG 785. Advance Studies. 1-3 Credit Hours.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MGG 786. Advance Studies. 1-3 Credit Hours.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MGG 787. Advance Studies. 1-3 Credit Hours.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MGG 788. Advance Studies. 1-3 Credit Hours.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MGG 800. Practical Training and Internship. 1-6 Credit Hours.

Supervised internship or off-campus employment for students pursuing the M.A., M.S., or Ph.D. degree. Consists of work related to research in progress.

Components: THI.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MGG 805. Special Report. 1-6 Credit Hours.

Supervised project for students pursuing the Master of Arts degree in Marine Studies. Course consists of a research paper, researched, and written on a topic approved by the student's advisory committee, and presented as a seminar to the student's division. Six credits are required for graduation.

Components: THI.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MGG 810. Master's Thesis. 1-6 Credit Hours.

The student working on his/her master's thesis enrolls for credit, in most departments not to exceed six, as determined by his/her advisor. Credit is not awarded until the thesis has been accepted.

Components: THI.

Grading: SUS.

Typically Offered: Fall, Spring, & Summer.

MGG 820. Research in Residence. 1 Credit Hour.

Used to establish research in residence for the thesis for the master's degree after the student has enrolled for the permissible cumulative total in MGG 710 (usually six credits). Credit not granted. May be regarded as full time residence.

Components: THI.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MGG 830. Doctoral Dissertation. 1-12 Credit Hours.

Required of all candidates for the Ph.D. The student will enroll for credit as determined by his/her advisor but not for less than a total of 12. Not more than 12 hours of MGG 730 may be taken in a regular semester, nor more than six in a summer session. Where a student has passed his/her (a) qualifying examinations, and (b) is engaged in an assistantship, he/she may still take the maximum allowable credit stated above.

Components: THI.

Grading: SUS.

Typically Offered: Fall, Spring, & Summer.

MGG 850. Research in Residence. 1 Credit Hour.

Used to establish research in residence for the Ph.D., after the student has been enrolled for the permissible cumulative total in appropriate doctoral research. Credit not granted. May be regarded as full-time residence as determined by the Dean of the Graduate School.

Components: THI.

Grading: SUS.

Typically Offered: Fall, Spring, & Summer.

Marine Science (MSC)

MSC 101. Survey of Oceanography. 3 Credit Hours.

Introduction to the oceans and their significance to mankind, encompassing geological, physical, chemical, and biological processes; man's role in and on the sea, including fisheries, pollution, and ocean management. Not for major or minor.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MSC 102. Introduction to Weather and Climate. 3 Credit Hours.

The structure, physics, dynamics and thermodynamics of the atmosphere. Weather, weather forecasting, climate and climate change.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MSC 103. Survey of Modern Meteorology. 3 Credit Hours.

Dynamics and thermodynamics of the atmosphere as they relate to contemporary issues in meteorology. Overview of numerical weather prediction techniques and new technologies for monitoring weather and climate. Open to majors or minors with permission of instructor.

Prerequisite: MTH 108.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MSC 104. Molecules Of Life. 3 Credit Hours.

Topics include: basic composition and chemistry of the atmosphere; chemical processes involved in regional air pollution and acid rain; health effects of air pollution; global change in the composition and climate of the atmosphere; stratospheric ozone, and global warming. The treatment will only utilize basic pre-calculus mathematics and high-school level chemistry.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MSC 107. Life in the Sea. 3 Credit Hours.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MSC 108. Environmental Oceanography. 3 Credit Hours.

This course will focus on environmental issues facing the oceans today, including global climate destabilization, the impact of population growth on coastal environments, marine pollution, and the state of marine fisheries. An active learning approach will be adopted, with emphasis on case studies and critical analysis. Marine environmental issues will be presented in self-contained analytical exercises. Basic math needed to quantify environmental issues will be introduced. Information and questions on sustainability will be integrated throughout the course and students will be asked to think critically about these pressing concerns.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

MSC 111. Introduction to Marine Science. 3.00 Credit Hours.

Geological, physical, chemical and biological processes of the world's oceans. The role of the oceans in global dynamics and man's role in and on the sea, including fisheries, pollution and ocean management. Enrollment limited to Marine Science/Marine Affairs majors and minors. Lecture and discussion, 3 hours. Field trips.

Components: DIS.

Grading: GRD.

Typically Offered: Fall.

MSC 115. Tropical Marine Biology. 3 Credit Hours.

A field and lecture study of selected marine environments around South Florida, with emphasis on the interaction between organisms and the geological, physical, and chemical environment. Field trips. Fee required.

Components: LEC.

Grading: GRD.

Typically Offered: Summer.

MSC 172. Special Topics in Marine Science. 2-6 Credit Hours.

Content varies by semester and is indicated in parentheses following course number and title in class schedule.

Components: THI.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MSC 180. Seminar In Marine Science. 1 Credit Hour.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MSC 190. Studies in Marine Science. 1-5 Credit Hours.

Components: LEC.

Grading: GRD.

MSC 191. Studies in Marine Policy. 1-5 Credit Hours.

Components: LEC.

Grading: GRD.

MSC 204. Environmental Statistics. 3 Credit Hours.

This introductory course provides an overview of parametric and nonparametric statistics with an emphasis on applications in the analysis of environmental data. (Not open to students with credit in MTH 224, BIL 311, PSY 204 or equivalent).

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

MSC 205. Mathematical Methods for Marine Science. 3 Credit Hours.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MSC 210. The Dynamic Oceans. 3 Credit Hours.

The course will describe the principal means of observing and quantifying oceanic circulation and will include descriptive treatments of ocean circulation at various time and length scales, including eddies, gyres, and strong currents such as the Gulf Stream. The course covers sea water properties, water masses and their distributions. The main concepts introduced are conservation principles and forcing mechanisms of the ocean circulation. The role of the oceans in earth's climate and climate variability are also treated.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MSC 215. Chemical Oceanography. 3 Credit Hours.

An introduction to the chemistry of the oceans. Descriptive chemical oceanography of the components of ocean waters (metals, gases, organic compounds and nutrients). Biogeochemical cycles in oceanic systems.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MSC 216. Chemical Oceanography Laboratory. 1 Credit Hour.

Chemical and physical methods in chemical oceanography. Analytical and instrumental techniques used to determine density, salinity, chlorinity, dissolved oxygen, nutrients and components of the carbonate system. Corequisite: MSC 215.

Components: LAB.

Grading: GRD.

Typically Offered: Spring.

MSC 220. Climate and Global Change. 3 Credit Hours.

The Earth's climate system and the role of natural and anthropogenic processes in shaping climate change.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MSC 222. Earth'S Climate: Past And Future. 3 Credit Hours.

According to the recent reports from the Intergovernmental Panel on Climate Change (IPCC), there is mounting evidence that human activities have increasingly played a significant role on the Earth's climate change over the last few centuries. While there is disagreement on the magnitude of these changes, it is widely accepted in the scientific community that the effects of anthropogenic forcing on climate will propagate into the future, with potentially dire socio-economic and environmental consequences. In spite of compelling instrumental and proxy data that document climate change on scales relevant to human societies, as well as a sharp increase in public dissemination of this information in recent years, the general public and many students of higher education remain skeptical and unconvinced about the primary driver(s) of global warming during the Anthropocene
Prerequisite: MSC 111, and GSC 110 or GSC 111. Or Requisite: Permission of Instructor.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MSC 230. Introduction to Marine Biology. 3 Credit Hours.

The sea as an environment. Marine life, its special problems and adaptations. Emphasis on Caribbean organisms. Lecture, 3 hours. Identical to BIL 230.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MSC 232. Introduction to Marine Biology Laboratory. 1 Credit Hour.

Ecology, physiology, and behavior of marine organisms in south Florida marine habitats. Laboratory Techniques.

Components: LAB.

Grading: GRD.

Typically Offered: Fall.

MSC 240. Introduction To Marine Geology. 3 Credit Hours.

The principal marine geological environments of the world, their substrate, their sediments, their flora and fauna, and their evolution through time.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MSC 264. Tropical Coastal Ecosystems. 3 Credit Hours.

This course will cover basic concepts of the ecology, management, conservation, and restoration of tropical marine ecosystems. The ecosystems and habitats to be discussed include coral reefs, seagrass beds, and mangrove forests. Given the importance of these ecosystems and their recent declining trajectories, we will discuss status and trends as well as disturbance factors affecting these resources. In addition to the ecology and conservation of these systems, we will cover basic concepts of population and community ecology, sampling design, and monitoring methods. Special attention will be given to the management tools presently used to protect and recover these resources, including the design and implementation of Marine Protected Areas and advances in the field of Restoration Ecology. Assigned readings will come from the two textbooks as well as the primary literature. The grading in this course will be based on two exams (midterm and final) as well as an oral or multimedia presentation.

Prerequisite: MSC 230.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MSC 265. Tropical Coastal Ecosystems: Lab and Field Methods. 1 Credit Hour.

This 1-credit course will complement the lecture-based MSC 264 (Science, Conservation, and Restoration of Tropical Coastal Ecosystems) by providing students with hands-on experience on common field survey methodologies used to assess the health of coastal ecosystems like seagrass beds and coral reefs and the opportunity to conduct a lab experiment on the effects of stressors like salinity, sedimentation, or nutrients on the growth and survivorship of the target organisms.

Prerequisite: MSC 264. Or Corequisite: MSC 264. Or Requisite: Instructor Permission.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MSC 300. Water Resources: History, Management, and Policy. 3 Credit Hours.

An overview of the issues and problems surrounding the management of aquatic resources in the broadest sense including water quality of natural waters, drinking water, water pollution, water quantity and supply issues, watershed management, wetland protection, and coastal management. We will explore the available strategies to wisely manage the various aquatic resources, policy options and their socio-economic aspects, legal frameworks, and institutional arrangements. The examples and cases discussed in the course will largely come from China, Vietnam, and the US.

Components: LEC.

Grading: GRD.

Typically Offered: Summer.

MSC 301. Introduction to Physical Oceanography. 3 Credit Hours.

Application of the laws of physics to the study of the properties and circulation of the world's oceans and atmosphere.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MSC 302. Introduction To Physical Oceanography Lab. 1 Credit Hour.

Laboratory exercises and field work on basic fluid mechanics applicable to the ocean. These include buoyant convection and double diffusion, methods for measuring flows, gravity wave experiments in the lab and field, diffusion studies and rotating tank investigations as an analog for planetary flows.

Prerequisites: MSC 301 or ATM 405. Or Corequisites: MSC 301 or ATM 405.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

MSC 307. Introduction to the physics of climate. 3 Credit Hours.

The physical mechanisms which govern the earth's climate and climate variability.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MSC 310. Living Resources of the Ocean. 3 Credit Hours.

Marine fish and shellfish of major commercial and recreational value: biology, techniques of harvesting, and resource management.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MSC 313. Coastal Law. 3 Credit Hours.

Basic doctrines and public policy related to the use and regulation of the United States coastal zone and seabed.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MSC 314. Ocean Law. 3 Credit Hours.

The principles of international ocean law regarding ocean management; ocean delimitation and issues of environmental ocean regulation within international legal framework.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MSC 316. Global Primary Production. 3 Credit Hours.

Photosynthesis supports the vast majority of life on planet earth. This course reviews the magnitude and the processes that shape primary production in terrestrial, oceanic, and freshwater habitats. It includes the fate of primary production in the earth's biomes, and the role of terrestrial and aquatic productivity in regulating, and responding to, variable climate.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MSC 317. Earth'S Biogeochemistry. 3 Credit Hours.

Outstanding features of planet Earth, including its vast oceans, climate and atmosphere, are strongly impacted by life. Scientists investigate these impacts, such as ocean acidification, variable atmospheric CO₂ concentrations, coastal anoxia, and permafrost melting, through their biogeochemical dynamics. The first part of the course covers the relevant microbial and chemical reactions that occur in the atmosphere, on land, in freshwaters and in the oceans. The second part links this mechanistic understanding to a large-scale, synthetic view of global biogeochemical cycles. These are considered in the context of global change.

Prerequisite: CHM 111 or CHM 112.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MSC 321. Scientific Programming in the Atmospheric Sciences. 3 Credit Hours.

An introduction to scientific programming in a linux environment using the FORTRAN 90/95 language with specific applications to Meteorology.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MSC 323. Invertebrate Zoology. 4 Credit Hours.

Biology of invertebrates, with emphasis on tropical and subtropical marine forms. Field work and combined lecture-laboratory sessions.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MSC 324. The Biology of Fishes. 3 Credit Hours.

Selected topics on the ecology and physiology of fishes. Lectures on reproduction, respiration, osmoregulation, sense systems, hormonal control.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MSC 325. Biological Oceanographic Techniques. 3 Credit Hours.

Field sampling for plankton biomass and productivity; benthic biomass, and of selected physical parameters. Applications of molecular techniques and remote sensing to oceanographic problems.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MSC 326. Marine Genomics. 3 Credit Hours.

Intensive lecture/laboratory course with emphasis on using genomic tools to address an independent research project of importance in the marine sciences.

Components: LAB.

Grading: GRD.

Typically Offered: Spring.

MSC 327. Marine Animal Neurophysiology and Behavior. 3 Credit Hours.

This course will look at neural and endocrine systems in a variety of marine animal invertebrate and vertebrate models and how these systems work together to control elements of physiology, sensation and perception of the environment and behavior.

Prerequisite: BIL 230 or MSC 230, and BIL 255.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MSC 328. Introduction To Aquaculture. 3 Credit Hours.

This course will provide an introduction to the field of aquaculture, which represents one of the fastest growing industries in food production in the worlds and is a field that offers exciting job opportunities in science, business, marketing, resource management, and socioeconomics. This course will provide students with a sound background in aquaculture prior to engaging in higher-level courses in this field.

Prerequisites: MSC 111 or MSC 230. Corequisite: MSC 230.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MSC 329. Marine Vertebrate Zoology. 3 Credit Hours.

The course will be a comprehensive examination of the form and function of the vertebrate lineage of marine animals from early chordates to the evolution of cartilaginous and bony fish and the emergence of tetrapods, those that evolved from marine ancestors and have since returned to the seas. A comparative point of view will be used to assess the anatomy and physiology of each taxonomic group as well as behavioral and ecological adaptations related to their life history. Specifically, the course will cover the emergence of the vertebrate body plan and the evolution of fish from agnathans through modern teleosts, as well as the tetrapod lineage of marine reptiles, marine birds, and marine mammals. We will examine critical points in vertebrate evolution where genome-wide duplication events occurred as well as instances of convergent evolution in various lineages.

Prerequisite: MSC 230.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MSC 333. Ocean Human Health. 3 Credit Hours.

The focus of this course is on the present, future, and potential effects of oceanic processes and marine organisms on human health and wellbeing and on human impacts on the marine environment. Pre-requisite MSC 230.

Prerequisite: MSC 230 or BIL 230.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MSC 340. Ocean Policy. 3 Credit Hours.

Analysis of ocean policy issues in US fisheries, marine conservation and marine protected areas, marine pollution, coastal management and regulation of offshore oil and gas activities.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MSC 342. Decision Making And The Environment. 3 Credit Hours.

A basic, critical appreciation of interdisciplinary decision theory as applied to natural resources management. Specific goals include comprehension of: decision making under uncertainty, evolutionary social science, managing common pool resources, and behavioral economics.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MSC 345. Economics of Natural Resources and the Environment. 3 Credit Hours.

A comprehensive overview of the economics of national, international, and global environmental problems. A unifying theme throughout is sustainable development defined as "maximizing the net benefits of economic development while maintaining the services and quality of natural resources over time". We will use economic reasoning to examine causes and consequences of environmental and resource problems, and measures for dealing with them.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MSC 346. Climate Science and Policy. 3 Credit Hours.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MSC 350. Survey of Marine Mammals. 3 Credit Hours.

The evolution and ecology of the cetaceans, pinnipeds, manatees, and allies: Natural history, zoogeography, physiology, husbandry, and biomedical aspects.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MSC 351. Physical-Biological Interaction In Ocean Ecosystems I. 3 Credit Hours.

Part 1 of a 2 course sequence encompassing physical oceanography, marine ecosystems and fisheries.

Prerequisite: MTH 162 or MTH 172.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MSC 352. Physical-Biological Interaction In Ocean Ecosystems II. 3 Credit Hours.

Part 2 of a 2 course sequence encompassing physical oceanography, marine ecosystems and fisheries.

Prerequisite: MSC 351. Corequisite: MSC 204.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MSC 355. Limnology. 3 Credit Hours.

This course is an introduction to the physical, chemical, and biological properties of freshwater ecosystems. It is intended as an upper level course for juniors and seniors. It emphasizes the ecological process of lakes, rivers, and to less extent, streams. The role of watershed processes is considered in the context of management of rivers and estuaries. Case studies integrate the scientific understanding of freshwater ecosystem function with management decisions. Applied aspects of freshwater systems are included.

Prerequisite: MSC 230. Or Requisite: Permission of Instructor.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MSC 364. Life in Moving Fluids. 3 Credit Hours.

The physical characteristics of air and water are described in relation to various flow phenomena that play a part in life functions. Adaptations of form and function reflect the very different properties of the media (air and water) of terrestrial and aquatic life. Energy conversion and transfer limit form and function and enable a wide variety of survival strategies.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MSC 370. Current Research in Marine Biology: Seminars and Discussion. 2 Credit Hours.

These discussions and seminars comprising a 2 cr course provide well-prepared undergraduate students interested in marine research with an introduction to graduate student-presented science in the specialization of marine biology.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MSC 371. Readings in Marine Science. 1-3 Credit Hours.

Library research with faculty supervision. Bibliography to be submitted in preparation for laboratory and/or field research project.

Components: DIS.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MSC 372. Special Topics in Marine Science. 1-6 Credit Hours.

Content varies by semester and is indicated in parentheses following course number and title in class schedule.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MSC 380. Field Studies In Marine And Aquatic Science. 1-4 Credit Hours.

Field course to selected marine, estuarine and/or aquatic sites in the United States and abroad. Travel fee may be required.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MSC 381. Marine Field Ornithology. 1-4 Credit Hours.

Waterbirds such as seabirds, shorebirds, and wading birds are key components of the marine ecosystem, including pelagic, coastal, and estuarine communities. As ecological indicators waterbird abundance provides a proxy for the health of these environments. Waterbirds have also served as important model systems for studies of behavior, evolutionary biology, and ecological theory. This course will provide an introduction to waterbird biology and conservation, including a variety of different field trips to waterbird communities.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MSC 390. Advanced Studies in Marine Science. 1-5 Credit Hours.

Components: LEC.

Grading: GRD.

MSC 391. Advance Studies In Marine Policy. 1-5 Credit Hours.

Components: LEC.

Grading: GRD.

MSC 403. Marine Environmental Toxicology. 3 Credit Hours.

This course will provide an introduction to the principles of environmental toxicology with an emphasis on marine ecosystems, considering a variety of different classes of toxicants, how they can impact marine organisms, the scientific methods used to assess impacts, and the regulatory frameworks used to monitor and manage their release to the environment.

Prerequisites: BIL 255, CHM 111, CHM 112.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MSC 404. Marine Org. & Env Health. 1 Credit Hour.

This 1 credit course will complement salt water semester courses. (Must have taken MSC403 or MSC333 and either MSC466 or MSC326 and MSC463). Students will be required to collect and analyze samples, interpret their findings and present them in a formal laboratory report due two weeks after the trip. Students will also be required to give a presentation they have prepared before the trip and attend two seminars on Marine Organismal and Environmental Health topics

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MSC 410. Marine Conservation Science. 3 Credit Hours.

Nature of marine biodiversity, what threatens it, and what can be done to recover the biological integrity of estuaries, coastal seas, and oceans. Topics include: distinctive aspects of marine populations and ecosystems; threats to marine biological diversity, singly and in combination; place-based management of marine ecosystems; and the human dimensions of marine conservation.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MSC 411. Projects in Marine Science. 1-4 Credit Hours.

Individual, independent research projects with faculty supervision. A formal written report is required.

Components: THI.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MSC 415. Coral Reef Science and Management. 3 Credit Hours.

The interdisciplinary nature of coral reef science and management: biological, environmental, ecological and socioeconomic aspects of coral reef science, coral reef management problems and approaches at local to global scales, and the implications of climate change for coral reef science and management.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MSC 417. Marine Biota And Biogeochemical Cycles. 3 Credit Hours.

The distribution of dissolved particulate materials in the sea is not uniform in time or space. Variability in these reflects the diverse biological sources, transformations, and sinks of chemical constituents in the sea. This course focuses on the role of marine organisms in marine biogeochemical cycling, with particular emphasis on the marine carbon and the nutrients. We visualize and query the ocean system using publicly available global ocean data sets and the application Ocean Data View. The material is presented as a capstone to your training in marine sciences, bringing together the physical, chemical and biological dynamics of the ocean as a single system.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MSC 420. Political Ecology of the Galapagos. 3 Credit Hours.

This field course in the Galapagos National Park offers a rare chance to examine the human interactions in this highly politicized landscape of conservation. Students practice the political ecology approach for doing ethnographic field work and explore how it can lead to wiser resource management. Part of UGalapagos semester.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MSC 421. Terrestrial Biology and Adaptations of the Galapagos.. 3 Credit Hours.

This course will examine the terrestrial plant and animal life of Isabela Island, discuss the biology and how it adapted to life on Isabela. Through field and laboratory exercises we will explore the power of organisms' DNA in shaping life into unique forms like those famously present in today's Galapagos. Part of UGalapagos semester.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MSC 422. Marine Ecology of the Galapagos. 3 Credit Hours.

This course focuses on marine ecosystems of the Galapagos, emphasizing near-shore environments. Topics will include how the unique location and oceanography of the Galapagos have shaped the species composition of resident and migrant marine animals. The role of genetic drift, local habitat characteristics and natural selection on marine ecosystems will be examined. This is a field intensive course with time spent in intertidal, near-shore and off-shore island environments. Part of UGalapagos semester.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MSC 423. Marine Conservation Biology & Fisheries of the Galapagos. 3 Credit Hours.

The Galápagos are located in a uniquely productive area of the sea, which has allowed the development of rich and unique marine biota. The first week of the course will carry the students through the dynamic, climatic, and oceanographic circumstances that determine the unique character of the Galapagos. The second week will cover scientific evaluation of the threats to the marine biodiversity of the Galapagos, focusing on sharks, penguins, sea turtles and other at-risk species and habitats. Part of UGalapagos semester.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MSC 424. Origin and Geology of the Galapagos Islands.. 3 Credit Hours.

This course will explore the origin and geology of volcanic oceanic islands, using the Galapagos Islands as a natural laboratory. Though all share a common origin in plate tectonic theory, each island presents a host of environments that originate in the processes of volcanic action, erosion and hydrology. Individual islands therefore develop distinctive ecosystems within which organisms interact and evolve. The emphasis of this course will be to lay out the underlying geological processes that have led to the formation of the islands and to their present state, and then to explore the ways the physical environment has influenced adaptation and biodiversity. Part of UGalapagos semester.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MSC 425. Galapagos Community-Based Research and Service. 2 Credit Hours.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MSC 427. Field Experience In The Galapagos Island. 3 Credit Hours.

This 3 cr, 20-day Summer I field course in the southern Galapagos Islands, with a research paper, is a companion course to the lecture course MSC426. MSC427 provides students with the first-person knowledge and opportunity for research in the topics covered in the previous lecture course, encompassing the flora, fauna, geology, and society of the Galapagos Islands.

Prerequisite: MSC 426.

Components: LEC.

Grading: GRD.

MSC 432. Comparative Ecology of Terrestrial and Marine Systems. 3 Credit Hours.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MSC 460. Spatial Applications in Marine Science. 3 Credit Hours.

The concepts and marine applications of Geographic Information Systems. Every class period will entail short class lectures and hands on computer based GIS exercise on marine science related issues. Students will learn how to use ArcGIS 9.2 and create simple GIS models primarily using vector data.

Components: LAB.

Grading: GRD.

Typically Offered: Fall & Spring.

MSC 462. Marine Biomedicine. 3 Credit Hours.

The course will cover diverse bioactive molecules that are derived from marine sources ranging from sponges to sharks. The isolation and characterization of these compounds as well as their potential application in clinical medicine and human health will be reviewed. The class will also cover marine-derived factors used in biotechnology and marine animal models used in biomedical research with an emphasis on marine immunology.

Prerequisite: BIL 255 and CHM 112.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MSC 463. Marine Conservation Genetics. 3 Credit Hours.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MSC 464. Marine Comparative Immunology Lab. 1 Credit Hour.

The laboratory course will cover immunology techniques used in the assessment of immune function and immune reactivity in diverse marine taxa from sponges to fish to mammals

Prerequisite: MSC 465. Or Corequisite: MSC 465.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MSC 465. Marine Comparative Immunology. 3 Credit Hours.

The course will cover immune function in diverse marine taxa from sponges to fish and the evolution of innate and adaptive immune mechanisms from a comparative point of view, with an emphasis on shark and fish immunology. Adaptations related to living in a microbe-rich marine environment will be highlighted. Potential applications of research findings will be addressed with respect to conservation and aquaculture. The role of invertebrate and vertebrate models in the study of the evolution of the immune system and applications for human health and medicine will be discussed.

Prerequisite: BIL 255.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MSC 466. Environmental Physiology: Oxygen, Water And Ionoregulatory Stress. 3 Credit Hours.

This is an intensive laboratory course that combines and elaborates on concepts learned in BIL 360. Topics will include homeostasis, interactions with the external environment, and life with limited oxygen and water. Lectures will be highly discussion-based; students will be expected to read primary research articles as suggested by the professor before lecture to foster participation in those discussions and form hypotheses about accompanying laboratory. Each lab will be written up as a formal laboratory report (i.e., Introduction, Materials and Methods, Results and Discussion).

Components: LAB.

Grading: GRD.

Typically Offered: Fall.

MSC 491. Special Studies in Marine Science. 1-3 Credit Hours.

Interdisciplinary capstone course in Marine Science. Content of course will vary by semester. Content in any semester will be expressed in parentheses following "Special Studies" in the class schedule.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

Marine and Atmospheric Chemistry (MAC)

MAC 503. Principles of Marine and Atmospheric Chemistry. 3 Credit Hours.

Introduction to the chemical aspects of the sea and atmosphere chemical composition, physico-chemical properties and relationships, methodology of study, fundamental aspects of marine and atmospheric chemistry.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MAC 510. Biogeochemical Exploration of the Major Ocean Basins. 3 Credit Hours.

This course will have students explore the basic hydrography and biochemistry of the major ocean basins through use of several publicly available global ocean data sets. Each ocean basin will be assessed for biogeochemical features that are unique to that system. By the end of the course, students will have the skills necessary to investigate and interpret marine biogeochemical processes throughout the global ocean.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MAC 560. Tropospheric Chemistry I. 3 Credit Hours.

Process-Oriented lower atmospheric chemistry. Topics include photochemical oxidant formation, nighttime chemistry, air-sea exchange, cloud droplet and aerosol reactions, physical properties of aerosols, and transport properties of the troposphere.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MAC 581. Special Topics in Marine and Atmospheric Chemistry. 1-4 Credit Hours.

Lectures, research projects or direct readings in special topics of marine and atmospheric chemistry.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MAC 584. Special Topics. 1-4 Credit Hours.

Lectures, research projects or directed readings in special topics of Marine and Atmospheric Chemistry.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MAC 603. Principles of Marine and Atmospheric Chemistry. 3 Credit Hours.

Introduction to the chemical aspects of the sea and atmosphere chemical composition, physico-chemical properties and relationships, methodology of study, fundamental aspects of marine and atmospheric chemistry.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MAC 610. Biogeochemical Exploration of the Major Ocean Basins. 3 Credit Hours.

This course will have students explore the basic hydrography and biochemistry of the major ocean basins through use of several publicly available global ocean data sets. Each ocean basin will be assessed for biogeochemical features that are unique to that system. By the end of the course, students will have the skills necessary to investigate and interpret marine biogeochemical processes throughout the global ocean.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MAC 660. Tropospheric Chemistry I. 3 Credit Hours.

Process-Oriented lower atmospheric chemistry. Topics include photochemical oxidant formation, nighttime chemistry, air-sea exchange, cloud droplet and aerosol reactions, physical properties of aerosols, and transport properties of the troposphere.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MAC 684. Special Topics. 1-4 Credit Hours.

Lectures, research projects or directed readings in special topics of Marine and Atmospheric Chemistry.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MAC 705. Chemical Oceanography. 3 Credit Hours.

Course consists of lecture and discussions with renowned experts in the major disciplinary foci and topical issues dominating the field of Chemical Oceanography. Topics include the chemistry and biogeochemical processes of the carbon cycle, ocean tracers, photochemistry, and specific marine environments (geothermal vents, anoxic waters, sediments, air/sea interface).

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MAC 720. Marine Physical Chemistry. 3 Credit Hours.

Physical-chemical principles applied to the marine environment, based on thermodynamics and the study of rate processes.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MAC 725. Marine Biochemical Cycles. 3 Credit Hours.

Course discusses the roles of bacteria in the transformation of compounds in the marine environment, their functions in the carbon, nitrogen, sulfur, and phosphorus cycles, and transformation of metals. Bacterial activities in the deep-sea environment and their involvement in corrosion and fouling is also discussed.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MAC 750. Reaction Kinetics and Molecular Dynamics. 3 Credit Hours.

Theories and experimental techniques for studying kinetics in the gas-phase, association, unimolecular and bimolecular reactions, chain reactions, flames, statistical theories, potential energy surfaces, collision dynamics, kinetics in solution and the solid-state, experimental methods, diffusion-controlled processes, transition state theory, thermal decomposition, and nucleation are discussed.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MAC 761. Tropospheric Chemistry II. 3 Credit Hours.

Chemical and physical properties of tropospheric aerosols. Topics include properties of aerosols, dynamics of single aerosol particles, thermodynamics of aerosols, nucleation theory, aerosol growth, heterogeneous processes, dynamics of aerosol populations, and radiative properties of atmospheric aerosols.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MAC 762. Environmental Photochemistry. 3 Credit Hours.

Introduction to the principles of photochemistry and their application to understanding sunlight initiated processes in the region of the ocean-atmosphere interface. Organic and inorganic photochemical reactions and subsequent thermal reactions in solution, gas, and solid media are discussed.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MAC 767. Marine Trace Element Geochemistry. 3 Credit Hours.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MAC 770. Seminar in Marine and Atmospheric Chemistry. 1.00 Credit Hour.

Oral presentation of research and special topics by students, faculty, and visiting scientists.

Components: SEM.

Grading: GRD.

Typically Offered: Fall & Spring.

MAC 781. Special Topics in Marine and Atmospheric Chemistry. 1-4 Credit Hours.

Lectures, research projects or direct readings in special topics of marine and atmospheric chemistry.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MAC 805. Special Report. 1-6 Credit Hours.

Supervised project for students pursuing the Master of Arts degree in Marine Studies. Consists of a paper, researched, and written on a topic approved by the student's advisory committee, and presented as a seminar to the student's division. Six credits are required for graduation.

Components: THI.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MAC 810. Master's Thesis. 1-6 Credit Hours.

The student working on his/her master's thesis enrolls for credit, in most departments not to exceed six, as determined by his/her advisor. Credit is not awarded until the thesis has been accepted.

Components: THI.

Grading: SUS.

Typically Offered: Fall, Spring, & Summer.

MAC 820. Research in Residence. 1 Credit Hour.

Used to establish research in residence for the thesis for the master's degree after the student has enrolled for the permissible cumulative total in MAC 710 (usually six credits). Credit not granted. May be regarded as full time residence.

Components: THI.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MAC 830. Doctoral Dissertation. 1-12 Credit Hours.

Required of all candidates for the Ph.D. The student will enroll for credit as determined by his/her advisor but not for less than a total of 12. Not more than 12 hours of MAC 730 may be taken in a regular semester, nor more than six in a summer session. Where a student has passed his/her (a) qualifying examinations, and (b) is engaged in an assistantship, he/she may still take the maximum allowable credit stated above.

Components: THI.

Grading: SUS.

Typically Offered: Fall, Spring, & Summer.

MAC 850. Research in Residence. 1 Credit Hour.

Used to establish research in residence for the Ph.D., after the student has been enrolled for the permissible cumulative total in appropriate doctoral research. Credit not granted. May be regarded as full-time residence as determined by the Dean of the Graduate School.

Components: THI.

Grading: SUS.

Typically Offered: Fall, Spring, & Summer.

Marketing (MKT)

MKT 201. Foundations of Marketing. 3 Credit Hours.

Understanding and satisfying consumer need through product planning, pricing, promotion, and distribution. Students identify and analyze marketing problems. Discovery and application of marketing skills are developed by marketing planning assignments, computer simulations, and case analysis.

Requisite: School of Business Administration.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

MKT 301. Marketing Foundations. 3 Credit Hours.

Understanding and satisfying consumer needs through product planning, pricing, promotion, and distribution. Students identify and analyze marketing problems. Discovery and application of marketing skills are developed by marketing planning assignments, computer simulation, and case analysis.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MKT 302. Marketing Research and Market Analysis. 3 Credit Hours.

Examination of the process, role, and function of marketing research, including research problem formation, research methods and procedures, data acquisition, sampling theory and practice, data analysis, presentation of results, ethical issues, and application for each of the above.

Prerequisites: MAS 201 or MAS 311 or PSY 204 or PSY 291 or PSY 292 or MTH 224 or IEN 311, MAS 202 or MAS 312 or IEN 312, MKT 201 or MKT 301.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

MKT 310. Consumer Behavior and Marketing Strategy. 3 Credit Hours.

The study of behavioral science research findings, principles, and theories, especially those from psychology and sociology, as they relate to the determinants of consumer buying behavior. The case approach is utilized to stimulate the development of creative marketing strategy.

Requisite: must be in the School of Business or have a Marketing minor.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

MKT 320. Retailing. 3 Credit Hours.

Retail store management, location, buying, merchandise control, policies, services, pricing, expenses, profits, training and supervision of retail sales force, and administrative problems are discussed.

Requisite: must be in the School of Business or have a Marketing minor.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MKT 340. Professional Selling. 3 Credit Hours.

Nature of the professional selling function and its relationship and contribution to the marketing strategy of organizations. Special emphasis is placed on broadly applicable principles and effective personal communication skills during the sales process.

Requisite: must be in the School of Business or have a Marketing minor.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MKT 360. International Marketing. 3 Credit Hours.

The major current factors affecting international marketing. Course is designed to acquaint students with the growing importance of world marketing in the U.S. and the strategic issues involved.

Prerequisites: MKT 201 or MKT 301.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MKT 380. New Product Development. 3 Credit Hours.

This course enables students to appreciate the systematic approach that goes into the creation and marketing of new products. Practical aspects of developing and marketing new products are inculcated through two assignments and one class project.

Requisite: must be in the School of Business or have a Marketing minor.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

MKT 385. Marketing for Entrepreneurs. 3 Credit Hours.

This course is focused on the study and practice of marketing all aspects of an entrepreneurial venture: the new company itself as well as its products or services. Topics will include: branding, pricing and costing, buying behavior, market segmentation, channel management, as well as exploring issues such as intellectual property, customer service, corporate versus product web sites, media exposure and PR, and maintaining an integrated plan for building the venture's brand.

Requisite: must be in the School of Business or have a Marketing minor.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

MKT 386. Advertising Management. 3 Credit Hours.

In this course, students learn about the components involved in researching, planning, creating, and executing advertising strategies.

The class gives students a better understanding of how advertising can be effectively used in a marketing strategy. Students also learn how advertising both influences and is influenced by cultural trends. Implications of this to both marketers and society as a whole are discussed.

Requisite: must be in the School of Business or have a Marketing minor.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

MKT 387. Digital Marketing. 3 Credit Hours.

This course will introduce students to the principles of digital marketing from both perspectives of theory and practice. On the theory side, students will learn foundations and recent research and development of digital marketing. Main contemporary digital marketing issues will be extensively discussed in class, including search engine optimization, search engine marketing, online advertising, web analytics, email marketing, social media marketing, and reputation management. Students will also learn how to form an appropriate strategy for a digital marketing campaign and use quantitative skills to analyze the effectiveness of such a campaign. On the practice side, students will collaborate in teams and participate in applied learning exercises. Students will grasp critical concepts of search engine optimization by working with a local business client, laying out a suitable pre-campaign strategy, implementing and modifying the campaign in real time, and summarizing the campaign results in a meaningful and concise manner when it is over.

Requisite: must be in the School of Business or have a Marketing minor.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

MKT 388. Health Care Marketing. 3 Credit Hours.

This course is devoted to the study of healthcare marketing and the healthcare system involved with the task of marketing products and services. As healthcare reform continues to evolve current market conditions and transform existing organization into new practices, this course is focused on how managed care providers, hospitals, physicians, federal government, device and pharmaceutical companies will embrace the new patient centered market in their marketing strategies.

Requisite: must be in the School of Business or have a Marketing minor.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

MKT 389. Understanding Media Metrics In The Digital World. 3 Credit Hours.

This course introduces the student to the basics of evolving new media business metrics and corresponding forms of audience and competitive marketplace analysis. Students will research and evaluate business models for multiplatform new media products that use any combination of print, radio, television, internet, or mobile technologies. Product evaluations will be set within the context of comparative media economics, new media market dynamics, and advertising revenue projections. The goal will be to evaluate whether an existing or a current media product has the critical mass required for profitable advertiser metrics. Students will be exposed to developing new media usage patterns, cross platform media support strategies, new models of entertainment and news gathering, and corporate media acquisitions and mergers. Local media executives, and entrepreneurs will be invited to class to review current trends and discuss strategies for success.

Prerequisites: MKT 201 or MKT 301.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

MKT 403. Marketing Management. 3 Credit Hours.

Marketing Management is a capstone course that examines new concepts and insights regarding marketing management. Through case analysis the course covers important aspects of marketing management. The students also participate in a simulation in which they manage multi-segment markets.

Prerequisites: MKT 201 or MKT 301, FIN 302, MKT 302. Or Corequisite: MKT 302.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

MKT 469. International Marketing Management. 3 Credit Hours.

International Marketing Management is a capstone course that examines new concepts and insights regarding international marketing management. Through case analysis the course covers important aspects of international marketing management. The students also participate in a simulation in which they manage multi-country markets.

Prerequisites: MKT 302, MKT 360. Or Corequisite: MKT 360.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

MKT 498. Topics in Marketing. 3 Credit Hours.

Topics in selected areas of Marketing.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MKT 499. Undergraduate Directed Study. 1 Credit Hour.

Individually supervised readings or research projects. Restricted to students with superior academic records. Approval of supervising professor as to topic and evaluation of project required at time of registration.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MKT 555. Marketing Honors Research Project. 3 Credit Hours.

Research project to fulfill requirements for Departmental Honors in Marketing.

Components: THI.

Grading: SUS.

Typically Offered: Spring.

MKT 639. Marketing Honors Research Project. 3 Credit Hours.

Research project to fulfill requirements for Departmental Honors in Marketing.

Components: THI.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MKT 640. Foundations of Marketing Management. 2 Credit Hours.

Course introduces students to the analytical concepts and tools of marketing management. Special emphasis is placed on the relationships between marketing and overall company strategy, the development of a customer orientation, the integration of marketing throughout the organization, and the implementation of systems for planning and controlling the marketing effort. Students consider problems of consumer analysis, product planning, integrated communication, distribution, and pricing. The discovery and application of marketing management skills are developed through the use of readings, case exercises, and class discussions.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

MKT 641. Marketing Research. 2 Credit Hours.

The objective of the course is to allow students to understand functional analysis of consumer and market behaviors utilizing statistical tools.

The course will cover topics of secondary sources of data, sampling, questionnaire design, and analysis and interpretation of data. Project and case analysis methods will be used for instruction.

Prerequisites: MKT 640 or MKT 660.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

MKT 642. Pricing And Value Management. 2 Credit Hours.

Pricing decisions require a synthesis of economic and marketing principles, an appreciation of legal and ethical constraints, and the ability to use accounting, financial, and market research data. This course is designed to teach students how to price goods and services by providing a framework for understanding pricing strategies and tactics. While pricing strategies are taught under the rubric of many diverse disciplines, we will take an integrative approach, combining strategic, economic, marketing, and psychological considerations. Topics covered include economic value and break-even analysis, price elasticity, markup and profit margin, price bundling, among others.

Prerequisites: MKT 640 or MKT 660.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MKT 644. Services Marketing. 2 Credit Hours.

Course develops skills necessary to manage companies in an increasingly service-oriented and technology-driven economy and to gain sustainable competitive advantage through delivering superior quality services. Course covers the special marketing challenges posed by the unique characteristics of services and discusses their managerial implications. The need and strategies for synergistic management of operations, systems, and people to satisfy customers in order to achieve marketing excellence and superior financial performance are also included.

Prerequisites: MKT 640 or MKT 660.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

MKT 645. International Marketing. 2 Credit Hours.

Course analyzes the theories and practice of international marketing management. Course allows students to understand markets and aid in the development of marketing plans based on the nature of national as well as international markets. Issues of globalization, standardization, intermarket segments, trading blocks, global marketing strategies, local branding, global branding in the context of customer movements, product development, pricing, distribution, communication, and segmentation in global markets are also discussed.

Prerequisites: MKT 640 or MKT 660.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

MKT 646. Consumer Behavior. 2 Credit Hours.

This course provides an overview of psychological and normative principles of consumer decision-making and judgment by focusing on underlying behavioral research and theory. How people process information, make decisions involving risk and uncertainty, conflicting objectives, and imperfect information are some of the main topics discussed. The implications of consumer behavior on a marketing strategy are highlighted.

Prerequisites: MKT 640 or MKT 660.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

MKT 647. Advertising and Communications Management. 2 Credit Hours.

Billions of dollars are wasted every year on ineffective advertising and communication campaigns. This problem is due to an absence of a compelling strategy to serve as a foundation for developing creative executions and media plans. The course provides a balanced analysis of strategy and execution of integrated marketing communication campaigns. The effectiveness of existing and emerging communication vehicles to attain strategic marketing goals is assessed. Special emphasis is placed on advertising, sales promotions, and online communications. Current and historical campaigns are also reviewed. Course requirements include case reports, projects, and class participation.

Prerequisites: MKT 640 or MKT 660.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

MKT 648. New Product Development. 2 Credit Hours.

This course enables students to appreciate the systematic approach that goes into the creation and marketing of new products. Practical aspects of developing and marketing new products are included through two assignments and one class project.

Prerequisites: MKT 640 or MKT 660.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MKT 649. Strategic Brand Marketing. 2 Credit Hours.

More and more firms have come to realize that their brands are among their most valuable assets. The goal of this course is to teach students the strategic significance of brands in creating shareholder value. Students should develop fluency with the core principles associated with branding including: an understanding of how to develop a brand's positioning; managing total brand experience; how to manage the brand relevancy over time; familiarity with the various qualitative and quantitative methodologies that are used to evaluate brand equity; how to achieve growth through brand extension; brand design and brand messaging. The basic philosophy for this course is to blend theory and practice of brand management. Branding is both an art and a science. Few branding situations have a definitive, unqualified "right" answer as to what is the best approach. However, when armed with relevant and comprehensive theories, appropriate frameworks and models, familiarity with past successful and unsuccessful branding strategies, managers can make better and more informed decisions that are more likely to yield successful implementation.

Prerequisites: MKT 640 or MKT 660.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MKT 650. Strategic Marketing. 2 Credit Hours.

Course develops the skills necessary to strategically manage business-unit level marketing activities in a multi-brand firm. This necessitates examining all marketing mix elements, R&D, financial and production considerations simultaneously in the context of the many markets, products, and services that may concern a typical firm. The emphasis is placed on understanding internal capabilities, market competitors, and customers. Market simulation exercise, cases, and readings are utilized. Prerequisites: MKT 640 or MKT 660.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

MKT 660. Foundations of Marketing Management. 3 Credit Hours.

Marketing problems experienced by top executives are examined and fundamental problem-solving concepts are developed. Students consider problems of consumer needs, product planning, promotion, distribution and pricing. The discovery and application of marketing management skills are developed through the use of cases and a major planning project.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

MKT 665. International Marketing. 3 Credit Hours.

Analysis of major U.S. foreign markets, marketing policies, and techniques are discussed.

Prerequisites: MKT 640 or MKT 660.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

MKT 672. Services Marketing. 3 Credit Hours.

Course develops the skills necessary to manage services marketing and compete through delivering quality service. The unique characteristics of services and their managerial implications are examined. Importance of the synergistic management of operations, environment, systems and people to satisfy the customer is highlighted.

Prerequisites: MKT 640 or MKT 660.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

MKT 675. Marketing Analytics. 2 Credit Hours.

More and more firms now consider data is one of their key strategic assets. This has made analytics an important subject for business majors. One area where firms find analytics useful is marketing. Today firms use analytics to identify profitable customers, continuously track brands, calculate optimal price promotions, test commercials and optimize media budgets across online and offline channels. The goal of this course is to give you hands-on experience with data and analytics and teach you how to draw strategic marketing insights from data.

Prerequisites: MKT 640 or MKT 660.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MKT 686. Behavioral Decision Theory in Consumer Research.. 3 Credit Hours.

The objective of this seminar is to acquaint students with important theories and findings regarding consumer behavior and to stimulate research. Students will learn how to identify important research problems, ask interesting research questions, develop theories and hypotheses, and design experiments.

Requisite: Must be registered Doctoral Student.

Components: SEM.

Grading: GRD.

Typically Offered: Spring.

MKT 687. Marketing Strategy. 3 Credit Hours.

Marketing Strategy is a vast, exciting and exploding literature that almost defies classification. However, despite this difficulty one common theme unifies and distinguishes this stream of research: it is marketing as seen through the eyes of a manager. Is it worth fighting for market share? How do we analyze competitors? Is it more profitable to introduce a new product or enter a new market? Should we build on existing relationships or seek new customers? Does loyalty management pay? Do consumers understand product quality? Can we quantify the effects of advertising and promotions? What metrics should we use to evaluate the effectiveness of marketing effort? Can we run policy simulations before committing to marketing action? These are some of the questions that marketing managers need to address. Often the questions are very broad and complex, reflecting the bewildering range of techniques that have been used to address those questions. The seminar will try to impart an appreciation of how to define and solve research problems in a marketing strategy.

Requisite: Must be registered Doctoral Student.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MKT 688. Ph.D. Seminar in Consumer Behavior and Decision Making. 3 Credit Hours.

This course is designed to provide students with a background regarding a wide set of topics in consumer behavior focusing on theoretical models. In addition to developing a knowledge base in several extant consumer behavior literatures, this course has several additional goals. Students will: 1) become familiar with the content and style of consumer behavior research published within the marketing field, 2) develop an understanding of many methodologies and paradigms that can be used to investigate theoretical issues, 3) have several opportunities to explicate research ideas that they will hopefully be able to pursue in the remainder of the program or early in their careers, and 4) learn to critically evaluate the research of others to aid in strengthening their thinking and ultimately their own research activities.

Requisite: Must be registered Doctoral Student.

Components: THI.

Grading: GRD.

Typically Offered: Fall.

MKT 695. Topics In Marketing. 1-3 Credit Hours.

Topics in selected areas of Marketing.

Requisite: Must be registered Doctoral Student.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MKT 696. Topics In Marketing. 1-3 Credit Hours.

Topics in selected areas of Marketing.

Requisite: Must be registered Doctoral Student.

Components: SEM.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MKT 697. Topics In Marketing. 1-3 Credit Hours.

Topics in selected areas of Marketing.

Requisite: Must be registered Doctoral Student.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MKT 698. Topics In Marketing. 1-3 Credit Hours.

Topics in selected areas of Marketing.

Requisite: Must be registered Doctoral Student.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MKT 699. Directed Study. 1-6 Credit Hours.

Individually supervised readings or research projects. Restricted to students with superior academic records. Approval of supervising professor as to topic and evaluation of project required at time of registration.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MKT 830. Doctoral Dissertation. 1-12 Credit Hours.

Required of all candidates for the Ph.D. The student will enroll for credit as determined by his/her advisor but not for less than a total of 24. Not more than 12 hours of MKT 730 may be taken in a regular semester, nor more than six in a summer session. Where a student has passed his/her (a) qualifying examinations, and (b) is engaged in an assistantship, he/she may still take the maximum allowable credit stated above.

Components: THI.

Grading: SUS.

Typically Offered: Fall, Spring, & Summer.

Master of Arts Liberal Studies (MLS)

MLS 601. Aspects of Creative and Reflective Thought. 3 Credit Hours.

Selected aspects of creative and reflective thought, based on materials from the arts, the humanities, the sciences, the social sciences and history. The focus will be on themes and issues represented in a variety of cultural traditions.

Components: SEM.

Grading: GRD.

Typically Offered: Fall & Spring.

MLS 602. Perspectives on Human Nature. 3 Credit Hours.

Basic theories of human nature proposed by the humanities, the sciences, and the social sciences. The course deals with fundamental issues regarding the concept of human nature, such as the nature of the self and its relation to society, the impact of culture on self perception and the relation of thought to human action.

Components: SEM.

Grading: GRD.

Typically Offered: Fall & Spring.

MLS 603. Theories of the Physical Universe. 3 Credit Hours.

Various understandings of the nature of the universe and their impact on human culture. The course will deal with critical issues addressed in the various attempts to understand the physical world, such as fundamental structures and processes, the limitation of human perception, and the interaction between the human species and its environment.

Components: SEM.

Grading: GRD.

Typically Offered: Fall & Spring.

MLS 611. Studies in the Humanities. 3 Credit Hours.

Interdisciplinary study of selected topics in the Humanities.

Components: SEM.

Grading: GRD.

Typically Offered: Fall & Spring.

MLS 612. Studies in the Social Sciences. 3 Credit Hours.

Interdisciplinary study of selected topics in the Social Sciences.

Components: SEM.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MLS 613. Studies in the Sciences. 3 Credit Hours.

Interdisciplinary study of selected topics in the sciences.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MLS 621. Studies in the Humanities. 3 Credit Hours.

Components: SEM.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MLS 625. Special Topics. 3 Credit Hours.

Components: SEM.

Grading: GRD.

Typically Offered: Fall & Spring.

MLS 626. Special Topics. 3 Credit Hours.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MLS 627. Special Topics. 3 Credit Hours.

Components: SEM.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MLS 631. Studies in the Humanities. 3 Credit Hours.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MLS 696. Directed Readings. 1-3 Credit Hours.

Requisite: Plan of Master of Arts Liberal Studies.

Components: THI.

Grading: GRD.

Typically Offered: Fall & Spring.

MLS 697. Directed Readings. 1-3 Credit Hours.

Requisite: Plan of Master of Arts Liberal Studies.

Components: THI.

Grading: GRD.

Typically Offered: Fall & Spring.

MLS 798. Seminar in Liberal Studies. 3 Credit Hours.**Components:** LEC.**Grading:** GRD.**Typically Offered:** Offered by Announcement Only.**MLS 799. Seminar in Liberal Studies. 3 Credit Hours.****Components:** SEM.**Grading:** GRD.**Typically Offered:** Offered by Announcement Only.**MLS 810. Master's Thesis. 1-6 Credit Hours.**

The student working on his/her master's thesis enrolls for credit, in most departments not to exceed six, as determined by his/her advisor. Credit is not awarded until the thesis has been accepted.

Requisite: Plan of Master of Arts Liberal Studies.

Components: THI.**Grading:** SUS.**Typically Offered:** Fall & Spring.**MLS 815. Mals Project. 1-6 Credit Hours.**

The student working on his/her MALS project enrolls for credit, not to exceed 6, as determined by his/her advisor. Credit is not awarded until the project has been accepted.

Requisite: Plan of Master of Arts Liberal Studies.

Components: THI.**Grading:** GRD.**Typically Offered:** Fall & Spring.**MLS 820. Research in Residence. 1 Credit Hour.**

Used to establish research in residence for the thesis for the master's degree after the student has enrolled for the permissible cumulative total in PSY 710 (usually six credits). Credit not granted. May be regarded as full time residence.

Requisite: Plan of Master of Arts Liberal Studies.

Components: THI.**Grading:** GRD.**Typically Offered:** Fall & Spring.**MLS 825. Continuous Registration-Master's Study. 1 Credit Hour.**

To establish residence for non-thesis students who are preparing for major examinations. Credit not granted. Regarded as full time residence.

Requisite: Plan of Master of Arts Liberal Studies.

Components: LEC.**Grading:** GRD.**Typically Offered:** Offered by Announcement Only.

Mathematics (MTH)

MTH 099. Intermediate Algebra. 3 Credit Hours.

Real number operations, polynomials, factoring, rational numbers and rational expressions. Cannot be used to fulfill the 120 credits required for graduation.

Components: LEC.**Grading:** GRD.**Typically Offered:** Fall, Spring, & Summer.**MTH 101. Algebra for College Students. 3 Credit Hours.**

Algebraic operations and properties of the real numbers; linear and quadratic equations and inequalities; polynomials and factoring; rational expressions; radical expressions; graphs of lines; systems of linear equations.

Requisite: ALEKS score ≥ 40 or passing grade in MTH 099.**Components:** LEC.**Grading:** GRD.**Typically Offered:** Fall, Spring, & Summer.**MTH 105. Algebra and Trigonometry. 5 Credit Hours.**

An intensive course in algebra and trigonometry as covered in MTH 107-108, but without analytic geometry.

Requisite: ALEKS score ≥ 55 or passing grade in MTH 101.**Components:** LEC.**Grading:** GRD.**Typically Offered:** Fall & Spring.**MTH 107. Precalculus Mathematics I. 3 Credit Hours.**

Algebraic operations; equations and inequalities; complex numbers; functions and their graphs; polynomial, exponential, and logarithmic functions; systems of equations.

Requisite: ALEKS score ≥ 55 or passing grade in MTH 101.**Components:** LEC.**Grading:** GRD.**Typically Offered:** Fall, Spring, & Summer.**MTH 108. Precalculus Mathematics II. 3 Credit Hours.**

Rational functions; analytic geometry; trigonometric functions, identities, and equations.

Requisite: ALEKS score ≥ 65 or a passing grade in MTH 107.**Components:** LEC.**Grading:** GRD.**Typically Offered:** Fall, Spring, & Summer.**MTH 113. Finite Mathematics. 3 Credit Hours.**

Sets, logic, counting techniques, elementary probability and statistics, mathematics in finance, linear programming, algebraic structures, symmetry. The selection of topics may vary by instructor. Intended for BA students.

Prerequisite: MTH 101 or MTH 107. Or Requisite: ALEKS score ≥ 60 or SAT score ≥ 630 or ACT score ≥ 28 .**Components:** LEC.**Grading:** GRD.**Typically Offered:** Fall, Spring, & Summer.**MTH 130. Introductory Calculus. 3 Credit Hours.**

A one-semester survey of the fundamental principles of calculus, functions, limits, derivatives, definite integrals, applications. Not for students planning further study of calculus beyond this course.

Requisite: ALEKS score ≥ 65 or SAT score ≥ 630 or ACT score ≥ 28 or credits awarded for AP Calculus (AB) or a passing grade in MTH 107.**Components:** LEC.**Grading:** GRD.**Typically Offered:** Fall & Spring.**MTH 133. Games And Strategies. 3 Credit Hours.**

A mathematical introduction to the theory of games, strategies, and optimal responses. Primarily intended for students in a B.A. program.

Prerequisite: MTH 113 or MTH 130.

Components: LEC.**Grading:** GRD.**Typically Offered:** Offered by Announcement Only.

MTH 140. Calculus Concepts with Foundations A. 4 Credit Hours.

Tools from algebra and trigonometry for calculus. Functions and graphs, limits and continuity, the derivative and applications.

Requisite: ALEKS score ≥ 65 or SAT score ≥ 630 or ACT score ≥ 28 or credits awarded for AP Calculus (AB).

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MTH 141. Calculus Concepts with Foundations B. 4 Credit Hours.

Tools from algebra, trigonometry, and analytic geometry for calculus.

Further aspects of differentiation. Antiderivatives, definite integrals, and their applications.

Prerequisite: MTH 140.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MTH 151. Calculus I for Engineers. 5 Credit Hours.

Analytic geometry, limits and continuity, derivatives, the definite integral, and applications relevant to engineering. Intended for students taking PHY 205 concurrently.

Requisite: ALEKS score ≥ 76 or C- or higher in MTH 105 or MTH 108.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

MTH 161. Calculus I. 4 Credit Hours.

Limits and continuity, derivatives and applications, the definite integral and applications.

Requisite: ALEKS score ≥ 76 or SAT score ≥ 700 or ACT score ≥ 31 or credits awarded for AP Calculus (AB or BC) or a C- or higher in MTH 108.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MTH 162. Calculus II. 4 Credit Hours.

Transcendental functions, methods of integration, improper integrals, infinite series, polar coordinates, and introduction to differential equations.

Prerequisite: MTH 141 or MTH 151 or MTH 161 or MTH 171.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MTH 171. Calculus I. 4 Credit Hours.

The theory of limits, the derivative and the definite integral, techniques and applications. The sequence MTH 171-172 is more conceptually-oriented than MTH 161-162.

Requisite: Prism Program.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MTH 172. Calculus II. 4 Credit Hours.

Continuation of MTH 171. Additional topics on the derivative and definite integral, improper integrals, infinite series, and introduction to differential equations.

Prerequisite: MTH 171.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

MTH 210. Introduction to Linear Algebra. 3 Credit Hours.

Vectors, matrix algebra, systems of linear equations, and related geometry in Euclidean spaces. Fundamentals of vector spaces, linear transformations, determinants, eigenvalues, and eigenspaces.

Prerequisites: MTH 162 or MTH 172. Or Corequisites: MTH 162 or MTH 172.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

MTH 211. Calculus III. 3 Credit Hours.

Vectors in space, partial differentiation, multiple integration.

Prerequisite: MTH 162 or MTH 172. Requisite: Not open to students with credit in MTH 310 or MTH 433 or MTH 533.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MTH 224. Introduction to Probability and Statistics. 3 Credit Hours.

Probability distributions, random variables, expectation and variance, point estimation, interval estimation, testing of hypotheses, analysis of variance.

Prerequisites: MTH 162 or MTH 172. Or Corequisites: MTH 162 or MTH 172.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MTH 230. Introduction to Abstract Mathematics. 3 Credit Hours.

Fundamentals of set theory, logic and methods of mathematical proof.

Prerequisites: MTH 162 or MTH 172. Or Corequisites: MTH 162 or MTH 172.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

MTH 271. Sophomore Honors in Mathematics. 1 Credit Hour.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MTH 309. Discrete Mathematics I. 3 Credit Hours.

Mathematical methods of Computer Science and Computer Engineering. Mathematical reasoning, sets, relations, functions, Boolean algebra, combinatorics, graphs.

Prerequisite: MTH 141 or MTH 151 or MTH 161 or MTH 171.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

MTH 310. Multivariable Calculus. 3 Credit Hours.

Equations of curves, surfaces, solids; vector differential calculus; integration of scalar valued functions. Applications. Intended for mathematics majors.

Prerequisite: MTH 210, MTH 162 or MTH 172. Requisite: Not open to students with credit in MTH 433 OR MTH 533.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MTH 311. Introduction to Ordinary Differential Equations. 3 Credit Hours.

Theory and applications of first-order differential equations. Linear differential equations. Solutions in series.

Prerequisite: MTH 162 or MTH 172.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

MTH 320. Introduction to Numerical Analysis. 3 Credit Hours.

Interpolation, quadrature, numerical solution of algebraic and transcendental equations, and optimization.

Prerequisite: MTH 210, and MTH 211 or MTH 310.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MTH 359. Mathematical Models in Biology and Medicine. 3 Credit Hours.

Fundamentals of the dynamical systems approach to modeling temporal change in biological systems. An introduction to the analysis of mathematical models in biology and medicine with detailed, concrete examples drawn from ecology, cell biology, neuro-science, and physiology.

Prerequisite: Grade of C- or better in MTH 162 or MTH 172.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MTH 433. Advanced Calculus. 3 Credit Hours.

A rigorous and comprehensive treatment of the theoretical concepts of calculus. The real number system; sequences; series; continuity, differentiation, and integration of functions of one variable.

Prerequisites: MTH 230, MTH 310 or MTH 211. Requisite: Not open for Students with Credit in MTH 533.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MTH 461. Survey Of Modern Algebra. 3 Credit Hours.

Algebraic systems, equivalence classes, groups, rings, fields, unique factorization domains.

Prerequisites: MTH 210 and MTH 230. Requisite: Not open to students with credit in MTH 561.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

MTH 471. Directed Readings. 1-3 Credit Hours.

Topics selected from algebra, geometry, analysis, topology.

Components: THI.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MTH 472. Directed Readings. 1-3 Credit Hours.

Topics selected from algebra, geometry, analysis, topology.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MTH 502. History of Mathematics. 3 Credit Hours.

The development of mathematics from its earliest beginnings through the first half of the twentieth century. Numeral systems, geometry, algebra, analysis and set theory.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MTH 504. Foundations of Geometry. 3 Credit Hours.

Axiom systems and models of Euclidean and Non-Euclidean geometry.

Prerequisite: MTH 230 or MTH 309.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MTH 505. Theory of Numbers. 3 Credit Hours.

Divisibility, primes; congruences, quadratic residues and reciprocity; Diophantine equations. Applications to cryptography.

Prerequisite: MTH 210 or MTH 504.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MTH 506. Mathematical Logic. 3 Credit Hours.

Logics, truth, proof, logical consequence, model theory, formalization, and computation. Meta-theory of first-order logic, computability theory, and Godel's incompleteness theorems. Related results by Church, Turing, and Tarski. Discussion of their philosophical significance.

Prerequisite: MTH 230.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MTH 510. Linear Algebra. 3 Credit Hours.

Abstract vector spaces, bases and dimensions, linear maps, eigenvalues and eigenvectors, inner product spaces, operators, spectral theorems, canonical forms.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MTH 512. Elementary Complex Analysis. 3 Credit Hours.

Complex variables; conformal mapping, contour integration.

Prerequisite: MTH 310 or MTH 211.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MTH 513. Partial Differential Equations I. 3 Credit Hours.

Derivation, well posedness, and qualitative properties of initial value and boundary value problems for the heat, wave and Laplace equations. Energy methods, causality, maximum principles, heat kernels, Fourier series, and potential theory.

Prerequisite: MTH 210, MTH 311, and MTH 211 or MTH 310.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MTH 514. Partial Differential Equations II. 3 Credit Hours.

Continuation of MTH 513. Approximations of solutions, distributions and integral transform methods, spectral theory and scattering. Applications to physical problems. Nonlinear equations and phenomena.

Prerequisite: MTH 513.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MTH 515. Ordinary Differential Equations. 3 Credit Hours.

Linear systems, equilibrium and periodic solutions, stability analysis, bifurcation, phase plane analysis, boundary value problems, applications to engineering and physics.

Prerequisite: MTH 311, and MTH 211 or MTH 310.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MTH 516. Dynamics and Bifurcations. 3 Credit Hours.

Bifurcation of equilibrium and periodic solutions, global theory of planar systems, planar maps, nonlinear vibrations, forced oscillations, chaotic solutions, Hamiltonian systems, applications to engineering and physics.

Prerequisite: MTH 515.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MTH 520. Numerical Linear Algebra. 3 Credit Hours.

Topics from numerical linear algebra including solving systems of equations, LU, QR, and SVD factorizations, eigenvalues and eigenvectors, interactive methods and applications.

Prerequisite: MTH 320.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MTH 521. Numerical Methods In Differential Equations. 3 Credit Hours.

Numerical solution of ordinary and partial differential equations.

Prerequisite: MTH 320 or MTH 520.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MTH 524. Introduction to Probability Theory. 3 Credit Hours.

Probability spaces, random variables, expectation, limit theorems.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MTH 525. Introduction to Mathematical Statistics. 3 Credit Hours.

Probability distributions, theory of sampling and hypothesis testing.

Prerequisite: MTH 524.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MTH 527. Theory of Computing. 3 Credit Hours.

Sets, relations, and languages. Automata theory. Basic computability theory. Turing machines. The complexity classes P and NP.

Prerequisite: MTH 309 or MTH 461.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MTH 531. Topology I. 3 Credit Hours.

Set theory, topological spaces, compactness, connectedness, separation properties, quotient spaces, Tychonoff Theorem, compactification, Urysohn Lemma and Tietze Extension Theorem, function spaces.

Prerequisite: MTH 230.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MTH 532. Topology II. 3 Credit Hours.

Differential and topological manifolds, classical groups and associated manifolds, tangent and tensor bundles, vector fields, differential forms, transversality, Sard's theorem, Stokes' Theorem.

Prerequisite: MTH 210 and MTH 531.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MTH 533. Introduction to Real Analysis I. 3 Credit Hours.

Sequences and series in Euclidean space; sequences and series of functions; Fourier series; continuity, differentiation, and integration of functions between Euclidean spaces; implicit and inverse function theorems.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MTH 534. Introduction to Real Analysis II. 3 Credit Hours.

Continuation of MTH 533.

Prerequisite: MTH 533.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MTH 542. Statistical Analysis. 3 Credit Hours.

Statistical inference about one or two populations from interval, ordinal and categorical data; analysis of variance; simple and multiple linear regression; designing research studies.

Prerequisite: MTH 210 and MTH 224.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MTH 547. Introduction To Mathematical Finance. 3 Credit Hours.

Models of financial markets. Derivative securities: European and American options. Tools of mathematical finance: binomial trees, martingales, stopping times. Concepts of arbitrage and hedging. Risk-neutral valuation of financial derivatives; the Black-Scholes formula and its applications.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MTH 551. Introduction to Differential Geometry. 3 Credit Hours.

Geometry of curves and surfaces in Euclidean space. Local space curve theory, intrinsic and extrinsic curvature of surfaces, geodesics, parallelism, and differential forms.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MTH 561. Abstract Algebra I. 3 Credit Hours.

Groups; rings; linear algebra; modules.

Prerequisite: MTH 210 and MTH 230.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MTH 562. Abstract Algebra II. 3 Credit Hours.

Continuation of MTH 561.

Prerequisite: MTH 561.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MTH 571. Directed Readings in Mathematics. 1-3 Credit Hours.

Readings in special topics.

Components: THI.

Grading: GRD.

Typically Offered: Fall & Spring.

MTH 591. Topics in Mathematics. 1-3 Credit Hours.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MTH 592. Topics in Mathematics. 1-3 Credit Hours.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MTH 593. Topics in Mathematics. 1-3 Credit Hours.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MTH 602. History of Mathematics. 3 Credit Hours.

The development of mathematics from its earliest beginnings through the first half of the twentieth century. Numeral systems, geometry, algebra, analysis and set theory.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MTH 604. Foundations of Geometry. 3 Credit Hours.

Axiom systems and models of Euclidean and Non-Euclidean geometry

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MTH 605. Theory of Numbers. 3 Credit Hours.

Divisibility, primes; congruences, quadratic residues and reciprocity; Diophantine equations. Applications to cryptography.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MTH 606. Mathematical Logic. 3 Credit Hours.

Logics, truth, proof, logical consequence, model theory, formalization, and computation. Meta-theory of first-order logic, computability theory, and Godel's incompleteness theorems. Related results by Church, Turing, and Tarski. Discussion of their philosophical significance.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MTH 610. Linear Algebra. 3 Credit Hours.

Abstract vector spaces, bases and dimensions, linear maps, eigenvalues and eigenvectors, inner product spaces, operators, spectral theorems, canonical forms.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MTH 612. Elementary Complex Analysis. 3 Credit Hours.

Complex variables; conformal mapping, contour integration.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MTH 613. Partial Differential Equations I. 3 Credit Hours.

Derivation, well posedness, and qualitative properties of initial value and boundary value problems for the heat, wave and Laplace equations. Energy methods, causality, maximum principles, heat kernels, Fourier series, and potential theory.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MTH 614. Partial Differential Equations II. 3 Credit Hours.

Continuation of MTH 513. Approximations of solutions, distributions and integral transform methods, spectral theory and scattering. Applications to physical problems. Nonlinear equations and phenomena.

Prerequisite: MTH 613.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MTH 615. Ordinary Differential Equations. 3 Credit Hours.

Linear systems, equilibrium and periodic solutions, stability analysis, bifurcation, phase plane analysis, boundary value problems, applications to engineering and physics.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MTH 616. Dynamics and Bifurcations. 3 Credit Hours.

Bifurcation of equilibrium and periodic solutions, global theory of planar systems, planar maps, nonlinear vibrations, forced oscillations, chaotic solutions, Hamiltonian systems, applications to engineering and physics.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MTH 620. Numerical Linear Algebra. 3 Credit Hours.

Topics from numerical linear algebra including solving systems of equations, LU, QR, and SVD factorizations, eigenvalues and eigenvectors, interactive methods and applications.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MTH 621. Numerical Methods In Differential Equations. 3 Credit Hours.

Numerical solution of ordinary and partial differential equations.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MTH 624. Introduction to Probability Theory. 3 Credit Hours.

Probability spaces, random variables, expectation, limit theorems.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MTH 625. Introduction to Mathematical Statistics. 3 Credit Hours.

Probability distributions, theory of sampling and hypothesis testing.

Prerequisite: MTH 624.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MTH 627. Theory of Computing. 0 Credit Hours.

Sets, relations, and languages. Automata theory. Basic computability theory. Turing machines. The complexity classes P and NP.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MTH 631. Topology I. 3 Credit Hours.

Set theory, topological spaces, compactness, connectedness, separation properties, quotient spaces, Tychonoff Theorem, compactification, Urysohn Lemma and Tietze Extension Theorem, function spaces.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MTH 632. Topology II. 3 Credit Hours.

Differential and topological manifolds, classical groups and associated manifolds, tangent and tensor bundles, vector fields, differential forms, transversality, Sard's theorem, Stokes' Theorem.

Prerequisite: MTH 631.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MTH 633. Introduction to Real Analysis I. 3 Credit Hours.

Sequences and series in Euclidean space; sequences and series of functions; Fourier series; continuity, differentiation, and integration of functions between Euclidean spaces; implicit and inverse function theorems.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MTH 634. Introduction to Real Analysis II. 3 Credit Hours.

Continuation of MTH 533.

Prerequisite: MTH 633.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MTH 642. Statistical Analysis. 3 Credit Hours.

Statistical inference about one or two populations from interval, ordinal and categorical data; analysis of variance; simple and multiple linear regression; designing research studies.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MTH 643. Statistical Analysis II with Financial Applications. 3 Credit Hours.

Exploratory data analysis. Designing parametric models and assessing their uncertainty. Techniques for resampling. Using multivariate distributions to model financial data; families of copulas. Analyzing time series, including ARIMA and GARCH models.

Prerequisite: MTH 642 or MTH 542.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MTH 645. Optimization Methods. 3 Credit Hours.

Linear optimization: simplex method and simplex tableaus, sensitivity analysis. Quadratic optimization and its applications in finance: risk modeling and portfolio construction. Integer programming techniques, branch and bound method. Dynamic programming - deterministic and probabilistic techniques. Software tools of optimization.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MTH 647. Introduction To Mathematical Finance. 3 Credit Hours.

Models of financial markets. Derivative securities: European and American options. Tools of mathematical finance: binomial trees, martingales, stopping times. Concepts of arbitrage and hedging. Risk-neutral valuation of financial derivatives; the Black-Scholes formula and its applications.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MTH 648. Stochastic Calculus with Application to Finance. 3 Credit Hours.

Stochastic calculus developing the basic probabilistic techniques necessary to study analytic models of financial markets. Brownian motion and the stochastic integral, stochastic differential equations, the Black-Scholes formula, Girsanov's theorem and applications to option pricing.

Prerequisite: MTH 647.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MTH 649. Computational Methods of Finance. 3 Credit Hours.

Prerequisite: CSC 220, MTH 643, and MTH 648.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MTH 651. Introduction to Differential Geometry. 3 Credit Hours.

Geometry of curves and surfaces in Euclidean space. Local space curve theory, intrinsic and extrinsic curvature of surfaces, geodesics, parallelism, and differential forms.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MTH 661. Abstract Algebra I. 3 Credit Hours.

Groups; rings; linear algebra; modules.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MTH 662. Abstract Algebra II. 3 Credit Hours.

Continuation of MTH 561.

Prerequisite: MTH 661.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MTH 691. Topics in Mathematics. 1-3 Credit Hours.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MTH 692. Topics in Mathematics. 1-3 Credit Hours.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MTH 693. Topics in Mathematics. 1-3 Credit Hours.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MTH 709. Data Security and Cryptography. 3 Credit Hours.

Encryption algorithms; cryptographic techniques; access, information flow and inference controls.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MTH 721. Mathematical Probability. 3 Credit Hours.

Development of the measure-theoretic approach to probability. Random variables, central limit theory, laws of large numbers, martingales.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MTH 722. Stochastic Processes. 3 Credit Hours.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MTH 733. Real Variables. 3 Credit Hours.

First semester of a two semester sequence: General measure theory, Lebesgue measure and integration, L_p spaces, Fourier series in one and many variables, Fourier transforms, distributions, Sobolev spaces, applications to partial differential equations.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MTH 734. Real Variables. 3 Credit Hours.

Second semester of a two semester sequence: General measure theory, Lebesgue measure and integration, L_p spaces, Fourier series in one and many variables, Fourier transforms, distributions, Sobolev spaces, applications to partial differential equations.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MTH 735. Complex Variables. 3 Credit Hours.

First semester of a two semester sequence: Analytic functions, conformality, Cauchy's Theorem, representation theorems, harmonic functions, calculus of residues, Riemann Mapping Theorem, entire and meromorphic functions, analytic continuation, normal families.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MTH 736. Complex Variables. 3 Credit Hours.

Second semester of a two semester sequence: Analytic functions, conformality, Cauchy's Theorem, representation theorems, harmonic functions, calculus of residues, Riemann Mapping Theorem, entire and meromorphic functions, analytic continuation, normal families.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MTH 741. Algebraic Topology. 3 Credit Hours.

First semester of a two semester sequence: Homotopy and homotopy type, fundamental group, covering spaces, higher homotopy groups, simplicial singular and cellular homology, Eilenberg-Steenrod axioms, cohomology, universal coefficient theorem, products, Kunneth formula, duality theorems for manifolds, computations and applications.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MTH 742. Algebraic Topology. 3 Credit Hours.

Second semester of a two semester sequence: Homotopy and homotopy type, fundamental group, covering spaces, higher homotopy groups, simplicial singular and cellular homology, Eilenberg-Steenrod axioms, cohomology, universal coefficient theorem, products, Kunneth formula, duality theorems for manifolds, computations and applications.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MTH 751. Differential Geometry. 3 Credit Hours.

First semester of a two semester sequence.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MTH 752. Differential Geometry. 3 Credit Hours.

Second semester of a two semester sequence.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MTH 757. Lie Groups. 3 Credit Hours.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MTH 761. Abstract Algebra. 3 Credit Hours.

First semester of a two semester sequence: Group theory, ring theory, module theory, linear algebra.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MTH 762. Abstract Algebra. 3 Credit Hours.

Second semester of a two semester sequence: Group theory, ring theory, module theory, linear algebra.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MTH 770. Directed Readings or Research. 2-4 Credit Hours.

Components: THI.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MTH 780. Topics in Analysis. 3 Credit Hours.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MTH 781. Topics in Analysis. 3 Credit Hours.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MTH 782. Topics in Topology. 3 Credit Hours.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MTH 783. Topics in Topology. 3 Credit Hours.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MTH 785. Topics in Algebra. 3 Credit Hours.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MTH 786. Topics in Mathematics. 3 Credit Hours.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MTH 787. Topics in Mathematics. 3 Credit Hours.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MTH 820. Research in Residence. 1 Credit Hour.

To establish a residence for non-thesis master's students who are preparing for major examinations. Credit not granted. Regarded as full-time residence.

Components: THI.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MTH 830. Pre-Candidacy Doctoral Dissertation. 1-12 Credit Hours.

Credits earned in this course apply towards the 12 credit hour dissertation research requirement of the graduate school. The student will enroll for credit a s determined by his/her dissertation advisor. Up to 12 hours may be taken in a regular semester, but not more than six in a summer session.

Components: THI.

Grading: SUS.

Typically Offered: Fall, Spring, & Summer.

MTH 835. Research Project. 1-6 Credit Hours.

Components: THI.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MTH 840. Post-Candidacy Doctoral Dissertation. 1-6 Credit Hours.

Credits earned in this course apply towards the 12 credit hour dissertation research requirement of the graduate school. The student will enroll for credit a s determined by his/her dissertation advisor. Up to 12 hours may be taken in a regular semester, but not more than six in a summer session.

Components: THI.

Grading: SUS.

Typically Offered: Fall, Spring, & Summer.

MTH 845. Research in Residence. 1 Credit Hour.

Components: THI.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MTH 850. Research in Residence. 1 Credit Hour.

Used to establish research in residence for the Ph.D. after the student has been enrolled for the permissible cumulative total in appropriate doctoral research. Credit not granted. May be regarded as full-time residence as determined by the Dean of the Graduate School.

Components: THI.

Grading: SUS.

Typically Offered: Fall, Spring, & Summer.

Mechanical and Aerospace Engineering (MAE)

MAE 100. Introduction to Mechanical and Aerospace Engineering. 3 Credit Hours.

Basic principles of automobile engines and engine efficiency.

Introduction to robots and controls. Basic concepts of solar engineering and solar energy utilization. Principles of fuel cells and hydrogen energy. Introduction to aerospace engineering including the aspects of aerodynamics, propulsion and flight dynamics. Introduction to Aerodynamics of air planes and rockets.

Components: LEC.

Grading: GRD.

Typically Offered: Summer.

MAE 111. Introduction to Engineering I. 3 Credit Hours.

Use of engineering tools and computer techniques for problem solving. Data acquisition, analysis, presentation, software design, and computer aided drafting are covered. Development of design skills through several design and building competitions. Introduction to professional ethics and intellectual property rights. Introduction to use of MATLAB, AutoCAD, and programming in C++.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

MAE 112. Introduction to Engineering II. 2 Credit Hours.

Introduction to engineering design and the design process. Course topics include safety, reliability, human and environmental factors, economic analysis, and cost estimation. Professional ethics, product liability, solid modeling, machine shop orientation, and practice are also included.

Group design projects.

Prerequisite: MAE 111.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

MAE 202. Dynamics. 3 Credit Hours.

Discussion of motion description and analysis, application of Newton's laws, energy, and momentum principles to mechanical systems.

Introduction to mechanical vibrations. Corequisite: PHY 205.

Prerequisite: CAE 210.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

MAE 207. Mechanics of Solids II. 3 Credit Hours.

Discussion of displacements, instability, flexural, shear, torsional, and principle stresses. Introduction to statically indeterminate analysis.

Prerequisite: CAE 210.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

MAE 241. Measurements Laboratory. 3 Credit Hours.

Introduction to experimental mechanical engineering. Basic principles of measurement, data interpretation, and uncertainty analysis are covered.

Laboratory exercises in mechanical engineering areas are included.

Corequisite: EEN 201 or 205.

Prerequisite: MAE 207, IEN 311, ENG 107.

Components: IND.

Grading: GRD.

Typically Offered: Fall.

MAE 301. Engineering Materials Science. 3 Credit Hours.

Introduction to the physics and chemistry of the solid state including the structure and properties of metals, polymers, and ceramics. Corequisite: PHY 207.

Prerequisite: PHY 207.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MAE 302. Mechanical Behavior Of Materials. 3 Credit Hours.

Application of metallurgy and mechanics to the study of the plastic deformation and fracture of metals, ceramics, and plastics.

Prerequisite: MAE 207.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

MAE 303. Thermodynamics I. 3 Credit Hours.

Thermodynamic properties of materials; the first and second laws of thermodynamics; application to thermodynamic processes; introduction to heat transfer.

Prerequisite: PHY 206, and MTH 162 or MTH 172.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MAE 309. Fluid Mechanics. 3 Credit Hours.

Course topics include fluid statics, fluid flow concepts, dynamics of inviscid and viscous fluids, closed and open channel flow, and compressibility effects.

Prerequisite: CAE 210 and PHY 206.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MAE 310. Heat Transfer. 3 Credit Hours.

Application of elementary methods of solution to heat transfer problems involving steady and unsteady state conduction, radiation, and convection. Introduction of meaningful experimental data is also included.

Prerequisite: MAE 303.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

MAE 341. Mechanical Design I. 3 Credit Hours.

Concepts and software for kinematics, solid modeling, and project management. Fundamentals of mechanical design: stresses in and failure of mechanical elements. Individual and group design projects.

Prerequisite: MAE 202 and MAE 207.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MAE 342. Mechanical Design II. 3 Credit Hours.

Review of the design process and creativity in design. Topics include design and reliability gears, shafts, etc. Individual and group design projects are included.

Prerequisite: MAE 341.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MAE 351. Mechanics Laboratory. 2.00 Credit Hours.

Exercises in the experimental determination of the mechanical properties of materials and the static and dynamic characteristics of mechanical and structural elements. Lecture, 1 hour; laboratory, 3 hours.

Prerequisite: MAE 302.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MAE 362. Computer Analysis of Mechanical and Aerospace Engineering Problems. 3 Credit Hours.

Exploration of physical systems behavior using discrete models. Topics include numerical analysis, solid modeling, and software evaluation.

Students solve engineering problems using student-developed and existing software. Corequisite: MAE 310.

Prerequisite: MAE 111, MAE 341 and MTH 211. Corequisite: MAE 310.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MAE 371. Aerodynamics. 3 Credit Hours.

Course discusses the history of flight. Topics include fundamental variables, the atmosphere, basic equations, their approximations, compressibility, viscosity, flow regimes potential flow, and aerodynamics of airfoil and wing.

Prerequisite: MAE 309.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MAE 399. Cooperative Education. 1 Credit Hour.

Practical application of classroom theory through alternating semester or summer employment with firms offering positions consistent with the student's field of study. Course may be repeated.

Components: THI.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MAE 404. Experimental Engineering Laboratory. 2.00 Credit Hours.

Experimental analysis of problems in fluid mechanics, thermodynamics, and other areas of engineering. Lecture, 1 hour; laboratory, 3 hours.

Prerequisite: MAE 303, MAE 309 and MAE 310.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MAE 408. Heating, Ventilating, and Air Conditioning. 3 Credit Hours.

Principles and procedures for the analysis and design of heating, ventilating and air conditioning (HVAC) systems, including moist air properties and conditioning processes, heating and cooling load calculations, building energy consumption, thermal comfort, and indoor air quality. Not available for students having taken MAE 405.

Prerequisite: MAE 303.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MAE 412. System Dynamics. 3 Credit Hours.

Course topics include dynamic modeling of mechanical and thermo-fluid systems. Laplace transforms, transfer functions, energy concepts, causality, linearity, linear graph models, energy transducing system elements, frequency domain methods.

Prerequisite: ECE 201 or ECE 205, MAE 202, and MAE 309.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MAE 415. Automatic Control. 3 Credit Hours.

Introduction to system theory, transfer functions, and state space modeling of physical systems. Course topics include stability, analysis and design of PID, Lead/Lag, other forms of controllers in time and frequency domains, root locus Bode diagrams, gain and phase margins, Nichols chart, Nyquist criterion, and systems with time delay.

Requisite: Senior Status.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MAE 420. Applied Thermodynamics. 3 Credit Hours.

Cycle irreversibility; energy. Power and refrigeration cycles. Behavior of mixtures and solutions. Chemical thermodynamics, including combustion fundamentals. Compressible fluids. Advanced energy systems.

Prerequisite: MAE 303.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MAE 441. Design of Fluid and Thermal Systems. 3 Credit Hours.

Course topics include thermal and fluid systems design fundamentals, piping systems, selection of pumps, piping system design practices, classification of heat exchangers. Basic design methods of heat exchange equipment is also included.

Prerequisite: MAE 309 and MAE 310.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

MAE 442. Capstone Design Project-I. 1 Credit Hour.

Lectures and classroom discussions cover (i) legal, ethical, and societal responsibilities of engineers, (ii) design factors such as product safety, reliability, life cycle costs, and manufacturability, and (iii) other aspects such as global market, contemporary issues, and continuous learning process. Students are required to select group design projects from the breadth of mechanical engineering activity and present project to serve as the basis for MAE 443.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

MAE 443. Capstone Design Project-II. 2 Credit Hours.

Continuation of the Capstone Design Project-I course. A mechanical system is designed, implemented, documented, and presented.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

MAE 444. Capstone Aerospace Design Project-I. 1 Credit Hour.

Lectures and classroom discussions cover (i) legal, ethical and societal responsibilities of engineers, (ii) design factors such as product safety, reliability, life cycle costs and manufacturability, and (iii) other aspects such as global market, contemporary issues and continuous learning process. Students are required to select group design projects from the breadth of aerospace engineering activity and present project proposals to serve as the basis for MAE 445.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

MAE 445. Capstone Aerospace Design Project-II. 2 Credit Hours.

Continuation of the Capstone Aerospace Design Project-I course. An aerospace system/subsystem is designed, implemented, documented and presented.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

MAE 446. Aircraft Design. 3 Credit Hours.

Concepts of aircraft design emphasizing on design layout including the airfoil geometry selection, propulsion integration, configuration layout, payload and landing gear system. Corequisite: MAE 471.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MAE 470. Introduction to Aerospace Structures. 3 Credit Hours.

Course topics include mechanics of thin-walled aerospace structures, load analysis, virtual work, energy principles, stability of aerospace structures, and finite element methods.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MAE 471. Flight Dynamics. 3 Credit Hours.

Course topics include aerodynamic performance, stability, control, propulsion systems, and structures. Case Studies of Aerospace Systems are also included.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MAE 472. Design of Aerospace Structures. 3 Credit Hours.

Design Philosophy and principles of aerospace structures. Detailed design of wing box structure, fuselage, landing gear mechanism, fasteners and structural joints. Application of composite materials.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MAE 490. Undergraduate Research. 1-3 Credit Hours.

Research Projects. Individual investigation of current problems.

Components: THI.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MAE 501. Methods of Engineering Analysis. 3 Credit Hours.

Analysis of engineering systems in equilibrium and motion. Examples considered from mechanical, electrical, thermal and fluids engineering. Mathematical theory and computer methods for obtaining numerical solutions are developed for various cases involving discrete and continuous systems. Lecture, 3 hours.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MAE 502. Vibrations. 3 Credit Hours.

Basic theory of free and forced vibrations of mechanical systems with and without damping. Applications to systems with one and several degrees of freedom are included.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MAE 503. Internal Combustion Engines. 3 Credit Hours.

Course discusses engine types, characteristics, and operation. Topics include performance factors, fuel combustion, power cycles, knock and engine variables, exhaust emissions, fuel metering, compressors, and turbines.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MAE 505. Design for Manufacturability. 3 Credit Hours.

Manufacturing concerns at design stage. Design theory and methodology. Statistical considerations in geometric dimensioning, tolerances, reliability-based design, and quality control. Producibility, design for assembly, and value engineering. Life cycle costs and optimum design using nonlinear programming and Taguchi approaches. Hands on projects on machine tools.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MAE 506. Nuclear Engineering. 3 Credit Hours.

Course topics include a review of neutron physics, chain reactions, reactor theory, steady state operation, and reactor kinetics. Control, long term reactivity changes, materials, heat transfer, and shielding are also included. Lecture, 3 hours.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MAE 507. Advanced Mechanics of Solids. 3 Credit Hours.

Courses discusses the basic elements of elasticity, plasticity, and viscoelasticity. Application to mechanical systems at rest and in motion are included.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MAE 508. Intermediate Heat Transfer. 3 Credit Hours.

Course discusses steady and unsteady heat transfer by conduction, convective heat transfer in laminar and turbulent fluid flow, natural convection, and heat transfer by radiation.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MAE 510. Fundamentals of Solar Energy Utilization. 3 Credit Hours.

Fundamentals basic to the design and performance analysis of thermal systems for the capture and utilization of Solar Energy.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MAE 512. Intermediate Fluid Mechanics. 3 Credit Hours.

Course topics include conservation of mass, momentum, and energy, potential flow, viscous laminar and turbulent flows, the Reynolds analogy, and Boundary-layer approximations. Gas dynamics are also discussed.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MAE 514. Advanced Internal Combustion Engines Experimental Studies. 3 Credit Hours.

Experimental mechanical engineering as it pertains to internal combustion engines. The principal measurements necessary to analyze the operation of an internal combustion engine are covered. Emphasis is placed on experiment planning, data interpretation, and error analysis.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MAE 516. Introduction to Composite Materials. 3 Credit Hours.

Course provides an introduction to composite materials and terminology. Topics include advantages offered by composite materials, current aerospace, automotive, and bio-mechanics applications, experimental results, analytical models, and effects of impact and fatigue loads. The environment's impact on composite materials' performance and design procedures are discussed. Case studies examining composite materials as efficient replacements are also included.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MAE 521. Exhaust Emission Control. 3 Credit Hours.

Course topics include automotive emissions, air pollution, combustion of homogeneous mixtures, emission control systems, Federal emission standards, and emission instrumentation and measurement. Lecture, 2 hours; Laboratory, 3 hours.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MAE 528. Fuel Cells. 3 Credit Hours.

Introduction to fuel cells, thermodynamics of fuel cells, electrochemical kinetics in fuel cells, transport phenomena in fuel cells, introduction to various types of fuel cells.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MAE 539. Heating, Ventilating and Air Conditioning System Design. 3 Credit Hours.

Course topics include basic HVAC systems, multizone systems, dual-duct systems, terminal reheat systems, variable air volume systems, induction and induction reheat systems, special applications, hydronic systems, unitary and heat pump systems, hydronic heat recovery systems, cooling and heating load calculation duct and piping design, overall system design, and integration.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MAE 551. Special Problems. 1-3 Credit Hours.

Project course introducing methods of research through an individual investigation of current problems. Offered by special arrangement only.

Components: THI.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MAE 552. Special Problems. 1-3 Credit Hours.

Project course introducing methods of research through an individual investigation of current problems. Offered by special arrangement only.

Components: THI.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MAE 570. Aero Propulsion. 3 Credit Hours.

Definition of the atmosphere, propulsion basics, rocket fundamentals, turbine fundamentals, gas turbine cycles, component matching, math and computer models, aircraft missions, cycle section, reliability, and durability are analyzed.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MAE 590. Special Topics. 1-4 Credit Hours.

Subtitles describing the topics will be shown in parentheses in the class schedule, following the "Special Topics."

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MAE 591. Special Topics. 1-4 Credit Hours.

Subtitles describing the topics will be shown in parentheses in the class schedule, following the "Special Topics."

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MAE 592. Special Topics. 1-4 Credit Hours.

Subtitles describing the topics will be shown in parentheses in the class schedule, following the "Special Topics."

Components: THI.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MAE 599. Cooperative Education. 1 Credit Hour.

Practical application of classroom theory through alternating semester or summer employment with industries offering positions consistent with the student's field of study. Course may be repeated. Periodic reports and conferences are required.

Components: THI.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MAE 601. Methods of Engineering Analysis. 3 Credit Hours.

Analysis of engineering systems in equilibrium and motion. Examples considered from mechanical, electrical, thermal and fluids engineering. Mathematical theory and computer methods for obtaining numerical solutions are developed for various cases involving discrete and continuous systems. Lecture, 3 hours.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MAE 602. Vibrations. 3 Credit Hours.

Basic theory of free and forced vibrations of mechanical systems with and without damping. Applications to systems with one and several degrees of freedom are included.

Components: LEC.

Grading: GRD.

MAE 603. Internal Combustion Engines. 3 Credit Hours.

Course discusses engine types, characteristics, and operation. Topics include performance factors, fuel combustion, power cycles, knock and engine variables, exhaust emissions, fuel metering, compressors, and turbines.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MAE 605. Design for Manufacturability. 3 Credit Hours.

Manufacturing concerns at design stage. Design theory and methodology. Statistical considerations in geometric dimensioning, tolerances, reliability-based design, and quality control. Producibility, design for assembly, and value engineering. Life cycle costs and optimum design using nonlinear programming and Taguchi approaches. Hands on projects on machine tools.

Components: LAB.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MAE 607. Advanced Mechanics of Solids. 3 Credit Hours.

Courses discuss the basic elements of elasticity, plasticity, and viscoelasticity. Application to mechanical systems at rest and in motion are included.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MAE 608. Intermediate Heat Transfer. 3 Credit Hours.

Course discusses steady and unsteady heat transfer by conduction, convective heat transfer in laminar and turbulent fluid flow, natural convection, and heat transfer by radiation.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MAE 612. Intermediate Fluid Mechanics. 3 Credit Hours.

Course topics include conservation of mass, momentum, and energy, potential flow, viscous laminar and turbulent flows, the Reynolds analogy, and Boundary-layer approximations. Gas dynamics are also discussed.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MAE 614. Advanced Internal Combustion Engines Experimental Studies. 3 Credit Hours.

Experimental mechanical engineering as it pertains to internal combustion engines. The principal measurements necessary to analyze the operation of an internal combustion engine are covered. Emphasis is placed on experiment planning, data interpretation, and error analysis.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MAE 616. Introduction to Composite Materials. 3 Credit Hours.

Course provides an introduction to composite materials and terminology. Topics include advantages offered by composite materials, current aerospace, automotive, and bio-mechanics applications, experimental results, analytical models, and effects of impact and fatigue loads. The environment's impact on composite materials' performance and design procedures are discussed. Case studies examining composite materials as efficient replacements are also included.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MAE 621. Exhaust Emission Control. 3 Credit Hours.

Course topics include automotive emissions, air pollution, combustion of homogeneous mixtures, emission control systems, Federal emission standards, and emission instrumentation and measurement. Lecture, 2 hours; Laboratory, 3 hours.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MAE 628. Fuel Cells. 3 Credit Hours.

Introduction to fuel cells, thermodynamics of fuel cells, electrochemical kinetics in fuel cells, transport phenomena in fuel cells, introduction to various types of fuel cells.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MAE 639. Heating, Ventilating and Air Conditioning System Design. 3 Credit Hours.

Course topics include basic HVAC systems, multizone systems, dual-duct systems, terminal reheat systems, variable air volume systems, induction and induction reheat systems, special applications, hydronic systems, unitary and heat pump systems, hydronic heat recovery systems, cooling and heating load calculation duct and piping design, overall system design, and integration.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MAE 651. Special Problems. 1-3 Credit Hours.

Project course introducing methods of research through an individual investigation of current problems. Offered by special arrangement only.

Components: THI.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MAE 652. Special Problems. 1-3 Credit Hours.

Project course introducing methods of research through an individual investigation of current problems. Offered by special arrangement only.

Components: THI.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MAE 670. Aero Propulsion. 3 Credit Hours.

Definition of the atmosphere, propulsion basics, rocket fundamentals, turbine fundamentals, gas turbine cycles, component matching, math and computer models, aircraft missions, cycle section, reliability, and durability are analyzed.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MAE 690. Special Topics. 1-4 Credit Hours.

Subtitles describing the topics will be shown in parentheses in the class schedule, following the "Special Topics."

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MAE 691. Special Topics. 1-4 Credit Hours.

Subtitles describing the topics will be shown in parentheses in the class schedule, following the "Special Topics."

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MAE 692. Special Topics. 1-4 Credit Hours.

Subtitles describing the topics will be shown in parentheses in the class schedule, following the "Special Topics."

Components: THI.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MAE 699. Cooperative Education. 1 Credit Hour.

Practical application of classroom theory through alternating semester or summer employment with industries offering positions consistent with the student's field of study. Course may be repeated. Periodic reports and conferences are required.

Components: THI.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MAE 701. Advanced Heat Transfer--Conduction and Radiation. 3 Credit Hours.

Advanced analytical methods of solutions of boundary value problems of steady, periodic, and unsteady heat conductions. Topics include techniques of transient point, line, and plane sources and sinks, thermodynamics of radiative equilibrium, radiative exchange, geometrical factors, network, and other methods. Lecture, 3 hours.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MAE 702. Advanced Heat Transfer--Convection. 3 Credit Hours.

The analogy between heat, mass, and momentum transfers. Topics include the transfer mechanism, heat transfer to liquid metals, boiling and condensation mechanisms, heat transfer in two-phase flow, ablation heat transfer, transpiration, film cooling, and heat exchanges. Lecture, 3 hours.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MAE 705. Finite Element Methods in Mechanical and Aerospace Engineering. 3 Credit Hours.

Finite-element analysis methods for static and dynamic analysis of mechanical and aerospace structures, heat transfer analysis, and fluid flow applications. Primary emphasis is placed on underlying mechanics and numerical techniques. Consideration is also given to the use of existing programs, such as ANSYS, NASTRAN and FIDAP, designing proper meshes, and choosing the proper element. A term project is included.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MAE 706. Experimental Methods in Fluid Mechanics. 3 Credit Hours.

Course topics include methods of flow visualization, laser techniques in measurement of wall motions, conduit compliance, Newtonian and non-Newtonian properties of fluids, measurement of unsteady flow and pressure, laser Doppler anemometry, ultrasound Doppler velocimetry, electro-magnetic flowmetry, measurement of steady and unsteady wall shear stresses and boundary layers.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MAE 713. Transport Phenomena. 3 Credit Hours.

Course topics include laws of molecular transfer, the kinetic theory explanation of molecular transfer phenomena, introduction to turbulence, and molecular transfer in laminar and turbulent flows with experimental results. A unified treatment of salient aspects of momentum, heat, and mass transfer including the relationship between rate and conservation equations are also discussed.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MAE 714. Computational Fluid Dynamics. 3 Credit Hours.

Incompressible flow equations in rectangular co-ordinates. Topics include basic computational methods for incompressible flow, three dimensional flows, compressible flow equations in rectangular coordinates, basic computational methods for compressible flows, treatment of shocks, artificial viscosities, convergence, other mesh systems, programming, testing, and information processing.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MAE 730. Mechanical Systems Optimization. 3 Credit Hours.

Optimization as an element of the engineering design process. Topics include comparative examination of unconstrained algorithms, as well as development and application of methods for constrained optimization problems. Case studies which demonstrate the theory and application of mathematical programming as a design tool are also included.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MAE 740. Continuum Mechanics. 3 Credit Hours.

Course discusses concepts that are common to all continuous media. Topics include elements of tensor analysis, motion, deformation, vorticity, material derivatives, mass and the continuity equation, and balance of linear and angular momentum as well as energy. Stress and its geometric characterization, constitutive equations of solid and fluid type behavior, virtual work, fundamental applications, and the Clausius-Duhem inequality are also covered.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MAE 751. Master's Project. 3 Credit Hours.

A required project for M.S. students in the non-thesis option.

Components: THI.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MAE 752. Master's Capstone Project. 4 Credit Hours.

A required project for the five year BSME/MSME program.

Components: THI.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MAE 780. Graduate Colloquium. 1 Credit Hour.

Presentations by selected speakers of weekly programs dealing with topics of interest in Mechanical Engineering. Attendance is required of all students registered in Mechanical Engineering graduate programs.

Components: SEM.

Grading: GRD.

Typically Offered: Fall & Spring.

MAE 792. Special Problems. 1-3 Credit Hours.

Research and/or design projects consisting of individual investigation of current problems. Offered by special arrangement only.

Components: THI.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MAE 798. Advanced Topics. 1-3 Credit Hours.

Subject matter offerings based upon student demand and availability of faculty. Subtitles describing the topics to be offered will be shown in parentheses in the printed class schedule, following the title "Advanced Topics".

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MAE 810. Master's Thesis. 1-6 Credit Hours.

The student working on his/her master's thesis enrolls for credit, in most departments not to exceed six, as determined by his/her advisor. Credit is not awarded until the thesis has been accepted.

Components: THI.

Grading: SUS.

Typically Offered: Fall, Spring, & Summer.

MAE 820. Research in Residence. 1 Credit Hour.

Used to establish research in residence for the thesis for the master's degree after the student has enrolled for the permissible cumulative total in MAE 710 (usually six credits). Credit not granted. May be regarded as full time residence.

Components: THI.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MAE 830. Pre-Candidacy Doctoral Dissertation. 1-12 Credit Hours.

Doctoral dissertation credits taken prior to Ph.D. student's candidacy.

The student will enroll for credit as determined by his/her advisor. Not more than 12 hours of MAE 730 may be taken in a regular semester, nor more than six in a summer session.

Components: THI.

Grading: SUS.

Typically Offered: Fall, Spring, & Summer.

MAE 840. Post-Candidacy Doctoral Dissertation. 1-12 Credit Hours.

Doctoral dissertation credits taken after Ph.D. student has been admitted to candidacy. The student will enroll for credit as determined by his/her advisor. Not more than 12 credits in MAE 740 may be taken in a regular semester, nor more than six credits in a summer session.

Components: THI.

Grading: SUS.

Typically Offered: Fall, Spring, & Summer.

MAE 850. Research in Residence. 1 Credit Hour.

Used to establish research in residence for the Ph.D. and D.A., after the student has been enrolled for the permissible cumulative total in appropriate doctoral research. Credit not granted. May be regarded as full-time residence as determined by the Dean of the Graduate School.

Components: THI.

Grading: SUS.

Typically Offered: Fall, Spring, & Summer.

Microbiology and Immunology (MIC)

MIC 201. Modern Plagues and Society. 3 Credit Hours.

An examination of three infectious diseases (AIDS, tuberculosis, and malaria) that currently impact a significant fraction of the human population, describing the infectious microbes themselves, efforts of researchers to contain these diseases, and how politics, infrastructure, and geographical factors determine public health outcomes.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MIC 301. Introduction to Microbiology and Immunology. 5 Credit Hours.

Basic principles of microbiology and immunology, including laboratory exercises. Course is required for microbiology and immunology majors; recommended for biology, chemistry and biochemistry majors and those considering the health sciences.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MIC 302. Introduction to Microbiology and Immunology Honors Seminar. 1 Credit Hour.

Special topics in Microbiology/Immunology requiring a term paper and/or an oral presentation.

Prerequisite: MIC 301 or MIC 303 or MIC 320. Requisite: Honors Program.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MIC 303. Part 1 of 2: Introductory Microbiology and Immunology (Lecture). 3 Credit Hours.

Basic principles of microbiology and immunology. This course is part one of a two part sequence. Course is required for MIC majors; recommended for BIL, CHM, BMB majors and those considering the health sciences.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MIC 304. Part 2 of 2: Introductory Microbiology and Immunology (Lab). 2 Credit Hours.

Basic laboratory principles of microbiology and immunology. This course is part two of a two part sequence. Course is required for all students taking the MIC 303.

Components: LAB.

Grading: GRD.

Typically Offered: Fall.

MIC 319. Innate Immunity. 3 Credit Hours.

The innate immune system provides the first line of defense against infectious microorganisms and is a very important disease-preventing mechanism. In this course the students will learn the molecular and cellular processes mediating innate immune responses to microbial pathogens, including intra- and extra- cellular bacteria and viruses.

Prerequisite: MIC 301 or MIC 303.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MIC 320. Introduction to Microbiology and Immunology for Nurses. 3 Credit Hours.

Course covers the basic principles of microbiology and immunology. Course cannot be used for MIC major or minor credit.

Requisite: School of Nursing Health Studies.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MIC 321. Immunobiology. 3 Credit Hours.

Mechanisms underlying the cooperation between T-cells, B-cells, and antigens leading to humoral and cell mediated responses. The significance of immune cells and their products pertaining to autoimmunity, transplantation, and the surveillance of neoplastic cells is covered.

Prerequisite: MIC 301 and MIC 319.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MIC 322. Medical Parasitology. 3 Credit Hours.

Course discusses the biochemistry, physiology, pathogenicity, immunology, and mechanism of drug action and resistance of medically important parasitic protozoa, trematodes, nematodes, and cestodes.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MIC 323. Principles of Microbial Pathogenesis. 3 Credit Hours.

Course analyzes host-microbe relationships at the molecular and cellular levels with an emphasis on microbial virulence determinants and host cell defense responses.

Prerequisite: MIC 301 or MIC 303.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MIC 436. Fundamental and Medical Virology. 3 Credit Hours.

The study of viruses as biological entities and etiological agents of disease. Virus-cell and virus-host interactions are also discussed.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MIC 441. Microbiology and Immunology Colloquium. 1 Credit Hour.

External and internal faculty presentations as well as graduate presentations of recent advances in research. Course meets on hour per week.

Prerequisite: MIC 301 or MIC 303.

Components: SEM.

Grading: GRD.

Typically Offered: Fall & Spring.

MIC 451. Special Projects in Immunobiology. 2-6 Credit Hours.

Laboratory research problems in major areas of immunobiology including literature search, experimental design, data gathering and evaluation of results.

Components: THI.

Grading: GRD.

Typically Offered: Fall & Spring.

MIC 452. Special Projects in Parasitology. 2-6 Credit Hours.

Laboratory research problems in major areas of parasitology including literature search, experimental design, data gathering and evaluation of results.

Components: THI.

Grading: GRD.

Typically Offered: Fall & Spring.

MIC 453. Special Projects in Pathogenic Bacteriology. 2-6 Credit Hours.

Laboratory research problems in major areas of pathogenic bacteriology including literature search, experimental design, data gathering and evaluation of results.

Components: THI.

Grading: GRD.

Typically Offered: Fall & Spring.

MIC 454. Special Projects in Microbial Genetics. 2-6 Credit Hours.

Laboratory research problems in major areas of microbial genetics including literature search, experimental design, data gathering and evaluation of results.

Components: THI.

Grading: GRD.

Typically Offered: Fall & Spring.

MIC 455. Special Projects in Immunogenetics. 2-6 Credit Hours.

Laboratory research problems in major areas of immunogenetics including literature search, experimental design, data gathering and evaluation of results.

Components: THI.

Grading: GRD.

Typically Offered: Fall & Spring.

MIC 456. Special Projects in Virology. 2-6 Credit Hours.

Laboratory research problems in major areas of virology including literature search, experimental design, data gathering, and evaluation of results.

Components: THI.

Grading: GRD.

Typically Offered: Fall & Spring.

MIC 601. Medical Microbiology. 5 Credit Hours.

Course discusses the nature of microbial agents of infectious disease as well as relationship of virulence to host resistance and fundamental immunologic concepts. Microbial physiology and genetics, the structure, design, and mechanism of action on antimicrobials are also.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MIC 625. Mechanisms of Microbial Virulence. 2 Credit Hours.

This course will focus on the mechanisms employed by bacterial and viral pathogens to produce disease in animals and humans. The course is divided into two 3 week modules. The first module will cover bacterial pathogens with an emphasis on the bacteria-host cell interaction. Specific topics will include: bacterial attachment and invasion of eukaryotic cells, virulence gene regulation, secretion of virulence factors, bacterial toxins and obligate intracellular bacterial pathogens. The second module will cover viruses and human viral diseases with an emphasis on viral replication, gene expression, virus-host cell interactions and viral oncology. Classes will consist of a mixture of lectures and discussions of recent or classic papers. There will be 2 exams.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MIC 705. Faculty Research and Discussions. 1 Credit Hour.

Forum for the discussion of the current research projects and interests of the faculty. This course provides students with the opportunity to exchange ideas about important scientific questions and the technologies being applied to experimentally address the hypotheses being tested.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MIC 711. Accelerated Basic Science Medical Curriculum. 1-18 Credit Hours.

Beginning in the latter part of June each year, extending to the middle of February of the ensuing year, the following accelerated and intensive complete basic science medical curriculum is offered: Embryology, Gross Anatomy, Histology, Biochemistry, Neuroanatomy, Biophysics and Neurophysiology, Systemic Physiology, Pathology, Medical Microbiology, and Pharmacology. Single grade will be entered on the graduate transcript for this course.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

MIC 716. Advanced Molecular Biology. 3 Credit Hours.

The molecular basis of cellular function and regulation in both prokaryotic and eukaryotic systems. The molecular genetics and biochemistry of the genetic material and its utilization during replication, transcription, translation, cellular growth, division, and differentiation. Recombinant DNA technology and molecular genetics are discussed. This course is designed for graduate students in biological sciences. A good background in biology or biochemistry is recommended.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MIC 726. Laboratory Experimentation. 4 Credit Hours.

One or two laboratory training sessions of 6-12 weeks each. Each student rotates through faculty research laboratories in the areas of immunology, molecular biology, and microbiology, (bacteriology, virology, parasitology) where they receive "hands on" experience by participating in ongoing research projects.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MIC 727. Laboratory Experimentation. 6 Credit Hours.

Two or three laboratory training sessions of 6-12 weeks each. Each student rotates through faculty research laboratories in the areas of immunology, molecular biology and microbiology, (bacteriology, virology, parasitology) where they receive "hands on" experience by participating in ongoing research projects.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MIC 728. Principles of Immunology. 3 Credit Hours.

This team-taught course will present immunological concepts and reasoning in immunological research. The course is divided into 7 weekly modules. Each module has a common theme and consists of 3 lectures on immunological concepts and one session where students present and discuss a research paper related to the theme of each module. The paper discussion session will include use of disease models as a portal to understand the function of immune system in health and disease. The module topics are (a) lymphoid cell development, (b) antigen recognition, (3) initiation of immune responses, (4) T lymphocyte effector development and function, (5) T cell immunity versus tolerance, (6) B cell immunity, and (7) innate immunity. There will be one exam following the first 4 modules and the second exam after the remaining 3 modules.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MIC 731. Special Work. 1-5 Credit Hours.

Special work, lecture, laboratory or a combination of these, as determined by advisor in accord with student's individual interest. Course is offered only on demand.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MIC 751. Advanced Molecular Immunology. 3 Credit Hours.

The molecular mechanisms for generation of antigen specific receptor diversity and the specific gene activation during lymphocyte differentiation.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MIC 755. Infectious Agents and the Immune System. 3 Credit Hours.

This course is intended to explore, at an advanced level, the dynamic equilibrium that exists between microbial pathogens and host immune systems with emphasis on factors that influence progression to disease or sterilizing immunity. Mechanisms employed by the host and pathogen to shift that equilibrium in their favor will be discussed taking into account interactions at the cell system, cellular, and sub-cellular levels. To facilitate interaction between the two fields, both an immunological and a microbial/viral faculty member will be present at all classes.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MIC 761. Advanced Topics in Molecular Biology of Animal Viruses. 2 Credit Hours.

This course is organized around four major themes of virological studies: (i) viral genome transcription, replication, and virus assembly; (ii) viral pathogenesis; (iii) virus cell interactions; and (iv) antiviral strategies. Most recent research developments in these areas are covered through lectures by participating faculty members as well as paper presentations by students.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MIC 775. Advanced Microbiology and Immunology. 3 Credit Hours.

This course will explore in depth the current and advanced concepts and topics in selected areas of Microbiology and Immunology. The classes will consist of a mixture of lectures and discussions of recent papers. Besides covering recent advances and cutting edge experimental approaches in cellular and molecular immunology and microbiology, this course will also expose students to breakthrough concepts and themes that link the disciplines of immunology, microbiology and virology.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MIC 780. Research Ethics. 1 Credit Hour.

The NIH Guide for Grants and Contracts stipulates that Institutions receiving support for National Research Service Award Training Grants are required to develop a program in the principles of Scientific Integrity. This program should be an integral part of the proposed training effort. The University of Miami School of Medicine has chosen to respond to this requirement with this course. This course must be taken during the first semester in the Department or Program. This is a six-hour course and is given in two sessions of three hours each.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MIC 799. Advanced Topics. 1-3 Credit Hours.

Subject matter offerings based upon student demand and availability of faculty. Subtitles describing the topics to be offered will be shown in parentheses in the printed class schedule, following the title "Advanced Topics".

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MIC 810. Master's Thesis. 1-6 Credit Hours.

The student working on his/her master's thesis enrolls for credit, in most departments not to exceed six, as determined by his/her advisor. Credit is not awarded until the thesis has been accepted.

Components: THI.

Grading: SUS.

Typically Offered: Offered by Announcement Only.

MIC 820. Research in Residence. 1 Credit Hour.

Used to establish research in residence for the thesis for the master's degree after the student has enrolled for the permissible cumulative total in MIC 710 (usually six credits). Credit not granted. May be regarded as full time residence.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MIC 830. Doctoral Dissertation. 1-12 Credit Hours.

Required of all candidates for the Ph.D. The student will enroll for credit as determined by his/her advisor but not for less than a total of 24. Not more than 12 hours of MIC 730 may be taken in a regular semester, nor more than six in a summer session. Where a student has passed his/her (a) qualifying examinations, and (b) is engaged in an assistantship, he/she may still take the maximum allowable credit stated above.

Components: THI.

Grading: SUS.

Typically Offered: Fall, Spring, & Summer.

MIC 840. Doctoral Dissertation - Post Candidacy. 1-12 Credit Hours.

Components: THI.

Grading: SUS.

Typically Offered: Fall.

MIC 850. Research in Residence. 1 Credit Hour.

Used to establish research in residence for the Ph.D., after the student has been enrolled for the permissible cumulative total in appropriate doctoral research. Credit not granted. May be regarded as full-time residence as determined by the Dean of the Graduate School.

Components: THI.

Grading: SUS.

Typically Offered: Fall, Spring, & Summer.

Military Science (MSL)

MSL 101. Basic Military Science. 2.00 Credit Hours.

Introduction to Army organizations, military customs and courtesies, basic stationary and marching drills, basic map reading, land navigation, drown-proofing, rappelling, river crossing techniques, physical fitness training, and practical exercises in field discipline. Requires outdoor leadership laboratory and at least one weekend field training exercise.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MSL 102. Basic Military Science. 2.00 Credit Hours.

Introduction to basic leadership principles and traits, army command and staff officer duties, awards, decorations, individual military tactics, field discipline, patrolling techniques, radio telephone procedures, rappelling and river crossing. Requires outdoor leadership laboratory and at least one weekend field training exercise.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MSL 201. Basic Military Science. 2.00 Credit Hours.

Instruction to squad and platoon marching drills, development of physical fitness training programs, conduct on military training and inspections, leadership techniques, advanced map reading, rappelling and river crossing techniques. Requires outdoor leadership laboratory and at least one weekend field training exercise.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MSL 202. Basic Military Science. 2.00 Credit Hours.

Continued instruction in drill and ceremonies, radio/telephone procedures, nuclear, biological, and chemical warfare, practical land navigation, orienteering, and introduction to combat troop leading procedures. Requires outdoor leadership laboratory and at least one weekend field training exercise.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MSL 301. Basic Military Science. 3.00 Credit Hours.

Classroom and field experience in leading squads and platoons in both garrison and combat environments. Practical exercises in combat troop leading procedures. Advanced physical fitness training to include endurance runs and tactical road marches. Requires outdoor leadership laboratory and at least one weekend field training exercise.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MSL 302. Advanced Military Science. 3.00 Credit Hours.

Classroom instruction and field experience in combat troop leading procedures for offensive, defensive and patrolling missions. Advanced written and practical land navigation exercises. Company level drill and ceremonies to include manual of arms. Classroom and practical exercises on requests for artillery and mortar fires. Practical experience with training underclassmen in first aid and individual tactics.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MSL 401. Advanced Military Science. 3.00 Credit Hours.

Instruction instills an uncompromising commitment to the Army Ethic, enhances thought processes and decision-making skills, and relates officer behavior to cadet leadership roles. Students are primarily responsible for the command and control of the cadet battalion for training purposes. Student's role is principally one of officer leader at the platoon (30 or more under classmen) and higher levels and cadet instructor/evaluator. Rifle qualification. Company level drill and ceremonies to include manual of arms.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MSL 402. Advanced Military Science. 3.00 Credit Hours.

Capstone course in the preparation for a commission as a second lieutenant. The training is intended to solidify the commitment to officership, reinforce individual competencies, and afford maximum practical officer leader experiences through responsible leadership positions within the cadet battalion command and staff.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MSL 440. Studies in Military History. 1-3 Credit Hours.

Supervised readings and independent study in military history.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

MSL 499. Independent Studies in U.S. Military History. 3 Credit Hours.

Supervised readings and independent study in United States Military History. Writing requirements.

Components: THI.

Grading: GRD.

Typically Offered: Fall & Spring.

Military Studies (MIS)

MIS 100T. Transfer Credit Elective. 1-10 Credit Hours.

Components: LEC.

Grading: TRN.

Modern Languages and Literature (MLL)

MLL 195. Transfer Credit. 1-3 Credit Hours.

Transfer credit at the 100 level for courses in languages not offered by the Department of Modern Languages and Literature.

Components: UNG.

Grading: GRD.

Typically Offered: Fall.

MLL 295. Transfer Credit. 1-3 Credit Hours.

Transfer credit at the 200 level for courses in languages not offered by the Department of Modern Languages and Literature.

Components: LEC.

Grading: GRD.

MLL 321. Topics In Comparative Literary Studies. 3 Credit Hours.

Comparative and/or interdisciplinary topics in the study of literature. Specific topics vary; may be repeated for credit if topics differ. Taught in English

Prerequisite: ENG 106 or equivalent.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MLL 322. Topics In Comparative Cultural Studies. 3 Credit Hours.

Cultural phenomena in various societies. Interdisciplinary analysis of the political dynamics of contemporary culture and its historical foundations with a focus on ideology, social class, nationality, ethnicity, sexuality and/or gender. Specific topics vary; may be repeated for credit if topics differ. Taught in English.

Prerequisite: ENG 106 or equivalent.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MLL 325. World Cinema. 3 Credit Hours.

Prerequisite: ENG 106 or equivalent.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MLL 330. Comparative Topics In Gender And Sexuality. 3 Credit Hours.

Topics in gender and sexuality in a comparative perspective. May be repeated if topics vary. Taught in English.

Prerequisite: ENG 106 or equivalent.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MLL 340. Migration Studies. 3 Credit Hours.

Topics within the literary and/or cultural dimensions of migration in a comparative framework. Writing Credit.

Prerequisite: ENG 106 or equivalent.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MLL 345. Franco-Maghreb Studies. 3 Credit Hours.

Prerequisite: ENG 106 or equivalent.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MLL 360. The Caribbean Through Literary And Cultural Studies. 3 Credit Hours.

Prerequisite: ENG 106 or equivalent.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MLL 370. Studies In Literature, Culture, And Science. 3 Credit Hours.

An analysis, in a comparative or historical perspective, of the literary works that expose the deep interaction and mutual influence between literary or visual cultures and the sciences. Topics might include: Leonardo's genius; technology at the turn of the 20th-century; 20th-century wars, the science behind them and their representations; Vesalius's anatomical work and the philosophy and representation of the body in 16th-century Europe.

Prerequisite: ENG 106 or equivalent.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MLL 395. Transfer Credit. 1-3 Credit Hours.

Transfer credit at the 300 level for courses in languages not offered by the Department of Modern Languages and Literature.

Components: LEC.

Grading: GRD.

MLL 404. Language in Society. 3 Credit Hours.

Overview of ideological, social, political, economic, and cultural issues of language in society, and the principle linguistic concepts and methodologies that guide research on those issues. Language variation, social dialectology, multilingualism, interaction and interpersonal communication, gender, language and power, language policy and planning, and globalization are highlighted. The main focus of the course (at least 80%) will be on non-English languages in particular, those taught in MLL.

Components: SEM.

Grading: GRD.

Typically Offered: Fall.

MLL 495. Transfer Credit. 1-3 Credit Hours.

Transfer credit at the 400 level for courses in languages not offered by the Department of Modern Languages and Literature.

Components: LEC.

Grading: GRD.

MLL 601. Intro to Second Language Teaching: Theory and Practice. 3 Credit Hours.

Introduction to the teaching of second languages in university settings.

Overview of major theoretical approaches: sociocultural, communicative, and task-based. Practice with teaching techniques: Lesson planning, task design, use of the target language, grammar teaching, use of authentic oral and written materials in the classroom

Requisite: Graduate Status.

Components: SEM.

Grading: GRD.

Typically Offered: Fall.

MLL 602. Bilingualism. 3 Credit Hours.

Social, psychological, linguistic, and pedagogical dimensions of language contact situations. Emphasis on Spanish and French.

Requisite: Graduate Status.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MLL 603. Topics in Critical Studies of Language. 3 Credit Hours.

Special topics in the critical analysis of language.

Requisite: Graduate Status.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MLL 604. Sociocultural Theory and Second Language Development. 3 Credit Hours.

Key principles of sociocultural theory of mind applied to second language acquisition and pedagogy. The seminar will explore the theoretical, methodological, and pedagogical implications of the theory, emphasizing concept-based teaching and dynamic assessment.

Requisite: Graduate Status.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MLL 611. Introduction to Critical Theory. 3 Credit Hours.

An introduction to the major concepts, issues, and debates that inform contemporary literary criticism.

Components: SEM.

Grading: GRD.

Typically Offered: Fall.

MLL 612. Topics in Early Modern Comparative Literature. 3 Credit Hours.

Specific genres, works, authors and movements in comparative perspective in the early modern period (1300-1750). Topics may include: Trans-Atlantic Baroque; Grottesque Literature; Petrarchan Poetry in Italy, France, and England The Emergence of Professional Theater in Western Europe.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MLL 614. Readings in Critical Theory. 3 Credit Hours.

Representative works of critical theory as related to philosophy, sociology of culture, psychoanalysis, hermeneutics, deconstruction, etc. May be repeated for credit if topics are different.

Components: SEM.

Grading: GRD.

Typically Offered: Spring.

MLL 621. Special Topics in Literature. 3 Credit Hours.

May be repeated for credit, if topics are different.

Components: SEM.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MLL 626. Topics in Comparative Literature. 3 Credit Hours.

May be repeated for credit, if topics are different.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MLL 693. Teaching Practicum. 3 Credit Hours.

Components: THI.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MLL 697. Readings for the Ph.D. Examinations. 1 Credit Hour.

For Ph.D. students who are preparing for exams.

Components: THI.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MLL 699. Internship. 1 Credit Hour.

Students work in a community or business setting on issues related to language, culture, and/or teaching.

Components: THI.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

Molecular and Cellular Pharmacology (MCP)

MCP 701. Seminar. 2 Credit Hours.

Review of related literature, discussion of special topics, student presentations and attendance of faculty/department seminars. Course may be repeated for a total of eight credits.

Components: SEM.

Grading: GRD.

Typically Offered: Fall & Spring.

MCP 704. Mechanisms of Drug Action. 3 Credit Hours.

This course consists of a combination of lectures, problem sessions and student presentations. Students will be given in-depth exposure to the fundamental principles of Pharmacology. The mechanism of action of some specific drug classes will be examined in detail.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MCP 720. Research in Residence. 0 Credit Hours.

Used to establish research in residence for the thesis for the master's degree after the student has enrolled for the permissible cumulative total in MCP 710 (usually six credits). Credit not granted. May be regarded as full time residence.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MCP 731. Special Topics. 1-6 Credit Hours.

Directed readings on subjects not ordinarily treated in depth in specific courses. Course may also consist of special laboratory problems.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MCP 732. Cardiovascular Pharmacology. 2-3 Credit Hours.

The course covers cardiovascular pharmacology, necessary cardiovascular physiology and anatomy and the function and pharmacology of the autonomic nervous system. The students learn about the function and energetics of the heart and how it is changed in cardiac disease.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MCP 752. Cell Signaling I: Intracellular Signal Transduction.. 3 Credit Hours.

Most therapeutic drugs exert their action by influencing cellular signal transduction processes. This course provides an in-depth molecular level review of the fundamental signal transduction mechanisms that regulate cell growth, cell proliferation, checkpoint response to cell stressors, cell morphogenesis and differentiation, and their role in the onset of disease.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MCP 753. Cell Signaling 2: Cell-to-Cell Communication and Development.. 3 Credit Hours.

This course focuses on receptors and signaling pathways that govern cellular responses to extrinsic signals. It concentrates on specifics of signaling events in selected biological systems such as CNS, endocrine system, cardiac and hematopoietic stem cells.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MCP 768. Neuropharmacology. 2-3 Credit Hours.

An intensive course covering the regulation of neural processes by drugs that target neurotransmitter signaling at the level of GPCRs, G proteins, second-messengers and ion channels.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MCP 830. Dissertation Research-Pre-Candidacy. 1-12 Credit Hours.

Required for all PhD candidates. The student will enroll for credits as determined by their advisor/Office of Graduate and Postdoctoral Studies. No more than 12 hours of research may be taken in a regular semester, and no more than six in a summer session.

Components: THI.

Grading: SUS.

Typically Offered: Fall, Spring, & Summer.

MCP 840. Doctoral Dissertation- Post Candidacy. 1-12 Credit Hours.

Required for all PhD candidates. The student will enroll for credits as determined by their advisor/ Office of Graduate and Postdoctoral Studies but not less than a total of 24. No more than 12 hours of research may be taken in a regular semester, and no more than six in a summer session.

Components: THI.

Grading: SUS.

Typically Offered: Fall, Spring, & Summer.

MCP 850. Research in Residence. 1 Credit Hour.

Student must be registered in the semester they plan to defend. Used to establish research in residence for the PhD after the student has been enrolled for the permissible cumulative total in appropriate doctoral research. Student may be regarded as full-time residence as determined by the Dean of the Graduate School.

Components: THI.

Grading: SUS.

Typically Offered: Fall, Spring, & Summer.

Molecular, Cellular and Developmental Biology (MDB)

MDB 701. Seminar. 1-2 Credit Hours.

Students are required to present their research findings as well as attend Department Faculty seminars.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

MDB 710. Readings in Cell Biology. 1-6 Credit Hours.

Current and classical research papers in cell, developmental, and molecular biology. Critical evaluation of papers and the methodologies used is included.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

MDB 713. Topics in Cell Biology. 1-6 Credit Hours.

Formal seminar course in which each student presents a lecture relating to a specific theme. Topic areas include cell, developmental, and molecular biology with the subject changing each term.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MDB 751. Advanced Cell Biology Approaches to Molecular Medicine. 2-3 Credit Hours.

Structure, function, and biogenesis of cellular organelles and the cytoskeleton, including their regulation and dynamic interactions. The course is taught in seminars, followed by student-led discussion of recent relevant papers in the literature. The goal of the course is to lead the students to in-depth conceptual and methodological analysis of selected topics up the understanding of current leading-edge research in specific topics in Cell Biology. The course is designed to cover knowledge beyond the text books and to enable the students to design and criticize experimental approaches in Cell Biology acceptable for current peer-review criteria.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MDB 752. Current Topics in Mammalian Development. 2-3 Credit Hours.

The course will cover central emerging topics in mammalian development today including embryonic stem cells, micro RNA gene regulation, and organogenesis. The class will have an interactive format, starting with basic lecture in mammalian development; subsequent sessions will include an overview of the selected topic by faculty, followed by round table discussions of current paper(s) in the field.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MDB 753. Histology. 1 Credit Hour.

This course will offer the student a virtual slide collection of histology with interactive lectures to support image-based learning. The course covers basic tissues, organs, and systems (vascular; heart; pancreas; eyes; brain; spinal cord; liver; lung; mouse embryo; GI track). The course will meet once a week for one hour.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MDB 765. Tumor Biology. 3 Credit Hours.

This course, comprised of lectures and student-led literature discussion, is intended to provide broad-based instruction on the modern molecular and cellular aspects of cancer biology, basic and translational research. The course highlights multiple areas including cell cycle, apoptosis, epidemiology, angiogenesis, and meets two times weekly.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MDB 830. Doctoral Dissertation. 1-12 Credit Hours.

Required of all candidates for the Ph.D. The student will enroll for credit as determined by his/her advisor but not for less than a total of 24. Not more than 12 hours of MDB 730 may be taken in a regular semester, nor more than six in a summer session. Where a student has passed his/her (a) qualifying examinations, and (b) is engaged in an assistantship, he/she may still take the maximum allowable credit stated above.

Components: THI.

Grading: SUS.

Typically Offered: Fall, Spring, & Summer.

MDB 840. Doctoral Dissertation- Post Candidacy. 1-12 Credit Hours.

Required for all PhD candidates. The student will enroll for credits as determined by their advisor/ Office of Graduate and Postdoctoral Studies but not less than a total of 24. No more than 12 hours of research may be taken in a regular semester, and no more than six in a summer session.

Components: THI.

Grading: SUS.

Typically Offered: Fall, Spring, & Summer.

MDB 850. Research in Residence. 1 Credit Hour.

Student must be registered in the semester they plan to defend. Used to establish research in residence for the PhD after the student has been enrolled for the permissible cumulative total in appropriate doctoral research. Student may be regarded as full-time residence as determined by the Dean of the Graduate School.

Components: THI.

Grading: SUS.

Typically Offered: Fall, Spring, & Summer.

Music Education and Therapy (MED)

MED 10. Music Therapy Forum. 0 Credit Hours.

The course provides a weekly forum for sharing information about issues, current developments, and other matters related to music therapy as a field of study and as a profession.

Components: FOR.

Grading: GRD.

Typically Offered: Fall & Spring.

MED 149. Functional Techniques in Music Therapy I. 2 Credit Hours.

Students acquire functional guitar and piano skills while learning repertoire and techniques for leading and accompanying music therapy experiences.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

MED 15. Music Education Forum. 0 Credit Hours.

The course provides a weekly forum for sharing information about issues, current developments, and other matters related to music education as a field of study and as a profession. The course is required for all undergraduate MED majors during each semester, except during the semester of the internship.

Components: FOR.

Grading: GRD.

Typically Offered: Fall & Spring.

MED 159. Introduction to Music Therapy. 2 Credit Hours.

An overview of the field of music therapy, including history, theory and clinical practice. Includes field observations.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MED 240. Woodwind Techniques. 1 Credit Hour.

Course provides group instruction in woodwind instruments with emphasis on basic skills of performance as well as the appropriate teaching techniques, methods, and materials necessary for public school pedagogy. Course may be repeated for credit.

Components: LAB.

Grading: GRD.

Typically Offered: Fall & Spring.

MED 241. Brass Techniques. 1 Credit Hour.

Group instruction in brass instruments with emphasis upon basic skills of performance as well as the appropriate teaching techniques, methods, and materials necessary for public school pedagogy. Course may be repeated for credit.

Components: LAB.

Grading: GRD.

Typically Offered: Fall & Spring.

MED 242. Percussion Techniques. 1 Credit Hour.

Group instruction in percussion (snare drum, mallet-keyboard percussion, timpani, drum set, and small accessory instruments) with emphasis upon basic skills of performance as well as the appropriate teaching techniques, methods, and materials necessary for public school pedagogy. Course may be repeated for credit.

Components: LAB.

Grading: GRD.

Typically Offered: Fall & Spring.

MED 243. String Techniques. 1 Credit Hour.

The study of stringed instruments (violin, viola, cello, bass) in a heterogeneous class with emphasis on general principles of string playing and teaching methods for use in beginning and intermediate instruction in the schools. Course may be repeated for credit.

Components: LAB.

Grading: GRD.

Typically Offered: Fall & Spring.

MED 244. Vocal Techniques. 1 Credit Hour.

Class instruction in fundamentals of singing, breath control, tone production, and solo singing for music majors.

Components: LAB.

Grading: GRD.

Typically Offered: Fall & Spring.

MED 245. Folk & Modern Instrumental Techniques. 1 Credit Hour.

Components: LAB.

Grading: GRD.

Typically Offered: Fall & Spring.

MED 249. Functional Techniques in Music Therapy II. 2 Credit Hours.

Students acquire functional piano skills while learning repertoire and techniques for leading and accompanying music therapy experiences. Vocal skills are also emphasized.

Components: LAB.

Grading: GRD.

Typically Offered: Fall.

MED 259. Music Therapy Pre-Practicum. 2 Credit Hours.

Students will learn a treatment-planning model for clinical practice. Topics include: assessment, goal setting, intervention design and data collection.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MED 340. Marching Band Fundamentals. 1 Credit Hour.

A study of all types of marching band activities and methods of presentation.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MED 359. Music Therapy Practicum 1A. 1 Credit Hour.

Structured clinical experience in music therapy under supervision of a music therapist in varying health-related settings. Focus of the 1A practicum is to observe and assist the on-site music therapist and to engage in limited co-leading.

Components: PRA.

Grading: GRD.

Typically Offered: Fall & Spring.

MED 360. Music therapy Practicum 1B. 1 Credit Hour.

Structured clinical experience in music therapy under supervision of a music therapist in varying health-related settings. Focus of the 1B practicum is to observe and assist the on-site music therapist and to co-lead for half of all sessions.

Components: PRA.

Grading: GRD.

Typically Offered: Fall & Spring.

MED 361. Music Therapy Practicum 2A. 1 Credit Hour.

Structured clinical experience in music therapy under supervision of a music therapist in varying health-related settings. Focus of the 2A practicum is to observe and assist the on-site music therapist and to co-lead for 60% of all sessions.

Components: PRA.

Grading: GRD.

Typically Offered: Fall & Spring.

MED 362. Music Therapy Practicum 2B. 1 Credit Hour.

Structured clinical experience in music therapy under supervision of a music therapist in varying health-related settings. Focus of the 2B practicum is to observe and assist the on-site music therapist and to co-lead for 75% of all sessions.

Components: PRA.

Grading: GRD.

Typically Offered: Fall & Spring.

MED 363. Music Therapy Practicum 3A. 1 Credit Hour.

Structured clinical experience in music therapy under supervision of a music therapist in varying health-related settings. Focus of the 3A practicum is to observe and assist the on-site music therapist and to co-lead all sessions following one initial observation.

Components: PRA.

Grading: GRD.

Typically Offered: Fall & Spring.

MED 364. Music Therapy Practicum 3B. 1 Credit Hour.

Structured clinical experience in music therapy under supervision of a music therapist in varying health-related settings. Focus of the 3B practicum is to independently design and lead all sessions.

Components: PRA.

Grading: GRD.

Typically Offered: Fall & Spring.

MED 430. Teaching Jazz/Popular Music in Secondary Schools. 2 Credit Hours.

A survey of materials, methods, and techniques for instructing jazz and popular music in secondary schools. Review of standard literature, program organization, and in-class performance is emphasized. Designed specifically for music education majors.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MED 433. Seminar for Teaching Associates.. 1 Credit Hour.

Discussion of teaching, rehearsal techniques, and the organization and presentation of music materials related to the internship experiences. Course is required of all Music Education majors. To be taken in conjunction with Internship, MED 471.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

MED 471. Internship in Music Education (Elementary School). 6 Credit Hours.

Components: PRA.

Grading: GRD.

Typically Offered: Fall & Spring.

MED 473. Internship in Music Education (Secondary School). 6 Credit Hours.

Components: PRA.

Grading: GRD.

Typically Offered: Fall & Spring.

MED 475. Internship in Music Education. 12 Credit Hours.

A comprehensive program in observation and supervised teaching in elementary, middle, or secondary school music settings for a full semester under the guidance of school and university personnel.

Components: PRA.

Grading: GRD.

Typically Offered: Fall & Spring.

MED 493. Special Projects In Music Education. 1-3 Credit Hours.

Supervised readings and other activities in specific areas of Music Education.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MED 494. Special Topics In Music Education. 1-3 Credit Hours.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MED 541. Musical Instrument Maintenance. 0 Credit Hours.

Mechanical development, care, and maintenance of musical instruments. Separate sections for wind, percussion, string, and keyboard instruments.

Components: LAB.

Grading: GRD.

Typically Offered: Fall & Spring.

MED 542. Teaching General Music (K-5). 3 Credit Hours.

Curriculum, methods, and materials designed for elementary music, K-6. Observation, planning, and teaching experience are emphasized.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MED 543. Teaching Instrumental Music. 3 Credit Hours.

A study of elementary and secondary instrumental music instruction including program organization, teaching techniques, materials, and field experiences of music instruction in schools.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MED 544. Teaching Modern Music (7-12). 3 Credit Hours.

This course will provide students with fundamentals of teaching vocal music at the secondary (middle and high school) level. Focus will be placed on presenting effective and ethical instruction to all learners; developing a foundation of appropriate pedagogy and practice; building strategies for classroom management; and working in diverse populations. Students will be guided through activities and materials necessary for a successful student teaching experience in vocal music.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MED 545. Music in Rehabilitation. 3 Credit Hours.

Review of development and functioning for neurologically-based sensorimotor behavior. Survey of disabilities and diseases that typically result in sensorimotor deficits is included. Demonstration and practice of therapeutic techniques for sensorimotor deficits are also covered.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MED 546. Music in Psychotherapy. 3 Credit Hours.

Survey and practical application of music as therapy in the treatment of psychiatric disorders and in promoting mental health.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MED 548. Music for Special Learners. 3 Credit Hours.

This course is designed for music educators who will be working in schools with children and youth who have various disabilities. The purpose of MED 548 is to acquaint students with the characteristics of children and youth with disabilities, and introduce adaptive strategies in music education, K-12, for instructing children and youth with disabilities.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MED 549. Teaching Vocal Music. 3 Credit Hours.

This course will provide students with fundamentals of teaching general music at the secondary (middle and high school) level. Focus will be placed on developing 21st Century musical curricula across a variety of musical disciplines; engaging students through several instructional paradigms; and for presenting instruction using conventional educational strategies.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MED 551. Music Therapy Research Methods. 3 Credit Hours.

This course is designed to help music therapy students: 1) integrate research findings into their clinical and/or educational practice, 2) implement research techniques into their work (e.g., through data collection or scholarly writing), and 3) become familiar with research procedures.

Components: LEC.

Grading: GRD.

MED 559. Internship in Music Therapy. 3 Credit Hours.

Course provides students with a six month opportunity as a music therapy intern in an approved training facility.

Components: PRA.

Grading: GRD.

Typically Offered: Summer.

MED 560. Internship in Music Therapy II. 0 Credit Hours.

Prerequisite: MED 450.

Components: PRA.

Grading: GRD.

Typically Offered: Summer.

MED 562. Psychology of Music I. 3 Credit Hours.

Psychological foundations of music with an emphasis on problems of perception, experimental esthetics, functional music, and measurement and diagnosis of musical ability and achievement. Related literature of experimental investigation is reviewed.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MED 575. Preschool Music Workshop. 1-3 Credit Hours.

Workshop is designed to prepare class members to initiate, administer, and teach music programs for preschool children. Materials which address the teacher, the child, and the parent are used. The daily schedule includes demonstration classes with children, lectures, and active participation of and discussion with class members. Emphasis is placed on working with a planning guide for teachers which offers articles on the major areas of the curriculum and clear, succinct statements focusing on the central issues of each lesson.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MED 576. Music and Development. 3 Credit Hours.

Review of development in cognitive, communication, and musical domains. Survey of developmental disabilities most commonly found in child populations is included as well as demonstration and practice of therapeutic techniques for cognitive and communication deficits.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MED 581. Teaching Classroom Guitar I. 2 Credit Hours.

This class is designed for students and teachers, guitarist or non-guitarist, who wish to initiate, enhance, and teach guitar in a multi-level classroom setting. The course includes demonstration classes with elementary and secondary students. Topics include organization and teaching performance materials in a hands-on setting.

Components: LEC.

Grading: GRD.

Typically Offered: Summer.

MED 593. Special Projects In Music Education And Music Therapy. 1-3 Credit Hours.

Supervised topics and other activities in specific areas of Music Education.

Components: PRA.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MED 594. Special Topics In Music Education And Music Therapy. 1-3 Credit Hours.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MED 641. Musical Instrument Maintenance. 0 Credit Hours.

Mechanical development, care, and maintenance of musical instruments. Separate sections for wind, percussion, string, and keyboard instruments.

Components: LAB.

Grading: GRD.

Typically Offered: Fall & Spring.

MED 642. Teaching General Music. 3 Credit Hours.

Curriculum, methods, and materials designed for elementary music, K-6. Observation, planning, and teaching experience are emphasized

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MED 643. Teaching Instrumental Music. 3 Credit Hours.

A study of elementary and secondary instrumental music instruction including program organization, teaching techniques, materials, and field experiences of music instruction in schools.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MED 644. Teaching Modern Music. 3 Credit Hours.

This course will provide students with fundamentals of teaching general music at the secondary (middle and high school) level. Focus will be placed on developing 21st century musical curricula across a variety of musical disciplines; engaging students through several instructional paradigms; and for presenting instruction using conventional educational strategies.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MED 645. Folk and Modern Instrumental Techniques. 3 Credit Hours.

Review of development and functioning for neurologically-based sensorimotor behavior. Survey of disabilities and diseases that typically result in sensorimotor deficits is included. Demonstration and practice of therapeutic techniques for sensorimotor deficits are also covered.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MED 646. Music in Psychotherapy. 3 Credit Hours.

Survey and practical application of music as therapy in the treatment of psychiatric disorders and in promoting mental health.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MED 648. Music for Special Learners. 3 Credit Hours.

This course is designed for music educators who will be working in schools with children and youth who have various disabilities. The purpose of MED 548 is to acquaint students with the characteristics of children and youth with disabilities, and introduce adaptive strategies in music education, K-12, for instructing children and youth with disabilities.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MED 649. Teaching Vocal Music. 3 Credit Hours.

Course covers curriculum, vocal/rehearsal techniques, and literature. Teaching music in secondary schools through the medium of choral performance.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MED 651. Music Therapy Research Methods. 3 Credit Hours.

This course is designed to help music therapy students: 1) integrate research findings into their clinical and/or educational practice, 2) implement research techniques into their work (e.g., through data collection or scholarly writing), and 3) become familiar with research procedures.

Components: LEC.

Grading: GRD.

MED 655. Elementary Music Workshop. 3 Credit Hours.

Course is designed for in-service elementary school classroom teachers and music supervisors. Survey and experience with contemporary methodology and materials in elementary school music education is emphasized.

Components: SEM.

Grading: GRD.

Typically Offered: Summer.

MED 656. Secondary General Music Workshop. 3 Credit Hours.

Course is designed for teachers of general music classes in middle, junior high, and senior high schools. Practical experience with methods and materials designed for non-performance music classes, grades 7-12 is emphasized.

Components: SEM.

Grading: GRD.

Typically Offered: Summer.

MED 659. Internship in Music Therapy. 3 Credit Hours.

Course provides students with a six month opportunity as a music therapy intern in an approved training facility.

Components: PRA.

Grading: GRD.

Typically Offered: Summer.

MED 660. Internship in Music Therapy II. 0 Credit Hours.

Components: PRA.

Grading: GRD.

Typically Offered: Summer.

MED 662. Psychology of Music I. 3 Credit Hours.

Psychological foundations of music with an emphasis on problems of perception, experimental esthetics, functional music, and measurement and diagnosis of musical ability and achievement. Related literature of experimental investigation is reviewed.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MED 675. Preschool Music Workshop. 1-3 Credit Hours.

Workshop is designed to prepare class members to initiate, administer, and teach music programs for preschool children. Materials which address the teacher, the child, and the parent are used. The daily schedule includes demonstration classes with children, lectures, and active participation of and discussion with class members. Emphasis is placed on working with a planning guide for teachers which offers articles on the major areas of the curriculum and clear, succinct statements focusing on the central issues of each lesson.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MED 676. Music and Development. 3 Credit Hours.

Review of development in cognitive, communication, and musical domains. Survey of developmental disabilities most commonly found in child populations is included as well as demonstration and practice of therapeutic techniques for cognitive and communication deficits.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MED 681. Teaching Classroom Guitar I. 2 Credit Hours.

This class is designed for students and teachers, guitarist or non-guitarist, who wish to initiate, enhance, and teach guitar in a multi-level classroom setting. The course includes demonstration classes with elementary and secondary students. Topics include organization and teaching performance materials in a hands-on setting.

Components: LEC.

Grading: GRD.

Typically Offered: Summer.

MED 693. Special Projects In Music Education And Music Therapy. 1-3 Credit Hours.

Supervised topics and other activities in specific areas of Music Education.

Components: PRA.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MED 694. Special Topics In Music Education And Music Therapy. 1-3 Credit Hours.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MED 700. Psychoacoustical Foundations of Music. 2 Credit Hours.

Production, transmission, and reception of simple and complex tones. Examination of physical properties and psychoacoustical response to tonal stimuli is also included.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MED 701. Recital Paper Preparation. 1 Credit Hour.

Supervised preparation of the recital paper required for the Master of Music degree in classical performance.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

MED 702. DMA Essay Proposal. 1 Credit Hour.

Supervised preparation of the DMA proposal for the Doctor of Musical Arts in Performance, Conducting, or Accompanying and Chamber Music.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MED 710. Graduate Forum in Music Therapy. 0 Credit Hours.

Forum for graduate students to discuss topics relevant to advanced music therapy practice, engage in experiential therapeutic techniques, and to share student efforts of scholarship in the field.

Components: FOR.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MED 715. Graduate Forum. 0 Credit Hours.

Forum for masters and doctoral students to discuss various topics of relevance to music education practice and to share efforts of scholarship in the field.

Components: FOR.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MED 720. International Music Education. 3 Credit Hours.

Students study music instruction systems in other countries, including public and private school, community music programs, private music instruction, music conservatory instruction, informal instructional systems, and university work in music. Students compare music instruction systems in the United States and other countries through readings and presentations by native informants. An optional on-site field experience examining music education in another country may be arranged to coincide with this course.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MED 725. Cultural Diversity In Music Education. 3 Credit Hours.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MED 729. Advanced Music Therapy Practice I. 3 Credit Hours.

Review of research literature in clinical topic areas, such as music and cognition, or music and affective processing. Presentation of research findings through writing and discussion is emphasized as well as the application of research findings through practice and demonstration of therapeutic techniques.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MED 730. Advanced Music Therapy Practice II. 3 Credit Hours.

Review of research literature in clinical topic areas, such as music and sensorimotor processing or music in biofeedback. Presentation of research findings through writing and discussion is emphasized as well as the application of research findings through practice and demonstration of therapeutic techniques.

Components: LAB.

Grading: GRD.

Typically Offered: Fall & Spring.

MED 732. Vocal Methods and Materials in Music Education. 2 Credit Hours.

Survey of latest vocal methods and publications for use in public schools.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MED 733. Seminar for Teaching Associates. 1 Credit Hour.

Discussion of teaching, rehearsal techniques, and the organization of music materials related to the internship experience. To be taken in conjunction with internship, MED 771.

Components: SEM.

Grading: GRD.

Typically Offered: Fall & Spring.

MED 734. String Techniques. 1 Credit Hour.

Components: LAB.

Grading: GRD.

MED 735. Social Issues Music Learn. 3 Credit Hours.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MED 740. Community Music Program. 3 Credit Hours.

Group instruction in woodwind instruments with emphasis on basic skills of performance as well as the appropriate teaching techniques, methods, and materials necessary for public school pedagogy. Course may be repeated for credit.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MED 741. Brass Techniques. 1 Credit Hour.

Group instruction in brass instruments with emphasis on basic skills of performance as well as the appropriate teaching techniques, methods, and materials necessary for public school pedagogy. Course may be repeated for credit.

Components: LAB.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MED 742. Percussion Techniques. 1 Credit Hour.

Group instruction in percussion (snare drum, mallet-keyboard percussion, timpani, drumset, and small accessory instruments) with emphasis upon basic skills of performance as well as the appropriate teaching techniques, methods, and materials necessary for public school pedagogy. Course may be repeated for credit.

Components: LAB.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MED 743. String Techniques. 1 Credit Hour.

The study of stringed instruments (violin, viola, cello, bass) in a heterogeneous class with emphasis on general principles of string playing and teaching methods for use in beginning and intermediate instruction in the schools. Course may be repeated for credit.

Components: LAB.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MED 744. Vocal Techniques. 1 Credit Hour.

Class instruction in fundamentals of singing, breath control, tone production, and solo singing for music majors.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MED 745. Functional Music Techniques. 1 Credit Hour.

Group instruction in the functional use of guitar, autoharp, and recorder for classroom or music therapy uses. Functional skill, teaching methods, and materials are emphasized.

Components: LAB.

Grading: GRD.

Typically Offered: Fall.

MED 747. Seminar in Instrumental Music Education. 2 Credit Hours.

Practical study of the development of school band programs with special consideration given to the selection of training and concert materials, rehearsal techniques and administrative procedures.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

MED 750. Community Music Programs. 3 Credit Hours.

A seminar designed to generate ideas about contemporary theory and practice in community music. Students engage in readings and discussion. The course is open to all graduate music majors, but is intended for music education doctoral students.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MED 757. Music Therapy Graduate Practicum 1. 2 Credit Hours.

In a clinical setting, gain skill in observation and co-leading under the supervision of a music therapist.

Components: PRA.

Grading: GRD.

Typically Offered: Fall & Spring.

MED 758. Music Therapy Graduate Practicum 2. 2 Credit Hours.

Components: PRA.

Grading: GRD.

Typically Offered: Fall & Spring.

MED 759. Music Therapy Graduate Practicum 3. 2 Credit Hours.

In a clinical setting, independently design and apply therapeutic techniques based on scientific evidence.

Components: PRA.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MED 760. Philosophy of Music Education. 3 Credit Hours.

The history of Western music education beginning with the ancient Greeks is surveyed to the present. Incorporated in the survey is the evolution of philosophical thought about music and its role in educational practice. From this grounding, current philosophical views of music education are presented.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MED 762. Music Learning and Curriculum. 3 Credit Hours.

Survey of theories of music learning and their application to music instruction, curriculum development, and instructional design in music.

Components: LEC.

Grading: GRD.

MED 763. Music Research Methods. 3 Credit Hours.

An introduction to descriptive, experimental, philosophical, qualitative, and historical research in music education and music therapy, with particular reference to data collection, research design, and effective research procedures. Students prepare critiques of research material and are guided in designing original research projects related to their own area of interest.

Components: LEC.

Grading: GRD.

MED 764. Music Assessment. 3 Credit Hours.

Presentation of methods for assessing musical behavior in studios, classrooms, and concert halls. Strategies for the objectification of performance quality, musical learning, capacity, and potential uses of contemporary measurement techniques are provided.

Components: LEC.

Grading: GRD.

MED 765. Seminar in Music Education. 2 Credit Hours.

Survey of literature, bibliography, and contemporary trends in music education. Course may be repeated for credit by doctoral students with consent of instructor.

Components: SEM.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MED 773. Seminar on Music in Childhood. 2 Credit Hours.

Seminar addresses music in the lives of children by examining the musical cultures of childhood, music transmission processes, and formal through informal learning. Implication from music teaching will be considered.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MED 774. Seminar in General Music. 2 Credit Hours.

Course provides curriculum, methods, and materials designed for instruction for the general music student, grades K-12.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MED 775. Practicum in Music Education. 7 Credit Hours.

Students enrolled in the Master of Music with Certification Option Degree may complete the required internship with this course.

Components: PRA.

Grading: GRD.

Typically Offered: Fall & Spring.

MED 776. Practicum in Teaching College Students. 1-3 Credit Hours.

Supervised practicum for teaching music education courses at the college level.

Components: PRA.

Grading: GRD.

Typically Offered: Fall & Spring.

MED 780. Doctoral Seminar. 1 Credit Hour.

A seminar designed to generate ideas about contemporary theory and practice in music. Students engage in discussion of general research topics, but from the perspective of their particular discipline. Enrollment is intended for those doctoral students who have satisfactorily completed the qualifying examinations through and until receiving approval of the doctoral paper proposal. The course is open to all majors, but is required of all music education doctoral students.

Components: SEM.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MED 781. Seminar In Qualitative Research In Music. 2 Credit Hours.

Components: LSN.

Grading: GRD.

Typically Offered: Spring.

MED 782. Seminar In Quantitative Research In Music. 2 Credit Hours.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MED 784. Music Therapy Seminar. 1 Credit Hour.

Doctoral seminar in music therapy to address practical and professional issues pertaining to teaching and research in music therapy. Possible topics include: Teaching and Clinical Supervision, Philosophical Research, and Historical Research.

Components: SEM.

Grading: GRD.

Typically Offered: Fall & Spring.

MED 790. Teaching Music in College. 1 Credit Hour.

An overview of college music curriculum, patterns of administrative organization, traditional and innovative content, styles and resources used in teaching at the college level, evaluation and grading techniques used in classes, lessons, and ensembles.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MED 793. Special Projects In Music Education And Music Therapy. 1-3 Credit Hours.

Supervised topics and other activities in specific areas of Music Education.

Components: PRA.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MED 794. Special Topics In Music Education Or Music Therapy. 1-3 Credit Hours.

Projects in any phase of music education in which the student is interested and qualified to work.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MED 795. Doctoral Research Project. 1 Credit Hour.

Small scale research project in music education or music therapy, suitable for publication. This project could serve as pilot work for the dissertation.

Components: THI.

Grading: GRD.

Typically Offered: Fall & Spring.

MED 796. Doctoral Research Project. 1.00 Credit Hour.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

MED 805. Master's Project. 1-3 Credit Hours.

Culminating project for Master of Music in music education students not completing a thesis or recital.

Components: THI.

Grading: SUS.

Typically Offered: Fall.

MED 810. Master's Thesis. 1-6 Credit Hours.

The student working on his/her master's thesis enrolls for credit, in most departments not to exceed six, as determined by his/her advisor. Credit is not awarded until the thesis has been accepted.

Components: THI.

Grading: SUS.

Typically Offered: Fall, Spring, & Summer.

MED 820. Research in Residence. 1 Credit Hour.

Used to establish research in residence for the thesis for the master's degree after the student has enrolled for the permissible cumulative total in MED 710 (usually six credits). Credit not granted. May be regarded as full time residence.

Components: THI.

Grading: SUS.

Typically Offered: Fall, Spring, & Summer.

MED 830. Doctoral Dissertation. 1-12 Credit Hours.

Required of all candidates for the Ph.D. The student will enroll for credit as determined by his/her advisor but not for less than a total of 24. Not more than 12 hours of MED 730 may be taken in a regular semester, nor more than six in a summer session. Where a student has passed his/her (a) qualifying examinations, and (b) is engaged in an assistantship, he/she may still take the maximum allowable credit stated above.

Components: THI.

Grading: SUS.

Typically Offered: Fall & Spring.

MED 850. Research in Residence. 1 Credit Hour.

Used to establish research in residence for the Ph.D. and D.M.A., after the student has been enrolled for the permissible cumulative total in appropriate doctoral research. Credit not granted. May be regarded as full-time residence as determined by the Dean of the Graduate School.

Components: THI.

Grading: SUS.

Typically Offered: Fall, Spring, & Summer.

Music, Media and Industry (MMI)

MMI 102. Record Company Practicum. 1 Credit Hour.

The course focuses on practical techniques and procedures employed by record companies.

Requisite: Frost School of Music.

Components: PRA.

Grading: GRD.

Typically Offered: Fall & Spring.

MMI 107. Skills Lab I. 1 Credit Hour.

A Contemporary Performance musical skills ensemble focusing on ear training, transcription, notation, and interactive musicianship for songwriters.

Requisite: Frost School of Music.

Components: LAB.

Grading: GRD.

Typically Offered: Fall.

MMI 108. Skills Lab II. 1 Credit Hour.

A Contemporary Performance musical skills ensemble focusing on ear training, transcription, notation, and interactive musicianship for songwriters.

Requisite: Frost School of Music.

Components: LAB.

Grading: GRD.

Typically Offered: Spring.

MMI 13. Music Engineering Forum. 0 Credit Hours.

A weekly forum for all Music Engineering Technology and Audio Engineering majors, both undergraduate and graduate. Presentations include faculty lectures, guest lectures by industry professionals, as well as dissemination of information pertaining to audio studios and laboratories.

Requisite: Plan of Music Engineering.

Components: FOR.

Grading: GRD.

Typically Offered: Fall & Spring.

MMI 139. Small Contemporary Ensemble. 1 Credit Hour.

A performing ensemble of student-generated contemporary musical repertoire.

Requisite: must have a major Plan of MBEI with Creative American Music & Business or a minor Plan of Creative American Music.

Components: ENS.

Grading: GRD.

Typically Offered: Fall & Spring.

MMI 14. Music Industry Forum. 0 Credit Hours.

A weekly forum for all Music Industry majors, both graduate and undergraduate, for the purpose of updating current teaching material with the latest developments, presentations of guest speakers from the industry, lectures, and reports from faculty on current employment opportunities.

Requisite: Plan of Music Business & Entertainment Industry.

Components: FOR.

Grading: GRD.

Typically Offered: Fall & Spring.

MMI 140. Experiential Musicianship I. 3 Credit Hours.

The first of a two-course sequence in music theory, with an overall focus on musicianship for the Contemporary Music student. The course emphasizes theoretical and analytical skills, as well as the connection between analysis and other musical experiences in listening and performance. The student will display a written understanding of the basic building blocks of music, through its more advanced constructions and functions.

Corequisite: MMI 107.

Components: LAB.

Grading: GRD.

Typically Offered: Fall.

MMI 141. Experiential Musicianship II. 3 Credit Hours.

MMI 141 is the second in a two-course sequence in music theory and musicianship for the Contemporary Music Student. As with MMI 140, the course emphasizes analytical skills and the connections between analysis and other musical experiences in listening and performance. Prerequisite: MMI 108.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MMI 15. Creative American Music Forum. 0 Credit Hours.

Requisite: must have a major Plan of MBEI with Creative American Music & Business or a minor Plan of Creative American Music.

Components: FOR.

Grading: GRD.

Typically Offered: Fall & Spring.

MMI 151. Desktop Audio Production. 3 Credit Hours.

Introduction to MIDI technology and computer based tools for music production.

Requisite: Plan of MUE or MEC.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MMI 16. Contemporary Performance Forum. 0 Credit Hours.

A weekly forum of all Contemporary Performance principals dedicated to student and Faculty performances, master classes, guest artists, and workshops.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

MMI 160. Ensemble Recording Workshop I. 1-3 Credit Hours.

Assisting recording and sound reinforcement engineers in the assigned performance ensemble in both rehearsal and performance. Students also perform in a studio ensemble where they act as both recording engineer and musician.

Requisite: Plan of MUE or MEC.

Components: LAB.

Grading: GRD.

Typically Offered: Fall.

MMI 161. Ensemble Recording Workshop II. 3 Credit Hours.

Students are responsible for the audio needs of an assigned ensemble in both rehearsal and performance. Lectures address audio equipment and practices. Students also perform in a studio ensemble where they act as the recording engineer and musician. Open to MUE majors only.

Prerequisite: MMI 160. Requisite: Plan of MUE or MEC.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MMI 171. Music Engineering Laboratory. 1 Credit Hour.

Requisite: MBEI and MBEC majors and MBEI minors only.

Components: LAB.

Grading: GRD.

Typically Offered: Fall.

MMI 172. Audio Design Workshop III. 1 Credit Hour.

Digital audio system design and architecture including analog-digital conversion, digital I/O hardware specifications, audio effects processors and digital audio recorder alignment techniques. Students design and troubleshoot audio projects including A/D converters, S/PDIF I/O, and DAT recorders. Open to MUE and EAN Majors only.

Requisite: Frost School of Music.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MMI 173. Multinational Recorded Music Industry. 3 Credit Hours.

An introductory course presenting a structural overview of the music business and entertainment industries and the Music Industry Program. Historical development of music as a business and the development of the market place for both music and musicians. Emphasis is placed on contemporary music business practices. Topics include songwriting, publishing, musical instrument sales, artist management, arts management, professional organizations, copyright law, record industry, unions and guilds, and career development. Requisite: MBEI and MBEC majors and MBEI minors only.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

MMI 178. Entertainment Industry Survey. 3 Credit Hours.

An overview of the entertainment industry. Concentration on the legal, marketing and financial aspects of different areas of the industry including film, television, music, broadcasting, cable, publishing, video games, sports, performing arts, and theme parks.

Requisite: MBEI and MBEC majors and MBEI minors only.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MMI 201. Introduction to Music Recording. 3.00 Credit Hours.

An overview study of the theory and practice of music recording, with emphasis on modern recording studio practices. Topics include physics of sound, psychoacoustics, studio design, microphones, loudspeakers, consoles, signal processing, digital audio, MIDI, and synchronization.

Requisite: Must have a plan of MUE or MEC or EAN.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MMI 207. Skills Lab III: American Song Traditions. 1 Credit Hour.

A learning ensemble focusing on the various African American song traditions from early plantations songs, shouts, hollers, and spirituals, to the development of blues traditions, to gospel. Students will develop a portfolio of original works in traditional African-American styles.

Components: LAB.

Grading: GRD.

Typically Offered: Fall.

MMI 208. Skills Lab IV: American Song Traditions. 1 Credit Hour.

A learning ensemble focusing on the various Anglo-American song traditions from English and Irish folk ballads, to shape-note and Sacred Harp hymnody, to early folk, country and bluegrass. Students will develop a portfolio of original works in traditional Anglo-American styles.

Components: LAB.

Grading: GRD.

Typically Offered: Spring.

MMI 240. Experiential Musicianship III. 3 Credit Hours.

The study of melodic, harmonic and rhythmic language in jazz and contemporary music using analysis and aural dictation. MMI 207 Skills Lab III, keyboard lab accompanies this course.

Corequisite: MMI 207 SKILLS LAB III.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MMI 241. Experiential Musicianship IV. 3 Credit Hours.

The continuation of MSJ 140/MMI 240 focused on the study of the diminished chord, extensions, modes and upper structure triads. A keyboard lab accompanies this course.

Corequisite: MMI 208 SKILLS LAB IV.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MMI 250. Essential Technologies For Musicians. 3 Credit Hours.

Basic MIDI and digital audio principles from set-up to final mix, recording of live instruments using basic microphone techniques, MIDI sequencing, software synthesizers, basic editing, and audio looping.

Requisite: Frost School of Music.

Components: DIL.

Grading: GRD.

Typically Offered: Fall & Spring.

MMI 273. Artist Development and the Live Entertainment Industry. 3 Credit Hours.

Views of the live entertainment industry from the perspective of the performing artist, artist manager, talent agent, attorney, and concert promoter. Consideration is given to the interpersonal, business, and contractual relationships and their impact on the performing artist's career. Strategies for career development are addressed and the ground rules of publicity, public relations, and promotion explored and applied in practical situations through special individual and team projects.

Prerequisites: MMI 173 or MMI 178 or MMI 310. Requisite: MBEI and MBEC majors and MBEI minors only.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MMI 274. Introduction to Music Copyright Law. 3 Credit Hours.

A study of essential provisions of the 1976 Copyright Act and the Protection of Intellectual Property, covering the principles and practices of modern music publishing and international co-publishing. Students examine the complexities of copyright right law as it relates to the music industry.

Requisite: MBEI and MBEC majors and MBEI minors only.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MMI 307. Skills Lab V: American Pop. 1 Credit Hour.

A learning ensemble focusing on American Popular Music from the late-1950s to the late-1970s. Students will develop a portfolio of original songs in modern American styles.

Components: ENS.

Grading: GRD.

Typically Offered: Fall.

MMI 308. Skills Lab VI: American Pop. 1 Credit Hour.

A learning ensemble focusing on American Popular Music from the 1980s to the present. Students will develop a portfolio of original songs in modern American styles.

Components: ENS.

Grading: GRD.

Typically Offered: Spring.

MMI 310. Music Business and Entrepreneurship. 3 Credit Hours.

This course provides students with an overview of the music business, entrepreneurial fundamentals, and business practices related to the student's specific music major. Music business topics explored include copyright, publishing, the record business, licensing, the live music industry, and arts administration. Entrepreneurial topics explored include starting a business, securing funding, and accounting and marketing basics. Business practices related to the student's specific music major vary by major.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

MMI 315. Contemporary Songwriting I. 3 Credit Hours.

Explores modern songwriting techniques, song lyric theory, song form, melodic development, pop harmony and rhythm & grooves. Students will analyze a variety of recordings by top modern songwriters. Students will compose and record a number of original songs for the course.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MMI 320. Contemporary Lyric Writing. 3 Credit Hours.

This course explores modern lyric writing techniques, song lyric theory, and song form. Students will analyze a variety of lyrics by top modern songwriters, focusing on their use of literary devices, imagery and metaphors. Students will compose a number of original lyrics for the course.

Requisite: Frost School of Music.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MMI 361. Acoustics. 3 Credit Hours.

A study of the theoretical principles of acoustics. Principle topics include basic properties, acoustical phenomena, superposition, Fourier Theorem, symmetry, vibrating strings and columns, and musical instruments; a study of architectural acoustics such as growth and decay, absorption coefficients, normal modes, diffusion, isolation, and mass law; design applications such as structural techniques and materials, live end-dead end, room geometry, tuning, TDS and other measurement techniques. Prerequisites: MTH 112, PHY 102 or PHY 205. Requisite: Plan of MUE and MEC.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MMI 378. Entertainment Industry Contract Basics.. 3 Credit Hours.

Business relations between the record company, artist, producer and licensees, both domestic and foreign. Analysis of actual contracts between parties, implications of newer technology on the industry. Prerequisites: MMI 173 or MMI 178 or MMI 310, MMI 274. Requisite: MBEI and MBEC Majors and MBEI Minors only.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MMI 401. Audio Electronics. 3.00 Credit Hours.

An introductory course in audio electronics theory and professional audio applications such as recording studio equipment and audio effects design. Coursework includes basic electronic components and theories, passive filtering, transformers, operational amplifiers, vacuum tubes, non-linear elements including diodes and JFETs, graphic, parametric and shelving equalizers, compressors, limiters, gates, microphone preamps, analog effects including reverb, flanging, and chorusing. Students will design custom audio circuits and use computer simulations to understand theory of operation.

Requisite: Frost School of Music.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MMI 410. Music Engineering Capstone Project. 3 Credit Hours.

Students in MMI 410 propose and execute a project that represents the Culmination of their learning experiences in the Music Engineering Program. Students meet as a group with a faculty member of record each week to Discuss project topics and assess progress. The course concludes with a public Presentation of the final project.

Prerequisite: MMI 504.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MMI 436. Audio Postproduction. 3 Credit Hours.

Basic audio for video and film postproduction, including the study of time code, synchronization, electronic editing, video and film transports, dolby stereo, equipment interfacing, and future developments.

Requisite: Frost School of Music.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MMI 445. Senior Project/Portfolio. 1 Credit Hour.

This course is the capstone of the Creative American Music Program. Students will develop a portfolio of recordings of original songs. Students will also be required a public performance of their original songs.

Requisite: must have a major Plan of MBEI with Creative American Music & Business or a minor Plan of Creative American Music.

Components: THI.

Grading: GRD.

Typically Offered: Spring.

MMI 454. Entertainment Industry Practicum. 1 Credit Hour.

Practical experience in an entertainment industry organization.

Requisite: Frost School of Music.

Components: PRA.

Grading: GRD.

Typically Offered: Fall & Spring.

MMI 455. Internship in Entertainment Industry. 2 Credit Hours.

Practical experience in different areas of the entertainment industry under the supervision of professional firms and the faculty advisor.

Requisite: Frost School of Music.

Components: PRA.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MMI 456. Internship in Entertainment Industries II. 0 Credit Hours.

Continuation of MMI 455.

Requisite: Frost School of Music.

Components: THI.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MMI 460. Recital Recording And Sound Reinforcement (Recording Services). 1 Credit Hour.

Practical experience in live concert recording, editing and mastering, and sound reinforcement, under supervision of professional on-campus engineers.

Requisite: Frost School of Music.

Components: PRA.

Grading: GRD.

Typically Offered: Fall & Spring.

MMI 465. Internship in Music Engineering. 1-3 Credit Hours.

Practical experience in the music engineering industry such as work in a recording studio, broadcast company, hardware or software manufacturer, under professional supervision.

Requisite: Plan of MUE or MEC.

Components: PRA.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MMI 493. Special Projects In Music Media & Industry. 1-3 Credit Hours.

Supervised readings and other activities in specific areas of Music Media and Industry.

Requisite: Frost School of Music.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MMI 494. Special Topics In Music Media & Industry. 1-3 Credit Hours.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MMI 501. Transducer Theory. 3 Credit Hours.

Course covers the fundamentals of electromagnetism and audio transducer theory including loudspeaker and microphone systems. Classical electro-acoustical analysis of transducers including acoustic suspension, bass-reflex, transmission line, electrostatic and horn loudspeakers, dynamic, ribbon and condenser pressure, and pressure-gradient microphones. Students use computer-aided design programs and Thiele-Small parameterization to model loudspeakers and measure loudspeaker responses. Open to MUE and EAN Majors only.

Prerequisite: MMI 501. Requisite: Plan of MUE and EAN.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MMI 502. Audio Signal Processing I. 3.00 Credit Hours.

A study of the theory and practice of digital audio topics including discrete time sampling, quantization, dithering, PCM, A/D and D/A conversion, digital filtering, oversampling, modulation codes, timebase, error correction codes, magnetic storage, DAT, and optical storage.

Requisite: MUE and EAN majors only.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MMI 503. Audio Signal Processing II. 3 Credit Hours.

A study of the theory and practice of digital audio topics including fiber optics and networks, compact disc, interconnection, psychoacoustics, low bit-rate perceptual coding, MPEG, digital audio broadcasting, sigma-delta conversion, noise shaping, digital video, and emerging technologies. Open to MUE and EAN Majors only.

Prerequisite: MMI 502. Requisite: Plan of MUE and EAN.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MMI 504. Audio Signal Processing III. 3 Credit Hours.

Theory, design, and development of computer audio synthesizers and analyzers. Students implement software synthesizers including analog and physical modeling, wave-table, wave-shaping, and FM designs. Classical and modern theories of timbre and time-frequency analysis are included.

Requisite: Frost School of Music.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MMI 505. Current Trends In Music Engineering I. 3 Credit Hours.

Theory, design and development of audio signal processing techniques. Topics include DSP architectures, systems design, algorithm development, and applications. DSP development tools used to write, debug, and test programs including time-domain based effects such as reverb, chorus, flanging, and digital delay as well as frequency-domain projects such as FIR, IIR, and FFT filters and vocoders.

Prerequisite: MMI 504. Requisite: Plan of MAU and EAN.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MMI 506. Current Trends In Music Engineering II. 3 Credit Hours.

MMI 506 addresses current technologies, skills, and techniques employed in a specific aspect of the audio technology and/or music technology fields.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MMI 508. Current Trends In Music Engineering III. 3 Credit Hours.

MMI 508 addresses current technologies, skills, and techniques employed in a specific aspect of the audio technology and/or music technology fields.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MMI 510. Computational Psychoacoustics. 3 Credit Hours.

This course deals with the fundamentals of audition in human biological systems, including auditory sensory transduction, cochlear processes, neural pathways, cortical organization, and auditory illusions, with specific applications to perceptual data reduction techniques and auditory displays.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MMI 511. Current Trends In Music Engineering Iv. 3 Credit Hours.

MMI 511 addresses current technologies, skills, and techniques employed in a specific aspect of the audio technology and/or music technology fields.

Requisite: Frost School of Music.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MMI 520. Audio Technology for Musicians. 3.00 Credit Hours.

Introduction and overview of audio technology with emphasis on music recording, production equipment, and techniques. Topics include microphones, loudspeakers, mixing consoles, interconnection, amplifiers, digital processing, time code, and surround sound. Open to non-MUE majors.

Requisite: Frost School of Music.

Components: LEC.

Grading: GRD.

MMI 521. Timbral Ear Training. 3 Credit Hours.

Students in this course will accomplish four primary goals: 1) instantaneous discernment of ISO frequency regions and critical bands; 2) aural identification of audio-processing techniques, artifacts, and problems; 3) development of critical thinking skills and competence in current audio listening test methodologies; and 4) successful completion of a comprehensive bank of critical listening "golden ears" tests

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MMI 530. Entrepreneurship for Musicians. 3 Credit Hours.

Course explores a wide range of options for musicians who want to pursue music business careers in their regional music markets. Students examine opportunities in performance, recording, composition, education, and more. Emphasis is placed on the packaging of musical skills in the marketplace and on the financial management of a small proprietary music business. As a result, the student musician will be prepared to make career decisions with foresight and planning.

Requisite: Frost School of Music.

Components: DIL.

Grading: GRD.

Typically Offered: Spring.

MMI 531. Recording Engineering Seminar. 3 Credit Hours.

Students in MMI 531 will accomplish three primary goals: 1) understanding historical trends in the audio recording industry, particularly those involving key technological advances; 2) understanding and appreciating recent advances in sound recording technologies and methods; and 3) development of critical thinking, research, writing, and presentation skills.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MMI 537. Recorded Music Operations. 3 Credit Hours.

A study of the activities involved in commercially exploiting recorded music. Includes an analysis of activities involved in the production, manufacturing, distribution, and marketing of a recorded music product; as well as related royalty accounting, mechanical licensing and master-use licensing activities.

Requisite: MBEI and MBEC majors and MBEI minors only.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MMI 543. Marketing And Promotion In The Entertainment Industry. 3 Credit Hours.

Students learn how to fulfill demand and influence consumer behavior through effective marketing techniques. The course provides the students with information on the latest technologies being employed to reach and communicate with target consumers.

Requisite: Plan of MBEI, MPR, JDMM, and JDML.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

MMI 545. Music Placement And Exploitation. 3 Credit Hours.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MMI 573. International Music Publishing. 3 Credit Hours.

An in-depth study of the international publishing industry with an emphasis on catalog development and exploitation.

Requisite: Plan of MBEI, MPR, JDMM, and JDML.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MMI 593. Special Projects In Music, Media, And Industry. 1-3 Credit Hours.

Supervised topics and other activities in specific areas of Music Media and Industry.

Requisite: Frost School of Music.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MMI 594. Special Topics In Music, Media, And Industry. 1-3 Credit Hours.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MMI 601. Transducer Theory. 3 Credit Hours.

Course covers the fundamentals of electromagnetism and audio transducer theory including loudspeaker and microphone systems. Classical electro acoustical analysis of transducers including acoustic suspension, bass-reflex, transmission line, electrostatic and horn loudspeakers, dynamic, ribbon and condenser pressure, and pressure-gradient microphones. Students use computer-aided design programs and Thiele-Small parameterization to model loudspeakers and measure loudspeaker responses. Open to MUE and EAN Majors only.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MMI 602. Audio Signal Processing I. 3.00 Credit Hours.

A study of the theory and practice of digital audio topics including discrete time sampling, quantization, dithering, PCM, A/D and D/A conversion, digital filtering, oversampling, modulation codes, timebase, error correction codes, magnetic storage, DAT, and optical storage.

Requisite: Frost School of Music.

Components: LAB.

Grading: GRD.

Typically Offered: Fall.

MMI 603. Audio Signal Processing II. 3 Credit Hours.

A study of the theory and practice of digital audio topics including fiber optics and networks, compact disc, interconnection, psychoacoustics, low bit-rate perceptual coding, MPEG, digital audio broadcasting, sigma-delta conversion, noise shaping, digital video, and emerging technologies. Open to MUE and EAN Majors only.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MMI 604. Audio Signal Processing III. 3 Credit Hours.

Theory, design, and development of computer audio synthesizers and analyzers. Students implement software synthesizers including analog and physical modeling, wave-table, wave-shaping, and FM designs. Classical and modern theories of timbre and time-frequency analysis are included.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MMI 605. Current Trends In Music Engineering I. 3 Credit Hours.

Theory, design and development of audio signal processing techniques. Topics include DSP architectures, systems design, algorithm development, and applications. DSP development tools used to write, debug, and test programs including time-domain based effects such as reverb, chorus, flanging, and digital delay as well as frequency-domain projects such as FIR, IIR, and FFT filters and vocoders.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MMI 606. Current Trends In Music Engineering II. 3 Credit Hours.

MMI 506 addresses current technologies, skills, and techniques employed in a specific aspect of the audio technology and/or music technology fields.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MMI 608. Current Trends In Music Engineering III. 3 Credit Hours.

MMI 508 addresses current technologies, skills, and techniques employed in a specific aspect of the audio technology and/or music technology fields.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MMI 610. Computational Psychoacoustics. 3 Credit Hours.

This course deals with the fundamentals of audition in human biological systems, including auditory sensory transduction, cochlear processes, neural pathways, cortical organization, and auditory illusions, with specific applications to perceptual data reduction techniques and auditory displays.

Requisite: Frost School of Music.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MMI 611. Current Trends In Music Engineering Iv. 3 Credit Hours.

MMI 511 addresses current technologies, skills, and techniques employed in a specific aspect of the audio technology and/or music technology fields.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MMI 620. Audio Technology for Musicians. 3.00 Credit Hours.

Introduction and overview of audio technology with emphasis on music recording, production equipment, and techniques. Topics include microphones, loudspeakers, mixing consoles, interconnection, amplifiers, digital processing, time code, and surround sound. Open to non-MUE majors.

Components: LEC.

Grading: GRD.

MMI 621. Timbral Ear Training. 3 Credit Hours.

Students in this course will accomplish four primary goals: 1) instantaneous discernment of ISO frequency regions and critical bands; 2) aural identification of audio-processing techniques, artifacts, and problems; 3) development of critical thinking skills and competence in current audio listening test methodologies; and 4) successful completion of a comprehensive bank of critical listening "golden ears" tests

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MMI 630. Entrepreneurship for Musicians. 3 Credit Hours.

Course explores a wide range of options for musicians who want to pursue music business careers in their regional music markets. Students examine opportunities in performance, recording, composition, education, and more. Emphasis is placed on the packaging of musical skills in the marketplace and on the financial management of a small proprietary music business. As a result, the student musician will be prepared to make career decisions with foresight and planning.

Requisite: Graduate Plan of MBEI or MPR or JDMM or JDML.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MMI 631. Recording Engineering Seminar. 3 Credit Hours.

Students in MMI 531 will accomplish three primary goals: 1) understanding historical trends in the audio recording industry, particularly those involving key technological advances; 2) understanding and appreciating recent advances in sound recording technologies and methods; and 3) development of critical thinking, research, writing, and presentation skills.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MMI 637. Recorded Music Operations. 3 Credit Hours.

A study of the activities involved in commercially exploiting recorded music. Includes an analysis of activities involved in the production, manufacturing, distribution, and marketing of a recorded music product; as well as related royalty accounting, mechanical licensing and master-use licensing activities.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MMI 641. Tour Management And Production. 3 Credit Hours.

Students will become familiar with the responsibilities of a tour planner. Individual tour planning projects are assigned which will give the students insight into the management and production of a tour.

Requisite: Frost School of Music.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

MMI 643. Marketing And Promotion In The Entertainment Industry. 3 Credit Hours.

Students learn how to fulfill demand and influence consumer behavior through effective marketing techniques. The course provides the students with information on the latest technologies being employed to reach and communicate with target consumers.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

MMI 645. Music Placement And Exploitation. 3 Credit Hours.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MMI 673. International Music Publishing. 3 Credit Hours.

An in-depth study of the international publishing industry with an emphasis on catalog development and exploitation.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MMI 693. Special Projects In Music, Media, And Industry. 1-3 Credit Hours.

Supervised topics and other activities in specific areas of Music Media and Industry.

Components: DIS.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MMI 694. Special Topics In Music, Media, And Industry. 1-3 Credit Hours.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MMI 701. Advanced Digital Audio Electronics. 3 Credit Hours.

Topics in digital audio including discrete time signals, digital filters, error digital audio processors, FFT, CIRC, and digital recorders are discussed.

Requisite: Frost School of Music.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MMI 706. Current Topics in Audio Analysis and Signal Processing. 3 Credit Hours.

MMI 606 surveys recent topics related to audio analysis, synthesis, and signal processing with an emphasis in software programming and practical applications. Course material is drawn from several topics: current audio APIs and plug-in architectures, computational theories of musical timbre, machine listening, spatial audio, digital audio effects, new digital audio synthesis techniques, and machine-musician interaction modalities.

Requisite: Frost School of Music.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MMI 714. Graduate Music Business and Entertainment Industries Forum. 0 Credit Hours.

Forum for all graduate Music Business and Entertainment Industries students, for the purpose of discussing the latest developments in the field with guest speakers from the industry and faculty members.

Requisite: Graduate Plan of MBEI or MPR or JDMM or JDML.

Components: FOR.

Grading: GRD.

Typically Offered: Fall & Spring.

MMI 715. Contemporary Songwriting I. 3 Credit Hours.

Requisite: Must be in the School of Graduate Music.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MMI 726. Performing Arts Center and Facility Management. 3 Credit Hours.

Students learn the many aspects of managing a live entertainment and performing arts center facility. Logistics, management, budgeting, marketing and programing within a live entertainment and performing arts facility are addressed.

Requisite: Graduate Plan of MBEI or MPR or JDMM or JDML.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MMI 735. World of the Working Musician. 3 Credit Hours.

Building a career in the twenty-first century and beyond creates challenges both exciting and daunting. The purpose of this course is to provide grounding, critical information, as well as planning and vision for shaping the key components of launching and sustaining a career in the arts.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MMI 736. Sponsorship, Development And Financial Management In The Live Entertainment Industry. 3 Credit Hours.

Students learn how to write and present a line-item budget for an arts presentation event, arts presenting organization, and an arts facility. Specific techniques and methods that are used to reduce event risk and safety are discussed.

Requisite: Graduate Plan of MBEI or MPR or JDMM or JDML.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MMI 738. Legal Aspects of the Live Entertainment Industry. 3 Credit Hours.

Students become familiar with various Artist, Client, Production, Vendor and Facility Contracts and Agreements commonly used in the industry.

Requisite: Graduate Plan of MBEI or MPR or JDMM or JDML.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MMI 739. Small Contemporary Ensemble. 1 Credit Hour.

A performing ensemble of student-generated contemporary musical repertoire.

Requisite: Must be in the School of Graduate Music.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

MMI 740. Arts Presenting Project. 3 Credit Hours.

Students develop and produce an Arts Presenting event. Students will be responsible for all aspects of budgeting, marketing, promotion and production of the event. This will be a semester long project requiring the knowledge and skills learned throughout the Arts Presenting Program.

Requisite: Frost School of Music.

Components: THI.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MMI 750. Music Industry Agreements. 3 Credit Hours.

A study of various music industry agreements and how they affect the artist and songwriter. Recording, music publishing, and personal management agreements are analyzed and discussed. Topics include negotiation considerations, deal points, record company economics, and profitability.

Requisite: Graduate Plan of MBEI or MPR or JDMM or JDML.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MMI 751. Recording Studio Workshop. 1 Credit Hour.

Introduction to the multi track recording studio environment. Hands-on lectures and labs including tracking, overdub and mixdown session management, techniques, and philosophies are included. Topics also include audio routing, equalization, effects, and microphone technique.

Requisite: Frost School of Music.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MMI 752. International Music Licensing. 3 Credit Hours.

Advanced music industry concepts and problems in music licensing. Personal rights and most varieties of music licenses and international licensing concepts are covered. Students acquire practical experience utilizing licensing parameters.

Requisite: Frost School of Music.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

MMI 753. Transducer Workshop. 1 Credit Hour.

Fundamentals of electromagnetism and audio transducer theory including loudspeaker and microphone systems. Classical electro-acoustical analysis of transducers including acoustic suspensions, bass-reflex, transmission line, electrostatic and horn loudspeakers, dynamic, ribbon and condenser pressure, and pressure-gradient microphones. Students use computer-aided design programs and Thiele-Small parameterization to model loudspeakers and measure loudspeaker responses.

Requisite: Frost School of Music.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MMI 755. Music Industry Internship. 3 Credit Hours.

Requisite: Frost School of Music.

Components: THI.

Grading: GRD.

MMI 756. Entertainment Industry Practices. 3 Credit Hours.

An overview of entertainment industry practices. Concentration on the legal, marketing and financial aspects of different areas of the industry focusing primarily on film, television, and book publishing, while also broadly exploring additional areas such as video games, sports, and performing arts.

Requisite: Graduate Plan of MBEI or MPR or JDMM or JDML.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MMI 774. Music Copyright Law. 3 Credit Hours.

A study of the essential provisions of the 1976 Copyright Act and subsequent amendments and revisions. Students examine the unique complexities of copyright law as it relates to the music industry.

Requisite: Graduate Plan of MBEI or MPR or JDMM or JDML.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MMI 780. Advanced Analysis Of Current Topics In The Music Business. 3 Credit Hours.

Requisite: Graduate Plan of MBEI or MPR or JDMM or JDML.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MMI 793. Special Projects In Music, Media, And Industry. 1-3 Credit Hours.

Projects in any phase of music media and industry in which the student is interested and qualified to work.

Components: THI.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MMI 794. Special Topics In Music, Media, And Industry. 1-3 Credit Hours.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MMI 802. Internship in Music Industry. 3 Credit Hours.

Practical experience in different areas of the music industry under supervision of professional firms. Open only to Music Industry majors.

Components: THI.

Grading: SUS.

Typically Offered: Fall, Spring, & Summer.

MMI 804. Internship In Arts Presenting. 3 Credit Hours.

Components: LEC.

Grading: SUS.

Typically Offered: Fall, Spring, & Summer.

MMI 813. Master's Research Project. 1-3 Credit Hours.

The student working on his/her master's research project enrolls for credit as determined by his/her advisor. Credit is not awarded until the project paper is accepted.

Components: THI.

Grading: SUS.

Typically Offered: Fall, Spring, & Summer.

MMI 820. Research in Residence. 1 Credit Hour.

Used to establish research in residence for the thesis for the master's degree after the student has enrolled for the permissible cumulative total in MMI 710 (usually six credits). Credit not granted. May be regarded as full time residence.

Components: THI.

Grading: SUS.

Typically Offered: Fall, Spring, & Summer.

MMI CB1. Contemporary Bass. 1-2 Credit Hours.

1 hour lesson for students enrolled for 2 credits; 1/2 hour lesson for students enrolled for 1 credit. Technical Requirements: Basic grooves and bassline construction. Analysis of different styles of rock, pop, rhythm & blues, and funk music. Introduction to acoustic, six-string electric, and fretless electric basses. Knowledge of beginning functional harmony and sight-reading skills will also be addressed.

Requisite: Frost School of Music.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MMI CB3. Contemporary Bass. 1-2 Credit Hours.

One hour lesson for students enrolled for 2 credits, 1/2 hour less for students enrolled for 1 credit. Technical requirements: Analysis of classic rhythm sections recorded throughout the last 50 years, including concentration on important and influential drummers in different styles of rock, pop, R&B, funk, latin, and jazz idioms. Live performance skills and studio techniques. Studies in jazz and modal harmony. Introduction to improvisation.

Prerequisite: MMI CBD.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MMI CBB. Contemporary Bass. 1-2 Credit Hours.

One hour lesson for students enrolled for 2 credits, 1/2 hour less for students enrolled for 1 credit. Technical requirements: Basic grooves and bassline construction. Analysis of different styles of rock, pop, rhythm & blues, and funk music. Introduction to acoustic, six-string electric and fretless electric basses. Knowledge of beginning functional harmony and sight-reading skills will also be addressed.

Prerequisite: MMI CBA.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MMI CBC. Contemporary Bass. 1-2 Credit Hours.

One hour lesson for students enrolled for 2 credits, 1/2 hour less for students enrolled for 1 credit. Technical requirements: Analysis of important bass players and styles, including Carol Kaye, James Jamerson, Larry Graham, Jack Bruce and others. Studies in intermediate harmony and introduction to standard American popular repertoire. Sight-reading, chart reading, and basic rhythm section arranging.

Prerequisite: MMI CBB.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MMI CBD. Contemporary Bass. 1-2 Credit Hours.

One hour lesson for students enrolled for 2 credits, 1/2 hour less for students enrolled for 1 credit. Technical requirements: Analysis of important bass players and styles, including Carol Kaye, James Jamerson, Larry Graham, Jack Bruce and others. Studies in intermediate harmony and introduction to standard American popular repertoire. Sight-reading, chart reading, and basic rhythm section arranging.

Prerequisite: MMI CBC.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MMI CBF. Contemporary Bass. 1-2 Credit Hours.

One hour lesson for students enrolled for 2 credits, 1/2 hour less for students enrolled for 1 credit. Technical requirements: Analysis of classic rhythm sections recorded throughout the last 50 years, including concentration on important and influential drummers in different styles of rock, pop, R&B, funk, latin, and jazz idioms. Live performance skills and studio techniques. Studies in jazz and modal harmony. Introduction to improvisation.

Prerequisite: MMI CBE.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MMI CBG. Contemporary Bass. 1-2 Credit Hours.

One hour lesson for students enrolled for 2 credits, 1/2 hour less for students enrolled for 1 credit. Technical requirements: Advanced jazz harmony and improvisation. World music and odd meter studies, including non-traditional styles and grooves. Advanced concepts of recording and performance, including starting and working within the context of an original band project. Elements of professionalism in the music business.

Prerequisite: MMI CBF.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MMI CBH. Contemporary Bass. 1-2 Credit Hours.

One hour lesson for students enrolled for 2 credits, 1/2 hour less for students enrolled for 1 credit. Technical requirements: Advanced jazz harmony and improvisation. World music and odd meter studies, including non-traditional styles and grooves. Advanced concepts of recording and performance, including starting and working within the context of an original band project. Elements of professionalism in the music business.

Requisite: Frost School of Music.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MMI CD1. Contemporary Drumset. 1-2 Credit Hours.

1-hour lesson for students enrolled for 2 credits, 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Sticking techniques, basic hand/foot patterns. Analysis of rock, pop, rhythm and blues, Latin and jazz styles. Basic chart reading.

Requisite: Frost School of Music.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MMI CD3. Contemporary Drumset. 1-2 Credit Hours.

1-hour lesson for students enrolled for 2 credits, 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Tools to enhance soloing and executing grooves. Transcription/analysis of important drumset artists in major styles. Basic studio performance techniques, and relationship to singer/songwriter. Basic jazz performance elements. Basic world music rhythms.

Prerequisite: MMI CDD.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MMI CDB. Contemporary Drumset. 1-2 Credit Hours.

1-hour lesson for students enrolled for 2 credits, 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Sticking techniques, basic hand/foot patterns. Analysis of rock, pop, rhythm and blues, Latin and jazz styles. Basic chart reading.

Prerequisite: MMI CDA.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MMI CDC. Contemporary Drumset. 1-2 Credit Hours.

1-hour lesson for students enrolled for 2 credits, 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Advanced sticking techniques, advanced hand/foot patterns. Transcription/analysis of important drumset artists in major styles. Advanced chart reading.

Prerequisite: MMI CDB.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MMI CDD. Contemporary Drumset. 1-2 Credit Hours.

1-hour lesson for students enrolled for 2 credits, 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Advanced sticking techniques, advanced hand/foot patterns. Transcription/analysis of important drumset artists in major styles. Advanced chart reading.

Prerequisite: MMI CDC.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MMI CDF. Contemporary Drumset. 1-2 Credit Hours.

1-hour lesson for students enrolled for 2 credits, 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Tools to enhance soloing and executing grooves. Transcription/analysis of important drumset artists in major styles. Basic studio performance techniques, and relationship to singer/songwriter. Basic jazz performance elements. Basic world music rhythms.

Prerequisite: MMI CDE.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MMI CDG. Contemporary Drumset. 1-2 Credit Hours.

1-hour lesson for students enrolled for 2 credits, 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Tools to enhance soloing and executing grooves. Transcription/analysis of important drumset artists in major styles. Basic studio performance techniques, and relationship to singer/songwriter. Basic jazz performance elements. Basic world music rhythms.

Prerequisite: MMI CDF.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MMI CDH. Contemporary Drumset. 1-2 Credit Hours.

1-hour lesson for students enrolled for 2 credits, 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Advanced soloing techniques, odd groupings, displacement. Advanced studio performance techniques, and relationship to singer/songwriter. Advanced jazz performance elements, Advanced world rhythms. Development of individual voice in music.

Prerequisite: MMI CDG.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MMI CG1. Contemporary Guitar. 1-2 Credit Hours.

1-hour lesson for students enrolled for 2 credits, 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Beginning pop harmony. Beginning accompanying. Rock/pop Improvisation. Analysis of rock, pop, rhythm and blues, Latin and jazz styles. Basic chart reading. Basic acoustic and electric guitar techniques.

Requisite: Frost School of Music.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MMI CG3. Contemporary Guitar. 1-2 Credit Hours.

1-hour lesson for students enrolled for 2 credits, 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Advanced Rock/pop improvisation. Beginning functional jazz harmony. Basic jazz performance elements. Transcription/analysis of important guitar artists in major styles. Basic studio performance techniques and relationship to singer/songwriter. Advanced acoustic guitar techniques. Guitar equipment, maintenance.

Prerequisite: MMI CGD.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MMI CGB. Contemporary Guitar. 1-2 Credit Hours.

1-hour lesson for students enrolled for 2 credits, 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Beginning pop harmony. Beginning accompanying. Rock/pop Improvisation. Analysis of rock, pop, rhythm and blues, Latin and jazz styles. Basic chart reading. Basic acoustic and electric guitar techniques.

Prerequisite: MMI CGA.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MMI CGC. Contemporary Guitar. 1-2 Credit Hours.

1-hour lesson for students enrolled for 2 credits, 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Advanced harmony. Advanced accompanying. Transcription/analysis of important guitar artists in major styles. Advanced chart reading and capoing techniques. Beginning alternate tunings.

Prerequisite: MMI CGB.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MMI CGD. Contemporary Guitar. 1-2 Credit Hours.

1-hour lesson for students enrolled for 2 credits, 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Advanced harmony. Advanced accompanying. Transcription/analysis of important guitar artists in major styles. Advanced chart reading and capoing techniques. Beginning alternate tunings. Successful completion of Level D to move to Level E.

Prerequisite: MMI CGC.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MMI CGF. Contemporary Guitar. 1-2 Credit Hours.

1-hour lesson for students enrolled for 2 credits, 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Advanced Rock/pop improvisation. Beginning functional jazz harmony. Basic jazz performance elements. Transcription/analysis of important guitar artists in major styles. Basic studio performance techniques and relationship to singer/songwriter. Advanced acoustic guitar techniques. Guitar equipment, maintenance.

Prerequisite: MMI CGE.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MMI CGG. Contemporary Guitar. 1-2 Credit Hours.

1-hour lesson for students enrolled for 2 credits, 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Advanced improvisational concepts. Advanced jazz harmony. Advanced jazz performance elements. Advanced studio performance techniques and relationship to the singer/songwriter. Advanced world music rhythms. Development of individual voice in music. Advanced alternate tunings. Guitar equipment, maintenance.

Prerequisite: MMI CGF.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MMI CGH. Contemporary Guitar. 1-2 Credit Hours.

1-hour lesson for students enrolled for 2 credits, 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Advanced improvisational concepts. Advanced jazz harmony. Advanced jazz performance elements. Advanced studio performance techniques and relationship to the singer/songwriter. Advanced world music rhythms. Development of individual voice in music. Advanced alternate tunings. Guitar equipment, maintenance.

Prerequisite: MMI CGG.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MMI CK1. Contemporary Keyboard. 1-2 Credit Hours.

1-hour lesson for students enrolled for 2 credits, 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Beginning Gospel harmony (triads in all inversions), basic add-nine pop harmony. Beginning accompanying. Analysis of rock, pop, rhythm and blues, Latin, and jazz styles. Basic chart reading.

Requisite: Frost School of Music.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MMI CK3. Contemporary Keyboard. 1-2 Credit Hours.

1-hour lesson for students enrolled for 2 credits, 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Beginning pop improv. Beginning functional jazz harmony (thirds and sevenths). Basic jazz performance elements. Transcription/analysis of important keyboard artists in major styles. Basic studio performance techniques and relationship to singer/songwriter. Keyboard equipment, maintenance, patch libraries and sound editors.

Prerequisite: MMI CKD.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MMI CKB. Contemporary Keyboard. 1-2 Credit Hours.

1-hour lesson for students enrolled for 2 credits, 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Beginning Gospel harmony (triads in all inversions), basic add-nine pop harmony. Beginning accompanying. Analysis of rock, pop, rhythm and blues, Latin, and jazz styles. Basic chart reading.

Requisite: Frost School of Music.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MMI CKC. Contemporary Keyboard. 1-2 Credit Hours.

1-hour lesson for students enrolled for 2 credits, 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Advanced Gospel harmony. Advanced accompanying. Transcription/analysis of important keyboard artists in major styles. Advanced chart reading.

Prerequisite: MMI CKB.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MMI CKD. Contemporary Keyboard. 1-2 Credit Hours.

1-hour lesson for students enrolled for 2 credits, 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Advanced Gospel harmony. Advanced accompanying. Transcription/analysis of important keyboard artists in major styles. Advanced chart reading.

Prerequisite: MMI CKC.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MMI CKF. Contemporary Keyboard. 1-2 Credit Hours.

1-hour lesson for students enrolled for 2 credits, 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Beginning pop improv. Beginning functional jazz harmony (thirds and sevenths). Basic jazz performance elements. Transcription/analysis of important keyboard artists in major styles. Basic studio performance techniques and relationship to singer/songwriter. Keyboard equipment, maintenance, patch libraries and sound editors.

Prerequisite: MMI CKE.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MMI CKG. Contemporary Keyboard. 1-2 Credit Hours.

1-hour lesson for students enrolled for 2 credits, 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Advanced improvisational concepts. Advanced jazz harmony. advanced jazz performance elements. Advanced studio performance techniques and relationship to singer/ songwriter. Advanced world music rhythms. Development of individual voice in music. Keyboard equipment, maintenance, patch libraries and sound editors.

Prerequisite: MMI CKF.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MMI CKH. Contemporary Keyboard. 1-2 Credit Hours.

1-hour lesson for students enrolled for 2 credits, 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Advanced improvisational concepts. Advanced jazz harmony. advanced jazz performance elements. Advanced studio performance techniques and relationship to singer/ songwriter. Advanced world music rhythms. Development of individual voice in music. Keyboard equipment, maintenance, patch libraries and sound editors.

Prerequisite: MMI CKG.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MMI CM1. Contemporary Media. 1-2 Credit Hours.

Requisite: Frost School of Music.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MMI CM3. Contemporary Media. 1-2 Credit Hours.

Prerequisite: MMI CMD.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MMI CMB. Contemporary Media. 1-2 Credit Hours.

Prerequisite: MMI CMA.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MMI CMC. Contemporary Media. 1-2 Credit Hours.

Prerequisite: MMI CMB.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MMI CMD. Contemporary Media. 1-2 Credit Hours.

Prerequisite: MMI CMC.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MMI CMF. Contemporary Media. 1-2 Credit Hours.

Prerequisite: MMI CME.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MMI CMG. Contemporary Media. 1-2 Credit Hours.

Prerequisite: MMI CMF.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MMI CMH. Contemporary Media. 1-2 Credit Hours.

Prerequisite: MMI CMG.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MMI CV1. Contemporary Voice. 1-2 Credit Hours.

1-hour lesson for students enrolled for 2 credits, 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Warm-ups, Cool downs and introductory exercises for breath management. Attack in phonation, registration, resonance, articulation, coordination, microphone technique, key selection and vocal hygiene and maintenance. Beginning chart writing. Repertoire of original and contemporary songs in various styles as prescribed by the voice teacher.

Requisite: Frost School of Music.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MMI CV3. Contemporary Voice. 1-2 Credit Hours.

1-hour lesson for students enrolled for 2 credits, 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Demonstrate evidence of upper range extension with fully supported sound and appropriate modification of resonators, ability to self-prepare a song, advance knowledge of music styles and historical periods of contemporary music, effective communication of original songs. Advanced chart writing. Intermediate improvisation and ornamentation. Repertoire of original and contemporary songs in various styles as prescribed by the voice teacher.

Prerequisite: MMI CVD.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MMI CVB. Contemporary Voice. 1-2 Credit Hours.

1-hour lesson for students enrolled for 2 credits, 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Warm-ups, Cool downs and introductory exercises for breath management. Attack in phonation, registration, resonance, articulation, coordination, microphone technique, key selection and vocal hygiene and maintenance. Beginning chart writing. Repertoire of original and contemporary songs in various styles as prescribed by the voice teacher.

Prerequisite: MMI CVA.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MMI CVC. Contemporary Voice. 1-2 Credit Hours.

1-hour lesson for students enrolled for 2 credits, 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Basic knowledge of musical styles and historical periods of contemporary music, effective communication of songs in a variety of contemporary styles. Intermediate chart writing. Beginning improvisation and ornamentation. Repertoire of original and contemporary songs in various styles as prescribed by the voice teacher.

Prerequisite: MMI CVB.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MMI CVD. Contemporary Voice. 1-2 Credit Hours.

1-hour lesson for students enrolled for 2 credits, 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Basic knowledge of musical styles and historical periods of contemporary music, effective communication of songs in a variety of contemporary styles. Intermediate chart writing. Beginning improvisation and ornamentation. Repertoire of original and contemporary songs in various styles as prescribed by the voice teacher.

Prerequisite: MMI CVC.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MMI CVF. Contemporary Voice. 1-2 Credit Hours.

1-hour lesson for students enrolled for 2 credits, 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Demonstrate evidence of upper range extension with fully supported sound and appropriate modification of resonators, ability to self-prepare a song, advance knowledge of music styles and historical periods of contemporary music, effective communication of original songs. Advanced chart writing. Intermediate improvisation and ornamentation. Repertoire of original and contemporary songs in various styles as prescribed by the voice teacher.

Prerequisite: MMI CVE.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MMI CVG. Contemporary Voice. 1-2 Credit Hours.

1-hour lesson for students enrolled for 2 credits, 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Demonstrate perfect facility in required contemporary styles, ability to evaluate performances critically and coherently, facility with register changes in upper range, polished and artistic performance with accuracy in pitch, rhythm, good posture, breath management, phonation, resonance, and microphone technique. Advanced chart writing and studio vocal arranging techniques. Advanced improvisation and ornamentation. Repertoire of original and contemporary songs in various styles as prescribed by the voice teacher.

Prerequisite: MMI CVF.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MMI CVH. Contemporary Voice. 1-2 Credit Hours.

1-hour lesson for students enrolled for 2 credits, 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Demonstrate perfect facility in required contemporary styles, ability to evaluate performances critically and coherently, facility with register changes in upper range, polished and artistic performance with accuracy in pitch, rhythm, good posture, breath management, phonation, resonance, and microphone technique. Advanced chart writing and studio vocal arranging techniques. Advanced improvisation and ornamentation. Repertoire of original and contemporary songs in various styles as prescribed by the voice teacher.

Prerequisite: MMI CVG.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MMI CX1. Contemporary Performance Instruction. 1-2 Credit Hours.

1-Hour Lesson for students enrolled for 2 credits, ½ hour lesson for students enrolled for 1 credit. Applied instrument/ voice instruction in contemporary, popular music performance. Freshman/Sophomore level.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

MMI CX3. Contemporary Performance Instruction. 1-2 Credit Hours.

1-Hour Lesson for students enrolled for 2 credits, ½ hour lesson for students enrolled for 1 credit. Applied advanced instrument/ voice instruction in contemporary, popular music performance. Junior/Senior level.

Prerequisite: MMI CX1 or by audition.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

Musicology (MCY)

MCY 101. The World Of Music. 1-3 Credit Hours.

For all new music majors, a novel introduction to music now and then, here and there; its ideas, its relations to other arts, and its role in human life.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MCY 124. The Evolution of Jazz. 3 Credit Hours.

A study of the origin, development, and styles of jazz music and its exponents. This course is not for music majors. Music majors should enroll in MSJ 113 and MSJ 213.

Requisite: Must not be in School of Music.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MCY 127. Evolution of Rock. 3 Credit Hours.

Rock music from its sources to the present. Aural recognition of rock styles and selected performing artists are included. This course is not for music majors. Music majors should enroll in MCY 311.

Requisite: Must not be in School of Music.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MCY 131. Understanding Music. 3 Credit Hours.

A general introduction to the musical elements and the history of music from antiquity to the present. Primarily focuses on classical music, but also includes exposure to pop, jazz, and music traditions. This course is not for music majors. Music majors should enroll in MCY 140 and MCY 141.

Requisite: Must not be in School of Music.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

MCY 140. Experiencing Music. 3 Credit Hours.

A broad introduction to musical elements, genres, periods, styles, and composers in the jazz, folk, popular, and world music traditions.

Requisite: Frost School of Music.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MCY 141. Musical Traditions. 3 Credit Hours.

A broad introduction to musical elements, genres, periods, styles, and composers in the classical music tradition.

Requisite: Frost School of Music.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MCY 16. Musicology Forum. 0 Credit Hours.

A weekly forum for all Musicology majors. This course involves guest lectures by local and visiting scholars, presentations of student and faculty research, and group discussions centered on principal ideas, methods, and approaches in the field.

Components: FOR.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MCY 212. Anglo-American Song Traditions. 3 Credit Hours.

A study of the origins, development, and styles of Anglo-American song traditions from English and Irish folk ballads, to shape-note and Sacred Harp hymnody, to early folk, country and bluegrass. Areas to be explored include the development of an American cultural identity and the political and socio-economic influences on the content and musical styles.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MCY 221. Anglo-American Song Traditions. 3 Credit Hours.

A study of the origins, development, and styles of Anglo-American song traditions from English and Irish folk ballads, to shape-note and Sacred Harp hymnody, to early folk, country and bluegrass. Areas to be explored include the development of an American cultural identity and the political and socio-economic influences on the content and musical styles.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MCY 222. African-American Song Traditions. 3 Credit Hours.

A study of the origins, development, and styles of African American song traditions from early plantation songs, shouts, hollers, and spirituals, to the development of blues traditions, to gospel. Areas to be explored include the development of an African American cultural consciousness and the political and socio-economic influences on the content and musical styles.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MCY 311. Modern American Pop Music. 3 Credit Hours.

A study of the development and styles of American popular music during the twentieth century from Tin Pan Alley to the present. Areas to be explored include influential songwriters and performers, and stylistic development in their political and socio-economic context.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MCY 313. Music of Latin America. 3 Credit Hours.

An introduction to the music of Latin America, with special emphasis on Mexico, Brazil, Argentina, the Andes, and the Caribbean. Covers folk, popular, and classical music traditions. Open to non-music majors.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

MCY 324. Music in Hebrew Culture. 3 Credit Hours.

A study of the folk, traditional, liturgical, and art music of the Jews. Particular attention is given to music on Jewish subjects, music employing traditional Jewish resources, and music by contemporary Jewish and Israeli composers.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MCY 333. Introduction to Cuban Music. 3 Credit Hours.

A survey of Cuban Music from the early European settlement to the present. Course addresses African and Caribbean influences and the amalgamation into new national styles, as well as current musical activity on the island and in expatriate communities.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

MCY 341. Music of the Mediaeval, Renaissance, and Baroque Periods. 3 Credit Hours.

A comprehensive, in-depth study of the musical styles and genres of the Mediaeval, Renaissance, and Baroque Eras., Important musical figures of these periods and analytical studies of important pieces of music from these periods are addressed.

Requisite: Music Majors, Upperclass Status or Permission of Instructor.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Summer.

MCY 342. Music of the Classical, Romantic, and Modern Periods. 3 Credit Hours.

A comprehensive, in-depth study of the musical styles and genres of the Classical, Romantic, and Modern Eras of important musical figures of these periods, and analytical studies of important pieces of music from these periods.

Requisite: Music Majors, Upperclass Status or Permission of Instructor.

Components: LEC.

Grading: GRD.

Typically Offered: Spring & Summer.

MCY 493. Special Projects In Musicology. 1-3 Credit Hours.

Advanced individual instruction pertaining to faculty member's area of expertise and student's area of interest. This course includes a culminating project.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MCY 494. Special Topics In Musicology. 1-3 Credit Hours.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MCY 520. History and Literature of the Wind Band. 3 Credit Hours.

An historical survey of wind band literature, the evolution of the military band, the wind band, and the wind orchestra.

Requisite: Music Majors, Upperclass Status or Permission of Instructor.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MCY 521. Symphonic Literature. 3 Credit Hours.

A survey of orchestral music from the end of the seventeenth century to the present.

Requisite: Music Majors, Upperclass Status or Permission of Instructor.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MCY 522. Operatic Literature. 3 Credit Hours.

The history and literature of opera from the end of the sixteenth century to the present.

Requisite: Music Majors, Upperclass Status or Permission of Instructor.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MCY 524. Contemporary Music. 3 Credit Hours.

Music of the 20th century, with emphasis on developments since 1945.

Requisite: Music Majors, Upperclass Status or Permission of Instructor.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MCY 525. Art Song Literature. 3 Credit Hours.

A survey of the solo vocal literature from the 16th century to the present, with particular emphasis on the 19th-century French and German repertoire.

Requisite: Music Majors, Upperclass Status or Permission of Instructor.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MCY 526. Keyboard Literature I. 3 Credit Hours.

A survey of keyboard literature from its beginning to approximately 1750 emphasizing changes in styles of writing and expression, development of techniques suited to the primary instruments in use (including the early organ, clavichord, harpsichord and fortepiano), ornamentation both specified and improvised, forms, and ideas for interpretation based on historical sources.

Requisite: Music Majors, Upperclass Status or Permission of Instructor.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MCY 527. Keyboard Literature II. 3 Credit Hours.

A survey of solo keyboard literature from approximately 1750 to the present emphasizing changes in styles of writing and expression, development of technique suited to the primary instruments in use (including the clavichord, harpsichord, fortepiano and modern piano), embellishment both specified and improvised, forms, and ideas for interpretation based on historical sources (including facsimiles, printed scores, written records and sound recordings, particularly those by the composers themselves).

Requisite: Music Majors, Upperclass Status or Permission of Instructor.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MCY 529. Music of the Baroque Period. 3 Credit Hours.

Literature and history of music from the end of the sixteenth to the middle of the eighteenth centuries.

Requisite: Music Majors, Upperclass Status or Permission of Instructor.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MCY 530. Music of the Classical Period. 3 Credit Hours.

The musical styles which developed between the mid-eighteenth century and the nineteenth century.

Requisite: Music Majors, Upperclass Status or Permission of Instructor.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MCY 533. Music of the Romantic Period. 3 Credit Hours.

The musical styles which developed during the nineteenth century.

Requisite: Music Majors, Upperclass Status or Permission of Instructor.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MCY 537. Music in the United States. 3 Credit Hours.

A survey of music in the United States from colonial times to the present, with emphasis on the social, economic, and political conditions which affected it. Art music (sacred and secular), popular music in all idioms, the music industry as it evolved in the U.S., and the influence of American music on the music of other countries.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MCY 538. Music, Gender, and Sexuality. 3 Credit Hours.

An exploration of music from around the world from the perspective of women. We will examine the roles women have played, and still play, as creators and performers in art music and popular music traditions. Representations of women and gender ideologies will also be discussed.

Requisite: Upperclass Status or Permission from Instructor.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MCY 540. Music And Religion. 3 Credit Hours.

Music and Religion are fundamental aspects of human existence, evidence of which goes back some 30,000 years. This seminar course will explore musical and religious experiences in human history and the use of music within major religious traditions. It will include specific study of some of the major monuments of sacred music of the western classical tradition.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MCY 553. Miami's Musical Heritage. 3 Credit Hours.

A study of the musical traditions and practices of the various cultures that are part of Miami's unique multi-ethnic society.

Components: LEC.

Grading: GRD.

Typically Offered: Spring & Summer.

MCY 554. Music Cultures Of The World. 3 Credit Hours.

A study of music culture of the region including the music of folk societies, popular artists, and classical musicians. Open to non-majors.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MCY 562. Music of Argentina and Brazil.. 3 Credit Hours.

An in-depth study of Argentine and Brazilian musical cultures covering folk, popular, and classical traditions. Open to non-majors.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MCY 564. Seminar in Latin American Music Collections. 3 Credit Hours.

Examines Latin American music materials at the Cuban Heritage Collection and Special Collections at the Richter Library. Focuses on interpreting original documents and acquiring archival techniques.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MCY 583. History of the American Musical Theatre. 3 Credit Hours.

An examination of the development of musical theatre from its European opera and operetta background to an indigenous American art form.

The areas to be explored include the rise and fall of various genre of musical shows, integration of story, song and dance, important producers, directors, lyricists, composers, and new fields such as director-choreographer. The development of an American cultural consciousness and political and socio-economic trends of various decades that greatly influenced the content and form of musical shows is also examined.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MCY 593. Special Projects In Musicology. 1-3 Credit Hours.

Supervised topics and other activities in specific areas of Musicology.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MCY 594. Special Topics In Musicology. 1-3 Credit Hours.**Components:** LEC.**Grading:** GRD.**Typically Offered:** Fall, Spring, & Summer.**MCY 611. MCY 653. Miami's Musical Heritage. 3 Credit Hours.

A study of the musical traditions and practices of the various cultures that are part of Miami's unique multi-ethnic society

Components: LEC.

Grading: GRD.

Typically Offered: Spring & Summer.

MCY 654. Music Cultures Of The World. 3 Credit Hours.

A study of music culture of the region including the music of folk societies, popular artists, and classical musicians. Open to non-majors.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MCY 662. Music of Argentina and Brazil.. 3 Credit Hours.

An in-depth study of Argentine and Brazilian musical cultures covering folk, popular, and classical traditions. Open to non-majors.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MCY 664. Seminar in Latin American Music Collections. 3 Credit Hours.

Examines Latin American music materials at the Cuban Heritage Collection and Special Collections at the Richter Library. Focuses on interpreting original documents and acquiring archival techniques.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MCY 683. History of the American Musical Theatre. 3 Credit Hours.

An examination of the development of musical theatre from its European opera and operetta background to an indigenous American art form. The areas to be explored include the rise and fall of various genres of musical shows, integration of story, song and dance, important producers, directors, lyricists, composers, and new fields such as director-choreographer. The development of an American cultural consciousness and political and socio-economic trends of various decades that greatly influenced the content and form of musical shows is also examined.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MCY 693. Special Projects In Musicology. 1-3 Credit Hours.

Supervised topics and other activities in specific areas of Musicology.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MCY 694. Special Projects. 1-3 Credit Hours.

Projects in any phase of music literature and history in which the student is interested and qualified to work.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

MCY 7. B.A. in Music Forum. 0 Credit Hours.

Forum for this major will provide programs on and discussion of the role of the musical arts in society for people in a wide range of careers.

Components: FOR.

Grading: GRD.

Typically Offered: Fall & Spring.

MCY 711. Musicology Pedagogy. 3 Credit Hours.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MCY 716. Graduate Musicology Forum. 0 Credit Hours.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

MCY 793. SPECIAL PROJECTS IN MUSICOLOGY. 1-3 Credit Hours.

Projects in any phase of music literature and history in which the student is interested and qualified to work.

Components: THI.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MCY 794. Special Topics in Musicology. 1-3 Credit Hours.

Projects in any phase of music literature and history in which the student is interested and qualified to work.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MCY 810. Master's Thesis. 1-6 Credit Hours.

The student working on his/her master's thesis enrolls for credit, in most departments not to exceed six, as determined by his/her advisor. Credit is not awarded until the thesis has been accepted.

Components: THI.

Grading: SUS.

Typically Offered: Fall, Spring, & Summer.

MCY 820. Research in Residence. 1 Credit Hour.

Used to establish research in residence for the thesis for the master's degree after the student has enrolled for the permissible cumulative total in MCY 710 (usually six credits). Credit not granted. May be regarded as full time residence.

Components: LEC.

Grading: SUS.

Typically Offered: Fall, Spring, & Summer.

Neuroscience Program (NEU)

NEU 100. Introduction To Neuroscience. 3 Credit Hours.

Students examine the basic aspects of neuroscience research, specifically targeting neurological disorders. Tools and techniques used in the area of neuroscience such as biochemistry, molecular biology, electrophysiology, light and electron microscopy, confocal microscopy, and image analysis will be addressed. Discussions will also include topics in lab diagnostic techniques as well as state of the art instrumentation.

Components: LEC.

Grading: GRD.

NEU 190. Faculty Overview Of Research And Undergraduate Mentoring(Forum). 1 Credit Hour.

Critical discussion of research reports in neuroscience.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

NEU 200. Introduction To Psychiatry. 3 Credit Hours.

The course will cover basic aspects of Psychiatry and behavioral sciences. We will emphasize the impact of evidence-based findings on the diagnosis, etiology, management and treatment of all major psychiatric disorders. Concepts such as history of psychiatry, evolution of the psychiatric nomenclature, childhood and adult development, brain circuitry, neurotransmitters, psychotherapies and pharmacological mechanisms of most commonly used medications will be discussed. We will utilize lectures, small group discussions as well as videos and live patient interviews. Students will be able to observe a patient interview by a faculty.

Components: LEC.

Grading: GRD.

Typically Offered: Summer.

NEU 280. Introduction To Research Projects I. 1-3 Credit Hours.

Students assist on a research project in neuroscience under supervision of a faculty member. Activities include library research, data collection and management, and attendance at research team meetings.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

NEU 342. Neural Mechanisms of Disease. 3 Credit Hours.

Cellular and molecular mechanisms underlying nervous system dysfunction and mental illness. Biological bases, including clinical and therapeutic aspects, of specific neurological disorders.

Prerequisite: BIL 268 or PSY 220.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

NEU 380. Introduction To Research Projects Ii. 1-3 Credit Hours.

Students assist on a research project in neuroscience under supervision of a faculty member. Activities include library research, data collection and management, and attendance at research team meetings.

Prerequisite: PSY 291 or PSY 292. Requisite: UASP and Faculty Permission, 2.5 NEU GPA.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

NEU 400. Neurogenetics. 3 Credit Hours.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

NEU 403. Neuroscience laboratory. 4 Credit Hours.

Research methods and laboratory experiments in contemporary neuroscience from individual cells to behavior. Scientific report writing and computer applications in experimental design and analysis.

Prerequisite: PSY 390, BIL 268 or PSY 425. Or Corequisite: PSY 425.

Requisite: Senior Status.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

NEU 440. Neural Mechanisms Of Psychiatric Disorders. 3 Credit Hours.

Analysis of different neuropsychiatric disorders including, but not limited to, schizophrenia, depression, post-traumatic stress disorder and autism spectrum disorders. Lectures are derived from current research articles looking at in depth mechanisms of these disorders. It is expected that students have a good understanding on neuroscience, molecular biology and abnormal psychology before registering for this course. Grades are based upon two take home exams that are designed to test the student's knowledge of the material presented in class. In addition, students are required to write a research paper on a topic agreed upon by both the professor and the student.

Prerequisite: BIL 268 or PSY 220. Requisite: UASP permission.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

NEU 465. Cellular and Molecular Neuroscience. 3 Credit Hours.

Biophysical, biochemical, and structural features of nerve muscle and sensory cells. Basic cellular processes underlying function and development of nervous system.

Prerequisite: BIL 255, BIL 268 or PSY 220, and CHM 202.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

NEU 468. Developmental Neuroscience. 3 Credit Hours.

Cellular and molecular aspects of nervous system including neuronal differentiation.

Prerequisite: BIL 255, BIL 268 or PSY 220, and CHM 202.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

NEU 480. Research With Writing Credit. 1-3 Credit Hours.

Students assist on a research project in neuroscience under supervision of a faculty member. Activities include library research, data collection and management, and attendance at research team meetings.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

NEU 580. Senior Honors In Neuroscience I. 3 Credit Hours.

Students work closely with a faculty member to design a unique research study and write a scientific paper to report on the results. Limited to undergraduate students only.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

NEU 581. Senior Honors In Neuroscience II. 3 Credit Hours.

Students work closely with a faculty member to design a unique research study and write a scientific paper to report on the results. Limited to undergraduate students only.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

NEU 600. Seminar in Neuroscience. 1 Credit Hour.

Required each Fall and Spring for all NEU students, emphasizes student research presentations (30 min each for 2nd year students; 60 min each for student 3rd year on). Attendance at neuroscience related seminars is also required.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

NEU 601. Introduction to Neuroscience Techniques. 1 Credit Hour.

Hands-on exercises in research laboratories introduce first-year Neuroscience students to methodologies commonly used in the Neurosciences. The course includes selected techniques from electrophysiology, immunocytochemistry, fluorescence microscopy, recombinant DNA, protein immunoblotting, and functional imaging. Students are required to complete a lab notebook of each exercise. There is also a segment on database searches.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

NEU 609. Research. 1-5 Credit Hours.

Students work with individual members of the program faculty on research problems. Provides orientation as to the areas of research in the field and the techniques used.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

NEU 611. Accelerated Basic Science Medical Curriculum. 1-18 Credit Hours.

From late June to mid-February, the following accelerated and intensive complete basic science medical curriculum is offered: Embryology, Gross Anatomy, Histology, Biochemistry, Neuroanatomy, Biophysics and Neurophysiology, Systemic Physiology, Pathology, Medical Microbiology, and Pharmacology. A single grade will be entered on the graduate transcript for this course.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

NEU 631. Special Topics In Neuroscience. 1-5 Credit Hours.

A seminar course with graded readings and discussions based on research literature. The course is taught by various faculty in areas related to their research topics. Writing assignment or homework exercises may also be assigned.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

NEU 641. Statistics in Neuroscience. 1 Credit Hour.

This course will provide basic information necessary to appropriately design experiments and analyze and interpret data in the behavioral and biological sciences. A lecture/discussion format will be used. The course will cover research methodology, basic statistical concepts, and an in-depth discussion of descriptive (measures of central tendency, variability and correlation) and inferential statistics (both parametric and non-parametric tests of significance). In addition, various statistical computer programs will be reviewed. Specific topics include: 1. Statistical terminology; 2. Measurement scales; 3. Plotting your data for initial interpretation; 4. Measures of central tendency and variability; 5. Type I and Type II errors and controlling power; 6. Which statistical test do I use for my data? 7. What can I conclude from my data and does it mean anything? Students will be evaluated based on their understanding of statistical design and data interpretation.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

NEU 650. Modeling CNS injury and Repair. 1 Credit Hour.

This course provides an overview of a number of complex modeling systems using in CNS Injury and Repair biomedical research. The course examines models, such as spinal cord injury, traumatic brain injury, ischemic/stroke injury, experimental autoimmune encephalomyelitis (EAE) model of multiple sclerosis, axon regeneration in retinal nerve and spinal cord, and drosophila models of degeneration. The course will consist of both lectures and hands-on laboratory components. Elective

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

NEU 661. Molecular And Cellular Neuroscience. 2 Credit Hours.

This is an eight-week introduction to the cellular and molecular biology of the nervous system. The course is an intensive, interactive discussion of neurons, synapses, sensory cells, and learning/memory.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

NEU 662. Systems Neuroscience. 4 Credit Hours.

This course aims to provide a general, but intensive, background to the neurosciences beyond Cellular Neuroscience (NEU 661) and Developmental Neuroscience (NEU 663) and to prepare students for more specialized neuroscience courses, for lab rotations, and for subsequent dissertation work. NEU 662 will present sensory, motor and integrative neuroscience at the level of functional systems, but will do so in the context of cellular and molecular neuroscience. The course concentrates on the experimental basis for our understanding of nervous system function and uses both didactic lectures and student discussions of current research literature. The course expects that students have a working knowledge of synaptic transmission, excitable cell membranes, and ion channels from previous coursework in PHS 641/2 and NEU 661, as well as a general knowledge of biochemistry and molecular biology from their PIBS course. It will also be useful to have taken NEU 663.

Prerequisite: NEU 661, PHS 641, and PHS 642.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

NEU 663. Developmental Neuroscience.. 2 Credit Hours.

This course will explore nervous system development from early neural induction and neurogenesis to the construction of neural circuits. Cellular and molecular mechanisms of neurulation and CNS patterning, neural progenitor migration, neural crest and ectodermal placodes, programmed cell death, construction of neural circuits and axon guidance, and synaptogenesis will be covered

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

NEU 697. Neuroanatomy. 3 Credit Hours.

This course is designed to teach functional neuroanatomy to individuals engaged in basic neuroscience research. Therefore, most of the emphasis will be placed upon gross anatomy, identification of pathways and circuits, and a description of the physiological functions of neuroanatomical systems. To the extent that it may help to explain functional aspects of the nervous system, each lecture will contain some clinical examples and/or case histories. An important feature of each class period will be a laboratory segment in which the student will study human and sheep brains, examine models of the brain, and use internet neuroanatomy websites containing pictures, text, clinical examples, and 3-dimensional rotations of the nervous system

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

NEU 720. Research in Residence. 0 Credit Hours.

Used to establish research in residence for the thesis for the master's degree after the student has enrolled for the permissible cumulative total in Master's Thesis (usually six credits). Credit not granted. May be regarded as full time residence.

Components: THI.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

NEU 810. Master's Thesis. 1-12 Credit Hours.

Components: THI.

Grading: SUS.

Typically Offered: Offered by Announcement Only.

NEU 830. Doctoral Dissertation. 1-12 Credit Hours.

Required for all PhD students before passing the Qualifying Examination. The student will enroll for credits as determined by the Program Office, but no more than a total of 6 credits.

Components: THI.

Grading: SUS.

Typically Offered: Offered by Announcement Only.

NEU 840. Doctoral Dissertation- Post Candidacy. 1-12 Credit Hours.

Required for all PhD students before passing the Qualifying Examination. The student will enroll for credits as determined by the Program Office, but no more than a total of 6 credits.

Components: THI.

Grading: SUS.

Typically Offered: Fall.

NEU 850. Research in Residence. 1 Credit Hour.

Students register in the semester they plan to submit their dissertation to the Graduate School.

Components: THI.

Grading: SUS.

Typically Offered: Fall, Spring, & Summer.

Nursing (NUR)

NUR 100. Introduction to Nursing. 3 Credit Hours.

This is an introductory course to explore the various roles and responsibilities of the professional nurse in American health care. Major issues within health care today will be discussed and the impact they have on professional nursing will be explored.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

NUR 200. Summer Scholars Program. 3 Credit Hours.

Course focuses on current health care issues and the health care system as well as future directions of health care.

Components: LEC.

Grading: GRD.

Typically Offered: Summer.

NUR 202. Introductory Statistics in Health Care. 3 Credit Hours.

Application of descriptive and inferential statistics. Principles and methods of summarizing data including tables, graphs, percentile ranks, central tendency, variability, normal distribution. Basic concepts of probability, hypothesis testing, and analysis of variance. Examples and problems from nursing and health sciences.

Corequisite: MTH 101. Or Requisite: ALEKS > or = 55 or SAT Score > or = 630 or ACT > or = 28.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

NUR 205. Personal Nutrition. 3 Credit Hours.

Principles of nutrition integrated with cultural dietary patterns across the lifespan. Not for nursing majors or minors.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

NUR 207. Introduction to Pharmacology. 3 Credit Hours.

Introduction to the basic principles of therapeutic pharmacology. Special consideration of cultural beliefs and folk medicine included. Emphasis is on the understanding of the different classes of drugs and their application in various health care settings.

Prerequisites: BIL 150, CHM 103 or CHM 111, HCS 212, and HCS 215.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

NUR 301. Human Sexuality and Vulnerable Populations. 3 Credit Hours.

The study of human sexuality via multidisciplinary theoretical perspectives and research. Students will examine the complex relationships of the physiological, psychological, cultural, gender, religious, historical, and political aspects of human sexuality. Human sexuality in the context of health disparities will form the foundation for the course. WRITING COURSE

Prerequisite: BPH 206. Or Requisite: Junior Status.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

NUR 303. Hiv/Aids And Health Maintenance For Health Care Providers. 3 Credit Hours.

Definition, diagnosis, management, and care of diverse patient populations with HIV infection and AIDS. Course is presented and discussed from an interdisciplinary health care perspective.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

NUR 304. Adult Health I: Fundamentals of Nursing Practice. 6 Credit Hours.

This clinical course emphasizes the supervised application of health assessment skills, nursing process, and clinical nursing techniques in the clinical laboratory, community, and acute care settings.

Requisite: School of Nursing and Junior Status.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

NUR 305. Issues in Health Disparities. 3 Credit Hours.

This course will be an introduction to the general research on health systems and health disparities. Emphasis will be placed on social, biological, economic and social policy issues that impact on the health of minority populations. Concepts associated with epidemiology, poverty, racism, public policy and international politics will be explored. WRITING COURSE

Prerequisite: BPH 206. Or Requisite: Junior Status.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

NUR 306. Principles of Nutrition. 3 Credit Hours.

Principles of nutrition integrated with cultural dietary patterns for client adaptation across the lifespan.

Requisite: Sophomore Status or Permission of Instructor.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

NUR 307. Pharmacology. 3 Credit Hours.

Introduction to the basic principles of therapeutic pharmacology. Special consideration of cultural beliefs and folk medicine included.

Requisite: School of Nursing and Junior Status.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

NUR 308. Adult Health II. 8 Credit Hours.

This course focuses on the nursing management of the client throughout the adult life cycle who experiences alterations and/or adaptations in physiologic defense mechanisms. Teaching strategies to be utilized include lecture, discussion, critical thinking exercises.

Requisite: Junior Status.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

NUR 310. Global Health. 3 Credit Hours.

Introduction to the concepts of global health and the critical links between public health and social and economic development.

Determinants of health and patterns of disease and health outcomes across the globe are critically examined. The course reviews the determinants of health status in terms of biology, demography, epidemiology, culture, sociology, economics, and politics. Key concerns regarding reproductive health, child survival, nutrition, communicable diseases, and chronic diseases are examined. health care delivery in developed vs. undeveloped regions of the world are emphasized.

Prerequisite: BPH 206.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

NUR 311. Theories and Concepts of Nursing. 2 Credit Hours.

An introductory nursing course explaining the philosophy of baccalaureate nursing using the major concepts of person, environment, health, and nursing with a multicultural focus. WRITING COURSE.

Requisite: School of Nursing and Junior Status.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

NUR 314. Health Assessment and Promotion. 3 Credit Hours.

Introduction to health and physical assessment using a lifespan approach.

Requisite: School of Nursing and Junior Status.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

NUR 315. Pathophysiology. 3 Credit Hours.

The study of the physiologic and biologic manifestations of disease and disease processes. Emphasis is placed on physiology of altered health within the context of disruptions of structure and function of the human body as a whole.

Requisite: School of Nursing and Junior Status.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

NUR 317. Theories in Growth and Development. 3 Credit Hours.

Application of growth and development theories through the lifespan with a case study approach to issues commonly encountered nursing practice in a variety of clinical settings.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

NUR 318. Women's Health Nursing. 4 Credit Hours.

Requisite: School of Nursing and Junior Status.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

NUR 319. Contemporary Issues in Bioethics for Health Care. 3 Credit Hours.

This course will cover bioethical issues in the health care environment, including ethical principles, theories and decision making strategies.

WRITING COURSE

Prerequisite: BPH 206.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

NUR 320. Child and Adolescent Health Nursing. 4 Credit Hours.

Requisite: School of Nursing and Junior Status.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

NUR 350. Pathophysiology/Pharmacology For Rn/Bsn. 4 Credit Hours.

This course presents the study of the physiological and biologic manifestations of disease and disease processes, and introduces the basic principles of therapeutic pharmacology. Emphasis is placed on the physiology of altered health within the context of disruptions of structure and function of the human body as a whole. Special consideration of cultural beliefs and folk medicine is included.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

NUR 390. Advanced Placement Practice I for RN/BSN Students. 10 Credit Hours.

Nursing Management of the client throughout adulthood who experiences alterations and/or adaptations/maladaptions in physiologic defense mechanisms; complex alteration and/or adaptations in organ system function. The client in this course is identified as the individual, family or significant others. Course content emphasizes concepts of infection, the surgical client, immunity and altered cell growth, utilizing the nursing theories and the nursing process. Assists adult clients to adjust to multisystem alterations/adaptations/maladaptions in the endocrine, cardiovascular, respiratory, immunological and hemopoietic, nervous, musculoskeletal, digestive, and renal urinary systems. Specific models are utilized to enhance the teaching of critical thinking. Research findings are utilized to support nursing interventions.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

NUR 400. Theories, Research and Evidence-Based Practice. 3 Credit Hours.

Course emphasis is placed on developing an understanding of the research process and application of research findings in community-based practice in multicultural settings. Course focuses on the relationship between theory, research, practice, and the development of competencies to become an informed consumer of research. Writing Credit.

Requisite: Senior Status.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

NUR 401. Evidence-Based Nursing Practice.. 3 Credit Hours.

This course examines evidence-based practice in nursing. Focuses on the research process; location, critical appraisal, and evaluation of evidence; application and evaluation of evidence-based practice changes; and quality improvement.

Requisite: Accelerated BSN Program.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Summer.

NUR 402. Global Health Disparities Research. 3 Credit Hours.

This is a 4 week intensive educational experience that prepares students to be successful conducting supervised health disparities research as part of the MHIRT program at a foreign institution, disseminating findings, and applying to graduate school. The training program is broken into a preparation phase (3 weeks prior to leaving to their host country), and a dissemination phase (1 week after they return). Students will be working as a research assistant at a foreign site for eight weeks in between the preparation and dissemination phases of this training program. Students will learn about the influence of culture and healthcare policy on health and health disparities, research design, statistics, communicating research findings and careers in health disparities research.

Components: LEC.

Grading: GRD.

Typically Offered: Summer.

NUR 403. Advanced Placement Practice II for RN/BSN Students. 10 Credit Hours.

This course focuses on the nursing process in the care of pediatric clients and families, the obstetrical client, and women's health. Emphasis is on the use of the nursing process to assist clients to adapt to health alterations requiring care in secondary health care settings. This course covers care of the pediatric client and the childbearing client and women's health.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

NUR 405. Professionalism And Career Pathways. 3 Credit Hours.

This nursing course focuses on the assessment and development of a career pathway for registered nurses seeking a Bachelor's in the Science of Nursing professional nursing practice. There will be a focus on concepts of professionalism, roles in nursing, advanced practice, diversity, culture and a critical analysis of legal, ethical and political dimensions of nursing practice.

Components: DIL.

Grading: GRD.

Typically Offered: Fall.

NUR 408. Genetics And Healthcare. 3 Credit Hours.

Exploration of basic knowledge in genomics, understanding of social, cultural and psychological implications of genetic services, health prevention and promotion.

Requisite: Nursing Only.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

NUR 411. Adult Health Iii. 5 Credit Hours.

This course focuses on the adult experiencing complex multisystem alteration/adaptations in organ and system function. Emphasis is on the use of the nursing process to assist adult clients to adapt to system related insults.

Requisite: School of Nursing and Senior Status.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

NUR 414. Advanced Placemment Practice III for RN/BSN students. 10 Credit Hours.

Content emphasizes concepts and themes of families and communities and the use of the nursing process to assist in promoting and maintaining health. The behavioral health focusses on psychotherapeutic processes across the life span Emphasis is on planning nursing care for individuals, families and groups and p rofessional and theraputic communication skills and techniques. Explores the influence of neuro-physiology and psychopharmacology on the development of psychiatric and mental health services and the evolution of the role of the psychiatric nurse.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

NUR 415. Perianesthesia Nursing. 3 Credit Hours.

The focus of this course is on the use of the nursing process to develop and implement nursing management strategies for patients and families undergoing a surgical and/or special procedure. Emphasis is placed on the use of a multicultural nursing perspective to plan and implement nursing interventions. This course highlights Perianesthesia nursing care of surgical patients.

Components: LEC.

Grading: GRD.

Typically Offered: Summer.

NUR 417. Pre-Immersion Course For Accelerated Option Students. 0 Credit Hours.

This course is designed to facilitate personal and professional success; this course introduces students to the purposes and processes of nursing. An emphasis is placed on study, communication, and critical thinking skills that support academic achievement. Students also examine the relationship between learning and motivation.

Components: DIL.

Grading: GRD.

Typically Offered: Spring & Summer.

NUR 418. Pre-Immersion For Traditional Option Students. 0 Credit Hours.

This course is designed to facilitate personal and professional success; this course introduces students to the purposes and processes of nursing. An emphasis is placed on study, communication, and critical thinking skills that support academic achievement. Students also examine the relationship between learning and motivation.

Requisite: Junior Status.

Components: LEC.

Grading: NON.

Typically Offered: Fall.

NUR 420. Robert Wood Johnson Mentor Program. 0 Credit Hours.

This seven-week immersion program will prepare students with the fundamentals of returning to an accelerated paced academic program. Students will explore topics that will prepare them in the area of academic success strategies, life preparedness and time management. This program will also serve as an introduction to the profession of nursing and enlighten participants to the many career opportunities and leadership roles available to them with a degree in nursing

Components: DIL.

Grading: NON.

Typically Offered: Spring & Summer.

NUR 424. Math Essentials For Bsn Students. 0 Credit Hours.

This course supports students with basic to advanced medical math concepts. Topics include calculating dosages, using scientific formulas and basic statistical principles.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

NUR 426. Leadership & Management in Nursing. 5 Credit Hours.

Analysis and synthesis of the application of professional concepts in a variety of multicultural health care delivery systems. Emphasis is placed on personal, professional, and organizational growth. Individualized and integrated clinical experiences are provided through direct clinical supervision by preceptors.

Requisite: Accelerated BSN Program.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

NUR 430. Leadership In Nursing. 3 Credit Hours.

Theoretical and applied concepts of transition to the nursing role within the healthcare setting are explored in this course. The focus is on practice issues and responsibilities in contemporary professional nursing practice. Emphasis is placed on the transition to practice and nursing care systems with increasing responsibility through discussion of practice theory and styles, empowering, mentoring, managing change and striving for excellence. Seminar discussion topics will focus on the issues of successful transition to the practice environment as new nurse.

Requisite: School of Nursing and Senior Status.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

NUR 435. Clinical Express Undgr. 5.00 Credit Hours.

This course is an online orientation for clinical faculty at the School of Nursing and Health Studies. The content is specific to clinical instructors who will be supervising BSN nursing students at various clinical sites used by the School of Nursing and Health Studies.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

NUR 440. Population Focused Nursing. 4.00 Credit Hours.

The focus is on population-focused nursing and community-oriented approaches to understanding and addressing major public health concerns across the life span. Emphasis is on assessing, planning, implementing and evaluating programs for a variety of communities both domestically and internationally. Health and disease is conceptualized as a complex interaction between individual, relationship, community and socio-economic-political level factors. Epidemiology, sociology, behavioral sciences and nursing theory and practice are integrated throughout. Special attention is given to addressing the unique needs of vulnerable populations and cultural groups, the elimination of health disparities, and social justice.

Requisite: School of Nursing and Senior Status.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

NUR 448. Psychiatric Mental Health Nursing.. 4.00 Credit Hours.

The focus is on psychotherapeutic processes across the life span. Emphasis is on planning nursing care for individuals, families, and communities with a variety of psychiatric and mental health problems in various settings (inpatient, outpatient, community). Professional and therapeutic communication skills and techniques are important components of this course.

Requisite: School of Nursing and Senior Status.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

NUR 453. Role Transition. 5.00 Credit Hours.

Theoretical and applied concepts of transition to the nursing role within the healthcare setting are integrated in this course. The course is a synthesis of previously learned knowledge, incorporating the components of physiological, psychological, and developmental concerns in the care of the client. Seminar discussion topics have a focus on the issues of successful transition to the practice environment as a nurse generalist, with the ability to exercise clinical reasoning and evidence-based practice.

Requisite: School of Nursing and Senior Status.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

NUR 461. Health Disparities Research Practicum. 1-4 Credit Hours.

This course is designed to provide opportunities for students across all levels of higher education to participate in health disparities research. Students will be mentored by a health disparities researcher with an active research project. Objectives will be established by the research mentor and the student according to educational level, interests and opportunities. Students will be incorporated into the research team and expected to attend project meetings. They will also be expected to participate in scholarly work that could contribute to the success of the project. Examples of scholarly work include co-authoring research papers and presentations, developing recruitment materials, assisting in compiling/developing data collection measures, or any other product deemed appropriate by the mentor.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

NUR 487. International Health: Transcultural Nursing. 3 Credit Hours.

Collaborative clinical venture between the University of Miami, School of Nursing and an International School of Nursing. Students will exchange supervised western clinical experiences, knowledge and skills for the care of clients and families in specialty areas including Medical-Surgical, Surgery, Intensive Care and/or Emergency nursing units. This course will allow students to apply and synthesize basic science knowledge and skills that foster ethical, legal and culture specific health care.

Requisite: School of Nursing Health Studies.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

NUR 498. Selected Topics. 6.00 Credit Hours.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

NUR 499. Selected Topics. 6.00 Credit Hours.**Components:** LEC.**Grading:** GRD.**Typically Offered:** Fall.**NUR 536. U.S. Health Care Crisis: Politics and Policies. 3 Credit Hours.**

This course will explore key health policy issues within the U.S., along with the politics and interest groups which shape them. Fundamental concerns within the health care system such as: cost, quality and access to care will be analyzed. Major topics of discussion will include: Medicare, Medicaid, private insurance, the nursing shortage, and prescription drugs. The politics and policies surrounding issues such as bioethics, globalization, and infectious disease will also be considered.

Requisite: Junior Status, No IP Credit.

Components: LEC.**Grading:** GRD.**Typically Offered:** Spring.**NUR 601. Advanced Pharmacology. 3 Credit Hours.**

Advanced practice nursing application of pharmacological and pharmacokinetics for the purpose of selecting appropriate drug therapies for diverse populations.

Components: LEC.**Grading:** GRD.**Typically Offered:** Fall & Spring.**NUR 602. Doctoral Level Orientation/Nur. 0 Credit Hours.**

This course provides entering doctoral students with an evaluation of their writing ability and a review of formal writing skills. Other topics pertinent to success for nursing coursework at the doctoral level are addressed.

Components: LEC.**Grading:** GRD.**Typically Offered:** Fall & Spring.**NUR 603. Healthcare Databases: Design, Development And Clinical Application. 3 Credit Hours.****Components:** LEC.**Grading:** GRD.**Typically Offered:** Fall.**NUR 604. System Life Cycle/Project Management. 3 Credit Hours.****Components:** LEC.**Grading:** GRD.**Typically Offered:** Fall.**NUR 605. Health Information Exchange. 3 Credit Hours.****Components:** LEC.**Grading:** GRD.**Typically Offered:** Summer.**NUR 606. Advanced Practice Preparation. 0 Credit Hours.**

This preparatory experience provides students an opportunity to review concepts of pharmacology; physiology; and health assessment prior to beginning the Master of Science in Nursing program. Activities related to academic strategies and writing are also included, to assist in improving study and writing skills.

Components: LEC.**Grading:** GRD.**Typically Offered:** Fall & Spring.**NUR 607. Leadership And Professional Development Strategies For Nursing Informatics. 3 Credit Hours.**

Corequisite: NUR 604.

Components: LEC.**Grading:** GRD.**Typically Offered:** Fall & Spring.**NUR 608. Concepts in Advanced Practice Nursing. 3 Credit Hours.**

Major concepts necessary for advanced practice nursing. Included are: major scientific theories, health and health promotion, health policy, ethical issues, epidemiology, technology in health care, and advanced practice role competencies. Specific emphasis is placed on understanding culture and cultural diversity in health care.

Components: LEC.**Grading:** GRD.**Typically Offered:** Spring.**NUR 609. Professionalism in Advanced Practice Nursing. 2 Credit Hours.**

Focuses on the synthesis of concepts and principles necessary to develop leaders in advanced practice nursing specialties. Emphasis is placed on the role of the advanced practice nurse for optimal delivery of health care to clients across the life span.

Components: LEC.**Grading:** GRD.**Typically Offered:** Summer.**NUR 610. Adult Gerontology Acute Care I. 4 Credit Hours.**

Analysis of selected theories and conceptual models of nursing and their implementation in practice and research. Approaches to development of a scientific body of knowledge for nursing practice is included. (2)

Prerequisite: Graduate status.

Components: LEC.**Grading:** GRD.**Typically Offered:** Fall.**NUR 611. Foundations Of Anesthesia Science & Technology For Nurse Anesthetists. 5 Credit Hours.**

Introduction to the application of basic sciences to nurse anesthesia. This course includes the application of principles of physics, molecular biology, biochemistry and medicinal chemistry.

Corequisites: NUR 601, NUR 612, NUR 613. Requisite: Admission into DNP Anesthesia Program.

Components: LEC.**Grading:** GRD.**Typically Offered:** Spring.**NUR 612. Physiology/Pathophysiology for Advanced Practice Nursing. 3 Credit Hours.**

Analysis of physiologic and pathophysiologic mechanisms of health and illness.

Components: LEC.**Grading:** GRD.**Typically Offered:** Fall & Spring.

NUR 613. Advanced Health Assessment and Diagnostic Reasoning. 3.00 Credit Hours.

Emphasis on culturally sensitive comprehensive health assessment and diagnostic reasoning related to advanced nursing practice. Special emphasis is placed on advanced health assessment; including age appropriate health screenings; prenatal, pediatric, and geriatric assessment; and interpretation of basic laboratory tests and diagnostic studies utilized in advanced nursing practice. Specialty specific seminars address issues for individual tracks within advanced practice nursing.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

NUR 614. Basic Concepts In Anesthesia Nursing. 6.00 Credit Hours.

This course is an overview of fundamental knowledge and skills for entry into advanced practice anesthesia nursing. Concepts include essential techniques, monitoring and equipment, and pharmacologic interventions for common problems and conditions requiring routine surgical procedures in a highly structured and guided clinical learning environment. Cultural competence and interdisciplinary anesthesia care across the lifespan is emphasized.

Prerequisites: NUR 601, NUR 611, NUR 612, NUR 613. Co-requisite: NUR 617.

Components: LEC.

Grading: GRD.

Typically Offered: Summer.

NUR 615. Professional Aspects of Anesthesia Nursing. 2 Credit Hours.

This course focuses on the development and current trends in nurse anesthesia practice, education, and research. Concepts include the historical, legal, legislative, and professional role issues associated with advanced practice anesthesia nursing. Professional responsibilities, ethical issues, diversity, cultural competency, quality assurance, continuing education, and professional involvement are emphasized.

Prerequisite: NUR 646. Corequisite: NUR 650.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

NUR 616. Pharmacology for Acute Care Nursing. 3 Credit Hours.

Focuses on foundational pharmacologic principles and associated application to clinical practice in acute care nursing. Integration of pharmacological concepts and interventions in safe, culturally competent, and interdisciplinary acute care advanced nursing practice are emphasized.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

NUR 617. Pharmacology For Anesthesia Nursing. 3 Credit Hours.

This course will integrate pharmacologic principles with application to clinical practice in anesthesia nursing. Integration of pharmacological, pathophysiological concepts and the autonomic nervous system, synthesizing interventions in a safe, culturally competent, interdisciplinary anesthesia nursing practice.

Prerequisites: NUR 601, NUR 611, NUR 612, NUR 613. Corequisite: NUR 614.

Components: LEC.

Grading: GRD.

Typically Offered: Summer.

NUR 619. Advanced Concepts Of Anesthesia Nursing I. 7 Credit Hours.

This course will provide an in-depth knowledge and skills of anesthesia nursing care for a variety of common problems and conditions across anesthesia specializations. Concepts include assessment, techniques, planning and pharmacologic interventions for specialty surgical procedures in a highly structured and guided clinical learning environment. Cultural competence and interdisciplinary anesthesia care across the lifespan is emphasized.

Prerequisites: NUR 601, NUR 611, NUR 612, NUR 613, NUR 614, NUR 617.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

NUR 620. Advanced Concepts Of Anesthesia Nursing Ii. 14.00 Credit Hours.

This course will provide in-depth knowledge and skills of highly specialized problems and conditions requiring anesthesia or surgical interventions. Concepts include assessment, techniques, planning and pharmacologic interventions for regional anesthesia, pain management, care of obstetrical patients and patients with catastrophic conditions in a highly structured and guided clinical learning environment. Cultural competence and interdisciplinary anesthesia care across the lifespan is emphasized.

Prerequisites: NUR 601, NUR 611, NUR 612, NUR 613, NUR 614, NUR 617, NUR 619.

Components: CLN.

Grading: GRD.

Typically Offered: Spring.

NUR 621. Diagnostics and Nursing Interventions for Acute Care Nursing. 2-3 Credit Hours.

Selected diagnostic tests and intervention techniques essential to acute care nursing. Critical thinking and decision making related to interdisciplinary assessment of acute care patients. Cultural issues related to diagnostics and intervention.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

NUR 622. Acute Care Nursing of Adults I. 4 Credit Hours.

The first of two sequential clinical practicums designed for the development of scientific knowledge and advanced practice skills in the area of acute care nursing. Involves synthesis of concepts, knowledge and skills gained in previous courses applied to the care of the acutely ill patient. Focuses on the advanced practice of acute care nursing via the nurse practitioner/clinical nurse specialist.

Components: LEC.

Grading: GRD.

Typically Offered: Summer.

NUR 623. MATERNAL CHILD HEALTH IN PRIMARY CARE PRACTICE. 5 Credit Hours.

Theoretical and clinical bases for advanced practice nursing management of infants and children. Emphasis is placed on strategies for health maintenance and prevention of health problems and management of alterations.

Prerequisite: NUR 628.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

NUR 624. Health Care of the Aging Adult. 5.00 Credit Hours.

Development of the role of the advanced practice nurse in the health care management of the aging adult in settings ranging from primary care clinics to residential and rehabilitation including assisted living, long-term, and home care.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

NUR 625. Adult Gerontology Acute Care Ii. 7 Credit Hours.

Theoretical and clinical focus for the nurse practitioner as an advanced practice nurse in the health care management of adult populations in rehabilitative settings and residential facilities including assisted living, long term, and home care. (2:6) Prerequisite or corequisite: NUR 601.

Prerequisite: NUR 613 and 617.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

NUR 626. Advanced Concepts in Gynecological Health Care for Women. 2 Credit Hours.

Theoretical and clinical bases for the provision of complex gynecological care of women. Emphasis is on strategies for promotion of transcultural health care needs and management of alterations according to the advanced practice roles.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

NUR 627. Primary Prenatal Healthcare of Women. 1-2 Credit Hours.

Theoretical and clinical bases for providing primary prenatal care of women. Emphasis is on management strategies for promotion of transcultural health care needs according to the advanced practice role.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

NUR 628. Adult Gerontology I. 4 Credit Hours.

Theoretical and clinical bases for health care management of health alterations in the adult population. Emphasis on strategies for health maintenance and prevention of health problems, management of alterations, discharge planning and rehabilitation of individuals and aggregate population.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

NUR 630. Research Methods and Evidence-Based Practice. 3 Credit Hours.

Research process, research methods, and the analysis of data using quantitative and qualitative approaches. Focuses on understanding levels of evidence for implementing evidence-based practice and performance improvement in nursing practice and health care. Investigates research methods associated with health disparities, access to health care, and clinical outcomes.

Components: LEC.

Grading: GRD.

Typically Offered: Spring & Summer.

NUR 631. Adult Gerontology Ii. 4-7 Credit Hours.

Theoretical and clinical bases for health management of health alterations in the adult population. Emphasis on strategies for health maintenance and prevention of health problems, management of alterations, discharge planning and rehabilitation of individuals and aggregate population.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

NUR 634. Perinatal Health Care. 6.00 Credit Hours.

Continuation of the application of physiologic, psychosocial, and cultural concepts to perinatal health care management. Emphasis is placed on nurse-midwifery management of intrapartum, postpartum, and neonatal clients.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

NUR 635. Innovation In Nursing Informatics. 3 Credit Hours.

Corequisite: NUR 633.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

NUR 636. Nursing Informatics Internship. 3 Credit Hours.

Corequisite: NUR 635.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

NUR 637. Capstone Practicum In Nursing Leadership In Informatics. 3 Credit Hours.

Prerequisites: NUR 604, NUR 607, NUR 608, NUR 630, NUR 633, NUR 636, NUR 658, CIS 450, CIS 685. Corequisites: NUR 603, NUR 605.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

NUR 638. Adult Gerontology Acute Care Iii. 6 Credit Hours.

Theoretical, clinical, and research basis of advanced practice nursing in the care and management of adults in primary care setting. (2:15)

Prerequisite: NUR 628.

Components: LEC.

Grading: GRD.

Typically Offered: Summer.

NUR 639. Acute Care Nursing of Adults II. 7.00 Credit Hours.

The second of two clinical practicums designed to guide the development of scientific knowledge and advanced practice skills in the area of acute care nursing. Designed to assist the student to assume the role of the Acute Care Nurse Practitioner/Clinical Nurse Specialist.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

NUR 640. Teaching and Learning Theory in Clinical Nursing Education. 3 Credit Hours.

This course covers principles and practices of teaching and learning integral to clinical nursing education and identifies the role of the faculty in teaching students with diverse learning styles and needs within a variety of clinical settings.

Components: DIL.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

NUR 641. Methods for Clinical Nursing Education. 3 Credit Hours.

The focus of this course is the organization and management of instruction for clinical nursing education. Emphasis is placed on effective strategies for the development of learning opportunities in diverse clinical settings.

Components: DIL.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

NUR 642. Evaluation in Clinical Nursing Education. 3 Credit Hours.

The course explores principles and practices of evaluation integral to clinical nursing education.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

NUR 643. Practicum in Nursing Education. 5 Credit Hours.

The primary focus of this course is to provide opportunities to apply concepts and principles from the previous 3 courses of the Certificate in Nursing Education program. The course provides opportunity for laboratory, clinical, and online application of principles of teaching and learning. The course combines 42 hours didactic contact hours with 112 online practicum hours.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

NUR 644. Leadership and Professional Development Strategies for Nursing. 4 Credit Hours.

In this course, students will be exposed to the principles of organizational culture, dynamics, mission, vision, values, and goals as it impacts nursing. Additionally they will learn current theories of change management and resource management for nursing practice. They will explore change agent roles in project management and processes.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

NUR 645. Interdisciplinary Anesthesia Nursing I. 14.00 Credit Hours.

This course is the integration and synthesis of advanced knowledge and skills for interdisciplinary anesthesia nursing care. Selected topics and clinical case studies include collaborative decision-making, effective communication, planning and evaluation for patients with complex problems and conditions across the lifespan. With continual guidance, students assume greater responsibility for culturally competent and interdisciplinary anesthesia care.

Prerequisites: NUR 601, NUR 611, NUR 612, NUR 613, NUR 614, NUR 617, NUR 619, NUR 620.

Components: LEC.

Grading: GRD.

Typically Offered: Summer.

NUR 646. Interdisciplinary Anesthesia Nursing II. 14.00 Credit Hours.

This course is the second integration and synthesis course of advanced knowledge and skills for interdisciplinary anesthesia nursing care for complex problems and conditions across the lifespan. With minimal guidance students assume greater responsibility for culturally competent and interdisciplinary anesthesia care.

Prerequisites: NUR 601, NUR 611, NUR 612, NUR 613, NUR 614, NUR 617, NUR 619, NUR 620, NUR 645.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

NUR 647. Advanced Practice Nursing Integration. 7 Credit Hours.

Integration of the components of the Advanced Practice Nursing role to analyze advanced practice issues.

Components: LEC.

Grading: GRD.

Typically Offered: Summer.

NUR 648. Internship. 7.00 Credit Hours.

Integration and role synthesis of Advanced knowledge and skills in nurse midwifery care for women and infants within diverse cultural clinical settings. Selected topics include practice management and clinical case studies to include diagnosis, collaborative practice, planning and evaluations of care for normal and complex conditions for the female adolescent, reproductive age woman and infant, the mature women and their families.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

NUR 650. INTERDISCIPLINARY ANESTHESIA NURSING III. 14.00 Credit Hours.

This course is the third and final integration and synthesis course of advanced knowledge and skills of interdisciplinary anesthesia nursing care for complex problems and conditions across the lifespan. With minimal guidance students assume greater responsibility for culturally competent and interdisciplinary anesthesia care.

Prerequisite: NUR 646.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

NUR 651. Qualitative Data Analysis. 3 Credit Hours.

The course is designed to help the student develop skills and understanding relating to the advanced analysis of qualitative data. The course assumes all students will either be in or nearing the analysis stages in their research. Focus is on preparation and management of text and media data for analyses; the creation and application of various types of coding to data; the distinctions in coding data evolving from different qualitative approaches; and analysis of longitudinal qualitative data. Permission required.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

NUR 652. Introduction To Clinical Inquiry I. 3 Credit Hours.

Combines clinical knowledge and hands-on clinical experience in an area of the student's potential research interest. Students will practice under the supervision of an advanced practice nurse in the specialty area. Students are expected to begin the process of identifying clinical research problems.

Components: LEC.

Grading: CNC.

Typically Offered: Summer.

NUR 653. Introduction to Clinical Inquiry II. 6 Credit Hours.

Combines clinical knowledge and hands-on clinical experience in an area of the student's potential research interest. Students will practice under the supervision of an advanced practice nurse in a specialty area. There will be a focus on health care delivery systems. Students are expected to translate clinical problems into researchable questions.

Prerequisites: NUR 652, NUR 662, NUR 665, NUR 670, NUR 674, NUR 698.

Components: LEC.

Grading: GRD.

Typically Offered: Summer.

NUR 654. The Evolution Of Nursing Practice & Application Of Theory In Nursing Practice. 3 Credit Hours.

This course is an overview of the conceptual foundations of nursing science and nursing practice. Knowledge from basic and applied sciences and ethics as well as the history of the global evolution of nursing practice are examined.

Requisite: Admission to the DNP Program.

Components: LEC.

Grading: GRD.

Typically Offered: Spring & Summer.

NUR 655. Health Care Management, Economics, Financing, And Ethics. 3 Credit Hours.

This course is an overview of health care management, financing, ethics and core and advanced concepts of health care economics. This course will also examine issues associated with health care management, economics, and ethics.

Requisite: Admission to the DNP Program.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

NUR 656. Global Health. 3 Credit Hours.

This course covers diverse topics that affect the health of the population and advanced practice nursing internationally.

Requisite: Admission to the DNP Program.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

NUR 657. Population Based Health And Health Care Disparities. 3 Credit Hours.

This course is an overview of knowledge from nursing, public health and other disciplines for population based assessment. Population based models and frameworks from nursing, public health, and other disciplines will be explored. The importance of cultural and ethical dimensions in program development is highlighted.

Prerequisites: NUR 654, NUR 656, NUR 663, NUR 664.

Components: LEC.

Grading: GRD.

Typically Offered: Summer.

NUR 658. Structure and Processes in Health Care Organization and Health Care Policy. 3 Credit Hours.

An exploration of health care organizations and healthcare policy, and how change is effected in both. Health care policy and planning to address health care disparities at the local, state, and federal levels will be explored. Organizational diagnosis, organizational change, and ethical dimension of public policy formulations and implementation will be highlighted.

Requisite: Admission to the DNP Program or Permission of the Faculty.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

NUR 659. Technology In Health Care. 3 Credit Hours.

An exploration of the various aspects of the evolving technology to improve and transform health care and advanced practice nursing. This course prepares DNP nursing students to design, select and use technology to support, manage, and improve patient care and health care systems.

Requisite: Admission to the DNP Program or Permission of the Faculty.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

NUR 660. Translational Science. 3 Credit Hours.

Emphasis is on translational science which includes organizational readiness and promoting change in a health care environment. Focus is on utilizing systematic analysis to identify, plan, execute and appraise best evidence on selected topics.

Prerequisites: NUR 654, NUR 663, NUR 664.

Components: LEC.

Grading: GRD.

Typically Offered: Summer.

NUR 662. Nursing Epistemology. 4 Credit Hours.

Focus on historical and philosophical perspectives in the development of knowledge and patterns of knowing with in-depth examination of the evolution of nursing science. Analysis of concepts relevant to nursing phenomena. Approaches to scientific development in nursing with emphasis on theory building and theory generation.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

NUR 663. Research I: Evaluating the Evidence for Practice. 3 Credit Hours.

This course is an analysis of evidence-based nursing practice. During the course, students acquire the knowledge base to resolve clinical practice problems and direct evidence-based practice.

Requisite: Admission to the DNP Program.

Components: LEC.

Grading: GRD.

Typically Offered: Spring & Summer.

NUR 664. Research II: Biostatistical Applications For Nursing Practice. 3 Credit Hours.

This course is an overview of basic statistical concepts and computer applications related to healthcare, nursing, and biomedical research. An examination of both parametric and non-parametric statistics in program evaluation, testing and process outcomes, and/or basic research studies is included.

Requisite: Admission to the DNP Program or Permission of the Faculty.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

NUR 665. Quantitative Research Methods. 3 Credit Hours.

In-depth exploration of research methods and design for quantitative research in nursing. Emphasis on development of a research problem; quantitative research design from descriptive to randomized clinical trials; epidemiologic designs; threats to validity; sampling and power analysis; measurement including psychometric theory, data collection and management; and interpretation of data. Other topics include ethics, human subjects' protection, and translation of findings into practice.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

NUR 667. Research Practicum. 1 Credit Hour.

Student participates in an ongoing research project under the guidance of a faculty member. Conducts the practical aspects of research including: IRB application/continuing reports, data collection and management.

Prerequisite: NUR 665, NUR 670.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

NUR 670. Qualitative Methods In Research. 3 Credit Hours.

Exploration of inductive approaches to research and the use of qualitative methods including grounded theory, ethnography, focus group, and phenomenology. The techniques include unstructured and structured interviews. Discussion of techniques, analysis, and the ethical and political implications of special problems in qualitative research.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

NUR 671. Scientific and Theoretical Writing. 3 Credit Hours.

Introduction to the process of scientific writing including concept analysis and publication. Critique and respond to own and peers' writing. Challenges of making revisions. Synthesize relevant literature. Other topics include: impact factor, publication process, and techniques of writing.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

NUR 672. Capstone I. 3 Credit Hours.

Emphasis is on translational science which includes organizational readiness and promoting change in a health care environment. Focus is on utilizing systematic analysis to identify, plan, execute and appraise best evidence on selected topics.

Prerequisites: NUR 676, NUR 688, NUR 689.

Components: LEC.

Grading: GRD.

Typically Offered: Spring & Summer.

NUR 673. Capstone II. 3 Credit Hours.

This second capstone course is the implementation and evaluation of the project developed in Capstone I.

Prerequisite: NUR 672.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

NUR 674. Applied Statist:Gnrl Linear Mdl(Glm),Generalized Liner Mdls (Gzlm), And Gnrl Estmtng Equations (Gee). 4 Credit Hours.

Overview of GLM, GZLM, and GEE, which combine many aspects of ANOVA/ANCOVA and multiple regression models for continuous and categorical independent and dependent variables, moderation/mediation, multiple independent variables, and repeated measures of dependent variables. Computer applications using real data and standard statistical software packages will be utilized.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

NUR 676. Practice Immersion Expreience I. 12.00 Credit Hours.

This course contains individually precepted learning experiences across the spectrum of advanced practice nursing in a variety of settings.

Students develop expertise within the scope of their nursing practice.

Requisite: Admission to the DNP Program or Permission of the Faculty.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

NUR 679. Applied Statistics: Structural Equation Modeling and Hierarchical Llinear Modeling. 3 Credit Hours.

Overview of structural equation modeling (SEM) and hierarchical linear modeling (HLM) for continuous, categorical, longitudinal, and nested data. Computer applications using real data and statistical software packages (Exel, SPSS, Mplus).

Prerequisite: NUR 674.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

NUR 680. Research Ethics. 0 Credit Hours.

This is a hybrid course that addresses the ethical and responsible conduct of research, protection of human subjects, and nursing science career development.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

NUR 681. Measurement of Nursing Phenomenon. 3 Credit Hours.

Development of instruments to measure a phenomenon of concern within the domain of nursing.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

NUR 682. Advanced Practice Psychopharmacology. 2 Credit Hours.

Review of common psychoactive medications, classes, uses, effects, side effects, and prescriptive implications.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

NUR 683. Theoretical Bases for Advanced Practice Psychiatric Mental Health Nursing. 2 Credit Hours.

Review of theories and practice of individual, group and, family therapy; role of advanced practice mental health nursing, ethics, research, legislative practice.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

NUR 684. Advanced Practice Psychiatric Mental Health Nursing Therapeutic Interventions. 1-5 Credit Hours.

Assessment and treatment of persons with major psychiatric disorders.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

NUR 685. Advanced Practice Psychiatric Mental Health Nursing Preceptorship. 4 Credit Hours.

Clinical preceptorship with experience in individual, and group, therapy.

Includes experiences in prescribing psychoactive medications.

Prerequisites: NUR 682, NUR 683, NUR 684.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

NUR 686. Advanced Practice Psychiatric Mental Health Nursing Preceptorship 2. 5 Credit Hours.

Clinical preceptorship with experience in individual, and family therapy.

Includes experiences in prescribing psychoactive medications.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Summer.

NUR 688. Health Systems Development And Leadership Practice Immersion Ii. 2-12 Credit Hours.

This course contains individually precepted learning experiences across the spectrum of nursing in a variety of settings. Students develop expertise within the scope of their nursing practice.

Prerequisite: NUR 676.

Components: LEC.

Grading: GRD.

Typically Offered: Summer.

NUR 689. New Method Of Implementation-Practice Immersion Experience Iii. 2 Credit Hours.

Prerequisites: NUR 676, NUR 688.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

NUR 690. Independent Study. 1-6 Credit Hours.

A in depth study of a specified area in advanced nursing of special interest to the student, under faculty guidance.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

NUR 694. Clinical Practicum For Dnp Nurse Anesthesia. 6 Credit Hours.

This course is the clinical integration and synthesis of advanced knowledge and skills of interdisciplinary anesthesia nursing care for complex problems and conditions across the lifespan. Students assume responsibility for culturally competent and interdisciplinary anesthesia care with minimal assistance.

Prerequisite NUR 650.

Components: LEC.

Grading: GRD.

Typically Offered: Summer.

NUR 695. Clinical Practicum For Dnp Nurse Anesthesia. 6 Credit Hours.

This course is the clinical integration and synthesis of advanced knowledge and skills of interdisciplinary anesthesia nursing care for complex problems and conditions across the lifespan. Students assume responsibility for culturally competent and interdisciplinary anesthesia care with minimal assistance.

Prerequisite: NUR 694.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

NUR 696. Crafting the Dissertation Proposal. 3 Credit Hours.

The course is designed to help students focus and refine their ideas for their dissertation proposals. Focus is on developing and refining the ideas for the dissertation, and writing the introductory/review of the literature/methods chapters. The student will also begin preparation for a grant submission. During the semester, the course coordinators will assist the student in choosing a dissertation chair who will also provide input into the proposal.

Prerequisites: NUR 670, NUR 665, NUR 662. Corequisite: NUR 671.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

NUR 697. Selected Topics. 12.00 Credit Hours.

Subject matter offerings based upon student demand and availability of faculty. Subtitles describing topics will be shown in class schedule in parentheses after selected topic notation.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

NUR 698. Selected Topics. 6.00 Credit Hours.

The aim of this course is to provide a solid foundation in the basic statistical concepts used in conducting research in nursing. This course is an overview of basic statistical concepts and computer applications related to nursing research.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

NUR 699. Special Topics in Nursing Research. 1-3 Credit Hours.

Directed or independent research in collaboration with a faculty member providing opportunity for participation in ongoing nursing research. Specific requirements and credit allocation determined by contractual arrangement between student and faculty member.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

NUR 700. Post Master Clinical. 12.00 Credit Hours.**Components:** LEC.**Grading:** GRD.**Typically Offered:** Fall, Spring, & Summer.**NUR 701. Clinical Continuation. 6.00 Credit Hours.****Components:** LEC.**Grading:** GRD.**Typically Offered:** Fall, Spring, & Summer.**NUR 810. Master's Thesis. 1-6 Credit Hours.**

The student working on his/her master's thesis enrolls for credit, in most departments not to exceed six, as determined by his/her advisor. Credit is not awarded until the thesis has been accepted.

Components: DIS.**Grading:** SUS.**Typically Offered:** Fall & Spring.**NUR 830. Doctoral Dissertation. 1-12 Credit Hours.**

Required of all candidates for the Ph.D. The student will enroll for credit as determined by his/her advisor but not for less than a total of 12 credits. Not more than 12 hours of NUR 730 may be taken in a regular semester, nor more than six in a summer session. A student who has passed (a) qualifying examinations, and (b) is engaged in an assistantship, may still take the maximum allowable credit stated above.

Components: THI.**Grading:** SUS.**Typically Offered:** Fall, Spring, & Summer.**NUR 850. Research in Residence. 1-3 Credit Hours.**

Used to establish research in residence for the Ph.D., after the student has been enrolled for the permissible cumulative total in appropriate doctoral research. Credit not granted. May be regarded as full-time residence as determined by the Dean of the Graduate School.

Components: THI.**Grading:** SUS.**Typically Offered:** Fall, Spring, & Summer.**NUR 000. Nursing. 1-30 Credit Hours.****Components:** LEC.**Grading:** GRD.**Typically Offered:** Offered by Announcement Only.

Osher Lifelong Learning Inst (OSH)

OSH 100. Wealth Management. 0 Credit Hours.**Components:** LEC.**Grading:** GRD.**OSH 125. A Historic Miscellany. 0 Credit Hours.****Components:** LEC.**Grading:** NON.**OSH 126. Miami-Dade County & You. 0 Credit Hours.****Components:** LEC.**Grading:** NON.**OSH 208. Gender Continuum. 0 Credit Hours.****Components:** LEC.**Grading:** NON.**OSH 342. Literary Expatriates In Paris. 0 Credit Hours.****Components:** LEC.**Grading:** NON.**OSH 4. Osher Field Trip Event. 0 Credit Hours.****Components:** LEC.**Grading:** GRD.**OSH 406. Worl Economics - "New Boys In The Neighborhood: How New Economic Powers Are Playing A Game". 0 Credit Hours.****Components:** LEC.**Grading:** NOG.**OSH 6. Conni Gordon And Creative Thinking Using Art. 0 Credit Hours.****Components:** LEC.**Grading:** GRD.**OSH 737. Poetics Of Cinema. 0 Credit Hours.****Components:** LEC.**Grading:** NON.**OSH 738. A Historical Overview Of American Popular Song. 0 Credit Hours.****Components:** LEC.**Grading:** NON.

Pharmacology (PHA)

PHA 801. MEDICAL PHARMACOLOGY. 1-6 Credit Hours.**Components:** LEC.**Grading:** SUS.

Philosophy (PHI)

PHI 100. John Rawls Political Philosophy. 3 Credit Hours.

The study of John Rawl's Theory of Justice, Political Liberalism and Law of People and discussion of the main criticisms that raised Rawl's theory.

Components: LEC.**Grading:** GRD.**Typically Offered:** Fall.**PHI 101. Introduction to Philosophy. 3 Credit Hours.**

Problems concerning knowledge, mind, freedom, religion, and morality. Reading and discussion of primary sources.

Components: LEC.**Grading:** GRD.**Typically Offered:** Fall, Spring, & Summer.**PHI 103. Introduction to Philosophy through Markets and Morals. 3 Credit Hours.****Components:** LEC.**Grading:** GRD.**Typically Offered:** Offered by Announcement Only.**PHI 104. Introduction to Philosophy and the Nature of Scientific Knowledge. 3 Credit Hours.****Components:** LEC.**Grading:** GRD.**Typically Offered:** Offered by Announcement Only.**PHI 105. Introduction to Philosophy through the Brain and Behavioral Sciences. 3 Credit Hours.****Components:** LEC.**Grading:** GRD.**PHI 106. Introduction to Philosophy and Health Sciences. 3 Credit Hours.****Components:** LEC.**Grading:** GRD.**Typically Offered:** Offered by Announcement Only.

PHI 107. Introduction to Philosophy and Law. 3 Credit Hours.**Components:** LEC.**Grading:** GRD.**Typically Offered:** Offered by Announcement Only.**PHI 108. Sexual Ethics. 3 Credit Hours.****Components:** LEC.**Grading:** GRD.**Typically Offered:** Offered by Announcement Only.**PHI 109. The Superhuman Mind: An Introduction to Philosophy of Mind. 3 Credit Hours.****Components:** LEC.**Grading:** GRD.**Typically Offered:** Offered by Announcement Only.**PHI 110. Critical Thinking. 3 Credit Hours.**

Principles of sound reasoning; the construction and evaluation of arguments in everyday contexts and the assessment of evidence.

Components: LEC.**Grading:** GRD.**Typically Offered:** Fall & Spring.**PHI 115. Social and Ethical Issues in Computing. 3 Credit Hours.**

History, social context and methods and tools of analysis. Professional and ethical responsibilities. Intellectual property. Privacy and civil liberties.

Components: LEC.**Grading:** GRD.**Typically Offered:** Spring.**PHI 130. Contemporary Moral Issues. 3 Credit Hours.**

An examination of the philosophical problems which arise in connection with such moral and social issues as abortion, war, suicide, civil disobedience, racial discrimination, the death penalty, and the right to privacy.

Components: LEC.**Grading:** GRD.**Typically Offered:** Fall, Spring, & Summer.**PHI 135. LOVE 101. 3 Credit Hours.**

Love from different ethical, psychological and neuro-scientific perspectives. Among other things we will look at what distinguishes different kinds of love from each other, how love is manifested psychologically and neuro-scientifically, what chemicals drive feelings of love and obsession and why it can be so difficult to recover from a breakup.

Components: LEC.**Grading:** GRD.**Typically Offered:** Offered by Announcement Only.**PHI 200. Environmental Ethics. 3 Credit Hours.**

This course will cover theoretical and practical issues in environmental ethics, exploring the relationships between humans and the environment.

Components: LEC.**Grading:** GRD.**Typically Offered:** Fall.**PHI 210. Symbolic Logic. 3 Credit Hours.**

Introduction to symbolic logic and its methods.

Components: LEC.**Grading:** GRD.**Typically Offered:** Fall & Summer.**PHI 215. Logic and Law. 3 Credit Hours.**

Principles and techniques of logic applied to legal reasoning.

Components: LEC.**Grading:** GRD.**Typically Offered:** Spring.**PHI 236. Feminist Philosophy. 3 Credit Hours.**

This course is an introduction to issues in feminist philosophy, including its critique of Western philosophy and its contributions to major areas of philosophy such as ethics, social philosophy, theories of human nature, and theories of knowledge. Theories of oppression introduced at the beginning of the course inform analyses of sexism, heterosexism, racism, classism and ableism, and philosophizing about these "isms" is aided by sociocultural research. The emphasis is not only on what is contained in these topics, but also on how to think critically about them.

Components: LEC.**Grading:** GRD.**Typically Offered:** Fall & Spring.**PHI 237. Philosophy Of Sport. 3 Credit Hours.**

A philosophical examination of the nature and characterization of sports and of the many ethical issues they raise.

Components: LEC.**Grading:** GRD.**Typically Offered:** Offered by Announcement Only.**PHI 241. History and Philosophy of Science. 3 Credit Hours.**

An introduction to the history and philosophy of science by approaching this field from historical and epistemological points of view.

Components: LEC.**Grading:** GRD.**Typically Offered:** Offered by Announcement Only.**PHI 242. Self-Knowledge. 3 Credit Hours.**

How we can come to know our own minds.

Components: LEC.**Grading:** GRD.**Typically Offered:** Offered by Announcement Only.**PHI 244. Philosophy of Emotions. 3 Credit Hours.**

The philosophy of emotions focusing on questions about what emotions are, whether emotions can be rational and whether they are socially constructed.

Components: LEC.**Grading:** GRD.**Typically Offered:** Offered by Announcement Only.**PHI 245. Philosophical Psychology. 3 Credit Hours.**

An examination of problems in psychology that philosophical methods have traditionally been used to solve.

Components: LEC.**Grading:** GRD.**Typically Offered:** Offered by Announcement Only.**PHI 247. Perception. 3 Credit Hours.**

An overview of the nature of sensory perception.

Components: LEC.**Grading:** GRD.**Typically Offered:** Offered by Announcement Only.

PHI 248. Phenomenology. 3 Credit Hours.

A historical account of the phenomenological tradition and its significance to contemporary theorizing.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PHI 271. Ancient Philosophy. 3 Credit Hours.

This course will introduce students to Ancient Greek ideas by examining central philosophical themes, such as: Knowledge; Why Be Moral? Justice in the City/Justice in the Soul; Liberty and Social Engineering; Happiness; Friendship; Death. We will use primary texts (in translation) by Plato, Aristotle, Cicero, and Augustine of Hippo, supplemented by some selections from the Greek historian Thucydides. Some Greek vocabulary will be assigned. The final exam will consist of a 2-week-long role playing game, *The Threshold of Democracy: Athens in 403 B.C.* (Developed by the Classics department at Barnard College, and a core component of Ancient Philosophy courses at UT Austin). Students will be assigned different roles: Thrasybulus; a radical Democrat; an Oligarch; and a supporter of Socrates.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

PHI 272. Modern Philosophy. 3 Credit Hours.

The Renaissance through Kant.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

PHI 295. Special Topics. 1-4 Credit Hours.

Special Topics taken at other institutions with no direct equivalents.

Components: LEC.

Grading: GRD.

PHI 330. Ethics. 3 Credit Hours.

The main ethical systems and ethical concepts, an analysis of important ethical readings, and an application of ethical concepts to the individual and to society.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

PHI 331. Social and Political Philosophy. 3 Credit Hours.

Relations between morality and politics, the sources and the limits of political obligation, the function of the state, the nature of law, civil disobedience and revolution.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PHI 332. Philosophy of Law. 3 Credit Hours.

An examination of basic philosophical issues concerning the nature and function of law, with particular attention to the legal system of the United States.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PHI 333. Philosophical foundations of criminal law. 3 Credit Hours.

Philosophical examination of questions concerning the purpose, scope and limits of criminal law and the justification of punishment.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PHI 334. Biomedical Ethics. 3 Credit Hours.

Fundamental issues including: the allocation of medical resources, behavior control, definition of death, experimentation with human subjects, euthanasia, and abortion.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PHI 335. Professional Ethics. 3 Credit Hours.

Moral issues in business, engineering, law, and medicine. Development of moral principles to guide those in professional roles.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PHI 336. Human Rights.. 3 Credit Hours.

This course offers philosophical, legal, and political perspectives on human rights. After a short introduction to international human rights, it surveys international human rights treaties and institutions. Next it turns to topics in human rights theory, covering some contemporary philosophical theories of human rights. The final section explores some human rights problems and controversies.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PHI 337. Environmental Ethics. 3 Credit Hours.

Theoretical and practical issues in the field of environmental ethics.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PHI 338. Philosophy and Feminism. 3 Credit Hours.

Theoretical (metaphysical and epistemological) and applied issues in feminist thought.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PHI 340. Theory of Knowledge. 3 Credit Hours.

Analysis of the nature, sources and structure of knowledge. Possible topics include perception, skepticism, reason, truth, justification, and certainty.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PHI 341. Philosophy of Language. 3 Credit Hours.

Theories of meaning, reference, predication, nature of signs and symbols, types and functions of discourse.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PHI 343. Philosophy of Science. 3 Credit Hours.

Scientific theories and their relation to evidence; experimentation and its logic; explanation, the rationality of science and the growth of scientific knowledge.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PHI 344. Philosophy of Mind. 3 Credit Hours.

The nature of mind and mental acts, events, and states and their relations to physical states of the brain and body and to behavior.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PHI 345. Metaphysics. 3 Credit Hours.

The basic structure and kinds of constituents of the world.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PHI 346. Philosophy of Mathematics. 3 Credit Hours.

An examination of key philosophical issues concerning mathematics and the understanding of mathematical practice.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PHI 347. Philosophy Of Social Science. 3 Credit Hours.

Examination of whether there are important differences between the social sciences and the natural sciences in terms of their methodology and objects of study.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PHI 348. Perception, Cognition & The Brain: An Intro To Cognitive Neuroscience. 3 Credit Hours.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PHI 349. Philosophy of Space and Time. 3 Credit Hours.

Time and space are notoriously difficult to think about. We seem to have an intuitive understanding of them, but it is surprisingly hard to express that understanding. To make matters worse, modern physics challenges what little grasp we thought we had on the concepts of space and time. We are told that space can be curved, and that there can fail to be an objective fact about which of two events occurred first. So we are left without even an intuitive grasp of two of the most fundamental concepts of experience.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

PHI 350. Philosophy of Psychology. 3 Credit Hours.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PHI 351. Philosophy of Religion. 3 Credit Hours.

The nature of and grounds for religious beliefs; traditional arguments for and against the existence of God; God's attributes; reason vs. faith.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PHI 352. Aesthetics. 3 Credit Hours.

The philosophy of art, such as defining 'art', adjudicating among competing judgments or interpretations of works of art, and understanding the metaphysical status of art objects.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PHI 353. Philosophy of Film. 3 Credit Hours.

Philosophical questions concerning the ontology and aesthetics of film.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

PHI 354. Philosophy of Literature. 3 Credit Hours.

Central philosophical issues concerning literature and the evaluation of literary works.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PHI 355. History Of Philosophy Of Art. 3 Credit Hours.

An examination of the history of philosophical work on the arts (including literature, visual art, and music) from ancient times through the mid twentieth century.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

PHI 373. Nineteenth Century Philosophy. 3 Credit Hours.

Fichte, Schelling, Hegel, Schopenhauer, Kierkegaard, Marx, Comte, Mill, Spencer, and Nietzsche.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PHI 374. Twentieth Century Philosophy. 3 Credit Hours.

Philosophy and philosophers in the twentieth century.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PHI 381. Existentialism. 3 Credit Hours.

Existentialist philosophy as seen in the works of such authors as Kierkegaard, Nietzsche, Heidegger, Sartre, Camus, and Dostoevsky.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PHI 391. Special Studies. 3 Credit Hours.

Study of selected problems, philosophers, or movements. May be repeated for credit.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PHI 392. Special Studies. 3 Credit Hours.

Study of selected problems, philosophers, or movements. May be repeated for credit.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PHI 494. Independent Study In Philosophy. 1-3 Credit Hours.

Independent research conducted under the guidance of a faculty member. May be repeated for credit.

Components: THI.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PHI 495. Senior Honors Thesis. 3 Credit Hours.

Directed reading and a substantial and scholarly paper.

Components: THI.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PHI 496. Senior Honors Thesis. 3 Credit Hours.

Directed reading and a substantial and scholarly paper.

Components: THI.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PHI 506. Mathematical Logic. 3 Credit Hours.

Logics, truth, proof, logical consequences, model theory, formalization, and computation. Meta-theory of first-order logic, computability theory, and Goedel's Incompleteness theorems. Related results by church, Turing, and Tarski. Discussion of their philosophical significance.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PHI 510. Formal Logic. 3 Credit Hours.

First and second-order quantification theory; metalogic.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

PHI 530. Ethical Theory. 3 Credit Hours.

G. E. Moore to the present.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PHI 533. Political Philosophy. 3 Credit Hours.

A survey of some central issues and developments in political philosophy.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PHI 540. Epistemology. 3 Credit Hours.

A survey of the basic topics and questions in epistemology: knowledge acquisition and justification, perception, fallibilism, and skepticism.

Components: SEM.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PHI 541. Mind and Language. 3 Credit Hours.

Philosophical problems about signs, linguistic and mental representations, intentionality, action, and consciousness.

Components: SEM.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PHI 543. Induction, Probability, and Scientific Method. 3 Credit Hours.

Foundations of inductive reasoning and role of experiment in science.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PHI 545. Metaphysics. 3 Credit Hours.

A selection of topics dealing with the main problems of metaphysics: existence, modality, universals, identity and persistence through time, causation, the self and physicalism.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PHI 546. Evidence and Knowledge in Medicine. 3 Credit Hours.

Basic methodologies in medicine in the context of philosophical theories of evidence.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

PHI 555. Philosophy Of Education. 3 Credit Hours.

Problems concerning the nature and aims of education.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

PHI 560. History of Logic. 3 Credit Hours.

Aristotle, the Stoics, the Scholastics, Leibniz, Boole, DeMorgan, Peirce, Frege, and Russell and Whitehead.

Components: SEM.

Grading: GRD.

Typically Offered: Fall & Spring.

PHI 562. History of Ethics. 3 Credit Hours.

A selection of ethical theories from Aristotle to Rawls.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PHI 570. Presocratics and Plato. 3 Credit Hours.

Fragments from the Presocratics and the dialogues of Plato.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PHI 571. Aristotle and Hellenistic Philosophy. 3 Credit Hours.

A survey of central philosophical topics in Aristotle and Hellenistic Philosophers (Epicureans, Stoics, and Skeptics).

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PHI 572. Medieval Philosophy. 3 Credit Hours.

The patristic period through the scholasticism of the late middle ages.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PHI 573. Early Modern Philosophy. 3 Credit Hours.

An examination of early modern philosophy from Hobbes and Descartes to Hume.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PHI 575. Kant. 3 Credit Hours.

An examination of selected issues in Kant's theoretical or practical philosophy.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PHI 581. Pragmatism. 3 Credit Hours.

Peirce, James, Dewey, and others.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PHI 582. History of Analytic Philosophy. 3 Credit Hours.

The development of analytic philosophy from its beginnings in the work of Frege and Russell through logical positivism to contemporary philosophy.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PHI 583. The Phenomenological Tradition. 3 Credit Hours.

An examination of the phenomenological movement (Edmund Husserl, Martin Heidegger, Maurice Merleau-Ponty, and others) and of its impact on contemporary thought.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PHI 591. Special Topics. 3 Credit Hours.

A selected philosopher or philosophical problem. May be repeated for credit.

Components: SEM.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PHI 592. Special Topics. 3 Credit Hours.

A selected philosopher or philosophical problem. May be repeated for credit.

Components: SEM.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PHI 593. Special Topics. 3 Credit Hours.

A selected philosopher or philosophical problem. May be repeated for credit. Prerequisite: Six credits in Philosophy and junior standing.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PHI 594. Independent Study in Philosophy. 1-3 Credit Hours.

Directed reading on a topic or philosopher. May be repeated for credit.

Components: THI.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PHI 606. Mathematical Logic. 3 Credit Hours.

Logics, truth, proof, logical consequences, model theory, formalization, and computation. Meta-theory of first-order logic, computability theory, and Goedel's Incompleteness theorems. Related results by Church, Turing, and Tarski. Discussion of their philosophical significance.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PHI 611. Formal Logic. 3 Credit Hours.

First and second-order quantification theory; metalogic.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

PHI 631. Ethical Theory. 3 Credit Hours.

G. E. Moore to the present.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PHI 634. Political Philosophy. 3 Credit Hours.

A survey of some central issues and developments in political philosophy.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PHI 642. Epistemology. 3 Credit Hours.

A survey of the basic topics and questions in epistemology: knowledge acquisition and justification, perception, fallibilism, and skepticism.

Components: SEM.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PHI 646. Evidence and Knowledge in Medicine. 3 Credit Hours.

Basic methodologies in medicine in the context of philosophical theories of evidence.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

PHI 647. Mind and Language. 3 Credit Hours.

Philosophical problems about signs, linguistic and mental representations, intentionality, action, and consciousness.

Components: SEM.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PHI 648. Induction, Probability, and Scientific Method. 3 Credit Hours.

Foundations of inductive reasoning and role of experiment in science.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PHI 649. Metaphysics. 3 Credit Hours.

A selection of topics dealing with the main problems of metaphysics: existence, modality, universals, identity and persistence through time, causation, the self and physicalism.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PHI 655. Philosophy Of Education. 3 Credit Hours.

Problems concerning the nature and aims of education.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

PHI 660. History of Logic. 3 Credit Hours.

Aristotle, the Stoics, the Scholastics, Leibniz, Boole, DeMorgan, Peirce, Frege, and Russell and Whitehead.

Components: SEM.

Grading: GRD.

Typically Offered: Fall & Spring.

PHI 662. History of Ethics. 3 Credit Hours.

A selection of ethical theories from Aristotle to Rawls.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PHI 670. Presocratics and Plato. 3 Credit Hours.

Fragments from the Presocratics and the dialogues of Plato.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PHI 672. Aristotle and Hellenistic Philosophy. 3 Credit Hours.

A survey of central philosophical topics in Aristotle and Hellenistic Philosophers (Epicureans, Stoics, and Skeptics).

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PHI 673. Medieval Philosophy. 3 Credit Hours.

The patristic period through the scholasticism of the late middle ages.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PHI 674. Early Modern Philosophy. 3 Credit Hours.

An examination of early modern philosophy from Hobbes and Descartes to Hume.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PHI 677. Kant. 3 Credit Hours.

An examination of selected issues in Kant's theoretical or practical philosophy.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PHI 681. Pragmatism. 3 Credit Hours.

Peirce, James, Dewey, and others.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PHI 683. The Phenomenological Tradition. 3 Credit Hours.

An examination of the phenomenological movement (Edmund Husserl, Martin Heidegger, Maurice Merleau-Ponty, and others) and of its impact on contemporary thought.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PHI 684. History of Analytic Philosophy. 3 Credit Hours.

The development of analytic philosophy from its beginnings in the work of Frege and Russell through logical positivism to contemporary philosophy.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PHI 695. Special Topics. 3 Credit Hours.

A selected philosopher or philosophical problem. May be repeated for credit.

Components: SEM.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PHI 696. Special Topics. 3 Credit Hours.

A selected philosopher or philosophical problem. May be repeated for credit.

Components: SEM.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PHI 697. Special Topics. 3 Credit Hours.

A selected philosopher or philosophical problem. May be repeated for credit. Prerequisite: Six credits in Philosophy and junior standing.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PHI 698. Independent Study in Philosophy. 1-3 Credit Hours.

Directed reading on a topic or philosopher. May be repeated for credit.

Components: THI.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PHI 701. Proseminar (First Semester). 3 Credit Hours.

Covers the core texts from the history of analytic philosophy. First semester of the year-long pro-seminar for first-year graduate students in Philosophy.

Components: SEM.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PHI 702. Proseminar (Second Semester). 3 Credit Hours.

Covers the core texts and issues of analytic philosophy in the second half of the twentieth century. Second semester of the year-long pro-seminar for first-year graduate students in Philosophy.

Components: SEM.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PHI 711. Topics in Logic. 3 Credit Hours.

Problems in philosophical logic; non-standard logic.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PHI 731. Seminar in Ethics. 3 Credit Hours.

Problems in normative ethics, meta-ethics, and value theory.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

PHI 736. Values, Norms, and Actions. 3 Credit Hours.

The role of values and norms in practical reasoning and decision making.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PHI 742. Seminar in Epistemology. 3 Credit Hours.

Problems concerning knowledge: skepticism, belief, certainty, truth, and justification.

Components: SEM.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PHI 744. Seminar in Philosophy of Mind. 3 Credit Hours.

Problems concerning mental phenomena: theories of perception, action, consciousness.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PHI 747. Seminar in Philosophy of Language. 3 Credit Hours.

Nature and uses of language; concepts of reference, truth, and meaning.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PHI 748. Philosophy of Science. 3 Credit Hours.

Selected topics in the philosophy of science, such as realism, explanation, and conceptual and methodological issues in the special sciences.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PHI 749. Seminar in Metaphysics. 3 Credit Hours.

Problems related to the nature and kinds of being.

Components: SEM.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PHI 751. Seminar in Philosophy of Art. 3 Credit Hours.

Problems related to beauty and the philosophy of art.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PHI 772. Seminar in Ancient Philosophy. 3 Credit Hours.

A discussion of selected topics in ancient philosophy.

Components: SEM.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PHI 778. Idealism. 3 Credit Hours.

An examination of Idealism, both contemporary and historical.

Components: SEM.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PHI 795. Seminar in Special Topics. 3 Credit Hours.

A selected philosopher or philosophical problem. May be repeated for credit.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PHI 796. Seminar in Special Topics. 3 Credit Hours.

A selected philosopher or philosophical problem. May be repeated for credit.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PHI 798. Independent Study in Philosophy. 1-3 Credit Hours.

Directed reading on a topic or philosopher. May be repeated for credit.

Components: THI.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PHI 810. Master's Thesis. 1-6 Credit Hours.

The student working on his/her master's thesis enrolls for credit, in most departments not to exceed six, as determined by his/her advisor. Credit is not awarded until the thesis has been accepted.

Components: THI.

Grading: SUS.

Typically Offered: Fall & Spring.

PHI 830. Doctoral Dissertation. 1-12 Credit Hours.

Required of all candidates for the Ph.D. The student will enroll for credit as determined by his/her advisor, but for not less than a total of 12 hours. Up to 12 hours may be taken in a regular semester, but not more than six in a summer session.

Components: THI.

Grading: SUS.

Typically Offered: Fall & Spring.

PHI 840. Post-candidacy doctoral dissertation. 1-6 Credit Hours.

Required of all candidates for the Ph.D. who have advanced to candidacy. The student will enroll for credit as determined by his/her advisor, but not for less than a total of 12. Not more than 12 hours of PHI 740 may be taken in a regular semester, nor more than six in a summer session.

Components: THI.

Grading: SUS.

Typically Offered: Fall & Spring.

PHI 850. Research in Residence. 1 Credit Hour.

Used to establish research in residence for the Ph.D., after the student has been enrolled for the permissible cumulative total in appropriate doctoral research. Credit not granted. May be regarded as full-time residence as determined by the Dean of the Graduate School.

Components: THI.

Grading: SUS.

Typically Offered: Fall & Spring.

Physical Science (PSC)

PSC 101. Physical Science. 3 Credit Hours.

An interdisciplinary course to provide the non-science major with an understanding of some of the methods, ideas and accomplishments of Physics, Astronomy, Chemistry, Geology, and their role in the development of civilization.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

Physical Therapy (PTS)

PTS 518. Introduction to Pilates - Gateway. 1 Credit Hour.

Components: LEC.

Grading: SUS.

Typically Offered: Spring.

PTS 523. Myofascial Release. 1 Credit Hour.

Introduction to Myofascial Release technique in rehabilitation.

Prerequisite: Open to Physical Therapy majors only.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

PTS 604. Rehabilitation Technology For Physical Therapists. 1 Credit Hour.

This course will introduce current advancements in diagnostic and therapeutic equipment used by physical therapists in clinical practice. The emphasis will be on latest rehabilitation technology such as virtual reality, neural stimulation and rehabilitation robotics. Students will observe the equipment being used on patients, get a basic understanding of its operation and have an opportunity for hands-on learning.

Components: LEC.

Grading: CNC.

Typically Offered: Fall.

PTS 605. Physical Therapy Private Practice Management. 1 Credit Hour.

Course focuses on establishing a private physical therapy practice, including initial development through marketing and management.

Prerequisite: Open to Physical Therapy majors only.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

PTS 606. Issues in Women's Health: Gynecology. 1 Credit Hour.

Introduction to physical therapy practice for evaluation and treatment of pelvic floor dysfunction. Prerequisite: Open to Physical Therapy majors only.

Components: LEC.

Grading: GRD.

Typically Offered: Summer.

PTS 607. Issues in Women's Health: Obstetrics, Osteoporosis and Breast Health. 1 Credit Hour.

Introduction to physical therapy practice for evaluation and treatment of problems related to pregnancy, osteoporosis, and other disorders specific to women. Prerequisite: Open to Physical Therapy majors only.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

PTS 610. Introduction To Pilates - Gateway. 1 Credit Hour.

This course provides in-depth instruction in the use of Pilates Mat to supplement physical therapy practice. This course covers the history of Pilates and Polestar education, biomechanics, and the many uses of Pilates in physical practices, as well as instruction in 18 Pilates mat exercises. Students learn to perform and teach the exercises and 4 unique class sequences.

Components: LEC.

Grading: SUS.

Typically Offered: Offered by Announcement Only.

PTS 611. Advanced Clinical Practice: Topics in Pediatrics. 1 Credit Hour.

The course will focus on advanced topics in pediatric physical therapy. Through lecture, seminar discuss and lab experiences, topics will include: typical and atypical development over the first year, and both motor and sensory integration examination and intervention strategies. Prerequisite: Open to Physical Therapy majors only.

Components: LEC.

Grading: SUS.

Typically Offered: Fall.

PTS 612. Sports Physical Therapy. 1 Credit Hour.

An overview of the general aspects of sports physical therapy practice will be provided. Topics will include the various settings, evaluations, interventions, and techniques involved in Sports physical therapy practice. Prerequisite: Open to Physical Therapy majors only.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

PTS 613. Advanced Clinical Practice: Evaluation And Treatment Of The Foot And Ankle. 1 Credit Hour.

This course will review the anatomy, normal and abnormal kinesiology/ biomechanics, pathology, imaging, of the foot and ankle and discuss Physical Therapy evaluation and intervention based on evidence based practice. It will include an introduction to evaluation and negative casting for orthotics and cadaver prosection review.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PTS 614. Certified Strength and Conditioning Specialist Preparation (NSCA). 1 Credit Hour.

Evaluation and exercise planning of athletes to help them achieve their maximum physical performance without incurring injury. Case studies, a problem-solving approach, and integration of previously learned material are emphasized. Classroom instruction, exercise performance, video analysis, and case studies are utilized. Prerequisite: Open to Physical Therapy majors only.

Components: LEC.

Grading: GRD.

Typically Offered: Summer.

PTS 615. Advance Clinical Practice: Taping for the Orthopedic Population.. 1 Credit Hour.

This seminar course is designed to introduce the participant to the concepts of taping for various musculoskeletal pathologies commonly seen in the athletic population. Athletic taping and kinesiotaping principles and uses in rehabilitation will be introduced. A lab component will allow participants to practice the various taping techniques demonstrated. Prerequisite: Open to Physical Therapy majors only.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

PTS 616. Clinical Research I. 3 Credit Hours.

Principles, concepts, and basic skills required to conduct clinical research in physical therapy. Topics covered include research design, sampling, bias, reliability and validity, questionnaire design, statistical computing, conceptual review of literature and the preparation of a research proposal.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

PTS 617. Abdominal Anatomy. 1 Credit Hour.

Course analyzes abdominal anatomy emphasizing structure and function. Cadaver dissection is included. Prerequisite: Open to Physical Therapy majors only.

Components: LEC.

Grading: GRD.

Typically Offered: Summer.

PTS 619. Pelvic Anatomy. 1 Credit Hour.

Course analyzes the anatomy of the human pelvic area. Cadaver dissection is included. Prerequisite: Open to Physical Therapy majors only.

Components: LEC.

Grading: GRD.

Typically Offered: Summer.

PTS 620. Spanish For Physical Therapists I. 1 Credit Hour.

This course is designed to familiarize the physical therapy student with Hispanic cultures and assist the physical therapy student with developing basic communication skills with this population. Emphasis will be on using basic Spanish language to teach skills to or interview the Spanish speaking patient in a health care setting. In addition, knowledge of Hispanic cultures will be integrated into the development of verbal and nonverbal communication skills with this population.

Components: LEC.

Grading: GRD.

Typically Offered: Summer.

PTS 622. Introduction to Functional Capacity Evaluations. 1 Credit Hour.

This course introduces essential components of functional capacity evaluations and establishes entry-level proficiency. The emphasis will be on cardiovascular clearance and testing, material handling testing, positional tolerance testing, spinal inclinometry, and isometric reliability measures as identified through evidence-based practice and current research. Prerequisite: Open to Physical Therapy majors only.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

PTS 623. Myofascial Release. 1 Credit Hour.

Introduction to Myofascial Release technique in rehabilitation. Prerequisite: Open to Physical Therapy majors only.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

PTS 624. Miofascial Release II.. 1 Credit Hour.

A follow up to the introductory course MFR I. This course focuses on a review of bioenergy followed by practice of release techniques for trunk, extremities and head and neck. Cranial techniques and rebounding are also taught. Prerequisite: Open to Physical Therapy majors only.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

PTS 625. Introduction To Dry Needling Theory And Technique. 1 Credit Hour.

Course introduces the participant to the concepts of dry needling, its neuro-functional principles, and its use in a physical therapy setting. Emphasis on comparing and contrasting dry needling to acupuncture, as well as the safety, indications and contraindications of dry needling. A lab component will allow participants to practice various introductory dry needling techniques. Prerequisite: Open to Physical Therapy majors only.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

PTS 627. Gateway Pilates II. 1 Credit Hour.

This two-day Pilates course will teach how to provide four new basic Pilates Mat classes. A total of 18 Gateway 2 preparatory exercises and original Pilates Mat exercises will be taught. The instructor will provide ample experiences for real time practice of each of the 4 Pilates Mat sequences, and will provide feedback to each participant pertaining to additional training and practice to become proficient teachers of the Gateway Introductory Mat work.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

PTS 629. Evaluation And Treatment Of Spinal Dysfunctions 1. 3 Credit Hours.

This course provides an in-depth exploration of the evaluation and treatment of various dysfunctions of the spines. The lumbar and sacroiliac regions will be explored. Thorough evaluation procedures will be emphasized as they relate to specific diagnosis. Treatment for the respective diagnoses will include therapeutic exercise, soft tissue stretching, and postural re-education.

Components: LEC.

Grading: GRD.

Typically Offered: Summer.

PTS 630. Foundations of Physical Therapy. 3 Credit Hours.

Historical development, philosophical foundations and contemporary practice of physical therapist as educator, consultant, administrator, and model of healthy behaviors. Health as indicated by global fitness measures will be demonstrated and experienced. Medical terminology mastered. Prerequisite: Open to Physical Therapy majors only.

Components: LEC.

Grading: GRD.

Typically Offered: Summer.

PTS 631. Gross Anatomy for Physical Therapy I. 3 Credit Hours.

Gross anatomy with emphasis on the musculoskeletal systems and a survey of other systems that are relevant to physical therapy practice. Cadaver dissection. Prerequisite: Open to Physical Therapy majors only.

Components: LEC.

Grading: GRD.

Typically Offered: Summer.

PTS 632. Gross Anatomy for Physical Therapy II. 3 Credit Hours.

Gross Anatomy with emphasis on the musculoskeletal systems and a survey of other systems that are relevant to physical therapy practice. Cadaver dissection. Prerequisite: Open to Physical Therapy majors only.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

PTS 633. Communication in Physical Therapy Practice. 2 Credit Hours.

Course provides an analysis of communication skills in physical therapy clinical practice. Emphasis is placed on instruction of patients and their families, supportive staff, and health care team members. In-depth examination of patient-therapist interactions is included. Prerequisite: Open to Physical Therapy majors only.

Components: LEC.

Grading: GRD.

Typically Offered: Summer.

PTS 640. Foundations Of Neuroscience. 2 Credit Hours.

The human central nervous system with emphasis on structure-function relationships, and clinical applications. The brain, spinal cord, cranial nerves, tracts, and nuclei of major systems. Central nervous systems lesions and their clinical significance are discussed. Lecture and human dissection are included. Prerequisite: Open to Physical Therapy majors only.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

PTS 641. Neuroscience II. 3 Credit Hours.

The central, peripheral, and autonomic nervous systems and their physiological responses to environmental stimuli. Normal systems are contrasted with abnormal systems. The clinical significance of altered neurophysiological states is discussed. Prerequisite: Open to Physical Therapy majors only.

Components: LEC.

Grading: GRD.

Typically Offered: Summer.

PTS 642. Electrotherapy. 3 Credit Hours.

This course presents the physiological rationale, indications, contraindications and the application of electrical modalities, including electrical stimulation, thermal modalities, sound modalities, compressive devices, mechanical machinery, and light therapy.

Components: LEC.

Grading: GRD.

Typically Offered: Summer.

PTS 643. Medical Pathology Seminar I. 1 Credit Hour.

Lectures and seminar discussion of pathological conditions with particular emphasis on musculoskeletal disorders. Prerequisite: Open to Physical Therapy majors only.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

PTS 644. Medical Pathology Seminar II. 1 Credit Hour.

Lectures and seminar discussion of pathological conditions with particular emphasis on neuromuscular disorders. Prerequisite: Open to Physical Therapy majors only.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

PTS 645. Medical Pathology Seminar III. 1 Credit Hour.

Lectures and seminar discussion of pathology conditions with particular emphasis on integumentary disorders. Prerequisite: Open to Physical Therapy majors only.

Components: LEC.

Grading: GRD.

Typically Offered: Summer.

PTS 646. Medical Pathology Seminar IV. 1 Credit Hour.

Lectures and seminar discussion of pathological conditions with particular emphasis on cardiorespiratory disorders. Prerequisite: Open to Physical Therapy majors only.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

PTS 650. Pharmacology. 2 Credit Hours.

Basic principles of pharmacology and pharmacotherapeutics. Contemporary drug therapies and their effects on patients undergoing rehabilitation are discussed. Prerequisite: Open to Physical Therapy majors only.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

PTS 670. Clinical Skills in Physical Therapy. 3 Credit Hours.

Decision making, documentation and beginning treatment skills in functional mobility and basic exercise and massage. Indications and contraindications of massage, basic active, active assisted, active resisted range of motion and isometric exercises are learned. Prerequisite: Open to Physical Therapy majors only.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

PTS 671. Therapeutic Physiology. 2 Credit Hours.

Physiological effects of exercise and training for the healthy and diseased individual. The use of exercise for joint and muscle mobility, muscle strength, and cardiopulmonary function is included. Prerequisite: Open to Physical Therapy majors only.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

PTS 672. Clinical Kinesiology and Biomechanics. 3 Credit Hours.

A study of musculoskeletal structure and function, physiological and biomechanical factor, and principles underlying the kinematics and kinetic of normal and abnormal human motion. Prerequisite: Open to Physical Therapy majors only.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

PTS 674. Clinical Evaluation. 3 Credit Hours.

Basic evaluation skills for patients with various diseases and dysfunctions. Skills include clinical decision making, history taking, postural and functional assessment, surface palpation, manual muscle testing, and goniometric measurement. Prerequisite: Open to Physical Therapy majors only.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

PTS 675. Clinical Decision Making I. 3 Credit Hours.

Introduction to physical therapy diagnosis, the disablement model, measurement of function screening, and the Physical Therapy Guide to Practice. Prerequisite: Open to Physical Therapy majors only.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

PTS 695. Selected Topics in Physical Therapy. 1-3 Credit Hours.

Topics in contemporary physical therapy clinical practice with focus on specialty areas such as neonatal pulmonary care, balance/ vestibular dysfunction, geriatrics, pediatrics, obstetrics, and gynecology. Prerequisite: Open to Physical Therapy majors only.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

PTS 706. Neurological Evaluation. 2 Credit Hours.

Comprehensive evaluation of the patient with neurological dysfunction. Emphasis is placed on decision making, differential diagnosis, selection, and interpretation of examination components. Prerequisite: Open to Physical Therapy majors only.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

PTS 708. Human Gait and Locomotion. 2 Credit Hours.

Principles of human gait and locomotion, including normal and pathological gait, analysis of deviations, causes and specific treatments to address movement dysfunctions. Prerequisite: Open to Physical Therapy majors only.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

PTS 710. Clinical Internship I. 2 Credit Hours.

First in a series of supervised clinical education experiences emphasizing the mastery of clinical skills and professional behaviors across patient care settings. This is an 8-week clinical internship.

Components: CLN.

Grading: GRD.

Typically Offered: Fall.

PTS 711. Clinical Internship II. 2 Credit Hours.

Second in a series of supervised clinical education experiences emphasizing the mastery of clinical skills and professional behaviors across patient care settings. This is an 8-week clinical internship.

Components: CLN.

Grading: GRD.

Typically Offered: Fall.

PTS 714. Neurorehabilitation. 3 Credit Hours.

Practice patterns and evidence-based practices in the treatment of individuals with neurological involvement are explored. Emphasis is placed upon the integration and application of theoretical constructs, prognostic indicators, examination and evaluation procedures, and therapeutic intervention strategies utilized by physical therapists in neurological rehabilitation.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

PTS 715. Rehabilitation of the Complex Patient. 3 Credit Hours.

Rehabilitation of the complex patient, including spinal cord injury, traumatic brain injury, multi-system, and multi-organ disease.

Prerequisite: Open to Physical Therapy majors only.

Components: LEC.

Grading: GRD.

Typically Offered: Summer.

PTS 717. Clinical Research II. 3 Credit Hours.

This course is a continuation of Clinical Research I that provides the student with continued guidance in the completion of the faculty led research project begun as part of Clinical Research I. A series of lectures also provide exposure to additional topics relevant to clinical research in Physical Therapy. Potential lecture topics include data analysis, design, error, philosophy of science, and research reporting. Prerequisite: Open to Physical Therapy majors only.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

PTS 718. Physical Therapy Administration. 3 Credit Hours.

Course discusses physical therapy services, departmental policies and procedures, and personnel management. Issues relevant to clinical practice and the physical therapy profession are emphasized. Prerequisite: Open to Physical Therapy majors only.

Components: LEC.

Grading: GRD.

Typically Offered: Summer.

PTS 720. Biomechanical Basis of Human Movement. 3 Credit Hours.

A study of the basic biomechanical principles underlying the kinetics and kinematics of normal and abnormal human motion as well as the measurement of human movement. Prerequisite: Open to Physical Therapy PhD majors only.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

PTS 721. Measurement of Impairment and Function in Human Movement. 3 Credit Hours.

A study of measurement tools utilized in the analysis of normal and abnormal human motion. Prerequisite: Open to Physical Therapy PhD majors only.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

PTS 722. Pathobiology of Human Function I. 3 Credit Hours.

Pathophysiology of musculo-skeletal processes that impair human function including skeletal muscle; skin, tendons, ligaments, cartilage; bone; and cardiorespiratory. Prerequisite: Open to Physical Therapy PhD majors only.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

PTS 724. Cardio-Respiratory Physical Therapy. 3 Credit Hours.

The skills necessary for the evaluation and treatment of patients with various cardio-respiratory diseases and dysfunctions. Inpatient and outpatient cardiac and respiratory rehabilitation is included. Research on prevention of cardio-respiratory diseases and dysfunctions as it relates to evaluative, and therapeutic methods is also discussed. Prerequisite: Open to Physical Therapy majors only.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

PTS 726. Therapeutic Exercise. 3 Credit Hours.

A holistic approach to the evaluation, treatment, and management of patients with various neuromuscular diseases and dysfunctions. Appropriate therapeutic exercises interrelated with modalities and self-help devices as well as individual investigation of respective neuromuscular diseases and dysfunctions are emphasized. Prerequisite: Open to Physical Therapy majors only.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

PTS 727. Prosthetics and Orthotics. 3 Credit Hours.

A holistic approach to the evaluation and management of patients with amputations and spinal cord injuries. Appropriate therapeutic exercises interrelated with self-help appliances as well as individual investigation of respective amputation and spinal cord problems are emphasized. Prerequisite: Open to Physical Therapy majors only.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

PTS 728. Musculoskeletal Examination and Treatment I. 3 Credit Hours.

In-depth examination of differential diagnosis of various extremity dysfunctions with principles of examining soft tissue, bony and post-surgical problems relevant to the shoulder, elbow, wrist/hand, hip, knee, ankle, and foot. Manual therapy/joint mobilizations for each joint will also be introduced. Prerequisite: Open to Physical Therapy majors only.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

PTS 729. Management of the Spine. 3 Credit Hours.

The evaluation and treatment of various spinal dysfunctions. Review and investigation of the literature relevant to the sacro-iliac, lumbar, thoracic, cervical spines, and the head and neck. Clinical evaluation and treatment procedures is included. Prerequisite: Open to Physical Therapy majors only.

Components: LEC.

Grading: GRD.

Typically Offered: Summer.

PTS 730. Pediatric Physical Therapy. 2 Credit Hours.

An overview of factors and issues related to examination and treatment of children by physical therapists. Prerequisite: Open to Physical Therapy majors only.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

PTS 731. Geriatric Physical Therapy. 2 Credit Hours.

An overview of factors and issues related to examination and treatment of older individuals by physical therapists. Prerequisite: Open to Physical Therapy majors only.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

PTS 743. Measuring Health Outcomes. 3 Credit Hours.

An in depth analysis of the use and construction of health outcome measures. Topics covered include creating and selecting items, scaling responses, scale construction, response bias, reliability, validity, responsiveness and methods of administration.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PTS 744. Integrated Sports and Leisure. 3 Credit Hours.

Course promotes the integration of able-bodied students with the physically challenged by working together to learn common recreational activities. Sailing and camping activities are used as an educational tool for able-bodied students to learn the capabilities, physical resources, and assistance required by physically challenged individuals. Prerequisite: Open to Physical Therapy majors only.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

PTS 745. Integumentary Disorders and Treatment. 2 Credit Hours.

Basic and advanced principles regarding the integumentary system and related disorders, as well as principles of wound healing and wound care therapies. Prerequisite: Open to Physical Therapy majors only.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

PTS 748. Musculoskeletal Examination and Treatment II. 3 Credit Hours.

Advanced examination, evaluation, functional assessment and treatment of patients in selected specialty areas of musculoskeletal physical therapy, with emphasis on functional outcomes and evidence based treatment throughout the life span. Prerequisite: Open to Physical Therapy majors only.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

PTS 755. Neuromuscular Basis of Movement. 3 Credit Hours.

Concepts of neuromuscular production and regulation of movement with emphasis on neurophysiologic substrates and mechanisms underlying motor behavior. PREREQUISITE: For Physical Therapy PhD students only.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

PTS 760. Theories of Movement Science. 3 Credit Hours.

An in-depth review of classical theories and recent research in the movement sciences, to include the study and analysis of system theory and neurobiological substrates. PREREQUISITE: For Physical Therapy PhD students only.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

PTS 761. Motor Learning. 3 Credit Hours.

The factors relating to, and affecting, the acquisition and performance of motor skills. Qualification of skill acquisition and performance are explored. PREREQUISITE: For Physical Therapy PhD students only.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

PTS 762. Advanced Topics in Neurodevelopment. 3 Credit Hours.

Classical research and systems models of neurodevelopment is reviewed, analyzed, and related to current research on various areas of human development throughout the lifespan. PREREQUISITE: For Physical Therapy PhD students only.

Components: THI.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PTS 764. Seminars in Neuroscience. 3 Credit Hours.

This course explores the role and organization of the key units of the central and peripheral nervous systems at the molecular and cellular levels. The integrated functional physiology of systems neuroscience and behavioral neuroscience will be studied with special emphasis on neural contributions to involuntary and voluntary motor functions, perception, cognition, and learning. PREREQUISITE: For Physical Therapy PhD students only.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PTS 765. Health Promotion and Disease Prevention. 2 Credit Hours.

The role of physical therapists in health promotion and disease prevention. Prerequisite: Open to Physical Therapy majors only.

Components: LEC.

Grading: GRD.

Typically Offered: Summer.

PTS 766. Rehabilitation of the Amputee. 3 Credit Hours.

This course examines the scientific evidence related to the evaluation, treatment and management of clients who require intervention for diabetic foot and/or dysvascular limb potentially leading to amputation, amputation surgery, prosthetic appliances, functional assessment and amputee rehabilitation. Upper limb prosthetic management will also be examined. PREREQUISITE: For Physical Therapy PhD students only.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PTS 767. Prosthetic Technology and Amputee Rehabilitation. 3 Credit Hours.

This course examines the current scientific evidence related to prosthetic devices with regard to evaluation, fabrication, materials, fitting and functional outcomes. Emphasis is on state-of-the-art technology and the future of prosthetic designs. PREREQUISITE: For Physical Therapy PhD students only.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PTS 768. Rehabilitation Engineering and Assistive Technology. 3 Credit Hours.

This course is designed for graduate students interested in developing an understanding of complementary roles of clinicians and engineers in assisting individuals with disabilities in all areas of life. PREREQUISITE: For Physical Therapy PhD students only.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PTS 769. Seminars in Orthotics and Prosthetic Rehabilitation. 3 Credit Hours.

Examination of current scientific evidence and clinical issues related to upper and lower limb amputees, and prosthetic and orthotic componentry and related technology. Students will discuss case studies and design appropriate devices to address the needs of the individuals in the cases. PREREQUISITE: For Physical Therapy PhD students only.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PTS 770. Education Principles In Physical Therapy. 1 Credit Hour.

Principles of education, direction and supervision pertaining to physical therapy patient care management. Prerequisite: Open to Physical Therapy majors only.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

PTS 771. Complementary Therapies in Rehabilitation. 2 Credit Hours.

Historical development and evidence-based approach to complementary therapies in rehabilitation. Prerequisite: Open to Physical Therapy majors only.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

PTS 774. Educational Administration in Physical Therapy. 3 Credit Hours.

Review of history and current issues in educational administration of physical therapy programs at the entry-level and post-graduate level. PREREQUISITE: For Physical Therapy PhD students only.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

PTS 775. Clinical Decision Making II. 3 Credit Hours.

Integration of basic science and clinical science in developing a patient plan of care, with consideration of ethical, psychological, and economic factors. Prerequisite: Open to Physical Therapy majors only.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

PTS 777. Instructional Methods in Physical Therapy Education. 3 Credit Hours.

Overview of research in the professional education field, with specific applications to physical therapy academic and clinical education. Emphasis is placed on curriculum development, competency-based instructional design, testing, and instructional evaluation methods. PREREQUISITE: For Physical Therapy PhD students only.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

PTS 778. Teaching Practicum. 1-3 Credit Hours.

Supervised instructional design, teaching and evaluation of entry level physical therapy students. Students participate as course instructors in entry-level master's degree physical therapy curriculum. PREREQUISITE: For Physical Therapy PhD students only.

Components: PRA.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

PTS 784. Human Neuroanatomy. 3 Credit Hours.

Detailed exploration of the human nervous system with an emphasis on structure-function relationship and clinical applications. This course is designed for Physical Therapy graduate students with an interest in a professional career in teaching the anatomical sciences to students of the health professions including medical students. Prerequisite: Open to Physical Therapy majors only.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PTS 785. Medical Diagnostic Tests. 2 Credit Hours.

Basic principles of medical diagnostic tests commonly encountered in physical therapy. Prerequisite: Open to Physical Therapy majors only.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

PTS 790. Physical Therapy Diagnosis. 3 Credit Hours.

Study of the integration of didactic knowledge, clinical skills, and intuitive process into the formation of a clinical diagnosis which will direct treatment in physical therapy. Diagnosis as a process is compared to diagnosis in nursing, psychiatry, and medicine, and distinguished from assessment, examination, and screening. PREREQUISITE: For Physical Therapy PhD students only.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

PTS 791. Role Seminar 1: Academic Leadership. 1 Credit Hour.

Introduction to the faculty roles in an institution of higher education, including faculty development and evaluation systems, educational leadership, and student advising.

Components: LEC.

Grading: SUS.

Typically Offered: Offered by Announcement Only.

PTS 792. Role Seminar 2: Research. 1 Credit Hour.

Initiation of a research career and dynamics of research role development within an institution. Focus is on grant writing, funding sources, and proposal development.

Components: LEC.

Grading: SUS.

Typically Offered: Offered by Announcement Only.

PTS 795. Clinical Research Methods I. 3 Credit Hours.

An overview of measurement and sampling issues pertaining to clinical research in Physical Therapy. PREREQUISITE: For Physical Therapy PhD students only.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

PTS 796. Applied Statistics in Physical Therapy. 3 Credit Hours.

Basic Statistics taught from an applied perspective which includes statistical computing using SAS in a mainframe environment and interpretation of SAS output. PREREQUISITE: For Physical Therapy PhD students only.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

PTS 797. Clinical Research Methods II. 3 Credit Hours.

A course focusing on issues in research design and analysis pertaining to clinical research in Physical Therapy. PREREQUISITE: For Physical Therapy PhD students only.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

PTS 798. Research Practicum. 3 Credit Hours.

Practicum designed to familiarize the student with an area of research, to implement a pilot study in an area of interest, and to develop working relationship with a sponsoring faculty member. PREREQUISITE: For Physical Therapy PhD students only.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

PTS 799. Independent Study in Physical Therapy. 1-3 Credit Hours.

Each course is designed to meet the needs of graduate students for in-depth study in a particular area of special interest. Prerequisite: Open to Physical Therapy majors only.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

PTS 802. Special Internship. 1-3 Credit Hours.

Supervised clinical education emphasizing clinical skills. PREREQUISITE: For Physical Therapy Majors Only.

Components: CLN.

Grading: SUS.

Typically Offered: Offered by Announcement Only.

PTS 803. Clinical Internship Iii. 2 Credit Hours.

Third in a series of supervised clinical education experiences emphasizing the mastery of clinical skills and professional behaviors across patient care settings. This is an 8-week clinical internship.

Components: CLN.

Grading: SUS.

Typically Offered: Spring.

PTS 804. Clinical Internship Iv. 2 Credit Hours.

Fourth in a series of supervised clinical education experiences emphasizing the mastery of clinical skills and professional behaviors across patient care settings. This is an 8-week clinical internship.

Components: CLN.

Grading: SUS.

Typically Offered: Spring.

PTS 820. Research in Residence. 1 Credit Hour.

Used to establish research in residence for the thesis for the Master's Degree after the student has enrolled for the permissible cumulative total in PTS 710. Credit not granted. May be regarded as full time residency.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

PTS 830. Pre-candidacy Dissertation.. 1-6 Credit Hours.

To be used for pre-candidacy PhD dissertation research. PREREQUISITE: For Physical Therapy PhD students only.

Components: THI.

Grading: SUS.

Typically Offered: Fall, Spring, & Summer.

PTS 840. Post-candidacy Dissertation.. 1-12 Credit Hours.

The student will enroll for credits as determined by his/her advisor, but not for less than a total of 12. No more than six hours may be taken in a regular semester, nor more than three in a summer session. When a student has passed his/her qualifying exams and is engaged in an assistantship, he/she may still take the maximum allowable credit stated above. PREREQUISITE: For Physical Therapy PhD students only.

Components: THI.

Grading: SUS.

Typically Offered: Fall, Spring, & Summer.

PTS 843. Measuring Health Outcomes. 3 Credit Hours.

An in depth analysis of the use and construction of instruments designed to measure health outcomes. Topics covered include creating and selecting items, scaling responses, scale construction, response bias, reliability, validity, measuring change, and methods of administration.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

PTS 850. Research in Residence. 1 Credit Hour.

To establish residence for the PhD, or DPT, after the student has been enrolled for the permissible cumulative total in appropriate doctoral research or clinical practice. Credit not granted, may be regarded as full-time residence as determined by the Dean of the Graduate School.

Components: THI.

Grading: SUS.

Typically Offered: Fall, Spring, & Summer.

Physics (PHY)

PHY 101. College Physics I. 4 Credit Hours.

Elementary mechanics, thermal phenomena, fluids, waves. Courses 101-102-106-108 provide a ten credit 'physics with lab' sequence for premedical students and others.

Prerequisite: MTH 105 or higher. Corequisite: PHY 106.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

PHY 102. College Physics II. 4 Credit Hours.

Electromagnetism, optics, and modern physics.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

PHY 103. General Physics. 3 Credit Hours.

Mechanics, waves, electromagnetism.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

PHY 106. College Physics Laboratory I. 1 Credit Hour.

Laboratory course to accompany PHY 101.

Corequisite: PHY 101.

Components: LAB.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

PHY 108. College Physics Laboratory II. 1 Credit Hour.

Laboratory course to accompany PHY 102.

Prerequisites: PHY 102 or PHY 202. Or Corequisites: PHY 102 or PHY 202.

Components: LAB.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

PHY 110. Descriptive Astronomy. 3 Credit Hours.

For students not majoring in Mathematics or a Physical Science. brief non-technical treatment of the universe and its contents. Mathematical requirements are minimal with emphasis on our present knowledge about energy and matter in space. Not for major or minor.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

PHY 160. Physics of the Arts. 3 Credit Hours.

Newtonian mechanics, energy, wave motion, atoms, and electricity. Applications to music, art and communications.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

PHY 201. University Physics I. Life Sciences. 4 Credit Hours.

Calculus based introductory physics: mechanics, heat, fluids, waves, with applications from the life sciences.

Prerequisite: MTH 162 or MTH 172.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

PHY 202. University Physics II - Life Sciences.. 4 Credit Hours.

Calculus based introductory physics: electromagnetism, optics, modern physics, with applications from the life sciences.

Prerequisite: PHY 201.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Summer.

PHY 205. University Physics I. 3 Credit Hours.

Mechanics through gravity and harmonic motion, intended for science and engineering students.

Prerequisites: MTH 151, MTH 161, MTH 171 or MTH 141. Or Corequisites: MTH 151 WITH a "B" IN MTH 105 or MTH 108 or Placement into Calculus by MTH Placement Exam. Or Corequisites: MTH 141 OR MTH 161 and Permission Of Physics Advisor.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

PHY 206. University Physics II. 3 Credit Hours.

Fluids, waves, optics, thermal phenomena.

Prerequisite: PHY 205, MTH 162 or MTH 172. Or Corequisite: MTH 162 or MTH 172.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

PHY 207. University Physics III. 3 Credit Hours.

Electromagnetism through Maxwell's equations.

Prerequisite: PHY 205, and MTH 162 or MTH 172.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

PHY 208. University Physics II Lab. 1 Credit Hour.

Laboratory to accompany PHY 206.

Prerequisite: PHY 206. Or Corequisite: PHY 206.

Components: LAB.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

PHY 209. University Physics Iii Lab. 1 Credit Hour.

Lab to accompany PHY 207.

Components: LAB.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

PHY 210. Honors University Physics II-III. 5-6 Credit Hours.

Fluids, waves, optics, thermal phenomena, electromagnetism. Combines PHY 206 and 207.

Prerequisites: PHY 205, MTH 162 or MTH 172. Requisite: Written Permission from the Physics Department.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

PHY 295. Transfer Credits. 1-5 Credit Hours.

Special topics taken at other institutions but having no direct equivalents here.

Components: LEC.

Grading: GRD.

PHY 300. Challenges in Biological Physics. 3 Credit Hours.

The research interface between physics and biology; discussion of current research in biology being done by physicists. New analytical tools and techniques that apply to this interdisciplinary interface and new features of biological systems that can be addressed with them.

Components: LEC.

Grading: GRD.

PHY 306. Intermediate Laboratory. 1 Credit Hour.

Laboratory: a review of some of the fundamental experiments in classical and modern physics.

Prerequisites: PHY 209 or PHY 360. Or Corequisite: PHY 360.

Components: LAB.

Grading: GRD.

Typically Offered: Spring.

PHY 315. Mathematical Tools for Physics. 3 Credit Hours.

How to use mathematics. Series, complex algebra, vector analysis, differential equations, etc.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

PHY 321. Thermodynamics and Kinetic Theory. 3 Credit Hours.

An intermediate course in thermal phenomena, from both macroscopic and microscopic points of view.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

PHY 340. Classical Mechanics I. 3 Credit Hours.

Includes harmonic motion, orbit theory, coupled oscillations, rigid body motions.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

PHY 350. Intermediate Electricity and Magnetism. 3 Credit Hours.

Includes the integral and differential forms of Maxwell's equations, circuit theory, and boundary value problems.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

PHY 351. Intermediate Electricity and Magnetism II. 3 Credit Hours.

A continuation of PHY 350. Includes further application of Maxwell's equations with emphasis on radiation theory.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

PHY 360. Introduction to Modern Physics. 3 Credit Hours.

Emphasis on the experimental foundations of modern physics. Relativity, quantization, atomic structure, radiation, nuclei.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

PHY 362. Modern Physics Honors Seminar. 1 Credit Hour.

Special Topics to accompany PHY 360. Co-requisite: PHY 360.

Corequisite: PHY 360.

Components: SEM.

Grading: GRD.

Typically Offered: Fall & Spring.

PHY 401. Senior Thesis. 3 Credit Hours.**Components:** THI.**Grading:** GRD.**Typically Offered:** Offered by Announcement Only.**PHY 402. Senior Thesis. 3 Credit Hours.****Components:** THI.**Grading:** GRD.**Typically Offered:** Offered by Announcement Only.**PHY 500. Research. 1-3 Credit Hours.**

Project course introducing methods of research, individual investigation of current problems.

Components: THI.**Grading:** GRD.**Typically Offered:** Offered by Announcement Only.**PHY 506. Advanced Laboratory. 1-2 Credit Hours.**

Advanced experiments such as properties of the electron, optical spectra, electrical measurements, radioactive decay, absorption, etc.

Components: LAB.**Grading:** GRD.**Typically Offered:** Spring.**PHY 513. Mathematical Techniques in Physics. 3 Credit Hours.**

Complex variables and applications. Infinite series and their uses, particularly in differential equations. Multiple integrals and Fourier series.

Components: LEC.**Grading:** GRD.**Typically Offered:** Spring.**PHY 516. Readings in Physics. 1-3 Credit Hours.****Components:** LEC.**Grading:** GRD.**Typically Offered:** Fall & Spring.**PHY 517. Readings in Physics. 1-3 Credit Hours.****Components:** LEC.**Grading:** GRD.**Typically Offered:** Spring.**PHY 518. Readings in Physics. 1-3 Credit Hours.****Components:** LEC.**Grading:** GRD.**Typically Offered:** Offered by Announcement Only.**PHY 522. Solid State Physics. 3 Credit Hours.**

Crystal structure, quantum theory of the electronic structure of solids, mechanical, electric, magnetic and optical properties of solids.

Components: LEC.**Grading:** GRD.**Typically Offered:** Offered by Announcement Only.**PHY 530. Plasma Physics I. 3 Credit Hours.**

Kinetic theory of plasmas, adiabatic motion of charged particles magneto fluid dynamics, transport properties of plasmas in electromagnetic fields.

Components: LEC.**Grading:** GRD.**Typically Offered:** Offered by Announcement Only.**PHY 540. Classical Mechanics II. 3 Credit Hours.**

Lagrangian formulation, rigid body dynamics. Topics selected from fluid dynamics, non-linear oscillations, normal modes, phase plane analysis.

Components: LEC.**Grading:** GRD.**Typically Offered:** Fall.**PHY 545. Introduction to Astrophysics. 3 Credit Hours.**

Celestial mechanics, solar models, galaxies, distance scales, instruments.

Components: LEC.**Grading:** GRD.**Typically Offered:** Offered by Announcement Only.**PHY 552. Optical Physics. 3 Credit Hours.**

Geometric optics, interference and diffraction, polarized light, optical pumping, coherence phenomena, applications to modern physical research.

Components: LEC.**Grading:** GRD.**Typically Offered:** Offered by Announcement Only.**PHY 560. Quantum Mechanics and Modern Physics I. 3 Credit Hours.**

Introductory theory with applications to simple systems. Perturbation theory and atomic structure.

Components: LEC.**Grading:** GRD.**Typically Offered:** Fall.**PHY 561. Quantum Mechanics and Modern Physics II. 3 Credit Hours.**

Applications of quantum mechanics to atomic and molecular spectroscopy, quantum statistical mechanics, and nuclear physics.

Components: LEC.**Grading:** GRD.**Typically Offered:** Spring.**PHY 606. Advanced Laboratory. 1-2 Credit Hours.**

Advanced experiments such as properties of the electron, optical spectra, electrical measurements, radioactive decay, absorption, etc.

Components: LAB.**Grading:** GRD.**Typically Offered:** Spring.**PHY 613. Mathematical Techniques in Physics. 3 Credit Hours.**

Complex variables and applications. Infinite series and their uses, particularly in differential equations. Multiple integrals and Fourier series.

Components: LEC.**Grading:** GRD.**Typically Offered:** Spring.**PHY 616. Readings in Physics. 1-3 Credit Hours.****Components:** LEC.**Grading:** GRD.**Typically Offered:** Fall & Spring.**PHY 617. Readings in Physics. 1-3 Credit Hours.****Components:** LEC.**Grading:** GRD.**Typically Offered:** Spring.**PHY 618. Readings in Physics. 1-3 Credit Hours.****Components:** LEC.**Grading:** GRD.**Typically Offered:** Offered by Announcement Only.

PHY 622. Solid State Physics. 3 Credit Hours.

Crystal structure, quantum theory of the electronic structure of solids, mechanical, electric, magnetic and optical properties of solids.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PHY 630. Plasma Physics I. 3 Credit Hours.

Kinetic theory of plasmas, adiabatic motion of charged particles magnetofluid dynamics, transport properties of plasmas in electromagnetic fields.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PHY 640. Classical Mechanics II. 3 Credit Hours.

Lagrangian formulation, rigid body dynamics. Topics selected from fluid dynamics, non-linear oscillations, normal modes, phase plane analysis.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

PHY 645. Introduction to Astrophysics. 3 Credit Hours.

Celestial mechanics, solar models, galaxies, distance scales, instruments.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PHY 652. Optical Physics. 3 Credit Hours.

Geometric optics, interference and diffraction, polarized light, optical pumping, coherence phenomena, applications to modern physical research.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PHY 660. Quantum Mechanics and Modern Physics I. 3 Credit Hours.

Introductory theory with applications to simple systems. Perturbation theory and atomic structure.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

PHY 661. Quantum Mechanics and Modern Physics II. 3 Credit Hours.

Applications of quantum mechanics to atomic and molecular spectroscopy, quantum statistical mechanics, and nuclear physics.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

PHY 701. Condensed Matter Physics Seminar. 1 Credit Hour.

Components: SEM.

Grading: GRD.

Typically Offered: Fall & Spring.

PHY 713. Methods of Mathematical Physics I. 3 Credit Hours.

A continuation of PHY 515.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PHY 717. Special Topics in Physics. 1-3 Credit Hours.

Topics are typically selected from fluid dynamics, applied mathematics, particle theory, nuclear physics.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PHY 718. Special Topics in Physics. 1-3 Credit Hours.

Topics are typically selected from fluid dynamics, applied mathematics, particle theory, nuclear physics.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PHY 722. Advanced Solid State Physics. 3 Credit Hours.

Electronic structure, electron-electron interactions, phonons, many-body problems, transport properties, magnetism, superconductivity.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PHY 723. Statistical Mechanics I. 3 Credit Hours.

Equilibrium state, irreversibility, statistical description of an ensemble, entropy, partition functions.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PHY 724. Statistical Mechanics II. 3 Credit Hours.

Statistical description of many body problems, specific heats, Brownian motion in liquids and fields, non-equilibrium states, super-conductivity.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PHY 752. Electromagnetic Theory 1. 3 Credit Hours.

Electrostatics, magnetostatics, Maxwell's equations, continuous media, waves, antennas, resonant cavities, wave guides.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PHY 753. Electromagnetic Theory II. 3 Credit Hours.

Relativistic effects, interaction of radiation with matter, multiple radiation, radiation reaction.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PHY 766. Elementary Particles. 3 Credit Hours.

The Standard Model of elementary particles. Classical theory of fields for spin 0, 1/2, 1; Feynman rules. The Standard Model Lagrangian is postulated, and some of its basic consequences are explored.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PHY 770. Quantum Theory I. 3 Credit Hours.

Transformation theory, linear operators and vector spaces. Schrodinger's equation, rotation group and angular momentum, statistics (Bose-Einstein and Fermi-Dirac), isotopic spin, multiple structure of levels, approximation methods.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PHY 771. Quantum Theory II. 3 Credit Hours.

One particle relativistic theory; Lorentz group; symmetries of particles; elementary scattering theory; many body problems; Green's function techniques; S-matrix.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PHY 780. Directed Readings or Research. 1-4 Credit Hours.

Components: THI.

Grading: GRD.

Typically Offered: Fall & Spring.

PHY 810. Master's Thesis. 1-6 Credit Hours.

The student working on his/her master's thesis enrolls for credit, in most departments not to exceed six, as determined by his/her advisor. Credit is not awarded until the thesis has been accepted.

Components: LEC.

Grading: SUS.

Typically Offered: Offered by Announcement Only.

PHY 820. Research in Residence. 1 Credit Hour.

Used to establish research in residence for the thesis for the master's degree after the student has enrolled for the permissible cumulative total in PHY 710 (usually six credits). Credit not granted. May be regarded as full time residence.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PHY 825. Continuous Registration--Master's Study. 1 Credit Hour.

To establish residence for non-thesis master's students who are preparing for major examinations. Credit not granted. Regarded as full time residence.

Components: THI.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PHY 830. Pre-Candidacy Doctoral Dissertation. 1-12 Credit Hours.

Required of all candidates for the Ph.D. The student will enroll for credit as determined by his/her advisor, but not for less than a total of 12. Not more than 12 hours of PHY 730 may be taken in a regular semester, nor more than six in a summer session.

Components: THI.

Grading: SUS.

Typically Offered: Fall, Spring, & Summer.

PHY 840. Post-Candidacy Doctoral Dissertation. 1-12 Credit Hours.

Required of all candidates for the Ph.D. who have advanced to candidacy. The student will enroll for credit as determined by his/her advisor, but not for less than a total of 12. Not more than 12 hours of PHY 740 may be taken in a regular semester, nor more than six in a summer session.

Components: THI.

Grading: SUS.

Typically Offered: Fall, Spring, & Summer.

PHY 850. Research in Residence. 1 Credit Hour.

Used to establish research in residence for the Ph.D. and D.A., after the student has been enrolled for the permissible cumulative total in appropriate doctoral research. Credit not granted. May be regarded as full-time residence as determined by the Dean of the Graduate School.

Components: THI.

Grading: SUS.

Typically Offered: Fall & Spring.

Political Science (POL)

POL 100. Introduction To American National Government. 3 Credit Hours.

As one of the most influential intellectuals of the 20th century, John Rawls has become a point of reference in debates in philosophy, international relations, and political science. We will study Rawls' major works, and critiques of those writings.

Components: LEC.

Grading: GRD.

Typically Offered: Summer.

POL 199. UMinDC Introduction to American National Government. 6 Credit Hours.

Introduction to American national government taught in Washington DC as part of the UM in DC program. Includes excursions and guest speakers active in politics.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

POL 200. Introduction to World Politics. 3 Credit Hours.

Evolution of the state system. Comparative analysis of political and economic systems; introduction to major theories of governance. Forces of integration and disintegration; the global political economy; and environmental considerations.

Requisite: Plan of Summer Scholar Program.

Components: LEC.

Grading: GRD.

Typically Offered: Summer.

POL 201. Introduction to American National Government. 3 Credit Hours.

Examination of the principles, structures, and processes of the national government of the United States. Frequent comparisons made with others countries.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

POL 202. Introduction To Comparative Politics. 3 Credit Hours.

This course introduces students to study of comparative and international politics by examining how conflicts over these issues have played out in several different countries around the world.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

POL 203. Introduction to International Relations. 3.00 Credit Hours.

Introduction to the theory and practice of international relations. Analyzes the modern state system; globalization; diplomacy and negotiation, balance of power considerations.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

POL 213. Government and Society. 3 Credit Hours.

Examination of such key issues as the role of business in society, the nature of corporate responsibility, business ethics practices, and the interactive roles of government and business in a global society. Not for major or minor credit.

Prerequisite: POL 201 or POL 199.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

POL 250. Scope and Methods of Political Science. 3 Credit Hours.

The basic skills needed in political science to critically read academic journal articles and books. The application of scientific methods to the study of public life, focusing on research design and introducing students to the various methodologies used by researchers to draw descriptive and causal inference about the political world. Some methods introduced include ethnography, experimentation, the case study, and survey research.

Prerequisite: POL 199 or POL 201 or POL 202 or POL 203 or INS 101.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

POL 300. The Politics of Growth Management. 3 Credit Hours.

An analysis of growth management policies and techniques. Topics include urban environmental issues, development of growth management policies, and growth management planning techniques.

Prerequisite: POL 201 or POL 199.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

POL 301. The Science And Practice Of Political Research. 3 Credit Hours.

Exposes students to the way in which scientific knowledge of political phenomena is currently created and evaluated.

Prerequisite: POL 201 or POL 202 or POL 203.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

POL 302. Political Fiction and Film. 3 Credit Hours.

Politics as presented in films and in relevant texts such as novels and biographies.

Prerequisite: POL 201 or POL 202 or POL 203 or INS 101.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

POL 305. Introduction To Political Theory. 3 Credit Hours.

Politics is organized behavior shaped by power. This brief, stripped-down, and pragmatic definition is what we will use in gaining access to the political philosophers we will study in this course. Students will have a greater understanding of arguments and texts in political philosophy.

Prerequisite: POL 199 or POL 201 or POL 202 or POL 203 or INS 101.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

POL 306. Positive Political Theory. 3 Credit Hours.

Introduction to positive political theory as a study of politics using quantitative methods such as game theory, laboratory experiments, and computer simulation. The political agents involved in a given interaction are modeled as rational players guided by self-interest whose behavior can be formally explained or predicted.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

POL 307. Political Ideologies. 3 Credit Hours.

Covers modern and contemporary political ideologies, such as Liberalism, Conservatism, and Marxism.

Prerequisite: POL 199 or POL 201 or POL 202 or POL 203 or INS 101.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

POL 308. Security, Globalization, and Human Rights.. 3 Credit Hours.

Tracks the roles of power and morality in the political cultures of Great Britain, including the use of force in national security policies, the moral and political framing of global terrorism, the deployment of human rights to address recent global issues (like genocide), and the influence of religion in contemporary British politics.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

POL 309. American Political Thought. 3 Credit Hours.

This class traces the evolution of democratic thinking in America. Topics include the meaning of representation, citizenship, equality and liberty.

Prerequisite: POL 201 or POL 199.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

POL 310. God, Science, and Politics. 3 Credit Hours.

A study of morality and religion that addresses the competing influences of material and spiritual discourses on political regimes and practices.

The talking points for the course include the various proofs and refutations offered throughout history of God's existence, the differences and similarities of scientific and religious approaches to experience, and the ways in which moral and religious principles enlighten politics as they fold into the vocabularies of natural law and right, and contaminate the political with religious violence in the name of God.

Prerequisite: POL 199 or POL 201 or POL 202 or POL 203 or INS 101 or REL 101 or PHI 101.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

POL 311. Conspiracy Theories And The Public. 3 Credit Hours.

Why do people believe in conspiracy theories? This inter-disciplinary course examines a variety of explanations for conspiratorial beliefs.
Prerequisite: POL 201 or POL 199.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

POL 313. The Constitution. 3 Credit Hours.

This course examines the US Constitution from a political and historical prospective. This is a writing intensive course.

Prerequisite: POL 201 or POL 199.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

POL 314. Legislative Processes. 3 Credit Hours.

Examination and analysis of the United States Congress. Emphasis on internal structure and operations, congressional roles and procedures, party leadership, external influences on congress, and incentives for congressional behavior.

Prerequisite: POL 201 or POL 199.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

POL 315. American Presidency. 3 Credit Hours.

Historic development of presidential power; sources of the powers of the modern presidency, institutional decision-making; how and to what degree presidential power should be controlled.

Prerequisite: POL 201 or POL 199.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

POL 320. Politics Of Growth Management. 3 Credit Hours.

The purposes and techniques of managing growth in our urban areas. Conducted as a seminar with lectures by the instructor augmented by class discussion.

Prerequisite: POL 201.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

POL 321. Public Policy And Administration. 3 Credit Hours.

The purpose of this course is to instruct students in the problems and processes in the implementation of public policy at an introductory level.

Prerequisite: POL 201 or POL 199.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

POL 322. Environmental Politics and Policy. 3 Credit Hours.

Examines the federal government's policies toward the National Forests and public grasslands; water supply policies and politics of the Everglade and Far West ; global warming; U.S. air and water pollution policies and politics as well as those related to waste management; U.S. energy policies; and trade and the environment.

Prerequisite: POL 199 or POL 201, and POL 203 or INS 101.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Summer.

POL 323. Global Warming, Politics and the European Union. 6 Credit Hours.

The European Union (EU), and especially France to ecologically modernize their advanced economies. The course will treat the EU effort to fashion an international agreement on climate change. This class in conducted in Paris, France.

Components: LEC.

Grading: GRD.

Typically Offered: Summer.

POL 332. Mass Media and Politics. 3 Credit Hours.

Role of media in American politics. Historical development of the media from newspapers, through radio, to television and new media such as the internet. Changing norms of news media reportage. The growth of political advertising both during and between elections; the effects of these developments on American government and on the public.

Prerequisite: POL 201 or POL 199.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

POL 334. Campaigns. 3 Credit Hours.

Students learn about political campaigns by becoming involved in an active campaign and studying the academic literature about elections and campaigns. Topics are media, campaign organization, voters, issues, political parties, elections, and the five elements of every campaign.

Prerequisite: POL 201 or POL 199.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

POL 335. Local Government. 3 Credit Hours.

Examination of city and county governments and politics. Focuses on structures, leadership, taxing and spending, the influence of state and federal governments, and "hot-button" issues of importance to South Florida communities.

Prerequisite: POL 201 or POL 199.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

POL 337. International Law and Organizations. 3 Credit Hours.

This course focuses on the interaction of states through various legal regimes. We will consider the role of international law and organizations in politics, and the political implications of both criminal and civil international law from the perspective of the state, the individual, and non-governmental actors. Readings, lectures, class discussions, and examinations will familiarize the students with the parameters and limitations as well as the policy and practice of international law.

Prerequisite: POL 203 or INS 101.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

POL 341. Nationalism, Ethnicity, and Political Conflict. 3 Credit Hours.

Examines theories of ethnic and national conflict focusing on contemporary issues throughout the world.

Prerequisite: POL 203 or INS 101.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

POL 342. State and Local Government and Politics. 3 Credit Hours.

State constitutions, political parties, legislatures, executives court systems, administrative systems and services, financial problems, city and county governments, local-state, federal-state and interstate relations. Special emphasis on governments in Florida.

Prerequisite: POL 201 or POL 199.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

POL 343. Government In Metropolitan Areas. 3 Credit Hours.

This course will introduce the student to the organization and functions of counties and municipalities in the United States. On occasion guest speakers will be featured. We will examine Miami-Dade County as a concrete example of the course content.

Prerequisite: POL 201 or POL 199.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

POL 344. Gender and Politics. 3 Credit Hours.

Compares the roles played by men and women in political systems worldwide; examines public policy outcomes with significant gender-based effects, including policies on sexuality & reproductive health, gender-based violence, work & the family, and access to education.

Prerequisite: POL 202.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

POL 345. The United States and Asia. 3 Credit Hours.

Political, economic, and security aspects of America's relations with the Asian-Pacific area. Trade and alliance relationships. Actions and interactions of Asian states, their alignments with each other; the impact of these alignments on their relationships with the United States and in the global balance of power.

Prerequisite: POL 203 or INS 101.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

POL 346. U.S.-Latin American Relations. 3 Credit Hours.

Systematic survey of U.S.-Latin American relations highlighting contending paradigms in the study of hemispheric relations. Examines issues in East-West and North-South relations and political economy of Brazil, Mexico, and Argentina. Considers alternative U.S. foreign policies.

Prerequisite: POL 202 or POL 203, and INS 101.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

POL 347. American Foreign Policy. 3 Credit Hours.

This course investigates how American primacy came to be, what its consequences are, and what will drive American foreign policy in the future. Students use social science to evaluate claims and understand the world, improve their ability to advance and defend arguments, and develop a broad base of knowledge about American foreign policy history and issues.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

POL 348. United States Relations with the Middle East. 3 Credit Hours.

Evolution of American relations with the Middle East. Analysis of the motivations and calculations, including domestic and external sources of policy-making and implementation. Emphasis on post-World War II period, with particular attention to the current administration.

Prerequisite: POL 199 or POL 201, and POL 203 or INS 101.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

POL 349. U. S. Defense Policy. 3 Credit Hours.

Examination of key problems of national security in the post-Cold War environment. Emphasis on the structure and functioning of the US defense establishment and its interactions with its most probable adversaries and allies. Consideration of the constraints on, and options open to, policy planners, and with the institutional elements of the decision making process.

Prerequisite: POL 199 or POL 201, and POL 203 or INS 101.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

POL 351. Public Opinion. 3 Credit Hours.

Political functions of public opinion; opinion dynamics in the U.S.A.; quantitative analysis of elements in opinion change; principles of political control via mass media in the U.S.A.

Prerequisite: POL 201 or POL 199.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

POL 352. Political Parties. 3 Credit Hours.

Analysis of political organizations and electoral processes in the United States: their history, current status, and present trends. Consideration of the organization, control, and finances of political parties and pressure groups, their characteristic practices, and their relationship to political democracy.

Prerequisite: POL 201 or POL 199.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

POL 353. Interest Groups and Lobbying. 3 Credit Hours.

Analysis of lobbying and political interest groups in the United States; history, current status, and present trends. The organizations, control, and finances of pressure groups, their characteristic practices, and their relationship to democracy. Also, lobbying by citizens and groups more broadly, including the role of campaign contributions.

Prerequisite: POL 201 or POL 199.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

POL 354. The CIA and the World of Intelligence. 3 Credit Hours.

What the CIA does, how it does it, and the ways in which the CIA works with other intelligence agencies. Topics explored include: notable intelligence successes and failures, key intelligence issues, and ethical debates about intelligence activities including covert action.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

POL 360. Congressional Representation. 3 Credit Hours.

Examination of how and when citizens influence legislators' behavior. How legislators' floor behavior reflects citizens' preferences and how these preferences influence the formation of electoral coalitions.

Prerequisite: POL 201 or POL 199.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

POL 367. The Historical Roots of American Imperialism. 3 Credit Hours.

Examines the assertive and exploitative aspects of U.S. foreign policy.

Prerequisite: POL 203 or INS 101.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

POL 370. Global Energy Politics. 3 Credit Hours.

Energy use throughout history has shaped humanity's politics and economics; the politics of the depletion of fossil fuels; global warming; "green" alternative energies: solar; wind; waves; civilian nuclear power.

Prerequisite: POL 201 or POL 203.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

POL 372. Introduction to Criminal Justice. 3 Credit Hours.

Selected topics in criminal law with an emphasis on constitutional criminal procedure and post 9/11 developments in federal criminal law: constitutional principles covering investigation and arrest, racial profiling, warrant-less searches, controversial interrogation techniques, rights of "enemy combatants" and the imposition of capital punishment.

Prerequisite: POL 201 or POL 199.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

POL 373. Constitutional Law I. 3 Credit Hours.

A study of the development of the principles of American Constitutional Law, with a course focus upon those constitutional principles developed from the original document. Areas of study include judicial review, separation of powers, the Commerce Clause, the Contract Clause, and the Due Process Clauses.

Prerequisite: POL 201 or POL 199.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

POL 374. Constitutional Law II. 3 Credit Hours.

This course will cover some of the 27 amendments to the U.S. Constitution. It will mainly focus on the constitutional limits placed on the national and state governments by the Bill of Rights and the Fourteenth Amendment. This study of the historical, political and legal development of constitutional law in the area of civil liberties will be done in large part by reading and discussing the major U.S. Supreme Court opinions related to these amendments and others.

Prerequisite: POL 201 or POL 199.

Components: LEC.

Grading: GRD.

POL 380. Comparative Political Analysis. 3 Credit Hours.

An introduction to the techniques of comparative political analysis by applying major social scientific arguments to the question: Why do some countries develop stable democracies and others do not? Students will pursue their own research projects seeking to answer this question in the context of a country or countries of their choice.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

POL 381. West European Politics (Previous Title: European Politics and Government). 3 Credit Hours.

Examination of political and economic developments in western European countries.

Prerequisite: POL 202.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

POL 382. Government and Politics of the Federal Republic of Germany. 3 Credit Hours.

An examination of Germany's political system, its political parties, and the country's economic, social and foreign policies.

Prerequisite: POL 202.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

POL 384. Postcommunist Russian Politics. 3 Credit Hours.

Examines the demise of the USSR and the tumultuous post-communist transition in Russia from Gorbachev to Putin and Medvedev. The foundations of state power, the political party system, civil society, petro-state capitalism, endemic corruption, current politics, and Russian nationalism are examined through the lens of western and Russian political science theories.

Prerequisite: POL 202.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

POL 385. Politics and Society in Latin America. 3 Credit Hours.

Introduction to the politics of Latin American countries focusing on 20th century history, the impact of the Cold War and home-grown social struggles, economic development models, the difficulties of democratic consolidation, U.S.- Latin America relations, the emergence of new political actors such as women's and indigenous movements, and current political constellations. The course combines a study of thematic issues with case studies.

Prerequisite: POL 202.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

POL 386. Democratic Consolidation. 3 Credit Hours.

Explore the general concept of "democratic consolidation" which has become a timely topic in the discourse of today's foreign policy. We will examine the central theoretical concepts that frame the discourse and then examine several case studies.

Prerequisite: POL 202.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

POL 387. Politics of the Middle East. 3 Credit Hours.

Comparative analysis of the political development of the Middle East in terms of nations and as a region. Particular stress is on the relationships within the region and with other regions of the world.

Prerequisite: POL 202.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

POL 388. Politics Of Israel. 3 Credit Hours.

It is the purpose of this course to examine the Israeli system. Three themes will structure this investigation. The first considers the complex, and evolving, identity questions and politics that attend Jewishness, Zionism and being Israeli. The second investigates legitimacy, the nature and dynamics of the Israeli political system. And the third engages the multidimensional nature of Israeli security.

Prerequisite: POL 202.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

POL 389. Special Topics in Comparative Politics. 3 Credit Hours.

A lecture course in Comparative Politics, designed to give the student a greater degree of knowledge of a particular subject within this subfield. This topic may be repeated for credit.

Prerequisite: POL 202.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

POL 390. Special Topics in American Politics. 3 Credit Hours.

A lecture course in American Politics, designed to give the student a greater degree of knowledge of a particular subject within this subfield. This topic may be repeated for credit.

Prerequisite: POL 201.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

POL 391. Special Topics in International Relations. 3 Credit Hours.

A lecture course in International Relations, designed to give the student a greater degree of knowledge of a particular subject within this subfield. This topic may be repeated for credit.

Prerequisite: POL 203 or INS 101.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

POL 392. International Terrorism. 3 Credit Hours.

Study of phenomenon of low-intensity warfare known as international terrorism in all its variations: state, state-sponsored, state-supported, domestic revolutionary terrorism and counter-terrorism. Also examines governmental policies of countering terrorism.

Prerequisite: POL 202 or POL 203, and INS 101.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

POL 393. Special Topics in Public Administration, Policy, and Law. 3 Credit Hours.

A lecture course in Public Administration, Policy, and Law, designed to give the student a greater degree of knowledge of a particular subject within this subfield. This topic may be repeated for credit.

Prerequisite: POL 201.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

POL 394. Special Topics in Political Theory and Methods. 3 Credit Hours.

A lecture course in Political Theory and Methods, designed to give the student a greater degree of knowledge of a particular subject within this subfield. This topic may be repeated for credit.

Prerequisite: POL 201 or POL 202 or POL 203 or INS 101.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

POL 395. Transfer Credit In Political Theory And Methods. 1-9 Credit Hours.

Course for which there is no direct UM equivalent.

Components: LEC.

Grading: GRD.

POL 396. TRANSFER CREDIT IN PUBLIC ADMINISTRATION, POLICY, AND LAW. 1-9 Credit Hours.

Interdisciplinary workshops will treat different policy issues with a view toward developing a theory of deliberate social change. The scenario will include the stance and role of the change agent and the institutional forms involved in changing urban settings.

Components: LEC.

Grading: GRD.

POL 397. Transfer Credits In International Relations. 1-9 Credit Hours.

Course for which there is no direct UM equivalent.

Components: LEC.

Grading: GRD.

POL 398. Transfer Credit In Comparative Politics. 1-9 Credit Hours.

Course for which there is no direct UM equivalent.

Components: LEC.

Grading: GRD.

POL 399. Transfer Credit In American Politics. 1-9 Credit Hours.

Course for which there is no direct UM equivalent

Components: LEC.

Grading: GRD.

POL 400. The 2012 Election. 3 Credit Hours.

An interdisciplinary approach to the 2012 elections. Topics include voter turnout, campaign strategy, racial politics, and voting laws.

Components: LEC.

Grading: GRD.

POL 401. The Election. 3 Credit Hours.

In a democracy, the actions of the government are based on the wishes of the citizenry. We will examine the vital role that elections play in in this process, specifically focusing on the issues and events surrounding the on-going elections.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

POL 491. Immigration Reform And The 2014 Election. 3 Credit Hours.

This is a unique experience that will include high-profile guest speakers. The course encourages active student participation through social media. We will examine the debate on immigration including both documented and undocumented workers. The course examines the impact of recent waves of immigration on U.S. society, market, workforce, education, media, culture, healthcare, and law enforcement.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

POL 499. Special Topics. 1-3 Credit Hours.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

POL 501. Budget and Financial Management and Administration. 3 Credit Hours.

Role of the budget in shaping public policy; managing public revenues; budgetary theory, politics, and fiscal management. Examples from state, municipal and federal governments.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

POL 506. From Plato Through Rawls. 3 Credit Hours.

Political thought of the past with more recent insights and concepts, often drawn from the work of theorists who question what is taken for granted in traditional political theory.

Prerequisite: POL 201 or POL 202 or POL 203 or INS 101.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

POL 507. Politics, Sociology, & Economy in Contemporary Brazil. 3 Credit Hours.

Examines the social, economic, and cultural transformations shaping contemporary Brazilian politics.

Prerequisite: POL 202.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

POL 510. Political Analysis. 3 Credit Hours.

This course focuses on the use of statistics to conduct quantitative research (i.e., statistics) in political science and public administration. The course emphasizes hands-on data work. Students will learn how to perform political analyses – and present findings in an appropriate manner – using SPSS statistical software.

Components: SEM.

Grading: GRD.

Typically Offered: Fall.

POL 512. Advanced Political Analysis. 3 Credit Hours.

This course teaches students how to do social science research using the applied techniques of statistics and case study analysis while exposing them to research in the leading sub-fields of political science. Students will produce an original paper that evaluates an academic question using empirical social science evidence.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

POL 513. Models of Politics. 3 Credit Hours.

Hands-on examination of the process by which quantitative and qualitative models are constructed in political science. The course focuses on the creative aspect of model building and diverse forms of theory construction.

Components: SEM.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

POL 514. Art and Politics. 3 Credit Hours.

Explores the issues of, political legitimacy, international relations, and concepts of justice by examine the interrelatedness of works of art and politics.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

POL 515. Media Content Analysis. 3 Credit Hours.

There are few facets of our lives which are not directly affected by media content. From cell phones to televisions, the media is with us all the time. But what messages are contained in the mass media? What methods can we employ to study media content scientifically? This course will explore methods of analyzing media sources including movies, newspapers, magazines, and television. Course topics will include political bias, campaign coverage, and news content. Students will design their own projects and implement their own coding strategies.

Components: SEM.

Grading: GRD.

Typically Offered: Fall.

POL 516. Experiments in Political Science. 3 Credit Hours.

Examines the experimental method in the study of politics.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

POL 517. Introductory Statistical Methods In Political Science. 3 Credit Hours.

The tools needed to manipulate and analyze quantitative data rigorously so you may answer questions of political interest. First in a two-course sequence (followed by POL 518).

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

POL 518. Advanced Statistical Methods In Political Science. 3 Credit Hours.

The maximum likelihood framework for statistical inference in the study of politics. Second in a two-course sequence (preceded by POL 517).

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

POL 519. Introduction To Game Theory For Political Science. 3 Credit Hours.

The rudiments of non-cooperative game theory. Mainly intended for political science students, but presents applications from other academic disciplines such as economics, business administration, sociology, and psychology.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

POL 520. Internship. 3 Credit Hours.

Provides advanced political science majors with an opportunity to participate in a structured, supervised internship. 25-35 page research paper required.

Requisite: Plan of Political Science.

Components: THI.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

POL 521. Public Affairs Internship. 3 Credit Hours.

Opportunity for the advanced student specializing in public administration to participate in an administrative capacity in an agency of state or local government. Periodic conferences with adviser and paper required.

Requisite: Plan of Political Science.

Components: THI.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

POL 522. Introduction to Graduate Public Administration. 3 Credit Hours.

Introduction to concepts, issues, problems, theories and process in the field of public administration and/or public management.

Components: SEM.

Grading: GRD.

Typically Offered: Fall & Spring.

POL 523. Problems in Public and Non-Profit Management. 3 Credit Hours.

Nature of the power vested in administrative bodies and problems involved in management procedures. Special emphasis on local or non-profit administration.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

POL 524. Non-Profit Organizations: Law, Policy, and Management. 3 Credit Hours.

This course teaches students the essential requirements for creation and operation of tax-exempt nonprofit organization in accordance with state and federal law. The course covers a wide range of relevant topics including guidelines for charitable giving and charitable solicitation, pitfalls that can result in personal liability for officers and directors, and statutory constraints on legislative lobbying and political activities.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

POL 525. Comparative Public Policy and Administration. 3 Credit Hours.

Comparison and analysis of the organizational and managerial policy problems of developed and developing nations. The administrative process will be considered within the institutional and cultural framework of each nation. Case studies will be used to focus on transition from traditional to modern techniques of public management.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

POL 526. Administrative Law. 3 Credit Hours.

Administrative law is the study of the legal relationship of government agencies to legislatures, courts, and private parties. The course examines the legal dimensions of bureaucratic power and procedures as well as constitutional and statutory constraints on regulators and administrators. Topics include rule making, adjudication, investigation and enforcement, political controls on agencies, judicial review of agency decisions, governmental liability and immunity, public records and open meetings laws. Both federal law and Florida law are covered. The course assumes a basic knowledge of the American legal system, constitutional law and bureaucracy.

Prerequisite: POL 201 or POL 199.

Components: SEM.

Grading: GRD.

Typically Offered: Fall.

POL 527. Comparative Political Institutions. 3 Credit Hours.

The concept of institutionalism by studying three major sets of democratic institutions: electoral systems, legislatures, and political regimes.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

POL 528. Advanced Seminar on Electoral Behavior. 3 Credit Hours.

This seminar examines the opinions that Americans have and how those opinions are expressed through participation in elections. At the end of the semester we will also examine other forms of political participation (e.g., interest groups).

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

POL 529. Conducting U.S. Elections. 3 Credit Hours.

Fair and free democratic elections are the heart of US democracy. This course will examine who gets to vote, whether election laws and rules are fair (and fairly implemented), and proposals to reform the way elections are run.

Prerequisite: POL 201 or POL 199.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

POL 530. Intelligence and National Security Decision Making. 3 Credit Hours.

This course will study the US national security community structure and decision making process. The course will look at the National Security Council, the principal national security agencies (such as the CIA, Defense Department, and State Department), how they interact, and their roles in dividing and executing policy. We will also examine the role and function of senior policy decision makers such as the President. We will study recent policy challenges such as Iraq and Afghanistan as examples of National Security policy.

Prerequisite: POL 199 or POL 201, and POL 203 or INS 101.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

POL 531. Global Environmental Politics. 3 Credit Hours.

Examination of the environment within the context of economic globalization. Contrasts the international trading regime and those regimes designed to protect the environment, with specific attention to the issues of global warming and bio-diversity.

Prerequisite: POL 203 or INS 101.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

POL 533. Courts and Controversy. 3 Credit Hours.

Course places the students in the role of advocate, justice, or court observer for the purposes of arguing and deciding current or recent Supreme Court cases.

Components: SEM.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

POL 535. Comparative Legal Systems. 3 Credit Hours.

Considers the institutional and political roles of Courts from a comparative perspective. With a focus on judicial independence and judicial review, will consider the juridical systems of a variety of countries and regions including the US, the EU, Germany, France, Great Britain, Chile, Argentina, Russia, The Asian-Pacific Rim, South Africa, Israel, Central America and the Middle East.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

POL 536. U.S. Health Care Crisis: Politics and Policies. 3 Credit Hours.

This seminar will explore the politics and policies of healthcare in the United States. Our examination of the current crisis in cost and coverage will draw on experience from the debates on comprehensive and incremental reform over the past decade. In addition, we will explore the politics and policies of other health and science issues. Students will be expected to attend every class and be actively involved in class discussions. There will be two examinations, one at mid-term and a final based on readings and course discussions.

Requisite: Junior Status, No IP Credit.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

POL 541. Philosophy of Law. 3 Credit Hours.

Case-based study of jurisprudence designed to illuminate and explain philosophies of law. Examination of theories of free expression; bio-ethical matters; theories of punishment and legal responsibility; and the placement of religious discourses in liberal systems of law. Special attention to cases involving fundamental rights and liberties; the role of the individual and the state in civil society; and the capacities of individual to be legally competent in contemporary systems of law.

Prerequisite: POL 199 or POL 201 or POL 202 or POL 203 or INS 101.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

POL 543. Urban Politics. 3 Credit Hours.

Examination of sources of political power in urban areas and how they influence the policies pursued in those areas. Analysis of the role of economic power, protest actions, neighborhood groups, and voting to evaluate whether there is a bias in urban politics that systematically favors some groups over other and, if so, how likely it is that the bias can be overcome.

Prerequisite: POL 201 or POL 199.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

POL 544. Chinese Foreign Policy. 3 Credit Hours.

International relations of the People's Republic of China, in theory and in practice. Structure and context of foreign policy decision-making; domestic influences on the foreign policy making process. China as a global and regional actor.

Prerequisite: POL 203 or INS 101.

Components: SEM.

Grading: GRD.

Typically Offered: Fall.

POL 545. Environmental Policy Making. 3 Credit Hours.

Examination of different ethical approaches to the environment; the federal government's management of natural resources; selected environmental policies; international environmental policy issues. Topics include federal management of national grazing lands, national forests, and minerals in the public domain. Analyzes environmental policies such as air, water, toxic wastes, energy, and environmentally-related issues in international trade and national security.

Prerequisite: POL 199 or POL 201, and POL 203 or INS 101.

Components: SEM.

Grading: GRD.

Typically Offered: Spring.

POL 547. Congressional Representation. 3 Credit Hours.

This course examines how and when citizens influence legislators' behavior. More specifically, we examine how legislators' floor behavior reflects citizens' preferences and how these preferences influence the manner in which legislators build electoral coalitions.

Prerequisite: POL 199 or POL 201 or POL 202 or POL 203 or INS 101.

Components: LEC.

Grading: GRD.

POL 548. Civic Participation and Democracy. 3 Credit Hours.

Citizens participate in the governing process by communicating their preferences and pressuring the government to respond. In this course we examine these various mechanisms of "civic participation", and discuss the meaning and consequences of participatory democracy. The course focuses on the contemporary United States, but we will devote some time to discuss civic participation in other countries as well.

Prerequisite: POL 201 or POL 199.

Components: SEM.

Grading: GRD.

Typically Offered: Fall.

POL 550. Advanced Seminar on American Politics. 3 Credit Hours.

This seminar provides students with a survey of significant research on major topics in American Politics. We will read influential works of the past, as well as recent cutting-edge research. Particular attention will be paid to discussing the methods and theories used in the research we will read. The purpose of the course is to acquaint students with the literature on American Politics, while also providing an opportunity for students to develop skills in critically assessing and skillfully conducting social science research.

Prerequisite: POL 201 or POL 199.

Components: SEM.

Grading: GRD.

Typically Offered: Fall.

POL 551. Productivity in the Public and Non-Profit Sectors. 3 Credit Hours.

Definitions and measures of productivity. Evaluation of government programs, and methods of productivity improvement.

Components: LEC.

Grading: GRD.

Typically Offered: Summer.

POL 553. The Environmental Movement: Groups, Beliefs and Values. 3 Credit Hours.

Exploration of the origins and political impact of environmentalism in the United States and, to a lesser extent, in the global context. Impact of democratic participation on environmental politics.

Prerequisite: POL 201 or POL 199.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

POL 555. Total Quality Public Service Management: Achieving High Performance Government. 3 Credit Hours.

Examination of the theory and practice of Total Quality Management (TQM) in the government and non-profit sector. Focuses on budgetary, customer service, employee and process improvements that facilitate increased public and non-profit performance. Special emphasis to TQM's contribution to improved service delivery.

Prerequisite: POL 201 or POL 199.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

POL 556. Politics and Ethics. 3 Credit Hours.

Personal, professional, organizational, and societal levels of ethical analysis. Ethical theories will be reviewed and applied to actual cases that focus on public policy and/or the officials who create and implement it. Profiles of moral exemplars in public life will be examined.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

POL 557. Ethical and Managerial Issues in Government, Business and Non-Profit Organization.. 3 Credit Hours.

Governments at all levels in this country-national (Larry Craig, David Vitter, Mark Foley, Bill Clinton, Randy Cunnigham, Tom DeLay, William Jefferson, James Traficant, Robert Torricelli, Jack Abramoff), state (former Illinois, Louisiana, New York, Ohio and Arizona governors), and local (Miami, Providence city officials; Miami-Dade, Broward, and Palm Beach counties) have encountered scandals involving ethical wrongdoing. Business (Enron, Worldcom) and nonprofit organizations (Boy Scouts, United Way) have faced similar problems. Countless less visible examples of unethical and ethical behavior occur in organizations daily. This course examines the causes and consequences of such actions and the managerial strategies and competencies needed to effectively cope with the ethical issues confronting individuals and organizations.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

POL 558. From Electronic Government To Digital Governance. 3 Credit Hours.

Graduate and advanced undergraduate seminar explores the transition from electronic government (e-gov) to digital or d-governance, emphasizing political participation, citizen-centric public administration and the proliferation of global information technologies and social media.

Prerequisite: POL 201 or POL 199.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

POL 563. Senior Thesis. 3 Credit Hours.

General reading, preparation of research design and collection of information for senior thesis.

Requisite: Plan of Political Science.

Components: THI.

Grading: GRD.

Typically Offered: Fall.

POL 564. Senior Thesis II. 3 Credit Hours.

Continuation of POL 563: writing and defense of the theses.

Requisite: Plan of Political Science.

Components: THI.

Grading: GRD.

Typically Offered: Spring.

POL 565. The World Before European Domination. 3 Credit Hours.

Examines the historical roots of the contemporary international system, and questions the standard Eurocentric perspective on the rise of the West to a dominant position in the global system.

Prerequisite: POL 203 or INS 101.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

POL 569. Lgbti Politics. 3 Credit Hours.

Describes and explains global variance in government policies of interest to lesbian, gay, bisexual, transgender and intersex citizens including sodomy laws, anti-discrimination ordinances, same-sex marriage and adoption, military service, and the right to change one's sex or identify as neither male nor female. POL 344 or WGS 344 Strongly Recommended

Components: LEC.

Grading: GRD.

POL 570. Uniting States in International Perspective. 3 Credit Hours.

How states form and fragment; The main actors in nation formation; the elements of continuity and change; the impact outsiders can have on the process.

Prerequisite: POL 199 or POL 201, and POL 203 or INS 101.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

POL 571. Sex, Babies, and the State. 3 Credit Hours.

In one of the most profound revolutions of the past century, gender roles have irreversibly changed and equal rights for women and men has become a stated goal in western societies, even if not the reality. This course examines policies on reproduction, work and the family in advanced industrialized countries including Latin American Countries.

Prerequisite: POL 202.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

POL 575. The Politics of Civil- Military Relations. 3 Credit Hours.

Course examines the relationship between states and their soldiers across various historical periods and regional contexts, and how this relationship has been altered in an era where the viability of old structures of state authority are no longer self-evident.

Prerequisite: POL 203 or INS 101.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

POL 576. On Violence: The Politics of Extremes. 3 Credit Hours.

Literary and theoretical treatments are considered for what they can tell us about the causes, characteristics and consequences of violence. These insights are enlisted to help us understand violence enacted by states against their societies, societies against states, and within society itself.

Prerequisite: POL 203 or INS 101.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

POL 577. Security in South Asia: The Conflicts of Afghanistan, Pakistan and India. 3 Credit Hours.

The security system of South Asia's northern reaches and the current conflict involving Afghanistan, Pakistan, and India: considerations of sovereignty and the role of frontiers in world politics.

Prerequisite: POL 203 or INS 101.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

POL 578. ENERGY & SECURITY IN EURASIA. 3 Credit Hours.

Engages the intersection of energy and security within the contested space of Eurasia.

Prerequisite: POL 202 or POL 203, and INS 101.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

POL 579. The politics of post-communist transactions. 3 Credit Hours.

Examination of the creation, breakdown, and aftermath of communist governments in Eastern Europe and the USSR. Develops a theoretical framework for understanding cross-national patterns of post-communist development in the context of country-specific experiences.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

POL 580. Ethnicity, Nationalism and Secession. 3 Credit Hours.

Examination of the creation, breakdown, and aftermath of communist governments in Eastern Europe and the Soviet Union. Using empirical evidence from four case studies, develops a theoretical framework for understanding cross-national patterns of post-communist development in the context of country-specific experiences.

Prerequisite: POL 202 or POL 203, and INS 101.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

POL 581. Comparative Political Economy of Post-Industrial Democracies. 3 Credit Hours.

This seminar examines four key turning points in the development of capitalism: the industrial revolution, the aftermath of the depression and world wars, the oil crisis of the 1970's, and today's "globalization". We will compare the relationships between government and the economy in Western Europe, Canada, the U.S., Australia, New Zealand, and Japan in each period, and attempt to evaluate why these countries react similarly or differently to identical changes in world economy.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

POL 582. Political Economy of Development. 3 Credit Hours.

Overview of the principal theoretical paradigms of the development process Comparative analysis of issues such as the role of the state, strategies of industrialization, changes in social structure, basic needs and the trade-offs between growth and equity.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

POL 584. Contemporary Latin American Politics. 3 Credit Hours.

This course assumes a basic knowledge of Latin American politics, and is designed to foster deeper understanding of political processes in the region and to provide an overview of key debates among political scientists specializing in Latin America. We discuss issues related to democratic consolidation, political participation, representation and governance.

Components: SEM.

Grading: GRD.

Typically Offered: Fall & Spring.

POL 585. Post-Communist Russian Foreign Policy. 3 Credit Hours.

Exploration of the various forms of political movements in Latin America, including parties, populists and radical groups. Examines diverse means of organizing and mobilizing support, the range of goals sought, and the conditions that give rise to the various movements. Special attention to the contemporary revival of populism in the region and its implications for democracy. Prerequisite: POL 211 and 212 or graduate standing.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

POL 586. Conflict in the Middle East and Africa. 3 Credit Hours.

Introduction to major paradigms for the explanation of war and conflict in two of the most unstable regions of the world. Reading and class discussions on select cases of current and past conflicts in each region in order to discern patterns of conflict within and across regions, gain a clearer understanding of what drives violent conflict, and assess strategies of resolution.

Prerequisite: POL 202 or POL 203, and INS 101.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

POL 588. Politics in China. 3 Credit Hours.

Development and nature of Chinese domestic politics in theory and practice; problems of political stability and conflict; the role of historical and cultural traditions, institutions, social, economic and personality factors in Chinese politics; process of change and problems of leadership succession; the significance of changes in the character and style of Chinese leadership.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

POL 590. Directed Reading. 1-3 Credit Hours.

Provides an opportunity for students to organize an independent study with a particular tenure-line faculty member. A student may only sign up if s/he has found a professor who has agreed to work with him/her. This course does not count for credit in a 500-level seminar.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

POL 591. International Security. 3 Credit Hours.

Analysis and evaluation of approaches to international conflict, resolution, reduction and stabilization such as international organization, law, collective security, balance of power, functionalism, world government, morality, and conscience. Special emphasis on recent problems and efforts at institutionalizing social control.

Prerequisite: POL 203 or INS 101.

Components: SEM.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

POL 592. International Political Economy. 3 Credit Hours.

This course introduces students to the study of International Political Economy (IPE). It combines a focus on the main theoretical and methodological approaches used in the study of IPE with the analysis of historical and contemporary issues.

Prerequisite: POL 203 or INS 101.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

POL 593. International Relations of the Middle East. 3 Credit Hours.

Regional and inter-regional analysis of the foreign relations of Middle Eastern nations, domestic and geopolitical factors.

Prerequisite: POL 203 or INS 101, and POL 387.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

POL 594. European Security. 3 Credit Hours.

Examines regional security in Europe, focusing on NATO expansion, EU expansion, Russian foreign policy, and related issues.

Prerequisite: POL 203 or INS 101.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

POL 595. Special Topics In Political Theory And Methods. 1-3 Credit Hours.

A seminar in Political Theory and Methods; designed to give the student a greater degree of insight and knowledge of a particular subject and to develop ability in the techniques of individual research, group discussion and analysis. The senior seminars may be taken in any sequence.

Components: SEM.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

POL 596. Special Topics In Public Administration, Policy And Law. 1-3 Credit Hours.

A seminar in Public Policy, Administration and Law; designed to give the student a greater degree of insight and knowledge of a particular subject and to develop ability in the techniques of individual research, group discussion and analysis. The senior seminars may be taken in any sequence.

Components: SEM.

Grading: GRD.

Typically Offered: Fall & Spring.

POL 597. Special Topics In International Relations. 1-3 Credit Hours.

A seminar in International Relations; designed to give the student a greater degree of insight and knowledge of a particular subject and to develop ability in the techniques of individual research, group discussion and analysis. The senior seminars may be taken in any sequence.

Components: THI.

Grading: GRD.

Typically Offered: Fall & Spring.

POL 598. Special Topics In Comparative Politics. 1-3 Credit Hours.

A seminar in Comparative Politics; designed to give the student a greater degree of insight and knowledge of a particular subject and to develop ability in the techniques of individual research, group discussion and analysis. The senior seminars may be taken in any sequence.

Components: LEC.

Grading: GRD.

POL 599. Special Topics in American Politics. 3 Credit Hours.

A seminar in Comparative Politics; designed to give the student a greater degree of insight and knowledge of a particular subject and to develop ability in the techniques of individual research, group discussion and analysis. The senior seminars may be taken in any sequence.

Prerequisite: POL 199 or POL 201 or POL 202 or POL 203 or INS 101.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

POL 601. Budget and Financial Management and Administration. 3 Credit Hours.

Role of the budget in shaping public policy; managing public revenues; budgetary theory, politics, and fiscal management. Examples from state, municipal and federal governments.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

POL 602. Congressional Representation. 3 Credit Hours.

Examination of how and when citizens influence legislators' behavior. How legislators' floor behavior reflects citizens' preferences and how these preferences influence the formation of electoral coalitions.

Requisite: Graduate Status.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

POL 603. Special Topics In Comparative Politics. 3 Credit Hours.

A seminar in comparative politics, designed to give students a greater degree of knowledge of a particular subject, and to develop ability in the techniques of individual research and group discussion.

Requisite: Graduate Status.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

POL 604. The World Before European Domination. 3 Credit Hours.

Examines the historical roots of the contemporary international system, and questions the standard Eurocentric perspective on the rise of the West to a dominant position in the global system.

Requisite: Graduate Status.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

POL 605. Sex, Babies, & The State. 3 Credit Hours.

Examines policies on reproduction, work, and the family in a variety of national, with specific emphasis on Latin America.

Requisite: Graduate Status.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

POL 606. From Plato to Rawls. 3 Credit Hours.

Political thought of the past with more recent insights and concepts, often drawn from the work of theorists who question what is taken for granted in traditional political theory.

Prerequisite: POL 201 or POL 202 or POL 203 or INS 101.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

POL 607. Politics, Sociology, and Economy in Contemporary Brazil. 3 Credit Hours.

Examines the social, economic, and cultural transformations shaping contemporary Brazilian politics.

Requisite: Graduate Status.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

POL 610. Political Analysis. 3 Credit Hours.

This course focuses on the use of statistics to conduct quantitative research (i.e., statistics) in political science and public administration. The course emphasizes hands-on data work. Students will learn how to perform political analyses – and present findings in an appropriate manner – using SPSS statistical software.

Components: SEM.

Grading: GRD.

Typically Offered: Fall.

POL 614. Art and Politics. 3 Credit Hours.

Explores the relationship between narratives, aesthetics, and the political/social world.

Requisite: Graduate Status.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

POL 615. Media Content Analysis. 3 Credit Hours.

There are few facets of our lives which are not directly affected by media content. From cell phones to televisions, the media is with us all the time. But what messages are contained in the mass media? What methods can we employ to study media content scientifically? This course will explore methods of analyzing media sources including movies, newspapers, magazines, and television. Course topics will include political bias, campaign coverage, and news content. Students will design their own projects and implement their own coding strategies.

Components: SEM.

Grading: GRD.

Typically Offered: Fall.

POL 616. Experiments in Political Science. 3 Credit Hours.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

POL 617. Introductory Statistical Methods In Political Science. 3 Credit Hours.

The tools needed to manipulate and analyze quantitative data rigorously so you may answer questions of political interest. First in a two-course sequence (followed by POL 618).

Requisite: Graduate Status.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

POL 618. Advanced Statistical Methods in Political Science. 3 Credit Hours.

The maximum likelihood framework for statistical inference in the study of politics. Second in a two-course sequence (preceded by POL 617).

Requisite: Graduate Status.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

POL 619. Introduction To Game Theory For Political Science. 3 Credit Hours.

The rudiments of non-cooperative game theory. Mainly intended for political science students, but presents applications from other academic disciplines such as economics, business administration, sociology, and psychology.

Requisite: Graduate Status.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

POL 620. Internship. 3 Credit Hours.

Provides advanced political science majors with an opportunity to participate in a structured, supervised internship. 25-35 page research paper required.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

POL 621. Public Affairs Internship. 3 Credit Hours.

Opportunity for the advanced student specializing in public administration to participate in an administrative capacity in an agency of state or local government. Periodic conferences with adviser and paper required.

Requisite: Graduate Status.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

POL 622. Introduction to Graduate Public Administration. 3 Credit Hours.

Introduction to concepts, issues, problems, theories and process in the field of public administration and/or public management.

Components: SEM.

Grading: GRD.

Typically Offered: Fall & Spring.

POL 624. Non-Profit Organizations: Law, Policy, and Management. 3 Credit Hours.

This course teaches students the essential requirements for creation and operation of tax-exempt nonprofit organization in accordance with state and federal law. The course covers a wide range of relevant topics including guidelines for charitable giving and charitable solicitation, pitfalls that can result in personal liability for officers and directors, and statutory constraints on legislative lobbying and political activities.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

POL 625. Comparative Public Policy and Administration. 3 Credit Hours.

Comparison and analysis of the organizational and managerial policy problems of developed and developing nations. The administrative process will be considered within the institutional and cultural framework of each nation. Case studies will be used to focus on transition from traditional to modern techniques of public management.

Requisite: Graduate Status.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

POL 626. Administrative Law. 3 Credit Hours.

Administrative law is the study of the legal relationship of government agencies to legislatures, courts, and private parties. The course examines the legal dimensions of bureaucratic power and procedures as well as constitutional and statutory constraints on regulators and administrators. Topics include rule making, adjudication, investigation and enforcement, political controls on agencies, judicial review of agency decisions, governmental liability and immunity, public records and open meetings laws. Both federal law and Florida law are covered. The course assumes a basic knowledge of the American legal system, constitutional law and bureaucracy.

Requisite: Graduate Status.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

POL 627. Comparative Political Institutions. 3 Credit Hours.

The concept of institutionalism by studying three major sets of democratic institutions: electoral systems, legislatures, and political regimes.

Requisite: Graduate Status.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

POL 629. Conducting U.S. Elections. 3 Credit Hours.

Fair and free democratic elections are the heart of US democracy. This course will examine who gets to vote, whether election laws and rules are fair (and fairly implemented), and proposals to reform the way elections are run.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

POL 630. Intelligence and National Security. 3 Credit Hours.

This course will study the US national security community structure and decision making process. The course will look at the National Security Council, the principal national security agencies (such as the CIA, Defense Department, and State Department), how they interact, and their roles in dividing and executing policy. We will also examine the role and function of senior policy decision makers such as the President. We will study recent policy challenges such as Iraq and Afghanistan as examples of National Security policy.

Requisite: Graduate Status.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

POL 631. Global Environment Politics. 3 Credit Hours.

Examination of the environment within the context of economic globalization. Contrasts the international trading regime and those regimes designed to protect the environment, with specific attention to the issues of global warming and biodiversity.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

POL 635. Comparative Legal Systems. 3 Credit Hours.

Considers the institutional and political roles of Courts from a comparative perspective. With a focus on judicial independence and judicial review, will consider the juridical systems of a variety of countries and regions including the US, the EU, Germany, France, Great Britain, Chile, Argentina, Russia, The Asian-Pacific Rim, South Africa, Israel, Central America and the Middle East.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

POL 636. U.S. Health Care Crisis: Politics and Policies. 3 Credit Hours.

This seminar will explore the politics and policies of healthcare in the United States. Our examination of the current crisis in cost and coverage will draw on experience from the debates on comprehensive and incremental reform over the past decade. In addition, we will explore the politics and policies of other health and science issues. Students will be expected to attend every class and be actively involved in class discussions. There will be two examinations, one at mid-term and a final based on readings and course discussions.

Requisite: Graduate Status.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

POL 641. Philosophy of Law. 3 Credit Hours.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

POL 643. Urban Politics. 3 Credit Hours.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

POL 644. Chinese Foreign Policy. 3 Credit Hours.

International relations of the People's Republic of China, in theory and in practice. Structure and context of foreign policy decision-making; domestic influences on the foreign policy making process. China as a global and regional actor.

Requisite: Graduate Status.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

POL 645. Environmental Policy Making. 3 Credit Hours.

Examination of different ethical approaches to the environment; the federal government's management of natural resources; selected environmental policies; international environmental policy issues. Topics include federal management of national grazing lands, national forests, and minerals in the public domain. Analyzes environmental policies such as air, water, toxic wastes, energy, and environmentally-related issues in international trade and national security.

Components: SEM.

Grading: GRD.

Typically Offered: Spring.

POL 646. Public Policy Analysis and Administration. 3 Credit Hours.

Examination of public policy issue areas including education, health, welfare, urban mass transit. Limits to effectiveness of federal, state and local governments in providing services. Techniques for analyzing the effectiveness of public policies; research techniques for the assessment of future policy alternatives.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

POL 647. Personnel Administration. 3 Credit Hours.

Modern personnel administration: job analysis and design, evaluation and appraisal, recruitment and interviewing, training and development, wages and benefits, and health and safety. Unionization, regulation of wages, hours and working conditions, financial security for workers, and job anti-discrimination legislation. Manpower planning.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

POL 648. Civic Participation & Democracy. 3 Credit Hours.

Citizens participate in the governing process by communicating their preferences and pressuring the government to respond. In this course we examine these various mechanisms of "civic participation", and discuss the meaning and consequences of participatory democracy. The course focuses on the contemporary United States, but we will devote some time to discuss civic participation in other countries as well.

Requisite: Graduate Status.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

POL 650. Advanced Seminar On American Politics. 3 Credit Hours.

This seminar provides students with a survey of significant research on major topics in American Politics. We will read influential works of the past, as well as recent cutting-edge research. Particular attention will be paid to discussing the methods and theories used in the research we will read. The purpose of the course is to acquaint students with the literature on American Politics, while also providing an opportunity for students to develop skills in critically assessing and skillfully conducting social science research.

Requisite: Graduate Status.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

POL 651. Productivity in the Public and Non-Profit Sectors. 3 Credit Hours.

Definitions and measures of productivity. Evaluation of government programs, and methods of productivity improvement.

Components: LEC.

Grading: GRD.

Typically Offered: Summer.

POL 652. Total Quality Public Service Management: Achieving High Performance Government. 3 Credit Hours.

Examination of the theory and practice of Total Quality Management (TQM) in the government and non-profit sector. Focuses on budgetary, customer service, employee and process improvements that facilitate increased public and non-profit performance. Special emphasis to TQM's contribution to improved service delivery.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

POL 653. The Environmental Movement: Groups, Beliefs and Values. 3 Credit Hours.

Exploration of the origins and political impact of environmentalism in the United States and, to a lesser extent, in the global context. Impact of democratic participation on environmental politics.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

POL 654. Politics and Ethics. 3 Credit Hours.

Personal, professional, organizational, and societal levels of ethical analysis. Ethical theories will be reviewed and applied to actual cases that focus on public policy and/or the officials who create and implement it. Profiles of moral exemplars in public life will be examined.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

POL 655. Public Policy and Health. 3 Credit Hours.

Development of public policy at the federal, state and local level. Policy process, models of policy analysis, policy development in several government service areas, and plans for policy change. Special emphasis on health policy formulation, implementation and the use of epidemiological tools in health policy analysis.

Components: LEC.

Grading: GRD.

Typically Offered: Summer.

POL 656. Public Service Internship. 3-6 Credit Hours.

Individual on-the-job work experience; arranged and monitored by a faculty member.

Components: THI.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

POL 657. Ethical and Managerial Issues in Government, Business and Non-Profit Organization.. 3 Credit Hours.

Governments at all levels in this country-national (Larry Craig, David Vitter, Mark Foley, Bill Clinton, Randy Cunnigham, Tom DeLay, William Jefferson, James Traffcant, Robert Torricelli, Jack Abramoff), state (former Illinois, Louisiana, New York, Ohio and Arizona governors), and local (Miami, Providence city officials; Miami-Dade, Broward, and Palm Beach counties) have encountered scandals involving ethical wrongdoing. Business (Enron, Worldcom) and nonprofit organizations (Boy Scouts, United Way) have faced similar problems. Countless less visible examples of unethical and ethical behavior occur in organizations daily. This course examines the causes and consequences of such actions and the managerial strategies and competencies needed to effectively cope with the ethical issues confronting individuals and organizations.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

POL 658. From Electronic Government To Digital Governance. 3 Credit Hours.

Graduate and advanced undergraduate seminar explores the transition from electronic government (e-gov) to digital or d-governance, emphasizing political participation, citizen-centric public administration and the proliferation of global information technologies and social media.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

POL 669. LBGTI Politics. 3 Credit Hours.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

POL 670. Uniting States In International Perspective. 3 Credit Hours.

How states form and fragment; the main actors in nation formation; the elements of continuity and change; the impact outsiders can have on the process.

Requisite: Graduate Status.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

POL 671. Political Environment of Business. 3 Credit Hours.

Examines government-business-society relations with emphasis on the social, economic, political, technological, ethical, and ecological environment.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

POL 672. Program Planning, Research and Evaluation in Criminal Justice and Corrections, I. 3 Credit Hours.

Identification of long-term goals and intermediate objectives in the criminal justice process. Formulation of operations, evaluation techniques and the relationships among research, evaluation and management decisions.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

POL 673. Program Planning, Research and Evaluation in Criminal Justice and Corrections, II. 3 Credit Hours.

Continuation of POL 672. Topics include types of evaluation and the design of evaluative studies. POL 672 and POL 673 are designed to facilitate the formulation and execution of a thesis.

Prerequisite: POL 672.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

POL 675. The Politics of Civil- Military Relations. 3 Credit Hours.

Course examines the relationship between states and their soldiers across various historical periods and regional contexts, and how this relationship has been altered in an era where the viability of old structures of state authority are no longer self-evident.

Requisite: Graduate Status.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

POL 676. On Violence The Politics Of Extremes. 3 Credit Hours.

Literary and theoretical treatments are considered for what they can tell us about the causes, characteristics and consequences of violence. These insights are enlisted to help us understand violence enacted by states against their societies, societies against states, and within society itself.

Requisite: Graduate Status.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

POL 677. Security In South Asia. 3 Credit Hours.

The security system of South Asia's northern reaches and the current conflict involving Afghanistan, Pakistan, and India: considerations of sovereignty and the role of frontiers in world politics.

Requisite: Graduate Status.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

POL 678. Energy & Security In Eurasia. 3 Credit Hours.

Requisite: Graduate Status.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

POL 680. Ethnicity, Nationalism, & Secession. 3 Credit Hours.

Examination of the creation, breakdown, and aftermath of communist governments in Eastern Europe and the Soviet Union. Using empirical evidence from four case studies, develops a theoretical framework for understanding cross-national patterns of post-communist development in the context of country specific experiences

Requisite: Graduate Status.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

POL 681. Comparative Political Economy Of Post -Industrial Democracies. 3 Credit Hours.

This seminar examines four key turning points in the development of capitalism: the industrial revolution, the aftermath of the depression and world wars, the oil crisis of the 1970's, and today's "globalization". We will compare the relationships between government and the economy in Western Europe, Canada, the U.S., Australia, New Zealand, and Japan in each period, and attempt to evaluate why these countries react similarly or differently to identical changes in world economy.

Requisite: Graduate Status.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

POL 682. Political Economy of Development. 3 Credit Hours.

Overview of the principal theoretical paradigms of the development process Comparative analysis of issues such as the role of the state, strategies of industrialization, changes in social structure, basic needs and the trade-offs between growth and equity.

Requisite: Graduate Status.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

POL 683. Seminar: Topics in the Comparative Study of the Foreign Policy of China. 3 Credit Hours.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

POL 684. Contemporary Latin American Politics. 3 Credit Hours.

This course assumes a basic knowledge of Latin American politics, and is designed to foster deeper understanding of political processes in the region and to provide an overview of key debates among political scientists specializing in Latin America. We discuss issues related to democratic consolidation, political participation, representation and governance.

Requisite: Graduate Status.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

POL 685. Seminar in the Dynamics of Soviet Society. 3 Credit Hours.

Forces and factors that shape and continue to influence the development of social, political and economic institutions in the Former Soviet Union and their evolving role in decision making.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

POL 686. Conflict In The Middle East & Africa. 3 Credit Hours.

Introduction to major paradigms for the explanation of war and conflict in two of the most unstable regions of the world. Reading and class discussions on select cases of current and past conflicts in each region in order to discern patterns of conflict within and across regions, gain a clearer understanding of what drives violent conflict, and assess strategies of resolution.

Requisite: Graduate Status.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

POL 688. Politics In China. 3 Credit Hours.

Development and nature of Chinese domestic politics in theory and practice; problems of political stability and conflict; the role of historical and cultural traditions, institutions, social, economic and personality factors in Chinese politics; process of change and problems of leadership succession; the significance of changes in the character and style of Chinese leadership.

Requisite: Graduate Status.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

POL 690. Directed Readings. 3 Credit Hours.

Requisite: Graduate Status.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

POL 691. International Security. 3 Credit Hours.

Analysis and evaluation of approaches to international conflict, resolution, reduction and stabilization such as international organization, law, collective security, balance of power, functionalism, world government, morality, and conscience. Special emphasis on recent problems and efforts at institutionalizing social control.

Requisite: Graduate Status.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

POL 692. International Political Economy. 3 Credit Hours.

Requisite: Graduate Status.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

POL 693. International Relations Of The Middle East. 3 Credit Hours.

Requisite: Graduate Status.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

POL 694. European Security. 3 Credit Hours.

Requisite: Graduate Status.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

POL 695. Special Topics In Political Theory And Methods. 1-3 Credit Hours.

A seminar in Political Theory and Methods; designed to give the student a greater degree of insight and knowledge of a particular subject and to develop ability in the techniques of individual research, group discussion and analysis. The senior seminars may be taken in any sequence.

Components: SEM.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

POL 696. Special Topics In Public Administration, Policy And Law. 1-3 Credit Hours.

A seminar in Public Policy, Administration and Law; designed to give the student a greater degree of insight and knowledge of a particular subject and to develop ability in the techniques of individual research, group discussion and analysis.

Components: SEM.

Grading: GRD.

Typically Offered: Fall & Spring.

POL 697. Special Topics In International Relations. 3 Credit Hours.

Requisite: Graduate Status.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

POL 698. Special Topics. 3 Credit Hours.

A seminar in Comparative Politics; designed to give the student a greater degree of insight and knowledge of a particular subject and to develop ability in the techniques of individual research, group discussion and analysis. The senior seminars may be taken in any sequence.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

POL 699. Directed Readings. 1-3 Credit Hours.

Components: THI.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

POL 810. Master's Thesis. 3-6 Credit Hours.

Designed for student working on masters' theses. Not to exceed six credit hours, as determined by student's advisor. Credit is not awarded until the thesis has been accepted.

Components: THI.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

POL 820. Research in Residence. 0 Credit Hours.

Research in residence for thesis or master's degree after the student has enrolled for the permissible cumulative total in POL 710 (usually six credits). Credit not granted; regarded as full time residence.

Components: THI.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

Portuguese (POR)

POR 100. Business Portuguese for Spanish Speakers. 3 Credit Hours.

Introduction to commercial vocabulary, economic, technical, and diplomatic terminology in Portuguese for Spanish Speakers. Composition based on models of business correspondence directed to Portuguese-speaking countries or firms.

Components: LEC.

Grading: CNC.

Typically Offered: Spring.

POR 101. Elementary Portuguese I. 3 Credit Hours.

Drill in pronunciation, fundamental grammatical principles, simple reading and translation, oral and written exercises. Normally, not open to students who have completed two years of Portuguese. Closed to native speakers.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

POR 102. Elementary Portuguese II. 3 Credit Hours.

Continuation of POR 101. Closed to native speakers.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

POR 105. Beginning Portuguese for Spanish Speakers. 3 Credit Hours.

The equivalent of one year of beginning-level college Portuguese, this course is specifically intended for students who have completed three or more years of high school Spanish or one year of Spanish at another university. Also intended for heritage and native speakers of Romance Languages, or students with one or more years of college study of Spanish, Italian, or French. Closed to native speakers of Portuguese.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

POR 201. Intermediate Portuguese I. 3 Credit Hours.

Integrated grammar review. Diverse selection of readings: stories, plays, essays, interviews. Practice in speaking and in writing. Class conducted in Portuguese. Not open to native speakers.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

POR 202. Intermediate Portuguese II. 3 Credit Hours.

Intensive preparation for 300-level work through various genres (portraits, descriptions, short stories, film reviews, magazines, a novel). Workshop format, the course also develops conversational skills. Students complete a number of written projects (including an analytic paper). Class conducted in Portuguese. Closed to native speakers.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

POR 301. Interpreting Literary And Cultural Texts In Portuguese. 3 Credit Hours.

Tools for the interpretation and analysis of literary and cultural materials from the Portuguese-speaking world. Acquisition of terminology and theories through the study of the main literary genres (prose, poetry, and drama) and a complementary genre of cultural analysis (e.g., film studies, cultural studies, etc.). Emphasis on critical writing skills. Closed to native speakers formally educated in Portuguese.

Prerequisite: POR 212 or equivalent.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

POR 310. Brazilian Women Writers in Translation. 3 Credit Hours.

Selected contemporary Brazilian women writers. Conducted in English. Emphasis on representations of nationality, race, class, ethnicity, gender, and sexuality. May be used to fulfill the humanities literature requirement; writing credit.

Prerequisite: ENG 106 or equivalent.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

POR 321. Studies in Luso-Brazilian Literary Themes. 3 Credit Hours.

The study of literature through thematic readings. Writing credit. May be repeated for credit if topics vary.

Prerequisite: POR 212 or equivalent.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

POR 322. Topics in Luso-Brazilian Cultures. 3 Credit Hours.

Cultural issues in the Portuguese-speaking world. Topics include media, religion, language in society, popular and mass culture, the arts, immigration, social movements, race, ethnicity, and gender. Writing credit. May be repeated for credit if topics vary.

Prerequisite: POR 212 or equivalent.

Components: SEM.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

POR 353. Brazilian Poetry. 3 Credit Hours.

Brazilian poetry from colonial times to the present. Emphasis on major figures. Taught in Portuguese. Humanities literature credit; writing credit.

Prerequisite: POR 212 or equivalent.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

POR 354. The Modern Brazilian Novel. 3 Credit Hours.

The Brazilian novel since 1865. Emphasis on major works. Conducted in Portuguese. POR minors must complete all written assignments in Portuguese. Others may opt to write in English, Portuguese, or Spanish. Fulfills humanities literature requirement; writing credit.

Prerequisite: POR 212 or equivalent.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

POR 363. Contemporary Lusophone Film. 3 Credit Hours.

Portuguese, Brazilian, and Lusophone African cinema from the 1950s to the present. POR minors must complete all written assignments in Portuguese; Others may opt to write in English, Portuguese, or Spanish. Conducted in Portuguese. Fulfills Humanities literature requirement; writing credit.

Prerequisite: POR 212 or equivalent.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

POR 364. The Brazilian Short Story. 3 Credit Hours.

The Brazilian short story since 1890. Conducted in Portuguese. POR minors must complete all written assignments in Portuguese. Others may opt to write in English, Portuguese, or Spanish. Fulfills Humanities literature requirement; writing credit.

Prerequisite: POR 212 or equivalent.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

POR 391. Directed Readings. 1-3 Credit Hours.

Individual work on a topic not covered in the regular curriculum. May be repeated on a different topic.

Components: THI.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

POR 395. Transfer Credits. 1-3 Credit Hours.

Awarded for course work at another institution for which UM has no direct equivalent.

Components: LEC.

Grading: GRD.

POR 396. Transfer Credits. 1-3 Credit Hours.

Awarded for course work at another institution for which UM has no direct equivalent.

Components: LEC.

Grading: GRD.

POR 397. Transfer Credits. 1-3 Credit Hours.

Awarded for course work at another institution for which UM has no direct equivalent.

Components: LEC.

Grading: GRD.

POR 398. Transfer Credits. 1-3 Credit Hours.

Awarded for course work at another institution for which UM has no direct equivalent.

Components: LEC.

Grading: GRD.

POR 399. Transfer Credits. 1-3 Credit Hours.

Awarded for course work at another institution for which UM has no direct equivalent.

Components: LEC.

Grading: GRD.

POR 591. Directed Readings in Portuguese. 1-3 Credit Hours.

Components: SEM.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

POR 592. Directed Readings in Portuguese. 1-3 Credit Hours.

Components: THI.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

POR 593. Directed Readings in Portuguese. 1-3 Credit Hours.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

POR 625. Portuguese for Graduate Research. 0 Credit Hours.

Grammatical structuring, verb tenses, and word families necessary for reading text with minimal use of a dictionary. May fulfill the Foreign Language Reading Competency Requirement (consult your graduate advisor).

Components: SEM.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

POR 635. Portuguese For Graduate Students. 3.00 Credit Hours.

Portuguese 635 is designed to enhance graduate student's communication skills in the Portuguese language, at the low advanced level of proficiency. It is intended principally for those students who will be carrying out research in areas related to the Lusophone world.

Components: SEM.

Grading: GRD.

Typically Offered: Fall.

POR 691. Directed Readings in Portuguese. 1-3 Credit Hours.

Components: SEM.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

POR 692. Directed Readings in Portuguese. 1-3 Credit Hours.

Components: THI.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

Program In Biomedical Sciences (PIB)

PIB 700. Journal Club. 1 Credit Hour.

All PIBS students are required to attend one journal club or seminar each week.

Components: SEM.

Grading: SUS.

Typically Offered: Fall & Spring.

PIB 701. Introduction to Biomedical Sciences. 5 Credit Hours.

This course surveys fundamentals of molecular and cellular biology that underly all modern biomedical research. Lectures are organized into modules that cover Proteins and DNA, Gene Expression, Signaling and Membranes, Cells, and Development. A final module covers immunology, organ systems, and genetics. Experimental techniques are emphasized throughout, with the first week of the course devoted to a bootcamp on common biomedical methods.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

PIB 702. Scientific Reasoning. 3 Credit Hours.

This course teaches scientific reasoning by critical reading of primary research papers in a small-group setting. Multiple small groups are offered every week and students can choose from different topics related to lectures in the companion PIB 701 course. Research papers are discussed in two 1-hour sessions each week.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

PIB 731. Laboratory Research. 1-6 Credit Hours.

Laboratory rotations familiarize students with a variety of modern techniques in biomedicine and potential mentors for their dissertation projects. One credit is awarded per rotation.

Components: LAB.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

PIB 780. Research Ethics. 1 Credit Hour.

The NIH Guide for Grants and Contracts stipulates that Institutions receiving support for National Research Service Award Training Grants are required to develop a program in the principles of scientific integrity. This program should be an integral part of the proposed training effort.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

PIB 782. Professional Development: Skills for Success I. 1 Credit Hour.

This workshop will teach students the basics on how to: manage your career, choose a rotation lab / mentor, read a scientific paper, write a lab report and present in the journal club and lab meetings.

Components: LEC.

Grading: SUS.

Typically Offered: Fall.

PIB 783. Professional Development: Skills for Success II. 1 Credit Hour.

This workshop will teach students the basics on how to: write a fellowship and scientific paper as well as the proper and ethical handling of research data.

Components: LEC.

Grading: SUS.

Typically Offered: Spring.

PIB 830. Doctoral Dissertation. 1-12 Credit Hours.

Required for all PhD candidates. First-year students generally take one credit of doctoral dissertation in their first summer semester then continue in program specific dissertation credit through graduation.

Components: THI.

Grading: SUS.

Typically Offered: Summer.

Psychology (PSY)

PSY 106. Freshman Advising Contact Term (Fact). 1 Credit Hour.

Educates students about the structure and function of a research university, introduces them to the academic rules and regulations of the University of Miami and the Department of Psychology, enables them to think critically about their own graduation plan, and prepares them to enter the professional world.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

PSY 110. Introduction to Psychology. 3 Credit Hours.

A survey of modern scientific psychology. Topics include learning, memory, perception, cognition, personality, motivation, emotion, development, abnormal psychology, and social psychology. Participation in a small number of experiments is required to ensure that students become acquainted first hand with the experimental laboratory methods used in Psychology. Students may choose to satisfy this requirement by writing a small number of methodology papers instead.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

PSY 175. Special Topics. 1-3 Credit Hours.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PSY 190. Faculty Overview Of Research And Undergraduate Mentoring(Forum). 1 Credit Hour.

Critical discussion of research reports in psychology.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

PSY 206. Transfer To The University Of Miami(Tums). 1 Credit Hour.

Educates students about the structure and function of a research university, introduces them to the academic rules and regulations of the University of Miami and the Department of Psychology, enables them to think critically about their own graduation plan, integrates them into the social atmosphere of the University, and prepares them to enter the professional world.

Requisite: Permission of a UASP advisor, C- or higher in PSY 110.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

PSY 210. Social Psychology. 3 Credit Hours.

The major theories, methods and research findings in social psychology. Attitude formation and change, person perception, interpersonal attraction, aggression, group structure, leadership, conformity and mass phenomena. Emphasizes the individual as the basic unit of analysis (compare SOC 302).

Prerequisite: C- or higher in PSY 110.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

PSY 220. Psychobiology. 3 Credit Hours.

Behavior viewed from a biological perspective. Survey of biological factors subserving sensation, perception, sleep, emotions, motivation, learning, memory, and development

Prerequisite: C- or higher in PSY 110.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

PSY 230. Child And Adolescent Development. 3 Credit Hours.

Survey of significant aspects of growth and development throughout the lifespan. Emphasis placed on childhood and adolescence.

Prerequisite: C- or higher in PSY 110.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

PSY 240. Abnormal Psychology. 3 Credit Hours.

Diagnostic formulations of the clinical syndromes; theories of psychopathological states.

Prerequisite: C- or higher in PSY 110.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

PSY 250. Cognitive Psychology. 3 Credit Hours.

Survey of theory and research on human information processing and cognitive processes.

Prerequisite: C- or higher in PSY 110.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

PSY 260. Personality Psychology. 3 Credit Hours.

A survey of the area of personality, including the relation of personality to general psychology, history of theory and research in the field, definition, assessment, and research findings in major substantive areas.

Prerequisite: C- or higher in PSY 110.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

PSY 270. Industrial And Organizational Psychology. 3 Credit Hours.

Applications of psychology in business, industry, and to organizational effectiveness in general. Supervisory, leadership, morale, personnel selection, training, human factors engineering, and consumer psychology.

Prerequisite: C- or higher in PSY 110.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

PSY 271. Stress Management. 3 Credit Hours.

Physiology and psychology of stress, with emphasis on mind-body (stress-health) connection. Integrates scientific knowledge with practice techniques such as muscle relaxation, cognitive restructuring, meditation, anger management, yoga, exercise, assertiveness training, and social support.

Prerequisite: C- or higher in PSY 110.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

PSY 275. Special Topics. 1-3 Credit Hours.

Prerequisite: C- or higher in PSY 110.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PSY 280. Introduction To Research Projects I. 1-3 Credit Hours.

Students assist on a research project in psychology under supervision of a faculty member. Activities include library research, data collection and management, and attendance at research team meetings.

Prerequisite: C- or higher in PSY 110. Requisite: Permission of a UASP advisor.

Components: IND.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

PSY 290. Introduction To Research Methods. 3 Credit Hours.

An introduction to research methods in psychology. We will discuss the scientific concepts, principles, and ways of thinking that are central to the study of psychology. Topics to be covered include the goals of psychological research, ethical issues in the design and implementation of research studies, research design strategies and types of measurement, and methods of presenting data. A variety of in-class assignments will provide students with the opportunity to reflect upon the ways in which research is conducted, presented, and interpreted.

Prerequisite: C- or higher in PSY 110, MTH 101 or mathematics placement above MTH 101. Corequisite: PSY 291. Requisite: PSY or NEU major.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

PSY 291. Introduction To Biobehavioral Statistics. 3 Credit Hours.

The basics of descriptive and inferential statistics, but the focus will be on the latter. We will cover only enough descriptive statistics to enable us to introduce the inferential concepts of regression, t-tests ANOVA and Chi Square.

Prerequisite: C- or Higher in PSY 110, MTH 101 or mathematics placement above MTH 101. Corequisite: PSY 290. Requisite: PSY or NEU Major.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

PSY 292. Introduction To Biobehavioral Statistics For Non-Majors. 3 Credit Hours.

The basics of descriptive and inferential statistics, but the focus will be on the latter. Descriptive statistics to introduce the inferential concepts of regression, t-tests ANOVA and Chi Square.

Prerequisite: C- or higher in PSY 110 and MTH 101 or math placement above MTH 101.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

PSY 305. Introduction To Research And Graduate School. 1 Credit Hour.

Introduction to research and graduate school in psychology and psychology-related fields. The course will focus on different opportunities available to students at the University and on the graduate school application process.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PSY 310. Attitudes And Persuasion. 3 Credit Hours.

An analysis of the major theories and research findings relating to attitude formation and change, including a review of widely used persuasion techniques.

Requisite: 2.5 PSY GPA and 12 credits in PSY courses including PSY 291 or PSY 292 or 2.5 PSY GPA, 9 credits in PSY courses including PSY 291 or PSY 292, and 3 credits in MKT, CAD, COM, COS, CNJ, CPR, or CVJ courses.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PSY 311. Emotion. 3 Credit Hours.

Theory and research concerning the development, arousal, and expression of emotional reaction.

Requisite: 2.5 PSY GPA, 12 credits in PSY courses including PSY 291 or PSY 292 or 2.5 PSY GPA, 9 credits in PSY courses including PSY 291 or PSY 292, and 3 credits in BIL courses.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

PSY 312. Psychology Of Gender. 3 Credit Hours.

Psychological theories and research related to understanding issues of gender across the lifespan.

Requisite: 2.5 GPA, 12 Credits in PSY including PSY 291 or PSY 292.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

PSY 313. Romantic Relations. 3 Credit Hours.

An introduction to how social scientists think about, study, and intervene with romantic relationships.

Requisite: 2.5 GPA, 12 Credits in PSY including PSY 291 or PSY 292.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PSY 320. Psychology Of Drugs And Behavior. 3 Credit Hours.

The psychological and physiological effects of drugs. Includes psychosocial aspects of drug use and the treatment and prevention of abuse. An introduction to psychopharmacology.

Requisite: 2.5 PSY GPA, 12 credits in PSY courses including PSY 220 and PSY 291 or PSY 292 or 2.5 PSY GPA, 9 credits in PSY courses including PSY 291 or PSY 292, and 3 credits in BIL 150 or higher or CHM 111 or higher.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

PSY 330. Psychology Of Language Development. 3 Credit Hours.

Developmental sequences in the acquisition of language; the scientific endeavor to understand language learning.

Requisite: 2.5 GPA and 12 Credits in PSY courses including PSY 230, PSY 291 or PSY 292.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PSY 331. Psychology Of Adulthood And Aging. 3 Credit Hours.

Major developments during the middle and later years of adulthood including changes in family and peer relationships, cognitive changes, physical changes, psychological aspects of death and dying.

Requisite: 2.5 GPA and 12 Credits in PSY courses including PSY 230, PSY 291 or PSY 292.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

PSY 345. Abnormal Child Psychology. 3 Credit Hours.

Reviews definitions, theories, and causes of mental and cognitive disorders in youth, including anxiety, depression, conduct problems, and learning and intellectual disabilities.

Requisite: 2.5 GPA and 12 Credits in PSY courses including PSY 230, PSY 291 or PSY 292.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

PSY 355. Psychology Of Thinking And Learning In Children. 3 Credit Hours.

Development of perceptions, thought, and language processes throughout the lifespan with an emphasis on early and middle childhood.

Requisite: 2.5 GPA and 12 Credits in PSY courses including PSY 230, PSY 291 or PSY 292.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

PSY 356. Psychology Of Intellectual And Developmental Disabilities. 3 Credit Hours.

The etiological, social, and psychological aspects of intellectual and developmental disabilities.

Requisite: 2.5 PSY GPA and 12 credits in PSY courses including PSY 230 and PSY 291 or PSY 292 or 2.5 PSY GPA, 9 credits in PSY courses including PSY 230 and PSY 291 or PSY 292, and 3 credits in BIL or TAL courses.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PSY 360. Personality Theory. 3 Credit Hours.

The role of structure, development, dynamics, individual differences, assessments, and deviations.

Requisite: 2.5 GPA, 12 Credits in PSY including PSY 291 or PSY 292.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

PSY 370. Psychology Of Human Sexual Behavior. 3 Credit Hours.

Interaction of biological and social factors in normal sexual development, and behavior patterns; etiologies of dysfunctions, paraphilias and gender-identity disorders; assessment and intervention procedures.

Requisite: 2.5 PSY GPA and 12 credits in PSY courses including PSY 291 or PSY 292 or 2.5 PSY GPA, 9 credits in PSY courses including PSY 291 or PSY 292, and 3 credits in BIL 150 or higher, CHM 103 or higher or HCS 212.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PSY 375. Special Topics. 1-3 Credit Hours.

Requisite: 2.5 GPA, 12 Credits in PSY including PSY 291 or PSY 292.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PSY 380. Introduction To Research Projects II. 1-3 Credit Hours.

Students assist on a research project in psychology under supervision of a faculty member. Activities include library research, data collection and management, and attendance at research team meetings.

Requisite: Permission of a UASP advisor, 2.5 PSY GPA, and 12 credits in PSY courses including PSY 291 or PSY 292.

Components: IND.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

PSY 390. Intermediate Research Methods And Biobehavioral Statistics. 3 Credit Hours.

Students will conduct two (or more) pre-planned experiments. For each experiment, students will analyze the data and write up the components of a research report. In addition, students will receive detailed feedback on the assignments they submit, as an aid to improving their writing skills, reinforcing and reviewing their knowledge of research design and methodology, and expanding their understanding of statistical analyses as well as their interpretation and presentation.

Requisite: 2.5 GPA and 12 Credits in PSY including PSY 290 and PSY 291 or PSY 292 or 9 credits in PSY including PSY 290, and PSY 291 or PSY 292, BIL 268 or NEU 280, NEU 380 or NEU 480.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

PSY 391. Tests And Measurements. 3 Credit Hours.

Theory and principles of construction, use, evaluation, and interpretation of psychological tests and testing procedures.

Requisite: 2.5 GPA, 12 Credits in PSY including PSY 291 or PSY 292.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

PSY 410. Social Interaction Processes. 3 Credit Hours.

An in-depth analysis of variables leading to, and processes involved in, human social interactions ranging from superficial encounters to intimate relationships.

Requisite: 2.5 PSY GPA and 15 credits in PSY courses including PSY 210, PSY 291 or PSY 292 and PSY 390.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PSY 411. Relationships And Health. 3 Credit Hours.

Interpersonal processes that play out in the course of chronic physical illnesses. An integrated foundation on theories and concepts of interpersonal relationships in psychology and a comprehensive introduction to how these theories and concepts can be applied to relationships among family members dealing with physical illnesses. Students will be introduced to diverse perspectives on interpersonal relationships and to a broad perspective on physical illnesses as "family" diseases, across the illness trajectory.

Requisite: 2.5 PSY GPA and 15 credits in PSY courses including PSY 291 or PSY 292 and PSY 390.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PSY 425. Psychobiology. 3 Credit Hours.

Basic neuroanatomy, neurophysiology, and neurochemistry followed by an introduction to the physiological bases of sensation, motor systems, motivation, emotion, learning and memory.

Requisite: 2.5 PSY GPA, 15 PSY credits including PSY 220, PSY 290, PSY 291 or PSY 292 or 2.5 PSY GPA, 12 Credits in PSY including PSY 290, and PSY 291 or PSY 292, BIL 150.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

PSY 426. Health Psychology. 3 Credit Hours.

The psychosomatic and biopsychosocial models of illness.

Requisite: 2.5 PSY GPA, 15 credits in PSY courses including PSY 220, PSY 290, and PSY 291 or PSY 292.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PSY 430. Psychology Of Infancy. 3 Credit Hours.

Perceptual, motor, cognitive and social development during the first two years of life. Specialized research methods and assessment procedures.

Requisite: 2.5 PSY GPA; 15 PSY credits, including PSY 230, PSY 291 or PSY 292, PSY 390.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PSY 431. Psychology Of Social And Emotional Development. 3 Credit Hours.

Social and emotional growth; topics include family and peer relationships, sex roles, self-control, and moral development.

Requisite: 2.5 PSY GPA; 15 PSY credits, including PSY 230, PSY 291 or PSY 292, PSY 390.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

PSY 432. Prenatal Development. 3 Credit Hours.

A detailed understanding of prenatal development including conception, embryonic and fetal development, and birth. The effects and interplay of genetic and environmental factors on the health and well-being of the developing baby will be discussed throughout the course. The important role of preconception and prenatal care will also be discussed.

Requisite: 2.5 PSY GPA; 15 PSY Credits including PSY 230, PSY 290, PSY 291 or PSY 292.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PSY 455. Evolution And Sex. 3 Credit Hours.

A biological/evolutionary approach to the study of human sexuality and cognition. The evolution of sexual reproduction and the evolution of the two sexes. Initial discussions will introduce the theory of evolution by natural selection and address the different levels at which selection operates. Building on this foundation, the class will focus on why sex evolved and the myriad physiological and psychological adaptations that evolved as a consequence. Topics to be covered include sexual selection, mate selection, pregnancy, and parent-offspring conflict.

Requisite: 2.5 PSY GPA, 15 credits in PSY courses including PSY 290 and PSY 291 or PSY 292.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PSY 460. Psychology Of Religion. 3 Credit Hours.

Contemporary psychological theory and research on religious belief, experience, and behavior. Topics include the biological bases of religion, religious development, and the links of religion to health and well-being.

Requisite: 2.5 PSY GPA; 15 PSY credits, including PSY 291 or PSY 292, PSY 390, REL 101.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PSY 461. Motivation. 3 Credit Hours.

Experimental evidence relating to theories of motivation.

Requisite: 2.5 PSY GPA, 15 credits in PSY courses including PSY 290 and PSY 291 or PSY 292.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PSY 470. History And Systems Of Psychology. 3 Credit Hours.

Development of psychology as a science.

Requisite: 2.5 PSY GPA and 15 credits in PSY courses, including PSY 291 or PSY 292, PSY 390.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PSY 474. Special Topics. 1-3 Credit Hours.

Requisite: 2.5 PSY GPA, 15 credits in PSY courses including PSY 290 and PSY 291 or PSY 292.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PSY 480. Research With Writing Credit. 1-3 Credit Hours.

Students assist on a research project in psychology under supervision of a faculty member. Activities include library research, data collection and management, and attendance at research team meetings. Students are also expected to complete a writing component that fulfills the University's criteria to receive writing credit.

Requisite: Permission of a UASP advisor, 2.5 PSY GPA and 15 credits in PSY courses including PSY 291 or PSY 292, PSY 390.

Components: IND.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

PSY 490. Advanced Research Methods. 3 Credit Hours.

Students will develop, conduct and write up two research projects: (i) a project that uses descriptive methods and associated statistical techniques and (ii) a project that uses experimental methods and associated statistical techniques. These projects will integrate the concepts and skills learned in the Introductory and Intermediate Methods courses as well as the Introductory and Intermediate Statistics courses. Students will be asked to select a research topic and first develop a survey to examine the relationship between two predictor variables and an outcome variable. They will collect and analyze their data using correlational techniques (e.g., regression analyses) and will write up a methods and results section. Next, students will turn their descriptive study into an experiment. They will collect and analyze their data and write up a publishable research report that includes the findings from both the descriptive and experimental studies. The project will serve as a capstone, requiring them to find and critically evaluate relevant literature on their topic of choice, design a study taking into account time demands, sample characteristics and their effect on the hypotheses they are able to test, decide on instrument selection, consider potential extraneous and confounding variables (and how they will handle them if at all), select appropriate analyses for their data and hypotheses, and then present the results of their work in both poster and research report format.

Requisite: 2.5 PSY GPA, 15 PSY credits including PSY 291 or PSY 292, and PSY 390, Senior Status, BS in Psychology major.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

PSY 491. Advanced Biobehavioral Statistics. 3 Credit Hours.

This course builds upon the material covered in PSY 390. After a brief review, analysis of variance and multiple regression will be covered using a general linear model (GLM) approach. The goal is to prepare students for graduate level work in applied statistics.

Requisite: 2.5 PSY GPA and 15 credits in PSY courses, including PSY 291 or PSY 292, PSY 390.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

PSY 520. Psychoneuroimmunology. 3 Credit Hours.

This course is designed to present some of the basic information necessary to interpret the current literature in psychoneuroimmunology (PNI) and to design research in this area.

Requisite: 2.8 PSY GPA; 18 credits in PSY, including PSY 390.

Components: LEC.

Grading: GRD.

PSY 540. Culture, Values, Religiosity, And Mental Illness. 3 Credit Hours.

Cultural differences in the manifestation, course, and outcome of serious mental disorders; the relationship between chronic mental disorders and ethnicity, religious values, family cohesion, attributions of control, and world view; cultural differences in societies' reactions to and treatment of mentally ill patients.

Components: LEC.

Grading: GRD.

PSY 575. Special Topics. 1-3 Credit Hours.

Requisite: 2.8 PSY GPA, 18 PSY credits including PSY 390.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PSY 580. Senior Honors In Psychology I. 3 Credit Hours.

Students work closely with a faculty member to design a unique research study and write a scientific paper to report on the results. Limited to undergraduate students only.

Requisite: Permission of UASP and faculty required, 3.5 Major GPA, 3.3 Combined GPA, PSY or NEU major, 18 PSY credits, including PSY 390.

Components: IND.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

PSY 581. Senior Honors In Psychology II. 3 Credit Hours.

Students work closely with a faculty member to design a unique research study and write a scientific paper to report on the results. Limited to undergraduate students only.

Requisite: Permission of UASP and faculty required, 18 PSY credits including PSY 580.

Components: IND.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

PSY 601. Issues in Professional Development and Research.. 1 Credit Hour.

Seminar addressing issues such as structure of academic systems and progress through them, time management, library search systems, professional journals, how to structure curriculum vitae, procedures and rules in human subject research, professional meetings and presentations, extramural funding opportunities, professional writing style, ethical issues.

Requisite: Plan of Graduate Psychology.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

PSY 602. Scientific writing and grantsmanship. 3 Credit Hours.

Writing and organizational skills for professional development in social and behavioral sciences. Mechanism of extramural funding and grant review, including grantsmanship.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PSY 603. Neuroanatomy. 3 Credit Hours.

Functional neuroanatomy for individuals engaged in basic neuroscience and psychological research. Gross anatomy, identification of pathways and circuits, and physiological functions of neuroanatomical systems. Clinical examples and case histories of neuroanatomical disorders. Laboratory exercises including brain dissections, examination of brain models and atlases, and internet neuroanatomy websites.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

PSY 604. Cognition and Emotion. 3 Credit Hours.

Study of basic cognitive processes of attention and memory, the function of emotions, and the role of cognitive mechanisms in the processing of affective information.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

PSY 605. Cognitive Neuroscience. 3 Credit Hours.

Brain mechanisms in cognition and behavior, including sensory encoding and perception, attention, motivation, emotion, learning/memory, language, executive functions, and mental disorders.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

PSY 606. Biobehavioral Processes and Disease in Health Psychology. 3 Credit Hours.

Central nervous system, cardiovascular, endocrine, immune, and other biological processes examined in the context of behavioral medicine and health psychology research. Discussion of basic mechanisms in physiological regulation and dysregulation of the cardiovascular and immune systems, with specific reference to cardiovascular behavioral medicine and psychoneuroimmunology.

Prerequisite: PSY 610.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

PSY 609. Psychopharmacology. 3 Credit Hours.

Basic methods and current issues in psychopharmacology.

Prerequisite: PSY 605.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PSY 610. Behavioral Medicine: Overview of Basic Science, Public Health & Clinical Trial Approaches. 3 Credit Hours.

Overview of biobehavioral, psychosocial and sociocultural factors in pathogenesis, prevention and treatment of physical disorders.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

PSY 613. Psychoneuroimmunology. 3 Credit Hours.

Structural and functional aspects of the immune system that are sensitive to neural and psychological processes. Interactions between the nervous and immune systems are examined in relation to empirical associations between psychological factors (i.e., stress) and immune-mediated processes in diseases such as cancer and AIDS.

Prerequisite: PSY 605.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

PSY 614. Diversity issues in psychology. 3 Credit Hours.

Overview of diversity issues including race, religion, gender, age, sexual orientation, physical disability and socioeconomic status as they relate to psychological research and clinical practice.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

PSY 615. Foundations of neuropsychology. 3 Credit Hours.

Mechanisms of neurological and psychiatric disorders, including developmental disorders, dementia, aphasia, amnesia, stroke, traumatic brain injury, and loss of general intelligence. Clinical tools for neuropsychological assessment, forensics, and genetic screening.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

PSY 616. Biobehavioral Processes and Clinical Research Applications in Health Psychology. 3 Credit Hours.

Conduct of clinical research and examination of biobehavioral processes in health psychology. Lectures, readings and assignments deal with clinical research involving pathology, assessment and intervention-based functions with applications focused on health and disease conceptualized at multiple levels of prevention.

Prerequisite: PSY 606 and PSY 610.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

PSY 620. Developmental Psychology. 3 Credit Hours.

Emphasis on applied research and interventions.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PSY 621. Theories of Development. 3 Credit Hours.

Theoretical aspects of psychological development throughout the life span.

Prerequisite: PSY 620.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

PSY 622. Cognitive Development. 3 Credit Hours.

Theories of cognitive development across infancy, childhood, and adolescence. Topics include measurement approaches, normative development, individual differences, etiological factors and contextual influences.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PSY 623. Language Development. 3 Credit Hours.

Theories of receptive and expressive language development across childhood. Topics include measurement approaches, normative development, individual differences, etiological factors and contextual influences.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PSY 624. Social Development. 3 Credit Hours.

The theoretical and empirical literature on typical and atypical social development-including emotional development and social cognition-in infants, children, and adolescents. Topics include measurement approaches, individual differences and contextual influences.

Prerequisite: PSY 620.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

PSY 625. Social Psychology. 3 Credit Hours.

Overview of the major substantive areas and theories of social psychology. Emphasis on applications to health-related concerns.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

PSY 631. Psychological Statistics, Research Methods, and Design. 3 Credit Hours.

Statistics for experimental design with uncorrelated independent variables. Review of t-tests; designs and applications of analysis of variance; including one-way, factorial, repeated-measures, and mixed designs; post hoc comparisons among means.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

PSY 632. Multiple Regression and Multivariate Statistics. 3 Credit Hours.

Techniques for the analysis of multiple quantitative measurements including multiple regression, multivariate analysis of variance, discriminant analysis and canonical correlation. Computer application of these techniques to the behavioral sciences.

Prerequisite: PSY 630 or EPS 568, and EPS 653.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

PSY 633. structural equation modeling. 3 Credit Hours.

Structural equation modeling. Specific and testing explicit theory based models of covariances among variables. Structural models, path analysis, measurement models, and confirmatory factor analysis, particularly related to hypotheses about causal relations, change over time, and comparisons across diverse populations.

Prerequisite: PSY 632.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

PSY 634. Hierarchical Linear Evaluation. 3 Credit Hours.

Hierarchical linear modeling. Multi-level modeling of nested and non-independent data. Application of multi-level modeling to social science and behavioral data, including computer laboratory exercises.

Prerequisite: PSY 632.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

PSY 636. Research Methods With Children And Adolescents. 3 Credit Hours.

Concepts and research design approaches for the measurement and analysis of data across developmental stages from infancy through adolescence.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

PSY 638. Psychology of Infant Development. 3 Credit Hours.

Theory, research, and methodology pertaining to psychological development in the first two years of life. Applied research on infancy as it pertains to individual differences in cognitive, social, and emotional development.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PSY 639. Autism And Developmental Disabilities. 3 Credit Hours.

Developmental disabilities with an emphasis on autism. Biological, social, cognitive and emotional concomitants. History, etiology, assessment, and individual differences.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PSY 640. Adult Psychopathology. 3 Credit Hours.

Theories, models, history, and research relevant to various patterns of problematic behavior, with a focus on adults. The influences of family systems as well as cultural and other diversity factors (e.g., ethnicity, sexual orientation) are included.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

PSY 641. Child and Adolescent Psychopathology. 3 Credit Hours.

Theories, models, and research relevant to the development and the course of behavioral disorders and other problems (e.g., maltreatment, exposure to violence and poverty) that emerge in childhood and adolescence. The influences of family and peer systems as well as cultural and other diversity factors (e.g., ethnicity, sexual orientation) are included.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

PSY 642. Advanced Adult Psychopathology. 3 Credit Hours.

Theory and research on risk factors and etiological models of mental disorders. Socioenvironmental (cultural, social support, life events), psychological (temperament, cognitive biases), and biological (genes, neurotransmitters) models of risk, research methodology, and design are discussed.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

PSY 643. Behavioral Medicine and Developmental Disabilities. 3 Credit Hours.

Processes influencing diagnosis and management of developmental disabilities: genetics, embryology/fetology, physical growth and development, nutrition, hearing and speech pathology, family dynamics, cognition and psycho-educational assessment.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

PSY 645. Introduction to Psychological Evaluation. 3 Credit Hours.

Measurement theory; introduction to the administration and interpretation of widely-used intelligence and personality tests, with attention to issues of ethics and diversity.

Requisite: Plan of Graduate Psychology.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

PSY 646. Psychological Evaluation of Adults. 3 Credit Hours.

Issues of diversity, ethics, and personality theory as they pertain to psychological evaluation of adults. Emphases on the use of projective and objective personality assessment methods.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

PSY 647. Psychological Evaluation of Children and Families. 3 Credit Hours.

Clinical and developmental theory and methods pertaining to the evaluation of children, adolescents, and families including intelligence tests, structured diagnostic instruments, personality and behavioral check lists, observational formats, interviewing, and projective assessment. Attention to issues of ethics and diversity.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

PSY 648. Psychological Evaluation in Physical Disorders. 3 Credit Hours.

Administration, interpretation, and psychometric evaluation of psychological tools and procedures used in the evaluation of physical disorders. Attention to issues of ethics and diversity.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

PSY 650. Laboratory in Clinical Psychology. 0 Credit Hours.

Practical training in clinical skills such as assessment, interviewing, and case conceptualization. Laboratory to be used in conjunction with courses such as PSY 640 and PSY 645

Components: LAB.

Grading: GRD.

Typically Offered: Fall & Spring.

PSY 656. Introduction to Evidence-Based Psychological Treatments. 3 Credit Hours.

Theories, history, and techniques of psychological and behavioral therapies, with emphasis on evidence-based approaches.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

PSY 657. Introduction to Psychotherapy, Ethics, and Professional Issues. 3 Credit Hours.

Introductory experience in clinical interviewing, therapeutic communication, ethics, and case conceptualization. Consideration of client-and-therapist culture, gender, and diversity are also emphasized.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

PSY 660. Evidence-Based Psychological Intervention with Children and Families. 3 Credit Hours.

Theories, history, and techniques of psychological and behavioral therapies, with emphasis on evidence-based approaches with children, adolescents, and families. Understanding normative and deviant development, with attention to issues of diversity, ethics, and domestic violence.

Prerequisite: PSY 656.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

PSY 661. Interventions in Pediatric Psychology. 3 Credit Hours.

Pediatric psychology and basic learning theory. Medical and behavioral aspects of child and adolescent health disorders, psychological assessment, and evidence-based treatment approaches.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

PSY 662. Health Psychology Interventions. 3 Credit Hours.

Clinical interventions and research relevant to health problems and lifestyle, with emphasis on critical evaluations of past research and the design and implementation of intervention protocols. The origins of health psychology and the role of the health psychologist in medical systems.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

PSY 670. Practicum in Clinical Psychology. 1-3 Credit Hours.

Supervised experience in evaluating and treating psychological problems of children, adolescents, families, and/or adults behavior. For students placed at the U.M. Psychological Services Clinic there is a weekly case conference that focuses on ethics case conceptualization. Course may be repeated for credit.

Components: PRA.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

PSY 671. Practicum in Clinical Psychology II. 0 Credit Hours.

Continuation of PSY 670.

Corequisite: PSY 645.

Components: LAB.

Grading: GRD.

Typically Offered: Fall.

PSY 672. Advanced Practicum in Clinical Psychology. 1-3 Credit Hours.

Advanced experience in special clinical techniques and clinical supervision. Primarily for post-internship clinical students. The advisor may direct that PSY 672 be repeated, but no more than six credits may be applied toward a degree.

Components: PRA.

Grading: GRD.

Typically Offered: Fall & Spring.

PSY 680. Research. 1-4 Credit Hours.

Investigation of an original problem.

Components: THI.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

PSY 681. Research. 1-4 Credit Hours.

Investigation of an original problem.

Components: IND.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

PSY 683. Special Topics. 3 Credit Hours.

Topics in selected areas of specialization.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

PSY 684. Readings in Psychology. 3 Credit Hours.

Supervised readings in selected topics.

Components: THI.

Grading: GRD.

Typically Offered: Fall & Spring.

PSY 685. Seminar in Clinical Psychology. 3 Credit Hours.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

PSY 687. Seminar in Clinical Psychology. 3 Credit Hours.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PSY 688. Seminar in Developmental Psychology. 3 Credit Hours.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PSY 690. Seminar in Developmental Psychology. 3 Credit Hours.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PSY 692. Seminar in Personality. 3 Credit Hours.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

PSY 693. Seminar in Behavioral Medicine. 3 Credit Hours.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

PSY 694. Seminar in Behavioral Medicine. 3 Credit Hours.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

PSY 697. Seminar in Biological Psychology. 3 Credit Hours.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

PSY 698. Seminar in Quantitative Psychology. 3 Credit Hours.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

PSY 804. Internship in Clinical Psychology. 1 Credit Hour.

Supervised internship in clinical psychology. May not be counted as part of the 90 hours required for the Ph.D. degree.

Components: THI.

Grading: GRD.

Typically Offered: Fall & Spring.

PSY 805. Postdoctoral Practicum. 1-3 Credit Hours.

Advanced clinical psychology training for individuals who have completed a clinical psychology Ph.D. or PsyD. from an APA-accredited doctoral program. Supervision of clinical activity by licensed faculty members.

Components: THI.

Grading: GRD.

Typically Offered: Fall.

PSY 806. Summer Research Practicum. 1 Credit Hour.

Faculty-supervised research during the summer for students in the Psychology Ph.D. Program.

Components: THI.

Grading: GRD.

Typically Offered: Summer.

PSY 810. Master's Thesis. 1-6 Credit Hours.

The student working on his/her master's thesis enrolls for credit, in most departments not to exceed six, as determined by his/her advisor. Credit is not awarded until the thesis has been accepted.

Components: THI.

Grading: SUS.

Typically Offered: Fall & Spring.

PSY 820. Research in Residence. 1 Credit Hour.

Research in residence for the thesis for the master's degree after the student has enrolled for the permissible cumulative total in PSY 810 (usually six credits). Credit not granted. May be regarded as full time residence.

Components: THI.

Grading: GRD.

Typically Offered: Fall & Spring.

PSY 825. Continuous Registration--Master's Study. 1 Credit Hour.

To establish residence for non-thesis master's students who are preparing for major examinations. Credit not granted. Regarded as full time residence.

Components: THI.

Grading: GRD.

Typically Offered: Fall & Spring.

PSY 830. Doctoral Dissertation. 1-12 Credit Hours.

Required of all candidates for the Ph.D. The student will enroll for credit as determined by his/her advisor, but for not less than a total of 12 hours. Up to 12 hours may be taken in a regular semester, but not more than six in a summer session.

Components: THI.

Grading: SUS.

Typically Offered: Fall & Spring.

PSY 840. Post-Candidacy Doctoral Dissertation. 1-12 Credit Hours.

Required of all candidates for the Ph.D. who have advanced to candidacy. The student will enroll for credit as determined by his/her advisor, but not for less than a total of 12. Not more than 12 hours of PSY 740 may be taken in a regular semester, nor more than six in a summer session.

Components: THI.

Grading: SUS.

Typically Offered: Fall & Spring.

PSY 850. Research in Residence. 1 Credit Hour.

Used to establish research in residence for the Ph.D., after the student has been enrolled for the permissible cumulative total in appropriate doctoral research. Credit not granted. May be regarded as full-time residence as determined by the Dean of the Graduate School.

Components: THI.

Grading: SUS.

Typically Offered: Fall & Spring.

Public Health (BPH)

BPH 202. Introductory Statistics In Health Care. 3 Credit Hours.

Application of descriptive and inferential statistics. Principles and methods of summarizing data including tables, graphs, percentile ranks, central tendency, variability, normal distribution. Basic concepts of probability, hypothesis testing, and analysis of variance. Examples and problems from nursing, health sciences, and public health.

Corequisite: MTH 101. Or Requisite: ALEKS > or = 55 or SAT Score > or = 630 or ACT > or = 28.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

BPH 206. Introduction To Public Health. 3 Credit Hours.

Introduction to all aspects of public health, including health services administration, and policy.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Summer.

BPH 208. Introductory Epidemiology. 3 Credit Hours.

This course is a general introduction to epidemiology, definition of concepts and natural history of disease and levels of prevention. It also covers measures of morbidity and mortality. Epidemiologic aspects of infectious and chronic diseases.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

BPH 301. Human Sexuality And Vulnerable Populations. 3 Credit Hours.

The study of human sexuality via multidisciplinary theoretical perspectives and research. Students will examine the complex relationships of the physiological, psychological, cultural, gender, religious, historical, and political aspects of human sexuality. Human sexuality in the context of health disparities will form the foundation for the course. WRITING COURSE.

Prerequisite: BPH 206. Or Requisite: Junior Status.

Components: LEC.

Grading: GRD.

BPH 303. Hiv/Aids And Health Maintenance For Health Care Providers. 3 Credit Hours.**Components:** LEC.**Grading:** GRD.**Typically Offered:** Offered by Announcement Only.**BPH 305. Issues In Health Disparities. 3 Credit Hours.**

This course will be an introduction to the general research on health systems and health disparities. Emphasis will be placed on social, biological, economic, and social policy issues that impact on the health of minority populations. Concepts associated with epidemiology, poverty, racism, public policy, and international politics will be explored. WRITING COURSE.

Prerequisite: BPH 206. Or Requisite: Junior Status.

Components: LEC.**Grading:** GRD.**Typically Offered:** Fall.**BPH 306. Principles Of Nutrition. 3 Credit Hours.**

Principles of nutrition integrated with cultural dietary patterns for client adaptation across the lifespan.

Requisite: Sophomore Status or Permission of Instructor.

Components: LEC.**Grading:** GRD.**Typically Offered:** Fall.**BPH 309. Health & Environ.. 3 Credit Hours.**

This course examines health issues, scientific understanding of causes and possible future approaches to control of the major environmental health problems. Topics include how the body reacts to environmental pollutants; physical, chemical, and biological agents of environmental contamination; vectors for dissemination; susceptible populations; the scientific bases for policy decisions and emerging global environmental health problems.

Prerequisite: BPH 206.

Components: LEC.**Grading:** GRD.**Typically Offered:** Fall.**BPH 310. Global Health. 3 Credit Hours.**

Introduction to the concepts of global health and the critical links between public health and social and economic development. Determinants of health and patterns of disease and health outcomes across the global are critically examined. The course reviews the determinants of health status in terms of biology, demography, epidemiology, culture, sociology, economics, and politics. Key concerns regarding reproductive health, child survival, nutrition, communicable diseases, and chronic diseases are examined. Health care delivery in developed vs. undeveloped regions of the world are emphasized.

Prerequisite: BPH 206.

Components: LEC.**Grading:** GRD.**Typically Offered:** Spring.**BPH 317. Theories In Growth And Development. 3 Credit Hours.**

Application of growth and development theories through the lifespan with a case study approach to issues commonly encountered nursing practice in a variety of clinical settings.

Components: LEC.**Grading:** GRD.**Typically Offered:** Fall & Spring.**BPH 319. Contemporary Issues In Bioethics For Health Care. 3 Credit Hours.**

Prerequisite: BPH 206.

Components: LEC.**Grading:** GRD.**Typically Offered:** Offered by Announcement Only.**BPH 321. Health Promotion And Disease Prevention. 3 Credit Hours.**

The focus of this course is on the understanding and implementation of strategies aimed at promoting health and preventing disease. It also focuses on optimal health maintenance and wellness support for individuals, families, and communities. The content of the course includes health across the lifespan and resources associated with health promotion. Common health alternations will be discussed, as well as socio-cultural perceptions of health and illness.

Prerequisite: BPH 206.

Components: LEC.**Grading:** GRD.**Typically Offered:** Fall.**BPH 322. Introduction To Health Policy. 3 Credit Hours.**

This course provides an introduction to the organization, delivery, and financing of health care in the United States. We will consider policy challenges created by the structure of the health care system, including access to care, quality of care, and cost growth. Major areas of focus will include public insurance programs, private insurance, the uninsured, health disparities, and implementation of health care reform legislation.

Components: LEC.**Grading:** GRD.**Typically Offered:** Spring.**BPH 352. Biological Principles Of Public Health. 3 Credit Hours.**

This course examines the biological basis and pathogenesis of diseases from a public health perspective and describes the impact on populations. This course also presents the basic scientific and biomedical concepts of modern public health problems and explores in depth mechanisms and models of the major categories of disease. The biologic principles presented in this course are foundations to developing and implementing public health disease prevention, control, or management programs.

Prerequisites: BPH 206, BIL 150, BIL 151, CHM 103 or CHM 111, CHM 105 or CHM 113.

Components: LEC.**Grading:** GRD.**Typically Offered:** Fall.**BPH 355. Global Nutrition. 3 Credit Hours.**

This course examines nutrition related public health issues in the global setting. Nutrition related morbidity and mortality, etiologic factors, and population-focused strategies to address these issues are covered. Food relief and nutrition policies and programs at the local, national and international levels are examined. Current scientific research in international nutrition is reviewed from an epidemiological perspective.

Prerequisite: BPH 206.

Components: LEC.**Grading:** GRD.**Typically Offered:** Offered by Announcement Only.

BPH 402. Global Health Disparities Research. 3 Credit Hours.

This is a 4 week intensive educational experience that prepares students to be successful conducting supervised health disparities research as part of the MHIRT program at a foreign institution, disseminating findings, and applying to graduate school. The training program is broken into a preparation phase (3 weeks prior to leaving to their host country), and a dissemination phase (1 week after they return). Students will be working as a research assistant at a foreign site for eight weeks in between the preparation and dissemination phases of this training program. Students will learn about the influence of culture and healthcare policy on health and health disparities, research design, statistics, communicating research findings and careers in health disparities research.

Components: LEC.

Grading: GRD.

Typically Offered: Summer.

BPH 419. Contemporary Health Issues In South Florida. 3 Credit Hours.

This course will provide students with an in-depth look at public health topics relevant to communities in South Florida. Emphasis will be placed on the social, cultural, and policy issues that impact the health of vulnerable populations in our community. Interdisciplinary researcher knowledge and practice from the University of Miami and other relevant institutions will be highlighted.

Prerequisite: BPH 206.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

BPH 461. Practicum In Health Disparities Research. 1-4 Credit Hours.

This course is designed to provide opportunities for students across all levels of higher education to participate in health disparities research. Students will be mentored by a health disparities researcher with an active research project. Objectives will be established by the research mentor and the student according to educational level, interests and opportunities. Students will be incorporated into the research team and expected to attend project meetings. They will also be expected to participate in scholarly work that could contribute to the success of the project. Examples of scholarly work include co-authoring research papers and presentations, developing recruitment materials, assisting in compiling/developing data collection measures, or any other product deemed appropriate by the mentor.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

BPH 465. Public Health Statistics And Data Management. 3 Credit Hours.

This course is designed to give students an opportunity to apply basic principles of statistics and data management in public health. Students will learn to use statistical techniques to answer questions relating to the morbidity and mortality of health conditions and the efficacy and effectiveness of public health interventions.

Prerequisites: BPH 202 or HCS 202, NUR 202, BPH 206 or HCS 206.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

BPH 487. Global Health Practicum. 3 Credit Hours.

Collaborative clinical venture between UM/SON and an International School of Nursing. Students will exchange supervised western clinical experiences, knowledge and skills for the care of clients and families in specialty areas, including MedSurg, ICU and/or Emergency nursing units. Students will apply and synthesize basic science knowledge and skills that foster ethical, legal, and culturally specific health care.

Prerequisite: BPH 206.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

BPH 490. Field Practicum In Community Health. 3 Credit Hours.

This course provides students with field experiences in community health. During the didactic portion of the course, students will be introduced to the basic principles and methods used in community health assessment, program development, program implementation, and evaluation. During the field experience component of the course students will work under the supervision of lead faculty to apply the knowledge and skills they obtained during their course of study to address a public health issue.

Prerequisites: BPH 206, BPH 208, BPH 309, BPH 310, BPH 321, BPH 322, BPH 352, BPH 465. Requisite: Must be in BSPH Program.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

BPH 499. Selected Topics. 6.00 Credit Hours.

Offerings will vary by semester based upon student demand and availability of faculty.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

RSMAS General (RSM)

RSM 500. Research Diving Techniques. 3 Credit Hours.

This course is designed to introduce students to the practices and policies of scientific diving. The object is to prepare students to use SCUBA as a research tool for the marine sciences. The course content will qualify students as RESE ARCH DIVERS under the UM/RSMAS Scientific Diving Program and will meet the standards set by the American Academy of Underwater Sciences (AAUS).

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

RSM 512. Statistics for Environmental Management. 3 Credit Hours.

This course covers the statistical theory, tools, and methods required for management analysis and improvement, emphasizing marine science applications.

Components: THI.

Grading: GRD.

Typically Offered: Fall.

RSM 520. Climate and Society. 3 Credit Hours.

This course is designed to provide students from different disciplinary backgrounds with an overview of physical processes, general concepts and policy debates surrounding climate issues.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

RSM 521. Object-Oriented Programming And Agent-Based Modelling. 3 Credit Hours.

"Hands-on training in object-oriented programming using Java, including Java statistical packages, and in the development of agent-based and individual-based simulation models for ecological, physiological, social, economic and physical sciences. Course includes introductions to cellular automata and models based on social and behavioral networks. No prior programming experience required."

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

RSM 545. Scientific Communication. 0 Credit Hours.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

RSM 560. Investigating Nature through Science Teacher Active Research (INSTAR) in Physical Science. 2 Credit Hours.

This is a graduate level marine science course that provides a hands-on approach to education focused on geological and meteorological research in South Florida environment. The course provides training in marine science content, field techniques, state-of-the-art field, computer technology, and science educational reform measures. Participants work collaboratively with marine and atmospheric scientists to bring cutting edge marine science content and research to the classroom focusing on the following coastal themes: geology, hydrology and meteorology. The course will be applicable to all graduate and qualified undergraduate marine science students, per-service teachers in colleges of education, and in-service teachers in school systems throughout the country.

Components: LEC.

Grading: GRD.

Typically Offered: Summer.

RSM 561. INSTAR for Physical Sciences Follow-up. 1 Credit Hour.

This is a follow-up course for participants in MGG 560 and is designed to test the application of the methods learned in MGG 560 to the teaching of high school students. Participants are expected to show evidence of teaching material learned in MGG 560.

Components: LEC.

Grading: GRD.

Typically Offered: Summer.

RSM 562. Investigating Nature through Science Teacher Active Research in Biological Science. 2 Credit Hours.

This is a graduate level marine science course that provides a hands-on approach to education focused on marine science research and technology in South Florida coastal environments. The course provides training in marine science content, field techniques, state-of-the-art field and computer technology, and science educational reform measures. Participants work collaboratively with marine scientists to bring cutting edge marine science content and research to the classroom focusing on the following coastal themes: coral reefs and marine fisheries. The course will be applicable to all graduate and qualified undergraduate marine science students, per-service teachers in colleges of education, and in-service teachers in school systems throughout the country.

Components: LEC.

Grading: GRD.

Typically Offered: Summer.

RSM 563. INSTAR Biological Sciences Follow-up. 1 Credit Hour.

This is a follow-up course for participants in RSM 562 and is designed to test the application of the methods learned in RSM 562 to the teaching of high school students. Participants are expected to show evidence of teaching material learned in RSM 562.

Components: LEC.

Grading: GRD.

Typically Offered: Summer.

RSM 565. Fish Ecology and Oceanography. 3 Credit Hours.

This course is intended to introduce students to key biological, ecological, oceanographic, and climatic processes of direct relevance to fishery species, with a view toward development of an ecosystem perspective.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

RSM 566. Polar Science. 3 Credit Hours.

The course covers the physical, chemical and biological components of the polar oceans, atmosphere and coastal regions. The interactions between ocean, ice, atmosphere and land are discussed in detail not only in terms of local relationships, with links to the climate system.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

RSM 567. Motorboat Operator Certificate Course. 1 Credit Hour.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

RSM 570. Carbon and Climate. 3 Credit Hours.

This course is designed to provide students from different disciplinary backgrounds with an overview of the underlying processes, concepts, and policy debates surrounding the issue of carbon emissions and climate change. Individual faculty from RSMAS and elsewhere will lecture on cutting-edge research areas. Topics covered include: climate modeling; and climate policy.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

RSM 571. Special Topics. 1-4 Credit Hours.

Lectures and research projects in special topics related to Marine and Atmospheric Science.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

RSM 572. Special Topics. 1-4 Credit Hours.

Lectures and research projects in special topics related to Marine and Atmospheric Science.

Components: LAB.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

RSM 573. Special Topics. 1-3 Credit Hours.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

RSM 574. Special Topics. 1-3 Credit Hours.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

RSM 575. Special Topics. 1-3 Credit Hours.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

RSM 600. Research Diving Techniques. 3 Credit Hours.

This course is designed to introduce students to the practices and policies of scientific diving. The object is to prepare students to use SCUBA as a research tool for the marine sciences. The course content will qualify students as RESEARCH DIVERS under the UM/RSMAS Scientific Diving Program and will meet the standards set by the American Academy of Underwater Sciences (AAUS).

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

RSM 612. Statistics for Environmental Management. 3 Credit Hours.

This course covers the statistical theory, tools, and methods required for management analysis and improvement, emphasizing marine science applications.

RSM 700. Research Ethics. 0 Credit Hours.

The NIH Guide for Grants and Contracts stipulates that Institutions receiving support for National Research Service Award Training Grants are required to develop a program in the principles of Scientific Integrity. The University of Miami Rosenstiel School has chosen to respond to this requirement with this course. This course must be taken during the first semester in the Department or Program. This is a six-hour course and will be given in two sessions of three hours each.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

RSM 720. Object-oriented Programming and Agent-based Modeling. 3 Credit Hours.

Basics of object-oriented programming using Java, including Java statistical packages, and hands-on development of agent-based simulation models for social, economic, biological and physical sciences. Includes introductions to automaton and individual-based models.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

RSM 771. Advanced Studies. 1-4 Credit Hours.

Radiology (RAD)

RAD 101. SURVEY. 3 Credit Hours.**Components:** LEC.**Grading:** GRD.**Typically Offered:** Spring.

Real Estate Development (RED)

RED 601. Introduction to Real Estate Development and Urbanism.. 3 Credit Hours.

Fundamentals of real estate development of urban places, including the many challenges of the development process such as analyzing market sectors and development opportunities, comprehending the development context of regulation, public policy and politics, raising investment capital, assembling land, program formulation, building types, construction management, marketing, and sales.

Components: LEC.**Grading:** GRD.**Typically Offered:** Fall.**RED 610. Financing Urban Real Estate Development. 3 Credit Hours.**

Concepts and techniques for analyzing financial decisions in property development and investment including: real estate economics and investment performance measurement, leasing and property income streams, pro forma analysis, basics of equity and debt valuation, income tax and leverage considerations, mortgages, and deal structures. Emphasis financing individual projects.

Components: LEC.**Grading:** GRD.**Typically Offered:** Fall.**RED 620. Real Estate Law. 3 Credit Hours.**

Fundamentals of law and the entitlement process, including contractual aspects of real estate development, finance, management and ethical issues and a real-world overview of the review and approvals process.

Components: LEC.**Grading:** GRD.**Typically Offered:** Fall.**RED 630. Market Analysis for Urban Markets. 3 Credit Hours.**

Identification of critical market factors that determine development opportunities. Topics include business and construction cycles, regional and urban growth trends, commercial and industrial location theories, and advanced demographic analysis and projection techniques to project and analyze occupancy, rental growth, absorption, and competitive supply.

Components: LEC.**Grading:** GRD.**Typically Offered:** Fall.**RED 640. National Charrette Institute (NCI). 1 Credit Hour.****Components:** LEC.**Grading:** GRD.**Typically Offered:** Spring.**RED 650. Complex Urban Real Estate Transactions. 6 Credit Hours.**

Real estate finance, law, and deal structuring from the perspective of developers. Using the case study method, the course explores the legal components and the skills needed for drafting the documentation involved in sophisticated real property transactions, as well as complex original financings. prerequisite: Successful completion of Real Estate Finance and Real Estate Law.

Components: LEC.**Grading:** GRD.**Typically Offered:** Spring.**RED 660. Urban Infill, Preservation & Mixed Use Development.. 3 Credit Hours.**

Builds students' competencies for infill and redevelopment practice focusing on: mixed-use development, transit oriented development, barriers and solutions for urban infill development, urban site analysis, repositioning of urban land, vacant and underutilized properties, long-term land leases, tax incentives, historic preservation, public-private partnerships, business improvement districts, tax increment financing, community (re)development districts, parking strategies, and urban housing types.

Components: LEC.**Grading:** GRD.**Typically Offered:** Spring.**RED 670. Construction and Project Management. 3 Credit Hours.**

Management of construction projects including legal considerations and techniques of management science applied to construction. Includes engineering methods of cost and time estimating, and exercises in applications of engineering economics, flow charts, tracking progress, construction contracts, indemnity agreements, and network planning techniques including CPM and PERT.

Components: LEC.**Grading:** GRD.**Typically Offered:** Spring.**RED 680. Entrepreneurship: Building A Real Estate Development Company. 3 Credit Hours.**

Focuses on management and business practices for building new urban real estate firms capable of leading the industry and assuming competitive advantages over conventional models.

Components: LEC.**Grading:** GRD.**Typically Offered:** Spring.**RED 690. Integrated Real Estate Development Case Studies Practicum. 3 Credit Hours.**

Students integrate and apply their learning and skills to complex problem-solving involving a series of intensive real world cases of urban real estate development. Focuses on project feasibility and helps hone the required set of development skills.

Components: LEC.**Grading:** GRD.**Typically Offered:** Summer.

RED 699. Capstone: Real Estate Development and Urbanism Charrette. 3 Credit Hours.

An intensive real estate development and urban design studio in which students are part of a multi-disciplinary team on an urban development project. Focuses on comprehensive analysis, project planning, feasibility and program development through the application of advanced development skills in an urban context.

Components: LEC.

Grading: GRD.

Typically Offered: Summer.

Religious Studies (REL)

REL 100. Introduction To Hinduism. 3 Credit Hours.

Introduces academic ways of studying religious traditions, and, in particular the tradition(s) of Hindu practice. A religious tradition with contested dates of origins, Indic religious practices that now fall under the term "Hindu" are documented as early as 1500 BCE. The ideas, philosophies and practices that are called Hinduism today grew and diversified through periods of regional empire in the Indian subcontinent, through Indian expansion into the Indian Ocean region, during the arrival and colonization of Persian and European powers in India, and into the modern period of Indian democracy - and beyond. Today, Hindu practices are part of the landscape not only in India, but in Europe, Africa, the Middle East, Southeast Asia and the Americas, too.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

REL 101. Introduction to Religion. 3 Credit Hours.

An overview of religious perspectives concerning ultimate reality, humankind, and the world, with special attention to major Asian and Abrahamic religions.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

REL 102. Problem of God. 3 Credit Hours.

Contemporary religious issues related to the concept of God. Foundational to this course is an examination of the religious dimension of human experience and consciousness in relation to a number of historical and contemporary problems and challenges. This course approaches the problem of God? from the angle of human experience, focusing on the various historical, social, and existential determinants of belief. Topics include: globalized religion, the challenge of atheism and humanism, the impact of secularization on religion, and an exploration of the historical, social, and theological images of creation and the divine.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

REL 103. One God: Judaism, Christianity, Islam. 3 Credit Hours.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

REL 105. One Goal: Transforming the Self in Asian Religions. 3 Credit Hours.

A selective survey of some of the continent's major religious traditions that attempts to provide a sense of their diversity, including a hint of their internal diversity. We will encounter major figures, doctrines, and ethical precepts, but special attention will be paid to one key element shared that distinguishes them from their Abrahamic counterparts (Judaism, Christianity, and Islam): the one goal of self-transformation and the techniques for achieving it. Here we will find the differences among traditions thrown into stark relief even as we encounter surprising parallels and continuities. Along the way students will be exposed to major concepts and approaches to the academic study of religion.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

REL 109. Anthropology of Religion. 3 Credit Hours.

Through themes such as myth, word and text, symbol, gender, pilgrimage, embodiment, and ritual, students learn about lived religion through anthropological research and field methods. The course also exposes introductory-level students to diverse world religious traditions: Korean folk religion, Indonesian Islam, Hinduism in diaspora, Judaism across cultures, Japanese temple Shinto traditions, and more.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

REL 111. Introduction to the Old Testament / Hebrew Scriptures. 3 Credit Hours.

The history and literature of ancient Israel and early Judaism.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

REL 121. Introduction to the New Testament. 3 Credit Hours.

The history and literature of the early Christian movement.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

REL 131. Religion in America. 3 Credit Hours.

The history of religion in the U.S. from the pre-colonial period to the present. Includes study of the religion of Native Americans, African Americans, Asian Americans, women, Protestants, Catholics, Jews, and cults.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

REL 151. Religion and Moral Choices. 3 Credit Hours.

Religious responses to dilemmas raised by issues such as capital punishment, biotechnology, abortion, euthanasia, and war.

Components: SEM.

Grading: GRD.

Typically Offered: Fall & Spring.

REL 161. Religion and Medicine: Health Care as Spiritual Practice. 3 Credit Hours.

An exploration of the history of medical care and the history of medicine as calling, as well as the changing professionalism of health care; the role of virtue ethics in the practice of medicine; the tensions between religion and medicine; the place of personal religious beliefs in health care; and the changing landscape of health, holism, healing, faith, and the science of medicine.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

REL 171. Introduction to Islam. 3 Credit Hours.

History of Islam, the Qur'an, and the systematization of Islamic law. Emergence of the theological schools, the mystical and philosophical traditions, and the spread of Islamic civilization.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

REL 181. Asian Religions. 3 Credit Hours.

The religions of Asia loom large in American popular consciousness, yet are at best dimly understood. This course will peel back the platitudes of fortune cookies and "Eastern wisdom" to reveal the richness of Asian religious traditions in their cultural contexts. Students in this highly selective survey will be exposed to some of the major traditions of South and East Asia, gaining a familiarity with their ideas, practices, and sacred figures as well as certain key issues and categories in the academic study of religion.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

REL 231. Jewish Civilization and Being Jewish. 3 Credit Hours.

Introduction to Jewish Civilization from Abraham to present.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

REL 232. A Global History of Christianity. 3 Credit Hours.

A survey of the historical development of Christianity from the first century to the present, focusing on the major theological and institutional issues considered in their social and cultural contexts.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

REL 236. Cults and New Religious Movements in America. 3 Credit Hours.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

REL 238. Holy War and Toleration in Western Religious Traditions. 3 Credit Hours.

An exploration of concepts of Holy War and Just War and of traditions of tolerance and intolerance in Judaism, Christianity, and Islam, from ancient times to the present.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

REL 239. Transfer Credits. 1-4 Credit Hours.

Courses taken at other institutions with no direct equivalents (Religious or Historical Traditions subject area).

Components: LEC.

Grading: GRD.

REL 250. Spiritual, Not Religious: Spirituality in the 21st Century. 3 Credit Hours.

An examination of the spiritual outlets and the fabric of religious life in the 21st century, including the New Age movement, the rise of yoga as a spiritual practice, the growth of the self-help phenomenon, the influence of spiritually-oriented figures like Oprah, and the adaptation of religious practice to spiritual seeking. In particular, we will filter this discussion through the experience of the growing percentage of relatively young Americans have no affiliation with religious institutions, many of whom feel attracted to an uncoordinated and decentralized spirituality directed by an individual's life and practice, rather than a church or particular religion.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

REL 252. Religion and Human Sexuality. 3 Credit Hours.

The relationship between religious concepts and sexual values as the religious traditions of the United States confront contemporary sexual ethics and behavior.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

REL 259. Transfer Credits. 1-4 Credit Hours.

Components: LEC.

Grading: GRD.

REL 268. Religion in Modern Israel. 3 Credit Hours.

The role of religious values and institutions in modern Israel, with particular attention to religious elements in nationalism, legal traditions, and the political and educational systems.

Components: LEC.

Grading: GRD.

REL 281. Introduction To Buddhism. 3 Credit Hours.

The Buddhist tradition from a variety of angles and in several cultural contexts. We will attend to the ideas for which Buddhism is famous, while situating Buddhist practitioners in their social contexts at key historical moments. Throughout we will give attention to the issue of our own perspective and what it means to think across the porous borders of culture in an interrelated world.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

REL 288. Chinese Religions. 3 Credit Hours.

Over the last generation, China has largely thrown off communist ideology, becoming an economic powerhouse that will shape the 21st century. Alongside economic growth has come a rediscovery and revitalization of its religious heritage. But what is this religious heritage? What makes it unique? What does it offer? And how does this heritage shape China's religious scene today? This course addresses these questions through a survey of Chinese religion focusing on the "Three Teachings"-Confucianism, Daoism, and Buddhism-as well as popular religion. We will examine their development and mutual interaction, attending to their thought and practice as well as their historical and social context. Students will gain not only a familiarity with the religious traditions of China, but also cultivate their ability to think historically and to balance sympathetic and critical understanding.

REL 291. Introduction to Hinduism. 3 Credit Hours.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

REL 300. Dance & Embodied Knowledge in India. 3 Credit Hours.

This is an experimental interdisciplinary course in dance, religion, and Asian studies. In this course, we will experience and analyze the nature of embodied knowledge and the creative power of performance within the Indian context, and in transnational South Asian communities. We will be asking the question "how and what performance creates," in both practice and theory. We will explore ways in which the body "knows" and participates in ritual and religious knowledge, specifically through the classical Indian dance style of Bharata Natyam. One class period per week will be spent learning basic movements of Bharata Natyam dance, culminating in performance of "Pushpanjali," choreographed dance piece in praise of the Hindu deity Ganesha. Time permitting, we will learn excerpts of "Sarasijakshulu Shabdham," an expressive item celebrating the Hindu deity Krishna. The other two class periods each week will frame dance movement with discussions of Sanskrit aesthetic theory (rasa), Hindu devotionalism (bhakti), Hindu mythology (from which Bharata Natyam choreography draws), yoga, and Western performance theories and theories of the body. We will pay particular attention to the differences in which the body and dance are perceived in myth, sculpture/image, aesthetic theories, and dance itself in literature, film, and our own studio experiences.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

REL 301. Ancient Greece. 3 Credit Hours.

Greek civilization from the Late Bronze Age to the end of Greek independence at the battle of Chaeronea in 338 B.C.E.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

REL 302. The Hellenistic Age. 3 Credit Hours.

Conquests of Alexander the Great and the spread of Greek culture in the Near East under Alexander's successors until the death of Cleopatra in 31 B.C.E.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

REL 303. The Roman Republic. 3 Credit Hours.

Roman civilization from the establishment of the Republic until the Battle of Actium in 31 B.C.E.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

REL 304. The Roman Empire. 3 Credit Hours.

Roman civilization from the reign of Augustus in 27 B.C.E. to the Fall of Rome in 476 C.E.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

REL 305. The Ancient Near East: Religion and Culture. 3 Credit Hours.

Historical and cultural forces in the major religions of the ancient Near East, from 3000 to 300 B. C. E. Cultural achievements such as the Epic of Gilgamesh, the pyramids and the Bible.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

REL 307. Religion and Culture in Pre-Islamic Arabia. 3 Credit Hours.

A survey of religion and culture in Arabia from prehistory to the coming of Islam.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

REL 308. Where Does Christianity Come From? The Greco-Roman Context of Early Christianity. 3 Credit Hours.

The Greco-Roman world in which the first Christians lived, with particular emphasis given to the historical, moral, political, religious, rhetorical, and social contexts of early Christianity.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

REL 311. Prophecy and Prophetic Literature in the Hebrew Bible. 3 Credit Hours.

Prophecy in ancient Israel and Judah and the prophetic literature of the Hebrew Bible in relation to its ancient near-eastern historical, religious, and social context.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

REL 312. Torah and Ancient Law. 3 Credit Hours.

The first five books of the Hebrew Bible (Genesis, Exodus, Leviticus, Numbers, Deuteronomy) in relation to their ancient Near Eastern historical, cultural, and religious context.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

REL 314. The Rise of Judaism. 3 Credit Hours.

The history and literature of early Judaism, covering the period from the fall of Jerusalem in 587/586 BCE to the beginnings of rabbinic Judaism and the formation of the Mishnah (ca.200 CE).

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

REL 315. Jewish Mysticism. 3 Credit Hours.

A survey of the major ideas and texts dealing with Jewish Mysticism (Kabbalah, Hassidism).

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

REL 319. Transfer Credits. 1-4 Credit Hours.

Courses taken at other institutions with no direct equivalents (Religious Literature or Texts subject area).

Components: LEC.

Grading: GRD.

REL 321. Jesus and the Gospels. 3 Credit Hours.

An examination of the Jesus tradition, focusing on the formative period of the first two centuries. Special emphasis on the four New Testament Gospels, with a survey of the treatment of Jesus in other documents, both Christian and non-Christian.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

REL 322. Paul the Apostle: Letters and Controversies. 3 Credit Hours.

The heritage, writings, and legacy of the apostle Paul. Careful analysis of the Pauline corpus (especially Romans), with particular attention given to the radically different interpretations of Paul in both ancient and modern thought.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

REL 324. The bible and modern film.. 3 Credit Hours.

The diverse ways in which contemporary cinematic arts interpret and depict narratives from the Bible and the ancient Mediterranean world.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

REL 325. Jesus in Myth and History. 3 Credit Hours.

Changing concepts of Jesus in Western culture, as they emerge in literature, art, and films.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

REL 326. The Bible in History. 3 Credit Hours.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

REL 345. Religion and Gender. 3 Credit Hours.

The influence of Western religion on the status and role of women.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

REL 347. Experiencing Religion: Conversion. 3 Credit Hours.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

REL 348. Reformation Europe. 3 Credit Hours.

The religious, political, cultural, social, and economic forces that produced a schism in 16th-century Western Christendom. Note: May be taken for credit in only one department as REL 348 or HIS 328.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

REL 349. All Roads Lead To Rome: A Multi-Disciplinary Approach To Religion And Rome. 3 Credit Hours.

This course examines Rome's role as importer, exporter, cultivator, and transformer of religion and the religious life, giving attention to both the past and the present. Students will increase their awareness of the important elements of the major religions discussed in class—their myths, symbols, rituals, doctrines, moral codes, and artistic expressions—and the ways in which Rome has influenced them.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

REL 350. Current Issues in Religion. 3 Credit Hours.

Individual study and group discussion of the relevance of religion to contemporary issues such as race conflict, women's rights, intermarriage, refugees, media, prejudice, and counter culture groups.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

REL 351. Religious Issues in Death and Dying. 3 Credit Hours.

Major religious perspectives on the experience of death and the nature of the dying process.

Components: SEM.

Grading: GRD.

Typically Offered: Fall.

REL 352. Religion and Science. 3 Credit Hours.

The religious and ethical issues created by modern science and technology.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

REL 353. Religion and American Politics. 3 Credit Hours.

Religious and ethical issues at debate in the American political scene.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

REL 354. Religion and the Problem of Evil. 3 Credit Hours.

Major religious perspectives on the origin and nature of evil and human suffering.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

REL 355. Religion and Its Interpreters. 3 Credit Hours.

Nineteenth and twentieth century Western interpretations of religion including anthropological, sociological, psychological, theological, literary, and feminist approaches.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

REL 356. Myth and Religion. 3 Credit Hours.

How humans use language to form and communicate conceptions of reality, focusing on the highly elusive concept "myth"; special attention to the concept's usefulness for thinking about religion.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

REL 357. Gender, Power, Gods. 3 Credit Hours.

The relationship between sex, gender, and ethics in Judaism, Christianity, Islam and Hinduism. Topics covered include feminism, race and ethnicity, homosexuality, transexuality, and masculinity.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

REL 358. The Color of God: Race and Religion. 3 Credit Hours.

This course will examine the role of race and ethnicity within the discipline of religious studies. We will emphasize the manner in which racial and ethnic identity have contributed to religious identity, and the way in which religion has functioned within the struggles of racially and ethnically marginalized peoples. This course will focus on the Americas and draw from diverse racial, ethnic, and religious traditions.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

REL 359. Transfer Credits. 1-4 Credit Hours.

Courses taken at other institutions with no direct equivalents (Religious Issues or Problems subject area).

Components: LEC.

Grading: GRD.

REL 360. Religion and Bioethics. 3 Credit Hours.

The implications of religious thought for contemporary problems of biomedical ethics.

Components: SEM.

Grading: GRD.

Typically Offered: Fall & Spring.

REL 361. "Religion and Youth in Contemporary America". 3 Credit Hours.

An interdisciplinary examination of the role of religion in the lives of teenagers and college students in contemporary America.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

REL 362. The Sanctity Of Life: Selected Themes From The Ancient World To The Present. 3 Credit Hours.

This course examines the religious foundation of the idea that human life is "sacred" and considers a wide range of historical and ethical issues associated with this central concept of Western thought. It explores the meaning of the multi-faceted phrase "sanctity of life," including its implications for such ethical and legal concerns as conception, birth, and termination of life; human dignity and human rights; the quality of life; and social justice. Some of the issues considered will include bigotry and prejudice; economic and social injustice; euthanasia, infanticide, and suicide; genocide, holy war, jihad, terrorism, and violence; health care and its cost; human trafficking and slavery; martyrdom and self-martyrdom; social-stratification; aging, death, disposal of the body; and the afterlife, especially in Dante's *Inferno*. We will examine how "life" is defined and described in different cultures at different times in history, and how various religions have influenced these matters.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

REL 363. Religion and Science Fiction: Dystopia, Faith, and the Future. 3 Credit Hours.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

REL 370. Islam in Modern Times. 3 Credit Hours.

Islam's encounter with the west, the impact of modernization on the Muslim World, and the rise of Islamic Fundamentalism. Islam in America and the Afro-American Islamic movements will also be discussed.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

REL 371. Islam And Gender. 3 Credit Hours.

Gender issues such as homosexuality, masculinity, femininity, modesty, virginity, sexuality and its control, and veiling in Islam.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

REL 375. Democracy and Religion in Israel and Palestine. 3 Credit Hours.

Israel's evolution as a nation and a society by focusing on the impact of religion on ethnicity, culture, and democracy.

Components: SEM.

Grading: GRD.

Typically Offered: Fall & Spring.

REL 376. Shi'ism: Religion, Culture, and History. 3 Credit Hours.

The religious, cultural, and historical aspects of Twelver Shi'ism. The course has a film component.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

REL 377. Sufism: Islamic Mysticism. 3 Credit Hours.

The doctrines, practices, teachings, and history of Sufism, the mystical dimension of Islam.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

REL 378. Religion and Civic Engagement. 3 Credit Hours.

REL 380. Archaeology of Palestine from Prehistory to Islam. 3 Credit Hours.

A survey and analysis of the major archaeological excavations and surveys of Palestine.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

REL 383. Activist Bodhisattvas: Buddhist Ethics And Social Engagement. 3 Credit Hours.

One of the most important developments in modern Buddhism has been the turn toward social engagement and activism. Across Asia and beyond, Buddhist organizations and movements have emerged that consider improving society to be an intrinsic Buddhist concern alongside the classic focus on perfecting the self. Where does this development come from? To what degree is it a departure from previous tradition? How do these movements reconceive and rearticulate Buddhist teachings and practices to address the problems of their societies and the global community? What perspectives does socially engaged Buddhism offer to others movements seeking to address the ills of our time? This course will explore these questions through a consideration of selected examples drawn from several Buddhist traditions

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

REL 384. Karma. 3 Credit Hours.

Karma is one of the most central doctrines of Buddhism and by far the most viral. Through lip jars, pop songs, and TV shows, the concept has become familiar to many. But what is karma? How does it work? What does it mean to live in a karmic universe? This course will examine these questions through a consideration of Buddhist doctrine, ritual, ethics, and narrative.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

REL 388. Living Stories: Narrative In Asian Traditions. 3 Credit Hours.

In popular culture, Asian religions are referred to as "Eastern Philosophy." Yet, philosophical doctrine is only one part of Asian religious traditions and for many not the most prominent. Oftentimes narrative, key stories or modes of storytelling, occupies a more central role. But what is that role? How do narratives transmit religious ideas and values and inform ritual life? How do they evolve over time? And how do religious individuals and communities drawn upon them to work in the world? This course will address these questions through a focus on a few narratives selected Asian religions, such as Hinduism, Buddhism, and Confucianism. We will attend to these stories as living phenomena that evolve over time and play a vital role in their communities and also as something that those communities live with as they make their way through the world.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

REL 391. Bollywood and Beyond: Religion, Gender and Politics in South Asian Film. 3 Credit Hours.

Themes in Indian society through the lens of Indian cinema - both Bollywood and the regional film industry. The important themes covered are: the complex narratives of caste, myth, politics, gender, sexuality, and the challenges of modernity in India.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

Typically Offered: Fall & Spring.

RST 611. Responsible Conduct of Research. 0 Credit Hours.

Components: DIL.

Grading: GRD.

Typically Offered: Fall & Spring.

RST 612. Responsible Conduct Of Research. 0 Credit Hours.

Components: DIL.

Grading: GRD.

Typically Offered: Fall & Spring.

RST 720. Research Ethics. 3 Credit Hours.

Course focuses on topics related to what is sometimes called the "responsible conduct of research" (RCR). It covers the landscape of "scientific integrity" - both the principles and day-to-day practicalities of research ethics. The course is inter-disciplinary in its approach. Readings and other materials used as part of the course draw on the examples from many academic fields, and are intended to have application to any academic or professional area of study in which research is conducted.

Components: THI.

Grading: SUS.

Typically Offered: Fall.

Sociology (SOC)

SOC 101. Introduction to Sociology. 3 Credit Hours.

Organization of human society, processes of change, and society's influence on individual behavior.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

SOC 103. Social Problems. 3 Credit Hours.

Causes, scope, and possible solutions of social problems in American society.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

SOC 210. Introduction to Social Research. 3 Credit Hours.

Purposes, methods, and techniques of social investigation.

Prerequisite: SOC 101.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

SOC 211. Quantitative Methods for Sociologists. 3 Credit Hours.

Data analytic techniques to analyze sociological topics. Emphasis is on basic graphic displays, measures of center and variation, chi-square, ANOVA, correlations, and regression.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

SOC 212. Quantitative Methods Lab. 1 Credit Hour.

Statistical lab associated with SOC 211, PSY 291, PSY 292 introduces the use of computer statistical packages for analyzing quantitative data.

Corequisite: SOC 211 or PSY 291 or PSY 292.

Components: LAB.

Grading: GRD.

Typically Offered: Fall & Spring.

SOC 217. DRUG ABUSE. 3 Credit Hours.

Components: LEC.

Grading: GRD.

SOC 270. Deviant Behavior. 3 Credit Hours.

General deviance concepts, theories of deviance and non-criminal deviance.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

SOC 271. Criminal Justice. 3 Credit Hours.

A survey of the criminal justice system in the United States with an emphasis on the interrelationships between law enforcement, the courts, and corrections.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

SOC 291. Special Topics. 3 Credit Hours.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

SOC 292. Special Topics. 3 Credit Hours.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

SOC 293. Special Topics. 3 Credit Hours.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

SOC 301. Social Organization. 3 Credit Hours.

Roles, organization, personality and values as components of formal and informal groups.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

SOC 302. Social Psychology: Sociological Perspective. 3 Credit Hours.

The influence of human groups and social processes on individual behavior, and personality.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

SOC 303. Social Inequalities. 3 Credit Hours.

Social ranking by class, status, and power. Stratification by age, sex or minority group membership.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

SOC 304. Dynamics of Poverty in the United States. 3 Credit Hours.

Examines trends in the incidence and causes of major types of poverty among the urban underclass, the homeless, migrant laborers, the working poor. Also explores policy-related solutions.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

SOC 305. Globalization And Society. 3 Credit Hours.

Concepts and theories that are currently in use to understand globalization both as a process and as a structure: social aspects and narratives of globalization, and theoretical sociological models as scaffolding for understanding many of the disparate characteristics of globalization. Globalization as it spans disciplinary divisions and its understanding: the emergence of novel economic forms and practices as a pivotal driving force for globalization. Human migrations and their consequences on cultural identity and diffusion, and the role of technology in the creation and consolidation the global world. New and complex structures of socioeconomic inequality at national and at transnational levels, the disproportionately important roles that women play in these new structures of inequality, and the social forces and movements that have emerged to resist globalization or to alter it in important ways.

Prerequisite: SOC 305.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

SOC 306. Wealth And Poverty In Contemporary America. 3 Credit Hours.

The causes and consequences of rapidly changing patterns of concentration of socioeconomic resources, such as wealth and income in America. This changing concentration is associated with the proliferation of impoverishment and privilege in America. Analyzes macro-economic changes, demographic shifts, technological advances, and evolving ideological postures as sources of these trends.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

SOC 320. Social Epidemiology: Illness and Death in Society. 3 Credit Hours.

Theories, issues and methods of study pertinent to illness and death in society. Social factors implicated in patterns of mental and physical health and mortality.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

SOC 321. Applied Health Policy. 3 Credit Hours.

Role of public and private institutions in health promotion, health care delivery, and health insurance. Explains how and why government and society attempt to influence health-related behaviors and the resulting effects on individuals' lives.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

SOC 332. Collective Behavior. 3 Credit Hours.

Classical theories, issues, and research on fads, fashions, riots, crowd behavior, social movements and other forms of collective behavior.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

SOC 335. LGBTQ Communities. 3 Credit Hours.

Sociology of Lesbian, Gay, Bisexual, Transgendered and Queer communities and identities. This course examines the history, methods, theory and concepts of social science research on these topics over the last half century and examines contemporary issues.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

SOC 340. Sociology of Religion. 3 Credit Hours.

Social foundations of religion, growth and change within religious institutions and relationships of religion to other institutions.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

SOC 341. Social and Cultural Change. 3 Credit Hours.

Survey of major theories of change; analysis of the processes and mechanisms of change. Contemporary transitions in the underdeveloped regions of the world.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

SOC 342. Contemporary Latin American Societies. 3 Credit Hours.

Social characteristics of Latin American societies and their comparison with North American society.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

SOC 345. Population and Society. 3 Credit Hours.

Demographic analysis of fertility, mortality, sex-age structure, migration, urbanization and population control.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

SOC 350. Sociology of the Family. 3 Credit Hours.

Examines definitions, history and larger social structures in which family relations are embedded.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

SOC 351. Business and Society. 3 Credit Hours.

This course explores the influence of business objectives, values, and ethics on American culture, moral standards, and societal institutions.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

SOC 352. Sport and Society. 3 Credit Hours.

Sport as an expression of, and shaper of U.S. society; cross cultural and historical comparisons; specialization, player rights, violence, and the "winning" psychology.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

SOC 359. The Sociology of Human Sexuality. 3 Credit Hours.

A socio-historical survey of sexual ideologies, attitudes and behavior in human societies, with emphasis on social and biological factors.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

SOC 365. Internship. 3 Credit Hours.

Prescribed study and supervised work in various types of organizations and institutions.

Components: DIS.

Grading: GRD.

Typically Offered: Fall & Spring.

SOC 368. Violence in America. 3 Credit Hours.

Violence in historical, international and situational contexts, including the major explanations of violence, and factors associated with violent crime.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

SOC 370. Juvenile Delinquency. 3 Credit Hours.

The extent and nature of juvenile delinquency. The juvenile justice system, correctional institutions for delinquents, community treatment and prevention programs.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

SOC 371. Criminology. 3 Credit Hours.

Social, cultural and individual factors in the etiology of crime; the consequences of criminal behavior.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

SOC 372. Criminology: Police and Community. 3 Credit Hours.

The police in U.S. society. Interaction with groups and institutions.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

SOC 373. Criminology: Courts and Society. 3 Credit Hours.

The courts and judicial functions in U.S. society.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

SOC 374. Criminology: Corrections. 3 Credit Hours.

Corrections in the U.S. society; philosophies of rehabilitation, punishment, and incapacitation.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

SOC 375. Sociology of Mental Health and Illness. 3 Credit Hours.

An introduction to sociological theories and research regarding the definition, experience, and treatment of mental illness.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

SOC 377. Sociology of Drug Abuse. 3 Credit Hours.

The epidemiology and etiology of drug abuse, treatment and prevention, societal reaction.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

SOC 378. Criminology: Law and Society. 3 Credit Hours.

Function of law in a complex social structure.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

SOC 380. Sociology of Gender. 3 Credit Hours.

Social and historical construction of gender. Discussion of gender and various social institutions and categories.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

SOC 381. Aging in Society. 3 Credit Hours.

Basis for understanding the social aspects of aging, diversity in the lives of older adults (e.g., family, health, work and retirement, wealth and poverty, death and dying), and public policy that affects us all.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

SOC 383. Sociology of Education. 3 Credit Hours.

Course focuses on the institution of education. Assesses its structure, processes, and interaction patterns within it. Also examines its impact on socioeconomic inequality along race, class, and gender lines.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

SOC 384. Medical Sociology. 3 Credit Hours.

Sociological aspects of health care, patient behavior, medical institutions.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

SOC 385. U. S. Latinos. 3 Credit Hours.

Sociological perspectives are employed in the examination of the historical, social, economic, and cultural experiences of Latino/as in the United States.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

SOC 386. U. S. Immigration. 3 Credit Hours.

The major sociological debates in the field of immigration with an emphasis on recent immigrants to the U.S.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

SOC 387. Race and Ethnic Relations. 3 Credit Hours.

The influence of racial distinctions on individual and social behavior.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

SOC 388. The Black Ghetto in Urban Society. 3 Credit Hours.

This course examines the origin and evolution of the "ghetto" as a concept and the social and historical significance of the ghetto in understanding the development of black community life in urban America.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

SOC 389. The Black Athlete in White America. 3 Credit Hours.

The impact of racism on sport in the United States with a specific focus on the Black Athlete. Drawing upon the literature on race and sport in America, the course takes a historical view of the social context in which black athletes have competed and excelled in their craft against tremendous odds both inside and outside of sport competition.

Prerequisite: SOC 101.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

SOC 390. Directed Studies. 1-3 Credit Hours.

Individually supervised readings or research on special topics offered by arrangement with instructor.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

SOC 391. Special Topics. 3 Credit Hours.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

SOC 401. Sociological Theory. 3 Credit Hours.

Classical sociological concepts and theory from the eighteenth century to the present.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

SOC 410. Social Research Practicum. 1-3 Credit Hours.

Each student will work directly with a designated faculty mentor to obtain general research training, data analysis techniques, and technical writing skills. As part of the research practicum, students will work in collaboration with their faculty mentor to prepare a journal-length research manuscript and assemble related research materials to gain practical knowledge of the scientific research process. This one-on-one experience will also enhance students' training in sociology and provide them with useful analysis and writing skills when they enter the job market.

Prerequisites: SOC 101, SOC 210, SOC 211, SOC 212.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

SOC 470. Theories of Deviant Behavior. 3 Credit Hours.

Social, cultural, and individual factors involved in the etiology of deviance and crime. Strain and control theories, learning theory, conflict and interaction theories.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

SOC 480. Health Disparities In The U.S.. 3 Credit Hours.

Comprehensive examination of U.S. health disparities based on race and ethnicity, gender, socioeconomic status, sexual orientation, and the environment. Draws theoretical perspectives from multiple disciplines. The most pressing US health disparities put into historical context to identify priorities for their elimination.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

SOC 487. Race, Ethnicity, and Criminal Justice. 3 Credit Hours.

Discussion of race and ethnicity, crime and justice. Examination and evaluation of theory, research and the justice system.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

SOC 488. Gender and Crime. 3 Credit Hours.

Examination of gender, power, and crime, including feminist theories and the criminal justice system.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

SOC 490. Directed Studies in Sociology. 1-3 Credit Hours.

Supervised independent study on special topics. Arrangement with individual faculty.

Components: THI.

Grading: GRD.

Typically Offered: Fall & Spring.

SOC 491. Special Topics. 3 Credit Hours.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

SOC 492. Special Topics. 3 Credit Hours.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

SOC 493. Special Topics. 3 Credit Hours.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

SOC 498. Senior Honors Thesis in Sociology or Criminology I. 3-6 Credit Hours.

Independent research project.

Components: THI.

Grading: GRD.

Typically Offered: Fall & Spring.

SOC 499. Senior Honors Thesis in Sociology or Criminology II. 3-6 Credit Hours.

Independent research project.

Components: THI.

Grading: GRD.

Typically Offered: Fall & Spring.

SOC 511. Sociological Statistics. 3 Credit Hours.

Probability theory, descriptive statistics and tests of independence.

Components: SEM.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

SOC 590. Dir Studies In Soc. 1-3 Credit Hours.**Components:** THI.**Grading:** GRD.**SOC 601. Classical Sociological Theory. 3 Credit Hours.**

The focus of this course is the work of Comte, Durkheim, Marx, Weber, and Parsons, along with more recent perspectives such as symbolic interactionism, phenomenology, ethnomethodology, and critical theory.

Components: SEM.**Grading:** GRD.**Typically Offered:** Offered by Announcement Only.**SOC 602. Contemporary Sociological Theory. 3 Credit Hours.**

Recent developments in social theory, such as, for example, the work of Giddens, Habermas, Derrida, Bourdieu, Baudrillard, and Lyotard, along with important themes such as feminism, integration, the linguistic turn, habitus, (anti)foundationalism, and symbolic violence.

Components: LEC.**Grading:** GRD.**Typically Offered:** Offered by Announcement Only.**SOC 603. Special Topic: Sociology Of Knowledge-Science And Technology. 3 Credit Hours.**

To address the debates over the nature of social science and technology. In addition to the theoretical disputes, the applications, critiques, and politics of scientific inquiry and technology use will be the focus of attention.

Requisite: Graduate Status.

Components: SEM.**Grading:** GRD.**Typically Offered:** Fall & Spring.**SOC 604. Proseminar in Sociology. 1 Credit Hour.**

Introduction to Sociology: the research process, departmental resources, and the graduate program.

Components: SEM.**Grading:** GRD.**Typically Offered:** Fall.**SOC 609. SOCIAL STATISTICS. 3 Credit Hours.**

Probability theory, descriptive statistics and tests of independence.

Components: LEC.**Grading:** GRD.**Typically Offered:** Offered by Announcement Only.**SOC 610. Advanced Research Methods. 3 Credit Hours.**

Quantitative techniques for the measurement of theoretical constructs, the consequences of technique selection, and the relationships between method and underlying theory.

Components: LEC.**Grading:** GRD.**Typically Offered:** Offered by Announcement Only.**SOC 611. Advanced Sociological Statistical Analysis I. 3 Credit Hours.**

Multiple linear regression and regression diagnostics using Stata, analysis of categorical dependent variables, count dependent variables, simultaneous equations, and panel data models. Some topics may not be covered and others may be added at the discretion of the instructor.

Components: LEC.**Grading:** GRD.**Typically Offered:** Fall.**SOC 612. Sociological Statistics II. 3 Credit Hours.**

Advanced statistical analysis techniques covering topics such as hierarchical linear models (HLM), structural equation models (SEM), instrumental variables (IV), factor analysis, propensity score matching (PSM), and nonparametric methods. Some topics may not be covered and others may be added at the discretion of the instructor.

Components: SEM.**Grading:** GRD.**Typically Offered:** Offered by Announcement Only.**SOC 613. Qualitative Research Methods. 3 Credit Hours.**

In-depth introduction to qualitative, inductive methods, with emphases on grounded theory and action research. Focus on qualitative interviewing (including focus groups) and participant observation for the collection of data in naturalistic social settings, with simultaneous data analysis; qualitative methods in mixed-methods research introduced. Covers ties between methods and theory, additional basic methods used in qualitative research, and typical analytic approaches; touch on more esoteric methods; study current issues and debates relevant to this set of approaches to generating knowledge.

Components: SEM.**Grading:** GRD.**Typically Offered:** Offered by Announcement Only.**SOC 614. Evaluation Research. 3 Credit Hours.**

Conceptualizing, designing, conducting, and interpreting the results of evaluation research programs in health and human service agencies.

Components: LEC.**Grading:** GRD.**Typically Offered:** Offered by Announcement Only.**SOC 615. Class Structure and Social Stratification. 3 Credit Hours.**

Theoretical and research approaches to class structure and social stratification, with a focus on the U.S. Examines the conflict perspective(s) and major alternative views including economic class, status and power, gender and race.

Components: LEC.**Grading:** GRD.**Typically Offered:** Offered by Announcement Only.**SOC 616. Social Psychology: Sociological Perspectives. 3 Credit Hours.**

Theories and research addressing the mutual influence between social groups and structures, on the one hand, and individual selves and behaviors, on the other. Balance emphasis between symbolic interactionist and structural approaches, with attention to additional related, yet distinct theoretical perspectives.

Components: SEM.**Grading:** GRD.**Typically Offered:** Offered by Announcement Only.**SOC 617. Social Organization. 3 Credit Hours.**

Examines theories of organization and work, discrimination, technology and job design, bureaucracy, productivity and organizational culture, responsible organizations, and alienation.

Components: SEM.**Grading:** GRD.**Typically Offered:** Offered by Announcement Only.

SOC 620. Social Epidemiology. 3 Credit Hours.

Theories, issues and methods of study pertinent to health and illness in society. Social factors implicated in patterns of disease occurrence.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

SOC 622. Teaching Seminar in Sociology. 3 Credit Hours.

Pedagogical techniques for teaching Sociology at the college/university level.

Components: SEM.

Grading: GRD.

Typically Offered: Fall.

SOC 632. Social Psychology of Health and Illness. 3 Credit Hours.

Social and psychological factors affecting susceptibility to illness, health related beliefs and behaviors: the doctor-patient relationship: evaluation of health care systems and patient compliance.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

SOC 635. Medical Sociology: Issues in Research and Theory.. 3 Credit Hours.

Examination of health, illness, and health care from sociological perspectives. Includes social-structural, interpretive, and critical approaches, as various authors have used these to address specific issues. Phenomena to be examined range from macro (e.g. population patterns of mortality and morbidity, health care policy) to micro (e.g. the subjective experience of illness). Related theories and methodologies discussed. Focus varies somewhat by instructor and as issues emerge in the discipline.

Components: SEM.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

SOC 636. Health Diversity Across The Life Course. 3 Credit Hours.

Diversity in health across the life course from broad sociological and cross-disciplinary theoretical traditions. Key questions in medical sociology will be addressed to discover the impact of the life course processes on the health or vitality of diverse individuals and diverse populations, with a focus on inequality and the elements of time and history.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

SOC 650. Social Analysis of Race Relations. 3 Credit Hours.

The impact of race relations research on the discipline of sociology.

Components: SEM.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

SOC 651. Race Relations: Social Psychological Perspectives. 3 Credit Hours.

Social psychological perspectives on the nature, causes, and consequences of racial inequality in American society.

Components: SEM.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

SOC 652. Theories of Race and Ethnic Relations. 3 Credit Hours.

Micro- and macro-level theories of race and ethnic relations.

Components: DIS.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

SOC 653. RACE, IDEOLOGY, AND FRAMING INEQUALITY. 3 Credit Hours.

Examines the various ideologies that have emerged on the limited states to describe and, at times, resist racial inequality.

Components: LEC.

Grading: SUS.

Typically Offered: Offered by Announcement Only.

SOC 671. Seminar on Criminology. 3 Credit Hours.

Selected issues, topics, theories, and recent research in criminology.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

SOC 672. Research in Crime and Delinquency. 3 Credit Hours.

Measurement issues; effects of race, gender, age, and socio-economic status on criminality; extra-legal factors affecting criminal justice decision making.

Components: SEM.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

SOC 673. Theories of Criminology. 3 Credit Hours.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

SOC 675. Theories of Criminology. 3 Credit Hours.

Discussion of the research testing criminological theories, including measurement, methodological, and statistical issues.

Components: SEM.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

SOC 690. Directed Studies. 1-3 Credit Hours.

Individually supervised readings or research on special topics. Offered by arrangement with the instructor.

Components: THI.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

SOC 691. Special Topics and Current Issues in Medical Sociology. 1-3 Credit Hours.

Seminar topics will be announced in schedule of classes.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

SOC 692. Special Topics and Current Issues in Criminology. 1-3 Credit Hours.

Seminar topics will be announced in schedule of classes.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

SOC 693. Special Topics and Current Issues in Race/Ethnic Relations. 1-3 Credit Hours.

Seminar topics will be announced in schedule of classes.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

SOC 810. Master's Thesis. 1-6 Credit Hours.

The student working on his/her master's thesis enrolls for credit, in most departments not to exceed six, as determined by his/her advisor. Credit is not awarded until the thesis has been accepted.

Components: THI.

Grading: SUS.

Typically Offered: Fall & Spring.

SOC 820. Research in Residence. 1 Credit Hour.

Used to establish research in residence for the thesis for the master's degree after the student has enrolled for the permissible cumulative total in SOC 710 (usually six credits). Credit not granted. May be regarded as full time residence.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

SOC 830. Pre-Candidacy Doctoral Dissertation. 1-12 Credit Hours.

Required of all candidates for the Ph.D. The student will enroll for credit as determined by his/her advisor, but for not less than a total of 12 hours. Up to 12 hours may be taken in a regular semester, but not more than six in a summer session.

Components: THI.

Grading: SUS.

Typically Offered: Fall & Spring.

SOC 840. Post-Candidacy Doctoral Dissertation. 1-12 Credit Hours.

Required of all candidates for the Ph.D. who have advanced to candidacy. The student will enroll for credit as determined by his/her advisor, but not for less than a total of 12. Not more than 12 hours of SOC 740 may be taken in a regular semester, nor more than six in a summer session.

Components: THI.

Grading: SUS.

Typically Offered: Fall & Spring.

SOC 850. Research in Residence. 1 Credit Hour.

Used to establish research in residence for the Ph.D. and D.A., after the student has been enrolled for the permissible cumulative total in appropriate doctoral research. Credit not granted. May be regarded as full-time residence as determined by the Dean of the Graduate School.

Components: THI.

Grading: SUS.

Typically Offered: Fall & Spring.

Spanish (SPA)

SPA 101. Elementary Spanish I. 3 Credit Hours.

For students with no background or previous study of Spanish. The focus of SPA 101 is the development of communicative abilities in speaking, reading, writing, and comprehension of Spanish and an introduction to the cultural practices of the Spanish-speaking world. Themes on: university life, family, leisure activities, and professions. Includes both oral and written assignments of grammatical structures and vocabulary introduced, informal and formal writing. Conducted entirely in Spanish. Not open to students who have completed 2 or more years of high school Spanish. Closed to heritage and native speakers of Spanish.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

SPA 102. Elementary Spanish II. 3 Credit Hours.

Continuation of SPA 101. The development of communicative abilities in speaking, reading, writing, and comprehension of Spanish and an introduction to the cultural practices of the Spanish-speaking world. Themes on: childhood and adolescence, university life, home and community, food and lifestyle, and environmental issues. Includes both oral and written assessments of grammatical structure and vocabulary introduced, informal and formal writing. Conducted entirely in Spanish.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

SPA 105. Accelerated Elementary Spanish. 3 Credit Hours.

For students with previous study of Spanish desiring to review material covered in SPA 101 and 102 in preparation for continued study of Spanish at the intermediate level. The focus of SPA 105 is the continued development of communicative abilities in speaking, reading, writing, and comprehension of Spanish and an introduction to the cultural practices of the Spanish-speaking world. Themes on: university life, family, leisure activities, and professions, childhood and adolescence, university life, home and community, food and life-style, and environmental issues. Includes both oral and written assessments of grammatical structures and vocabulary introduced, informal and formal writing. Conducted entirely in Spanish.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

SPA 107. Basic Spanish for Heritage Learners. 3 Credit Hours.

Designed for students with little or no prior instruction in Spanish who, because of family background or social experience, can understand some casual spoken Spanish and have a passive knowledge of the language, but do not speak the language themselves. Focus on developing basic speaking, reading, and writing abilities.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

SPA 201. Intermediate Spanish I. 3 Credit Hours.

For students with previous study of Elementary-level Spanish. The focus of SPA 201 is the continued development of communicative abilities in speaking, reading, writing and comprehension of Spanish and as an introduction to the cultural practices, family values, and social and environmental issues. Includes both oral and written assessments of grammatical structures and vocabulary introduced, informal and formal writing. Conducted entirely in Spanish.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

SPA 202. Intermediate Spanish II. 3 Credit Hours.

For students with some previous study of Spanish at the intermediate level, who are familiar with all tenses and with vocabulary related to the topics covered in SPA 101-201. SPA 202 is the first semester of a two-semester sequence ending with SPA 203. The continued development of skills in reading, writing, speaking and listening in Spanish with an additional emphasis on cultural competence in the Spanish-speaking cultures of the world. Themes on: relationships, cultural values, different historical perspectives, and current politics. These themes will be explored through articles, films, and literary texts. The course will develop writing and reading strategies, providing students with the tools to think, read, and write critically and analytically in papers of 1-3 pages. Progress will also be assessed through quizzes and exams. Course conducted entirely in Spanish.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

SPA 203. Advanced Spanish. 1 Credit Hour.

Continuation of SPA 202. This course will prepare students for advanced literature, linguistic, and culture courses. The class will use films, literary works, and other cultural texts. Students will write analytic essays of 3-5 pages to develop style, vocabulary, and syntax. Course conducted entirely in Spanish.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

SPA 207. Intermediate Spanish For Heritage Learners. 3 Credit Hours.

Designed for students with some prior instruction in Spanish who, because of family background or social experience, can understand casual spoken Spanish and have some functional communication abilities in the language. Focus on developing basic speaking, reading, and writing abilities.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

SPA 208. Advanced Spanish for Heritage Learners. 3 Credit Hours.

This course is designed for those students who, because of family background or social experience and prior instruction in Spanish, possess functional communication abilities in the language. Focus is on developing formal speaking, reading and writing abilities.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

SPA 280. Special Topics. 3 Credit Hours.

Awarded for 200 level study abroad course led by UM faculty.

Components: LEC.

Grading: GRD.

Typically Offered: Summer.

SPA 295. Transfer credit. 3 Credit Hours.

Awarded for 200-level course work, beyond the intermediate I level, at another institution for which UM has no direct equivalent.

Components: LEC.

Grading: CNC.

SPA 301. Interpreting Literary And Cultural Texts In Spanish. 3 Credit Hours.

Tools for the interpretation and analysis of literary and cultural materials from the Spanish-speaking world. Acquisition of terminology and theories through the study of the main literary genres (prose, poetry, and drama) and a complementary genre of cultural analysis (e.g., film studies, cultural studies, etc.). Emphasis on critical writing skills. Closed to heritage/native speakers. Students may not receive credit for both 301 and 343.

Components: SEM.

Grading: GRD.

Typically Offered: Fall & Spring.

SPA 302. The Culture of Spain. 3 Credit Hours.

Historical survey of the arts, science, letters, and political and social institutions in Spain.

Prerequisite: SPA 214 or SPA 244 or equivalent.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

SPA 303. The Cultures of Spanish America. 3 Credit Hours.

Historical survey of the arts, letters, science, and political and social institutions in Spanish-speaking Americas.

Prerequisite: SPA 214 or SPA 244 or equivalent.

Components: SEM.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

SPA 307. Interpreting Literary And Cultural Texts In Spanish For Heritage/Native Speakers. 3 Credit Hours.

Introduction to Literary Genres for Native/Heritage Speakers Tools for the interpretation and analysis of literary and cultural materials from the Spanish-speaking world. Acquisition of terminology and theories through the study of the main literary genres (prose, poetry, and drama) and a complementary genre of cultural analysis (e.g., film studies, cultural studies, etc.). Prerequisite: SPA 208.

Components: SEM.

Grading: GRD.

Typically Offered: Fall & Spring.

SPA 310. Topics in Spanish and Spanish American Studies in Translation. 3 Credit Hours.

Topics in the literatures and/or cultures of the Spanish-speaking world. Readings and discussion in English. Development of critical reading and writing skills. Fulfills humanities literature requirement. Writing Credit. Does not fulfill foreign language requirement. Maybe be repeated when the topic varies. Maybe used toward the Spanish major in accordance with Department of Modern Languages and Literature stipulations. Prerequisite: ENG 106 or equivalent.

Components: SEM.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

SPA 318. Cinema From The Spanish-Speaking World In Translation. 3 Credit Hours.

Topics in the cinema of the Spanish-speaking world. Analysis of films in their cultural context. This course is taught in English and does not fulfill the CAS foreign language requirement. Maybe be repeated for credit if topics vary. WRITING CREDIT

Prerequisite: ENG 106 or equivalent.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

SPA 321. Introduction to Literary Themes. 3 Credit Hours.

The study of literature through thematic readings. Writing credit. May be repeated for credit if topics vary.

Prerequisites: SPA 301 or SPA 307 or equivalent.

Components: SEM.

Grading: GRD.

Typically Offered: Fall & Spring.

SPA 322. Cultural Topics. 3 Credit Hours.

Issues related to the cultures in the Spanish-speaking world. Topics may include film, journalism, religion, language in society, popular and mass culture, visual arts, immigration, slavery, mestizaje. May be repeated for credit if topics vary.

Components: SEM.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

SPA 325. Topics In Spanish-Language Cinema. 3 Credit Hours.

Cinema of the Spanish-speaking world. Analysis of films in their cultural context. May be repeated for credit if topics vary.

Prerequisites: SPA 301 or SPA 307 or equivalent.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

SPA 330. Topics In Gender And Sexuality. 3 Credit Hours.

The study of gender and sexuality as developed in the Hispanic context. Writing Credit. May be repeated if topics vary.

Prerequisites: SPA 301 or SPA 307 or equivalent.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

SPA 340. Migration Studies. 3 Credit Hours.

Topics within the literary and/or cultural dimensions of migration in the Spanish-speaking world. Writing Credit.

Prerequisites: SPA 301 or SPA 307 or equivalent.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

SPA 353. Colonial Spanish American Topics. 3 Credit Hours.

Topics within Latin American literatures and cultures from the colonial centuries. May be repeated for credit if topics vary.

Prerequisites: SPA 301 or SPA 307 or equivalent.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

SPA 354. 19Th-Century Spanish American Topics. 3 Credit Hours.

Topics within Latin American literature and cultures from independence to the end of the nineteenth century. May be repeated for credit if topics vary.

Prerequisites: SPA 301 or SPA 307 or equivalent.

Components: SEM.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

SPA 355. Studies in 20th and 21st Century Latin American Literatures and Cultures. 3 Credit Hours.

Latin American literature and cultures from the beginning of the 20th century to the present. May be used to fulfill the humanities literature requirement. Writing Credit.

Prerequisites: SPA 301 or SPA 307 or equivalent.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

SPA 360. The Caribbean Through Literary And Cultural Studies. 3 Credit Hours.

The study of the Spanish Caribbean through literary and cultural studies. Writing Credit. May be repeated if topics vary.

Prerequisites: SPA 301 or SPA 307 or equivalent.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

SPA 362. Caribbean Culture Studies. 3 Credit Hours.

Cultural Topics within the Spanish-speaking Caribbean. May be repeated for credit when topics vary.

Prerequisites: SPA 301 or SPA 307 or equivalent.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

SPA 363. Medieval And Early Modern Peninsular Topics. 3 Credit Hours.

Topics within Spanish peninsular literature and cultures from the earliest literary forms through the seventeenth century. May be repeated for credit if topics vary.

Prerequisites: SPA 301 or SPA 307 or equivalent.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

SPA 364. 18th and 19th CENTURY PENINSULAR TOPICS. 3 Credit Hours.

Topics within Spanish peninsular literatures and cultures from the eighteenth and nineteenth centuries. May be repeated for credit if topics vary.

Prerequisites: SPA 301 or SPA 307 or equivalent.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

SPA 365. Studies in 20th and 21st Century Spanish literatures and Cultures. 3 Credit Hours.

Spanish peninsular literatures and cultures from the twentieth century to the present. May be used to fulfill the humanities literature requirement. Writing Credit.

Prerequisites: SPA 301 or SPA 307 or equivalent.

Components: SEM.

Grading: GRD.

Typically Offered: Fall & Spring.

SPA 394. Internship. 1-3 Credit Hours.

Components: THI.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

SPA 395. Transfer credits. 1-3 Credit Hours.

Awarded for course work at another institution for which UM has no direct equivalent.

Components: LEC.

Grading: CNC.

SPA 396. Transfer credits. 1-3 Credit Hours.

Awarded for course work at another institution for which UM has no direct equivalent.

Components: LEC.

Grading: GRD.

SPA 397. Transfer credits. 1-3 Credit Hours.

Awarded for course work at another institution for which UM has no direct equivalent.

Components: LEC.

Grading: GRD.

SPA 398. Transfer credits. 1-3 Credit Hours.

Awarded for course work at another institution for which UM has no direct equivalent.

Components: LEC.

Grading: GRD.

SPA 399. Transfer credits. 1-3 Credit Hours.

Awarded for course work at another institution for which UM has no direct equivalent.

Components: LEC.

Grading: GRD.

SPA 401. Introduction to Hispanic Linguistics. 3 Credit Hours.

Survey of principal areas of inquiry in Hispanic linguistics, including phonetics/phonology, morphology, syntax, pragmatics, historical, social and dialectal variations. Writing credit.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

SPA 402. Spanish Second Language Acquisition.. 3 Credit Hours.

The linguistic contrast between Spanish and English and the pedagogical and practical implications of understanding language, especially grammar, from a foreign/second language perspective.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

SPA 422. Topics in Hispanic Linguistics. 3 Credit Hours.

Special topics in the study of Hispanic linguistics. Possibilities include phonetics/phonology, pragmatics/discourse analysis, sociolinguistics, sociocultural theory, bilingualism.

Components: SEM.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

SPA 432. Business and Diplomatic Spanish. 3 Credit Hours.

Commercial vocabulary, economic, technical, and diplomatic terminology in Spanish. Composition based on models of business correspondence directed to Spanish-speaking countries or firms.

Prerequisites: SPA 301 or SPA 307 or equivalent.

Components: SEM.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

SPA 433. Spanish for Health Care Professions. 3 Credit Hours.

Medical vocabulary, technical and practical terminology in Spanish.

Composition based on models of the documents, letters, medical history cases required in health care professions.

Prerequisites: SPA 301 or SPA 307 or equivalent.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

SPA 440. Phonetics. 3 Credit Hours.

Spanish pronunciation based on phonetics. Exercises in diction and phonetic transcription. Attention to individual difficulties. Conducted in Spanish.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

SPA 442. Stylistics and Composition. 3 Credit Hours.

Analysis of grammar and style. Discussion of readings. Intensive writing. Writing Credit.

Prerequisites: SPA 301 or SPA 307 or equivalent.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

SPA 444. Introduction to Translation. 3 Credit Hours.

Problems in translation: Spanish to English; English to Spanish. Writing Credit.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

SPA 446. Cultural Debates: Public Speaking On Societal Issues. 3 Credit Hours.

This course is designed to give students at the advanced level the opportunity to focus on spoken Spanish as it would be used in the academic arena or any professional field. Using the format and techniques of public speaking and debate, the course will focus on several controversies or issues within Hispanic cultures. Through readings on various issues in the Spanish-speaking world and in-class debates and presentations, students will expand their vocabulary, develop their stylistic expression, and improve their spoken fluency and analytic and argumentative skills. The class is conducted in Spanish. Prerequisites: SPA 301 or SPA 307 or equivalent.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

SPA 495. Transfer Credits. 1-3 Credit Hours.

Awarded for 400-level course work at another institution for which UM has no direct equivalent.

Components: LEC.

Grading: CNC.

SPA 501. Capstone. 3 Credit Hours.

Course with a broad-based topic designed to integrate all the high-level linguistic, critical and analytical skills with the body of knowledge acquired during the course of study towards the major. Topics vary. Open only to undergraduates completing their Spanish major. Writing Credit. To be taken in the last semester of the major.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

SPA 591. Directed Readings. 1-3 Credit Hours.

Components: THI.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

SPA 592. Directed Readings. 1-3 Credit Hours.

Components: THI.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

SPA 593. Directed Readings. 1-3 Credit Hours.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

SPA 594. Senior Honors Thesis I. 3 Credit Hours.

Directed research for honors thesis.

Components: THI.

Grading: GRD.

Typically Offered: Fall & Spring.

SPA 595. Senior Honors Thesis II. 3 Credit Hours.

Directed writing of honors thesis.

Components: THI.

Grading: GRD.

Typically Offered: Fall & Spring.

SPA 611. Topics in Spanish Medieval Literature. 3 Credit Hours.

Recent topics: Libro de Buen amor, the epic, Berceo, cancionero poetry.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

SPA 613. Topics in the Golden Age. 3 Credit Hours.

Recent topics: culteranismo and conceptismo, La Celestina, Cervantes, the picaresque, sixteenth-century theatre.

Components: LEC.

Grading: GRD.

Recent topics include: romanticism, modernist poetry, anti-slavery novel.

Components: SEM.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

SPA 636. Topics in 20th Century Latin American Literature. 3 Credit Hours.

Recent topics: modernism, magic realism, the short story, the novel of the Mexican Revolution, the Boom and post-Boom.

Components: SEM.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

SPA 691. Writing Practicum. 1 Credit Hour.

The writing of a publishable research paper under faculty guidance.

Components: THI.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

SPA 692. Directed Readings. 1-3 Credit Hours.

Components: THI.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

SPA 693. Teaching Practicum. 3 Credit Hours.

Components: THI.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

SPA 830. Pre-Candidacy Doctoral Dissertation. 1-12 Credit Hours.

Required of all candidates for the Ph.D. Prior to admission to candidacy, the student will enroll for credit as determined by his/her advisor. Not more than 12 hours of SPA 730 may be taken in a regular semester, nor more than six in a summer session. Students who have not passed their qualifying examinations yet, but are not taking any courses, may enroll in SPA 730.

Components: THI.

Grading: SUS.

Typically Offered: Fall, Spring, & Summer.

SPA 840. Post-Candidacy Doctoral Dissertation. 1-12 Credit Hours.

Required of all candidates for the Ph.D. After admission to candidacy, the student will enroll for credit as determined by his/her advisor. Not more than 12 hours of SPA 740 may be taken in a regular semester, nor more than six in a summer session. Students who have passed their qualifying examinations, but are not taking courses any more, may enroll in SPA 740. Where a student has passed his /her(a) qualifying examinations, and (b) is engaged in an assistantship, he/she may still take the maximum allowable credit stated above.

Components: THI.

Grading: SUS.

Typically Offered: Fall, Spring, & Summer.

SPA 850. Research in Residence. 1 Credit Hour.

Used to establish residence for the Ph.D., after the student has been enrolled for the permissible cumulative total in appropriate doctoral research. Credit not granted. May be regarded as full-time residence as determined by the Dean of the Graduate School.

Components: THI.

Grading: SUS.

Typically Offered: Fall, Spring, & Summer.

Strategic Communication (STC)

STC 102. Graphic Design for Strategic Communication. 3 Credit Hours.

An introduction to the art of visual communication as it relates to advertising design. Students will learn how to use Adobe PhotoShop and InDesign as tools for applying basic graphic design techniques used in print and outdoor media. Topics include typography, design principles, art & image manipulation, conceptualization and layout stages, color theory and color reproduction, printing processes, and production

Components: LAB.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

STC 103. Statistical Reasoning For Strategic Communication. 3 Credit Hours.

An introduction to statistical reasoning for advertising and public relations.

Requisite: SAT score greater than or equal to 580 or ACT score greater than or equal to 25. Or Corequisite: MTH 101.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

STC 114. Principles of Advertising. 3 Credit Hours.

An introduction to the principles and practice of advertising in a free-market economy. Students will be introduced to several areas of advertising including account planning, creative strategy, media planning, research methods, consumer behavior, and integrated marketing. Emphasis on cultural, social, ethical, and regulatory aspects of advertising.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

STC 116. Principles of Public Relations. 3 Credit Hours.

History, organization, ethics, law, and practice of public relations.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

STC 200. Advertising Strategy Development. 3 Credit Hours.

Introduction to the development of effective advertising strategies. Topics include consumer behavior, attitude development, persuasion tactics, targeting, market segmentation, market analysis, and brand management.

Prerequisite: STC 114.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

STC 201. Public Relations Strategy Development. 3 Credit Hours.

This course introduces students to research-based strategy development and planning at the core of public relations practice.

Prerequisite: STC 116.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

STC 202. Advanced Graphic Design for Advertising. 3 Credit Hours.

This course will delve more deeply into the concepts of graphic design as they relate to the field of advertising. More specifically, this course will touch upon the use of art, illustration, and photography in advertising design. Topics also will include digital imaging, production, and web publishing. Students will learn to use Adobe Illustrator as a tool for designing in both traditional and non-traditional media. This course serves as a foundation for advertising portfolio development.

Prerequisite: STC 102.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

STC 203. Advanced Graphic Design For Public Relations. 3 Credit Hours.

Introduction to graphic design for communication media and use of computer software as layout and design tools. Selection, preparation, and study of design principles and production processes for typography, photography, art work, and white space.

Prerequisites: STC 102, STC 116.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

STC 231. Advertising Copywriting and Concept. 3 Credit Hours.

Introduction to writing advertising copy and conceptualizing campaign ideas for print, broadcast, out-of-home, interactive, and specialty media. Prerequisites: STC 114, JMM 108.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

STC 232. Writing for Public Relations. 3 Credit Hours.

Principles and techniques for the development of creative strategies, concepts, and writing of effective public relations messages for all types of media.

Prerequisites: JMM 108, STC 116 or STC 114 or JMM 102.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

STC 233. Writing for Advertising Account Management. 3 Credit Hours.

Introduction to writing for the business side of advertising. This course will prepare students to write and create comprehensive reports and prepare presentations related to the business of account planning including research, creative strategies, and media planning.

Prerequisites: STC 114, JMM 108.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

STC 311. Public Relations Research. 3 Credit Hours.

Public relations research techniques focusing on applications of strategic planning, message evaluation, opinion research, and theory testing of public relations programs. Emphasis on qualitative and quantitative methods and data analysis.

Prerequisites: STC 103 or PSY 204 or PSY 291 or PSY 292 or MAS 201 or other approved statistics class.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

STC 312. Research Methods for Advertising. 3 Credit Hours.

Application of research techniques used in the field of advertising. Students will learn to collect, analyze, and report secondary and primary research findings as they apply to advertising decision-making.

Prerequisites: STC 233 and PSY 204 or PSY 291 or PSY 292 or MAS 201 or STC 103 or other other approved statistics.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

STC 330. Travel & Tourism. 3 Credit Hours.

Development of tourism and destination promotion strategies and initiatives. Overview of public relations account structures within the tourism industries of airlines, travel destinations, hotels, and others.

Prerequisite: STC 116.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

STC 331. Advanced Copywriting. 3 Credit Hours.

Advanced course in conceptualizing and copywriting advertising campaigns for all media forms, including traditional, digital, social, web, and mobile.

Prerequisite: STC 231.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

STC 334. Social Media Messaging And Strategies. 3 Credit Hours.

Description: Examination of messaging used in social media platforms to reach target audiences and engage activation. This course is designed to approach social media on three levels: messaging to the audience designed to engage activation, strategic writing and planning to create a social media plan and the research to determine the efficacy of social media usage by an organization. Students in this course are expected to utilize their writing and research skills to enhance their knowledge of social media through developing a plan for an organization/client.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

STC 340. Interactive, Digital, and Social Media in Advertising. 3 Credit Hours.

The course will explore the use of new and evolving media in the development of effective advertising campaigns, as well as the impact of these media on the advertising industry.

Prerequisite: STC 114.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

STC 346. Public Relations Message Development And Execution. 3 Credit Hours.

Preparation, execution, and production of visual messages for public relations media.

Prerequisites: STC 203, STC 232.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

STC 350. International and Cross-cultural Advertising. 3 Credit Hours.

This course will explore advertising in a global marketplace. Emphasis will be placed on understanding cultural differences as they relate to international advertising planning, as well as techniques for gathering secondary and primary data on international markets and consumers.

Prerequisite: STC 114.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

STC 380. Advertising Internship. 1-3 Credit Hours.

Students select an internship in the field of advertising for on-the-job training. The student will work a minimum of 45 hours per credit. No more than three (3) credits of internship may be completed in any given semester.

Requisite: Sophomore Status, minimum GPA 2.5 and Permission of Instructor.

Components: THI.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

STC 381. Public Relations Internship. 1-3 Credit Hours.

Students select an internship in the field of public relations for on-the-job training. The student will work a minimum of 45 hours per credit. No more than three (3) credits of internship may be completed in any given semester.

Requisite: Sophomore Status, minimum GPA 2.5 and Permission of Instructor.

Components: THI.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

STC 384. Advertising Creative Strategy and Execution. 3 Credit Hours.

Development of effective creative campaigns. Students will design advertisements for print, broadcast, interactive, and specialty media that meet specific campaign objectives.

Prerequisites: STC 200, STC 202, STC 231.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

STC 388. Media Planning. 3 Credit Hours.

An introduction to the principles and concepts of advertising media planning including media selection, media plan development, forecasting, and budgeting.

Prerequisites: STC 200, STC 233 or JMM 102, JMM 108.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

STC 389. Media Buying and Advertising Sales. 3 Credit Hours.

Students will learn the art of buying media in all categories, as well as how to sell advertising space in these media.

Prerequisites: STC 200, STC 233 or JMM 102, JMM 108.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

STC 390. Art Direction. 3 Credit Hours.

Students will learn art direction skills for both print and electronic media including newspapers, magazines, outdoor, television, radio, and the internet.

Prerequisites: STC 202 or STC 203, STC 231 or STC 232.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

STC 401. Seminar in Advertising and Society. 3 Credit Hours.

This course will examine the ethical, persuasive, cultural, societal, and economic effects of advertising, focusing on the theoretical frameworks that explain how advertising works in these arenas.

Prerequisite: STC 200.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

STC 412. Public Opinion and Mass Communication. 3 Credit Hours.

An exploration of the formation and role of public opinion in mass communication. Emphasis is placed on its role in advertising and promotion. Topics include the evolution and history of public opinion in American culture, the application of public opinion on attitude formation and persuasion, measurement of public opinion, and propaganda.

Requisite: Junior Status or Permission of Instructor.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

STC 416. Public Relations Ethics. 3 Credit Hours.

Ethical concepts and issues pertaining to individuals and society with application to advertising and public relations. Case studies focus on professional and personal ethics based on traditional teaching, modern codes, and other guidelines.

Prerequisite: STC 116.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

STC 423. Crisis Communication And Management. 3 Credit Hours.

This course introduces the student to crisis communication and management from a strategies, theory-based approach steeped in case research from historical cases and business case studies

Prerequisites: STC 116 or STC 201.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

STC 424. Media Relations. 3 Credit Hours.

The practice of media relations within the public relations milieu.

Prerequisites: STC 116, STC 232. Requisite: Junior Status.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

STC 426. Sports, Publicity, & Promotions. 3 Credit Hours.

This course will provide a review, examination and practical application of sports communications, publicity and promotions in strategic communications.

Prerequisites: STC 116, STC 232. Requisite: Junior Status.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

STC 427. Religion, Communication, & Culture. 3 Credit Hours.

The historical, political, economic, and social dynamics of the convergence of religion, communication, and culture in society.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

STC 428. Public Relations Management. 3 Credit Hours.

Principles and practice of public relations management in a variety of contexts including agency, consultancy, corporate, and nonprofit.

Prerequisites: STC 116, STC 232, STC 311, STC 201.

Components: LEC.

Grading: GRD.

STC 434. Advertising Campaigns. 3 Credit Hours.

Capstone course in which students develop a full-scale advertising campaign. Students are responsible for conducting secondary and primary research, strategic planning, development of creative executions, planning and executing media selections, and campaign evaluation. Prerequisites: General Track: STC 114, STC 200, STC 231 or STC 233, STC 312, STC 388. Management Track: STC 114, STC 200, STC 233, STC 312 and STC 388. Creative Track: STC 114, STC 200, STC 202, STC 231 and STC 384.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

STC 436. Public Relations Campaigns. 3 Credit Hours.

The capstone course for seniors in their last year of study. Theory and principles, audience research, strategic planning, and targeted communication are applied in developing a campaign to influence attitudes and behavior on behalf of a real client. A written plan, professional presentation, and teamwork are emphasized.

Prerequisites: STC 311, STC 346.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

STC 438. Practicum In Advertising. 1-3 Credit Hours.

Students will work in the advertising field for advanced on-the-job training in their specific area of advertising specialization.

Prerequisite: STC 380. Requisite: Senior Status.

Components: PRA.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

STC 439. Public Relations Practicum. 1-3 Credit Hours.

Students will work in the public relations field for on-the-job training. Students must work a minimum of 45 hours per credit earned.

Prerequisite: STC 381. Requisite: Senior Status.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

STC 460. Corporate Communication And Public Relations. 3 Credit Hours.

This course monitors the sociopolitical environment of organizations, explores managing corporate crises and confrontations, analyzes issues, formulates organizational and political strategies, develops programs of advocacy communication and explores constituency communications and public involvement.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

STC 481. Public Relations Experience Program (Prep). 1-3 Credit Hours.

Develop skills used by professionals in the public relations/media relations, communications, promotions/marketing and journalism professions through faculty-supervised hands-on experience in the "field" with real organizations.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

STC 482. International Public Relations. 3 Credit Hours.

History, theory, and practice of public relations in a global, multi-cultural environment.

Prerequisite: STC 116.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

STC 483. Integrated Marketing Communication. 3 Credit Hours.

An exploration of how brands are built and promoted through the integration of advertising, public relations, sales promotion, personal selling, direct marketing, and e-commerce.

Prerequisites: STC 114 or STC 116 or MKT 201.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

STC 488. Digital, Mobile, And Web Media Evaluation. 3 Credit Hours.

Focus on the evaluation of digital, mobile, and web-based advertising as part of integrated advertising media plans. Topics include audience estimation, cost-gathering, and evaluation of potential effectiveness.

Prerequisite: STC 388.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

STC 490. Special Topics In Advertising. 1-3 Credit Hours.

This course subject matter varies according to announced special topic. See class schedule for details.

Prerequisite: STC 114.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

STC 491. The Business Of Account Management. 3 Credit Hours.

This course will lead to a stronger understanding of the role of account management in marketing communication and advertising agencies.

Topics will include advertising agency management, client services, and financial planning within the agency.

Prerequisites: STC 200, STC 233, STC 312. Requisite: Junior Status.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

STC 492. Advanced Advertising Creative Development. 3 Credit Hours.

This course will provide an advanced experience in art direction.

Prerequisites: STC 390 or STC 331.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

STC 493. Special Topics in Public Relations. 3 Credit Hours.

This course subject matter varies according to announced special topic. See class schedule for details.

Prerequisite: STC 116.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

STC 495. Advertising Management. 3 Credit Hours.

Students will learn to approach advertising problems at both micro and macro levels from the perspective of a manager in charge of solving such problems. Emphasis will be on problem identification, development of alternative strategies to solve problems, tactics for executing strategies, and evaluation of proposed solutions.

Prerequisites: STC 200, STC 233, STC 312, STC 388. Requisite: Senior Status.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

STC 496. Advertising Portfolio Development. 3 Credit Hours.

This course will assist students in putting together a professional-quality advertising portfolio of their work.

Prerequisite: STC 384. Or Corequisite: STC 384. Requisite: Senior Status.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

STC 498. AAF National Student Advertising Campaign Competition. 3 Credit Hours.

Students compete in the American Advertising Federation's National Student Advertising Campaign Competition.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

STC 499. Projects and Directed Research in Strategic Communication. 3 Credit Hours.

Individual study. No more than three credits may be counted toward a Communication major or minor.

Components: THI.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

STC 620. Public Relations Fundamentals. 3 Credit Hours.

A seminar to explore the theories and methodologies of public relations encompassing writing, principles and campaigns.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

STC 621. Writing for Public Relations. 3 Credit Hours.

Principles and techniques for the development of strategic thinking, information-gathering, and writing public relations messages across traditional, digital, social and web-based media.

Prerequisite: STC 620.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

STC 622. Design for Public Relations. 3 Credit Hours.

An introduction to design principles and tactics used in the creation of public relations messages and campaigns.

Prerequisite: STC 620.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

STC 623. Crisis Communication And Management. 3 Credit Hours.

This course introduces the student to crisis communication and management from a strategies, theory-based approach steeped in case research from historical cases and business case studies

Prerequisite: STC 620.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

STC 624. Media Relations. 3 Credit Hours.

The practice of media relations within the public relations milieu.

Prerequisite: STC 620.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

STC 625. Cases In Public Relations Administration. 3 Credit Hours.

Course analyzes organizational principles, internal budgeting, and evaluation of public relations departments and counseling firms.

Prerequisite: STC 620. Or Requisite: Permission of Instructor.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

STC 626. Sports, Publicity, & Promotions. 3 Credit Hours.

This course will provide a review, examination and practical application of sports communications, publicity and promotions in strategic communications.

Prerequisite: STC 620.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

STC 627. Religion, Communication, & Culture. 3 Credit Hours.

The historical, political, economic, and social dynamics of the convergence of religion, communication, and culture in society.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

STC 628. Public Relations Management. 3 Credit Hours.

Principles and practice of public relations management in a variety of contexts including agency, consultancy, corporate, and nonprofit.

Prerequisite: STC 620.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

STC 629. Special Topics Seminar In Public Relations. 3 Credit Hours.

A seminar to identify and discuss the role of fundraising in the not-for-profit sector.

Prerequisite: STC 620.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

STC 632. Seminar in Public Relations and Political Campaigns. 3 Credit Hours.

A seminar to examine the role of public relations in American political campaigns.

Prerequisite: STC 620.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

STC 634. Non-Profit And Public Information Campaigns. 3 Credit Hours.

A public seminar that focuses on non-profit organizations and governmental institutions.

Prerequisites: STC 620, STC 621, STC 622.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

STC 635. Seminar In Public Relations Measurement. 3 Credit Hours.

This course will delve into the measures, mechanisms, and necessary considerations for measuring public relations effectiveness and evaluating the impact of public relations efforts.

Prerequisites: COM 601, STC 620, COM 602 or COM 603.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

STC 644. Seminar In Public Relations Ethics. 3 Credit Hours.

To explore through readings, discussion and research contemporary ethical issues in public relations.

Prerequisite: STC 620. Or Requisite: Permission of Instructor.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

STC 650. Strategic Communication In Health Care. 3 Credit Hours.

An examination of health industry communication from business and promotional perspectives, including the special issues that have an impact on health communicators. Best practices and case studies from notable practitioners are used; strategic communication plan development, writing and presentation are emphasized.

Prerequisite: STC 620. Or Requisite: Permission of Instructor.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

STC 660. Corporate Communication And Public Relations. 3 Credit Hours.

This course monitors the sociopolitical environment of organizations, explores managing corporate crises and confrontations, analyzes issues, formulates organizational and political strategies, develops programs of advocacy communication and explores constituency communications and public involvement.

Prerequisites: COM 601, STC 620. Or Requisite: Permission of Instructor.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

STC 681. Public Relations Experience Program (Prep). 1-3 Credit Hours.

Develop skills used by professionals in the public relations/media relations, communications, promotions/marketing and journalism professions through faculty-supervised hands-on experience in the "field" with real organizations.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

STC 682. International Public Relations. 3 Credit Hours.

History, theory, and practice of public relations in a global, multi-cultural environment.

Prerequisite: STC 620.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

STC 690. Public Relations Practicum I. 3 Credit Hours.

Professional functions related to public relations requirements in a professional environment acting as an account executive.

Components: PRA.

Grading: GRD.

Typically Offered: Fall & Spring.

STC 691. Special Topics In Public Relations. 3 Credit Hours.

This course subject matter varies according to announced special topic.

See class schedule for details.

Prerequisite: STC 620.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

STC 699. Advanced Projects and Directed Research in Public Relations. 1-6 Credit Hours.

Individual study. May be repeated to a maximum of six credits.

Components: THI.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

Studio Music and Jazz (MSJ)

MSJ 107. Skills Lab I. 1 Credit Hour.

Chamber music performance of selected repertoire with a concentration in Bebop and the music of Charlie Parker, Dizzy Gillespie, and Thelonius Monk, along with secondary figures from the Be-Bop era 1945-1955.

Additional repertoire from a list of American standards will also be assigned. Class sessions will cover historical/stylistic performance practice, aural skills,(transcription, analysis, sight-reading, etc.) and Jazz arranging for small ensembles.

Requisite: Frost School of Music.

Components: LAB.

Grading: GRD.

Typically Offered: Fall.

MSJ 108. Skills Lab II. 1 Credit Hour.

Chamber music performance of selected repertoire with a concentration in Jazz and popular music in America in the 1950's, including the repertoire of prominent popular music composers such as George Gershwin, Cole Porter, Richard Rodgers, and others. Class sessions will cover historical/stylistic performance practice, aural skills (transcription, analysis, sight-reading, etc.) and Jazz arranging for small ensembles.

Components: LAB.

Grading: GRD.

Typically Offered: Spring.

MSJ 11. Saxophone Forum. 0 Credit Hours.

Course provides a weekly forum for all saxophone principals. Student performances, guest artists, master classes, and listening to selected recordings are part of the curriculum.

Requisite: Frost School of Music.

Components: FOR.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ 111. Jazz Vocal Techniques I. 1 Credit Hour.

Analysis and application of singing styles and attendant skills, techniques and repertoire required in performance and recording of jazz, popular music, and other current idioms.

Requisite: Frost School of Music.

Components: LAB.

Grading: GRD.

Typically Offered: Fall.

MSJ 113. Analysis and Evolution of Jazz Styles I. 3 Credit Hours.

An overview of the musical styles and genres of the late nineteenth and early twentieth century leading to the development of Jazz music. Then an in-depth study of early Jazz in America and its innovators, including Louis Armstrong, Jelly Roll Morton, and Duke Ellington. Also, a survey of the major style periods of Modern Jazz from 1945 to the present, including prominent artists from each style period.

Requisite: Frost School of Music.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MSJ 124. Introduction to Jazz Improvisation. 3 Credit Hours.

Introduction to the harmonic, melodic, and rhythmic techniques of Jazz Improvisation.

Requisite: Frost School of Music.

Components: LAB.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ 125. Introduction to Jazz Vocal Improvisation. 3 Credit Hours.

Introduction to the harmonic, melodic, and rhythmic techniques of Jazz Improvisation.

Requisite: Frost School of Music.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MSJ 134. E.C.M. Ensemble. 1 Credit Hour.

This ensemble performs music typical of the contemporary European jazz styles such as those characterized by the Edition of Contemporary Music (E.C.M.) Recording Company.

Requisite: Frost School of Music.

Components: ENS.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ 136. Small Jazz Ensemble. 1 Credit Hour.

Group instruction in the various styles of contemporary jazz. Students will acquire improvisational skills while learning repertoire and performance techniques and strengthen compositional and arranging skills by contributing original compositions and arrangements to the ensemble's repertoire.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ 137. Small Jazz Ensemble I. 1 Credit Hour.

This course is a continuation of MSJ136: Small Jazz Ensemble. Group instruction in the various styles of contemporary jazz. Students will acquire improvisational skills while learning repertoire and performance techniques and strengthen compositional and arranging skills by contributing original compositions and arrangements to the ensemble's repertoire.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ 139. Small Jazz Vocal Ensemble. 1 Credit Hour.

A group consisting of 1 to 6 vocalists and 3 to 6 instrumentalists to gain experience in jazz solo and ensemble performance in a small group setting. Exploration of traditional and contemporary jazz literature will be emphasized. Performance of original music by ensemble members is also encouraged.

Requisite: Frost School of Music.

Components: ENS.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ 140. Experiential Musicianship I. 3 Credit Hours.

Experiential Musicianship I covers the fundamentals of jazz theory and performance. The class is keyboard based. Material includes the basics of melody, harmony and rhythm in the tradition of the jazz art form. Specific topics include chord construction, chord voicings, progressions, voice leading, rhythmic interpretation and aural recognition.

Components: ENS.

Grading: GRD.

Typically Offered: Fall.

MSJ 141. Experiential Musicianship II. 3 Credit Hours.

Experiential Musicianship II is a continuation of Exp. Mus. I. Material includes a more in depth study of chord/scale theory, polyrhythmic studies, expansion of keyboard skills via increasingly longer or complicated progressions, aural recognition and transcription.

Components: ENS.

Grading: GRD.

Typically Offered: Spring.

MSJ 142. Small Jazz Ensemble II. 1 Credit Hour.

This ensemble focuses on sectional playing, blend, and musical interpretation. Students will be required to perform in sections of four to eight trombones with a rhythms section. The literature also requires the student to improvise. Students are encouraged to write for the ensemble.

Requisite: Frost School of Music.

Components: ENS.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ 143. Small Jazz Ensemble III. 1 Credit Hour.

Group instruction in the various styles of contemporary jazz. Students will acquire improvisational skills while learning repertoire and performance techniques, and strengthen compositional and arranging skills by contributing original compositions and arrangements to the ensemble's repertoire.

Requisite: Frost School of Music.

Components: ENS.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ 144. Small Jazz Ensemble IV. 1 Credit Hour.

Group instruction in the various styles of contemporary jazz. Students will acquire improvisational skills while learning repertoire and performance techniques, and strengthen compositional and arranging skills by contributing original compositions and arrangements to the ensemble's repertoire.

Requisite: Frost School of Music.

Components: ENS.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ 145. Small Jazz Ensemble V. 1 Credit Hour.

Group instruction in the various styles of contemporary jazz. Students will acquire improvisational skills while learning repertoire and performance techniques, and strengthen compositional and arranging skills by contributing original compositions and arrangements to the ensemble's repertoire.

Requisite: Frost School of Music.

Components: ENS.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ 146. Small Jazz Ensemble VI. 1 Credit Hour.

Freshmen level group that focuses on the music of Charlie Parker, Dizzy Gillespie, and Thelonius Monk. Issues of modern jazz harmony and rhythm as well as cultivating Bebop vocabulary for improvisation are discussed.

Requisite: Frost School of Music.

Components: SEM.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ 147. Small Jazz Ensemble VII. 1 Credit Hour.

Group instruction in the various styles of contemporary jazz. Students will acquire improvisational skills while learning repertoire and performance techniques, and strengthen compositional and arranging skills by contributing original compositions and arrangements to the ensemble's repertoire.

Requisite: Frost School of Music.

Components: ENS.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ 150. Studio Jazz Band. 1 Credit Hour.

This ensemble performs music in the recent big band tradition, from leaders such as Duke Ellington, Count Basie, Buddy Rich, Bob Brookmeyer, and Thad Jones. The group performs on campus with an emphasis on studio recording.

Requisite: Frost School of Music.

Components: ENS.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ 151. Concert Jazz Band. 1 Credit Hour.

The Concert Jazz Band is the premiere big band at the Frost School of Music. Students are required to perform at an advanced level, and work with a variety of guest artists. Requirements include the ability to sight read difficult material, and to improvise in various styles.

Requisite: Frost School of Music.

Components: ENS.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ 153. Jazz Band III. 1 Credit Hour.

Big Band designed for freshmen and sophomores to gain experience with classic Big Band repertoire.

Requisite: Frost School of Music.

Components: ENS.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ 155. Monk/Mingus Ensemble. 1 Credit Hour.

This ensemble is dedicated to the study and performance of the music of the influential jazz composers Charles Mingus and Thelonius Monk.

Requisite: Frost School of Music.

Components: ENS.

Grading: GRD.

Typically Offered: Fall.

MSJ 156. Funk/Fusion Ensemble. 1 Credit Hour.

Small jazz ensemble focusing on contemporary electric jazz/rock/fusion/Latin styles. Emphasis is placed on original compositions by the members of the ensemble. The most common instrumentation is bass, drums, piano/synthesizer, guitar, and saxophone.

Requisite: Frost School of Music.

Components: ENS.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ 157. Horace Silver Ensemble. 1 Credit Hour.

This ensemble is dedicated to the study and performance of the music of Horace Silver.

Requisite: Frost School of Music.

Components: SEM.

Grading: GRD.

Typically Offered: Spring.

MSJ 158. Frost Sextet. 1 Credit Hour.

An advanced ensemble dedicated to the performance of original and standard repertoire in the jazz idiom.

Requisite: Frost School of Music.

Components: ENS.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ 159. Rhythm and Blues Ensemble. 1 Credit Hour.

Mid-level ensemble for both instrumentalists and vocalists designed to familiarize students with classic Rhythm and Blues material from the 50's, 60's, and 70s, while preparing for a series of concerts throughout the semester. Students are guided through the process of putting a working band together and preparing it for performances and recordings, including what is expected of and from instruments, vocalists, producers, promoters, and other industry personnel.

Requisite: Frost School of Music.

Components: ENS.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ 160. Avant Garde Ensemble. 1 Credit Hour.

This ensemble offers students the opportunity to develop the "free form" improvisation in either the bebop based style of Ornette Coleman or the fusion oriented style as typified by Bill Laswell.

Requisite: Frost School of Music.

Components: ENS.

Grading: GRD.

Typically Offered: Fall.

MSJ 162. Jazz Saxophone Ensemble. 1 Credit Hour.

An ensemble dedicated to the study of jazz and contemporary repertoire for the saxophone Quartet/quintet. Skills addressed include sight-reading, intonation and blend, phrasing, rhythmic Accuracy, may include rhythm section accompaniment depending on availability.

Requisite: Frost School of Music.

Components: ENS.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MSJ 164. Contemporary Rhythm Section Techniques I. 1 Credit Hour.

Introduces students to various styles of rhythm section playing—from swing and modern Jazz through Rock, Funk, R&B, and other commercial styles of music. Concepts of sound, groove, balance and blend, repertory, and accompaniment are also discussed.

Requisite: Frost School of Music.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MSJ 165. Contemporary Rhythm Section Techniques II. 1 Credit Hour.

Fundamentals of rhythm section playing for guitarists, pianists, bassists, and drummers. It covers a variety of contemporary styles within the rock, jazz, Latin, and pop idioms. Students are grouped into ensembles which perform in class weekly.

Requisite: Frost School of Music.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MSJ 166. Small Jazz Ensemble Lab. 0 Credit Hours.

Performance Lab designed to work in conjunction with all of the 140 level ensembles. Provides an environment in which students are required to perform on a regular rotating schedule throughout the semester. These performances are critiqued by the institution and other faculty, as well as students, in order to nurture a critical but positive atmosphere.

Requisite: Frost School of Music.

Components: LAB.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ 167. Salsa Ensemble. 1 Credit Hour.

An ensemble of instrumentalists and singers performing a wide variety of Salsa and Latin jazz styles with emphasis on improvisation.

Requisite: Frost School of Music.

Components: SEM.

Grading: GRD.

Typically Offered: Spring.

MSJ 169. Jazz Guitar Ensemble I. 1 Credit Hour.

A small instrumental ensemble comprised of five electric guitars which perform with bass and drums in a wide variety of contemporary jazz styles.

Requisite: Frost School of Music.

Components: ENS.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ 170. Jazz Guitar Ensemble II. 1 Credit Hour.

A small instrumental ensemble comprised of five electric guitars which perform with bass and drums in a wide variety of contemporary jazz styles.

Requisite: Frost School of Music.

Components: ENS.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ 171. Jazz Guitar Ensemble III. 1 Credit Hour.

A small instrumental ensemble comprised of five electric guitars which perform with bass and drums in a wide variety of contemporary jazz styles.

Requisite: Frost School of Music.

Components: SEM.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ 172. Jazz Guitar Ensemble (Workshop I). 1 Credit Hour.

A small instrumental reading ensemble, comprised of four to eight electric guitars, which studies a variety of contemporary jazz styles.

Requisite: Frost School of Music.

Components: LAB.

Grading: GRD.

Typically Offered: Fall.

MSJ 173. Jazz Guitar Ensemble (Workshop II). 1 Credit Hour.

A small instrumental reading ensemble, comprised of four to eight electric guitars, which studies a variety of contemporary jazz styles.

Requisite: Frost School of Music.

Components: SEM.

Grading: GRD.

Typically Offered: Spring.

MSJ 18. Jazz Vocal Forum. 0 Credit Hours.

A weekly meeting of the jazz vocal students and faculty dedicated to student performances, ensemble performances, and guest artist performances and workshops.

Requisite: Frost School of Music.

Components: FOR.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ 195. Jazz Vocal Ensemble I. 1 Credit Hour.

A choir of 12 to 16 voices, with rhythm section, which perform a wide variety of jazz and pop styles.

Requisite: Frost School of Music.

Components: ENS.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ 196. Jazz Vocal Ensemble II. 1 Credit Hour.

A choir of 12 to 16 voices, with rhythm section, which perform a wide variety of jazz and pop styles.

Requisite: Frost School of Music.

Components: ENS.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ 197. Jazz Vocal Ensemble III. 1 Credit Hour.

A choir of 12 to 16 voices, with rhythm section, which perform a wide variety of jazz and pop styles.

Requisite: Frost School of Music.

Components: ENS.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ 203. Jazz Piano Class I. 1 Credit Hour.

This class covers the rudiments of jazz piano. Students will learn to play basic II V I progressions in major and minor. These progressions will be utilized while learning basic jazz standards.

Requisite: Frost School of Music.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ 204. Jazz Piano Class II. 1 Credit Hour.

A continuation of MSJ 203, alternate versions of the II V I progression are discussed. Students will also learn to play the "blues" and "rhythm changes" progressions with a walking bass line. Jazz standards will be played as solo melody with chordal accompaniment.

Requisite: Frost School of Music.

Components: LAB.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ 207. Skills Lab III. 1 Credit Hour.

Chamber music performance of selected repertoire with a concentration in the music of Miles Davis in the 1950's. Additional repertoire from a list of American standards will also be assigned. Class sessions will cover historical/stylistic performance practice, aural skills (transcription, analysis, sight-reading, etc.) and Jazz arranging for small ensembles.

Requisite: Frost School of Music.

Components: LAB.

Grading: GRD.

Typically Offered: Fall.

MSJ 208. Skills Lab IV. 1 Credit Hour.

Chamber music performance of selected repertoire from the Hard Bop period (1955-1962) including Blue Note artists. Additional repertoire from a list of American standards will also be assigned. Class sessions will cover historical/stylistic performance practice, aural skills (transcription, analysis, sight-reading, etc.) and Jazz arranging for small ensembles.

Requisite: Frost School of Music.

Components: ENS.

Grading: GRD.

Typically Offered: Spring.

MSJ 211. Jazz Vocal Techniques III. 1 Credit Hour.

Course provides performance experience in the Rock/Funk and Rock Ballad idioms that require strong vocal projection and presentation.

Components: LAB.

Grading: GRD.

Typically Offered: Fall.

MSJ 212. Jazz Vocal Techniques IV. 1 Credit Hour.

Advanced techniques for the Jazz/Pop Vocalist in live performance.

Components: LAB.

Grading: GRD.

Typically Offered: Spring.

MSJ 213. Analysis & Evolution of Jazz Styles II.. 3 Credit Hours.

An overview of the musical styles and genres of the middle and late twentieth century encompassing the evolution of Modern Jazz music including an in-depth study of each period of Modern Jazz and its innovators. Also included is a survey of the major style periods of Rock music from 1945 to the present with prominent artists from each style period.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MSJ 220. Basic Drumset Styles and Techniques (Part 1). 3 Credit Hours.

This course explores the basic sticking, swing, backbeat drumset techniques, basic world drumset styles, and chart reading.

Components: LAB.

Grading: GRD.

Typically Offered: Fall.

MSJ 240. Experiential Musicianship III. 3 Credit Hours.

Experiential Musicianship III continues to build on skills acquired in the previous two semesters. Material includes continued development of keyboard skills and aural recognition through expansion of repertoire, modal and non-dominant/tonic harmonic schemes, bass lines and counterpoint, harmonization of melodies, and re-harmonization of basic progressions and transcription.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MSJ 241. Experiential Musicianship IV. 3 Credit Hours.

Experiential Musicianship IV culmination of the four level sequence. Students are expected to understand and aurally recognize advanced harmonic, melodic, and rhythmic material. New material may include Latin and other straight-eight rhythms, multi-voice counterpoint, advanced re-harmonization, and improvising at the keyboard. Keyboard skills run concurrent with Jazz Arranging II techniques (MSJ520).

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MSJ 242. Jazz Percussion Techniques. 1 Credit Hour.

Group instruction in jazz, contemporary, and ethnic drumset/percussion techniques with emphasis on basic skills for performance and recording. Additionally, appropriate teaching techniques, methods, and materials necessary for public school pedagogy will be covered. Course may be repeated for credit.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MSJ 3. Jazz Forum. 0 Credit Hours.

A weekly meeting of jazz students and faculty for performance, master classes, clinics presented by students, faculty and guest artists.

Requisite: Frost School of Music.

Components: FOR.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ 305. Jazz Piano Class III. 1 Credit Hour.

Components: LAB.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ 306. Jazz Piano Class IV. 1 Credit Hour.

Components: LAB.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ 320. Basic Drumset Styles and Techniques (Part 2). 1 Credit Hour.

This course is a continuation of MSJ 220. It explores advanced sticking, swing, backbeat drum set techniques, advanced world drum set styles, and chart reading.

Components: LAB.

Grading: GRD.

Typically Offered: Spring.

MSJ 340. Jazz Skills III. 3 Credit Hours.

Jazz Skills III continues to build on skills acquired in the previous two semesters. Material includes continued development of keyboard skills and aural recognition through expansion of repertoire, modal and non-dominant/tonic harmonic schemes, bass lines and counterpoint, harmonization of melodies, and re-harmonization of basic progressions and transcription.

Components: LAB.

Grading: GRD.

Typically Offered: Fall.

MSJ 341. Jazz Skills IV. 3 Credit Hours.

Jazz Skills IV is the culmination of the four level Jazz Skills sequence. Students are expected to understand and aurally recognize advanced harmonic, melodic, and rhythmic material. New material may include Latin and other straight-eighth rhythms, multi-voice counterpoint, advanced re-harmonization, and improvising at the keyboard. Keyboard skills run concurrent with Jazz Arranging II techniques (MSJ 520).

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MSJ 342. Technology Skills III. 3 Credit Hours.

This course is a continuation of MMI 250 Essential Technology. Recording projects combining acoustic instruments with software based instruments in a Digital Audio Workstation. Studio recording techniques including microphone placement will be demonstrated in a lab environment. Projects will be based on student compositions and/or arrangements. Post production will include mixing, mastering and CD manufacturing.

Components: LAB.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ 371. Jazz Improvisation I. 3 Credit Hours.

Fundamentals of jazz harmony with emphasis on simple chord progressions, altered scales, and modes.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ 372. Jazz Vocal Improvisation I. 3 Credit Hours.

Fundamentals of jazz harmony with emphasis on complex harmonic progressions and tunes.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MSJ 430. Applied Jazz Instruction. 1-2 Credit Hours.

Advanced private study in the jazz idiom. Topics may include improvisation, theory, and composition, at the discretion of the teacher. Students must have completed five semesters on the principal instrument. Permission of both course instructor and principal instrument teacher/advisor required.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MSJ 431. Applied Jazz Instruction 2. 1-2 Credit Hours.

Advanced private study in the jazz idiom. Topics may include improvisation, theory, and composition, at the discretion of the teacher. Students must have completed five semesters on the principal instrument. Permission of both course instructor and principal instrument teacher/advisor required.

Prerequisite: MSJ 430. Or Requisite: Permission of Advisor and Instructor.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MSJ 493. Special Projects In Studio Music & Jazz. 1-3 Credit Hours.

Supervised readings and other activities in specific areas of Studio Music and Jazz.

Components: THI.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MSJ 494. Special Topics In Studio Music & Jazz. 1-3 Credit Hours.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MSJ 499. Senior Recital. 1 Credit Hour.

A public recital of one hour or more. Course is required of all performance majors.

Components: PRA.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ 509. Jazz Composition I. 3 Credit Hours.

Study of advanced composition techniques as applied to the Jazz idiom, making extensive use of analysis of established compositions and compositional methods. Both the individual and interactive characteristics of melody, harmony, rhythm, and form will be stressed.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MSJ 510. Jazz Composition II. 2 Credit Hours.

This course is a continuation of MSJ 500 with an emphasis on melody writing, reharmonization techniques, pentatonic/blues composition, and an introduction to advanced harmonic materials.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MSJ 516. Jazz Vocal Arranging. 3 Credit Hours.

Analysis and techniques of jazz vocal writing.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MSJ 519. Advanced Modern Arranging I. 3 Credit Hours.

Advanced arranging and composition for the Jazz and studio ensemble.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MSJ 520. Advanced Modern Arranging II. 3 Credit Hours.

Advanced arranging and composition for the Jazz and studio ensemble.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MSJ 522. Introduction to Midi Sequencing and Digital Workstations. 2 Credit Hours.

An introduction to Midi Sequencing with hands-on experience working with a computer sequencing workstation. Topics include sequencing, quantizing, editing, mixing, and effects processing.

Components: LAB.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ 560. Advanced Jazz Improvisation Theory. 3 Credit Hours.

Review of fundamentals and introduction of advanced topics in jazz harmony and scale resources for improvisation.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MSJ 565. Advanced Improvisation I. 3 Credit Hours.

Exploration of advanced Jazz improvisation performance and practice techniques. Utilization of non-traditional harmonic motion, advanced chord scale relationships, and motivic development will be stressed, with the goal of musicality in improvisation. Enrollment open to seniors or graduate MSJ majors (or permission of instructor).

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MSJ 566. Advanced Improvisation II. 3 Credit Hours.

Refinement of improvisation concepts leading towards the establishment of a personal style of playing. Open only to senior or graduate majors in Studio Music and Jazz.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MSJ 593. Special Projects In Studio Music And Jazz. 1-3 Credit Hours.

Supervised topics and other activities in specific areas of Studio Music and Jazz.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ 594. Special Topics In Studio Music And Jazz. 1-3 Credit Hours.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MSJ 609. Jazz Composition I. 2 Credit Hours.

Study of advanced composition techniques as applied to the Jazz idiom, making extensive use of analysis of established compositions and compositional methods. Both the individual and interactive characteristics of melody, harmony, rhythm, and form will be stressed.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MSJ 610. Jazz Composition II. 2 Credit Hours.

This course is a continuation of MSJ 500 with an emphasis on melody writing, reharmonization techniques, pentatonic/blues composition, and an introduction to advanced harmonic materials.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MSJ 616. Jazz Vocal Arranging. 2 Credit Hours.

Analysis and techniques of jazz vocal writing.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MSJ 619. Advanced Modern Arranging I. 3 Credit Hours.

Advanced arranging and composition for the Jazz and studio ensemble.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MSJ 620. Advanced Modern Arranging II. 3 Credit Hours.

Advanced arranging and composition for the Jazz and studio ensemble.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MSJ 621. Advanced Modern Arranging III. 3 Credit Hours.

Course addresses scoring for large jazz ensemble, utilizing chord scale voicings and line writing techniques. Emphasis is placed on orchestration styles such as Duke Ellington, Gil Evans, and Thad Jones.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MSJ 622. Introduction to Midi Sequencing and Digital Workstations. 2 Credit Hours.

An introduction to Midi Sequencing with hands-on experience working with a computer sequencing workstation. Topics include sequencing, quantizing, editing, mixing, and effects processing.

Components: LAB.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ 644. Jazz Pedagogy and Administration. 3 Credit Hours.

The philosophy, methods, and materials of instruction pertinent to the teaching and management of a jazz and commercial curriculum at the high school and college level. Includes preparation of model curricula and supervised instruction.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MSJ 665. Advanced Improvisation I. 3 Credit Hours.

Exploration of advanced Jazz improvisation performance and practice techniques. Utilization of non-traditional harmonic motion, advanced chord scale relationships, and motivic development will be stressed, with the goal of musicality in improvisation. Enrollment open to seniors or graduate MSJ majors (or permission of instructor).

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MSJ 666. Advanced Improvisation II. 3 Credit Hours.

Refinement of improvisation concepts leading towards the establishment of a personal style of playing. Open only to senior or graduate majors in Studio Music and Jazz.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MSJ 693. Special Projects In Studio Music And Jazz. 1-3 Credit Hours.

Supervised topics and other activities in specific areas of Studio Music and Jazz.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ 694. Special Topics In Studio Music And Jazz. 1-3 Credit Hours.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MSJ 703. Jazz Piano Class I. 1 Credit Hour.

Group instruction in the various styles of contemporary jazz. Graduate students will acquire improvisational skills while learning repertoire and performance techniques, and strengthen compositional and arranging skills by contributing original compositions and arrangements to the ensemble's repertoire.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ 704. Jazz Piano Class II. 1 Credit Hour.

Group instruction in the various styles of contemporary jazz. Graduate students will acquire improvisational skills while learning repertoire and performance techniques, and strengthen compositional and arranging skills by contributing original compositions and arrangements to the ensemble's repertoire.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ 714. Advanced Orchestration. 3 Credit Hours.

Techniques for scoring for the modern symphony orchestra.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MSJ 715. Jazz Composition Seminar I. 2 Credit Hours.

Creative work in Jazz Composition.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MSJ 716. Jazz Composition Seminar II. 2 Credit Hours.

Develop an understanding and control of compositional concepts and techniques required to work within a professional environment.

Prerequisite: MSJ 715.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MSJ 719. Large Jazz Ensemble Conducting And Repertoire. 2 Credit Hours.

This course will expose students to the methods, procedures, and practices involved in directing large jazz ensembles. Score study, conducting, and performance programming will be covered. Emphasis will be placed on the selection of level appropriate repertoire. Additional topics include working with guest artists, ensemble finances, and the audition process.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MSJ 720. Analysis of Jazz Styles. 3 Credit Hours.

A comparative study of Jazz styles from 1900 to the present.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MSJ 730. Applied Jazz Instruction Jazz I. 1-2 Credit Hours.

Advanced private study in the jazz idiom. Topics may include repertoire, improvisation, theory/harmony, and/or composition, at the discretion of the instructor. Student must have completed five semesters on the principal instrument. Permission of both course instructor and principal instrument teacher/advisor required.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MSJ 731. Applied Jazz Instruction II. 1-2 Credit Hours.

Advanced private study in the jazz idiom. Topics may include repertoire, improvisation, theory/harmony, and/or composition, at the discretion of the instructor. Student must have completed five semesters on the principal instrument. Permission of both course instructor and principal instrument teacher/advisor required

Prerequisite: MSJ 630.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MSJ 734. E.C.M. Ensemble. 1 Credit Hour.

This ensemble performs music typical of the contemporary European jazz styles such as those characterized by the Edition of Contemporary Music (E.C.M.) Recording Company.

Components: ENS.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ 739. Small Jazz Vocal Ensemble. 1 Credit Hour.

Small groups of vocalists with a rhythm section, dedicated to a particular style and body of literature.

Components: ENS.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ 740. Small Jazz Ensemble. 1 Credit Hour.

Group instruction in the various styles of contemporary jazz. Students will acquire improvisational skills while learning repertoire and performance techniques leading to an advanced performance level. This course will strengthen compositional and arranging skills as students must contribute original compositions and arrangements to the ensemble's repertoire.

Components: ENS.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ 741. Small Jazz Ensemble I. 1 Credit Hour.

Group instruction in the various styles of contemporary jazz. Students will acquire improvisational skills while learning repertoire and performance techniques leading to an advanced performance level. This course will strengthen compositional and arranging skills as students must contribute original compositions and arrangements to the ensemble's repertoire.

Components: ENS.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ 742. Small Jazz Ensemble II. 1 Credit Hour.

Group instruction in the various styles of contemporary jazz. Students will acquire improvisational skills while learning repertoire and performance techniques leading to an advanced performance level. This course will strengthen compositional and arranging skills as students must contribute original compositions and arrangements to the ensemble's repertoire.

Components: SEM.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ 743. Small Jazz Ensemble III. 1 Credit Hour.

Group instruction in the various styles of contemporary jazz. Students will acquire improvisational skills while learning repertoire and performance techniques leading to an advanced performance level. This course will strengthen compositional and arranging skills as students must contribute original compositions and arrangements to the ensemble's repertoire.

Components: ENS.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ 744. Small Jazz Ensemble IV. 1 Credit Hour.

Group instruction in the various styles of contemporary jazz. Students will acquire improvisational skills while learning repertoire and performance techniques leading to an advanced performance level. This course will strengthen compositional and arranging skills as students must contribute original compositions and arrangements to the ensemble's repertoire.

Components: ENS.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ 745. Small Jazz Ensemble V. 1 Credit Hour.

Group instruction in the various styles of contemporary jazz. Students will acquire improvisational skills while learning repertoire and performance techniques leading to an advanced performance level. This course will strengthen compositional and arranging skills as students must contribute original compositions and arrangements to the ensemble's repertoire.

Components: ENS.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ 746. Small Jazz Ensemble VI. 1 Credit Hour.

Group instruction in the various styles of contemporary jazz. Students will acquire improvisational skills while learning repertoire and performance techniques leading to an advanced performance level. This course will strengthen compositional and arranging skills as students must contribute original compositions and arrangements to the ensemble's repertoire.

Components: SEM.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ 747. Small Jazz Ensemble VII. 1 Credit Hour.

Group instruction in the various styles of contemporary jazz. Students will acquire improvisational skills while learning repertoire and performance techniques leading to an advanced performance level. This course will strengthen compositional and arranging skills as students must contribute original compositions and arrangements to the ensemble's repertoire.

Components: ENS.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ 750. Studio Jazz Band. 1 Credit Hour.

This ensemble performs music in the recent big band tradition, from leaders such as Duke Ellington, Count Basie, Buddy Rich, Bob Brookmeyer, and Thad Jones. The group performs on campus with an emphasis on studio recording.

Components: ENS.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ 751. Concert Jazz Band. 1 Credit Hour.

The Concert Jazz Band is the premiere big band at the Frost School of Music. Students are required to perform at an advanced level, and work with a variety of guest artists. Requirements include the ability to sight read difficult material, and to improvise in various styles. Audition is required.

Components: ENS.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ 753. Jazz Band III. 1 Credit Hour.

Big Band designed for graduate students needing experience with classic Big Band repertoire.

Components: ENS.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ 755. Monk/Mingus Ensemble. 1 Credit Hour.

This ensemble is dedicated to the study and performance of the music of the influential jazz composers Charles Mingus and Thelonius Monk.

Components: ENS.

Grading: GRD.

Typically Offered: Fall.

MSJ 756. Funk/Fusion Ensemble. 1 Credit Hour.

Small jazz ensemble focusing on contemporary electric jazz/rock/fusion/Latin styles. Emphasis is placed on original compositions by the members of the ensemble. The most common instrumentation is bass, drums, piano/synthesizer, guitar, and saxophone.

Components: ENS.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ 757. Horace Silver Ensemble. 1 Credit Hour.

This ensemble is dedicated to the study and performance of the music of Horace Silver.

Components: SEM.

Grading: GRD.

Typically Offered: Spring.

MSJ 758. Frost Sextet. 1 Credit Hour.

An advanced ensemble dedicated to the performance of original and standard repertoire in the jazz idiom

Components: ENS.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ 759. Rhythm and Blues Ensemble. 1 Credit Hour.

Mid-level ensemble for both instrumentalists and vocalists designed to familiarize students with classic Rhythm and Blues material from the 50s, 60s, and 70s, while preparing for a series of concerts throughout the semester. Students are guided through the process of putting a working band together and preparing it for performances and recordings, including what is expected of and from instruments, vocalists, producers, promoters, and other industry personnel.

Components: SEM.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ 760. Avant Garde Ensemble. 1 Credit Hour.

This ensemble offers students the opportunity to develop the "free form" improvisation in either the bebop based style of Ornette Coleman or the fusion oriented style as typified by Bill Laswell.

Components: ENS.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ 762. Jazz Saxophone Ensemble. 1 Credit Hour.

A reading ensemble comprised of four or five saxophones. Literature may include saxophone quartet and/or saxophone quintet with rhythm section. The ensemble focuses in on fundamental principles of sight-reading, blend, intonation, phrasing, articulation, rhythmic accuracy, as well as overall interpretation.

Components: ENS.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ 764. Contemporary Rhythm Section Techniques I. 1 Credit Hour.

This is an ensemble for freshmen rhythm section players. The focus of this ensemble is to introduce students to various styles of rhythm section playing-- from swing and modern Jazz through Rock, Funk, R&B, and other commercial styles of music. Concepts of sound, groove, balance and blend, repertoire, and accompaniment are also discussed.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MSJ 765. Contemporary Rhythm Section Techniques II. 1 Credit Hour.

Fundamentals of rhythm section playing for guitarists, pianists, bassists, and drummers. It covers a variety of contemporary styles within the rock, jazz, Latin, and pop idioms. Students are grouped into ensembles which perform in class weekly.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MSJ 766. Small Jazz Ensemble Lab. 0 Credit Hours.

Performance Lab designed to work in conjunction with all of the 140 level ensembles. Provides an environment in which students are required to perform on a regular rotating schedule throughout the semester. These performances are critiqued by the institution and other faculty, as well as students, in order to nurture a critical but positive atmosphere.

Components: LAB.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ 767. Salsa Ensemble. 1 Credit Hour.

An ensemble of instrumentalists and singers performing a wide variety of Salsa and Latin jazz styles with emphasis on improvisation.

Components: SEM.

Grading: GRD.

Typically Offered: Spring.

MSJ 769. Jazz Guitar Ensemble I. 1 Credit Hour.

A small instrumental ensemble comprised of five electric guitars which perform with bass and drums in a wide variety of contemporary jazz styles.

Components: ENS.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ 770. Jazz Guitar Ensemble II. 1 Credit Hour.

A small instrumental ensemble comprised of five electric guitars which perform with bass and drums in a wide variety of contemporary jazz styles.

Components: SEM.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ 771. Jazz Guitar Ensemble III. 1 Credit Hour.

A small instrumental ensemble comprised of five electric guitars which perform with bass and drums in a wide variety of contemporary jazz styles.

Components: SEM.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ 772. Jazz Guitar Ensemble (Workshop I). 1 Credit Hour.

A small instrumental reading ensemble, comprised of four to eight electric guitars, which studies a variety of contemporary jazz styles.

Components: LAB.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ 773. Jazz Guitar Ensemble (Workshop II). 1 Credit Hour.

A small instrumental reading ensemble, comprised of four to eight electric guitars, which studies a variety of contemporary jazz styles.

Components: SEM.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MSJ 775. Jazz Writing Ensemble. 1 Credit Hour.

This class is a seminar in jazz arranging and composition techniques for Studio/Jazz Writing master's students and DMA students in Jazz Composition. The class consists primarily of topics related to jazz and studio arranging and composition, recording techniques, rehearsal techniques, music technologies, music business, and entrepreneurship. Topics are examined utilizing hands-on technology, score analysis, listening, guest lectures, and long range projects.

Components: ENS.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MSJ 780. Advanced Jazz Improvisation Theory. 3 Credit Hours.

Review of fundamentals and introduction of advanced topics in jazz harmony and scale resources for improvisation.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MSJ 793. SPECIAL PROJECTS. 1-3 Credit Hours.

Projects in any phase of studio music and jazz in which the student is interested and qualified to work.

Components: THI.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MSJ 794. Special Topics In Studio Music And Jazz. 1-3 Credit Hours.

Projects in any phase of studio music and jazz in which the student is interested and qualified to work.

Components: THI.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MSJ 795. Jazz Vocal Ensemble I. 1 Credit Hour.

A choir of 12 to 16 voices, with rhythm section, which perform a wide variety of jazz and pop styles.

Components: ENS.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ 796. Jazz Vocal Ensemble II. 1 Credit Hour.

A choir of 12 to 16 voices, with rhythm section, which perform a wide variety of jazz and pop styles.

Components: ENS.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ 797. Jazz Vocal Ensemble III. 1 Credit Hour.

A choir of 12 to 16 voices, with rhythm section, which perform a wide variety of jazz and pop styles.

Components: ENS.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ 811. Master's Recital Paper. 1-3 Credit Hours.

The student working on his/her recital paper enrolls for credit as determined by his/her advisor. Credit is not awarded until the paper has been accepted.

Components: THI.

Grading: SUS.

Typically Offered: Fall, Spring, & Summer.

MSJ 812. Master's Recital. 1 Credit Hour.

The student enrolls for recital credit during the semester in which he/she presents the master's recital.

Components: PRA.

Grading: SUS.

Typically Offered: Fall & Spring.

MSJ 813. Master's Jazz Writing Project. 1-3 Credit Hours.

The student working on his/her master's jazz writing project enrolls for credit as determined by his/her advisor. Credit is not awarded until the project paper is accepted.

Components: THI.

Grading: SUS.

Typically Offered: Fall, Spring, & Summer.

MSJ 820. Research in Residence. 1 Credit Hour.

Used to establish research in residence for the thesis for the master's degree after the student has enrolled for the permissible cumulative total in MSJ 710 (usually six credits). Credit not granted. May be regarded as full time residence.

Components: THI.

Grading: SUS.

Typically Offered: Fall, Spring, & Summer.

MSJ 831. Doctoral Essay. 1-12 Credit Hours.

Required of all candidates of the D.M.A. The student will enroll for credit as determined by his/her advisor, but not for less than a total of 12. Not more than 12 hours of MSJ 731 may be taken in a regular semester, nor more than six in a summer session.

Components: THI.

Grading: SUS.

Typically Offered: Fall, Spring, & Summer.

MSJ 832. Doctoral Recital. 1 Credit Hour.

A formal recital displaying improvisational, interactive, and compositional skills appropriate to the doctoral level.

Components: THI.

Grading: SUS.

Typically Offered: Fall & Spring.

MSJ 850. Research in Residence. 1 Credit Hour.

Used to establish research in residence for the D.M.A., after the student has been enrolled for the permissible cumulative total in appropriate doctoral research. Credit not granted. May be regarded as full-time residence as determined by the Dean of the Graduate School.

Components: THI.

Grading: SUS.

Typically Offered: Fall, Spring, & Summer.

MSJ 88. Jazz Piano Forum. 0 Credit Hours.

Jazz Piano Forum is a weekly performance venue for jazz piano principals and majors which may include guest clinicians and artists.

Requisite: Frost School of Music.

Components: FOR.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ 9. Saxophone Forum. 0 Credit Hours.

Requisite: Frost School of Music.

Components: LEC.

Grading: GRD.

MSJ JA6. Jazz Bass. 1-2 Credit Hours.

Jazz Bass at the Master's level. The student will pursue a course of study that is directed toward his/her musical goals. This course will examine, through transcription and analysis, the important figures in the history of jazz bass, and also those performances in which the student is interested.

Requisite: Frost School of Music.

Components: STU.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ JA7. Applied Jazz Arranging. 1 Credit Hour.

Applied Jazz Arranging level M is the first level of DMA private jazz arranging lessons. At this level the instructor evaluates the writers breadth of knowledge of arranging and orchestration techniques and expands on the key arrangers of various styles, genres and mediums.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ JAN. Applied Jazz Arranging. 1 Credit Hour.

Applied Jazz Arranging level N is the second level of DMA private jazz arranging lessons. At this level the instructor continues to evaluate the writers breadth of knowledge of arranging and orchestration techniques and works in areas of weakness in arranging, orchestration and developmental techniques.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ JAO. Applied Jazz Arranging. 1 Credit Hour.

Applied Jazz Arranging level O is the third level of DMA private jazz arranging lessons. At this level the instructor introduces some of the more contemporary techniques in arranging and orchestration including methods of re-harmonization, modern approaches to textural orchestration and continued expansion of developmental techniques.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ JAP. Applied Jazz Arranging. 1 Credit Hour.

Applied Jazz Arranging level P is the fourth level of DMA private jazz arranging lessons. At this level the instructor continues to expand on the more contemporary techniques in arranging and orchestration with analysis of key writers such as Maria Schneider, Bob Brookmeyer and Jim McNeely. Emphasis is placed on developing an individual approach to arranging and orchestration.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ JAQ. Applied Jazz Arranging. 1 Credit Hour.

Applied Jazz Arranging level Q is the fifth level of DMA private jazz arranging lessons. At this level the instructor continues to expand on the more contemporary techniques in arranging and orchestration with analysis of key writers such as Maria Schneider, Bob Brookmeyer and Jim McNeely. Emphasis is placed on developing an individual approach to arranging and orchestration and more exploration of small and large jazz ensembles and writing for strings in a jazz setting.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ JAR. Applied Jazz Arranging. 1 Credit Hour.

Applied Jazz Arranging level R is the sixth level of DMA private jazz arranging lessons. Applied Jazz Arranging level R is the sixth level of DMA private jazz arranging lessons. Emphasis is placed on developing an individual approach to arranging and orchestration and more exploration of small and large jazz ensembles and writing for strings in a jazz setting. Contemporary models are examined from both the classical and jazz repertoire.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ JB1. Jazz Bass. 2 Credit Hours.

1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Basic techniques, sight-reading. Major, minor, diminished, and whole tone scales. Chord structure and analysis. Bass line construction, basis of walking lines. Voice leading for bass lines and improvisation. Etudes and studies in all styles. Repertoire: Standards and Jazz.

Requisite: Frost School of Music.

Components: STU.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ JB3. Jazz Bass. 2 Credit Hours.

1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Previous materials in addition to advanced harmonic applications. Expanding traditional improvisational vocabulary. Creating original vocabulary.

Requisite: Frost School of Music.

Components: STU.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ JB7. Jazz Bass. 1-2 Credit Hours.

Jazz Bass at the Doctoral level. The student will pursue a course of study that is directed towards his/her musical goals. This course will also examine, through transcription and analysis, the important figures in the history of jazz bass, and also those performances in which the student is interested.

Requisite: Frost School of Music.

Components: STU.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ JBB. Jazz Bass. 1-2 Credit Hours.

1-hour lesson for students enrolled for 2-3 credits. 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Basic techniques, sight-reading. Major, minor, diminished, and whole tone scales. Chord structure and analysis. Bass line construction, basis of walking lines. Voice leading for bass lines and improvisation. Etudes and studies in all styles. Repertoire: Standards and Jazz.

Requisite: Frost School of Music.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ JBC. Jazz Bass. 1-2 Credit Hours.

1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Previous materials in addition to solo bass techniques. Advanced arpeggios and scales. Pentatonic theory and applications. Improvisational vocabulary (traditional).

Requisite: Frost School of Music.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ JBD. Jazz Bass. 1-2 Credit Hours.

1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Previous materials in addition to solo bass techniques. Advanced arpeggios and scales. Pentatonic theory and applications. Improvisational vocabulary (traditional).

Requisite: Frost School of Music.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ JBF. Jazz Bass. 1-2 Credit Hours.

1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Previous materials in addition to advanced harmonic applications. Expanding traditional improvisational vocabulary. Creating original vocabulary.

Requisite: Frost School of Music.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ JBG. Jazz Bass. 1-2 Credit Hours.

1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Previous materials in addition to recital preparation.

Requisite: Frost School of Music.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ JBH. Jazz Bass. 1-2 Credit Hours.

1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Previous materials in addition to recital preparation.

Requisite: Frost School of Music.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ JBJ. Jazz Bass. 1-3 Credit Hours.

Continuation of MSJ JBI.

Requisite: Frost School of Music.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ JBK. Jazz Bass. 1-3 Credit Hours.

Continuation of MSJ JBJ.

Requisite: Frost School of Music.

Components: LSN.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MSJ JBL. Jazz Bass. 1-3 Credit Hours.

This semester will focus on the student's graduate recital performance, if applicable.

Requisite: Frost School of Music.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ JBN. Jazz Bass. 1-3 Credit Hours.

Continuation of MSJ JBL.

Requisite: Frost School of Music.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ JBO. Jazz Bass. 1-3 Credit Hours.

Continuation of MSJ JBN.

Requisite: Frost School of Music.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ JBP. Jazz Bass. 1-3 Credit Hours.

Continuation of MSJ JBO.

Requisite: Frost School of Music.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ JBQ. Jazz Bass. 1-3 Credit Hours.

Continuation of MSJ JBP.

Requisite: Frost School of Music.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ JBR. Jazz Bass. 1-3 Credit Hours.

Continuation of MSJ JBQ.

Requisite: Frost School of Music.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ JC6. Applied Jazz Composition. 1-2 Credit Hours.

Applied Jazz Composition level I is the first level of private jazz composition lessons in the Studio Jazz Writing Masters program. At this level the instructor evaluates the writer's general knowledge of jazz composition with emphasis on harmonic vocabulary and form.

Components: STU.

Grading: GRD.

MSJ JC7. Applied Jazz Composition. 1-2 Credit Hours.

Applied Jazz Composition level M is the first level of DMA private jazz composition lessons. At this level the instructor evaluates the writer's knowledge of early jazz composers (1920-1940) with emphasis on harmonic vocabulary and form.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ JCJ. Applied Jazz Composition. 1-2 Credit Hours.

Applied Jazz Composition level J is the second level of private jazz composition lessons in the Studio Jazz Writing Masters program. At this level the instructor evaluates the writer's general knowledge of jazz composition with emphasis on common practice and historically significant jazz composers. Instruction includes continued refinement of harmonic vocabulary including chord scales and form.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ JCK. Applied Jazz Composition. 1-2 Credit Hours.

Applied Jazz Composition level K is the third level of private jazz composition lessons in the Studio Jazz Writing Masters program. At this level the instructor introduces more contemporary significant jazz composers and introduces composition through modes and more advanced composite scales.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ JCL. Applied Jazz Composition. 1-2 Credit Hours.

Applied Jazz Composition level L is the fourth level of private jazz composition lessons in the Studio Jazz Writing Masters program. At this level the instructor introduces more contemporary significant jazz composers and expands on composition through modes and more advanced composite scales. Development of an individual style is explored.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ JCN. Applied Jazz Composition. 1-2 Credit Hours.

Applied Jazz Composition level N is the second level of DMA private jazz composition lessons. At this level the instructor builds on the writer's knowledge with analysis of jazz composers of the 1950's and 1960's emphasizing harmonic and melodic vocabulary and form.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ JCO. Applied Jazz Composition. 1-2 Credit Hours.

Applied Jazz Composition level O is the third level of DMA private jazz composition lessons. At this level the instructor builds on the writer's knowledge with analysis of jazz composers of the 1970's and 1980's emphasizing harmonic and melodic vocabulary and form. Developing an individual writing style.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ JCP. Applied Jazz Composition. 1-2 Credit Hours.

Applied Jazz Composition level P is the fourth level of DMA private jazz composition lessons. At this level the instructor builds on the writer's knowledge with analysis of jazz composers of the 1990's and 2000's emphasizing harmonic and melodic vocabulary and open forms. Developing an individual writing style.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ JCQ. Applied Jazz Composition. 1-2 Credit Hours.

Applied Jazz Composition level Q is the fifth level of DMA private jazz composition lessons. At this level the instructor builds on the writer's knowledge with analysis of the most contemporary jazz composers and continued refinement of the writers individual style.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ JD1. Jazz Drumset. 2 Credit Hours.

1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Sticking technique, basic hand/foot patterns. Analysis of styles, history of drum set. Rhythm section interaction. Basic transcription, chart reading.

Requisite: Frost School of Music.

Components: STU.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ JD3. Jazz Drumset. 2 Credit Hours.

1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Advanced jazz styles and comping, odd note groupings, advanced chart reading, advanced hand/foot patterns.

Requisite: Frost School of Music.

Components: STU.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ JD6. Jazz Drumset. 1-2 Credit Hours.

Private lessons which focus on the development of drumset skills. The course will cover sticking technique, hand/foot patterns, groove, balance, and rhythm section interaction. Students are required to perform and improvise at a professional level.

Requisite: Frost School of Music.

Components: STU.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ JD7. Jazz Drumset. 1-2 Credit Hours.

Private lessons which focus on the development of drumset skills. The course will cover sticking technique, hand/foot patterns, groove, balance, and rhythm section interaction. Students are required to perform and improvise at a professional level.

Requisite: Frost School of Music.

Components: STU.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ JDB. Jazz Drumset. 1-2 Credit Hours.

1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Sticking technique, basic hand/foot patterns. Analysis of styles, history of drum set. Rhythm section interaction. Basic transcription, chart reading.

Requisite: Frost School of Music.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ JDC. Jazz Drumset. 1-2 Credit Hours.

1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Advanced analysis or major drum set artists. Advanced transcription. Soloing over form using motives, dynamics, and subdivision, comping patterns.

Requisite: Frost School of Music.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ JDD. Jazz Drumset. 1-2 Credit Hours.

1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Advanced analysis or major drum set artists. Advanced transcription. Soloing over form using motives, dynamics, and subdivision, comping patterns.

Requisite: Frost School of Music.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ JDF. Jazz Drumset. 1-2 Credit Hours.

1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Advanced jazz styles and comping, odd note groupings, advanced chart reading, advanced hand/foot patterns.

Requisite: Frost School of Music.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ JDG. Jazz Drumset. 1-2 Credit Hours.

1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Displacement, metric modulation, preparation for recital, developing an individual voice.

Requisite: Frost School of Music.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ JDH. Jazz Drumset. 1-2 Credit Hours.

1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Displacement, metric modulation, preparation for recital, developing an individual voice.

Requisite: Frost School of Music.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ JDJ. Jazz Drumset. 1-3 Credit Hours.

Private lessons which focus on the development of drumset skills. The course will cover sticking technique, hand/foot patterns, groove, balance, and rhythm section interaction. Students are required to perform and improvise at a professional level.

Requisite: Frost School of Music.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ JDK. Jazz Drumset. 1-3 Credit Hours.

Private lessons which focus on the development of drumset skills. The course will cover sticking technique, hand/foot patterns, groove, balance, and rhythm section interaction. Students are required to perform and improvise at a professional level.

Requisite: Frost School of Music.

Components: LSN.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MSJ JDL. Jazz Drumset. 1-3 Credit Hours.

Private lessons which focus on the development of drumset skills. The course will cover sticking technique, hand/foot patterns, groove, balance, and rhythm section interaction. Students are required to perform and improvise at a professional level.

Requisite: Frost School of Music.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ JDN. Jazz Drumset. 1-3 Credit Hours.

Private lessons which focus on the development of drumset skills. The course will cover sticking technique, hand/foot patterns, groove, balance, and rhythm section interaction. Students are required to perform and improvise at a professional level.

Requisite: Frost School of Music.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ JDO. Jazz Drumset. 1-3 Credit Hours.

Private lessons which focus on the development of drumset skills. The course will cover sticking technique, hand/foot patterns, groove, balance, and rhythm section interaction. Students are required to perform and improvise at a professional level.

Requisite: Frost School of Music.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ JDP. Jazz Drumset. 1-3 Credit Hours.

Private lessons which focus on the development of drumset skills. The course will cover sticking technique, hand/foot patterns, groove, balance, and rhythm section interaction. Students are required to perform and improvise at a professional level.

Requisite: Frost School of Music.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ JDQ. Jazz Drumset. 1-3 Credit Hours.

Private lessons which focus on the development of drumset skills. The course will cover sticking technique, hand/foot patterns, groove, balance, and rhythm section interaction. Students are required to perform and improvise at a professional level.

Requisite: Frost School of Music.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ JDR. Jazz Drumset. 1-3 Credit Hours.

Private lessons which focus on the development of drumset skills. The course will cover sticking technique, hand/foot patterns, groove, balance, and rhythm section interaction. Students are required to perform and improvise at a professional level.

Requisite: Frost School of Music.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ JG1. Jazz Guitar. 2 Credit Hours.

1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Left and right hand development. Basic fretboard theory including arpeggios, voice leading (2 string studies), blues and bebop scales. Accompanying: 3-note voicings. Introduction to transcription. Application of the concepts studied to basic repertoire.

Requisite: Frost School of Music.

Components: STU.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ JG3. Jazz Guitar. 2 Credit Hours.

1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Works by Bach, Galbraith and others. Building of standard/jazz repertoire including works by Arlen, Porter, Kern, Parker, Ellington, etc. Improvisation and harmonic studies based on the foregoing. Eartraining as required. Use of Jamey Aebersold play-along series.

Requisite: Frost School of Music.

Components: STU.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ JG6. Jazz Guitar. 1-2 Credit Hours.

Graduate Studies in Jazz Guitar are designed to take into account each student's talent, previous accomplishments and particular interests. After a careful assessment of the student's strengths and weaknesses, a course of study will be custom-designed, with possible areas of study drawn from (but not limited to) the following list: advanced jazz concepts in melody, harmony and rhythm, sight-reading, repertoire expansion, transposition, technique, composition, and pedagogy.

Requisite: Frost School of Music.

Components: STU.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ JG7. Jazz Guitar. 1-2 Credit Hours.

Graduate Studies in Jazz Guitar are designed to take into account each student's talent, previous accomplishments and particular interests. It is expected that a graduate student at the DMA level would be, to a large extent, self-directing and capable of original research. After a careful assessment of the student's strengths and weaknesses, a course of study will be custom-designed, with possible areas of study drawn from (but not limited to) the following list: advanced jazz concepts in melody, harmony and rhythm, sight-reading, repertoire expansion, transposition, technique, composition, and pedagogy. Assistance with recital preparation will be given as appropriate and necessary. The prerequisite for the first level (JGM) is a Master's Degree and the successful completion of the audition for the DMA program.

Requisite: Frost School of Music.

Components: STU.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ JGB. Jazz Guitar. 1-2 Credit Hours.

1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Left and right hand development. Basic fretboard theory including arpeggios, voice leading (2 string studies), blues and bebop scales. Accompanying: 3-note voicings. Introduction to transcription. Application of the concepts studied to basic repertoire.

Requisite: Frost School of Music.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ JGC. Jazz Guitar. 1-2 Credit Hours.

1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Further development of repertoire and continuation of technical studies. Improvisation using arpeggios with tension substitutions. Application of major and melodic minor modes. More advanced transcriptions and refinement of time feel.

Requisite: Frost School of Music.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ JGD. Jazz Guitar. 1-2 Credit Hours.

1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Further development of repertoire and continuation of technical studies. Improvisation using arpeggios with tension substitutions. Application of major and melodic minor modes. More advanced transcriptions and refinement of time feel.

Requisite: Frost School of Music.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ JGF. Jazz Guitar. 1-2 Credit Hours.

1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Works by Bach, Galbraith and others. Building of standard/jazz repertoire including works by Arlen, Porter, Kern, Parker, Ellington, etc. Improvisation and harmonic studies based on the foregoing. Eartraining as required. Use of Jamey Aebersold play-along series.

Requisite: Frost School of Music.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ JGG. Jazz Guitar. 1-2 Credit Hours.

1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. More advanced repertoire (works by Corea, Hancock, etc.). Continued expansion of harmonic concepts and exploration of chord voicings and applications. Use of Aebersold series. Assistance with senior recital preparation.

Requisite: Frost School of Music.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ JGH. Jazz Guitar. 1-2 Credit Hours.

1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. More advanced repertoire (works by Corea, Hancock, etc.). Continued expansion of harmonic concepts and exploration of chord voicings and applications. Use of Aebersold series. Assistance with senior recital preparation.

Requisite: Frost School of Music.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ JGJ. Jazz Guitar. 1-3 Credit Hours.

Graduate Studies in Jazz Guitar are designed to take into account each student's talent, previous accomplishments and particular interests. After a careful assessment of the student's strengths and weaknesses, a course of study will be custom-designed, with possible areas of study drawn from (but not limited to) the following list: advanced jazz concepts in melody, harmony and rhythm, sight-reading, repertoire expansion, transposition, technique, composition, and pedagogy.

Requisite: Frost School of Music.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ JGK. Jazz Guitar. 1-3 Credit Hours.

Graduate Studies in Jazz Guitar are designed to take into account each student's talent, previous accomplishments and particular interests. After a careful assessment of the student's strengths and weaknesses, a course of study will be custom-designed, with possible areas of study drawn from (but not limited to) the following list: advanced jazz concepts in melody, harmony and rhythm, sight-reading, repertoire expansion, transposition, technique, composition, and pedagogy.

Requisite: Frost School of Music.

Components: LSN.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MSJ JGL. Jazz Guitar. 1-3 Credit Hours.

Graduate Studies in Jazz Guitar are designed to take into account each student's talent, previous accomplishments and particular interests. After a careful assessment of the student's strengths and weaknesses, a course of study will be custom-designed, with possible areas of study drawn from (but not limited to) the following list: advanced jazz concepts in melody, harmony and rhythm, sight-reading, repertoire expansion, transposition, technique, composition, and pedagogy.

Requisite: Frost School of Music.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ JGN. Jazz Guitar. 1-3 Credit Hours.

Graduate Studies in Jazz Guitar are designed to take into account each student's talent, previous accomplishments and particular interests. It is expected that a graduate student at the DMA level would be, to a large extent, self-directing and capable of original research. After a careful assessment of the student's strengths and weaknesses, a course of study will be custom-designed, with possible areas of study drawn from (but not limited to) the following list: advanced jazz concepts in melody, harmony and rhythm, sight-reading, repertoire expansion, transposition, technique, composition, and pedagogy. Assistance with recital preparation will be given as appropriate and necessary. The prerequisite for the first level (JGM) is a Master's Degree and the successful completion of the audition for the DMA program.

Requisite: Frost School of Music.

Components: LSN.

Grading: GRD.

The prerequisite for the first level (JGM) is a Master's Degree and the successful completion of the audition for the DMA program.

Requisite: Frost School of Music.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ JP1. Jazz Piano. 2 Credit Hours.

Students will expand and refine application of fundamental chord voicings, chord-scale relationships, be-bop and blues vocabulary, and develop a strong rhythmic base. Solo piano and ensemble/accompaniment formats will be addressed. Technique will be evaluated to identify areas in need of improvement. Methods will include: transcription, analysis, composition of single lines and arrangements, tune learning, and various improvisation exercises.

Requisite: Frost School of Music.

Components: STU.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ JP3. Jazz Piano. 2 Credit Hours.

1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Technique: Selected exercises from the Dohnanyi or Pishna exercise books. Augmented scales and modes of major in all keys, in both hands and in at least two octaves with a swing (triplet) subdivision. Introduction to modal harmony and sideslipping through study of plateau modal compositions (tunes with long sections of the same modality.) Pentatonic scales in all keys. Literature: Blues in the stride solo piano format. Analysis and transcription of artists who played in this style such as Tatum, Johnson, Smith, and Peterson. Memorization of at least two tunes per lesson in at least three key centers, at least 75% of which should be tunes in the "American standard" format featuring composers such as Berlin, Porter, Kahn, Gershwin, etc. All of the above to be performed both with bass accompaniment and in solo piano format with sections in stride style. Introduction to the Bill Evans piano style through performance of his transcribed piano pieces.

Requisite: Frost School of Music.

Components: STU.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ JP6. Jazz Piano. 1-2 Credit Hours.

Students are encouraged to seek refinement in the areas of harmony, chord voicings, improvisation vocabulary, rhythmic concepts, and technique. A nuanced approach to performing in a musical and expressive manner, with special regard to phrasing, dynamic contrast, articulation, and part balance will be stressed. Advanced techniques in reharmonization, rhythmic phrasing, and solo piano will be explored. Atypical song forms and contemporary repertoire will be introduced. Developing an individual approach to improvising and composing will be encouraged. Recital preparation will focus on programming and other important aspects of concert planning.

Requisite: Frost School of Music.

Components: STU.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ JP7. Jazz Piano. 1-2 Credit Hours.

Emphasis placed on developing an individual identity as an artist. Creation of a distinct concept for an ensemble and/or solo piano approach through original composition and/or arranging will be stressed. Career advancement as a performer and/or educator will be explored.

Requisite: Frost School of Music.

Components: STU.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ JPB. Jazz Piano. 1-2 Credit Hours.

Students will expand and refine application of fundamental chord voicings, chord-scale relationships, be-bop and blues vocabulary, and develop a strong rhythmic base. Solo piano and ensemble/accompaniment formats will be addressed. Technique will be evaluated to identify areas in need of improvement. Methods will include: transcription, analysis, composition of single lines and arrangements, tune learning, and various improvisation exercises.

Requisite: Frost School of Music.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ JPC. Jazz Piano. 1-2 Credit Hours.

Students will expand and refine knowledge of chord voicings, chord scale relationships, and rhythmic integrity in swing and other styles. Modal, chromatic, and non-traditional harmonic concepts will be introduced. Advanced rhythmic approaches to improvisation and accompaniment will be explored. Expressive aspects of performance will be addressed. Technique will be evaluated to identify areas in need of improvement. Methods will include: transcription, analysis, composition of single lines and arrangements, tune learning, and various improvisation exercises.

Requisite: Frost School of Music.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ JPD. Jazz Piano. 1-2 Credit Hours.

1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Technique: Arpeggiation of major, minor, diminished and augmented seventh chords, in both hands and in at least two octaves with a swing (triplet) subdivision. Introduction to melodic harmonization through practice of "Shearing Style" and "Drop Two" scalar exercises. Introduction of the ii-V7-I chord progression in all keys as applied to tunes which have a harmonic rhythm of two changes per bar such as Confirmation (Parker) and in Your Own Sweet Way (Brubeck). Literature: Study of the "I Got Rhythm" chord progression. Memorization of at least two tunes per lesson in their original key, at least 75% of which should be tunes in the "American standard" format featuring composers such as Berlin, Porter, Kahn, Gershwin, etc. All of above to be performed with bass accompaniment, or in solo piano format. Study, performance and analysis of transcribed solos such as those found in the Omnibook (Parker). Introduction to solo piano format through study of transcribed pieces.

Requisite: Frost School of Music.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ JPF. Jazz Piano. 1-2 Credit Hours.

1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Technique: Selected exercises from the Dohnanyi or Pishna exercise books. Augmented scales and modes of major in all keys, in both hands and in at least two octaves with a swing (triplet) subdivision. Introduction to modal harmony and sideslipping through study of plateau modal compositions (tunes with long sections of the same modality.) Pentatonic scales in all keys. Literature: Blues in the stride solo piano format. Analysis and transcription of artists who played in this style such as Tatum, Johnson, Smith, and Peterson. Memorization of at least two tunes per lesson in at least three key centers, at least 75% of which should be tunes in the "American standard" format featuring composers such as Berlin, Porter, Kahn, Gershwin, etc. All of the above to be performed both with bass accompaniment and in solo piano format with sections in stride style. Introduction to the Bill Evans piano style through performance of his transcribed piano pieces. Requisite: Frost School of Music.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ JPG. Jazz Piano. 1-2 Credit Hours.

1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Technique: Selected exercises from the Dohnanyi or Pishna exercise books. Augmented scales and modes of major in all keys, in both hands and in at least two octaves with a swing (triplet) subdivision. Introduction to modal harmony and sideslipping through study of plateau modal compositions (tunes with long sections of the same modality.) Pentatonic scales in all keys. Literature: Blues in the stride solo piano format. Analysis and transcription of artists who played in this style such as Tatum, Johnson, Smith, and Peterson. Grading: GRD.

Typically Offered: Fall & Spring.

MSJ JPJ. Jazz Piano. 1-3 Credit Hours.

Students are encouraged to seek refinement in the areas of harmony, chord voicings, improvisation vocabulary, rhythmic concepts, and technique. A nuanced approach to performing in a musical and expressive manner, with special regard to phrasing, dynamic contrast, articulation, and part balance will be stressed. Advanced techniques in reharmonization, rhythmic phrasing, and solo piano will be explored. Atypical song forms and contemporary repertoire will be introduced. Developing an individual approach to improvising and composing will be encouraged. Recital preparation will focus on programming and other important aspects of concert planning.

Requisite: Frost School of Music.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ JPK. Jazz Piano. 1-3 Credit Hours.

Students are encouraged to seek refinement in the areas of harmony, chord voicings, improvisation vocabulary, rhythmic concepts, and technique. Typically Offered: Fall, Spring, & Summer.

MSJ TPL. Jazz Trumpet. 1-3 Credit Hours.

Private lessons focus on various facets of jazz trumpet performance. These include jazz and classical instrumental studies focusing on proper warm up and advanced articulation exercises. Jazz styles are researched through listening to and transcription of established jazz instrumentalists. Advanced jazz theory and jazz piano are also included. The student is required to perform and improvise at a professional level. Requisite: Frost School of Music.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ TPN. Jazz Trumpet. 1-3 Credit Hours.

Private lessons focus on various facets of jazz trumpet performance. These include jazz and classical instrumental studies focusing on proper warm up and advanced articulation exercises. Jazz styles are researched through listening to and transcription of established jazz instrumentalists. Advanced jazz theory and jazz piano are also included. The student is required to perform and improvise at a professional level. Requisite: Frost School of Music.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ TPO. Jazz Trumpet. 1-3 Credit Hours.

Private lessons focus on various facets of jazz trumpet performance. These include jazz and classical instrumental studies focusing on proper warm up and advanced articulation exercises. Jazz styles are researched through listening to and transcription of established jazz instrumentalists. Advanced jazz theory and jazz piano are also included. The student is required to perform and improvise at a professional level. Requisite: Frost School of Music.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ TPP. Jazz Trumpet. 1-3 Credit Hours.

Private lessons focus on various facets of jazz trumpet performance. These include jazz and classical instrumental studies focusing on proper warm up and advanced articulation exercises. Jazz styles are researched through listening to and transcription of established jazz instrumentalists. Advanced jazz theory and jazz piano are also included. The student is required to perform and improvise at a professional level. Requisite: Frost School of Music.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ TPQ. Jazz Trumpet. 1-3 Credit Hours.

Private lessons focus on various facets of jazz trumpet performance. These include jazz and classical instrumental studies focusing on proper warm up and advanced articulation exercises. Jazz styles are researched through listening to and transcription of established jazz instrumentalists. Advanced jazz theory and jazz piano are also included. The student is required to perform and improvise at a professional level. Requisite: Frost School of Music.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ TPR. Jazz Trumpet. 1-3 Credit Hours.

Private lessons focus on various facets of jazz trumpet performance. These include jazz and classical instrumental studies focusing on proper warm up and advanced articulation exercises. Jazz styles are researched through listening to and transcription of established jazz instrumentalists. Advanced jazz theory and jazz piano are also included. The student is required to perform and improvise at a professional level. Requisite: Frost School of Music.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ V01. Jazz Voice. 2 Credit Hours.

1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Technical Requirement: Warm-ups, Cool downs and introductory exercises for breath management. Attack in phonation, registration, resonance, articulation, coordination, microphone technique, key selection and vocal hygiene and maintenance. Repertoire: 25 Songs: 6 swing, 6 traditional ballad, 5 bossa/samba, 2 blues/funk, contemporary ballad, 4 student choice.

Requisite: Frost School of Music.

Components: STU.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ V03. Jazz Voice. 2 Credit Hours.

1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Repertoire: 15 Songs, continuation of standard repertoire at more advance and complex level, including bebop, original material, modal tunes and selections of harmonic and melodic complexity with improvisation.

Requisite: Frost School of Music.

Components: STU.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ V05. Jazz Voice. 1-4 Credit Hours.

Private studio vocal study at the master of music graduate level devoted to the continued development of skills and repertoire with particular attention to discovering and nurturing the individual student's artistic direction.

Requisite: Frost School of Music.

Components: STU.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ V06. Jazz Voice. 1-2 Credit Hours.

Private studio vocal study at the master of music graduate level devoted to the continued development of skills and repertoire with particular attention to discovering and nurturing the individual student's artistic direction.

Requisite: Frost School of Music.

Components: STU.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ V07. Jazz Voice. 1-2 Credit Hours.

Private studio vocal coaching at the doctoral level devoted to refining all skills, technique, and repertoire for professional performance and pedagogy.

Requisite: Frost School of Music.

Components: STU.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ V0B. Jazz Voice. 1-2 Credit Hours.

1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Technical Requirement: Warm-ups, Cool downs and introductory exercises for breath management. Attack in phonation, registration, resonance, articulation, coordination, microphone technique, key selection and vocal hygiene and maintenance. Repertoire: 25 Songs: 6 swing, 6 traditional ballad, 5 bossa/samba, 2 blues/funk, contemporary ballad, 4 student choice.

Requisite: Frost School of Music.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ VOC. Jazz Voice. 1-2 Credit Hours.

1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Repertoire: 24 Songs: 16 selections from Swing, Ballad, Jazz Waltz and Latin idioms. 4 Rock/Funk/R&B arrangements in coordination with MSJ 301. Mini-Concert (4 song set) Note: Sophomore proficiency.

Requisite: Frost School of Music.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ VOD. Jazz Voice. 1-2 Credit Hours.

1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Repertoire: 24 Songs: 16 selections from Swing, Ballad, Jazz Waltz and Latin idioms. 4 Rock/Funk/R&B arrangements in coordination with MSJ 301. Mini-Concert (4 song set) Note: Sophomore proficiency.

Requisite: Frost School of Music.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ VOF. Jazz Voice. 1-2 Credit Hours.

1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Repertoire: 15 Songs, continuation of standard repertoire at more advance and complex level, including bebop, original material, modal tunes and selections of harmonic and melodic complexity with improvisation.

Requisite: Frost School of Music.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ VOG. Jazz Voice. 1-2 Credit Hours.

1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Repertoire: 15 Songs, same styles as above, Recital preparation, review of repertoire list and audition preparation.

Requisite: Frost School of Music.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ VOH. Jazz Voice. 1-2 Credit Hours.

1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Repertoire: 15 Songs, same styles as above, Recital preparation, review of repertoire list and audition preparation.

Requisite: Frost School of Music.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ VOK. Jazz Voice. 1-3 Credit Hours.

Private studio vocal study at the master of music graduate level devoted to the continued development of skills and repertoire with particular attention to discovering and nurturing the individual student's artistic direction.

Requisite: Frost School of Music.

Components: LSN.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MSJ VON. Jazz Voice. 1-3 Credit Hours.

Private studio vocal coaching at the doctoral level devoted to refining all skills, technique, and repertoire for professional performance and pedagogy.

Requisite: Frost School of Music.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ VOO. Jazz Voice. 1-3 Credit Hours.

Private studio vocal coaching at the doctoral level devoted to refining all skills, technique, and repertoire for professional performance and pedagogy.

Requisite: Frost School of Music.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ VOP. Jazz Voice. 1-3 Credit Hours.

Private studio vocal coaching at the doctoral level devoted to refining all skills, technique, and repertoire for professional performance and pedagogy.

Requisite: Frost School of Music.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ VOQ. Jazz Voice. 1-3 Credit Hours.

Private studio vocal coaching at the doctoral level devoted to refining all skills, technique, and repertoire for professional performance and pedagogy.

Requisite: Frost School of Music.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MSJ VOR. Jazz Voice. 1-3 Credit Hours.

Private studio vocal coaching at the doctoral level devoted to refining all skills, technique, and repertoire for professional performance and pedagogy.

Requisite: Frost School of Music.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

Teaching and Learning (TAL)

TAL 101. Social and Technological Foundations of Education.. 3 Credit Hours.

Interdisciplinary overview of the historical development of education in the United States. Topics include history of education, schooling as a social institution, school funding, ethics, legal issues, racism, social class, sexism, homo phobia and heterosexism, language-based discrimination and religion. This course emphasizes the interdependent nature of school and culture; it critically analyzes issues facing children, parents, and educators using this larger cultural framework.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

TAL 103. Psychological Foundations of Education. 3 Credit Hours.

Overview of major frameworks in psychology that inform teaching and learning within classroom settings. Major theories of development related to language, affect and cognition across the life span and within diverse settings. Attention is drawn to contributions from social and personality psychology, cognitive science, testing and psychometrics to promote learning through classroom instruction and assessment.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

TAL 107. American Sign Language I. 3 Credit Hours.

This course is designed to allow participants to learn about Deaf Culture and be able to sign with sufficient fluency to discuss work, social, and family topics using two to four sentence responses.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

TAL 191. Developmental Reading for College Students. 3 Credit Hours.

Instruction in college level reading strategies based on individual student needs. Emphasis on vocabulary, comprehension and techniques of test preparation.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

TAL 203. Children's Literature. 3 Credit Hours.

History, trends, and genres of children's literature with emphasis on children's literature as a curriculum resource.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

TAL 204. Building Positive Relationships in Diverse Inclusive Secondary Schools.. 3 Credit Hours.

Course is designed to assist general education teachers in meeting the needs of diverse secondary school students. Emphasis is placed on language and culture in the classroom, as well as students with disabilities.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

TAL 207. American Sign Language II. 3 Credit Hours.

This course is designed to allow participants to learn about Deaf Culture and be able to sign with sufficient fluency to discuss work, social, and family topics using four to six sentence responses. Students will be able to independently participate in a signed conversation without the use of voicing.

Prerequisite: TAL 107.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

TAL 305. Classroom and Behavior Management. 3 Credit Hours.

The principles of behavior analysis and classroom management strategies, both preventative and problem solving. Special emphasis includes effective communication with students, parents and other stakeholders; meeting the needs of all learners based on individual differences, cultural and linguistic diversity; knowledge of research-based strategies that support intellectual, personal and social well-being and development of all students; planning and conducting lessons in a safe, efficient and supportive learning environment. Field experience required.

Corequisite: TAL 306.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

TAL 306. Field Experience Seminar I. 0 Credit Hours.

This hybrid zero credit course has been designed to provide additional support for students in our teacher preparation programs. Students will enroll in this course while they participate in a series of field experiences where they gain practical experience integrating theory and practice while working with students in K-12 settings. Major topics include: the Florida Educator Accomplished Practices, Live Text, and guidelines and procedures. Co-requisite TAL 305

Corequisite: TAL 305.

Components: LEC.

Grading: CNC.

Typically Offered: Fall & Spring.

TAL 308. Language Development for Linguistically and Culturally Diverse Children. 3 Credit Hours.

Course provides an introduction to theories of linguistics as well as first and second language acquisition. Readings and lectures serve to highlight the development of language and language challenges faced by students for whom Standard English is a second language and/or a second dialect. Theories of linguistics are used to identify, explain and assess literacy challenges. Field experience required. This course counts as one of two required stand-alone ESOL courses.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

TAL 322. Mathematics Instruction in the Elementary School. 3 Credit Hours.

Principles and practices in the teaching of elementary school mathematics. Attention is paid to infusion of technology, linguistic and cultural diversity, students with exceptionalities, and the origins of gender bias. Field experience required.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

TAL 323. Science Instruction in the Elementary School. 3 Credit Hours.

Principles and practices in the teaching of elementary school science and social studies. Attention is paid to infusion of technology, linguistic and cultural diversity, students with exceptionalities, and the origins of gender bias. Field experience required.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

TAL 324. Education and the Arts. 3 Credit Hours.

Exploration of the fine and performing arts and their relation to Pre-K to 12 education. Emphasis is placed on experiential learning and methods of incorporating the arts in school curricula. The course also includes a focus on the value of the arts to the individual and society.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

TAL 330. Introduction to the Education of Exceptional Individuals. 3 Credit Hours.

A survey course providing a general orientation to Exceptional Individual Education as an integral part of the general education structure. Includes an introduction to appropriate educational programs for exceptional individuals.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

TAL 332. Assessment of Exceptional Students. 3 Credit Hours.

"Assessment in Exceptional Student Education: A survey of assessment instruments used to classify, assess and evaluate exceptional students in inclusive and special education settings. Advanced written, digital, and oral communication proficiencies, to include research and report-writing as well as oral presentation skills, are emphasized in this course."

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

TAL 360. The Teacher in American Society. 3 Credit Hours.

This course focuses on the historical development of teaching in the US, contemporary educational reform and social change, issues involving teacher work, the impact of technology on schooling, ethical and legal issues in teaching, topics involving Race, Gender Social Class and Equity. Popular Culture sources are emphasized in the course's content.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

TAL 370. POP CULTURE AND EDUCATION. 3 Credit Hours.

This course examines how popular culture influences and is influenced by the work and culture of schools. In examining artifacts and trends in popular culture today and the past, the forms of popular culture we will analyze will include: motion pictures, television programs, mainstream news, music, books, magazines, zines, fashion, web-based content, graffiti, tattoos, street art, mobile communication, video games, social networking, and more.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

TAL 390. Topics in Education. 3 Credit Hours.

Review of emerging policy, practice, empirical research and scholarly writing on important educational issues for which formal course title and syllabus have not been developed and formalized in the UM Bulletin. Allows for experimental instructional formats. Course number indicates appropriate student audience. See Course Notes for specific topic.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

TAL 404. Content Area Literacy in the Secondary Classroom. 3 Credit Hours.

"Essentials of literacy instruction in various subject areas for middle, junior and senior high schools; instructional methods and materials for development of reading, writing and study strategies. Emphasis is also placed on selecting appropriate materials, motivating students, and helping students with exceptional needs and students who are English Language Learners.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

TAL 420. Introduction to Literacy, Assessment, and Instruction in Elementary School. 3 Credit Hours.

Multidisciplinary survey of reading and writing acquisition in the elementary school. Assessment and instruction in the major components of reading: phonological awareness, word identification and phonics, fluency, vocabulary, and comprehension.

Corequisite: TAL 421.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

TAL 421. Language Arts And Social Studies In The Elementary School. 3 Credit Hours.

Addresses Language Arts competencies in reading, writing, listening, speaking, viewing and visual literacy, following state/national standards. Research based strategies and approaches for teaching content areas, with a focus on Social Studies competencies, are modeled and integrated through Social Studies content and literature. Field experience required.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

TAL 422. Mathematics Instruction in the Elementary School. 3 Credit Hours.

Principles and practices in the teaching of elementary-school mathematics. Attention is paid to infusion of technology, linguistic and cultural diversity, students with exceptionalities, and the origins of gender bias. Field experience required.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

TAL 425. Inclusive Classrooms in the Elementary School. 3 Credit Hours.

The course prepares elementary school teachers to meet the individual needs of students with exceptionalities who have been integrated into the general education classroom. Field experience required.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

TAL 426. Practicum in Reading. 3 Credit Hours.

Supervised practicum in reading and writing. Emphasis is on assessment and interventions for elementary students with a range of academic, linguistic and cultural challenges in becoming proficient readers. This course is a designated Upper Level Communications Requirement; advanced written digital and/or oral communication proficiencies will be emphasized in this course.

Prerequisite: TAL 420.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

TAL 428. ESOL Curriculum and Methods and Assessments. 3 Credit Hours.

The course addresses the application of TESOL theories, principles, and current research to the use of curriculum, methods, and assessment. In doing so, the course focuses on an understanding of the differences between curriculum, methods, and assessment designed for children who are native speakers of Standard English and those designed for ESOL. Specific TESOL modifications appropriate for content areas are also addressed. Field experience required. This course counts as the second of two required ESOL specific courses.

Prerequisite: TAL 308. Corequisite: TAL 429.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

TAL 429. Field Experience Seminar Ii. 0 Credit Hours.

This hybrid zero credit course has been designed to provide additional support for students in our teacher preparation programs. Students will enroll in this course while they participate in a series of field experiences where they gain practical experience integrating theory and practice while working with students in K-12 settings. Major topics include: the Florida Educator Accomplished Practices, Live Text, and guidelines and procedures. Co-requisite: TAL 428 for students in programs that lead to the ESOL Endorsement; TAL 506 for students in MED and SEC except Secondary English majors.

Components: LAB.

Grading: CNC.

Typically Offered: Fall & Spring.

TAL 432. Inclusive Models Of Teaching. 3 Credit Hours.

This course focuses on models of inclusion and the educational roles to support student success in inclusive settings. Topics addressed include: differentiated staffing patterns; working as a member of a team; successful collaborative practices; effective communication; understanding of varied cultural backgrounds; strategies for facilitating successful inclusion including differentiation of instruction and application of principles of Universal Design for Learning (UDL); co-teaching; strategies for working effectively with students, families, parents, guardians, administrators, general education teachers, paraprofessionals and other professionals, including students, families, and team members; and creating school partnerships.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

TAL 434. Specialized Instructional Strategies/Transition. 3 Credit Hours.

This course focuses on evidence-based interventions and models of support for students with disabilities in K – 12 settings and strategies for preparing students for transition from school. Topics addressed include: strategies for using Assistive Technology effectively; strategies for enhancing self-advocacy and self-determination for students with disabilities; strategies for enhancing family involvement in career development and post school employment; transition services and models; preparing students with disabilities for employment and post-secondary education; residential alternatives; recreation and leisure for students with disabilities.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

TAL 444. Instruction in Secondary Science. 2-3 Credit Hours.

Analysis of methods, materials, and content appropriate for teaching science in the secondary school.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

TAL 470. Student Teaching In The Elementary School. 9 Credit Hours.

A comprehensive semester-long program in observation and supervised teaching in the elementary school. The student spends full time in an elementary school participating in all activities of the teacher under the guidance of school and university personnel.

Components: PRA.

Grading: GRD.

Typically Offered: Fall & Spring.

TAL 471. Student Teaching in the Elementary Schools for K-12 Areas. 3-6 Credit Hours.

A comprehensive program in observation and supervised teaching in the elementary school. The student spends full-time for one half a semester in an elementary school, participating in all activities of the teacher under the guidance of school and university personnel.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

TAL 473. Associate Teaching in the Secondary School for K-12 Areas. 3-6 Credit Hours.

A comprehensive program in observation and supervised teaching in the secondary school. The student spends full time for one half a semester in a secondary school, participating in all activities of the teacher under the guidance of school and university personnel.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

TAL 480. Seminar On Teaching. 3 Credit Hours.

The seminar is designed to support teacher candidates during the associate teaching experience. Students receive support and assistance in completing Florida Educator Accomplished Practices (FEAP) electronic portfolios. Students share, reflect, and discuss their daily experiences in class during culminating experience in the field.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

TAL 491. Applied Research in Education. 3 Credit Hours.

Introduction to basic research methods, ethics in education research, and the implications of research on the practice of teaching. Assist a TAL faculty member with a research project.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

TAL 493. Online Teaching & Leadership. 3 Credit Hours.

Introduction to teaching-learning process in online learning environments, including asynchronous modalities, assessment and evaluation, technology and digital copyright usage.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

TAL 495. Individual Study. 1-3 Credit Hours.

Individual work on a special project under faculty guidance. Application for Admission to Advanced Individual Study will be required.

Components: THI.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

TAL 496. Undergraduate Research Honors. 1-3 Credit Hours.

Individual work on a special project under faculty guidance. Application for Admission to Advanced Individual Study will be required.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

TAL 501. Classroom Based Assessment. 1-3 Credit Hours.

Principles and classroom applications of educational measurement and assessment.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

TAL 502. Classroom Based Research. 3 Credit Hours.

Application of research principles to evaluation and improvement of teacher effectiveness. Use of scientific methods in problem solving and decision making in the classroom. Student experiences in the planning, conduct, analysis and reporting of classroom research are included.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

TAL 503. Technology Applications in Education. 3 Credit Hours.

Technology and its role in transforming teaching and learning; core academic-curriculum literacy; and education social systems.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

TAL 504. Building Positive Relationships in Inclusive Secondary Schools. 3 Credit Hours.

Designed to assist general education teachers in meeting the needs of diverse secondary school students. Focus on students with disabilities, language and culture in the classroom, and developing culturally competent classroom management methods.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

TAL 506. Issues and Strategies for ESOL. 3 Credit Hours.

This course provides a comprehensive foundation in ESOL (English for Speakers of Other Languages) competencies based on Florida's mandates and TESOL standards. Theory and practice will be emphasized in the areas of applied linguistics, cross cultural communication and understanding, methods of teaching, assessment, and curriculum and material development.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

TAL 508. Language Development for Linguistically and Culturally Diverse Students. 3 Credit Hours.

Course will provide an introduction to theories of linguistics, first and second language acquisition, as well as foundations of English learner education. Readings and lectures will serve to highlight the development of language and literacy, including challenges faced by students for whom Standard English is a second language and/or a second dialect. This course will be the first in a two- course ESOL sequence.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

TAL 517. Curriculum, Assessment, Teaching and Learning for Physical Science. 3 Credit Hours.

Analysis of content knowledge, pedagogy, and materials appropriate for teaching physical science in the elementary school. The course content focuses on instructional practice with an emphasis on developing teacher content knowledge in physical science, pedagogy, and student literacy in physical science.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

TAL 518. Curriculum, Assessment, Teaching and Learning for Number, Operations, and Algebra. 3 Credit Hours.

This course examines topics that address the mathematical ideas underlying number, operations and algebra. Related curriculum, instructional and assessment issues will be also discussed.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

TAL 520. Curriculum, Assessment, Teaching and Learning for Measurement and Geometry. 3 Credit Hours.

Topics involving measurement and geometry in the K-16 mathematics curriculum, how students learn and reason, assessment, instructional strategies.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

TAL 521. Curriculum, Assessment, Teaching and Learning for the Life Sciences. 3 Credit Hours.

Analysis of content knowledge, pedagogy, and materials appropriate for teaching life science in the elementary school. The course content focuses on instructional practice with an emphasis on developing teacher content knowledge in life science, pedagogy, and student literacy in life science.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

TAL 522. Curriculum, Assessment, Teaching and Learning in the Earth Sciences. 3 Credit Hours.

Analysis of content knowledge, pedagogy, and materials appropriate for teaching Earth science in the elementary school. The course content focuses on instructional practice with an emphasis on developing teacher content knowledge in Earth science, pedagogy, and student literacy in life science.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

TAL 523. Curriculum, Assessment, Teaching and Learning for Data Analysis and Probability. 3 Credit Hours.

Data in the elementary school: how to gather (biased and unbiased samples), store, manage, represent, analyze. Probabilistic inferences in elementary school: chance, odds, counting, related topics.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

TAL 524. Education and the Arts. 3 Credit Hours.

Exploration of the fine and performing arts and their relation to PreK-12 education. Emphasis is placed on experiential learning and methods of incorporating the arts in school curricula. The course also includes a focus on the value of the arts to the individual and society.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

TAL 526. Practicum in Reading. 3 Credit Hours.

Supervised practicum in reading and writing. Emphasis is on assessment and interventions for elementary students with a range of academic, linguistic and cultural challenges in becoming proficient readers.

Components: PRA.

Grading: GRD.

Typically Offered: Fall & Spring.

TAL 527. Language and Assessment in ESOL. 3 Credit Hours.

Study of language systems with a focus on understanding and applying linguistic terms. Course prepares teachers to conduct informal and formal assessment procedures with English language learners. Field experience with English language learners is required.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

TAL 528. ESOL Curriculum, Methods, and Assessment.. 3 Credit Hours.

This course focuses on applying TESOL theories, principles, and current research to the development and use of instructional materials, curriculum, and methods. The course will enhance participant's knowledge of the regular English language arts curriculum in comparison with the ESOL curriculum.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

TAL 531. Educating Exceptional Students. 3 Credit Hours.

A survey course in special education emphasizing characteristics and problems associated with various categories of exceptional learners. Policy, issues, and trends in special education will be discussed.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

TAL 540. Instruction and Assessment in the Secondary School.. 3 Credit Hours.

Research-based instructional processes in the secondary school.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

TAL 541. Instruction in Secondary English.. 2-3 Credit Hours.

Analysis of methods, materials, and content appropriate for teaching language arts in the secondary school.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

TAL 542. Instruction In Secondary Mathematics. 1-3 Credit Hours.

Analysis of methods, materials, and content appropriate for teaching mathematics in the secondary school.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

TAL 543. Instruction In Secondary Science. 1-3 Credit Hours.

Analysis of methods, materials, and content appropriate for teaching science in the secondary school.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

TAL 544. Instruction In Secondary Social Studies. 1-3 Credit Hours.

Analysis of methods, materials, and content appropriate for teaching the social sciences in the secondary school.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

TAL 545. Methods Of Teaching In The Elementary School. 3 Credit Hours.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

TAL 550. Language and Early Reading Instruction. 3 Credit Hours.

Factors related to emergent literacy with an emphasis on diverse aspects of language that influence literacy and learning; development of emergent literacy and word perception; emergent literacy curriculum development; appropriate assessment and instructional techniques. Understanding of reading as a process of student engagement in fluent decoding and construction of meaning. Writing intensive.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

TAL 552. Reading Comprehension. 3 Credit Hours.

Development of comprehension, rate, and study skills; reading in the content areas; evaluation of materials, organization of programs; issues, problems, and exceptional readers. Emphasis is placed on understanding reading as a process of student engagement in fluent decoding of words and construction of meaning.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

TAL 553. Mentoring and Internship in Classroom Teaching. 3-6 Credit Hours.

A comprehensive program of supervised teaching in elementary or secondary class rooms.

Components: LEC.

Grading: SUS.

Typically Offered: Fall & Spring.

TAL 554. Literacy and Learning Strategies in the Content Area. 3 Credit Hours.

Literacy instruction in content areas for grades 6 through 12; instructional methods and materials for development of language arts, reading, and study skills. Emphasis on appropriate materials, motivation, and support for students with exceptional needs and English language learners.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

TAL 557. Exceptional Student Education and Classroom Management. 1-5 Credit Hours.

Introduction to theories and methods of effective classroom management and learning environments, perceptions of disabilities, addressing disruptive behaviors in classrooms and behavioral assessment.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

TAL 558. ESOL Strategies and Classroom Management. 1-5 Credit Hours.

This course provides a general overview of foundation in ESOL (English for Speakers of Other Languages) competencies based on Florida's mandates and ESOL Standards. Theory and practice will be emphasized in the areas of applied linguistics, cross cultural communication and understanding, methods of teaching, assessment, and curriculum and material development. A Classroom Management Plan will be developed based on current issues and effective classroom strategies for diverse populations.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

TAL 568. Education Reform, Policy And The Social Organization Of Schooling. 3 Credit Hours.

This course is designed to introduce students to the politics and policy debates in American education, including how the U.S. K-12 public education is organized as a socially-constructed system. We will examine the politics of a variety of recent reforms at the local, federal and state levels and their impact on institutions, students and the public.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

TAL 569. Teaching and Management for Diverse Classrooms. 3 Credit Hours.

This course will emphasize building a classroom culture and community that meets the needs of all students, including learners with disabilities and learners with culturally and linguistically diverse backgrounds. A history of major legal requirements for diverse populations is examined, including the meaning of learning differences, definitions and causes of disabilities, language acquisition processes, and methods for teaching diverse populations. An introduction to theories and methods of effective classroom management for building learning communities is integrated throughout the course.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

TAL 570. Student Teaching In The Elementary School. 9 Credit Hours.

A comprehensive semester-long program in observation and supervised teaching in the elementary school. The student spends full-time in an elementary school participating in all activities of the teacher under the guidance of school and university personnel.

Corequisite: TAL 580.

Components: PRA.

Grading: GRD.

Typically Offered: Fall & Spring.

TAL 572. Student Teaching in the Secondary School.. 6-9 Credit Hours.

A comprehensive program in observation and supervised teaching in the secondary school. The student spends full-time in a secondary school participating in all activities of the teacher under the guidance of school and university personnel.

Corequisite: TAL 580.

Components: PRA.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

TAL 577. Human Development, Learning and Schooling. 3 Credit Hours.

Major theories of child development and learning will be discussed with a focus on how they apply to teaching and learning in K-12 schools.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

TAL 580. Seminar on Teaching. 1-3 Credit Hours.

Topical seminar to accompany associate teaching

Components: SEM.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

TAL 584. Topics in the Professional Development and Supervision of Teachers.. 3 Credit Hours.

Topics include the preparation of clinical teachers to induct, guide, and supervise the field experiences of students and associate teachers; techniques in the observation and supervision of in-service teachers; creation and implementation of professional development plans; reading in the research on teacher development across the career.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

TAL 590. Topics in Education. 3 Credit Hours.

Review of emerging policy, practice, empirical research and scholarly writing on important educational issues for which formal course title and syllabus have not been developed and formalized in the UM Bulletin. Allows for experimental instructional formats. Course number indicates appropriate student audience. See Course Notes for specific topic.

Components: SEM.

Grading: GRD.

Typically Offered: Spring.

TAL 591. Workshop in Education. 1-6 Credit Hours.

A critical study of practical problems of teachers. Significant problems are defined, literature and research are reviewed, and individual or small group projects are required.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

TAL 593. Online Teaching and Leadership. 3 Credit Hours.

Introduction to teaching-learning process in online learning environments, including asynchronous modalities, assessment and evaluation, technology and digital copyright usage.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

TAL 596. Workshop in Education. 1-6 Credit Hours.

A critical study of practical problems of teachers. Significant problems are defined, literature and research are reviewed, and individual or small group projects are required.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

TAL 597. Workshop in Education. 1-6 Credit Hours.

A critical study of practical problems of teachers. Significant problems are defined, literature and research are reviewed, and individual or small group projects are required.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

TAL 598. Workshop in Education. 1-6 Credit Hours.

A critical study of practical problems of teachers. Significant problems are defined, literature and research are reviewed, and individual or small group projects are required.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

TAL 599. Workshop in Education. 1-6 Credit Hours.

A critical study of practical problems of teachers. Significant problems are defined, literature and research are reviewed, and individual or small group projects are required.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

TAL 601. Classroom Based Assessment. 1-3 Credit Hours.

Principles and classroom applications of educational measurement and assessment.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

TAL 603. Technology Applications in Education. 3 Credit Hours.

Technology and its role in transforming teaching and learning; core academic-curriculum literacy; and education social systems.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

TAL 604. Building Positive Relationships in Inclusive Secondary Schools. 3 Credit Hours.

Designed to assist general education teachers in meeting the needs of diverse secondary school students. Focus on students with disabilities, language and culture in the classroom, and developing culturally competent classroom management methods.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

TAL 605. Mentoring and Internship in Classroom Teaching. 3-6 Credit Hours.

A comprehensive program of supervised teaching in elementary or secondary class rooms.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

TAL 606. Issues and Strategies for ESOL. 3 Credit Hours.

This course provides a comprehensive foundation in ESOL (English for Speakers of Other Languages) competencies based on Florida's mandates and TESOL standards. Theory and practice will be emphasized in the areas of applied linguistics, cross cultural communication and understanding, methods of teaching, assessment, and curriculum and material development.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

TAL 607. Instructional Leadership. 3 Credit Hours.

An examination of the components of effective supervision of instruction. Leadership theories which apply to educational settings; legal rights and responsibilities of students, teachers and administrators will be covered. As well as the examination of various models of teaching.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

TAL 608. Language Development for Linguistically and Culturally Diverse Students. 3 Credit Hours.

Course will provide an introduction to theories of linguistics, first and second language acquisition, as well as foundations of English learner education. Readings and lectures will serve to highlight the development of language and literacy, including challenges faced by students for whom Standard English is a second language and/or a second dialect. This course will be the first in a two- course ESOL sequence.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

TAL 609. Practicum in Reading. 3 Credit Hours.

Supervised practicum in reading and writing. Emphasis is on assessment and interventions for elementary students with a range of academic, linguistic and cultural challenges in becoming proficient readers.

Components: PRA.

Grading: GRD.

Typically Offered: Fall & Spring.

TAL 610. Literacy and Learning Strategies in the Content Area. 3 Credit Hours.

Literacy instruction in content areas for grades 6 through 12; instructional methods and materials for development of language arts, reading, and study skills. Emphasis on appropriate materials, motivation, and support for students with exceptional needs and English language learners.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

TAL 611. Topics in the Professional Development and Supervision of Teachers.. 3 Credit Hours.

Topics include the preparation of clinical teachers to induct, guide, and supervise the field experiences of students and associate teachers; techniques in the observation and supervision of in-service teachers; creation and implementation of professional development plans; reading in the research on teacher development across the career.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

TAL 612. Classroom and Behavior Management. 3 Credit Hours.

An examination of the principles of various theoretical perspectives of classroom management and discipline. Applications to the management of behavior problems of children and adolescents. Contemporary research analyzed and discussed. Writing intensive course.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

TAL 613. Prescriptive Teaching of Exceptional Students. 3 Credit Hours.

Techniques for individualization of instruction for exceptional students, including educational prescription, and curriculum adaptation.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

TAL 614. Assessment in Exceptional Student Education. 3 Credit Hours.

Administration and interpretation of assessment tools used to assess and evaluate reading and learning difficulties; includes a survey of instructional strategies and materials for the prevention and remediation of reading difficulties based on the results of the assessments.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

TAL 615. Reading in the Elementary School. 3 Credit Hours.

Extending competencies in teaching reading, including exceptional children in the regular classroom, with emphasis on applying findings from research in reading to classroom practices. 20 hours of field experience required for all students who are not currently teaching.

Components: LEC.

Grading: GRD.

Typically Offered: Summer.

TAL 616. Mathematics in the Elementary School. 3 Credit Hours.

Content, methods, and research appropriate for teaching mathematics in the elementary school, including exceptional children in the regular classroom. Content is defined as a pre-algebra mathematics. 20 hours of field experience required for all students who are not currently teaching. Writing intensive course.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

TAL 617. Science in the Elementary School. 3 Credit Hours.

Extending competencies of elementary school teachers in teaching science to children, including exceptional children in the regular classroom. Development of science programs based on research which has classroom applications. 20 hours of field experience required for all students who are not currently teaching.

Components: LEC.

Grading: GRD.

Typically Offered: Summer.

TAL 618. Social Studies in the Elementary School. 3 Credit Hours.

Extending competencies in teaching social studies to children, including exceptional children in the regular classroom, with an emphasis on research applications. 20 hours of field experience required for all students who are not currently teaching.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

TAL 619. Exceptional Student Education and Classroom Management. 1-5 Credit Hours.

Introduction to theories and methods of effective classroom management and learning environments, perceptions of disabilities, addressing disruptive behaviors in classrooms and behavioral assessment.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

TAL 620. Teaching and Management for Diverse Classrooms. 3 Credit Hours.

This course will emphasize building a classroom culture and community that meets the needs of all students, including learners with disabilities and learners with culturally and linguistically diverse backgrounds. A history of major legal requirements for diverse populations is examined, including the meaning of learning differences, definitions and causes of disabilities, language acquisition processes, and methods for teaching diverse populations. An introduction to theories and methods of effective classroom management for building learning communities is integrated throughout the course.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

TAL 621. Student Teaching In The Elementary School. 9 Credit Hours.

A comprehensive semester-long program in observation and supervised teaching in the elementary school. The student spends full-time in an elementary school participating in all activities of the teacher under the guidance of school and university personnel.

Components: PRA.

Grading: GRD.

Typically Offered: Fall & Spring.

TAL 622. Student Teaching in the Secondary School.. 6-9 Credit Hours.

A comprehensive program in observation and supervised teaching in the secondary school. The student spends full-time in a secondary school participating in all activities of the teacher under the guidance of school and university personnel.

Components: PRA.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

TAL 623. Seminar on Teaching. 1-3 Credit Hours.

Topical seminar to accompany associate teaching

Components: SEM.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

TAL 624. Education and the Arts. 3 Credit Hours.

Exploration of the fine and performing arts and their relation to PreK-12 education. Emphasis is placed on experiential learning and methods of incorporating the arts in school curricula. The course also includes a focus on the value of the arts to the individual and society.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

TAL 625. Online Teaching and Leadership. 3 Credit Hours.

Introduction to teaching-learning process in online learning environments, including asynchronous modalities, assessment and evaluation, technology and digital copyright usage.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

TAL 626. Workshop in Education. 1-6 Credit Hours.

A critical study of practical problems of teachers. Significant problems are defined, literature and research are reviewed, and individual or small group projects are required.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

TAL 627. Understanding Culture in the Classroom. 3 Credit Hours.

This course explores the conflicts and the strategies for resolution between the patterns of culture in the classroom and the patterns of culture that school children bring to the classroom - patterns which are learned in their families and communities.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

TAL 628. Internship in Special Education Settings. 3-6 Credit Hours.

A comprehensive program of supervised teaching in special education settings. The student spends two full semesters employed as a full-time teacher while under the guidance of school and university personnel.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

TAL 629. Educating Exceptional Students. 3 Credit Hours.

A survey course in special education emphasizing characteristics and problems associated with various categories of exceptional learners. Policy, issues, and trends in special education will be discussed.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

TAL 630. Instructing Students Who Have Literacy Challenges. 3 Credit Hours.

Administration and interpretation of instructional assessments with instructional strategies and materials based upon scientifically based reading research for the prevention and remediation of reading difficulties.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

TAL 631. Assessment of Reading and Related Learning Disabilities. 3 Credit Hours.

Theories and procedures for screening, diagnosis, and progress-monitoring of reading and related learning disabilities. Includes instruction and supervised clinical experiences in administration and interpretation of assessments with an emphasis on prevention, identification, and remediation of reading and related learning disabilities.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

TAL 632. Intervention for Reading and Related Learning Disabilities. 3 Credit Hours.

Theories and procedures for screening, diagnosis, and progress-monitoring of reading and related learning disabilities. Includes instruction and supervised clinical experiences in administration and interpretation of assessments with an emphasis on prevention, identification, and intervention of reading and related learning disabilities.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

TAL 633. Reading Comprehension. 3 Credit Hours.

Development of comprehension, rate, and study skills; reading in the content areas; evaluation of materials, organization of programs; issues, problems, and exceptional readers. Emphasis is placed on understanding reading as a process of student engagement in fluent decoding of words and construction of meaning.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

TAL 634. Language and Reading Instruction. 3 Credit Hours.

Extending competencies of K-12 school teachers in teaching reading to children, including exceptional children in the regular classroom. Emphasis on applying findings from research in reading and writing to classroom practices.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

TAL 638. Language Arts and Culture in the Classroom. 3 Credit Hours.

Extending competencies in the language arts including linguistic and cultural diversity and children with disabilities in elementary classrooms. Emphasis on research applications. 20 hours of field experience required for all students who are not currently teaching. Writing intensive course.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

TAL 640. Typical and Atypical Child Development. 3 Credit Hours.

Theories and research in the development of children from conception through eight years of age. Factors which influence development and the relationship of typical development to patterns of delayed and atypical development. Writing intensive course.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

TAL 641. Working with Families of Young Children with Disabilities: Strategies and Medical Issues. 3 Credit Hours.

This course will address issues related to working with families of young children with special educational and health needs. This will include strategies for effective communication and collaboration with all members of the interdisciplinary team. This is a writing intensive course.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

TAL 642. Evaluation and Assessment in Infant and Early Childhood Special. 3 Credit Hours.

Students will become familiar with a variety of formal and informal screening, evaluation, assessment instruments, and procedures currently in use with children birth to eight. They will learn criteria for selecting and using developmentally and culturally appropriate instruments and become familiar with the multi-, inter-, and trans-disciplinary team approaches. Students will write formal reports and develop an IEP and an IFSP. May require field experience.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

TAL 643. Intervention Strategies in Infant and Early Childhood Special Education. 3 Credit Hours.

The focus of this course will be the implementation of IEPs and IFSPs through the use of developmentally appropriate curriculum, methods, and intervention strategies for infants, toddlers, and young children with special needs. This will include implementation and adaptation of existing curriculum and materials for young children to meet the special needs of this population. May require field experience. Writing Intensive course.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

TAL 644. Early Childhood Curriculum Development. 3 Credit Hours.

Development of curriculum for children from birth to eight years of age. Emphasis on application of research findings. 20 hours of field experience required.

Components: LEC.

Grading: GRD.

Typically Offered: Summer.

TAL 645. Methods for Communications and Language in Young Children with Disabilities. 3 Credit Hours.

This course will focus on language theories, models, and methods for birth-eight year olds. The course will present an overview of normal development in communication and discuss conditions that might impede progress as well as signs that would suggest a problem is present. This course may require field experience.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

TAL 646. Working with Children who Exhibit Challenging Behaviors. 3 Credit Hours.

Challenging behaviors in young children; influences of culture, language, ethnicity; applying Response to Intervention in Preschool settings; evidence-based classroom and behavior management strategies; planning intensive individualized interventions; applying positive behavioral support.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

TAL 647. Language and Early Reading Instruction. 3 Credit Hours.

Factors related to emergent literacy with an emphasis on diverse aspects of language that influence literacy and learning; development of emergent literacy and word perception; emergent literacy curriculum development; appropriate assessment and instructional techniques. Understanding of reading as a process of student engagement in fluent decoding and construction of meaning. Writing intensive.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

TAL 648. Practicum/Internship with Infants and Toddlers with Disabilities (0-3 yrs.). 1-6 Credit Hours.

A comprehensive program in observations and supervised teaching in a school/center for infants and toddlers with disabilities (0-3 yrs.). The student spends full time in the school/center participating in all activities of the teacher under the guidance of school and university personnel.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

TAL 649. Practicum/Internship with Children with Disabilities (3-5 yrs.). 1-6 Credit Hours.

A comprehensive program in observation and supervised teaching in a school/center for children with disabilities (3-5 yrs.). The student spends full time in the school/center participating in all activities of the teacher under the guidance of school and university personnel.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

TAL 650. Literature for Children and Adolescents.. 3 Credit Hours.

Study of literature for children and adolescents emphasizing multicultural literature and use of literature across the curriculum. Twenty hours of field experience required.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

TAL 659. Practicum in Education and Social Change. 3 Credit Hours.

This practicum course is the culminating project for the Education and Social Change Master's Program. Participants will review the literature, design, and present an action project within the context of a school or community setting.

Components: THI.

Grading: GRD.

Typically Offered: Fall & Spring.

TAL 660. Instruction and Assessment in the Secondary School.. 3 Credit Hours.

Research-based instructional processes in the secondary school.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

TAL 661. Instruction in Secondary English.. 2-3 Credit Hours.

Analysis of methods, materials, and content appropriate for teaching language arts in the secondary school.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

TAL 662. Instruction In Secondary Mathematics. 1-3 Credit Hours.

Analysis of methods, materials, and content appropriate for teaching mathematics in the secondary school.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

TAL 663. Instruction In Secondary Science. 1-3 Credit Hours.

Analysis of methods, materials, and content appropriate for teaching science in the secondary school.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

TAL 664. Instruction In Secondary Social Studies. 1-3 Credit Hours.

Analysis of methods, materials, and content appropriate for teaching the social sciences in the secondary school.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

TAL 665. Methods Of Teaching In The Elementary School. 3 Credit Hours.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

TAL 666. Introduction To The Politics Of Education, Teaching, And Learning. 3 Credit Hours.

Survey overview of political debates involving education as a nested and loosely-coupled system where pressures at one level can be supported or countermanded at another. Historical and critical take on present-day debates. Depending on student interests, may go in-depth on topics such as economic politics, cultural politics, state and local control.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

TAL 667. Education Reform, Policy And The Social Organization Of Schooling. 3 Credit Hours.

This course is designed to introduce students to the politics and policy debates in American education, including how the U.S. K-12 public education is organized as a socially-constructed system. We will examine the politics of a variety of recent reforms at the local, federal and state levels and their impact on institutions, students and the public.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

TAL 668. Human Development, Learning and Schooling. 3 Credit Hours.

Major theories of child development and learning will be discussed with a focus on how they apply to teaching and learning in K-12 schools.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

TAL 671. Curriculum, Assessment, Teaching and Learning for Physical Science. 3 Credit Hours.

Analysis of content knowledge, pedagogy, and materials appropriate for teaching physical science in the elementary school. The course content focuses on instructional practice with an emphasis on developing teacher content knowledge in physical science, pedagogy, and student literacy in physical science.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

TAL 672. Curriculum, Assessment, Teaching and Learning for Number, Operations, and Algebra. 3 Credit Hours.

This course examines topics that address the mathematical ideas underlying number, operations and algebra. Related curriculum, instructional and assessment issues will be also discussed.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

TAL 674. Internship in the Elementary School. 3-6 Credit Hours.

A comprehensive program of supervised teaching in a K-6 classroom in the elementary school. The student spends a full semester employed as a full-time teacher while under the guidance of school and university personnel.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

TAL 675. Curriculum, Assessment, Teaching and Learning in the Earth Sciences. 3 Credit Hours.

Analysis of content knowledge, pedagogy, and materials appropriate for teaching Earth science in the elementary school. The course content focuses on instructional practice with an emphasis on developing teacher content knowledge in Earth science, pedagogy, and student literacy in life science.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

TAL 676. Curriculum, Assessment, Teaching and Learning for Data Analysis and Probability. 3 Credit Hours.

Data in the elementary school: how to gather (biased and unbiased samples), store, manage, represent, analyze. Probabilistic inferences in elementary school: chance, odds, counting, related topics.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

TAL 677. Diversity And Equity In Stem Education. 3 Credit Hours.

Issues of unequal student achievement, course taking, degree-seeking, and careers that rely on science, engineering, technology and mathematics (STEM). Focus is on social-demographic groups defined along lines of race, ethnicity, social class, gender language, and their interactions. Historical and social antecedents, current day policies and practices, extant research consequences and future trends.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

TAL 690. Topics in Education. 3 Credit Hours.

Review of emerging policy, practice, empirical research and scholarly writing on important educational issues for which formal course title and syllabus have not been developed and formalized in the UM Bulletin. Allows for experimental instructional formats. Course number indicates appropriate student audience. See Course Notes for specific topic.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

TAL 691. Workshop in Education. 1-6 Credit Hours.

A critical study of practical problems of teachers. Significant problems are defined, literature and research are reviewed, and individual or small group projects are required.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

TAL 700. Professional Seminar. 3.00 Credit Hours.

The TAL Pro-seminar consists of a series of interactive sessions at which faculty, doctoral students, and guest speakers have the opportunity to discuss current topics in education research. Its purpose is to enhance the culture of scholarship and collegiality within the Department and to provide informal guidance to doctoral students on research and career directions in education.

Components: SEM.

Grading: GRD.

Typically Offered: Fall & Spring.

TAL 701. Teacher in American Society. 3 Credit Hours.

An historical, philosophical, and sociological analysis of the teaching profession in American society. The role and status of teachers in American culture will be discussed. Contemporary issues such as the union movement, status assignment, rewards and incentives, and the role of the teacher as an instrument in the definition of the culture will also be covered.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

TAL 702. The Social and Cultural Foundation of Education. 3 Credit Hours.

This course is an interdisciplinary seminar reviewing the major literature in the Social and Cultural Foundation of Education. Classic, Modern and Post-Modern texts will be read with an emphasis on the literature written after 1980 (Post-Modern). Emphasis will be placed on the exploration of key policy questions, as well as the analysis of key sociological concepts related to the field such as hegemony, cultural reproduction, social capital and privilege. The course is intended to provide a "baseline" for understanding the field.

Components: SEM.

Grading: GRD.

Typically Offered: Fall & Spring.

TAL 703. Issues and Trends in Multicultural Education. 3-6 Credit Hours.

The study and critical examination of the theory and practice of multicultural education. Development of a personal theory of effective education for pluralism is included.

Components: SEM.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

TAL 720. Research in Residence - Masters. 1 Credit Hour.

Masters-degree and Ed.S. students enrolled for credit as determined by advisor. Credit awarded when thesis is accepted.

Components: THI.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

TAL 730. Topics in Language and Literacy Learning. 1-3 Credit Hours.

Review of emerging policy, practice, empirical research and scholarly writing on important educational issues for which formal course title and syllabus have not been developed and formalized in the UM Bulletin. Allows for experimental instructional formats. Course number indicates appropriate student audience.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

TAL 731. Language Policy And Planning (K-12). 3 Credit Hours.

The course focuses on the areas that have been of particular interest to sociolinguists and language planners, namely, status planning, corpus planning, prestige planning, language-in-education planning, the language rights of linguistic minorities and the more recent movements from macro issues on language policy and planning (LPP) to micro issues involved in indexing linguistic, ethnic and racial identities. In addition, the course will address matters of migration, imperialism, state formation and political conflicts due to LPP in the United States as well as in countries in Latin America, the Caribbean, Africa, Asia and Europe.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

TAL 732. Seminar in Reading. 3 Credit Hours.

Seminar providing intensive study of contemporary topics in reading. Open to advanced graduate students in reading.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

TAL 733. Applied Linguistics. 3 Credit Hours.

In-depth study of phonology, morphology, syntax, semantics and pragmatics of spoken and written discourse and the application to second language acquisition theories. Issues of nonstandard dialects and creoles as well as their impact on literacy challenges will be discussed. Globalization of English and linguistic imperialism will be addressed.

Components: SEM.

Grading: GRD.

Typically Offered: Fall & Spring.

TAL 734. Theory And Research In Reading. 3 Credit Hours.

This course explores the intellectual roots of theories of reading and how these are used to generate testable research hypotheses about linguistic, psychological, social, and cultural factors that influence and sustain reading development and reading performance. The course surveys works that have influenced research and theory in the field of reading from its inception in the early 1900's – through the work of experimental psychologists such as Huey – to present times. The readings and lectures will include work that represents the influence of the intellectual traditions of the introspectionists, behaviorism, cognitive psychology, constructionism, socio-cultural theory, and cognitive neuroscience.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

TAL 735. Theory And Research In Writing. 3 Credit Hours.

Seminar that explores the complementary relationship between reading and writing through the reading and analysis of theoretical and research literature on writing theory and writing instruction.

Components: PRA.

Grading: GRD.

Typically Offered: Fall & Spring.

TAL 752. Seminar in Reading/Learning Disabilities. 3-12 Credit Hours.

Contemporary topics in reading and learning disabilities. Rotating topics and faculty. Open only to advanced graduate students in reading and learning disabilities pursuing specialist or doctoral degrees. Specialist students enroll for a total of six hours, and doctoral students for a total of 12 hours. Course may be repeated for a total of 12 credits. Subtitles describing the topics to be offered will be shown in parentheses in the printed schedule, following the title.

Components: SEM.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

TAL 753. Cognitive Psychology In Special Education. 3 Credit Hours.

Learn about different cognitive theorists and discuss various theoretical positions as to their strengths and weaknesses within and across theories. Address theory refinement over time and the application of theory to research practice. Review literature in a systematic manner and write an integrated and purposeful review of research. Develop a research proposal that is theory-based. Participate in the peer review process.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

TAL 754. Disability And Diversity: Critical Views. 3 Credit Hours.

Examines critical issues in the cultural/historical conceptualization of the field of special education against the background of cross-cultural views of disabilities.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

TAL 755. Current Issues In Special Education. 3 Credit Hours.

Current issues and trends in special education from historical, societal, policy, practice and research perspectives. Topics may include identification, referral and eligibility; inclusion and Least Restrictive Environment; parent involvement; participation of students with disabilities in high-stakes testing; cultural/linguistic diversity; the disproportionate placement of minorities; and teacher qualifications, certification and education.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

TAL 756. Research in Special Education. 3 Credit Hours.

Critical analysis of empirical research studies in selected areas of special education research, focusing on research designs, data analysis methods, and interpretation of findings.

Components: SEM.

Grading: GRD.

Typically Offered: Fall & Spring.

TAL 757. Seminar in Special Education. 3-12 Credit Hours.

Study in special interest areas in special education. May be taken for up to 12 credits.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

TAL 758. Topics in Special Education. 1-3 Credit Hours.

Review of emerging policy, practice, empirical research and scholarly writing in important educational issues for which format course title and syllabus have not been developed and formalized in the UM Bulletin. Allows for experimental instructional formats. Course number indicates appropriate student audience. See Course Notes for specific topics.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

TAL 770. Topics In Stem Education. 1-3 Credit Hours.

Review of emerging policy, practice, empirical research and scholarly writing on important educational issues for which format course title and syllabus have not been developed and formalized in the UM Bulletin. Allows for experimental instructional formats. Course number indicates appropriate student audience. See Course Notes for specific topics.

Components: SEM.

Grading: GRD.

Typically Offered: Fall & Spring.

TAL 772. Instructional Design and Technology in STEM Education. 3 Credit Hours.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

TAL 773. Stem Teaching And Teacher Education. 3 Credit Hours.

Advanced and specialized topics in research on the teaching and learning of science, technology, engineering and mathematics (STEM) including the development of teachers across their careers, professional development, design experiments, and teacher-learning in and out of school.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

TAL 774. Stem Learning. 3 Credit Hours.

Provides an overview of the historical roots and current state of the learning sciences, as they apply to the study of learning in science, technology, engineering and mathematics (STEM). Organized around reading, discussion and synthesis of research.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

TAL 775. Stem Curriculum And Policy. 3 Credit Hours.

Study of mathematics and science curricula, with the inclusion of engineering and technology as applied science and mathematics. Study of the competing forces that shape curriculum including standards documents, state and national policy, conceptions of the disciplines, modern and postmodern analyses of curriculum theory.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

TAL 776. Assessment In Stem Education. 3 Credit Hours.

Overview of the theoretical and research frameworks for student assessment in science, technology, engineering and mathematics (STEM). Topics include classroom-based assessment, testing for high stakes and other purposes, national and international comparisons in mathematics and science achievement and factors impacting on STEM-related persistence and careers.

Components: SEM.

Grading: GRD.

Typically Offered: Fall & Spring.

TAL 777. Stem-Education Research Practicum. 3 Credit Hours.

Defining an empirical or theoretical research issue, arguing for its importance; framing the study based on related research; designing, implementing and documenting appropriate research methods; reporting and interpreting the results; writing and submitting a manuscript – in the fields that comprise STEM-education.

Components: PRA.

Grading: GRD.

Typically Offered: Fall & Spring.

TAL 790. Advance Topics in Education. 1-3 Credit Hours.

Review of emerging policy, practice, empirical research and scholarly writing on important educational issues for which formal course title and syllabus have not been developed and formalized in the UM Bulletin. Allows for experimental instructional formats. Course number indicates appropriate student audience. See Course Notes for specific topic.

Components: SEM.

Grading: GRD.

Typically Offered: Fall & Spring.

TAL 793. Advanced Individual Study. 1-3 Credit Hours.

Individual work on a special project under faculty guidance. Application for Admission to Advanced Individual Study form will be required.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

TAL 794. Advanced Individual Study. 1-3 Credit Hours.

Individual work on a special project under faculty guidance. Application for Admission to Advanced Individual Study form will be required.

Components: THI.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

TAL 796. Practicum/Internship: Elementary Exceptional Student Education Classroom. 1-6 Credit Hours.

A comprehensive program of observations and supervised teaching in an elementary exceptional student education classroom. The student spends full time in the classroom participating in all activities of the teacher under the guidance of school and university personnel.

Components: LAB.

Grading: GRD.

Typically Offered: Fall & Spring.

TAL 801. Advanced Individual Study for Doctoral Students. 1-3 Credit Hours.

Individual work on a special project under faculty guidance. Application for Admission to Advanced Individual Study form will be required.

Components: THI.

Grading: GRD.

Typically Offered: Fall & Spring.

TAL 810. Master's Thesis. 1-6 Credit Hours.

The student working on his/her master's or Ed.S. thesis enrolls for credit. In most departments no to exceed six, as determined by his/her advisor. Credit is not awarded until the thesis has been accepted.

Components: THI.

Grading: SUS.

Typically Offered: Fall & Spring.

TAL 815. Post-Candidacy Thesis Research. 1-12 Credit Hours.

Masters-degree and Ed.S. students enrolled for credit as determined by advisor. Credit awarded when thesis is accepted.

Components: THI.

Grading: SUS.

Typically Offered: Offered by Announcement Only.

TAL 825. Continuous Registration - Master's Study.. 1 Credit Hour.

To establish residence for non-thesis master's study who are preparing for major examinations or working on culminating project. Credit not granted. Regarded as full time residence.

Components: THI.

Grading: GRD.

Typically Offered: Fall & Spring.

TAL 830. Pre-Candidacy to Dissertation Research.. 1-12 Credit Hours.

Doctoral students enrolled for credit as determined by advisor. Credit is awarded when dissertation is accepted.

Components: THI.

Grading: SUS.

Typically Offered: Fall & Spring.

TAL 835. Doctor of Education Dissertation. 1-12 Credit Hours.

Required of all candidates for the Ed.D. The student enrolls for credit as determined by his/her advisor. Credit is not awarded until the doctoral project has been accepted. Total enrollment may not exceed 12 credits.

Components: LEC.

Grading: SUS.

Typically Offered: Offered by Announcement Only.

TAL 840. Post-Candidacy Dissertation Research.. 1-12 Credit Hours.

Doctoral students enrolled for credit as determined by advisor. Credit is awarded when dissertation is accepted.

Components: THI.

Grading: SUS.

Typically Offered: Fall & Spring.

TAL 850. Research in Residence. 1 Credit Hour.

Doctoral students enrolled for credit as determined by advisor. Credit awarded when dissertation is accepted.

Components: THI.

Grading: SUS.

Typically Offered: Fall, Spring, & Summer.

TAL 862. Principles of Curriculum Development and Classroom Management for TESOL. 3 Credit Hours.

Components of curriculum and instructional management in ESOL classrooms. Pupil/ teacher interaction, curriculum organization, student assessment and evaluation, materials development and adoption, utilization of resources, and classroom organization will be covered.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

TAL 865. Language Assessment. 3 Credit Hours.

Nature and methodologies of language assessment within a framework of psychometric and linguistic criteria.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

Theatre Arts (THA)

THA 101. Introduction to Theatre. 3 Credit Hours.

Intro survey course in theatre—what it is now, how it works, its practitioners and the relationship of theatre to the contemporary world. Attendance at Ring Theatre productions is required.

Components: LEC.

Grading: GRD.

Typically Offered: Summer.

THA 102. Introduction To The Audition. 2 Credit Hours.

Students will learn the methods and techniques used to create a successful performance audition. The student will learn how to choose appropriate audition material and how to rehearse the material for an effective and professionally-minded audition.

Components: LEC.

Grading: GRD.

Typically Offered: Summer.

THA 103. Introduction To Theatre Crafts - 1 Credit Hour.

Students will learn the techniques and methods used to create costumes, scenery and stage properties for theatrical productions. Lectures and hand-on projects will allow students to practice their skills in scenic construction, scenic painting, sewing and costume crafting.

Components: LEC.

Grading: GRD.

Typically Offered: Summer.

THA 104. Performance Practicum. 3 Credit Hours.

Students will be cast in and rehearse a performance piece with a stage director. Students will learn effective methods for memorizing text and best professional practices in their collaboration with the director and artistic team. The piece will be performed in front of a live audience at the end of the course.

Components: LEC.

Grading: GRD.

Typically Offered: Summer.

THA 105. Introduction to Acting. 3 Credit Hours.

Basic tools of acting craft including analysis, physical action and reacting in the moment explored through exercises, scripted work and readings. A doing class, making attendance essential.

Components: LEC.

Grading: GRD.

Typically Offered: Summer.

THA 106. Introduction To Acting For The Musical Theatre Stage. 3 Credit Hours.

Basic tools of Musical Theatre Acting craft including vocal approaches for the actor, theatrical and musical analysis, physical action and an introduction to musical theatre acting styles explored through exercises, scripted work with an extensive listening component.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

THA 108. Introduction To Standardized Patient Simulation. 3 Credit Hours.

Standardized patients are healthy people who are trained to realistically portray a specific patient's history, subtext, personality, physical infirmities and emotional states within a simulated interview or simulated physical examination session with a medical student. Students will learn improvisational acting skills and physiological knowledge needed to support and serve interactive clinical training.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

THA 111. Acting I-A. 2 Credit Hours.

Introduction to the elements of drama and theatre, and to the basic tools of acting craft.

Prerequisite: 9 Credits in THA. Or Requisite: Permission of Instructor.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

THA 112. Acting I-B (Script Analysis). 2 Credit Hours.

Continued work on basic tools of craft including script analysis.

Prerequisite: 9 Credits in THA. Or Requisite: Permission of Instructor.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

THA 113. Movement I-A. 2 Credit Hours.

Basic movement for the actor (self-use training): physical awareness and correct habits, mind/body connections, muscle tension release, body alignment, coordination, balance, flexibility and strength. Begin study of the Alexander Technique.

Prerequisite: 9 Credits in THA. Or Requisite: Permission of Instructor.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

THA 114. Movement I-B. 2 Credit Hours.

Advanced movement for the actor; study physical/emotional choices for characters through physical centers, develop process for character's physical development through observations, explore spatial awareness, rhythm, kinesthetic body, and sensory awareness. Continued study of the Alexander Technique.

Prerequisite: 9 Credits in THA. Or Requisite: Permission of Instructor.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

THA 116. Dance I-A. 2 Credit Hours.

Beginning ballet and jazz for Musical Theatre with strong focus on technique and terminology. Can be taken up to three times for credit.

Prerequisite: 9 Credits in THA. Or Requisite: Permission of Instructor.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

THA 117. Dance I-B. 2 Credit Hours.

Continuation of THA 116. Can be taken up to three times for credit.

Prerequisite: 9 Credits in THA. Or Requisite: Permission of Instructor.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

THA 120. Freshman Studio I. 1-2 Credit Hours.

First year theatre laboratory with strong focus on ensemble, rehearsal, and performance skills.

Prerequisite: 9 Credits in THA. Or Requisite: Permission of Instructor.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

THA 121. Freshman Studio II. 1-2 Credit Hours.

A continuation of THA 120.

Prerequisite: 9 Credits in THA. Or Requisite: Permission of Instructor.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

THA 131. Musical Theatre Skills I. 2 Credit Hours.

The first semester of a four semester practical course sequence designed to teach musical skills, techniques, keyboard skills and theory relevant to the contemporary musical theater actor.

Requisite: Plan of Theatre - Musical.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

THA 132. Musical Theatre Skills II. 2 Credit Hours.

The second semester of a four semester practical course sequence designed to teach musical skills, techniques, keyboard skills and theory relevant to the contemporary musical theater actor.

Requisite: Plan of Theatre - Musical.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

THA 140. Introduction to Dance. 3 Credit Hours.

Beginning dance skills and stylistic elements of theatrical forms of dance (repeatable).

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

THA 141. Introduction to Scene Design/Stagecraft I (Lecture). 2 Credit Hours.

Introduction to scene design and construction. Corequisite: THA 143.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

THA 142. Introduction to Costume Design/Stagecraft II (Lecture). 2 Credit Hours.

Introduction to stage lighting and costume design. Corequisite: THA 144.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

THA 143. Introduction to Theatre Crafts I (Lab). 1 Credit Hour.

Students will be assigned to run crew positions on the backstage crew for actual theatre productions in the Jerry Herman Ring Theatre or Hecht Studio Theatre. Working evenings and weekends will be required for this lab.

Components: LAB.

Grading: GRD.

Typically Offered: Fall & Spring.

THA 144. Introduction to Theatre Crafts II (Lab). 1 Credit Hour.

Students will participate in the completion of the technical elements of Jerry Herman Ring Theatre productions. Students will be assigned to work in one of technical shops including costumes, sets, lights, props or publicity.

Components: LAB.

Grading: GRD.

Typically Offered: Fall & Spring.

THA 150. Musical Theatre Vocal Techniques. 1 Credit Hour.

Fundamentals of Vocal Productions explored through group lessons. Enrollment limited to first-year BFA students. May be taken twice for credit.

Requisite: Plan of Theatre - Musical.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

THA 160. Dance Styles. 3 Credit Hours.

Presents a variety of dance forms that will vary from one semester to the next Styles such as tap, modern, ethnic and contemporary (among others) will be offered on a rotating basis. Can be repeated for up to 6 credits.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

THA 161. Beginning/ Intermediate Tap. 3 Credit Hours.

Beginning/intermediate tap class. Not a lecture class; students will be dancing during each class period. Tap shoes are required.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

THA 162. Intermediate Advanced Tap. 3 Credit Hours.

Intermediate advanced tap class, Not a lecture class; students will be dancing during each class period. Tap shoes are required.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

THA 191. Introductory Applied Music Theatre Voice I. 1 Credit Hour.

One-half hour individual lessons tailored to the individual needs of the students. Enrollment is limited to first-year BFA music theater students.

Requisite: Plan of Theatre - Musical.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

THA 192. Introductory Applied Music Theatre Voice II. 1 Credit Hour.

One-half hour individual lessons tailored to the individual needs of the student. Enrollment is limited to first-year BFA music theater students.

Requisite: Plan of Theatre - Musical.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

THA 194. Singing for Actors. 1-2 Credit Hours.

Fundamentals of singing to include breath control, tone production, articulation. An ensemble approach to exploring and gain self-confidence in the skill of singing for the American musical stage.

Requisite: Plan of Theatre - Performance.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

THA 196. Singing for the Stage I-A. 1-2 Credit Hours.

The selection of learning process and performance of Musical Theatre Songs with emphasis on lyrics.

Requisite: Plan of Theatre - Musical.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

THA 197. Singing for the Stage I-B. 1-2 Credit Hours.

Continuation of THA 196.

Requisite: Plan of Theatre - Musical.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

THA 198. Voice and Speech I-A. 2 Credit Hours.

Fundamentals of relaxation and breath management, alignment, tone production, pitch and resonance. Anatomy and physiology of the vocal structures. Introduction to the International Phonetic Alphabet (IPA).

Requisite: Plan of Theatre - Musical.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

THA 199. Voice and Speech I-B. 2 Credit Hours.

Development of General American speech production and articulation skills through further phonetic study. Explorations in range, inflection, resonance, tempo and rhythm within the application of voice to text.

Requisite: Plan of Theatre - Musical.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

THA 200. Advance Musical Skills I. 2 Credit Hours.

THA 200 is the first half of a two semester practical course sequence designed to integrate the disciplines of music theory, script analysis and acting techniques. Emphasis will be on the incorporation of all aspects of a musical theatre score by the actor.

Requisite: Plan of Theatre - Musical.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

THA 206. BA Acting for the Musical Theatre Stage. 3 Credit Hours.

Prerequisite: THA 106.

Components: LEC.

Grading: GRD.

THA 208. Intermediate Standardized Patient Training. 3 Credit Hours.

Standardized patients are healthy people who are trained to realistically portray a specific patient's history, subtext, personality, physical infirmities and emotional states within a simulated interview or simulated physical examination session with a medical student. Students with previous SP experience will learn intermediate improvisational acting skills and work with patient histories that deal with behavioral health.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

THA 211. Acting II-A. 2 Credit Hours.

Intensive scene study for sophomore conservatory actors. Basic tools of craft developed through use of contemporary plays, script analysis, and rehearsal techniques.

Prerequisite: 9 Credits in THA. Or Requisite: Permission of Instructor.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

THA 212. Acting II-B. 2 Credit Hours.

A continuation of THA 211.

Prerequisite: 9 Credits in THA. Or Requisite: Permission of Instructor.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

THA 216. Dance II-A. 1 Credit Hour.

Intermediate Musical Theatre dance taught through ballet and jazz, with an emphasis on technique and style. Can be taken up to three times for credit.

Prerequisite: 9 Credits in THA. Or Requisite: Permission of Instructor.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

THA 217. Dance II-B. 2 Credit Hours.

A continuation of THA 216 incorporating characterization and additional style. Can be taken up to three times for credit.

Prerequisite: 9 Credits in THA. Or Requisite: Permission of Instructor.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

THA 231. Music Theatre Skills Iii. 2 Credit Hours.

The third semester of a four semester practical course sequence designed to teach musical skills, techniques, keyboard skills and theory relevant to the contemporary musical theatre actor.

Prerequisite: THA 132.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

THA 232. Music Theatre Skills Iv. 2 Credit Hours.

The fourth and final semester of a four semester practical course sequence designed to teach musical skills, techniques, keyboard skills and theory relevant to the contemporary musical theatre actor.

Prerequisite: THA 231.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

THA 240. Introduction to Dance II. 3 Credit Hours.

Continuation of THA 140 (repeatable).

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

THA 241. Basic Costume Sewing And Scenic Painting. 3 Credit Hours.

Basic scenic painting and costume construction techniques. Scenic painting includes fundamentals in wood, marbles, brick, stones, lights and shadows. Costume construction includes fundamentals in hand/machine sewing, dyeing, distressing and pattern reading.

Prerequisite: THA 141 and THA 142.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

THA 242. Drafting for the Theatre. 3 Credit Hours.

Drafting standards and techniques used for the theatre to produce scenic and lighting plans. Hand drafting and computer aided drafting.

Prerequisite: THA 141 and THA 142.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

THA 243. Introduction to Drawing for the Theatre. 3 Credit Hours.

Basic sketching, mechanical drawing and rendering techniques used for costume and scenic design. Basic black and white figure drawing, lights and shadows and perspective elevations.

Corequisite: THA 141.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

THA 244. Advance Drawing for the Theatre. 3 Credit Hours.

Advanced training in drawing and rendering used for costume and scenic design for the theatre. Color costume plates and scenic renderings.

Prerequisite: THA 243.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

THA 245. Technical Planning for Theatrical Productions. 3 Credit Hours.

Characteristics and structure of Scenery, Properties, Scenic Art, Costumes, Lighting, Sound and Video departments for theatrical performance. Study of each production department's budgeting, scheduling and logistical needs.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

THA 246. Survey of Design for Theatre and Live Entertainment. 3 Credit Hours.

Principles and procedures of the design and technical production aspects of theatre and live entertainment.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

THA 247. Master Electrician for the Stage. 3 Credit Hours.

Training for the position of Master Electrician and Assistant Lighting Designer (or theatrical productions. Practical application of production planning, lighting paperwork, overseeing lighting crews, advanced electrical theory, power distribution, and creative problem solving.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

THA 248. Introduction to Design for Film. 3 Credit Hours.

Various aspects of costume design and production in films by introductions the designer' roles, design models, design language, and collaborative efforts in film to the student. Later in the semester students will experience developing their own designs through simpler projects, such as designing a song or scene from novels.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

THA 251. Intermediate Acting I. 3 Credit Hours.

Basic tools of the actor's craft are developed through script work, scene study, and improvisational techniques.

Components: LEC.

Grading: GRD.

Typically Offered: Summer.

THA 252. Intermediate Acting II. 3 Credit Hours.

A continuation of THA 251 focusing on script analysis and choice making for scene work.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

THA 253. Voice for the Stage. 3 Credit Hours.

The mechanics, techniques and professional tricks used by voice-over artists in the entertainment industry. Also, the Business of voice-over, the needs of a home studio, and how to best market newly acquired skills.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

THA 254. Movement for Actors. 3 Credit Hours.

Physical range and control, physicalization and condition of character, and stage violence.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

THA 281. History of Western Theatre Architecture. 3 Credit Hours.

Covers the evolution of performance spaces in Europe and the United States, from Ancient Greek structures to modern-day multi-venue Performing Arts complexes.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

THA 291. Beginning Applied Music Theatre Voice I. 1 Credit Hour.

One-Hour individual lessons tailored to the individual needs of the students. Enrollment is limited to second-year BFA music theater students.

Requisite: Plan of Theatre - Musical.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

THA 292. Beginning Applied Music Theatre Voice II. 1 Credit Hour.

One-hour Individual lessons tailored to the Individual needs of the student. Enrollment is limited to second-year BFA music theater students.

Requisite: Plan of Theatre - Musical.

Components: LAB.

Grading: GRD.

Typically Offered: Spring.

THA 294. Singing for Actors II-A. 2 Credit Hours.

Development of musical theatre singing technique for BFA Acting majors. Skills to be developed include proper breathing, tone, articulation, lyric interpretation, and physical presentation. Course is repeatable.

Requisite: Plan of Theatre - Performance.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

THA 296. Singing for the Stage II-A. 1 Credit Hour.

A continuation of ideas presented in THA 196 and 197.

Requisite: Plan of Theatre - Musical.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

THA 297. Singing for the Stage II-B. 1 Credit Hour.

Instruction in preparing vocal material for musical scenes drawn from American musical theatre as well as other challenging musical material.
Requisite: Plan of Theatre - Musical.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

THA 298. Voice and Speech II-A. 1 Credit Hour.

Improvement of individual voice and speech skills: through in-depth examination of habitual speech formation and vocal patterns. Application of the IPA within American accent study.

Requisite: Plan of Theatre - Musical.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

THA 299. Voice and Speech II-B. 2 Credit Hours.

Strengthening the connection between the acting impulse and speaking voice. Extended voice production within scene work. Introduction to Shakespeare's verse structure.

Requisite: Plan of Theatre - Musical.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

THA 300. Theatre Criticism. 3 Credit Hours.

Develops the reviewing, interviewing, and editorial skills of a professional theatre critic, guiding and teaching students to produce critical responses to their experience of physical performance.

Prerequisite: ENG 106.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

THA 301. Theater and the Holocaust. 3 Credit Hours.

Through readings, research, class discussions and personal reflections this course explores the philosophical and historical context of Holocaust-related plays written in the aftermath of World War II.

Prerequisite: ENG 106.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

THA 302. People, Places And Play: Theatre That Changed The World. 3 Credit Hours.

An examination through the lens of the drama, the seminal events that brought about the death of romanticism and gave birth to the modern era. Emphasis is placed on social change as evidenced through theatre as a mirror to the world in events, dramatic literature and the people that shaped it from the Revolutions of 1848 to the present; exploring the great minds outside the world of theatre and the effect this had on the great minds in the theatre. *Not open to Theatre Majors or Minors: for BGS students only.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

THA 311. Acting III-A. 2 Credit Hours.

A scene study class focusing on plays with elevated language, with an emphasis on Shakespeare. May include Restoration and Greek drama as well.

Prerequisite: 9 Credits in THA. Or Requisite: Permission of Instructor.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

THA 312. Acting III-B. 2 Credit Hours.

A continuation of THA 311 with focus on high style and Comedy of Manners. May include Shaw, Wilde, and Coward.

Prerequisite: 9 Credits in THA. Or Requisite: Permission of Instructor.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

THA 313. Movement II-A. 1 Credit Hour.

Period Movement: special movement requirements and techniques for four different periods of history - 16th, 17th, 18th and 19th centuries, including manners, etiquette, social mores, history and costume.

Prerequisite: 9 Credits in THA. Or Requisite: Permission of Instructor.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

THA 314. Movement II-B. 1 Credit Hour.

Fundamentals of mask work through the study of a "personal clown"; the character mask and/or an in-depth study of Commedia dell'Arte masks and character types.

Prerequisite: 9 Credits in THA. Or Requisite: Permission of Instructor.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

THA 315. Auditioning I. 2 Credit Hours.

First semester of a two semester sequence designed to aid BFA students in the development of material and techniques necessary for professional audition circumstances.

Prerequisite: 9 Credits in THA. Or Requisite: Permission of Instructor.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

THA 316. Dance Iii-A. 2 Credit Hours.

Advanced Musical Theatre Dance incorporating high technical proficiency for expression, characterization and style. Can be taken up to three times for credit.

Prerequisite: 9 Credits in THA. Or Requisite: Permission of Instructor.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

THA 317. Dance Iii-B. 2 Credit Hours.

A continuation of THA 316. Can be taken up to three times for credit.

Prerequisite: 9 Credits in THA. Or Requisite: Permission of Instructor.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

THA 341. Sound for the Theatre. 3 Credit Hours.

A basic sound design class to develop an ear for music and sound.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

THA 342. Scenic Design. 3 Credit Hours.

Techniques for analyzing, planning and designing stage scenery, executing color rendering and stage models.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

THA 343. Costume Design. 3 Credit Hours.

Techniques for analyzing, planning, and designing theatrical costumes.

Executing color rendering plates.

Prerequisite: THA 243.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

THA 344. Lighting Design. 3 Credit Hours.

Techniques for analyzing, planning and designing theatrical lighting.

Executing light plots and corresponding paperwork.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

THA 345. Scenic Materials And Structures. 3 Credit Hours.

Materials used in scenic construction and advantages of each. Students will perform basic structural analysis on scenery built with these materials and will study rigging systems and knots used in backstage work.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

THA 347. Stage Make-Up. 3 Credit Hours.

A lecture-laboratory course in make-up for the stage, television and motion picture.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Summer.

THA 350. Musical Theatre Vocal Techniques II. 1 Credit Hour.

Advanced Musical Theatre Vocal Techniques explored through group or private lessons.

Requisite: Plan of Theatre - Musical.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

THA 351. Auditioning and Preparing for the Profession. 3 Credit Hours.

How to succeed in the theatre profession. Students will prepare audition pieces and learn resume preparation, headshots, interviewing, and other aspects of searching for and obtaining work. Not for BFA Students.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

THA 352. Singing for the Musical Theater. 3 Credit Hours.

The process of acting and singing a song for a musical play or review.

Song selection, technical and acting mechanics, and how to deliver the song using 16 and 32 bar material.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

THA 356. Improvisational Acting. 3 Credit Hours.

Exploration of the unique skills involved in Improvisational Acting.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

THA 364. The Theatre Industry. 3 Credit Hours.

Producing trends on Broadway, the Road, and Regional Theatre. The basics of producing, managing, and marketing a play from securing the performance rights to closing night.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

THA 365. Principles of Stage Management. 3 Credit Hours.

The study of the basic work of a theatrical stage manager from pre-production to post production, including preliminary work, auditions, rehearsals, coordinating of departments, technical & dress rehearsals, performance and post production duties. Much class time is devoted to discussing the role of the stage manager as a theatre collaborator. Also discussed are stage and business techniques as applied to the entertainment industry with a focus on strengthening organizational and interpersonal skills in order to function successfully as an effective leader.

Prerequisite: THA 141 or THA 142. Or Requisite: Permission of Instructor.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

THA 366. Theatre Management Practicum I. 3 Credit Hours.

Practical experience on the annual season ticket campaign, marketing, finances, house management, and facilities management at the Jerry Herman Ring Theater. Open only to Theatre Management majors.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

THA 367. Theatre Management Practicum II. 3 Credit Hours.

Practical experience on the annual season ticket campaign, marketing, finances, house management, and facilities management at the Jerry Herman Ring Theatre. Open only to Theatre Management majors.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

THA 369. Producing New Plays And Musicals. 3 Credit Hours.

The components needed to produce a new body of theatrical work. Topics that will be discussed are the selection of a creative team, developmental timelines, budgeting, and approaches to managing a new work from both a business and creative perspective. This is a hands-on class that will span the entire process from creation of a script to performance.

Prerequisite: THA 364.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

THA 370. Popular Culture And Entertainment: Performance, Spectacle, And Audience Experience. 3 Credit Hours.

An exploration of the ways in which performance uses spectacle to create events that captivate audiences. What purpose does popular entertainment serve for the general public in different eras? How does entertainment encourage us to play? What does this playful diversion do for us as individuals? Why do artists use spectacle to manipulate our experience and perception of the world?

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

THA 375. Introduction to Playwriting. 3 Credit Hours.

Understanding of the basic principles involved in play construction.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

THA 376. Beg, Borrow And Steal: Adapting For The Stage. 3 Credit Hours.

How to turn narrative description into stage action; how to research for devised projects and how to refine a specific point of view that makes clear the original impetus for adaptation. Students will complete a series of short adaptation exercises and a longer self-directed adaptation project. Primarily a writing workshop, however information will also be presented through readings and discussion.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

THA 377. Make Them Laugh: How To Write Comedy. 3 Credit Hours.

Analysis of Comedic Masters in order to create your own comedic material.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

THA 381. Play Analysis I. 3 Credit Hours.

Play structure from the viewpoints of the actor, director, designer, and audience. Understanding the play and making production choices.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

THA 382. Play Analysis II. 3 Credit Hours.

A continuation of THA 381. Emphasis on non-realistic theatre.

Components: LAB.

Grading: GRD.

Typically Offered: Spring.

THA 383. Queer Theatre: Body Politics/Staging Sexuality. 3 Credit Hours.

Examines theatrical representations of GLBTQ issues in the U.S. from the 1960s to the present, in terms of the aesthetic/political project of "Queer Theater." Considering theater as a transformative social form, students will have opportunities for creative practice and scholarship. May be taken for Writing Credit.

Prerequisite: ENG 106.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

THA 384. Music In The American Theatre: Its Dramaturgy, Music, And Cultural Participation. 3 Credit Hours.

A survey of the history of musical theater in America, from its earliest days with American colonial works to our present era of Internet-facilitated global artistic exchange. As a result, the course encompasses a vibrant diversity of intimately related musical-theatrical forms, styles, methods, and cultural responses, represented by such heterogeneous labels as ballad opera, minstrel show, operetta, and mega-musical, to name just a few.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

THA 385. History of Decor. 3 Credit Hours.

A History of interior decor and furniture. To provide a research background for theatrical design. Classical Greece through the present.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

THA 386. History of Fashion. 3 Credit Hours.

A history of clothing and other visual elements that provide a research background for theatrical design, prehistoric through present.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

THA 391. Intermediate Applied Music Theatre Voice I. 1 Credit Hour.

One-hour individual lessons tailored to the individual needs of the student. Enrollment is limited to third-year BFA music theater students.

Requisite: Plan of Theatre - Musical.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

THA 392. Intermediate Applied Music Theatre Voice II. 1 Credit Hour.

One-hour individual lessons tailored to the individual needs of the student. Enrollment is limited to third-year BFA music theater students.

Requisite: Plan of Theatre - Musical.

Components: LAB.

Grading: GRD.

Typically Offered: Spring.

THA 396. Singing for the Stage III-A. 1-2 Credit Hours.

Instruction and coaching of advanced vocal and audition material drawn from American musical theatre.

Requisite: Plan of Theatre - Musical.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

THA 398. Voice and Speech III-A. 1 Credit Hour.

Application of voice and speech in classic texts-particularly that of Shakespeare and translation plays. Accent monologues and scenes.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

THA 399. Voice and Speech III-B. 1 Credit Hour.

Accent monologues and scenes. Independent accent study culminating in student presentations. Compilation of monologue rep book.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

THA 400. Acting for Motion Pictures. 2 Credit Hours.

This course is designed to build an advanced set of professional skills and practices for motion picture acting through scene work, shooting, cutting and creative collaboration. Upon completion of this class each actor will have performed in staging and shooting exercises and a variety of shot scenes. They will learn non-linear editing, cut their own acting reels, collaborate with a variety of directors, learn how camera and editing affects performance and learn to work efficiently and optimally on a professional film set.

Corequisite: THA 312. Requisite: Theatre - Performance or Theatre - Musical.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

THA 401. Internship. 1-3 Credit Hours.

Prescribed work and study at a theatre, opera, or dance company as it pertains to the major's concentration of study. Collateral reports, readings, conference s with faculty supervisor.

Prerequisite: 9 Credits in THA. Or Requisite: Permission of Instructor.

Components: THI.

Grading: GRD.

Typically Offered: Fall & Spring.

THA 402. Internship. 3 Credit Hours.

Continuation of THA 401.

Prerequisite: 9 Credits in THA. Or Requisite: Permission of Instructor.

Components: THI.

Grading: GRD.

Typically Offered: Fall & Spring.

THA 403. Internship. 3 Credit Hours.

Continuation of THA 402.

Prerequisite: 9 Credits in THA. Or Requisite: Permission of Instructor.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

THA 404. Internship. 3 Credit Hours.

Continuation of THA 403.

Prerequisite: 9 Credits in THA. Or Requisite: Permission of Instructor.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

THA 410. Independent Study. 1-3 Credit Hours.

Individualized instruction on special topics.

Components: THI.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

THA 411. Acting IV-A. 2 Credit Hours.

Scene study focusing on early modern European playwrights that may include Ibsen, Chekhov, Strindberg, and others.

Prerequisite: 9 Credits in THA. Or Requisite: Permission of Instructor.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

THA 412. Acting IV-B. 2 Credit Hours.

Scene study focusing on contemporary playwrights who use elevated language. May include Pinter, Stoppard, Mamet, Anouilh, Churchill, and others.

Prerequisite: 9 Credits in THA. Or Requisite: Permission of Instructor.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

THA 413. Movement III-A. 3 Credit Hours.

Unarmed combat for the stage: basic and advanced techniques including punches, slaps, kicks, rolls and fight choreography. As sanctioned by the Society of American Fight Directors (SAFD).

Prerequisite: 9 Credits in THA. Or Requisite: Permission of Instructor.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

THA 414. Movement III-B. 3 Credit Hours.

Weapons for the stage: basic and advanced techniques of armed combat including rapier, rapier and dagger, broadsword and/or quarterstaff as sanctioned by the Society of American Fight Directors (SAFD).

Prerequisite: 9 Credits in THA. Or Requisite: Permission of Instructor.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

THA 415. Auditioning-I. 2 Credit Hours.

A course dedicated to the business of theatre for actors. Students will prepare three to five audition pieces. Covers headshots, resumes, income tax situations, unions, and methods of searching for and obtaining work.

Prerequisite: 9 Credits in THA. Or Requisite: Permission of Instructor.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

THA 416. Auditioning-II. 2 Credit Hours.

Continuation of THA 415.

Prerequisite: 9 Credits in THA. Or Requisite: Permission of Instructor.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

THA 420. Senior Studio. 3 Credit Hours.

Rehearsal and production of a showcase culminating in a New York performance for agents and casting directors.

Prerequisite: 9 Credits in THA. Or Requisite: Permission of Instructor.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

THA 431. Musical Theatre Styles I. 2-3 Credit Hours.

Focus on the preparation of a professional musical theatre audition book. Emphasis on all current musical theatre song styles. 16 and 32 bar audition cuts, full songs and appropriate monologues.

Prerequisite: 9 Credits in THA. Or Requisite: Permission of Instructor.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

THA 432. Musical Theatre Styles II. 2-3 Credit Hours.

Musical scene study class exploring scenes from various styles and genres of musical theatre. Scenes will consist of spoken dialogue and singing. Continuation of THA 431.

Prerequisite: 9 Credits in THA. Or Requisite: Permission of Instructor.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

THA 441. Design Studio I. 3 Credit Hours.

Hands on practicum training working as a designer or technical craftsperson for a mainstage or studio production; or as an assistant designer or assistant technical craftsperson for a mainstage production. Repeatable once for credit toward major.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

THA 442. Design Studio II. 3 Credit Hours.

Hands on practicum training working as a designer or technical craftsperson for a mainstage or studio production; or as an assistant designer or assistant technical craftsperson for a mainstage production. Repeatable once for credit toward major.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

THA 451. Advanced Acting: Classical Poetic Text. 3 Credit Hours.

An introduction to styles focusing on the Greeks, Shakespeare, Restoration and other plays on poetic language.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

THA 452. Advanced Acting: Contemporary Poetic Text. 3 Credit Hours.

Acting and scene study focusing on contemporary playwrights who use poetic language, such as Mamet, Stoppard, Pinter, Shepard, Vogel, and Churchill.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

THA 455. Acting For The Camera. 3 Credit Hours.

An advanced set of professional skills and practices for motion picture acting through scene work, episodic series work and collaboration. Upon completion of this class each actor will have performed in staging and shooting exercises and a variety of shot scenes. They will work with an editor to cut their reels, collaborate with a variety of directors, learn how camera and editing affects performance and learn to work efficiently and optimally on a professional film set.

Prerequisite: THA 312.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

THA 459. Stage Management Practicum. 3 Credit Hours.

Practical experience as a stage manager for a production. Weekly individual meetings with instructor for analysis of performance and evaluation.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

THA 461. Play Direction I. 3 Credit Hours.

The art and craft of stage direction.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

THA 462. Play Direction II. 3 Credit Hours.

A continuation of THA 461 in which the student directs a one act play. Enrollment limited.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

THA 463. Advanced Stage Management I. 3 Credit Hours.

A study of stage management techniques and practices as applied to the professional theatre: Career preparation including cover letter and resume skills. This course provides discussion on the Actor's Equity LORT Rule Book, the discovery and understanding of personality types and traits, goal setting and cue calling skills.

Prerequisite: THA 365. Requisite: Permission of Instructor.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

THA 464. Advanced Stage Management II. 3 Credit Hours.

Advanced stage management techniques and practices as applied to the professional theatre: Touring, including an analysis of the basic practices and procedures of Advance Calls, Route Sheets and Itineraries. Cueing: reading, writing and calling in "Dance Eights." This course also provides leadership assessments and an examination of leadership styles and methodologies.

Prerequisite: THA 365. Requisite: Permission of Instructor.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

THA 465. Theatre Management I. 3 Credit Hours.

History of producing on Broadway along with the evolution of contemporary producers and producing organizations. Copyright Law, securing property rights, budgeting and financing the production, business structure and current developments and trends in both Broadway and commercial Broadway tours.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

THA 466. Theatrical Unions. 3 Credit Hours.

History of theatrical unions in America. Major unions and their contracts: actors, directors and choreographers, playwrights, composers and lyricists, designers and non-union personnel management and organizational structure.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

THA 467. Producing for Regional Theatre. 3 Credit Hours.

History of American Regional Theatre. Forming the non-profit corporation; the mission statement; the Board of Directors; legal and tax requirements; budgeting and record keeping; staffing and organizational management.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

THA 468. Theatrical Fundraising and Marketing. 3 Credit Hours.

Marketing and fundraising for the non-profit, professional theatre. Detailed instruction in single ticket and subscription sales; other sources of earned revenue; marketing and public relations; research for fundraising and grant writing.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

THA 469. Producing Musical Theatre II. 3 Credit Hours.

Designed to develop, refine, rehearse, mount, and present a new musical.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

THA 471. Directing the Actor for Film. 3 Credit Hours.

The craft of directing actors for work before a camera.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

THA 472. Where Stage And Film Meet. 3 Credit Hours.

The relationship between theatre and film combining a theoretical-critical as well as a practical perspective. Viewing of seminal films and readings from a selection of texts from the early days of cinema until the 2000's touch on the point of view or critics, playwrights, and directors. Also explores the concept of theatricality in film, or the ways in which different theatrical practices, concepts, and techniques can play fundamental roles in filmmaking.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

THA 475. Lyric Writing for Musical Theatre. 3 Credit Hours.

Lyric-writing laboratory for musical theatre, operating on a workshop model. Following a study of musical theater's basic lyrical forms and functions, students will, on a weekly basis, craft their own theatre lyrics - intended to be set to music-according to studied models and will share them in a safe, collaborative environment for consideration and critique.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

THA 481. Theatre History I. 3 Credit Hours.

Theatre history from the Greeks through European Renaissance.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Summer.

THA 482. Theatre History II. 3 Credit Hours.

Theatre history from the 17th century to the present.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

THA 485. Playwriting II. 3 Credit Hours.

Further examination of dramatic writing techniques including Hero's Journey model, adaptation and experimental structures.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

THA 487. Advanced Projects. 3 Credit Hours.

Advanced practical projects in directing, stage management, dramatic writing or dramaturgy. Repeatable up to four times for credit towards minor.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

THA 491. Advanced Applied Music Theatre Voice I. 1 Credit Hour.

One-hour individual lessons tailored to the individual needs of the student. Enrollment is limited to fourth-year BFA music theater students. Prerequisite: 9 Credits in THA. Or Requisite: Permission of Instructor.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

THA 492. Advanced Applied Music Theatre Voice II. 1 Credit Hour.

One-hour individual lessons tailored to the individual needs of the student. Enrollment is limited to fourth-year BFA music theater students. Prerequisite: 9 Credits in THA. Or Requisite: Permission of Instructor.

Components: LAB.

Grading: GRD.

Typically Offered: Spring.

Theory and Composition (MTC)

MTC 101. Composition I. 2 Credit Hours.

Course covers elementary principles of composition; class performance of composition projects is also included. Required of theory-composition majors.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MTC 102. Composition II. 2 Credit Hours.

Continuation of MTC 101.

Prerequisite: MTC 101.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MTC 107. Skills Lab I. 1 Credit Hour.

Chamber-music ensemble (vocal or instrumental) for intensive work on aural skills (transcription, sight-singing, etc.), analysis of literature in and through performance, and improvisation, with focus on music of the Baroque and Classical periods.

Components: LAB.

Grading: GRD.

Typically Offered: Fall.

MTC 108. Skills Lab II. 1 Credit Hour.

Chamber-music ensemble (vocal or instrumental) for intensive work on aural skills (transcription, sight-singing, etc.), analysis of literature in and through performance, and improvisation, with focus on music of the Baroque and Classical periods.

Components: LAB.

Grading: GRD.

Typically Offered: Spring.

MTC 109. Music Theory Skills I. 3 Credit Hours.

A first course in music theory and musicianship for non-music majors; covers basic literacy, fundamentals, tonal harmony, and elements of musical form in a wide variety of traditional and contemporary styles and genres. Includes intensive training in aural and singing skills.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MTC 110. Music Theory Skills II. 3 Credit Hours.

Course is designed for students deficient in the knowledge of the basic fundamentals of music. Includes the study of notation, keys, scales, and chord construction. Credits do not count toward music degree requirements.

Prerequisite: MTC 109.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MTC 111. Music Theory I. 1-3 Credit Hours.

Introduction to basic concepts of melody, harmony, rhythm, and formal structure through analysis and writing. Topics include intervals, scales, elementary melodic and four-part writing, phrase structure and cadences, and diatonic harmony. Laboratory: MTC 121.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MTC 12. Composition Forum. 0 Credit Hours.

A weekly forum for all Music Theory/Composition majors, both undergraduate and graduate. Course involves guest lectures by visiting composers and performers, presentations of faculty compositions, and group discussions of important compositional and theoretical issues.

Components: FOR.

Grading: GRD.

Typically Offered: Fall & Spring.

MTC 125. The Nature of Music. 3 Credit Hours.

A study of sound, pitch, rhythm, meter, melody, scales, intervals, tempo, expression terms, and highlights of music in history. Enrollment is limited to honors students who are non-music majors.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

MTC 140. Experiential Musicianship I. 3 Credit Hours.

Study of tonal harmony, voice leading, and elements of musical form, covering diatonic procedures and basic modulation, using the chorales of J.S. Bach, with other repertoire, as models for composition.

Corequisite: MTC 107.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MTC 141. Experiential Musicianship II. 3 Credit Hours.

Continuation of MTC 140, enlarging the study of tonal harmony and voice leading, covering harmony of the Classical period and sectional musical forms through small rondo and compound ternary, culminating in a large independent model-composition project for each student.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MTC 148. Electronic Music Ensemble. 1 Credit Hour.

An in-depth study and performance of electroacoustic music compositions.

Components: ENS.

Grading: GRD.

Typically Offered: Fall & Spring.

MTC 15. Media Writing and Production forum. 0 Credit Hours.

This course provides a weekly forum for sharing information about issues, current developments, and other matters related to commercial music composition and production as a field of study and as a profession. The course is required for all undergraduate MWP majors during each semester.

Components: FOR.

Grading: GRD.

Typically Offered: Fall & Spring.

MTC 182. Composition Workshop. 1 Credit Hour.

Variety of composition concepts and problems are dealt with through assignments and projects with special emphasis on practical considerations.

Components: LAB.

Grading: GRD.

Typically Offered: Fall & Spring.

MTC 197. Studio Rhythm Section. 1 Credit Hour.

Components: ENS.

Grading: GRD.

Typically Offered: Fall & Spring.

MTC 199. The Other Music Ensemble. 1 Credit Hour.

An in-depth study and performance of 20th century music.

Components: ENS.

Grading: GRD.

Typically Offered: Fall & Spring.

MTC 201. Composition III. 2 Credit Hours.

Principles of composition with special emphasis on stylistic considerations.

Prerequisite: MTC 102.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MTC 202. Composition IV. 2 Credit Hours.

Continuation of MTC 201.

Prerequisite: MTC 201.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MTC 203. Pop Composition I. 2 Credit Hours.

Introduces students to the concept of form in commercial music through a survey of representative past and current works. Emphasis is placed on acoustic repertoire. Assignments include leadsheet transcriptions and an introduction to the 3, 4, and 5-piece rhythm section.

Prerequisite: MTC 141.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MTC 204. Pop Composition II. 2 Credit Hours.

Continuation of MTC 203. Survey of lyrics from different pop genres. Compositional assignments are for rhythm section and vocalist, and include the writing and setting of lyrics.

Prerequisite: MTC 203.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MTC 207. Skills Lab III. 1 Credit Hour.

Chamber-music ensemble for intensive work on aural skills (transcription, sight-singing, sight-reading, etc.), analysis of literature excerpts in performance, and improvisation, with focus on tonal music of the Classical period and the nineteenth century.

Components: LAB.

Grading: GRD.

Typically Offered: Fall.

MTC 208. Skills Lab IV. 1 Credit Hour.

Chamber-music ensemble for intensive work on aural skills (transcription, sight-singing, sight-reading, etc.), analysis of literature excerpts in performance, and improvisation, with focus on selected music of the twentieth century.

Components: LAB.

Grading: GRD.

Typically Offered: Spring.

MTC 240. Experiential Musicianship III. 3 Credit Hours.

Continuation of MTC 141; study of advanced tonal harmony, voice leading, and larger musical forms, based primarily on music of the Classical period and the nineteenth century.

Prerequisite: MTC 141.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MTC 241. Experiential Musicianship IV. 3 Credit Hours.

Continuation of MTC 240; study of materials and techniques in composition of music from the early and middle twentieth century, based on works by Debussy, Stravinsky, Schoenberg, Bartok, and other models.

Prerequisite: MTC 240.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MTC 301. Composition V. 2 Credit Hours.

Individual compositional projects with an emphasis on smaller formal structure.

Prerequisite: MTC 202.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MTC 302. Composition VI. 2 Credit Hours.

Individual compositional projects including all media with an emphasis on extended formal structures.

Prerequisite: MTC 302.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MTC 303. Music For Media. 3 Credit Hours.

Project-based lecture course designed to provide students the opportunity to compose and realize a varied array of music projects for media applications including music branding "logos" radio/television ID packages, and 30-second television ads. Particular emphasis is placed on the technical considerations, aesthetic issues and the psychology of music as they relate to advertising on radio and television.

Prerequisite: MTC 204.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MTC 304. Multimedia Projects. 3 Credit Hours.

Project-based lecture course designed to provide students the opportunity to compose and realize the music for a series of commercial multimedia including television program themes/bumpers, sound design and FX, film trailers, and corporate/industrial videos. Emphasis is placed on making appropriate stylistic and compositional choices, as well as developing real-world deadline/time-management skills.

Prerequisite: MTC 303.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MTC 311. Analysis and Experience. 3 Credit Hours.

Musical analysis and its relationship to listening and performance. An introduction to musical aesthetics is also included.

Prerequisite: MTC 241.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MTC 312. 20th And 21st Century Techniques. 3 Credit Hours.

Analysis of twentieth century compositional resources. Topics include Impressionism, expanded tonal resources, Neo-classicism, serialism, post-serialism, aleatoric procedures, minimalism, and other recent trends. Prerequisite: MTC 241.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

MTC 313. 18th Century Counterpoint. 3 Credit Hours.

Two-part keyboard counterpoint in the style of J. S. Bach, beginning with a modified species approach and including composition of dance-suite movements and inventions. Introduction to three-part writing is also included.

Prerequisite: MTC 240.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

MTC 401. Composition VII. 2 Credit Hours.

Individual compositional projects including all media with an emphasis on advanced problems in composition.

Prerequisite: MTC 302.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MTC 402. Composition VIII. 1 Credit Hour.

Advanced Composition. Continuation of MTC 401.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MTC 403. Advanced Music Editing. 3 Credit Hours.

Project-based practicum course designed to provide students the opportunity to compose, record and reproduce a wide variety of music projects that combine the use of pre-existing as well as new musical elements. Particular emphasis is placed on technical considerations, aesthetic issues, and the commercial viability of the end product.

Prerequisite: MTC 304.

Components: PRA.

Grading: GRD.

Typically Offered: Fall.

MTC 404. Live Performance Musical Direction. 3 Credit Hours.

Project-based practicum course in collaboration with other Performance department, designed to provide students the opportunity to prepare music for a live concert and serve as Musical Director (MD) thereof. Particular emphasis is placed on musical material (repertoire, arrangements, score/parts preparation), rehearsal techniques, and real-time/live performance direction/conducting.

Prerequisite: MTC 403.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MTC 416. Orchestration. 3 Credit Hours.

The uses and possibilities of orchestral instruments as well as scoring for various instrumental groups, including the symphony orchestra.

Prerequisite: MTC 240.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MTC 452. Media Production Project Lab. 2 Credit Hours.

Laboratory component to MTC 404. Course can only be taken concurrently with MTC 404.

Components: LAB.

Grading: GRD.

Typically Offered: Spring.

MTC 493. Special Projects In Music Theory & Composition. 1-3 Credit Hours.

Advanced individual instruction pertaining to faculty member's area of expertise and student's area of interest. This course includes a culminating project.

Requisites: Undergrad Music Students Only and Dean's Approval and Signature.

Components: LAB.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MTC 499. Senior Recital. 1 Credit Hour.

A public recital of original compositions required of all Music Composition majors.

Components: PRA.

Grading: GRD.

Typically Offered: Fall & Spring.

MTC 501. The Aesthetics Of Music. 3 Credit Hours.

Survey of thought and discourse about the nature, roles, values, experiences, and meanings of music. Variety of perspectives, including those of the listener, performer, and composer are addressed. Application to musical interpretation and criticism is included.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MTC 505. Analysis And History Of Electroacoustic And Acousmatic Music. 2 Credit Hours.

Course examines electroacoustic and acousmatic music from both a historical/literature and analytical perspective. Analytical techniques with a focus on an ecological analysis approach will be conducted as well as a survey of electroacoustic, acousmatic, and digital music.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MTC 506. DIGITAL EDITING AND SEQUENCING. 3 Credit Hours.

Computers as control devices for music synthesis and digital manipulation of pre-recorded sounds. Topics include interfacing sequencing software with software synthesizers, performance techniques, and sound design using samples.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MTC 507. Studio Licensing. 2 Credit Hours.

Licensing for access to Digital Arts and Media Writing Studios. Topics covered include digital audio recording and editing, sound synthesis/design, audio signal processing, sound analysis and spatial placement of sound. Course includes studio-use qualifying exams.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

MTC 511. Film Scoring I. 3 Credit Hours.

Seminar in the aesthetics and psychology of mood music, sound-film synchronization, timing techniques, and scoring procedures. Analysis and performance of student projects is included.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MTC 512. Film Scoring II. 3 Credit Hours.

Adaptation of previous semester's techniques to television scripts and performed music. Pre-recording, direct recording, and dubbing procedures are included as well as preparation and performance of complete film cues. Each student is required to conduct his/her project.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MTC 515. Choral Arranging. 3 Credit Hours.

Arranging for choir and vocal groups with and without instrumental accompaniment in all styles.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MTC 516. Advanced Orchestration. 3 Credit Hours.

Scoring for the symphonic orchestra with an emphasis on recent techniques.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MTC 517. Analysis Of Popular Music Since 1950. 3 Credit Hours.

Course examines popular music in the second half of the Twentieth Century from a music analytical perspective. Critical skills needed for this analysis are identified and developed. Analytical techniques for understanding the determination and utilization of musical elements and structures in contemporary popular music are applied. Various contemporary genres and some precursors are examined and particular stylistic determinants of their compositional and performance models are discussed.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MTC 518. Advanced Counterpoint. 3 Credit Hours.

Three-voice fugal writing in Bach's style, followed by compositional projects in a variety of twentieth-century contrapuntal styles.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MTC 521. Multimedia For Musicians. 3 Credit Hours.

Presents an overview and introduction to the creation of multimedia projects for presentation on the Web. Focus is placed on building websites, and the creation of multimedia content for online delivery. Software tools for the manipulation of digital media, including audio and video, are utilized in the realization of course projects.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MTC 567. Electronic and Computer Music Seminar. 1-3 Credit Hours.

Advanced techniques and applications in electronic and computer music. Topics may include electronic projects in composition, performance, research, programming, or other as approved by instructor.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

MTC 593. SPECIAL PROJECTS IN MUSIC THEORY OR COMPOSITION.**1-3 Credit Hours.**

Supervised topics and other activities in specific areas of Music Theory-Composition.

Components: SEM.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MTC 594. SPECIAL TOPICS IN MUSIC THEORY OR COMPOSITION. 1-3**Credit Hours.**

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MTC 601. The Aesthetics Of Music. 3 Credit Hours.

Survey of thought and discourse about the nature, roles, values, experiences, and meanings of music. Variety of perspectives, including those of the listener, performer, and composer are addressed. Application to musical interpretation and criticism is included.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MTC 605. Analysis And History Of Electroacoustic And Acousmatic Music. 2 Credit Hours.

Course examines electroacoustic and acousmatic music from both a historical/literature and analytical perspective. Analytical techniques with a focus on an ecological analysis approach will be conducted as well as a survey of electroacoustic, acousmatic, and digital music.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MTC 606. DIGITAL EDITING AND SEQUENCING. 2 Credit Hours.

Computers as control devices for music synthesis and digital manipulation of pre-recorded sounds. Topics include interfacing sequencing software with software synthesizers, performance techniques, and sound design using samples.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MTC 607. Studio Licensing. 2 Credit Hours.

Licensing for access to Digital Arts and Media Writing Studios. Topics covered include digital audio recording and editing, sound synthesis/design, audio signal processing, sound analysis and spatial placement of sound. Course includes studio-use qualifying exams.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

MTC 611. Film Scoring I. 3 Credit Hours.

Seminar in the aesthetics and psychology of mood music, sound-film synchronization, timing techniques, and scoring procedures. Analysis and performance of student projects is included.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MTC 612. Film Scoring II. 3 Credit Hours.

Adaptation of previous semester's techniques to television scripts and performed music. Pre-recording, direct recording, and dubbing procedures are included as well as preparation and performance of complete film cues. Each student is required to conduct his/her project.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MTC 615. Choral Arranging. 3 Credit Hours.

Arranging for choir and vocal groups with and without instrumental accompaniment in all styles.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MTC 616. Advanced Orchestration. 3 Credit Hours.

Scoring for the symphonic orchestra with an emphasis on recent techniques.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MTC 617. Analysis Of Popular Music Since 1950. 3 Credit Hours.

Course examines popular music in the second half of the Twentieth Century from a music analytical perspective. Critical skills needed for this analysis are identified and developed. Analytical techniques for understanding the determination and utilization of musical elements and structures in contemporary popular music are applied. Various contemporary genres and some precursors are examined and particular stylistic determinants of their compositional and performance models are discussed.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MTC 618. Advanced Counterpoint. 3 Credit Hours.

Three-voice fugal writing in Bach's style, followed by compositional projects in a variety of twentieth-century contrapuntal style

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MTC 621. Multimedia For Musicians. 3 Credit Hours.

Presents an overview and introduction to the creation of multimedia projects for presentation on the Web. Focus is placed on building websites, and the creation of multimedia content for online delivery. Software tools for the manipulation of digital media, including audio and video, are utilized in the realization of course projects.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MTC 667. Electronic and Computer Music Seminar. 1-3 Credit Hours.

Advanced techniques and applications in electronic and computer music. Topics may include electronic projects in composition, performance, research, programming, or other as approved by instructor

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

MTC 693. SPECIAL PROJECTS IN MUSIC THEORY OR COMPOSITION. 1-3 Credit Hours.

Supervised topics and other activities in specific areas of Music Theory-Composition

Components: SEM.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MTC 694. SPECIAL TOPICS IN MUSIC THEORY OR COMPOSITION. 1-3 Credit Hours.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MTC 705. Digital Art And Sound Design. 2 Credit Hours.

Software-based techniques of sound synthesis. Topics will include synthesis using Ircam Tools, Max/Msp, Jitter, Csound, and PureData. Prerequisite: MTC 507.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MTC 711. Theory Pedagogy. 3 Credit Hours.

Seminar in methods and materials pertinent to the teaching of theory in high school and college.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MTC 712. Advanced Comprehensive Theory. 3 Credit Hours.

Melodic, harmonic, and contrapuntal devices as revealed through analysis and applied in composition.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MTC 713. Twentieth Century Idioms. 3 Credit Hours.

Relevant modes of perception, influences, and technical devices in 20th century music.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MTC 715. Composition Seminar I. 2 Credit Hours.

Creative work in composition requiring a multi-movement work scored for full orchestra, symphonic band, or chorus with orchestra or band.

Components: LSN.

Grading: GRD.

Typically Offered: Fall.

MTC 716. Composition Seminar II. 2 Credit Hours.

Continuation of MTC 615.

Prerequisite: MTC 615.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MTC 717. Analytical Techniques. 3 Credit Hours.

Examination and practice of various techniques used in the analysis of music.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MTC 719. Introduction to Schenkerian Analysis. 3 Credit Hours.

A first course in the theory and analytical practice of Heinrich Schenker. Students will learn the principles and techniques of Schenkerian analysis and will apply them to the study of works in smaller sectional forms.

Prerequisite: MTC 617.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MTC 730. Introduction To Spectralism. 3 Credit Hours.

To give the student a further understanding of the art and techniques of spectral composition, through listening, research, analysis and composition (optional).

Requisite: Must be in the School of Graduate Music.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MTC 746. Studio Production. 2 Credit Hours.

Recording studio production procedures. Topics include artist and material selection, session planning, and analysis of the producer's role. Course may be repeated for credit.

Components: LAB.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MTC 748. Electronic Music Ensemble. 1 Credit Hour.

Components: ENS.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MTC 752. Research Seminar II. 2 Credit Hours.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MTC 763. Virtual Orchestration. 3 Credit Hours.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MTC 767. Advanced Electronic and Computer Music Seminar. 1-3 Credit Hours.

Advanced techniques and applications in electronic and computer music. Topics may include electronic projects in composition, performance, research, programming, or other as approved by instructor.

Prerequisites: MTC 505, MTC 506, MTC 507.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

MTC 782. Composition Workshop. 1 Credit Hour.

Variety of composition concepts and problems are dealt with through assignments and projects with special emphasis on practical considerations.

Components: LAB.

Grading: GRD.

Typically Offered: Fall & Spring.

MTC 793. Special Projects In Music Theory Or Composition. 1-3 Credit Hours.

Projects in any phase of theory-composition in which the student is interested and qualified to work.

Requisites: Graduate Music Students Only and Dean's Approval and Signature.

Components: SEM.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MTC 794. Special Topics In Music Theory Or Composition. 1-3 Credit Hours.

Projects in any phase of theory-composition in which the student is interested and qualified to work.

Requisites: Graduate Music Students Only and Dean's Approval and Signature.

Components: SEM.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MTC 796. Studio Production Ensemble. 1 Credit Hour.

Components: LAB.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

MTC 797. Studio Rhythm Section. 1 Credit Hour.

Components: ENS.

Grading: GRD.

Typically Offered: Fall & Spring.

MTC 799. The Other Music Ensemble. 1 Credit Hour.

An in-depth study and performance of 20th century music.

Components: ENS.

Grading: GRD.

Typically Offered: Fall & Spring.

MTC 810. Master's Thesis. 1-6 Credit Hours.

The student working on his/her master's thesis enrolls for credit, in most departments not to exceed six, as determined by his/her advisor. Credit is not awarded until the thesis has been accepted.

Components: THI.

Grading: SUS.

Typically Offered: Fall, Spring, & Summer.

MTC 813. Master's Media Writing Project. 1-3 Credit Hours.

The student working on his/her master's media writing project enrolls for credit as determined by his/her advisor. Credit is not awarded until the project paper is accepted.

Components: THI.

Grading: SUS.

Typically Offered: Fall, Spring, & Summer.

MTC 820. Research in Residence. 1 Credit Hour.

Used to establish research in residence for the thesis for the master's degree after the student has enrolled for the permissible cumulative total in MTC 710 (usually six credits). Credit not granted. May be regarded as full time residence.

Components: THI.

Grading: SUS.

Typically Offered: Fall, Spring, & Summer.

MTC 831. Doctoral Essay. 1-12 Credit Hours.

Required of all candidates for the D.M.A. The student will enroll for credit as determined by his/her advisor, but not for less than a total of 12. Not more than 12 hours of MTC 731 may be taken in a regular semester, nor more than six in a summer session.

Components: THI.

Grading: SUS.

Typically Offered: Fall, Spring, & Summer.

MTC 850. Research in Residence. 1 Credit Hour.

Used to establish research in residence for the Ph.D. and D.M.A., after the student has been enrolled for the permissible cumulative total in appropriate doctoral research. Credit not granted. May be regarded as full-time residence as determined by the Dean of the Graduate School.

Components: THI.

Grading: SUS.

Typically Offered: Fall, Spring, & Summer.

University Internship (UMI)

UMI 105. University Internship Part-time. 1.00 Credit Hour.

A part-time 1 credit internship (minimum of 160 hours) designed to provide opportunities for career exploration, skill development, and exposure to career field. Completion of at least one semester of coursework at UM is required.

Components: SEM.

Grading: CNC.

Typically Offered: Fall, Spring, & Summer.

UMI 110. University Internship Full-time. 1.00 Credit Hour.

A full-time 1 credit internship (minimum of 320 hours) designed to provide opportunities for career exploration, skill development, and exposure to career field. Completion of at least one semester of coursework at UM is required.

Components: LEC.

Grading: CNC.

Typically Offered: Fall, Spring, & Summer.

UMI 205. University Internship Part-time. 1.00 Credit Hour.

A part-time 1 credit internship (minimum of 160 hours) designed to provide opportunities for career exploration, skill development, and exposure to career field. Completion of at least one semester of coursework at UM is required.

Components: SEM.

Grading: CNC.

Typically Offered: Fall, Spring, & Summer.

UMI 210. University Internship Full-time. 1.00 Credit Hour.

A full-time 1 credit internship (minimum of 320 hours) designed to provide opportunities for career exploration, skill development, and exposure to career field. Completion of at least one semester of coursework at UM is required.

Components: LEC.

Grading: CNC.

Typically Offered: Fall, Spring, & Summer.

UMI 305. University Internship Part-time. 1.00 Credit Hour.

A part-time 1 credit internship (minimum of 160 hours) designed to provide opportunities for career exploration, skill development, and exposure to career field. Completion of at least one semester of coursework at UM is required.

Components: SEM.

Grading: CNC.

Typically Offered: Fall, Spring, & Summer.

UMI 310. University Internship Full-time. 1.00 Credit Hour.

A full-time 1 credit internship (minimum of 320 hours) designed to provide opportunities for career exploration, skill development, and exposure to career field. Completion of at least one semester of coursework at UM is required.

Components: LEC.

Grading: CNC.

Typically Offered: Fall, Spring, & Summer.

UMI 405. University Internship Part-time. 1.00 Credit Hour.

A part-time 1 credit internship (minimum of 160 hours) designed to provide opportunities for career exploration, skill development, and exposure to career field. Completion of at least one semester of coursework at UM is required.

Components: SEM.

Grading: CNC.

Typically Offered: Fall, Spring, & Summer.

UMI 410. University Internship Full-time. 1.00 Credit Hour.

A full-time 1 credit internship (minimum of 320 hours) designed to provide opportunities for career exploration, skill development, and exposure to career field. Completion of at least one semester of coursework at UM is required.

Components: LEC.

Grading: CNC.

Typically Offered: Fall, Spring, & Summer.

UMI 605. University Of Miami Internship. 1.00 Credit Hour.

A part-time 1 credit internship (minimum of 160 hours) designed to provide opportunities for career exploration, skill development, and exposure to career field. Completion of at least one semester of coursework at UM is required.

Components: SEM.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

UMI 610. University Of Miami Internship. 1.00 Credit Hour.

A full-time 1 credit internship (minimum of 320 hours) designed to provide opportunities for career exploration, skill development, and exposure to career field. Completion of at least one semester of coursework at UM is required.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

University of Miami Experience (UMX)

UMX 100. The University Of Miami Experience. 0 Credit Hours.

The University of Miami Experience (UMX 100) is a graded, comprehensive virtual self-paced course specifically designed to assist first year students, transfer students included, in making a successful transition to the University of Miami. The course creates opportunities for students to learn skills integral to developing connections with students, staff, administrators, and faculty. UMX provides an opportunity for students to utilize UM resources necessary for success in college and beyond. Specifically, students will be exposed to campus leadership opportunities, academic and career planning, university traditions, study abroad opportunities, personal wellness programs, as well as advising and registration through videos, power points, blogs, threaded discussions, and more. These resources and opportunities are only a click away for the students enrolled.

Components: DIL.

Grading: GRD.

Typically Offered: Fall.

Urban Studies (URB)

URB 201. Metropolitan Miami. 3 Credit Hours.

This course provides interdisciplinary perspectives on the urbanization of South Florida and on Miami's urban milieu. The course uses the case of Metropolitan Miami to introduce and illustrate a range of basic concepts in urban studies.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

URB 301. Cities in Time and Space. 3 Credit Hours.

This course provides interdisciplinary perspectives on the city, urbanity, and urbanization through a series of wide-ranging historical-geographical contexts.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

Vocal Performance (MVP)

MVP 101. Voice Class for Voice Principals. 1-2 Credit Hours.

Class instruction for beginning voice principals. Fundamentals of singing, breath control, and tone production are taught. Appropriate solo repertoire is assigned.

Requisite: Frost School of Music.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MVP 144. Vocal Techniques for Non-Majors. 1 Credit Hour.

Class instruction in fundamentals of singing, breath control, tone production, diction, and solo singing for non-music majors. Basic music reading skills are taught.

Components: LAB.

Grading: GRD.

Typically Offered: Fall & Spring.

MVP 147. Men's Chorale. 1 Credit Hour.

This ensemble is open to the entire university community. Students will work on all aspects of choral singing, including skills in basic musicianship. This ensemble presents two or three concerts per semester.

Components: ENS.

Grading: GRD.

Typically Offered: Fall & Spring.

MVP 148. Women's Chorale. 1 Credit Hour.

This ensemble is open to the entire university community. Students will work on all aspects of choral singing, including skills in basic musicianship. This ensemble presents two or three concerts per semester.

Components: ENS.

Grading: GRD.

Typically Offered: Fall & Spring.

MVP 167. Music Theatre Workshop. 1 Credit Hour.

Participation in a fully-staged production or supervised classwork and projects which integrate the skills of the musical theatre singer/actor.

Components: ENS.

Grading: GRD.

Typically Offered: Fall & Spring.

MVP 180. Symphonic Choir. 1 Credit Hour.

Study and performance of choral literature appropriate for large choir, including choral orchestral masterworks.

Components: ENS.

Grading: GRD.

Typically Offered: Fall & Spring.

MVP 181. Choral Conducting I. 2 Credit Hours.

This course provides practical procedures and materials for beginning conducting students. Students demonstrate basic conducting patterns, preparations, and releases in all meters.

Requisite: Frost School of Music.

Components: LAB.

Grading: GRD.

Typically Offered: Fall.

MVP 182. Choral Conducting II. 2 Credit Hours.

This course provides practical procedures and materials for advanced conducting students. Students demonstrate refined skills in conducting musical styles and independence of gesture. A strong emphasis is placed on conducting of mixed meters.

Requisite: Frost School of Music.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MVP 184. Chamber Singers. 1 Credit Hour.

An ensemble of eighteen to twenty undergraduate and graduate students, the ensemble performs challenging chamber choir repertoire from the Renaissance through the Twentieth Century.

Components: ENS.

Grading: GRD.

Typically Offered: Fall & Spring.

MVP 185. UM Chorale. 1 Credit Hour.

This ensemble performs significant choral literature with an emphasis on music of the Twentieth-Century and on choral/orchestral works including opera. Open to all qualified undergraduate students, regardless of major.

Components: ENS.

Grading: GRD.

Typically Offered: Fall & Spring.

MVP 188. Opera Theater I. 1 Credit Hour.

Typically taken in the first semester of freshman year by vocal performance majors. Basic stage techniques will be studied and mastered. The learning process repertoire, basic acting and performance techniques will be addressed. Methods of communication of text and emotion will be studied and applied. Emphasis will be on solo repertoire with possible participation in fall opera production.

Requisite: Frost School of Music.

Components: ENS.

Grading: GRD.

Typically Offered: Fall.

MVP 189. Opera Theater II. 1 Credit Hour.

Typically taken in the second semester of the first year by vocal performance majors. Further research, development and application of stage deportment, character development, acting skills, communication of emotion and text. Repertoire will include solo songs, arias and small ensembles and possible participation in spring opera production.

Requisite: Frost School of Music.

Components: ENS.

Grading: GRD.

Typically Offered: Spring.

MVP 196. Singing for the Stage I-A. 1 Credit Hour.

The selection, learning process, and performance of Musical Theatre Songs with emphasis on tone production and style.

Requisite: Frost School of Music.

Components: LAB.

Grading: GRD.

Typically Offered: Spring.

MVP 197. Singing for the Stage I-B. 1 Credit Hour.

Continuation of MVP 196.

Requisite: Frost School of Music.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MVP 205. Acting for Opera. 2 Credit Hours.

This course is designed to combine acting techniques with singing, dealing specifically with challenges presented to the singing actor and including musical styles and periods, period fashion and props, movement, and stage techniques for recitative, aria and ensemble performance.

Requisite: Frost School of Music.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MVP 206. Acting for Opera - Intermediate. 2 Credit Hours.

Course designed to continue to develop acting and character development skills for operatic performance.

Requisite: Frost School of Music.

Components: LAB.

Grading: GRD.

Typically Offered: Spring.

MVP 250. Lyric Diction For Singers --English And Italian. 2 Credit Hours.

Designed for voice majors and principals, focus on pronunciation skills for singing in English and Italian. International Phonetic alphabet and rules for singers Italian languages will be applied to Art Song, Opera, and Oratorio.

Requisite: Frost School of Music.

Components: LAB.

Grading: GRD.

Typically Offered: Fall.

MVP 252. Lyric Diction For Singers-German And French. 2 Credit Hours.

Designed for voice majors and principals, focus on pronunciation skills for singing in German and French. International Phonetic Alphabet and rules for singers. Italian languages will be applied to Art Song, Opera, and Oratorio.

Requisite: Frost School of Music.

Components: LAB.

Grading: GRD.

Typically Offered: Spring.

MVP 281. Choral Conducting III. 1 Credit Hour.

This course provides a synthesis of the skills demonstrated in Choral Conducting I and II, while developing error detection skills in musical scores.

Requisite: Frost School of Music.

Components: LAB.

Grading: GRD.

Typically Offered: Fall.

MVP 282. Choral Conducting IV. 1 Credit Hour.

This course focuses on quality choral literature for middle school and high school ensembles.

Requisite: Frost School of Music.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MVP 288. Opera Theater III. 1 Credit Hour.

Taken by vocal performance majors in the first semester sophomore year, this course is designed to combine acting techniques with singing, dealing specifically with challenges unique to the singing actor and including musical styles and periods, period fashion and props, movement, and stage technique for recitative, aria and ensemble performances. Movement will be more specific to stage requirements, but include dance steps and period movement.

Requisite: Frost School of Music.

Components: ENS.

Grading: GRD.

Typically Offered: Fall.

MVP 289. Opera Theater IV. 1 Credit Hour.

Typically taken in the 2nd semester, sophomore year by vocal performance majors. Course designed to continue to develop acting and character development skills and apply techniques learned in Opera Theater I, II, and III.

Requisite: Frost School of Music.

Components: ENS.

Grading: GRD.

Typically Offered: Spring.

MVP 294. Singing for Actors. 1 Credit Hour.

The preparation of song literature and audition material for actors (can be repeated for credit).

Requisite: Frost School of Music.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MVP 296. Singing for the Stage II-A. 1 Credit Hour.

Instruction in auditioning methods and materials for American musical theatre.

Requisite: Frost School of Music.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MVP 297. Singing for the Stage II-B. 1 Credit Hour.

Instruction in preparing vocal material for musical scenes drawn from American musical theatre.

Requisite: Frost School of Music.

Components: LAB.

Grading: GRD.

Typically Offered: Fall.

MVP 388. Opera Theater V. 1 Credit Hour.

Typically taken in the first semester, junior year vocal performance majors. Course designed to continue to develop acting and character development skills and apply techniques learned in Opera Theater I, II, III and IV.

Requisite: Frost School of Music.

Components: ENS.

Grading: GRD.

Typically Offered: Fall.

MVP 389. Opera Theater VI. 1 Credit Hour.

Typically taken in the 2nd semester, junior year by vocal performance majors. Course designed to continue to develop acting and character development skills and apply techniques learned in Opera Theater I-V.

Requisite: Frost School of Music.

Components: ENS.

Grading: GRD.

Typically Offered: Fall.

MVP 399. Junior Recital. 1 Credit Hour.

A public recital of one half-hour or more. Course required of all Vocal Performance majors.

Requisite: Frost School of Music.

Components: PRA.

Grading: GRD.

Typically Offered: Fall & Spring.

MVP 415. Auditioning I. 2 Credit Hours.

Students prepare three to five audition pieces, photos, and resumes. Income tax, unions, opportunity, and methods of searching for and obtaining work is included. Course culminates in a seven to ten day trip to New York attending auditions.

Requisite: Frost School of Music.

Components: LAB.

Grading: GRD.

Typically Offered: Fall.

MVP 416. Auditioning II. 2 Credit Hours.

Continuation of MVP 415.

Requisite: Frost School of Music.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MVP 431. Musical Theatre Styles I. 3 Credit Hours.

Course topics include creating a character through song and dialogue, making transition from songs in to and out of scenes, and becoming comfortable and familiar with the style and performance unique to musical theatre.

Requisite: Frost School of Music.

Components: LAB.

Grading: GRD.

Typically Offered: Fall.

MVP 488. Opera Theater VII. 1 Credit Hour.

Typically taken by Vocal Performance majors in the first semester, senior year. Course designed to continue to develop acting and character development skills and apply techniques learned in Opera Theater 1-VI.

Requisite: Frost School of Music.

Components: ENS.

Grading: GRD.

Typically Offered: Fall.

MVP 489. Opera Theater VIII. 1 Credit Hour.

Typically taken by Vocal Performance majors in the 2nd semester, senior year. Course designed to continue to develop acting and character development skills and apply techniques learned in Opera Theater I-VIII.

Requisite: Frost School of Music.

Components: ENS.

Grading: GRD.

Typically Offered: Spring.

MVP 493. Special Projects In Vocal Performance. 1-3 Credit Hours.

Supervised readings and other activities in specific areas of Vocal Performance.

Requisite: Frost School of Music.

Components: SEM.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MVP 494. Special Topics In Vocal Performance. 1-3 Credit Hours.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MVP 499. Senior Recital. 1 Credit Hour.

A public recital of one hour or more. Course is required of all performance majors.

Requisite: Frost School of Music.

Components: PRA.

Grading: GRD.

Typically Offered: Fall & Spring.

MVP 508. Choral Score Study. 2 Credit Hours.

In depth study of selected choral or choral/orchestral works related to literature being performed by university ensembles during the academic year.

Requisite: Frost School of Music.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MVP 538. Vocal Pedagogy. 2-3 Credit Hours.

Course covers methods and concepts in the teaching of singing. Emphasis is placed on psychological, physiological, and acoustical principles involved in voice production with practical application, observing and teaching individual and class voice in a supervised environment.

Requisite: Frost School of Music.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MVP 552. Vocal Performance Preparation. 1 Credit Hour.

Musical preparation of a wide range of assigned vocal literature from all periods for performance in forums, juries, and recitals. Special emphasis is on musical values, styles, translations of texts, diction, pronunciation of Italian, German, French, and English, and memorization.

Requisite: Frost School of Music.

Components: LAB.

Grading: GRD.

Typically Offered: Fall & Spring.

MVP 580. Opera Production. 1 Credit Hour.

Opera production for main stage production, scenes, and other productions. Open only to students that are cast in productions, as determined by audition and faculty decision. Typically taken by vocal performance majors.

Requisite: Frost School of Music.

Components: ENS.

Grading: GRD.

Typically Offered: Fall & Spring.

MVP 588. Voice Performance in Salzburg, Austria. 0 Credit Hours.

Course is conducted at Salzburg College, Austria. Students receive comprehensive and intensive vocal training from University of Miami faculty as well as distinguished guest artists. A class in vocal repertoire is also included.

Requisite: Must be in Salzburg Program.

Components: LEC.

Grading: AUD.

Typically Offered: Summer.

MVP 593. Special Projects In Vocal Performance Or Choral Conducting. 1-3 Credit Hours.

Supervised topics and other activities in specific areas of Vocal Performance.

Requisite: Frost School of Music.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

MVP 594. Special Topics In Vocal Performance Or Choral Conducting. 1-3 Credit Hours.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MVP 608. Choral Score Study. 2 Credit Hours.

In depth study of selected choral or choral/orchestral works related to literature being performed by university ensembles during the academic year.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MVP 638. Vocal Pedagogy. 2-3 Credit Hours.

Course covers methods and concepts in the teaching of singing. Emphasis is placed on psychological, physiological, and acoustical principles involved in voice production with practical application, observing and teaching individual and class voice in a supervised environment.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MVP 652. Vocal Performance Preparation. 1 Credit Hour.

Musical preparation of a wide range of assigned vocal literature from all periods for performance in forums, juries, and recitals. Special emphasis is on musical values, styles, translations of texts, diction, pronunciation of Italian, German, French, and English, and memorization.

Components: LAB.

Grading: GRD.

Typically Offered: Fall & Spring.

MVP 680. Opera Production. 1 Credit Hour.

Opera production for main stage production, scenes, and other productions. Open only to students that are cast in productions, as determined by audition and faculty decision. Typically taken by vocal performance majors.

Components: ENS.

Grading: GRD.

Typically Offered: Fall & Spring.

MVP 688. Voice Performance in Salzburg, Austria. 0 Credit Hours.

Course is conducted at Salzburg College, Austria. Students receive comprehensive and intensive vocal training from University of Miami faculty as well as distinguished guest artists. A class in vocal repertoire is also included.

Components: LEC.

Grading: AUD.

Typically Offered: Summer.

MVP 693. Special Projects In Vocal Performance Or Choral Conducting. 1-3 Credit Hours.

Supervised topics and other activities in specific areas of Vocal Performance.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

MVP 694. Special Topics In Vocal Performance Or Choral Conducting. 1-3 Credit Hours.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MVP 710. Vocal Literature For Teaching: English. 3 Credit Hours.

Study of the historical body of English language vocal repertoire as it relates to voice classification, age, and technical development of a singer.

Requisite: Frost School of Music.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MVP 711. Vocal Literature for Teaching: Italian. 3 Credit Hours.

The student working on his/her recital paper enrolls for credit as determined by his/her advisor. Credit is not awarded until the paper has been accepted.

Requisite: Frost School of Music.

Components: THI.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MVP 712. Vocal Literature for Teaching: German. 3 Credit Hours.

Study of the historical body of German vocal repertoire as it relates to voice classification, age, and technical development of a singer.

Requisite: Frost School of Music.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

MVP 713. Vocal Literature For Teaching: French. 3 Credit Hours.

Study of the historical body of French vocal repertoire as it relates to voice classification, age, and technical development of a singer.

Requisite: Frost School of Music.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MVP 714. Vocal Literature for Teaching: Musical Theater. 1 Credit Hour.

The student enrolls for recital credit during the semester in which he/she presents the Artist Diploma Recital.

Requisite: Frost School of Music.

Components: PRA.

Grading: GRD.

Typically Offered: Fall & Spring.

MVP 730. Studio Teaching Techniques. 1 Credit Hour.

Application of the principles studied in MVP 638. Candidates will be assigned students for applied voice study, under supervision of the instructor.

Requisite: Frost School of Music.

Components: LAB.

Grading: GRD.

Typically Offered: Fall.

MVP 732. Teaching the Singer Actor. 2 Credit Hours.

Exploring teaching techniques for developing the skills of the singer.

Requisite: Frost School of Music.

Components: LAB.

Grading: GRD.

Typically Offered: Spring.

MVP 736. Voice Disorders. 2 Credit Hours.

Assessment and treatment of the human voice. Course promotes an understanding of the terminology, clinical assessment, and therapy protocols used in treating the dysfunctional or damaged voice.

Requisite: Frost School of Music.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

MVP 738. Advanced Vocal Pedagogy. 3 Credit Hours.

Course addresses advanced methods and concepts in the teaching of singing. Emphasis is placed on psychological, physiological, and acoustical principles involved in voice production; historical perspectives; and comparative pedagogical publications. Includes practical application, observation and teaching individual and class voice in a supervised environment.

Requisite: Frost School of Music.

Components: LEC.

Grading: SUS.

Typically Offered: Fall.

MVP 739. Vocal Pedagogy Internship. 1 Credit Hour.

Observation in the field of choice, including, but not limited to studio work, medical setting or speech pathology setting.

Requisite: Frost School of Music.

Components: PRA.

Grading: GRD.

Typically Offered: Fall.

MVP 747. Men's Chorale. 1 Credit Hour.

This ensemble is open to the entire university community. Students will work on all aspects of choral singing, including skills in basic musicianship. This ensemble presents two or three concerts per semester.

Components: ENS.

Grading: GRD.

Typically Offered: Fall & Spring.

MVP 748. Women's Chorale. 1 Credit Hour.

This ensemble is open to the entire university community. Students will work on all aspects of choral singing, including skills in basic musicianship. This ensemble presents two or three concerts per semester.

Components: ENS.

Grading: GRD.

Typically Offered: Fall & Spring.

MVP 752. Lyric Diction For Singing - German And French. 1 Credit Hour.

Class designed for voice majors and principals, with a focus on the development of pronunciation skills for teaching and singing in German. International Phonetic Alphabet is used as a learning tool.

Components: LAB.

Grading: GRD.

Typically Offered: Spring.

MVP 772. Choral Conducting: Major Work Emphasis. 1 Credit Hour.

Course focus is placed on major choral-orchestral works with particular emphasis on two or three major works. In addition, conductors preparation for choral-orchestral works, including instrument transportation, score preparation, musical line, historical context, and score marking. are included.

Requisite: Frost School of Music.

Components: LEC.

Grading: GRD.

MVP 773. Choral Conducting Workshop: Smaller Choral Works. 1 Credit Hour.

Study of smaller choral works by Poulenc, Hindemith, Ravel, Debussy, Brahms, Mendelssohn, Schubert, Schumann, etc., with emphasis on style, interpretation, and gesture.

Requisite: Frost School of Music.

Components: LEC.

Grading: GRD.

MVP 780. Symphonic Choir. 1 Credit Hour.

Study and performance of choral literature appropriate for large choir, including choral orchestral masterworks.

Components: ENS.

Grading: GRD.

Typically Offered: Fall & Spring.

MVP 784. Chamber Singers. 1 Credit Hour.

An ensemble of eighteen to twenty undergraduate and graduate students. The ensemble performs challenging chamber choir repertoire from the Renaissance through the Twentieth Century.

Components: ENS.

Grading: GRD.

Typically Offered: Fall & Spring.

MVP 785. UM Chorale. 1 Credit Hour.

This ensemble performs significant choral literature with an emphasis on music of the Twentieth-Century and on choral/orchestral works including opera. Open to all qualified graduate students, regardless of major.

Components: ENS.

Grading: GRD.

Typically Offered: Fall & Spring.

MVP 788. Opera Theater. 1 Credit Hour.

Taken by Graduate Students in Vocal Performance. The preparation and public performance of staged operatic scenes and operas with supplemental classes in acting skills, stage movement and characterization.

Requisite: Frost School of Music.

Components: ENS.

Grading: GRD.

Typically Offered: Fall & Spring.

MVP 793. Special Projects In Vocal Performance Or Choral Conducting. 1-3 Credit Hours.

Projects in any phase of vocal performance in which the student is interested and qualified to work. Prerequisite: Graduate Music students only. Dean's approval and signature required.

Requisite: Frost School of Music.

Components: THI.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MVP 794. Special Topics In Vocal Performance Or Choral Conducting. 1-3 Credit Hours.

Projects in any phase of vocal performance in which the student is interested and qualified to work.

Requisite: Frost School of Music.

Components: THI.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MVP 8. Voice Forum. 0 Credit Hours.

A weekly informal recital setting and performance class for voice principals and majors with guest artists, master classes, and faculty presentations. Required for all two, three, and four credit applied voice students.

Requisite: Frost School of Music.

Components: FOR.

Grading: GRD.

Typically Offered: Fall & Spring.

MVP 811. Master's Recital Paper. 1-3 Credit Hours.

The student working on his/her recital paper enrolls for credit as determined by his/her advisor. Credit is not awarded until the paper has been accepted.

Requisite: Frost School of Music.

Components: THI.

Grading: SUS.

Typically Offered: Fall, Spring, & Summer.

MVP 812. Master's Recital. 1 Credit Hour.

The student enrolls for recital credit during the semester in which he/she presents the master's recital.

Requisite: Frost School of Music.

Components: THI.

Grading: SUS.

Typically Offered: Fall & Spring.

MVP 814. Artist Diploma Recital. 1 Credit Hour.

The student enrolls for recital credit during the semester in which he/she presents the Artist Diploma Recital.

Requisite: Frost School of Music.

Components: THI.

Grading: SUS.

Typically Offered: Fall & Spring.

MVP 820. Research in Residence. 1 Credit Hour.

Used to establish research in residence for the thesis for the master's degree after the student has enrolled for the permissible cumulative total in MVP 710 (usually six credits). Credit not granted. May be regarded as full time residence.

Requisite: Frost School of Music.

Components: THI.

Grading: SUS.

Typically Offered: Fall, Spring, & Summer.

MVP 831. Doctoral Essay. 1-12 Credit Hours.

Required of all candidates for the D.M.A. The student will enroll for credit as determined by his/her advisor, but not for less than a total of 12. Not more than 12 hours of MVP 731 may be taken in a regular semester, nor more than six in a summer session.

Requisite: Frost School of Music.

Components: THI.

Grading: SUS.

Typically Offered: Fall, Spring, & Summer.

MVP 832. Doctoral Recital. 1-2 Credit Hours.

Required of all candidates for the D.M.A.

Requisite: Frost School of Music.

Components: PRA.

Grading: SUS.

Typically Offered: Fall & Spring.

MVP 850. Research in Residence. 1 Credit Hour.

Used to establish research in residence for the Ph.D. and D.M.A., after the student has been enrolled for the permissible cumulative total in appropriate doctoral research. Credit not granted. May be regarded as full-time residence as determined by the Dean of the Graduate School.

Requisite: Frost School of Music.

Components: THI.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MVP CD6. Conducting. 1-2 Credit Hours.

Requisite: Frost School of Music.

Components: STU.

Grading: GRD.

Typically Offered: Fall & Spring.

MVP CD7. Conducting. 1-2 Credit Hours.

Requisite: Frost School of Music.

Components: STU.

Grading: GRD.

Typically Offered: Fall & Spring.

MVP CDJ. Conducting. 1-4 Credit Hours.

Requisite: Frost School of Music.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MVP CDK. Conducting. 1-4 Credit Hours.

Requisite: Frost School of Music.

Components: LSN.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

MVP CDL. Conducting. 1-4 Credit Hours.

Requisite: Frost School of Music.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MVP CDN. Conducting. 1-4 Credit Hours.

Requisite: Frost School of Music.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MVP CDO. Conducting. 1-4 Credit Hours.

Requisite: Frost School of Music.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MVP CDP. Conducting. 1-4 Credit Hours.

Requisite: Frost School of Music.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MVP CDQ. Conducting. 1-4 Credit Hours.

Requisite: Frost School of Music.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MVP CDR. Conducting. 1-4 Credit Hours.

Requisite: Frost School of Music.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MVP VO1. Voice. 2 Credit Hours.

1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Demonstrate a beginning concept of breath management, legato connection for moderate length phrases, clear articulation and projection of vowels and consonants in English, emotional connection to and communication of text, release of vibrato in sustained singing, and jury repertoire, language, and performance requirements (See Guidelines for Voice Study).

Requisite: Frost School of Music.

Components: STU.

Grading: GRD.

Typically Offered: Fall & Spring.

MVP VO3. Voice. 2 Credit Hours.

1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Demonstrate evidence of upper range extension with fully supported sound and appropriate modification of resonators, ability to self-prepare a song, knowledge of musical styles and historical periods of music, effective communication of song literature, an established warm-up regimen and technical exercises as prescribed by the voice teacher, and jury repertoire, language, and performance requirements (See Guidelines for Voice Study).

Requisite: Frost School of Music.

Components: STU.

Grading: GRD.

Typically Offered: Fall & Spring.

MVP VO5. Voice. 1-4 Credit Hours.

Requisite: Frost School of Music.

Components: STU.

Grading: GRD.

Typically Offered: Fall & Spring.

MVP VO7. Voice. 1-2 Credit Hours.

Private lessons for providing progress towards establishing an efficient and balanced concept of posture, breath management, phonation, resonance with clarity of articulation and workable knowledge of required languages, the ability to sustain a professional sound in the upper register and perform with advanced skills for vocal, physical and emotional communication in voice juries and performances of concert and opera, and the potential for a professional career as a classical singer and/or teacher of music.

Requisite: Frost School of Music.

Components: STU.

Grading: GRD.

Typically Offered: Fall & Spring.

MVP VOB. Voice. 1-2 Credit Hours.

1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Demonstrate a beginning concept of breath management, legato connection for moderate length phrases, clear articulation and projection of vowels and consonants in English, emotional connection to and communication of text, release of vibrato in sustained singing, and jury repertoire, language, and performance requirements (See Guidelines for Voice Study).

Requisite: Frost School of Music.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MVP VOC. Voice. 1-2 Credit Hours.

1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Demonstrate consistent breath support, firmly established legato line, evidence of musical phrasing, consistent vibrato, ability to execute technical exercises evenly throughout the range, and jury repertoire, language, and performing (See Guidelines for Voice Study).

Requisite: Frost School of Music.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MVP VOD. Voice. 1-2 Credit Hours.

1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Demonstrate consistent breath support, firmly established legato line, evidence of musical phrasing, consistent vibrato, ability to execute technical exercises evenly throughout the range, and jury repertoire, language, and performing (See Guidelines for Voice Study).

Requisite: Frost School of Music.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MVP VOF. Voice. 1-2 Credit Hours.

1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Demonstrate evidence of upper range extension with fully supported sound and appropriate modification of resonators, ability to self-prepare a song, knowledge of musical styles and historical periods of music, effective communication of song literature, an established warm-up regimen and technical exercises as prescribed by the voice teacher, and jury repertoire, language, and performance requirements (See Guidelines for Voice Study).

Requisite: Frost School of Music.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MVP VOG. Voice. 1-2 Credit Hours.

1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Demonstrate perfect facility in required lyric languages, ability to evaluate performances critically and coherently, facility with register changes in upper range, polished and artistic performing with accuracy in pitch, rhythm, good posture, breath management, phonation, and resonance in addition to jury repertoire, language, and performance requirements (See Guidelines for Voice Study).

Requisite: Frost School of Music.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MVP VOH. Voice. 1-2 Credit Hours.

1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Demonstrate perfect facility in required lyric languages, ability to evaluate performances critically and coherently, facility with register changes in upper range, polished and artistic performing with accuracy in pitch, rhythm, good posture, breath management, phonation, and resonance in addition to jury repertoire, language, and performance requirements (See Guidelines for Voice Study).

Requisite: Frost School of Music.

Components: LSN.

Grading: GRD.

Typically Offered: Fall & Spring.

MVP VOI. Voice. 1-4 Credit Hours.

Private lessons for providing progress towards establishing an efficient and balanced concept of posture, breath management, phonation, resonance with clarity of articulation in required languages, the ability to sustain a professional sound in the upper register and perform with established skills for vocal, physical and emotional communication in voice juries and performance s of concert and opera, and the potential for a professional career as a classical singer.

Grading: GRD.

Womens and Gender Studies (WGS)

WGS 201. Introduction to Women's and Gender Studies. 3 Credit Hours.

Conceptions of masculinity and femininity; gender relations; gender inequalities; the intersections of gender with other categories of identity such as class, race, sexuality, and stages in the life cycle; and the broad impact of gender on society.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

WGS 202. Introduction to LGBTQ Studies. 3 Credit Hours.

Introduction to the Lesbian, Gay, Bisexual, Transgender and Queer Studies minor. The LGBTQ Studies program is designed to allow students to explore sexuality and sexual minorities from a variety of perspectives. The course will provide students with an introduction to a broad array of LGBTQ issues including visual and performing arts, literature, languages, history, social science, various theories, public policy and the law, families and other types of intimate relationships, crime, popular culture, and LGBTQ identities and communities. It will be a core to the LGBTQ minor. The history of LGBTQ Studies extends to the beginnings of the LGBTQ movements of the last third of the previous century. Today, the field addresses work in a broad range of scholarly disciplines including biological and cultural studies, in literature and anthropology, in the health sciences, history, and the visual arts. It ranges from archival research to the elaboration of queer theory, from the analysis of constitutional law to questions of public health, from the study of popular culture to investigations into the development and social construction of sexual identity. Students are usually only exposed to these studies at the upper division levels of the curriculum in disparate departments. An introductory course will make these upper division courses more accessible and meaningful, as well as serve as the basic core to the minor in LGBTQ studies.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

WGS 210. Popular representations of Queer sexualities. 3 Credit Hours.

Critical analysis of queer subjects in popular culture.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

WGS 220. European Sexualities. 3 Credit Hours.

The history of European sexuality from the Greeks to present day.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

WGS 301. Feminist Inquiries. 3 Credit Hours.

A history of feminist thought, central issues in contemporary feminist theory, the emergence of feminist methodologies across a range of disciplines, and the ways in which feminist inquiry transforms our understanding of key issues across the curriculum. Writing Credit.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

WGS 305. Queer Studies. 3 Credit Hours.

Gay, lesbian, bisexual, transgender, transexual, and queer identities; alternative family structures; queer theory; and current debates over the meaning and validity of sexuality as a way of understanding human sexual desire, emotions and behavior.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Summer.

WGS 315. Gender, Race, and Class. 3 Credit Hours.

Conceptions and intersections of gender, race, and class in historical and contemporary cultures; the impact of these experiences on individuals and society as a whole.

Components: LEC.

Grading: GRD.

Typically Offered: Fall.

WGS 320. Comparative Perspectives on Gender and Sexuality. 3 Credit Hours.

A comparative study of gender identities, gender relations, and sexualities in different cultures and societies. Writing Credit.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

WGS 335. LGBTQ Communities. 3 Credit Hours.

Sociology of Lesbian, Gay, Bisexual Transgendered and Queer communities and identities. The history, methods, theory and concepts of social science research on these topics over the last half century and examines contemporary issues.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

WGS 344. Gender and Politics. 3 Credit Hours.

Compares the roles played by men and women in political systems worldwide; examines public policy outcomes with significant gender-based effects, including policies on sexuality & reproductive health, gender-based violence, work & the family, and access to education.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

WGS 345. Religion and Gender. 3 Credit Hours.

Religious constructions of gender identity within Christianity, with some attention to Judaism and Islam. The second Genesis creation account, which focuses on the figures of Adam and Eve, will be the focal point of our studies. An emphasis will be placed on the manner in which sexism functions within historical and present-day religious thought and practice, as well as alternative understandings of male and female identity.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

WGS 347. Issues In Reproductive Medicine. 3 Credit Hours.

Social, economic, political, legal, religious, philosophical, and psychological aspects of the global reproductive medicine industry and related genetic technologies.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

WGS 348. Mental Illness, Gender, And Psychiatry. 3 Credit Hours.

An investigation of often unquestioned ideas surrounding mental illness, including the definition of mental illness itself, in the context of the burgeoning field of disability studies. The course focusses on giving a voice to those who suffer from mental illness while critiquing the mainstream discourse of mental illness as articulated and managed by mental health professionals. Particular attention is placed on the role of gender in the discourse of mental illness.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

WGS 350. Special Topics in Women's and Gender Studies. 3 Credit Hours.

Content varies by semester.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

WGS 360. Special Topics in Women's and Gender Studies: Arts & Humanities. 3 Credit Hours.

Special topics approaching gender and sexuality from the disciplinary perspectives of the arts and humanities.

Prerequisite: WGS 201 or WGS 202. Or Requisite: 3 Credits in the Arts & Humanities.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

WGS 361. Gender and Language. 3 Credit Hours.

The ways in which language is used in the constitution of gender, from a cross-linguistic and cross-cultural perspective.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

WGS 370. Special Topics in Women's and Gender Studies: People & Society. 3 Credit Hours.

Content varies by semester.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

WGS 405. Gender and Sexuality in Cultural Context. 3 Credit Hours.

How cultural values shape our understanding and experience of gender and sexuality; how those values are produced and policed; and the impact of codes of conduct for gender relations on individuals and society as a whole within a specific cultural milieu. Writing Credit.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

WGS 410. Gender, Sex, and the Law. 3 Credit Hours.

The impact of legal institutions and laws in shaping and regulating gender relations and sexual practices; the evolving relationship between legal codes and social values for women and men. Writing Credit.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

WGS 420. Interpreting Bodies. 3 Credit Hours.

Perceptions, representations, and regulation of the physical body as a gendered and sexual site, as a source of pleasure, as a means of social validation, and as an object of coercion. Writing Credit.

Components: LEC.

Grading: GRD.

Typically Offered: Spring.

WGS 450. Special Topics in Women's and Gender Studies. 3 Credit Hours.

Content varies by semester.

Components: LEC.

Grading: GRD.

Typically Offered: Fall & Spring.

WGS 469. LGBTI Politics. 3 Credit Hours.

The empirical variation in public policies towards issues of concern to lesbian, gay, bisexual, transgender, and intersex citizens. Examines the social scientific literature on social movements to identify the factors which have helped or hindered LGBTI rights activists' efforts to improve the legal status of LGBTI citizens.

Prerequisite: POL 201 or POL 202 or WGS 202 or WGS 301.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

WGS 471. Sex Babies and the State. 3 Credit Hours.

In one of the most profound revolutions of the past century, gender roles have irreversibly changed and equal rights for women and men has become a stated goal in western societies, even if not the reality. This course examines policies on reproduction, work and the family in advanced industrialized countries including Latin American Countries.

Prerequisite: POL 202.

Components: LEC.

Grading: GRD.

Typically Offered: Offered by Announcement Only.

WGS 499. Independent Study. 1-3 Credit Hours.

By arrangement with instructor; content varies.

Components: THI.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

WGS 501. Senior Research Project. 3 Credit Hours.

A student initiated research project with a faculty member of the student's choice and approved by the Program director. Writing Credit.
Requisite: Plan of Women and Gender Studies.

Components: THI.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

WGS 505. Senior Thesis. 3 Credit Hours.

Women's and Gender Studies majors with a cumulative GPA of at least 3.5 in WGS courses and an overall GPA of at least 3.0 may earn departmental honors by completing an honors thesis instead of the senior research project. Candidates for departmental honors are responsible for finding a faculty member who is willing to serve as thesis adviser and then must complete a thesis proposal of approximately 400 words which must be approved by the thesis adviser and then the program director. Most students will take this course twice, for a total of six credits. Writing Credit.

Requisite: Plan of Women and Gender Studies.

Components: THI.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

WGS 590. Women's and Gender Studies Internship. 1-3 Credit Hours.

Internship in a community organization focusing on issues of gender or sexuality. Students arrange the internship and propose an exhibit, project, term paper, or other materials that will be presented for academic credit at the end of the internship to the Director of the Women's and Gender Studies Program and a faculty sponsor for approval prior to beginning the internship. Open only to WGS majors or minors or LGBTQ Studies minors with junior or senior standing.

Components: LEC.

Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

M.M. in Instrumental Conducting	553	M.S.Ed. in Education and Social Change	495
M.M. in Instrumental Performance	553	M.S.Ed. in Exercise Physiology	491
M.M. in Jazz Pedagogy	561	M.S.Ed. in Exercise Physiology - Strength and Conditioning/Fitness Entrepreneurship Track	492
M.M. in Jazz Performance, Instrumental	562	M.S.Ed. in Higher Education Administration - Enrollment Management Concentration	486
M.M. in Jazz Performance, Vocal	562	M.S.Ed. in Higher Education Administration - Institutional Research and Policy Analysis	487
M.M. in Keyboard Performance and Pedagogy	555	M.S.Ed. in Higher Education Administration - Student Life and Development Concentration	488
M.M. in Media Writing and Production	560	M.S.Ed. in Nutrition for Health and Human Performance	492
M.M. in Multiple Woodwinds	553	M.S.Ed. in Reading	496
M.M. in Music Business and Entertainment Industries	559	M.S.Ed. in Research, Measurement and Evaluation	488
M.M. in Music Composition	560	M.S.Ed. in Sport Administration	493
M.M. in Music Education	556		
M.M. in Music Education with Teaching Certification	556		
M.M. in Music Therapy	557		

M.S.Ed. in Sports Medicine - Athletic Training Concentration	493	Mathematics	408
M.S.Ed. in STEM Education	496	Mathematics (MTH)	973
M.S.I.E./M.B.A. Executive Program	512	MD/MBA	422
M.S.P.H. Master of Science in Public Health	546	MD/PHD Program	531
M.U.D. Master of Urban Design Post-Professional Degree	383	Meal Plans	43
Major in Economics	86	Mechanical and Aerospace Engineering	276
Management	174	Mechanical and Aerospace Engineering	514
Management (MGT)	928	Mechanical and Aerospace Engineering (MAE)	980
Management Courses	455	Meteorology and Physical Oceanography	520
Management Science	181	Miami Semester	594
Management Science (MAS)	935	Microbiology and Immunology	109
Management Science Courses	460	Microbiology and Immunology	533
Marine Affairs	288	Microbiology and Immunology (MIC)	987
Marine Affairs and Policy	518	Military Science	112
Marine Affairs and Policy (MAF)	939	Military Science (MSL)	990
Marine and Atmospheric Chemistry	520	Military Studies (MIS)	991
Marine and Atmospheric Chemistry (MAC)	966	Military Withdrawal	19
Marine and Atmospheric Science	284	Minor in Accounting	155
Marine and Atmospheric Science	516	Minor in Advertising	204
Marine Biology and Fisheries	519	Minor in Aerospace Studies	66
Marine Biology and Fisheries (MBF)	947	Minor in Africana Studies	67
Marine Geology and Geophysics	520	Minor in American Studies	68
Marine Geology and Geophysics (MGG)	954	Minor in Anthropology	69
Marine Science	289	Minor in Arabic Studies	117
Marine Science (MSC)	959	Minor in Architectural Engineering	249
Marketing	183	Minor in Architecture	61
Marketing (MKT)	967	Minor in Art and Art History	71
Marketing Courses	463	Minor in Biochemistry and Molecular Biology	75
Master in International Business	424	Minor in Biology	78
Master in Real Estate Development and Urbanism	383	Minor in Broadcast Journalism	200
Master of Accounting	424	Minor in Business Analytics	183
Master of Arts in Economics	429	Minor in Business Law	157
Master of Arts Liberal Studies (MLS)	972	Minor in Business Technology	160
Master of Business Administration (MBA)	421	Minor in Chemistry	80
Master of Professional Accounting (online)	429	Minor in Civil Engineering	250
Master of Science in Business Analytics	429	Minor in Classics	81
Master of Science in Finance	429	Minor in Climate Science and Policy	287
Master of Science in Finance (online)	430	Minor in Climate Science and Policy	289
Master of Science in Management Studies	430	Minor in Communication Studies	197
Master of Science in Taxation	430	Minor in Computer Engineering	265
Master's Degree	372	Minor in Computer Science	84
Mathematics	107	Minor in Creative American Music	336

Minor in Creative Writing	96	Minor in Modern Languages	117
Minor in Criminology	85	Minor in Motion Pictures	194
Minor in Economics	87	Minor in Music Composition	325
Minor in Economics for Business Students	164	Minor in Philosophy	122
Minor in Economics for Non-Business Students	164	Minor in Philosophy - Pre-Law Track	122
Minor in Ecosystem Science and Policy	92	Minor in Philosophy - Pre-Med Track	122
Minor in Education	223	Minor in Physics	125
Minor in Electrical Engineering	265	Minor in Political Science	127
Minor in Electronic Media	200	Minor in Psychology	129
Minor in English	96	Minor in Public Health	359
Minor in Entrepreneurship for Business Students - Health Care Ventures Track	180	Minor in Public Relations	205
Minor in Entrepreneurship for Business Students - High Growth/Technology Ventures Track	180	Minor in Religion and Health Care	131
Minor in Entrepreneurship for Non-Business Students	180	Minor in Religious Studies	131
Minor in Environmental Engineering	250	Minor in Sociology	133
Minor in Exercise Physiology	218	Minor in Sport Administration	218
Minor in Finance	171	Minor in Sports Medicine	219
Minor in French, German, Italian, Portuguese, or Spanish	117	Minor in Strategic Communication	205
Minor in Geography	98	Minor in Studio Music and Jazz Instrumental (Music Majors Only)	331
Minor in Geological Sciences	100	Minor in the George Feldenkreis Program in Judaic Studies	104
Minor in Health Communication	197	Minor in Theatre Arts	139
Minor in Health Communication	359	Minor in Traditional Education	92
Minor in Health Sector Management and Policy	174	Minor in Urban Studies	139
Minor in History	101	Minor in Women's and Gender Studies	141
Minor in Human and Social Development	214	Minors	340
Minor in Industrial Engineering	276	Mission Statement	13
Minor in Interactive Media	194	Modern Languages and Literature (MLL)	991
